## THE POPE REFUSED TO SEE ROOSEVELT.

Ex-President Would Not Be  
Bound by Certain Re-  
strictions.

### PERSONAL MATTER.

ROME, April 3.—The audience which it was believed ex-President Roosevelt would have with the Pope on Tuesday next, will not occur, owing to conditions which the Vatican has imposed and which Mr. Roosevelt refuses to accept.

Although the definite negotiations relative to the audience ended before Mr. Roosevelt left Egypt, the announcement was withheld until after Mr. Roosevelt reached Rome tonight, at the solicitation of his American Catholic friends here, who believed that in the meantime the Vatican might change its attitude.

One of the former president's American friends, who was with him in Egypt, came to Rome yesterday without, however, any authorization from Mr. Roosevelt, and interceded with Cardinal Merry del Val, the papal secretary, in an endeavor to avoid a situation which, as it stands, has caused a real sensation in Rome, although it was not entirely unexpected. But his efforts were unavailing.

While at Gondokoro, in February last, Mr. Roosevelt wrote to Ambassador Lehmann saying that he would be glad of the honor of an audience with King Victor Emmanuel and the Pope. The audience with the king was promptly arranged. Before an arrangement could be reached relative to an audience with the Pope, several telegrams were passed, and the negotiations ended by Mr. Roosevelt refusing in any way to be limited as to his conduct, and announcing that an audience with the Pope, under the circumstances, was now impossible.

As a matter of fact, Mr. Roosevelt, although declining to accept any conditions in connection with his audience with the Pope, has neither directly or indirectly before, during or after the negotiations, made or considered any engagements in Rome except those of an official character, and he actually entered Rome tonight with but two definite engagements the audience with the king, and the dinner to be given in his honor by the municipality.

## LAYMEN'S MISSIONARY MOVEMENT

Series of Meetings in Maritime Provinces Covering Fourteen Cities.

The ocean to ocean campaign of the Laymen's Missionary Movement is to be concluded with a series of Maritime Conventions in New Brunswick and Nova Scotia, reaching fourteen important cities in seventeen days.

The Western Provinces were visited by a delegation of business men and secretaries last October and November, beginning at Winnipeg, October 26th, and reaching Victoria.

The points to be reached in the East are as follows:—  
April 3, 4, 5, St. John's; 5, 6, Moncton; 6, 7, Fredericton and Campbellton; 7, 8, Woodstock; 10, 11, Halifax; 12, 13, Truro and Kennebec; 14, 15, Sydney Mines and Charlottetown; 17, 18, Glace Bay and St. John's; 19, 20, Sydney; 20, 21, Amherst.

The following speakers will participate in the Convention, though it will be impossible for any one of them to visit all of the points named:—  
The Bishop of Fredericton,  
Canon L. Norman Tucker, Toronto;  
R. H. Buchanan, Esq., and James Rodger, Esq., Montreal;  
Judge Proulx of St. John's,  
Rev. G. R. Martell, of Windsor, N. S.,  
R. W. Allen, Esq., Rev. F. W. Anderson, Rev. W. T. Stuchlik, D. D., Rev. C. K. Manning of Toronto, and  
General Secretary Caskey of the Canadian Council.

Other speakers from St. John, Halifax and Sydney will assist at one of more of the Conventions.  
The programme at each point will be much the same, the dinner being held the first evening, the second day being marked by conferences on difficulties and methods, and closing with a Denominational Conference led by the Laymen's Secretaries. Towns where Conventions are not held are expected to send delegates to the nearest Convention centres, in order to carry the enthusiasm back to their own churches.

## ENGLISH FARMERS FOR N. B.

Party Arrives in St. John to Settle in This Province

ST. JOHN, Ap. 3.—Of special interest to New Brunswick is the arrival of the Empress last night with a little party of 57 English farmers who will settle in this province. They were accompanied by A. Bowdler, St. Mary's, N. B. provincial government agent in Great Britain. Places have already been provided for these settlers on New Brunswick farms, and Bowdler expects others to follow on the S. S. Corsican and S. S. Casandra. Bowdler says he found some difficulty in getting a party to come to New Brunswick because of the prevailing opinion that a man was wasting his time in coming to Canada unless he settled in the West.

## IMMIGRANTS FOR CANADA

Seventeen Trains en Route to Montreal From Halifax and St. John

HALIFAX, April 2.—The streets of Halifax were dotted with new settlers yesterday, who arrived by the Canadian and are on their way west. Seventeen special trains from Halifax and St. John are due in Montreal with over six thousand immigrants, this big rush ending the biggest week in the immigration line that Canada has had for a good many years, over twenty thousand settlers having reached this country during the week. In this party there were six special trains from the Empire of Britain and several other boats, while six special trains with immigrants are en route to the interior and the Grand Trunk.

Most of the settlers are bound for the far west. They are well laden with supplies as shown by the fact that the C. P. R. had to send fifteen baggage cars to St. John to take forward the effects of the people coming in over that line. Included in the party are thirty families, completing about 150 people, who are going to Calgary to take up farms under Sir Thomas Shaughnessy's latest scheme of "ready made" farms for settlers in the irrigation country.

Noted five immigrant trains from Halifax, each train averaging ten cars, have passed through Moncton within 24 hours. Three of the west via St. John, and two via the North Shore—Transcript.

## THREE GERMAN AERONAUTS KILLED.

After Wild Flight Big Balloon Fell into the Baltic Sea.

## HAD BAD START.

STETTIN, Germany, Ap. 3.—The German balloon Pommern which made an ascent here this afternoon, met with a series of accidents which ended in a disaster under most tragic circumstances in the Baltic Sea. Three men lost their lives, including the Radical member of the Reichstag, Werner Hugo del Bruck, Herr del Bruck and another member of the party was drowned, a third occupant of the car was picked up unconscious and died from his injuries, while the fourth was rescued in a serious condition.

The Pommern, carrying del Bruck, who was acting as pilot, a banker, Herr Semmehardt, an architect, Herr Benduhn, and a man named Hein, ascended early in the afternoon at the gas works. The wind at the time was blowing a hurricane, and the Pommern broke away before she had been completely inflated.

A chapter of accidents began immediately. The balloon collided with telegraph wires, which broke, almost overturning the basket. It then dashed into the roof of a neighboring factory, destroying the smokestack. With the basket swaying wildly, and half of its ropes cut, the balloon soared to a great altitude and disappeared in the clouds at a terrific speed.

The remains of one-lookers, including a detachment of military, which had assisted in the ascent, ran along the roads, expecting the basket to break away. The balloon, however, was seen again until it reached Swinemunde, thirty six miles northwest of Stettin, over which it passed at a height of 6,000 feet in the direction of the sea. Tugs followed in its track, and one of them which had out-distanced the others, was almost directly under it, when suddenly the balloon fell into the sea. The tug steamed to the spot quickly, but the rescue work was difficult. Already del Bruck and Semmehardt and Hein were clinging to the ropes and they were dragged aboard the vessel.

Hein died soon after being taken on board, and del Bruck's body was washed ashore this evening.

The Pommern with the aeronauts Oscar Semmehardt, and Heinrich Benduhn had disappeared from the International Balloon race at St. Louis in 1907.

## HON. MR. FOSTER AND HIS PROBABLE SUCCESSOR

Politicians Have an Interesting Subject to Discuss

OTTAWA, Ap. 4.—The new weekly published that Hon. C. G. Foster has definitely decided to leave politics. Public opinion is divided on the question, as to whether or not he has been asked to resign, or whether he has expressed an intention of retiring, and the leader of the opposition will not ask it. Nor has Mr. R. L. Borden made any move towards reorganization or cleaning up of his party. There is nothing tangible in any item thus far.

TORONTO, Ap. 4.—As a result of the reported prospective retirement of Hon. Geo. E. Foster, the name of Mr. A. E. Kemp is suggested for the party candidature in North Toronto. It is likely, however, that Mr. Kemp would have to fight for the nomination. The report that federal call would be extended to Hon. W. J. Hanna, provincial secretary, to join Mr. R. L. Borden in reconstructing the party, receives cordial credence from local politicians, but the party leaders decline to express themselves regarding it.

## ARRANGEMENTS FOR MEN'S CONVENTION.

Meetings Will be Held Wednesday and Thursday Evenings.

## SUPPER WEDNESDAY.

All arrangements have been made for the Men's Missionary Convention to be held here Wednesday and Thursday, April 6th and 7th. Owing to the impossibility of speakers to keep other appointments, the day meetings had been dropped from the program. A supper will be provided by the ladies of the Episcopal Church in the Masonic Hall at 7 o'clock tomorrow evening, at which it is hoped to have all the men of the town present. The tickets for the supper can be had for 50 cents from D. J. Brown, R. H. Keith, Thos. Wain, or at the hall.

The following is the program and it will be seen that some of the most able speakers on the subject of Missions, will deliver addresses:—

Spring need not be afraid of over-doing things.

Suppose the rich people try eating cheaper cuts themselves. They have chefs to prepare these dainties.

There are fewer bugs in the country now to enjoy the advent of spring than there would have been had pork been cheaper. But this is merely one of the trials of greatness.

A Brooklyn beggar when arrested had ten silver watches in his pockets. It is an extraordinary thing that he did not escape from the constable, as he had plenty of time—Toronto News.

A chap in Ottawa received twenty-one offers of marriage in one day, probably from sympathetic women who proposed to offer him a home in some town where a white man would care to live.

The time to advertise is all the time. The man who "bates" society has the largest basket of fish. Advertising is an insurance policy against forgetfulness. It compels people to think of you.

Another comet has been discovered. These wanderers may be coming in bunches, just to tantalize the good Mr. Morgan, who has not discovered a way to establish his ownership of them.

The good news comes from New England that 600 French-Canadian families will leave within next month for Saskatchewan and Alberta. The tree land of the Canadian West is more attractive than the cotton mill of the East. Good.

The private history of many a life has shown that a character that may have shown criminal tendencies in youth can be so reformed that the child will take a good place in society and live to be a respectable man or woman.

Says the Governor of North Carolina in a recent temperance outbreak: "I drink up a dollar, and there goes my hat; I drink up 75 cents and away goes my shirt; I drink up 50 cents and away goes my breeches." Stop, stop, says the governor of North Carolina, in consternation. "Don't go any farther!"

Canadians can but view with trepidation the spectacle presented by the rumors which come from the Capital that a cool million dollars has been set aside by some interests to insure the passage of the St. Lawrence Power bill. American methods of manipulating legislation by the gold standard cannot prevail in this country. Legislation here is not for sale.

Rheumatic pains are quickly and effectively driven out of the blood by Dr. Shoop's Rheumatic Remedy—its quick and reliable results are a guarantee. The reason the paper is of use in drying ink is that it really is a mass of capillary tubes which suck up liquid by capillary attraction. If a very fine glass tube is put into water the liquid will rise in it owing to capillary attraction. The art of manufacturing blotting paper has been carried to such a degree that the product has wonderful absorbent qualities.

The railroad statistics of the United States show that the percentage of labor cost to total operating expenses is steadily rising. In 1902 it was 6.05, in 1907 it was 6.12, and in 1908 it was 6.2.

The Interior of Chicago, gives what it calls the final and unanswerable argument against the liquor business. It is this: "Popular government cannot indefinitely permit traffic in a commodity whose sale makes government more difficult and healthy social conditions less attainable."

Wm. Allan Ross returned home after a trip up west. Mr. Reuben Travers of St. Godt, accompanied by Mrs. Herbert Journean, left on Wednesday for Campbellton, to consult a doctor as to the advisability of undergoing an operation. We wish her a speedy recovery.

The Easter portion of Handel's "Messiah," I know that My Redeemer Liveth, O Death, Where is Thy Sting? O Grave, where is thy Victory both in the key of E, were sung in the Presbyterian church on Easter Sunday.

The lecture given by our teacher Miss M. Euphemia Ross on the eve of the 10th of April, through a teacher's eyes, in the school house on Monday evening, was well listened to. Our teacher in conclusion, advised our young people to make up their mind to make their place one of the best and one of the first places in the province, to love their country and their God.

New York Post: Did you ever put one of those large sea anells to your ear and heard what the children say is the sound of the sea, the "music of the waves"? Well, that is really the sound of your blood—as it circulates—echoed in the empty shell. You can hear it sometimes when your head is on a pillow. Try the shell at any time and you will find that your blood is always flowing. Stick your thumb in your ear and listen. That is nature's way of constantly carrying the nourishment from well digested food to every part of your body.

When you go to the country take a tin of David's Menthyl Salve along. It is unequalled to relieve earache, burns, sprains, cuts and bruises. 25 cents.

Blotting paper was discovered purely by accident, says T. P. Weekly. Some ordinary paper was being made one day at a mill in Berkshire when a careless workman forgot to put in the sizing material. It may be imagined what angry scenes would take place in that mill, as the whole of the paper made was regarded as being quite useless. The proprietor of the mill desired to write a note shortly afterwards, and he took a piece of waste paper, thinking it was good enough for the purpose. To his intense annoyance the ink spread all over the paper. All of a sudden it flashed over his mind that this paper would do instead of sand for drying ink, and he at once advertised his waste paper as "blotting." There was such a big demand that the mill then ceased to make ordinary paper, and soon occupied in making blotting paper, the use of which spread to all countries. The result now is that the descendant of the discoverer owns the largest mills in the world for the manufacture of this special kind of paper. The reason the paper is of use in drying ink is that it really is a mass of capillary tubes which suck up liquid by capillary attraction. If a very fine glass tube is put into water the liquid will rise in it owing to capillary attraction. The art of manufacturing blotting paper has been carried to such a degree that the product has wonderful absorbent qualities.

Rheumatic pains are quickly and effectively driven out of the blood by Dr. Shoop's Rheumatic Remedy—its quick and reliable results are a guarantee. ## Overcoats To Be Proud Of

We have a right to be proud of these elegant Spring Overcoats.

In the first place, they are distinctive.

The styles were created by the foremost designer in Canada.

The patterns were selected by the Fit-Reform expert—the keenest judge of fine fabrics on this side of the Atlantic.

And the tailoring was done by the Fit-Reform tailoring corps—the best in this country.

You will be just as proud to wear a Fit-Reform Overcoat as we are to show them.

Various bill collectors of our acquaintance might take pattern from Halley's comet. It comes once in seventy-five years.

The railroad statistics of the United States show that the percentage of labor cost to total operating expenses is steadily rising. In 1902 it was 6.05, in 1907 it was 6.12, and in 1908 it was 6.2.

### The Secret of Good Pies

**PIE CRUST**, more than any other delicacy of the oven, ought to be tempting and appealing to the taste. You do not eat pie as a nerve tonic or to strengthen your appetite. You eat it for pleasure mostly.

You want it, of course, to taste good, at the same time you want the crust to be light, flaky, wholesome. Now, pie crust properly made from

### Royal Household Flour

is always good food, the absolute uniformity of this best of all flours eliminates failure entirely. You get the same delightful results every time and your pies are more healthful and nourishing than if made from ordinary flour.

The reason is that "ROYAL HOUSEHOLD" having a larger percentage of high quality gluten, assimilates more readily,

is more satisfying than ordinary flour, comes out of the oven flakier, more tender and more digestible.

Be sure to try "ROYAL HOUSEHOLD" when next you make pies. It is the finest flour in the world not only for Pastry but for Bread and all family baking.

"Ogilvie Book For A Cook" containing 125 pages of tried and tested recipes will be sent free to any user of Royal Household Flour who asks for it.
