ALDERMEN HAVE WORDY ENCOUNTER IN COUNCIL

One Calls Another a Wretched Villain, But Retracts—6 Months Limit Bylaw Voted Down.

HAMILTON, July 8.—(Special.)—The city council session this evening wound up with a wordy encounter between Ald. Clark and Ald. Farrar. Ald. Allen jumped into the fray beside Ald. Clark, and referred to Ald. Farrar "as a wretched villain who went behind his back to cut his throat."

Thousands of Pairs Not many stores in Toronto can give you such a wide selection of patterns in Trousers as we can. When we tell you that there are thousands of pairs to select from, we make no boast. Our Pantry is always stocked with the best pants obtainable, from the lowest priced to the best, which means a price range from \$1.50 up to \$7.50.

"COME ON IN"

OAK HALL CLOTHIERS

King Street East Right Opposite the "Chinax." J. COOMBS, Manager

BEACH'S ONE RING CIRCUS.

Eight Austrian Acrobats Who Excited Wonder at the Park.

There are eight Austrian acrobats at Scarborough Beach this week, with the unpronounceable name of "The Pickaniss troupe," who can teach things to the most inveterate circusgoers. Why they are not with a big circus no one can tell, for their act would assuredly be a feature with any tented aggregation.

A TINY TRAMP.

Boy on Way to Montreal Who May Be Willie Ward.

Little Willie Ward, who disappeared from his home at 36 Fisher-avenue, on Thursday, June 27, may be traced.

Last night, just before dusk, a lad about 14 or 15 years of age, dressed in long blue trousers, with little double-breasted coat, and peak cap, was seen at York station, walking east. He looked as if he had walked quite a distance. He said that he had walked from Montreal to Toronto, and was returning to win a bet. He was to do the trick without being arrested.

THE COREAN DEPUTATION.

Emperor, Asked to Explain, Gives an Evasive Answer.

SEOUL, July 8.—At a meeting of the cabinet ministers in the presence of the emperor last night, the former raised the question of the source of the authority under which the Korean deputation at The Hague was acting.

PASTEURIZE MILK SAYS U.S. GOVERNMENT

Pasteurization of all milk is strongly recommended by the United States government.

Fought in Front of Church.

Theodore Harold Lalonde had not spoken to his wife for two months.

Carpenters Meet.

At a meeting of the executive of the Amalgamated Carpenters at the Labor Temple last night, it was decided not to recognize the Independent Labor party.

Constant Coughing Destroys the Lungs.

Be sensible and get cured. Easily done with "Catarrhose." No drugs, cocaine or alcohol; just a clean antiseptic remedy for throat and bronchial and catarrhal trouble that cures every time.

WANTED

The National Club, Toronto, require a thoroughly experienced Steward, also Housekeeper. Applicants must supply highest reference as to character and ability. An excellent position for man and wife. Living accommodation provided in new Club Building. Address applications to:

R. F. LORD, Secretary National Club, Bay Street, Toronto, Ont.

connected with the milk supply," recommends to the public:

"The successful Englishman of France was quite natural and untroubled Scotchman or Irishman, often turns out on investigation to be, if not an American, an Italian, or a Jew, at least is not depending on the brain, on nervous energy, and the freedom from romantic illusions (often called love) by a special formula of his management of his sources of income."

Nature Fake.

Nearly all bats have the faculty of hibernating. Their hibernation, however, is not perfect—has a few white hairs when the warm days occur in the middle of winter, they wake up, together with the insects which are their food. Still, there is a true hibernation trance, differing from sleep, with very low rate of pulse, heart action and respiration. Probably they would endure immersion in water for an hour or two without drowning, as other hibernators have been found to do—Pittsburg Dispatch.

SAFETY

Refer to the prejudice among some medical men against pasteurization, the report says:

The advantages and disadvantages have been exhaustively studied by Dr. M. J. Rosenau, director of the Hygienic Laboratory of the United States Bureau of Public Health, and in his opinion the advantages so far outweigh the disadvantages that he "unhesitatingly recommends compulsory pasteurization of all milk not certified."

For certification the report specifies certain definite conditions, including the requirement that the milk be produced from cows proved free from tuberculosis by the tuberculin test. As to certified milk, the report says: "Certified milk is reasonably safe but this is no guaranty that it may not occasionally contain germs of disease, and those who desire to guard against this slight risk should pasteurize it in the home."

On the dangers of raw milk the report is clear and emphatic, saying: "Such hydrated diseases as cholera, infantile diarrhea, fever, and diphtheria have been disseminated in the milk supply. Typhoid epidemics have been thus caused, and milk may be the vehicle of the germs of tuberculosis and other infectious diseases and morbid agents."

The establishment of pasteurizing plants is urgently recommended, and the committee being "so strongly impressed with the manifold dangers

CANADIAN CHEESE IN BRITAIN.

In a recent notice of trade conditions in Canada, Dun's Review called attention to the fact that, the Canadian cheese shipments during the last week of June were the largest for the season.

The total exports to that date were only \$42,770 boxes, against 442,853 for the same period of 1906. Of butter, only 175 packages had been exported this season, against 65,190 packages at the same date a year ago.

This considerable falling off in the volume of cheese and butter exports is no doubt partly attributable to the backward season, but it is also due to the conditions of the British market, which indicate a distinct reaction against the high prices hitherto prevailing.

In the May report, forwarded to the department of trade and commerce by Mr. P. B. MacNamara, commercial agent at Manchester, England, he stated that, the cheese situation there was then most perplexing.

Canadian cheese had had a splendid advertisement given to it by the low price at which it was retailed all over England.

The conjecture was offered that the old stocks had been too heavy for assimilation by the trade before the arrival of new supplies, and this had led to the break report of the retail combination formed to maintain prices.

The finest September Canadian and New Zealand cheese, selling at 15 cents, was dropped to 14 cents, then to 13 cents, and even to 12 cents a pound in competitive districts.

Consequent upon this, the consumption increased and the stocks were liquidated with the resulting extraordinary situation of a wholesale price of 68 and a retail price of 65.

Mr. MacNamara added that the English retail trade, and the wholesale merchants were very sore about the small margin of profit made on Canadian cheese in the season now finished.

The Dominion agent indicated that a little adjustment of this extreme position was only to be looked for and hoped the new season would open at reasonable prices, and that exporters and importers would be satisfied by buying from hand-to-mouth to allow the market to take its natural course.

The only two factors, he remarked, that should influence the price, are supply and demand—speculation induces an artificial element, holding no good to the honest trader.

In closing this section of his report, Mr. MacNamara threw out a hint to which manufacturers should give attention.

Canadian cheese all thru the past season had the prevailing fault of greenness, and ought to be shipped in ripener condition. Now that the Canadian product has been so well advertised, very effort should be made to retain the advantage gained, and this can only be done by studying the British market and supplying an article of the quality and maturity demanded.

Many of our market towns in Ontario might adopt the public rest-house now being established by many a municipality thru the middle west.

The farmer's wife in town finds it dull work putting in the day. Often on a Saturday afternoon the women are crowded in an hotel parlor, and many of them,

especially those accompanied by children, look, and no doubt feel, dragged-out and worn-out.

The rest-house aims to furnish comfortable and nicely furnished quarters, where the farmers' wives and daughters can meet with cheerful surroundings, plenty of room, and every convenience at hand for personal comfort.

Sometimes the basement floor of the courthouse or town hall is fitted up; sometimes a detached house is provided by the municipality, with a large, well-fenced yard for the children to play in. An attendant is always provided.

The municipal rest-house does not interfere with private enterprise. It but recognizes the duty of the town to be hospitable to outsiders who come to do business in the town, and it recognizes and expresses the growing conviction that the petty discomforts of daily life should be done away with as far as possible.

THE DOMINION OF NEW ZEALAND. When the Australian Federation Act was in process of consideration, room was provided for the inclusion of New Zealand, should that colony so resolve.

At one time it did not seem unlikely that this would happen, but the movement, if it ever existed, did not long survive. Public opinion in the British of the Southern Sea favored the maintenance of its independent status, and as such it takes its part in the Imperial conferences.

At the opening of the New Zealand parliament, on June 27, the governor intimated that the British ministry had agreed to advise the King to raise the status of the country to that of a Dominion.

Commenting on this, Mr. Pember Reeves, the high commissioner in Britain, declared that they, in New Zealand, were an entirely separate colonial entity, and were too far distant from the other parts of the empire for federation, and looking to the future they did not want to be in an inferior class to Canada, Australia and South Africa.

Altho the population of New Zealand, including the Maoris, is still under a million, there is ample reason for the belief that it will in the not distant future justify the higher rank now accorded to it.

Apart from the three islands forming New Zealand proper, it exercises control over the outlying Kermadec, Chatham, Bounty, Antipodes, Auckland and Campbell Islands, and over the Cook Islands, Niue, Manihia and other islands and atolls in the South Pacific.

Its total area, including dependencies, is about 106,000 square miles, as against the 121,000 square miles of the United Kingdom. Within this small compass it has mountain ranges rising to an altitude of 12,949 feet, and many very large glaciers.

Its largest lake, Tanpo, covers 238 square miles; its deepest lake, Manapoti, takes 1458 feet of sounding line to touch bottom. It occupies the latitude in the southern hemisphere that Italy does in the northern, and is in all respects a continent in miniature.

But New Zealand has other and more novel titles to distinction. It has long been known as the most striking exponent of progressive democracy in the world.

New Zealand is not hindered by railroad and other public-utility corporations that disregard their charters and agreements and defy the law. Yet it is prosperous, and within a few years has seen a wonderful expansion in commerce, industry and every department of national activity.

Its education bill for the financial year, to March 31, 1906, totaled close on \$2,500,000, of which about \$25,000 was spent on the public school cadets. It paid in old age pensions over \$1,250,000; it spent \$2,807,342 frozen rabbits. Its live stock had increased over 40 per cent. in the last five years.

An enterprising community of this kind deserves the higher state rank now conferred upon it, and by none of its dominion sisters, but it is more heartily welcomed than it is by the Dominion of Canada.

BOARD OF TRADE REPORT. The annual report of the Toronto Board of Trade for 1906 contains a number of fine engravings and a vast amount of valuable information.

All the important happenings in the business world are referred to, and considerable space is given to the Cobalt region, railway rates, freight discriminations and kindred subjects.

The annual address by President Peleg Howland will repay careful study. The report emphasizes the fact that Toronto is the distributing centre of the Dominion. It is well-edited and embellished by numerous illustrations, and is creditable to the board and to F. G. Morley, the efficient secretary.

CLERICAL WORK IN HIGH SCHOOL. Toronto has one of the largest collegiate institutes in Ontario. The Harvard-st. institute, with its attendance of nearly 700 pupils and staff of 19 teachers—for that number of pupils the staff itself should be 21 or 22—is second in size only to the London institute, and in its own district it would probably exceed the western school in size.

Principal Hagarty of Harvard-street recently approached the board with what seemed like a reasonable request, namely, that he be relieved of office work of a mechanical nature and be allowed an opportunity to teach more and devote himself to the educational aspects of school management, instead of writing and printing reports, tabu-

THE TREAT VALLEY CANAL AND THE RY. COMMISSION

Correspondent Who Points Out the Responsibility for the Excessive Rates on Coal to Peterboro District.

Editor World: At the opening of the lift-lock at Kirkfield on Saturday last, the Hon. Rodolphe Lemieux made the statement that there were few subjects more fascinating to the imagination than that of transportation, and proceeded to enlarge upon the immense advantages that would be derived from the building of the Trent Valley Canal. R. R. Hall, M.P., who followed him, depicted in glowing terms the coming of the day when the harvest of the great west would be carried to the seaboard by way of the new canal, and all this, forsooth, was to be done in 750 ton barges thru a canal with a maximum depth of eight feet four inches.

As commercial enterprises, the Trent Valley Canal and the proposed canal in North York are foredoomed to failure. The demand for their construction has arisen thru the fact that the rate for carrying coal by rail from the west to Peterboro is 90 cents per ton, while the rate from Port Hope to Peterboro, a distance of about 144 miles, on coal vessels, is 60 cents per ton, while the rate from Port Hope to Peterboro, a distance of 30 miles, on coal vessels, is 80 cents per ton. On a proportionate basis the rate from Port Hope to Peterboro should not be over 20 cents per ton.

If the people of Port Hope, Belleville, Kingston, Peterboro and other points similarly situated, desire to get their rates placed upon an equitable basis, they should at once petition for the issue of an order such as that referred to on page 93 of the report of the board of railway commissioners.

In dealing with the railways the public get precisely what they deserve, and if the people in the district mentioned above want to have their rates remain as they are, they should at least have sufficient regard for the balance of the country to refuse to become parties to a scheme which would effect the transfer of the country's money from the squares in which it is useless for commercial purposes.

The only way in which justice can be obtained is to demand from the government the appointment of a board of railway commissioners for each province, and have these boards composed of competent transportation men who are capable of dealing intelligently with transportation problems.

It is physically impossible for one board of railway commissioners to deal intelligently with the business of the entire country. J. H. Duffie, Toronto, July 8, 1907.

country. The question of coal rates was long ago placed before the board of railway commissioners in a forcible manner, and it is evident that they were impressed with the necessity for a change, but they have utterly failed to take action to secure equitable rates for the people of Ontario.

On page 93 of the first report of the board of railway commissioners for Canada, submitted to the government, appear the following terms: "September 5, 1905, railway companies required to place their rates on coal on an equal basis with those on other commodities." I desire to point out to the Hon. Mr. Lemieux, the government, and the people of Ontario, the fact that no such order has been issued by the board of railway commissioners, and matters stand as they were prior to the creation of the board of commissioners, so far as the regulation of railway rates is concerned.

The evening's entertainment arrangements have been completed with the management of Scarborough Beach Park for a visit of the members to that place, and you are invited to accompany them. The trip will be for the purpose of the order such as that referred to on page 93 of the report of the board of railway commissioners.

The headquarters of the Knights of Pythias during the convention will be at the Hotel Hamilton, 111 St. James-st., Toronto. H. J. Duffie is chairman and G. W. Bacon is secretary of the general committee.

What You May Expect. Here are a few things you must expect to be told by the natives of the place at which you spend your vacation during the summer.

This is the hottest summer we've ever had here. Things have never been so backward as they are this season. It ain't never been so wet here before.

There's lots of fish here, but for some reason they ain't bittin' just now. If you'd of been here last week you could of pulled 'em out faster'n you could bait 'em.

It's too bad you ain't got to be here about two weeks later. Things just begun to get better here.

There was a man ketchin' one that weighed 'leven pounds in here day before yesterday.

Generally we have lots of vegetables, but our garden ain't doin' so well this year. Chicago Record-Herald.

Ontario Government Prizes. The Canadian Hackney Horse Society special prizes in the natural history department at the Canadian National Exhibition, Toronto, July 8-13, 1907, were as follows: H. J. Duffie, Toronto, for a collection illustrating the effects of fungoid disease upon cultivated plants, and for the best exhibit of woods and leaves from the forest trees of Canada. Prizes of \$30 will be given in each section.

Reflections. The school of experience is always a pay school, and the females are the principal pupils.

Some fellows propose to a girl on their knees, and some on their uppers. When a man gets to heaven there will be only one to say: "It's just his luck."—New York Press.

Speed at Toronto Exhibition. The prizes in the trotting and pacing section at the Canadian National Exhibition, Toronto, have been increased by \$5 per cent. A new class has been added in which trotters and pacers will compete, which will be decided on Friday, Sept. 6. The trials will be run on the three-heat plan, each heat a race. The stake money will be decided accordingly.

Babe Drowns in Pool. PARRY SOUND, July 8.—An 18-months-old son of Moses Schmidt of Conger Township, shot to death in this place, was drowned by falling head first into a pool of water.

Coming to America. TOKIO, July 8.—It is reported that Director Ishii of the foreign office has been ordered to proceed to the United States and Canada in connection with the Japanese labor question.

SHERIFF OF HALDIMAND. Michael Macdonald, Cayuga, has been appointed sheriff of Haldimand County, in place of Robert H. Davis, deceased.

Regatta for Scarborough Beach. A number of representatives of aquatic organizations are very favorably impressed with the possibilities of a regatta in front of the Scarborough Beach Park, and it is believed that the management will take the matter up. There are few stretches of sand beach on the entire lake front as perfect as at this point. The water for a hundred yards below the shore is of considerable distance out a large sand bar is encountered. This not only serves to keep the water quieter, but also renders it warmer for bathing.

T.M.B.A. Meet. ST. LOUIS, July 8.—The eleventh biennial convention of the Theatrical Mechanical Association began to-day and will be in session thruout the week.

It is stated that a proposition will be made to change the word "mechanical" and substitute "musical" to dispel the idea that the organization is affiliated with the labor movement.

G. E. Mogridge, Attention! George E. Mogridge, who enquired for his mother at 75 Hampton-st., London, may hear something by enquiring at the office of the director of colonization, parliament buildings.

PYTHIANS HERE TO-DAY.

Convention of the Knights of Pythias Will Last for Three Days.

For the next two or three days, Toronto will entertain prominent members of the Knights of Pythias from the United States and Ontario, who are gathered here to attend the annual convention of the provincial grand lodge, which opens in the Foresters' Temple at 9.30 this morning.

The visitors have been coming by almost every train during the past two or three days, until there are now about two hundred members of the order from outside points in the city. Some of the most prominent officials of the supreme and grand lodges are here. His Honor Judge Charles E. Barnes of Jacksonville, Ill., supreme chancellor; Hon. H. P. Brown of Cleburne, Texas, supreme vice-chancellor; Hon. Zeno M. Host of Chicago, general insuring manager; Hamilton, Ont., Montreal, editor of The Pythian Review; C. N. Campbell, grand chancellor, Sault Ste. Marie; D. J. Peace, supreme secretary, Hamilton; E. A. Horton, S.R. Sarnia; Fred B. Hubert, grand inner guard, Brantford; T. H. Manley, grand outer guard, Sarnia.

At noon to-day Mayor Coatsworth and Ald. J. J. Graham, chairman of the civic reception committee, will attend at the Foresters' Hall and extend a welcome from the corporation to the visitors. The supreme chancellor, accompanied by Mr. Host, will be officially received at 2.15 p.m., after which the grand lodge will be declared in session, and members will be afforded an opportunity of hearing addresses from Messrs. Brown and Host, two of the ablest exponents of Pythianism.

The evening's entertainment arrangements have been completed with the management of Scarborough Beach Park for a visit of the members to that place, and you are invited to accompany them. The trip will be for the purpose of the order such as that referred to on page 93 of the report of the board of railway commissioners.

The headquarters of the Knights of Pythias during the convention will be at the Hotel Hamilton, 111 St. James-st., Toronto. H. J. Duffie is chairman and G. W. Bacon is secretary of the general committee.

COUNCIL SANCTIONS BYLAW METER CLAUSE INCLUDED

Some Aldermen Objected to It— Wickson Avenue Extension is Agreed to.

Despite the opposition of Ald. R. H. Graham and four colleagues, who took exception to the meter clause, the proposal to submit a bylaw to provide for the issue of "City of Toronto General Consolidated Loan Debentures" to the amount of \$781,172 for the improvement of the city waterworks was carried at the last regular meeting of the council, before vacation, yesterday afternoon.

A feature of the session was an address to the aldermen by W. J. Gerrard of Liverpool, Eng., secretary of the lord mayor's unemployed fund committee, and of the Liverpool district committee, who has been sent to Canada to look after the interests of the immigrants which these societies are sending out.

Mr. Gerrard spoke on the aims of the committee. It was to send the best of the brawn and brain of the mother land to the premier colony. The committee would not see their people stranded at Quebec, Montreal or Toronto, but would supply them with everything to get out to the country. He invited the co-operation of the Toronto citizens in this great work.

Ald. Lytle's motion to ask the Toronto Street Railway to provide straps for the open cars was referred to the board of control for consideration despite his protests that it was not a fair way of dealing with such an important question.

For and Against Meter. After Controller Hubbard had reported on the waterworks proposition, Ald. R. H. Graham moved the clause authorizing the setting aside of \$100,000 for the purchase of meters be referred back to the board of control.

He could not see the necessity of piling up the debt in such a manner. He was for buying meters as they were needed, out of the general taxes.

Controller Hubbard explained that this was a self-paying investment, and was, greatly to the interest of the city. The amount was not going to be used up at once, simply set aside.

Ald. Foster agreed with Ald. Graham and so did Ald. Sanderson. This brought Controller Hubbard to his feet with the rejoinder that Ald. Foster had quite a different view of the matter for his houses and that was the nigger in the wood pile as far as the latter gentleman was concerned.

The motion was lost. Aldermen McGhie, Whytock, Foster, R. H. Graham and Sanderson voting yes. That the council should order the sale of tax land at anything less than its present market value would be establishing a dangerous precedent was evidenced in its action in the Logan lands, when all the aldermen present and Controller Hocken supported Ald. Church's motion that the clause be struck out of the report and referred back to the board for further consideration. The other three controllers voted nay.

On motion of Ald. Foster the recommendation to reconstruct the macadam roadway on Queen street, from the wood-avenue to the east side of Kingston-road was referred back.

Ald. Graham was for a permanent sidewalk on the Lake Shore road between Sunnyside and the western entrance of High Park, but the rest of the board were in favor of repairing the present walk in accordance with the recommendation of the board of control.

Will Extend It. The Wickson-avenue extension, which had been largely petitioned for, met with some opposition from Aldermen McBride and J. Hines, who contended that the extension was not wanted, nor was it fair to the property holders at the other end of the street, who had no water, and who had exclusive quarter, and did not want their property depreciated by the fact that Wickson-avenue was not exactly a fine residential street.

Controller Hubbard thought that the poor people had a right to the extension, and so did the aldermen. He supported the motion to have the clause struck out of the report.

Ald. Bengough read a long report on the sessions of the American Play Ground Association to which he was a delegate from Toronto, in connection with the proposed play grounds of the city to be regulated.

The following bylaws were read the third time and passed, some by a majority of the council. Respecting the conduct of the business of the city during the vacation of the council.

To set apart a certain water lot west of Downing-avenue for park purposes.

To set apart and acquire certain lands on the west side of Christie-street, north of Bloor-street, for a public park.

To take lands for a police patrol station on Agnes-street.

The bylaw to amend bylaw No. 4881 relating to the erection of buildings received two readings and stands for consideration.

City Hall Notes. Referring to the buying of young Poland in the bay at the foot of John street Sunday, Property Commissioner Harris gave out the statement that the city cannot have the saving apparatus on private wharves. He also issues a warning to bathers that the water this year is more than six degrees colder than at this time last year.

John Lanigan of New York has written the board of control with a proposition to supply the city with water by gravitation from Lake Simcoe at a cost of cents per thousand gallons. The present cost of water in the mains is a half a cent cheaper. The Bell Telephone Company propose conduits on the falling streets. On Bathurst, from 106 feet south of Bloor-street, to 209 feet north of Bloor, and on Lytton, from the manhole on College-street to a point

WRECKING TRAIN WRECKED. In Going to Remove Debris, Tumbles 25 Feet Down Hill.

Arthur Lillen, 13 Franklin-avenue, Toronto Junction, had his leg broken in a train wreck at Cardwell Junction on the G. T. R. Sunday. The accident occurred to a wrecking train which had gone up to clear away the wreckage of a freight train which had been derailed about a week ago. The whole of the wrecking train except the engine left the rails, falling a distance of 20 feet to the second track. The officials can give no explanation of the occurrence. The tracks were all clear again within an hour.

ARBITRATION ACT FAILS. Australia Finds Compulsory Measure is Not Satisfactory.

According to advice which has just reached G. M. Murray, secretary of the Canadian Manufacturers' Association, the compulsory arbitration bill has been found a total failure, after having been given three years of trial in Australia. The premier there has announced his intention of asking the parliament of the commonwealth to repeal the act and appoint commissioners, who will occupy practically the same place as the Canadian fair wages officers. The Arbitration Act was all right in theory, but it was found impossible to enforce it in the case of the workmen. On the whole very little difficulty was found in getting the employers in line.

EXTORTED FALSE CONFESSION. Director of Penitentiaries Will Be Prosecuted.

ROME, July 8.—The criminal court has ordered the prosecution of Signor Doria, the director of penitentiaries, and another high official, on the charge of having extorted a false confession from Pietro Acciaruto, who was convicted of attempting the life of King Humbert.

CONFESSOR HIS CRIME. Alleged Murderer Arrested, First Confesses, Then Denies.

MONTREAL, July 8.—Michele Sylvestri of Providence, R.I., is under arrest here on a charge of having murdered his brother on Sept. 12, 1906, by striking him to the heart with a screw-driver.

ANTI-PAPAL LEAGUE. International Conspiracy With Intent to Wreck the Church.

ROME, July 8.—The Vatican has been informed of the existence of a secret international league, embracing Teutonic and Anglo-Saxon countries, of which it is said many members are of the German Catholic centre.

CRAZED WITH THE HEAT. Man Attacks His Fellow Worker With a Hatchet.

NEW YORK, July 8.—Becoming suddenly insane, probably from heat, while at work on the new building of the Trust Company of America, at 37 Wall-street, today a plasterer ran amuck with a hatchet among his fellow-workmen.

MAN ATTACKS HIS FELLOW WORKER WITH A HATCHET. Division Court List for To-Day.

WOMAN BADLY BURNED. LONDON, July 8.—While preparing dinner at the home of her brother-in-law, in West London, today Miss Lamport was seriously burned by the explosion of a gasoline stove, her clothing becoming inflamed, and before the flames were extinguished she was burned about the face, arms and hands and also about the body.

SOME VERY FAST MOTOR BOATS. Some very fast motor boats have been turned out this season by the Schofield-Holmes Machine Company, Limited, of Carleton-place, Toronto.

Their pleasure-boats are staunch, speedy, well-finished craft, and prospective buyers should make it a point to look them over before placing their order elsewhere. Their slogan is "High-Class Motor Boats" and their product certainly warrants its name. Phone Main 2284 and arrange for a trial run.

BOTTLE BLOWERS MEET IN 31ST CONVENTION. President Hayes' Report Dwells on the Improvement of Labor Conditions.

The Glass Bottle Blowers' Association's thirty-first convention opened its sessions yesterday afternoon at the Labor Temple. Delegates from all over America, to the number of 251, were present, and were soon ready for business. This union is 18,000 strong in America, and is one of the most prosperous. It has had no strikes for fifteen years, and it has a large reserve fund. The delegates are young men as a rule, and are prosperous and content. One notable exception is taken, however, Conrad Auth, the treasurer, is 74 years of age, and is the noblest Roman of them all. So say the delegates.

The presentation of credentials was the work of the morning. Practically all the delegates were on hand. President Denis A. Hayes called the convention proper at 2:30 o'clock yesterday afternoon. Mayor Coatsworth and Ald. Graham were present and delivered addresses of welcome. Robert Hunter of the District Labor Council and W. V. Todd of the Labor Temple Company also welcomed the delegates.

When the convention sat, President Hayes read his twelfth annual report. He is a dozen years he has presided over the destinies of the association, and today he is beloved by every member of the order. His address took 2 hours and 10 minutes to deliver. He was pleased that the convention had met in Toronto—a stronghold of unionism, and one of the finest cities in America. He was pleased to welcome so large a number of delegates, the largest in the history of the order. They came from the Atlantic to the Pacific and actually by the same spirit and same purpose it was bound to have a great influence in the days to come. He was glad to meet in a building dedicated to the cause of labor. It would be a shelter as well as an inspiration to earnest thinkers are seeking to better the conditions of the workers, and to this end harmonize the relations between capital and labor. He spoke of the phenomenal growth of the bottle trade during the past year. The wage scale had not been signed, but there had been little friction. The work of the convention will begin in earnest to-day. The committees will be struck and will begin work immediately. The convention will last ten days.

ANTI-PAPAL LEAGUE. International Conspiracy With Intent to Wreck the Church.

ROME, July 8.—The Vatican has been informed of the existence of a secret international league, embracing Teutonic and Anglo-Saxon countries, of which it is said many members are of the German Catholic centre.

NOT LAID UP, BUT VERY TIRED. You need a rest; you would take it if you could; your nerves are all upset; your stomach sour, and appetite poor.

There is dark in color, with excess of sediment, and bowels irregular. You are on a straight road to a general breakdown, and you will not arrive there if you do not take immediate steps to improve your condition. The age of miracles has passed, some diseases are incurable, but can prevent contracting them. King Palmetto Compound will give you immediate relief. If you wait until Bright's disease develops it may be too late. King Palmetto Compound is not a patent medicine. Its formula is plainly printed. It is the result of a scientific knowledge combined with plain common sense. Do not wait until actually laid up. Take King Palmetto Compound now. Give it a trial. Write for a free sample bottle to the King Palmetto Compound, Bridgeburg, Ontario. Sold and guaranteed by Burgess-Powell Co., 78 Yonge St.

CANADIAN SENTIMENT. (Canadian Associated Press Cable.)

LONDON, July 8.—The News interviewers, M.P.s, who are in the Georgian Bay scheme points. He also stated that among all classes of Canadians there exists a feeling of strong dissatisfaction almost amounting to resentment in relation to successive English governments.

AN OFFENCE AGAINST CLEANLINESS. These employees of the dredge at work in the eastern bay have been summoned for allowing manure to fall from a scow into the lake off the island shore near the intake pipe, and so endangering the water supply.

U.S. CITIZENS IN WEST OBJECT TO REGISTRATION. WINNIPEG, July 8.—General indignation is expressed throughout Western Canada by Americans over the enforced registration of native and naturalized citizens of the United States who desire to preserve their citizenship in the republic. It means annual registration to preserve citizenship. There are estimates to more than 60,000 Americans, native and naturalized, scattered over the four Northwest provinces.

19 YEARS FOR MANSLAUGHTER. WATERLOO, N.Y., July 8.—Daniel Clark of this village, who recently pleaded guilty to the indictment of murdering his mother, he is charging him with killing Annie V. Russell last May, changed his plea to guilty of manslaughter to-day and was sentenced by Justice Felt to nineteen years in Auburn Prison.

DIES OF HIS WOUNDS. CHATTANOOGA, Tenn., July 8.—Len Reynolds, president of the Coal Miners' Union at Mount Lake, Tenn., was yesterday shot by W. H. Bellers, labor agitator of the Mount Lake Coal Co., died to-day of his wounds.

ELECTRO-CHEMICAL Rheumatic Rings. Are Guaranteed to Cure Rheumatism and Neuralgia, Also Painful Displacements of the Blood.

The Electro-Chemical Ring is not a cure, it is a medicine. It is a scientific medium for the elimination of acid from the blood. The secret, the power, the merit in this ring lies in the combination of the various metals of which the ring is made. No matter how long you have suffered from rheumatism, neuralgia, or any other kind of acid, the Electro-Chemical Ring will cure you. Look just like any other ring, and wear it day and night. The guarantee is to do as we claim, or you will refund the money. Send size of finger when ordering. Mailed to any address on receipt of order. The F. E. KAKN CO., Limited, 309, QUEEN & VICTORIA STS., TORONTO, CAN.

BRIDGE NOT IN DECAY. JUDGE MADE A MISTAKE. Justice Riddell's Criticism of C.P.R. Was Delivered While Under a Misapprehension.

With regard to the accident on the C. P. R. on the 28th of April last, by which A. M. Villeneuve, of that company, lost his life, it appears that the observations of Justice Riddell, in his recent judgment that the bridge had been allowed to decay, were made under a misapprehension.

The matter came before the court at Ottawa, merely by way of a motion to appportion amongst the family of the deceased employee the amount of compensation voluntarily paid by the company, and no evidence was taken with regard to the cause of the accident. Under these circumstances counsel for the C. P. R. stated that he supposed liability was admitted on the ground of a "defect in the condition of the ways, works or premises," using the technical words used in the Workmen's Compensation for Injuries Act, but there was no admission that the bridge had in the ordinary sense fallen into decay or become defective.

The judge in question was a small wooden trestle bridge, 58 feet in length, situated in a lonely district north of Lake Superior. It appears to have been burned just prior to the passage of the train on which the deceased was a brakeman. The last train which crossed the bridge on the day the accident passed over at about 5 p.m., the train on which Villeneuve was employed reaching this point at about 10:50, or six hours later, and the bridge was burned in the interval, the fire not having been noticed by any of the employees.

WHAT TORONTO NEEDS. Editor World: You have an editorial entitled "What Toronto Needs," which reaches right to the heart of the matter.

There are many citizens and taxpayers, I am sure, who would join with you and Ald. Church in supporting the various improvements mentioned. Personally, as a taxpayer, I would willingly contribute my share to such projects as harbor and water-front improvements. Trunk sewer. Perfect the waterworks system. Sewage disposal. Abolishing level-crossings at lake front.

These are all matters of vital importance to the city and need immediate attention. They affect every citizen and taxpayer without exception, and in my opinion, more urgent than any other than even cheap power, which you are no doubt in good faith so strongly advocating, and while I think we should have the best power, I think the above-mentioned matters will benefit every citizen and individual as a body whereas the latter will only benefit one section of the population.

Re trunk sewer and sewage disposal. In regard to harbor and water-front improvements, I would suggest that without any unnecessary delay a commission of three successful business Catholics, causing instructions to be thoroughly investigate the matter, consulting with engineers, etc., studying every prominent harbor, and defining a permanent plan of improvement, which could be started at once, and carried out steadily and progressively during the next 10 or 20 years. As you say, this country will be more or less delayed on account of the complex interests involved, but improvements should be carried out steadily on the lines of definite growth.

Re waterworks system. We have, as you point out, experienced in this case the costliness of village institutions. Of course, we have some excuse for our predecessors that they did not anticipate the growth of the city. There is now in the city being held a convention of civic engineers, etc., where no doubt a great deal of useful information will be obtained, and should be taken advantage of by this city.

Another very important matter that has not been mentioned is the doing away with the "Landing" on the Esplanade. We have the recent fatality at Bay-street still fresh in our memories, and when one thinks of the thousands crossing every day to get to the boats, it seems actually criminal that such conditions should exist in a civilized community.

WILLS SON GOOD ADVICE. In bequeathing a share of his estate to his son, William Arston, William Glen Arston, C.E., in his will, says: "As he will be my heir and successor in the Broomfield estate in Dumfriesshire, in that part of the Kingdom of Great Britain called Scotland, I hope and trust he will honor God and obey His commandments, be considerate and do his best in reason to improve and keep up the estate and identify himself with it."

LIQUOR AND TOBACCO HABITS. A. McTAGGART, M.D., C.M., 75 Yonge St., Toronto, Canada. References as to Dr. McTaggart's professional standing and personal integrity per- mitted by:

Sir W. R. Meredith, Chief Justice, Hon. G. W. Ross, ex-Chief Justice of Ontario, Rev. John Potts, D.D., Victoria College, Rev. Father Teefe, President of St. Michael's College, Toronto, Rev. A. Swetman, Bishop of Toronto, Rev. Wm. McLaren, D.D., Principal Knox College, Toronto. Dr. McTaggart's vegetable remedies for the liquor and tobacco habits are heartily recommended by the medical profession. He has administered his "Liquor and Tobacco Habits" to hundreds of patients, with a certainty of cure. Consultation or correspondence invited.
