Ives' Brass Beds give brightness and dignity to a room.

Many artistic home furnishers have adopted the metal bed instead of the cumbrous and sometimes unsanitary wooden beds. A metal bed adds grace and beauty to a room, imparts an atmosphere of dignity oftentimes hard to secure with a wooden bed. Its lines are light and graceful and if it is an Ives bed it will be handsome and artistic in design.

Ives beds are always beautifully designed because Ives artists are the most proficient metal designers in America. They have made Ives famous for high class metal bank and hotel

British Columbia will be the only province giving a medium to full crop. The Dominion as a whole will proauce about one-third as many apples as last year, but the fruit will be free from scab, but somewhat more infected with codiin moth. There is also a general consensus of opinion that the present favorable weather conditions and light crop will cause the apples now on the trees to fill out much betway to the market, so that the final result in barrels will be larger than present indications might otherwise justify. OTHER FRUITS.

With the exception of British Columbia, all districts show a light pear crop. No full crops are reported except in Keiffers, Bartletts and Clapps are that, as they state, I cured them after

The jail was storm, the would-be lynchers commanded the broad stairs leading to the doors of the court house, and with drawn pistols firing over the head of the crowd and the police who attempted to enter. Inside a mob battered at the big steel doors, but without success. In the upper corridors, were stationed a number of deputy sheriffs with rifles and revolvers, and this tended to hold the angry crowd back. The mob finally sent for dynamite, but those dispatched on the errand failed to return within an hour.

The annual fairs have their regular patrons, who, if they do not see as much as at a world's fair, have time and leisure to see everything well. They come with a serious purpose, and the majority of them have a local or personal interest in every department of the exhibition. The annual fairs have done and are doing a magnificent work. They have a permanent sphere of usefulness, which the managers will do well to keep steadily in view. Grand Trunk Pacific and C. P. R.

Not Parallel Lines. A traveler in the Canadian Northwest during the recent bye-elections in London and North Oxford was amazed at the utter absence of excitement over the school question Ontario and the old Conservative press are taking now. They are trying to persuade themselves and their readers that the farmers and prospective settlers who find themselves and their farms near the proposed line of the new transcontinental railway are up in arms against the construction of the road. Now, as a matter of fact, homesteaders and new-comers seek out surveys and there stake out their claims or buy their lands. Also, there is a great howl about paralleling the Canadian Pacific Railway. This is unavoidable. Now it is over. Monday was the last holiday. The boy had no heart for baseball or shinny or any noisy game. He got away from the crowd, and with one or two real chums he sauntered along the river bank. He did not select the smooth, flat stone and send it skimming over the shining water; but he lugged a small boulder to the water's edge and rolled or threw it "plunk" into the deepest, darkest hole in the riverbed, and turned sadly away. Through the jewels of the year, From the yellow uplands calling, Seeking her who still is dear. She, the beautiful, is near,

Through the smoke of burning summer, in splendor of the woodlar. In the whisper of the rill.

Meet and mingle in the blue: She can wander down the glory
To the places that she knew,
Where the happy lovers wandered
In the days when life was true.

So I think when days are sweetest And the world is wholly fair, She may sometimes steal upon me Through the dimness of the air, With the cross upon her bosom,

Once to meet her, ah! to greet her, That were happiness at last! That were bliss beyond our meetings In the autumn of the past.

MUTINOUS SAILORS

Disposition of Crews From the Czar's Ships in Baltic and Black Sea.

London, Sept. 6.-According to the St Petersburg correspondent of the Telegram, between 2,000 and 3,000 sailors of the Black Sea and Baltic fleets who were implicated in the recent disorders have been subjected to compulsory enrollment in the army. This is the final liquidation of the mutinies which went a great way toward explaining the Russian naval disaster in

he Sea of Japan.
Private reports from Libau concerning the courts martial there accentuate th previous information in regard to the total lack of discipline among the Black Sea and Baltic sailors, and the monumental incapacity of their sailors. It was found that the petty officers were wholly ignorant of elementary seamanship and their duties generally duties generally.

Tragic Death of Mrs. Mary Nind -Known as the "Little Bishop."

Detroit, Sept. 5. - Mrs. Mary C. Nind, of this city, called in loving respect "the little bishop" by thousands of Methodists all over the United States, perished Saturday in a hotel fire in Littleton, Mass. With her died a granddaughter, Lydia Nind.

The charred remains of Mrs. Nind, her granddaughter and Mrs. Eunice Knox were found Sunday morning in the ruins of the Millard House, after the fire which consumed the hotel on Saturday night had burned itself out. The bodies of Mrs. Knox and Lydia were but a few feet apart, showing that the former had left her room during the fire, probably to awaken and rescue the child. The remains of the latter were still in the bed upon which the little girl had been sleeping. The indications are that she died without awakening. Mrs. Nind went to Littleton in orde

How to Fool a Lazy Liver with Artificial Exercise

VERY serious Sickness has a small beginning. And, in nine cases out of ten that small beginning is

made in the Bowels. Indigestion, is the beginning of most diseases.

It paves the way for all others. Lack of excroise, hasty eating, improper food, are its first causes. Laziness, and postponment, permits It to grow into Chronic Constipation; which means life-long Discomfort. It isn't necessary to be sick-a-bed,

you know, in order to be mighty uncomfortable.

Even slight Indigestion affects the nerves, dulls the mind, and obscures the merry sunshine of Life. And, Indigestion once started,

grows fast, corrodes temperament, and discounts happiness, good cheer, It does that long before it puts

you on the Sick list. Every thinking Doctor knows why.

Professor Rand knew it. That's why he framed up for Students his famous formula for Happi-

ness, viz.: "Trust in God, and keep your Bowels open.' The Bowels need adjustment from time to time, just like a clock, or a

No "Good time" is humanly possible without this.

The time to adjust the Bowels is

The proper time to adjust them is the very minute you suspect they need adjustment.

Don't imagine the Carcaret is ineffective because it is pleasant to eat as Candy.

It acts as pleasantly as it tastes. It is as congenial to your Bowels as it is to your Palate.

It is not a "Bile-driver" which floods out your stomach today with fluid juices needed for tomorrow. But, it acts like Exercise, instead.

It stimulates the muscular lining of the Bowels and Intestines, so that they mechanically digest food and drive out the waste. This is why Cascarets differ from all Purgatives, Physic, Cathartics and Whirlwind Drugs that help today at

tomorrow's expense.

Cascarets are the only Bowel and Liver medicine that do not need to be used in larger doses every month you

use them. They do not gripe, weaken, nor

"upset your Stomach. Because, they are simply a Tonic to the Muscles of the Bowels.

They are safe to use as often as needed, and the doses can be diminished from time to time, Because previous doses permanently help to tone up the Muscles and Nerves that operate, the Bowels and Intestines.

The time to use a Cascaret is when you first suspect you need one. Begin carrying a box today, and note how Cascarets help your Happiness as well as your Health.

You can try Cascarets FREE before you buy. Write for Free Sample and booklet, "The Curse of Constipation," best ever printed on the subject. Address Sterling Remedy Company, 374 St. Paul Street,

THE NEW H. C. R. Tender a Complimentary Ban quet to Bro. Walter

Richards.

A banquet in honor of the high chief ranger of the A. O. F., Bro. Walter Richards, was given in the Foresters' Hall, East London, last night. It was a very successful affair, and reflected much credit on Court Forest City, the lodge of which Mr. Richards has been secretary for a quarter of a century. After the regular lodge meeting, during which Bro. A. O. Jeffery, past high chief ranger, and Bro. H. McPherson, district chief ranger, delivered congratulatory addresses, the members adjourned to the banqueting hall. After the repast had been partaken of, Toastmaster George Berry called the brethren to order and introduced the toast

Bro. Berry said that he had the honor of putting the ribbons on the officers of the first court in London. There was just one member of those days left. They were gathered together to celebrate the election of Bro. Walter Richards to the highest office in the gift of the society. Bro. Bro. Richards made a feeling reply. He had been taken completely by surprise. He thanked them for their uniform kindness to him, and especially for the address. He then briefly outlined his plans for the future. He intended working very hard for the order, and he was very anxious that the society should boom. He was going to pay special attention to companion courts and juvenile courts. A trip to the west was also on his program He declared he would not disgrace the position, but would endeavor to make

Not Ready to Resign.

Kingston. Sept. 6.—Mr. Thomas Dawson, sheriff of Frontenac for eight years, has been requested to send in his resignation. The reason given for this request is the allegation that he has been mixed up in political affairs. Sheriff Dawson has declined to comply with the request made of him, and demands an investigation into the charges of partisanship. Mr. Dawson denies having had anything to do with politics since his appointment, beyond acting as returning officer in several Frontenac elections.

TELEPHONE TALKS.

TO TELEPHONE USERS AND THE CENERAL PUBLIC,-

Government ownership and administration of the telephone has been urged as a remedy for certain imaginary grievances against the telephone service in Canada, which have been the stock-in-trade of certain professional agitators for some time.

European countries where the telephone is operated as a Government monopoly have been pointed to as examples which should be followed by the Dominion Government. We have already reviewed at length the results in Great' Britain of triple administration by Government, Municipalities and Company. We shall now review the conditions which prevail in several countries of Europe under exclusive Govern-

In France the Government owns and operates both local exchanges and long distance lines. The method adopted by the Government to obtain funds for Telephone development will be considered peculiar by most people in this country and would not meet with the approval of many Canadian municipalities.

The funds required by the Government to buy out the Company which originally exploited the business were borrowed from the Savings Bank Department. These moneys do not appear in the State's balance sheet for the telephone service and no interest or sinking fund is provided for, nor is deduction made for rent of offices and other expenses inevitable to very commercial enterprise. In addition to this the subscriber has to buy his own Telephone of a pattern approved by the Government and has to pay for a portion of

the line and the cost of installation. For extending the service into various provincial towns the method of financing was still more unique. The municipality advanced to the State the sums required for all the new installations and also for working and maintaining them, the loan to be repaid to the Municipality without interest by instalments taken from the receipts. The State did not bind itself with regard to the dates at which this peculiar repayment should take place. In this manner the general taxpayer has to bear the cost of the telephone service whether

he is a subscriber or not. The rates charged to subscribers for exchange service are: Paris, \$80.00 per annum; Lyons, \$60.00, and in the smaller towns, \$40.00 and \$30.00. There is no difference in the charges between office and residence service.

In our next Talk we shall review the general results in France of Government administration of this service.

Mr. Hamilton, who was in a mood for saying things last night, made a hit by declaring that there were more engineers employed on the West Lon-don breakwater than the French Government had employed on the Panama Canal. The statement tickled some of be properly treated until it had its own representatives at the aldermanic board. He declared the system of general voting to be bad, and blamed it for the present alleged neglect of West neers have only cost the breakwater account something under \$150.

Mr. Graydon declares Mr. Hamilton o be a very fine fellow, but he says mark.

Mayor Campbell is still devoting much time to the matter of procuring and for park purposes. Today his worship went over several offers which the city received some time ago, and he came to the conclusion that the prices asked are exorbitant. One man asked the neat sum of \$2,000 for an acre lot on the corner of High street and Grand avenue. Others of the offers were similarly high.

His worship says that the city will never be able to take money for new parks out of the taxes of any one year. Consequently, it is his idea to pick out a piece of ground suitable for a park in each part of the city, and then submit a bylaw to the people, asking them to sanction a debenture issue to cover the cost of purchase. The mayor say, that if a proposal to put a park in any one part of the city was put forward it would be knocked out by the sections not to be directly benefited, but he feels that if all sections of the city were Thus it is seen that the system of through a debenture bylaw.

The Britt-Nelson fight next Saturday night is causing more speculation than any of the battles between little fellows for years. Expert opinion is divided as to the possible winner. Britt is a splendid boxer, and his defensive work is splendid. His ring generalship is of a high mark. But he carnot punch. That's sure. He has won most of his decisions on points, and nearly all of them have been eye-lash finishes at that. The Dane is a hard puncher, a good general, too, rugged, can stand the gaff all the time, but is somewhat shy of Britt's cleverness as a boxer. The long journey suits him to a nicety. At the distance he looks very good. Britt, however, will be a slight favorite. With Jeffries in the ring, it looks like a square go. The Dane ought to win.

Sysonby, the greatest colt seen in America, so pronounced by experts, is English on both sides, having been imported in utero. Now along comes Ormondale, also English in his breeding, and spread-eagles all the 2-year-olds. It is now admitted that the people h'over 'ome know some things about breeding race horses.

Hans Wagner leads the National League in batting with a percentage of .362. "Cy" Seymour is second with .360. Gibson, in 22 games, has hit .236. Matthewson, Taylor and Ames, all of New York, lead the pitchers in the National in the order named. Pittsburg is the best batting team, and the Cubs are the best fielding team, according to the records.

Tim Murnane, the sporting authority, says that "Mooney" Gibson is a grand catcher and a top notcher. "Mocney" is out for the long distance hitting, as he has had two home runs, two three-baggers and two twoseckers since he jumped into the big league. Very fair, that,

American football is not going to be so brutal this year, on account of innovations. One writer says they are going to do without stretchers.

The price of diamonds is advancing rapidly. It is getting harder all the time for a prize fighter to keep up appearances.

Not all the fast horses are following the Grand Circuit, as some fast heats were on the card in the inter-city matinee races at Chicago. Prince of Orange had to trot one heat in his race in 2:06, while Morning Star paced one in 2:07%. Both are owned by Billings, of Cleveland.

Barney Oldfield is still in the auto racing game. There must be a fence or two in the country that Barney has not butted into. Good-bye. Barney, take care of yourself.

Anent the coming of the English football players to this country, a Chicago writer has some fun with them in the following article, which certainly is droll. It's the best yet:

Liverpool, Sept. 1.—(By special kyble, all roights protected by royal patent. Delayed at the Bloomin' stamp hossice. The sensational death of Sadie Mac, the Canadian trotting queen, comes as a shock to all lovers of the harness horse. She was as fast and honest a horse as ever pulled a sulky. Miss Wilks certainly is in hard luck. It had been hoped that Sadie Mac would yet have been the fastest that the world has produced.

Dan McEwen cut a fine watermelon at Hartford yesterday with Jubilee, when he won the strenuous seven-heat race. He allowed two other horses to pace their heads off, and then came on and won the last three heats in slow time, the fastest heat being 2:13. One heat was paced in 2:07%, but Jubilee did not win that one. Very well, Dan.

Connie Mack's Athletics are going away with that pennant in jig time. The White Sox have been getting theirs at the hands of Detroit, and are row out of the race practically. Now, Connie, we back you for the world's

JUGGLER DELIVERED THE GOODS.

New York, Sept. 5. - Juggler, the heavily-played favorite, scored an easy victory in the Autumn stakes for 2year-olds, at Sheepshead Bay, today. He took the lead at the start, and, making all the pace, won easily by five lengths. Belmere was second, three lengths before Athlete. Oiseau, the beating out Oliver Cromwell by a neck. The races were run over a slow track. Three favorites won.

Britt's determination, however, to go 45 rounds, and his insistence on a \$10 000 side bet, changed the complexion of things materially. Monday, Sept. 11, will be a holiday or the school children of London. The little ones will on that day be able to see the Western Fair and get the advantage of the special low price of admission without "mitching" from

This is what the board of education decided yesterday afternoon after receiving a letter from the fair board requesting that Monday be made a noliday. Dr. Teasdall moved, and Mr. MacRobert seconded, that the request granted. There was no opposition o the motion. Thus the ridiculous state of affairs which took place last year, with the special rates on one day and the holiday on another, will not recur. The fair board found the trustees easier this year, and anyone who looks might find the reason.

Inspector C. B. Edwards recommend. ed the board to move the north boundary of the Rectory street school district from the south side of Dundas street to the north side, in order to take away some pupils from Lorne avenue, which is overcrowded.
