CUSTOMS DEPARTMENT,

OTTAWA, 3rd December, 1897.

Hon. WILLIAM PATERSON,  
Minister of Customs.

I have the honour to hand you the Annual Statement of the Trade and Navigation of the Dominion of Canada for the Fiscal Year ended 30th June, 1897.

A re-arrangement of the Tables has been made with the view of rendering the information in the Report more readily accessible to those requiring to refer to it.

Table No. 25 introduced for the first time in this Report, is compiled to show the total value of Imports and Exports from and to each country, distinguishing dutiable from free imports, and Canadian from foreign exports.

The Index in the front of the Tables gives an outline of their arrangement and contents, and does not call for further explanation.

The "Explanatory Notes" following after the Index define the meaning and application of certain terms and phrases used in the Report.

The Index at the end of the Report contains an Alphabetical List of articles imported and exported during the fiscal year ended 30th June, 1897, and also references to the Tables of Quantities and Values relating to such Imports and Exports.

I have the honour to be, sir,  
Your obedient servant,

## EXPLANATORY NOTES.

IN GENERAL STATEMENT NO. 37 OF IMPORTS AND GOODS ENTERED FOR CONSUMPTION, The term "Entered for Consumption" is the technical term in use at the custom-house, and does not imply that the goods have been actually consumed in Canada but that they have passed into the possession of the importer and that the duty has been paid on that portion liable for duty.

The value of goods imported is governed by Section 58 of the Customs Act, which provides that the value of imported goods subject to ad valorem duty "shall be the fair market value thereof, when sold for home consumption, in the principal markets of the country whence and at the time when the same were exported directly to Canada."

IN GENERAL STATEMENT NO. 38 OF EXPORTS, The term "The Produce of Canada" includes all imported articles which have been changed in form or enhanced in value by further manufacture in Canada, such as sugar refined in Canada from imported raw sugar, flour ground from imported wheat and articles constructed or manufactured from imported materials.

"Goods not the Produce of Canada" shows the exports of foreign goods which had been previously imported.

The value of "Goods the Produce of Canada" is their value at the time of exportation at the ports of Canada whence shipped.

The value of "Goods not the Produce of Canada" is the actual costs of such goods.

The initials N.E.S. mean "not elsewhere specified."

do N.O.P. mean "not otherwise provided for."

The expression "Gallon" means an imperial gallon.

do "Ton" means two thousand pounds, and "Cwt." one hundred pounds.

do "Standard hundred," when applied to deals, means 2,750 feet board measure.

do "Ton," applied to square timber, means 40 cubic feet.

In the shipping tables the tonnage is given in net tons.
