

The Mildmay Gazette

Vol. 16.

MILDMAY, ONT., THURSDAY, OCTOBER 3, 1907.

No. 40

THE MERCHANTS BANK OF CANADA.

ESTABLISHED 1864
 HEAD OFFICE MONTREAL.
 Capital paid up \$6,000,000 Reserve fund and undivided profits \$4,000,000.
 PRESIDENT, SIR H. MONTAGU ALLAN KT. VICE PRESIDENT, JONATHAN HODGSON, ESQ.
 E. F. HEBDEN, GENERAL MANAGER.

SAVINGS BANK DEPARTMENT.

Interest Paid Quarterly or Compounded.—End of February, May, August and November—on all Deposits of One Dollar and Upwards.

OFFICE HOURS:—From 9 a. m. to 3 p. m. Saturday from 9 a. m. to 1 p. m.

MILDMAY Branch,

A. A. WERLICH Manager.

The Corner Hardware MILDMAY.

THE Pandora Range

The Stove you have been reading so much about. We have it. Let us show you the many points in which it excels. Take a look through our large stock of

Ranges & Heaters

Hunting season is now on. Buy your Guns and Ammunition HERE.

C. Liesemer.

New Tailor.

New Suitings.

New Styles

Doesn't spring give you the feeling that you want to be decked out in a stylish new suit? Of course it does! Give the new tailor an order for your next suit and you will be pleased—there is no doubt about it. A large stock of this season's most fashionable Suiting to select from,—the styles are correct, the prices very reasonable, and we guarantee a right fit. Call and see us.

R. MACNAMARA, MERCHANT TAILOR.

MILDMAY'S NEW DRUG STORE

Water Glass Egg Preserver

The only reliable way to keep eggs. The contents of a 15c. can will preserve 12 dozen eggs. This is no experiment but has been in use for several years in some parts of Ontario.

Rubber rings for fruit jars and spices for pickling.

Stationary and School Supplies.

J. COATES

NEXT DOOR TO POSTOFFICE

PRIZE LIST OF THE MILDMAY EALL SHOW.

HORSES.

Span Draught Horses—John Mielhausen; Brood Mare—John Mielhausen, George Haines; Gelding or filly, 3 yrs—J M Fischer, John Pilger; Gelding or filly, 2 yrs—W J Pomeroy, Fred Dustow; Gelding or filly, 1 yr—Hy Reuber; Spring foal—John Mielhausen, John Clyne; Best brood mare, any age—John Mielhausen, diploma; Brood mare and 2 of her gets—Andrew Schmidt, Henry Schnurr.

AGRICULTURAL HORSES—Span Agr horses—Andrew Schmidt, A Filsinger, John H Miller; Brood mare—A Schmidt Hy Schnurr, A Filsinger; Gelding or filly 2 yrs—Levi Galbraith 1 and 2, Hy Schnurr; Gelding or filly 1 yr—John Ruetz, A Schmidt, Hy Schnurr; Spring foal—Geo Haines, Hy Reuber; A Schmidt Mare any age—A Schmidt, diploma. Best spring foal, special by L Good—A Schmidt, John Mielhausen, John Clyne, Hy Schnurr, J M Fischer. Largest number of colts, special by Good—Hy Schnurr, A Schmidt; Best 2 colts, 2 yrs special by C Buhlman—L Galbraith; Best lot of agricultural horses, any age, special by R E Truax—A Schmidt.

ROADSTER AND CARRIAGE HORSES—Span—R H Fortune, John Ruetz; Single Roadster—Geo Haines, Wm Wallace; Single carriage—John Hunstein, Chas Dickison; Brood mare—Chas Dickison, Jas Hamilton; Gelding or filly 3 yrs—Hy Lerch, Fred Harper; Gelding or filly 2 yrs—Hy Lerch; Gelding or filly 1 yr—J M Fischer, Fred Harper; Spring Foal—C J Dickison, Jas Hamilton; Mare any age—C J Dickison; Best lady driver, W H Huck, Geo Haines, John Hunstein.

CATTLE.

DURHAM CATTLE—Bull, aged—Sam Schmidt; Bull, 2 yrs—G B Armstrong, Sam Schmidt, Geo Klein; Bull, 1 yr—Jas Thomson, J M Fischer; Bull calf—M Pilger, Jas Thomson; Cow, aged—M Pilger, Jas Thomson, M Pilger; Cows 3 yrs—M Pilger, Sam Schmidt; Heifer 2 yrs—Jas Thomson, M Pilger; Heifer, 1 yr—Sam Schmidt, 1 and 2; Heifer calf—M Pilger, Jas Thomson, 2 and 3; Best bull, any age—Jas Thomson; Herd short-horns—Jas Thomson; Best animal on ground—Jas Thomson.

GRADE CATTLE—Steer 2 yrs—C J Dickison, J M Fischer 2 and 3; Steer 1 yr—M Pilger, J M Fischer 2 and 3; Aged cow—Lewis Waechter, M Pilger, J M Fischer; Cow 3 yrs—M Pilger, Jas Thomson; Fat Steer—C J Dickison; Town cow—Wm Dickison, A Murat; Heifer 2 yrs—Sam Schmidt, Jac Miller; Heifer 1 yr old—M Pilger, Sam Schmidt; Heifer calf—M Pilger, J M Fischer; Fat heifer—M. Pilger.

HEREFORD CATTLE—Bull, 1 yr—Hy Reuber.

SHEEP.

OXFORD DOWNS—Ram aged—J Tolton, W Renwick; Ram, shearing—J Tolton 1 and 2; Ram lamb—J Tolton, 1 and 2; Pair ewes, aged—J Tolton, Wm Pomeroy; Pr ewes, shearing—J Tolton, Wm Pomeroy; Pr ewe lambs—J Tolton, W Renwick.

LIECESTER—Ram, aged—R J Sanderson, J M Fischer; Ram, shearing—R J Sanderson; Ram lamb—R J Sanderson; Pr ewes, aged—R J Sanderson; Pr ewes, shearing—R J Sanderson 1 and 2; Pr ewe lamb—R J Sanderson, J M Fischer.

SHROPSHIRE—Ram, aged—W H Webber; Ram shearing—Webber; Ram lamb—Webber; Pr ewes aged—Webber; Pr ewes shearing—Webber; Pr ewe lambs Webber; Fat sheep, any breed—Wm Pomeroy, R J Sanderson; Fat lamb—J Tolton, W Renwick.

SWINE.

BERKSHIRE—Boar over 1 yr—Val Ret-

tinger; Boar under 1 yr—Hy Reuber, W Renwick; Sow over 1 yr—V Rettinger; Sow under 1 yr—V Rettinger, W Renwick.

YORKSHIRE—Boar over 1 yr—W J McNally, 1 and 2; Boar under 1 yr—Hy Schnurr, Jos Thomson; Sow over 1 yr—W J McNally, Jos Thomson; Sow under 1 yr—Hy Schnurr, W J McNally.

TAMWORTH—Pair bacon hogs—Hy Reuber.

POULTRY.

Langshans—A Murat; Plymouth Rock—W J Wober 1 and 2; Any other kind game—L Doering; Haudans—L Doering; Brown Leghorns—C Yandt; Hamburgs—C Yandt; Rouen ducks—J Lerch Jos Reinhardt; White ducks—Jacob Miller, W H Webber; Black ducks—Jacob Lerch 1 and 2; Grey geese—C Yandt; Bronze turkeys—W J Pomeroy, Jac Lerch; Fantail pigeons—Hy Reuber J M Fischer; Canaries—W H Huck.

GRAIN.

White fall wheat—A Schmidt, J M Fischer; Red fall wheat—A Schmidt, Val Rettinger; Spring wheat—Val Rettinger; White oats—A Schmidt, Geo Haines; Black oats—A Schmidt, Geo Reinhart; Barley, 6 rowed—A Schmidt, Wm Wallace; Any other kind—A Schmidt; Peas, small—Geo Reinhart, W Renwick; Timothy—Geo Reinhart, J M Fischer; Clover—Val Rettinger, Jacob Miller; Flax Seed—M Fischer, J M Fischer.

ROOTS.

POTATOES—Empire State—J M Fischer, Hy Reuber; Elephants—Hy Reuber, Geo Klein; Rule of New York—J M Fischer, Hy Reuber; Any other kind potatoes—J M Fischer, Geo Haines; Turnips, Swede, purple top—Geo Reinhart; Swede, green top—Geo Reinhart, N P Schmidt; Greystone turnips—A Schmidt N P Schmidt; Red mangels—A Schmidt N P Schmidt; Yellow mangels—A Schmidt, N P Schmidt; Field carrots—N P Schmidt, Geo Reinhart; Table carrots—Geo Klein, A Schmidt; Blood beets—A Schmidt, N P Schmidt; Parsnips—Jac Lerch, A Schmidt; Red radishes—Geo Reinhart, Geo Klein; Radishes, black winter—Jac Miller, N P Schmidt; Collection field roots—A Schmidt, N P Schmidt.

VEGETABLES.

Cabbage—Winningsstadt—A Schmidt, Geo Reinhart; Cabbage, Drumhead—A Schmidt, J Schnurr & Son; Cabbage, Flat Dutch—A Schmidt, Geo Reinhart; Red cabbage—N P Schmidt, A Schmidt; Largest and Best cabbage—J Schnurr & Son, N P Schmidt; Any other kind cabbage—N P Schmidt, J Schurr & Son; Cauliflower—Geo Reinhart, N P Schmidt; Celery—C Yandt, M Fischer; Onions from D sets—A Schmidt, M Fischer; Onions from seed—N P Schmidt Geo Reinhart; Dutch sets—Geo Reinhart, A Schmidt; Potato onions—J Schnurr & Son, A Schmidt; Tomatoes, red—A Murat, C Yandt; Tomatoes, yellow—Geo Reinhart; Beans—Jac Miller, V Rettinger; Indian Corn—A Schmidt, C Yandt; Sweet corn—N P Schmidt, A Schmidt; Field squash—N P Schmidt, Thos Godfrey; Table squash—N P Schmidt, J Schnurr & Son; Pumpkin—N P Schmidt, W Renwick; Watermelons—John Ruetz, A Schmidt; Muskmelon—N P Schmidt, A Schmidt; Citrons—John Ruetz, N P Schmidt.

DAIRY PRODUCE.

Collection sealed fruit—Val Rettinger, John Haines; Bottle pickles—Val Rettinger, Geo Reinhart; Crock butter—Geo Haines, Mrs Gowanlock; Roll butter—Geo Haines, John Haines; Crock butter, special—Mrs Gowanlock, Geo Haines; Home made cheese—Geo Reinhart, Home made bread—Hy Schnurr, Mrs Gowanlock; Bakers bread—R Keir; Honey comb—A Murat; Honey extracted—A Murat; Maple Sugar—Geo Reinhart, A Schmidt; Maple Syrup—Geo Reinhart, Hy Reuber; Home made soap—Geo Klein, Geo Reinhart.

FRUIT.

Apples—Duchess of Oldenburg—Val Rettinger, N P Schmidt; Faliwater—A Filsinger, Val Rettinger; Snows—A Filsinger, C Yandt; Ribston—M Fischer, A Schmidt; Maiden Blush—John Ruetz, Jac Lerch; Cayuga Red Streaks—Hy Schnurr, John Ruetz; Colverts—Fred Dustow, John H Miller; Tallman sweets—A Schneider, Val Rettinger; Alexander—Hy Lerch, J H Miller; Seck-no-further—John Ruetz, N P Schmidt; Golden Russet—John Ruetz, A Schneider; Roxburg Russet—C Yandt, N P Schmidt; Northern Spy—N P Schmidt, John Ruetz; 20 oz Pippin—Fred Dustow, Jno

Ruetz; King Tompkins Co Fred Dustow Hy Schnurr; Baldwin—A Filsinger, A Schmidt; Rhode 1 Greening—Val Rettinger, A Filsinger; Ben Davis—A Schneider, Fred Dustow; Wagner—A Filsinger, Val Rettinger; St Lawrence—Hy Lerch, Jac Miller; Mann—A Filsinger, John Ruetz; Any other kind—John Ruetz, Geo Haines; Crab—Hy Lerch, Val Rettinger; 10 varieties winter apples—J M Fischer, A Schmidt; 10 varieties fall apples—John Ruetz, John H Miller; Pears, Flemish Beauty—J M Fischer, J Schnurr & Son; Barlett pears—A Filsinger, Val Rettinger; Any other winter pears—N P Schmidt; Lombard plums—A Murat, A Filsinger; Blue plums—Schnurr & Son, Val Rettinger; Red Plums—Hy Schnurr, Val Rettinger; Blue grapes—A Filsinger, Jac Lerch.

WOOLLEN & DOMESTIC MFS.

Blanket, union—Geo Haines, Mrs Gowanlock; 10 yds rag carpet—Geo Reinhart; Coverlet—Geo Reinhart, Mrs Gowanlock; Knitted coverlet—Geo Reinhart; Woollen mitts—Chas Yandt, John Haines; Sox—Geo Reinhart, M Fischer; Stockings—Miss M McKee, Geo Reinhart;

LAIES WORK.

Log cabin quilt—R Morrison, Geo Haines; Knitted quilt: Geo Reinhart, Miss M McKee; Crochet quilt: Geo Reinhart, Mrs Gowanlock; Patched quilt: Miss McKee, Mrs Gowanlock; Hooked mat—Geo Reinhart, Mrs H Maurer; Any kind mat—Geo Reinhart; Embroidery in silk—Miss McKee, L Himmler; 5 o'clock tea cloth, embroidery—L Himmler, Miss McKee; Tea cloth, any kind—Miss McKee, L Himmler; Battenburg centre piece—L Himmler, C Liesemer; Emb centre piece—Miss McKee, L Himmler; Collection of doilies, emb—Miss McKee, L Himmler; Doilies, any kind—Miss McKee, Mrs Gowanlock; Embroidered tea cosy—Mrs Gowanlock, Mrs H Maurer; Any kind tea cosy—W H Huck, Miss McKee; Toilet set—W H Huck, Mrs Gowanlock; Emb sofa pillow—Miss McKee, Jac Lerch; Sofa pillow, battenburg or point—L Himmler, Miss McKee; Any kind sofa pillow—Miss McKee, W H Huck; Emb pillow shams—McKee, Mrs Gowanlock; Silk mitts—G Reinhart; Fancy apron—Geo Reinhart, Miss McKee; Knitted slippers—Mrs Maurer, Mrs Gowanlock; Fancy whisk holder—Jac Lerch, Mrs Maurer; Knitting in cotton—Geo Reinhart, L Himmler; Crochet in cotton—Mrs Maurer, Miss McKee; Crochet in wool—Mrs Gowanlock, Geo Reinhart; Sideboard scarf—Geo Reinhart, W H Huck; Toilet mats—Miss McKee, Mary Godfrey; Tatting—Geo Reinhart, L Himmler; Nattng—R Morrison, Geo Reinhart; Nettng by hand—W H Huck, Geo Reinhart; Braided pillow shams—Geo Reinhart, R Morrison; Brazilian work—Mrs Gowanlock, Miss McKee; Burnt work—L Himmler, W H Huck; Hardanger Emb—Miss McKee, Mrs Gowanlock; Novelties any kind—M Fischer, Miss McKee; Ladies fancy collar—L Himmler, Mrs Gowanlock; Drawn work—W H Huck, C Liesemer; Point lace—L Himmler, Mrs Gowanlock; Fancy pin cushion—Miss McKee, L Himmler; Battenburg lace—L Himmler; Honiton lace—Miss McKee, L Himmler; Fancy handkerchief—L Himmler, Miss McKee; Fancy photo frame—Mrs Gowanlock, L Himmler; Painting on velvet—Miss McKee, L Himmler; Painting on silk or satin—Miss McKee, W H Huck; Painting on China—Miss McKee, Mrs Maurer; Painting on glass—Miss McKee, L Himmler; Collection of paintings, Mrs Maurer; Best display of house plants—C Liesemer.

ART.

Penmanship—L Dietsch, Mrs Maurer; Landscape painting—C Liesemer, L Himmler; Crayon drawing—Thos Young 1 and 2; Pencil drawing—Mrs Maurer, L Dietsch; Scroll painting—J F Schuett 1 and 2.

IMPLEMENTS, ETC.

Top buggy—J F Schuett, 1 and 2; Heavy bobsleigh—J F Schuett; Cutter—J F Schuett, 1 and 2; Horseshoes, heavy—J F Schuett; Horseshoes, light—J F Schuett; Pump—J. Bear 1 and 2; Best piece furniture—A Murat 1 and 2; Best blacksmith's exhibit—J F Schuett; Merchants display—C Liesemer.

Have you any of these symptoms of defective vision: Pain in or over the back of the eye, inflammation, granulated eyelids, pain in the temples (supposed neuralgia); cross-eye and squint. If so, consult the specialist in the parlour of the Commercial hotel on Thursday, Oct. 10th.

LOVE BUT MAMMON HUNTING BY SUBMARINE

PROF. JOHN GRAHAM BROOKS SAYS SOME SCATHING THINGS.

Denunciation of Present Day Marriages—Books Which Tell of Money Marriages.

"The rich do not wed; they buy partners." Such is the sweeping remark made by Professor John Graham Brooks, the Harvard instructor, who wrote "Social Unrest," and who has now set all New York by the ears by saying various scathing things about the connection between marriage and money.

One of them is that "a rich woman can buy a man next to the king—his grace the gartered Duke—as she would a bit of blue ribbon over the counter," and another that she can "buy a lord, or a whole shoal of dapper counts and seedy barons, and get into society."

He goes on to say things much more scathing about the power the moneyed man has with women, "because money has the singular power of purchasing anything a man wants. Money has come in to disturb the ennobled passion of love."

Opinion in England as to the truth of Professor Brooks' remarks seems to be pretty equally divided.

CHARACTER FROM LIFE.

"I must say I agree with the Americans," said Mr. Horace Wyndham, whose latest novel, "Reginald Auberon, the Autobiography of a Selfish Man," was reviewed the other day in the London Daily Mirror. "It is the appalling lack of romance in the present-day courtships that gave me the ground-work for 'Reginald Auberon.' In that book there are three 'money' marriages; that of the heroine, and the two marriages of the hero (if one may so dignify him), who allows himself to go to the highest bidder. He is for sale throughout the entire volume, and I may as well say, in my own defence, that I took the character from real life."

Miss Rhoda Broughton, than whom there was no more popular story teller in our youthful days, maintains, however, that there is no more buying and selling in the marriage market to-day than there was when she gave us "Red as a Rose Is She" and "Good-bye, Sweetheart, Good-bye," as typical episodes of the life around us.

"Of course there are instances here and there of a man or a woman marrying for money," she said, "but if you take English people, at any rate, I am certain you will find more marriages out of pure affection than for any sordid reason."

WORSE IN UPPER CLASSES.

"I live in Oxford, and my own knowledge of human nature and belief in my fellow-creatures forbids my thinking that every bright-faced, clean-limbed, athletic university youth whom one meets in the streets or on the river would so falsify himself as to sell his natural birthright—love."

Again: "There is a great deal of truth in Professor Brooks' condemnation," a London West End clergyman said. "I am at times called upon to officiate at ceremonies which are practically nothing more than the surrender of youthful loveliness for gold, or the purchase of money with a title. I do not think the state of things is as bad in the lower and middle classes as among the upper ten thousand, and then I think the men are chief offenders."

"I am thankful to say that these remarks do not apply to the East End of London," said a Bethnal Green missionary. "We may have separation orders, desertions, appeals, summonses for cruelty, but we have no buying and selling in our marriages."

HAIL NOT DISSIPATED BY GUNS.

For several years past, in some of the vine-growing districts of France and Italy, persistent attempts have been made to dissipate gathering hail-storms by the systematic firing of guns at the clouds. Many vine-growers believe that the method is effective, as their vineyards have escaped threatened hail-storms when the guns were fired. A recent report by Doctor Blaserna of the results of a long series of experiments, under scientific control, shows that the supposed effects of the gun-firing are illusory, and that hail cannot be dissipated by firing in the air any more than rain can be induced by a similar method.

Doctor: "Do you eat well, my little man?" Little Man: "I ought to; I've been practising since I was two days old!"

PILES

"I thought I must go on suffering from piles until I died; but Zam-Buk cured me," says Mrs. E. Reed, of Stearns (Ont.), and adds: "I was so weakened that I could hardly move about, and a little work caused me great agony. Then I heard of this grand balm, and I am thankful to say that it has cured me."

Zam-Buk also cures cuts, burns, bruises, stiffness, swollen, inflamed, chafed, places, sore feet, rough red skin, psoriasis, and all skin injuries and diseases. Druggists and stores at 50c. a box, of Zam-Buk Co., Toronto. 5 boxes at \$2.50.

EFFORT TO RECOVER BULLION OF LOST WARSHIP.

When Vessel Went Down She Had \$2,500,000 on Board—\$500,000 Recovered.

The latest invention is a submarine for salvaging wrecks, and it will be used in an attempt to salvage H. M. S. Lutine, which was wrecked off Terschelling Island, on the coast of Holland, in 1799. "The submarine is fitted with a special internal apparatus," says J. Garner Flood, of London, England, who will be engaged in the work. "It has regulators, by the aid of which the operator can control the pressure of the air inside, and so make it the same as that of the water. The bottom can then be opened with perfect safety, and the wreck examined with ease."

"I have just returned from the wreck and I think that we shall be successful in our efforts."

IT IS WELL MARKED.

and is guarded by the local authorities. "There are, naturally, many difficulties to be overcome, one of the greatest being the continual shifting of the sand around the vessel. At some times the wreck is completely covered, and then our work is twice as hard."

"The Lutine now lies right in the centre of a number of dangerous sandbanks, and some of the operations, which have been frequent during the last century, have been attended with loss of life."

"It is stated that when the vessel went down there was bullion on board to the value of \$2,500,000, but so far only \$500,000 has been recovered, and we are now going to try to recover the remainder."

"Unfortunately, the weather handicaps us considerably, and during the whole of this year we have not had one really favorable day. As can be easily imagined, when the sea is rough the work is very difficult to carry out, and on one occasion, when an attempt was being made with the aid of a diving bell, the waves almost overturned it."

DANGER AT A MINIMUM.

"With submarines the danger will be removed, but, nevertheless, on a rough day, the shoals of continually moving sand interfere with our work to a great extent, and prevent our getting at the wreck."

"On one day, for instance, the sand is all removed from above the wreck, but by the next it is frequently covered up again, and the work has to be begun all over again."

"The Lutine now belongs to Lloyd's and we have already placed the order for the building of the necessary apparatus, so that we shall begin salvaging operations very shortly. I think they will be successful, and that with the submarine we shall recover all the bullion still remaining in the hold of the ship."

HAVE SEAMEN LOST NERVE?

Reason Assigned for the Restoration of the Mast and Sail Drill.

In consequence of reports having been made to the British admiralty of seamen in some of his Majesty's ships having refused to go aloft in rough weather, it has been decided to reinstate the old "mast and sail" system of instruction in the harbor training ships.

This system was abolished about seven years ago, and with it went the old cruiser squadron, consisting of fully-rigged steamships, in which youths were sent to sea before being passed out into the ships in the first line. The sailing brigantines and Libery were also dismantled.

In the place of this system a new one was introduced by which boys were first sent to sea in the ships of the particular service squadron, consisting of first-class armored cruisers. Sail drill, running aloft, and such things were assigned to the limbo of the past, as having no place in an age of steam and steel.

The objections of many distinguished naval officers were overruled as being obsolete. They said that drill aloft trained the men in confidence and daring, and that its abolition would result in a falling off in those qualities in which the British bluejackets has always been supreme. But the objectors were ridiculed.

Now the authorities have discovered that the naval officers were right, and the obsolete "mast and sail" drill is to be reinstated. We have been training our seamen in barracks for a good many years now, but a fully-rigged mast is to be erected in the grounds of the Shotley establishment, to be followed, it is believed, by a similar modification in the training of youths when they pass out to sea.

JUST THE OPPOSITE.

"They call the town you live in a woman's paradise, do they?" said the man with the pointed nose. "Because the women outnumber the men five or six to one?"

"Not at all," answered the man with the bulging brow. "Because the men outnumber the women five or six to one."

ONE CHILD IN TWO DIES.

Dr. Francis J. Allan, medical officer of health for Westminster, England, states in his annual report that of 1,278 children born in 363 families during the past three years, 639—exactly one in every two—died before reaching the age of one year.

Celluloid REE Starch

Just send us your name and address on a post-card and we'll mail you a Painting Book for the little folks and a quarter-pound package of Celluloid Starch. That means fun for the children and satisfactory starching for you. Celluloid Starch requires no boiling, gives a perfect finish to the clothes and never makes the iron stick. Write to-day for this free book and sample.

The Brantford Starch Works, Limited Brantford, Ontario

TO THE DISCOURAGED.

Meet your problems with an effort of the mind. Meet your difficulties, your sorrows, your disappointments with an effort of the will—which is a struggle of the brain. Devote your energies to maintaining mental alertness. Remember that that brain inside your skull contains all your hope for the future, all your possibilities of usefulness as well as pleasure, since there alone sensation and real activity exists. Use your brain to succeed, and, above all, use your brain to counteract the depressing, discouraging effects of failure. Remember that if you do as well as you can you have done all that you ought to do. Don't worry about the superior achievements of others. You have no cause for worry unless your life fails to bring you up to your highest possible degree of mental development.

Good Digestion Should Wait on Appetite.—To have the stomach well is to have the nervous system well. Very delicate are the digestive organs. In some so sensitive are they that atmospheric changes affect them. When they become disarranged no better regulator is procurable than Parmelee's Vegetable Pill. They will assist the digestion so that the hearty eater will suffer no inconvenience and will derive all the benefits of his food.

THE WISE FATHER.

"But I can't live properly on an allowance of \$10 a week," protested the son. "Of course you can," replied the father. "You want an increase so you can live improperly."

ITCH.—Mange, Prairie Scratches and every form of contagious itch in human or animals cured in 30 minutes by Wolford's Sanitary Lotion. It never fails. Sold by all druggists.

RIGHT.—Little Mills—Granddad, what makes a man always give a woman a diamond engagement ring? Grandfather—The woman.

A Pill for Generous Eaters.—There are many persons of healthy appetite and poor digestion who, after a hearty meal, are subject to much suffering. The food of which they have partaken lies like lead in their stomachs. Headache, depression, a smothering feeling follow. One so afflicted is unfit for business or work of any kind. In this condition Parmelee's Vegetable Pills will bring relief. They will assist the assimilation of the ailment, and used according to direction will restore healthy digestion.

"How was it Dr. Knowit got such a big fee from Talkative?" "Because when he was called to attend Mrs. Talkative for a slight nervous trouble he told her she had an acute attack of inflammatory verbiage." "Well?" "And recommended absolute quiet as the only means of averting paroxysms of cacophonous loquendi." She's scared dumb."

Overworked Persons, either mentally or physically, should try "Ferrotonic," the world renowned nerve and blood tonic and they will quickly recover strength and health.

Matrimony makes a man awfully restless a little while before and forever after.

Askit—"What is the quotation about 'A friend in need?'" Noit—"A friend in need keeps a man broke."

There are a number of varieties of corns. Holloway's Corn Cure will remove any of them. Call on your druggist and get a bottle at once.

DIFFICULT.

A teacher in a certain Eastern school asked her class to draw a picture of that which they wished to be when they grew up. The pupils went diligently to work with paper and pencil, some drawing pictures of soldiers, policemen, and fine ladies, etc. They all worked hard, but one little girl, who sat quietly holding her pad and pencil in hand. The teacher observing her, asked: "Don't you know what you want to be when you grow up, Alma?" "Yes, I know," replied the little girl. "I know I want to be married, but I don't know how to draw it."

ENGLISH WEDDING CUSTOM.

A very ancient custom marked a recent wedding at Whitburn-by-the-Sea, near Sunderland, England. At the church door, as the bridal party left, the villagers presented a "hot-pot," a mixture of eggs and ginger, made very hot. The presentation is considered a great compliment.

NEEDLESS CEREMONY.

Peter had been hastily bidden to Bobby Hunt's party, and his mother was "rounding him up" in front of the washstand.

"O mother," he said, "do I have to have a whole bath?" "Certainly."

Peter mumbled something, and his mother asked him what it was. "I said were you sure it wasn't just your idea," replied Peter. "I'm certain I heard Bobby's mother tell you over the telephone that the party was very informal."

CAUSED BY KISSING.

Eva—"Do you consider kissing deleterious to the health?" Jack—"I don't know. I kissed a girl one time and black spots came before my eyes."

Eva—"Gracious—Was it heart disease?" Jack—"No, she wore a veil."

Knicker—"What is a self-made man?" Mrs. Knicker—"One whose wife doesn't have to wear a self-made hat."

Rose-colored spots on the bodies of children are sometimes mistaken for measles. The trouble may be roseola, a local disease of the skin. Promptly cured with Weaver's Cerate.

Fathers who think they have the brightest child in the world should keep the thought to themselves.

A man is foolish to go round looking for trouble unless he is strenuous enough to take a fall out of it.

A DANIEL.

"Can any little boy in the class tell me why the lions did not hurt Daniel?" asked the Sunday school teacher. "I guess it was 'cause he belonged to the circus," answered a bright youngster.

Do not delay in getting relief for the little folks. Mother Graves' Worm Exterminator is a pleasant and sure cure. If you love your child why do you let it suffer when a remedy is so near at hand?

Hostess—"Mr. Litewayte is going to sing a comic song." Guest—"I knew something would happen. I overturned a salt-cellar at the dinner-table."

Tourist—"What do the people round here live on, Pat?" Jarvey—"Pigs, sorr, in the winter, and tourists in the summer."

Its Power Grows With Age.—How many medicines loudly blazoned as panaceas for all human ills have come and gone since Dr. Thomas' Electric Oil was first put upon the market. Yet it remains, doing more good to humanity than many a preparation more highly vaunted and extending its virtues wider and wider and in a larger circle every year. It is the medicine of the masses.

BEEES FASTER THAN PIGEONS.

It is not generally known that bees are swifter in flight than pigeons—that is, for short distances. Some years ago a pigeon fancier of Hamme, Westphalia, laid a wager that a dozen bees would reach home in less time than a dozen pigeons. The competitors were given wing at Rybern, a village nearly a league from Hamme, and the first bee reached the hive a quarter of a minute in advance of the first pigeon. Three other bees reached the goal before the second pigeon. The bees were also slightly handicapped, having been rolled in flour before starting for purposes of identification.

She—"Did you ever stop to figure out how many hats in a year you could buy with the money you throw away on cigars?" He—"No, dear. I could buy about three for myself, but only about three for you."

No person should go from home without a bottle of Dr. J. D. Kellogg's Dysentery Cordial in their possession, as change of water, cooking, climate, etc., frequently brings on summer complaint, and there is nothing like being ready with a sure remedy at hand, which oftentimes saves great suffering and frequently valuable lives. This Cordial has gained for itself a widespread reputation for affording relief from all summer complaints.

If men were to write their own epigrams marble cutters would be compelled to work overtime.

After celebrating the twenty-fifth anniversary of her birth, the average woman's chief aim in life is to not look her age.

DODD'S KIDNEY PILLS CURE ALL KIDNEY DISEASES BRONCHITIS, RHEUMATISM, BRIGHT'S DISEASE, DIABETES, BACKACHE, GRAVEL, NEURALGIA, MIGRAINE, HEADACHE, AND ALL AFFECTIONS OF THE URINARY TRACT.

ISSUE NO. 38-07.

One kind of underwear, and only one, fits right, wears out slowest, and satisfies you from the day you buy it. That kind is trademarked (as above) in red, and guaranteed to you by stores that sell it and the people who make it. Made in many fabrics and styles, at various prices, in form-fitting sizes for women, men and children. Look for the PEN-ANGLE.

DO NOT BE UNKIND!

To him who talketh tommyrot Oh do not be unkind; Think of the burden did he not Get such things off his mind.

The strongest wind that ever blew can't rip away a roof covered with self-locking "OSHAWA" GALVANIZED STEEL SHINGLES.

THE SACRIFICE;

—OR—

FOR HER FAMILY'S SAKE.

CHAPTER VII.

The next morning Katie was walking toward the station; she had her little leather bag with her school exercise-books on her arm. In the early morning, Lora had come into her sisters' room, and in a weary voice had begged her to do her the one favor of putting her note into Dr. Schonberg's hands; unfortunately, she could not fulfill her promise, for papa was not at all well, in consequence, probably, of staying up so long and drinking punch the night before; she must go up to him at once, to bind up his leg. Katie knew very well that he would never allow any one else to do it.

Katie had absolutely snatched the open note out of her hand, but she did not speak a word. But Lora knew the letter would be delivered. Katie was trustworthy, and her motto was "Faithful and true."

The young girl went to the station by side streets. Her face wore a rigid expression, which made her irregular features almost ugly. There was something stern, almost cruel, in her dark eyes, which were surrounded by dark blue rings. She held Lora's letter in her hand, and scarcely seemed to notice that she had almost crushed it.

At length she stopped in a narrow street, which ran between garden hedges. It was outside the town; the gardens belonged to people who lived in the city, and here and there was a simple country house.

The leafless boughs of the fruit trees towered up above the bare hedges; otherwise the landscape was like a sea, so thick was the mist; it concealed the old walls of the city to the left and the fields round about it. No one was visible on the lonely, narrow path which stretched before her.

Katie looked at the letter and bit her lips. In it were words of love addressed to him, and—Lora had written them!

She gazed at the white paper, as if she would pierce it with her glance. She could have taken the note out of its envelope, but she did not do it. She would not have done it for all the world.

It was not honorable to read other people's letters, even when they were open; and she would not do it, when she knew that every word contained in it would pierce her heart like a stab from a knife.

Katie had ceased to be a child since yesterday. She was no longer a thoughtless school-girl. She had developed suddenly into a woman. She did not comprehend, herself, how she had become so. She had been awake all night, thinking and crying, and she had come to the conclusion that she should go mad if—yes, if—

To "go mad" was a favorite resource of hers, when her passionate temperament was opposed in any way. She suddenly crushed up the letter in her hand, and clenched her hand over it. Why should she, she of all persons, be employed as this lover's messenger?

Three strokes of the clock sounded through the mist. She raised her head. "Quarter of eight," she murmured. At eight o'clock, precisely, he would go! She turned suddenly about, and walked toward home; behind her, in the distance, a train was thundering along; there lay the station. She sauntered along for awhile, then she stopped and picked a half-frozen seed-vessel from a wild-rose bush, whose thorny briars straggled through the hedge. She broke open the red fruit, and began to count the hard seeds. Her gauze veil was damp from the heavy fog. She must have been very cold, for she was excessively pale.

After awhile she turned back in the direction of the station, and now she walked fast, still carrying the crushed-up note in her hand. Just below her a red-tiled roof rose out of the mist. Again there was a dull, rumbling sound; it came nearer and nearer; she knew it was the Hamburg train, which left at eight o'clock, by which he would travel. All at once she began to run; her face was deeply flushed, and her eyes were wet with tears. She stopped, breathless, just at the end of the street.

A shrill whistle, and the train moved out of the station; she could see it rush away into the silvery sea of mist. Did some one look out of the carriage window? Was it he?

Just then the town clock struck eight. "Too late!" she murmured, and turned slowly to the left toward the Buchow gate. The train had gone too soon—much too soon!

She took the note and began to tear it up in little pieces. They fluttered in the air, behind her, like snow-flakes, for awhile, and then lay like little white flowers on the wet grass by the side of the road. She hardly knew what she did; she only kept thinking that she should go mad if—yes, if—

CHAPTER VIII.

About noon a servant from the Becher villa left at the door a note for the Herr Major von Tollen, with a hare and Frau Becher's compliments. Herr Becher had shot it that morning. Frau von Tollen had taken them both from the messenger.

The major was in a bad temper to-day; he was vexed about his son, who

showed less consideration for him than ever, and the ladies of the house had to bear the consequences. Rudi had stayed out again till one o'clock at night, and this morning he was complaining of headache, and was, in consequence, in a very irritable frame of mind.

"What can it be about?" said Frau von Tollen anxiously, when she had dismissed the servant. As she spoke she looked anxiously at the elegant note.

"Mamma," said Lora gently, "if you do not know, I cannot enlighten you; but it is probably only about the game."

Her mother's worn face was flushed with embarrassment.

"Oh, heavens!" she cried, "if only Frau Becher does not—"

"Want to propose for me for her Adalbert, mamma? I should not be surprised."

"And do you consider it an insult that a mother who loves her son should try to win for him the girl of his choice?" cried Frau von Tollen.

"Mamma, you must keep to the point—please, mamma. It is an insolence if she dares do it after I—"

Lora stopped. She saw, by her mother's expression, that she would not understand.

"I must carry up the note," said Frau von Tollen resolutely, laying the hare down on the table.

"Why should we talk about it? We shall know soon enough what she wants."

Lora smiled involuntarily; she knew very well what a mountain of courage her mother needed, to put a note like that into her husband's hands. Her courage did not quite hold out; the Frau Majorin came back into the kitchen.

"Rieke!" she called out of the window into the garden, "come here." She put the letter on a plate and gave it to the little maid. "Carry it up to the Herr Major; but first put on a clean apron—so—it has just come."

She sat down in a chair by the kitchen table, at which Lora was standing, peeling apples quite mechanically. Her thoughts were already far, far away, on the road to Mainz.

"Oh, Lora," sighed the old lady. The daughter turned her pale face toward her.

"You are so indifferent, Lora." "About Rudi, mamma? No, indeed, I am not," asserted the young girl. "I cannot sleep at night. I feel oppressed as if before a thunder-storm; but there is nothing to do but wait. And then—"

She bent tenderly over her mother, and kissed her on the forehead, "then we will bear the trial together, motherkin, as we have so often done before."

"But what if it is too heavy; if my old shoulders should bend beneath the burden?"

"I will help you, mamma. Have faith; a sunbeam will surely shine in the midst of it; only wait! There was a smile in her eyes for a moment; she knew well what the sunbeam was. And, as if this consciousness gave her new courage, she inquired, "Has Rudolph heard nothing from Herr Becher to-day?"

"Oh, yes, replied her mother; he gives the poor boy no peace. Two letters yesterday, and another one just now; but Rudi put it into his pocket unread. And when good can it do?"

"Where is Rudi?" "With papa."

The little maid just then clattered downstairs again in her wooden shoes, and ran out into the garden.

"Now he has got the letter," whispered Frau von Tollen, "and Rudolph is coming down, now."

A moment later the young officer came into the kitchen, to his mother and sister.

"Thank Heaven!" he murmured, "his temper is too much to be borne. It is to be hoped the letter will give him something else to think about, for I have been buffeted about enough. Did Becher send the hare?" he added; "he was going out this morning, I know."

Lora replied in the affirmative. "Well, at any rate we shan't have that everlasting veal for Sunday," he grumbled.

"My love, I can't buy partridges and that sort of thing for you," said Frau von Tollen absently.

"Why, of course not, mamma! Good heavens! you take offence at everything I say."

"Oh, no, Rudi; I have long got over that—"

She suddenly started up from her chair; the major was calling her in a voice of thunder.

The brother and sister were now alone.

"There'll be a pretty row, now," said the lieutenant, taking his mother's seat.

"Oh, I don't think so. Why should there be?" said Lora, without pausing in her occupation.

"Hm! You can imagine what the lady wants."

"To some extent; but it takes two for that sort of thing, Rudolph. She might have spared herself the trouble."

"I don't care; it is all the same to me," he replied crossly, as he rose from his chair. He turned round again, when he reached the low door. "They

are all hot and heavy up there, do you hear?" he remarked, with a shrug of his shoulders. They could hear the major's voice, hoarse with anger.

"Everything comes to an end some time," said Lora, though she had grown a shade paler. "I am only sorry for mamma. Papa, I think, is of my opinion."

After awhile she went upstairs. As she was passing her father's door, the major was exclaiming: "My daughters may marry whom they like; but they shall not be forced into a marriage. When the girl tells me herself that she wants him, then I will believe it, but not before—and that is all I have to say. But if Melitta shows her face here, I will throw her downstairs, as sure as there is a God in heaven, even though I should be the murderer of my own sister. I won't stand her gossip."

"Oh, Tollen!" cried his weeping wife. "Be silent! I will answer that old gypsy, that Becher-woman, myself, do you hear? A fine fellow that, to hide himself under his mother's apron! Can't the idiot try his luck himself? No! My son, who is too modest to approach the daughter behind the father's back, would be glad to know whether it would be agreeable to the esteemed Herr Major and amiable wife, if he could ask for the hand of Fraulein Leonore." Confounded women's nonsense! The fellow has never worn uniform, or he would have come frankly, and said to me, 'I love your daughter—can I have her or not?' and then—then I would just as frankly have flung him downstairs, so he would have had to pick up his bones separately, the scented dandy!"

Lora's lovely face grew suddenly radiant. She ran hastily upstairs into her room. Her dear, good old papa! She would like to throw her arms around his neck. She looked across to the gymnasium, and then off into the distance that spread before her, veiled in mist. Dear, good papa! Never again would she murmur when he scolded and grumbled, never again. And she would go to him this very day and say: "Papa, I love some one, who will come to you and ask you plainly whether he may be your son. And he is a true man, a good and wise man—Doctor Ernest Schonberg."

She caught herself singing in a low tone. If Katie would only come! She must bring her a message; she must be able to tell her whether he was very much disappointed because she could not come herself. And this afternoon, in the twilight, she would slip across to his mother. She flushed crimson at the thought, and her heart beat rapidly. It is a critical moment for a young girl when she comes before her future mother-in-law for the first time. She knew that the old Frau Patörin made an idol of her son, and she would observe her sharply, as the one on whom her son's happiness and well-being depended. If she might only please her! She went to her flower-pots, where the last monthly roses were blooming, and bent down each one, to look at it closely. She meant to cut them for Frau Schonberg.

If Katie would only come! But Katie did not come. When the family was seated at dinner, the boy who acted as page to Fraulein Melitta appeared, and announced that Fraulein Katie would dine with Fraulein von Tollen and they need not wait for her. This was something so unheard of that it excited universal amazement, for Katie and Aunt Melitta avoided one another like sun and moon.

"What has the gracious lady for dinner to-day?" asked the lieutenant, with a spice of humor, pouring some of his father's wine into his soup to make the "dish-water" tolerable, as he said to himself.

"Dumplings and stewed fruit," replied the servant lad, with a grin.

Lora wondered inwardly, for Katie usually delectated dumplings and stewed fruit.

The boy was dismissed. The major sat in silent fury at the waste of his wine, and no one spoke a word. Lora endeavored, in her pleasant way, to break the oppressive silence, but in vain. The major ate his dinner hurriedly, and wore his grimmest countenance, and Frau von Tollen was mute; her son played with his knife and fork, and was excessively polite in passing the dishes, or in declining those offered to him. At length his father folded up his napkin before he had finished, and, muttering a short "Mahlzeit!" he limped out of the door.

"Papa does not feel well," said his mother, in excuse. "You mustn't mind him."

She was scarcely conscious that she spoke—she had long known this excuse by heart. For years she had had occasion to use it daily, and she did it with unwearying patience.

The lieutenant arose, and whittled a few notes, took his cigar case out of his pocket, and seated himself by the window.

"It is a mystery to me how you manage to hear it," he remarked, and buried himself in his paper, while the little maid cleared the table.

Lora took a thin shawl and went into the garden. The sky was full of clouds, but the air was still, and almost warm. She walked up and down the narrow paths, and at length turned her steps toward the iron gate in the old wall, and opening it, went out. Outside, she stopped, and looked down at a certain spot in the wet grass.

Was it very wicked of her that the jars and discords of her home did not oppress her so heavily to-day as usual? She could not help it; her heart was so full of sunshine, that she felt as if everything must come right at last. She felt like a wanderer, walking through crooked paths, in night and darkness; but who knows that at the

end of this path there lies a shining goal, and that after the night the morning will dawn in golden sunlight. She threw her arm round the stem of a hick tree, which, standing close to the water, still kept all its foliage, though dyed a brilliant yellow, as if every leaf was gilded.

The tree shone out in its splendor in the gray autumn afternoon as golden as the hopes of the young creature standing beneath it, in the gloomy present. She was so deep in thought, that she did not perceive how slowly leaf after leaf fell to the ground; she did not perceive how the little maid suddenly shot out of the door with a disturbed countenance, and eyes staring with terror.

"Fraulein Lora! Fraulein Lora!" she shrieked, grasping her young mistress by the shoulder. "Good land! Come in—the gracious lady—"

Lora asked no questions; she stared at the girl in terror, and then she ran into the house.

"Downstairs," the girl called after her, "in the salon!"

Lora flung open the door of the parlor. For the first few seconds she saw nothing but her brother, standing motionless in the window, with his hands in his pockets.

"What has happened?" she tried to ask, but her voice died away. There, on the floor, in front of the sofa, lay her mother; her head resting on the cushions, her hands clutching her gray hair.

"Mamma!" cried Lora, "dear mamma, do speak to me!"

Frau von Tollen raised her head. Lora started as she looked into her mother's changed countenance—she looked like a mad-woman.

"This is what I get!" she shrieked. "I have deserved this of my children! They, for whom I have given up my life, now trample me into the dust! Oh, why did I not die, at least!"

As she spoke she dropped into a chair and covered her face with her trembling hands.

(To be Continued.)

OUR LITTLE FRIEND.

"Papa," said Willie, as he and his father roamed over the fields together, "I like to go walking with you. You know so much about everything, don't you?"

"Yes, Willie, I know a great deal," returned Mr. Bronson, complacently. "And it is a great pleasure to me, my son, to be able to impart to you the information I have acquired."

Willie looked as if he didn't exactly know what "acquired" and "impart," and "information" meant, but he looked for granted that his father understood what he was saying, and for a minute he was silent. Then he asked, catching sight of cattle grazing in the next field?

"Papa, what is cows?"

"Cows," returned Mr. Bronson, after a moment of thought—"cows—are animals with horns, that give milk and eat grass."

"Do cows like grass better than they do apple and custard?" asked Willie.

"Very much better," said Mr. Bronson.

"Why do they, papa?" asked the boy.

"Oh, because they were born that way."

"Why do cows give milk, papa? Can't they sell it?"

"No, cows don't know anything about money, you know; and even if they did, they wouldn't know where to keep it."

"Couldn't they keep it in their horns?" "Oh, my, no!"

"What good are cows' horns? Do they make that funny 'moo' sound with their horns?"

"What an idea! No, indeed. They do that with their throats."

"Why don't they do it with their horns?"

"They can't."

"Can't anybody blow horns?" "Oh, yes. Tin horns, and—er—brass horns, but not cows' horns."

"Papa, why don't cows have tin horns?"

"Oh, nonsense! Oh—er—because they are cows, I suppose."

And then he regretted that he had promised to impart information.

WARSHIP BUILDERS BUSY.

British Firms Have Secured Many Large Contracts.

British shipbuilders are experiencing quite a "boom" in contracts for warships.

Brazil has recently given contracts to Messrs. Armstrong, Whitworth and Company and Messrs. Vickers, Sons and Maxim for the building of three battleships and two cruisers.

Japan has ordered two submarines of the Holland type from Messrs. Vickers, and the Argentine Government two powerful cruisers from Messrs. Armstrong.

The Vickers Company has also secured an order for two battleships for China, which country is also in the market for twenty shallow-draught gunboats for patrol service on the Yangtse-kiang, the announcement being made that tenders from British firms will receive favorable consideration.

Tenders are also out for the 33-knot destroyers, provision for which has been made in this year's navy estimates, and shipbuilders on the Admiralty list have just been asked to tender for the construction of torpedo boats, which are to form the basis of the new Australian Navy, but as a hitch has occurred in the negotiations there will probably be some delay in placing them.

Many a family tree has a bad branch and a shady reputation.

THIS GAS PLANT

LIGHTING THE STREETS FROM STRAW AND CORN COBS.

May Revolutionize the Gas Industry—Coal is Needed No Longer.

Red tongues of flame shooting through the black smoke of a burning straw pile, gave J. R. Coutts, of Chicago, an idea which bids fair to revolutionize the gas producing industry of the United States. It has solved the fuel problem for the great Central West, which is without gas coal, but has millions and millions of tons of straw, corn-cobs, etc., now considered waste matter on the farms.

Coutts worked three years on his idea and last month there was opened in Beatrice, Neb., the first results of his work—a gas plant which used not the high priced coal and oil, but simply the waste matter of the farm. The new gas plant is not an experiment on the small scale, but instead, is a full-fledged gas manufactory, and its product is lighting the streets of the city in addition to furnishing gas for heating and lighting hundreds of homes.

PLANT LOOKS LIKE FEED STORE.

Instead of paying out hundreds of dollars every day to coal mines and railroads for material from which to make the gas which it sells, the Beatrice plant buys up straw, cobs, corn-stalks and matter of that kind, throws them into the retorts, and the result is a splendid gas with ten per cent. more heating power than the best coal gas known. And for ton for ton the straw and cobs make sixty per cent. more gas than does the best gas coal.

The Beatrice plant looks more like a gigantic feed store than a gas plant. On every side, instead of cars of coal and tanks of oil, are bales of hay and corn-stalks and cribs of corn-cobs. There is the old familiar odor of gas in the atmosphere and all the apparatus usually seen around a gas plant. But there is another little room which is not found where coal gas is made—and in that little room are the secrets of the business. Here are the formulas and the processes which represent the three years' work done by Mr. Coutts, and of which the completed plant is the result.

Beatrice is a city of twelve thousand people. The new gas company opened for business without a single customer, June 15, 1907. As a competitor there was an old established gas company furnishing gas to three hundred metres. After one month of operation the new company is lighting the city, has three hundred metres already installed, has fifty men installing other metres just as fast as possible and has three hundred applications on hand.

As to the character of the new gas, the experience of some of the local papers is a sample. Formerly it was necessary to keep the fires under the metal pots lighted for four hours before use, in order that the type and metal might be liquid when needed. The new gas burns just ninety minutes before the metal is ready for use. To be exact, the coal gas produced 600 British thermal units, while the vegetable gas produced 600 units of heat in the same time.

TON PRODUCES 10,000 CUBIC FEET.

One ton of the best gas producing coal laid down in Beatrice costs \$6, and will produce 10,000 cubic feet of gas. But one ton of common old corn-cobs or straw treated in the new plant produces 16,000 cubic feet of a better grade of gas than does the coal. And after the gas is extracted there remains 600 pounds of the best coke obtainable. In the case of straw almost pure carbon remains. And this coke is burned beneath the retorts, thus producing the heat necessary to make more gas and more coke.

The Beatrice plant cost \$50,000, including eighteen miles of gas mains. This is just about the cost of an ordinary gas plant of the same capacity. But the ordinary gas plant can be made into a corn-cob plant by expending about \$2,000. The burners and other fixtures are the same for both gases.

Instead of dreaming of to-morrow the successful man is wide-awake to the opportunities of to-day.

When a girl says she never intends to get married she means it about as much as the man who says he has more money than he knows what to do with.

He—Look at that woman on the other side of the street waving her hands about her head. Is she practising physical culture? She—"Good gracious, no! She's describing her new hat to the other woman!"

It is sad to learn, from official sources, that, in spite of the march of civilization, an average of nearly 30,000 unaddressed letters find their way to the British Post Office yearly, and that over \$30,000 per annum is, in this way, presented to the National Exchequer. The amusing part of the matter is the way in which many letters are addressed. "Obanvidock" was, on one occasion, made to do duty for Holborn Viaduct; "Malland" was found to be Mile End in masquerade; "Hilewile" was alleged to be photo-phonetic; but most experts collapsed when it came to "Haseleach in no fampshire"—which at last emerged into Hazelbeach, Northamptonshire. The last production, however, was the best: "To the Cecytery of Wore, Chelsey Osbielle, London Queen Victoria."

COUNTY AND DISTRICT.

—Good horse, harness, and delivery wagon for sale on reasonable terms. Apply to R. Keir, baker, Mildmay.

The Warton Echo says:—Last week a farmer brought his lambs to town and sold them for 4c. per pound. He felt it keenly because if he had fed he calculated that he could have got 5½ cents the same as last year. He was asked how much he got 12 years ago for his lambs, and he replied 2½ cents. And here is the cause of any feeling of depression that may strike this country. The times have been so remarkably good for a number of years that one cannot return to old conditions without a kick.

Your Wisest Course—If you are caught in the wet, get sore throat, neuralgia or muscular pain, don't wait for worse troubles. Begin prompt treatment with Polson's Nerviline. It drives away all trace of cold, cures rheumatism, neuralgia and pain, saves you from a lay-up in bed. No 25c purchase can bring more comfort than a bottle of Polson's Nerviline; it's the cleanest, strongest liniment made. Sold everywhere in large 25c bottles.

The Ayton Cordage Company, which suspended operations some time ago through lack of funds, is being wound up. The liquidation sale on Wednesday was largely attended. The twine machinery was purchased by the Hoover and Gamble people for a sum in the neighborhood of \$6,500. This is being shipped to Ohio this week. The plant, including the engine, did not reach the reserve bid of \$2,000, and was not sold. The building, which is of cement and iron, cost about \$8,000.

Just Where The Danger Lies.—In many catarrh snuffs cocaine is the largely used ingredient; in consequence the drug habit may be formed. To be really cured of catarrh, to do so quickly, safely and pleasantly, doctors say Catarrhoxone is superior to any other remedy. It heals sore places, stops discharge, prevents hawking, spitting and bad breath—does this by first destroying the cause of the disease. Catarrhoxone is no experiment, it is a tried and proven cure that is guaranteed for bronchial, throat nose and lung catarrh. Two sizes, 25c and \$1.00 at all dealers.

Mr. Hodgetts, of the Fruit Growers' Association of Ontario, in calling attention to the Provincial Horticultural exhibition in Toronto, Nov. 12 to 16, says: "Owing to the scarcity of apples both in Europe and the United States, many buyers will be in the country this year looking after our apple orchards. We are extremely anxious to impress upon them the splendid quality of the apple as raised in Ontario, and with this end in view wish to make the county display more than ever a leading feature of the Show. To do this it will be necessary for the growers in every county to take up the matter in earnest, and get together a display which will do credit to their own county."

Pain anywhere, pain in the head, painful periods, Neuralgia, toothache, all pains can be promptly stopped by a thoroughly safe little Pink Candy Tablet, known by Druggists everywhere as Dr. Shoop's Headache Tablets. Pain simply means congestion—undue blood pressure at the point where pain exists. Dr. Shoop's Headache Tablets quickly equalize this unnatural blood pressure, and pain immediately departs. Write Dr. Shoop, Racine, Wis., and get a free trial package. Large box 25 cents at Druggists.

System Requires Frequent Cleansing—Not only outside but inside as well, your body must be frequently cleaned. Otherwise it becomes loaded with wastes that clog up the wheels of health. Much better to act in time. Use Dr. Hamilton's Pills; they strengthen and regulate the bowels, assist digestion, enrich the blood and thereby fortify the nerves and lay the foundation of lasting good health. Dr. Hamilton's Pills bring vim and vitality so much sought for to-day; they infuse a feeling of freshness and spirit in those who have been ailing for years. Really no medicine so potent. Price 25c at all dealers.

Our local sports who have been in pursuit of the wily partridge through the woods hard by, say that the rabbits this year are badly diseased. They are covered, these nimrod say, with great lumps on their bodies which when opened, emit a yellowish pusy matter. To be sure, the shooting of this game is not permitted until the 1st of October, and how these local hunters can give such an accurate account of what appears to be a contagion is a matter of much conjecture.—Ayton Advance.

WE TEACH TELEGRAPHY

CENTRAL Business College
 STRATFORD, ONT.

We have three departments: Commercial, Shorthand and Telegraphy. We employ the best teachers that money can hire. Our courses are thorough and practical, and we assist worthy students to positions. Those who wish to get a Money-making Education should get the best. Write for our new catalogue and get particulars. This is the best time of year to enter our classes.

Elliott & McLaughlin,
 PRINCIPALS.

Every column in a newspaper contains from 10,000 to 20,000 distinct pieces of metal, the displacement of any of which causes a blunder or typographical error. Yet some people lay claim to a phenomenally brilliant mind if they can discover an error in a newspaper.

Trial Catarrh treatments are being mailed out free on request, by Dr. Shoop Racine, Wis. These tests are proving to the people—without a penny's cost—the great value of this scientific prescription known to druggists everywhere as Dr. Shoop's Catarrh Remedy. Sold by J. Coates.

Lord Russell, a famous jurist once went to Scotland to help the Liberals in a campaign. He purposely began his speech with a few sentences of bad Scotch, and then when the confusion caused by the blunder had subsided, he said: "Gentlemen, I do not speak Scotch, but I vote Scotch and I often drink Scotch." He was greeted with tremendous applause. When Russell was a young man he was sitting in a court listening to a trial for bigamy. A friend leaned across to him and asked, "Russell what is the extreme penalty for bigamy?" "Two mothers-in-law," was the reply.

Greatest Female Strengtheners on Earth.—Thousands of women are wan, pallid, rundown and dispirited. What they need is that nourishing tonic Ferrozone. Soon they regain those laughing eyes, bright spirits and rosy cheeks. Ferrozone does this and more as Mrs. L. P. Adrianson of Whitney Pier, C. B., testifies. "My daughter was very much run down and had considerable troubles at times. Often I was at a loss to know what to do. I was advised to give her Ferrozone and I did so. Ferrozone cleared up all the trouble, made my daughter healthy and well. Ferrozone gives good appetite, regulates, strengthens. I consider it a medicine every woman should use regularly if she wants to feel her best." Rebuild with Ferrozone, it is the King of all cures. Price 50c per box at all dealers.

Under the caption, "A Lean Year for Ontario," the Weekly Sun says: "Roughly, we have 9,000,000 acres devoted to the various field crops grown in Ontario. Of this total, about 3,800,000 acres are in hay, and 3,350,000 in oats. Thus well over 50% of the entire acreage given to field cultivation is in these crops, and these two main crops were the poorest in years. Hay will not give over two-thirds of the tonnage per acre this year that has been harvested in recent years, probably not over half. Oats are likely to be nearly 36% below the average yield, and this is equivalent to cutting off 25,000,000 bushels of this one crop also."

Ottawa, Sept. 20.—Statements have reached Ottawa that Hon. Chas. Hyman's health is no better. He is suffering from the most severe nervous breakdown. It is doubtful if he will ever return to London, or ever manage his business if he does.

THE CORNER STORE, MILD MAY.

BABY'S BISHR A TRYING TIME.

MADE EASY IF THE MOTHER PREPARES HER SYSTEM WITH A BRACING TREATMENT OF FERROZONE.

Women immediately experience a real gain in power and strength from using Ferrozone.

It is a true nerve and blood tonic and effects permanent cures unparalleled in the history of medicine.

Ferrozone supplies the essentials of life that are exhausted by overwork, worry, indigestion or high living. It contains just what every run-down woman and girl requires.

By instilling new strength into the blood, Ferrozone benefits the whole body.

Digestion improves, the eyes sparkle, the cheeks glow with girlish beauty. Normal powers are restored to the regenerative organs, the nerves are recharged with energy, proving that direct benefit is resulting from Ferrozone.

There is no greater boon to suffering women than Ferrozone. It fills the system with the snap and fire of youth, builds up firm tissue, rounds out the form until perfect womanhood and vigorous health is attained.

Ferrozone is the one safe tonic for ladies to use; because it contains no alcohol or dangerous drugs. Growing girls, young women, expectant mothers—every female will derive unquestionable benefit from this grand restorative.

Prepared only in tablet form. 50 cents for a box of fifty tablets, or six boxes for \$2.50 at all dealers.

—When arranging for your farm stock sale make it a point to have your bills printed at the Mildmay Gazette Office. Your bills will be attractively printed, and with every sale bill printed at this office you will receive free a notice of the sale in this paper, which is read every week by hundreds of people in this locality and makes your sale known to many who may never have the opportunity of seeing your bills.

—A report has become current in the village that Ignatz Uhrich had rented his baker shop to other parties, thereby closing out Mr. Keir. Mr. Uhrich emphatically denies the report, and says there is absolutely no truth in it.

Lax-ets 5 C Sweet to Eat
 A Candy Bowel Laxative.

Stomach troubles, Heart and Kidney ailments, can be quickly corrected with a prescription known to druggists everywhere as Dr. Shoop's Restorative. The prompt and surprising relief which this remedy immediately brings is entirely due to its Restorative action upon the controlling nerves of the stomach, etc. A weak Stomach, causing dyspepsia, a weak Heart with palpitation or intermittent pulse, always means weak Stomach nerves or weak Heart nerves. Strengthen these inside or controlling nerves with Dr. Shoop's Restorative and see how quickly these ailments disappear. Dr. Shoop of Racine, Wis., will mail samples free. Write for them. A test will tell. Your health is certainly worth this simple trial. Sold by J. Coates.

LIVE STOCK MARKETS.
TORONTO.

Receipts of live stock at the city market since Friday, as reported by the railways, were 73 carloads, composed of 1274 cattle, 495 hogs, 1629 sheep and lambs, 226 calves and one horse.

There were several lots of good cattle, that sold up to \$5 per cwt., but there were many, the bulk of those on sale, that were of common to medium quality, which sold at about the same prices as were paid last week.

Exporters—There were none bought for export, unless it was a few bulls, which were worth from \$3.50 to \$4.25 per cwt.

Butchers—Picked lots were quoted at \$4.70 to \$5, but these were equal in quality and better than many of the best exporters offered lately, and few in number; steers, 1150 to 1300 lbs., \$4 to \$4.30; common to medium light cattle, \$3.25 to \$3.75; cows, \$2.50 to \$3.75; canners, \$1.75 to \$2 per cwt.

Feeders and Stockers—H. & W. Murby report a fair delivery for a Tuesday's market. Messrs. Murby bought 150, the bulk of which were from 600 to 800 lbs. each, at \$2.25 to \$2.75 per cwt.; a few steers, 1000 to 1100 lbs. each, sold at \$3.25 to \$3.60; bulls at \$2.25 to \$2.60 per cwt.

Milch Cows—The milkers and spring-cress offered were generally speaking a common lot, with a few fair to good quality. Prices ranged at from \$30 to \$55 each.

Veal Calves—Too many horsey, coarse calves are coming on the market, with few of the right kind. Prices were unchanged at \$3 to \$7 per cwt., but it must be remembered that only prime new milk-fed calves bring the latter price, and there are few of this class being offered.

Sheep and Lambs—Trade in sheep and lambs was steady at unchanged quotations. Export ewes, \$4.25 to \$4.40; bucks, \$3 to \$3.50; lambs, \$4.75 to \$5.75 per cwt.

Hogs—Receipts light. Mr. Harris reports prices unchanged at \$6.12 for select and \$5.87 for lights and fats.

Public School Report.

Average for September.

Fifth Class—Zella Kidd 73%, F. Filsinger 70%, L. Sieling 65%, E. Berry 55%.

TELLS HOW TO MIX IT.

A well-known authority on Rheumatism gives the readers of a large New York daily paper the following valuable, yet simple and harmless prescription, which any one can easily prepare at home:

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Shake well in a bottle and take a teaspoonful after each meal and at bedtime.

He states that the ingredients can be obtained from any good prescription pharmacy at small cost, and, being of vegetable extraction, are harmless to take.

This pleasant mixture, if taken regularly for a few days, is said to overcome almost any case of Rheumatism. The pain and swelling, if any, diminishes with each dose, until permanent results are obtained, and without injuring the stomach. While there are many so-called Rheumatism remedies, patent medicines, etc., some of which do give relief, few really give permanent results, and the above will, no doubt, be greatly appreciated by many sufferers here at this time.

Inquiry at the drug stores of this neighborhood elicits the information that these drugs are harmless and can be bought separately, or the druggist here will mix the prescription for our readers if asked to.

A NEW MARRIAGE CEREMONY.

This is the latest story of the newest style of marriage ceremony: Judge Blank, a justice of the peace in Oklahoma, was called upon to perform the marriage ceremony for a young couple of Guthrie.

The judge, who, until a short time before, had gained his legal knowledge in a neighboring state, where ministers always officiate on such occasions, was at a loss to know how to proceed. However he arose to the occasion. Commanding the couple to stand up, he directed that they be sworn in the following terms:

"Do you solemnly swear that you will obey the Constitution of the United States and Constitution of the Territory of Oklahoma, and perform the duties of your office to the best of your ability, so help you God?"

The couple nodded assent. "Then," continued the judge. "By the power in me vested by the strong arm of the law, I pronounce you man and wife, now, henceforth and forever, and you will stand committed until the fines and costs are paid, and may the Lord have mercy on your souls!"

BORN.

BERSCHT—In Didsbury, on Sept. 22nd, to Mr. and Mrs. J. V. Berscht, a son.

PANDORA

Owing to the fine construction of most ranges it is a rather difficult feat to cook and bake successfully at the same time.

But the arrangement of the Pandora flues differs considerably from others. They are so constructed that the draft for baking is also the best for cooking, the heat circulating around the oven twice and under every pot hole before passing up the chimney.

The Pandora bakes and cooks perfectly at the same time.

Do you know of another range that does? If your local dealer does not sell the Pandora write direct to us for **Free Booklet.**

London, Toronto, Montreal, Winnipeg, Vancouver, St. John

C. Liesemer - Local Agent.

Chicago, Oct. 1.—A despatch from Wheeling, W. Va., says: Relatives of Mrs. Frederick Hartwell, the young wife of a farmer living near Huntington, were bemoaning her death yesterday, a few minutes before the minister arrived to conduct the funeral rites, when she suddenly sat up and climbed out of the coffin. There was a rush of mourners for the open air, windows being used as exits. The minister swooned when the pale faced woman over whose body he had been called to conduct services, met him at the door. The family was too poor to have a physician, and the woman fell into a swoon, in which state she remained for four days. Her husband believed her to be dead and sent for the undertaker. He prepared for the interment without discovering that life lingered in the body.

Thousands of people to whom nature has denied normal vision, enjoy perfect sight by the aid of Chas. J. Western's scientifically adjusted glasses. If your eyesight is defective, consult the specialist in the parlor of the Commercial hotel on Thursday, Oct. 10th.

GAME WARDEN AND THE LIAR.

A Colorado man who is visiting in Wellington told H. L. Woods this story: The game warden of Colorado was walking out to the mountains the other day when he met a hunter with his gun. The officer suggested that that ought to be a good country for hunting.

"It certainly is," said the hunter, proudly. "I killed one of the finest bucks yesterday I ever saw, and he weighed over 200." It was the season when deer may not be shot without subjecting the hunter to a heavy fine.

"Well, that is a fine one," said the warden, "and do you know who you are talking to?"

Being assured that he did not the officer said: "Why, I am the chief game warden of Colorado."

The hunter was only taken back a moment, when he said: "And do you know who you are talking to?"—The warden did not know.

"Well, sir," said the hunter, apparently much relieved, "you are talking to the biggest liar in the whole State of Colorado."—Kansas City Star.

VILLAGE PROPERTY FOR SALE.

That desirable property, lot 10, on the north side of Absalom street, in the Village of Mildmay, is offered for sale on reasonable terms. On the premises are a good brick house and frame kitchen and good garden. Everything in good repair. Better known as the H. E. Liesemer property. Apply for particulars to B. RULAND, Decemerton.

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease.

In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, it uniformly cures all curable cases of this heretofore much dreaded disease. Those sand-like granular wastes, found in Rheumatic Blood, seem to dissolve freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend

Dr. Shoop's Rheumatic Remedy
R. J. BARTON.

TRAINS COLLIDE IN FOG LEADING MARKETS LUSITANIA MAKES RECORD

Twenty-Five People Killed on the Quebec Express.

A despatch from Rutland, Vermont, says. Twenty-five persons were killed and thirty injured in a wreck on the Boston and Maine Railroad at West Canaan, sixty miles north of here, at 4.26 o'clock on Sunday morning. It was a head-on collision between a freight and passenger train, the latter being bound from Quebec for Boston. The majority of the killed were French-Canadians.

The cause of the accident, according to a statement given out by the railroad officials here, was the misunderstanding of orders sent to the crew of the freight. An original order had been issued giving this freight a clear right of way north out of Canaan, but this order was rescinded by a second one, which called for the freight taking a siding at Canaan and allowing the passenger train the right of way. In some unexplained manner the orders were confused, the freight crew getting the first one and going on through Canaan, while the passenger train got a clearance from White River Junction, Vt., on the north. The two trains came together in a dense fog. So thick was the fog that the engine crews of both trains say they did not get sight of each other until they were only 200 feet apart.

Both engine crews escaped by jumping, the engineer of the passenger train spraining his ankle. Both trains were going at high speed, the freight on a down grade of fifty feet to the mile. The impact was terrific. The engine of the passenger train telescoped the baggage car, day coach and part of a smoking car. The engine and six cars of the freight were piled in a heap.

NEARLY ALL CANADIANS.

The greatest loss of life occurred in

the coach of the passenger train, the coach immediately behind the baggage car. The occupants of this coach were for the most part French-Canadians bound for Manchester, Nashua and Lowell to work in the mills, and en route from Sherbrooke.

The accident occurred in a sparsely settled section, and there were no places to care for the injured. With the arrival of the wrecking trains a lot of the injured were hurried to Concord. Two more seriously injured were taken to the hospital at Hanover.

ALL KILLED IN ONE COACH.

The occupants of a combination smoking car and sleeper on the rear of the train escaped with only a shaking up. Those in the first coach behind the baggage car were all killed. This car crumpled like paper when telescoped by the baggage car and engine, and escape for the occupants was impossible.

Those on the train that escaped injury at all and many of those slightly hurt pitched in and worked hard in doing all that they could for the injured that were pinned in the wreck. A fire that started in the wreckage was quickly put out, and also women worked heroically in chopping and tearing at the wreckage in an effort to release the injured pinned in the debris. The wrecked passenger train left White River Junction at 3.45 o'clock in the morning. She was 45 minutes late. Her being behind time is responsible for the shifting of the orders. The freight train was on time. The collision occurred on a straight stretch of track. Had the morning been clear, the engine crews would have seen each other and very likely the wreck would have been averted.

RAILWAY WORK DELAYED.

Government Road Cannot Procure Steel for Viaducts.

A despatch from Toronto says: The construction of certain viaducts on the Temiskaming & Northern Ontario Railway has been delayed owing to the lack of steel. One of these viaducts is at Wabi and another at Wapkeabeg. A severe rainstorm caused a landslide at Taylor's Creek, south of Englehart, last week. The scarcity of labor, too, has kept work back. Men can receive excellent wages working in the mines and with prospecting parties. The recent miners' strike has not improved the labor situation any, since any kind of labor commanded high pay at the mines.

BIGGER TURBINE STEAMER.

Ship Builders Already at Work on New Boat for White Star.

A despatch from Belfast says: The shipbuilding firm of Harland and Wolff admit officially that they are at work upon plans for a White Star Line steamer that is to be bigger than the Lusitania. The keel of this vessel is to be laid in a few months, and she will be fitted with reciprocating engines and turbines. According to information received from another source, the new vessel is to be of 40,000 tons register.

JAPANESE PAPERS ARE SATISFIED

Convinced That Canadian Government Can Protect Aliens.

A despatch from London says: An article which appears in the Jiji Shimpo, of Tokio, says: "Regret has already been expressed by the Canadian Government, coupled with assurances that measures will be taken to prevent similar incident in future. A royal message has even been sent to the Dominion authorities with reference to the matter. All this furnishes the clearest evidence that the Japanese have sympathy in official quarters. Moreover the power of the Dominion Government over individual States is greater than that of the Washington Government, and the Canadian police are more efficient than San Francisco's. There is therefore every reason to believe that the fullest protection will be given to our compatriots in Vancouver."

The Hoshi Shimbun urges the necessity of taking effective steps for the protection of Japanese abroad. The Koku-min is gratified at the fact that the Japanese youths and men, have shown themselves capable of self-defense in whatever corner of the world they may be, and expresses appreciation of the attitude of the British authorities and newspapers. The calmness with which the news of the mobbing was received is mainly traceable

PLAGUE IN SAN FRANCISCO.

Prominent Chinaman a Victim—Greek Laborer Also Dies.

A despatch from San Francisco says: Change Mon Wo, president of the Chinese Six Companies, was found dead on Friday in Chinatown from plague. A Greek laborer who was taken ill in a house in Greens, near the water front, also died on Friday. The total number of cases to date, since May 27, is 24; deaths 13. Dr. Rupert Blue, the Government expert, says there is no cause for alarm.

WIRE FENCE CARRIED CURRENT.

Two Miners Killed During Storm at Arona, Penn.

A despatch from Greensburg, Penn., says: Jesse Weaver and Louis W. Long, married, miners, of Arona, were electrocuted and two other persons seriously injured late on Tuesday night when lightning struck a trolley feed wire, knocking it down upon a barbed wire fence, which the men touched as they sought shelter from a storm.

Merchant—"Yes; we are in need of a porter. Where were you employed last?" Applicant—"In a bank, sir." Merchant—"Did you clean it out?" Applicant—"No sir. The cashier did that."

BREADSTUFFS.

Toronto, Sept. 17.—Ontario Wheat—No. 2 white, 87c to 88c, outside. Manitoba Wheat—No. 1 northern, \$1.05½ to \$1.06. Corn—No. 3 yellow, 72c to 75c; No. 3 mixed, 74c. Barley—No. 2, 55½c; No. 3 extra, 53½c to 54c; No. 3, 50½c to 51c. Oats—Manitoba No. 2 white, 46c to 47c on track, at elevator; No. 2 mixed, 45½c. Peas—Nominal at 75c for No. 2. Rye—No. 2 nominally, 70c. Flour—Ontario very strong; 90 per cent. patents in demand at \$3.45 to \$3.50; Manitoba, first patents, \$5.25 to \$5.40; seconds, \$4.60 to \$4.80; strong bakers', \$4.60 to \$4.70. Millfeed—Bran, \$22; shorts, \$24 to \$25, outside.

COUNTRY PRODUCE.

The butter market is firm, with prices about the same as a week ago. Creamery, prints 23c to 25c do solids 21c to 22½c Dairy prints 21c to 23c do solids 19c to 20c Cheese—Large quoted at 12½c and twins at 13c in job lots here. Poultry—Live chickens quoted from 9c to 11c, and hens from 7c to 8c. Potatoes—Market is steady at 65c to 75c per bushel. Baled Hay—Prices steady at \$14 to \$15, in car lots on track here.

PROVISIONS.

Dressed Hogs—\$9.25 for lightweights and \$8.75 for heavies. Pork—Short cut, \$22.75 to \$23 for barrels; mess, \$20 to \$21. Lard—Firm; tierces, 12c; tubs, 12½c; rolls, 12½c. Smoked and Dry Salted Meats—Long clear bacon, 11c to 11½c for tons and cases; hams, medium and light, 15c to 15½c; heavy, 14½c to 15c; backs, 16½c to 17c; shoulders, 10½c to 11c; rolls, 11½c; out of pickle, 1c less than smoked.

MONTREAL MARKETS.

Montreal, Sept. 17.—The local flour market is strong. Choice spring wheat patents, \$5.50; seconds, \$4.90; winter wheat patents, \$4.65 to \$4.75; straight rollers, \$4.25 to \$4.35; do, in bags, \$1.95 to \$2.10; extras, \$1.65 to \$1.75. There is a stronger feeling in the market for oats, and prices further advanced ½c per bushel. Sales of car lots of Manitoba No. 2 white were made at 50½c to 51c per bushel, ex-store.

The butter market is firm at the recent advance. There is no improvement in foreign demand, and only jobbing local trade is passing in choice townships creamery at 22½c to 22¾c. Prices in the local cheese market are being firmly maintained at the recent advance. Finest western at 12½c to 12¾c, townships at 14c to 16c. Provisions—Barrels short cut mess, \$2 to \$22.50; half-barrels, \$11.25 to \$11.75; clear fat back, \$23.50 to \$24.50; long cut heavy mess, \$20.50 to \$21.50; half-barrels do., \$10.75 to \$11.50; dry salt long clear bacon, 10c to 11½c; barrels plate beef, \$14 to \$16; half-barrels do., \$7.50 to \$8.25; barrels heavy mess beef, \$10; half-barrels do., \$5.50; compound lard, 10½c to 10¾c; pure, 11½c to 12½c; kettle rendered at 13c to 13½c; hams, 12½c to 15½c, according to size; breakfast bacon, 14c to 15½c; Windsor bacon, 15c to 15½c; fresh killed abattoir dressed hogs, \$9.25 to \$9.50; alive, \$3.35 to \$6.50.

BUFFALO MARKET.

Buffalo, Sept. 17.—Wheat—Spring, No. 1 northern c.f., old, \$1.10½; new, \$1.09½; No. 2 red, 99c. Corn—Firm; No. 2 yellow, 72½c; No. 2 white, 68½c. Oats—Firm; No. 2 white, 54½c; No. 2 mixed, 51c. Barley—Nominal.

NEW YORK WHEAT MARKET.

New York, Sept. 17.—Wheat—Spot, market easy; No. 2 red, \$1.01½; No. 2 red, \$1.02½ f.o.b. afloat; No. 1 northern Duluth, \$1.14½ f.o.b. afloat; No. 2 hard winter, \$1.02½ f.o.b. afloat.

LIVE STOCK MARKETS.

Toronto, Sept. 17.—Trade was good and prices of cattle were steady at the Western Market to-day.

Buying was about steady in export cattle. Prices were steady at \$4.90 to \$5 for good; \$5 to \$5.25 for choice, and \$4.50 to \$4.90 for medium and light.

Picked butchers' cattle, \$4.50 to \$5.50; fair to good butchers' cattle, \$3.75 to \$4.50; common butchers' cows, \$3 to \$2.50; good cows, \$3.25 to \$3.75 per cwt. Light stockers were dull at \$2.75 to \$3 per cwt. Heavy feeders sold at \$4 to \$4.50 per cwt.

Grain-fed lambs were easier at \$5 to \$5.50; and export ewes sold at \$4 to \$4.40 per cwt.

Hogs were 10 cents lower. Prices were—Selects, \$6.15, and lights and fats, \$5.90 per cwt.

HINDUS NOW EXCITED.

Glamoring for Protection From British Government.

A despatch from London says: Advice from Lucknow state that the incidents at Bellingham and Vancouver have greatly aroused the indignation of the Hindus, who are calling on the British Government to take effective measures to protect their countrymen in the United States and Canada.

Mr. T. A. Snider has been appointed County Treasurer of Haldimand.

Average Speed Per Hour Still Held by the Kaiser William II

A despatch from New York says: A new steamship record between a European port and New York was made by the Cunard Line's new giant turbine ship, the Lusitania, which arrived here on Friday. The Lusitania left Queens-town, the nearest trans-Atlantic port to New York, at 12.10 p. m., Sunday and arrived off the Sandy Hook Lightship at 8.05 a.m., Friday, making the time for the trip 5 days and 54 minutes. This is 6 hours and 29 minutes better than the previous Queenstown-New York record of 5 days 7 hours and 23 minutes, held by the Lucania of the same line. While the Lusitania has made a new record for the time a passenger is actually on board ship, she has not beaten the average speed per hour record, both the Kaiser Wilhelm II, which has made 23.58 knots per hour from New York to Plymouth, and the Deutschland, with a record of 23.51 knots per hour to Plymouth, have been better time. The Lusitania's speed per hour on her maiden voyage is estimated at 22.87 knots per hour.

GAILY BEDECKED.

The new ship was decked with flags and bunting when she made her appearance off Sandy Hook on Friday morning, her four big red funnels lending color to the picture which was marred by the prevailing haze.

Her passengers lined the railings and crowded the different decks of the large vessel, waving handkerchiefs and American and British flags. The marine observatory stations on shore dipped their flags in salute, other vessels in the lower bay blew their whistles in greeting and the Lusitania's engine was constantly lowered and raised again in acknowledgment of the reception given her. She steamed slowly up

the bay for the new Ambrose Channel, dug especially for vessels of more than 29 feet draught, or more than 600 feet in length, and which she will be the first to use in entering the port of New York.

FROM LAND TO LAND.

The explanation of the apparent conflict in the statement that while the Lusitania has made the speediest passage from land to land, she has not broken the land record, lies in the fact that she travelled over the shortest course, the distance from Southampton to New York being 2,823 miles, while from New York to Cherbourg, the course travelled by the Deutschland, when she made her fastest run, is 3,034 miles.

In 1903 the Deutschland made the voyage from Cherbourg to New York in five days eleven hours and fifty-four minutes over a course of 3,034 miles at an average speed of 23.15 knots.

PILOTAGE FEES.

There was much speculation yesterday as to whom the honor of piloting the big liner would fall, for there is to be no partiality shown, and the men must go out in their turn as the liners come in. The pilotage fees will undoubtedly be the largest ever paid, ranging from \$161, should the liner show a draught of thirty-three feet, to \$167 for a draught of thirty-four feet.

LUSITANIA'S LOG.

The log of the Lusitania gives her time of passage as 5 days and 54 minutes, and her time of arrival off the Sandy Hook Lightship as 8.05. Her average speed was 23.01 knots per hour and the day's runs were 5 miles, 555, 575, 570, 593 and 483 to the lightship, a total distance of 2,782 miles.

KILLED BY LIVE STREET WIRE.

Wife and Children Saw Harvey Hill Meet Death.

A despatch from Niagara Falls, Ont., says: Harvey Hill, foreman of the municipal electric light plant, came to his death on Saturday night in an unaccountable manner and under particularly sad circumstances. He had taken his wife and three children for a drive, and coming to one of the pole boxes on Ferry Street, in the south end of the city, he saw that the light was out. He alighted to adjust it, and as he raised his hand to the pole, his wife and children were startled to see him fall, and, on going to his assistance, they were horror-stricken to find him stone dead. There were no marks of electrical burning on the body, and it is possible that his death was due to heart failure, but the generally accepted supposition is that some high voltage wire had come in contact with the incandescent light wire, giving it a voltage sufficient to cause death. The incandescent circuit carries only 150 volts, which in itself would not cause a fatality.

COLLISION AT CAYUGA.

Wabash Freight Crashes Into Rear of Standing Train.

A despatch from Cayuga says: A west-bound Wabash freight train, running light, smashed into another Wabash train standing near Cayuga station on Friday morning. The latter train was waiting while the engine got water. Engineer Elliott and Fireman McMullen of the light train jumped and received serious but not dangerous injuries. The locomotive was badly crippled. The caboose and two cars of the waiting train were smashed into kindling wood. The advancing train had a clearance order to St. Thomas, and is said not to have been flagged. Wrecking gangs from St. Thomas and Niagara had the track clear by noon. The train employees are St. Thomas men.

WHEAT CROP SUFFERS.

Recent Frosts Have Done Much Damage in the West.

A despatch from Winnipeg says: The situation in regard to the crop of the Canadian West is critical, and extremely hard to pronounce upon. There have been three heavy frosts during the past week, but these have not been general throughout the entire West. Northern Alberta and Northern Saskatchewan have suffered most severely, owing to the large percentage of extremely heavy crops in these sections. Speaking generally it will be impossible to estimate the damage until the actual thrashing returns are at hand.

In justice to those farmers who still hold a considerable amount of last year's wheat, it should be stated that the last frosts have reduced the prospect for good milling wheat from the crop of 1907 at least thirty-five per cent.

MUCH RAIN IN THE NORTH.

Assertion of Surveyor Working in Northern Ontario.

A despatch from Toronto says: "Rain has been so excessive that everything is full of water to overflowing," writes Thos. Fawcett, of Fort William, to the Survey Department. He has been engaged in surveying blocks 1, 2, 3 and 4 of the territory on the "Soo" branch of the National Transcontinental Railway, which comprises a part of the land grant from Ontario to the Grand Trunk Pacific Railway. Each block of land is 18 miles long by 6 miles wide. The party has been continually wading in water in places that are usually solid ground. Of the character of the land in question, the surveyor says that block No. 1 is rolling and heavily timbered on the last six miles. Block No. 2 is mostly timbered with spruce, tamarack, birch, poplar and pine.

An attorney was charged in a Chicago court the other day with acting for both complainant and defendant in a case which was being tried.

TOTAL CROP OF THE WEST

Estimated at One Hundred and Ninety Million Bushels.

A despatch from Winnipeg says: A total grain crop of 190,000,000 bushels, including wheat 80,000,000 to 85,000,000 bushels; oats, 87,500,000; barley, 18,500,000, and flax, 1,300,000, is the estimate the retiring President of the Winnipeg Grain Exchange, W. J. Bettingen, gave for the west at the annual meeting of the exchange on Thursday afternoon; and of its monetary value he said it would probably yield a larger return than any former harvest. John Fleming

is the new President. Mr. Bettingen in his address stated that in 1905 the total area under grain cultivation in western Canada was as close as can be estimated 5,910,000 acres. In 1906 this had grown to the enormous total of 7,830,000 acres, or an increase of about 23 per cent. in a single season. Owing to the backward spring and other natural causes, the increase this season will not be so phenomenal, but viewed in the light of the usual natural conditions prevailing this year they are fully as satisfactory.

About the House

NEW DISHES AND HOW TO COOK THEM.

Cheese Cake.—Press through a sieve one pound of cottage cheese, add the beaten yolks of four eggs and one cupful of granulated sugar, beaten together until light; two teaspoonfuls of flour, one of cinnamon, one level spoonful of nutmeg, the grated rind of one and the juice of two lemons. Add lastly the whites of the eggs beaten to a stiff froth. Bake in a deep pie-pan or in patty pans lined with rich pie crust. The cheese should be a little firm, never soft enough to be mushy. Serve cold.

Prune Dessert.—Select nice, large prunes, boil slowly until tender in a small quantity of water, adding one cup sugar to one pound of prunes. When cold remove stones and cover with whipped cream; place on ice. It makes a delicious dessert with wafers.

Grape Soup.—Take six cups of hot water (not boiling), stir in slowly a half cup of sago, and add a four inch stick of cinnamon and a teaspoonful of seeded raisins. Boil one-half hour and stir frequently to prevent the sago from getting lumpy. Then add two cups of grape juice (preferably homemade), and sugar, and salt to taste. Let boil and it is ready to serve. This is for six people.

Cheese Pie.—Line a pie plate with a rice crust and bake. Then put in the shell a thin layer of jelly, jam, or preserves. Then fill with the following, which has been stirred together thoroughly and cooked for five minutes: One pint of milk, three tablespoonfuls of sugar, yolks of two eggs, one and a half tablespoonfuls of corn starch, and a piece of butter half the size of a hickory nut; flavor with a teaspoonful of lemon or vanilla and add a pinch of salt. Cover with a meringue made with the well beaten whites of the two eggs and two tablespoonfuls of powdered sugar. Return to the oven and brown lightly.

Rice Pudding.—Half teacup rice, three pints milk. Simmer until rice is cooked soft; cool and beat five eggs, leaving out two whites; add one coffee cup sugar and one grated coconut. Stir in the rice and milk when cold and set it in the oven to bake. Take out as soon as the custard forms. Make meringue of the two whites of eggs and six tablespoonfuls of sugar beaten to stiff froth. Pile up on the top and return to the oven to brown. Eat hot or cold.

Sausage Roll.—Fry sausage, and take off the skin; or, if it is preferred, use sausage meat. Make rich biscuit dough; roll as thin as possible and spread on sausage. Bake brown. Use one link to a roll. It is good hot or cold.

Hoosier Goodies.—Sift two teaspoonfuls of flour with two teaspoonfuls of baking powder, rub in one tablespoonful of melted butter, a little salt, and a cup of milk; roll out to one-quarter of an inch in thickness; spread with melted butter; cover with thin layer of sugar, and roll up. Cut off one inch in thickness and stand on well buttered tins, with a little space between each.

Buttermilk made Without Butter.—Take a quart of fresh, rich milk, adding a pinch of salt and about a half pint of hot water to raise the temperature to body heat. Add a tablet which contains a pure culture of lactic acid bacteria. Place all in a pitcher; cover with a napkin, and stand for twenty-four hours at the ordinary temperature, and you have perfect buttermilk. The tablets are made by chemical manufacturers and are called lactone or buttermilk tablets.

Turban of Macaroni.—Boil three-fourths cup of macaroni rapidly in salted water until tender, drain; rinse in cold water, and cut into small pieces. Mix with this macaroni one-fourth pound of cold boiled ham, chopped fine; one dozen mushrooms, chopped fine; one-half teaspoonful of salt; a dash of paprika; three beaten eggs, and one cup of sweet milk. Turn into a buttered mold and bake. Put the mold in a pan of hot water to prevent cooking too much on the bottom. Bake until it feels firm to the touch. Serve with a rich tomato sauce.

Cream of Celery Soup.—Wash and cut into small pieces three heads of celery. Cover with a quart of water; cool slowly half an hour and press through a colander, using as much of the celery as possible. Put this in a double boiler with one quart of milk. Rub together three tablespoonfuls each of butter and flour; add to the soup and cook until smooth and thick. Add a teaspoonful and a half of salt and a dash of pepper.

Bread Economy.—When cutting bread save all the crumbs, also all broken pieces, from the table. When warming over potatoes place the bread crumbs in the warming pan and you will have

an excellent dish, especially for the children. Also use a baking powder can with a few holes in the bottom for a chopper.

Prune Dessert—No. 2.—Soak prunes in lukewarm water, seven to eight hours; remove pits and chop fine; cover bottom of pudding dish with prunes, over this a layer of ground nuts; alternate layers until dish nearly is filled cover with beaten whites of two eggs, a little lemon juice, and powdered sugar beaten stiff; dot with pecan nuts and serve.

HINTS FOR NEXT WASH DAY.

Wash with Soap in Bag.—Cut soap into several pieces or leave it whole. Put into a salt bag or other clean bag; knot the end and drop into boiler when first filled. It can be taken in and out at pleasure. More soap can be added as the washing progresses.

Be Careful with Lime or Acid.—Wish to warn all housekeepers against using chloride of lime or oxalic acid to bleach their wash. Either rots and burns the fabric, and in a short time even the best of linen will be full of holes.

To Wash Feathers.—Make a pillow from cheesecloth or any lightweight muslin, the size of your tucking; put feathers in and then sew up. Wash in a good suds of borax and soap; when well, then wash the tucking. When the tucking is dry, slip tucking over. In time the tucking can be washed any time without disturbing the feathers.

Do Not Wring Quilts.—When washing comforters, quilts, or pads for bed, to obtain best results do not wring them through the last water by wringing; but take to line in tub of water and throw over the line and dry. When dry give a thorough shaking and they are as light and soft as new. By using this method the cotton also receives a good cleansing.

Curling Tongs for Pressing.—When ribbons or thin lingerie belt are mussed and no iron is handy, use the large curving tongs for the purpose. Heat until it will press, but not burn the fabric. Put in one end of the ribbon; wind the ribbon tightly around the curler; leave until the iron has cooled, and the ribbon will be smooth. Another way is to heat the curler as hot as a laundry iron. Lay the ribbon on a folded towel on the dresser and pass the curler over it the same as you would an ordinary iron.

For Children's Dresses.—Mothers often are perplexed to know what to do with the little one's dainty frocks, which so often are covered with grass stain or grease from bicycles or wagons. A simple but sure method for removing the same is to wash the stain with cold water and soap before the garment is sent to the laundry or wash, as hot water sets the stain and then it cannot be removed. Soft water is preferable for this purpose.

To Iron Baby Dresses.—In ironing baby dresses or small skirts one often finds it hard to iron on a large board. By turning the skirt wrong side out you can still iron on the right side and not wrinkle up the parts just finished; and this also keeps the waist and sleeves damp even in a draft that so often dries out the garments before your work is finished.

To Wash Small Articles.—Place lace, cuffs, or turnover cuffs in a glass jar half filled with strong hot soap suds. Shake soap and change water, as required. When well rinsed pat dry as possible between folds of Turkish paper and finish drying by laying on a newspaper in sun.

WHERE'S MOTHER?

Bursting in from school or play,
This is what the children say;
Trooping, crowding, big and small,
On the threshold, in the hall—
Joining in the constant cry,
Ever as the days go by,
"Where's mother?"

From the weary bed of pain
This same question comes again;
From the boy with sparkling eyes,
Bearing home his earliest prize;
From the bronzed and bearded son,
Peril past and honors won;
"Where's mother?"

Burdened with a lonely task,
One day we may vainly ask
For the comfort of her face,
For the rest of her embrace;
Let us love her while we may,
Well for us that we can say,
"Where's mother?"

Mother with untiring hands
At the post of duty stands,
Patient, seeking not her own,
Anxious for the good alone
Of the children as they cry,
Ever as the days go by,
"Where's mother?"

The blind man sat down and took up his cup and saw, sir.

EXPENSE TO THE UNITED STATES HAS BEEN ENORMOUS.

What Four Hundred Million Dollars
Would Do If Spent in Other
Ways.

The New York Herald has been calcu-
lating the cost of the Philippines to the
United States and fixes this sum at
\$400,000,000. It estimates \$300,000,000
as the cost of war operations, \$125,000,000
for the army and navy and civil
establishments in the five years of
peace, \$20,000,000 paid to Spain for the
islands, and the rest miscellaneous ex-
penditure since the occupation. The
Herald is sorry to see all this gold
peured out and makes a number of cal-
culations, of which the following are a
sample, as to what the country could
have got for four hundred million dol-
lars spent in other ways.

NAVY AND FORTIFICATIONS.

had been diverted to purposes of
defence, for instance, \$400,000,000
could have sufficed to build forty-
eight thousand ton battle ships of
the most powerful modern type repre-
sented by the Delaware, and thus to have
made the United States the most pow-
erful navy in the world. It would be
able to pay for nearly thirty such
ships and still leave a balance
enough to defray the estimated
cost of the Panama Canal.
ded upon coast defence fortifica-
tions would have made our Atlantic
seaboards practically im-
possible to attack. It would pay the
appropriation for the mainten-
ance of the militia of all the States in
the United States for the most part
of the period of two hundred years. If
annual appropriation should not
exceed \$2,000,000 voted for 1907; or
if it were the Government's enor-
mous expenditure for nearly three

SPENT ON EDUCATION.

that vast sum of \$400,000,000
could be used to less warlike purposes it
could maintain for two whole years the
public school system of the twelve
States in the Union which appropriate
the largest sums for that purpose,
New York, Pennsylvania, Illi-
nois, Massachusetts, Ohio, New Jersey,
Michigan, Minnesota, Iowa,
California. Devoted to
the cause of higher education it would
endow a score of first-class uni-
versities.

ating the cost of building and
maintaining a comfortable modern dwell-
ing at \$8,000, it would erect 50,000
such homes, or enough to house the
population of a large city.
would more than indemnify San
Francisco for all the losses sustained in
the earthquake and conflagration and
leave a balance nearly large
enough to offset all the other fire losses
in the United States for the same year.

COULD BUILD GREAT CANALS.

plied in the line of great public im-
provements of an engineering character,
\$400,000,000 would pay for the Suez
canal, which cost \$143,000,000; the Erie
canal, which cost about \$50,000,000; New
York Croton water system, which cost
\$30,000,000; Central Park, which
cost down at a cost of \$15,000,000; the
Capitol at Albany, which was not
completed at \$25,000,000, and the New York
subway, the contract price of which
was \$35,000,000. As these items foot up
\$255,000,000, there would have been
left of \$145,000,000, which hap-
pens to be the estimated cost of the Pan-
ama Canal construction.

WOULD BUY WHEAT CROP.

four hundred millions of dollars
would almost suffice to pay for Ameri-
can wheat crop. It is a sum
nearly double that collected last year in
the port of New York. It is
as much as the gold reserve of
Russia, is about equal to the
production of the whole world for
our and is ten times greater than
the value of all the diamonds and other
precious stones imported into America
in 1906. If expended in irrigation it
would make the arid lands of the West
like Eden. It would build forty
bridges like the Brooklyn Bridge or

**The Leading Store
 MILD MAY.**

**Grand
 Millinery
 Opening
 TUESDAY, SEPT. 24TH.**

This season's selections of Millinery is superb. Our milliners have returned from their purchasing trip, having visited the leading fashion centres. You will be surprised and delighted by the vastness of choice and the beauty of the styles displayed in our show rooms.

This store has always been foremost in Millinery ideas, in the past and this season's showing will surpass anything we ever attempted, which is a guarantee to our patrons that the very latest designs, and the most up-to-date millinery goods will be found at Hunsteins.

We cordially invite you to our
Millinery Show Rooms.

FARM PRODUCE TAKEN SAME AS CASH.

John Hunstein.

It's easy to buy FROST FENCES

Our prices for Frost Fence are only as much as the best fence in the world is honestly worth. And we make the terms so easy that every farmer and stockman can take advantage of them.

Here's the way we will let you buy all the Frost Fence you need—One third cash on delivery. One third by note, due Oct. 1st, '06. One third by note, due March 1st, '07.

Five per cent. discount for cash if paid within 60 days from date of invoice.

And remember—should FROST FENCES go wrong, from mechanical defects or workmanship in building, they are repaired, free of charge.

X. WEBER - Karlsruhe

**Oh

This is a grocery store and more. You can always find more here than mere butter, tea and sugar staples.

We keep lines and lines of dainty, delicious biscuits, Pickles Olives and such like, which makes the standby of dozens—dozens of knowing housewives.

This is a table supply store and it deserves the name.

Just now it is fruits that are to the fore.

We have some very nice Grapes. Big, Black, Luscious Concord; Beautiful Wine colored Rogers; Lovely Green Niagaras; fresh, whole, full clusters, perfectly ripened; the best and most wholesome fruit you can put on your table.

Generous basket of choice ones, only 25c.
 Peaches are still coming along.

Prices range according to size and quality, from \$1.00 to \$1.75 per 11 qt. basket.

THE STAR GROCERY.

Highest Price allowed for Farm Produce
