DR JAMES NEWELL PASSES

Widely- Known Scholar and Physician, Who Has Served This Community for Thirty-two Years

"He saved others; himself he could not save."

No more shall we see his familiar figure on our village streets or throughout the community. The familiar figure of a man, tall and lean, a kindly gleam in the eye, a cheery note in his voice, with a surgeon's hand so true and steady, yet ever ready to extend in a warm clasp of friendship; such are the mental pictures that every resident of Watford in the past thirty years will hang on Memory's wall in remembrance of Dr. James Newell, who slept away on Thursday evening last, June 4th, at his late residence, Front st.

The 90 years have seen marked changes and progress. The story in brief is interesting. In the early days a missionary served in this part of the country. The parish as first consisted of Adelaide, Strathrop, Watford and Warwick and as much more as the missionary felt disposed to attend to.

Finally time brought sufficient population to warrant the Village of Warwick being designated with Wisbeach as a parish. It was in 1835 that the then Bishop of Toronto sent the first rector, Rev. J. First Wardens

One of the unusual items of history is the way the first wardens were appointed. It was about the same time that the Township Council was organized, and at a meeting of the Council a vote was taken who would be the first wardens to serve at St. Mary's until St. Mary's appointed their own. As no other church was here at the time everybody had more or less interest in the church, so wardens were elected at the council and their names are on the early records their names are on the early records of the township. "Uncle Joe" Little, a Methodist local preacher and a good man in all good work, and John Cree-by, were the wardens. WATFORD COUPLE CELEBRATE SILVER WEDDING.

The home of Mr. and Mrs. Dan Styles was the scene of a very pleasant surprise on Saturday, June 6th when a number of relatives and friends gathered at their home to ceatbrate the 25th anniversary of their marriage. A bountiful dinner was served by the friends, after which Mr. and Mrs. Styles were presented with a beautiful silver teaservice. The afternoon was spent in games. Relatives were present from London, Port Huron, Brown City, Mich., and Alvinston.

Their many friends unite in wishing them much happiness and prosperity in the years to come.

The Y. P. 28. The Danger Zone.

There is a danger zone on the tenses court which is wider for some nis court which is wider for some than for others. For the player who is gifted with a capacity to volley the ball when it is below the level of the net, and for those who can half-volley the ball or play the ball on the rise as it leaves the ground it is not so large. For those who can volley downwards only the danger zone is wide, being between the base and service lines.

wide, being between the base and service lines.

When running in on a service if you can volley only downward it is essential that you run in at least three yards inside the service lines. The mistake most players make when running in to volley is that they do not get close enough to the net. They have a habit of hanging back too far, forgetting that it is difficult to win with a volley unless you can drop the ball out of your opponent's reach. You should understand that if you are taking a low volley when you are run taking a low volley when you are run ning in you cannot expect to kill it; you should, therefore, try for direct-ion and length, placing it if possible so that your opponent will give you an easier shot on his return. You can often step, head, and convert what often step back and convert what would have been a low volley into an easy drive which can be made a kill

would have been a low volley into an easy drive which can be made a kill by placing it correctly or with pace.

29. Base Line Play the Best.

Two of the greatest players the world has ever seen were and are the late H. L. Doherty and W. T. Tilden, 2nd, and the reason is that not only was Doherty as fine a volleyer as Tilden is but both of them were and are, able to defeat the best base line players of their day from the base line without having recourse to volleying. They are exponents of the perfect ground stroke game and their strength lies in this.

So that when you want to volley you must learn to do so only at times when it is to your advantage and give up the idea of trying to volley all the time. The beginner usually imagines every volley should be a smash. This is not so. When you start to volley hit your ball slowly until you become thoroughly expert at it. Do not endeavor to kill everything that you get your racquet on. When watching a first class player you will always notice that he does not attempt to kill every stroke but is content to keep the ball going back fast into the other man's court and then kill when the return is to his liking. man's court and then kill when the return is to his liking.

30. Foot Work
Foot work plays such an important

Foot work plays such an important part in lawn tennis that one must give a great deal of attention to this aspect of the game. The first and most important thing to remember is this: you should be on the balls of your feet while making nearly every stroke. The moment you settle down on your heels, you become a defensive player. The reason a girl like Constance Collier, who is a beautiful dancer, is such a fine tennis player is that her dancing ability has given her elasticity of motion in tennis and she moves from one position to another with from one position to another with the fleetness and grace of an ante-

Before you make any stroke, keep
your knees slightly bent, for in doing so you cannot really stand flat
footed. After you have made a stroke

once on your toes, and should get
as close to the centre of the court
as you can, so that you can shift
quickly into the correct position the

instant you have anticipated the return.

Whilst on the subject of foot work be careful in serving. Many players to-day foot fault through sheer carelessness, in not placing the left foot in proper position before serving.

31. Foot and Body Work

The habit of going on a court and hitting the ball over the net without any consideration of foot work starts your game with an incorrect foundation. You must have your body and

feet correctly aligned for the execu-tion of every stroke. For the fore-hand stroke the left side should be Your left foot forward with the weight, to start with, evenly distribweight, to start with, evenly distrib-uted between the two feet. Your body parallel with the ball's flight. As you hit the ball raise the right foot and transfer the weight to the left, in this way you get the whole weight of your body into the stroke, For backhand strokes the order is re-versed, the right foot being in front. As the stroke is made the weight is transferred from the left to the right transferred from the left to the right foot, the whole body parallel with the flight of the ball. Practice getting into position for these strokes on the balls of your feet just as if you were dancing, until it becomes automatic, and then you will move into position quite easily. Tilden's wonderful foot work is the foundation of his fine

32. Conventions in Doubles
To judge from the number of inquiries I have had during the last few quiries I have had during the last few years, there are still a number of persons in Canada who believe that whilst playing in doubles the server should always take the right hand court after he has served. This is an antiquated idea. You take up your position for receiving at the beginning of a set either in the left or in the right court and in that court you should receive throughout the set. should receive throughout the set, and you may not change receiving court with your partner until the set is finished.

is finished.

Another matter which it will be well definitely to settle is this: in doubles, at the beginning of a set either player may start serving. A and B are partners, and A is the last server in the first set. A may again that serving the serving of the start serving at the beginning of the next set for his side. In other words, each set is a separate contest, and you start just as you do at the beginning of the first set, choosing who shall start serving and which court each player will receive in.

County Council Takes No Definite Action on the New Proposal

Action on the New Proposal

The receipt of a new and official map from the department of public highways showing proposed revision of Lambton county road system together with a covering letter brought on another discussion of the subject at Wednesday afternoon's meeting of the county council. No definite action map from the department of public highways showing proposed revision of Lambton county road system together with a covering letter brought on another discussion of the subject at Wednesday afternoon's meeting of the county council. No definite action was taken, however, the councillors deciding to lay the matter over for further consideration after a motion and an amendment had been offered. The motion, in substance, was that

The motion, in substance, was that the council hold a special meeting at a date to be fixed by the department, which a representative of the govern-ment would attend to explain some of the details of the scheme. One of the major points on which

official information was lacking was whether or not the county would be permitted to complete the program mapped out for this year or be required to take up the new system at

The covering letter received with the map set out, among other things, that the government would pay a sub-sidy of 50 per cent under the new sys-tem and that it would be advisable for the county to pass an approving bylaw at this session. Reeve Fred Eastman of Arkona

inquired if the county would be able to go on until the end of the year with the program mapped out in the event that it was decided not to adopt the new system. No one could give a positive reply on that point but county clerk John Huey said he believed that the county was obliged to adout the new scheme. to adopt the new scheme.

Expert Opinion

County road superintendent John
McCallum was invited to give the
council some enlightnement on the
vide for the two bridge jobs was subquestion. He said that pursuant to sequently given. the resolution of the council earlier in the week he had communicated with the department of highways regarding the possibility of having a representative come to Sarnia before the end of the session. The deputy minister was away from the office at Toronto at the time but he finally got in touch with one of the engineers and the latter suggested that if the council could hold a special meeting about the week after next a representative would probably be able to attend. The department would fix a definite date.

First and second readings were given to a bylaw to fix the remuneration of the jail turnkey and to grant aid to the beekeepers association.

The council adjourned to Friday, Thursday was taken for a trip to Detroit as the guest of Warden Hackett. This day's outing has become an annual institution at the June sessions.

Speaking of the project revision of the system. Mr. McCallum said that the county system would be reduced about 15.7 per cent. The original aggregate mileage of the system was 342 miles and under the change the county would retain 288.4 miles of the present plan and would have added 23.2 miles heretofore not in the ed 23.2 miles heretofore not in the

The superintendent added that he The superintendent added that he would like to map out a new system and if it met with the approval of the council, submit it to the department and he was sure that the latter body would give it consideration. Under the new scheme the county was losing two of the principal roads, nine and eleven. He believed that the council could approach the department and ask for the retention of those two roads and the request would be taken under advisement. Road eleven ran in Brooke and road nine in Dawn, Sombra and Sarnia.

Moad eleven ran in Brooke and road nine in Dawn, Sombra and Sarnia. He felt satisfied that the council would be allowed to carry out its 1925 program to completion.

Reeve Ben Muma of Warwick said he could not see why it was necessary to call a special meeting and add to the expenses of the county. He was of the opinion that the new plan could be started the first of next year.

reach be started the first of flexty year.

Reeve Thomas Burnley of Plympton favored equalization of mileage for each township. He felt, however, that the plan submitted by the department would eventually be adopted.

Warden Hackett said that Lambton county was not the only county which was not altogehter satisfied with the

was not altogenter satisfied with the proposed change. Other counties seemed to be dissatisfied.

Deputy reeve Edwards of Moore pointed out that the program for the year had been mapped out and the appropriation set and a change at this time would bring about disorganization.

The remuneration of W. G. Gilbert newly appointed jail turnkey was set at \$800 with \$100 additional for caretaking service.

Aid for certain continuation classified in the county was fixed as follows: Alvinston, \$250; Oil Springs \$250; Arkona \$150; Florence \$100.

Reeve Robert Hair of Forest then proposed that a special meeting of the council be called at a date to be set by the department. In view of the

Reeve R. F. Rilett of Alvinston said that the only information which said that the only information which seemed to be required was whether or not the council could carry out the program laid out for the year. That could be obtained by communication and he did not see the necessity for a special meeting.

had no complaint with the new plan proposed by the dop rement. Reeve Eastman of Arkona then proposed an amendment that the

communication from the department be laid over for further consideration. No vote was taken on the motion

No vote was taken on the motion or amendment but the councillors unanimously agreed to defer the matter until later in the session.

Bridge Repairs

The roads and bridges committee presented a report recommending that the Napier bridge in Brooke and Metcalfe townships be recovered with white oak planks at an estimated cost to Lambton of \$350 and that the Aberfeldy bridge on the townline of Brooke and Euphemia be recovered with a concrete floor and also repainted. Lambton county councillors lost their dignity and a lot of perspiration on Thursday evening when teams captained by warden Joe Hackett and reeve Fred Eastman of Arkona matched forces in a softball tilt on the campus of the Sarnia collegiate and technical school. From the fragmentary details which came to light Friday it was revealed that the warden's nine triumphed by a count of den's nine triumphed by a count of 13 to 7. It was at Wednesday's ses-sion that the challenge to combat was hurled at the warden's desk by Reeve Eastman and the presiding officer's reply was "I'm game." Seven o'clock was fixed as the hour and the challenger advised that he had secured the loan of necessary equipment. The program was carried out as scheduled. Stoney Indians Prepare for Celebration

These are Tschantoga or Stoney Mountain Indians—"people of the woods". Time was when they were a blood thirsty lot, with a partiality for white men's scalps and an unpleasant habit of slaying anybody they did not happen to approve of. But look at them now. Their war-like glory has departed and they realize that the white-man is not such a bad sort of chap after all. The regular meeting of the Women's Missionary Society of the Methodist Church was held on Tuesday afternoon, June 9th, at the home of Mrs. Potter. This is the last meeting of the Society before the church enters union. It took the form of a picnic and was most enjoyable. There were 26 members present and several visitors. One new member, Mrs. Fitzgerald, joined the organization. The treasurer reported that \$135 had been sent to the Branch Treasurer in London. Mrs. (Rev.) S. J. Thomspon, the delegate who attended the branch meeting held in Sarnia, gave a very instructive and interesting report of the proceedings there. There is a total membership of 12130 in the London Branch, which is the largest in the Dominion. It has 225 auxiliaries. The total income is \$61115.66 with an increase of \$507.04 this last year. A musical program followed. Mrs. Mc-Kay and Florence McKay played a duet on the piano very acceptably. Don Harper, Sadie Harper and Rita Stephenson contributed numbers to Stephenson contributed numbers to the enjoyment of all. Refreshments were served and a social hour spent before adjournment.

The Young People's Society of Christian Endeavor of the Watford Congregational Church enjoyed a special Missionary meeting on Tuesday evening, when a most interesting program was carried through. Miss Maude Marwick, Honorary President, presided over the early part of the program and the singing was led by an orchestra consisting of: Miss Estelle Craig, piano; Gordon Rayner, violin: Allan Doolittle, saxaphone; and Rev. T. DeCourcy Rayner, flute. A very enjoyable feature of the meeting was a Bible verse memory contest under the leadership of Gordon Rayner. A duet was sweetly sung by the Misses Elsie Brown and Jean McCormick, and a letter from Miss Rawlings, formerly of Forest and now a Missioanry in West Central Africa, was read by Miss Gladys Lamb. A short missionary reading was given by John Hollingsworth. An interesting and profitable address on the topic: "The World's Need—the Unfinished Task," was given by Principal Allan Doolittle, of Watford Public School. The president of the society, Miss Elsie Brown, took charge for the business and closing periods and the pastor, Rev. T. De-Courcy Rayner, gave a short address on the topic. Following the regular meeting homemade candy was served and a very enjoyable sing-song participated in.

A WOMAN'S

Relieved by Lydia E. Pinkham's Vegetable Compound

Norteal, Quebec.—"I am one of thousands who have taken Lydia E. Pinkham's Vegetable Compound and I have great faith in it. I can safely say it has relieved my troubles and I shall never be without a bottle of it in my house. Since my last baby was born I suffered from pains and backache and would feel so tired I could not do anything in my home. Since I have been taking the Vegetable Compound and Lydia E. Pinkham's Blood Medicine I feel so different. I recommend it to all my friends and hope it, will cure other women who are suffering from the troubles I had."—Mrs. THOS. H. GARDNER, 821 Evelyn Street, Verdun, Montreal, Quebec.

Lydia E. Pinkham's Vegetable Compound is a dependable medicine for the new mother. It is prepared from roots and herbs, contains no harmful drugs and can be taken by the nursing mother. Its worth in restoring the mother to normal health and strength is told again and again in just such letters as Mrs. Gardner writes.

A recent canvass of women users of the Vegetable Compound shows that 98 out of every 100 women taking the medicine are benefited by it. They write and tell us so. Such evidence en-titles us to call it a dependable medicine for women. It is for sale by druggists averywhere.

whole county, the Lambton Seed Association is arranging a tour of the County for farmers.

This is part of the plan of the Lambton county corn, grain and seed improvement association, who have introduced a new feature into their work entitled "That we should know our work better." The automobile tour as it has been already planned will begin at Forest and will stop in Sombra on the north banks of the Sydenham river, where a picnic lunch will be held. The reeve of Sombra is requesting all the rate-payers of that township to turn out en masse and welcome the northern visitors. From all appearances to date it promises to be a great event.

At a well attended meeting held in Forest on Tuesday evening by W. P. Macdonald, county agricultural representative, arrangements were made for an automobile trip by the farmers of the north part of the county through the southern otwnships of the county in order to get better acquainted with each other.

The party will leave Forest on Wednesday morning, June 17th, and visit the townships of Sombra, Dawn, and Euphemia. The committee in charge of the arrangements: Mayor Cope, Reeve Hair and Councilor Whyte of Forest; W. J. French, president of the Lambton Corn Growers' Association, and the reeves of the townships of Bosanquet, Plympton

Association, and the reeves of the townships of Bosanquet, Plympton and Warwick. It is expected that over 100 farmers will go on the trip.

Later the farmers in the south will visit this north part of the couny.
