FLOOD RELIEF WEEK

SAC Plans Fund-Raising Programme

This week is to be a BIG one in the annals of the newly formed Students' Activities Commission. An all-out drive to raise funds to go to the European countries that were so drastically ravished by recent floods, is now swinging into action. This appeal is part of a national university drive.

At UNB, we have already started our campaign with a Tag Day last Friday. The Ladies' Society looked after this effort and were able to collect \$95.00 on Tuesday, movies of the Netherlands, Winter Sports and an All-Star Variety Show were shown and similar movies will be shown today at noon. Today's movies include a short of Wildlife and one of the Happy Gang. Any notice board carries the information as to where and when.

Tomorrow night will be the high light of the week—a variety show in the Memorial Hall. This is something that no one will want to miss, as the faculty band, Bev Macaulay, Ted Cleland, Gunsmoke and many more strut their style. This will be a completely spontaneous affair and will prove well worth the 25 cents admission—in laughs if nothing else.

And to finish the week in good old UNB style the Brunswickan and Year Book staffs are sponsoring a dance at the Armouries, Saturday night. Dick Ballance and his Hungry Five will be supplying the music and we hope that our students will turn out in full force to make a grand climax to a great week.

Saturday will be the final day of the Fund Drive. Members of the SAC committee will meet late that evening to ascertain the total subscriptions raised during the week and forward the money to the European Relief Fund.

UIS TO HOLD DINNER

The University Investment Syndicate has been hard at it this term keeping a watch out for stock market profits. Glutted with money as a result of Ladulama investments they have decided to have an annual meeting and dinner at the Lord Beaverbrook Hotel. The dinner will be followed by an election of officers for the next college year.

The treasurer of the syndicate, Alf Johnston, in a preliminary report, says that at the club now has more than \$600 invested in mining stocks of nine companies, which total more than 6000 shares.

The president of the syndicate reports that more than a dozen students have indicated their desire to become members next year. Since it is not in the best interests of the club to have more than 50 members, Bill Reddin asks that all students who have definite plans for joining the club next year, submit their names now so that they may be assured of a membership.

Last night the syndicate met in the Arts Building and heard stock reports from Pete Trueman, Derek Gemmell, John Carstairs, Pete Atkinson and other members. After a period of heavy investment the syndicate decided to postpone further investment for two weeks.

Next Wednesday, February 25, the syndicate will hear another informed talk from R. A. Lambert, Investment Broker. All students are invited to attend.

ART CENTRE NOTICE

This Sundays programme will include:

Bralius, Symphony No. 1.
Mozart, Piano Concerto in A, K.412.

Debussy, L'Après-midi d'un Faune.

Systems Pay Off

The University of New Brunswick Gymnasium was turned into a gambler's paradise last Saturday as Foresters sponsored their annual Monte Carlo to raise funds in the basement of the Gym after the regular Friday night basketball game.

Games of chance included horse-racing, roulette, over and under and electric roulette devised on an unbeatable system.

25 cents was exchanged at the Monte Carlo bank for \$2500. The evening also included dancing and dining.

DALHOUSIE GAZETTE ATTACKED BY PULPIT

Halifax (CUP)—A copy of the Dalhousie Gazette was torn to pieces in the pulpit of one of Halifax's churches. The copy of the Gazette contained a satire of the movie "The Miracle of Fatima" which played there the latter half of January.

The headline of the satire was "Miracle of Sunova Beach" which the editor claimed was completely free of indecent language. It was followed by a deluge of letters from students and leading Halifax citizens.

Year Book Writeups

Would the presidents of clubs and societies, and the managers of athletic teams please prepare write-ups of their groups activities for the Year Book as soon as possible.

For those that have major activities in March, the deadline for their writeups is March 15. Would others please see that theirs are completed by February 28th. It is very important in the preparation of the Year Book that these reports be submitted on time. They can be left in the "G" Box, Arts Bldg. or the Year Book box at the SRC Office.

The Canadian Collegiate Corpuscule Cup which has been donated by the Forest Club of the University of British Columbia for annual competition. The Cup, which stands eighteen inches high, is a blood transfusion bottle mounted on a wooden base. The base is *Acer Macrophyllum*, better known as broad leaf or British Columbia Maple.

WHAT'S IN YOUR VEINS

The other day a Forester overheard an engineer telling one of his classmates that Foresters have sap in their veins instead of blood. The rightously indignant Forester said "Yeah, just wait til the blood clinic, you'll see". Well, we'll ALL soon see just what runs in the bushmen's veins. The annual blood clinic is due to take place in the Gym on February 25th and 26th.

The reasons for having an annual blood drive are good. First our entry into the blood drive puts us into competition with every university in Canada. The university with the highest percentage of donations receives as a trophy the "Corpuscule Cup", which was donated by the Forest Club of the University of British Columbia. The second good reason for having a blood drive is of a humanitarian nature. Your blood donation may save someone's life. Here's an example—last fall a farmer was doing some plowing out near Stanley. Since he was a keen hunter he carried his shotgun with him on the tractor just in case,—well, you hunters know what I mean. This time he saw the deer that he had hoped to see. While he was reaching for his gun he managed to shoot himself through the liver. Liver operations are quite messy and this was no exception, seventy-nine transfusions were needed but blood was available from the Red Cross and the patient lived. Next year he plans to do his hunting on foot. It's quite possible that some of that blood came from a UNB student, it might have been any one of us.

(Continued on Page 6)

UNB TAKES HALIFAX DEBATE

University of New Brunswick debaters are very busy this week preparing for the Maritime Intercollegiate Debate, which will decide who will go to the Canadian finals in Winnipeg, early next month.

By unanimous decision Don McPhail and Norman Fert won the debate with King's University in Halifax on Monday night, upholding the affirmative of the resolution "Resolved that television in Canada should be controlled by the government through the CBC as it is at present." The judges for this debate were Mr. Justice J. H. MacQuarrie, judge of the Supreme Court of Nova Scotia; Dr. Meagher, Barrister and lecturer at Dalhousie University; and Mr. R. T. Hancock, director of the Maritime School of Social work.

Dave Vine and Bill Barwick are representing UNB at Saint Thomas on Saturday, where they will uphold the affirmative of the topic "Resolved that Latin and Greek should be removed as compulsory courses in universities."

On Monday, February 23, Ian Whitcomb and Bill Reddin will debate against Dalhousie supporting the affirmative of the resolution, "Resolved that Canada should have a unitary form of government." This will be a very interesting debate and all students as well as the public are welcome. The debate will be held at the Art Centre at 8:50 p.m.

The winners of the Canadian finals in Winnipeg will receive an expense-paid trip to South Africa this summer.

Lazure Banned From U.S.A.

The Students Executive Council of Mount Allison University has urged NFCUS to make representation to both the American and Canadian governments on the behalf of Denis Lazure, past chairman of NFCUS who has been barred from the United States.

Lazure, a graduate of the University of Montreal, and a former president of its student council, was enroute to Pennsylvania to be interviewed for an internship. When he identified himself, the officials had a dossier concerning him. Lazure was told the refusal was temporary, and further investigation would be necessary. This, he is informed, may take three or four months, so he had to give up his plans for interning in the United States.

The Mount Allison Council has carried a resolution urging NFCUS to contact the Department of External Affairs regarding Lazure and any other Canadian students who have travelled behind the Iron Curtain, and may be similarly barred, and also contact officials of the United States government with the same purpose.

The Council felt that Lazure's exclusion rested on two points: the fact that he had travelled behind the Iron Curtain, in East Berlin, Warsaw and Prague, where he attended a meeting of the Communist dominated IUS as an observer for NFCUS, and that he was the first to advocate the Russian-Canadian student exchange. The Council also felt that other student leaders in NFCUS might find themselves in similar situations, and that the full facts of the case should be known.

Changes In Editorial Staff Of Brunswickan

The next issue of the Brunswickan will have a new Editor-in-chief, Neil Marsh Oakley. Mr. Oakley's application for the position has been accepted by the SRC, upon the resignation of present editor, Betty Lou Vincent, who has held the position since December, 1951.

Neil has had experience in the newspaper field as a member of the staff of the Dalhousie Gazette, of Halifax, and as correspondent for the Saint John Telegraph-Journal. Although this is his first year Up the Hill, this business administration student has already spent an active year as an actor and publicity director of the Drama Society.

Frank Walton, former Sports Editor, will become the Brunswickan News Editor under Mr. Oakley's editorship.

St. Laurent Says No Action Re Education

Prime Minister Louis Saint Laurent has announced that the government will not act on the Massey Report Recommendation regarding education. Speaking at the National Executive Meeting of NFCUS held in Ottawa over the weekend, the Prime Minister said that federal aid to students would not be considered at present. He claimed that taxes at present are high enough, and people wanted them lowered. Mr. St. Laurent stated that much had already been done about the Massey Report, and the present taxation problem would make further action impossible. He seemed optimistic in the hope that the recommendatons would "come in time", but he could make no promises and the NFCUS recommendation that students obtain federal aid through loans, scholarships and bursaries, will probably not be brought up at this session.

NFCUS decided at the meeting to present a brief to the railways this week, requesting a fifty percent reduction of all rail fares for students, equivalent to that given the clergy. The executive also requested campus committees to seek reduction of local tram and bus fares equal to those given to high school students.

High hopes were expressed that unemployment insurance will be abolished for students engaged in summer employment. "The government representative was most sympathetic", and promised to give the problem his earnest consideration", the report read.

The department of External Affairs promised NFCUS to look into the refusal of the United States to admit Denis Lazure to the country. A brief was presented to the Under Secretary of State, Dana Wilgress, who promised to study the matter, but would have to consider it as an individual case and handle it through regular diplomatic channels. The Canadian government has no grounds to object to foreign countries' immigration policies, he stated.

Vol. 73 FREDERICTON, N.B., FEBRUARY 19th, 1953 No. 15

THE SHOW MUST GO ON!

The Red 'n Black is supposed to open three weeks from tonight. What are you doing to make sure it does? Attendance at the regular Sunday meetings has been mediocre. Suggestions and initiative on the part of the students is practically nil. The directors are not, theoretically, supposed to write the show, act in it, arrange all the details and herd each person to rehearsals by special invitation—surely there must be enough interested students around our fair hillside who are energetic and creative enough to take an interest in the show which has a part for everyone!

Skits are needed, interest and willingness to work are needed. So don't wait for an engraved invitation—get up there on Sunday, or contact the directors and offer your help.

The Red 'n Black, like any show, must go on—it has for the last four years, and there is nothing so radically different with the people here this year that we can't make it a fifth.

TRIAL BY PASSPORT . . .

Being believers in national sovereignty as we are, we find it difficult to advise or question in matters of state. This particularly applies to those state matters of the USA, which while being strictly matters of internal policy, nevertheless affect many people outside of that country.

We do not believe that in joining the United Nations the USA surrendered any of her sovereignty. We fully appreciate her present attempts to keep her borders closed to enemies.

We do not deny her right to protect herself against sabotage and in this action to deny entrance to aliens, whether they be coming for a short or long stay.

But after we have affirmed this belief we append, in a hushed voice, *Noblesse Oblige*.

Because we do feel that the US in all its awesome power owes a little more to other less fortunate countries than flat, plain unqualified decisions. We feel there should be at least a hint of why certain actions are taken and we do not feel that by giving in to our wishes, America will be weakening her position or prestige.

A case in point is that of Dr. Denis Lazure, ex-chairman of the NFCUS International Affairs Commission. Dr. Lazure has worked for the national students organization of this country with a fervour which speaks eloquently of his French-Canadian background. He has on many occasions undergone more than a little personal sacrifice to better the student community of Canada. Last week he tried to go to Pennsylvania. He was denied entrance to the States.

Why?
Is he or has he been a Communist? No! His testimonies at various student meetings and his NFCUS work shows that the most radical label which could apply to him is "liberal Canadian citizen".

Why?
Is or was Denis Lazure a person who would subvert the principles of our democracies to an undesirable goal? No! He has proven time and again by statement and report that his consuming ideal is to have Canadian democracy function on the highest possible plane. But still Lazure has been banned from the States.

Why?
It seems unlikely that under the present American policy that our question will ever be answered. Thus, by fiat, the US labels a Canadian citizen as "Undesirable". He has been tried by an Immigration Law and found unworthy. The greatest power on earth has seen fit to blackball Denis Lazure, Canadian citizen and graduate student.

Now surely the greatest power on earth must realize there are many who will follow its advice. Surely, there will be many Canadian and other doors which will be closed to Lazure because of this decision. A decision which, because of the nature and the potent effect of the immigration machinery, gives little promise of redress, appeal or explanation.

Noblesse Oblige, Uncle Sam. When you get that big, you have to give reasons, you have to be just.

Only a small country can afford to act in any other manner.

PETE MURPHY and his Riders of the Black Spruce Swamps.

ROGERS & PINE Comedians Extraordinaire.

AND A HOST OF OTHER ENTERTAINING ACTS HEADED BY 'CREEPY' VINE.

Don't miss the entertainment of the year—only 25c (two bits) will give you a front row seat if you're there early

We must apologize profusely for the somewhat adulterated column which appeared last week. Out of the kindness of our hearts we agreed to add to the Engineering Brunswickan a ray of sunlight, but the dog turned to bite the hand that fed it. Some of the opinions expressed in last week's column were those of the editorial staff and not necessarily those of the columnists. See if we do you guys any more favours.

A party scheduled for next week in the dry kiln room has been postponed indefinitely. It seems the brewing schedule, or should we say drying schedule, has been altered to accommodate a load of hard maple. (HARD—can't you tell by the rays?) The boys'll probably pine for the party and even balsam.

And there's the burglar who escaped from two old maids after being caught under their bed. It seems he sneaked out while they argued over who saw him first.

Engineer: What are you going to work at after you graduate?
Forester: Nothing, I won't have time to work.

Engineer: O.K., wise guy. How do you figure that?

Forester: Well, there's 365x24 or 8760 hours in this year. Nobody works Saturday or Sunday, so let's knock off 104x24 or 2496 hours. This leaves 6264 hours. Now, I'll get 3 weeks holidays amounting to 21x24 or 504. I'll also get 9 statutory holidays or another 216 hours leaving 5544 hours. The outfit that hired me gives me 1 1/2 days a month sick leave, which I'll take, making 432 hours, leaving 5112. I figure to average 8 hours of sleep a night or 8x365 or 2920 hours. This now leaves 2192 hours. Now you know that at least six hours a day is spent eating, washing, dressing, undressing, reading and relaxing. This 365x6 gives 2190 hours and subtracting 2190 from 2192 leaves only 2 hours. If I can't kill two hours somewhere in a whole year then I deserve to work.

Engineer (gagging on a copy of Allen's): Now just a minute 'til I get my slide rule out here . . .

After the first excitement of Monday night's annual classic wore off, the Foresters came to realize that they were two goals ahead of the Engineers. A hasty conference in the forestry box decided that this was quite embarrassing, it being engineering week and all.

"All right, boys," said the coach. "We've shown them that we can beat them quite handsly, so hop out there and let them score just two goals and no more. We'll give them a tie game as a courtesy."

The Forestry team then went about showing their skill in doing just this and won a moral victory while not shaming the poor engineers too obviously.

We hear that the reason things are running so well in Manitoba is because Sigma M is balanced up with Sigma V. This is in dire contrast to the engineering students around the campus who appear decidedly unbalanced.

A date to keep in mind is March 2, the date of the next Forestry meeting. Doc Roberts will be present to give the farmers' viewpoint of the land expropriation for Camp Gagetown. This is the second talk on land expropriation, the first one giving the government's position.

The Fredericton stores are now sold out of white material due to the large rush by Engineers to buy up sign making material for the mass production of engineering week signs. The wind and other invincible elements kept tearing them away.

Laurie Coles

Dick Ballance

Laurie hails from Summerside, PEI, as is consequently known as "The Islander." He spent his freshman year at Acadia and came Up the Hill as a sophomore engineer.

Laurie is one our married students and the father of three children. This at least serves as an indication that responsibility is no stranger to him.

During his stay at Acadia, Laurie was elected class president and since coming Up the Hill has served as class representative to the SRC. This close association with student administration has served as a foundation for the formation of these policies which he feels the SRC should follow at this time.

1. There should be no major changes in the constitution of the SRC. Those required were very effectively made under the Spurway Administration.

2. The present SRC deficit can only be satisfactorily written off in the manner in which it was acquired—over a period of years. This method of SRC financing would not require an increase in SRC levies, as has been suggested, and would not require the elimination of any student activity from the budget.

3. To expedite SRC business and facilitate correct decisions, major topics

It is impossible for an SRC presidential candidate to make any election promises concerning policy. The president's job is to act as chairman at council meetings and to be the representative of the student body in all matters where the students are concerned.

I claim as my chief qualification for presidency, two years experience on the Student's Council as a class representative. In addition to this however, I have served actively in many other clubs and societies on the campus. I feel that an interest in the various campus organizations, both athletic and non-athletic, it is an essential for a person to be truly representative of the students.

My only election promise, is that, if elected, I shall endeavour to carry out my duties to the very best of my ability. This would include, of course, the maintenance of an orderly and businesslike atmosphere in all SRC meetings.

should be thoroughly investigated by appointed groups before these topics are discussed in detail by the SRC.

ALL HAIL WASSAIL!

—with apologies to our good friend Sir Walter.

CANTO '53

The stags that eve had drunk their fill
'Ere danced the moon on College Hill
'Twas the wildest party—the gayest brawl
That ever shook staid Castle Hall.
For while the boys raised high their "pails"
(In true tradition of all Wassails),
Three hundred beers drunk down mid song
Needed a hundred voices on,
The peal of "Godiva" soon rung out,
A hundred voices joined the shout,
With hark and whoop and wild hulloo
No voices lagged, god bless that brew
To see the fun—esprit de corps
Born as Godiva rode once more,
Would make a Forester start to long
That he could start over and not go wrong.
But go far back to his Freshman year
To sign this time as an ENGINEER.

CO-EDS WHIP MT. A WITH EASE

DOROTHY MAY SETS PACE

UNB's hopes for a Maritime Intercollegiate crown in basketball rests solidly on the Women's Varsity squad today. In the opening of the New Brunswick Intercollegiate Playdowns, UNB trounced Mount Allison University at the Lady Beaverbrook Gymnasium last week-end by a 37-24 count.

Dorothy May, a freschette from McAdam and a student Up the Hill scored 25 points in the game, whipping the visitors in points singlehandedly. She now holds the all time UNB women's intercollegiate record.

The game was fast breaking and play was controlled throughout the first half by UNB. May broke in time and again to score on lay ups and set shots. May scored all her teams points in the first quarter for a 5-2 lead at the whistle.

The second quarter was a grim reminder of the first stanza for Mt. A. Completely lost on the large floor, they were forced to play defensive ball throughout the entire half. Dorothy May doubled her first quarter score, netting 10 points. The score at the end of the half was UNB 18, Mt. A. 9.

The last half featured a great comeback try by Mt. A. as they seemed to be finding their way around somewhat better, but the Brunswickans were quite equal to the occasion.

McNutt and Ball of Mt. A were outstanding for the losers, and McNutt, with a good seven inches in height over the rest of the girls was able to monopolize the scoring during the half.

Although Dorothy May was to shine as high scorer of the game, her thunder was partially stolen away by an unprecedented scoring streak by Jane Ogilvie of UNB, the smallest girl on the floor, standing 5 feet high. She sank seven consecutive points in a matter of minutes during the last half. The final score was UNB 37-Mt. A. 24

Lineups:
UNB—Vermeeren 3, Burns 0, Ogilvie 7, Douglas 0, May 25, Brown 2, McNaughton 0, Connel 0, Clark 0, Stryan 0, Fisher 0.

Mt. A. — Fallon 2, Montgomery 2, McNutt 12, Ball 8, Baker 0, Lynds 0, Allison 0, Robertson 0, MacFarlane 0, Williamson 0, Reich 0, Taylor 0.

INTERCLASS SWIM MEET

An interclass swimming meet will be held Tuesday, Feb. 24th, starting at 7:30.

All students who are interested are asked to contact the undermentioned class team co-ordinators.

Freshmen: Andy Paterson, 9004.
Sophomores: Joe Whately, 5185.
Juniors: Vic Stewart, 9004.
Intermediates and Seniors: Dave Rouse, 9004.

- Order of events:
1. 60 Medley relay.
2. 20 Free style.
3. 20 Breast stroke.
4. 80 Free Style relay.
5. 20 Back stroke.
6. 40 Free style.
7. 40 Breast stroke.
8. 40 Back stroke.
9. Diving.
10. 100 Free Style.
11. 160 Free style relay.
12. 40 Flutter board race.
13. 80 Novelty relay.

Individual events:
1st place 5 points
2nd place 3 points
3rd place 1 point.

Relays:
1st place 10 points.
2nd place 6 points.
3rd place 2 points.

You need not be a fast swimmer to earn points for your team. Novelty events, in which swimming speed will be of advantage, will be arranged.

See or call your team co-ordinator and support your class.

INTRAMURAL HOCKEY

Last Sunday at York Arena, the final two games were run off in the Intramural league, and this coming Sunday, the elimination series begins. Four of the teams ended their schedule the week before, but due to postponements earlier in the year, there are still two games to be played.

In the first encounter of the afternoon, the Senior Civilians earned their first point of the season by gaining a tie with the Engineers 3-3, and by virtue of this tie the latter moved into sole possession of second place in the standing. For the Civils, it was Donkin, Dewey and Burr who dented the twine, and the Engineers 3-3 goals came off the sticks of MacNamara, Grant and Webster. Final score 3-3. No penalties were called in the contest.

In the second game of the afternoon, the Foresters 3-2's continued their winning ways as "Mr. Zero", Jim Otto, hung up another shutout, this time over the Axemen. It was a close hard fought game all the way, and the final outcome was never established until the bell ended the game. Many thought it was the best game played this season in this loop. The score was 1-0, and the payoff goal came from the stick of Dewey Beech. The Foresters 3-2's were the only team to go undefeated throughout the schedule.

Standings to date (final):

CO-ED PUCK CHASERS

VARSITY BASKETBALL HOPES DIMMED

The University of New Brunswick Men's Varsity Basketball squad turned the heat on Mount Allison in the Beaverbrook Gym last Friday night during a torrid last 30 second stand, but the Mounties were able to hold their lead at the final whistle. The score of the game was Mount A 58-UNB 51. The Mounties were sporting a comfortable 19 point lead with but five minutes to go, but watched it dwindle in a puff, and with only 30 seconds left in the game, UNB potted nine quick points on fouls and field goals, to draw within seven points of the winners. Tom Gorman of UNB hooped 16 points for scoring honours in the game. It was the first Mt. A. Men's Varsity win on the UNB floor in 14 years.

The game, fought strictly on a "grudge fight" basis was a tremendous example of the rivalry between Mount Allison University and UNB. John Ronan of UNB carried on a personal war with all the Allison men and emerged as one of the heroes of the game.

Trafford of Mt. A and Cheeseman of the home team, opened the scoring on field goals exchanged at the two minute mark. The game was close but fast during the entire first half and neither team could establish a lead of any size. The lead changed hands 21 times during the first half. Abernathy picked up five points during the quarter and at the end of the first period, UNB led 9 to 8.

Bert Simpson of UNB hit at the one minute mark of the second canto, followed by Tom Gorman to push the score to 13-8; UNB's largest lead of the evening. Mt. A. stayed in the game strictly on a good defence and a fine average on foul shots, scoring seven points via this route during the quarter. UNB surged ahead at the whistle on shots by Gorman and Abernathy, to lead 25-22 at half time.

The last half was almost entirely a Mount Allison game. Bain, scoring 13 points during the half, controlled the game with his team almost continuously. Bain and teammates Stothart and Yeardon cashed in on a play that developed from driving in straight down the aisle to the right of the keyhole for ample scoring opportunities. It was this play that hurt UNB more than anything else. At one minute of the second half, Mt. A. tied the game at 25-25.

and five minutes later they held a 34-28 lead. The pace began to tell on UNB as they missed many brilliant opportunities from under the basket. The three-quarter score was 44-32 for Mt. A. on strength of Bain's 8 points and Stothart's 6.

The last quarter opened with Mt. A. again running strongly and working a tight defence, they kept UNB at bay. Mt. A. held a comfortable lead throughout the stanza, but then with two minutes to go, the Garner and Gold boys began to tire and started fouling UNB.

The Hillmen did not pass up the opportunity; Ronan, O'Blenis and Simpson all cashed in on Mt. A's faults. However, the most spectacular event of the evening was still to come. With 30 seconds to go, UNB trailed 54-38 and then shots by Ronan and Simpson brought the UNB count up to 42. With just 17 seconds remaining, Gorman and Abernathy capitalized on foul shots, followed by field goals which netted nine points before the stunned crowd. Mt. A. recovered the ball on a foul only once and the game ended with the Mounties out in front 58-51. High man for the visitors was Mort Bain with 13 points.

Lineups:
Mt. A.— Bain 13, McEwan 0, Trafford 6, Stewart 7, Yeardon 12, Stothart 12, Naylor 0, King 5, Baxter 3, Rudderham 0.

U.N.B. — O'Blenis 2, Garland 1, Gorman 16, Ronan 9, Ellison 0, Abernathy 10, Bracken 0, Burley 1, Cheeseman 2, Simpson 8, Prentice 0.

ST. THOMAS ELIMINATES U.N.B.

Varsity Holds Tommies to 3-3 but Irish Advance in NB-PEI Playdowns

St. Thomas University of Chatham last Saturday night won the right to meet Mount Allison University of Sackville for the NB-PEI Intercollegiate hockey championship by tying the University of New Brunswick Senior Varsity 3-3 in a game played at the York Arena and winning their two game, total goal semi-final series, 7-4. The Tommies had beaten the Red and Black team earlier 4-1 in the opening contest at Newcastle.

The Miramichi team scored twice in the first period. UNB tied it up in the middle stanza, and each squad scored a goal in the final period.

The game was a rough one, with referees Clowes Bishop and Al Smith calling thirteen penalties, seven against the Irish. At times tempers flared as both teams showed their fighting spirit and on several occasions the game got out of hand as the referees seemed a trifle lenient.

In the opening minutes of the game the Tommies took the lead. Centre Jackie Boyle took a pass from defenceman Bud Noel in centre ice and skated around the UNB defence to fire a high shot that bounced off Pinder's chest into the net. Midway through the period St. Thomas made it 2-0 when John McMullin took passes from Barry and David and lifted the puck over the prostrate Pinder after a scramble in front of the UNB cage.

Ten penalties were called in the opening twenty minutes, four of them majors. Two fights broke out with less than two minutes remaining in the period. At the UNB blueline defenceman Joe Bedard tangled with St. Thomas forward Jack Boyle in a brief wrestling match. A minute and a half later, UNB's Jack Elliot took exception to being cross-checked by McMullin and another fight ensued.

The second period saw UNB play their best hockey of the series as they scored two goals and outplayed the Irish throughout. Both of their goals came within 46 seconds. At 6:01 Eddie Allen scored an unassisted goal when he brought the puck out from the boards in the St. Thomas end and fired a twenty-foot screened backhand shot into the net. Barry Wilson tied the score at 6:46. He took Manson's pass and let one go from the blue line that found its way into the net. UNB, although they carried the play were

unable to crack the sound St. Thomas defence for any clean shots at Coyne. Jack Pinder in the Red and Black goal stopped seven difficult shots, one of them a breakaway by David at the seven minute mark.

In the third period the teams played the best hockey of the night. St. Thomas had a slight edge in play but were unable to beat the sensational Pinder, except on one occasion. John McMullin scored his second goal of the game midway through the period when he snared the puck in centre ice, skated over the blueline, faked the defence out of position, and blasted a long shot into the bottom of the net. Seconds later, Cam Manson finished the scoring as he blasted a long shot from the left wing into the bottom right hand corner of the goal after receiving a pass from Joe Bedard, to tie the score at 3-3.

The Pete Kelly-coached team fought hard although they entered the contest facing a three goal deficit. Their fight was an indication that UNB definitely has a future in intercollegiate hockey.

John McMullin led the St. Thomas squad in the scoring parade with two goals. Mal Barry and David, his linemates, also played a strong game in the forward line. Jackie Boyle too played well when he wasn't in the penalty box; altogether he had nine minutes in penalties.

UNB showed a strong defence backed by a sensational goaltender in Jack Pinder. Only his fine work kept the Irish from piling up a much higher total of goals. The Red and Black forward line lacked the speed and ability to carry the puck which the Miramichi men possessed.

Lineups:
St. Thomas — goal, Coyne; defence, Woodhouse, Cormier, G. Noel, V. Stewart; forwards, McMullin, Barry.

(Continued on Page 6)

U.N.B. SKIERS TESTED IN MAINE

Last weekend, the UNB ski team travelled to Waterville, Maine, where they took part in a ski meet held in connection with the Colby University winter carnival. Besides UNB and Colby University, the University of Maine, and the University of Massachusetts also took part. The actual meet, as far as slalom and downhill were concerned, took place on Sugar Loaf Mountain, some distance from Waterville.

UNB were entered in three events; the slalom, downhill and cross-country. In the combined slalom and downhill, or "Alpine" as it is called, our boys placed third. Bud Mackley placed 5th in the downhill, out of a field of about 25.

The ski conditions were excellent as far as snow on the ground was concerned, but the skiers were hampered by a heavy falling snow which made visibility very poor.

As far as the entire ski meet is concerned, UNB did not fare so well, as their competitors showed that practice pays off, but it was learned that one of the teams had been practicing 5 days a week for the past two months, and that the budget allowed them was close to the \$2000 mark. However, this has been an unfortunate winter in this part of the country for the ski enthusiasts, and had conditions been better here, the UNB boys would have given a better performance.

The ski team consisted of six members; Keith Waddell, Bud Mackley, Dick Smith, Bob Neil, Norval Balch, and Don Merrill. It should also be pointed out that the members financed the trip themselves, and the \$185 allotted them by the SRC is still unspent, and it looks like it will find its way back into the SRC bank account. The budget allowed by the SRC was for the MIAU competition in Antigonish during the first weeks of February, but due to the lack of snow, the Maritime meet has never materialized. It is doubtful if it ever will, but since the money has been allotted and accounted for, it seems a shame that the members of the ski team should have to finance their own trips. True, they didn't bring back any winners, but the name of UNB has been represented outside the province, which is a step in the right direction for better sports relationships with other colleges.

M.I.A.U. BADMINTON TOURNAMENT

The MIAU Intercollegiate Badminton Tournament started at 9 o'clock this morning in the Lady Beaverbrook Gym, and will continue throughout the day until play is finished sometime late in the afternoon. Although many matches will have been played by the time this paper is released, there will still be ample time to drop down to the gym and take a look at some fine badminton play.

Among the colleges represented here today are: Mount Allison, Nova Scotia Tech, Dalhousie and UNB.

Representing UNB will be: in the Ladies' Singles—Margot Roach, Ladies' Doubles—Joan Giodfellow and Dorothy May, Men's Singles—Norm Jeffrey, Jerrold White, Spares—John Peers and Ken Plummer.

CO-EDS FIFTH IN BOWLING TOURNAMENT

Results of the Canadian Universities Telegraphic bowling tournament have been released, and this year the UNB Co-eds placed fifth, which is the best showing to date in this Tournament. This is an annual tournament held between the Co-eds of universities across Canada. This year, University of Saskatchewan took the honours.

Total score results:

University of Saskatchewan	2876
University of B.C.	2709
University of Manitoba	2686
United College (Winnipeg)	2650
UNB	2403
McDonald College	2375
Brandon College	2371
McMaster University	2330
University of Western Ontario	2270
Mount Royal College	2228
Luther College	2109
St. Patrick's College	1754

Ξ Λ Β Ρ

Like all great writers, your columnists have been occasionally subjected to criticism and the past week has been no exception. In fact, last week the criticism reached a new high in intensity. We do, of course, appreciate our readers' comments on our writings but we feel that some of the criticism received lately may have been due to a misunderstanding. Several persons, especially those who are non-residents, are under the impression that this column is an expression of the opinions of the House as a whole. Therefore, we should like to remind all of our readers that this column is NOT necessarily a reflection of Residence opinion. In it are expressed the personal views and beliefs of the writers only. Usually, we think that our opinions do agree with those of most House members but this is not necessarily the case. Thus we would like to point out that all libel suits should be addressed to the writers themselves and not to the Residence Society. For those who prefer to present their opinions in person, we extend a welcome to visit us at any time. Our rooms are easily recognizable by their barred windows, padlocked doors and electrified door-knobs.

We are pleased indeed to be able to announce that the large proportion of burned-out light bulbs in the lounge have now been replaced by more efficient sources of light. As a result, the illumination in the lounge is now up to the 20 foot-candle level recommended in this column last week. As yet, however, we cannot report any progress in the repair of our clock, otherwise known as the "calibrated candlestick" in New York circles. Presumably, only a visit from Lord B. will restore it to its former glory.

Speaking of Lord B. reminds us that this year the Residence is, or should be, observing a very important anniversary. In 1928, just a quarter century ago, the first foundations of the Beaverbrook Residence were laid. We feel that such a notable occasion as the 25th anniversary of the building of our Residence should be marked by some sort of celebration. We have just experienced an Engineering Week and a Co-Ed Week and we suggest that, in future, the campus should hold a "Residence Week". During this week the Residence Formal could be held, the Residence basketball team could defeat the Varsity team and an Open House might be held to show visitors the marvels and intricacies of Residence life. Suggested displays for the Open House would be a typical resident (Jud Parady), an example of a tidy Residence room (Room 209), a visit to a House meeting (thus showing the advantage of orderly Parliamentary procedure), a baked potato and Christmas. In addition to the above events, an exchange weekend with some of the residents of the Maggie Jean Chestnut House might be arranged.

Due to the lack of other suitable candidates, the writers have decided to award the Man of the Week Award jointly to your columnists for "Exceptional devotion to duty and maintenance of high literary standards while under heavy verbal fire from our critics."

To dispel an old rumour, the Red Cross receives absolutely no payment for the blood that is collected at the blood clinics. Furthermore, a patient receiving a transfusion of Red Cross blood does not pay and is not asked to pay for the blood or for any of the expense connected with the handling of the blood for a transfusion. It is exactly three years today since the Red Cross started supplying blood to the local hospital and since that time all transfusions have been given free. This is not the case across Canada, and in some localities blood must be paid for at rates varying from ten to a hundred dollars per bottle. An example of this is the New Brunswick man who received a bill for \$2180 for 42 transfusions that he had received in Montreal. The N.B. Red Cross replaced the 42 bottles in the hospital and the man got a refund of \$2100. A happy ending to an otherwise unhappy (and expensive) story. Now put yourself in the place of a hospital patient that needs blood (incidentally, no one is accident proof) and you can easily see the wonderful advantages of the Red Cross Blood Donor Service.

All students are able to assist toward the percentage of donations from UNB. A person unable for any reason to give blood is removed from the eligible list and in this way is able to increase the total percentage. The important thing is that everyone register at the clinic. We require about 65% to win the Corpuscle Cup; Acadia has 63 per cent.

I'll see you at the clinic.
