### BRITISH ATTACK TEUTON WORKS AT VOLKINGEN

Seventeen Naval Aeroplanes  
Fly to Town in Rhenish  
Prussia.

### DROP HIGH EXPLOSIVES

French Machines Also Bom-  
bard German Iron-Making  
Establishments.

Special Cable to The Toronto World.

London, Nov. 12.—Numerous aerial  
raids, including one on the German  
steel works at Volkingen, Rhenish  
Prussia, have been carried out by  
British and French aircraft in the past  
two days, according to official an-  
nouncements here and at Paris. The  
raid on Volkingen was made by  
seventeen British naval aeroplanes.  
These dropped 1000 kilograms (2200  
pounds) of explosives on the German  
steel works, seriously damaging the  
buildings. German machines at-  
tacked the British craft, fought several  
actions, and suffered from the en-  
counter, three of them being felled.

This raid which culminated at Vol-  
kingen, between 10 and 11 o'clock in  
the morning, was followed by another  
raid by French aeroplanes at night.  
These dropped the same quantity of ex-  
plosives as the British machines on  
the steel works and started a number  
of fires.

### Bomb Railway Stations.

The French and the British ma-  
chines also bombed railway stations  
in the rear of the Germans on the  
Somme front, and the French also  
dropped with projectiles the German  
blast furnaces at Rombach and at  
Hagandange in the region of Metz as  
well as hangars and aerodromes.  
Great damage was done.

The Germans sent out an aeroplane  
on Friday night to bombard several  
French towns, including Nancy and  
Luneville. Amiens was also bom-  
barded and nine civilians were killed  
and 27 injured.

The following is the French official  
report of the aerial operations:

### Planes Attack Volkingen.

"Between ten and eleven o'clock on  
the morning of Nov. 10 a group of  
17 British aeroplanes bombed the  
steel works at Volkingen (Voltingen),  
northwest of Saarbruck. One thousand  
kilograms of projectiles were dropped

### BRITISH CRUISERS READY FOR DEUTSCHLAND'S DASH

Two German Submarines Reported Lying Outside  
Three Mile Limit to Act as Convoys.

New London, Conn., Nov. 12.—The time of the departure of the  
German submarine Deutschland was still uncertain tonight, al-  
though everything apparently has been in readiness since Saturday for a  
quick dash to sea. At the customs house it was said the manifest  
had not yet been filed, but that this formality, together with the  
issuance of clearance papers, would occupy only a short time.  
There were more rumors today that British cruisers were outside  
the three-mile limit waiting for the Deutschland, and that two Ger-  
man war submarines were off the coast to convoy the boat back to  
Germany. There was no confirmation.

On the buildings, which were damaged  
seriously. In the course of the opera-  
tion British machines fought several  
actions, and suffered from the en-  
counter, three of them being felled.

## WAR SUMMARY

### THE DAY'S EVENTS REVIEWED

IN desperate fighting at close quarters, extending over two days,  
the French succeeded yesterday in clearing the Germans out of  
Sailly Village on the front of the Somme and they are now in a  
position to assault the St. Pierre Vaast Wood, the Tortille brook to  
the south, and the ridge below that, and so expose the German bat-  
tery positions behind Mount St. Quentin. The foe has retained a  
thousand guns behind the St. Quentin position and these have been  
of good service to him in reducing the allies to a slow advance  
of late. By capturing one thousand yards more of the Regina trench  
in the Thiepval area, the British are gravely imperiling the German  
gun positions north of the Ancre and west of the remaining ridge of  
Picardy, resting still, in part, in German hands. The copious and  
frequent discharges of gas by the British, north of the Ancre, and  
between Arras and Ypres, indicate that the British are either about  
to launch an offensive in connection with the offensive south of the  
Ancre, or else they expect the Germans to withdraw their front to  
conform with their dispositions before Bapaume and Peronne before  
it is too late for them to avoid disaster.

Chief news of the war in the east comes from the Balkans, where  
the Serbians have won a notable victory over the Germans and Bul-  
garians on the bend of the Cerna River in Macedonia, and they ap-  
pear to have instituted a successful advance that will bring them  
close to Monastir. In connection with this success on the southwestern  
Bulgarian front is the continuous advance of the Russians and Rou-  
manians on the northern Bulgarian front in the Dobrudja. There  
the allies have just established their line within long distance gun  
range of the Constanza-Cernavoda Railway, and they are still exer-  
ting great pressure against Von Mackensen. But decisive results  
should, perhaps, be looked for first from the front north of Salonica,  
for to attain their object of cutting the Berlin-Constantinople Rail-  
way, the allies only have to reach Nish, in an advance from the south-

## SHARP BATTLES MARK WAR IN EAST THEATRE

Germans Continue to Ham-  
mer at Slav Positions With  
Small Results.

### RUSSIANS HOLD FOE Prevent Von Hindenburg From Sending Forces South Against Roumania.

Petrograd, Nov. 12, via London, Nov.  
12.—The past week has brought a con-  
tinuous series of sharp thrusts and  
counter-thrusts along the entire south-  
western section of the Russian front,  
with both sides constantly drawn into  
hand-to-hand conflicts during which  
first line trenches changed hands with  
bewildering rapidity.

The net result has been slight pro-  
gress for the Germans northeast of  
Barnovichi, on the southern flank of  
Gen. Evert's position. Here, however,  
the Russians have already regained  
partly their lost trenches and else-  
where all positions recently won by the  
Germans have in every case been  
wrested from them by counter-attacks  
which were executed before they had  
an opportunity to consolidate them.  
Field Marshal von Hindenburg con-  
tinues to hammer the Russian position  
between Brezany and Halicz, in Gal-  
icia, southeast of Lemberg, where oc-  
cupying a range of hills along the  
Naryuvka River, the Russians are

## FRENCH CAPTURE SAILLISEL TO ATTACK GUN POSITIONS

### ITALIANS SECURE HILL IN MARCH ON TRIESTE

Ally Consolidates Gain, Takes Another  
Austrian Gun, Makes Twenty  
Prisoners.

Rome, Nov. 12, via London.—Following is the official announce-  
ment from the war office today:  
"Trentino front: An unusual movement of enemy troops and  
transport was observed in the sector between Vallarsa and the  
Terragnolo Valley. In the region of the Astico Valley and on the  
Asiago Plateau there were artillery duels and skirmishes among recon-  
noitering parties.  
"Julian front: We consolidated hill 309, near which another six-  
inch gun abandoned by the enemy was found. In the course of small  
infantry encounters about 20 prisoners were taken."

## DUKE OF DEVONSHIRE INSTALLED IN OFFICE

Impressive Ceremony Takes Place in Provincial Building  
at Halifax—Vice-Regal Party Cheered  
By Thousands in Streets.

Halifax, Nov. 12.—The Right Hon-  
the Duke of Devonshire was formally  
installed as governor-general of Can-  
ada in the historic council chamber  
of the Nova Scotia provincial building  
here at three o'clock Saturday after-  
noon, in the presence of representa-  
tives of the Dominion Government, the  
senate, the navy, the army, the su-  
preme court of Canada, the supreme  
court of Nova Scotia, the provincial  
cabinet, the clergy of Nova Scotia and  
prominent citizens. He was sworn in  
by the Hon. Sir Louis Davies, K.C.  
M.G. The Duke of Devonshire is the  
third governor-general to have been  
installed at Halifax, the others being  
the Marquis of Lorne and Earl Grey.  
The ship bearing the Duke of Devon-  
shire, the Duchess of Devonshire, their  
two daughters, Lady Maud Louisa  
Emma Cavendish and Lady Blanche  
Katherine Cavendish, arrived here at  
noon. The big gun on Citadel Hill had  
just boomed the noon hour when the  
ship bearing the 'dual party' swung  
in alongside the new pier two. The  
gangplank was swung out and Under-  
Secretary of State Mulvey went on  
board and paid his respects.

Show Keen Interest.  
When the ship was docked the duke  
and his family were soon close to  
the rail of the upper promenade. His  
grace wore a morning suit; her grace,  
and daughters were traveling cos-  
tumes and their furs. The sun shone  
brightly. There was a nip of cold in  
the air, a typical fall morning in Can-  
ada. In spite of the rough trip all had  
an excellent color, and were taking a  
pleasure in their visit.

## EASTERN ALLIES AGAIN INVADE TRANSYLVANIA

Russo-Roumanian Forces Assume Offensive on  
Wide Front—Capture Commanding  
Positions.

Special Cable to The Toronto World.  
Valley of the Roumanians repulsed an  
attack of the Teutons on the right  
bank of the Buzeu River and in the  
Alt Valley, Red Tower Pass region,  
the Roumanians drove back the foe  
on the left bank of the stream, but on  
the right bank their troops had to  
withstand a violent German attack in  
the Jiu Valley a violent Teuton at-  
tack forced the Roumanians to retire  
slightly towards the south. In the  
vicinity of Orsova lively fighting pre-  
vailed.  
The Germans report that heavy  
fighting is in progress on the Tran-  
sylvanian front and they assert in  
their official communication today  
that eight Roumanian attacks were  
repulsed and more than 1,000 pris-  
oners were taken. The Austro-German  
troops, they assert, gained ground on  
the Predel road in the Szurdok Pass  
region, and near Orsova on the Dan-  
ube.

### Son of J. G. Turriff, M.P., Has Been Killed in Action

By a Staff Reporter.  
Ottawa, Ont., Nov. 12.—Word has  
been received here of the death of Pte.  
Robert Turriff, a son of J. G. Turriff,  
M.P. for Assiniboia. He was a mem-  
ber of the university draft sent to re-  
inforce the Princess Patricia's a year  
ago. He was the only son of Mr. Tur-  
riff. He was killed on Sept. 15.

### London Times Leads Move To Increase Price of Papers

London, Nov. 12.—The price of The  
Times will be increased to 1½ pence  
after Nov. 20 and other important daily  
newspapers probably will follow suit,  
says the Weekly Dispatch. Owing to  
the cost of production, it adds, a  
number of leading newspapers are be-  
ing conducted at very heavy losses.  
  
The southward advance of the Rus-  
sians and the Roumanians continues  
with success. Von Mackensen has been  
unable so far to make a stand against  
the allies, and they have reached the  
Topal-Inanocme-Karanasuf line, tak-  
ing 100 prisoners.  
In two hours fighting in the Buzeu

### British Hold Regina Trench —Allies Engage in Fierce Fights for Villages and Vantage Points.

Special Cable to The Toronto World.  
London, Nov. 12.—Two important  
successes have been won by the allies  
on the front of the Somme where the  
French completed their capture of  
Sailly Village today and the British  
completed the consolidation of an-  
other thousand yards of the strong  
Regina trench, northeast of Thiepval,  
captured early on Saturday morning.  
The Regina trench fell at a single  
blow. Sailly Village required a long  
drawn out hand to hand struggle to  
master it. The British took 60 pris-  
oners, including four officers, in their  
successful attack on the Regina  
trench. The French took 320 un-  
wounded prisoners and seven officers  
with eight machine guns in their  
fighting for Sailly.  
Step by step the French had driven  
the Germans back until they occupied  
today only some groups of houses in  
the eastern part of Sailly Village.  
These defences were carried today in  
a grenade attack. As seen from the  
great number of bodies encumbering  
the ground in this village, the Ger-  
man losses are heavy.  
Imperils Foe Positions.  
The capture of the additional thou-  
sand yards of the Regina trench by  
the British further imperils the Ger-  
man positions north of the Ancre by  
making the salient too sharp for hold-  
ing with success. The capture of  
Sailly by the French, imperils the  
remaining German positions in the  
St. Pierre Vaast Wood. The Ger-  
mans are reported to be already  
evacuating this wood in part.  
Besides driving the Germans from  
the eastern portion of Sailly the  
French, by bombing attacks, made  
progress to the north of it. The Ger-  
mans bombarded this position with  
great violence.  
Fight Began Saturday.  
The final fighting for Sailly was  
began on Saturday by an attack on  
the portion east of the Bethune road  
which the Germans had regained in a  
counter-attack the other day. The

## KILLED WHEN CAR WAS OVERTURNED

Henry Theobald, Pinned Be-  
neath Machine on Dun-  
das Road.  
FOUR OTHERS INJURED  
Steering Gear Jammed When  
Driver Attempted to Avoid  
the Ditch.

When the motor car in which they  
were riding, about 11 o'clock yester-  
day morning, overturned in the ditch  
about a mile west of Somerville, on  
the Dundas road, Henry Theobald,  
197 Hallam street, was fatally in-  
jured, and J. H. and Mrs. Graham,  
1235 Shaw street; Harry Lister, 83 Mura-  
mont road; and Miss Mabel Young,  
1A Millcreek street, were slightly  
injured. Theobald died at 4.40 yester-  
day afternoon, two hours after ad-  
mission to the Western Hospital.  
Miss House, Theobald and Lister  
were employed in the grocery store  
of Mr. Graham, corner Shaw street  
and Marchmont road, and yesterday  
were journeying with their employ-  
er to Hamilton. At Somerville Mr. Grah-  
am, who was driving, swerved to  
one side to allow a car to pass him,  
then swung his car toward the centre  
of the road again. But he swung too  
far, and while trying to avoid going  
into the ditch on the south side of the  
road, the steering gear jammed, and  
the car overturned. Miss House and  
Mrs. Graham, who were seated in the  
tonneau with Theobald, were thrown  
clear, but the young man was not so  
fortunate, being pinned down by the  
car. Mr. Graham and Lister, seated  
in the driving seat, were also thrown  
clear and escaped serious injury.  
With the help of residents of the  
neighborhood, the car was lifted off  
Theobald and Spence's ambulance was  
called. Theobald died from concussion  
and internal injuries.  
The body was removed from the East-  
gate to the morgue last night, and the  
chief coroner notified. It is likely that  
an inquest will be held.  
Detective Twigg is investigating.

west. The new offensive of the allies in Transylvania is probably designed to keep the enemy occupied until Macedonia is won.

The Serbian advance was won in the prolonged battle at the bend of the Cerna River in Macedonia by the capture of the Tchake range and the making of progress north of this point.

In the Dobruja, across Bulgaria from Macedonia, the fighting keeps up, and the Russians and the Roumanians have gained further territory according to Bucharest reports.

The feature on the Russian front continues to be the fighting of many sharp, local actions. In these encounters the Russians have recovered southeast of Lemberg, where the Russians captured some trenches.

It was the Germans who started the practice of aerial bombardments by sending their zeppelins to drop bombs on open towns and cities.

THE HIGH COST OF LIVING

Send in your letters giving your opinions on the high cost of living and any suggestions you have to make about reducing the cost. The World and The Sunday World want to hear from every reader on this momentous question. Have your letters written on one side of the paper only, not more than 200 words in length, and address them to the High Cost of Living Editor, Toronto World.

HERE'S A "FRESH" ONE.

High Cost of Living Editor: Some days ago I wrote to you on your own pressing invitation, to briefly state the causes of the high cost of living, and how the high cost might be obviated. I waited, but my letter did not appear in The Toronto World. I knew that it would not appear. Why did it not appear? Because you were afraid to publish it. You knew that my letter, brief as it was, had exactly put its finger on the two primary causes for the present shortage of necessities in Canada: first, the problem is not one of so-called high cost, but of shortage. Stupid as you are, you were still not too stupid to see that I had hit the truth, something quite beyond your unaided stupidity. But the truth hit you, and it hit your patrons; so you suppressed the truth, as you have always done. You and your lying newspaper never made an honest enquiry into any problem in all the present social whirligig. You might have deceived yourselves into thinking you honestly desired the truth, but that is quite another matter. I can tell you most positively that your real intent and purpose is to apologize for the lie. You love the lie, not the truth. You live by the lie, not the truth. Society—of which you are a highly honorable member—steals money, a worthless thing, and then, with the worthless thing it has stolen, black-jacks the wofully short-handed producer (worker) out of the necessities his ceaseless toil has created. What I am telling you now, all will soon know, and then, babbling snobbery will quit talking about the high cost of living to discuss the more serious matter of the high cost of dying. Let The World regard this communique as the most important piece of news it has ever handled. That will be all for the present. All except that I want you to cancel my subscription to your newspaper. It is paid for a few months, of course; but we have plenty of cleaner paper in the house, and do not wish our landing further polluted by the delivery of The Toronto World.

Old Man Labor. Montreal, Nov. 10, 1916. This man who signs himself "Old Man Labor" is a smart Aleck named A. G. Hamilton, who lives at 297 West Ontario street, Montreal. The letter he complains about, and which he says The World was afraid to publish, appeared in The World on Saturday morning. So far as his subscription is concerned, The World will be very glad to cancel it.

TAKE EVIDENCE ON OATH.

High Cost of Living Editor: You and your valuable paper should be very highly commended by every citizen of Toronto for your speedy action in asking for the co-operation of your numerous readers in this most serious question. I gladly accept your invitation to offer a humble suggestion, viz.: That every employe connected with the different "cold storage plants" in Toronto be summoned, and, under oath, compelled to testify as to the time and date of receipt of such goods as eggs, butter, etc., and the duration of the time kept in storage, and the storage charges. You might also summon the different insurance companies, who insure such goods in cold storage warehouses. Engineer. Toronto, Nov. 11, 1916.

LAST TRIBUTE PAID LIEUT.-COL. ALLAN

Thousands of Citizens Follow Body of Brave Officer to Grave.

IMPRESSIVE SERVICE

Premier Hearst, Sir John Hendrie, Mayor Church and Gen. Logie There.

Followed by men who had served in his division at the front and who have returned on account of wounds, the body of Lt.-Col. W. D. Allan was conveyed to its last resting place in Mount Pleasant Cemetery yesterday afternoon, while thousands of citizens paid tribute to the memory of another of its martial sons who has made the supreme sacrifice in the cause of King and country. Old St. Andrew's Church, where the funeral service was held, was not large enough to accommodate a tithe of those who wished to attend the service, and his comrades filled the body of the church, while the gallery was filled to overflowing with men and women friends, the majority of whom were in mourning. The centre section of the gallery was reserved for the officers and men who have returned from the front, many of them having been wounded while serving in the battalion of the departed commander. The service, which was impressive in its depth of feeling and simplicity, was conducted by Lt.-Col. George H. Williams, the senior chaplain, and Prof. Law of Knox College. Death was either utter defeat of life's crowning victory, said Prof. Law. The life of the soldier was the supreme example of great sacrifice. The life of Col. Allan was held up to the men present as an example. He had not hesitated, but at duty's call had laid down all. By his devotion to duty his

PNEUMONIA VICTIM

Corp. H. S. Miller Dies in Toronto Base Hospital—New Course Starts.

It is officially reported that some of the candidates for the Royal Flying Corps examined in Canada have been found to be unfit, after arrival overseas. On this account, the military authorities here have issued an order stating that all candidates for commissions in the Royal Flying Corps must be carefully examined by a medical board to ensure they are not suffering from disabilities likely to impair their efficiency for aviation work. It has been found very important, owing to changing atmospheric conditions, that candidates for the air service with a tendency to bronchial disease be not accepted. Vigilance must be normal, and none of the relaxations allowed in the cases of commissions in other branches of the service will be permitted. Corp. H. S. Miller of the 114th Haldimand Battalion, died yesterday in the Toronto Base Hospital. East Gerrard street, of pleuro-pneumonia. His relatives live in Caledonia. He had been in the hospital since Oct. 26. Two Hundred in Week. During the week just ended two hundred men volunteered for enlistment at the Toronto armories. Ninety-six of them were accepted. On Saturday out of 18 men offered, 14 were accepted, which was a much higher proportion than usual. Our New "No-Frozen-Milk" Delivery

Frozen milk has been one of winter's nuisances. All milk, because it was delivered hours before you got up and left exposed to the icy air, was frozen. The early delivery was customary—it was not necessary.

In winter a cool place can be found in any home which will keep milk perfectly sweet and fresh overnight. We shall therefore start on November 15th, a late delivery system. Our salesman will then call when you are up and astir. Take the bottles in at once—there will be no more worry about frozen milk.

You will merely have to order an extra supply on the day before this new system starts. Your regular supply will thereafter cover all your needs. And you will no longer be troubled with the nuisance of frozen milk.

More than that—your delivery will be surer. Our salesmen and horses will no longer be working at dark, facing winter's icy winds and snowy blizzards. Keep a supply of milk overnight for next morning's breakfast—have no more frozen milk, no more frozen salesmen.

MONDAY MORNING, NOV. 13.

Prof. Mavor and the Hydro.

Prof. Mavor is still following up his attack on the Ontario Hydro-Electric System, and has just issued his twelfth article. These articles make rather amusing reading for those who recollect the attacks of ten years ago by expert engineers, expert accountants and expert promoters of all kinds, who with one consent and from innumerable angles demonstrated that the system could never be built; that if it was it would be at ruinous cost; that it would not get business enough to keep it going; and that it would be hopelessly bankrupt in a few months, and involve the province in hopeless ruin.

By a careful avoidance of successful examples of public ownership, as in Guelph, and by energetic theorizing on conditions that do not exist, Prof. Mavor has succeeded in convincing himself that public ownership is the root of all evil in things economic. He has not yet traced the high price of eggs and potatoes to Sir Adam Beck, but he is only in his twelfth article, and the subject should be good for thirty-nine.

In the present article he dwells on the political complexion of all public ownership movements, as he understands it. He has not observed in Ontario that the two political parties vie with each other in support of the system, and are professedly a unit in their desire to keep it out of politics. While some of the leaders on both sides may be guilty of the wish to use the influence that might be drawn from the hydro-electric union in a political way, the people are and have been of one opinion about keeping it free from such affiliations. Much of the friction that has occurred from time to time has been due to Sir Adam Beck's refusal to countenance any submission to political influences, and the independent and non-political character of the Hydro Commission today is a complete refutation of Professor Mavor's views, and an entire justification of the belief that a public ownership system is capable of being managed on a non-partisan basis.

Prof. Mavor is alarmed at the absence of a board of directors from the management of the hydro-electric system's affairs. He does not seem to have heard of the Western Power Union nor of the meetings of the delegates, who serve all the useful functions that directors can exercise, and who excel besides in not having any personal aims or desires in the direction of dividends. Prof. Mavor, in fact, does not appear to be able to conceive of business activities in which directors and dividends have no place, and is as sceptical of the whole matter as some others are of the long anticipated new heavens and new earth wherein dwelleth justice.

Germany's Ship Slaughter.

It is now coming to be recognized that the destruction of shipping belonging to the entente allies and to neutral powers is not having any special immediate effect upon the war, the real object must be sought elsewhere. With all her madness Germany has a method, and the destruction of vessels of other nations, it is now surmised, is intended to leave Germany in a predominant position on the seas as far as merchant shipping is concerned, when peace has been concluded. The one essential in this proposition is that Germany will be able to dictate terms at the close of the war.

allies are determined she shall not be able to do. This also is the one thing that the neutral powers must speedily understand is in their interest to permit Germany to do either, is the merchant shipping of the world could be wiped out and Germany's left safe in her own harbors or interned in neutral ports at the end of the war, so that she could begin at once with a long start of all competitors, she might hope to wrest the commercial supremacy of the sea from her opponents. This motive would explain the altogether senseless attacks on the shipping of Norway, Sweden, Denmark, Holland, Spain and other powers. The United States has not suffered so much heretofore on account of the long continued protests of the Washington Government, but it is not at all clear since the Marina incident that Germany is going to avoid giving offence to Washington. Possibly as long as she can continue to get supplies of Canadian nickel and other war material from the United States, an effort will be made to keep on amicable terms with that government, but the indiscriminate sinking of the vessels of other neutral powers can have no reasonable object but the enhancement of the value of Germany's own commercial fleet.

The remedy to this will undoubtedly be applied by the victorious allies, and Germany will not be permitted to reap the fruits of her senseless policy. They that take the sword will perish by the sword, and the lex talionis will exact ship for ship and ton for ton as it once exacted eye for eye and tooth for tooth. The entente allies will temper justice with mercy, no doubt, but tempered justice will not fail to render to Germany her deserts.

Lighting University Avenue.

Mr. George H. Gooderham's request for better lighting on University Avenue has been seized upon by The Financial Post as an instance of the inefficiency of public ownership. To such straits are the opponents of public ownership reduced in their attempt to convince their followers that the thing that is not is the thing that is. Some people may have forgotten the blackness of darkness in which University Avenue used to be plunged when the old arc lights swung fitfully at long intervals high up among the branches of the trees, and illuminated the revels of the tussock moth and the stag beetle. Pedestrians avoided the thoroughfare, and policemen found it a happy hunting ground for various kinds of law-breakers. Hydro lamps have changed all that, but in the last six years motor cars have multiplied to an extraordinary extent, and as University Avenue is a favorite concourse for the new chariots, Mr. Gooderham, who represents this interest, asks for more light to lighten up the roadway. The footpath is quite satisfactory to pedestrians and there have been no complaints from the ordinary man. The Financial Post lends a kindly ear to the privileged classes, however, and consequently the hydro-electric system, which benefits the common or garden variety of citizen, has to be stigmatized. University Avenue can be as brilliantly lighted as Yonge street, and perhaps owners of new garages on the avenue will be willing to contribute to the expense.

VOLUNTARY APPEAL FAILS.

Editor World: In reading over Sir Robert Borden's appeal to the men and women of Canada for national service I was surprised that in his appeal to men of military age to place their names at the disposal of the state for military duty, he omitted any reference to his New Year's Day promise that Canada would provide 500,000 men for the defence of the empire. By the government's failure to organize a campaign for the providing of battalions to be performed by individual citizens and the funds necessary for same by personal efforts, it now becomes necessary, after ten previous months have been wasted, for this appeal to be made. Well, the appeal has now been before the people of Canada for over two weeks and were it to produce any result it would surely have done so in Toronto, where more men have been enlisted than any other city in Canada, but the recruiting figures for this period show no response, and the statements for the past two weeks I was surprised to find since any other man ready to serve voluntarily have done so, and it is obvious that the appeal of intelligence that the 100,000 men now asked for will never be obtained unless by the pressure of conscription, which should have been adopted in Canada after this measure was passed in Great Britain, as the winning of this terrible war is just as vital to Canada as Great Britain.

CAN NEITHER BE SMASHED NOR SEPARATED

many people are convinced that every province in Canada with perhaps the exception of Quebec would welcome compulsory military service initiated by registration on similar lines to that in Great Britain, and if Quebec resisted such a measure it would show the province and her leaders stood, and she could be then suitably dealt with. Why should Canada, the premier overseas Dominion, be less loyal and energetic in the means taken to end this war, than Australia and New Zealand, where in the former Dominion a referendum is now being taken on conscription, and why should the government of Canada also not have a referendum on conscription which I venture to say would be overwhelmingly carried? It is certain that if Canada is to carry out Sir Robert Borden's promise to raise 500,000 men it will have to do so by the report of Col. Bruce, Inspector-General of the Canadian Army Medical Service, dealing with the subject of unfit men enlisted, to ensure to the Canadian Empire in this war, and it is idle to expect to enlist this number by any appeal, no matter what source it originates. Conscription should be taken on a point of honor by every fit citizen of military age, and in the homeland to day everybody is glad that it is in force there, and in this war, in my opinion, but the statement of Sir Wm. Peterson of McGill University, recently returned from England, and I trust it is also the opinion of President Falconer of our own city.

Must Struggle Long and Hard to Obtain Victory

That Germany had placed trust in leadership which acknowledged force only as absolute master, and that she was losing her power against an opponent whose cause was just, was the keynote of an interesting sermon delivered by Capt. J. L. Gilmour, a professor of McMaster University, at a Convocation Hall yesterday morning before a large congregation. Having said and hard against odds, having said that position of victory, however, the victor became a pillar upon which others could lean, he said. He also paid a tribute to the younger manhood and womanhood of Canada and urged that they promote the welfare of their country.

SPORTSMEN'S BATTALION MAKES FINE SHOWING

Returned Officer Greatly Impressed With Appearance of Toronto Unit. FAVORITES AT ST. JOHN Sportsmen Find Reception Most Hospitable and Quarters Excellent.

"The other day I saw the 130th Battalion marching down King street. They came down in column of route and while on the march changed to column of platoons. I stood with my mouth open watching their work. It was wonderful. I have seen units ready for the firing line in their reviews in England, but I have never seen any that could manoeuvre so smoothly and well as the 130th did at this particular occasion. It was a returned officer who was speaking and his opinion was one worth while. He had spent nearly a year and a half on the firing line and has seen many of the British units at the front and such a tribute from such a man is one which the officers and men of the Sportsmen's Battalion will no doubt appreciate. Yesterday morning the boys were engaged at platoon, company and battalion drill on the parade grounds and in the afternoon were taken out on a route march under Major O'Brien, second in command of the unit. The battalion was in light marching order and made a splendid appearance as it passed thru the streets of the city. The boys are well satisfied with their quarters and better pleased with the cordial reception they are receiving on all sides. From St. John, N.B., Daily Telegraph.

BERLIN NOT CONCERNED OVER ELECTION IN U.S.

Wilson's Re-election Appears to Be Received With Some Satisfaction.

AMERICANS UNWARLIKE

Pacific Temper Shown By Result, Conclusion of Cologne Gazette.

Berlin, via London, Nov. 12.—Although further press discussions of President Wilson's re-election emphasize Germany's indifference as to the outcome of the election, the Cologne Gazette notes with satisfaction that the president's success, as they view it, has been due to the pacific temper of the American people.

The Cologne Gazette, however, insists that the election has taught President Wilson a good lesson, for the paper asserts, it was not a victory for the Wilson who was bellicose against Germany and "the obedient servant of England," but the Wilson who boasted he maintained peace and vowed to keep the same goal in the future.

YOUNG TORONTO DENTAL STUDENT GIVES UP LIFE

Brother of Gunner O. Dalrymple Notified of His Death in Action.

Dr. J. Malcolm Dalrymple, 1686 College street, yesterday received a telegraphic message from a friend in Liverpool, Eng., unofficially announcing the instant death in action of his brother, Oliver Dalrymple, a gunner in the artillery. The soldier was in France thirteen days.

Gunner Dalrymple, who is well known in Toronto, was a third-year student in the Royal College of Dentistry, which he entered after graduating from Smithville and Welland high schools. He enlisted with the 67th Battery but was a member of a draft of 50 who went overseas on June 14 last. He was again drafted in England.

ARABIA ATTACKED AT CLOSE RANGE

Submarine Crept Up Unseen, Then Discharged a Torpedo. PASSENGERS LUCKY

Coal Stemmed Inrush of Water and Allowed Time to Escape.

London, Nov. 12.—A despatch to Reuters' Telegram Co. from Malta, dated last Thursday, dealing with the sinking of the Peninsular and Oriental liner Arabia, says: "Passengers of the Arabia who landed here say that the submarine was not seen but that the wake of a torpedo was discerned. After the ship was struck the submarine's periscope was seen 300 yards distant.

The torpedo struck the bunkers near the engine room. Coal blocked the turret and stemmed the inrush of water, which undoubtedly enabled the Arabia to remain so long afloat. The crash was terrific and the vessel swirled round under the force of the impact.

Some of the passengers insist that the submarine approached to within 50 yards of the Arabia before it discharged the torpedo. Two engineers are missing, and it is supposed they perished at their post of duty. The periscope was distinctly seen circling around the vessel after she was struck, but the submarine never came to the surface.

The passengers are convinced that the gravest disaster was only averted by the presence of mind of the European crew, to whom had been allotted the watertight doors. Dr. Bodie, a passenger, relates that while in a boat he saw the submarine's periscope moving toward the Arabia, the intention of the submarine evidently being to board the steamer and secure the ship's papers. The rescuing vessels, however, frustrated this design."

The Austro-German gains in this region are considered to have been only temporary, and, according to military opinion, winter will set in with the Russians still firmly holding the position won by them during the early part of Gen. Brusiloff's offensive. The Russian military critics are satisfied that whereas Field Marshal von Hindenburg has succeeded in commencing a partial offensive, the Russian army is successfully accomplishing its purpose of preventing a further diversion of Austro-German troops to the Roumanian front, which they assume to be of the greatest importance.

AN ATTRACTIVE EXHIBIT.

With the opening of the hunting season, Nov. 1st, the Grand Trunk Railway System installed in one of the windows of their city ticket office, corner King and Yonge streets, a very attractive exhibit of trophies of the hunt. The display consists of mounted heads of moose, deer, elk, bear, rabbit and mountain sheep, procured in territory served by the Grand Trunk. This display, however, is of particular interest to hunters of deer and moose who annually visit the "Highlands of Ontario," where they abound including "Muskego Lakes," "Lake of Bays District," "Magnesian," "Lake Nipissing," "Timagami," and districts contiguous to Algonquin Park.

Information regarding open seasons in different districts, railway fares, etc., may be had on application to Mr. W. J. Moffatt, city passenger agent.

J. L. Garvin Says Entente Allies Must Strike More Swiftly.

FOE REGAINS MORALE

No Prospect of Breaking Thru This Year, Says Garvin.

London, Nov. 12.—J. L. Garvin, writing in The Observer, predicts that unless the entente allies come to more vigorous decisions the war will be prolonged far into 1948 as "the result of the new outburst of German energy on all sides and the unity of direction under Von Hindenburg." "The allies in the east have perpetrated almost every blunder left to them to commit," writes Editor Garvin, "after a previous record of mismanagement that seemed well nigh exhaustive. The prospect is not dissatisfying, but is disagreeable as the fault is repairable only at the cost of several million avoidable casualties and thousands of millions in money which might have been saved.

Sunnybrook Farm's Gen. Joffre First in Jumpers—Crow & Murray Land in the Mozey.

New York, Nov. 11.—Horses on parade attracted crowds today to Madison Square Garden, where New York's thirty-first annual showing of these animals is being held.

The opening event was the class for pony stallions and brood mares, in which first prize was awarded to Alan Pinkerton's Booker Red.

Stallions, suitable for getting polo ponies—First, Alan Pinkerton's ch. b. Booker Red; Peter H. King, ch. b. and white; second, Solon L. Frank's b. Link Spot, third.

Movie Plot Lively But Ty Cobb Failed—Ty Cobb, who has become a movie actor, has been having trouble getting his "big scene" in the picture.

Nap Rucker has forsaken the game that made him famous. Knowing he cannot continue further with a useless left wing, Nap has decided to drop the sport as a profession and turn his mind to the banking business of Georgia.

Baseball perhaps never knew a man possessed of a more accurate brain than Nap. It was his sagacious nod that permitted him to remain in the game after the value of his pitching had declined almost to worthlessness.

As a pitcher Nap was a real terror. He pitched with a curve ball and a fast ball, and he pitched with a curve ball and a fast ball, and he pitched with a curve ball and a fast ball.

Service in Canadian Army Doesn't Affect Citizenship

St. Paul to the Toronto World. Windsor, Nov. 12.—Service in the army of a foreign country does not deprive an American of citizenship in the United States. This was the substance of an important decision handed down in Detroit yesterday by Edmund Atkinson, assistant corporation counsel of that city. The question arose when Morris Campbell, a Detroit school teacher who has been on active service with the Canadian expeditionary force, asked to be reinstated in the position he held before the war. The school board protested his right to the position as only American citizens can hold positions as teachers. Atkinson's ruling is the first made. Several natural born Americans in Windsor returned after service under the British flag in France and who were denied entrance to the States on the ground that they had lost their citizenship, are taking test cases to the federal courts.

BEDFORD PARK MRS. H. JENNINGS DEAD AT AGE OF SIXTY-SIX

Prominent Church Worker Lived Nearly All Her Life in District. The death of Mrs. Henry Jennings, which occurred at the family residence in Deer Park, at an early hour on Sunday morning, after a short illness, removes one of the oldest residents in the northern part of the city. The late Mrs. Jennings, who was in her 74th year, had resided practically all her life in Deer Park and Deer Park. After her marriage her husband established the Deer Park conservatories, A. A. Jennings & Co., under which name the business is still conducted. At the time of her death she was the oldest member of Christ Church, Deer Park, and had been prominently identified with the work of the church all her life.

Central Ontario Farmers Progressing With Work

The farmers all over central Ontario are making excellent progress with their fall work, and there is every indication that, with open weather for another week, the great bulk of the plowing will be finished and the root crop, a light one, safely sown. In the district west of the city as far as London, there are many magnificent fields of fall wheat, wonderfully luxuriant and this is said to be the case thru the Counties of Peel, Halton and Simcoe. The area is smaller than St. Paul's, but the outlook is excellent. Cattle are finding pasturage so late in the season that the farmers are being able to winter all their stock with comparative ease.

OAKWOOD Residents to Petition City Council for New Sidewalk

Owing to the long neglected condition of the sidewalk on the north side of Guary avenue, between Westmoreland and Bristol avenues, the residents intend to petition the city council for immediate attention to this matter, according to the statement of the speaker, prominent resident of the district, and vice-president of the Oakwood, Oakville and West Huron Association. This piece of sidewalk is not in a fit condition for pedestrian traffic. There are many children using the road going to and returning from Pine school. It runs mostly alongside the C.N.E. property and in the opinion of Mr. Foster the city authorities are unwilling to interest themselves unless the matter is brought to their attention by the persons inconvenienced.

PICKERING MAY MERGE UNIT. Col. Cockburn of the 122nd Battalion of South Ontario is said to have resigned his command owing to the unsatisfactory nature of the report of the War Office in attending the bringing the battalion to its full strength. It is considered probable that the 122nd will now be merged with another.

NEW LANSDOWNE CIVIC CAR LINE

The much-discussed crossing at Davenport road and Lansdowne avenue, at which point it is necessary for the new line to cross the Toronto Suburban Railway line, to proceed to its terminal at the C.P.R. tracks, Royce avenue. The Ontario Railway Board has the matter under consideration at present. In the top picture is shown the bend at Lansdowne avenue immediately north of Davenport road. The works department, in grading at this portion of the road, have left the houses on the east side high up, making it a matter of considerable difficulty for the residents to reach the street. It is stated that in some places the foundations of the buildings have been weakened. The reason given for this unexpected development in the work of laying the line is the narrowness of the road at the curve, which was not originally contemplated.

discharge of great volumes of gas north of the Ancre and south of Ypres. Some people deduce from this activity and other features such as the depth of the penetration of the German front on the Somme, that the British are preparing for a general advance. They say that as soon as the allies are prepared to advance on Bapaume and Peronne, the British will open an offensive between Arras and Ypres. Others do not expect this move until spring.

DEUTSCHLAND'S NICKEL SUBJECT OF INQUIRY

By a Staff Reporter. Ottawa, Ont., Nov. 12.—The government professes to feel satisfied that there is no truth in the assertion of the Providence Journal that a large amount of Canadian nickel ore is being placed on board the German submarine Deutschland at New London. When shown the statement of the Providence Journal Sir Robert Borden intimated his belief that it was incorrect. He added that the government would make immediate inquiry into the matter. It is stated that some mines in the U. S. are producing a limited supply of nickel.

ASOMITIA

WE can live without food, but not without sleep. Many will recall Dr. Tanner's 40 days without food, but who could live a single week without sleep and retain their reason.

It is during sleep that the nervous system is restored, and the nerve force, consumed by the activities of the day, is replaced.

Sleeplessness is one of the first and one of the most torturing symptoms of nervous exhaustion.

With sleeplessness you find nervous headaches, tired, wornout feelings, indigestion, lack of energy, and strength. You are nervous and irritable, and cannot compose yourself to rest or sleep.

The nerve force in the body is at low ebb, and the feeble, wasted nerve cells must be nourished back to health and strength by such treatment as Dr. Chase's Nerve Food.

You must not confuse this food ture with drugs taken to produce sleep, for it works in an entirely different way. It is not a quick relief, but a restorative, upbuilding treatment. As the nerves are revitalized sleep comes naturally with its soothing influence and hastens recovery.

Sleeplessness

Mrs. Edson Brock, Trenholmville, Que., writes: "I want to state that I have never taken anything to do me so much good as Dr. Chase's Nerve Food, and I am never without it in the house. I was so nervous I could not sleep, but now I sleep soundly at nights and wake up feeling refreshed and ready for the day's work. I used the Nerve Food for months, and found that it just suits my needs, and has built up the system wonderfully. I know it is Dr. Chase's Nerve Food that has brought about the great change in my condition, and I am thankful for it."
