

ROGERS TRIES TO START ROW

Opposition Speakers Inter-
rupted by Cat Calls and
Desk Hammering.

CARVELL'S BAND LEADS THE FIGHT

Conservatives Show Another
Bad Case of "Nerves" Early
This Morning.

[Special to The Advertiser.]
Ottawa, March 12.—Messrs.
Lafortune, of Montcalm, and
Lancot, of Laprairie, occupied
the firing line of the Liberals
during this morning's debate on
the navy bill. Shortly after mid-
day, Dr. Clark, of Red Deer, took
the floor, and is still speaking.

Ottawa, March 12.—Hon.
"Bob" Rogers, who, with Hon.
Dr. Reid and Hon. Mr. Kemp,
 essayed to lead the Government
 forces through last night's long
 vigil, was waiting with sincere
 welcome Hon. Frank Cochrane
 and the relay of ministerial re-
 lief which arrived early this
 morning. In future he will
 select some other relay than the
 militant young Liberals led by
 "Fighting Frank" Carvell. As
 on the former occasion when
 these young Liberals were on
 night duty, there was no sleep-
 ing on the Conservative benches.
 Hugh Guthrie, of Wellington;
 John Angus McMillan, of Glen-
 gary; Archie McCoig, of West
 Kent; Duncan Ross, of West
 Middlesex; James Douglas, of
 Stratheona; Alexander Chis-
 holm, of Inverness, and George
 Kye, of Richmond, formed a
 stalwart band of Scotsmen who
 controlled the situation.

Rogers' Ways.
The young men came down to
 the front benches and sat around
 Mr. Carvell, their leader,
 throughout the night, vigor-
 ously applauding their speakers and
 challenging unseemly interrup-
 tions. It was characteristic of
 the Rogers style of campaign
 that, out-pointed by militant
 young Liberalism, the Govern-
 ment members resorted to un-
 seemly exhibitions of what Mr.
 Carvell characterized as hood-
 lumism. Cat calls, groans, the
 blowing of whistles, the slam-
 ming of desks and other efforts
 to drown out the speakers were
 made by the Conservatives. This
 disorder, which the chairman
 was impotent to control, and
 which was frankly encouraged
 by Mr. Rogers, reached its
 height when John Angus Mc-
 Millan, the young man from
 Glengarry, was speaking. "Let
 them go," he declared, when Mr.
 Carvell rose to again appeal for
 a semblance of order. "It's all
 they can do. They must not
 speak. They can only make
 noises. The Canadian people will
 take an early opportunity to put
 them back where they belong."

Bad Case of "Nerves."
A bad case of "nerves" developed
 at the close of Hon. Mr. Oliver's
 speech at half-past four this morning.
 The westerner concluded by the de-
 claration that he would have more to
 say later on. "But," he added, "unless you
 allow me to move that the committee
 rise and report progress, I will now
 take my seat." The words were
 quiet spoken and amid the disorder
 the Conservative members thought he
 had made the motion.
 "Call in the boys," shouted Major
 Sam Sharpe, excitedly; the bells rang,
 and Government supporters aroused
 from slumber began to hurry into the
 chamber. Seeing the situation, no
 Liberal speaker rose to continue the
 debate, and Mr. Bradbury, the Con-
 servative member for Selkirk, took
 the floor. He was greeted by roars of
 Liberal laughter and applause, and
 cries of "At last they found their
 voices."

When the Conservative members
 had all been rushed into the cham-
 ber, the situation dawned upon Hon.
 Mr. Forster. "He didn't make a mo-
 tion; he only threatened to," he called
 back to Mr. Bradbury, who promptly
 sat down again, after a short five-
 minute oration. Whereupon Mr.
 Forster rose to continue the
 debate, amid roars of Liberal laugh-
 ter.

Fighting for Principle.
Dr. Chisholm, of Inverness, followed
 and declared that the Liberal party of
 today was the Liberal party of the
 past, fighting steadfastly for a great
 principle. "And we'll fight till we
 send them to the people," he declared,
 amid Liberal cheering.

Mr. McMillan, of Glengarry, made
 the fighting speech of a young High-
 lander. "If you believe in your policy
 why don't you trust the people," was
 the thrust he gave Hon. Mr. Rogers.
 (Continued on Page Eleven.)

Death Claims Another of the Old Guard

His death by natural causes,
 a tribute to the care with which
 he pursued his duties, another of
 the old guard of Grand Trunk
 engineers has passed away.

Officials from London, Strat-
 ford, Palmerston, Owen Sound
 and many other points in the
 Watford this afternoon attend-
 ing the funeral of Daniel Cam-
 eron, 62 years of age, who for
 many years had been one of the
 company's drivers.

Engineer Cameron was known
 as one of the most competent
 men on the road, and was a
 friend for many years of the
 late Engineer Alfred Crouch,
 who died at Windsor recently.

For years Mr. Cameron was
 chairman of the advisory board
 of the Brotherhood of Locomo-
 tive Engineers, and in that
 capacity won the confidence of
 men and officials. His career
 took him into every part of the
 line in Ontario.

For a time he was stationed on
 the Stratford-Sarnia division,
 but had lately resided in Allan-
 daire, London railwaymen re-
 gretted deeply to hear of his
 death.

ZURICH COULD GIVE FRIEDMAN TURTLES

Hundreds of Fine Specimens
Are To Be Secured in
District.

MANUFACTURE OF SERUM
Owner of Lake Says He Can Supply
an Unlimited Quantity of
Material.

[Special to The Advertiser.]
Zurich, March 12.—If Dr. Friedman's
tuberculosis cure makes good Zurich
will become the centre of a most im-
 portant industry through "Turtle
Lake," a body of water located near
the village. It is understood among
physicians that the Friedman serum,
 with which all patients are treated, is
 prepared from turtles.

In Turtle Lake there is an unlimited
supply of turtles, and their eggs are
 laid in thousands in the nests
 they make around the edges of the
 pond. Often as many as 30 eggs have
 been found here in one nest.

A Peculiar Origin.
The origin of the lake is somewhat
 peculiar. Some years ago Mr. John
 Foster bought the property and start-
 ed a brickyard. He manufactured mil-
 lions of bricks and many of the build-
 ings in Zurich, Hensall, St. Joseph,
 and other surrounding places are made
 of them. In digging for the material
 three distinct strata were found, the
 first being muck, or peat, about five
 feet deep, which was used for fuel,
 the second the brick clay, about seven
 feet through, and a third of magni-
 ficent gravel.

Turtles Moved In.
When the brick-making operations
 ceased the water from the countless
 springs in the big swamps around
 the pond, which was the cavity and it
 seems as if all the turtles in the dis-
 trict have made their headquarters
 there, as Mr. Foster says he can sup-
 ply them in unlimited quantities. In
 the lake also are to be found a num-
 ber of fine fish, which is supposed the
 turtles feed on these. Wild ducks are
 also plentiful in the spring.

POPE MUCH BETTER.
Rome, March 12.—The promise of the
 Pope on his way to recovery from his
 indisposition is very favorable.
 His Holiness this morning expressed
 his desire to resume the celebration of
 the mass on Palm Sunday, March 16.

OBSEQUIES OVERDUE FOR COMMISSIONER HENDERSON WHO PUT CITY ON THE MAP

When the verbose Mr. J. Grant Henderson tried to tell Londoners
 that, to use the vernacular, they were "dead ones," the aforesaid
 burghers took stock and said, "Well! Well! Perhaps it's true, Mr.
 Henderson, but can you prove that you are alive?"

JUST HALF ALIVE.
And although in private life Mr. Henderson may be able to show
 his activity along the lines of securing positions with new industries
 that have been secured for the city of Hamilton, he would have to
 work hard to prove that his name should not figure in the mortuary
 statistics as far as London is concerned. He may be an exceedingly
 live Hamiltonian, unofficially, but as far as official London is con-
 cerned he is "the late Mr. Henderson."

USED TIME TO ADVANTAGE.
It is fair to say Mr. Henderson was live enough to strike out
 and on the time of the city secure a position with a pencil company
 that located in Hamilton.

It is fair to say that Mr. Henderson has been live enough to be
 engaged in the preparation of a serial story while working for the
 city. It may be entitled, "The Confessions of an Industrial Commis-
 sioner," and would make interesting reading.

NO NOT ONE! NO NOT ONE!
But Mr. Henderson has not secured one industry for London.
 He appended to his final report a list of eight industries secured by
 or with the aid of his department, and three of them do not exist.
 For instance, there is no Eckhart Vinegar Company in London; there
 is no Portable Granary Company in operation in London, and there
 is no Wrigley Gum Company here.

THE OTHER INDUSTRIES.
The other industries are the C. N. W. Shoe Company, the Rich-
 ard-Wilcox Company, Carton Company, Rossiter Brush Company, and
 the Dennis Structural Iron Company. If Mr. Henderson had anything
 to do with the securing of any of these industries it is not known to
 those interested in the companies.

And so citizens are asking why Mr. Henderson should not conduct
 a funeral for himself before leaving this fair city. He chose April 1
 to make his departure, and with some poetic justice. He has been
 the biggest joke of the year—a \$2,500 joke.

CITY'S ICE NOT FIT FOR OTHER THAN COOLING

Doctor Amyot, Provincial
Analyst, Warns London
Board of Health.

**NONE AVAILABLE
ON THAMES RIVER**

Abundant Crop Harvested on
Ponds and Coves in
Suburbs.

Dr. Amyot, Provincial analyst, who
visited London a few days ago,
and accompanied by Dr. Hutchinson, med-
ical health officer, inspected the
sources of London's ice supply, has
written the board of health expressing
the opinion that none of the ice should
be used for domestic purposes. The
communication was read at Tuesday's
meeting of the board of health, but
no action was taken in the matter.

No analysis of the water from which
the supplies were obtained was made,
but Dr. Amyot stated that from the
location of the various ponds from
which ice is being cut, he was of the
opinion that it was unfit for other than
cooling purposes. The coves were in-
cluded among these.

The board of health will obtain an
analysis of the water before taking
action.

Great difficulty has been experienced
by the ice men in harvesting a supply
this season. It has been practically
impossible to get a supply from the
Thames, owing to the frequency of
freshets due to the mild weather. One
dealer has been further embarrassed
by the breaking of a dam in the north
branch, making the water too shallow.
A large amount has been harvested
at the coves, and a good supply has
been laid in from several large ponds
in the vicinity of the city.

THINKS DR. FRIEDMAN WAS UNFAIRLY USED

Dr. H. A. Stevenson Says Ger-
man Scientist Should Be
Given Chance.

Dr. H. A. Stevenson, who has left
for Ottawa to witness the experiments
of Dr. Friedman, thinks that the Ger-
man physician was badly used in New
York and should be given every
chance to make any trials he wishes.
"His serum is guaranteed not to do
any harm," Dr. Stevenson said, "and
if it makes good or even only partially
makes good, it will be of untold bene-
fit to thousands of sufferers every-
where. I think the real reason for the
action taken in regard to Dr. Fried-
man in New York was that the big
drug trust was against him, and want-
ed to prevent him getting any show."

SUPERFLUOUS HAND; THUMB ON ITS EAR

Amherst, N. S., March 12.—Maggie
Smeaton, an Acadian woman, recently
gave birth to a child with three hands,
one of them being developed from the
wrist of the other. A thumb was
attached to the ear of the child. The
infant is quite healthy, and an opera-
tion will be performed to rid it of
its superfluous hand and thumb.

GIRL SAYS TWO MEN MADE HER PRISONER

Claims To Have Been Forcibly Taken to Port Stanley
For a Day, After Being Threatened With
Death—Detectives Investigating.

In all probability information will
be laid with the local police this af-
ternoon charging two young men
with compelling a 13-year-old girl to
go to Port Stanley with them, and
there committing an assault upon her.
The crimes were alleged to be com-
mitted on Tuesday, but late this af-
ternoon Chief of Police Williams
denied the rumor that the information
had been laid by the mother of the
girl.

The story as told by the girl is to
the effect that on Tuesday morning
she was sent to a drygoods store on
Dundas street by her mother to make
some purchases, and on her way back
to her home she was spoken to by a
couple of young men, who finally
threatened to "blow her brains out"
if she did not go to Port Stanley, and
keep quiet in connection with the af-
fair.

Left in North London.
The girl was greatly frightened and
went with them, and after spending

the day with the men in Port Stanley
she was brought back to the city and
left in the north end of the city. She
met a policeman and told the story
of the day's happenings to him, and
was taken to the police station where
she was questioned by Chief Williams
and then taken to her home in the
southeastern part of the city. The girl
at first stated that she did not know
the names of the men, but it is under-
stood that she finally agreed to swear
out the information, which could not
be done unless she knew the names
of her assailants.

Tells Story to Police.
The chief stated that a girl had
been found in the north end by a po-
liceman and stated that she had been
lost. She was first taken to the po-
lice station and then to her home.
The chief admitted that the girl claim-
ed she had been to St. Thomas. The
local detectives were advised by the
chief this morning to inquire further
into the story.

BRILLIANT SOCIETY EVENT DISTURBED BY THE POLICE

Mansion in Newly-Annexed
District East of City the
Scene of Dance.

Jakey Butts Could Not Resist
Terpsichorean Inclinations;
"On With the Dance."

"Have a good time tonight, for the
police will get us tomorrow," was the
word passed round at a house at Glen-
wood avenue and Trafalgar streets on
Tuesday evening. The festivities had
hardly got under way when the patrol
arrived, and five negroes, two negro
women, and Jakey Butts, were fined
sums varying from \$2 to \$5 in police
court this morning, after spending the
night in the cells.

Wanted to Dance.
P. C. McCullough was making his
rounds in the newly-annexed district
when he heard a sound of revelry by
night, and, mingling with the disor-
dinary notes of a serious row, proceeding
from the house.

He went to investigate, and found
that the trouble had arisen over the
desire of some of the company to
dance.

On With the Dances.
To dance or not to dance—that was
the question. The fiddler was there
with his fiddle, but the ownership of
the house was warmly disputed until
Jakey Butts said: "On with the dance;
let joy be unconfeined."

He threatened to knock the head off
anybody who interfered with the
musician.

Was Simply Shocking.
One of the ladies was overcome by
the contents of two bottles which were
found in the house, and was thrust
outside so that the noise she was
making would not disturb the peace
and quietness within.

She was hastily dragged inside, how-
ever, when the presence of the officer
was discovered.

The patrol arrived, and chaos reigned
when the officers broke in the door.
Some of the negroes resisted arrest,
and one of them displayed a badly-
damaged lip as a result this morning.

The Lights Went Out.
The table bearing the lamp was up-
set in the melee, and there was some-
thing doing every minute until the
men had all been handcuffed. They
were then loaded into the patrol, and
taken to the station to spend the night.

Many and varied versions of the
affair were offered to the magistrate
this morning, but he arrived at the
conclusion that they were all guilty
of disorderly conduct and imposed
fines accordingly.

Robert and Joseph Owens were fined
\$3 each, Elijah Owens \$2, John Clinton
and Harry Fountain \$3, Hannah Clin-
ton \$2, Rachel Owens \$2, and Jakey
Butts \$5.

LIBERALS MEET THIS EVENING

Tonight at the Liberal Club, at
Queen's and Park avenues, another
of the popular smokers that are
being conducted by the club every
Wednesday evening, will be held.

The prize for progressive eucure
tonight is especially attractive, and
a big turnout is expected. All Lib-
erals are welcome, and the usual
entertainment has been arranged
for.

THE WEATHER.

TOMORROW—SHOWERY BY NIGHT.
Forecasts.
London, March 12.—8 a.m.
Today—Southeast winds; fair and mild.
Thursday—Fair at first, showery by
night.

Temperatures.
The following are the highest and
lowest temperatures during the 24 hours
previous to 8 a.m. today:

Stations. High. Low. Weather.
London 38 28 Clear.
Glasgow 40 29 Cloudy.
Edinburgh 38 28 Cloudy.
Port Arthur 28 18 Cloudy.
Parry Sound 36 24 Cloudy.
Toronto 44 28 Cloudy.
Ottawa 38 18 Cloudy.
Montreal 36 24 Clear.
Quebec 32 16 Cloudy.
Father Point 34 20 Clear.
Minus (—) means below zero.

The barometer is now highest over the
Atlantic States and it is probable that
a disturbance now over the Western
States will move slowly to the Great
Lakes.

The weather continues quite cold in
Manitoba and Saskatchewan, but has
risen in all the other provinces.

PUBLICITY JOBS HELD ON BLUFF AT USEFULNESS

Towns and Cities Wear
Commissioners as Fad-
dish Decorations.

**KEEP JOBS ON LOT
OF USURPED CREDIT**

Very Seldom Do They Really
Effect Advent of New
Industries.

Publicity commissioners are the
fashion at the present time. The towns
and cities of the country are wearing
them as some men wear carnations or
roses. In the western provinces these
couriers of settlement are paid large
salaries to get publicity for their em-
ployers, and they get publicity by
any means that comes to their hands.

Using the Newspapers.
For instance, a London woman re-
cently wrote to Edmonton asking for
a husband, and gave Edmonton more
fame than it had secured in three
months before. It was a human inter-
est story for the newspapers.

But if one could secure the truth
about the "industrial commissioners"
employed by eastern cities it would be
found that most of them were holding
down the softest jobs that were ever
handed out by municipalities.

How Industries Come.
The industries that London has se-
cured and that Hamilton has secured
have not been through the activities of
these commissioners, but usually as a
result of the activity of some business-
man who came upon the opportunity
to secure a branch factory as a result
of his business connections.

London Must Mourn.
London has had two industrial com-
missioners. One of them is leaving the
city at the end of the month, conscious
of the fact that he has put London on
the map. But he did not really secure
an industry for London during the year
he was here, although he no doubt tried
enough.

Wouldn't Take Job.
London's former commissioner, who
is now engaged in newspaper work in
London, and who was regarded as the
most capable man to be secured, would
have no touch the position at \$10,000
a year.

He affirmed that the spread of tu-
berculosis would be prevented by a
method similar in principle to Jen-
ner's vaccination, and that he had al-
ready vaccinated 250 children in sub-
urban surroundings between the areas
of one and three years. The first of
these was 17 months ago, and all are
well today.

Dr. Friedman used his serum on 28
patients in this city this morning.

Dr. Friedman's address, which was
of a highly technical nature, seemed
to impress the large assembly of phy-
sicians.

Referring to Dr. Friedman, Hon.
Adam Beck said in his presidential
address, that full opportunity must be
given him to prove his claims. "If
not successful, he is at least working
along scientific lines," said Mr. Beck.
The Duke of Connaught made no
reference to Dr. Friedman, but de-
clared that Canadians, instead of go-
ing to Maine, California and Florida,
should take advantage of the great
natural parks in the Rockies. He
hoped to see sanatoriums established
at Banff, Glacier and Jasper, B. C.

CITIES MAY USE SURPLUS FROM HYDRO POWER

A new bill introduced at the Ontario
Legislature by Progressive Secretary
Hanna provides that the surplus from
all revenues derived from public util-
ities shall form part of the general
funds of the corporation.

The clause in this effect read:
"The revenues arising from the
supplying of any public utility or
from the property connected with
any public utility works, after
providing for the expenses of the
maintenance of the works or shall,
subject to section 31, form part
of the general funds of the cor-
poration."

Hon. Adam Beck objects to Berlin
City Council taking the surplus derived
from the hydro-electric system. He
claims that the council's request is
against all the principles of the hydro-
electric commission.

Utilities Commission.
The act also provides for the estab-
lishment of a public utilities com-
mission, to control and construct pub-
lic utilities, the commission to consist
of three to five members, including the
mayor and others elected in the same
manner. The members will hold office
for two years, retiring alternate years.

BRIBERY AND INTIMIDATION ALLEGED IN STEPHEN TP.

**Warrants Issued for the Arrest of Grand Bend Hotelkeeper
and His Father—The Case Will Be Heard
at Exeter.**

[Special to The Advertiser.]
Exeter, March 12.—Warrants have
been issued for the arrest of Ezra
Brenner, hotel keeper at Grand Bend,
and his father, Joseph Brenner, on
charges of bribery and intimidation
in connection with the recent local
option vote in Stephen Township.

The hearing will take place here on
Thursday before Magistrate Sanders,
and the prosecutor, it is expected, will
be the Crown Attorney Seager, of God-
erich.

Local temperance people claim to
have the strongest kind of evidence,
and have a large number of state-
ments which will be presented. They
recently took the matter up with the
Deputy Attorney-General, alleging that
gross irregularities had been com-
mitted in connection with the election,
and that the perpetrators were being
allowed to go unpunished.

DR. FRIEDMAN USES SERUM ON 28 AT OTTAWA

The Discoverer of White
Plague Cure Addresses
Convention.

**SAYS VACCINE
IS HARMLESS**

Declares It Will Be Used in the
Same Way as Jenner's Vac-
cine For Smallpox.

[Canadian Press.]
Ottawa, March 12.—Made potable by
the presence of Dr. Friedman, the
celebrated German, who claims to have
discovered a serum for the cure of
tuberculosis, the annual meeting of
the Canadian Association for the Pre-
vention of Tuberculosis opened here
today. Hon. Adam Beck presided, and
among the other guests were H. R. H.
the Duke of Connaught, Hon. Martin
Burrell, and many of the leading phy-
sicians of the Dominion.

Friedman Demonstrates.
Dr. Friedman addressed the con-
vention, and this afternoon conducted
a clinical demonstration at Water
Street Hospital.

In his address he outlined his 22
years of research work to find a
tuberculin that was not toxic and
virulent, a substance that would be
harmless even in large doses. There
has to be found, he said, a live bacil-
lus of natural virulence, and it had
to remain avirulent and atoxic in the
tuberculin as well as non-tubercular
individual. He finally discarded hu-
man tubercle bacilli which had been
rendered avirulent by artificial means,
because the results were too dangerous.

The desired end was attained when he
succeeded in finding a bacillus which
originated from a cold-blooded animal
—the turtle—which bacillus became
avirulent and atoxic after frequent
transplantation.

Inoculated Himself.
"When that condition was reached
I injected it into myself, and into
patients infected with tuberculosis
and healthy children in tubercular
surroundings. I have found the re-
sults invariably harmless," said Dr.
Friedman, amid cheers.

He affirmed that the spread of tu-
berculosis would be prevented by a
method similar in principle to Jen-
ner's vaccination, and that he had al-
ready vaccinated 250 children in sub-
urban surroundings between the areas
of one and three years. The first of
these was 17 months ago, and all are
well today.

Dr. Friedman used his serum on 28
patients in this city this morning.

Dr. Friedman's address, which was
of a highly technical nature, seemed
to impress the large assembly of phy-
sicians.

Referring to Dr. Friedman, Hon.
Adam Beck said in his presidential
address, that full opportunity must be
given him to prove his claims. "If
not successful, he is at least working
along scientific lines," said Mr. Beck.
The Duke of Connaught made no
reference to Dr. Friedman, but de-
clared that Canadians, instead of go-
ing to Maine, California and Florida,
should take advantage of the great
natural parks in the Rockies. He
hoped to see sanatoriums established
at Banff, Glacier and Jasper, B. C.

SAYS CITY JOBS ARE HELD BY RELATIVES

Joseph Lawrence Says Oppoint-
ments Go To Relatives
of Aldermen.

"Nearly 80 per cent of the employees
of the city are related to either the
aldermen or ex-aldermen," said J.
Joseph Lawrence, at the meeting of
the South London Progressive Associa-
tion Tuesday evening. "Immediately
that a candidate is elected he looks
around to see if any of his sons,
daughters, nephews, nieces or uncles
are in need of a position and then he
secures a position for them. In the
future my advice to the electors will
be to find out how many relatives a
candidate has, and then act accord-
ingly."

"Another point that shows how civic
affairs are mismanaged," he continued,
"is the number of old men in the em-
ploy of the city. These men have
been working for the city for years
and have constantly received an in-
crease in salary. Besides this they
have had assistants appointed to do
their work."

TWO ARRESTS FOLLOW DEATH OF CHILD

Winnipeg, March 12.—Victor Pople,
23, and his sister-in-law, Mrs. Eva
Wills, 24, formerly of Rainy River,
were arrested in connection with the
death of the 5-months-old daughter of
Mrs. Wills, whose bruised and frozen
body was found in a deserted boat in
the Red River Sunday.

Minister Is Still Absent; Charges Are Again Postponed

Investigation of Alleged Hochelaga By-Election Crookedness May Come Up in House Thursday—Hon. Mr. Coderre Ill in Montreal Hospital.

Ottawa, March 11.—Hon. Louis Coderre, secretary of state, was again absent today from the House of Commons, and in consequence the charges in connection with the Hochelaga by-election, which Mr. Gauthier was prepared to proceed with yesterday, were further postponed by the Government. Mr. Coderre, it is said, is ill in a Montreal hospital, suffering from a nervous breakdown. It is understood, however, that his illness is not serious and his friends anticipate that he will be able to resume his Parliamentary duties in a day or so.

Mr. Gauthier has notified the Government that he desires to proceed with the charges not later than Thursday next, and that they cannot be indefinitely postponed. Although

ROUGH TIME FOR MILITANTS

Suffragettes Handled Severely by Mob at Nottingham.

FACES SCRATCHED FINERY RUINED

Showers of Rotten Fruit and Vegetables Hurlled at Speakers on the Platforms.

Nottingham, England, March 11.—The militant suffragettes, against whom the people have turned, and who have been having a hard time recently, were tonight driven from a hall by the wildest crowd they have yet encountered. Annie Kenney and a male suffragist named Gray were announced as the principal speakers at the meeting. Police protection for the meeting was asked for beforehand, for while a policeman who defends the people from suffragette violence is a ruffian and coward, he must always be ready to shield the sacred persons of the militant suffragettes.

The Nottingham police accepted this duty and turned out in great force. Admission to the hall was by ticket, but a number of trouble-makers got into the hall early before the ticket takers had arrived. A great crowd surrounded the hall and jeered the ticket-holders as they entered.

Firecrackers Exploded.

The first speaker had hardly begun to speak when a detonator was discharged in the back seats. This caused terrible alarm. The explosion was followed by stamping and hooting and the setting off of firecrackers.

Miss Kenney tried to speak, but was heckled about the burning of two or three railway stations yesterday. She answered that the suffragettes had been compelled to resort to extreme measures, but that Nottingham men ought to be proud of such actions inasmuch as their ancestors had burned Nottingham Castle in order to get the franchise.

The descendants of these historic firebugs were not convinced by this statement and resumed the racket within the hall. Meanwhile the crowd outside raised a tremendous din, and tried to force an entrance to the hall. The police held their

FOUR PERISH IN WESTERN PLANT

Calgary Gas Operators Overcome While Working at Nanton.

WERE REPAIRING LEAK

Another Report Says the Building Was Partly Demolished By an Explosion.

[Canadian Press.]

Calgary, March 12.—Four gas operators, all residents of Calgary, employees of the Western Canada Natural Gas Company, were asphyxiated in the Nanton gas plant yesterday afternoon. The dead are J. Bailey, foreman, who leaves a widow and infant son; Elmer Rankine, the foreman's brother; Thomas Rankine, J. G. Bailey.

The men were sent down to Nanton yesterday to repair a leak in the pipes of the Nanton plant. The plant is situated about half a mile from the town. The men went to work at 3:30.

The nature of the work required was the shutting off of the town's supply of gas. About 5 o'clock George Rogers, of Nanton, was sent out to ascertain how soon the gas could be turned on again. On arriving at the building he called to the foreman, but got no reply. Entering the building he saw what he thought to be a pile of rags. Gas fumes were so strong that he was driven out of the building and went back to town and procured assistance.

With considerable difficulty nooses were passed over the bodies of the men and they were dragged out of the building.

All were dead.

Superintendent Pearson, of the natural gas company, was notified and left for Nanton about 5:30 o'clock in an automobile.

Another story is current to the effect that gas in the building exploded, partly demolishing the structure and killing the four men instantly.

LUCAN

Lucan, March 12.—Messrs. W. R. Lewis, O. E. Webb, M. McFall, D. Spafford, W. Rollings and W. Bradley drove to London Monday night to see the game between Collingwood and London.

A number of Parkhill young men spent a short time in Lucan on their way to London to see the game.

Mr. Oscar McFall has purchased the heavy stable from Alex. McFall and Chas. McLean.

DR. FRIEDMAN TREATS FIFTY AT MONTREAL

Number Inoculated There the Largest Outside the German Capital.

EVERY STAGE OF DISEASE TESTED

Expected to Return in a Few Weeks to See Result of the Demonstration.

Montreal, March 11.—Dr. Friedrich Franz Friedman, the Berlin physician whose treatment for tuberculosis has drawn upon him the eyes of medical scientists and the general public the world over, today demonstrated his method on 56 patients at the Royal Edward Institute, in the presence of a representative gathering of physicians.

The most distinctive feature of the demonstration was the fact that Dr. Friedman treated so large a proportion of the 90 odd cases presented to him by Dr. E. S. Harding and his colleagues of the medical board of the institute. The patients so presented were selected from a list of several hundred who applied personally or through their physicians for treatment, and the medical board in making their selection were guided by a desire to secure cases typical of every class and every stage of the disease, with the exception that cases so advanced as to be hopeless were rejected.

Fifty-Six Treated.

The number treated, 56, is by far the largest ever inoculated in one day or in one city by Dr. Friedman outside of Berlin, only 28 cases in all receiving the virus in the United States.

Dr. Friedman reached Montreal this morning at 3 o'clock, coming direct from New York. He was met at the Bonaventure station by Lieut.-Col. Burland, who extended the invitation which brought the German physician to Montreal, and Professor George Adams, who bore Lieut.-Col. Burland's invitation to New York. After breakfast with Lieut.-Col. Burland, Dr. Friedman accompanied Dr. Adams to the McGill College laboratories, where he prepared the serum which he later used in his treatments.

The Test Cases.

The cases selected represented the three main divisions of tubercular infection—pulmonary, glandular and bone or joint infection, and ranged from the early stages of the disease to well-advanced cases of several years' duration.

The youngest patient treated was a 14-month-old baby girl, the oldest was a man of about 50, and between these extremes both sexes and all ages were represented. Most of the patients were able to walk without assistance and to stand while the treatment was given, but for a few, mostly children, an operating table was found necessary.

In every case an intravenous injection of the serum was made in the patient's arm, while in a number an additional intra-muscular injection was made in the hip. The amount of serum injected was varied by Dr. Friedman to suit the varying conditions of each individual case as indicated by the history cards, but Dr. Friedman did not explain to the professional men present his method of gauging the quantity of serum injected.

One of the most interesting cases presented was that of the 14-month-old girl who had been a sufferer for about two months from tuberculosis of the lungs and of the knee. The vein of the arm was so tiny that Dr. Friedman found it impossible to make the usual intravenous injection, and he performed the young child by inserting the needle in a vein of the neck, while in this case he also made the extra injection in the hip. The little one bore the ordeal well, and Dr. Friedman remarked in a confident tone that his complete recovery might be expected.

May Return in a Month.

No definite arrangements have yet been made for further administration of the treatment, but it is possible that Dr. Friedman will himself return to Montreal in the course of a month or five weeks to again treat these cases, or else send his assistant, Dr. Benjamin, here for that purpose.

Dr. Friedman does not claim that any miraculous effects will manifest themselves immediately in the subjects treated.

Shock Upset The Nerves

This letter from Mrs. Tweedie is interesting, because it shows how nervous trouble develops gradually from such derangements as stomach trouble, until prostration and locomotor ataxia or paralysis render the victim helpless.

It is even more important because it tells how the writer was cured by Dr. Chase's Nerve Food, the greatest of nerve restoratives.

Mrs. T. F. Tweedie, Brighton, Ont., writes: "For years I was troubled with the stomach, and have always been of a nervous temperament. The health of my husband was a great shock to me, and a few months later I was prostrated by nervous trouble. Locomotor ataxia developed later, and I was in a bad condition."

"I took treatment from different doctors, but did not gain until I began the use of Dr. Chase's Nerve Food. When I had used five boxes I was so fully restored that I was like a different person. I am sure that the Nerve Food is a good medicine, and have told many people about the remarkable way in which it has restored my health."

INITIALED LINEN WEDDING
OUTFITS—ORDER NOW.

Second Week of Our Spring Opening

EXPOSITIONS NOW JOINS HANDS WITH EASTER DISPLAYS. WE WOULD SUGGEST THAT IF AT ALL possible you arrange to visit the store while these displays are on, as much of the space now given up to formal displays is required for the actual activities of business. The first week of the month has clearly indicated that this will be the busiest March in our history. And it is worthy of note that this is the most comprehensive fashion show we have ever made. Owing to the early coming of Easter, the entire fashion show is brought forward all at once—the new Dress Goods, Suitings, Silks, Laces and Trimmings, Millinery, Suits, Wraps, Dresses, Etc.

Raincoats for Men, Women, Children

THAT WILL POSITIVELY TURN THE RAIN

The Raincoat of nowadays is not a coat for rainy days only. The materials used are mostly of the nature of the newest coat fabrics, in tweeds and plain cloths, rubberized, and perfectly waterproof, suitable for general spring wear. You may go out in the sunshine and come home in the rain. It will be all the same if you wear one of our rubberized coats. Ideal for spring wear and answer a two-fold purpose.

New Spring Raincoats for Ladies, Misses & Children

School Girls' Coats for \$3.65

A waterproof cape with hood, A splendid garment for school girls. Made of rubberized Paramatta in good shades of navy blue and fawn, sizes for ages 6 to 14 years. Price \$3.65

Misses' Waterproof \$5.00

Made of rubberized cashmere, with auto collar and raglan sleeves; pockets with flaps. Made in good shade of fawn, for ages 14 to 18 years. Price \$5.00

Ladies' Waterproof \$6.50

Made of rubberized cashmere with auto collar and raglan sleeves, side pockets, plain back, opened at side, in splendid shades of reseda, sizes 34 to 42. Price \$6.50

These are but examples of the lower-priced garments which form only a comparatively small portion of our new stock. We have a fine stock of the higher-grade garments. Spring shipment just received, such as the famous English Burberry Coat in the rough tweed effects. A grand coat for general wear, and an ideal coat for motoring. Prices \$22.00 to \$32.00

Second Floor.

SUITINGS AND BEDFORDS,
Black and Colors.
\$1.00 AND \$1.50 YARD.

jects treated, but states that an improvement in the condition of the younger patients should appear in 12 or 14 days, and a few days later in the adult cases.

FINANCIAL COMMERCIAL

LIVE STOCK.

NEW YORK, March 11.—Butter firm, receipts, 9,740 tubs; process, 36c to 27c; factory, current make, 22c to 27c; packing stock, held, 21c to 22c; do current make, No. 2, 21c to 21½c; Cheese Regular, receipts, 2,245 boxes; state, whole milk, held, colored, average, 18½c to 17½c; state, whole milk, daisies, held, best, 17c to 17½c; Wisconsin, whole milk, held, 15½c to 16½c; do fresh, best, 15c to 15½c.

MONTREAL, March 12.—East End market: Receipts—Cattle, about 600; milch cows, 105 calves, 1,000 sheep and lambs, 150; hogs, 1,300. Trade was rather slow, but good cattle were held at higher prices. The supply of good stock was better on the market, none of which could be properly called prime beefs. A few of the best cattle were sold at about 6½c, and from that down to 5c for pretty good animals, the common stock selling at from 2½c to 3c, and the canners at about 3c; milch cows, 25c to 35c each, a few at \$70 to \$75; calves, 2c to 6c; lambs, 7½c to 7½c; spring lambs, 8c; hogs, 10½c to 10½c.

CHICAGO, March 12.—Cattle—Receipts, 11,500; market firm; beefs, \$7 15 to \$9 15; Texas steers, \$5 to \$7; western steers, \$6 00

to \$7 00; stockers and feeders, \$6 to \$8; cows and heifers, \$5 50 to \$8; calves, \$7 to \$11. Hogs—Receipts, 2,000; market strong; light, \$8 70 to \$9; mixed, \$8 50 to \$8 85; heavy, \$8 30 to \$8 55; roughs, \$8 50 to \$8 85; pigs, \$8 50 to \$8 85; bulk, \$8 50 to \$8 85. Sheep—Receipts, 18,000; market strong; natives, \$6 to \$7 10; yearlings, \$7 25 to \$8 25; lambs, natives, \$8 to \$9 10.

EAST BUFFALO, March 12.—Cattle—Receipts, 100 head; steady. Veals—Receipts, 50 head; active and steady. \$5 to \$12 25. Hogs—Receipts, 1,000 head; light were active and 15c to 20c up, heavy sold and steady. \$9 30 to \$9 40; mixed, \$9 40 to \$9 50; roughs, \$9 50 to \$9 60; pigs, \$9 60 to \$9 65; roughs, \$9 65 to \$9 70; stags, \$9 70 to \$9 75; dairies, \$9 75 to \$9 80. Sheep and lambs—Receipts, 2,000 head; active; sheep steady. Lambs 12c higher; lambs, \$9 50 to \$9 60; yearlings, \$9 50 to \$9 55; westerns, \$7 to \$7 25; ewes, \$9 50 to \$9 60; sheep, mixed, \$9 60 to \$9 65. TORONTO, March 12.—There was a very active market at the Union Stockyards this morning, and the class of cattle available was very good. The demand for butcher cattle was particularly active. Prices all round were steady. Receipts at Union Stockyards were 1,447 head: calves, 1,009; hogs, 328 sheep, 150; lambs, 100. Export cattle, choice, \$6 75 to \$7 25; do medium, \$5 50 to \$6 25; do light, \$5 25 to \$5 75; do common, \$4 50 to \$5 25; do poor, \$4 25 to \$4 50; do canners, \$3 25 to \$3 50; do bulls, \$5 to \$5 25; feeding steers, \$5 25 to \$5 50; calves, \$4 to \$4 25; hogs, \$5 25 to \$5 50; do light, \$5 to \$5 50; milgers, \$4 50 to \$5 00; sheep—Ewes, \$9 to \$9 25; bucks and culls, \$4 50 to \$5 50; lambs, \$5 50 to \$9 75. Hogs—Fed and watered, \$9 70 to \$9 80. Calves—\$5 to \$9.

low as \$3 per cwt. Canners sold from \$2 to \$2 50, and cutters from \$2 50 to \$3 60. Good feeders, with from \$2 50 to \$5 60, and feeding bulls from \$2 75 to \$4 25. Stockers were bought for \$4 to \$5 25, and yearlings \$3 to \$4 50. Alkars and springers went from \$40 to \$75, according to quality. Calves, good veal, sold from \$8 to \$9, and perhaps a trifle higher, and down to \$3 50. Light ewes brought \$6 to \$7 25, and heavy ewes from \$5 to \$8. Lambs went at \$8 50 to \$9 75, and bucks and culls from \$4 50 to \$5 50. Fed and watered hogs sold at \$9 50 to \$9 70, and hogs o. b. at \$9 25 to \$9 50.

Some representative transactions were: H. Hunnisset sold 11 butchers' cattle at \$25.

E. Puddy bought 400 hogs at \$9 25 to \$9 30, o. b., 50 cattle, 550 to 1,000 lbs., at \$2 25 to \$5 50.

Swift Canadian Company bought 50 lambs at \$8 25 to \$10; 25 sheep; light ewes ranging \$8 25 to \$7 25; bucks, \$6, culls, \$5 to \$4; 25 calves, \$1 50 to \$9 50; 250 cattle; cattle to choice steers and heifers at \$7 75 to \$25; medium to good, \$5 25 to \$7 75; fair to good, \$5 25 to \$6 15; good choice cows at \$5 to \$5 50; medium to good, \$4 25 to \$5 25; light to good, \$3 25 to \$4 25; do to \$3 50; bulls, \$4 25 to \$5 50.

H. M. Levenoff (Montreal Abattoir Company) bought 280 butchers' choice heavy, at \$9 50 to \$7 20.

Quotations were:

Export cattle, choice, cwt., \$6 75 to \$7 25; do medium, \$5 50 to \$6 25; do light, \$5 25 to \$5 75; do common, \$4 50 to \$5 25; do poor, \$4 25 to \$4 50; do canners, \$3 25 to \$3 50; do bulls, \$5 to \$5 25; feeding steers, \$5 25 to \$5 50; calves, \$4 to \$4 25; hogs, \$5 25 to \$5 50; milgers, \$4 50 to \$5 00; sheep—Ewes, \$9 to \$9 25; bucks and culls, \$4 50 to \$5 50; lambs, \$5 50 to \$9 75. Hogs—Fed and watered, \$9 70 to \$9 80. Calves—\$5 to \$9.

TORONTO, March 11.—The run at the Union Stockyards today totaled 125 cars, with 2,282 cattle, 111 calves, 215 sheep and lambs, 895 hogs and 36 horses. A good strong demand was shown for live stock at the market here, and trading was active, although no material increase in cattle prices was reported. Choice and good butchers were especially well received, and in several instances extra line animals brought higher prices than the market. Choice export cattle were reported selling as high as \$10. Choice fat cows were firm, with prices unchanged, and good butchers' bulls were also wanted. Common grades were a little slow, but with steady prices. The general run of medium butchers' cattle was also steady at last week's closing prices. The supply of hogs was reported quotations. There was a fair demand for light stockers, while other live stock met with no change. Choice export cattle sold from \$7 75 to \$7 25, and choice butchers from \$5 50 to \$7 15. Mediums went from \$5 50 to \$5 75, and commons from \$4 to \$5. Butcher bulls ranged from \$3 to \$5 25, and choice butchers cows from \$4 75 to \$5 50, while common stock went at

Raincoats for Men and Boys

New spring styles are here in high-grade tweed effects and Paramatta Coats. Splendid styles for motoring. Waterproof and dustproof.

LONDON, WEDNESDAY MARCH 12.

ARE CANADIANS INFERIOR?

Canadians worthy of the name will not accept statements from any source, no matter with what parade of authority, that this country is unequal to the tasks of establishing shipyards, building warships and creating a naval service. The Premier talks as though this would be the work of fifty years. He was effectively answered in the House of Commons the other day by Hon. Mr. Pugsley, who told of his recent visit to Quincy, Mass., to inspect one of the greatest shipyards and ship-building plants in the world, that of the Fore River Shipbuilding Company. In 1900 the site of the plant was an open field. The company purchased that year 50 acres of land, and within four months had laid the keel of a protected cruiser. In the following year they contracted to build two battleships, which were launched within two years afterwards. In the past twelve years the company has built five battleships for the United States and one for the Argentine Republic, seventeen submarines, seven destroyers and three cruisers, in addition to a large number of commercial vessels—in all 114 ships. The total cost has been \$2,708,374—not nearly so much as the Angus plant established by the C. P. R. at Montreal, or as the steel works at Sydney, N. S.

Is this feat of Yankee enterprise beyond Canadians? Are Canadians an inferior breed? One set of politicians at Ottawa answers "yes" to these questions. Another set answers "no." The Canadian people should have an opportunity to make their answer at the polls.

TIGHT MONEY.

The business community faces a period of tight money. The condition is world-wide, and due to world-wide causes. In Europe, the greatest factor is the Balkan war. The waste of capital by the belligerent powers has perhaps not been so disturbing as the tension produced in Germany, France, Austria and Russia. For the first time, a Prussian state loan has dismally failed, over 60 per cent. being unsubscribed. This is attributed to the premature disclosure of the Imperial Government's intention to resort to new and drastic taxation, to increase the German army. The Emperor declares in his grandiose way that this must be a year of sacrifice for the German people. An outline of the new budget confirms his words. It proposes a levy upon wealth and savings beyond anything in Lloyd George finance. In France there has been a concurrent outbreak of chauvinism, and the army budget will be swollen heavily. Austria is facing a commercial crisis, through the enormous outlay in calling out the army reserves. China is in the European money market; she is desperately in need of a loan to set her house in order.

The European stringency is reacting sharply on America. Every day sees gold exports from the United States to London. Paris and Berlin, where the banks are trying to keep up their gold reserves, Canadian banks have been withdrawing funds from New York for months. Money grows tighter in this country as in the United States. It will not be an unmitigated evil, as it has put a check on western land speculation which has been running wild. The Monetary Times says it will make Canadian borrowings in London difficult. If so, Canadian municipalities had better postpone undertakings that can wait.

WHAT MIGHT HAVE BEEN.

In July, 1910, the Laurier Government called for tenders for the construction in Canada of four Bristol cruisers and four destroyers. British shipbuilders were notified that in tendering they must undertake to establish shipbuilding plants in this country.

Some of the leading British firms responded. The lowest tender was that of Cammell, Laird & Company, who have built many war vessels for the British Government. They guaranteed to build ten warships for Canada within six years at shipyards which they would establish at St. John, N. B.

All the tenders were taken by Sir Wilfrid Laurier and the Minister of Marine to Great Britain in May, 1911, and submitted to the Admiralty for its advice. But for the dissolution of the Canadian Parliament in July, forced by the Opposition, the tender of Cammell, Laird & Company would have been accepted for shipyards and warships, and that of the Norton-Griffiths Company, another British concern, for great drydocks and harbor works at St. John. The Laurier Government took the view that it would be im-

proper to award these contracts on the eve of an election. The Borden Government returned the \$100,000 deposit of Cammell, Laird & Company, and set back the hands of the clock. But for this desertion of the Canadian naval policy there would be shipyards in Canada where Canadian cruisers would be ready today for launching.

SIR JAMES RETRACTS.

An extraordinary thing has happened. Sir James Whitney has retracted something. It was a new experience; a chastening one, it is to be hoped. It may be the precursor of better manners and milder language. Sir James may be disposed henceforth to reflect before he roars.

Sir James filled his cup of humiliation to the brim. He rose to a "question of high privilege" to accuse Mr. Rowell of improperly appropriating a public document, the annual report of the hydro-electric commission, and keeping it from the printer. This pompous beginning made the end more ludicrous. Sir James fumed and sputtered in characteristic fashion. Mr. Rowell made no attempt to smooth him—quite the contrary. Perhaps he took a half-mischievous pleasure in prodding the angry bear to make him roar the louder. After Sir James had sufficiently exploded, he discovered that a member of the cabinet had given Mr. Rowell permission to keep the report, under the impression that it was a duplicate and that the original was in the printer's hands.

Sir James had made a mean charge, which called for an apology. He offered only a retraction. But even a retraction from that quarter was an unwelcome sign of grace. Sir James is old enough to begin mellowing.

Co-operation, not Contribution.

Dr. Friedman's spectacular methods have produced a harvest of hopes. If he is not sure of his "cure," he has much to answer for.

Two Chinese merchants have been executed for storing opium. The Chinese have an uncivilized way of enforcing a civilized policy.

Mr. Churchill spoke for the Laurier naval policy ten months ago. The Laurier policy stands where it did. Mr. Churchill has shifted his position, but he may shift it again tomorrow.

There is a ludicrous contrast between the cry of Mr. Borden's supporters that the Liberals would be overwhelmed at the polls on the naval issue, and their frantic efforts to prevent the issue going to the polls.

The Prince of Wales will go to Germany next week to study the German tongue. The visit will help to foster the Anglo-German entente toward which the British and German Governments are feeling their way. The German peril is already on the way to limbo to join the French and Russian perils of other days.

"The politics of this country and of Great Britain should be always kept apart—in water-tight compartments," said James Bryce yesterday at Montreal. There is searching wisdom in this dictum of one of the wisest men of the age. It is to be hoped Mr. Bryce pours it into the ears of some British politicians when he goes home.

South Perth Liberals are fortunate in their political material. The former member, Mr. McIntyre, was one of the most accomplished members of the House, and would have been Speaker if the Laurier Government had been retained, and if he had been re-elected, Mr. McIntyre declined renomination, owing to precarious health. The new candidate, Mr. Erb, has already served in the Commons, and his friends believe he will serve again. He is able and popular, and will be pitted against a candidate who had only a small margin of votes to spare in the last election.

RATHER PERSONAL.

[Hamilton Spectator.] Yesterday was Bible day in the churches. How many days in the year is it Bible day in the homes?

FAIR WARNING.

[Puck.] Mistress—"You have excellent letters of recommendation." Belligerent-looking New Cook—"Yes, mum. Not a fat will sit out at anybody's house until it gets van."

BIFF!

[London Sphere.] In a recent debate in the House of Commons the Marquis of Lansdowne referred to the support that a certain measure derived from "lawyers, journalists, and other low-class callings." The Marquis said nothing about tailors, perhaps forgetful that he was descended from Petty, the tailor of Ramsay in Hampshire, whose grand-daughter married the Earl of Kerry, and thus founded the honorable and historic house which we all justly esteem today.

FUTURE TROUBLES.

[Boston Transcript.] Rounder—Funny what ideas come into a fellow's head. This morning, while dressing I was wondering how, in the future life, I could get my shirt on over my wings.

Rounder—Don't let that worry you. What you want to think about is how to get your hat on over your horns.

THE ONE-CENT PAPER GOING.

[New York Post.] Mr. Munsey announces that, beginning with next Monday, the price of his Boston Journal is to be increased from one cent to three. He frankly admits that he has been losing money at the lower rate. His decision is but one of the signs that the journalistic heavens that the one-cent newspaper has been overdone. All the Bridgeport papers recently increased their price from one to two cents. An influential western paper, the Kansas City Star, increased its price 50 per cent on Jan. 1. Not long ago the confident talk was that all newspapers would find themselves forced to go to one cent. But it is the one-cent newspapers that

are being forced to go back to two or three. The hard business facts, the rising cost of production, and the need of living on something besides sensation, have been too much for rash journalistic theories. It is probable that newspaper prices will hereafter be more numerous than those adopting it.

WHAT ALDRICH MISSED.

[Cincinnati Enquirer.] "Do you think that we should have a more elastic currency?" asked the Old Fox. "It is elastic enough," replied the Grouch. "Why don't they make it more adhesive?"

TIME FOR A CHANGE.

[St. Thomas Times.] Either the facilities at Toronto must be greatly increased, or some outlet must be provided by the development of the smaller universities or the establishment of new ones.

A KINDLY PARENT.

[Kansas City Star.] "Dad," said a Bartlesville, Okla., boy to his father the other night, "I want to go to the show." "A show at night is no place for a kid like you. You should be at home in bed." "But I peddled bills and have two tickets," said the boy, as he began to snifle. "All right, then," answered dad, "I will go with you to see that you don't get into trouble."

THE REASON.

[Halifax Chronicle.] Don't let anybody think that Mr. Borden and his crew are making their present unimpaired stand from any patriotic considerations. They are simply trying to hold on to their jobs.

62 PER CENT WILFUL BACHELORS.

[New York Post.] A tax on bachelor maids, as well as bachelors, was advocated before the Massachusetts committee on taxation yesterday by Mrs. Frank W. Page, who described herself as an "old school matron." Women as well as men, she said, enjoy freedom of life, and it is worth \$5 a year to some of them to remain teaching school or working in the stores. Mrs. Page told the committee that 62 per cent of the men in this state that can afford marriage neglect to do so, most of them wilfully.

TERRIBLE.

[Florida Times-Union.] Of all the terrible things that can happen to a woman, the worst undoubtedly is to be forced to drive past a store window full of new Easter millinery when she has a stiff neck.

O TEMPORA! O MORES!

[Montreal Gazette.] Ex-Empress Eugenie is reported to have slipped over from England to Paris the other day, and from behind the curtain of a hotel window to have witnessed the triumphal parade following the inauguration of President Poincaré. Though this must have crowded thoughts in the old empress' brain, when her memory brought back the scenes of an earlier time, it is not imperialists that are cheering today in France. In that republic their case is even more hopeless than when Eugenie left.

JOHN BURNS' RETORT.

[London Daily News and Leader.] John Burns has many qualities and some defects, but as a citizen of London he has no rival. He loves his life, his people and his history. Many of his best sayings have it for their subject, as, for example, when replying to an American who was deriding the English by comparing the rivers with the Thames by comparing the rivers with the Mississippi. "The Mississippi is dirty water," the Thames is liquid history."

THAT CAR.

[Oklahoma Banker.] He owned a handsome touring car. To ride in it was heaven. He ran across a piece of glass—Bill—\$14.57.

He took his friends out for a ride. "Twos good to be alive. The carburettor sprang a leak." Bill—\$40.25.

He started on a little tour. The finest sort of fun. He stopped too quick and stripped his gears. Bill—\$20.61.

He took his wife downtown to shop. "It was great fun. I was great." He jammed into a hitching post. Bill—\$27.8.

He spent his little pile of cash. And then he cried: "I'll put a mortgage on the house. And take just one more ride."

REVIVAL MEETINGS AT FIRST CHURCH

Rev. R. Whiting Speaks on Lydia Paul's First Convert.

The revival meetings in the First Methodist Church have started with indications of success. At last night's meeting three were converted. The pastor, Rev. A. Whiting, spoke last evening on the conversion of Lydia Paul's first convert in Europe, and remarked that the man of Macedonia, who stood by Paul in vision, saying, "Come over to Europe and help us," turned out to be a woman, and not a man, as the great majority of women over men engaged in church work. This conversion took place on a river's bank, outside the city, on a Sabbath day, when a few women were worshipping, and Paul became their preacher. It was Paul's first Sunday in Philippi, and he went to church. The minister remarked that a good many fairly good people broke their church-going habit when they got into a new town. He also said that a good many more people are breaking their church-going habits without taking the trouble to go out of their own town. The once-a-day habit is the main, a sign of spiritual degeneracy, and there are a good many spiritual degenerates. Lydia's heart was opened. The preacher gave his sermon and the women sang their hymns, but God opened the women's heart.

Mr. Ed. Webster is leading the singing at these meetings, and conducting a volunteer choir made up partly of the regular choir, also from the brotherhood Sunday school, and the league. Last night Mr. Webster sang "Where Will You Spend Eternity?"

Dr. A. W. Chase's 25c. CATARRH POWDER is sent direct to the diseased parts by the Improved Flower. Healthful, cleans the air passages, stops droppings in the throat and permanently cures Catarrh and Hay Fever. Loosens the bowels, cures hemorrhoids, substitutes. All dealers or Edman, Bates & Co., Limited, Toronto.

GREAT ORATORS; GLADSTONE'S MERITS AND DEFECTS

[By Special Arrangement With the Winnipeg Telegram.]

John Redmond once referred to Gladstone as the "greatest" of English orators and the last. Certain it is that since the death of England's great commoner, oratory has never reached the level that it did when he and John Bright engaged in high discourse. Every year witnesses a clearer tendency towards short, snappy speeches instead of the long-winded flights of the days of Gladstone. It was customary for Gladstone to speak for at least five hours on a theme; even for this length of time he could hold the attention of a crowded House or of an immense audience in a public hall with the greatest ease. Perhaps an orator of his power could perform the same feat today, but I have my doubts. Every year we grow more restive under diffuse talk, and we desire our contemporaries to speak briefly and to the point.

Not only in making lengthy speeches but in his style, Gladstone belonged to the old-fashioned era. Unlike Bright, he inclined to a Latinized style. He used words of Greek or Latin origin where the simpler Anglo-Saxon would have satisfied Bright. Then he indulged in that bad old Miltonic habit of spinning out his sentences to almost interminable length by the use of parentheses and subordinate clauses. Many of his sentences actually cover a whole page in his printed works. They are hard to read on this account; before you get to the end you almost forget the subject of the sentence. But Gladstone's audiences did not find it difficult to catch his meaning, for it is much easier to follow a diffuse speaker than a prolix writer. No auditor could remain in doubt very long as to Gladstone's meaning, for he rammed every thought home with fiery earnestness and energy. But even in the heat of a terrific passion he remained master of himself. He controlled his voice and his audience. Speaking slowly and with emphasis, he was "a man all but mastered by his excitement, but who at the very point of being mastered mastered himself." Gladstone's oratory was a thing of beauty, and his presence was a thing of beauty. He was a man of great height, with a commanding, erect figure, a large, well-poised head, and ample chest. His eyes were gray and his brows dark and prominent, and his intelligent, expressive countenance, though sometimes severe, generally wore a pleasing expression. But as it is only fifteen years since this great statesman died, it is not necessary to dwell at length on his intellectual characteristics.

Gladstone's speeches are well worth reading. The chief ones are as follows: "The Error of English Colonial Aggrandizement" (1865)—it is astonishing how many English orators have been inspired by colonial questions; "Disestablishment of the Irish Church" (1869); "Domestic and Foreign Affairs" (1879); "Home Rule and Autonomy" (1886); and "The Armenian Massacres" (1896). One of the most famous of all the purple passages in Gladstone's speeches is the oration of his oration in support of the reform bill of 1856, in which he uttered a prophecy of special interest today:

"You cannot fight against the future. Time is on our side. The great social forces which move onwards in their might and majesty, and which the tumult of our debates does not for a moment impede or distract, those great social forces are against you. They are marshalled on our side, and the banner which we now carry in this fight, though perhaps at some moment it may drop over our sinking heads, yet it soon again will float up to the aid of the oppressed, and by the firm hands of the united people of the three kingdoms, perhaps not to an easy but to a certain and not far distant victory."

It is not necessary to dwell at length on his intellectual characteristics.

Crinkley and tempting!

You'll never know how delightful a pie crust can be until you've made some with Rainbow Flour.

It blends deliciously with the filling—proves for all time that a pie crust wasn't designed merely to protect the goody inside.

You'll gladly let them judge your pie by its crust when you begin the use of Rainbow Flour.

Why not tomorrow?

In using Rainbow Flour for pastry, more water (added slowly) is required and less flour.

PROBLEMS OF THE FAIR SEX SOLVED BY CYNTHIA GREY

[Correspondents are requested to make their inquiries as brief as possible, and to write on one side of the paper only. It is impossible to give replies within a stated time, as all letters have to be answered in turn as they are received. No letters can be answered privately.]

Fair Dorothy.

Dear Miss Grey: If it will not bother you too much would you kindly tell me whether the name Dorothy is meant for a dark or fair person? Please oblige. Yours truly, E. D. B.

Ans.—I cannot say I ever gave the name much serious thought, but when I consider it earnestly I believe most of the "Dorothys" of my acquaintance are fair. So therefore it stands that the blondes shall claim the name.

Believes in Fortune Telling.

Dear Miss Grey: Being a constant reader of your many useful answers, and not having written before, hope you won't mind answering a few for me.

1. Do you believe in fortune-telling with cards, as I have had things told me that annoy me?

2. Having a birthday party for one's self should one undo the presents as they are brought and remark how nice they are or wait till they have all arrived and then give thanks to all that are present on the occasion?

3. What do you think of my writing. Hoping I have not been too much bother to you, also hoping to see this soon. I remain, HUCKLEBERRY.

Ans.—1. I am probably rather matter of fact, but I do not believe in fortune-telling of any description.

2. Either way is proper. The first is perhaps the more preferable.

3. Your writing is legible, and you forget to capitalize the first words of your sentences in nearly every case.

Leaving Cards.

Dear Miss Grey: Would you kindly answer the following questions?

How many cards is it necessary for a married lady to leave when calling on a widow or a young lady?

Ans.—In either case, one of her own cards, and one of her husband's should be left.

A St. Patrick's Dance.

Dear Miss Grey: As I find your column very helpful and interesting, and as others get help I thought I might ask a few questions, as I have never written before.

1. Would you tell me a nice way to decorate a room at home for a dance, March 17?

2. What would be nice to serve for lunch?

3. Is there any particular custom for serving lunch? Is it proper to set a table or pass things?

4. What do you think would be nice for a dancing dress and hat to make it? Something not too expensive.

5. Do you think black over pink would become me as I have dark hair and dark eyes, and not very good complexion, as I am dark, and no nose cheeks. Hope to see this in print as soon as possible, and greatly oblige. IDA.

Ans.—1. Pots of shamrock, Irish flags, and garlands made of green Bristol board cut in the shape of shamrock leaves, three inches across, would help make a room very attractive.

2. Potato and lettuce salad, pressed chicken garnished with parsley, brown and white bread and butter, olives, pistachio ice-cream, chocolate cakes (little "three-leafed" cookies) iced with icing.

3. Many young girls prefer to have their names printed upon their mother's cards immediately below the mother's name. In this case the prefix "Miss" is also used.

4. Your penmanship resembles a man's handwriting. It suggests self-reliance, and a practical mind.

5. Thanking you in participation of seeing these answers in your good paper soon. I remain, yours respectfully, LILLY OF THE VALLEY.

Getting New Cards.

My Dear Miss Grey: I have been a reader of "The Advertiser" for years and have been benefited by your column a great deal. Would you please answer the following questions and greatly oblige?

1. I am a girl of eighteen years of age and wish to get cards. Should they be engraved with the prefix "Miss" or without it?

2. What do you think of my writing. Could you read my character from it?

3. I am a girl of eighteen years of age and wish to get cards. Should they be engraved with the prefix "Miss" or without it?

4. Thanking you in participation of seeing these answers in your good paper soon. I remain, yours respectfully, LILLY OF THE VALLEY.

5. Thanking you in participation of seeing these answers in your good paper soon. I remain, yours respectfully, LILLY OF THE VALLEY.

6. Thanking you in participation of seeing these answers in your good paper soon. I remain, yours respectfully, LILLY OF THE VALLEY.

7. Thanking you in participation of seeing these answers in your good paper soon. I remain, yours respectfully, LILLY OF THE VALLEY.

8. Thanking you in participation of seeing these answers in your good paper soon. I remain, yours respectfully, LILLY OF THE VALLEY.

REAL Fashions on REAL People

Mrs. Harold McCormick, the favorite daughter of John D. Rockefeller, and leader of Chicago society, purchased a number of exquisite gowns just before leaving for New York, from whence she will soon sail for Europe.

The one illustrated is of white chiffon embellished in velvet leaves and flowers, in shades of orchid and mauve. It has a long pointed train over white charmeuse sash, giving the much-to-be-desired uncurled line at the hip. A wide collar of white chiffon outlined in rhinestones forms the only trimming on the bodice, the neck of which is cut in a low V front and back. The bust line in front is finished with a single velvet orchid outlined with diamonds.

The peculiar form of the collar and the way in which the tunic is draped in the front carries out the straight lines which Mrs. McCormick always effects, which adds to her height. She rarely wears an evening dress more than twice, and is considered the best-dressed woman in Chicago.

Another expenditure that prevents breakage can be made in the way of liberal tips. The good will of the movers and packers is of more money value to the householder than the amount of the tips. The promise, which, of course, must be honestly fulfilled later, to send a letter of recommendation for the head packer to the company which employs him, if the goods go through in proper condition, also insures attentive work on the part of the men.

When careful packing is assured crating is almost unnecessary, except in the case of fragile articles. A china closet with spindle legs and glass doors might go safely through the moving uncrated, but would be sure to do so if crated.

Books should be packed in medium-sized packing cases. They are so heavy that many of them piled in a large box make a burden almost impossible for even strong men to carry and the books will travel as well and as cheaply in a dozen small boxes as in six larger ones.

Line the inside of the packing cases which are to hold the books with thick layers of newspapers and lay the books in evenly, sorting the sizes so that each box is completely filled. Especially valuable books should be wrapped separately in sheets of newspaper before they are packed. If the bindings are light colored they should be covered with clean wrapping paper.

Making Use of Newspapers.

Newspaper is useful in other ways when moving. Dishes carefully wrapped in newspaper—each cup and saucer placed separately and generously wrapped—and then packed in barrels with newspapers wadded in between the dishes, will stand much jolting and handling.

Chair legs can be protected against scratches if they are wound with newspaper, tied on securely at intervals with stout string. Old pieces of burlap and comforters—blankets and quilts and coverlets—should all be saved for moving day use. They make excellent covering for highly polished table tops, piano cases or any other large polished surface.

No heavy articles should ever be placed in bureau or table drawers on moving day. Light-weight clothing, underwear, thin frocks, petticoats and knitted sweaters or down pillows, anything which will not appreciably add to the weight of the furniture, can be packed in bureau or dressing table drawers, which should then be locked before some shielding piece of cloth or sheet of newspaper is bound over top and front.

How To Make an Inventory.

Every moving householder should take a complete inventory of the articles given into the hands of the movers. It should be distinctly written and arranged, with some idea of classification; for instance, all bedroom furniture should be listed in one place and the dining-room furniture in another, or else all chairs in one place, beds in another, tables in another.

After each piece of furniture should be the name of the room where it is to be put in the new house. Some members of the family should be on hand at the door of the new place with the

inventory to check off each article brought in by the movers. This task can be simplified if big paper letters or numbers are pasted on the doors of the rooms of the new house corresponding with numbers of letters written after the names of the different articles listed in the inventory. It reads, for instance, "Chiniz covered chair, pink and tan." The second-story front bedroom is lettered "B" and the chair reaches its ultimate destination without loss of time or temper.

Helps For Moving-Day

Good packing always pays for itself twice over in breakage saved when furniture must go a long way. Hire a special packer at the moving van office and pay his price cheerfully. It is his duty to be in the car when the furniture is brought there, and so to place each piece that breakage is practically impossible.

Another expenditure that prevents breakage can be made in the way of liberal tips. The good will of the movers and packers is of more money value to the householder than the amount of the tips. The promise, which, of course, must be honestly fulfilled later, to send a letter of recommendation for the head packer to the company which employs him, if the goods go through in proper condition, also insures attentive work on the part of the men.

When careful packing is assured crating is almost unnecessary, except in the case of fragile articles. A china closet with spindle legs and glass doors might go safely through the moving uncrated, but would be sure to do so if crated.

Books should be packed in medium-sized packing cases. They are so heavy that many of them piled in a large box make a burden almost impossible for even strong men to carry and the books will travel as well and as cheaply in a dozen small boxes as in six larger ones.

Line the inside of the packing cases which are to hold the books with thick layers of newspapers and lay the books in evenly, sorting the sizes so that each box is completely filled. Especially valuable books should be wrapped separately in sheets of newspaper before they are packed. If the bindings are light colored they should be covered with clean wrapping paper.

Making Use of Newspapers.

Newspaper is useful in other ways when moving. Dishes carefully wrapped in newspaper—each cup and saucer placed separately and generously wrapped—and then packed in barrels with newspapers wadded in between the dishes, will stand much jolting and handling.

Chair legs can be protected against scratches if they are wound with newspaper, tied on securely at intervals with stout string. Old pieces of burlap and comforters—blankets and quilts and coverlets—should all be saved for moving day use. They make excellent covering for highly polished table tops, piano cases or any other large polished surface.

No heavy articles should ever be placed in bureau or table drawers on moving day. Light-weight clothing, underwear, thin frocks, petticoats and knitted sweaters or down pillows, anything which will not appreciably add to the weight of the furniture, can be packed in bureau or dressing table drawers, which should then be locked before some shielding piece of cloth or sheet of newspaper is bound over top and front.

How To Make an Inventory.

Every moving householder should take a complete inventory of the articles given into the hands of the movers. It should be distinctly written and arranged, with some idea of classification; for instance, all bedroom furniture should be listed in one place and the dining-room furniture in another, or else all chairs in one place, beds in another, tables in another.

After each piece of furniture should be the name of the room where it is to be put in the new house. Some members of the family should be on hand at the door of the new place with the

SIX

DRINKING CUPS TO BE ABOLISHED SOON

St. Marys Collegiate Principal Recommends More Sanitary Arrangement.

[Special to The Advertiser.]

St. Marys, March 12.—The Collegiate Institute board held a brief session last evening. The secretary presented a number of communications. The finance report was presented as follows: Willard & Atkinson, account \$14.96; J. T. Simms, repairs to furnace, \$17.75; Kappeler & Lancaster, auditors, \$5; National Typewriter Company, \$22.50; O'Brien Bros., \$145.50; total, \$206.75.

The principal suggested to the board doing away with the present drinking cup as being insanitary. The matter was left with the board to investigate and report.

Trustees were instructed to correspond with other Collegiate Institutes regarding county grants and rates. The principal drew the attention of the board to the fact that the Ontario Government health exhibit car will be here on Wednesday, March 19, at 11:11 a.m., and remain until March 20. On Wednesday evening, March 19, in the town hall the school children will be given a treat to a moving picture exhibit of health models and health matters. The exhibits in car and also in town hall are free to the public.

Great opposition is cropping up against the town council submitting a bylaw for the selling of or diverting of a portion of Water street, which at present runs through the Thames Quarry.

NOTED ANARCHIST CAUGHT AT PARIS

Europe's Worst Murderer Close to a Lynching and Will Be Guillotined.

Paris, March 12.—Lacombe, called "Dog Nose," an international anarchist and murderer, recognized as the most desperate and brutal criminal in Europe, was arrested here late today in a desperate fight with four police-agents in La Villette section, in the suburbs. He was attending a street fair when recognized by two plainclothesmen. As they grabbed him he made frantic efforts to escape. Two uniformed policemen ran up in time to prevent Lacombe getting two revolvers out of his pocket and emptying them into the great crowd watching the encounter. A bomb and 18 cartridges were also found in his pockets. The man was rushed to the nearest police station to prevent his being lynched by the excited people, long inflamed by the horror of his many crimes.

Will Be Guillotined. Lacombe will be guillotined, as he has already been convicted under the French law. His first known murder was the killing of a Government official named Cartier, when robbing the postoffice in Besancon, France. He fled to Paris and hid for days in a house in the Montmartre district, where a man named Ducret published an anarchist newspaper. On Nov. 9 Guichard of the Paris detective force, at the head of 100 police, surrounded Lacombe's hiding place, but Lacombe had been warned and got away, but several weeks later returned and killed Ducret, after torturing him all night, shooting the editor in bed as he lay beside his wife.

FATAL PNEUMONIA

Patrick Coleman Had Resided at Bothwell Nearly All His Life.

[Special to The Advertiser.] Bothwell, March 11.—The funeral of Mr. Patrick Coleman, held yesterday afternoon from the family residence on Elm street, was conducted by Rev. Mr. Masters.

Mr. Coleman was 46 years old, and had resided in this vicinity since childhood. His death was caused from an attack of pneumonia, and he was ill for only three weeks.

He leaves his wife and five children to mourn his loss.

HOW TO TREAT PIMPLES AND BLACKHEADS

Successfully and Speedily With CUTICURA SOAP

And Cuticura Ointment, at a trifling cost, is learned from the special directions which accompany these pure, sweet and gentle emollients.

Cuticura Soap and Ointment are sold throughout the world. A liberal sample of each, with 25-page booklet on the care and treatment of the skin and scalp, sent post-free. Address: Potter Drug & Chemical Corp., Dept. 260, Boston, U.S.A.

CORRESPONDENCE

A Suggestion.

To the Editor of The Advertiser: Some years ago the council of Lobo procured enlarged portraits of those parties who were at the time prominent in the township, and those portraits have been hanging in our town hall for years, which is all right. I submit that no person has a greater claim to remembrance than our late C. M. Simmons. In everything he undertook he was a worker, and always had the best of the township in his mind. No person would be more missed than Charlie, and I feel certain that the township will more than support our council if they procure a life-size portrait of our late C. M. Simmons, and hang it in the hall, and I trust the hint I give them in this will be all that is necessary. Yours truly, A. C. ATTWOOD, Vanneck.

On Board of Trade Delegates and the Cattle Industry.

To the Editor of The Advertiser: Owing to the very fair way in which agriculturists and their interests are treated by your useful paper, I take the liberty of writing you a few lines.

The Board of Trade think and resolve that the farmers ought to be stirred up through the press to the needs of the home market.

I may be wrong, but I am of the opinion that not only the cattle interests but those of sheep and hogs, and in fact, of all natural products of the farm were very intensely argued during the summer of 1911, and also that the municipalities whose delegates compose the board who fathered this resolution, voted directly against the opening of the American market to Canadian cattle, the object being to keep down values of food animals to the lowest point in the interest of the Canadian consumer.

Citizens generally ignore the causes which have led to the decline in shipments of export cattle, and to the indifference shown by farmers to the needs of the home market. They do not appear to appreciate the brain power of the rural worker, who drops an unprofitable line for one of greater promise. They think he can be advised to return to lines of production from which he was driven by the 27½ per cent. cattle tariff of the United States, and last but not least, and not even honestly defensible, "the British embargo." Yet we have a Government at Ottawa who are determined to compel us to pay \$35,000,000 to ease the tax of the very man who flung the bolt that struck the solar plexus of Canada's beef cattle industry.

The gentleman who moved the resolution said we were in the habit of selling the calves and immature animals, deriving a doubtful advantage. I sympathize with him, but as we are breeding dairy stock and not beefers, the sooner we get the home market open for the farmer the better, as they grow homelier and less profitable as they grow in years. Although we are receiving one, two or three cents per pound less for first-class cheese than paid for such cheese in the New York State markets, yet it has this merit that it cannot be "cornered" like the cattle trade, nor overdone as the hog trade was when we sold at from \$3.50 to \$5 per hundred weight, live weight.

We reduced the holdings of sheep when our natural market was closed to us except at a sacrifice of \$1.50 per head for every sheep sent there. What are we to think when an unconquerable statement is made that 3,000,000 pounds of frozen mutton brought from the Antipodes was in cold storage in the Northwest Provinces, brought to Canada by lines subsidized by the Dominion Government?

The Government also, with the idea in view of re-establishing the sheep industry, appropriated a sum of money to be expended in purchasing breeding stock. The sheep were purchased and shipped, also offered for sale by auction in the Maritime Provinces, Quebec, the Prairie Provinces and British Columbia, with the result (as reported) that money was dropped all along the line.

It is about time that the "powers" understand that tariffs kill the sheep industry, and that it might have been as firmly established as it was during the former reciprocity period (when every farm had its flock), by simply ratifying the agreement of 1911, but that would have cost nothing and might have increased the cost of living and wool. However, the present generally adopted system of lowering supplies has raised the price of sheep and lambs and also of hogs above the American market quotations. Cattle also are continually advancing in value and must still advance. The beef breeds are down and out. It will take the few that are left many years to build up again, even if there were free entry into the United States, and the repeal of the embargo. In fact, it looks as if the Canadian duties will have to be repealed if the consumer is to escape paying the highest prices in the world for the products of the farm.

The products of the West are being encroached upon by settlers, but how many know that many of the ranges are rented to American cattlemen who winter their stock south of 40 degrees north latitude, and place them upon the Canadian pastures ("in bond") in the summer, returning them to the American market when it is profitable, or to the warmer feeding grounds for wintering.

If it were not for the insane rejection of free trade in animals, Canadian stock men would have stocked their ranches and thereby increased their own wealth and also the wealth and well-being of our country. We are not asking for advice from boards of trade, but we are fair and have asked others at our expense. We are told to think imperially and to copy "British ideals," and not American. Well, Britain has proclaimed free trade to the world for 77 years, and welcomes it from any quarter. How does that ideal strike our Canadian imperialistic advisers? Study up the Golden Rule for awhile. It is short, and its author divine.

JAMES A. GLEN.

Glanworth, March 7.

BENEDICTINES FOR WEST.

Calgary, Alta., March 11.—It is announced that the new Benedictine College to be erected here on a 20-acre site donated by Cecil Hadfield, will cost \$100,000, at the start, and accommodate sixty pupils. All the professors will be brought from England and be Oxford graduates. The instruction will be secular, and the board desires the affiliation with Calgary University. Rev. Father Clark, of the English Order of Benedictines, is promoting the plans.

Mrs. Murphy—Yore Dennis was certainly a good man to his family, wasn't he? Mrs. Casey—He was that. Shure, he wouldn't think of bating up his own family till he had bated up everybody else in the neighborhood.

Life.

A New Trick

London, March 11.—A new suffragette trick is now being put in operation. That is the sending of an unstamped letter containing a copper coin to magistrates, solicitors and others whose addresses are public property. The intention of the coin involves the addresses (if he accepts the letter) in the payment of a double registration fee. The recipient of the letter on opening it finds a circular pressing woman's finger. Many public men have already been victimized in this way.

ONTARIO ORANGEMEN MEETING IN WINDSOR

Many Important Political and Social Questions To Be Discussed.

[Special to The Advertiser.]

Windsor, March 12.—Orangemen from all over Ontario are here today for the opening of the 54th annual convention of the Provincial Grand Lodge of Ontario West.

At the session which opened this afternoon Grand Master Dane, of Toronto, presided. Col. J. H. Scott, of Walkerton, grand master of the grand lodge of Canada, and many other prominent Orangemen are here.

There may be a contest for the grand mastership should Mr. Dane retire. Dr. Williams, of Woodstock, and Mayor Hocken, of Toronto, would be the contestants. There is, however, a strong feeling that Mr. Fred Duno should fill a second term in the chair. Generally the legislation committee's report is the most important, but its secrets are exceedingly well guarded. There will, however, doubtless be a reference to bilingual schools, the naval bill, the marriage question, and it is rumored that a demand will be made for single fares on July 12th, or the order will unite to oppose in Parliament and Legislatures every railway bill till this concession is made.

MURDER HEARING TO OPEN NEXT TUESDAY

Henry Love Will Be Tried for Killing His Wife.

[Special to The Advertiser.] Toronto, March 12.—Mr. H. D. Gamble has been appointed crown counsel for the criminal session for trial at Owen Sound next Tuesday. The case of Henry Love, charged with the murder of his wife near Ceylon, is set down for trial. Mr. Justice Lennox will preside at the sittings. Dr. Arthur J. Johnson, of Toronto, will give medical testimony on behalf of the crown. Provincial Inspector Henry Reburn, whose investigation brought about the arrest of Love, will assist the crown counsel.

OPERATION ON DR. ROCHE

Canadian Cabinet Minister Lies Ill at Rochester, Minn.

[Special to The Advertiser.] Ottawa, March 11.—A special to the Citizen from Rochester, Minn., says: Dr. W. J. Roche, minister of interior of Canada, submitted to an operation at St. Mary's Hospital today for gall stones. The patient is resting with comfort following the operation, although not fully relieved from the effects of the anaesthetic.

At the time of the bulletin attending physicians state that the operation has been a success, and they do not fear any serious results, although the ordeal was considered a serious one. The patient was in excellent condition and it is thought in a day or so will pass the critical stage. His daughter is at his bedside with him.

CALL CREMATION PAGAN

Catholic and Protestant Clergymen of Washington Denounce It.

[Canadian Press.] Washington, March 11.—Dr. W. G. Woodward, health officer of the district of Columbia, has precipitated a sharp controversy on the question of cremation which is stirring church circles. Catholic and Protestant clergymen have taken up the matter and denouncing it as "pagan" and "infidel." The controversy has reached the newspaper stage, and arguments for and against cremation are finding their way into print.

"I believe it is the only sanitary way."

New Treatment Now Advocated For Bronchitis

IS HAVING WONDERFUL SUCCESS AND IS MAKING REMARKABLE CURES.

For bronchitis a different form of treatment is now advocated. It consists of a scientifically devised vapor which penetrates to the innermost recesses of the lungs and bronchial tubes. Every spot that is sore, every surface that is irritated is at once bathed with soothing balsams and healing essences that make chronic bronchitis an impossibility.

This treatment now so universally employed in bronchitis, Throat trouble, colds, etc., is called CATARRHOZONE. It acts just as all of the pine woods acts, as a healing and restorative remedy for all diseases of the breathing organs.

Just think of it—a remedy that can be carried with the very air you breathe to the seat of bronchial or catarrhal inflammation. A remedy powerful enough to kill germ life and yet so healing that disease flees before it. Catarrhozone is truly a wonderful remedy. In many lands it has won its cures from colds, catarrh, throat weakness, asthma, and bronchitis. There is no sufferer from a grippy cold or any winter ill, that won't find a cure in Catarrhozone, which is employed by physicians, ministers, law-yeers and public men throughout many foreign lands. Large size lasts two months and costs \$1.00 and is guaranteed; small size 50c, sample size 25c, at drug stores and druggists, or The Catarrhozone Co., Buffalo, N. Y., and Kingston, Canada.

ARE YOUR HANDS ROUGH & CHAPPED?

One thorough application of Zam-Buk at night will bring ease by morning. Zam-Buk stops the smarting, heals the cracks and makes the hands smooth.

Mrs. A. F. Phillips, of Ayer's Cliff, Que., says:—"I suffered terribly from chapped hands. Sometimes I almost cried with the pain and smarting. Zam-Buk was recommended and it gave me ease almost as soon as applied. Now my hands are quite smooth."

Also use Zam-Buk for all skin eruptions, ulcers, piles, cuts, burns and all skin injuries. 50c. box all druggists and stores.

ZAM-BUK

of disposing of the dead," said Dr. Woodward, "and surely it is the only poetic way. I hope to see cremation extended."

Monsignor William P. Russell, pastor of St. Patrick's Catholic Church, declared that cremation "was against the teachings of Christianity." He declared that it was contrary to the tenets of Catholicism, and that such disposition of the body of the departed was a reversal to the days of pagan Rome. Several Protestant pastors voiced the same view.

BUILD CANALS SUPERIOR TO GULFS

Gigantic Project to Canalize U. S. Waterways.

[Canadian Press.] Madison, Wis., March 11.—The Wisconsin Legislature will be asked to endorse a project for connecting Lake Superior and the Gulf of Mexico for steamboat traffic. More particularly it proposes to canalize the waterways from Lake Superior to the Mississippi River at Prescott, Wis., making it navigable for boats of heavy draft.

Assemblyman Chinnock, of Hudson, estimates that the realization of the plan will provide a revenue to the Federal Government for power sold amounting to \$3,300,000 annually.

A joint resolution is in course of preparation, memorializing Congress to provide funds for carrying out the project.

LEAVING STATFORD

Engineer Kastella Will Take Big Position at Ottawa.

[Special to The Advertiser.] Stratford, March 12.—A fine promotion has come to Mr. August Kastella, chief engineer of the big electric power plant of the G. T. R. here. He has been appointed head engineer in charge of light, heat and power at the Grand Trunk Central Station and Chateau Laurier at Ottawa. He left today for his new post.

ODD INSURANCE CASE

A. O. U. W. Ask Court To Solve a Problem as to Beneficiary.

[Canadian Press.] Toronto, March 11.—The Ancient Order of United Workmen this morning secured from Chief Justice M. M. Meredith an order allowing them to pay into court \$1,000, the amount of a policy on the life of Albert Louis Brad, of Ottawa. The policy was made payable to "Adele Brad, bearing the relation of wife of Adele Brad is dead, and A. L. Brad is survived by her two children, and his second wife. Under the insurance act, insurance payable to a wife is payable to the surviving wife. This case the question is whether Adele Brad was not a preferred beneficiary, the words "bearing the relation of wife" being merely descriptive. If the words are merely descriptive the money will go to Adele Brad's children, if not it will go to the second wife. The matter will be argued later.

NEW BOOKS AT THE PUBLIC LIBRARY

The following new books have been added to the shelves of the public library:

Philosophy—Thorndike, Individuality; Swift, Youth and the Race.

Religion—Knight, Story of Our Syrian Guest; Knight, Peter in the Firelight; McKay, Religion as Friendship.

God; Harris, Flowers of the Cross in Canada.

Sociology—Graham, Where Socialism Fails; Hulse, Concentration and Control; Bryce, New City Government; Fortescue, History of the British Army, Vol. II, Part 1; Maps and Plans, Vol. VII, Part 2; Palmer, Ideal Teacher; Betts, The Religion; St. John, Stories and Story-Telling; Szabo, Teaching of Primary Arithmetic; Brown, Through the School; Audsley, Color Harmony in Dress.

Brooks, Buttered Toasts; Coolidge, Why Women Are So.

Science and Useful Arts—Baly, Spectroscopy; Thomson, Biology of the Seasons; Widney, Race Life of Aryan Peoples; Dugmore, Wild Life and the Camera; Lowry and Lambert, Himself; Johnson, Air Lamps and Accessory Apparatus; Canadian Department of Agriculture, Dominion Experiment Farms, Brigham, Progressive Poultry Culture; Fischer, Health-Care of the Baby; Hall, Handicraft for Young Boys; Methley, Lateral and Its Story.

Fine Arts—Ross, On Drawing and Painting; Laurie, Materials of the Painter's Craft; Bellows, Art of Amusing; Gremer (editor), Hinky Panky; Gremer (editor), Magic No. Mystery; Johnson (editor), Secret Out; Grene, Interpretation in Song; Sutherland, Adventures of an Elephant Hunter; Young, Adventures Among Trappers and Hunters.

Literature—Carr, Cowboy Lyrics; Thomas, As a Man Thinks; Ken, English Literature, Medieval; Cawein, The Poet, the Fool and the Fiercest; Caworth, The Poet; Cooper, Some English Story-Tellers; Lodge, Modern Problems; Fairless—Road-Mender.

History—Laubeane, Crims of 182; Oman (editor), History of England, Vol. 13.

I. and II.; Blok, People of the Netherlands; Grant, African Shore of the Mediterranean; Boyes, White King in West Africa; Robinson, Canada and Canadian Defence; Scotsman in Canada (two volumes); Murray, Papua, or British New Guinea.

Children's Department—Johnson, Pe-Tee Fairy Book; Mackenzie, Kensington Games; Munroe, Roy and Ray in Canada, two copies.

Fiction—Burke, Bachelor's Buttons; Reebner, Little Gray Shoe; Conway, Lovers' Maples; Eaton, Mrs. Spring Fragrance; Greenleaf, Three Knives; MacFar, Green Devil; Parker, Fomander Walk.

Children's Literature—Camp, Subtitled; two copies; Garis, Island Boy, two copies; Garis, On the Diamond, two copies; Houston, Born An Electrician; Marchant, New Distinction; Wheeler, Captain Pete of Cortesana; Wheeler, Captain Pete of Purgis Sound.

Viscount Tredegar Dead

One of the Few Left Who Charged With the Light Brigade.

[Canadian Press.] London, March 11.—Viscount Tredegar, one of the few who returned from the charge of the Light Brigade at the battle of Balaclava during the Crimean War, in which he took part as a captain of the Seventeenth Lancers, died today at the age of 82. There is no heir to the title of viscount. Courtenay Charles E. Morgan, a grandson of the first baron, however, succeeds to the title of Baron Tredegar.

GAVE HIM A RING

Popular Ridgeway Organist Is Going to Chatham to Reside.

[Special to The Advertiser.] Ridgeway, March 12.—At the close of choir practice last night in the Presbyterian Church, Mr. Whitney Scherer, who has been organist for the past three years, was presented with a beautiful signet ring and an address by the members of the choir. Mr. Scherer has resigned as organist here, and is going to Chatham.

JOURNALIST DEAD

Winnipeg, March 11.—Henry Thomas McPhillips, aged 63, a print-

Russell-Knight "28" Touring Model \$3,250
Russell-Knight "28" Roadster Model \$3,200
Russell-Knight Seven Passenger \$3,500
F.O.B., West Toronto.

Investigate The Russell-Knight "28"

Overheard in an Automobile Show Room

"If I were about to buy a car, I would investigate all models within range of my pocketbook, for nearly every one has features that seem to give it preference."

Don't you think that is the right way to buy a car?

We would that all prospective owners exercised such judgment in buying cars. All round investigation would prove that the 1913 Russell-Knight "28" so far leads all other cars in efficiency and comfort, that it stands 'way ahead in a class by itself.

The car not only has more comfort-making features than any other model in Canada, but it has been designed in such a way that these features lend their greatest efficiency to the car as a unit. The Russell-Knight "28" was not produced by adding new or extra features, to an old model. It has been designed absolutely anew from the ground up. Some of its special and exclusive features are:

Russell-Knight Engine, Left Drive and Centre Control, Combined Electric Dynamo and Motor for Starting Engine, Lighting Lamps and charging Battery, Electric Head Lamps, Side Lamps, Combined Speedometer and Clock, Wheel Locks, Light attached, Heating System for the Tonneau, Non-skid Tires, 36x4 1/4 inches, Power Pump for the Tires, Demountable Rims, with one spare rim, Folding Glass Windshield for the Front Seat, Folding Glass Windshield for the Rear Seat, Extension Top with Side Curtains, Top Envelope, Foot Rest, Roba Rail, Tire Holders (double), Electric Horn, under the bonnet.

A Descriptive Catalogue will be mailed or a demonstration arranged upon request.

The hand-written letter has no business in a business office

It is an unwarranted intrusion on a busy man's time and patience.

In the museums of the future, the pen will be hung up with the warning-pan, the flint-lock and the spinning-wheel.

In the business office of today the typewriter is an established fixture. It is not only a new industry itself but it is the right hand of every industry under the sun.

The large corporation would be helpless without it. The single-handed man needs it most of all.

It has a legitimate place wherever there is writing to be done or records to be kept.

Let the

Monarch Typewriter

handle your writing—especially your business correspondence. It will pay for itself in the better, bigger business it will beget.

KIDNEYS WERE SO SORE DIDN'T KNOW WHAT TO DO.

GRAVEL AND SMALL STONES PASSED THROUGH THE URINE.

One of the most painful forms of kidney disease is Gravel or Stone in the Bladder, and is caused by the acid and lime in the blood uniting and forming a gritty substance which lodges in the inner surfaces of the kidneys or bladder, and sets up a painful irritation.

To relieve these terrible pains it is necessary to keep the kidneys healthy by healthy kidneys secret fluids that dissolve the gravel and stones, and they pass out through the urine harmlessly and without pain.

Mrs. Elmore Baldwin, Windsor, Ontario, writes:—"I was so weak I could not do my own work. I tried many doctors, and every one of them told me to go to some institution. Reading of Doan's Kidney Pills, I tried them, and am now well, and can recommend them to all. My kidneys were so sore I did not know what to do, but after using the Doan's Kidney Pills, you would be surprised at all the gravel and small stones that passed through my urine. Now I am well and able to do my own work."

Doan's Kidney Pills are 50 cents per box, 3 boxes for \$1.25, at all dealers, or direct on receipt of price by

By "Bud" Fisher

LONDON NEEDS AN ARENA
TO STAY ON HOCKEY MAP

Local Rinks Are Not Conducive to Championship Teams—Poor Accommodation and Soft Ice a Great Drawback to the Game—Time Something Was Done.

The need of an arena in London has never been felt so keenly before as this winter. There have been hard ice for the game against Collingwood Monday evening, London would now be holding the title of intermediate champion. But there have been an arena the terrible crush of people at the rink's doors would have been avoided and a couple of thousand more persons who were kept from the game because of the poor accommodation offered by the local rink would have been able to attend and cheer the boys along.

London has a prominent position on the hockey map and it has been considerably strengthened by the showing of the local intermediates this winter. There is no reason why London could not enter all three series of the O. H. A. if the proper rink facilities were provided.

There have been rumors in the past that an arena will be built "next year," but the years have passed and the same rumors are afloat. London is just a far off from having an arena built as it was ten years ago, unless a united effort on the part of the people who "would like to see one here" is now made.

SHOULD PROVE A SUCCESS.

There is no doubt that an arena would be a paying proposition in this city. Hamilton has made one pay this season and Hamilton is not a hockey town. It has not had an O. H. A. championship team to draw big

gate receipts nor has it had the kind of hockey that the fans like to see. Both Hamilton teams were jokes and the exhibition games that have been played there were nothing out of the ordinary.

An arena with artificial ice, and it seems little use building one unless an artificial ice plant is included in the plans, will not only insure a good season of hockey, but will be a means of attracting games from the outside. Then there is always a chance of having outside teams play sudden death games to settle a district championship. Then exhibition games between the big pro. teams could be played. There are a host of other attractions that could be staged in an arena. A mild winter would mean that many of the O. H. A. district and championship games would have to be decided in the artificial rinks. London would draw from all Western Ontario and Western Ontario is more largely represented in the O. H. A. than any other section.

SKATING WOULD BE BIG ITEM.

The revenue from skating alone should make the arena a paying proposition. With ice from the first of December to the end of March or middle of April, continuously, there are wonderful possibilities for an ice plant in this city. It is nearly time that something definite was undertaken in this respect. London is on the hockey map with a vengeance. Why not keep it there.

MOOSE JAW BEATEN
IN ALLAN CUP GAME

Winnipeg Shuts Them Out by Score of 6 to 0 in the First Game.

Winnipeg, March 11.—Unless they show a remarkable reversal of form over their play of tonight, Moose Jaw team will return without the Allan cup, as the Winnipeggers put them out, 6 to 0, in the first defense of the amateur title. About all that the visitors showed was their ability to check, and in this respect they were artists, but they failed to show anything in the rushing line and seldom had a chance to score.

Any chance the challengers had of scoring was nipped by Jack Patton, who was about the only Winnipegger who played in anything like his usual form. He picked the puck right out of the thick of the visitors' rushes, and time and again rushed the length of the ice, several times dodging the whole team. Pascoe took the count near the finish of the first half, but came back in the second. He finally collapsed after playing 20 minutes of that period, and had to be carried off the ice. He went down twice before finally giving in. McDonald, at left wing, put up a fast game for the visitors, but his shots were never on the goal. Monday's intermediate fixture was by long odds much faster and more interesting. On hard ice Winnipeg should give Moose Jaw a bad drubbing.

Billy Keen and Bud Bissell had little trouble in handling the play.

The teams lined up as follows:

Winnipeg—Goal, Gannon; point, Turnbull; coverpoint, Rutman; rover, Andrews; centre, Aldous; right wing, Mackenzie; left wing, Adamson.

Moose Jaw—Goal, Ellis; point, Pascoe; coverpoint, Lattell; rover, J. Law; centre, Kent; right wing, Boucher; left wing, McDonald.

Paul Law replaced Pascoe late in the second half.

Juarez Results.

El Paso, Tex., March 11.—Juarez races today resulted as follows:

First race, 1 mile—Manganeze 1, Edith W. 2, First Choice 3. Time, 1:48 4-5.

Second race, 1 mile—Godfather 1, Harlem Maid 2, King Lear 3. Time, 1:42 2-5.

Third race, 7 furlongs—Ben Wilson 1, Adolante 2, Masalo 3. Time, 1:28.

Fourth race, 1 mile—Brando 1, Evelina 2, Zulu 3. Time, 1:42 2-5.

Fifth race, 5/8 furlongs—Ferrona 1, Angelus 2, Chilla 3. Time, 1:08 4-5.

Sixth race, 7 furlongs—High street 1, Chanticleer 2, Annual Interest 3. Time, 1:27 4-5.

ABBIE JOHNSON HAS
CLUB IN ST. KITTS

Strathroy Ballplayer Will Play on the Niagara Peninsula This Summer.

St. Catharines, March 11.—Abbie Johnson, who formerly managed the Guelph Maple Leafs, proposes to transplant a professional baseball team from Franklin, Pa., to St. Catharines as an independent organization. The Franklin team was to have played in the New York and Pennsylvania League this year, but dropped out because of difficulties over the grounds. Johnson has asked for the use of the old St. Catharines lacrosse grounds from the civic park committee for certain days in the week during the coming season, when the grounds are not taken up by other games. Johnson proposes to play his team in Niagara Falls, Welland, Dunnville and other towns in the district. He expects to close the deal on the 19th.

MAY SPRING SENSATION
AT MEETING TODAY

Canadian League Will Deal With Hamilton Squabble and Endeavor To Settle It.

Hamilton, March 11.—Something sensational is expected to be uncoiled at the schedule meeting of the Canadian League, which is being held in Toronto Wednesday, with regard to the mix-up in the ownership of the local franchise. The league will likely take a hand, and demand the owners to come to some kind of a settlement, as it is difficult to see how a schedule can be adopted with the local factions at variance. The Ottawa owners are anxious to secure several of the Hamilton players.

BERLIN AND PRESTON
PLAYED A TIE GAME

Each Team Scored Three Goals in Exhibition at Berlin.

Berlin, March 11.—The O. H. A. intermediates and Preston seniors played an exhibition game here tonight, when a combination made up of New Edinburgh, Stewarson and Ottawa College teams of the Interprovincial Union, played them to a standstill and won out by a score of 7 to 2.

The ice was soft, and this militated to some extent against the play of the tourists, who rely largely on speed, but never at any time were they able to cope with the brilliant work of Captain Gerard and his team-mates. They were outskated from beginning to end and checked to a standstill.

They came strong in the third period and would have tallied several goals had it not been for the sensational work of Hebert in the Ottawa nets. The westerners used eleven players, while Ottawa had three on at different times. They started out with five New Edinburgh men, then dropped Duford and the George boys, and took on several Stewarsons. Nagle and Goalkeeper Hebert were the only ones to go the whole distance. The body-checking of the eastern team was a big factor in their success, as they used their weight at every opportunity and had the tourists actually sprawling all over the ice. This was how they won the game.

LIPTON'S CHALLENGE TO
BE DISCUSSED TODAY

Matter Will Come Up Before New York Yacht Club Members.

[Canadian Press.]

New York, March 12.—The challenge made by the Royal Ulster Yacht Club on behalf of Sir Thomas Lipton for a race next season for the America's Cup will be formally discussed for the first time tonight by the members of the New York Yacht Club in special meeting at their clubhouse. Although it could not be promised today that a decision as to the acceptance or rejection of the challenge will be reached tonight, it seemed certain that the terms of the challenge will at least become public after this meeting.

ROLLER HOCKEY GAME
PLAYED AT AYLMEY

Aylmer Team Wants a Game With London Roller Hockeyists.

[Special to The Advertiser.]

Aylmer, March 11.—A hockey match between the Reds and the Blues will be played at the Aylmer roller rink on Friday night, March 14.

The management of the rink have received a communication from the sporting editor of the Times, St. Thomas, stating that a team from that city would like to play a friendly game with the Aylmer team at an early date.

If London has a roller hockey team the rink management would also be glad to hear from them.

FORT WAYNE SETS TIME LIMIT
ON SHAUGHNESSY'S RELEASE

Ottawa Club Must Act Quickly in the Matter or Do Without Him.

Ottawa, March 12.—The Fort Wayne Baseball Club, through its president, Claude Varnell, of Wheeling, West Va., has named the final figure that will be accepted for the purchase of Frank Shaughnessy and has informed the Ottawa club a time limit will be set on the deal and negotiations must be completed by a certain date. The final figure is the same as was originally asked last fall, and it appears up to the Canadian League champions to dig down and in over the cash if the big boy is to pasture on the local playground this summer. There is no doubt he is needed here, the Canadian League will be twenty-five per

cent faster than last season, and with only one member left of the big league pitching staff carried by the Senators in 1912, a genuine leader is needed to command the club of 1913.

That Shag himself expects to be at the helm is evidenced by the arrangements he is already making for spring training. His plans to date are to report at Chatham the third week in April and leave a week before the Canadian season opens for a tour, playing the South Michigan League clubs. This would tend to put the team on edge for the opener at Brantford May 7.

There was some objection to returning to Chatham this season on account of the fact that the ball field at Recreation Park had no skinned diamond. The advantages of the sulphur baths for conditioning purposes has prompted the Ottawas to return there again. The only kind of practice that will be hampered will be infield work. This Shaughnessy believes, can be made up on the exhibition tour.

VICTORIA SWAMPED
BY ALL-STAR TEAM

Prodger and His Teammates Did Not Show Their Usual Form.

[Canadian Press.]

Vancouver, B. C., March 12.—A combined Vancouver-New Westminster team defeated the regulars, Victoria, 5 to 4, in an exhibition match by a score of 12 to 4. The game was very fast in places, but the Victoria men did not show up at any time in as good shape as they have in their regular games. Taylor played a wonderful game, the opinion being expressed that he was in as good form as of old.

The All-Stars outplayed the champions in all three periods, serving up one of the best exhibitions seen at the Arena this season. Summary: First period—All-Stars, 4 to 0; Victoria, 0 to 0. Second period—All-Stars, 4 to 0; Victoria, 1 to 3. Third period—All-Stars, 4 to 0; Victoria, 1 to 1. Total—All-Stars, 12 to 4; Victoria, 4 to 4.

Line-up: All-Stars—Lehmann, goal; Griffin, point; Johnson, cover-point; Taylor, rover; Oatman, right; Kendall, centre; Harris, left.

Victoria—Lindsay, goal; Prodger, point; Patrick, cover-point; Poulin, rover; Rowe, right; Dundardale, centre; Genge, left.

INDOOR BASEBALL
ON FRIDAY NIGHT

Hussars Will Play Double-Header With Meds. and Y. M. C. A. Teams in Armories.

The First Hussars Indoor Baseball team will play a double-header in the armories on Friday evening with the Y. M. C. A. and Medical School teams. Manager Bert Simmons, of the Hussars team, arranged the games yesterday, and they should prove interesting. The first game will start at 8 o'clock, and the next one at 9 o'clock. Seven innings will be played in each contest. Harry Tozer will be on the mound for the Hussars, while Livingston will likely pitch for the Y. M. C. A., and Renton for the Meds.

An effort is being made to revive the Indoor Baseball League and start a second series of games.

GASTES' REPLY.

Sporting Editor of The Advertiser:

Dear Sir,—The management of the Jose Gaste hockey team acknowledge the challenge appearing in Tuesday evening's Advertiser to another game with the McLeod-Nolan team, but owing to the numerous engagements we now have on hand, and having disposed of the McLeod-Nolan team in such a decisive manner as the score, 6 to 2, indicates, we do not see where they are deserving of recognition. However, if there is any other sport that the weather will permit that they have any ability in, why we are at their service.

B. SHAW.

Manager Baled Havana Hockey Team.

COWANS & SMALLMAN & INGRAM S. KOWANS demonstrated their hockey ability by defeating the fast S. & I. team by a score of 6-3. The winners displayed great speed and combination. For the winners, Calhoun, Grashow and Henry played stellar hockey, while Wallace, Carter and McGreary played well for the losers.

G. Marsh refereed the game very satisfactorily.

TORONTO ATHENAEUMS
SECOND AT TOLEDO

Waltons, of Rochester, Won Five-Man Event Last Night—Some Good Scores Made.

[Canadian Press.]

Toledo, March 12.—In the first squad of five-man teams rolling last night in the American bowling tournament, the Maltese, of Rochester, N. Y., finished first with a count of 2,862, and the Athenaeums, of Toronto, Ont., finished second with a score of 2,824. The Brunswick All-Stars, of New York, were third, with 2,812.

The Cadillac five of Detroit, rolling in the second squad of five-man teams, went into fifth place, with a count of 2,934.

Five-man leaders: Flor de Kinspels, St. Paul, Minn., 3,006; Overlands, Toledo, 2,992; Hudson Stars, Newark, N. J., 2,948; Sir Clifton, Chicago, 2,943; Cadillac, Detroit, 2,934; Cambrinus, Columbus, O., 2,903; O'Brien, Chicago, 2,896; Ducator, Chicago, 2,896; Morgen-Roths, Milwaukee, Wis., 2,894; Lexington No. 1, Lexington, Ky., 2,890.

With one more day of rolling in the A. B. C. tournament, interest in the various events has not waned. In the last squad of five-man teams last night, the Cadillac, of Detroit, took fifth place with a score of 2,934. On this team is Tom Hay, holder of the A. B. C. record of 705 pins for the individual events, which he made at the tournament held in Detroit in 1910.

On the Maltese team, which beat out the Toronto Athenaeums in the first first squad is Larry Sutton, holder of the record in the all-events, which he captured last year.

With these bowlers participating, and with Jimmy Smith and other members of the Brunswick all-stars of New York rolling in the two-man and individual events, further high scores are looked for before the night squads take the arena.

With the completion of the last squad of five-man teams tonight, Secretary Langley of the A. B. C. with a corps of assistants, will begin checking up the winners in that event and awarding of prizes. He expects to complete the task by Friday evening. There are 834 prizes to be awarded.

COAST TEAMS TO PLAY
IN CALGARY AND REGINA

Victoria and New Westminster Will Play Off Postponed Games.

[Canadian Press.]

Vancouver, March 12.—Frank Patrick announced after Tuesday night's game that the two postponed games between Vancouver and New Westminster teams be played at Calgary and Regina next week, arrangements having been completed for games there. The teams will leave here Sunday next, playing at Calgary Thursday night and at Regina the following night. At Winnipeg matches will be played between the coast stars and a N. H. A. picked team. These games will be played Thursday and Friday of next week. The teams will then return to the coast and play a series of three matches here.

Charleston Results.

Charleston, S. C., March 11.—Favorites had a good day today, four of them finishing in front. Monday rode two winners. Summary: First race, purse \$300, 3-year-olds and up, selling, maidens, 5/8 furlongs—Bernadotte, Mucius 4, Anna Clair 3. Time, 1:09 4-5.

Second race, South Carolina-owned, 2-year-olds and up, purse \$200, 5/8 furlongs—Chilton Danee 1, Fairy Godmother 2, Maurice Reed 3. Time, 1:09 4-5.

Third race, purse \$300, 2-year-olds, special weights, 4 furlongs—Gordon 1, Ruby Hyams 2, Billy Stuart 3. Time, 1:20 1-5.

Fourth race, 3-year-olds and up, purse \$300, 5/8 furlongs—Samuel R. Meyer 1, Sherwood 2, Caught Hill 3. Time, 1:07 4-5.

Fifth race, 3-year-olds and up, selling, purse \$200, 6 furlongs—Gold Cap 1, Towland Fleet 2, Right Easy 3. Time, 1:15.

Sixth race, 3-year-olds and up, selling, purse \$300, 7 furlongs—Col. Cook 1, Spellbound 2, Miss Jones 3. Time, 1:25 2-5.

Illustrated
TRAINING CAMP DOPE

With Christy Mathewson pitching in a game between the giant regulars and college Jim Thorpe hit a home run at Marlin yesterday. Marty is still wondering how it happened. Manager McGraw pitched part of the game for the coits and the regulars could not hit him.

At Tampa yesterday the Cub yanigans beat the regulars in a close game by the score of 4 to 3. Big Ed Reulbach pitched for the yanigans, and only allowed five hits. He was a trifle wild, and walked six men.

Eddie Cicotte and Doc White are rounding into nice form at Pasadena with the White Sox. Both were out yesterday, and the way they cut loose surprised the other players.

Frank Chance's Yankees whitewashed the Jersey City Skeeters 9 to 0 in a game at Hamilton, Bermuda, yesterday. The Yacks played an errorless game in the field. Warhop, Ford and McConnell divided pitching honors. Not one of the Skeeters got as far as third base.

Andy Kyle, the former London outfielder, is showing up well with the Cincinnati Reds. Yesterday, at Mobile, the

LIMIT RULE REVOKED
BY CIRCUIT PRESIDENT

President Devereaux Officially Announced Revocation Yesterday.

[Canadian Press.]

Cleveland, March 12.—In a signed newspaper article appearing today, H. K. Devereaux, president of the grand circuit, officially announces the revocation of the grand circuit rule which would limit the winnings of stake pacers to \$10,000 and stake trotters to \$15,000 before they are compelled to enter classes designated by their records.

The rule was adopted by the stewards at Pittsburgh in January, and a reconsidered mail vote found a majority of the clubs opposed. President Devereaux assumes responsibility for the presentation and adoption of the rule. The mail vote showed three members favoring, seven opposing, and two not voting.

LOTS OF BEAUTIFUL, GLOSSY HAIR, NO DANDRUFF—25 CENT "DANDERINE"

Hair Coming Out?—If Dry, Brittle, Thin or Your Scalp Itches and Is Full of Dandruff—Use "Danderine."

Within ten minutes after an application of Danderine you cannot find a single trace of Dandruff or a loose or falling hair, and your scalp will not itch, but what will please you most will be after a few weeks' use, when you will actually see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp. A little Danderine will immediately double the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small

strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance, an incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair health. Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove to yourself tonight—now that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that all you surely can have beautiful hair and that if you will just try a little Danderine.

Saves Elderly People From Kidney and Bladder Miseries

Sleep-Disturbing Bladder Weaknesses, Backache, Stiff Joints, Rheumatic Pains Disappear After Few Doses Are Taken.

While people along in years are naturally more subject to weak kidneys, they can avoid the tortures of backache, and rheumatism, and be saved the annoyance of getting up at night with disagreeable bladder disorders, for the new discovery, Croxone, quickly relieves the most severe and obstinate cases. Croxone cures these conditions because it removes the cause. It is the most wonderful remedy ever devised for ridding the system of uric acid. It is entirely different from all other remedies. It is not like anything else ever used for the purpose. Croxone makes the kidneys filter the blood and sift out all the poisonous acids and waste matter that cause these troubles. It soaks right in and cleans out the stopped-up, inactive kidneys like water does a sponge, dissolves, and drives

out every particle of uric acid and other poisonous impurities that lodge in the joints and muscles and cause rheumatism. It neutralizes the urine, so it no longer irritates the bladder, overcomes unnecessary breaking of sleep and restores the kidneys and bladder to health and strength. It matters not how long you have suffered, how old you are, or what else you have used. The very principle of Croxone is such that it is practically impossible to take it into the human system without results. There is nothing else on earth like it. It starts to work the minute you take it and relieves you the first time you use it, and all your misery and suffering soon disappear. You can secure an original package of Croxone at trifling cost from any first-class druggist. All druggists are authorized to personally return the purchase price if it fails in a single case.

THE JUST AND THE UNJUST

By Vaughan Kester
The Prodigal Judge

CHAPTER VII.
The Beauty of Elizabeth.

His interview with Langham left North with a sense of moral nausea, yet he felt he had somehow failed in his comprehension of her, that she had meant him to understand her as he had; that, after all, perhaps the significance he had given to her words was of his own imagining.

He waited in his room until she should have time to be well on her way home, then hurried downstairs. He was to dine at the Herberts at seven o'clock, and as their place was but two scant miles from town, he determined to walk. He crossed the Square, only stopping to speak with the little lamp-lighter, and twenty minutes later Mount Hope, in the cold breath of the storm, had dwindled to a huddle of faint, ghostly lights on the hillside and in the valley.

The Herbert home, a showy country place in a region of farms, merited a name, but no one except Mrs. Herbert, who in the first flush of possession determined to do dignity to it, had ever made use of the name she had chosen after much deliberation. General Herbert himself called it simply the farm, while to the neighbors and the dwellers in the neighborhood it was known as the general's place, which perhaps sufficiently distinguished it, for its owner was a well-known figure of the general, though since the war he had been governor of his state.

Rather less than half a century before, Daniel Herbert, then a country unswerving tending cattle on the hillside where now stood his turreted stone mansion, had decided that some day he should be rich. He would return and buy that hillside and the great reach of flat river bottom that lay between the hill and the town, build his home. His worldly goods at the time of this decision consisted of a pair of jeans trousers, a hickory stick, and a battered straw hat. For years he had forgotten his boyish ambition. He had made his way in the world, he had won success in his profession, the law; he had won even greater distinction as a soldier in the Civil War, he had been a prominent figure in politics, and he had been governor of his state. And then had come the country-bred man, the neighborly farmer, with whom he talked crops and politics by the hour.

In paid surprise Mrs. Herbert, a woman of great intellect, had been five years of this kind of life, and with unspoken bitterness of spirit she had seen the one potent name of the general disappear from the newspapers, and then she had died.

On her death the general became a rich man, and in a way, a free man, for now he could, without the silent protest of his wife, recover the neglected hillside and field and practice and forgotten arts that had in his boyhood come under the elastic head of chores. Elizabeth, his daughter, had never shared her mother's ambitions. Perhaps because she had always had it, she cared nothing for society. She was well content to ride about the farm with her father, whom she greatly admired, and at whose eccentricities she only smiled.

In this agreeable comradeship with his daughter, General Herbert had lived through the period of his bereavement with very tolerable comfort. He had rendered the dead the dead's due of regretful tenderness; but Elizabeth never asked him when he was going to make his re-entry into politics; and she never reproached him with having wasted the very best years of his life in idling on the hillside, and he never resented the fact that she had made four hundred acres of scientifically farmed land show a profit, a feat he had not accomplished.

Quitting the highway, North turned in at two stone pillars that marked the entrance to the hillside, and walked rapidly up the maple-lined driveway to the great arched vestibule that gave to the house the appearance of a Norman-French chateau.

Answering the summons of the bell, a maid ushered him into a large drawing-room, and into the presence of the general and his daughter. The former received North with a perfect grace and respect. He knew more about the young man than he would have cared to tell his daughter, since he believed it would be better for her to make her own discoveries where North was concerned. He had not opposed his frequent visits to the hillside, for he felt that if Elizabeth was interested in the young fellow opposition would weaken it.

Glancing at North as he greeted Elizabeth, the general admitted that what ever he might be, he was a presentable, indeed good-looking, handsome. Why hadn't he done something other than make a mess of his life? He wondered, too, wishing to be quite fair. If North had not been the subject of a good deal of unmerited censure, if, after all, his idleness had not been the worst thing about him, he hoped this might be true. Still, he regretted that Elizabeth should have allowed their boy and girl friendship—they had known each other always—to grow into a closer intimacy.

In the minds of these two men there was absolute accord on one point. Either would have said that Elizabeth Herbert's beauty was a supreme achievement, and more nearly perfect than the beauty of any other woman. She was slender, not tall, but poised and graceful with a distinction of bearing that added to her inches. Her hair was burnished copper, and her eyes, blue and bright, shone with the sunlight showing through. North gazed at her as though he would move in his memory the faintest of her loveliness. Then they walked out to the dining-room.

The dinner was rather a sombre feast. North felt the restraint of the general's presence; he sensed his disfavor; and with

LITERARY NOTES

Red Book.
James Oliver, the writer of stories of the far north, spends about six months of every year up close to the Arctic Circle. During his last trip into the wilds of British Columbia he and a companion discovered a gold mine. It was in an inaccessible part of the Rocky Mountains, so they sold their rights to the claim to a syndicate which could wait for the coming of the railroads, for \$39,000. Mr. Oliver's story of the north is entitled "The Red Book" and appears in the March issue of the Red Book Magazine.

Century.
The first of Robert Hichens' new travel series will lead the March Century, "Skirting the Balkan Peninsula" is the series' name, and the March paper will be about "Picturesque Dalmatia," the edge of the Balkan war zone. The article, in addition to an account of its Dalmatian travels, will be enlivened by many incidents, Jules Guerin, whose brush is a familiar supplement to Mr. Hichens' pen on the pages of the Century, will contribute paintings, reproduced in color to illustrate the text, and there will be also two engravings by Joseph Pennell, as well as several photographs.

Scribner's.
Captain Rowan, of the Carpathia, has never before given an authorized account of his rescue of the Titanic survivors. In Scribner's Magazine for March will be his remarkable narrative, written with the blunt directness of a sailor. It will be accompanied by some striking photograph taken by a passenger on the Carpathia.

Boyle Lawrence in March Pall Mall.
We are always being asked why the popular novelists do not, as a body, write for the stage. The answer is that many of them do—but without success. There are a dozen successful novelists to one successful dramatist, and why popular play brings to its author ten times the emoluments of a popular book. The difficult technique of the drama restricts the number of those who provide it. Large as have been the rewards of their books, they must have been very much larger had they written equally successful plays.

Rod and Gun.
Rod and Gun for March, published by W. J. Taylor, Limited, Woodstock, Ont., is out with a varied and entertaining collection of contents, which include the following: "After Caribou With the Uteckats," by R. J. Fraser; "Old Canada—A Visit to the Gaspé Peninsula," by Madge Macbeth; "Up the Waverley Road," by Paul A. W. Wallace; "A Piscatorial Pilgrimage of Port Arthur Sportsmen," by L. W. Bingay; "An Eastern Black Fox Ranch," another of the series, "Small Fur-Bearers and How to Take Them," by George J. Thessen; an installment of "A Canoe Trip in 1884," and other articles of outdoor life both east and west. The issue is attractively illustrated, and should be read by all sportsmen and lovers of outdoor life.

HAD RELATIVES HERE

F. Brown Died Very Suddenly at His Home in Lonsborough.

[Special to The Advertiser.]
Lonsborough, March 11.—The funeral of Mr. F. Brown, who died suddenly was held from the Methodist Church, Rev. J. H. Osterhout officiating, assisted by Rev. J. Jewett, of Blith, and Rev. J. G. Landon, of Lonsborough. The pallbearers were six nephews, H. Snell, Jas. Snell, William Grey, Jas. Grey, John Brown and Wm. Brown. Mr. and Mrs. A. Watson, Mr. and Mrs. Geo. J. Gault, of Lonsborough, were present at the funeral, and relatives from Auburn, Wingham, Nile and vicinity.
Miss O. Macgregor left yesterday for Winnipeg.
Rev. Mr. Justice, of the British

Eat and Get Thin

This is turning an old phrase face about, but modern methods of reducing fat have made this revision possible. If you are overfat and also averse to physical exertion and likewise fond of the table and still want to reduce your excess flesh several pounds, do this: Go to your druggist for a bottle of Marmola Co. Farmer Building, Detroit, Mich.) and give him (or send them) 75 cents. For this modest amount of money, the druggist will put you in the way of satisfying your ambition for a nice, trim, slim figure. He will hand you a large case of Marmola Prescription Tablets (compounded in accordance with the famous Marmola Prescription), one of which you must take after each meal and at bedtime until you begin to lose your fat at the rate of 12 to 15 ounces a day. That is all. Just go on taking these you like, leave exercising to the athletes, but take your little tablet faithfully and without a doubt that chubby flesh will quickly melt away, leaving behind it your natural self, neatly clothed in firm flesh and trim muscles.

How to Make Your Hair Beautiful

Ten Minutes' Home Treatment Works Wonders. Stops Falling Hair, Itching Scalp and Dandruff and Makes the Hair Soft, Silky, Lustrous and Fluffy.

Better than all the so-called "hair tonics" in the world is a simple old-fashioned home recipe consisting of plain May Rosemary (decomposed) and a little Menthol Crystals. These three mixed in equal parts, work wonders with any scalp. Try it. Just one wash and see. Get from your druggist 2 ozs. Lavender Oil, 2 ozs. Bay Rum and 1/2 oz. Menthol Crystals. Dissolve the Crystals in the Bay Rum and pour in an 8 oz. bottle. Then add the Lavender, shake well and let it stand for an hour before using. Apply it by putting a little of the mixture on a soft cloth. Draw this cloth slowly through the hair, taking just one small strand at a time. This cleanses the hair and scalp of dirt, dust and excessive oil and makes the hair delightfully soft, lustrous and fluffy. To stop the hair from falling and to make it grow again rub the mixture briskly into the scalp with the fingers or a medium stiff brush. Apply at night and morning. A few days' use and you cannot find a single loose or straggling hair. Try it. Just one wash and see. Get from your druggist 2 ozs. Lavender Oil, 2 ozs. Bay Rum and 1/2 oz. Menthol Crystals. Dissolve the Crystals in the Bay Rum and pour in an 8 oz. bottle. Then add the Lavender, shake well and let it stand for an hour before using. Apply it by putting a little of the mixture on a soft cloth. Draw this cloth slowly through the hair, taking just one small strand at a time. This cleanses the hair and scalp of dirt, dust and excessive oil and makes the hair delightfully soft, lustrous and fluffy. To stop the hair from falling and to make it grow again rub the mixture briskly into the scalp with the fingers or a medium stiff brush. Apply at night and morning. A few days' use and you cannot find a single loose or straggling hair. Try it. Just one wash and see. Get from your druggist 2 ozs. Lavender Oil, 2 ozs. Bay Rum and 1/2 oz. Menthol Crystals. Dissolve the Crystals in the Bay Rum and pour in an 8 oz. bottle. Then add the Lavender, shake well and let it stand for an hour before using. Apply it by putting a little of the mixture on a soft cloth. Draw this cloth slowly through the hair, taking just one small strand at a time. LIVELY CLASH IN THE HOUSE OVER REPORT

Whitney Accuses Rowell
of Concealing Document
—Later Admits Error.

STINGING REBUKE FOR SIR JAMES

Members for North Bruce and
North Norfolk Also Take Part
in Fiery Exchange.

[Special to The Advertiser.]

Toronto, March 12.—There was another diatribe in the Legislature yesterday afternoon. Such an interchange of attacks on the part of the leader of the Opposition and the leader of the Government has probably not been witnessed or heard in Queen's Park in years. An unwarranted charge made by the Premier against Mr. Rowell brought from the latter a quick and stinging rebuke, and it was not until an hour afterwards and just before recess at 6 o'clock that Sir James arose in his seat and admitted that he had been in error and stated that he had no intention of doing an injustice to the leader of the Opposition.

How It Started.

The trouble arose over the hydro-electric report. For some days past Mr. Rowell has been questioning the Premier as to when the House might expect this report to be laid upon the table. The invariable reply of the Premier was that the congestion of work in the offices of the King's printer was responsible.

After Mr. T. R. Atkinson (North Norfolk) had concluded his contribution to the budget debate, Sir James arose. "I have made the discovery," said Sir James, "that the draft copy of the hydro-electric report, which we sent down to be printed, instead of being in the hands of the printer, has been lying on the desk of the leader of the Opposition for several days. In fact, since Friday last, I have here his receipt given to the printer, showing that he took it from the department. He has been holding that draft of the report improperly, and at the same time calling upon the Government for an explanation. What renders it unbearable for me is to know that all the time he was asking in this House some time ago for the report he must have known that his improper retention of the copy was the direct cause of the report not being printed. Such conduct is possessing qualities which it would be unparliamentary procedure to mention."

Mr. Rowell Hits Back.

In an instant Mr. Rowell was on his feet. "It is a false and misleading statement," he replied. "I had that report here for the purpose which you pointed out to the House a while ago, to show that it did not contain the necessary financial statements which we could give out to the public. We have been told in the House repeatedly by the Prime Minister himself that the report had been sent down to the printers complete, and I drew from this draft the statements of the Prime Minister had no foundation. It is only a few minutes ago that the honorable Provincial Secretary said openly that the copy which I hold was only a duplicate, that it was put here for the use of any members of the House who wished to consult it, and that there was another copy in the hands of the printers."

Whitney Rebuked.

"That is absolutely untrue, and has no justification," retorted Mr. Rowell. "It is of the character of the basest charges which the Prime Minister is constantly making in this Assembly. That copy was sent for in the regular manner, and I was only acting upon the

presumption that the Prime Minister's words were true, that when he told us before there was a duplicate copy in the hands of the printer, we could accept it as true."

"I believed them to be true," interjected Sir James. "Then we can have the matter looked into," said Mr. Rowell. "No," replied Sir James, "I will settle with my honorable friend right here. We have found that bunch of documents were not in the hands of the printer, and instead that they were improperly retained by the leader of the Opposition, who raises the cry of delay. Instead of allowing the honorable member such attacks for the copy, gets it, keeps it several days, and after that he is not ashamed to stand up there and ask when the reports are to come from the printer's hands."

Up to Hanna.

Mr. Rowell, pointing to Hon. Mr. Hanna, said: "We will simply ask the Provincial Secretary if he did not say in the House not an hour ago that my copy was a duplicate, that the original was with the printers?" "The statement I made," said Mr. Hanna, "was strictly in accordance with the information which was given me and which I have believed to be correct for two weeks."

"Then, because I am of exactly the same impression as the Provincial Secretary," said Mr. Rowell, "I am to be subjected to this attack. Surely, as I shared the belief of the Provincial Secretary, I am not to be the subject of such attacks in view of the fact that the Prime Minister himself is the most frequent transgressor and there is no one stops him."

Can't Ride Rough Shod.

"Then let him find the means of taking it," retorted Mr. Rowell. "The House learns that he cannot ride rough shod over me or the Opposition members, or the people of this province, the better it will be for himself."

Then Mr. Proudfoot (Centre Huron) reminded the House that as long as ten days ago the chairman of the hydro-electric commission had told him that the original copy of the report was in the hands of the printer. The honorable gentleman has nothing to do with it," protested Sir James.

"It is my business," insisted Mr. Proudfoot, "that fact was told me and you are making a most unwarranted charge."

Following this the Speaker arose and said he was sure Mr. Rowell was not up in his seat to explain. "I would not knowingly do anybody an injustice," he said, "as far as I understand the matter now, the fact that one copy of the report was kept here is of no consequence. The fact remains, however, that the copy was not sent down to the printer and kept there. If the leader of the Opposition will say that he understood from the chairman of the commission that there were four or five copies of the report—"

Sir James Apologizes.

The anti-climax came as the House rose for dinner. Sir James got up in his seat to explain. "I would not knowingly do anybody an injustice," he said, "as far as I understand the matter now, the fact that one copy of the report was kept here is of no consequence. The fact remains, however, that the copy was not sent down to the printer and kept there. If the leader of the Opposition will say that he understood from the chairman of the commission that there were four or five copies of the report—"

"I understood that several days ago," said Mr. Rowell.

"If so, that relieves him from any responsibility, and I am glad to be able to say so," replied Sir James.

More Personalities.

A renewal of the personalities indulged in between Mr. J. G. Anderson (South Norfolk) and Mr. A. C. Pratt (North Norfolk) on Monday, came yesterday afternoon in the course of the budget debate, when Mr. Pratt, in his speech, in a veiled manner alluded to what Mr. Anderson had said the previous day in his attack upon the experimental fruit farm at Jordan Harbour. Mr. Anderson simply asked the member for South Norfolk to renew his charges.

Mr. Pratt also indulged in further opprobrious words. While dealing with the work done by the department of agriculture under the direction of the Whitney Government in connection with immigration he declared that the Laurier Government at Ottawa had been antagonistic to the farmers of Ontario. He said, "Scratch a member

of the Laurier following and you will find an enemy to the farmer of Ontario. I will go farther and say, 'Scratch a Liberal in this House and you will find an enemy to Great Britain.'"

Mr. C. M. Bowman (North Bruce), who followed Mr. Pratt in the debate, declared that the member for South Norfolk had insulted the intelligence of the people of one-half of the Dominion by declaring that the Liberals were disloyal to the mother country and that Mr. Pratt had made an unsatisfactory exhibition of himself. He referred to the expenditure on new Government lands as "wanton and extravagant." The places would cost not less than \$750,000. The capitalized cost of maintenance would be \$1,000,000, and the site was altogether unsuitable and unsatisfactory.

BOARD OF HEALTH TO SEND DELEGATES

Dr. Hutchinson and Mr. Wm. Abbott Will Attend Dr. Friedman's Clinic.

Dr. Hutchinson, medical health officer, and Mr. William Abbott were elected delegates to Dr. Friedman's clinic at Ottawa at a meeting of the board of health on Tuesday afternoon. They left for Ottawa Tuesday evening. Cars have been fitted up as a health exhibit by the provincial board, and these will be in London on the 17th and 18th of this month. On one of these a lecture on health, illustrated by moving pictures, will be given in the Auditorium.

Little Disease.

Very few cases of contagious diseases were reported to the board during the month of February. A recent analysis of the Springbank water showed the city's water supply to be pure. A communication was received from Dr. Amyot, the provincial analyst, relating to the city's ice supply, but on motion of Mr. J. R. Haslett this was laid on the table and action deferred.

Attention was called to the practice of spitting in street cars, and a communication will be addressed to Superintendent Young, asking him to see that signs prohibiting it are in place in all the cars.

Dr. Burton, chairman, presided at the meeting.

At the meeting of the board on Tuesday, the following business was transacted:

BABY MINE MAKES HIT AT THE GRAND

Leading Parts Well Played and
Supported by Minor
Parts.

"If you had told the truth to your husband about that lunch," Margaret Jinks in "Baby Mine," Margaret May's funny farce, which was played at the Grand Tuesday night to a highly-amused audience, "we would never have got into this trouble."

"And if you had tipped that waiter large enough," replies the petulant Zoie, "he wouldn't have told."

Poor Jimmy Jinks did appear to be treated rather unfairly. In this original role, Walter Jones was perfectly natural and irresistibly funny.

Marjorie Cortland is almost ideally adapted to the part of the childlike, clinging, dancing, pointing, womanlike Zoie.

A Happy Suggestion. Zoie does not care for babies, but when her husband leaves her as a result of the suggestion of Aggie, Jimmy's wife, that she adopt a baby in her husband's absence, and foot him, as a New York paper, credits 300 other Chicago women with successfully doing.

To Jimmy falls all the embarrassing work planned by the two female conspirators, but he bungles slightly, and the happy father, called home by a telegram announcing the birth of a child, finds himself before the play concludes, the father of three of them.

It is a terrible shock to him when the real parents, after having the police, refuse to take their children. But there is one shock greater to have his wife volunteer to tell him the real truth after deceiving him so cruelly.

Benedict MacQuarrie, as Alfred Hardy, the baby-loving husband, is a very fair actor. Vera Rial plays the part of Aggie, the fourth principal, very well. The minor parts are satisfactorily taken, the work of Isabel Windt as Maggie O'Flaherty, sister of the twins, being especially creditable.

CLEVER CAPTURE OF TEESWATER BURGLAR

Tracks Made by New Rubbers
Were Followed For Ten
Miles.

[Special to The Advertiser.] Teeswater, March 12.—The local police are receiving great credit for their speedy work in connection with the arrest of John Carson, the Englishman who was sentenced to 18 months in the Central for theft at Walkerton on Monday.

Carson's capture was due directly to prompt action. Walter Rowe, of the Electric Light Company, while engaged in his duties Monday night, noticed a store of R. J. Mann, 10th, who was long past closing time, he telephoned and aroused the owner, who on arriving at his store found the proof of the burglar's work. An entrance had been effected before 8 o'clock, and the burglar got to work. He filled a suitcase with boots and socks, ties, gloves, etc., appropriated a valuable fur coat, and cleaned up the money till.

At once Constable Ryan, Will Mann and W. Rowe tracked him by new rubber marks in the snow, and caught up with him some five or six miles away on the 10th concession of Cullross.

When confronted, he was compelled to own up, and was brought back to town, where he was brought before S. R. Brill, the justice of the peace, and was held safely in jail. The stolen goods were returned to the owner. Ratepayers are called upon to vote their opinion in connection with the proposed Carnegie donation for a public library, and while the council may move it itself, it desires to get the feeling of the citizens.

Rev. J. J. Haylock will take the work on the circuit on Sunday next, the Sunday last, Rev. A. J. Langford, of Kincardine, preached educational sermons, morning and evening in the Methodist Church.

Rev. Mr. Haylock was called to take the work on the Brussels charge last Sunday, as the pastor, Rev. Dr. Oaten, is under medical care.

HOW MR. BORDEN STAGED THE CHURCHILL LETTER

Did Not Tell Sir Wilfrid of
Intention Although Latter
Was His Guest.

Ottawa, March 11.—The staging of Premier Borden's final play to the galleries last night and the manner in which the scenes were set was characteristic. The "emergency" was sprung on Mr. Borden last night, and with the same eye to spectacular effect. The Premier's speech was deliberately handed out to the press and was in type and even published both in Canada and in Britain in full before it was read to Parliament.

The same Rogeristic type of political strategy was employed in the firing of the last Government bullet. Yesterday afternoon, in response to repeated demands from Sir Wilfrid Laurier and his followers for the production of all the official correspondence dealing with the Government's statement as to cost of building, the Premier declared that the Premier's letter was confidential and could not be disclosed. He promised, however, to see what could be done in the way of securing its release for presentation to Parliament.

A few hours afterwards Sir Wilfrid Laurier was the guest of the Premier at a dinner at the latter's home, given in honor of Right Hon. J. B. Hays, ex-Prime Minister of the United States. At the conclusion of the dinner Sir Wilfrid bade good-bye to his host and left for home. The Premier, without giving the Liberal leader any intimation of the coming grand play in the Commons chamber, ended to his followers had already been summoned. Then amid enthusiastic cheers of the "Little Canada" ministerial Premier Borden announced that Mr. Churchill had answered "on Sunday" giving authority for making public the full text of the correspondence for which Sir Wilfrid had asked in the afternoon. The Churchill letter was thereupon read, Mr. Borden did not finish until after midnight, when obviously any counter attack from the small Liberal relay on duty, who were not even furnished with a copy of the correspondence, had little chance of getting publicity.

GODERICH D. O. E. ELECT OFFICERS

Mrs. D. McDonald Was Elected Regent at a Big Meeting.

[Special to The Advertiser.] Goderich, March 11.—The annual meeting of the General Brough Chapter of the Imperial Order of the Daughters of the Empire was held yesterday afternoon in the jury room at the court house. The following officers were elected for the coming year: Regent, Mrs. D. McDonald; vice-regent, Mrs. George Williams; secretary, Miss George Williams; treasurer, Miss Alex. Saunders; standard-bearer, Miss Grace Rhynas. After the meeting Rev. Mr. George Ross gave an interesting address on "Loyalty."

Miss Isabel Proudfoot gave a tea in honor of Miss Kathleen Clark, of St. Catharines, today.

P. P. Knox, of Detroit, is spending a few days with friends here.

BURIED AT FOREST

Mrs. Cecil Head Had Only Been Ill for a Short Time.

[Special to The Advertiser.] Forest, March 11.—The funeral of Maggie Frayne, wife of Cecil Head, was held yesterday from their home, Gore street, to the Methodist Church, afterwards by Rev. A. J. Thomas, assisted by Rev. Walter Cannon.

The pallbearers were Lorne and Frank Platter, Frank Freese and Frank Proctor, George Culley and Roy McFarlane. Among other a handsome floral tribute was sent to the

house by the employees of the Forest Basket Factory, where Mr. Head is employed.

Besides her husband she is mourned by her father, seven brothers and a sister, Anson, of Lethbridge, Alta.; Gilbert, of the Toronto Veterinary College; Adam and Richard, of Sarnia; Reuben, Abram and Orlo, of Bosanquet. She was married the 6th of March, 1912, and her mother died in May of last year.

NEW ZURICH FACTORY WANTS BONUS MONEY

Alleged That the Firm Is Not
Employing Number Verbally
Agreed Upon.

[Special to The Advertiser.] Zurich, March 12.—The recently-acquired Jackson Manufacturing Company, Zurich's new industry, has demanded the bonus of \$200 offered for the establishment of its works here. There was, it is alleged a verbal understanding that the factory would give employment to 25 people. There are less than a dozen employed at present, and none of the operators, it is claimed, have reached half the wages pictured at the beginning.

Owing to the quarantine at Exeter, no goods are coming to Zurich from that town.

The hockey match between Zurich and Seaford played at Hensall Monday night was won by Zurich by a score of 3 to 5.

A Liberal Club for Zurich is one of the possibilities for next week. Already material is being looked over for winning candidates. The township being Liberal, and the village about equally divided, an easy victory in this district is assured.

The herring fishing at St. Joseph will be of short duration if the sunny weather continues. The catch so far has been very small.

Over 1,000 live hogs have been shipped from this point during the last two days. The price was \$9.20 per hundred weight.

Real estate is moving some.

BIG DEMAND FOR CATTLE AT GORRIE

Shipments for the Year Totalled Over Half a Million.

[Special to The Advertiser.] Gorrie, March 12.—Why go West? Yesterday at the station one could have imagined it was fair time. Five cars of cattle were shipped at prices ranging from 6 1/2 to 7 cents. Three cars of hogs at \$9.15 per hundredweight.

It is estimated that in this town a half-million of dollars are turned over in a year in hogs and cattle. For mixed farming there is no better country in the province than Huron.

At the Methodist Church on Sunday evening, the pastor gave an account of the Dominion Alliance convention. Great interest is being aroused in view of the call for a temperance convention to be held in Clinton on March 20 for Huron County. It is expected that steps will be taken to inaugurate a county movement to abolish the bars under the Canada temperance act.

CAPT. M'DOUGALL STRICKEN SUDDENLY

Widely-Known Skipper on Canadian Lakes Died at Paisley.

[Special to The Advertiser.] Paisley, March 11.—The funeral of Capt. Alexander McDougall took place from his late residence, Queen street south, yesterday afternoon and was largely attended. He was in his 46th year and came here from Glasgow, Scotland, about twelve years ago. He had been the captain of a steamboat between Glasgow and Wales. For some years he sailed on Canadian lakes. Until four years ago he became crippled by rheumatism and was disabled from active work. He died suddenly on Saturday afternoon from heart failure. He is survived by two daughters, Cassie and Dolly. The funeral was in charge of the Masonic Order. Interment was made in Starivale Cemetery.

Mr. William Giles, of Calgary, is here on a business trip.

Mrs. E. J. McIntyre, of Toronto, is a guest at the home of her sister, Mrs. H. B. Putnam.

Word came to relatives today of the death of Mr. David McIntyre, of Regina, son of Mr. Donald McIntyre, formerly of Locherbie. The deceased died following an operation for appendicitis. The remains are expected here on Thursday to be interred in Paisley Cemetery.

CAMLACHIE MEETING

Fine Program of Young People's Society Was Thoroughly Enjoyed.

[Special to The Advertiser.] Camlachie, March 11.—At the regular meeting of the Y. P. A., held in the Methodist Church, the topic for the evening was "Conscience," which was given by Wm. MacRobert. A splendid paper was given by Wm. MacRobert on the topic. Miss C. McCordie read the Scripture lesson, and Oliver Crawford gave a reading also. Mr. W. Mathews rendered a solo most acceptably, and the president closed the meeting with prayer.

The literary meeting was a grand success. The Y. P. A. had hoped and expected to have Vesper Literary Society at this meeting to debate, "Resolved, that automobiles and telephones had done more for the country than good roads and rural mails," but were disappointed. However, two capable parties of the Y. P. A. took the debate in hand at a later date, but were defeated by the affirmative side by two points.

Other items of the program were solos rendered by Mrs. MacRoberts and Miss C. McCordie. Miss C. Alexander gave two humorous readings.

The social evening will be held in the Maccabe Hall on March 12.

THE SQUARE DEAL PAYS.

And square with the enemy every man gets when he separates himself from his corn by Putnam's Corn Extractor. For fifty years "Putnam's" has cured every man it treated—use "Putnam's" only—It's painless and sure, 25c at all dealers.

Three Trips in One

A rail trip to New York, a 2,000-mile ocean voyage, a rail trip from New Orleans to your home—or, reverse the order of the trip, if it pleases you. You are not restricted to any particular rail line, in either case—you can have your choice.

All This for \$70

—and this price includes berth and your meals on ship. The tour takes twelve days, and you have the privilege of prolonging it by stopping over at New York or New Orleans and other points.

This trip would be inexpensive if you had only the five days at sea on one of the magnificent 10,000-ton

Southern Pacific Steamships

Make your reservation today. Write to E. A. MACON, General Agent, Hamond Building, Detroit, Michigan.

THE HOME BANK OF CANADA

For persons who have not the time to worry about their investments, there is no more convenient or safe method of securing an adequate return upon surplus cash, or funds, than through a deposit account in a chartered bank. The principal remains absolutely secure and available, with compound interest added upon demand any hour during a banking day.

Head Office, TORONTO, James Mason, General Manager. Branches in Middlesex County: London, Komoka, Delaware, Ilderton, Thorndale, Lawrence, Melbourne, 394 RICHMOND STREET. W. J. HILL, MANAGER.

What a Savings Account is

A savings account is the best and truest friend on earth. It asks no why and wherefore, but returns your dollars with interest when required most. It tides over trouble and makes advancement possible when no other friend can.

The growth of a savings account depends largely on the interest paid. Our depositors receive 3 1/2 per cent. compound interest.

Tomorrow's Weather—Showery by Night. LONDON, ONTARIO, WEDNESDAY, MARCH 12, 1913. Sun Rises Tomorrow, 6:34; Sets, 6:21.

South London Progressives Are Unanimous for a Subway

After Considerable Discussion at a Meeting Tuesday Night a Committee Was Appointed to Confer With Board of Works on the Question—Condition of Roads Was Also Discussed.

At a meeting of the South London Progressive Association held on Tuesday evening, Mr. William Gray introduced the matter of a subway at the G. T. R. crossing on Ridout street, and stated that the proposal should receive the support of the association. Mr. Gray pointed out that the proposed scheme has been brought prominently before the public notice, and that the present time was the most opportune at which to take steps towards obtaining the subway.

Many Killed on Level Crossings. The discussion on the question was lengthy and nearly every member present took part. All were in favor of the creation of a subway at this crossing, but several advised that no hasty action be taken. Mr. William West said that the proposition was not one of the cost; it was the saving of human life. During the 40 years that I have lived in this city there have been 100 lives lost on level crossings," was the startling statement of Mr. West.

Upon motion of Mr. West, the hearty sympathy and support of the association was given to Dr. Stevenson and the other supporters of the proposal, and a committee composed of Messrs. Gerry, Lawrence and West was appointed to meet the board of works on Thursday evening and ask that the scheme be investigated.

Condition of Roads Discussed. As usual the condition of the roads of that section of the city were discussed at great length, and a large delegation will wait on the council next Monday and ask that improvements be made as soon as possible. One or two members of the association, who are large property owners,

were in favor of street improvements being paid out of the general fund, but the opinion of the majority was that the present method of paying according to frontage was the best. The meeting was almost unanimously in favor of the initiation scheme being continued.

Similar delegations will also be present from the East and West London associations, and the Progressives are hopeful that the results will be beneficial to all parts of the city.

Better Car Service. The committee appointed to confer with the Street Railway Company in regard to better car service in the morning reported that the company was desirous of giving the best service possible, and that arrangements had been made whereby the first Ridout car would turn at Horton and Ridout streets, and go east to Richmond, thus making better connections for the east end manufacturing districts. The committee was enlarged and requested to again interview the officials and ask that further improvements in the service be made.

Mr. W. Smith, of the committee appointed in connection with the installation of a clock in the Normal School tower, stated that he was in communication with Hon. Adam Beck and would report as soon as he received an answer.

Messrs. Gray and Gerry who waited on the board of works last Thursday stated that the committee promised to supply the association with all possible information as soon as possible in regard to the cost of the various kinds of pavements, and also the streets in South London, on which storm sewers would be laid.

PURCHASES LAND FOR SCHOOL PLAYGROUNDS

Trustee Hunt Successful in Buying Property on Grey St. for Aberdeen School Yard.

Trustee A. M. Hunt on Tuesday completed the purchase arrangements for the seven lots on Grey street, which were necessary for the site of the new Aberdeen school. The owners of four of the lots agreed to terms some time ago, but those who owned the remaining three and the school board could not agree as to the price for some time, and it was thought that arbitration would be necessary, but Trustee Hunt managed to make arrangements that were satisfactory to all concerned.

WANT BRIDGE HIGH UP. A deputation from the London Rowing Club will wait on the board of works Thursday night to urge that the Wharfedale road bridge be erected high enough above the water level to allow excursion steamers to operate on the Thames.

MEN THROWN FROM STEPS

Rear Trucks of Dundas Car Take the Wrong Switch at Dundas and Lyle Streets.

Several men narrowly escaped serious injury on their way home from work Tuesday evening, when one of the trucks on a large car took the wrong switch at the corner of Dundas and Lyle streets, and threw them from the steps to the pavement. One man narrowly missed colliding with a telegraph pole at the corner.

The car, which was heavily loaded, was proceeding east at a slow speed. The front truck took the proper switch, but the rear ones turned into the switch leading to the barns. No one was seriously injured.

DOG KILLED BY CAR

A valuable hound was cut clean in half by a Wellington street car north of the Wellington street bridge on Tuesday night. Several cars passed over the severed carcass and it lay there for almost three hours before an attempt was made to remove the remains.

BRANTFORD MEN AFTER EAST LONDON PROPERTY

After Piece of Land East of Interswitching For Which \$3,000 Is Asked.

People all over this section of Ontario are hearing of the boom which has taken hold of London, and numbers of inquiries about land for sale and prices are being received by local real estate men every day. A Brantford syndicate is anxious to secure a piece of land in East London and has been dickering with a local real estate man for a plot east of the Dominion Office and Store Fitting Company. There is about three-quarters of an acre in the piece, and the price asked for it is \$3,000. It is expected that the deal will be made this week.

A New Feature

This "Greater London" section has been started for readers of The Advertiser living in the outlying districts of the city, and will deal with questions of importance to Chelsea Green, Ealing, Pottersburg, Knollwood Park, West, and South London.

Anyone having items which they would like to have appear in the paper should telephone them to 3670, or send them by mail.

LONDONERS NARROWLY ESCAPE FROM FIRE

Asleep in a Caboose Which Caught Fire in the Sarnia Yards Tuesday Night.

Conductor J. E. Pook, of Oak street, and Brakeman W. Nicholls, both employees of the Grand Trunk, nearly lost their lives in a fire at Sarnia Tunnel Tuesday night.

Both men were asleep in their van, which had been shunted into the yards at the Tunnel, and which in some unaccountable manner caught on fire. The whole interior was blazing fiercely when the men awoke, and it was with some difficulty that they made their escape.

The van was totally burned.

SMALL FIRE DAMAGES EAST LONDON HOUSE

Firemen Were Delayed at Rectory Street Crossing by a Freight and \$150 Damage Was Done.

Fire of unknown origin did damage to the extent of \$150 to a boarding house owned by Mr. G. Booth, at the corner of Simcoe and Rectory streets, shortly after 9 o'clock on Tuesday afternoon. The building, which is owned by Mr. E. Barne, is a frame structure, and the flames started in the back wall. The firemen responded promptly, but service was delayed by a freight car crossing the Rectory street crossing of the Grand Trunk. Several houses were burned through a wall in a back room before the flames were extinguished.

HUNDREDS OF HOUSES ERECTED IN EALING

Two Hundred Houses Built in the Past Two Years—All Owned By Workmen.

HOMES ARE A CREDIT

Many Real Estate Deals Have Been Made in That District in Past Week.

Ealing is growing abnormally; in fact, the growth in that section has been such in the past two years that if a man, who had been absent from the city for some time, should walk out the Hamilton road as far as the present city limits, he would not recognize the place, and would think that he was in some other city.

Two years ago there were barren fields stretching all the way from the Hamilton road, east of Egerton street to Pine street. Today there are hundreds of houses located all through that district, and every one of them is a credit to the workman who built or who owns them.

Pretty frame and brick cottages vie with red brick story and a half and two story residences, and are not a bit ashamed of any comparison which anyone might be tempted to make. The front lawns in summer are well kept, and the back yards are a credit to any section of the city.

One can hardly believe the numerous changes that have taken place in that district unless he should journey out there and see for himself.

Cement sidewalks have taken the place of grass walks, and fences, well-kept, divide the lots on which are located the little homes. Truly it is a workman's paradise, and much credit is due to the men and their thrifty wives, who have worked and saved in an endeavor to secure a modest home for themselves and children.

Great Demand for Houses. It is safe to estimate the number of new houses in that section at 200, and not one of them are vacant; in fact, storekeepers in that vicinity report a great demand, which cannot be filled for houses.

A number of lots are being staked out and preparations are being made to erect houses on them this spring, but it is said that 100 houses would not begin to supply the demand.

A number of sales have been reported in that district lately and several houses on vacant land, which were refused have also been made. A grocer, whose place of business is on the Hamilton road, offered \$5,000 for a seven-acre tract of land on the south side of the Hamilton road, east of Pine street, but it was refused.

Mr. J. Pearson sold a cottage on Delaware avenue this week to Mr. A. Winnett for \$1,100.

Mr. A. Jorgensen disposed of two cottages on Madison avenue, one for \$650 and the other for \$1,100. Mr. R. Baker purchased a lot from Mr. W. Clark on Hume street for \$300 on which he will erect a residence, and Mr. A. McMillan refused \$3,000 for a store and stock which he owns on the Hamilton road.

CO-OPERATIVE STORE PROVES A SUCCESS

Meat Store Patronized By West Londoners Has Done \$1,500 Worth of Business in Three Weeks.

The first meeting since its inception of the West London Co-Operative Association was held in Empress avenue school last evening, operated by the association was shown to be a great success, the president, Mr. E. Pococke, producing figures to show that during the seven weeks it has been in operation over \$1,500 of business has been done.

He explained the advantages of the plan to the large number who attended the meeting, and asked for an increased membership of the association to enable the residents of West London to still further benefit by the co-operative principles of the store.

With the growth of the business, it is intended to branch out into other lines, such as groceries and coal. A number of ladies and gentlemen spoke in support of the claims made by Mr. Pococke, stating that they had found the store a success, and that it was doing much to cheapen the cost of living.

Giving Irish Play. Arrangements are being made by the St. Mary's Dramatic Club to produce the "Irish Outlaw," by Bernard Moore, on the evening of the 17th of March. Talent from outside points has been secured, and it is expected that the play will be the best ever put on by the Dramatic Club.

Application to Parliament. Notice is hereby given that an application will be made by the Corporation of the City of London to the Legislature, at its present session, for an act:

1.—To authorize the Council of the Corporation to pass a bylaw to issue debentures to the extent of \$72,000, without submitting the bylaw to or receiving the assent of the electors, for the water commissioners for the City of London to provide for additional equipment, plant and apparatus, main and other extensions and services, workshop and storerooms.

2.—To authorize the Council of the Corporation to pass a bylaw to issue debentures to the extent of \$110,000, without submitting the bylaw to or receiving the assent of the electors, for the water commissioners for the City of London to provide for a power generation plant at Springbank Park, for additional equipment, extensions and additions to the electric light plant of the City of London, for the purchase of meters and other apparatus, and for the erection of new workshops.

The existing debenture debt of the city is as follows, and no portion thereof is in arrears:

General debenture debt.....\$2,353,510 83
Waterworks debenture debt.....865,859 26
Electrical Department debenture debt.....875,420 36
Sewerage and Public Library debenture debt.....275,400 00
City's share of local improvement debenture debt.....163,467 64
\$4,033,658 19

3.—The issue of the debentures referred to in the first paragraph hereof is for the purpose of providing additions, extensions and other work necessary to meet the increased demand for water, and to provide for the portions of the Townships of London and Westminster recently annexed to the city.

4.—The issue of the debentures referred to in the second paragraph hereof is for the purpose of providing a power generation plant for load factor correction at Springbank Park, for the enlargement of the hydro-electric plant to meet the additional demand for electric power and light, and to provide for the portion of the Townships of London and Westminster recently annexed to the city.

5.—And for other purposes. Dated at London, this 4th day of February, A. D. 1913.

S. BAKER, City Clerk.

The Best Cook in London

undoubtedly uses Strong's Baking Powder. The best cooks everywhere generally use the best materials, and Strong's Baking Powder is the best material for leavening that can be made. You can pay more for baking powder, but it is impossible to get anything purer. Government analysis proves it. This baking powder insures lightness, whiteness and deliciousness in every batch of biscuits made. Costs but 25 cents a pound.

CITY WILL ADVERTISE FOR PUBLICITY MAN
J. Grant Henderson's Resignation Accepted by Industries Committee.
No appointment was made at the meeting of the manufacturers' committee yesterday to the position of industrial commissioner, made vacant by the resignation of J. Grant Henderson, to take effect April 1. Six applications were received. All with the exception of E. S. Smith, of Strathroy, were local men.
J. Harry Bastla, urged the appointment of an experienced man, and he moved that the matter be laid over until advertisements for a new commissioner should be published in local and Toronto newspapers.
The resignation of Mr. Henderson was accepted on the motion of Ald. Saunders and Ald. Stein. Ald. Stein said that Mr. Henderson had done his best to his duties zealously and had done his best to further the interests of the city.
The city will provide a hall for the 600 delegates to the Canadian Order of Foresters' convention to be held in London in June.
Steps will also be taken to procure a hall for the Ancient Order of Foresters' subsidiary court convention here in August.

AWARDED \$108
Vulcan Manufacturing Company Wins Action for Goods Supplied.
The Vulcan Manufacturing Company has been awarded \$108.40, in interest, in a judgment handed down in connection with the action of Vulcan against Simpson, which was tried at the December assizes. At the time of trial judgment was reserved and since then an order was made at the weekly court, ordering that the evil.

Eczema Is Caused By Impure Blood
Cured by Dr. Williams' Pink Pills Because They Make Pure Blood.
Ask any doctor and he will tell you that eczema is caused by impurities in the blood; that nothing can cure it, does not reach the blood—that salves and outward applications are worthless and a waste of money. The reason why Dr. Williams' Pink Pills have always been so successful in curing this most annoying trouble is because they act directly on the blood, reaching the root of the trouble and driving out all impurities. They banish eczema, salt rheum and unsightly pimples and eruptions, relieve the irritation and itching and give perfect health. Mrs. A. P. Pilling, of Milestone, Sask., says: "I was afflicted with a blood and skin disease, which the doctor called eczema, but which did not yield in the least to his treatment. I was covered with sores and in very bad shape. A friend advised me to take Dr. Williams' Pink Pills and after using eight or nine boxes I was completely cured. I can strongly recommend the Pills to anyone suffering from that trouble."
A medicine that can make new, red blood will cure not only skin troubles, but also anaemia, rheumatism, neuralgia, indigestion and a host of other troubles simply because these troubles are the result of bad blood. Dr. Williams' Pink Pills make new blood and under their use blood and nerve troubles disappear. Sold by all medicine dealers or by mail at cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Company, Brockville, Ont.

Auto Men Dislike Proposed Measure
Licensing of All Drivers Does Not Meet With Their Approval.
It is not likely that Mr. George H. Gooderham's measure which is being introduced into Parliament this week to the effect that all automobile drivers be licensed, will meet with any favor from the London and Western Ontario Motor Club or with motorists in general.
The Toronto branch of the Ontario Motor League are also violently up in arms over the measure, and are sending a deputation to the government buildings who will voice against the proposed legislation.
Mr. G. M. Reid, president of the local club, considers that it is too radical a step to take yet, but says it might have a few good points. He states that the great majority of drivers of motor cars are competent men, and fully qualified to drive a car. Accidents, he says, will occur with experienced men very frequently, and to enact legislation for the prevention of accidents would be of little use.

Maple Syrup Season Commencing Early
Farmers Are Buying Their Sap Buckets, Spouts and Paraphernalia.
This mild touch of spring weather has inaugurated the delightful maple syrup making season. March 11, is a little earlier than usual, and the sap is already oozing through the bark. Some have tapped the maple trees, and the country maidens and rural swains make a raid on the maple woods, but from all appearances they are about to start.
Buying Paraphernalia.
Farmers attending the local market Tuesday report that the season is at hand, and that the sap is already oozing through the bark. Some have tapped the maple trees, and the country maidens and rural swains make a raid on the maple woods, but from all appearances they are about to start.

Stop Neglecting Your Stomach
Stuart's Dyspepsia Tablets Will Do the Work of the Strongest and Healthiest Stomach and Afford Instant Relief.
The worst case of indigestion is simply neglect to give the stomach needed assistance.
When your food does not digest, when you get that uncomfortable feeling of fullness, when the breath is foul, the tongue coated, and that sour taste in the mouth—take a Stuart's Dyspepsia Tablet and watch how quickly every one of these symptoms disappears.

DAUGHTER IN LONDON
Late Charles Hodder Had Resided in Dutton For Many Years.
[Special to The Advertiser.]
Dutton, March 11.—Charles N. Hodder, aged 60, for over a quarter of a century in the bakery and confectionery business here, is dead at his home after an illness extending over many months. Besides his wife, he leaves to mourn his loss six daughters, Misses Annie, Maude, Emma, Lily and Mary, at home, and Miss Edith, of the London Normal School. Two brothers and five sisters also survive: John J. Hodder and Joseph Hodder, of Dunwich; Mrs. Henry Selman, Mrs. William May, Mrs. Frank Peck and Miss Alice Hodder, of Vancouver, B. C., and Mrs. Nat. Humphries, of Plymouth, Mich.
The funeral will take place on Wednesday at Fairview Cemetery.

For Freckled, Rough or Spotty Complexions
[From The Dermatologist.]
The freckling, disfiguring or roughening to which delicate skins are subject after exposure to wind or sun, often appearing in early spring, may readily be gotten rid of. Mercurized wax, spread lightly over the face before retiring and removed in the morning with soap and water, completely peels off the disfigured skin. Get an ounce of the wax at any druggist's. There's no more effective way of banishing freckles or other cutaneous defects. Little skin particles come off each day, so the process doesn't even temporarily mar the complexion, and one soon acquires a brand new, spotless, girlishly beautiful face.
Wrinkles caused by weather, worry or illness, are best treated by a simple equation of powdered sassafras, one ounce, dissolved in a half pint witch hazel. Bathing the face in this produces a truly marvelous transformation.
