ACCIDENTAL DEATH

On Saturday afternoon a sad and fatal accident occurred near Elgin, when a little boy, George Warren, son of Henry Warren, who is in the employ of Henry Cart, a well known farmer of that place, met his death in a peculiar manner. The little fellow had followed his father to a sugar bush on the farm and on returning attempted to climb over a fence, when a large stick of timber attached to the fence fell on him and his neck was broken. On missing him his father made a search, and found his son lying in a pool of water with life extinct.

Mr Warren had placed the stick of timber in question against a stay post of the fence out of the way of the children on account of the number of rusty nails it contained, and it is supposed that the deceased, in getting over the fence, shifted the timber so that it fell, crushing him under its weight.

DEATH OF MRS. LEVI STEVENS

The death occurred on Sunday evening of Mrs Levi Stevens at her home in Athens, aged 63 years. Mrs Stevens had been ill for several weeks, but latterly was thought to be improving.

Mrs Stevens was born in Bastard township, where she married, and on the death of her husband moved to Athens. Here she gained the esteem of a wide circle of friends, who sincerely regret her demise and who deeply sympathize with the bereaved family. She is survived by four daughters and two sons, namely, Mrs Church, Quebec; Mrs Walter Olds, Greenbush; Mrs W. Howard, Clifton, N. D.; Mrs Whitmore and Herbert Stevens, Plum Hollow, and Wesley Stevens, student at Toronto University.

The funeral service was conducted at the family residence, Wittse street, on Tuesday afternoon by the Rev. Geo. Edwards.

REV. JOHN SCANLON HONORED

Brockville Times: The cosy home at 24 Daniel street was the scene of a pleasant gathering when a few of the friends of the Rev. Mr and Mrs Scanlon met at their home to congratulate Mr Scanlon on the 75th anniversary of his birthday. Mrs C. Gray and Mrs C. E. Johnston, daughters of Mrs Scanlon, arranged the affair in the form of a surprise to Mr Scanlon, and managed everything in first-class order to the finish. Warm congratulations were extended to Mr Scanlon, and earnest wishes expressed for his welfare. Refreshments were served and short addresses were delivered by some of the ministers and friends of the town during the evening.

Mr Scanlon thanked those present for their kind remembrance of him, and spoke of his good health and his ability to serve the church with as much pleasure as ever.

"Blest Be the Tie That Binds," was sung, and Rev. W. S. Jamieson closed with prayer.

AN ELECTION PROBABLE

Ottawa, April 11—The senators who crowded their small gallery in the House of Commons during the closure scenes are unable to say as yet what course the upper house will take with the navy bill when it reaches that chamber. There is a large liberal majority in the senate of which Sir George Ross is nominally leader. Sir George is a strong imperialist, but judging from the temper of many of the liberal senators they may not follow his lead in case he decides to let the bill pass.

The question will be decided at a liberal caucus and if rejection of the bill would bring on a general election it may be decided on as the best policy in view of the pronounced view in all ranks of the liberal party that the question should be referred to the people at the polls.

It is regarded by many as probable that an election this summer will clear the atmosphere, providing the senate reject the navy bill.

ELECTRIC LIGHT CONTRACT

The town of Gananoque has decided to enter into a contract with The Gananoque Electric Light Co. for street lighting for ten years. Under this contract the town will have about three times as many lights as at present, and the cost will be practically the same. In commenting on the contract, the Journal of April 10 said:

Coun. O'Connor, who has devoted much time to this matter in the past few months in the way of securing data, etc., from other towns, is certainly to be congratulated on attaining his object. He has been sincere in the matter, has fought almost single handed in the Council, his only supporter for a long time being Councillor Keyes, and now that it has been finally approved of he is deserving of the thanks of all the ratepayers.

The Coun O'Connor referred to by The Journal is Dr. Fergus J O'Connor, one time a student at the Athens High and Model School, and who is pleasantly remembered by the class '98.

Successful Assembly

Under the management of a committee of young Athenians, a delightful dance was held in the town hall on Tuesday evening. The Hulme Family Orchestra of Prescott supplied inspiring and artistic music, and it was not until a late hour that youth and pleasure parted, hoping to meet again under such pleasant auspices. All who had the pleasure of attending this social event were enthusiastic in their praise of the high-class music supplied by the orchestra, and the committee regard the musicians as being the best that ever visited Athens.

Dominion Prohibition

It has been suggested that a change be made in the Dominion Electors Act in certain particulars so as to provide at the holding of every general election an opportunity for the elector to indicate on his ballot whether he is in favor of legislation to prohibit the importation, manufacture and sale of intoxicating liquors as a beverage. The proposed amendment to the act would further provide, if at the close of any such election, say 52 per cent of the voters shall have voted in favor of such prohibition, then at the following session of the Dominion parliament legislation with that object shall be enacted.

This would be alright, but about the time the change was being made some true friend of prohibition would require that a majority of four-fifths be obtained.

Big Fight Now On

There will be a sensational fight at the next Provincial election.

The decision of the Ontario branch of the Dominion Alliance, confirmed by twelve hundred delegates, to support unequivocally N. W. Rowell's policy of Abolish the Bar, means a struggle to the death on this issue. The verdict of the Alliance, reached amid scenes of genuine enthusiasm, cannot fail to have far-reaching effects. Ever since Mr Rowell introduced his Abolish the Bar platform last year, it has been felt that the Temperance forces of the Province must decide definitely if they were going to support the leader who advocated precisely what they were striving for, or if they were going to temporize and remain neutral in such a crisis. The decision of the Alliance settled this doubt.

THE DIVORCE QUESTION

The granting of twenty-three divorces by the Parliament of Canada in one day, practically without hearing any evidence and practically without discussion, has renewed the agitation for a regular divorce court for the Dominion of Canada. The claim is made that divorce now is obtainable by the rich alone, and that much immorality and injustice result from the present condition of the law which debars all but the rich from the freedom from immoral or cruel partners in married life. If this be true, then it is not the divorce laws, but the separation laws, that need widening and amending. To facilitate divorce is to cheapen marriage and to eventually destroy the home and so bring ruin on the nation. One big trouble in this question is that divorces are wanted, not so much to escape the horrors or evils of present wedded life, but to rush into other experimental marriages. If this were not so, separations would be more popular than divorces.—Ex.

More Women's and Misses' Suits

We have received another shipment of Women's and Misses' Suits. We want you to examine our \$15.00 Suit. Never before has such value been shown, made of all wool Coating Serge, coat lined with heavy Serge Silk, newest style skirt, man tailored throughout.

NEWS OF THE DAY IN BRIEF

Kaiser's Son May Marry Czar's Daughter.

HEAVY MAN DEAD

Death of Inventor of Ship Gyroscope.

Fifteen graduates of Knox College were licensed by the Presbytery.

Samuel Milligan, retired farmer, died at Millhaven. He weighed 370 pounds.

Police Constable Farmer was committed for trial for assaulting a brother officer.

Professor H. T. J. Coleman, of the faculty of education of the University of Toronto, may succeed the late Dean W. S. Ellis, of Queen's.

Mr. Justus Miller, a prominent citizen and ex-Mayor of Ingersoll, succumbed to a chronic disease aggravated by a fall ten days ago.

A contract in connection with Hydro-electric development at Cedar Rapids has been let to a New York firm for more than three million dollars.

Joshua Reid, an employee of the Canadian Pacific Railway, was killed when run over by a train between Coldwater and Eady.

The Canada Casket Company and the Lusty Lumber Company at Rodney were completely destroyed by fire. The loss is \$20,000, with insurance of \$9,000.

The teamsters and laborers employed by Belleville cleaning the streets struck for higher wages, and in consequence the civic department is at a standstill.

The report is revived that Prince Adalbert, the third son of the Kaiser, and the Grand Duchess Olga, the eldest daughter of the Czar, are to be betrothed.

Otto Schlick, an engineer of Hamburg, Germany, who invented a ship gyroscope, a contrivance to reduce the rolling of vessels at sea, is dead. He was born in 1840.

The U. S. National Geographical Society has decided to make a grant of \$20,000 towards defraying the expenses of Capt. Amundsen's proposed expedition to the Arctic.

Anna Bell, aged two years, infant daughter of Adam Fox, an Augusta Township farmer, near Brookville, was burned to death in the sight of her parents.

Mr. Robert Howe, M. E. and C. E., one of the best known mining and civil engineers in Toronto, passed away at his residence, in his 75th year.

Robert Wands, a 15-year-old boy, was instantly killed in the leather factory of Clarke & Clark, Toronto. He was caught in an elevator shaft and his head so badly crushed that he expired before assistance could be given him.

Albert Lacey, an employee of the Michigan Central Railway, St. Thomas, who was at the boarding-house at Monroe when the outbreak of smallpox first occurred, about March 17, has developed a mild case of smallpox.

The Welland Canal was opened, bridge tenders going on duty. W. H. Low and Wm. Staff, bridge tenders at Welland, have been dismissed, and James Blackwell and George Harper appointed in their places. D. Leitch, at Air Line, has been dismissed and George Lee appointed.

A POWER WAR

Detroit Company Opens Fight Against Hydro.

London, Ont., despatch: The prospect of the immediate extension of the Hydro-Electric power zone to Windsor has resulted in marked activity on the part of the electrical interests, and announcement has been made of the purchase of four Essex companies by the Edison Company, of Detroit, which is operating in Canada under the name of the Essex County Light and Power Company. The companies sold are the Amherstburg Electric Light, Heat and Power Company, Limited, for \$12,500; Essex Light and Power Company, \$13,750; Kingsville Electric Light Company, Limited, \$11,000; and the Leamington Light and Heat Company, \$22,000. The total amount involved in the deals is \$59,250.

It is rumored that a number of other deals are now in prospect, and that a bitter war is to be waged against Niagara power. The Edison Company has no particular concern for the hydro power in Essex County or Ontario, but is said to fear the exportation of the energy from Niagara Falls to Detroit.

BELGIAN STRIKE

Populace Fears the Possibility of Disorders.

Brussels, April 14.—All the hopes that the general strike for national sovereignty would be averted have vanished one by one, and it now seems certain that the most sweeping attempt yet made in the world's history to apply the methods of organized labor for purely political ends will begin Monday.

The leaders of the movement display the utmost confidence and the strike fund now amounts to approximately \$3,000,000, and fresh contributions from home and abroad are pouring in daily.

The bulk of the Conservative middle class population who up to the present, because of the assurances of the Government and Liberal press that the strike was a bluff and a bogey, re-

garded it with concern, are now beginning to be badly scared, and their fears are increased by forebodings of disorders and brigandage, with which a certain section of the press is filled.

Many storekeepers as a consequence have announced that they would close their establishments and place their valuables in security. The rush to obtain stocks of provisions is increasing.

The Socialists, however, laugh at these terrors. They profess to believe that the measures they have taken are fully adequate to prevent serious trouble. They urge prohibition of the sale of liquors and the closing of saloons, and have themselves forbidden parades and meetings of their adherents.

The Government, working in conjunction with the provincial and communal authorities, is putting the finishing touches on its measures to preserve order, but as yet hesitates to call out sections of the militia, not wishing too greatly to exaggerate the importance of the movement, and also because it fears a repetition of the acts of mutiny which occurred after the last elections.

A DESPERATE MEASURE? The strike has been decided on by the Belgian Socialist party as the last desperate measure to make the Government give Belgium a system of manhood suffrage instead of the system of plural voting now in practice. Its success or non-success will be of consequence to the world at large, for if it succeeds it will demonstrate the practicability of the strike as a political weapon.

GREEK KING'S WILL

Shows His Wealth Was Much Exaggerated.

Athens, April 14.—King George's will, which is written in Danish, was opened yesterday by the royal family. Its terms will not become generally known for several days. When published it is bound to create a sensation.

The document is chiefly political. Throughout it shows the great love of the dead King for his adopted country. It enjoins upon his successor that one consideration alone is important—namely, the eventful career of the Greek nation, to which he must subordinate all personal feelings, as also passing political considerations.

The testament disposes of only \$750,000, thus giving the lie to detractors of the late monarch, who pretended that he was amassing wealth at the expense of Greece. This money is equally divided between the two youngest sons, who would otherwise be almost penniless. The enormous palace in Denmark is to be sold like the rest of the personal estate and the money accruing therefrom will provide all members of the royal family with an average annual income of \$20,000 apiece.

King Constantine is now engaged in translating the will, which will be read in the Greek Parliament.

LADY THOMPSON

Widow of Former Premier Died in Toronto.

Toronto despatch: Following a serious operation, Lady Annie E. Thompson, widow of the late Rt. Hon. Sir John Thompson, Prime Minister of Canada, died yesterday afternoon about 5 o'clock at the General Hospital, Lady Thompson was taken ill for a very short time and had been taken to the hospital only a day before her death.

Lady Thompson was the daughter of the late John and Catherine Affleck, of Halifax, N.S., and was born and educated there. In 1870 she was married to the late Sir John Thompson, who died in 1894. On her husband's death a fund, to which the Canadian Parliament contributed \$25,000, was raised for her benefit. She was presented to the late Queen Victoria and also to the late King Edward and Queen Alexandra.

She was very well known throughout Canada and was closely identified with several women's organizations, having been president at large of the National Council of Women for Canada. She assisted in founding this body. During recent years she had a rather retired life at her home, 187 St. Joseph street.

A son and a daughter survive. The funeral will take place on Saturday.

FORMAL BLOCKADE

Announced Against Montenegrin Coast.

London, April 14.—The only concrete fact in regard to the war this morning is the formal declaration of a blockade from Antwerp to the Irish coast, which began at 8 o'clock on Thursday. No fighting is reported at Sarajevo, where, it is said, excessive rains are preventing the operations.

It is reported from Belgrade that Serbia is in compliance with the advice of Russia, has decided to withdraw from Scutari.

Talk of compensating Montenegro financially if that country will abandon Scutari, although in many quarters, Russia and Italy, according to one report, will find the money.

Nothing reliable is known as to the general situation, but it is looked upon in optimistic manner.

SIR P. GIROUARD IN MONTREAL

Montreal despatch: Sir Percy Girouard, former Governor of the East Africa Protectorate, now director of the Armstrong-Whitworth Company, gun manufacturers and shipbuilders, arrived here this morning. He will leave for Ottawa in a day or so, where, it is said, he will confer with the Government on dock schemes for the Pacific and Atlantic.

FOR BRITISH AIR GRAHAME. White announces that he has submitted to the Government a scheme for putting aviation in Great Britain on a sound basis. He has undertaken with a group of financiers to find \$10,000,000 with which to establish aeroplanes in all big cities, buy hydro-aeroplanes and dirigible balloons, and train every year 500 pilots for the army and 500 more for the navy.

The Government is considering the offer.

MINISTERS' MOVES

Methodist Conference Transfer Committee Busy.

Many Changes Affecting Hamilton Conference.

Toronto despatch. When the transfer committee of the Methodist Church completed the business of its annual meeting, late last night, it was announced that of the 99 applications for transfer from one conference to another throughout Canada, 71 had been granted, and in the case of the remaining 28 no action had been taken. Requests for a change had been made by 12 superannuated ministers, nine of which will go into effect. Nineteen of the 24 probationers will be transferred, and 43 of the 63 regular ministers will take new charges.

Rev. R. S. E. Large, of Toronto, goes to Hamilton Conference.

Among the nine transfers of superannuated ministers is Rev. Thos. S. Fyell, from London Conference to Hamilton Conference.

Transfer of probationer (to take place forthwith unless otherwise specified): J. F. Hishop, from Alberta to Hamilton; J. T. Stapleton, from Newfoundland to Hamilton; C. W. Legge, from Newfoundland to Hamilton.

TRANSFERS OF MINISTERS. Transfers of ministers (to take effect 9 a.m. on the day of general session of conference to which transfer made, unless otherwise stated): Reva. W. L. Armstrong, D. D., from Toronto to Alberta; J. W. Aikins, from Nova Scotia to Toronto, forthwith; Joseph Barnes, from Bay of Quinte to Manitoba; Alfred Brown, from London to Montreal; R. H. Bell, B. A., from Hamilton to Toronto; W. H. Hamilton, B. A., from London to New Brunswick; W. F. Bates, from Montreal to Saskatchewan; J. L. Beatty, from New Brunswick to Prince Edward Island; W. B. Caswell, B. A., from Toronto to Manitoba; Eber Crummy, D. D., from Manitoba to British Columbia; C. B. Flanders, D. D., from New Brunswick and Prince Edward Island to Alberta, forthwith; W. F. Bates, from Montreal to Saskatchewan; J. L. Beatty, from New Brunswick to Prince Edward Island; W. B. Caswell, B. A., from Toronto to Manitoba; Eber Crummy, D. D., from Manitoba to British Columbia; C. B. Flanders, D. D., from New Brunswick and Prince Edward Island to Alberta, forthwith; W. F. Bates, from Montreal to Saskatchewan; J. L. Beatty, from New Brunswick to Prince Edward Island; W. B. Caswell, B. A., from Toronto to Manitoba; Eber Crummy, D. D., from Manitoba to British Columbia; C. B. Flanders, D. D., from New Brunswick and Prince Edward Island to Alberta, forthwith; W. F. Bates, from Montreal to Saskatchewan; J. L. Beatty, from New Brunswick to Prince Edward Island; W. B. Caswell, B. A., from Toronto to Manitoba; Eber Crummy, D. D., from Manitoba to British Columbia; C. B. Flanders, D. D., from New Brunswick and Prince Edward Island to Alberta, forthwith; W. F. Bates, from Montreal to Saskatchewan; J. L. Beatty, from New Brunswick to Prince Edward Island; W. B. Caswell, B. A., from Toronto to Manitoba; Eber Crummy, D. D., from Manitoba to British Columbia; C. B. Flanders, D. D., from New Brunswick and Prince Edward Island to Alberta, forthwith; W. F. Bates, from Montreal to Saskatchewan; J. L. Beatty, from New Brunswick to Prince Edward Island; W. B. Caswell, B. A., from Toronto to Manitoba; Eber Crummy, D. D., from Manitoba to British Columbia; C. B. Flanders, D. D., from New Brunswick and Prince Edward Island to Alberta, forthwith; W. F. Bates, from Montreal to Saskatchewan; J. L. Beatty, from New Brunswick to Prince Edward Island; W. B. Caswell, B. A., from Toronto to Manitoba; Eber Crummy, D. D., from Manitoba to British Columbia; C. B. Flanders, D. D., from New Brunswick and Prince Edward Island to Alberta, forthwith; W. F. Bates, from Montreal to Saskatchewan; J. L. Beatty, from New Brunswick to Prince Edward Island; W. B. Caswell, B. A., from Toronto to Manitoba; Eber Crummy, D. D., from Manitoba to British Columbia; C. B. Flanders, D. D., from New Brunswick and Prince Edward Island to Alberta, forthwith; W. F. Bates, from Montreal to Saskatchewan; J. L. Beatty, from New Brunswick to Prince Edward Island; W. B. Caswell, B. A., from Toronto to Manitoba; Eber Crummy, D. D., from Manitoba to British Columbia; C. B. Flanders, D. D., from New Brunswick and Prince Edward Island to Alberta, forthwith; W. F. Bates, from Montreal to Saskatchewan; J. L. Beatty, from New Brunswick to Prince Edward Island; W. B. Caswell, B. A., from Toronto to Manitoba; Eber Crummy, D. D., from Manitoba to British Columbia; C. B. Flanders, D. D., from New Brunswick and Prince Edward Island to Alberta, forthwith; W. F. Bates, from Montreal to Saskatchewan; J. L. Beatty, from New Brunswick to Prince Edward Island; W. B. Caswell, B. A., from Toronto to Manitoba; Eber Crummy, D. D., from Manitoba to British Columbia; C. B. Flanders, D. D., from New Brunswick and Prince Edward Island to Alberta, forthwith; W. F. Bates, from Montreal to Saskatchewan; J. L. Beatty, from New Brunswick to Prince Edward Island; W. B. Caswell, B. A., from Toronto to Manitoba; Eber Crummy, D. D., from Manitoba to British Columbia; C. B. Flanders, D. D., from New Brunswick and Prince Edward Island to Alberta, forthwith; W. F. Bates, from Montreal to Saskatchewan; J. L. Beatty, from New Brunswick to Prince Edward Island; W. B. Caswell, B. A., from Toronto to Manitoba; Eber Crummy, D. D., from Manitoba to British Columbia; C. B. Flanders, D. D., from New Brunswick and Prince Edward Island to Alberta, forthwith; W. F. Bates, from Montreal to Saskatchewan; J. L. Beatty, from New Brunswick to Prince Edward Island; W. B. Caswell, B. A., from Toronto to Manitoba; Eber Crummy, D. D., from Manitoba to British Columbia; C. B. Flanders, D. D., from New Brunswick and Prince Edward Island to Alberta, forthwith; W. F. Bates, from Montreal to Saskatchewan; J. L. Beatty, from New Brunswick to Prince Edward Island; W. B. Caswell, B. A., from Toronto to Manitoba; Eber Crummy, D. D., from Manitoba to British Columbia; C. B. Flanders, D. D., from New Brunswick and Prince Edward Island to Alberta, forthwith; W. F. Bates, from Montreal to Saskatchewan; J. L. Beatty, from New Brunswick to Prince Edward Island; W. B. Caswell, B. A., from Toronto to Manitoba; Eber Crummy, D. D., from Manitoba to British Columbia; C. B. Flanders, D. D., from New Brunswick and Prince Edward Island to Alberta, forthwith; W. F. Bates, from Montreal to Saskatchewan; J. L. Beatty, from New Brunswick to Prince Edward Island; W. B. Caswell, B. A., from Toronto to Manitoba; Eber Crummy, D. D., from Manitoba to British Columbia; C. B. Flanders, D. D., from New Brunswick and Prince Edward Island to Alberta, forthwith; W. F. Bates, from Montreal to Saskatchewan; J. L. Beatty, from New Brunswick to Prince Edward Island; W. B. Caswell, B. A., from Toronto to Manitoba; Eber Crummy, D. D., from Manitoba to British Columbia; C. B. Flanders, D. D., from New Brunswick and Prince Edward Island to Alberta, forthwith; W. F. Bates, from Montreal to Saskatchewan; J. L. Beatty, from New Brunswick to Prince Edward Island; W. B. Caswell, B. A., from Toronto to Manitoba; Eber Crummy, D. D., from Manitoba to British Columbia; C. B. Flanders, D. D., from New Brunswick and Prince Edward Island to Alberta, forthwith; W. F. Bates, from Montreal to Saskatchewan; J. L. Beatty, from New Brunswick to Prince Edward Island; W. B. Caswell, B. A., from Toronto to Manitoba; Eber Crummy, D. D., from Manitoba to British Columbia; C. B. Flanders, D. D., from New Brunswick and Prince Edward Island to Alberta, forthwith; W. F. Bates, from Montreal to Saskatchewan; J. L. Beatty, from New Brunswick to Prince Edward Island; W. B. Caswell, B. A., from Toronto to Manitoba; Eber Crummy, D. D., from Manitoba to British Columbia; C. B. Flanders, D. D., from New Brunswick and Prince Edward Island to Alberta, forthwith; W. F. Bates, from Montreal to Saskatchewan; J. L. Beatty, from New Brunswick to Prince Edward Island; W. B. Caswell, B. A., from Toronto to Manitoba; Eber Crummy, D. D., from Manitoba to British Columbia; C. B. Flanders, D. D., from New Brunswick and Prince Edward Island to Alberta, forthwith; W. F. Bates, from Montreal to Saskatchewan; J. L. Beatty, from New Brunswick to Prince Edward Island; W. B. Caswell, B. A., from Toronto to Manitoba; Eber Crummy, D. SERVIA AS A NATION.

It Originated in the First Half of the Seventh Century.

The birth of Serbia as a nation, settled in or near its present home, may be dated in the first half of the seventh century. About 600 A. D. when the Avaric empire of desolation was established on the Danube, two tribes, the Croats and the Serbs, retiring before the ravages of the Tartar horsemen, settled in the countries now known as Croatia, Bosnia and Servia.

They were Slavs, but the Croats perhaps had, like the Slavs of Moesia in after years, adopted the name of a Tartar tribe. Both, fleeing from the Avars, were naturally hostile to them, and it is possible that they settled in the empire with the consent or even at the invitation of the Emperor Heraclius I. At any rate, they appear to have been considered as vassals of the empire. Their first settlements lay rather westward of the country now called Servia, the Drava, the present western boundary, being the dividing line between Bulgar and Serb in the eighth century. Here the Serbs dwelt more or less uneventfully for three centuries. They generally formed a loose confederacy under chiefs called supans. They were commonly, in a loose fashion, loyal to the eastern empire mainly through fear of their dangerous neighbors, the Bulgarians. About 840 they united under a chief named Vlastimir to repel the latter.

The country rose to great heights under Stephen Dushan, the czar of the Serbs, but after his death Murad I. conquered the country, and it was not until 1815 that the Serbs partially threw off the Turkish yoke—Exchange.

PRECIOUS MUGS.

The Crucibles Used in the New York Assay Office.

In the government assay office on Wall street, New York, there is a corner that looks very much like a mug rack in a country barber shop, where every customer has his individual mug highly decorated in gilt letters.

On this rack are perhaps fifty crucibles for melting down gold. The crucibles are decorated with crude initials and numerals and are the property of the biggest gold mining corporations in North and South America.

The reason for the individual mugs is that the clay of crucibles takes up a considerable quantity of gold in the process of smelting which otherwise would be lost to the customer bringing the gold to the government to be refined. After two or three smeltings the clay is saturated and takes up no more gold. When it is finally succeeded by a new crucible it is returned to the customer to be broken up for its hidden gold.

Mugs that are used for melting down random lots of gold are carefully preserved by the government refiners and sold. Uncle Sam pockets the proceeds, as in these random lots there is no way of computing to what amount each of perhaps twenty customers may be entitled. It is only the smelting concern that sells the government enough gold at one time to monopolize a single melting that obtains the right to a mug on the rack. — New York Tribune.

"Your boy seems to be stronger on athletics than he is on the classics."

"Yes," replied the candid parent. "He explained that to me. He says he knows I am much more likely to understand and appreciate what he is doing in athletics."—Washington Star.

He sang to her under the window. He told of the peaceful night; He sang, "How serenely quiet Is all 'neath the stars so bright!" But just as he reached the stanza That ended with "silver moon," Her father appeared at the window, And he instantly changed his tune. —Lippincott's Magazine

Posting Wife—You used to call me the light of your life.

Hub—So I did, but I had no idea the meter was going to register such a cost. —Boston Transcript.

The small boy's growing rather grim. He's anxious as he waits. It seems the time will never come For him to put on skates. —Fun Magazine.

One Lawyer to Another—You are the biggest fool I ever saw!

Judge—Order, order! You forget that I'm in the room!—Pittsburgh Dispatch.

A wild and uncivilized Sioux Once asked a Chinese for a chess. No "chessy" he had. It made him so mad He cut off the Chinaman's quizz. —New York American.

Mrs. Goodley—Mrs. Bloomer seems to keep her youth still.

Miss Chelms—Well, she keeps her age quiet. —Catholic Standard and Times.

"Nothing ventured, nothing gained" Is a motto that has cost. The safest way to put it is "Nothing ventured, nothing lost!" —Judge.

"So your engagement to Miss Jorjacks is broken?" said Dubleigh.

"Yes," sighed Higgins. "Her mother said she was a first class cook, and I saw at once I'd never be able to keep her."—Harper's Weekly.

Talk is rather cheap, and why? Because, you understand, There's nearly always a supply Exceeding the demand. —Washington Herald.

First Suffragette—So those horrid college students broke up your parade?

Second Suffragette—Yes. In a parade they had the night before ours was scheduled they broke every plate glass window in town. —New York Times.

He was a saving case for fair. But carried it too far; To save his brand new shoes from wear He bought a motorcar. —Cincinnati Enquirer.

"How did you like our new medicine almanac?"

"It was simply great."

"Ah! And will you give us a testimonial?"

"Sure. You may say that the jokes are the kind I have always used." —Toledo Blade.

He'd always borrow trouble, and He acted like a jack. For when he had a stock on hand He couldn't pay its back. —Washington Star.

"Is your son an optimist?"

"No, sir. No eye doctors in this family." —Baltimore American.

A cop's range of language is spacious. A ball player's blue and pugnaeous. A conductor can cuss. A stage driver is wuss. But as for a sailor—good gracious! —Judge.

Wife—Be sure to advertise for Fido in the next morning paper.

Next day the wife read as follows in the newspapers.

"Lost—A mangy lap dog, with one eye and no tail. Too fat to walk. Answers to the name of Fido. If returned stuffed \$15 reward."—Tit-Bits.

Twinkle, twinkle, lovely star! How I wonder if you are When at home the tender age You appear when on the stage! —St. Louis Dispatch.

He—Would you rather be beautiful or clever?

She—Beautiful, I think. You see, there are lots of stupid men, but only a few blind ones. —Boston Transcript.

There was a young doctor named Ladd, Whose last case was checked off as "dead."

When asked why he scowled He grumbled and growled. "I'm all out of patients," he said. —Cincinnati Enquirer.

"Own up, now. Who's the head of your family?"

"My wife used to be," admitted Mr. Enpeck, "but since my daughters are grown up we have a commission form of government."—Washington Herald.

Oh, Eden's garden was a place Where man might rest contented! No piano he-thumped next door. They had not been invented. —Houston Post.

Minerva—Isn't it strange, mother, that all the heroines in novels marry poor men?

Mother—Yes, my dear; but that is fiction. —Judge.

Of all things hateful Next to me I hate to use I. O. U. —Milwaukee Sentinel.

"Why did she break the engagement with Tom?"

"She advised him to be economical, and he started by getting her an imitation diamond."—Philadelphia Bulletin.

"And are you sure she is not in?"

He asked, unsatisfied. "I have her word for it," was all The little maid replied. —Judge.

Spring or Easter Term

Our Spring or Easter Term will open March 25th. A splendid time to commence a business course and spend a few months in our beautiful little city. Our courses are specially adapted to present day requirements, and our graduates are immediately introduced into the very best commercial circles. Send for our catalogue.

Brockville Business College

BROCKVILLE — — ONTARIO

W. T. ROGERS,—PRINCIPAL

N. B.—Enrollments for spring term can be made up till April 14th.

THE ATHENS REPORTER

... OFFICE ...

VARICOSE VEINS CURED

NO NAMES USED WITHOUT WRITTEN CONSENT. Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on Varicose Veins. When I would lead to a doctor, he would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope. I dreaded it. I tried several specialists, but soon found out that the treatment was my money. I commenced to look up on all doctors as LIES, BASTARDS, RASCALS. One day my boss asked me why I was of work so much and I told him my condition. He advised me to consult Dr. Kennedy & Kennedy, as he had been treated from them himself. I went to see them and they were so kind and friendly. I wrote them and they sent me the first month's treatment. I was somewhat disappointed. However, I continued treatment for three months. I never and was rewarded with a complete cure. I could only earn \$15 a week in a machine shop before treatment, now I am earning \$15 and never lose a day. I wish all sufferers knew of your valuable treatment."

HENRY G. LOCUST.

HAS YOUR BLOOD BEEN DISEASED?

BLOOD POISONS are the most prevalent and most serious diseases. They sap the very life blood of the victim and unless entirely eradicated from the system will cause serious complications. Beware of Mercury. It may suppress the symptoms—our NEW METHOD cures all blood diseases.

YOUNG OR MIDDLE AGED MEN—Imprudent acts or later excesses have broken down your system. You feel the symptoms stealing over you. Mentally, physically and vitally you are not the man you used to be or should be. Will you heed the danger signals?

READER: Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you any children? Our NEW METHOD TREATMENT will cure you. What it has done for others it will do for you. Consultation Free. No matter who has treated you, write for an honest opinion Free of Charge. Books Free—(Boothood, Manhood, Fatherhood.) (Illustrated) on diseases of men.

NO NAMES USED WITHOUT WRITTEN CONSENT. PRIVATE. No names on boxes or envelopes. Everything Confidential. Question List and Cost of Treatment FREE FOR HOME TREATMENT.

If you desire to see us personally call at our Medical Institute in Detroit as we see and treat no patients in our Windsor offices which are for Correspondence and Laboratory for Canadian business only. Address all letters as follows: DR. KENNEDY & KENNEDY, Windsor, Ont. Write for our private address.

A 'CROSS COUNTER TALK

Customer: "What constitutes good paint?"

Dealer: "Good paint depends on the materials used, the processes of manufacture, and the skill of the painter—no more, no less."

"Sherwin-Williams Paint, Prepared, is good paint—the best paint, in fact, that can be made. No care or detail is lacking in its manufacture. The materials employed are of the highest quality and are properly put together by experienced painters. The linseed oil—the vital part of paint—used in S.W.P. is made especially by The S.W. Co. in their own mill. The pigments are selected with greatest care and scrupulously tested. The tinting colors are products of the Company's own dry color works. And the mills used for grinding and mixing are designed and made in the machine shops of the Company. They embody the most advanced ideas in paint making. With such high quality materials, such care and attention, S.W.P. must be and is good paint all the way through."

Ice Cream and a Nerve.

Why do we sometimes get an ache in the nose when eating ice cream. There is a nerve running along the back of the nose which doctors call the anterior palatine nerve. This has a branch running along the base of the nasal cavity and another branch running along the palate. The ends of these branches join through finer branches which run through openings in the palate near the front teeth. When we get some ice cream in the mouth and keep it in front for a moment so that the irritation produced by the cold reaches the fine connecting branches the sensation may be carried to the branch in the nose. Irritation of this branch produces the sensation of pain. We get the same sensation when breathing very cold air.—New York American.

Meredith and Words.

George Meredith, according to the London Chronicle, "employs that abominable contraction 'alright.' It can't be a printer's error, for it occurs more than once. And he uses it as early as 1863, so that the abusers of our language may now claim Meredith of all men as their prophet. This is one of those things that baffle explanation, particularly from a writer whose use of words was meticulous and who always refused to delete the first 'u' in 'judgment,' always spelling it 'judgement' in his novels. Some of us, however, will fight 'alright' to the bitter end."

Social Surgery.

The newly rich dame took her daughter to a fashionable school and interviewed the naughty principal:

"I want my daughter to learn to act as if she had moved in aristocratic circles all her life," she expatiated.

"I see," mused the principal. "And are you willing to be separated from her that long?"—Cleveland Plain Dealer.

Historical.

"Children," asked the visitor who was addressing the school, "how many of you can tell me what it was that Napoleon's soldiers used to call him?"

Nobody answered. "Think a moment."

"Little" — Still nobody spoke up.

"Little Corp" — "A little corpulent!" shouted the children. — Chicago Tribune.

Do you wish to know if anything is the Lord's work? See if it is a work among the poor. —Charles Kingsley.

Rural School Fair

The Educational Department of Ontario has for several years been endeavoring to promote the study of Agriculture in the rural schools of the province, and up to the present, it must be confessed, with indifferent success. Now however, a system is being introduced, under the management of the county representatives of the Department of Agriculture, that promises to be of present interest and of lasting good to the pupils, while not imposing any additional burden on the teachers. In pursuance of this policy, Mr. W. H. Smith has already had the plan adopted by six schools in the Plum Hollow district and others will probably be added to this list. The following circular letter will serve to explain the system:—

The Rural School Fair has been planned with the view of stimulating the interest of the pupils of the Rural Sections in Agriculture.

The pupils are requested to make their choice of crop from the list submitted and report to the teacher. The seed for each crop will be supplied by the Department and distributed to the schools in time for sowing. Each pupil may take home such seed and sow according to directions. After caring for the plot throughout the summer, each pupil shall harvest the plot and keep an account of the yield. The plots will be inspected during the summer and prizes awarded for the plots showing the greatest care and attention on the part of the pupil. Other prizes will be awarded in competition at the School Fair.

The seed distributed will be from the same sample, so that the pupils will be enabled to start on an equal basis. The directions given are sufficient only to make the competition equal for all. No information is supplied as to the best methods of handling the crop, but there are many sources from which such information can be obtained and the boy or girl who learns the most about and gives the greatest care to the plot will doubtless obtain the best results.

The eggs to be distributed for hatching are from an Egg laying strain of Barred Rocks at the Ontario Agricultural College, Guelph. The supply of eggs is limited and no single section will be given more than six settings, and the teacher will be asked to assist in selecting the pupils to whom the eggs will be supplied. All chickens hatched from these eggs and alive at the time of the School Fair must be exhibited.

RULES—Read Carefully

1. Each pupil may make a choice of but one sample (one, two or three).
He or she may also enter any one or all of the other classes.
2. The seed must be sown according to directions and the plots must be the size required.
3. Each pupil obtaining seed must exhibit at the School Fair, whether results be good or bad.
4. All work so far as possible must be done by the pupil.
5. Keep a note book in which to mark down dates of seeding, yield and other items of interest about your plot during the summer.

DIRECTIONS

FOR OATS AND BARLEY

1. Select a plot 2 rods long by 1 rod wide. Drive a stake at each of the four corners and place a cord around the lot so that it measures exactly 2 rods by 1 rod.
2. Sow the seed by hand as evenly as possible and cover.
3. When the plants are about 2 inches high place the cord around the plot again and destroy all plants outside the cord.
4. Harvest when ripe and thresh with flail.
5. Ascertain the exact weight of the cleaned grain and save it to exhibit at the School Fair.

FOR POTATOES

1. Cut the potatoes so as to have 56 sets each with one or more eyes.
2. Plant in 4 rows, each 15 feet long and 25 inches apart. The sets should be twelve inches apart in each row, thus providing 14 hills to each row and 56 hills in all.
3. When the tops have withered, dig, dry and separate the "marketable" from the "unmarketable" potatoes. Find the exact weight of each lot and save one dozen of the best potatoes.

FOR POULTRY

1. Select a quiet, broody hen to hatch eggs, and have nest preferably on ground so as not to be too dry.
2. All chicks hatched and alive at the time of School Fair must be exhibited.

SAMPLES FOR DISTRIBUTION ARE

1. Oats "Siberian."
2. Barley "O. A. C. No. 21."
3. Potatoes "Empire State."

PRIZE LIST

1. Plot of Siberian Oats showing best care during the summer.
2. Best returns in grain from plot of Siberian Oats. Yield and quality considered.
3. Best sheaf of a dozen heads of Siberian oats.
4. Plot of Barley O. A. C. No. 21, showing best care during summer.
5. Best returns in grains from plot of Barley O. A. C. No. 21. Yield and quality considered.
6. Best sheaf of a dozen heads of Barley O. A. C. No. 21.
7. Plot of Empire State potatoes showing best care during summer.
8. 12 best potatoes Empire State.
9. Essay on "How I grew my crop." Open to grades Sr. III and up.
10. Essay on "How I grew my crop." Open to grades below Sr. III.
11. Collection of weeds mounted and correctly named with common names.
12. Collection of insects correctly named with common name.
13. Collection of grain and grasses in sheaf.
14. Two loaves of home made bread.
15. Best pumpkin pie.
16. Specimen of plain sewing.
17. Specimen of fancy sewing.
18. Best flock of chicks raised from eggs distributed. Prizes for best Cockerel and best Pullet.
19. Best 5 apples "MacIntosh."
20. Best 5 apples "Snows."
21. Best 5 apples any other variety.
22. Best heavy draught foal (pure bred or grade).
23. Best light foal.

NOTE—Teachers are asked to notify us at their earliest convenience of the number of pupils who wish to compete, and of the classes chosen by each, in order that the seed may be sent in time for planting.

Owing to the number of eggs being limited, settings will be distributed by the teacher in charge, to the most worthy pupils. A complete prize list announcing amount of prizes, date and place of holding Fair will be given out later.

W. H. SMITH,
District Representative
Ontario Dept. of Agriculture.

Athens, Ontario.

Concrete
is the cheapest
building
material

WHETHER for a silo, a milk-house, or a million bushel grain elevator, concrete is the most economical building material in use today. Concrete never requires repair, and the saving in repair-expense alone makes the greater economy of using concrete more apparent every day. The cost of other building materials is constantly increasing. The cost of concrete is being reduced.

Canada Cement

which Canadian farmers use, with their own sand, stone and gravel to make concrete, is the only ingredient you have to buy. We have, by reason of our large output and scientific methods, been able to bring the price of "Canada" Cement so low that it is within the reach of everyone.

An increase in demand results in a greater economy of production, and when conditions have warranted it, we have, from time to time, shared this saving with the consumer by reducing the price of Canada Cement. This demand will continue to increase—as fast as farmers learn of concrete's superiority over other materials.

When you buy cement, see that you get "Canada" Cement; by so doing you will assure the complete success of all your concrete work. Send a post card for our book "What the Farmer Can do With Concrete." It is free.

There is a Canada Cement dealer in your neighborhood.
Canada Cement Company Limited - Montreal

MY ANGEL BABY

So soft in the hush of the evening hour,
When the shadows creep from the West,
I think of the babe, I held in my arms—
The babe, Jesus took to his breast;
The wee little babe with the bright blue eyes,
That so short, short a time was here,
But oh! how I loved her in that little while,
My sweet little baby, so dear.

At night, when the darkness settles down,
And I look at the stars above,
Her dear little hands seem to beckon me
To the world, where all is love;
And like a tidal wave of tenderness
My heart it seems to sing;
And hovering low, I seem to feel
The shelter of a wing.

And out beyond this shadow land,
Where all is bright and fair,
I know full well that dear little form
Lies cradled in love there.
Where crystal streams through endless years
Flow over golden sands,
Where Jesus loved ones meet again,
I'll clasp my baby's hands.
Jeanette E. Howard.

Beale's Mills.

SOPERTON

Mr and Mrs C. Laforty spent Sunday at W. H. Irwin's.
Mr E. Best is on the sick list.
Sabbath school was re-organized for the season on Sunday last.

Messrs R. and W. Goodbody left for the west on Monday. Mr H. Drayton left for Wadena, Sask., on April 2nd.

Mr and Mrs R. Preston are taking up their residence at Chantry, where Mr Preston has engaged in the Cheese factory.

Mrs E. J. Suffel is recovering, having been in a poor state of health for some time past.

H. Shire, Forfar, visited friends here recently.

CHARLESTON

The ice has left the lake.
Miss Sarah Hudson, of Summit, N. J., spent a few days last week at her home here. She left on Friday for Morrisburg.

Some of the boat houses were destroyed by the wind driving the ice against them.

Mrs Chas. Murphy, Oak Leaf, who has been very ill, is improving.
Mrs G. A. Tennant, Brockville, was called on Tuesday by the serious illness of her sister, Mrs C. W. Murphy. She returned on Friday.

Liquor Law Changes

All liquor sold in taverns to be consumed on the premises; bottle trade eliminated.

Shop and tavern license to be placed on uniform footing, advancing smaller fee of shop at present to same as that of tavern.

Livery stables and similar lounging places to be subject to some penalties for having liquor on premises as boarding houses at present.

Hour of opening in morning changed from 6 to 8 o'clock.

LEEDS ORGANIZED

There are still a number of wet places in Leeds County which the temperance people would like to see dry, and at the convention held recently in Brockville it was decided to enter upon a vigorous campaign, which will probably result in several local option votes being taken. Officers for the ensuing year were elected as follows:—
President—Rev. Thomas Leech, Lansdowne.
Vice-Presidents—Rev. Wm Westell, Athens; Rev. I. N. Beckstedt, Lansdowne; Miss Giles and M. J. Connolly, Brockville.
Secretary—Rev. Robert Grierson, Brockville.
Treasurer—Wm Webster, Lansdowne.
Representatives—W. S. McAlpine, Delta; D. W. Carpenter, Brockville; A. W. Mallory, Mallorytown; Ed. Pierce, Delta; O. J. Jones, Algonquin.

Conveners—
Brockville—Rev. S. S. Burns.
Gananoque—C. Greene.
Athens—T. S. Kendrick.
Newboro—Rev. W. J. Humphrey.
Westport—E. G. Adams.
Bastard and Burgess—Homer Graham, Portland.
Crosby, N.—Ed. Litch, Newboro.
Crosby, S.—Mr Cannon, Elgin.
Elizabethtown—Rev. Wm Wells, Lyn.

Escott F.—R. A. Foley, Rockfield.
Kitley—Wm Livingstone, Frankville.
Lees and Lansdowne F.—Capt. W. N. Bowen, Lansdowne.
Leeds and Lansdowne R.—Fred Young, Seely's Bay.
Yonge F.—Rev. L. H. Fisher, Mallorytown.
Yonge and Escott R.—

Danger!

Most of your readers well know the calamity which befell an excursion train near Montreal last Sunday. Whether caused by a spread rail, or by a reversed engine, in either case the state of the roadbed was probably the ultimate cause. It is a well known fact that the roadbed of the B. & W. line is in a most dangerous condition. The fact that several times the train has left the track without fatality or injury is not a guarantee that it will always be so. Indeed, we may hear of disaster at any time.

Notwithstanding that vague promises are in the air that the present owners are going to mend the track, may I suggest that all your readers who know the condition of the track should at once write to the Chairman of the Railway Commission, Ottawa, and urge him to take prompt action.
Wm. Westell.

LOST VITALITY
Caused by Kidney,
Stomach and Bowel Disorders

St. John, N.B., September 18th, 1911
—My brother was a great sufferer from kidney, stomach and bowel troubles and was given up by two doctors. He was advised to try your Fig Pills, which he did, and after taking five boxes was completely restored to health and is better to-day than he has been for years. You can't recommend Fig Pills too highly.

J. W. MANVERS
At all dealers, 25 and 50 cents or the Fig Pill Co., St. Thomas, Ont.

SUNDAY SCHOOL LESSON

LESSON III.—APRIL 20, 1913.

Jacob's Meeting With Esau.—Gen. 32: 3-33: 17.

Commentary.—I. Jacob's troubled conscience (32:3-23). Twenty years had failed to efface from Jacob's memory the wrongs he had done to his brother, and now that he was returning to his country and was about to meet Esau, he was in anxiety as to the outcome.

II. Wrestling in prayer (32:24-32). Jacob was now at the greatest spiritual crisis of his life. He had received a vision of God at Bethel which had greatly subdued him, but here he was to become a conquered and changed man.

III. A friendly meeting (33:1-17). I. behold Esau came. The preparation and the emergency did not miss connections. 2. handmaids... Rachel—Jacob evidently arranged his companies according to his special affection for Rachel.

4. Esau ran, etc.—Five expressions are used in this verse to show the affection of Esau for Jacob. There is a striking contrast between this meeting and the parting of the brothers twenty years before.

8. What meantest thou by all this?—With reconciliation completed and greetings over, an explanation of the magnificent gift is demanded. To find grace in the sight of my Lord—in this statement Jacob confesses the past wrongs to his brother and acknowledges that reparation should be made.

SHOE POLISH. Gives a Quick, Brilliant Polish That Lasts. No Turpentine. Easier to Use Better for the Shoes.

God—God had blessed Jacob and Peniel and he had affected Esau to that extent that he was favorable toward Jacob. 11. My blessing—Jacob's changed condition of mind and heart would not permit him to be satisfied unless Esau received his gift, which he calls a "blessing."

12. I will go before thee—Esau's affection for his brother moved him to do all he could for him. He would keep him company and be a guide to him. 13. Children are tender, etc.—Esau and his four hundred men could proceed rapidly, but Jacob, with the women and children, must, of necessity, move slowly.

14. Softly—Gently, carefully. Unto my lord—Esau intended later to visit Esau at his home at Mount Seir. 15. Some of the folks that are with me—Esau desired to leave a guard with Jacob for his protection. What needeth thee of me?—There is no need. 17. Esau returned to his place after this, and Jacob journeyed to a place called Succoth, "booths," where he provided shelters for himself and for his flocks and herds.

18. Esau desired to leave a guard with Jacob for his protection. What needeth thee of me?—There is no need. 17. Esau returned to his place after this, and Jacob journeyed to a place called Succoth, "booths," where he provided shelters for himself and for his flocks and herds. 19. Esau desired to leave a guard with Jacob for his protection. What needeth thee of me?—There is no need.

20. Esau desired to leave a guard with Jacob for his protection. What needeth thee of me?—There is no need. 17. Esau returned to his place after this, and Jacob journeyed to a place called Succoth, "booths," where he provided shelters for himself and for his flocks and herds.

contained in the feeds used in the ration as well as the water that is used as water. This quantity of water is gradually reduced, so that when the pig is 8 months old it is getting 9 pounds of water daily per 100 pounds live weight.

WATER FOR PIGS. The amount of water fed to pigs that are fattened for the market, starting with the pig when it is two months old and having it in prime condition for market at eight months of age, decreases gradually from 12 pounds to 4 pounds of water daily per hundred pounds live weight.

FEEDING CARBOHYDRATE FOOD. The amount of carbohydrates fed to pigs that are being developed for breeding purposes should be somewhat lower than is fed to market pigs, so as to prevent them from getting too fat.

Zam-Buk for the Children. Mothers Tell What It Did For Their Little Ones. Thousands of mothers in Canada owe a debt of gratitude to Zam-Buk.

PIG FEEDING AS A SCIENCE. In feeding pigs which are to be developed for feeding purposes less protein food should be given than in the case where the pigs are intended for market.

PIG AT TWO MONTHS. The market pig when it is two months old gets 6-10 lbs of a pound of digestible crude protein daily per 100 pounds live weight.

Some Experiments In Bee-Keeping

Ontario farmers have been conducting experiments of various kinds under the direction of the Experimental Union for quite a number of years, and for the last three years some of them have conducted experiments in bee-keeping with special reference to the "Prevention of Natural Swarming," and also in the "Races of Bees."

Experiment No. 1.—Of the the 220 persons who undertook the first experiment in swarm prevention, 31 sent reports from 18 different counties. These reported a total of 830 colonies of bees in the spring and 1,100 in the fall, being a spring average of 27 colonies per experimenter and a fall average of 36. Their total honey crop was 62,230 lbs., an average of 76.1 lbs. per colony, spring count. Fifteen of these experimenters were for one reason or another unable to complete the experiment.

Experiment No. 2.—Experiment No. 2 was for "Swarm Prevention in Comb Honey Production." Six complete reports of this experiment were sent from five counties. The total number of colonies represented was 101, spring count, and 228, fall count. The total honey crop was 8,410 lbs., an average of 52.47 lbs. per colony, spring count. The per cent. of natural swarms from hives managed according to instructions was 57 per cent., and from those managed according to the old method 100 per cent.

Experiment No. 3.—Twenty experiments sent complete reports from five different counties on Experiment No. 3, "The Prevention of Natural Swarming by the Manipulation of Hives instead of Combs." The total number of colonies owned by experimenters in the spring was 515, and in the fall 743. The total honey crop reported was 25,363 lbs., an average of 49.24 lbs. per colony.

These reports come from experimenters scattered all over Ontario, with 1,200 colonies, spring count, and 2,000 colonies, fall count. This represents an investment of say \$200,000,000. Their income for 1912 is first, an increase of 274 colonies, which, without hives, would be worth in the fall at least \$3.00 each, totalling \$1,722,000, also 97,042 lbs. of honey worth at least \$10,000,000.

Shiloh. The family remedy for Coughs and Colds. Shiloh costs so little and does so much!

OUR SEEDS PRODUCE Big Roots! Big Crops! Big Results! When you ask for "ROOT SEEDS" insist on getting:—Steele, Briggs' "Royal Giant" Sugar Beet. Steele, Briggs' "Prize Mammoth Long Red" Mangel.

REPORT SHOWS THAT IN THE HOSPITALS OF THE PROVINCE 61,550 PERSONS WERE UNDER TREATMENT DURING THE YEAR. The total expenditure for hospitals was \$2,330,295, of which \$330,470 was an expenditure.

Winsome Winnie

She would be recalled. And on this very day of her return, in the soft, warm, shadowy summer afternoon, Madam Vivian, strong of will and purpose yet, for all her seventy years, put on her travelling attire, which she had scarcely laid off, took her slender, silver-headed walking-stick in her hand, and then quietly set out to walk to her nephew's house at Tregarthen.

Poor Stephen's sorrowful, desolate home—her poor, generous, self-sacrificed boy! What did Trowhella mean by her ridiculous gossiping news about his wife's being nearly well? Those kind of people were so apt to exaggerate everything. The poor, dying, crippled creature was perhaps able to go about in a Bath chair, or be carried in an easy-chair, or something of that kind.

"Poor Winnie! She used to be such an active, nimble little creature. Poor Stephen, to what a life he has doomed himself!" Madam thought again, as she came in sight of the quiet old gray pointed house lying amongst the trees and evergreen shrubberies of Tregarthen, with the blue smoke rising softly in the quiet evening air, not even a ray of sunlight to brighten up the rows of windows, not a sound to be heard on the smoothly-mown lawn or the neatly-raked carriage drive, not a figure of a human being visible about the orderly precincts of the calm, quiet, deserted-looking old mansion.

"It must be nothing less than a prison to him after his free, wandering life—my poor Stephen!" Madam almost groaned. "His days have to be spent in an invalid's room, or in one of those silent downstairs rooms, reading the news paper."

One the silent downstairs rooms had its long French windows standing open. It did not look particularly gloomy or dreary, either, with its vases of flowers, its gay litter of tiny chairs and footstools and tables, its open books, writing cases, and open piano, with loose sheets of music fluttering here and there in the evening breeze, all which Madam caught sight of as she passed on.

She had espied the open door of the high-walled fruit garden lying to the south of the house, and bent her steps thither.

"He is in the garden, perhaps," she thought, with kindly pity. "He was always fond of wandering about in a garden, plucking flowers and fruit, poor fellow!"

Yes, there was no doubt that he was in the garden; for Madam caught the sound of advancing steps and her nephew's voice—not a subdued or sorrowful voice either—indeed, he was laughing gaily with some one.

IMPURE BLOOD IN THE SPRING

The Passing of Winter Leaves People Weak and Depressed.

As winter passes away it leaves many people feeling weak, depressed and easily tired. The body lacks that vital force and energy which pure blood alone can give.

Dr. Williams' Pink Pills for Pale People are an all-year-round blood builder and nerve tonic, but they are especially useful in the spring. Every dose helps to make new, rich, red blood. Returning strength commences with their use and the vigor and cheerfulness of good health quickly follows.

There is just one cure for lack of blood and that is pure blood. Food is the material from which blood is made, but Dr. Williams' Pink Pills double the value of the food we eat. They give strength, tone up the stomach and weak digestion, clear the complexion of pimples, eruptions and blemishes, and drive out rheumatic poisons.

If you are pale and sallow, if you feel continually tired out, breathless after slight exertion, if you have headaches or backaches, if you are irritable and nervous, if your joints ache, if your appetite fails and food does not nourish nor sleep refresh you, Dr. Williams' Pink Pills will make you well and strong, to build up the blood is the special purpose of Dr. Williams' Pink Pills, and that is why they are the best spring medicine.

If you feel the need of a tonic at this season give Dr. Williams' Pink Pills a fair trial and you will rejoice in new health, new strength and new energy. Do not let the trying weather of summer find you weak and ailing. Build yourself up now with Dr. Williams' Pink Pills—the pills that strengthen.

Ask for Dr. Williams' Pink Pills for Pale People and do not be persuaded to take something else. If your dealer does not keep these Pills they will be sent by mail, post paid, at 50 cents a box or six boxes for \$2.50, by writing The Dr. Williams' Medicine Co., Brockville, Ont.

"You're a nice young lady!" she heard Captain Stephen say, hilariously. "Do you pretend to have a conscience? I should be glad to know. How many more ripe gooseberries am I to gather for you, scratching my hands? They are so exquisitely white it is a pity certainly. No, you shan't! No, you shan't! I have no intention of spoiling you as your mother is doing, mademoiselle."

"Visitors," madam thought, in vexed disappointment. "What shall I do? It was silly of me to come here unexpectedly; but I never imagined that he would have visitors."

But a retreat being impossible, madam stood her ground quietly, gazing in surprise and confused uncertainty at the group that emerged from the rose-covered archway of the garden door, with the long vista beyond of strawberry beds, gooseberry bushes bending beneath their weight of purplish red, translucent green, and downy amber fruit, wall fruit ripening in the sheltered summer air, open cucumber frames, trailing vines, and the distant green house, with its roof festooned by drooping stems clustered with white grapes.

Was that Stephen—her nephew, Stephen? The great, broad-chested, ruddy-cheeked, jolly-looking country gentleman in a straw hat and gray morning coat, with a dainty bouquet of moss-rosebuds in the top buttonhole. And carrying a baby?

Nothing less. A great, fat, handsome, lively baby of some eight or nine months old, who held an enormous amber gooseberry squeezed in one little pink, chubby hand, and with the other retained a firm and unceremonious clutch of Captain Trednick's necktie!

And by his side, leading on by his other arm, walked a pale, fair delicate looking woman, dressed in a simple graceful dress of pearly gray, with rich claret velvet ribbons in her hair and around her throat; these with a thick silk sash of the same hue knotted at her waist and hanging its heavy rich fringes down as far over her dress, brought out the delicacy of its clear pale hue and the fragile purity of her own complexion in a manner that caught Madam Vivian's artistic eye and charmed it to the instant.

That pale little woman walking rather feebly by his side, the fat, handsome, troublesome baby, and the jolly-looking country gentleman—who were they? Her blank amazement looked Madam Vivian to the ground.

"Aunt Vivian! My dear aunt—my dear aunt!" Stephen Trednick cried, rushing forward, holding the baby tightly yet, even while he embraced and kissed the old lady; whereby the young person in the white embroidered frock was brought into remarkable contiguity to Madam Vivian's bonnet.

"Aunt, dear," he said in the next breath, holding aunt and baby squeezed in one arm, and allowing madam not an instant's opportunity for the tender, severely reproachful, gracious, forgiving little speech she had been preparing all the way from Roseworthy—never even seeming to recollect the necessity for it in his flush of pleasure and gratification. "Aunt, dear—look here!" and he put his other arm around the little woman in the pearly gray poplin dress.

"Aunt, look at my Winnie! As well as ever nearly, thank Heaven! She can walk about the grounds as well as I can now! Isn't it wonderful?"

Winnie Trednick remembered the need for the forgiving speech if her husband did not. The old shy color flooded her face, and her lips trembled, as madam remembered to have seen years ago when giving one of her lengthy replies.

"Dear madam," she faltered, timidly putting out her hand; "I am glad—so glad to see you again."

"And I," said madam, gracefully meeting the greeting hand more than half way, "am glad to see that you, my dear, have been so mercifully restored."

Madam meant that Winnie should have the benefit of that little reproachful, kindly speech, and was proceeding to say that "the pleasure of knowing that you have recovered your health, Mrs. Trednick, is gratifying enough to cause me to feel less keenly the memory of the past," when, fortunately, or unfortunately, the floating white ostrich feather, curling gracefully on the top of Madam Vivian's black lace bonnet, caught the quick, bright, violet grey eyes of the young person in the embroidered frock, and in an instant both the satiny dimpled hands, dropping the crushed ripe gooseberry, clutched at the white feather in rampant glee.

The baby, screaming with delight, there was an end put from that time, henceforth and forever, to Madam's studied sentences and the grave, rebuking, reconciliatory speech.

dennick nose? She's an imperious young dame. And my word! hasn't she got the Trednick temper? She's got Winnie's little mouth, though," he added, more softly—"a gentle, persuasive little mouth—and Winnie's hair. See what thick, curly brown hair she has, and she is not nine months old!"

"Only eight months and three weeks, dear," put in the mother's "gentle, persuasive little mouth—and Winnie's hair. See what thick, curly brown hair she has, and she is not nine months old!"

"Only eight months and three weeks, dear," put in the mother's "gentle, persuasive little mouth," with accurate maternal knowledge. "Dear Madam, isn't she very like Stephen?"

"Very," said Madam, holding the troublesome baby in a closer clasp. A kind of thrill ran through her—a momentary feeling of displeasure and resistance at the sound of the wifely familiar words which seemed to draw Stephen and Stephen's child so tenderly close to her who had been Winnie Caerlyon as to shut out her who was but Madam Vivian, his aunt, into the outer circle of mere relationship.

It was but momentary. In the tender light of Winnie Trednick's wistful, loving eyes, in the radiance of Stephen Trednick's wedded happiness, in the touch of the baby arms of the little one on her bosom, who seemed like a son's child, a grandchild to the lonely old white-haired woman, the last remnant of coldness, jealousy and unworthy pride faded quietly out of her heart.

"We called after you, Madam," Winnie added, softly.

The old lady looked earnestly and inquisitively at her for a moment, and then she gave her the reconciled kiss she had meant to delay for so much longer.

"Did you, my dear?" she said, putting the baby into her arms. "There, Helen Trednick, you shall make peace between your mother and your grand-aunt forever!"

THE END.

Bright, Ruddy Cheeks For Pale Girls

No Longer Any Need to be Pale, Weak or Anaemic.

By Following the Advice of Miss McEwen You Can Quickly Become Strong Again.

The pallid girl always lacks appetite. What little she eats is badly digested. At night she is restless, she dozes, but doesn't sleep soundly.

Vital force must be increased, new blood made to replace and a general rebuilding take place before she will feel like she ought.

Dr. Hamilton has invaluable experience in these cases and found nothing so prompt in building up young women as his vegetable pills of Mandrake and Butternut.

Dr. Hamilton's Pills begin by cleansing the system and purifying the blood; they also improve digestion and render food ready for absorption. Additional nourishment is quickly supplied and the patient is fast strengthened and invigorated.

Full of spirit, ruddy and strong is the girl that assists her system by the use of Dr. Hamilton's Pills.

The following recent letter from Miss Rita McEwen, of Hamilton, speaks for itself.

"In using Dr. Hamilton's Pills I find my system is wonderfully built up. It is certainly the most effective remedy I ever used. I have now a good appetite, sleep more soundly, and awaken in the morning feeling quite refreshed."

"Formerly I felt tired and depressed. I looked as if a severe illness were hanging over my head."

"Nothing could give quicker results than Dr. Hamilton's Pills and I strongly advise every young woman to use them."

All dealers sell Dr. Hamilton's Pills, 25c per box or five boxes for \$1.00, by mail or from The Catarthozone Co., Buffalo, N.Y., and Kingston, Ont.

ELEPHANT HUNTING.

Long, Hard Tramp Ere Game Was Bagged.

A native brought in news from a village on the Boni-Mwambi road of three elephants that had for three or four nights successfully plundered the potato and banana "shambas." I set out at 5:20 a.m., accompanied by my gunbearer and a native hunter from the village, who had already proved his prowess as a fearless tracker, writes Basil Duncan in the Field.

We reached the village in question after one and a half hours' trek through the forest. Here I was shown the plundered "shambas," there were the footmarks of three elephants—one large bull and the other two cows.

The chief of the village supplied me with a man who said he knew the forest well but of this more later on. The elephants had evidently only just left, and in twenty minutes we heard them crashing about in the dense forest at a little way ahead. I sent my tracker on, and he soon came back with the good news that the bull had separated from the two cows and had gone to the right, so we followed the bull's spoor through dense rhododendron bushes so thick that one could not see five yards ahead; but then one is accustomed to this in the Congo forest.

The rain which had been threatening now poured down in torrents, making it impossible either for us to hear the elephant or vice versa. Suddenly the tracker pointed at something, and I saw some ten yards ahead—the forest had thinned here a little—a fine bull with long, heavy tusks. Fearing I might not get such another opportunity, although the bushes were still thick enough to give me only an imperfect sight of the elephant, I determined to risk a shot, and gave him both barrels of my 450 in his ear, while my gunbearer fired with the 350 Rigby at the shoulder.

The elephant showed no signs of being wounded, and dashed off. There was nothing else to do but follow up the beast, as I was sure the shots had told. Many elephants show no signs of being struck, but if they are followed up steadily one can generally get another shot at them. The rain meanwhile still continued to fall in torrents.

ARMS AND FACE VERY MUCH DISFIGURED

Skin Cracked and Bled, Causing Much Pain. Was Getting Discouraged. Cuticura Soap and Ointment Soothed Right Away. Used Them Four Weeks. Has Not Been Bothered Since.

5 Hunter St., Davisville, Toronto, Ontario.—"My little girl was troubled with cracked arms and face from the time she was born. They were certainly very much disfigured. The skin was sensitive and cracked and bled, causing much pain by smarting. When healing a little it took the form of itching. The trouble was very cruel. When she cried the tears would make it smart and cause more pain. I tried cold cream, and and and it got better only to break out again when exposed to the air. She suffered for over three years and I was getting discouraged when I read of Cuticura Soap and Ointment and sent for samples. Cuticura Ointment seemed to soothe it right away, where other ointments made it burn, so I bought some more. I used them for four weeks and she has not been bothered since. Her face and arms have never had a mark since. In fact her complexion is wonderfully clear." (Signed) Mrs. Underhill, Dec. 11, 1911.

Cuticura Soap is best for skin and hair because of its extreme purity, delicate yet effective emollient properties, and refreshing fragrance. It costs but little more than ordinary soaps, wears to a water and gives comfort and satisfaction every moment of its use, for toilet, bath and nursery. Cuticura Soap and Cuticura Ointment are sold everywhere. Liberal sample of each mailed free, with 32-p. Skin Book. Address post card Potter Drug & Chem. Corp., Dept. 49D, Boston, U. S. A.

anything but pleasant work forcing our way through the dense undergrowth, while the spoor was in places difficult to follow, owing to old tracks.

After two hours my trackers wanted to give up and go home, but I did not wish to lose the chance of a big trophy, and insisted on going on. Soon we had our reward, for after another hour I suddenly saw the elephant standing waiting some twelve yards ahead in a small clump of reeds. The tracker was so engaged in picking up the spoor that he did not see the great brute, and I had no time to call for him, so I fired both barrels as quickly as possible at the elephant's forehead and dashed to one side in case of a charge. However, the heavy bullets had done their work, and a fine elephant he proved to be, as on weighing him next day his tusks scaled 104 pounds and 102 pounds.

The time was now 10:30 o'clock, so I decided to get back as soon as possible. The guide I had obtained from the last village said he knew a way back which only took two hours, so we started off, the natives carrying as much of the trunk as possible. After three hours' wandering through dense jungle my gunbearer drew our attention to the fact that we had come back to the same point twice, and that the guide had lost his way. This soon became painfully evident.

The abuse heaped on him by my two men only maddened him the more, so I told him to go on by himself and try to find the Myambi road, which I knew could not be far off, and in the meantime halted under a large tree where my gunbearer and the other trackers made a rough hut and as good a fire as the damp surroundings would allow. At 4 o'clock I had quite made up my mind that we should have to spend the night in the forest, and was delighted when I heard a shout some distance to our right. Ultimately the guide turned up, and we reached his village at 6 o'clock and finally my camp at about 8 p.m.

My cook, guessing that I had got lost, had got the chief to sound a big war drum, which can be heard about four miles away; but once in his own district my tracker had no difficulty in finding his way, and his remarks to me other guide were, to say the least, of them, scathing in the extreme.

AS OTHERS SEE IT.

U. S. Paper's View of British Land Reform.

(Rochester Post-Express.)

There is small wonder that Lloyd-George is the best hated, most beloved man in England. He has dared to threaten the landed interest. In no country in the world, perhaps, is it more difficult for the laboring man to own his patch of land than it is in Great Britain. Ireland, by comparison, is an emaciated country, and it is highly probable that the long-continued and ceaseless agitation of the Irish Parliamentarians has had the effect of sowing the more sluggish Saxons to the sense of his own wrongs. On this head, by the way, it is not without point to recall the valet in "John Bull's Other Island," who meets the complaints of the Irish agitator with the remark that the poor Londoner has much worse grievances to put up with.

The fact is that England has never completely emerged from feudalism. The lord of the manor can no longer call on his retainers to follow him as a retinue or assist his attack on the estate of a neighboring noble, but he holds the laborer in a servitude that differs very little in effect from the serfdom of old, when all who were not freemen wore brass collar round the neck, inscribed with the name and address of their owner. The laborers on an English landed estate do not own their little plot of land; they are usually so miserably poor that they are practically imprisoned in the locality where they were born. If it were not for the fact that many of the landowners are benevolent men, kind-hearted, within the narrow traditions of their class, England would long ago have suffered the throes of a revolution as bloody as ever stained the soil of France. And to-day, fired by the example of his neighbors, "Hodge," as the typical English laborer is called, wants to know why he too should not "have a place in the sun."

Within the last twenty years men

New Treatment Now Advocated For Bronchitis

is Having Wonderful Success, and is Making Most Remarkable Cures.

For bronchitis a different form of treatment is now advocated. It consists of a fantastically devised vapor that penetrates to the uttermost recesses of the lungs and bronchial tubes. Every spot that is sore, every surface that is irritated is at once bathed with soothing balsams and healing essences that make chronic bronchitis an impossibility.

This treatment now so universally employed in bronchitis, throat troubles, colds, etc., is called CATARRHOZONE. It acts just as air of the pine woods acts, as a healing antiseptic remedy for all diseases of the breathing organs. Just think of it—a remedy that can be carried with the very air you breathe to the seat of bronchial or catarrhal inflammation. A remedy powerful enough to kill germ life and yet so healing that disease flees before it. Catarrhozone is truly a wonderful remedy. In many lands it has won its way, and is affording grand results to sufferers from colds, catarrh, throat weakness, asthma, and bronchitis. There is no sufferer from a grippy cold or any winter ill that won't find a cure in Catarrhozone, which is employed by physicians, ministers, lawyers and public men throughout many foreign lands. Large size lasts two months and costs \$1.00 and is guaranteed; small size, 50¢ sample size 25¢. All storekeepers and druggists, or The Catarthozone Co., Buffalo, N. Y., and Kingston, Canada.

HOUSECLEANING HELPS.

To clean painted walls. Dirt seems to have an affinity for newly painted walls. For some reason or other the walls of the kitchen are bound to get dirty before the paint becomes dry. There's a way to keep the dirt out. Before the paint has thoroughly dried make up a batch of starch as you would for the laundry. Thin it so that it will flow nicely under a brush and apply a coat to the wall. It will dry clearly and protect the paint.

When the wall gets dirty just wash off the starch and put on another coat. You'll have a good clean wall most of the time and one painting will last about four times as long as if usual methods were followed.

To ebonize wood—Take one pound of log-wood chips and three pints of water, boil to one pint and apply to any grained wood. Let dry and apply another coat. After this a dry sandpaper coat. Mix one gill of vinegar and three tablespoons of iron or steel filing. Let stand five or ten hours. Put on wood with a brush. After it is thoroughly dry sandpaper and polish.

To clean plaster casts—Bust and statuettes may be cleaned by dipping them into a thick liquid of starch or covering every part. Let it dry two or three days. Then carefully peel off the starch. The dirt will come with it.

Cleaning windows—Be sure and wash your windows when the sun is not shining. If they dry too quickly they may streak before they can get wiped. A good way to clean them quickly is to use whiting and alcohol and benzine, with enough calcined magnesia added to make a thick milk, is excellent. Both these mixtures are much better for cleaning than soap and water.

To clean wood work—Wash white paint with a heavy suds made of white soap and to every quart of suds add one tablespoonful of gasoline.

For mahogany or other polished woods use a mixture of linseed oil, vinegar and turpentine, equal parts. Pour some of the mixture on a cloth, rub the wood well and polish with a dry cloth. On unpainted varnished wood use soap and water and then re-varnish.

To clean door handles—Clean plated handles and hinges on doors by rubbing with a flannel cloth wet with kerosene and dipped in whiting; polish with dry flannel. Clean the woodwork as explained elsewhere for painted or varnished surfaces.

Eskimos' Code of Etiquette.

The Eskimos have a code of etiquette that runs something like this, says a writer in the Wide World Magazine: "If a stranger has nothing, give him anything you have got; if he has plenty ask him for everything."

The generosity or stinginess of a newcomer on his initial visit forever establishes his reputation among the Eskimos. If he withholds the usual present and pays sparingly for his labor he is blazoned throughout the country as a "tightwad" the Eskimos are promptly converted, so far as he is concerned, into thieves; but if, on the other hand he pays his natives well for unloading his cargo and dispenses with little presents with discretion, he is known as a "good fellow" and the whole tribe stands ready to do his bidding.

Of the general natural honesty of the Eskimo there is no question, the writer continues. "During a three-years residence among them I never lost so much as a pin, and frequently had lost articles returned. They would even take a lump of coal off the school grounds without my permission."

Every year I ordered my supplies in Nome, and had them sent up to the Island and delivered to the natives and although some families might be entirely out of food, they never touched a single box of sugar or biscuit, but stored it carefully in the school building, accounting for every item. "Any dishonesty shown has been learned from the white man. I might add that the Siberian tribes do not bear their reputation, and when they made their annual visit in the spring we had to put everything under lock and key."

NAPOLEON LOST SOMETHING, TOO.

(London Opinion.)

Host—That is the sword of my great-uncle. He lost his arm at Waterloo.

Guest—Yes, it's a terrible piece for losing things. I lost a bag there only last week!

A company has been organized in the city of Puebla, Mexico, capital \$25,000, and has asked a concession from the city council to rebuild the old theatre which was destroyed by fire and to erect small theatres for the entertainment of the lower classes. It's a good plan to stand your ground, but be sure you have some.

POPULAR YOUNG FARMER TALKS TELLS WHAT DODD'S KIDNEY PILLS DID FOR HIM!

He's Back at Work Again, After Suffering from the Pains, Nervousness and Depression that Only Kidney Disease Can Bring.

(Point Alexander, Ont., April 14—Special.)—Mr. D. A. Froncure, a well-known and popular young farmer, living near here, who has been a sufferer from kidney disease for some time past, is back at work again, and he says, without hesitation, that his cure is due to Dodd's Kidney Pills.

"I was always tired and nervous," Mr. Froncure says, in speaking of his illness. "I suffered from backache and neuralgia, and my sleep was broken and unrefreshing. My eyes were puffed and there were dark red circles around them."

"My muscles would cramp. I felt heavy and sleepy afterwards, and I was depressed and low-spirited, while shortness of breath and dizzy spells served to make life yet more miserable for me."

"I was always thirsty; my limbs were heavy; and I had a dragging sensation across the loins."

"My symptoms led me to believe I had kidney disease, and I started to use Dodd's Kidney Pills. I have taken eight boxes in all, and I am very grateful for the benefit I have received from them."

"If the disease is of the kidneys or from the kidneys, Dodd's Kidney Pills will cure it."

EXTRA!

Crabford—It the postscript always the important part of a woman's letter? Crabshaw—It is when it says "my wife. That's where she always mentions how much money she wants."

ATHENS BRANCH JOHN WATSON, Manager.

Local and General

Mrs Wm. Mott has been quite ill for several days.

Choice Seed Oats and Barley—Athens Grain Warehouse.

Mr Burt Wilson went to Ottawa this week on a business trip.

The sale of cheese has opened with the price ruling at about 11c.

Mr W. G. Parish is placing a 27-ft. launch on Charleston Lake this spring.

Miss Muriel Fair, a recent graduate of Ottawa Normal, is teaching at Lansdowne.

Mr Gordon Thompson of London, Ont., has been spending a few days with friends here.

Mrs Charles Wiltse of McDonald College farm, Quebec, is visiting old friends in this section.

Cash paid for cow-hides, horse-hides, sheep pelts and deacon skins—at Willson's Meat Market.

Don't stunt the growth of your calves—Lots of Calf Feed at Athens Grain Warehouse. Prices low.

A man's willingness to get up early depends almost entirely on whether he is going to work or going fishing.

Mrs A. E. Stillman of Calgary is visiting at the home of her parents, Mr and Mrs Dunham, Plum Hollow.

G. K. Wight left last week for Gananogue, where he has a fine position for the season as cheese-maker.

Boy Wanted—about fifteen years of age, with fair education—to learn the printing business. Apply at the Reporter Office.

Mr Lester Brown will make cheese at Lillie's this season and Mr Roy Robinson has been engaged for the Spring Valley factory.

The pike have finished their survey of high water mark and have returned to deep water. The catch this spring was comparatively small.

Mr Hitsman, of Athens, has been appointed a presiding examiner at the entrance, in Brockville. Mr Remmer will preside at Athens.

The Messenger says the starch factory in Prescott has been sold to the Dominion government which will turn it into a marine repair station.

On Monday evening Miss Vera Gainford returned home from the West, accompanied by her sister, Mrs J. W. Chambers of Markinch, Sask.

For Sale—A High-Actm Davis Sewing Machine. Very low price for quick sale. Apply at the Reporter office.

Mrs Frank Stewart of Frankville met with quite a loss on Sunday, April 6, when her thoroughbred Welsh pony died. She paid \$200 for the animal.

Brockville councilmen have made arrangements for the installation of a garbage system, the cost of which is reckoned to be in the neighborhood of \$2000.

Winchester is to vote on a By-Law granting a bonus of \$1,500 to the Ottawa and St. Lawrence Electric Railway, with right of way on street from north to south.

We must either get the caterpillar or the caterpillar will get our foliage. We are due for a very 'creepy' summer if concerted action be not now taken to destroy the eggs.

Announcement is made of the marriage of Miss Pearl Botham of Winnipeg, daughter of Samuel Botham, of North Augusta, to Byron L. Van Slyck, of Pense, Sask.

Rev G. Beckhurst, rector of the New Boyne Parish, has resigned to accept an appointment in the United States. His departure from the parish is much regretted.

The new C. N. R. main line is surveyed to run about a mile and a half out of Pembroke and to this the town is objecting. The company promise a spur line into the corporation but the people are not satisfied and carried their protest to the Railway Commission. No decision was arrived at but the Commission decided to send its engineer to investigate. The company says that on account of engineering difficulties it would cost over \$400,000 extra to run through Pembroke.

Mr Vic Sexton, who has spent the winter with his orother here and with friends at Elgin, returned to Deloraine this week.

Tuesday was the anniversary of the loss of the Titanic, and the total claims filed against the steamship company amount to \$10,000,000.

A special meeting of the Brockville Cheese Board has been called for Thursday next for the sale of the early make which is daily increasing in value.

Elizabethtown council has passed a By-Law setting apart for the police village of Lyn a sum not exceeding 75 per cent. of all the Township moneys collected in said police village.

Owing to a change in the end of the financial year of the Merchants Bank, interest will be added on all savings accounts for five months to 30th of April, 1913.

Potatoes are down on the free list, under the new U. S. (Democratic) tariff schedule, and many local agriculturists on light soiled farms will consequently turn their attention to potatoes.

Temperance workers of Leeds and Grenville are making a move in the direction of bringing on local option contests in Brockville, Gananogue, South Elmley, Kitley, Kemptville, Merrickville and Prescott.

The death occurred at North Augusta, on Wednesday, of Mr J. S. Ralph, aged 83 years, who for many years conducted a general store in that place. He was born in Ireland and came to Canada when 18 years of age. Two sons and four daughters survive him.

During the past week 3,180 passengers have passed through the Grand Trunk's Bonaventure station at Montreal on 12 special trains, for Ontario and points in Western Canada via Halifax and Portland.

Mr H Foster Chaffey, of the R. & O. Nav. Co., is credited with announcing that the Toronto-Rochester-Montreal line, which is the daily service to Thousand Islands and Montreal, Steamers will commence running May 31.

Fenelon Falls had a try at local option last January and failed to carry it. A temperance council had been elected however, and they immediately passed a by-law reducing the licenses from three to one.

Mr Charles Wing called on friends in Athens this week, en route from Boston to his cheese factory at Vennachar. He is in splendid health and is looking forward to a busy and pleasant season in that dairy district.

Sydney Hill, who was principal of Chesterville public school several years ago, died recently at Lindsay and was buried at Prescott. His father, who lived at Winchester, met an accidental death at the railway station there a few years ago.

Matthew White, for nearly sixty years a resident of Brockville, and one of its most highly respected citizens, passed away at the Brockville General Hospital, shortly after midnight on Saturday, April 12, aged 71, following a short illness of pneumonia.

This is the season when householders build fires in their gardens to consume the year's accumulation of rubbish, and great care should be exercised. The fires should be started in the morning and in the evening the brands remaining should be attended to carefully lest a night wind blow them against some fence or wooden building.

Two Brockville boys who were discovered playing cards on Sunday were fined \$1 and \$2 costs each. They probably used the "wicked" cards. If it had been Lost Heir, or Nations, or some other purely intellectual pack they might have fared better, because—well—because.

After an excursion that included Brockville, Prescott, a trip across the ice under cover of darkness to Ogdensburg, and then on to Syracuse, N. Y., Mrs Robert Moodie has returned to her home in the vicinity of Athens. She was very much in the lime-light while away and life here must now seem very dull and uneventful.

Times: David Ireland, a resident of Irish Creek, is a prisoner at the Counties Jail, awaiting trial on a charge of threatening to kill with an axe a man named James Mitchell. The trouble arose over the removal of a padlock from a door, and in the dispute which ensued Ireland is said to have made the threat.

The country roads are improving but have been in places almost impassable. If our political warriors in parliament could compromise and grant about \$85,000,000 for the improvement of country roads it would be a very popular solution of their difficulties.

On Tuesday, April 22, Mrs George Gibson will sell by public auction at her premises about two miles West of Athens, 12 milch cows, 3 heifers, implements, vehicles, threshing machine, engine, blower etc. E. Taylor, auctioneer.

The completion of handsome new show windows marks the 25th anniversary of the entry into business of Mr Robert Craig, Brockville. During these twenty-five years good values and square dealing have won for Mr Craig a large measure of success, and to-day his fur department draws customers from all parts of the county. The new glass front is an ornament to King street.

According to the supplementary estimates of the Ontario legislature, J. R. Dargavel, M.P.P. for Leeds has secured a grant of \$4000 to be expended upon improving the Gananogue River so that motor boats may be able to navigate the stream between Lyndhurst and Marble Rock. In addition to this Mr Dargavel has obtained a grant of \$1,000, to be spent upon colonization roads in Leeds.

The meeting of municipal representatives called for Friday last proved to be somewhat of a fizzle. The business was to discuss the project of extending the Ottawa and Morrisburg electric railway from Brockville to Charleston Lake via Athens, but the promoter of the line, Mr J. G. Kilt, failed to put in an appearance, and has not since, so far as we have been able to learn, given any reason for his absence. However the matter was considered by those present, and when Mr Kilt does arrive he will find all parties interested in a better position to judge of the merits of his proposal.

Notice To Creditors

In the Matter of the Estate of Robert Thomas Taber, late of the Village of Athens in the County of Leeds, Gentleman, deceased.

NOTICE is hereby given pursuant to "The Statutes of Ontario," I. George V., Chapter 26, Sec. 55 and amending Acts; that all creditors and others having claims against the estate of the said Robert Thomas Taber, who died on or about the first day of September, 1912, are required on or before the sixteenth day of May, 1913, to send by post prepaid or deliver to T. R. Beale of the Village of Athens aforesaid, Solicitor for the Administrator of the property of the said deceased, their christian and surnames addresses and descriptions, the full particulars of their claims, the statement of their accounts and the nature of the securities, if any held by them.

AND FURTHER TAKE NOTICE that after such last mentioned date the said executor will proceed to distribute the assets of the said deceased among the parties entitled thereto, having regard only to the claims of which they shall then have notice, and that the said Administrator will not be liable for the said assets or any part thereof to any person or persons of whose claims notice shall not have been received by him at the time of such distribution.

Dated the 16th day of April, 1913.
T. R. BEALE,
Solicitor for Walter Justus Taber, Administrator.

The People's Column

ADVERTISING FOR ADVERTISING

We will devote this space regularly to a series of advertisements to stimulate interest in our Classified Want Ads.

We are not in the advertising and practice our own principles because we appreciate their value.

This series will be pregnant with pertinent points of general interest, whether you wish to buy or sell, to employ or be employed, to borrow or to lend, to find a finder or an owner.

It will pay us to run these advertisements. That is the best proof we have to offer that it will be profitable to you to use our Classified Want Ads.
