

TORNADO IN ONTARIO.

Little Towns of Merritt, St. Catharines in its Path or Destruction.

Several Lives Lost, Great Buildings Wrecked and Other Property Destroyed.

A Boy Carried Aloft by Whirlwind and Landed Without Serious Injury.

(Special to The Colonist.)

Toronto, Sept. 27.—Full details of yesterday's cyclone at St. Catharines and Merritt are to hand. The killed were: Clara O'Neill, employee of the Lincoln Paper Mills.

Mrs. John Buckley, struck dead on the sidewalk by falling walls.

Mr. Frank Moffatt, killed in school house.

James McCarthy and Maude O'Neill, employees of the Lincoln Mills, who have died of injuries.

In Merrittville not a building is left in the tornado's path. The wind first struck the Lincoln Paper Mills, unroofing the building.

The Aetylese Gas company was knocked completely out of shape. Then it turned two stores, two houses, and their outbuildings were levelled to the ground.

The Orange hall was blown down and the roof was taken off the school house. St. James' church and the Presbyterian church were damaged.

Eight children were in the school when the storm came, but the teacher, Miss Ida Smith, got them out in time so as to save them from serious harm.

Frank Moffatt being the only child killed. The house of Walter Elliot on St. David's road, was struck and completely demolished.

One of Elkins' children carried off to sea. Another child was badly hurt.

Miss Julia Elliott, an employee of the Lincoln Paper Mills, fell down a flight of stairs and was badly injured.

Chas. Murray and Edward Doyle, also employees of the mill, were hurt. Doyle was severely injured.

Miss Maggie Nixon, another employee, received a severe scalp wound. A young boy named Ramsay was swept up by the whirlwind and carried clear over the Lincoln Paper Mills.

The house of Walter Elliot on St. David's road, was struck and completely demolished.

One of Elkins' children carried off to sea. Another child was badly hurt.

THE ONTARIO TORNADO.

Twenty-Four Houses at St. Catharines Totally Destroyed—Freaks of the Wind.

St. Catharines, Sept. 28.—(Special.)—The reported death of James McCarthy and Maude O'Neill proved untrue.

Though McCarthy is very low and will likely die, Maude O'Neill may recover.

The complete list of casualties is as follows:—Dead—Mrs. John Buckley, Miss Clara O'Neill, Francis Moffatt, Gladys E. Kins.

Injured—Jas. McCarthy, will likely die. R. H. Bradley, Miss Jennie Nestor, Miss Maude O'Neill, Mrs. Richard Thompson, Jr., Mr. McQuaid, Mr. John Hogan, infant child of John Buckley, Besie Kerr, Fannie Wilson, Lottie Wilson, Mrs. McQuaid, Chas. Murray, Edward Doyle, Willie Wilson, J. E. Bradley, Jennie Bradley.

The Squire, rector of the Episcopal church at Merritt, has gone to Toronto to enlist the sympathies of the press and people on behalf of the sufferers. He was a witness of the storm.

His own church escaped with the destruction of the tower, but the Presbyterian church was totally wrecked.

About twenty-four houses are totally destroyed, being chiefly those of working men in the factories. The Lincoln Paper Mill, which is badly damaged, will not close down, fortunately.

Some extraordinary incidents are recorded. A young son of David Ramsay was standing at the Aetylese gas works when the fumes closed him up.

David Ramsay, who was unable to get them down again, his body being rigid, and he was carried in the whirlwind to a field beyond the Lincoln Paper Mill and deposited in a field beyond, suffering nothing but a bruised shoulder.

A queer freak of the wind was noticed in buying clothes in Merritt, leaving just enough visible to pull them out by the neck.

Both windows of sidewalk were carried bodily a long distance. The peculiarity of the force exerted was shown in the simple clearing out of the streets.

HIYU POTLATCH!

Everything in Sight in Pacific Northwest Given Away by Canadian Commissioners at the Quebec Conference.

American Contentions as to Alaskan Boundary Submitted to and the Seals Thrown In.

One Little Strip at Head of Lynn Canal to Be Exempted From the Wholesale Surrender in Prospect.

(From Our Own Correspondent.)

QUEBEC, Sept. 27.—British Columbia's contention regarding the Alaska boundary is not to be pressed.

The Canadian Commissioners are going to concede that the boundary line under the treaty follows the sinuosity of the Coast where the mountains are more than ten marine leagues therefrom.

But as compensation for giving up her national rights to seal in Behring Sea, Canada is to be given the right of access to the Yukon country at the head of Lynn Canal, and either Dyea or Skagway will be placed under British administration.

The international commissioners will decide the question themselves, they not desiring its reference to another tribunal.

THE QUEBEC POTLATCH

Canadian Rights on Pacific Coast in Imminent Danger—Mr. Martin's Opportunity.

Further Proof That Eastern Politicians Do Not Realize Extent of Proposed Sacrifice.

Quebec, Sept. 28.—Joseph Martin, attorney-general of British Columbia, is said to be coming here to protest at the conference, in the interests of future generations against the sale of the Canadian right to take seals in Behring sea.

Not a treaty would be possible if questions were all viewed from this standpoint.

Speaking with only a glimmering knowledge of what has been agreed on it may be said that Canada will not surrender this right without cash indemnity from the United States as payment for Canadian sealing ships and their outfits and a substantial concession in return for the surrender of the right to continue operations.

The probable concession to Canada will be the transfer of territory at the head of Lynn Canal giving means of access to the Yukon all year round. It is possible that as a result of arbitration Canada might secure this without a concession, but arbitration would be long, tedious and costly, and the result extremely doubtful.

NOTES FROM THE CAPITAL. Yukon Officials and Mr. Sifton—Montgomery's Exploit—Civie Official's Default.

(From Our Own Correspondent.) Ottawa, Sept. 28.—There will be a regular council of war over the Yukon scandals this week.

Judge McGowan, Attorney-General, and Inspector Constanzano are here to meet Mr. Sifton and discuss the situation.

Mr. Linton H. Montgomery, of Chicago, who is attending the convention of the American Public Health Association, is urging the authorities to permit the erection of a monument at Quebec to General Montgomery, who fell at Quebec in 1775 while leading an American army of invasion.

The doctor is the village apothecary. The proposal is being urged with a rather lukewarm reception.

Hon. David Mills represented the cabinet at the funeral of Governor Cameron in Ganderich to-day.

Geo. Maan, an employee of the city waterworks, has skipped out, \$500 short in his accounts. A couple of weeks ago he admitted a shortage of \$60, and claimed a mistake in handling the cash, and offered to make good the amount.

ACCIDENT ON INTERCOLONIAL. Two Trains Come Into Collision With Loss of Several Lives.

Stellarton, Sept. 28.—(Special.)—A serious accident occurred on the Pictou branch of the Intercolonial railway this morning. A special from Tanouche, in charge of Conductor McLeod, collided with a coal train in charge of Conductor Gordon at a point between Conville and Stellarton known as Adams' cut. Five persons were killed.

The accident was seriously and a number of persons were injured. One of the two badly hurt is John McMillan, of Pictou. The accident was caused by a mis-understanding of orders.

THE DREYFUS REVISION.

Small Prospect That the Government's Action Will Alleviate Agitation in France.

Paris, Sept. 27.—M. Sarrien, minister of justice, communicated to the council of ministers to-day the terms of the letter which he will present to the court of cassation, demanding the revision of the trial of Dreyfus, and also submitted the circular issued to the procurer-general in view of the energetic measures which are to be taken to suppress the agitation and attacks upon the army in public meetings.

Revisionist newspapers are rejoicing over yesterday's decision of the cabinet to revise the Dreyfus case, and the anti-Dreyfus party are correspondingly crestfallen. Le Voltair says: "Now we have entered the path of loyalty."

The Aurore says: "A government which supports justice and truth has arisen."

A portion of the French has disappeared both in the violent attacks upon Premier Brisson, and Le Petit Journal declares: "We are in a quieting public mood, and the revision of the Dreyfus case will be both criminal and stupid."

Le Matin praises the government for its courage, but at the same time expresses its fear that the anti-revision campaign will continue livelier than ever.

Be Not Deceived! A Cough, Hoarseness or Croup are not to be trifled with. See in time of Shiloh's Cure for whooping cough. Sold by Cyrus H. Bowen.

HALF A MILLION CUBANS. Latest Estimate of the Native Population—Guerrilla Warfare to Endure Independence.

Havana, Sept. 27.—The latest estimate places the native population of the island of Cuba at 574,000, of which only 320,000 are whites.

Immigration, therefore, will be the principal feature of the new order of development in the country.

A portion of the Cubans openly threaten hostilities to the United States, and are preparing to take the field and wage guerrilla warfare against the Americans.

If any form of government short of absolute independence for the Cubans is established in the island.

London, Sept. 28.—According to the National Review, if France requests it, Germany will permit General Schwarzkoppen, formerly German minister at Paris, to reveal all that he knows regarding the Dreyfus affair.

The National Review's article indicates that much information published in London by Mr. Conynbare and others emanated from Col. Schwarkoppen and Col. Peizzardi, the Italian attaché in Paris.

POINTING TO MURDER.

Indians at the Alberni Canal Pick Up a White Boy's Head.

Accidental Drowning at Clayquot—The Seized Otter Reaches Esquimalt.

The West Coast of Vancouver Island has developed a murder mystery very similar in some respects to that which has been baffling the detective force of San Francisco during the past few weeks.

Only here the human head that is the voiceless witness of an awful crime has been recovered, and is now in the possession of Indian Agent Gullod, of Alberni. Through the courtesy of Mr. Theodore H. Robinson, who returned from the West Coast with the Willapa yesterday, it is learned that the head was brought to Gullod by a party of Indians, encased in a box in which it had been picked up in the Alberni canal.

The ghastly souvenir of a tragedy is unquestionably the head of a white boy, for it is identically covered with light brown hair. The flesh has disappeared entirely from the lower portion, and only one ear remains. From the size and general appearance of the head, Agent Gullod takes it to be that of a boy of from twelve to fourteen years of age.

When secured by the Indians, the head was wrapped up in paper and carefully tied with cord. It is expected that special police officers will be sent to Alberni immediately to investigate the case, promising to become as sensational as any in the criminal annals of the province.

It is supposed that the case promises to be a damper on the case pending in Clayquot. On the morning of the 15th instant, Frank Muller, a prospector, left the village to go to Salmon, to deliver a case of supplies to his destination, and on the morning of the 16th his body was found floating near the boat. An informal inquest was held, and the verdict rendered of "found drowned."

KITCHENER RETURNING

He Regards His Work in Egypt as Completed—The Entry Into Fashoda.

A Friendly Meeting With Major Marchand—Egyptian Flag Alongside the French.

Diplomats Will Settle Right to Possession—Finding of Khalifa's Treasure.

London, Sept. 28.—The newspapers of the country are clamorously demanding that the government take the public into its confidence in regard to the Fashoda affair, having been informed that General Kitchener's report has reached the foreign office and that it makes interesting developments. They appear to be deeply disappointed that the diplomats are to have the settlement of the question. The foreign office has issued a formal refusal to make public any further details of the affair, some of which, however, are leaking out.

The Sirdar, according to these, after Major Marchand refused to fur the French flag, formally announced that he had come to raise the Egyptian flag, but before doing so desired to know whether Major Marchand wished to enter a protest. The Frenchman replied in the negative and the Sirdar then planted the Egyptian flag alone, not the Egyptian flag, as it will first be reported, 500 metres from the French flag.

Negotiations relative to the matter were begun at Paris to-day, the British ambassador, Sir John Drummond, J. Monson, calling upon M. Delcasse, the French foreign minister.

The Daily Telegraph's Cairo correspondent telegraphing on Monday said: "General Kitchener found the French flag at Fashoda. He notified Marchand that he had express injunctions that the territory was British, and that the French must retire, and offered them passage to Cairo. Major Marchand absolutely declined to retire unless ordered to do so by his government. He is now engaged in the negative and the Sirdar then planted the Egyptian flag alone, not the Egyptian flag, as it will first be reported, 500 metres from the French flag."

END OF SEAL HUNTING

Belief That Canada Will Surrender For Indemnity To Those Actually Engaged.

Suggestion of Concession in Some Other Direction of Small Comfort to Victoria.

(Special to The Colonist).

Quebec, Sept. 26.—Unless unexpected progress is made during the next few days, the international commission will complete their labors at Washington, adjourning there, it is suggested, about October 7.

There seems to be good reason for the belief that the Behring seal sealing question is on the way to a settlement along the line indicated some time ago—that is, the payment of an indemnity to those engaged in the hunt for seal skins in return for the Americans in some other direction to return for the surrender of their sealing rights.

THE NOTABLE DEED.

Lieut.-Governor Cameron No More—Fannie Davenport's End—A Priest Dies at Sea.

London, Sept. 26.—(Special)—Hon. M. C. Cameron, Lieutenant-Governor of the Northwest Territories, who returned from Regina recently very ill, died yesterday, and the remains were sent this afternoon to Godeher, where the funeral will take place.

Regina, Sept. 26.—(Special)—Deep regret was expressed here over the death of Lieut.-Governor Cameron, and on the fact becoming known, flags were immediately hoisted at half-mast on all public buildings.

Montreal, Sept. 26.—Rev. Father Sedgwick, pastor of St. Nicholas' church, London, England, who was bringing to a party of young children on the Allan liner Nunclunian, died on the way across.

Duxbury, Mass., Sept. 26.—Fannie Davenport, the actress, died at 10:30 o'clock tonight.

Philadelphia, Sept. 26.—Sutherland Linn, a young man, committed suicide early this morning by jumping from the window of a room on the fourth story of a hotel in this city.

OPERATIONS ON CHANGE.

Quiet Markets Reported, With Slight Losses Where Quotations Vary.

New York, Sept. 26.—The action of today's markets as to commodities was appointing to the bulls, and stocks purchased on Saturday on the favorable bank statement were speedily let go, and the commodities markets were left unsettled.

THE GOOD OF THE PEOPLE.

But there is another aspect of good, which is more important than the ordinary one, and that is the good of the people.

THE LIGOR TRAFFIC GOOD?

Is it not the end and aim of every government to secure the good of its people?

THE CIVIL GOVERNMENT.

Its Source and Responsibility—Viewed in Relation to the Ligor Traffic.

(Sermon preached by Rev. Leo, Olets, at Brandon, August 14, 1898.)

These passages contain propositions so strange that they are positively startling.

JOHN REDDY'S CASE.

Should Give Encouragement to All Victims of Lumbago.

Mr. Reddy Suffered Intensely For Two Years—His Sleep Was Broken and Unrefreshing—Dodd's Kidney Pills Cured Him.

Toronto, Sept. 23.—Who has not suffered from Lumbago?

There are very few people who are not tortured by this evil, which is called "Backache," "Lame Back," "Pain in the Small of the Back," etc.

These are the every-day names for Lumbago, and Lumbago is a severe form of Chronic Rheumatism, which is a disease of the blood.

Lumbago is caused by Uric Acid in the blood. Uric Acid is a poison which the kidneys should filter out of the blood.

When the kidneys are weak, diseased or overworked, they cannot properly do their duty, and Uric Acid builds up in the blood.

Lumbago can be cured only by making the kidneys do their duty, and filter the Uric Acid out of the blood.

Dodd's Kidney Pills are the only medicine that will do this, and they are perfectly healthy and strong.

Mr. John Reddy, 178 Mutual street, Toronto, writes: "I have suffered from Lumbago and Kidney Disease for two years.

I was advised to try Dodd's Kidney Pills, but I laughed at the idea of them.

I have now taken five boxes in all, and am completely cured.

IN THE SOUTH.

Pen-Pictures of the Khalifa and His People—of Khartoum and of the Murder of Gordon.

With the capture of Omdurman and the flight of Khalifa Abdullah, the Egyptian Sudan has been freed from a sanguinary and cruel despotism.

It has not been long since that the British and Egyptian armies on the Nile with their predatory raids, for their army had been wiped out.

The Khalifa's death was followed by the accession of Khalifa Abdullah, who has just been defeated.

He was a man of high intelligence and a great deal of energy.

His nature is suspicious and he is a degree of despotic ruler.

He was a man of high intelligence and a great deal of energy.

The Colonist.

THURSDAY, SEPT. 29, 1898.

IN LIEU OF SEALING.

We desire once more to say on behalf of the people of Victoria and Vancouver Island, that compensation to the sealers...

The point to be kept to the front is that if the right to take seals is surrendered one of the sources of Vancouver Island's prosperity will be taken away...

Several methods may be mentioned in which this can be done. One of them is the expenditure of the Dominion of money to open the Island to settlement...

An arrangement of this kind would completely revolutionize the business relations of the two cities and be an excellent thing for both.

MUNICIPAL MATTERS. We hope the property owners and taxpayers of Victoria are turning their attention to municipal politics more closely...

There is another class of published matter for which a civil action lies, namely statements made in the ordinary course of printing the news of the day.

On the whole we think that newspaper proprietors and editors have no cause to complain of the law of criminal libel as it stands in Canada.

THE SCHOOL MIDDLE.

To most people it would seem as if there must have been some way by which the deadlock between the city council and the school board could have been avoided.

Some attention is being given to what is called the responsibility of newspaper editors which really means their right to criticize public men or deal with matters that are primarily of private concern.

The law of Canada defines a defamatory libel to be "matter, published with legal justification or excuse, likely to injure the reputation of any person...

As to civil actions for damages, it is very hard to know how to draw the line. We have seen a number of Canadian judges and juries to bear unduly hard upon newspapers.

There is another class of published matter for which a civil action lies, namely statements made in the ordinary course of printing the news of the day.

On the whole we think that newspaper proprietors and editors have no cause to complain of the law of criminal libel as it stands in Canada.

THE TRADES CONGRESS.

Protest Against Prison Labor—Importation of Nova Scotians to British Columbia.

At the last day's session of the trades and labor congress at Winnipeg, a resolution, moved by P. C. Chotel and O. Belanger, was passed, condemning prison labor employed by governments in competition with honest labor.

The question was further discussed on lines indicated by Delegates from the Province of Manitoba, Mr. Small, Mr. Elliott, Mr. Keyes, Mr. Wilks and others.

The motion was unanimously carried. The object of the protest is to prevent mining contractors sending their men to work in the Province of British Columbia.
