Local Interest Cell. Foy-Oliver Fight in North

Elections To-day Not Very Exciting—89 Seats Being Contested Throughout Province—Work in Toronto is Concentrated on One Riding—People Apathetic.

The worldly hope men set their hearts upon Turns to ashes or prospers. And anon, like snow upon the desert's dirty face Lightens its little hour or two—is gone.

Omar Khayyam.

Likewise the political hope—many a candidate in Toronto and Ontario, is setting his heart upon to-day, will have turned to ashes shortly after sunset, or it will have prospered to give them the seats they crave in Queen's Park.

The political machinery will begin to hum at 9 o'clock this morning, when the polls open and they will close sharply at 5 o'clock in the afternoon. A tight vote is expected in West and South Toronto, as in these ridings it is quite generally conceded the Conservative candidates have very weak opposition.

In North and East Toronto the interest is fairly level. The earliest returns will be received about 6:15 o'clock to-morrow, a few minutes after the closing of the polls.

In East Toronto the Conservative candidates will receive the news at the Central committee rooms, Gerard and Parliament-streets, while the Liberals will await the verdict in Organizer Hackler's office, Forum Building.

Mr. T. R. Whiteside is confident he will have a good majority when the votes are counted to-night. "Altho elections and horse races are uncertain things," he said Sunday night, "I feel perfectly confident I will win out to-day."

This election compared to that in September, is a very quiet. The question of Christmas gifts certainly occupies more persons' minds than does the fact that to-day Sir James Whitney asks for the return of the government.

No Din This Time.

During this last campaign, if anyone happened to mention elections, they did it in a sort of half apologetic way, as if one used it as a topic to fill in time, like the weather.

No arguments, no loud talking, no scraps on street cars, no monster meetings, no heckling, no noisy names, nothing; what a slow campaign it's been when one looks back upon those noisy days preceding the 21st of September.

Of course, there'll be big crowds down town to-night, providing that the showers, which the weather man prognosticates will be our lot during the day, clear away by evening. But there's sure to be plenty of people on the streets looking at the bulletin boards, and by the way, The World will throw the results upon a screen on Richmond-street, and between figures will be interspersed bright pictures. But, to proceed, if Oliver, by any chance, gets in, all those Liberals who crept, ice-cooled cloths on head, into bed, at 3 p.m., on the evening of 21st September last, will make amends by staying up and making a cheerful noise until at least midnight.

Used Foster's Name.

Previous to the general elections, the telegrams were signed by Hon. Rodolphe Lemieux, Hon. L. P. Brodeur, minister of marine, and other ministers, as well as two fictitious names, L. A. Borne, K.C., and Albert Laurin. As soon as the new ministers were sworn in, telegrams were received in Montreal from Ottawa, alleged to have been signed by Hon. Geo. E. Foster and others.

Mr. Lemieux stated that the swindle had been conducted on the wholesale plan. While that many dozen men who had been duped, had succeeded in getting their money back. Owing to the absence of several important witnesses, the further hearing of the trial had to be postponed until Dec. 21.

Provincial Election Returns

will be shown on a canvas opposite The World Office, in Richmond Street West, to-night, after the polls close. Special wires will bring the results from all over the province, direct to The World Office.

Humorous and other pictures will be displayed during the intervals.

OFFERED OTTAWA JOBS WHICH PROVED MYTHS

Hon. Mr. Lemieux Tells of Forged Telegrams at Enquiry into Ingenious Frauds.

MONTREAL, Dec. 10.—(Can. Press.)—Sensational evidence was given by the Hon. Rodolphe Lemieux, K.C., ex-postmaster-general and ex-minister of marine, in the police court before Judge Lanctot yesterday, in the case of Lucien Jeannette and Felix Jette, who have been arrested charged with obtaining money under false pretences by selling government positions at Ottawa.

Pierre Martel, 23 St. Ambrose-st., St. Henri, appeared thru his counsel, Severin Letourneau, K.C., against Jeannette and Jette.

Martel, in his deposition, states that he gave \$115 to Jeannette and \$145 to Jette, to purchase a good position in the government at Ottawa.

Forged Telegrams. Hon. Rodolphe Lemieux, K.C., took the stand against the prisoners and was questioned by Mr. Letourneau. Mr. Lemieux swore that he did not know the prisoner, and so far as he knew, had received no letters from him. A number of telegrams produced were declared to be rank forgeries. The ex-postmaster-general declared that they had neither been signed by him nor by any of his employees at Ottawa. The only persons authorized to sign correspondence, he said, were his private secretary, Mr. Evarete, and certain assistant secretaries in the department.

Mr. Lemieux gave evidence to the effect that he had never authorized any party to offer positions under such circumstances. The evidence showed that Martel got telegrams every few days from Ottawa, demanding money, and assuring him that he would be placed by Mr. Lemieux in a short time.

Griffiths on Canada

OTTAWA, Dec. 10.—"Canada to-day had wide international interests and she must, in the interest of her own trade and commerce and to preserve her own prosperity, help to maintain the supremacy of the British fleet, which affects her commercial well-being just as much as that of England or any other part of the empire."

So spoke J. Norton Griffiths, M.P., of the British House of Commons, and celebrated British contractor and capitalist, who is in the capital en route from Vancouver. Mr. Griffiths will interview the government in regard to the construction of the St. John harbor, for which his firm tendered.

We are ready for an immediate start and hope to get permission to make one to the government," he stated. Another Canadian project with which Mr. Griffiths is connected is the scheme of the Duke of Sutherland to establish English people on Canadian farms, while he has also an eye and an interest in Canadian progress in general.

U. S. Would Send 400,000 Men To Aid Canada, Says Carnegie

Laird of Skibo Grasped Hon. Mr. Borden's Hand to Emphasize Words at Dinner of Peace Celebration Committee—Premier Had Two Hour Chat With Roosevelt.

NEW YORK, Dec. 10.—(Can. Press.)—Hon. Robert L. Borden, premier of Canada, and Andrew Carnegie, were the guests at a dinner at the Hotel Astor last night, given by the executive committee of the national committee for the celebration of the one-hundredth anniversary of peace among English-speaking people. The celebration is planned to take place in 1914-15. Mr. Carnegie is chairman of the national committee.

Speaking of Canada, Mr. Carnegie said that the greatest tribute that could be paid to ex-Premier Laurier was the fact that he, a Frenchman, had been able to govern the Scotch.

Carnegie's Frank Admission. "The Frenchman that can do that," he said, "needs no other diploma. But now that Canada has a Scotch premier I look for a great advance in that country. You, in Canada, and we in America, have grown closer to each other year by year, and that should be the way with the whole English-speaking race. I never did anything for the republic that I did not also do for Canada, both in the way of libraries and hero funds. I never found a man in Canada who was in favor of annexation to the United States, but I never found a man either who objected to Canada annexing the United States.

"When we were in trouble Canada sent us 40,000 men. If Canada is ever in trouble we will send you 400,000." Here Mr. Carnegie grasped Premier Borden's hand, and holding it in his right hand he emphasized of what he said. He added: "Telegraph me when you want them. You know my address." He closed by expressing a hope that the day would come when the whole world would be a brotherhood of man.

Reforming Civil Service. Mr. Borden talked of civil service reform in Canada. "The example of the American civil service system," he said, "has been of great help to us. We intend to work from that plan in the establishment of our own civil service system. Canada and America will maintain the most friendly feelings for each other."

Oscar S. Strauss was the only speaker who referred to the defeat of the reciprocal agreement by the Canadian people, which was the means of putting Premier Borden in office. Mr. Strauss said that the fact that the treaty did not go thru would make no difference in the mutual feeling of good will between the two countries. He added that the laws which were bringing capital and labor together in Canada should be adopted by the United States, as they were fair all the way thru.

Niagara Memorial Bridge. John A. Stewart, chairman of the executive committee of the celebration, spoke on the plans for the coming October. "The Outlook says: 'We are face to face with one of the gravest crises in the history of British in Asia.' The Nation says: 'It means the worst blow which our prestige could suffer in the east. We appear as the weak partner, who does not dare to check his powerful and unscrupulous associate.'"

W. Morgan Shuster, the American, who is acting as treasurer-general in Persia, and whose dismissal was demanded by the Russian Government, is held responsible for bringing the Persian troubles to a crisis. He has been one of the most discussed men in England during the past week. All officials, as well as the newspapers, credit him with efficiency and with good intentions, but they accuse him of lacking diplomatic tact.

Curzon Backs Persia. Persia has found a strong friend in Lord Curzon of Kedleston, former viceroy of India, whose knowledge of the country inspires respect and whose speeches have done much to shake confidence in the government's policy. The British cabinet is trying to induce Russia to abate her demands, but the crux of the matter is the tenacity with which she overshadows all other considerations.

England needs Russia's support in case of a war with Germany, and, therefore she cannot afford to take a stand against her.

CITY COUNCIL MEETS TO-DAY

Street Railway Expropriation Comes Up, as Well as Two-Year Term Proposal.

The city council meets to-day at 3 p.m. They will deal with the proposal to send the expropriation of the Toronto Railway Co. to the polls for the people to decide, and will discuss the proposal to ask the electors whether or not they want the term of the council extended to two years. They will also hear the third reading of the bill to amalgamate island committee with committee on parks.

Ald. McCarthy's motion to create a public utilities board, if the elector vote for it, will also be considered. Ald. McBrien will move that steps be taken to secure protection at the Lansdowne-avenue railway crossing. Other matters also will be dealt with.

SIR DONALD GOES TO CALIFORNIA In order to recuperate from his recent illness, Sir Donald Mann will spend the winter in California. He is expected to leave Toronto some time about the end of this week.

RUSSIA WRESTS POWER FROM BRITAIN

Secrecy Hangs About Bear's Plans, But Permanent Occupation of Teheran is Looked For in England—British Press Bitterly Condemns Alleged Weakness of Policy.

LONDON, Dec. 9.—(Can. Press.)—Details as to the advance of the Russian troops in Persia have been kept for several days completely in the dark. How large a force has been despatched by the Russian Government, and particulars as to its movements are unknown in London, but the public generally feels that the end will be the establishment of a Russian protectorate over the best parts of Persia, including the two northern capitals, Tabriz and Teheran.

Newspapers and politicians generally give expression to the skepticism, regarding it as unlikely that Russia could entrenched in Teheran will ever withdrawn.

The Teheran correspondent of The Times predicts that Russia's first act will be to substitute a new form of government for that of the national council.

The possible damage to British commercial interests is absorbing much attention, but the blow to British prestige among orientals causes most anxiety.

The correspondent of The Daily Telegraph at Delhi, where the Great Durbar of the coronation of King-Emperor George is being held, emphasizes this danger.

Heavy Blow to Prestige. The Outlook says: "We are face to face with one of the gravest crises in the history of British in Asia." The Nation says: "It means the worst blow which our prestige could suffer in the east. We appear as the weak partner, who does not dare to check his powerful and unscrupulous associate."

MINE VICTIMS NUMBER 100 RESCUERS WORK HEROICALLY

King a Busy Man

DELHI, Dec. 10.—(Can. Press.)—King George has had a busy time since his arrival in camp, for there has been a succession of ceremonies during the past three days. More than one hundred native princes have been received in audience by the King, and their visits have been returned, at the King's command, by the viceroys. King George and Queen Mary to-day reviewed a magnificent open air church parade, which was an impressive spectacle. Few Americans are attending the Durbar, apparently being deterred by fears of extortionate rates for accommodations. At one of the leading hotels the rate for each person is \$60 daily for a minimum of twenty days.

Eight Bodies Taken from Colliery at Briceville, Tenn., After 36 Hours' Battling with Poisonous Gases—Thousands of Morbidly Curious Flock to View the Distressing Scene.

BRICEVILLE, Tenn., Dec. 10.—(Can. Press.)—Somewhere in the depths of the Cross Mountain Coal Mine probably 100 men lie dead to-night, while their sorrow-stricken families keep vigil at the mouth of their tomb, hoping against hope that their loved ones may be alive when rescuers reach them. Eight torn and mangled bodies had been brought forth at nightfall when search was abandoned for the day. Outside of the immediate families of the entombed men, no one in this little mountain village believes that any living thing in the mine has survived the terrific explosion of coal dust that wrecked the workings Saturday morning.

Seven of those removed were identified to-day as follows: Lee Polston, Eugene Ault, Taylor Ault, Roland Early, W. A. Farmer, Herman Sharp, James Foust.

The eighth was thought to be Alonso Wood, a youth of 18 years, but his identity was not positively made.

Penetrated Three Miles. For more than thirty-six hours every surviving miner in this region has toiled with no thought of food, sleep or pay, to remove the debris and force fresh air into the innermost recesses of the mine. To-night they practically had penetrated to the main entry head nearly three miles in. To-morrow they expect to be ready to work the cross-entries, in which the great mass of bodies undoubtedly were cast by the force of the blast.

Black-damp developed to-day and stopped progress for a time, but soon the silent forces pushed dauntlessly on, some of them till they were carried out over the by the noxious gases.

Thousands of the morbidly curious flocked into Briceville to-day and crowded about the main entry of the mine. They saw nothing but the pitiable grief of the stricken families.

Death Touches All. There is hardly a family in the entire Cross Mountain Valley that has not felt the touch of death. The problem of caring for the widows and orphans will be a grave one, requiring immediate solution. Certainly Briceville will be unable to care for her living with most of her wage earners numbered among the dead.

To-night food is scarce, but plentiful supplies are promised for to-morrow from Knoxville. So far there has been little physical suffering among families of those who lost their lives.

It has been impossible to get any authentic figures on the exact number of men in the mine when the explosion occurred. However, it is impossible to get any check on the men who went to work yesterday morning. That it is more than a hundred it seems certain, and that all are dead seems almost as certain.

Met by Black Damp. Work of rescue moved slowly to-day and to-night, partly because most of the entombed men are believed to be two miles from the opening, and because of the deadly black-damp. The latter caused all work to be stopped.

BEVERLY'S FUND STORY BRANDED AS FALSEHOOD

Robert Lockhart Denounces Tactics of Liberal Papers—Beck on Hydro Policy.

WOODSTOCK, Dec. 10.—The last and only meeting of Mr. Robert Lockhart's campaign in North Oxford was held here last night. Hon. Adam Beck of London gave a capital finishing speech in Mr. Lockhart's interest to a crowd which filled the City Hall to overflowing.

Mr. Lockhart's plan embraced personal interviews with nearly every elector in the county to the exclusion of the usual political meeting, and the result of his personal work is anticipated with a good deal of hope by the Conservatives of the riding.

At last night's meeting Mr. Lockhart condemned in strong terms the last minute effort of Liberal organs in endeavoring to discredit his campaign by giving currency to a foolish rumor that the distillers and brewers intended sending money into North Oxford to defeat Mr. Rowell.

Mr. Lockhart stigmatized the report as a downright lie designed to throw discredit upon himself.

Calls Liberals Hypocrites. The chief feature of Hon. Mr. Beck's stirring speech was the revelation he made of the old government's failure to converse the water-powers of the province, and the hypocrisy of the Liberals to-day in endeavoring to claim credit for the present power policy of the Ontario administration to the detriment of Mr. Whitney and his colleagues who inaugurated it.

The Whitney government, he said, stood for state owned water-power, and would continue to stand for it for all time to come.

Why, he asked, did Hon. Mr. Graham and other of his colleagues who were shouting for the conservation of the water-powers of the province, sit in council in the dying hours of the government after their recent defeat and give away the Shaw falls to O'Connor and his gang for about \$1400? Did this show a disposition to conserve the province's water-power for the people? And did it show friendship for the hydro-electric project?

Mr. Beck declared that he had been criticized by certain Liberal papers for entering the campaign on behalf of Conservative candidates in Oxford and elsewhere as showing bad taste. In reply to this he said he considered it his responsibility and a duty to go into the ridings and give an account of his stewardship.

As to the successful carrying out of the scheme, he disclaimed credit for himself, but declared that the people of Ontario themselves were responsible for the measure of success that had attended the enterprise.

Fighting White Plague. Mr. Beck also dealt with the charge in the local Liberal paper that the government was cold hearted in not having done much towards stamping out the white plague, and in this connection pointed out that the Whitney administration had spent double the amount expended by the Row government for this purpose, viz.: \$125,000 a year. A request for money from the old government had been turned down, but since then the Whitney government has built sanitariums at Hamilton, London, Ottawa and Kingston, and increased the grant for \$1.20 per patient a week to \$3.00.

AN ERROR IN THE EAST. The Sunday World fell into the same mistake as Friday's World, which stated that T. R. Whiteside's majority in the last election was 1290. That is far from right. Mr. Whiteside beat Joe Russell, Independent Conservative, by but 270 votes in 1908.

UNUSUAL DECEMBER SUNDAY.

There was fog, there was thick fog, yesterday morning, a high temperature, a small of spring. The rivers and creeks were full of water, the rippling water followed you in its music as you walked along their banks. Water spouted out of the tiles at the end of the fields. By noon the sun had got thru the mist and the air had all the balm of spring. The woods had lots of birds, the fond jay in the lead. The fall wheat in the fields was green and showed a fresh growth. All the frost-bound earth had been released, and it was like a sudden restoration—rather an advance into the spring that is three months or more away. And it is still with us.

THE LIVE STOCK SHOW.

A great show opens at the stock yards to-day. But what is the story that the experts tell us? That comparatively our farmers are raising less cattle for meat than ever; that our imports of meat and animals are increasing.

Why? Nothing is so profitable as raising animals for meat, and yet our farmers fail to keep up to the needs. Feed is scarce, and it is now so easy to make a living on the farm that there seems to be a falling off in enterprise. We do not grow enough feed and we kill too many young animals! That's the reason. Our farmers must become more enterprising; they can make more money by being more enterprising. Our farmers are not living up to their opportunities.

HAMILTON HAPPENINGS

LABOR ENOS CAMPAIGN WITH ROUSING MEETING

Studholme Should Carry East Hamilton for Third Time—Two Fatal Accidents.

HAMILTON, Dec. 10.—(Special.)—A magnificent mass meeting in Moulton's Hall Saturday night ended the Independent Labor Party's campaign for the East Hamilton and South Ward seats in the provincial parliament.

The greatest enthusiasm, and in fact even an air of jubilation characterized the meeting. The labor men profess the utmost confidence in Allan Studholme's success at the polls tomorrow for East Hamilton.

Geo. H. Roberts, senior whip of the labor party in the British house of commons, was the principal speaker at the meeting last night.

Mr. Roberts contended that the claim that the workers of East Hamilton were not sufficiently strong to return a labor member was an insult to the intelligence of the electorate.

Mr. Roberts contended that the claim that the workers of East Hamilton were not sufficiently strong to return a labor member was an insult to the intelligence of the electorate.

Why to Vote Studholme.

London Johnstone gave his reasons for casting his vote for Studholme on Monday. They were:

(1) If the working people wanted their interests looked after, they must do as others did—send one of their own class to represent them.

(2) Studholme had made good, and should be continued in his present position.

(3) In the interests of representative government, independent men should be elected.

(4) It was not good for any city that it should be dominated by any one political party.

(5) Cooper was the tool of clever men who wanted to get him out of municipal politics.

MANY EVILS SURROUND CITY'S WORKING GIRLS

Forty Thousand Young Women in City, Two-Thirds of Whom Must Board—Dr. Shearer Speaks.

The white slave traffic was given a very thorough review by the Rev. J. G. Shearer, D.D., at Cooke's Presbyterian Church, Sunday evening.

The church, according to Dr. Shearer, should right social wrongs. That is, minister not only to the soul, but to the body.

In dealing with the white slave problem Dr. Shearer quoted several cases that had come to his attention in Toronto and elsewhere.

He said that there were nearly 40,000 working girls in Toronto to-day, and about two-thirds of them are boarding.

The great question is, are they being cared for properly? The average working girl has not the same chance as a boy.

It is not only able to take care of himself, but to help others. A girl is different. If she goes down, she stays down, and has very little chance of fighting her way back to a good life.

COMBINE HUMANITY WITH CHRISTIANITY

Brotherhood Movement Intends to Branch Out and Work For Civic Good.

At a meeting of the Brotherhood Association, held Sunday afternoon in Cooke's Church, Rev. S. Wesley Dean gave an address in which he discussed the possibilities of the movement and enumerated many spheres of activity where a great work might be accomplished.

He believed the organization was so constituted as to be a great force in securing moral, social and legal reform, and it might also do a great work in helping to eradicate religious prejudice which the speaker characterized as "fossilized barbarism."

Mr. Dean pointed out the necessity of self respect. The amount of self respect we have, he said, will largely determine the respect others will give us.

Mr. Dean pointed out the necessity of self respect. The amount of self respect we have, he said, will largely determine the respect others will give us.

What a glorious time we would have in Toronto if we had the street railway, he said. "I would not be surprised if the man who runs it now for the company would not run it just as well if it were owned by the city."

He is a good man in his heart, and he would do just as good work for the city as he is doing for the company who pay his salary.

The officers of the association are now engaged in preparing a constitution for the movement in which other associations will be federated.

CUPID INTERVENED

Vagrancy Charge Dropped and Girl Will Embark on Matrimonial Sea.

KINGSTON, Dec. 9.—(Special.)—Cupid took a prominent part in a case before Magistrate Farrell to-day. A week ago a young girl named Jillings was arrested on a charge of vagrancy.

At the time she stated she was about to go to Campbellford to get married. She was remanded a week, until the case was investigated, when the charge came before the magistrate Saturday morning, a letter was received from the young man in the case, in which he verified the girl's statement and decided to dismiss the charge.

"Every needy Consumptive must be cared for."—Motto of Trustees of Muskoka Free Hospital for Consumptives.

"Oh, I Think It's Just a Grand Place." A fair, pretty, stout English girl of 35, a saleslady said: "I can truthfully say I have derived great benefit. My cough is almost gone. I eat and sleep well. I can gain a pound a week easily if the weather permits us to get out every day. I am 115 pounds now. I am pretty bad. The doctor doesn't promise me a cure. But I'll be an arrested case, I guess. Oh, I think it's just a grand place—plenty of rest and good wholesome food. The doctors are awfully nice and the nurses, too, very kind."

Absolutely Unfit for Work. Many appeals for admission to the Muskoka Free Hospital for Consumptives come through the local physicians' letters, now in the hands of the secretary, from a physician of Almonte, Ontario, who asks if something cannot be done for a young man of twenty years at present residing in Smith's Falls. The doctor says: "I found him far advanced in phthisis and he is now begging food and clothing. He is absolutely unfit for work and needs care. Would he be a patient who could be admitted to one of the sanatoria in your charge? His people cannot do anything for him. His father is living, but has slipped out, leaving a boy of 15 years to take charge of mother and younger son. Let me have all needed particulars."

"To Make an End of Consumption in Canada"—

Great Purpose of the Work at Muskoka and Weston.

Medical records show that in London, Eng., New York and Boston the death rate from tuberculosis has been cut in half—the result of an intelligent and aggressive campaign against this disease, that was supposed to defy all effort. In Ontario the mortality in past decade has decreased almost 40 per cent. Thanks, in large measure, to the work done within the past ten years in the

and Sister Institutions in Muskoka and Weston.

Not a single patient has ever been refused admission to the Muskoka Free Hospital for Consumptives because of poverty.

One Dollar to the Glorious Work. It is the dollars from many different sources that are doing much to help in the maintenance of needy patients in the Muskoka Free Hospital for Consumptives. Accompanying these smaller contributions come warm words of sympathy. Mrs. Alex. Miller, of Picton, Ont., in sending her dollar to help on "with your glorious work," also wishes every good blessing to follow the efforts being put forth to stamp out consumption.

A Pleasure and Duty to Help. Mr. and Mrs. Kendall, of Dutton, Ont., in sending their contribution of \$5.00 to the Muskoka Free Hospital for Consumptives, commend the movement as a very worthy cause, and one in which pleasure and duty are combined in the resolve to help the work. 630,720 glasses of milk—1,755 glasses of milk every day in the year—milk that is absolutely pure—is the milk consumption in our two Muskoka homes. Yearly milk bill, \$6,321.95.

One Million Dollars has been spent for the maintenance of patients in Muskoka and Weston since these institutions were first opened.

Montreal Club is For Sale Declares Pres. Lichtenheim

MONTREAL, Dec. 9.—"While I am not in a position to make any definite statement regarding the probable disposition of the Montreal baseball franchise, there is certainly some possibility of its changing hands, and Richmond is making a big bid."

Such was the statement handed out this afternoon by President Lichtenheim, as he was preparing to leave for New York. "Richmond," said Mr. Lichtenheim, "has been desirous of breaking into the Eastern League for some years and this year has succeeded in interesting a number of wealthy men in the scheme, and has declared its intention of being re-presented in the Eastern League at any cost."

"You can state," added Mr. Lichtenheim, "that the club is for sale if I can get my price and while I would like to see the franchise leave Montreal, I would just as soon sell out to Richmond as any place else."

Richmond is making a bid for an Eastern League franchise at the meeting of the senior minor league organization, which will be held at the Victoria Hotel, New York, on Monday. So confident are the Richmond managers of gaining admission into the Eastern League that they have entered into an open war with teams in the Virginia League and at last Monday's annual meeting declined to send a representative.

Regulation of Baseball.

NEW YORK, Dec. 9.—Government regulation of baseball is now proposed. Daniel A. Driscoll of Buffalo, representative in congress from the State of New York district, is quoted to-night as saying that he proposes introducing a bill into congress soon to create a bureau to take over the supervision of baseball, and that the sport is run properly and kept statistics, "Spain keeps a record of its treasurers, an interviewer quotes the congressman. 'Why should not the United States keep a record of the fees of its great baseball heroes, its Ty Cobbs, Rube Marquards and Christy Mathewson. In after years, unless some old fan becomes reminiscient, the next generation won't know anything about them. Then in a case of ticket scandals a federal committee would be all-powerful.'

Cleveland Releases Four.

CLEVELAND, O., Dec. 9.—Pitchers Cy Falkenberg, Winchell and Reislig and Outfielder Dave Callahan were released today by Manager Harry Davis of the Cleveland American League baseball team yesterday. Falkenberg, who has been with the Cleveland club for three years, will go to Toledo, where he may be appointed manager. Winchell goes to Dayton, Callahan to New Orleans and Reislig to New Haven.

Eaton Cricketers May Now Wear Rings On Their Fingers

At a meeting of the Eaton Cricket Club, held on Friday night in the rear room of the store, the members of the City League team were made the recipients of handsome gold signet rings as mementos of their great achievement in winning the city championship.

The followers of the game will remember that Eaton's team defeated Toronto in one of the closest and most exciting games witnessed here in years, and in honor of this victory the Eaton Athletic Association kindly donated the rings, which were presented by Mr. E. V. Robinson, manager of the general office, who in a masterly turned speech congratulated the boys and expressed the hope that, not only would city championship honors rest with them next year, but Dominion honors also, and predicted that Mr. Harry Reed, the president of the cricket section of the E.A.A., was not forgotten by the boys, for let it be here said that no small part of last season's working and general president, Adam A. Thorne, captain of the team, in presenting to him, on behalf of the other members, a most comfortable looking leather upholstered oak armchair, happily remarked that, although endeavoring to give him rest, he was not to consider his labor over, for they were depending upon him again for next season.

Mr. W. Bowman, president of the E.A.A., in closing the meeting, remarked on the rapid stride cricket as a popular game was making, and predicted that within the next few years it would be, not altogether, our foremost game, at least one of our leading sports.

The championship team was composed of the following players: Messrs. A. H. Thorne (captain), F. J. Adgey, E. Thorne, Bunting, H. V. Bond, A. Cotching, W. H. Davies, W. A. Dempsey, J. Fifth, T. S. Gaved, V. V. Harvey, H. Nixon, C. H. Reeve and R. R. Wells.

STALLINGS OF BUFFALO MAY MANAGE PHILADELPHIA

PHILADELPHIA, Dec. 9.—President Fogel of the Phillies to-day announced that he had in view four men, any one of whom he may ask to become manager of the Phillies in place of Charles Dooin, who Fogel declares never can manage the club again.

The most likely man mentioned by Fogel and the one he appears to fancy is George Stallings of the Buffalo Bisons. He would not take Dooin as a gift; but at that time he didn't know anything about the \$25,000 Herrmann offering to throw in with Dooin. Fogel still hopes he wants players, not money, for Dooin.

Distress From Indigestion

Tried in Vain to Get a Cure—All Medicines Failed. Old Trouble Disappeared When the Liver and Bowels Were Set Right by DR. CHASE'S KIDNEY-LIVER PILLS.

You cannot make a greater mistake than to think that indigestion is confined to the stomach. It is a disease of the liver and bowels, and it is only by getting these organs healthy and active that you can ever hope to cure chronic indigestion. If you are suffering from indigestion, or if your wife or child is suffering from indigestion, try Dr. Chase's Kidney-Liver Pills. I got her to try them, and to our great delight, she was cured. We would never think of being without them in the house for fear when the liver and bowels become sluggish, it will send about them and give him a box. He had suffered from indigestion for years and tried almost everything he could get. Dr. Chase's Kidney-Liver Pills were also successful in his case, and he says they beat any medicine he ever came across. The presentation of the Richardson Cup by the commodore of the Toledo Yacht Club for competition on the Great Lakes instead of the Canada Cup, ends a long-drawn-out struggle between Toronto and Rochester.

Cricket in Toronto had a couple of peculiar turns in 1911. If Eaton's defeated Toronto C. for the city championship, they in turn had to lower their colors before the willow wielders of the other Big Six.

EATON'S for Stiff Hats for Men

A HAT that looks well with the overcoat, and one that appeals to men of refined and conservative taste. It is a modification of new English Derby which characterized this season's styles.

On changing ends at the conclusion of the first half of the game and had the score 2-3 at half time. The R.M.C. boys looked much better in the second half, but just as soon as they crossed their try the oil town boys came back to life and bucked the Cadets from one end of the field to the other.

MONDAY MORNING, DEC. 11, 1911

ONTARIO'S SQUARE DEAL GOVERNMENT.

"Seven years of the Square Deal" is the claim made for the Whitney government by the Liberal-Conservative party, and so far as we know the claim has not been challenged except by a few friends of corporation interests who felt that these were more important than those of the public.

In handling the provincial finances much progress has been made. Objections to the increase of expenditure usually overlook the fact that over a million dollars of the increase goes back to the municipalities, and that \$700,000 of this comes from the Ottawa government in extra allowances.

Agriculture and good roads have largely benefited in this way, and the result has been highly advantageous, as shown by the halt called in the falling off of the rural population. Between 1900 and 1907 there was a decrease in population in the province of 50,558 persons.

Does anyone think that the wrath of God is thus revealed in heaven—that the perfect, sinless angels are weakened by the decay of the human body? Does anyone suppose that doctors or undertakers or cemeteries or nurses are there? Why not? The answer is simple. They are because they are not sinners—they have continued to abide in God's favor, in integrity of the country.

"Four by Honor's" we wrote, but four big honors it is. Editor World: You are right about the city officials fighting annexation. They always did. When we've taken in North Toronto it will be the last municipal organization to come. Hereafter when additions are made, and I hope they will be many, let the sections be included make terms and say what they'll do in local improvements.

Public opinion in the United States has been considerably worked up over the refusal of Russia to honor passports issued to Jews, either naturalized in the United States or born citizens of that country. This has long been the subject of intermittent protest, but it is only of late that the attitude of the Russian government has become the subject of so great and general resentment as to compel diplomatic action.

At a large and influential mass meeting held in New York on Wednesday last, resolutions were adopted calling for the abrogation of the treaty of 1832, in the event of the Russian government refusing redress of the grievance. It has, however, been pointed out that abrogation would press more heavily on the United States than on Russia, and therefore affect the interests of the far greater number who have no intention of entering the czar's dominion.

MRS. PANKHURST'S MEETING. All interested in the woman suffrage movement whether as supporters or opponents should take advantage of the opportunity offered by to-morrow's meeting at Mackay Hall, to hear Mrs. Emmeline Pankhurst, who has been

must be considered in connection with the magnitude of the requirements, and no doubt iron. Mr. Hearst will bend every energy he controls to the purpose of developing the north country, to settling it, and equipping it with the needs of modern civilization.

To-day, no doubt, there will be some disposition to vote for new members, and perhaps in some cases to revert to old party lines. But for the most part we believe the tendency to vote for measures rather than men, and for policies rather than parties, will be maintained.

PSEUDO-COURT CEREMONY. The Evening Telegram devotes nearly two columns and a half to an attack on one of our contributors to The Sunday World, who wrote a good-natured survey of the city hall reception to the Duke of Connaught.

The Telegram itself, on the 28th, said some of the severest things that were said about the event. We do not believe any of this was ill-naturedly meant, and we feel sure our readers detected no ill-natured note in what was said by Miss Margaret Bell. If the attack in The Telegram betrayed any sense of humor we should be inclined to treat it more seriously, but the animus, which is apparent, robs it of force.

The leading advocate of this reform in the United Kingdom. The situation in the mother country has been considerably changed by the decision of the Liberal government, to introduce a manhood suffrage measure next session and Mr. Asquith's refusal to include womanhood suffrage at its first presentation provoked the recent suffrage demonstration ending with upwards of two hundred arrests.

RUSSIA IN PERSIA. Grave anxiety has been created in Britain over the threatened action of Russia in North Persia. Nothing apparently can prevent the occupation of the capital if the Persian Government persists in refusing to concede the terms required by the Russian Government to relieve the tension, the principle of which is the dismissal of Mr. Morgan Shuster, the treasurer-general. Sir Edward Grey is endeavoring to secure their modification, but in this he may be frustrated by the wider problems involved in the maintenance of the European balance of power.

GREASY RAIL

"Greasy rail" is a term used by street car men to describe a condition of the track at certain seasons of the year, caused by atmospheric changes in conjunction with refuse on the streets, the result being a scum on the surface of the rail. At other times, a dry scale is formed, which is even worse than the grease. At present there does not appear to be any remedy for a condition that very seriously affects the operation of the cars, although the general public may not be aware of it.

JAMES GUNN, Superintendent Toronto Railway Company.

Up to the present time traction companies have found no other remedy than the use of sand, and sometimes this is of very little service in remedying the trouble, as it is no sooner put on the rail than it is pulverized by the first car sliding over it, and the condition of the rail at that particular spot is frequently found to be worse than before the sand was applied.

McNamaras Now In San Quentin

Dynamiters Were Transferred to Regulation Convicts After Whirlwind Run From Los Angeles. SAN QUENTIN, Cal., Dec. 10.—(Can. Press).—The McNamaras to-day entered San Quentin penitentiary, where James E. is condemned to spend the remainder of his life, for his confessed crime of murder, and John J. McNamara was No. 2335. They were measured for jail clothing, photographed in two positions, given a carbolic tincture bath, put into stripes, shaved and cropped and re-photographed within an hour, and turned over to John Murray, lieutenant of the yard, who took them to cell No. 18 in a stone tier looking out over the prison's upper yard, a great flower garden.

Muddy York Roads.

Editor World: I wish to complain through your valuable columns of the most impassable conditions of Yonge-street for five miles north of the city. The writer, in company with four others, drove yesterday from Orillia to Toronto, and as a citizen of this city was ashamed to see that the five miles of road approaching Toronto were by far the worst part of the journey. Mud and water covers the road to a depth of six inches. Through Eglinton the streets are like a river of thick mud. The car was a new 6-cylinder, but she was so coated with mud by the time we reached Toronto that you could not have told what she was. Passing thru York Mills and Eglinton the motor threw out a spray of thick grey mud, and as she plowed her way thru, she looked more like a motor boat than a car.

## Heavy Rains in the Argentine A Bull Factor in Wheat Market

Chicago Exchange Tares J. on an Close at Small Advance—  
Corn and Oat Weak.

CHICAGO, Dec. 9.—A sensational advance of 2 3/4 to 4 1/8 at Buenos Ayres alleged to have been caused by far-reaching storm damage to wheat led to a general covering here today on the part of shorts. The close was nervous and 1-8 to 1-2 to 5-8 higher than last night. Other leading staples all showed a net decline, corn 1-8 to 1-4, oats 1-4 to 3-8 to 5-8 to 1-2, and provisions 1-2 to 5 to 12 1/2. Liverpool shorts as well as local ones were active here in the buying side of wheat. Nevertheless, the development of any remarkable strength in Chicago was checked and at times entirely overcome as a result of the news of short-crop in Argentina to respond to the news from South American. Winnipeg, which should be legitimately more affected as a competitor with the Argentine in the export trade, did not advance to anywhere near so great an extent as Chicago.

## A Big Boom Is Just Commencing

MANITOBA

Other western cities have had their day and made money for those who invested in them. The cream of the profit has been taken now in most cases through—and to secure a safe and profitable investment in the west, where you can now get in on the low prices, you must buy in Brandon. The boom is just starting, there and the lot which we now have to offer at \$100, inside the City Limits, near the Street Car Line, in a High and Dry district, will not be obtainable at three times this price in the spring.

Guaranteed Torrens Title; no encumbrance; terms arranged.

Corn and Oats Weak.

Prospects that during the rest of the month considerable corn will be turned out by the elevators here, made the market for that cereal weak. Besides the week's primary receipts showed an increase of nearly 2,000,000 bushels over the preceding seven days. May ranged from 62c to 68c, closing 65c down, at 62c. Cash grades were in only moderate demand.

Depression spread to the oats crowd because of the weakness in corn. Trade was not brisk, but the selling was of an influential kind. Top and bottom figures touched for May proved to be 48c and 49c to 48c, with the close 48c to 48 1/2c, a decline of 1/2 to 3/4 cent from last night.

of 14 rooms, on Russell Hill Road, with every modern comfort; the vacuum cleaner, automobile drive at side. This house will be ready to occupy in a few days. We are exclusive agents and will be pleased to give you all the details.

## \$11,500—ROSEDALE, never before occupied; large brick house of 12 rooms, finished throughout in hardwood; billiard room in basement, two bathrooms and extra lavatory, electric garage in rear.

## \$85,000—SPENCER AVE., Parkdale; new, improved, sold by interested owner; splendidly situated on the best beautiful street in South Parkdale; large detached house, 14 rooms, tiled bath, separate toilet, large reception hall, finished on exceptionally beautiful, beamed ceiling; large bay windows, highly polished woodwork; double doors; well equipped kitchen and pantry conveniences; the cellar is well lighted, has ceiling in front in the dining room; large verandahs and two balconies; automobile drive.

## \$9,000—YORK LOAN district—Beautifully situated, directly opposite High Park; 11 rooms, large billiard room, tiled bath; tiled bathroom, laundry tubs; large verandah and balcony; 3 mantels; large heating grate; dining room ceiling beamed; first and second floors hardwood; auto drive; lot 4 x 128.

## \$125,000—ST. ANDREW'S GARDENS, Rosedale, 12 rooms, 2 complete bathrooms, main one tiled; separate toilet, w.c. in cellar; large billiard room in basement, with open fireplace; large verandah and balcony, ample cupboard space; dressing room off main bedroom; hot water heating, enamel laundry tubs, four mantels; house trimmed in quarter-cut oak; beamed ceiling in dining room; first and second floors hardwood; auto drive; lot 4 x 128.

## \$750—DOWLING AVE., between King and Queen, detached solid brick, stone pilared verandah, with 10 ft. driveway, slate roof, room for car at rear. This house is in the midst of a high-class residential section. The second floor is finished in quarter-cut oak, and the second floor in Georgia pine. Square hall and grates, electric light and hot water heating. At this price the property is a snap.

## \$750—MELBOURNE AVENUE, near Cowan-avenue, detached solid brick, slate roof, 12 rooms and bath, finished throughout in quarter-cut oak, pipe, side drive and room for garage in rear. Could be made into a fine apartment house, being close to King, Queen cars, and only 15 minutes' run to Yonge-street.

## \$600—ALBANY AVE., 10-roomed house, hot water heating and electric lighting; all modern conveniences. For quick sale.

## KINGSTON ROAD—Within short distance of city, on radial car line, 15 rooms may be purchased for less than \$10,000; 22½ foot board walk, with windmill and numerous outbuildings, in some of the improvements secured on this fine property. It is ideal for a country home, or, at the price, would be a good apartment house, being close to King, Queen cars, and only 15 minutes' run to Yonge-street.

## KINGSTON ROAD—A beautiful residence, in close proximity to the Hotel King, situated on 5 acres of property, with stables, gardener's house and improvements which have cost at least \$50,000. For reasons which can be explained, this country home will be sacrificed. The property could be profitably subdivided into high-class building lots. Also we would prefer to find a buyer desiring it for his own residence. This must be seen to be appreciated.

## \$110 A FOOT—Shorebourne street, near 5th floor; a 3-foot lot may be bought. In view of the ruling prices in the neighborhood, this is a fine opportunity. A splendid site for club or centrally located flats.

## LOTS—Glen Grove lots are recognized as one of the best real estate investments available in the City. The lots are from \$15 to \$20 per foot.

## GLENVIEW AVE.—A lot of 67 feet of frontage may be had for \$25 per foot on this street. This part of Glen Grove is already built up, and is surrounded by many expensive houses. A fine chance to realize profit.

## MOORE PARK—Two splendid 60-foot corner lots for sale. One at intersection of Yonge street; 350 ft. frontage, with 10 lots are taken, or 62 per foot if sold singly. Very expensive houses are being built in this district. It is sacrificed at this price, as lots in the immediate vicinity are selling for \$55 per foot.

## GLENVIEW AVE.—A very choice 50-foot lot for sale. A fine opportunity, particularly as it won't last long.

## STONES—Yonge street, east of 130th—Two large stores, with basements, new fronts and entirely remodeled, in splendid central location; one with heating, 100 per year, and the other with slightly smaller frontage, with heating, \$200. Let us show you these.

## PARMS—Several 20-acre farms within 20 miles of Toronto, may be had on payment of \$50 down and \$15 a month, the total price, \$250 is paid. These farms are ideal for fruit growing and poultry-raising. Investigate this opportunity.

## THREE millions of acres—We have this quantity of C.P.R. lands in Northern and Central Alberta, from which you can choose, at prices from \$20 an acre up, the finest wheat country in the world.

## WELLAND LOTS—The town with the cheap power and big industries; the town that is growing. You can make very good returns on your investments, at \$150 to \$200.

# Porcupine Stocks Prove Vulnerable to Heavy Liquidation

## Short Interest Feeds Out Stock Porcupine Readily Succumbs

### Decline in Mining Markets Carried Further in Week-End Session— Heavy Liquidation in Effect.

World Office,  
Saturday Evening, Dec. 9.  
The decline in the Porcupine stocks was carried further in the mining exchanges in the week-end session, the liquidating movement being still in effect and prices responding to the scattered selling with further losses in general throughout the list.

The brunt of the selling was borne by the lesser-priced issues, in which the bear interest seemed to be concentrating their energies, and the greatest weakness was consequently shown in this end of the list.

Declines ran from a point to four points in the general favorites, the latter in Dome Extension, which seemed picked out for special attention throughout the day. These shares sold down 90 rather than restricted transactions, and did not succeed in making any material recovery from the bottom levels.

The uncertainty surrounding the Preston Base Dome situation was further exemplified to-day, and the stock sagged down to a new level at 14 1/4, the slightly higher quotations ruled at the close as the market showed a weak spot, selling of nearly two points to 24, and closing bid there, with offerings held a fraction higher. Porcupine Southern was freely offered on a down scale, and dropped six points at 51 before the selling was effectually absorbed.

The big issues showed no such weakness as characterized the lesser stocks, neither Hollinger nor Rea giving any material response to the liquidation which was under way.

It was freely stated on the street that the big decline in the market since the first of this month was due largely to the short selling propensities of a certain coterie of floor brokers, who were feeding out stock on every demand, with no apparent thought of the disruption of confidence which their day to day operations occasioned.

The market to-day was in poor shape to withstand the liquidation forthcoming from these interests, and proved vulnerable to each indication of fresh selling.

### HOLLINGER REPORT "ALMOST ANY DAY NOW"

Porcupine Pins Its Faith to Highly Favorable Document—Stamp Mill Progresses Rapidly.

**Porcupine, Dec. 7.**—(From Our Man Up North.)—That the Hollinger mill will be running at a date not later than March 20, is the firm belief of Manager Robins.

The first and second stores, where the solution tanks are to be placed, are up in skeleton frame with the entire body of the mill ready for enclosure. The stamps were they at hand, could be placed at any time.

"Within two weeks the entire mill will be enclosed," said Manager Robins, "and I think that without a doubt will be ready for operation by March 20."

## PEARL LAKE ORE AT DEEPER LEVELS

### Our Correspondent Describes Results of Diamond Drilling at Depth—Electric Power Soon.

**Porcupine, Dec. 7.**—(From Our Man Up North.)—What mine men term classed deep mining is in progress at the Pearl Lake Gold Mines, with the No. 4 diamond drill hole down to a depth of 1150 feet on a vertical line. At 1150 feet the same mineralized schist zone encountered at the 605-foot depth in No. 3 hole was entered. The dip is a dark gray and not classed as the pearly gray sand so often encountered in the Nos. 1 and 2 holes put down to the 983 and 650 feet depths early in the fall.

The mineralized zone on the dip from the south to the north and plainly comes from the Pearl Lake section. Figuring that the dip here is to the north in every case, all the drill holes were put down vertically, which accounts for the difference in the depth at various places where the drill picked up the mineralized zone.

The main three-compartment shaft is now down to 190 feet and at the 200-foot level a station to be used as a "one house for tools, etc." will be cut. The main working shaft, however, will be at the 400-foot level.

The long lost motor, ordered over five months ago in England, has been found and will reach the property this week. The wires are up and very soon after the motor reaches the property electric current can be turned on. The compressor will then be set in motion. At present two drills are working on air contracted for at the McIntyre.

A water and steam pipe system has been installed and now the camps are supplied with water and heat from the boiler house.

Note—The World last Friday published a special wire giving the results of assay made of the drill core at a depth of 1200 feet at the Pearl Lake property.

### NEW STRIKES AT MARTIN

"Jack" Wilson Sends Out Favorable News Regarding the Property.

A special letter to the local offices of the Martin Porcupine Mines, Limited, from the Board of Directors, reported further excellent discoveries on the holding of the company.

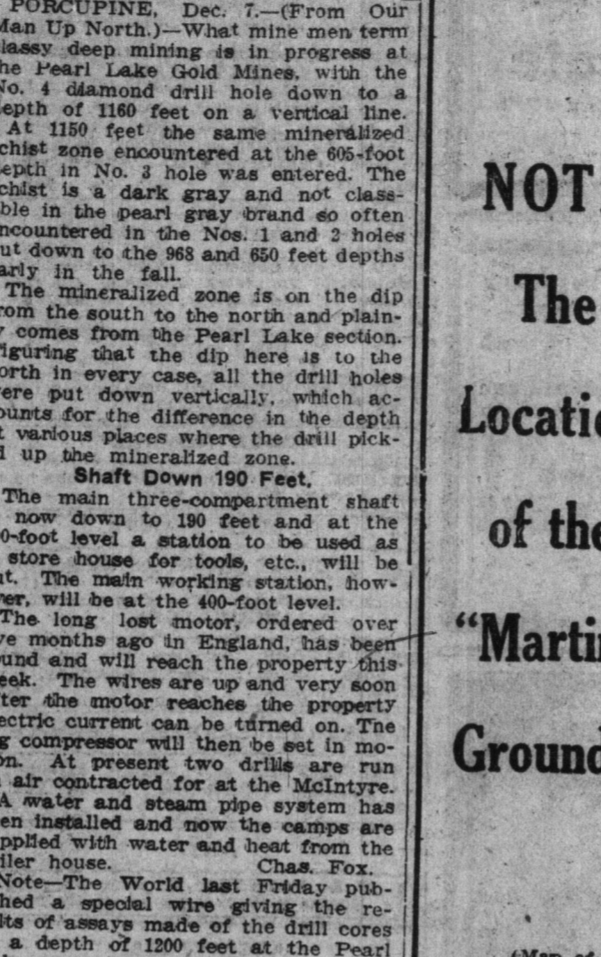

The information was sent out by "Jack" Wilson, the well-known Porcupine, who is now in charge at the Martin.

The letter says in part: "Just returned from the Martin property, and things are looking A. I. Have stripped where we found to send out specimens and am going to send out a set of samples, which will make our 'test' water more reliable. We discovered a schist formation immediately under the visible gold. Can see a great future for the Martin and propose to be for the closing of the property. I identify with the opinion of the mill time. I want to show the company that what work I do will not have to be unproductive. In the case in the Porcupine camp in more than one instance."

### HELPLESS BABIES PLEAD THAT THEY BE GIVEN HELP

#### Campaign To Raise Money To Build Home For Destitute Infants Opens To-day.

Every child born into this world has a right to its life.

Do you believe that civilization exacts that of us, as a civilized and Christian people?

If you do put your shoulder to the wheel in the big campaign, which is being run to-day, to prevent the closing of the orphan and destitute babies of every nationality.

Men have been provided for in the Y.M.C.A., and women have been provided for in the Y.W.C.A., sick children in the hospitals, but the tiny helpless baby, poor little thing, has somehow been overlooked.

### The Week's Sales

### RODGERS REACHES COAST

Sixty Thousand People Acclaim First Aviator to Cross Continent.

LONG BEACH, CAL., Dec. 10.—(Can. Press.)—Aviator G. A. Rodgers completed the last leg of his cross-continent flight and landed on the shores of the Pacific at 4:04 o'clock this afternoon. The final lap of his trip was 12 miles. Rodgers started at Compton, where he fell on Nov. 12. A crowd estimated at 60,000 persons saw the finish of the trip, and as the aviator stepped ashore, a machine touched the sand in enthusiastic throng surged in on the aviator and the impact of the rush pushed his machine into the water.

### Fatal Wreck in France.

PARIS, Dec. 10.—Five persons were killed and eight injured in a collision on the Paris-Rouen railway to-day outside the Paris terminus.

### TO HONOR NATIVE OFFICERS.

LONDON, Dec. 10.—(Canadian Press.)—The Daily Mail's Delhi correspondent says that after the Durbar the King will announce an important reform, promising higher commissions for native officers.

### Registered Letter Found on Him.

Cecil Fassmore, giving his address as 203 Simcoe street, was arrested at Parkdale Station yesterday on a charge of being drunk and disorderly. After being taken into Queen West Police Station several registered letters were found on him. On enquiry at the general post-office it was ascertained that he was a mail clerk on a train running out of Toronto. The charge against him may be changed from disorderly conduct to stealing mail matter, which is a very serious offence.

## U. S. WOULD BAR JEWS

### Russian Paper Cautious in Comments on Passport Agitation.

ST. PETERSBURG, Dec. 10.—(Can. Press.)—The Novoye Vremya declares that the days of the Russo-American commercial treaty evidently are numbered, because no country can grant more extensive rights to foreigners than to its own subjects.

The paper says that the development of the abrogation of the treaty would be the extinction from America of hundreds of thousands of Russian Jews, and "the desire for such exclusion" adds the paper, "is the real motive of the Jews in the United States, who are driving American politicians with a pitiless whip."

### REPUBLICAN PLOT FAFFLED.

LISBON, Portugal, Dec. 10.—(Can. Press.)—Another serious plot has been discovered. The bluejackets of the cruiser Sao Gabriel had planned in conjunction with the Sixteenth Infantry and a body of civilians to attack the Republic guard, which, on account of its having been the royal body-guard has always been suspected of ultramarine devotion to the republic. The authorities learned of the plot and circumvented it by sending the drawing the guard from patrolling the streets. Nevertheless a great agitation prevails in the city in spite of the efforts of the republican leaders to convince the people of the folly of such dissensions.

### ITALIANS ARE EXPELLED.

CONSTANTINOPLE, Dec. 10.—(Can. Press.)—The Constantinople papers announce that the Turkish government has decided to expel most of the Italians from the Gallipoli Peninsula, the territory around the Dardanelles and Smyrna. It is understood that the expulsion will become operative first in all fortified places.

### SHELDON'S CREDITORS "STUNG."

MONTREAL, Dec. 9.—Sheldon's creditors may remain in the undisturbed possession of any sums paid to them by the financier's creditors must register themselves to their losses. This was the outcome of a judgment rendered by Justice Greenfield in the case of Welks and Burnett, against C. S. Matthews, liquidators of the Sheldon estate.

### UNIVERSITY THEATRE NIGHT.

The annual Toronto University day, Dec. 14, at the Royal Alexandra Theatre. Louise Gunning in the Eleanora Princess has proved a good drawing card and almost the whole house has been sold. A few seats, however, remain in the parquet. These will be on sale at the university gymnasium on Monday and Tuesday from 4 to 6 o'clock, after that at the box office of the Royal Alexandra. As it is hoped that this will be the last night, graduates kindly get your tickets at the gymnasium. Orders may be phoned to College 5000, gymnasium, which will be mailed the same day.

### CLAIMED PANKHURST AT MONTREAL.

MONTREAL, Dec. 10.—Mrs. Emmeline Pankhurst, the noted militant suffragette, makes her debut to Montreals to-morrow, but this is not her first visit to Canada—the having been in Toronto two years ago. She will reach the city on Monday morning and will be received by the local Council of Women in the afternoon in the Crescent Hall.

### TO-MORROW EVENING Mrs. Pankhurst will review the work accomplished in England, and she hopes to greatly help forward the votes for women.

SENTIMENT IMPROVES.
Sentiment in Wall-street showed a tendency to improve on Saturday, and the market acted very well throughout the half session, prices gradually hardening, and closing generally at a small advance for the day.

TOBACCO POOL CLOSED
New Industrial War in Southern States Effectually Ended.

LEXINGTON, Ky., Dec. 8.—It was announced here to-day that the American Tobacco Company had purchased from the Burley Tobacco Society, at a price of a half a cent a pound, all the tobacco remaining in the 1909 pool—about eight million pounds.

THE BANK STATEMENT.
NEW YORK, Dec. 9.—The statement of clearing house banks for the week ending Dec. 8, 1911, shows a general increase in excess of legal reserves.

LONDON STOCK MARKET.
LONDON, Dec. 9.—Money and discount rates were firm to-day. The stock market was quietly steady with bear covering the chief influence in making Home rails, Kerrins and Mexican rails fractionally dearer.

ALL TO THE GOOD.
With a good crop statement, a good cotton statement, a good steel statement, and a good bank statement, the market should open strong Monday.

The Trend of Earnings.
Railroad gross earnings still show a decreasing tendency, the total of all United States roads reporting to Dun's Review to date for the four weeks of November aggregating \$38,162,828, a loss of 0.6 per cent.

Something Doing in C.P.R.
A meeting of directors of C.P.R. is scheduled to be held in Montreal Monday, and it is thought that there may be an announcement after the adjournment, increasing the common stock for purchase of equipment, terminal improvements and hotel properties.

Turned Down English Plan.
NEW ORLEANS, Dec. 9.—The Cotton Exporters' Association and jobbers of this city have refused to approve the central bureau cotton bill of lading validation plan as outlined by Liverpool interests.

Poultry Emporium of  
M. P. MALLON

Continuous progress all along the line is the dominating feature of the business conducted by M. P. Mallon at 32 Jarvis Street, on the east side of St. Lawrence Market.

Mr. Mallon is the youngest son of John Mallon, one of the most widely known live stock men in the Dominion, and who conducted a wholesale and retail business at the St. Lawrence Market for a great number of years. M. P. Mallon has made an exclusive business of dealing in all kinds of Poultry and Game, and has built up an extensive connection. He has business relations throughout the whole of Ontario, and deals considerably with United States firms. After nearly doubling the business in 1910, during the present year nearly another twenty-five per cent. has been added, and Mr. Mallon is still reaching out for more. The above cut shows a portion of the daily receipts and shipments occurring at Mr. Mallon's premises, and conveys some idea of the volume of business transacted.

### PUDDY BROS.

This firm is composed of five brothers, of whom Edward is the President; James, Vice-president; Henry, Secretary-Treasurer; Alfred and Albert, Managing Directors.

Puddy Brothers are to be highly commended for their efforts and success in the packing trade, coming to Toronto in the early eighties from Guelph, the stock centre of Ontario, in which city they were raised.

Their father, George Puddy, now deceased, was a prominent drover in his day, and brought his boys up in the business. They have, step by step, through their own efforts, advanced from small beginners to the position they now occupy, viz., if not among the first, a close second in this important trade.

Edward Puddy, the president, is well known to all the drovers throughout Ontario, is acknowledged by all to be a man of sterling qualities, a first-class judge of all kinds of live stock, and can be depended on for a fair deal.

The other members, although not so well known in the live stock trade, are equally well known among the great number of purchasers of beef, lamb, veal, mutton and pork products throughout the province, and if the volume of business and reports are anything to go by their success is already assured.

Edward Puddy is still a young man, just in his fifties, hale and hearty, and anticipates long years of service for him before he hands over the important position as the firm's chief buyer.

James, the vice-president, a man of 48, is perhaps one of the best-known buyers of dressed as well as live stock, from the farmers north and west of Toronto, always welcome by the host of yeomen who wend their way toward the city via the wagon route, and is also very popular among the numerous shopkeepers of the city.

Henry, the secretary-treasurer of the Company, is a well-known figure among the merchants of Toronto. At one time he was president of the Retail Merchants' Association. He is in his early forties and considered a man of power in the packing trade.

Alfred is not only big in size, weighing 250 pounds, but is considered a big man in the management of the shipping end, as well as a first-class salesman, having friends who very rarely purchase any goods from other firms if he can supply their needs.

Albert, the genial retail merchant, who has spent the greater part of his business career as manager of the firm's retail branch at 136 York Street, deserves great credit for the able manner in which he has managed that department, having one of the largest retail trades in the city.

Large developments have occurred in this firm, but bigger ones are expected in the future.

## MAYBEE & WILSON

LIVE STOCK COMMISSION DEALERS

WESTERN CATTLE MARKET AND UNION STOCK YARDS

The firm of Maybee & Wilson have been in the Live Stock business for a great many years, in fact they are one of the pioneers in the Live Stock Trade of this city. They have a large connection all through Canada and have also been identified to a large extent in a foreign trade with the United Kingdom and Switzerland.

Their gross sales in cattle, sheep and hogs for 1911 will be upwards of \$2,000,000.00. These figures alone will give the drovers and general public in Canada some idea of their large business and speaks volumes for the confidence that is reposed in them by the country drovers and Live Stock Dealers who entrust them with their shipments.

They employ no Solicitors for their trade, in fact it is a well-known adage on the market that the shipper has to ask this firm to handle his live stock for him. This speaks well as once they get a consignment from a customer, they spare no pains to give him every satisfaction.

In addition to selling all classes of Live Stock for their numerous country shippers, they enjoy a large order trade extending from Calgary, in the West, to all parts of the Maritime Provinces.

They are heavy buyers of all classes of Butcher and Export Cattle, and in connection with their large order department, they also conduct a separate department for all kinds of feeding and store cattle for farmers' uses. This branch of the business is conducted by Messrs. C. H. Maybee and R. Wilson, and intending purchasers of this class of stock would do well to consult this firm.

The Principals of the firm are Mr. Joseph Wilson and Mr. E. Maybee. Mr. Wilson has been identified with the cattle trade of Canada for the past forty years, in fact, Mr. Wilson was the pioneer in Northwest Trade, having shipped the first cattle that ever came over the C. P. R. from the West. Mr. Maybee has been in the trade for almost eighteen years and has had a large connection in the Order Trade both in Canada and Foreign Countries. They are both capable men with a large experience in all branches of the business. They are both members of the Toronto Board of Trade and take an active interest in the development of the Live Stock Trade and kindred interests in the City of Toronto.

Application, C.N.O. Railway, for approval of location of its railway through part of Toronto and Townships of York and Etobicoke, mile 21 to mile 21.97, from Wellington-street.

Application, C.N.O. Railway, for authority to construct its lines and tracks across the lines and tracks of the C.P.R. at Winchester-street, Toronto, at mileage 252.8, from Ottawa.

Application, C.N.O. Railway, for authority to cross with its lines and tracks the lines and tracks of the G.T.R. and C.P.R. at Queen-street, Toronto, Township of York, mile 264, from Ottawa. Adjointed hearing.

Application, C.N.O. Railway, for authority to cross the tracks of the G.T.R., near Davenport-road, Toronto. Adjointed hearing.

Application, C.N.O. Railway, for authority to cross the tracks of the C.P.R. and G.T.R., near St. Clair-avenue, Toronto. Adjointed hearing.

Gates at Crossings. Application, City of Toronto, for an order directing the G.T.R. to erect and maintain gates at Royce-avenue, Toronto, and operate such gates by watchmen.

Application of the City of Toronto for an order directing the C.P.R. to erect gates or other protection as the board may deem proper at Dovercourt-road crossing, Toronto.

Complaint, Township of Exhambury, alleging refusal of G.T.R. to have early morning train to Toronto stop at Goodwood, Ont.

On recognition and non-delivery of freight in the City of Toronto. The C.N.R., G.T.R. and C.P.R. will be required to produce all cartage agreements on foot between the respective companies and their cartage agents. Also to show cause why an order should not be made requiring them to furnish the facilities and means necessary to transport and deliver all freight traffic entrusted to them with due dispatch.

Bell Island Rates. Application, City of Toronto, for an order that the Bell Telephone Co. be required to change present rates to subscribers for use of telephones upon the island and other parts of the City of Toronto, so that the said rates or tolls do not unduly discriminate between the island and other parts of the said City of Toronto. Adjointed hearing.

Application, Township of York, for an order directing the C.P.R. and C.N.R. to furnish plans forthwith to the township showing in what manner the said railway companies propose to effect entrance to the City of Toronto over the lands of the Township of York in the vicinity of Maclean-avenue and Yonge-street, north.

IMPORTANT MEDICAL APPOINTMENTS. Leading Canadian Physicians Become Consultants to the Muskoka Sanitaria.

The trustees of the National Sanitarium Association have announced to the medical profession in Canada that they have appointed Dr. W. P. Cavan, Dr. J. E. Fotheringham, Dr. H. E. Anderson and Dr. Harold Parsons as consultants to the Muskoka Cottage Sanitarium and the Muskoka Free Hospital. These well-known physicians will spend a day regularly once a month at the Muskoka homes. The visits of Dr. Parsons, who has charge of tuberculosis clinic at the Toronto General Hospital, will be every two months.

DOMINION LIVE STOCK CENTRE

In the live stock show which is to be held at the Union Stock Yards to-day and to-morrow, the people of Toronto and the Province of Ontario will witness one of the best exhibitions of this kind which have ever been attempted in the Dominion.

This is the second fat stock show under the auspices of the Union Stock Yards Company. The entries are far in excess of those of last year, and the quality of stock is also higher. The directors of the Union Stock Yards are playing a big part in maintaining Toronto's position as the leading live stock centre in Canada.

The accommodation provided at the Union Stock Yards is up to date. It is not as large as some of the big live stock markets in the United States, but in equipment, its superiority cannot be contested by any other yards on the continent, and probably it compares favorably with any smaller industrial enterprise in the world. The location of the yards is advantageous from several standpoints. The yards are now served by the two leading Canadian railroads, and it will not be long before the new transcontinental C. N. R. will be able to put live stock directly into the Union Stock Yards.

During the past year large additions have been made to the pens, owing to the constantly increasing receipts. It will be seen by the list of entries given on another page, that exhibits are being made by nearly all the leading live stock exhibitors in the Province of Ontario.

This exhibition should not only appeal to the farmers and the live stock men, but should be attended and appreciated by the citizens of Toronto as a means of seeing what is being done at the Union Stock Yards in endeavoring to build up a branch of industry which will be of material advantage to the city in future years.

The receipts at the Union Stock Yards for to-day are 232 cars, and represent the largest run at any market for one day in Canada. The receipts include 3490 cattle, 2078 hogs, 3166 sheep, 63 calves and 27 horses. In connection with the show there is a high-class poultry exhibit. The exhibitors are the employes of stock yards, railroads, packing houses or commission merchants, and the display is an excellent one when these restrictions are considered.

The growth of the business at the Union Stock Yards is well shown by the following statistics:

THE MAN ON THE STREET

Archdeacon Cody's Sermon on Topic 'Everyday Person Can Take to Heart.'

'The man on the street' was the topic for Archdeacon Cody's Sunday morning sermon at St. Paul's Church. The text was found in Nehemiah vi: 4 when his enemies invited an open letter. 'Wherein was written: It is reported among the heathen, and Gashmu saith it, that thou and the Jews (think to rebel): Nehemiah had prayed: Oh, God, strengthen thou my hands,' and had overcome their machinations.

The man on the street was a sort of general referee, whose opinion was heard on art, politics, religion—all things. He was most formidable; invincible, yet all the more potent, voicing the distilled essence of public opinion. He was the modern Gashmu and could be heard to-day criticizing the church and the members thereof, in the spirit of the Pharisee. 'Even in the churches there is too much morbid introspection,' said Dr. Cody. The modern Gashmu even posed as an authority in theology, his knowledge thereof gleaned from novels, newspapers and magazine articles. Criticism was better than indifference, but the best criticism was that prompted by knowledge and sympathy. How far was the church to-day striving to meet the needs of the great mass? It should learn to speak the eternal truth in the language that men, women and children can understand. There should be love and charity in its message. The Christian church was not declining; it had scarcely begun. The man on the street should also become a man of God, taking the hand of the Man of Nazareth to be made new again. The church was to-day doing more than anything else to keep the world clear and sweet to live in.

The modern Gashmu was also to be found in the social circle as the talebearer and scandal-monger. Every healthy person was interested in other human beings, but what was to be said of others should first pass the test of the three queries: Is it true? Is it necessary? Is it kind? Then, there was the Gashmu of public opinion, which, while it was oftentimes beneficent in making certain people live up to a certain standard often kept others from rising above that same standard. Public opinion was at its worst when it was dominant; for then the individual took refuge in it, instead of assuming his own responsibility; at such a time, it was noisier, but not the wisest. Christ's cross had set up a new mea-

U. S. STEEL STATEMENT.

NEW YORK, Dec. 9.—The monthly statement of unfilled orders of the U. S. Steel Corporation issued to-day, shows an increase of 447,827 tons over the previous month's record. Unfilled orders totalled 4,141,955 tons on Nov. 30, against 3,694,228 on Oct. 31, and 3,611,317 on Sept. 30. On Nov. 30, 1910, the unfilled tonnage was 2,769,413.

November 14, land warrants were 800 to 825 bid, with no sales. And on Nov. 23 a sale was made at \$770. On Oct. 9 they sold at \$890.

ADVANCE IN WARRANTS.

A big advance in South African land warrants has occurred during the past few days, following the announcement that the date limit would be extended for a longer period. The time of expiry formerly was December 1, but another year has been added, so that now they hold good until December 1, 1912. Sales of warrants were made last week as high as \$1000, an advance of over \$200 from previous prices. On

LONDON, Dec. 9.—Quaint and beautiful fantasies in fur and feathers filled the Crystal Palace from end to end the opening day of the great International Show of poultry, pigeons and rabbits. There were 12,500 entries, an army of judges, \$25,000 in prizes to be awarded, and visitors present from all parts of Europe. The luxuriously ornamented Belgian section, where the choice little Belgian bantams were on show for the first time in this country, was a centre of much curiosity. Most admired of these charming bantams were the mellefifous variety of the barbu d'Uccle, a race de luxe in Belgium. Elegant in form, and richly diversified in markings, their colors consisted of dark fawn in ground with a tinge of black, bordered with a white crescent above it, at the end of each feather. Another variety of the barbu d'Uccle had a Nankin ground color with each feather spangled at its end with light, delicate blue.

At the regular Sunday afternoon service of the Canadian Temperance League in Massey Hall, Rev. Geo. E. Stewart, D.D., addressed the large audience present, on ways and means of stopping the liquor traffic. The chairman, J. S. Robertson, introduced the Rev. Mr. Stewart. He said that Mr. Stewart was a man who was with Sam Jones for sixteen years and had had a great deal of experience in temperance work.

Mr. Stewart is a typical southerner, frank and witty. In the course of his remarks he said that the temperance cause would never amount to anything until everybody got behind it and hoisted. The saloon was a great evil. There was nothing about it that was good or uplifting. He thought that the only way for the people to crush the liquor traffic was, not only to stop the sale of liquor, but to put the source of supply out of business. Mr. Stewart interspersed his talk with a great many humorous anecdotes and altogether made quite an impression on his audience.

Western W. C. T. U. will meet on Tuesday at 3 p.m. in the West Association Hall, corner of Queen and Dovercourt. Mrs. Fletcher, district corresponding secretary will give a report on the Dominion convention.

ROWELL'S LAST APPEAL TO N. OXFORD ELECTORS

Will Hear Returns in Woodstock in Resigned Spirit—Sure of His Own Election.

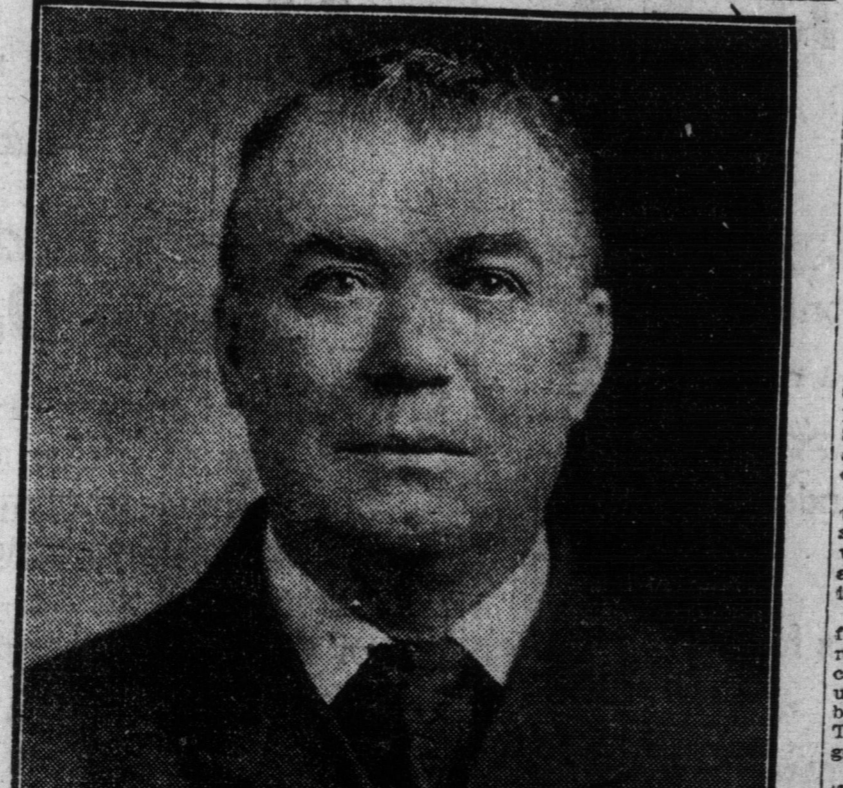

WOODSTOCK, Dec. 10.—(Special)—N. W. Rowell, E.C., the Liberal candidate in North Oxford, and leader of the Ontario opposition, is confident of being returned as the representative of this old Liberal riding, and judging from his remarks made at the last Liberal rally of the campaign, held here last night, he has no doubt but that he will be elected. A large number of the followers of Mr. Rowell were in attendance at the rally, and the Liberal club rooms in which the meeting was held were crowded to the doors.

After addressing the meeting in Woodstock, Mr. Rowell was hustled over to Ingersoll, where he addressed a meeting in the interests of Col. T. R. Maybee, the candidate in South Oxford. Mr. Rowell was given an excellent hearing.

The speaker outlined the various planks in the Liberal platform, and appealed to those present to give him a strong opposition so that the power of Sir James Whitney might be curbed to some extent. The waste of the Whitney administration was criticised severely by the Liberal leader, who claimed that the Conservative government had been negligent in many ways. In regard to the outlook in the coming election, Mr. Rowell stated that from one end of the province to the other, the Liberals were up and fighting, and would no doubt give a good account of themselves on Dec. 14.

A full rehearsal of the Toronto Festival Chorus and Orchestra on Elijah will be held on Tuesday evening at the Toronto College of Music. Members are requested to take notice and be present.

Charles and A. W. Maybee are two of the sons of the late Henry Maybee, who was a drover in Eastern Ontario all his life. Being born into the cattle trade it comes as second nature to the Maybee Bros. and their judgment of any section of the business consequently stands high among others in the trade.
