There is abundance of room, and p'enty of water power, both adjacent to a city with an over-abundant population, and anxious for employment. We trust the new firm for carrying on the Foundry business will be eminently successful. They commenced last Fall and got up fine buildings during Winter, and were in ful operation in March. When they get their range of shops completed, it will be one of the most perfect, establishments of the kind in the two perfect establishments of the kind in the two perfect establishments of the kind in the two Provinces. They drive turning and boring machinery; also a fan with a water-wheel forty-four inches in diameter, and they tell us that it four inches in diameter, and they tell us that it will give a power equal to twenty horses, with a fall of eighteen feet.

Mr. Gilbert has been favorably known in the employment of the Forwarding House of Hooker & Holton; Mr. Milln was Foreman and Draughtsman to Mr. Parkyn of the St. Mary Foundry; and Mr. Bartley has been long known is the Blacksmith business and for turning out work of

THE Advantages offered to the Public by this Institution are MANY and IMPORTANT, and the Rates of Premium dute as LOW as security to the Assured, and safety to the Office, will admit of.

will admit of.

The following are some of the advantages offered by this Society.

The peculiar Benefits secured to the Assured by the principle of the LOAN, Department.

One half of the Premium for the first five years may be paid by the Assured's own Note. These Notes need not be paid, but may remain on interest, to be deducted from the Policy on the death of the Assured.

of the Assured.
Insurers can at all times demand, as a right, a Loan to the extent of two-thirds the amount of Premium they have paid—upon deposit of their Policy, and guaranteeing it will be kept in force. This important advantage removes the fear so many entertain of being obliged, through pecuniary embarrasament, to let their Policies lapse, and at a time such a provision is absolutely needed for their families.

No Charge for Stamp Duty, nor for Medical Examination.

Examination.
The Bouses divided Annually, either in Cash, Reduction of Premium, or in addition to the sum Assured, whichever of these three ways the Assured may each year desire, after being a Policy holder for Four Years. at which period a Bonus is payable for the Four Years—Annually afterwards. THIRTY DAYS allowed after each Payment

of Premium becomes due, without Forfeiture of Policy.

The General Agency for the British North American Colonies being established in Montreal, RISKS will be accepted by the General Agent and Temporary Policies at once granted.

The Local Board meet regularly at the Office, and by them the business of the Colonies conducted, thereby affording to the Assured every facility.

M rriage requires the (utiliment of several conditions, in order that it may be really the cause of mutual happiness. Could the veil, which covers the origin of domestic vertechedness, be raised, and its true source in every instance disclosed, in how many could it be traced to physical disqualifications and their attendant disappointments. Excesses are always injurious; the gift which, when used in moderation, is fraught with advantage, becomes, when abused, the prolific source of muchief, and of greater or less injury to the constitution and vital powers.

The particular excesses, on the nature and consequences of which this Treative professes to dilate, are productive of greater misery to the human frame than any other to which it is subject.

ERGLAND.—The chief events of the week have been concentrated in seam navigation. The Atlantic was leaded for with great anxiety and very friendly feelings. The Irish Transatiantic Company have already laid on an experimental vessel, the Viceroy, of Glasgow. She is 800 tons burthen, and is advertised to sait from Glasgow on the 1st June. If she succeeds as well as anticipated, in the sum in provement in the management of the West Some improvement in the management of the West India mill, with a view of competing with the United States for the passenger traffic to the tropics. The government contact with the West India Mail Company has been renewed for ten years. The Company are to provide new and awifter itemers than those hitherto sugged, and the circuitous route hitherto traversed, at the loss of so much time, and as regards the Company itself, with the loss of so many vessels, is to be given up in favor of a more direct route.

The new casels are to be ready within a year.

They are to maintain a speed of 12 to 14 knots an hour. The tonnage is to be 2000 to 2300 tons, the horse power 200. This arrangement will give the Company a feet of 20 to 22 steam shipf, many of them of great capacity. The new and swifter attemers now being laid down will run semi-monthly from Southampton to St. Thomas. The voyage will be direct.—the time twelve days. At this point three branch steamers will be in watting to receive the mails, to convey them to Havana and the Gulf of Mexico; a second to Hayti, Jamalca, San Jago de Cuba, Honduras and Nicarmaids, a third to the Windward and Lower Island, terminating at Demerara. SAVED FROM DEATH!!!

Testimony of Ma. NATHAR MATHEWS. a highly respectable and usually citizen of Kawark, M. J. Da. G. W. Halsey:—I believe your Forest wime and Pills have been the means of saving my life. When I commenced taking them, I laid at the point of death, with Dropp, Files, and Asthema. My Physicians bad given me over as past cure, and my family had lost all hope of my recovery. While in this deadful studios, your Forest Wine and Pills were procured for me, and before I has finished the first bottle of the Wine, and bott of Fills. I apparienced great relief; my body and limbs, which were greatly as often, became sensibly reduced. Hopes of my secovery began now to revive, and after continuing the use of your medicines for about a month, the Pilesand Asthma were completely cured. The Dropay, with which my life was placed in such great danger, w a also nearly gose. I have continued the use of your Medicines until the present time, and I now enjoy as perfecthenth us ever 1 my life, although I am more then sixty you age. I ascribe my recovery entirely to the use of your excellent Medicines. Several of my neighbors have also used them with similar success in obstinate complaints, and I can cheerfully recommend them to the public.

Your respectfully. N. MATHEWS.

I have recovered my health, activith tanding all who knew me thought my case incurable. Previous to taking the Wins and Pills. I had recourse to the best medical treatment, but continued to grow worse to an alarming degree. Some of my frends apoke despringly of my case, and tried to persuade me from making use of any advert sed remedies; and, I doubt not, but what there are inuntred who are disaunded from taking jour excellent Medicines, in constituence of the deception and inefficiency of many advertised remedies put of the by unprincipled men, in flaming advertisements. But, what a pity it is that the deception and bring cured by your excellent remedies human bring cured by your excellent remedies. Humanly speaking, they have saved my life; when I communeed making use of them, I was in a wretched conditi n, but begun to experience their good effects in lass than three days; and, in six weeks from the time I purchased the Medicines, to the grant surprise of all my friends, I was entirely cured, and had increased fifteen pounds in weight, having taken one box of the Fills and two bottles of the Me. World to God that every poor sufferer would avail himself of the same remedies.

Dr. David Marvin, celebrated Practit our of New York, declared publicly, that one hottle of the Me. World to God that every poor sufferer would avail himself of the same remedies.

Unlike the host of peralecous quackeries which boast of vegetable ingredients, the LIFE MEDICINES are purely and solely vegetable; and contain neither Responsy, nor Antimony, are Arsonic, nor any other unisceal, in any form whatever. They are entirely compased of attracts from rave and powerful plants, the virtues of which, though toug known to several Indian tribes, and recoulty do some emissent pharmacoutical chemists, are altogether unknown to the irresponsy to the internal proteadors to and powerful plants, the virtues of which, though to some eminent plants at the condition of the condition of the plants of the plants of the condition of the stometh and bowels the various imparties and crudition of the stometh and bowels the various imparties and crudition constantly setting round them; and to remove the hardened faces which collect in the convolutions of the small intestines. Other medicines only partially cleanse these, and leave such collected masses behind to produce habitual Contributions of the small intestines. Other medicines only partially cleanse these, and leave such collected masses behind to produce habitual Contributions of the small intestines. Other medicines of the status of evils, or sudden Diarrheas with its imminent dangers. This fact is well known to all regular announces who examine the human bowds after doubt; and hence the prejudice of these well-informed men against the quack medicines of the age. The second effect of the VEGETABLE LIFE MEDICITIES is to cleanse the kidneys and the bludder; and, by this means, the lives and lungs, the healthful action of which eatirely depends upon the regularity of the urinary organs. The blood, which takes its red color from the agency of the liver and lungs, before it passes into the heart, being thus purified by them, and nourished by food coming from a clean stomach, courses freely through the evine, renew every part of the system, and triumphantly mounts the banner of health in the blooming cheek.

The following are among the distressing variety of human diseases is which the VEGETABLE LIFE MEDICITIES are well known to be tallible.

DYSPEPSIA, by thoroughly cleansing the fire

DYSPERSIA, by theroughly cleaning the first and second stemache, and creating a flow of pure healthy bile, instead of the stale and acrid kind; FLATULENCY, Lose of Appetite, Heartburn, Headache, Restlessness, Ill-temper, Anxiety, Lenguer, and Melesscholy, which are the general symptome of Dyspepaia, will vanish, as a matural consequence of its cure.

Contiveness, by cleaning the whole length of the intestines with a solvent process, and without violence: all violent purges leave the bowels contive within twe days.

Biarrhese and Cholera, by removing the sharp acrid fluids by which these complaints are occasioned, and by promoting the tubricative secretion of the mucous membrane.

The serious state through the process of perspiration in such cases, and the through solution of all-intestinal obstruction in others.

The Lies, Musicipus have been known to cure RHEUMATISM permanently in three weeks, and GOUT in half that time, by removing local inflammation from the muscles and strength.

local inflammation from the muscles and figaments of the joints.

Bronaics of all kinds, by freeing and strengthening the kidneys and bladder: they operate most delightfully on these important organs, and hence have ever been found a certain remedy for the worst cases of GRAVEL.

Also Worms, by dislodging from the turnings of the howels the slimy matter to which these receives aftern.

of the bower

of the bowels the slimy matter to which these creatures adhere.

Asthma and Consumption, by relieving the air vessels of the langs from the mucous which even slight colds will occasion, and which, if not removed, becomes hardened, and produces these diendful diseases.

Sourve, Ulcers, and Investrate Sores, by the perfect purity which these LIFE MEDI-CHMES give to the blood, and all the humors.

Scorbutic Eruptions and Bad Complexions, by their siterative effect upon the fluids that feed the skin, and the morbid state of which occasions aff eruptive complaints, sallow, cloudy, and other disagreeable complexions.

The use of these Fills for a very short time will effect an entire curs of SALT RHEUM, and a striking improvement in the clearness of the skin. COMMON COLDS and INFLUENZA will always be cured by one dose, or by two even in

PTIES. As a remedy for this most distressing and obstitute maledy, the VEGETABLE LIFE MEDICINES deserve a distinct and emphatic recommendation. It is well known to hundreds in

recommendation. It is well known to hundreds in this city, that the former proprietor of these valuable Medicines was himself afflicted with this complaint for upwards of rainty-pite years; and that he tried in vain every remedy prescribed within the whole compass of the Materia Medica. He however at length tried the Medicine which is now offered to the public, and he was cured is a very short time, after his recovery had been a neumonal not only improbable, but absolutely impossible, by any human means.

FEVER AND AGUE. For this scourge of the western country these Medicines will be found a sale, speedy, and certain remedy. Other medicines leave the system subject to a return of the disease—a cure by these medicines is permanent—TRY THEM, BE SATISFIED, AND BE CURED.

Billous Fevers and Liver Complaints.

General Debility, Loss or Affertre, AND
DEBLARS OF PERMISS—these medicines have been
used with the most beneficial results in cases of this
descrintion:—Kine's Evil, and Schopula, in its
worst forms, yields to the mild yet powerful action of
these remarkable Medicines. Nature Sweats.
Nanyous Deblary, Newvors Contrastres of all

MERCURIAL DISEASES.

Persons whose constitutions have become impaired by the injudicious use of Miracours, will find
these Medicines a perfect cure, as they sever fail
to oradicate from the system all the effects of
Mercury infinitely sconer than the most powerful
preparations of Sarsparific. A single trial will
place them beyond the reach of competition, in the
estimation of very patient.

ANALYSIS OF THE ST. LEON WATER.

I HAVE submitted to analysis the Waser from the
Source of St. Leon, and fain it so be strongly ealine,
it contains chloride of sodiant in large quartily, with
magnesis and time, partly as certonistes, dissolved by the
excess of cartionic ucid, and partly as chlorids. Like
most of the other saline waters of the contrary, it contains
brounine and locine; is addition to which. I have detect
ed, in small quantities, waits of barytes and strouth which
had hitherto been met with only in the Waters of Varennes. In its general characters, it is allied to the Sources
of Caxton, Plantagenet, and the Intermittent of Calcdonie.

The following opinion of the beneficial effect of the Plantagenet Water, is from the last number of the British American Medical and Physical Journal, edited by Dr. Hall. Remedual nostra, or ma vers prof. assing to be such, and depending for their employment upon the extensiveness of the circulation of landatory advertisements, and the amount of money consequently paid by their gropicators for these, have at no time, since we undertook the management of a Journal himsended solely for the advancement of medical science, found favor in our eyes. Nor shall they, We have always athered to the old maxim, "Ne sutor altra crepidata." We have always thought, and are daily more convinced of the trainfulness and corrections of our opinion, that all the world was never intended to practice the modified art, insumands as all mem.—aye, and all women tow-are unable to make themselves masters of the science of megicine; and it must be unfailted, without a cavit, that without a foundation there can be no superstructure. Not that we would dare to quantion the qualifications of all to become, perhaps, eyen, scientific practiciours of the Healing Art—file from it; but seeing the different gifts have been assigned to different individuals. from the foundation: of our world, and that one class is inscessarily dependent upon another for its constort and supports—the rish and poor, the educated and litterate, the professor of science and the simple mechanic—so we field, that the public should be directed, made fide in the naintenance and preservation of health, by men who have given, and outtime to give, the best energies of their mind to this particular study. It is under limpressions of this kind that we direct the attention of our professional brethron to the advertusement of Mr. Larocque on the cover. We have, in common with our -medical friends in this city, taken occusion, from time to time, to preservite, in the outpropersor of incipal continuous continuous of the profession both in Canada and

As ordered by the Pharmacopæa of London College of Physicians ALEXANDER URQUHART,

Medical Hall, 7, Great St. James' Street. THIS Valuable Preparation has been before the public THEES Valuable Preparation has been before the puone for many years, during which hime it has been extensively used, and has proved eminently successful in all those dilenses in which this medicine is prescribed. It is considered by Physicians of the present day the very best Medicine for re-eastblishing the constitution after it has undergone the effects of Mercury. In Chronic Rheumation, the most marked effects have been produced by the considered the first and the continued use is often attended with improvement of appetite and digestions, increase of strength, the production of a more healthy state of mind, and the palliation, or, in some cases, complete disappearance of various morbid symptoms, as Eruptions, Ulcerations, pains of a Rheumatic character, &c. &c. C.

Des. McCulloch, Camipheli, McDouell, and France, who have extensively used it in their practice, have kindly favoured the Proprietor with the following Certificates:—ALEE, Unguratay, Feq.:—Deas Sin.—I have much pleasure in bearing testimony as the fluidful manmor in which you prepare your Fluid Extract of the Compound neconitar of several of my patients having derived the greatest benefit from its use.

For Constitutional Syphilis and Chrouic Rheumation, I have prescribed it with the most marked effects, I can, therefore, without the least healtains, recommend your preparations are possessing all the Recipical qualities of the Compound Decoction of Savesparille, while it is at the same time more palastable, and leas apt to derange the Stourish.
