Dear Sir Arthur:-

As you know we have been appointed exclusive distributors for the McGill official Blazer.

We have just received our first shipment from England, and one of the first to leave our store we wish to go to you, as the Principal of old McGill. Please accept it with our compliments, and the wish that you may have pleasure in wearing it on appropriate occasions for many years to come.

Should this size be incorrect, we shall be glad to take your measurement, and have one made to order for you.

Yours faithfully,

D. Jackman

Dear Sirs:-

Thank you very much for your
kindness in sending me the McGill Official Blazer.
I very much appreciate your thoughtfulness.

I am sorry to say it is too
small for me. I shall call in when I have an
opportunity and you can take my measure. I am
returning same herewith.

Yours faithfully,

Dear Dr. Jacks,

I was very pleased to see your cable-gram advising us that you would be able to give the address at our spring Convocation.

The spring Convocation is a rather lengthy function as all the graduates of the University receive their degrees at this time, and in view of this, it is customary that the address occupy about twenty minutes. Might I suggest, therefore, that you should arrange that your remarks be of about this length. I might say that we are sufficiently kind to the speaker to put the address almost at the beginning of the programme.

I understand that you are arriving in New York shortly before the date that was set for our Convocation, and I would be very glad if you would communicate with me at once on your arrival, when I shall be able to let you know what arrangements we can suggest for you in Montreal.

Yours faithfully,

Dear Sir:-

Sir Arthur Currie, who is at present in Ottawa, asked me to write regarding your letter of the 17th inst. on the subject of Dr. Jacks.

We do not know anything of Dr. Jacks' movements excepting that he will be here on May 29th. His address, however, is -

Dr. L. P. Jacks,

No doubt he would reply to a cable communication.

Dear Sir Arthur,-

Having noticed in the newspapers that Dr. L. P. Jacks is to receive an honorary degree at the Spring Convocation at McGill University, we venture to ask if in your opinion he would have time to visit Ottawa as the guest of our Club.

We would like very much to have him address one of our luncheons but before communicating with him we thought it better to find out from you whether his plans would permit this. We would appreciate it if you would kindly let us know when you expect Dr. Jacks and may we also say that we will rely on your friendly interest in our Club, which has been so often exemplified in the past, to obtain him for us if at all possible.

With best personal regards,

My dear Dr. Jacks:-

Although there has scarcely been time to hear from you again I presume that our arrangement regarding you giving the address at the annual convocation at McGill may be considered as complete.

It would give me great pleasure if you could stay with me from the time of your arrival until after Convocation. I understand from the Rev. Dr. Snow that you are to speak at the Church of the Messiah on Sunday and he would like to have you stay with him. As the Convocation takes place on Friday you could go to him on Saturday, if you wished.

Dear Reverend Snow:-

I had thought of asking Mr. Jacks to stay with me from the time of his arrival until after the Convocation. May I suggest that he can then go on to you, say on the morning of Saturday, May 31st.

I am writing him to-day to invite him and will mention at the same time that I understand he will hear from you.

My dear Sir Arthur:-

I spoke to Col. Bovey the other day about Principal Jack's visit the end of next month. He is, I understand, to speak at Convocation on May 29th, and is to be the guest of the University. He is to stay over and preach at the Church of the Messiah on June first. I have asked him to be my guest for such part of his stay as he can give us, but of course the University takes precedence.

I do not wish to interfere in any way with plans that you wish to make for Principal Jacks' entertainment, but will be glad to co-operate so far as I can. Of course I shall be glad to have him as guest for as much of his stay as possible.

DEPARTMENT OF POLITICAL ECONOMY

Sir Arthur Currie,

McGill University,

Montreal, Que.

Sir:-

I hope you will forgive me for troubling you in an unwarranted way. It is my misfortune to be chairman of the committee which publishes the Canadian Forum. We are attempting to run a monthly magazine of the same kind as English weeklies like The Spectator, The Saturday Review and The Nation. Needless to say we have much to learn but we are making an honest effort to do the same thing in Canada as they do in London. The magazine is not a publication of the University of Toronto, though the committee is composed largely of members of the University Staff.

It is our practice always when possible to see that editorial paragraphs are written only by men who have a close personal acquaintance with a subject; and we are faced with a difficulty in securing adequate editorial comment on the appointment of General Byng as Governor General. Ordinarily, Major Hume Blake, who is one of our editorial staff and held a staff appointment in the Canadian Corps for a long time overseas, would have dealt with this subject through his personal acquaintance with General Byng. Unfortunately Major Blake is in England. Sir Robert Falconer whom I had hoped to secure left last night for England too. Under the circumstances we feel that there is no one to whom we could turn so well as yourself if you will permit us to do so. We should like to publish as the first of our editorial paragraphs at the beginning

of August, a cordial welcome to General Byng and if we might have it not only from your hand but bearing your initials, we should be more than grateful.

I am sending under separate cover copies of the last two numbers of the Canadian Forum so that you may see its format and what it aims to be. Mr. Falk of McGill University who is a friend of mine can tell you more about it. I am acutely conscious of the fact that we have no right to trouble you in this way but am so anxious to do this thing adequately that I have ventured to put the matter before you.

Professor Gilbert E. Jackson,

Dear Sir:-

I beg to acknowledge receipt of your letter of June 16th.

I am familiar with the "Canadian Forum" and would have been delighted to comply with your request were it not for the fact that I am leaving for England on Tuesday morning next. Between now and that time I have so much to do that I hardly know which way to turn. There are many matters in connection with the University building programme, the reunion next October, etc., that must be decided before I leave, that I have not a moment to give to the preparation of an article such as you require.

Had I the time at my disposal nothing would have given me greater pleasure than to write a message of welcome to Lord Byng. In season and out of season since my return to Canada I have pressed his claims to the position to which he has now been appointed. I am confident that his tenure of office will be highly pleasing to the people of Canada. I know that no man from the other side could come to us with a higher appreciation of the Canadian people or a greater confidence in Canada and its future.

You will have no difficulty in getting some one to write a satisfactory message.

Dear Mr. Principal,

An old friend of mine, Gilbert Jackson, wants me to introduce his name to you, for he very much wants to talk to you and yet feels he has no right to ask for a talk.

He was for many years after the War a Professor of Economics at the University of Toronto, and was also Economic adviser to the Bank of Nova Scotia. About three years ago the Bank of England took him over to London to be their adviser on Dominion and Indian affairs, at least I think those are his fields. He keeps in close touch with Canada and I am sure that when he telephones or writes, probably somewhere about November 5th, you will not mind giving him a little of your time.

Dear Jim:

Many thanks for your letter of January sixteenth, in regard to your younger son and his desire to study French. I am sorry that there has been such a delay in replying to you.

McGill has an excellent French Department. The Head of the Department and those under him are French and, I believe, rank very high in their field.

I am sending you under separate cover an announcement of the Faculty of Arts and Science, also an announcement of last year's French Summer School. These will give you some idea of the courses that are available. There will be a French Summer School again next summer, but announcements are not yet available.

We do know of a very excellent Parisian family who live near the University. I do not know the family personally, but understand that several of our students have boarded there from time to time in order that they might speak French, and that they have found it to be very satisfactory.

The Faculty of Arts and Science is co-educational, and your son's wife could take University work in this Faculty.

I see no reason why courses taken here at McGill should not be credited towards an M.A. Degree at an American University. It would be wise, however, for your son to ask this question specifically of the American University he has in mind.

Perhaps the young couple, before making up their minds definitely, would like to attend the French Summer School next summer.

During the Summer Session, they can gain first hand knowledge of the whole atmosphere of Montreal and decide whether or not they wish to continue through the regular Session.

If they should decide to come to Montreal, we will be glad to do everything we can to make them feel at home.

Mrs. Douglas joins me in sending you our very best.

Sincerely yours,

Mr. James Jackson

We do know of a very excellent Parisian family who live ~~very~~ near the University, and ~~several~~ our students from time to time logge and board in this house so that they may speak French. They are not French Canadians. *They are French family, I -- by Canadians,* and I am told that ~~it is~~ a nice house. I believe your son might like it. Other American students studying French have lived there. Professor du R. head of our Department of French and all his staff are French, not French Canadians. They have a summer school which runs (see calendar) and I believe that the best thing do would be for your son and his wife this summer come here enrol in the summer school, see how they like the whole atmosphere of Montreal and try it out. If he does like it could then come for the regular courses. There are many opportunities here for speaking the pure French, luncheon clubs, and other things and so on and so on

Mr. Lewis W. Douglas,
President, McGill University,
Montreal, Canada.

Dear Lew:

May I take the liberty of tresspassing on your time to see if you can help me solve a family problem.

My younger son, having graduated from College - is desirous of teaching French as his life's undertaking. Although he does not speak French to any great extent, he does seem to have the ability to teach French grammar to the younger boys. After one year at Brooks School, Frank Ashburn, the Head Master, feels that Frank has the ability to teach - and the boy has the desire to - consequently, it is encumbent on me to try to help him get the best type of education in order that he may do well in his chosen profession.

He is to be married in March and it was planned that next year he and his wife would go to Paris - live with a French family and he attend the Sorbonne to complete his studies. However, with conditions what they are on the Continent today - it seems a grave likelihood that this may not be possible. In consequence, we have been trying to think out a satisfactory alternative and it seemed to us that perhaps he could find a French family in or near Montreal where he and his wife could live - a family that does not speak the local patois but the pure French - in other words, a family of culture. Two friends of mine in Ottawa who have a broad acquaintance in Montreal - feel that it would be comparatively easy to find such a family where Frank and his wife could live as paying guests.

Then, I thought, perhaps Frank could attend McGill University if he could get the necessary type of French courses there, and in this way he would acquire a thorough grasp of the whole language - the grammar as well as the conversation. It seems to me that it might be desirable for him to take some Spanish as well, as a side line, provided it were possible.

I have not in any way made up my mind what the proper thing to do is - but I hope you will not mind my inquiring (in case his going to France is impossible) as to whether you think by his going to Montreal he could acquire the necessary knowledge and background to thoroughly equip him for his life work. I feel it would be a great pity for him to start any profession unless he were thoroughly versed in it.

Leita Perkins lunched with us on Saturday last. She was up here as she has injured her wrist and was unable to hunt, but she is going back again within the next day or two. I told her I was going to write you a letter of this character and she wanted to be remembered to you.

Please remember me to Mrs. Douglas. I am delighted to hear from my Ottawa friends - expressions of enthusiasm regarding your work.

Sincerely yours,

P.S. There are two questions I intended to ask -

1. My son's wife would like to take some courses also. Is McGill a co-educational University? She might like to take the same courses that he would take.
2. Do you happen to know whether any courses he took at McGill would be credited in this country towards an M.A. degree in French which he desires to get later?

Dear Sir Arthur Currie,-

I am taking the liberty of calling the following facts to your attention:

Owing to economic conditions in New York City, theatrical activities are at a standstill. Producers are cutting their production schedules to the limit, and are not contemplating Canadian tours, owing to the current rate of Exchange, etc.

In view of these facts, I am forming an organization to be known as the Canadian Guild,- this organization to be conducted along the lines of the highly successful Theatre Guild of New York.

The object of the Guild will be to produce plays for Canadian theatregoers at moderate prices.

I have arranged to present the Guild plays at His Majesty's Theatre. This company will be a permanent one and consist of English players.

Great discrimination will be used in choice of plays, castings and production. Present conditions make it possible to assemble a cast whose salaries in previous seasons would have been prohibitive.

If you are in sympathy with this movement, I would appreciate your permitting me to use your name on my Advisory Board.

Principal Sir Arthur Currie,

Montreal, P. Q.

My dear Principal;

For several months, I have been urging the Prime Minister of Canada to appoint an Indian Representative to the Senate while some appointments are now in consideration. I have tried to convince him that it would be a splendid monument to our Indian members of the Forces who laid down their lives in the Great War.

We have many Indians in Canada, graduates of colleges and universities in law, engineering, medicine and agricultural sciences who could do great credit to the Parliament of Canada. I have informed him that the most prominent member of our Caughnawaga Band is His Honor Justice Albert de Lorimier

of the Superior Court of Montreal, while there are other members who could make good provided they were given the opportunity.

My people, as they are, are inarticulate and unorganized, that is the reason I have ventured to make myself their spokesman.

Altho' our Indian soldiers who now lie in France speak not, I am convinced that I am voicing their sentiments as well as the many well-wishers of the Indian - the once powerful and proud race who ruled this continent.

I am glad to write that the Prime Minister and the Federal Cabinet have promised serious consideration to my request, and I sincerely hope that I shall be able to get your support by urging my suggestion to the Federal Cabinet.

I am,

Dear Dr. Jacobs,

I have duly received your letter of the 11th inst., regarding the appointment of an Indian member of the Senate.

I have no doubt that there must be amongst our Canadian Indians many men whose attainments and position would fit them to take part in the deliberations of our Senior Legislative body, and who would be very worthy members of our Parliament.

It seems a little difficult to say what definite arrangements, excepting some sort of general convention, could be made in view of the fact that the Senate consists of representatives of districts. I do feel, however, that your representations ought to be and will be carefully considered by the Federal Cabinet.

Dear Principal Morgan,

This is just to let you know that Professor Lloyd James is sailing for America to-day to take part in conferences dealing with broadcast education and to give some talks on his own subject from Station W1XAL at Boston.

Professor Lloyd James, as no doubt you know, is Professor of Phonetics at the School of Oriental Studies, University of London. He has a great position here, particularly with reference to Spoken English, and he has done an immense amount of work for us. He is Secretary of our Advisory Committee on Spoken English and helps in the selection and training of our announcers. He attaches high importance to the language common to the Empire and America, and we think it is a very good thing that he is to spend some time in U.S.A..

I heard last night that he proposes to visit Montreal at the request of a personal friend to speak at some women's club. It seemed to me that it was a pity that he should be in your part without your knowing about him, and that it might be that you would wish him to make some sort of an appearance at McGill. Dear Sir:-

The Canadian Red Cross Society has been invited by the Dominion Government to co-operate in making a Dominion-wide Appeal for Funds for the relief of sufferers through the recent disaster in Japan.

The magnitude of the disaster and the details of the distress which is bound to follow are too well known to you to need any comment.

In accordance with the request from the Dominion Government, this Society is prepared to receive contributions for transmission through our National Headquarters direct to the Japanese Red Cross Society for distribution.

The Japanese Red Cross is well organized and has a large staff of workers thoroughly experienced in Disaster Relief.

All Cheques to be made payable to the Canadian Red Cross Society (Japanese Relief Fund) and forwarded to the Honorary-Treasurer, Sir Frederick Williams-Taylor, the Bank of Montreal.

We trust we may count upon your co-operation in furthering this Appeal.

Dear President Kozai:-

With reference to your letter of November 7th addressed to the Chancellor of McGill University asking for a gift of books and periodicals for your Library destroyed in the great earthquake, I need scarcely say how much we regret the occasion for such an appeal.

The matter has been referred to the Librarian of the University and, I understand, he is sending forward a box of books to meet your need as far as possible. You will be advised by him of the date and steamship.

With all good wishes for the speedy recovery of your loss in the great disaster and assuring you of the sincere sympathy of McGill University, I am,

Yours faithfully,

Principal.

Dear Doctor Douglas:

Governor Phillips related to me the content of your letter in answer to the one he so kindly wrote in my behalf. Doctor Wyman, Dean of Phoenix Junior College also gave me the content of the letter from your registrar to Doctor Eastburn.

I have considered your advice at length and have decided to do as you suggest. I will begin classes at the University of California at Berkeley, August 18. After completion of my two remaining years you may again expect to hear from me.

Thank you very kindly for your interest and attention.

Yours very truly,
Paul B. Jarrett

Revised 1. 1. 1935.

My dear Mr. Jarrett,

I am so glad to hear that you contemplate taking your medical course at this University. I should like to congratulate you upon your success in the medical-aptitude test and I hope that it may be possible for you to transfer here for the remainder of your university work.

I am asking the Registrar to send you an Announcement of the Faculty of Arts and Science and application forms. If you will complete and return the latter to him, with a certified copy of your college record, he will let you know exactly what standing you could be given here and advise you concerning your admission to the School of Medicine in 1939. We always have a very much greater number of applicants for this School than we can accommodate, but I do hope I may have the pleasure of welcoming you as one of the students of McGill.

Very sincerely yours,

Mr. Paul B. Jarrett,
1628 West Monroe St.,
Phoenix, Arizona.

In reply to your letter of the 9th of February I am asking the Registrar to send you an Announcement of the Faculty of Arts and Science and application forms. If you will complete and return the latter to him with a certified copy of your college record, he will be pleased to let you know exactly what standing you could be given here and advise you concerning your admission to Medicine in 1939.

I should like to congratulate you upon your success in the ~~the~~ medical aptitude test and hope it may be possible for you to transfer here for the remainder of your university work.

With best wishes,

Yours sincerely,

Dr. Louis Douglas,
McGill University,
Montreal, P.Q., Canada.

Dear Dr. Douglas:

I am now completing my second year of college in the pre-medical curriculum. At the present time, I am attending the Phoenix Junior College and expect to graduate this spring. I have another year of college before I can enter the Faculty of Medicine and McGill is the university of my choice.

Several graduates of McGill are practicing in Phoenix, and they have long convinced me that McGill is my school. My intention is to come to Montreal next fall and matriculate in the university for my final year of Pre-med, and enter the Faculty of Medicine the year following, provided my past record is approved of.

Will you kindly write and tell me if it is possible for me to transfer to McGill for my last year of Pre-medical work. I shall have fulfilled all the requirements necessary for the completion of two years of college work this June. Recently, I took the Pre-medical Aptitude Examination given by the Associated American Medical Colleges and was told I was among the first twenty-five who had taken it in the United States.

I am very desirous of studying at McGill and hope that I may receive some favorable news. Thanking you for your attention.

Very sincerely yours,

Paul B. Jarrett

Dear Dr. Simpson:

re Paul B. Jarrett.

Thank you for your note of the thirteenth.

We are returning a copy of Mr. Jarrett's letter,
together with a copy of our reply.

Since Mr. Jarrett's questions pertain to the requirements
for admission to the Faculty of Medicine, we are sure it
would be better for you to write him direct.

Sincerely,

MEMORANDUM

FROM THE ASSOCIATE DEAN
FACULTY OF MEDICINE

McGILL UNIVERSITY

MONTREAL

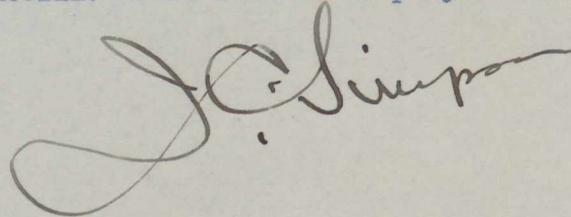

13th September, 1938.

Mrs. McMurray.

re Paul B. Jarrett.

The six-unit, one-semester course in Organic Chemistry will fulfil our requirement.

Since we have only a limited number of places available for non-Canadian students, and to avoid the possibility of an applicant being refused when it is too late to apply elsewhere, I make a practice of advising that application be made to at least two other medical schools as well as to McGill. This is without prejudice to the boy's chances here.

7th Sept. 1938

Dear Dr. Douglas,

As you know from my last letter, I am in attendance at the University of California upon your advice as contained in your letter to Governor Phillips. I still consider McGill the University of my choice, but in looking over the requirements for entrance into the Faculty of Medicine at your school, I noticed that a full year's course in Organic Chemistry including lectures and laboratory is required. The only course in organic chemistry available to me in this, my third year, is a one Semester course. Credit given for this course by the University of California is three units for lecture, and three units for laboratory. I was wondering if you would accept my credit for organic chemistry as a year's course since I am told that the material covered here in the semester courses in both lecture and laboratory is equivalent to a year's course in other institutions. I am very anxious to find out about this because, due to the influence of friends who are graduates of the McGill Faculty of Medicine, I am convinced that it is the school for me.

I was very sorry to have missed you when I heard that you were visiting in Bisbee.

Thank you very much for your attention in this matter.

Yours very sincerely,

Paul B. Jarrett

Dear Mr. Jarrett,

Your letter of the 7th instant, addressed to Dr. L. W. Douglas, has been passed to me by his secretary, with the request that I answer your specific questions about our entrance requirement in Organic Chemistry.

The course which you describe, as given at the University of California, is quite acceptable, and has been taken by many California students who are now in our medical course.

Yours very truly,
