FINANCE DEPARTMENT, CANADA,

OTTAWA, 7th January, 1883.

To the Honorable

SIR S. L. TILLEY, C.B., K.C.M.G.,
Minister of Finance.

SIR,—I have the honour to submit the Public Accounts of Canada for the fiscal year ended the 30th June last, together with the usual comparative statements for the preceding years since Confederation.

The expenditure on Capital Account amounted to the large sum of \$14,171,413.96 distributed on the following services:—

Intercolonial Railway - - - - -	\$1,616,632 96
Pacific Railway - - - - -	10,052,502 71
P. E. Island Railway - - - - -	57,186 02
Lachine Canal - - - - -	396,496 96
Murray Canal - - - - -	84,071 68
Ottawa Works - - - - -	620,784 65
River Tay Canal - - - - -	4,831 80
St. Lawrence Canals - - - - -	66,616 43
Welland Canal - - - - -	549,433 29
Trent River Navigation - - - - -	40,767 16
Public Buildings, Ottawa - - - - -	70,419 95
Land and Cable Telegraph Lines - - - - -	49,449 05
Dominion Lands - - - - -	562,221 30
	\$14,171,413 96

The Canadian Pacific Railway Company deposited, during the fiscal year, a further amount of \$1,600,000, being the equivalent of \$5,000,000 Land Grant Bonds placed on the market at 92, thus completing an issue of \$10,000,000. The balance of the bonds remaining unearned on the 30th June last was \$2,694,186.15, which amount has since been re-paid. I may further add that the amount paid to the Company during the year, for subsidy earned, was \$5,323,076.60.

In my last year's Report I called attention to the large volume of indebtedness maturing on the 1st January, 1885, for which arrangements require to be made. The amount maturing, as shown in the balance sheet, is as follows:—

Consolidated Canadian Loan -	-	\$31,373,629 21
Less—Sinking Funds -	-	6,766,251 96
		<u>24,607,377 25</u>
Debentures payable in London -	-	1,082,833 33
Debentures payable in Canada -	-	951,920 01
Stocks do -	-	2,906,792 82
		<u>\$29,548,923 41</u>

The receipts on account of Dominion Lands, during the year, were \$1,009,019.15; the surplus revenues amounted to \$7,064,492.35, and the investments for the several Sinking Funds to \$1,290,153.33. The addition to the debt during the year was \$4,805,063.68.

The debt paid off during the year, bearing interest at 5 and 6 per cent., amounted to \$6,956,925.07. On the other hand, the circulation of Dominion notes shows a slight increase of \$189,943, and the deposits in the several Government Savings Banks increased \$1,445,445.86. The balance standing at the credit of the depositors in the Savings Banks, on the 30th of June last, was \$26,219,107.55.

As a consequence of the re-payment of debt bearing a high rate of interest, and an increase in debt bearing lower rates, the average rate of interest payable on the net debt decreased during the year from 4.42 to 4.16 per cent., and on the debt payable in England, from 4.39 to 4.37; and a further reduction has taken place in the amount paid for interest on public debt, less interest received on investments, of \$159,435.27. In connection with this subject, it may be interesting to notice the fact that during the last few years the debt payable in England has steadily decreased, and that the proportion of the debt payable in Canada has largely increased. For instance, at the close of the fiscal year 1879-80, the debt payable in London stood as follows:—

Debt -	-	\$137,024,582 53
Less-Sinking Funds -	-	9,747,372 58
Net English Debt -	-	<u>\$127,277,209 95</u>
On the 30th June last the debt was -	-	\$130,187,402 54
Less-Sinking Funds -	-	12,941,658 37
Net English Debt -	-	<u>\$117,245,744 17</u>

Being a decrease during three years of over \$10,000,000.

On the other hand on the 30th June, 1880, the Canadian liabilities under the following heads were:—

Dominion Notes	\$13,565,159 46
Savings Banks	11,052,956 18
Debentures and Stocks	11,595,160 16
	<u>\$36,213,275 80</u>

And on the 30th June last:—

Dominion Notes	\$15,997,854 73
Savings Banks	26,219,107 55
Debentures and Stocks	5,924,403 45
	<u>\$48,141,365 73</u>

Or an increase of nearly \$12,000,000.

I also stated in my last year's Report that arrangements were being made to prepare statements of accounts of the old Province of Canada, and of the Provinces of Ontario and Quebec, with the Dominion. These statements have been completed and rendered to the Treasurers of the two Provinces, and I trust that a settlement will shortly be made, this is very desirable for the sake of the many interests involved, and also for the necessity of doing away with items in the balance sheet such as

Provinces of Ontario and Quebec Subsidy Acct.

Cr. balance - - - - - \$10,537,000 55

and the respective Dr. balances of

Province of Ontario - - - - - \$6,740,060 63

Province of Quebec - - - - - 4,639,987 07

which, being nearly nominal on each side, have the effect of unduly swelling the aggregate of the gross liabilities of the Dominion.

The sterling exchange purchased during the year, for remittance to England, amounted to £2,557,000, and the discount below par on the purchase of the same was \$63,862.96, representing an average rate of purchase during the year of about 8½ per cent. The profit on the silver coinage was \$53,731.74, and on the copper coinage, \$11,963.92. Both these amounts were credited to casual revenue.

In connection therewith I append a statement of the cost of coinage executed during the last few years, the whole being effected through the office of the High Commissioner for Canada in England.

SILVER COINAGE.

Fiscal Year	Amount Coined.	Profit on Coinage.	Rate Per Cent.

	<u>\$60,000</u>	<u>\$36,293 75</u>	<u>60.49</u>

The business of the Department during the past year has largely expanded, as will be perceived by reference to the statement which I have had prepared, exhibiting the increase in the work of some of the branches. I am glad to be able to state that owing to the effective support of the officers of the Department generally, this increase has been fully met, and the year has ended with no accumulation of arrears.

The whole of which is respectfully submitted,

J. M. COURTNEY,

Deputy Minister of Finance.

† Although the amount of the turn over of currency was less than in previous years, the volume of business was greater, as the transactions of 1882-83 were largely made up of issues and redemptions of smaller notes. The amount of small notes outstanding on 30th June, 1883, was \$6,205,795, against \$5,730,645 on 30th June, 1882.
