ARRESTED IN HOULTON.

Two Men Charged With Killing Aubrey Grant of Canterbury N. B.

HOULTON, Jan. 28.—Jake Wise and Michael Reardon have been arrested in Houlton on a charge of manslaughter in connection with the death of Aubrey Grant, of Canterbury, N. B., in a saloon last November. Wise, Attorney Herbert Powers, of County, and at the court held at Fort Fair, came to Houlton Tuesday noon and after a conference with Capt. T. E. Hartnett went to the office of Judge Briggs, where another conference was held and at the conclusion Sheriff Lawliss was charged with the search of two men, Jake Wise, both of Houlton, and the warrant for their arrest charges that one Aubrey Grant of Canterbury, N. B., died on Dec. 10, 1902, as a result of injuries inflicted upon him by the two men in the place of Wise on Nov. 10.

Reardon was arrested shortly before 4 o'clock and taken to the county jail, where he was held until Tuesday evening when a hearing was held before Judge Briggs. Reardon was represented by John Madigan, of Houlton. A plea of not guilty was entered and the hearing was continued for two weeks and Reardon furnished bail in the sum of \$1,000.

Wise was not arrested until after 8 o'clock Tuesday night, when Sheriff Lawliss and Capt. Hartnett visited his place. The sheriff went to the front door and left Hartnett at the rear. The members of the party which accompanied them scattered about the place. After the sheriff had entered the place, a small boy rushed out and a few moments later Wise was seen coming through the door. He was instantly caught by Capt. Hartnett, who at once sent word to Sheriff Lawliss who came and took charge of the man conducting him to the jail where he was locked up. He was given a hearing Wednesday morning and the hearing continued two weeks.

The real reason for these continuances is that one of the most important witnesses for the state is just recovering from an attack of typhoid pneumonia and will not be able to be out inside of that length of time.

MARSTEN CASE.

FREDERICTON, N. B., Jan. 29.—At the Marsten murder trial this morning several witnesses were examined. The only testimony of real importance was that of Lucinda Marsten, maiden sister of the deceased, who testified that George always feared that the prisoner would poison him, and he refused to take medicine from her when he was sick.

BEER WHICH NO ONE DRINKS.

Output of Manchester Municipal Plant Regularly Poured into the City Drains.

LONDON, Jan. 26.—The Manchester corporation recently set up a municipal brewery, but, sad to relate, the beer is all poured into the drains. The explanation is that the Manchester Municipal School of Technology decided some time ago to have every trade of the North of England practically taught. As there were some fourteen students desirous of being initiated into the mysteries of brewing, the corporation decided to establish a miniature brewery for the working of this brewing plant was accordingly installed, and visitors to the school have the opportunity of seeing how the operation of brewing is conducted, just as if they were in Burton itself.

The authorities of Somerset House pondered for months before they gave their consent to the working of this miniature municipal brewery, but consented at last on the condition that the beer brewed be destroyed. In order that no mistake may be made in this matter, an excise officer attends the school to see that the liquid finds its way into the drains.

KINGS COUNTY.

A Strong Opposition Ticket Placed in the Field Yesterday.

The candidates chosen to contest Kings in the interest of the opposition party are Fred M. Sproul of Hampton, Councillor James A. Moore of Waterford and James D. O'Connell of Sussex. These gentlemen were the unanimous choice of one of the largest political conventions ever held in Kings. The convention accepted the same and addressed the electors briefly, pledging themselves to stick together and protesting that success would come to the ticket.

The convention was held yesterday afternoon at Hampton, in Smith's hall, which was filled with electors representing every parish in the county. J. Smith was called to the chair, and while they were awaiting some further arrivals George V. Melnerney, of this county, was called upon to speak. Mr. Melnerney delivered a vigorous address which was heartily applauded.

It was resolved to nominate the candidates in O'Connell convention, and Messrs. Sproul, O'Connell and Moore were so nominated. The three candidates then addressed the convention and were followed by George W. Fowler, M. P., who urged the electors to support the white ticket. There were calls for F. M. Anderson, the opposition candidate in St. John county, who has been present earlier in the meeting but had retired. The meeting then adjourned and some attention was given to parish organization.

The convention was a very enthusiastic one, and much satisfaction was expressed that so strong a ticket had been nominated.

BEAR GULCH ON THE BOOM.

Speculators are Buying—The Irrepressible Henry Bush.

JARDINE, Montana, Jan. 19.—There is no abatement of the interest speculators and mining men have been taking in the mining properties of Bear Gulch. The price of claims is advancing, especially in the locality of Pine creek, which is about two and a half miles north of the Bear Gulch company's mines. The fact that it is mid-winter seems to make little or no difference to seekers of wealth—they go right on locating, snow or no snow. It is thought that there will be considerable demand for claims in that section after the snow leaves the ground, and therefore locators are asking high prices for mere prospects. In doing so, however, they are prompted by the fact that a huge ledge of mineral bearing rock traverses the line of location. The outcroppings are materially the same as those of the Revelation, Legal Tender and Revenue, which increases in width in their northern trend. As a result of this the Empire claim is under the control of A. Livingston, receiver for the Bear Gulch company's property, on an option, which will remain in force until the 28th of the month. It is understood that the consideration is \$20,000 in cash. Some other offers for the property have been made, and the chances are that if Mr. Livingston fails to take the ground it will be bought by someone else.

Henry Bush brought suit in the district court against the First National Bank of Butte to have a sale of a lot of stock and property set aside. Bush, who has had some publicity on account of his relations with the Bear Gulch mining company, says that on Jan. 9, 1900, the Bank County, he made an assignment to G. O. Freeman for the benefit of his creditors, but the court subsequently released, Freeman and Thomas Swindelhurst was appointed in his place. The latter, as assignee, advertised for sale all the property of the assignor, with the exception of a lot of property on the Revenue lots and mill site and one on the Robinson group of mines. The sale included 50,858 shares of stock in the Bear Gulch Mining company and 275,000 shares of stock in the King Solomon Mining company. The assignee's inventory failed to include all the property of the assignor. He never had possession of the mining stock referred to because it was held by the First National bank. On Aug. 17, 1900, Swindelhurst sold to E. B. Weirick, cashier of the bank, the stock for a pretended price of \$50,000, but in fact received only \$20,150, and the balance of the alleged sum went to the bank as a pretended preferred creditor of the assignor. The stock sold, it is claimed by Bush, was worth \$250,000, and he asks the court to set aside the sale, that he be compelled to give an accounting and that it be decreed to hold the stock in trust for the plaintiff.

PROVINCIAL WEDDINGS.

A pretty home wedding took place in St. Andrew's last Wednesday evening, Jan. 21st, at the home of Mrs. W. H. Williamson, when her son William was united in marriage to Miss Lizzie Kay by Rev. R. J. Langford, in the presence of a number of friends and relatives.

The Evergreen Baptist church, East Margareville, N. S., was the scene of an interesting event on Wednesday evening, 14th inst., when Miss Flora G. Downie became the wife of Raymond C. Carey, Rev. H. N. Perry officiating.

The marriage took place at St. Paul's church, French Village, N. S., yesterday morning of Miss Gladys Jean Rankin, daughter of W. Rankin, to Geo. P. MacLaren, civil engineer.

Mrs. Birch and Mrs. Feaman are not expected to live.

The entire family, with the exception of Birch Cooper, 25 years of age, Mrs. Birch's grandson, and a child six years of age, a godson of Mrs. Birch, drank the coffee. Officers are at work on the case.

ST. JOHN STAR.

ST. JOHN, N. B., JANUARY 29, 1903.

KINGS COUNTY.

The opposition party in Kings county has selected a very strong ticket and one that should win in the coming contest. Mr. Sproul has been steadily gaining strength in the county since he first entered the field in 1900. Mr. O'Connell is a new man in the political field, but he is a progressive and able business man, well known and highly respected in the county; and he has the honor of being singled out for special attack by the St. John Telegraph. Mr. Moore has long been prominent in the municipal politics of the county, and is admittedly a very strong man. The convention that nominated these three gentlemen was not only large and thoroughly representative, but it was entirely unanimous. It will be noted that the Telegraph's call to arms has been ignored in Kings, for Mr. O'Connell has always been a pronounced liberal in federal politics. There is no question about the strength of the ticket or that the result of the convention has caused a panicky feeling in the government ranks. Mr. Hazen may well be gratified at the progress thus far made in the selection of candidates to support him. The party in the counties where candidates have not yet been nominated will be greatly encouraged by the news from Albert and Kings.

A DANGER AVERTED.

Now that it has been decided not to execute Col. Lynch the British army and navy will breathe easier. Because in the event of Col. Lynch's death the following dreadful threat by Father Timothy Dempsey would have hung over them until the last shred of them had been scattered to the void: If the British government kills Col. Arthur Lynch then I hope that no Irishman will rest until he has blown up every English army barracks and warship. I myself will be the very man to touch off the first stick of dynamite to start the ball rolling, and I think I voice the sentiment of the majority of the foremost Irishmen of St. Louis.

Father Dempsey is the pastor of St. Patrick's church in the city of St. Louis, which is a pretty safe base of operations against the British empire. Any attempt to present Col. Arthur Lynch in the role of a martyr will not meet with success. The inveterate and unreasoning haters of England will make what capital they can of the incident, but steady-going folk cannot be induced to regard treason as a virtue. There was no reason why he should have pursued the course that has brought him into contempt and under the hand of the law. He had no personal grievance, and has suffered no wrong. He was not fighting on the side of the oppressed, but of those who sought to oppress British subjects. He may have been wild enough to dream of success by the Boers, with attendant glory to himself; if so, he has had his dream and the awakening.

But, for the serious nature of his offence, most people would be thankful if he were set at liberty, if only he would take himself off into obscurity and permit them to forget all about him. Men of his calibre neither make nor unmake nations. It is a pity a man of admitted talents should have made so little of his life and opportunities.

Up to January 17th, the apple shipments from Boston, New York, Portland, Montreal, Halifax and St. John to trans-Atlantic ports aggregated 1,577,183 barrels, compared with 613,976 in the like period last year. The figures for the last season were: Boston, 611,171 barrels; New York, 500,297 barrels; Portland, Me., 181,879 barrels; Montreal, 476,766 barrels; Halifax, 50,476 barrels; St. John, N. B., 25,914 barrels. Shipments while larger than in the previous year were not so profitable; indeed some shippers were rather badly bitten.

A memorandum prepared by the labor department of the British Board of Trade for the Labor Gazette states that the general state of employment declined slightly during December. As compared with a year ago, a decline is shown in the iron and steel, engineering and shipbuilding industries. On the other hand mining shows no falling off, and there is an improvement in the textile, clothing, and printing trades.

The government organs are worried about Mr. O'Connell of Kings. They know he is a strong man, and therefore he is vigorously assailed. The letter of a correspondent in today's Star, relative to the price of gas, raises a question that deserves to be considered by the citizens of St. John.

OTTAWA NEWS.

OTTAWA, Jan. 28.—In well informed circles it is considered extremely likely that the federal government will yield to the provincial demand for an increased subsidy. At the conference of 1887 Mr. Blair and Mr. Fielding supported the resolutions, of which those presented yesterday are simply a paraphrase.

W. W. Campbell, a well known poet and author, recently sent by request the manuscript of a novel written by him to an English publishing house. The manuscript has been lost in transmission.

Mr. Mann of Mackenzie & Mann is in the city today, and was asked about the report of a proposed sale of the Canadian Northern railway to the Grand Trunk. He denied it flatly. It is generally believed, however, that the report from Montreal is a substratum of truth. The position of affairs is believed to be that negotiations have advanced so far as to lead to the invitation of Mr. Mackenzie to visit London with a view to discussing on the spot with the Grand Trunk directors the question of transfer of Canadian Northern property and franchise. It seems to be conceded by well informed interests on transportation matters that there is not room for some years to come for three trans-continental lines in Canada, and if a charter were given to the Grand Trunk it would effectually block the completion of the Canadian Northern, while the Grand Trunk itself would not be able to accomplish anything for years by having to go into territory further north, from which no adequate returns can be secured for a long time. This fact evidently impressed itself upon both the Canadian Northern and the Grand Trunk people, hence their coming together.

Sir Chas. Ross, of Quebec is here on business with the department of militia. He says his factory for rifle construction is making excellent progress and will be turning out a perfect weapon in June or July. The first year's contract of 14,000 rifles for the government will be carried out during the present year.

Premier Murray and Hon. Mr. Longley left for home today. Quebec and maritime news substantiated in the Halifax fishery award. A test case will be submitted to the courts.

The New Brunswick and Prince Edward Island representatives, Premiers Tweedie and Peters, had a long hearing in the cabinet this morning on the subject of bonded warehouses in connection with the redistribution bill, based on the census of 1901, will reduce the representation of New Brunswick and Prince Edward Island by one member each and that of Nova Scotia by two members. The maritime province delegates urged that the constitution be amended so as to increase the Quebec representation rather than reduce the others on a basis of the unit of population established by Quebec's fixed representation of 65 members. They state, however, that so long as the proportionate representation of the provinces is maintained, the objection to the present system is founded largely upon sentimental aversion to the reduction in the number of members which a province at present returns to the commons.

A deputation is coming here tomorrow from Montreal representing the owners of bonded warehouses to interview the minister of customs in reference to the government's proposal to compel owners of these warehouses throughout Canada to pay a certain proportion of the customs work in connection with them. Bonded warehouses entail an annual charge on the country of over \$50,000. In England the government charges the warehouse owners a percentage on the value of goods bonded to cover the cost of service. In Australia it ranges from £200 sterling down, while in the United States the owners have to pay the actual cost of the locker in every case.

CARPENTERS MEET.

The Biggest Gathering of the Craft for Years in St. John. One of the largest and most enthusiastic meetings of carpenters ever held in St. John took place last night in Sons of England Hall, Pres. Gabriel in the chair. The gathering was addressed by Organizer Glass, who in his opening remarks stated that though now from Buffalo, an American city, he was under his old flag (pointing to the British ensign on the wall), as he was a Scotchman by birth and therefore a Britisher. Mr. Glass, as the official organizer of the United Brotherhood of Carpenters and Joiners of America, gave some practical advice to the assembly, urging the carpenters to accompany their demands for better pay with a full moral promise of better work on their part.

After recess several members were initiated, and an agreement was made to meet the master carpenters to talk over the formation of a fraternal association. To this end a committee of five was appointed with power to act. Mr. Glass is of opinion that all five master carpenters will attend the meeting tonight.

At Amherst, yesterday William Wright was run into by a rapidly driven team, the shaft of which struck him, knocking him to the ground and rendering him unconscious. A physician was summoned and found one rib broken, besides a very severe shaking up from which serious results may follow.

Edward Sears by the slewing of his sled was thrown from a load of pressed hay, a portion of the load falling upon him, bruising him considerably about the thighs. Camille Venol, while splitting wood, was accidentally struck on the head with his axe, cutting a bad gash on the top of the head, the force of the blow causing him to bite his tongue considerably. He was rendered unconscious. Geo. Perry, of Leicester, who is engaged in lumbering with Joseph Anderson of Amherst, had his left arm broken, one leg crushed and his scalp so badly torn that fifteen stitches were necessary. His condition is precarious, but he will probably recover, as he is healthy and in the prime of life.

THE MARSTEN TRIAL.

This afternoon M. V. Paddock of St. John testified to having analyzed 15-2 ounces of liver and kidney of the late Geo. Marsten. He found one-twenty-fifth of a grain of strychnine. Dr. W. D. Rankin of Woodstock, who held the autopsy of the body, testified for the crown. There were no marks upon the body to indicate the cause of death. After hearing the report of Mr. Paddock, he was of the opinion that death caused from strychnine poisoning, in a man of George Marsten's weight, if one twenty-fifth of a grain of strychnine was found in 15-2 ounces of kidney, the whole system would contain about five grains.

Dr. W. W. Turner of Medicine, who assisted Dr. Rankin in holding the postmortem, was called. He added nothing new. Evered Marsten, brother of the deceased, was examined, but knew nothing material to the case.

SPORTING NEWS.

THE RING.

NEW CLASS FAVORED.

The supremacy of James J. Jeffries in the world of pugilism has given rise to a fresh argument favoring a division of the heavyweight class.

Many believe George Gardner is the best man in the world at 165 pounds. Experts who have seen him put up his hands have pronounced him a pugilist of merit with a brilliant future.

the expense of Gardner, but the veteran Cornishman probably would not care to go into training again for such an affair, which would not attract sufficient money to suit his ideas.

In view of the fact that the smaller class are ranged close together as to weight, bantams, 105 pounds; featherweights, 118 pounds; lightweights, 133 pounds; welterweights, 145 pounds, and middleweights, 158 pounds, it seems plausible to argue that the stretch between 158 pounds and 220 pounds is entirely too great.

FITZ'S SWEEPING DEFI. Bob Fitzsimmons is apparently much wrought up over the reflections cast by Tommy Ryan and other pugilists as to his ability, and has issued a sweeping challenge.

Fitz thinks that all those who have professed a desire to meet him are merely bluffing. He is especially caustic in his remarks regarding Ryan, of whom he has this to say: "You can rest assured that Tommy Ryan is not in earnest when he states he wants to fight me. You could not drag him into the same ring with me if the contest were for a decision and all of the purse."

"If he will appear at our show at any time I will agree to knock him out in four rounds or forfeit \$250. All he will have to do is to be on his feet at the

end of the limit, which will be no more than twelve minutes of fighting. He will probably make it a sprinting match, but I will fix him good and plenty before that time."

WANTS TO RESIGN

Director Chapman Says He is Disgusted With Bangor Chorus.

(Bangor Commercial). Director-in-chief William R. Chapman came to Bangor Tuesday evening and had a heart-to-heart talk with the members of the Bangor Chorus.

"I'm disgusted with this chorus and I'm tired of coming way down here from New York to conduct a chorus of a half dozen singers," said Director Chapman.

"What's the matter with you Bangor people? Don't you want the festival? If you don't, there are other towns that do and if we can't have more enthusiasm you've got to get a director who can stir you up better than I can."

"I'm going to hand in my resignation tomorrow and unless I have assurances that there will be more life and enthusiasm, a bigger chorus and a continued good attendance at rehearsal that resignation will be final."

The strong demand for kerosene oil, due to the scarcity of coal, has resulted in an increased price of crude petroleum and as a consequence in all lubricating oils as well as illuminating. All cylinder oils have recently gone up five cents per gallon and other oils are also higher.

Freight is now coming along at a lively rate over the C. P. R. Yesterday's report showed that one hundred and fifty-five carloads had been received during the preceding twenty-four hours, and yesterday one hundred and nine carloads arrived.

NEW TELEPHONE RULE. The manager of the Telephone Company has instructed all the operators not to answer any questions or give any information to subscribers concerning the arrival of trains or boats. In the future all persons desiring information of this sort will be connected with the places from which it can be received.

This order has been issued by the manager in the hope of giving a quicker service to subscribers. In the past while the operators have been kept busy answering questions other persons have been kept waiting, and it is believed that by doing nothing more than attending to connections the operators will be able to give a quicker service.

There will probably be a general protest. It should not take any longer to answer a question than to make a connection, and it is a great convenience to get the answer quickly.

THE FISH MARKET. The supply remains about as it has been during the past week or two and does not greatly exceed the demand. The leaders this week are salmon, halibut and shad and the quotations are salmon, 15c. to 22c. per pound; halibut 15c. per pound; shad, 30c. and 35c. each; cod and haddock, 8c. per pound; cod steak, 10c. per pound; pickered, 6c. per pound; smelts, 8c. to 10c. per pound; fresh herring, 20c. per dozen.

RECEPTION FOR DR. PARKER. The R. K. Y. club will hold a reception and smoker in their rooms on Friday evening, in honor of Dr. Lindsay Parker, chaplain of the club, who lectures tonight in the York Theatre. All members of the club are requested to be present at the reception.

WEST INDIA LINE. The Oceano arrived in Halifax at four o'clock this morning and will leave for St. John on Saturday morning.

LETTERS FROM THE PEOPLE.

PRICE OF GAS TOO HIGH. To the Editor of the Star:

Sir—May I ask through the columns of your wide-awake paper why it is that the price of gas is so much higher in this city than in any of the other municipalities in the Dominion? It is presumed that in large cities the price is lower, because of the large consumption, but the point I desire to make is why, in the city of St. John, the inhabitants are obliged to pay \$1.35 per thousand cubic feet for lighting purposes while in the City of Toronto—a very much larger city, I admit—the rate is only 80 cents per thousand. At this rate I understand gas is furnished for lighting and heating. In Montreal only 60 cents per thousand is charged for heating, \$1 for cooking and \$1.20 for lighting purposes. Assuming that St. John is smaller in proportion to population than either of the two cities named, is not the difference in the price of gas altogether too great? If gas can be produced as it is now in this city and sold at a profit of 10 cents at \$1.25 per thousand feet, why should the company compel their patrons to pay \$1.35 for lighting purposes, especially as there is no difference in the production of the gas which is used alike for heating and lighting.

Yours truly,

A CONSUMER.

NEW I. C. R. ROUNDHOUSE. Contractors Beginning Preliminary Work for the \$30,000 Building.

Messrs. Flood and Bates the contractors for the new \$30,000 I. C. R. roundhouse, have begun work at Gilbert's island preliminary to the construction of the big building. The principal stone crusher has been borrowed from the local government and a gang of men with steam drill are at work on the island blasting out rock to feed to the crusher, which will break it into the necessary smallness for the making of concrete.

Owing to the marshy nature of the ground on which the round house is to be built, piles will have to be driven deep down to give a firm primary foundation on which a solid bed of concrete will be laid. The main foundation of the building will be constructed on this.

The work of preparing rock for the concrete will continue for the next couple of months, as the work of pile driving will be done until the ground has thoroughly thawed out.

COASTING ITEM. There is great coasting on the Princess street hill between Germain and Water streets, but it is to be regretted that the telephone posts and hydrants, are so often in the way of the sleighs. Between eight and nine o'clock this morning when one of Starr's heavy coal sleds was coasting from Prince William to Water street, it was caught against the fire plug at the lower corner and knocked it into about sixteen different pieces. Then the water poured out like a fountain, and it was real pretty for about twenty minutes until some one came and made it stop running on the street, because it was violating a city by-law. The driver had originally some intention of stopping to dump his load at the Royal Bank, but when the horses were so scared away with the good sliding he decided to go down to the foot of the hill.

KILLED IN THE WOODS. Chief Clark has received a despatch from a citizen of Staceville, Maine, asking for information regarding the relatives of a man by the name of James Given belonging to St. John. The telegram stated that Given, who was employed by one of the lumber camps near Staceville, had been killed on Tuesday afternoon by being struck by a falling tree.

The man referred to is evidently James Given of St. John, who has been living with his grandmother, Mrs. Margaret Given, in a house in the rear of 161 Erin street. His body will probably be brought home for burial.

GETTING UP STEAM. After much deliberation and many conferences it has been decided that they will call for at least six stoves to take the chill out of the spine of the local government party in this constituency. Therefore that number of heaters are being put in the government's Hall, which will be the government's headquarters in the campaign. It is generally believed that the elections will be brought on very soon. The heaters are swelling with self-importance, in anticipation of the glory and things they expect will soon come their way.

Y. M. C. A. BUILDING. The Y. M. C. A. officials are sending out by mail today about seven hundred letters to citizens of St. John appealing for contributions to the fund for the new building. The cards are enclosed on which the names of the subscribers may be written. They are made payable in three instalments due half yearly. The first comes in March. There is still needed \$5,000 to complete the \$50,000 necessary for building of the committee to have this pledged in two weeks time.

RECENT DEATHS. Fred D. Starr, a graduate of Acadia University in 1900, and one of Wolfville's most promising young men, died on Wednesday after a short but serious illness at the home of his father, Charles E. Starr, Peregau, at the age of 28 years.

John Hopkins, one of the oldest residents of Bristol, N. B., died suddenly last Friday night of apoplexy. He was 79 years of age, and leaves a family of two sons and two daughters.

STACK HOUSE FUMIGATED. The Board of Health began a preliminary disinfection of the quarantined stack house on Erin street, as a precaution for the safety of those confined there. Should the vaccinations given Sunday take successfully the quarantine will probably be lifted next week, after the house has again been fumigated.

The patients in the isolation hospital is progressing most favorably. His case is a mild one.

S. S. YARMOUTH DELAYED.

But Telegraph's Story of Her Narrow Escape From Wreck is Another Fake.

The Telegraph this morning states that the D. A. R. steamer Yarmouth came near running ashore at Black Point on her way into St. John harbor last evening. According to the story the ship was only saved from going to the rocks by the keen eyesight and good voice of one of the Westminster Abbey Choir, who saw the danger in time and warned the captain.

As usual the story had no foundation in fact. The Yarmouth was greatly delayed last night by thick weather outside the harbor. She being a deep draught boat and the tide being low Capt. Potter wanted to be certain of the exact centre of the channel and for that purpose ran in to leeward of the bell buoy to catch the sound of the bell and shape his course by that. Failing in this he backed his vessel out and lay outside the harbor until the fog lifted so that he could make the island light. This was not possible until nearly one o'clock this morning.

Such, at least, is the account given by D. A. R. officials of the circumstances. To those who know Capt. Potter's ability as a pilot even this denial of the Telegraph's story is unnecessary.

BASEBALL THIS YEAR. Prospects For a Good Summer's Sport Athletic Grounds Leased.

The local baseball managers are preparing already for a banner season this summer. It has been rumored that the Alerts were not going to re-organize this year and in consequence some of the Roses have been in correspondence with the managers of the New England League with a view to entering a team.

But those who will be back of the Alerts promise a carefully selected, well managed and satisfactorily financial team this summer and in consequence negotiations with outside leagues have been practically dropped, as it is felt that this local competition, with a judicious sprinkling of games with outside teams, is capable of arousing more interest than any other proposition.

The Athletic grounds at Marsh Bridge have been leased this year by the Y. M. C. A., which intends to go in for outdoor sports more extensively than ever before. Manager Danbury has, however, secured a sub-lease, so the use of the grounds for games and practice for the Alerts is assured.

POLICE COURT. Only Three Drunks on the List This Morning.

Thomas Sharkey had "bubbles in his think-tank" all right last evening, when he struck the Fern hotel and pushed part of himself through a pane of glass. Sharkey was lively and although the central station was only a few inches away, and two policemen were on hand, he had to be hauled to the lockup, at an expense of twenty-five cents. This morning Sharkey was fined four dollars for being drunk and was remanded on the charge of breaking the glass.

Tony Burns had lots to say on Carman street last evening, but seemed to have lost his voice this morning. He could only plead guilty to being drunk, and that cunning little smile of Tony's, which gets him out of lots of scrapes, was worked again to such good effect that he was let off for four dollars.

Joe Devine was another man who talked too much last evening. His oratorical powers were displayed to best advantage in swear words and Devine got eight dollars or two months for profanity.

M. J. Teed of Dorchester, is in the city.

Two bodies have been taken from the Eckhart plant and others are still in the ruins. Four injured taken to the hospital are believed to be fatally hurt.

OGILVIE'S FLOUR IS POPULAR EVERYWHERE. The best advertisement the Province of Manitoba has ever had was the selection of Ogilvie's flour for the table of the Prince and Princess of Wales. It brought the wheat quality and productiveness of the province to the immediate notice of thirty-five millions of people in the British Isles and to many millions of other Britons beyond the seas. Ogilvie's flour has now a world-wide reputation, and wherever it has gone one hears none but the best report of its quality.

FRIDAY NIGHT'S CARNIVAL. The Trades and Labor Union carnival at Rictoria Rink Friday evening should draw one of the largest crowds ever assembled in the old Victoria Rink building. The sixty dollars offered as prizes for the masquers will no doubt create a lot of rivalry, while the solid silver tea service to be given to the lucky ticket holder will prove a big attraction for the spectators.

THIRTY YEARS AGO TODAY. The new glass works commenced operations. Mr. Landry resigned his position as organist of the Cathedral choir. The first car to be fitted with the new steel rimmed wheels came over the I. C. R. The wheels were of cast iron centres with a strip of wood between the hubs and the rims.

Robert I. McEwen, engineer of the tug Relief, died from the effects of scalding by escaping steam. Gibbon, the prisoner who escaped from the penitentiary in a baker's wagon, was recaptured after a long chase near St. Stephen.
