It was announced at the premier's official residence in Downing street, that he was suffering from a chill and that it would be necessary for him to remain indoors a few days.

ROUND THE WORLD IN AN AIRPLANE

British Airman is Contemplating Trip.

Plans Start Before Winter—Across Canada Part of the Way and Pass Over St. John on Way from Fredrickton to Sydney.

Ottawa, Sept. 16.—(Canadian Press)—The first round the world trip by airplane is contemplated by Sir Ross Smith, the British airman who last summer successfully negotiated the flight from England to Australia. The starting date is not yet announced but it is understood that the trip is to be made before the winter sets in. He will use a special type of machine of amphibian design, allowing for alighting with equal facility on land or water. The route is to take in Canada from British Columbia to Cape Breton. Starting from England the line of flight will probably be middle Europe, Mexico, India, China and Japan, thence northward across the Behring sea to Alaska.

Sir Ross will come into Canada from Wrangell, Alaska, on the northern boundary of British Columbia. In this connection the Canadian air board has mapped out, at the request of Sir Ross, a combined seaplane and aeroplane route across the Dominion, from Kodiak Island, Alaska, to St. John's, Nfld.

The first Canadian stopping place will be Prince George, then Edmonton, Moose Jaw, Winnipeg, Fort William, Soo, Montreal, Fredrickton and Sydney, a total distance of 27,000 miles. Canadian territory. The stages will average 400 miles each.

The air board has given Sir Ross particulars as to the landing fields available at each point, also with notes as to repairing, refueling and housing facilities at each place.

The project is one in which it is felt that Canadians will naturally take a keen interest, in view of the fact that this success will do much to pave the way for the establishment of greatly accelerated trans-oceanic service by air between Canada and other parts of the British Empire.

Sir Ross' triumph, if he successfully circles the world this fall, will not merely in covering the long flights between landing points, but in meeting the many difficulties inseparable from lack of ground organization, such as must obtain in a pioneer effort of this kind. He will also have to show the endurance of both crew and machine, exposed daily for a considerable period to all kinds of weather and climates.

Arrangements For Conference Off But There Is Hope Yet

Ireland Awaits Further Word From Premier After Conference With Cabinet—What English and Irish Papers Say of Situation.

Dublin, Sept. 16.—Although the popular newspapers today describe the letter of Premier Lloyd George, cancelling arrangements for the Investors conference, as a bombshell which spreads consternation, there seems no disposition on the part of the public in general to consider the Irish peace negotiations at an end, the premier's reference to "inevitable delay" giving rise to hope.

The prevailing indications here are that the desire to avoid a breach in the negotiations, that a diligent search is in progress for a formula which will enable the proposed conference to be held without the sacrifice of principles on the part of either side, and that it is possible to phrase such a statement of principles in a way to avoid a breach.

The next move, however, it is said here, is with Lloyd George and further communication with him after the British cabinet meeting is awaited.

Leaders of the Dail Eireann expressed no concern over the prospect of a general election, taking the view that there was no probability of any party attempting to fight the Sinn Fein on compromise lines, and that if one did so the Sinn Fein would score another triumph, the result being that a renewal of the Sinn Fein Republican mandate would be registered by the returns.

As to the truce, there is considered to be no immediate probability of its rupture. There was little activity at the Mansion House up to noon yesterday. Mr. De Valera had not arrived there at that hour.

London, Sept. 16.—Relations between Great Britain and Ireland today stood as they did before Mr. De Valera came to Dublin on July 14 to discuss with Premier Lloyd George a possible basis for the peace negotiations.

It is pointed out that Lloyd George's reply to Mr. De Valera left an opening for the continuation of the negotiations, but that the result would be no further concessions by Great Britain, though no English expectation.

The government, it is thought, may therefore decide upon a general election to obtain an endorsement of its policy from the public.

When the cabinet met at Inverness on Sept. 8, a committee was appointed to deal with any situation which might develop as a result of exchanges between Dublin. It consists of Mr. Lloyd George, Austen Chamberlain, Earl Curzon, Sir Austen Chamberlain, Earl Curzon, Sir Austen Chamberlain, Earl Curzon, Sir Austen Chamberlain, Earl Curzon.

The British parliament adjourned on August 19 until October 18, but Premier Lloyd George announced before the adjournment that if the negotiations with the Sinn Fein broke down and the position became hopeless, the speaker of the House of Commons would be empowered, after consultation with the government, to summon parliament on forty-eight hours notice.

Neither Side Wants War. There was no indication here today that either the British government or the Sinn Fein would denounce the truce arranged two months ago, and resume the guerrilla warfare that cost scores of lives and destroyed property valued in the millions.

Warfare is the last thing either side desires, and no effort, apparently, will be spared to prevent any event that will place on either the responsibility for resuming hostilities.

Just what the Sinn Fein would do was seemingly a difficult question today. Two points made by Mr. De Valera in his note to Lloyd George were closely examined by those who were trying to determine what plan the republicans had in mind.

The first was the statement—"Our nation has formally declared its independence and recognizes itself as a sovereign state, and it is only as representatives of that state and its chosen guardians that we have authority and powers to act in behalf of our people."

It was suggested that the Dail might intend to go to the Irish people with the question, and seek to determine by a plebiscite what the desires of the people are. The result of such a plebiscite would, it was pointed out, either confirm the stand made by the Republican leaders or would give them a mandate to waive the demand for separation and enter a conference with the British government. There has been a strong party in Ireland that has been urging an election to determine the steps taken, there being men in the councils of the Sinn Fein who have believed it would provide a means for accepting the British government's offer of dominion status.

The other sentence which attracted attention was the one referring, apparently, to the separation of Ulster and Southern Ireland, and it was considered possible that new efforts would be made to approach the Ulster government with a view to reaching a working agreement, and then approaching the British government once more.

London, Sept. 16.—Surprise and disappointment are expressed by most of the morning newspapers today over Edmond De Valera's reply to Lloyd George, but he generally is expressed that the wiser counsels will prevail to prevent a break in the truce at the same time

As Hiram Sees It

"I see," said Mr. Hiram Hornbeam to the Times reporter, "they were trying to ship a lot of booze to the States in a car of lumber. What'll they be trying to do now? Beats all what schemes kin be worked up to make a dollar when you ain't too particular how it's made as long as you get it. I s'pose now if they he'd get that across the line it'd be sold for a fortune among them thirly Yankees. Hey—"

"No doubt of it," said the reporter. "They would like to appeal to all commissioners on the ground of the quality of the liquor."

"Well, I wouldn't jist like to swear to that," said Hiram. "Where'd you get that idea?"

"In the dear dead days beyond recall," said the reporter, "when the cordial was estimated by the time that meeting there on a view to having public works started, and it was also suggested, the mayor said, that the government should assist the municipalities in the building of cheap homes."

WORK RATHER THAN ASSISTANCE

Toronto Plan for Meeting the Unemployment Situation Next Winter.

Toronto, Sept. 16.—At a private session of the board of control, yesterday, Mayor Church announced that in dealing with the unemployment situation, it was decided there should be no doles handed out to the unemployed this winter, but rather that work would be provided by the government and the city.

To this end it was decided to meet both the provincial government on Wednesday of this week in Fredrickton and arguments pro and con were presented.

Mr. Fairburn, chief engineer of the C. P. R., said they could not plan to put the bridge higher as they were up against the city's plans for an overhead bridge at the railway crossing on Douglas avenue and if they had put the railway bridge higher it would render the overhead bridge impracticable.

C. P. R. officials added that no plans of the bridge now under construction for approval but a plan of the change of location of the tracks in Douglas avenue had been submitted, and they contended that was all the city had jurisdiction over. The admission was made that the plan which was submitted to the department provides 940 feet of roadway for approval had an error of 25 feet as to the relative position of the centres of the highways and proposed railway bridges. There was great difference between the officials and those in opposition as to the amount of difference. Those in opposition asserted that there was considerably more than twenty-five feet. The difference in relative position of centres reduces the width of roadway at the maximum heighting.

Mr. Fairburn quoted from an article by George Duggan, C. E., on the building of the highway arch in an effort to show that the highway was not built to afford any more clearance than the existing railway bridge.

George S. Cushing, for the opposition, which concluded as follows: "To retain equal or sufficient fairway for navigation in the case of the new bridge so that the elevation of the crown of the roadway at the centre of the span comes to 104.7 feet, the men of the city are asked to allow a width of fairway at a clearance elevation of 80."

Mr. Cushing further said that instead of 120 feet fairway with clearance equal to existing railway bridge, the new bridge would afford only forty feet fairway with equal clearance, and that as the highway bridge is an arch it gives a fairway of sixty feet with nine feet clearance above the existing railway bridge more clearance than the existing railway bridge.

"The width of the river here is narrowed down to about 350 feet for the length of 270 feet in direction of the bridges," claiming that as a river is normal the course of navigation for schooners must be normal to the bridges and upsets all theories and observations based on the passing of tug boats, light or tow tugs, or other than schooners.

J. Willard Smith made a strong appeal for the freest navigation of the St. John river, not only for today but for the future. He pointed out the value of the basin above the falls for harbor expansion and concluded by saying that the highway bridge should be the limit of obstruction. He handed in a list of twenty-nine schooners, coal and lumber carriers, which had arrived in this port between May 1 and September 10, all of which could go under the highway bridge, but only one or two could pass under the proposed railway bridge. He pointed out that vessels which should be able to go above the falls to lay up would be unable to do so on account of the bridge, are being compelled to go elsewhere for berth owing to the limited facilities in the harbor in the winter time for laying up vessels.

Mayor Reid of Fredrickton, made an appeal on behalf of the lumber shippers and coal merchants and coal consuming public of Fredrickton, to whom any obstruction of the freest navigation would mean grave injury, and urged the government to exhaust every means to have the obstruction removed or prevented.

Those in attendance at the interview were: Mr. Fairburn, chief engineer of the C. P. R.; Mr. Motley, bridge engineer; Mr. Draper, engineer in charge; Mr. Kirby, resident engineer; Mayor Reid; Messrs. Morrison and Vanwart; Fredrickton; J. Willard Smith and George S. Cushing and R. H. Cushing, C. E., of St. John.

C. P. R. Engineer Says Overhead Bridge Plan for Douglas Avenue is Responsible.

NO PLANS SUBMITTED

Interesting Facts About the Reversing Falls Bridge are Brought Out at Interview With Government in Fredrickton.

The C. P. R. engineering officials and the committee opposed to the erection of the new railway bridge at its present height met the provincial government on Wednesday of this week in Fredrickton and arguments pro and con were presented.

Mr. Fairburn, chief engineer of the C. P. R., said they could not plan to put the bridge higher as they were up against the city's plans for an overhead bridge at the railway crossing on Douglas avenue and if they had put the railway bridge higher it would render the overhead bridge impracticable.

Straw Hats Go in Hundreds as Babe Ruth Breaks Record

New York, Sept. 16.—The keeper of the Polo Grounds could wear a different hat every day for more than ten years if he had saved all the straws that were sacrificed yesterday when Babe Ruth broke his own home run record.

The fans were waiting for some excuse to get rid of their summer headgear, the season for which officially expired yesterday, and when Ruth hit his homer, hats fairly rained on the diamond.

Dozen statistically essayed to count them after they had been raked into a pile by groundsmen, but quit on number 3,799 at dusk, with a big pile uncounted.

GIANTS GAIN IN PENNANT RACE

Crucial National Series Opening Today.

9 Home Runs in Thursday's Play With Ruth Ahead of Last Year—Trouble Over Horse Race—Bert Lint Able to Leave St. Stephen for Fredrickton.

New York, Sept. 16.—The New York Giants yesterday won their eighth straight game, the third straight from the Reds, and gained one full game on Pittsburgh in the National League race, the latter club losing to Boston.

A crucial series of three games in the National League was scheduled to open in Pittsburgh today with the Giants as the Pirates' opponents. To take the lead away from New York, Pittsburgh must win all three games.

The Cleveland Americans kept at the heels of the New York club by winning twice from Philadelphia, while the Yankees duplicated the feat in a double victory over St. Louis.

Nine home runs yesterday brought the total for the major leagues up to 881 for the season, 233 ahead of the total for the entire 1920 season when 648 homers were hit. Making up this year's number to date, the American League players knocked out 444 homers, the National 437. Chief among the crop of homers yesterday was Ruth's, which established a new world's record, beating his own mark of fifty-four in 1920.

The other homers were made by Williams, St. Louis Americans; 3; Meusel, Yankees; Miller, Yankees; Pipp, Yankees; 3; Smith, St. Louis; 2; Egan, Yankees; 2; Smith, Nationals; Jamieson, Cleveland.

A Turf Inquiry. Hartford, Conn., Sept. 16.—W. B. Rarefoot, of Cambridge City, Ind., 32-foot, of Indianapolis, owner and driver, respectively, of Single G, noted grand circuit pacer, will be requested to appear before the board of review of the National Trotting Association to answer questions in regard to the Single G. Peter Manning race at Charter Oak Park here last night.

It was learned that the Connecticut Fair Association had asked the National Trotting Association to request the foot and ankle of the pacer to appear, why they should not be punished for misconduct injurious to the character of the turf.

The Connecticut Fair Association has exonerated Thomas W. Murphy, driver of Peter Manning from any blame. This race was the purse of \$5,000 and brought together the leading pacer and trotter of the season on the grand circuit. The fair association has held up Single G's share of the stake. Peter Manning won both heats of the race in an easy manner, the time of the first heat being 2:02.4 and the second heat 2:06. Huses, driver of Allen, won the race in the eleven year old Single G. back to its stable at the end of the second heat.

Normand, Mayor of Rivets, has been mentioned as a cabinet possibility. Announcement of appointments to the senate and to vacant judgeships is probably made intervals for some time to come. Lieut.-Col. J. W. Margeson, member of the board of pension commissioners for Canada was offered the nomination as government candidate for West Ottawa last night. He has not decided. Montreal, Sept. 16.—Hon. Mr. Taschereau, premier of Quebec, will be a speaker at a banquet to Hon. Rodolphe Lenoux here on September 22. The full list of speakers so far is: Sir Lomer Gouin, chairman; Hon. W. L. Mackenzie King, leader of the Liberal opposition; Ernest Lapointe, M. P. for Quebec East, and Hon. Mr. Lenoux, whose entry into parliament twenty-five years ago, is being feted.

Bennet as Independent. Calgary, Sept. 16.—It was definitely announced here last night that R. Bennett, K. Labour Statement. Kingston, Ont., Sept. 16.—Addressing a fair sized audience of labor men here last night, Jas. Simpson of Toronto, secretary of the Ontario branch of the Canadian Labor Party, defended the amalgamation of agricultural and industrial classes. Referring to the argument that a government formed of those two classes would be class legislation, he said that Canada had nothing but class legislation for decades after decades, the workers being practically without representation while the legislators of the country legislated in the interest of the classes as against the masses.

Mr. Simpson stated that the government decided to make the tariff the issue but labor intended to fight the decision on the issue of unemployment. Why, he asked, if a high tariff would provide employment, were there so many unemployed? Exports had fallen off, but how could the government hope to increase them by a high protective wall? If the government shut out goods from other countries would not these countries shut out goods from Canada? Labor was not for free trade, but it was against the Canadian Manufacturers' Association which, he said, was exploiting the consumers of this country.

Sherbrooke, Que., Sept. 16.—On Sept. 20 a convention of the Liberal Association of the county of Sherbrooke will be held, and it is expected that nearly sixty delegates will attend. The object of this meeting will be to choose a Liberal candidate for Sherbrooke. It is probable that F. W. McCrea, who has represented the county at Ottawa since 1911, will be the unanimous choice. On the evening of the 23rd, Hon. W. L. Mackenzie King will address a rally. He will probably be accompanied by Sir Lomer Gouin, Hon. Walter Mitchell and others.

SAYS ATTEMPT MADE TO ROB HER. Miss B. E. Orchard Tells of Efforts of Two Young Men in Rockland Road. A story of an attempted highway robbery was told to a Times reporter this morning by Miss Bina E. Orchard, who conducted a small grocery store at 55 City Road. Miss Orchard said that she was suddenly two young men appeared around the corner of Harris street and one of the pair made a mad dash for her hand-bag which she was carrying on her arm. The young desperado was unsuccessful, for several tugs at the hand-bag failed to remove it from Miss Orchard's arm. Paddock struck a blow at the youth and shouted for help. DR. E. J. RYAN AND MISS CARLETON WED. A wedding of much interest to St. John people took place at St. Raymond's church, Lynbrook, Long Island, on September 15, when Rev. William McKenna united in marriage Miss Beatrice E. Carleton, daughter of Mr. and Mrs. William Carleton of New York, formerly of St. John, to Edward J. Ryan, son of Mr. and Mrs. Michael Ryan, 48 Paddock street, this city. Miss Carleton is well known in St. John, as she has spent much of her life here with her parents, John Connor, 82 Paddock street. Her father is a well-known theatrical man. The groom, who is one of the best known young medical men in the city, has a splendid record, having served on several battle fronts, and was for a time a member of the camel corps in Egypt and Palestine. Northern Whig of this city in commenting upon the critical situation which developed yesterday when the proposed conference at Inverness was cancelled. "Premier Lloyd George," the newspaper says, "at last is alive to the futility of endeavoring to conciliate the Sinn Fein leaders, and the only course open to the government, if it is sincere in its expressed desire to maintain the essential unity of the realm is immediately to take adequate measures to break the treasonable tyranny which has threatened Ireland for its grip. The conciliating and temporizing policy of the last two years, for which a heavy price has been paid, must end." The Belfast News Letter says: "Mr. De Valera's reply was more than a refusal of the government's conditions. It was an ultimatum, and Lloyd George treated it as such. The only way out of the deadlock is to surrender the claim of independence for Ireland. The Sinn Fein is now at the parting of the ways for good or evil to Ireland. The only hope for good lies in abandonment of the impossible."

MORE EVIDENCE IN NORRIS INQUEST

The inquest into the death of Albert Norris of Barnville which occurred last Friday morning in the General Public Hospital was continued last evening by Coroner F. L. Kenney and his jury. Owing to the absence of a material witness and also to the absence of W. M. Ryan, attorney for Edward O'Brien, charged with James Spellman in connection with Norris' death, the hearing was postponed until next Monday evening. The only witness examined last evening was Bernard L. Bowes. Both prisoners were present at the inquest in charge of Sergeant-Detective Power and Detective Biddiscombe. G. Earle Logan appeared for Spellman. Bowes told of being given a drink by the prisoners on the evening of the tragedy out of a bottle bearing a King George IV. label. He had noticed no vendor's prescription label on the bottle. He had seen O'Brien and Spellman standing on a street corner outside his store after dark. In conversation with them they had offered him a drink for which he gave them some cigarettes. After this O'Brien and Spellman had left and gone out on the street where they engaged in conversation with Bayard Vanwart, all going into an alley off Hanover street. O'Brien was quite sober and Spellman was under the influence of liquor. He had seen them again about twelve o'clock that night and they were not altogether sober. He did not know Norris. He saw no sign of lemon extract but only of whiskey. He could not remember the subject of their second conversation. Spellman was quite drunk at the time.

provincial parliament. Colonel Jarvis was born in St. John on October 9, 1838. He was educated in the St. John Grammar school. He became a barrister in 1863 and later became general agent of the Maritime Provinces of the Liverpool London and Globe Insurance Co. He took a prominent part in securing the incorporation of the town of Portland and prepared the charter of the town. For several years he was a member of the Portland Council.

He entered the volunteer militia during the first Fenian Raid becoming major of the second battalion and subsequently lieutenant-colonel of the third battalion St. John County Militia. Miss Alice McNaught.

The news of the death of Alice McNaught, only child of Mr. and Mrs. Alphonus McNaught, at her home in Watertown (Mass.), on Monday, Sept. 12, was heard with deep regret by her many friends in this city as well as in her former home town, Hampton (N.B.). While it was generally known that Miss McNaught has been in poor health

for the last couple of years, still her recovery was hoped for. The quiet courage and unflinching cheerfulness with which she bore her sufferings for the last two years testifies to the sweet and unselfish disposition she possessed, and which she displayed with her classmates at school, in her professional life, socially and particularly in the household. Everyone with whom she came in contact loved her. She was a staunch and pious member of St. Alphonsus church at Hampton for many years, and was an ardent worker. Instructing the little ones in their Sunday school lessons, and lifting somebody's burden was her greatest delight, often putting off little social events, where she was most popular, to visit the sick and suffering.

Miss McNaught was about twenty-five years of age and lived at Hampton practically all of her life. She took up millinery in this city, and was engaged for some time at this work with Messrs. Flewelling & Co., at Hampton. She resigned this position about three years ago and went with her father and mother to Watertown to reside, where a position awaited her, but on account of her ill-health only worked for a short time. Heartfelt sympathy is extended to her sorrowing parents in the loss of a kind and loving daughter.

Mrs. C. W. Smith.

Mrs. Charles W. Smith, of Windsor, died at her home on September 12, at the age of seventy-one years. She is survived by her husband, one daughter, Mrs. McNair, Calgary, and five sons, Norman, Logan, George and Herbert, of Windsor and Benjamin, at Sackville.

J. Fred Benson.

J. Fred Benson died at his home in Chatham yesterday morning. He became ill with her father and mother as a great shock to his many friends. He is survived by one sister, Miss Sophie G. Benson, of Chatham, and by one brother, William, manager of the Bank of Montreal at Paris. Mr. Benson was one of the prominent business men of Chatham and served on the council board for many years. He was managing director of the Commercial Press, Limited.

Miss Agnes P. Weir.

The death of Miss Agnes P. Weir, daughter of the late Jonathan Weir, occurred in the hospital at Moncton, yesterday. She is survived by four sisters, Mrs. J. A. Bayne, Mrs. Norman Sinclair, Mrs. William Crockett, Moncton, and Mrs. H. B. Goodrich, Tulsa, Oklahoma.

Mrs. Paul Lea.

The death of Mrs. Paul Lea of Moncton occurred at her home, yesterday, after an illness of several weeks. She is survived by her husband, two sons, John A. of Summerside, and Charles of Moncton, and five daughters, Mrs. Dodd of Boston, Mrs. Steeves, New Westminster, home.

SOCIAL WELFARE
WORKERS TO MEET

Two Conferences Have Been Arranged for Last Week in September in Montreal.

Provisional programmes for two social welfare conferences which will cover the week of September 26 to 30, inclusive, have been issued by the Montreal Council of Social Agencies. The first will be that of the Canadian Conference on Public Welfare, which will be in session on Monday, 26, Tuesday, 27, and Wednesday, 28 September, and the second will be the first annual conference of the Canadian National Council of Child Welfare, to hold its sessions on Thursday, 29, and Friday, 30 September. Both conferences will have their headquarters at the Windsor Hotel.

The Canadian Conference on Public Welfare, of which J. Howard T. Falk is chairman, will open at 10 a. m., on Monday, 26, with an executive meeting, after registration. In the afternoon there will be a session on housing, with papers by Alfred Buckley of the Town Planning and Housing Department, Ottawa, and Dr. J. C. Hastings, health officer of Toronto.

On the evening of that date there will be a banquet, at which is expected the lieutenant-governor of the province, Sir Charles Fitzpatrick, the provincial treasurer, Hon. Walter Mitchell, Mayor Martin and R. W. Keiso of Boston will be present.

The programme for the remaining two days will cover problems of desertion and non-support, rural social problems, industrial relations, unemployment, the unmarried mother, and social diseases, all of which will be treated by experts, such as P. N. Stapleton of Toronto; G. B. Clarke of Winnipeg; Dr. J. G. Shearer of Toronto; E. McG. Quirk, Montreal; C. W. Bolton of Ottawa; and Miss Charlotte Whitton of Toronto.

The first annual conference of the Canadian National Council on Child Welfare will be of interest in as much as it is the first conference to be held since the various child welfare bodies of the entire country were brought under a central direction at Ottawa. The subject of child welfare will be discussed under such phases as neglect, dependency and delinquency, hygiene, recreation and education. Among the speakers will be A. P. Page, secretary of the Mothers' Allowances Commission of Manitoba; Mrs. Adam Shortt of Ottawa; Dr. J. C. Hastings of Toronto; E. H. Blots of Halifax; Miss Hazel Bell of Toronto; Judge Ethel MacLachlan of Regina; Dr. A. S. Lamb of McGill University; Rev. Peter Bryce of Ontario; Judge Helen McGill of Vancouver, and others.

There will be two open meetings in the evenings. On the Thursday evening when Premier Taschereau will preside the speakers will include Dr. J. A. MacLachlan of Montreal.

Rheumatism
A Remarkable Home Treatment Given by One Who Had It.

In the year of 1893 I was attacked by Muscular and Sub-acute Rheumatism. I suffered as only those who are thus afflicted know for over three years. I tried remedy after remedy, but such relief as I obtained was only temporary. Finally, I found a treatment that cured me completely and such a pitiful condition has never returned. I have given it to a number who were terribly afflicted, even bedridden, some of them seventy to eighty years old, and the results were the same as in my own case.

"I had sharp Pains Like Lightning Flashes Shooting Through My Joints." I want every sufferer from any form of muscular and sub-acute (swelling at the joints) rheumatism, to try the great value of my improved "Home Treatment" for its remarkable healing power. Don't send a cent; simply mail your name and address, and I will send it, and it has proven itself to be that long-looked for means of getting rid of such forms of rheumatism, you may send the price of it, One Dollar, but understand I do not want your money unless you are perfectly satisfied to send it. Isn't that fair? Why suffer any longer, when relief is thus offered you free. Don't delay. Write today.

THE DEAD GIRL
Virginia Rappe was Well Known for Her Beauty.

Miss Virginia Rappe, whose death following the Arbuclle party in a San Francisco Hotel, has occasioned searching inquiry, was well known in New York. She first attained notoriety in the newspapers in January, 1914, by introducing what she herself described as the "night-gown" tango. In company with a girl friend she was returning from Europe on the White Star liner Baltic. Scarcely had her friends at sea and her companion appeared on deck wearing nightgowns, which they later announced were "harmless," being worn over evening costumes. But they made the passengers gasp.

"Iceberg" Type of Beauty.
Miss Rappe created attention wherever she went. She was tall and slender, with olive complexion and was described by magazine artists as the "gold, unresponsive" type of beauty. She was born in Chicago, and at the age of thirteen left home. Owing to her beauty she was much sought after as a model by artists of Chicago and other cities. For a while she followed this vocation, but soon tired and went to South America. While there she met one of the leading planters of Argentina. He paid ardent court to her, lavishing on her a fortune of jewels, and followed her to New York. After a quarrel the South American returned home without a bride. Virginia in referring to him told her friends she was nice enough, but old enough to be my grandfather.

Soon after she met Henry Lehrman, who was first comedy director for the William Fox Company. Lehrman also was attracted by her beauty. He induced her to go to Los Angeles. For several years he tried under his personal direction to make a movie star out of her. In this he was unsuccessful as her beauty would not film successfully.

CAN TRANSPORT
ELECTRIC ENERGY
THOUSAND MILES

Pittsfield, Mass., Sept. 16.—Thirty years' experimenting ended in triumph here today, when the General Electric Company succeeded in transmitting a one-million-watt electrical current, on practical terms that means that it should be possible now to transmit electrical energy on a commercial scale over a distance of approximately 1,000 miles. A power line now under construction in Southern California with apparatus designed and built here will carry power about 250 miles and will in itself establish a record, so today's demonstration of the feasibility of moving extraordinary high voltage virtually means quadrupling the range of power stations.

Tonight the engineers who have participated in the experimental and research work over long years are so well satisfied with their latest attainment that they are publicly predicting that the result of today's work indicates the extension of long-distance transmission beyond lines heretofore believed possible.

EXPERIMENT
PROVING SUCCESS
Peat Costing \$5 Selling For \$16 a Ton.

Toronto, Sept. 16.—Hon. Mr. Mills has denied the correctness of reports to the effect that Ontario had definitely decided to have nothing to do with peat experiments at Alfred. "I was down there three weeks ago," said the minister, "and the work is still going on. Peat is being produced at \$5 a ton at the plant. It has been sold in 24 municipalities, and in some cases retailed as high as \$16 per ton. It has heating value of about 40 per cent. that of anthracite. A new spreader that lays out 800 feet of peat at a time is now being tried out. A favorable report already made on a three-man machine for use on farmers' bogs.

PURE HAVANA CIGARS
FOR LONDON WOMEN

London, Sept. 16.—Twenty thousand cigars, specially made for fashionable women, are now on the way here from Cuba, according to a West End blunder. "Many women are failing to find satisfaction in cigarettes and are turning to pipes and cigars," he said. "Women's cigars are made of the finest Havana leaf. Many smoke them publicly in the restaurants, but they are small and few people would distinguish them from cigarettes. Yet each will last half an hour, although women smoke more rapidly than men."

CANADIANS GO
TO FIGHT MOORS

New York, Sept. 16.—Commanded by a veteran of three wars, who won his way from a private to the rank of major while serving with the Canadian army in France, 300 men left here this week for Spain, on the steamship Antonio Lopez, to fight the Moors in Morocco. Recruited in the United States, Canada, Cuba, Mexico, Porto Rico and Venezuela, the foreign legion is made up of men who speak half a dozen tongues, but the majority have records of service in the World War. Men who served under Pershing and Byng share quarters on the ship with men who served under Carranza and Villa, and among the latter are men who were officers of rank. Captain Donald MacGregor is the officer in command. Born in India, he became a lieutenant in the Royal Indian Army. In the South African campaign he was a captain, and when the World War broke out he enlisted in Canada as a private, but came through with the rank of temporary major and several decorations.

"Jo-Bel," the Wonder Salve

If half the nice things told this week about the wonderful cures of piles, salt rheum, cracked feet, eczema and other skin diseases effected by Jo-Bel they would be considered incredible by nine out of ten.

A few weeks ago a good friend gave me a box of your "JO-BEL" WONDER SALVE, and it did what the doctors and every thing else (and I've tried everything I could hear of) couldn't do—it cured me completely. I can't find words strong enough to express my gratitude, but will be only too glad to answer any question that others may benefit by my experience.

Hoping this may reach many, I am Yours gratefully,

EARTH HABITABLE
FOR MANY YEARS

Crust Will Last for a "Moderate Multiple of a Billion Years."
(Special Cable to the N. Y. Times and Montreal Gazette.)
London, Sept. 13.—"A moderate multiple of 1,000,000,000 years is the possible and probable duration of the earth's crust as suitable for the habitation of human beings, and no other considerations from the side of physics or astronomy afford any definite presumption against this estimate."
This was the final conclusion of Lord Rayleigh at the joint section meeting of the British Association today at Edinburgh. In the last generation, he said Lord Kelvin attempted to set a time limit to the duration of the sun's heat. Kelvin's calculations in regard to the earth's heat has been upset by the discovery of radioactive substances in the earth.
As to the sun's heat, Kelvin's argument was that we knew of no source at all adequate to supply the existing output of solar energy except secular contraction. Although we did not know definitely of such a source, Rayleigh said we were now compelled to admit it must exist. Some of the stars were radiating energy at something like 1,000,000 times the rate that the sun does. They ought, according to the contraction theory, to have expended an appreciable fraction of their total energy in historical times, but no one would maintain that had occurred, and if not there must be some source of supply other than contraction. If that was admitted, Kelvin's argument based on the sun's heat failed. Modern knowledge of radio-activity seemed to give a firm basis for an estimate of geological time and a calculation from the rate of change in uranium, of which radium is one of the stages. Rayleigh ended by giving the estimate recorded above.

**THREE POLICE
ARRESTED IN
LIQUOR SEIZURE**

**\$15,000 Worth Taken at
North Bay — Fire Depart-
ment Called Out.**

North Bay, Ont., Sept. 16.—Startling developments in connection with the enforcement of the Ontario Temperance Act in this town, which have been promised for some time, started on Monday.

About 9:15 o'clock a fire alarm was sent in from the foreign quarter in the north end of the town. When the firemen reached the scene no fire was found, but a squad of plain clothes police from Toronto and auto trucks ready to make a raid on what has long been suspected as the seat of the largest bootlegging interests in the north country. The members of the fire department on their arrival were sworn as special police and the raid proceeded. Fifteen thousand dollars worth of "hoose" was secured and the alleged proprietor of the place, Charles Hondrell, is in jail awaiting trial this morning.

The liquor, which it is claimed had been brought in as "a carload of horses," was taken to the town hall and placed under guard.

Three members of the local police force were also placed under arrest in connection with the booze haul, and sent the night in the cells.

The raid was under the personal direction of James Hales, the recently appointed chairman of the Ontario Board of License Commissioners.

Following in the wake of a raid, a nine was sprung in local police circles, three members of the municipal force and a provincial officer appearing in the police court on various charges.

The officers implicated are Provincial Constable Fred Lefebvre, stationed here in 1918, who is accused of corruption in that it is alleged he unlawfully obtained \$10 from Alexander Matthew Holloway, an O. T. A. operative, and Sergeant Frank Michaud, and Constables Wm. McKenzie and John Fleming of the town police. The three last named were charged with the theft of a quantity of liquor, the property of the Province of Ontario, and Michaud and Fleming, in addition, faced an indictment of theft of \$100 from Holloway.

All the officers pleaded not guilty, and elected to go to a higher court.

Charles Sandrell, a prominent member of the Italian colony in town, and well known on northern half mile racing tracks, is out on \$2,000 bail to appear the morning to answer to a charge of selling liquor for sale at his home. Three double drays and a single truck were required to transport the liquor seized at his residence last night to the vice station, and the officers who carried out the raid are said to have discovered liquor upstairs and down, as well as between the walls of the house. Sergeant Michaud was acquitted of the charge of the theft of money from Holloway, but Fleming was sent up for trial this morning, and Provincial Constable Hales also goes higher to fight the action against him. **VALUABLE MAIL
SACK IS MISSING**

Put on Amherstburg Car, but Never Reached Destination —Loose Handling Alleged.

Windsor, Sept. 16.—A small sack containing registered mail, said to be valued at \$7,000, which was put on board an Amherstburg street car at Amherstburg on the evening of September 9, is missing, and local and Provincial police working on the case admit they have not yet found the slightest clue to the identity of the robbers.

According to the police, the mail bag containing the money was loaded on the car with a number of other bags. It was destined for Windsor, but officials at the local office declare it was never received here. The formal report to the Post Office Department states that the bag "disappeared" while the car was on its way to Windsor. Although the robbery occurred last Friday evening, the Windsor police say it was not reported to them until yesterday.

The mails carried usually in a compartment of the interurban car, but not infrequently when the cars are crowded it is dumped on the rear platform. The method of handling the mail between Windsor and Amherstburg is said to be a very loose one, there being practically no surveillance of the mail bags while they are in transit.

The street railway officials believe the bag was thrown off the rear of the car while it was passing through a thinly settled part of the country, and was afterwards retrieved and carried away on a launch.

**GERMANS ARE RIDING
THIRD AND FOURTH CLASS**

Berlin, Sept. 16.—Travel on German railroads during the summer season exceeded that of last year. The improvement of the middle classes is indicated by the growing tendency to travel third and fourth class. An increase of 20 per cent. in first class traffic is partly explained by the large number of foreign tourists who again are visiting Germany. The railroads are introducing third class sleeping cars and it is cheaper to buy a railroad ticket and ride in a sleeper than to live in a hotel. Suburban trains in and out of Berlin carried 1,200,000 passengers daily before the war. Now the daily number is 1,500,000.

**VANCOUVER JITNEYS
ELIMINATED**

The city council at Vancouver passed a by law prohibiting the jitney operation in Vancouver and on the interurban line between Vancouver and New Westminster. The only class of automobile allowed to run is the taxi, and they must charge at least fifty cents for any distance greater than two miles outside the city limit of Vancouver.

Where there was no street car between Vancouver and Woodwards Landing the jitney service was authorized. Adv.

**ORDER TO CLOSE
CHANGE GAMES**

Society Women Also Told They Must Stop Auto Raffle—Are in Consternation.

London, Ont., Sept. 16.—Provincial Officer Palmer warned operators of what are alleged to be games of chance at the fair to close up at once or suffer arrest. The warning was conveyed on instructions from Attorney-General Hanes.

Mr. Hanes went further, and notified J. B. McKillop, County Crown Attorney, that a raffle of an automobile being conducted by prominent society women here in aid of the Children's Hospital would have to be stopped, and Mr. McKillop at once transmitted the order to the ladies. There was consternation in their ranks, as they have sold more than 5,000 tickets at \$1 each. They held a meeting this afternoon, but came to no decision. Dr. H. A. Stevenson, M. P. for London, called Mr. Hanes up over the phone, but was told that if the raffle went on all connected with it would be prosecuted.

It is alleged that the Attorney-General took action in regard to the auto raffle after a certain London citizen had made formal complaint to the department.

**THINK METEORS CAUSE
FRENCH FOREST FIRES**

Paris, Sept. 16.—French foresters are convinced that a long series of costly forest fires of mysterious origin are due to falling meteors, although unscientific persons call attention to the fact that a carelessly-dropped cigarette in many cases may have been responsible for them. But the foresters have obtained

the support of some leading meteorologists for their thesis, and in one case in the chateau district they have dug up huge chunks of metal, to which is attributed the flames which cleared 1,000 acres. Dug up three days after fire started, the metal was still hot, but whether from friction in its flight through space or to the conflagration itself is uncertain.

Winnipeg Paper Wants the Western Provinces to Hog Natural Resources.

(Winnipeg Free Press)
Western contention is that the retention of the natural resources by the Dominion, following the creation of the western provinces was a usurpation of the rights of the provinces. The demand is, therefore, for the transfer of the provinces of the natural resources remaining with an accounting for the resources alienated for national purposes since the provinces' look form. For Manitoba the accounting must date from July 15, 1870; for the two western provinces since September 1, 1905.
This accounting is not to be, as Mr. Meighen appeared to suggest in one of his letters to the Manitoba government, merely a book-keeping transaction—adding up on the one hand receipts by the Department of the Interior from leases or sales of public property, and on the other disbursements chargeable to departmental purposes. Upon that basis the western provinces, which have been deprived of resources of incalculable wealth, might be brought in debtors. The accounting must be in the nature of a settlement with the provinces for the alienation of resources which, if left with their rightful owners, would have constituted an unending source of revenue. The adjustment must be made upon broad and reasonable lines. Failing an agreement by consent the matter is one which might very reasonably be submitted to arbitration.
Precedent to this arbitration there must be as a basis for settlement acceptance by the Dominion Government of the principle that the provinces were, as a matter of constitutional rights, entitled to the natural resources from the date of their creation. The political efforts of this campaign should be directed towards making it necessary for the next Dominion Government to accept this formula. To this end every candidate in the western constituencies should be called upon to declare himself upon this matter and no candidate should have a chance for election if his views are not sound.
The elimination of the other provinces is an essential precedent to the discussion. This implies no disrespect to the other provinces; but this is none of their business, to be quite plain. The controversy is between the western provinces and the Dominion; and they must be the only parties to the settlement.

FOURISHING AND APPETIZING

Good home made bread is the most palatable, wholesome and nourishing food in the world. It is far more economical than any other staple food. If people would eat less meat and other heavy foods they would feel better and help to keep down the cost of living. Bread made in the home with Royal Yeast Cakes is more nourishing and appetizing than any other. Nothing healthier for children and grown ups.

ROYAL YEAST CAKES

A fresh, rosy complexion indicates perfect health. To secure this in most cases all that is necessary is to take one or three Royal Yeast Cakes a day for a few weeks.

Yeast is a food. It supplies the water soluble vitamins which the diet may lack. Scientists tell us that this vitamin is essential to good health. Yeast is highly beneficial in many cases in which the system seems to be run down. The yeast cakes simply add to the diet. Dissolve a Royal Yeast Cake in fruit juices or mix it with cereal and milk, and take it at meal time. The chances are in a few weeks the complexion will be clear. Constipation and other ills will be relieved. For children reduce the amount to one-half or one-quarter of a cake with each meal.

VESSEL WITH 32 PROBABLY LOST IN HURRICANE

(Canadian Press Despatch).
Bridgetown, Barbados, Sept. 15—The schooner Majestic, with thirty-two passengers and crew from Demerara for Barbados, is believed to have been lost in the hurricane which swept over this region on September 8. The British warship Valerian returned here today from an unsuccessful search for the schooner, which was commanded by Captain Barnes.

Four boatmen were drowned here during the storm, but only slightly damage was caused the sea front.

GREAT PICTURE AT QUEEN SQ. THEATRE

What may well be described as a classic of silent drama is Marshal Neilan's spectacular, colorful and thrilling production, "Bob Hampton of Placer," which began at the Queen Square theatre last night.

Not since "The Birth of a Nation" has any subject with a portion of American history as a background been so splendidly made into a motion picture, and in many ways the Neilan masterpiece outshines the Griffith production.

One of the most picturesque periods of American history figures in "Bob Hampton of Placer"—namely, the Indian uprisings which followed the Civil War. And in the climax to this production, which is adapted from Randall Parrish's story of the same name, General Custer's famous last stand against the Sioux is reproduced and immortalized on the screen in a most fascinating and dramatic manner.

Interwoven skillfully in this thrilling background is an absorbing and beautiful story of faithful comradeship and love, as well as of adventure.

James Kirkwood, in the title role, gives a masterful portrayal of Bob Hampton, the gambler, who, dismissed from the service in an army scandal, is stored to a place of honor with Custer in the Battle of the Little Big Horn.

Marjorie Day has the leading feminine role, and Pat O'Malley, as Lieutenant Brant, is seen as a gallant officer of Custer's staff and as an ardent lover. Wesley Barry, with his freckles and his grin, is one of the brightest lights in the production.

Others in the cast are Nosh Beery, Frank Leigh, Dwight Crittenden, Tom Gallery, Francis Bonner, Charles West, Bert Spottle, Carrie Clark Ward, Vic Patel and Bud Post.
"Bob Hampton of Placer" is released by Associated First National Pictures, Inc. It is a great production—the best thing yet made by Marshall Neilan—and that is saying a great deal.
This great picture will be shown today and tomorrow afternoon and night.

DEADLY EPIDEMIC OF DIPHTHERIA

(Canadian Press Despatch).
Prince Albert, Sask., Sept. 15—Four persons are dead and seventy others are in a serious condition as the result of an outbreak of diphtheria, in the Honey-moon Settlement, ten miles north of here. The disease has spread with alarming rapidity, the first case only being noticed on Monday last. The origin of this epidemic has not been ascertained. All the schools in the district have been closed and a strict quarantine in the area has been established.

A. D. MacTier, vice-president of C. P. R. eastern lines, arrived in the city yesterday in his private car, under the supervision of the lines under his supervision. He did not have anything of special import to say regarding the local situation. He was the guest of Major-General H. H. McLean last evening.

DOMESTIC TROUBLES.

Special Ottawa Court to Deal With Family Affairs.

Ottawa, Sept. 16—In order to obviate unnecessary publicity in cases before the Police Court, dealing with domestic troubles, which he says does much to hinder amicable settlement of family disputes, Magistrate J. E. Askwith intends to institute a court of domestic relations. This court will be held in the afternoon, and the general public will not be permitted. It will deal with all cases which have to do with family troubles, such as charges of non-support, wife desertion and family squabbles, and while the members of the press will be admitted, Magistrate Askwith asks that they shall agree not to publish anything in connection with the cases which might prove harmful to the family or families concerned, and which is not of general interest to the readers of the daily newspapers.

JAZZ MUSIC IN P. O. RAISES EFFICIENCY

Clerks on "Graveyard" Shift Are Much Helped.

Minneapolis, Minn., Sept. 16—Stimulated by phonograph music, night clerks at the Minneapolis post office here have increased their speed and accuracy, Postmaster E. A. Purdy announced at the conclusion of tests covering a month's period.
"We have found that classical and popular records abolish worry during the graveyard shift from 7 p. m. to 3 a. m.," Mr. Purdy said.

Hamilton's Population.

Hamilton, Ont., Sept. 16—The assessors have returned complete rolls which show the city's population now as 118,248, an increase of 3,477 over last year. The total assessment is \$196,938,593, an increase of \$9,286,890.

OTHER LONDON SUCCESSES COMING

"French Leave" was presented at matinee and evening performances again here yesterday and drew good houses at both performances. The company is resting in St. John today and will leave this evening for Sherbrooke (P. Q.), where it will show before opening a week's engagement at His Majesty's theatre, Montreal. From the latter city it will go to Toronto and thence across Canada.

This production is the forerunner of many prominent English attractions which are coming to this country this year, including Marie Lohr, the famous English star; Lady Johnston Forbes-Robertson (Gertrude Elliott), and her own company; Albert De Courville in a musical extravaganza, with a London beauty chorus and ballet, and other attractions.

It is expected that these companies will appear in St. John and Halifax as well as the other cities of Canada.

FORTY THOUSAND TO BE IN PARADE

Approximately 40,000 members of the International convention of the Junior Order of Oddfellows will be in Toronto for the convention, September 19-23, and it is expected that number will be in the parade on Wednesday afternoon, September 21.

Dr. J. W. Smuck, chairman of the parade committee, is completing arrangements for traffic and street regulation, and for review base in Queen's Park in front of the parliament buildings.

While the convention is nearly all of North American lodges, there will be considerable representation from countries overseas.

Several thousand members will be accommodated in hotels, but the bulk of them will be billeted throughout the city. Thousands will attend for the parade day only. Two special boats are being run from Hamilton and the Niagara district, while special trains will come from centres within several hundred miles of Toronto.

Commercials Win Both.

The Commercials easily defeated the Perth baseball nine on the East Main diamond yesterday in a double header, taking the first game, 6-0 and the second by a score of 3-1. The locals played errorless ball and were never in danger of being at the short end of the stick. Kirkpatrick pitched the afternoon game for the Commercials, allowing but two hits while Evans won the second game. Both games were witnessed by tiny small crowds. Two or three brilliant plays harked an otherwise mediocre exhibition.

Clerical League.

At a meeting of the Clerical Bowling League, held last evening, reorganization for the season 1921-1922 was perfected and it was decided to open the league on September 26 on the Victoria Bowling alleys when the Dominion Rubber Systems will play Goodwin, Ltd. The following teams have entered the league: Dominion Rubber Systems, Waterbury and Rising Specials, Railway Mail Clerks, N. B. Telephone Co., Goodwin Ltd., R. P. and W. F. Starr, Atlantic Sugar Refinery, McClary Manufacturing Co., S. Hayward Co., and Red Rose Tea. The latter two are newcomers, taking the places of Vassie & Co. and Scovill Brothers, who have withdrawn. All games will be rolled on the Victoria alleys and it is probable that three series will be played, instead of two. Keen interest is being taken in the league, and while it is the baby member of the bowling fraternity, it will undoubtedly prove to be one of the most popular. A schedule for the first two weeks has been prepared and at a meeting to

was the story in brief as told by many witnesses last night at the morgue. It all happened so quickly that no one apparently could prevent it; not even skilled and tried engineers, and yet in some fifty seconds \$50,000 and a human life were thrown away.

Time to obtain more details in regard to the accident which resulted in the death of John Arthur Pyke, speed boat designer, of Montreal, at the exhibition motorboat races on September 6, was asked by Chief Coroner Geo. W. Graham's jury at the morgue last night. The inquest was adjourned at 11 p. m. after three hours of testimony, much of which was confusing in various ways, but which in the main points, that is the evidence given by those in the accident, seemed fairly clear.

Inquiries from Counsel McReur for the crown, and W. K. Murphy for Arthur J. Claus, who drove the Leonard V., which collided with the "Claire III," in which Pyke was, all tended to draw out the fact of which boat had the right of way.

The last witness called was Deputy Harbor Master John Allan.

"In ordinary circumstances," stated Mr. Allan, "I would say the 'Claire' would have the right of way, but being on the right in a case like this I don't think you could really apply the rules of the road. The vessels made one or two circles after finishing their course, and there were several vessels anchored around, all of which was contrary to law. There are no rules which could apply in this case. This evidence was regarded as expert opinion as to the applying of the rules.

AMHERST COMMENT

ON C. A. A. U. ANNUAL

(Amherst News.)

The announcement that the annual meeting of the Maritime Province Branch of the Canadian Amateur Athletic Union will be held in Amherst October 14, has been the cause of considerable talk in local sporting circles. On account of its central position, Amherst is the most natural place to hold the gathering, and the additional fact that the town boasts one of the largest amateur associations in the maritimes makes the choice of the officials particularly appropriate.

Although the agenda of the meeting has not yet been announced it is certain that it will be the centre of discussion will be "Independent athletes." Amherst, Moncton, New Glasgow and Halifax will become strong arguments put forth on this question, and it is possible that the whole unfortunate mixup will be settled for good and all. Another line of contention will be the interference of upper Canadian and western officials in maritime sport.

Many predict a change in presidents. Mr. Corey has been seen for a long time for mention of this office. The present vice-president, Dr. Yeo of Charlottetown, is being mentioned as the most likely successor, should Mr. Corey decline a nomination. Bill Ross is the choice of a good number of others. In the opinion of some President Corey will retain the reins of office for another year, the job being such an unpopular one in many ways that it will not be possible to secure a successor to present office, even if one were desired.

At any rate, a warm discussion of things in general, and principally hockey, is bound to take place. That Amherst is to be the centre of proceedings is a matter of much satisfaction.

AWARD FOR THE ROYAL N. S. YACHT SQUADRON.

Halifax, N. S., Sept. 16—The Royal Canadian Mounted Police, Halifax, was awarded \$3,200 interest from date of expropriation, and a site at the ocean terminals breakwater by Justice Audette yesterday afternoon in the Eschequer Court, which has been holding sessions here in connection with civil actions in which the crown is one party. The award is in payment for property taken by the dominion government in 1918 for railway purposes.

Judgment was reserved in the case of Falconer vs. The King in an action in connection with a contract for construction of a breakwater. The total claim is \$9,139.60.

THE MARITIME CHAMPS.

(Moncton Transcript.)

Results of the Maritime Athletic sports held in St. John last Saturday make pleasant reading. It evidences that efforts to revive athletics in the maritime have not been in vain. That physical training, which so many of the boys received during the war, played its part on their return home, in stimulating athletics.

The maritimes are vitally concerned in the fact that the younger men of the maritime provinces are preserving and safeguarding their health and building up strong bodies by their awakened interest in athletics. Anything that can be done to provide facilities for clean sport and to encourage the same is a good investment for any community.

This awakened clean sport is largely attributed to the Amateur Athletic Union of Canada. It has scored a success in that respect.

Miss Marion Magee, secretary of the St. John Ambulance Association, will go to Fredericton, Saturday, at the request of the Earl of Ashburnham, to assist at the association's booth at the exhibition.

POLICE COURT.

Yesterday afternoon in the police court the case against Mrs. Winnifred Lane colored, who was charged with selling liquor to another colored woman, was taken up, together with one against Benjamin Dunlap, charged with selling to Mrs. Lane. Dunlap pleaded guilty and was remanded. Mrs. Lane pleaded not guilty, and evidence was given by Sergeant Rankine and Policeman Killen. They testified that the accused had two bottles concealed about her person one in her underskirt and another in her stocking. She was charged with selling to Mrs. Diamond, but asserted that Mrs. Diamond, to the best of her knowledge, evinced a decided preference for extract of lemon. Mrs. Lane was remanded. William Butler, charged with assaulting his wife, was again before the court and was again remanded.

In connection with the case in which James Howell was assaulted in East St. John, it develops that he was not robbed as at first supposed. He had received his pay, amounting to \$383, and at the hospital yesterday morning had \$325, and accounted for \$58 more. The name of one of his assailants is said to be James, a male, and the other is thought to be a white man. Howell was discharged from the hospital last night.

A NEW MOVE TODAY IN THE MAULEY CASE

Detective Goes to Truro to Bring "The Mulatto" Here on Suspicion.

Detective Biddiscombe will leave this evening for Truro to bring back to the city John Paris, a mulatto, suspected in connection with the murder of little Sadie McAuley. Paris was arrested a short time ago at the instance of the Truro police and taken to Truro. It will be remembered that a short time ago Walter Humphrey, residing in the West End, said that on the day of the murder he rowed a mulatto across the river below the falls at eleven o'clock in the morning and that at six in the evening the mulatto returned much excited and said he had murdered a girl and wanted help in burying the body. Humphrey later claimed that while passing along a dark section of the West End he was attacked about 9.30 in the evening and had to flee for his life. He said that his assailant was a negro and that he attacked him with a razor or like sharp instrument inflicting several gashes in his face and completely severing his necktie. It was said at the time which firm he is a member, received \$379, making a grand total of \$881.83 for the combination.

Government Accepts No Tender for Bread for Provincial Hospital—Other N. B. Matters.

On account of the falling flour market, the provincial government, at its meeting yesterday, declined to accept any of the tenders received for bread supply for the provincial hospital, Lancaster, and will buy in the open market for the present at least. The tender for coal supply was awarded to J. S. Gibbon. Yesterday the government approved a co-operative scheme for the marketing of poultry, much along the same lines as the dairy scheme now in force. The new idea includes the extension of credits to the extent of about \$10,000, with the establishment of a killing station at Moncton. The railway city was chosen on account of its being in the centre of the area of distribution. Premier Foster and his secretary, E. S. Carter, returned to the city last evening. The premier said that no action had as yet been taken regarding the proposal that the provincial government should stop construction of the new Canadian Pacific Railway bridge across the reversing falls. Nothing will likely be done, he said, until there is a report from the attorney-general on the province's jurisdiction in the matter.

CITY WORKS

The city public works department today issued a call for tenders for the laying of a two-inch asphalt concrete surface, extending twelve and one-half feet on either side of the street car line in the Marsh road. The tenders will close on September 22. Commissioner Prink said this morning that the telephone company had decided not to extend its conduits in this section this fall, but at any rate they could be laid along the side of the road without disturbing the proposed pavement.
