BEAVER BOARD
If you are building or going to complete some unfinished rooms, let us show you some colored samples, illustrating the beautiful color effects obtainable by using this sanitary and durable board for walls and ceilings in all classes of buildings.
We carry a large stock in assorted sizes.

MAIL ORDERS.
We solicit out of town orders which receive our personal attention. The length of time taken to fill orders is governed very largely by how busy we are in the department of our factory in which the particular goods are made. While we have exceptional facilities for promptly turning out goods, it is important to place orders as far ahead as possible. Orders are filled by us in the rotation in which they are received, and customers can always depend on our doing everything in reason to give prompt despatch.

SO OUR READERS MAY JUDGE

Road Commissioner McBeath
Writes Letter to Press—What
Are the Facts?

The following letter appeared in a recent issue of The Tribune, and is reproduced so that our readers in the district mentioned can judge of the matter for themselves.

To the Editor of The Tribune:—
Sir,—Last week's Graphic, more popularly known as the "Weekly Kick" contained an article entitled "Money Wasted" which would lead one to believe that the Editor of the Graphic is an authority on road making. It is too bad that such intelligence should be wasted in a town of Campbellton's size. Why is he not in charge of the King Edward Highway which I understand has been under construction between Montreal and New York some few years since? I believe Campbellton could exist very well without the "Graphic," to which I am proud to state, I am not a subscriber. Perhaps as the Graphic Editor is so well informed he will explain to the public how much money was spent on the road last year and how far the same would go towards crowning a nine mile road.

Thanking you for space in your valuable paper, I am,

Yours truly,
JOHN McBEATH,
Supervisor.

Head of Tide, N. B., June 24th, 1918.
We have only to remark that if there was more "kick" and less "lie" in the makeup of our esteemed friend the supervisor at Head Tide even the small amount of money he is entrusted to expend on the roads might be used to good advantage.

Industrious, sober and truthful residents of the district between here and the end of Supervisor McBeath's district have called and complained of the manner in which the road work is being performed and we personally saw two men shovelling the sods and muck out of the ditch of the Christopher Brook Hill and placing this material on the middle of the road where it was worse than useless, and where it remained only a few days as the next rain washed it all down the hill into the brook. It is such lack of supervision which has made the road between Campbellton and Morrissey Rock during the past two years a disgrace to any community.

Correspondent Answered.
"What does one raise when he sows wild oats?" asked a correspondent. Well, we know a young man who raised checks. And his crop led to a close crop in prison.

ANOTHER STORM DOES MUCH DAMAGE

Heavy Easterly Gale With Rain
Floods Whole
Country.

Another severe easterly storm with heavy rain flooded this district on Monday and did considerable damage to crops, roads, and fishermen's nets. The rain was the worst in recent years.

In many places the crops have been serious damages, as many fields of hay and potatoes were under water. Along the bay the fishermen have again suffered loss. Their nets have been badly torn and in some cases washed ashore. This is the third time this season that their nets have been damaged, and they have decided, in many cases, to take up their nets.

The roads are in a very bad condition and only the constant use of the road drag can put them in a fit condition.

DALHOUSIE.

Dalhousie, July 10.—The citizens of Dalhousie responded nobly to the call that was made by the painting president of the Dalhousie Women's Institute in attending in large numbers at the Opera House on Saturday evening to hear the lecture delivered by Mrs. J. W. V. Lawlor, of the city of St. John, N. B., president of the House Wives League of that city, which has a membership of 2000 members.

On the platform besides Mrs. Lawlor, Rev. R. J. Coleman and Mrs. S. J. Beckingham president of the Dalhousie Women's Institute, occupied seats.

Hon. C. H. LaBille, president.

The following programme was successfully carried out, and highly appreciated by the large audience:

God Save the King.

Piano Solo—Miss Mildred Smith.

Guitar Solo—N. B.

Violin Solo—Miss Bessie Bell, Joggins.

Mrs. N. S.

Lecture—Mrs. J. W. Lawlor, St. John, N. B.

Vote of thanks—To the lecturer and ladies who assisted with music and singing, proposed by Mrs. Beckingham and seconded by Miss Haddow.

Vocal Solo—Miss Mary Coleman.

Vocal Solo—Miss Mary Bateman.

Accompanists—Miss Jennie Bateman.

Piano, Miss Mattie Cook, Violin.

Address—Rev. R. J. Coleman.

Silver Collection—Taken by Mrs. Wm. J. Simpson and Miss Haddow.

God Save the King.

Mrs. Lawlor spoke for nearly an hour. The gravity of the food situation and the urgency of conservation were dealt with and great stress laid upon individual efforts. A strong appeal was made to each woman to so conserve and substitute as if the solution of the food problem depended entirely on her. Suspension of criticism as to what the neighbours or government were or were not doing, was entreated. "There is not enough food in the world to feed all the people of the world. Somebody must go short. It must not be our soldiers who are fighting for us in the trenches," said the speaker, and the men at the front cannot be fed unless we women in our kitchens eliminate waste cut down food consumption, become experts in the use of substitutes for wheat, beef, pork, sugar and fat, and devote our time and our energies wholeheartedly to the conservation task before us.

Before coming to the shiretown of Restigouche Co., Mrs. Lawlor had addressed large meetings on the North Shore of New Brunswick viz., at Bathurst, St. John's, Salmon Beach and Tétagouche. She is addressing meeting under the auspices of the Provincial Department of Agriculture.

She is a fluent and pleasing speaker.

A. R. Wetmore, Provincial engineer of N. B., was in town on Monday with his father Mr. N. Ingram.

Mrs. Park, wife of Dr. J. E. Park, the medical officer of the 132nd Battalion and little son Everett of New Glasgow, N. S. who were visiting Mrs. L. D. Jones have returned home.

Miss Minnie Jamieson and her friend Miss Grace Black, of Moncton, N. B. are spending a fortnight in Dalhousie, with the former's mother, Mrs. James Jamieson.

Miss Sue Scott, Montreal, arrived home last week very much improved in health.

Mrs. J. Fred Knight, Master Ever Knight and little Dorothy Lennox, after spending a few days in Dalhousie, are visiting her brother R. L.

GOVERNMENT SALMON MAKE GET-AWAY

High Freshet Carries Away Dam
at Fish Pond Giving Fish
Freedom.

Monday's severe storm and heavy rain made a very high freshet in the stream at New Mills on which the salmon pond was located, and the dam across the mouth was carried away, allowing about three hundred salmon, which were placed in the pond for spawning purposes, to gain their freedom, and they are now away in the briny deep.

Mr. Movat said they were a fine lot of fish and the loss will be a serious one as the season is too far advanced to get more at New Mills.

those present were Chas. Powell, John B. Delaney, John Almony Sr., S. Blanchard, Thos. G. Scott, John Oakleaf, Andrew Barberie, Wm. J. McNeil, D. G. Stewart, C. H. LaBille, John Almony, Jr.

The sum of \$3700 was voted to carry on the school work for the current year. It is an increase over past years as the board of trustees in their report recommended an increase in salary \$150, to the principal of the school, \$100, to each of the three lady teachers, and \$25 to the caretaker. Some repairs to be made to the building, flag staff, etc.

Doctor A. G. Ferguson who has been chairman of the Board during twenty years was the retiring trustee and in a letter addressed to the secretary, which was read to the meeting, he requested that his name be not placed again before the meeting for re-election. The rate-payers appreciating the splendid services rendered to the district by Doctor Ferguson, unanimously elected him trustee, and upon resolution unanimously carried, a committee of three consisting of Hon. C. H. LaBille, Andrew Barberie and D. G. Stewart was appointed to interview Dr. Ferguson, and to convey to him the wishes of the rate-payers, so strongly expressed at the annual meeting. Doctor Ferguson courteously acquiesced to the wishes of the people and accepted to act as trustee. The Board therefore consists of Doctor A. G. Ferguson, Thos. G. Scott, E. Ben Richard, John B. Delaney, Sec. Treasurer, S. Blanchard, Auditor, John Almony, Sr., Caretaker.

Miss Anabella Stewart, Superintendent of Hospital in Philadelphia, U. S., arrived here on Monday to spend a few weeks at her old home "Glen Cottage."

Miss Jennie Stewart arrived home from Keane, U. S. on Monday to spend her holidays with her parents Mayor James E. and Mrs. Stewart.

Miss Minnie Nadeau, who has been doing private nursing at Hamilton, N. B., arrived here last week to spend sometime with her parents Mr. and Mrs. Thos. Nadeau.

Miss McKinnon who came home from the New England States to spend a month vacation with her parents Mr. and Mrs. Wm. McKinnon, in Dundas, was in Dalhousie on Tuesday the guest of Miss Jennie Stewart.

Miss Emily Greene, Montreal was in town on Saturday on her way to spend her holidays at her home in Maguasha, P. Q.

Miss Jueasy, who has been teaching at Matapedia Station, P. Q. was a visitor to Dalhousie on Saturday.

Miss Jones, Montreal, is in Dalhousie visiting the Misses Yvonne and Lucienne Samson at the Queen.

Mrs. Miller and Mrs. Disbrow, Jacques River, are spending a few days in town the guests of their niece Mrs. Herbert L. Sorer.

Miss Ingram, who has been teaching in one of Winnipeg's City Schools, has arrived here to spend her holidays with her father Mr. N. Ingram.

Mrs. Park, wife of Dr. J. E. Park, the medical officer of the 132nd Battalion and little son Everett of New Glasgow, N. S. who were visiting Mrs. L. D. Jones have returned home.

Miss Minnie Jamieson and her friend Miss Grace Black, of Moncton, N. B. are spending a fortnight in Dalhousie, with the former's mother, Mrs. James Jamieson.

Miss Sue Scott, Montreal, arrived home last week very much improved in health.

Mrs. J. Fred Knight, Master Ever Knight and little Dorothy Lennox, after spending a few days in Dalhousie, are visiting her brother R. L.

CURRIE CHARGES BEING INVESTIGATED

Royal Commission Met Here
Tuesday and Wednesday—
Adjournment at Fredericton

The investigation into charges made by Hon. J. B. M. Baxter against Hon. Wm. Currie, Speaker of the Local Legislature was commenced here Tuesday morning. James Freil, K. C. of Moncton presiding.

A. B. Copp, K. C. of Sackville appeared for the government, A. T. LeBlanc appeared for Hon. Mr. Currie, and J. B. M. Baxter K. C. appeared in support of his charges. The session was held in the Town Council Chambers.

Mr. Baxter opened by calling for Mr. Chas. Purves, who was not present.

Mr. Baxter said that he wished the books of the Continental Lumber Co. Ltd., produced and then called Joseph LaPointe.

The chief witness however was Sealer Archibald Murchie, who excelled himself in the number of questions he answered by saying, "I don't remember."

The investigation continued until Wednesday evening when it adjourned to meet at Fredericton Wednesday, July 17th. It will likely meet again at Campbellton at a later date.

The evidence as given by Sealer Murchie and some of the other evidence will be published in our next issue.

Lennox in Toronto.

Mrs. Allan Troy and little daughter Charlotte of Campbellton spent a couple of days in Dalhousie last week the guest of Mrs. Troy's aunt Mrs. P. B. Troy.

Mr. and Mrs. Fred Garop returned home on Monday, July 1st from New Richmond, P. Q. the former home of the bride, where they met with a hearty welcome.

Miss Hilda Stewart, who has been attending one of the American Colleges, has arrived in Dalhousie, to spend her holidays with her parents Mayor James E. and Mrs. Stewart.

Mrs. W. H. Priest has returned home from Portland, Maine very much improved in health.

Mrs. D. Stiles Fraser, of Durham, Pictou County, N. S. is visiting her son Mr. A. R. Fraser of the Bank of Nova Scotia.

Miss Bessie Montgomery, Montreal, is visiting her brother Ex. Mayor W. S. Montgomery.

Mr. Daniel McIntyre, Inspector of Schools Winnipeg, and Mrs. McIntyre are spending the summer months in Dalhousie, the guest of their friends Mr. and Mrs. J. C. Connacher.

Miss Audrey Troy is visiting friends in Campbellton.

Dr. J. L. Veniot, Bathurst was a recent visitor to Dalhousie. He was a guest at the Queen.

Mrs. J. Edwin Dean, Montreal, and Miss Vera Dean, Halifax, have arrived here to spend the summer at the Inch Arran.

Mrs. James Roger and her sister Miss Millicene Sparde, Montreal have been visiting her brother R. L.

ASSESSMENT FIXED AT \$50,000 FOR 1918

Meeting of Town Council Make
Appropriation for Year's
Work.

A meeting of the town council was held on Friday evening last, when the assessment for this year was carefully considered, the total amount ordered assessed being \$500,000 made up as follows:—

Public Property and Streets	\$6,500
Street Lighting	1,600
Schools	19,000
Fire Protection	5,000
Board of Health	200
Maintenance of Police Force	2,700
Salaries & Contingencies	6,300
Sinking Fund	7,101
School Bond Sinking Fund and Interest	1,599
Total	\$50,000

arrived here to spend a few weeks with their friends in their native town.

Mr. and Mrs. David Harquail and family of Campbellton, who are spending the summer in their bungalow at Point La Nim, were in town recently, the guests of Mr. Harquail's parents Mr. and Mrs. James Harquail.

Miss Marie Gordin, has returned to her home in Chandler, after enjoying a very pleasant visit among her Dalhousie friends. Miss Arseneau, daughter of Mr. and Mrs. Arthur J. Arthur J. Arseneau accompanied her to Chandler, where she will visit at the home of Capt. and Mrs. James Gordin, formerly of Dalhousie.

Mrs. David Carrier has returned home after spending a few days with her sister Mrs. Frank LeBlanc in Campbellton.

OBITUARY.

Margaret Dundon.

The death of Margaret Dundon occurred on Sunday morning, June 30th at the home of her parents Mr. and Mrs. Thomas Dundon, at Shannonnvale after eight months illness with inflammatory rheumatism. Margaret was fourteen years of age, and every possible means was taken to allay the dread disease. She was bright, and lovable, though quiet and reserved in disposition and bore her illness with patience and good cheer.

The funeral which was very largely attended was held on Tuesday morning, July 2nd.

Rev. R. Robichaud of Upper Balmoral celebrated Requiem High Mass at 9 o'clock. Interment was made in the R. C. cemetery at Shannonnvale.

The pall bearers were her friends and class mates. Daniel McLaughlin, Wesley Archibald, John Hynes, Walter McKinnon, Thomas O'Neil and John LaPointe.

Mr. and Mrs. Dundon and family have the sympathy of a host of friends in their sad bereavement.

PRESIDENT RAISING SHEEP.

As an example to the nation, President Wilson has purchased a flock of sixteen Shropshire sheep and put them to make mutton and wool on the lawn behind the White House, known as the President's Park.

RIDE A BICYCLE

Ivanhoe Bicycles \$50.

75% of bicycles used in town, are Ivanhoes, follow their examples, they are guaranteed for the season. Buy early at last year's price, \$50 while our stock lasts. New price will be \$65.

COMPLETE STOCK OF SUPPLIES
ALWAYS ON HAND.

AGENT FOR

St. John, N.B.

CANADIAN TROOP SHIP WRECKED

Fourteen Hundred Soldiers and the Crew Safely Landed.

A Canadian Atlantic Port, July 8.—When the Hull liner City of Vienna, with 1,400 Canadian troops consisting of various drafts and details on board, ran ashore on a dangerous rock near here in a thick fog, it was at first feared that there might be a considerable loss of life.

There was a heavy on-shore swell and the dense fog and the steamer, exposed to the full force of every wave, was in danger, it was thought, of speedily breaking up; but the troops and men have all been safely landed and the ship herself still holds together so that there is still a hope of saving her. According to the story told by rescued men it was about seven o'clock in the morning that the City of Vienna, endeavoring to make harbor, struck the ledge. The engines were reversed without avail and S. O. S. calls were at once sent out.

Guns too, were fired and could be heard on shore, a mile or more from the rock. Fishermen soon located the ship and returned to report her exact position. Orders were given by the port authorities for the boats from nearby life-saving stations to proceed to the City of Vienna and take off as many men as the boats would accommodate and other craft was despatched from the harbor to the scene. So rough was the sea, that one harbor tug was forced to return to port, with water almost up to the fires in her engine room. But the lifeboats and fishing craft, manned by crews well acquainted with the numerous reefs in these waters, were able to go alongside the stranded ship and by eleven o'clock that morning had landed a large number of soldiers on the rocky shore. The sea was still running high and the work of rescue was carried out with great difficulty.

A steamer not many miles away when the City of Vienna struck, had responded to her S. O. S. signals but on account of the thick fog, had been unable to come close to the stranded ship. This steamer's lifeboats were accordingly lowered and the sailors transferred seven hundred of the soldiers from the City of Vienna to their own ship. The steamer could accommodate no more and accordingly brought these to port. Meanwhile despite the increasing sea, the fishermen and life-saving crews had been landing boat-load after boat-load. A pilot schooner also took off about seventy-five men and brought them to port. Patrol boats visited the different fishing harbors collecting numbers of the soldiers rescued from the ship and landing them here. The remainder of the men landed on the shore marched along the country roads to this port. The steamer's crew was also brought to port.

"We thought the City of Vienna had been torpedoed," said one of the soldiers to the Canadian Press today. "Of course we did not have the faintest notion where the ship was and our first thought, when the sudden jar and crash came, was that a U-boat had got us. We were soon undeceived, however, when looking over the bow we could see a big rock within a few yards of the ship."

One of the ships officers told the Canadian Press that the discipline of the troops when the steamer struck was splendid. There was no sign of excitement, or confusion, he said, and the men formed up and obeyed orders as precisely as if they were on parade.

TIME WAS EXTENDED.

All entries must be under license by July 1st, the time having been extended from June 1st to allow opportunity to handle some 50,000 applications.

CANADA'S FIRE WASTAGE ON A PER CAPITA BASIS, IS HIGHEST IN WORLD

Commission of Conservation Suggests Profit-Sharing Commission to Agents, and the Adoption of Fire-Prevention Measures.

Ottawa, July 6.—Canada's annual fire waste is \$2.73 for every man, woman, and child, and is larger than that of any other civilized country in the world, according to a most exhaustive report by the Commission of Conservation on fire waste in Canada just made public. This enormous waste, the commission asserts, is sapping the economic vitality of the country, and the immediate adoption of compulsory fire-prevention measures is necessary. The investigation also revealed the fact that the expense of conducting the business of fire insurance in Canada is unduly high and that there are grave abuses in the present agency system.

700 Casualties Annually.

The report which was compiled for the commission by Mr. J. G. Grove Smith, says that since Confederation fire loss in Canada, excluding forest fires, has been \$700,000,000. Of this sum \$350,000,000 is made up of direct fire losses. \$150,000,000 represents the cost of maintaining public and private fire protection services, whilst \$197,000,000 is the amount of insurance premiums paid but not returned to policy holders in compensation for losses. In addition nearly 200 people are burned to death, and about 500 seriously injured by fire every year. In the four normal years, 1912-1915, Canada's annual per capita fire loss was \$2.73, as compared with \$2.26 in the United States, 64 cents in England, 74 cents in France, 28 cents in Germany, and 13 cents in Switzerland. A disquieting feature is that the losses in this country are increasing with great rapidity.

Lack Fire Prevention Laws.

The Commission says that seventy per cent of fires in Canada are caused by carelessness, faulty building construction, arson and lack of fire prevention laws, such laws as exist being but poorly enforced. Canadian fire departments are described as the best in the world, but they are not preventing a steady growth of fire losses.

In dealing with the remedy for present conditions, the Commission says that compulsory legislation making individuals responsible for their own careless acts, is imperative. The public, it is asserted, must be aroused to their collective responsibility so that public opinion will urge and support the adoption of restrictive legislation. The Dominion Government, not being given direct jurisdiction by the B. N. A. act, should, the Commission thinks, conduct a campaign to educate the public to their responsibility. The purpose of this would be to assist provincial fire prevention efforts. The Dominion Government, it is stated, should also maintain a testing laboratory to establish standards in building materials and devices.

Too Many Agents.

The Commission contends that the high cost of doing business implies extravagant administration on the part of insurance companies and says that from 1869 to 1916 the public has paid the insurance companies 65 cents for distributing every dollar of indemnity. This it continues, gives good food for thought when it is remembered that, under present Government management, the collection of customs and inland revenue cost less than five per cent of the receipts. Since the establishment of Government insurance in New Zealand in 1905 the rates on mercantile risks have been reduced ten per cent, and on dwellings 33.1-3 per cent. The report asserts that insurance agents in Canada are paid on the average, a commission of slightly over 20 per cent, obviously a large expenditure on middle men or agents is excessive a circumstance which makes necessary a higher commission that is economically necessary.

"The root evil of the insurance business and one of the greatest factors in the excessive fire waste in Canada is undoubtedly the method of compensating agents solely on a commission basis," the report declares. The careless agent is paid equally well with the careful agent. This tends to over-insurance, carelessness in the use and care of property, and arson, all of which cause a heavier fire waste. The remedy for this, the Commission states, is a profit sharing commission for agents, whereby those who write good risks would be more highly remunerated than those who write bad ones.

Profit Sharing Commission.

The Canadian Fire Underwriters' Association, it is pointed out, has attempted, but failed, to enforce a similar system of contingent commissions on account of the disadvantage under which it would place its members in competition with non-licensed companies.

The Commission of Conservation, therefore, recommends that uniform legislation be drafted into the Dominion and Provincial Insurance Acts to establish the principle of profit sharing commissions for all companies, leaving the companies and their agents to work out the details.

CAMPERS CAUSE FOREST FIRES.

Terrible Consequences of Abandoned Camp Fires in Eastern Canada.

Some of the worst forest conflagrations in New Brunswick and Nova Scotia this year have been traced to unextinguished camp fires. In two instances, parties of picnickers cooked their tea on blazing fires carelessly built on dry twigs and pine needles instead of on rocks or gravel. Having enjoyed themselves, the campers returned home without any thought of the smoking embers left behind. Within two days, the Province of New Brunswick had lost \$60,000 because of these two camp fires. Many settlers sacrificed their barns and hundreds of workmen were taken from their regular employment and hired at public expense to put out the flames. The "deadly camp fire" is one of the worst menaces with which the fire ranging staff of this province has to deal this summer. The directions are so simple that no child could fail to understand them and no patriot could fail to put them into effect:

1. Build a small camp fire; a small fire cooks better.
2. Build it on rocks or gravel, never against an old tree.
3. When through with the fire, put it out completely with two or three pails of water or a few shovels of earth.
4. Look out for lighted tobacco and matches. They don't look dangerous but they cost Canada millions of money and many lives every year.

FOOD PRODUCTION IN FRANCE.

More than 1,000,000 Frenchmen have been killed in war, and 1,500,000 are physically unfitted by their injuries to carry on their farm work. The women are managing the farms and doing most of the farm work. In battle zones, such as the Champagne district, women did not foresee their work in the fields even when German shells were bursting around them. When the cannonading was heavy they lay flat on the ground and as soon as there was a lull they would be up attending to their grape-vines. The wives of French farmers have always helped their husbands in the fields. They now do double duty, rising earlier and working later. Horses were conscripted for the army and French women have taken their place to draw the plows and harrows. Food production in France despite the efforts of women, children, old men and cripples has dropped to one third.

THE WOMEN OF FRANCE.

In France recently figures showed that there are now 475,000 women at work in munition factories at \$2.00 per day plus 50c from the Government with 25c additional for each child, if the head of the house is in the Army. Thrift is so strong a principle with French women that French banks are carrying larger deposits than ever before, despite the fact that 18,000,000,000 towards the finances of the war came from popular subscription.

NO FOOD RESERVE IN BRITAIN.

"It is obviously an elementary precaution to build up as large a reserve of food as possible in an island which is menaced by submarine blockade. No such reserve is yet in sight and there should be no slackening in Canadian efforts to provide foodstuffs for the Mother Country," Late Viscount Rhonda.

DO YOUR FEET BURN?

Then use Zam-Buk. There is nothing so soothing for tender, aching or blistered feet. It will end the burning, draw out the sores, prevent blistering and make walking a pleasure.

The men at the front are badly in need of Zam-Buk for their feet. Don't forget to keep your soldier friends supplied. All dealers 50c box.

ZAM-BUK
IS SOOTHING

ONLY MEDICINE MADE FROM FRUIT

Extraordinary Success which "Fruit-a-lives" Has Achieved

One reason why "Fruit-a-lives" is so extraordinarily successful in giving relief to those suffering with Constipation, Torpid Liver, Indigestion, Chronic Headaches, Neuralgia, Kidney and Bladder Troubles, Rheumatism, Pain in the Back, Eczema and other Skin Affections, is because it is the only medicine in the world made from fruit juices. It is composed of the medicinal principles found in apples, oranges, figs and prunes, together with the nerve tonics and antispasmodics of pure aloe.

50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

NO LICENSE REQUIRED TO HOLD PICNICS.

It is not necessary to obtain a license to serve refreshments at lawn socials, bazaars, tea meetings, public or private luncheons, dinners, picnics, fairs, lodge, club or fraternal society meetings, and such functions, even where fifteen or more persons are present, but it is imperative that the Canada Food Board orders dealing with these entertainments be strictly observed.

Social and patriotic organizations are of course, expected to set an example in conserving as far as possible the supplies of wheat products, beef, veal, cheese and butter and other foodstuffs needed for export overseas.

Use of Sugar.

Frosting is forbidden for pies and cakes and the manufacture of doughnuts and crullers is prohibited. Where 10 quarts of cream was formerly used to make a certain quantity of ice cream the Food Board now limits the cream to 4 quarts, with 6 quarts of milk to complete the apportionment. Six pounds of sugar is permitted to 8 gallons of ice-cream. Pudge is strictly taboed.

LOST.

On Wednesday afternoon somewhere around town, a man's grey rain-coat with checked lining. Finder please leave at

WAR VETERANS HAVE ORGANIZED

Provincial Organization Will Look After Interest of Returned Men.

St. John, July 8.—At a meeting held Tuesday morning, in the local Great War Veterans' Association rooms in Wellington row it was decided to proceed with the organization of the provincial headquarters of the G. W. V. A. Representatives were present from St. John, Fredericton, Moncton, Campbellton, Sussex, and St. Stephen. Among those present were: Captain Barton and C. Carter, of Moncton; Lieutenant Patchell, C. Bishop, E. J. Puddy, H. Allingham, Gordon Johnston and J. J. Barber, all of St. John; W. Farrell, of Sussex; W. Richard, Fredericton, Lieutenant O. Lawson, Campbellton, and J. H. Warder, St. Stephen. The meeting was called to order at 10.15 o'clock with Major Gordon Johnston in the chair and O. J. Lawson as secretary. The election of officers resulted as follows, following an unanimous motion that the organization be proceeded with: Captain Barton, Moncton, president; C. Bishop, St. John, vice-president; O. J. Lawson, Campbellton, secretary; H. Patchell, St. John, treasurer; executive committee, C. Carter, Moncton; H. Allingham and Gordon Johnston, St. John; W. Farlee, Sussex; J. H. Warder, St. Stephen; L. Dewar, Campbellton; George Power, Moncton, and A. Ashford, Fredericton, with a member from both Chatham and Woodstock yet to be named.

Some of the important matters, affecting the returned soldiers, discussed were: the Land Settlement act, the work of the Y. M. C. A. overseas, provincial roll of membership, the publicity of representatives coming here from Ottawa to explain the aims and objects to the people of the G. W. V. A., and the employment of returned men.

The work of the overseas military Y. M. C. A. was taken up and discussed at length. It was the unanimous sentiment of those present that the work of the Y. M. C. A. was of the highest order and something that was a great benefit to the soldiers in the field. The meeting went on record as saying that the work of the Y. M. C. A. was to be commended.

Touching the matter of delegates

going to the dominion convention to be held in Toronto on July 29, it was decided to send the following: St. John, Lieutenant Patchell, J. J. Barber, H. Allingham and C. Bishop; Sussex, W. Parlee; St. Stephen, J. H. Warder; Campbellton, Lieutenant Lawson; Moncton, C. Carter, and Fredericton, W. Richard, with a delegate yet to be named from Chatham and Woodstock.

The next meeting is to be held early in August. St. John was selected as the provincial headquarters.

WORLD'S WHEAT RESERVES EXHAUSTED.

"Even if the greatest expectations of the 1918 harvest are realized, the fact remains that the world's reserves of wheat are exhausted and it will be absolutely necessary to continue conservation and substitution until the 1919 crop situation is known. Canada is daily increasing the manufacture of substitutes for wheat and consumers are urged to make use of these substitutes to the limit of their ability," Henry B. Thompson, Chairman of the Canada Food Board.

"The profiteer is a man who is more interested in getting his bite than in giving his bit."

ADVERTISING RATES.

On account of the greatly increased expenses in connection with the publishing of The Graphic we find it necessary to re-adjust our advertising rates.

The rates will be as follows: Transient advertisements such as notices of entertainments, sales, legal notices etc.—

Per inch, first insertion 70c.
" " each subsequent insertion 40c.

CLASSIFIED.

Lost, Found, Wanted, For Sale Advs. First Insertion 50c.

Each subsequent insertion 25c.

Everett & Barron Co.
AMHERST, N. S.

It Works! Try It
Tells how to loosen a sore,
tender corn so it lifts
out without pain.

Good news spreads rapidly and drug
stores here are kept busy dispensing
the new discovery of a
"Cinquant" man, which is said to loosen
sore corns so it lifts out with the fingers.
Ask at any pharmacy for a quarter
ounce of "Cinquant", which will cost very
little, but is said to be sufficient to rid
one's feet of every hard or soft corn or
callus.
You apply just a few drops on the
tender, sore corn and instantly the
soreness is relieved, and soon the corn
is so loosened that it lifts out with
the fingers. It is a sticky substance
which dries when applied and never
dissolves or even irritates the adjoin-
ing tissue.
This discovery will prevent thou-
sands of deaths annually from lockjaw
and infection, transmitted from the
sore corn habit of cutting corns.

ROADS MUCH BETTER TODAY THAN AT ANY OTHER TIME DURING LAST TEN YEARS

**Hon. Mr. Veniot Replies to Criticism of Mr. Smith—Ex-
cellent Work Done Not Only on the Main Trunk
Roads, But Also on a Large Number of
the Most Important By-Roads.**

Bathurst, N. B. July 5.—The St. John Telegraph correspondent showed to Hon. P. J. Veniot, Minister of Public Works, the interview with Hon. B. F. Smith, ex-Minister of Public Works, published in opposition organs June 27, and when asked if he had anything to say in reference to it, he said that "he did not usually bother himself with such matters, but in this case he would call the attention of the public to a few of the statements made by the ex-minister."

"For instance," said Mr. Veniot, "speaking of the condition of the roads, Mr. Smith is quoted as saying: 'We have been living on the promises the last two years, and our people are sick of the diet.' The present government came into power on April 5, 1917. Parliament opened on May 7th and prorogation took place on June 23, so that proper organization for road work could only begin the latter part of June, 1917. I am at a loss to see where the ex-minister can find his two years of promise unfulfilled. It may be he refers to the broken promises of his own party."

"So far as the lack of attention given to the counties of York and Carleton is concerned," said the Minister, "should be fair enough to tell the public that at the present moment there are no less than four or five different crews of men engaged in important roads and I also have important work under way in York. Road work from Fredericton to Woodstock has had considerable work put on it and he knows it is in splendid condition as a consequence of such work. Besides the ordinary grant for roads I am spending quite an amount on other important roads in York."

"It could not be reasonably expected that in one year it would be possible to make up all over the province for the neglect that seemed to be prevalent under the old regime," said Mr. Smith that "Gloucester county received more for its roads than all the counties along the St. John River combined" was asked the Minister.

"Well," he replied, "those who have studied the public accounts will readily see how careless Mr. Smith is when criticising expenses on our roads. Why, the county of Kings received more money than Gloucester, and the county of Charlotte was not very far behind."

CANADIAN VS. GERMAN LOSSES, A TOOL OF BENJAMIN FRANKLIN.

Germany Saving Her Forest Wealth For Post-Bellum Trade War.

During the past four years, according to official German estimates, the fire losses in the public forests have been exceedingly small. Prior to 1914, the total fire destruction on over a million acres of German forests was below one thousand dollars a year. Other German forest areas suffered even less harm.

In Canada, however, the country's commercial strength has been steadily weakened by devastating forest fires that devour each year several million dollars worth of property and many human lives. Most of these forest fires were started by carelessness that borders on criminality. One of the least condemnable causes is the unextinguished camp fires, left by camping parties. In 1917 and 1918 a full dozen of the worst forest fires in the Dominion have been due to camp fires and lighted cigarettes and matches. No camp fire ought to be built anywhere except on rocks or gravel, and should be entirely extinguished.

The careless camper in Canada is doing this year what the Kaiser would gladly pay his bombers and propagandists to accomplish.

INCREASED ACREAGE IN THE WEST.

Mr. J. D. McGregor in a report to the Minister of Agriculture cites the following figures as his estimate of the increased acreage under grain crop in the three Prairie Provinces.

Wheat, 2,010,567 acres.
Oats, 554,625 acres.
Barley, 93,320 acres.
The total acreage for the three Provinces in grain crops as compared with 1917 shows an increase of 11% according to Mr. McGregor's figures. These are:
1917 24,028,900 acres.
1918 26,684,412 acres.
Increase 2,655,512 acres.

SUBSTITUTES NOW MUST BE USED

**Public Bakers as Well as Private
Householders Must Use Flour
Substitutes.**

Canada's new wheat crop will not reach the consuming public as flour for three months at least and in the meantime this country will be very short of wheat flour. We have, as has also the United States shipped as much wheat as possible to the Allies, giving them a considerable share of our own normal supply to help carry them over until the new harvest has come onto the market and the corner has been turned. The use of substitutes, therefore, becomes an imperative necessity in this country and our people should familiarize themselves with methods successfully used in making these substitute flours.

On the 1st of July the Canada Food Board Order became effective requiring all public bakeries, and private households also, to use 10% substitute flour. On the 15th of July this percentage is to be increased to 20%, in all of Canada east of Port Arthur. The question then will arise in each housekeeper's mind, what are substitutes for wheat flour, where can they be had, and how are they to be used. Substitutes as defined by the new law, include bran, shorts, corn flour, corn meal, edible cornstarch, hominy, corn grits, barley flour, rolled oats, oat meal, rice, rice flour, buckwheat, potato flour, tapioca flour, rye meal. Potatoes are also classed as a substitute for wheat flour, in proportion of four pounds of potatoes to one of the other substitutes mentioned, on account of the higher percentage of water in potatoes. A large number of millers are ready with these different flours and as soon as the public demand calls for them they will be distributed throughout the trade, and are now procurable by dealers.

There has been some talk about the price of substitutes being high in proportion to flour but it is expected that this condition will remedy itself as the new flours get into general circulation throughout the trade. In the case of corn meal, the price has advanced for corn in Chicago on Account of market conditions. Canadian millers were depending on American corn and advanced the price of corn meal accordingly on all new contracts. It is not expected that this market condition will continue, however, as there has been plenty of corn in the United States since last harvest, although difficulty of distribution arose through lack of sufficient transportation facilities and similar causes. With the 1918 crop in prospect, it is expected that there will be a still more plentiful supply for the coming season.

It may be necessary to experiment with these substitute flours a few times before succeeding in producing a satisfactory loaf and opportunity should be taken to study the effect of these substitutes and the different methods of mixing, handling, fermenting and "proofing" of the doughs. As most of the wheat flour substitutes accelerate the fermentation, it will be better not to work the dough as long as usual. About four hours for fermentation will be sufficient in a room of moderate temperature, divided as follows:—

2 hours — 45 minutes for the first punch.
45 minutes for the second punch, 30 minutes is allowed before the dough is finally taken out, kneaded and cut into loaves. After being set in the pan, 45 minutes is enough for "proofing," when it is ready for the oven.

When corn meal, oat meal or other meal is used the moisture retaining qualities of the loaf may be improved by scaling these ingredients at a temperature of 150 degrees. Fervent heat and allowing two hours for cooling. Most of the wheat flour substitutes retain the moisture in the loaf longer than will the wheat flour and yield an increased amount of bread on account of their higher absorption of water, thus reducing the

AMERICAN WHEAT CROP.

Reports from the United States wheat belt are encouraging. This year's crop is estimated to be 50% larger than last year. The greatest acreage ever sown to wheat is officially reported and by the June estimates the crop will reach 950,000,000 bushels as compared with the record crop of 1,025,000,000 bushels in 1915. The total wheat area to be harvested this year is 58,881,000 acres, an increase of 12,000,000 over the preceding year, compared to the average for the five-year period preceding the war of 48,953,000. The other grains also show a big increase. Despite the big harvest, the Food Administration of the United States is urging conservation to the greatest possible degree as every bushel will be needed to give allied Europe from famine.

VOLUNTEER FARM WORKERS.

Hundreds of thousands of volunteer workers will be needed to save the crop of the United States and they are coming forward from every walk of life. At a recent convention of bankers, a question was asked, "How many of you grew up on a farm?" The count showed 90%. Everyone present agreed to leave his bank and work on the farm for periods from ten days to two weeks.

amount of yeast and shortening necessary. The following are a few of the recipes recommended to bakers. They will be useful also in private households when substitutes are to be mixed with wheat flour for bread.

Corn Flour Bread.
2½ pounds standard flour,
¼ pound corn flour
1 tablespoon brown sugar
2 tablespoons salt
½ oz. yeast
1 tablespoon fat
3 cups of water
This should produce 4½ pounds of bread.

Barley Flour Bread.
5 2-3 cups wheat flour
1 1-3 cups barley flour
2 cups milk and water
1 cake of compressed yeast
2 tablespoons sugar
2 tablespoons fat
2 teaspoons salt
This should make two loaves.

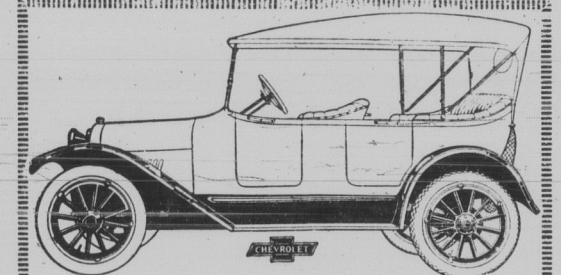

Rice Yeast Bread.
8 cups standard flour
7 cups boiled rice
½ cup milk and water
½ cup warm water (for yeast)
½ cake compressed yeast
4 teaspoons sugar
4 teaspoons fat
1½ teaspoons salt
When ready for the pans will look like a stiff drop batter. The quantities mentioned make two loaves.

"BEST MEDICINE FOR WOMEN"

**What Lydia E. Pinkham's
Vegetable Compound Did
For Ohio Woman.**

Portsmouth, Ohio. "I suffered from irregularities, pains in my side and was so weak at times I could hardly get around to do my work, and as I had four in my family and three boarders it made it very hard for me. Lydia E. Pinkham's Vegetable Compound was recommended to me. I took it and it has restored my health. It is certainly the best medicine for women's ailments I ever saw."—Mrs. SARA SHAW, R. No. 1, Portsmouth, Ohio.

Crowd More Into the Busy Day

THE CHEVROLET 490 is an investment, not an expense of luxury. Doctors, business men, farmers, salesmen and ladies—all should use the Chevrolet Four-Ninety and crowd more energy, activity and business into the busy day.

The Four-Ninety stands unchallenged in its price class. The electric starting and lighting equipment is most efficient. The car is powerful, roomy, comfortable and economical. The time gained by operating a Chevrolet more than pays for the cost.

THE LATEST OUTRAGE.

A German officer taken prisoner in France is reported to have answered one who asked his views as to the outcome of the war, "We will win or we will go to hell." Germany's conduct in bombing hospitals and in sinking hospital ships leaves no room for doubt that the officer made known the deliberately formed determination of Germany. To-day's reports of the sinking of the eleven thousand ton hospital ship Llandovery Castle prove the submarine commander knew exactly what he was doing, as records of the hospital outrages in France prove the airmen knew exactly what they were doing. As the Germans sought to justify the Lusitania outrage with the lie that the ship was armed, they seek to justify this latest outrage with a lie that military officers were among those being transported in the ship of mercy. Instead of adopting the humane course of stopping the ship and exercising this right of search, the Hun fired his torpedoes destroying the ship. What else he did may never be fully known, but

the pages of Germany's record are black enough to make the world fear that the missing boats with their human freight of nurses and wounded were deliberately sunk. Such outrages as these, while they bring tears to the eyes, must strengthen the resolve of the Entente powers to fight this war to a victorious end. Germany's leaders, confessing that a military victory is an impossibility, are clamoring for a peace by negotiation, but the Llandovery outrage is a reminder that there must be no negotiations with the Huns until the Huns admit a military defeat. These latest incidents of war waged with a studied determination to make the Allied nations and the neutrals suffer in every possible way, in the belief that this will inspire respect and fear of the Teutons, call as loudly as do the outrages of Louvain and Aershot, and the horrors of Belgium and Serbia and Poland, for continuance of the fight until the principles of liberty are firmly established in all lands.—Globe.

The Great War Veterans Association of New Brunswick is on record as a stout defender of the overseas Y. M. C. A. against attacks made upon it in Ontario. The unanimous and hearty endorsement by men we know, and men who have been overseas and are therefore qualified to judge, cannot but strengthen public confidence in the Y. M. C. A. and the character of its service to the men in camp and field.

That Canada is at war will be brought home to every man, woman and child next month when all bread made from standard wheat flour must be labeled "Victory Bread" and mixed with a percentage of substitutes for wheat flour. This is the effect of a recent Order issued by the Canada Food Board in a vigorous effort to save the existing wheat supplies so as to make them last out until the wheat

of the coming harvest reaches the flour mills and the new flour is distributed for consumption.

The new Order defines substitutes for wheat as corn, oats, barley, rice, rye, buckwheat, tapioca and any mixture of same; potato flour, bran shorts, oatmeal, rolled oats, corn meal, corn starch, hominy, corn grits, rice meal and potato meal.

On and after July 1st one pound of wheat substitute must be used by all bakers, confectioners and public eating places with every nine pounds of standard wheat flour in making any bakers' products, and the same rule shall apply to every person in Canada who bakes bread, rolls or pastry for private consumption. On and after July 15th in all Canada east of Port Arthur the proportion is to be increased to one pound with every four. In Port Arthur and the West this increase is still in abeyance, preceding the report of the quantities of substitutes available.

It is provided in this Order that on and after July 15th no licensed dealer shall sell for private consumption east of, but not including Port Arthur, white flour to any person who does not purchase from him substitutes in the proportion of not less than one pound to two pounds of standard flour. West of Port Arthur the proportion is kept at one pound substitute to four pounds wheat flour. The brand "Victory Bread" is to be affixed to every loaf as a guarantee that the prescribed amounts of substitutes for standard wheat flour are being included therein.

Bread not bearing this label may be seized and any person violating the regulation is liable on conviction to a penalty not exceeding \$1000 and not less than \$100, or imprisonment for a period not exceeding three months or both fine and imprisonment. Fines are to be paid to the municipality if recent Order issued by the Canada Food Board in a vigorous effort to save the existing wheat supplies so as to make them last out until the wheat

CANADIAN FORESTRY CAMP AT KNOCKANDO.

(Continued from page 5).

Three substantial meals daily. A short distance behind the mess-house is a large stable for the horses employed on the north side of the river, but the largest stable, capable of accommodating forty horses, is situated on the top of the hill on the south side of the river. Over fifty horses are employed at the camp. Near the stable are a couple of pig-geries, where over a score of young pigs are being fattened from the scraps from the messhouse. When fattened the pigs are sold, and the proceeds go to the regimental fund for the good of the men.

Proceeding across the high swing footbridge which spans the river, and is used by the men for going to and from their work, we have to climb a very steep hill to reach the top. Here are the head of the light railway and the south end of the cable, while close by is the large stable already mentioned, for the housing of the many horses employed in pulling the trees to the side of the line and for drawing the bogies on the railway. Two large sleeping huts and a messhouse have also been erected here for the accommodation of about 150 Finns who are expected soon to work in the "bush." The tree-fellers are experts at their work, and they soon cut down a tree, knock off the branches, and saw it into the required lengths.

About ten acres of land have been rented on the farm of Culquich on the south side of the river, for the cultivation of potatoes and vegetables for the camp. The use of a field for engaging in the game has been kindly granted by Mr. Allan Dalbeall, lie, and during the season matches are to take place between the various companies in the district. The officers in charge of the camp are Captain Blackador, who overlooks the whole work of the camp; Lieutenant McMullen, who superintends the tree-felling and handling of the logs;

WASH FABRICS

A Special Sale of Wash Fabrics, including Fine Voiles, Satines, Palm Beach Cloth, Etc., values up to \$1.25, 49c per yard.

A nice range of Voiles and Outing Skirtings values up to 60c, 29c per yard.

The balance of our Spring Coats and Suits, (with the exception of Black and Navy Blue) are marked down regardless of cost.

CEO. C. MCKENZIE CO., LTD.
PHONE 267

Knockando is the best of any camp he has visited.

The chief outdoor pastime of the men is baseball. The use of a field for engaging in the game has been kindly granted by Mr. Allan Dalbeall, lie, and during the season matches are to take place between the various companies in the district.

The officers in charge of the camp are Captain Blackador, who overlooks the whole work of the camp; Lieutenant McMullen, who superintends the tree-felling and handling of the logs;

Lieutenant Dillabough, in charge of the sawmill; and Lieutenant Grant Smith, who, as adjutant and quartermaster, has plenty of work in the orderly room.

Since their arrival the Canadians have made many friends in the district, and appear to have captivated the hearts of the fair sex. One or two marriages have already taken place, and from the cooing and wooing which goes on it is expected that many more of the men will take Scotch lassies back with them to Canada.

THE ANGLICAN SYNOD URGES CONSERVATION.

The Anglican Synod of Huron adopted the following resolution:—

"That in view of the wide spread shortage of food and the urgent need of the allied nations of Europe and of the fighting men at the front, this synod pledges itself by every means in its power to support the Government in any measure it may see fit to promote the greater production and conservation of food."

Newspaper Notes of Town and Gathered by G. W. V. A.

IT WOULD BE NICE. What is more delightful than a few cool, warm—even hot—days after a couple of months of cool, wet, breezy weather?

MUST NOT TRESPASS. Any one caught trespassing on the property of Mr. S. M. Moores, Andrew street will be persecuted to the full extent of the law. Parties have torn down notices and walked over the plowed land and destroyed the growing vegetables.

DR. ENWRIGHT LOST. Capt. Dr. W. J. Enwright of Port Daniel East who has been in the Army Service since early in the war was one of those lost when the hospital ship Llandovery Castle was sunk. Dr. Enwright had many friends on the Gaspe coast who will regret to hear of his death.

STRAWBERRY FESTIVAL. A Strawberry Festival and Sale of Fancy Articles will be held in the Campbellton Skating Rink on Friday July 19th, under the auspices of the Catholic Girls' Guild, proceeds in aid of the Hospital. Games will be provided and soft drinks, ice cream, and cigars will be sold. Band in attendance. Festival from 2 to 5:30 a.m. and from 7 to 11 p.m. Admission adults 10c, and children 5c.

LABORERS WANTED. Wanted, 100 men to work on John & Quebec Railway, between Westfield and Gagetown. Wages \$3 per hour and upwards according to man's ability. Men who wish to work 12 hours per day will be allowed to so. Board \$6.00 per week. Apply Nova Scotia Construction Co. Thomas Cozzolino, Brecken's "Late B."

SCHOOL MEETING. At a meeting of the School Board held Tuesday evening the necessary amount for school purposes was at \$19,000. This is a considerable increase over last year. A communication was read from the Mother Superior of Hotel Dieu requesting the Convent School be taken over the Campbellton School Board. The matter was referred to a committee which will interview the Mother Superior, view the buildings and report the next meeting.

G. W. V. A. WANT GRANTS. The members of the Great War Veterans' Association, intend to ask provincial government for a grant one hundred acres for each returned soldier within the province willing to settle on land together with tax exemptions for three years and a \$500 to each returned soldier of \$500 to enable him to get a start on the land. William Richards, of Fredericton, J. Lawson of Campbellton, and Ailingham, of St. John, have been appointed a committee to take this matter up with the premier and members of the government. The committee will probably interview government at the meeting to be held on Wednesday and Thursday this week.

IT WOULD BE NICE

What is more delightful than a few warm—even hot—days after a couple of months of cool, wet, broomy weather?

MUST NOT TRESPASS

Any one caught trespassing on the property of Mr. S. M. Moores, Andrew street will be persecuted to the full extent of the law. Parties have torn down notices and walked over the plowed land and destroyed the growing vegetables.

DR. ENWRIGHT LOST.

Capt. Dr. W. J. Enwright of Port Daniel East who has been in the Army Service since early in the war was one of those lost when the hospital ship Llandovery Castle was sunk. Dr. Enwright had many friends on the Gaspé coast who will regret to learn of his death.

STRAWBERRY FESTIVAL.

A Strawberry Festival and Sale of Fancy Articles will be held in the Campbellton Skating Rink on Friday, July 19th, under the auspices of the Catholic Girls' Guild, proceeds in aid of the Hospital. Games will be provided and soft drinks, ice cream and cigars will be sold. Band in attendance. Festival from 2 to 5.30 a.m. and from 7 to 11 p.m. Admission adults 10c, and children 5c.

LABORERS WANTED.

Wanted, 100 men to work on St. John & Quebec Railway, between Westfield and Gagetown. Wages 35c. per hour and upwards according to man's ability. Men who wish to work 12 hours per day will be allowed to do so. Board \$6.00 per week. Apply to Nova Scotia Construction Co. or Thomas Cosentino, Brecken's Lane, N. B.

SCHOOL MEETING.

At a meeting of the School Board held Tuesday evening the necessary amount for school purposes was set at \$19,000. This is a considerable increase over last year. A communication was read from the Mother Superior of Hotel Dieu requesting that the Convent School be taken over by the Campbellton School Board. The matter was referred to a committee which will interview the Mother Superior, view the buildings and report at the next meeting.

G. W. V. A. WANT GRANTS.

The members of the Great War Veterans' Association, intend to ask the provincial government for a grant of one hundred acres for each returned soldier within the province willing to settle on land together with tax exemptions for three years and a loan to each returned soldier of \$500 to enable him to get a start on the land. William Richards, of Fredericton; O. J. Lawson of Campbellton, and H. Allingham, of St. John, have been appointed a committee to take this matter up with the premier and members of the government. This committee will probably interview the government at the meeting to be held here on Wednesday and Thursday of this week.

CHATHAM TAX RATE.

The tax bills are now being made out. The assessment this year reaches the large total of \$67,000 and the rate has gone up \$3.00 to \$3.50. This is an increase of about 18 per cent in taxation.—Gazette.

NOT A DUMPING GROUND.

Complaint has been made that parties are making a dumping ground along the Parker Lake Road. This is strictly contrary to law, and persons are warned that they will be prosecuted if they continue this practice.

SCHOOL GARDENS DAMAGED.

Someone has entered the school gardens on Andrew street and done considerable damage to them. The public is warned that any one caught at this will be severely punished, and parents will be held responsible for acts of their children.

WAR LECTURE.

The lecture given in the Opera House last Thursday evening by Pte. Frank McDonald under the auspices of the Women's Institute and the Red Cross was fairly well attended. Pte. McDonald proved to be a very fluent speaker and his lecture was one of the best heard here.

NOW IN HOSPITAL.

Mrs. Jas. H. Andrew has received word from the 2nd London Hospital, Chelsea, London advising her that her brother, Corporal Harrison of Grand Cascapedia has been admitted to hospital there suffering from trench fever. He was first in hospital in France and was later brought to England.

PIANO TUNING.

A. McEachran the well known musician and piano tuner is in town. Mr. McEachran is an expert piano tuner and travels between Chatham and Campbellton. He will be here until the end of the month. Orders may be left at E. Sullivan's. July 10-2-wks.-pd.

TENNIS CLUB FORMED.

A number of persons interested in tennis met Tuesday evening and arranged a Tennis Club with the following officers:

Hon. Pres.—H. R. Allan
Pres.—J. L. Claxton
Vice Pres.—T. F. Jones
Sec. Treas.—Austin McDonald.
All interested in tennis are invited to join.

MISS JENNER GOING ACROSS.

Rev. and Mrs. J. H. Jenner of West St. John, left this morning for Halifax to join their daughter, Miss Lenna Jenner who is a nursing sister in the Cosswell street military hospital, and who has been accepted for overseas duty. Miss Jenner is a graduate of the Winnipeg General Hospital and previous to accepting this government position she practised her profession in St. John, and is a member here on Wednesday and Thursday of the New Brunswick Association of Nurses.

CARD OF THANKS.

Mr. and Mrs. Thos. Dundon and family of Shannonville, wish to thank their friends and neighbors for all kindness shown them through their recent sad bereavement.

MUCH GRAIN DISTRIBUTED

For this spring's planting the Provincial Department of Agriculture imported 284, 274 bushels of oats, 18,184 bushels of wheat and 1,368 bushels of barley. The work of the municipal councilors was of great assistance in the distribution of this seed.

POTATO SPRAYING.

Mr. Cunningham of Fredericton, Dominion Plant Etymologist, will conduct a potato spraying demonstration on the farm of Jas. Cook, River Charles, N. B. on Tuesday July 16th at 6.30 p.m. There should be a good attendance of farmers to see this.

CANADIAN FORESTRY CAMP AT KNOCKANDO.

A busy scene in a beautiful spot.

We are indebted to Miss Hill of Athol, for the following interesting account of the Canadian Forestry Camp at Knockando. It is copied from "The Northern Star," published at Elgin, Scotland.

The members of the Canadian Forestry Corps encamped near Knockando station, after several months' preparatory work erecting their sawmill, huts, railway, cable, footbridge across the Spey, &c. have been in full working order, and a visit to their encampment is both interesting and instructive. The camp is situated on the haugh below Dalbeattie farm, in the midst of beautiful surroundings, and a good view of the small wooded village is obtained from the train as it approaches Knockando station.

The officers are housed in a bungalow on the north side of the railway overlooking the camp, while the men's sleeping quarters are in the large malt barn at the adjoining distillery. The grain loft above the sleeping room serves as a recreation room, and here are the quarters of the Y. M. C. A. and a canteen, the former being in charge of Sgt. Burns. The men are supplied with books, papers, and games, while for music they have the use of a piano and a powerful gramophone. During the evening the men may have coffee and biscuits at a reasonable charge. About once a fortnight the men are treated to a cinematograph entertainment, an operator with his machine going round the various camps in the district. On occasional Sunday's religious services are conducted by the district chaplain, and local ministers.

The large sawmill is at the east side of the camp, and there is a siding to it from the main line for the easy and quick transport of the shippers, &c., which are turned out daily in reasonable numbers. The mill produces about 25,000 feet of cut wood daily, and the speed with which the wood is handled is an eye-opener. The large wood which is being cut down is on the Ballindalloch estate on the opposite side of the Spey, and a light railway about two miles long has been constructed for the rapid transit of the cut trees. Small bogies on the line convey the logs to the cable head.

This cable, which is two inches in diameter and about 700 yards long with its carriage, conveys the logs by gravitation across the river to the sawmill. The empty carriage is pulled back by an engine on the south side of the river. The carriage can accomplish six journeys within an hour, and over 400 logs are conveyed across daily to be sawn up. The logs are thrown on to the platform and then pulled up by machinery on to the sawing bench. The large circular saw is furnished with moveable teeth, and is much thicker than the Scotch saw, thus producing more sawdust, which is removed by a chain bucket arrangement and emptied into a cart for removal. The cut wood is conveyed along a moveable platform, trimmed by the "edger," marked, and loaded into wagons either for sending away or stacking along the side of the loop line. A powerful engine drives the machinery for the mill, and also supplies the motive power for the electric plant which lights up the various buildings in the camp.

Culinary Arrangements, &c.

Proceeding westward, we come to the blacksmith's shop where horseshoeing and general blacksmith work are carried on. A short distance off is a small hospital, containing four beds, which, owing to the splendid health of the men, are seldom or ever occupied. Passing the orderly room, in front of which is a large flagstaff displaying the flag of the land of the maple leaf, we come to the men's messhouse and cookhouse, and here the wants of the inner man are well looked after. The cooking is done in a large oven capable of doing a 70 lb. roast; and in large boiling pans. Each man is supplied with 5 lbs. of beef weekly, and with potatoes, beans, and mashed turnips he receives a simple dinner to keep him in form for his arduous outdoor work. The men get

Cause of Early Old Age

The celebrated Dr. Michenoff,
an authority on early old age,
says that it is "caused by poisons
generated in the intestine."
When your stomach digests food
properly it is absorbed without
forming poisonous matter. Poisons
bring on early old age and
premature death. 15 to 30 drops
of "Bile's Syrup" after meals
cures your digestion speedily.

SHIVES ATHLETIC.

The pupils of the Advanced Depart-
ment of Shives Athletic held a very suc-
cessful school concert in the Opera
House on Wednesday evening, June
26th. A large number were present
and hearty applause was given the
children for the splendid way in which
they performed. The sum of twenty
one dollars was realized, and nineteen
dollars was donated to the Soldiers'
Comfort Association. The programme
was as follows:—

Welcome—School.
Song—"Joan of Arc"—School.
Recitation—"Dog, Cat, Rat"—James
Olskamp, Ronald Keeley, Joe. Clow-
re, "Visit to Uncle Jerry"—
Tommy McLean.

Dialogue—"Jack Canuck"—School.
Recitation—"Jacob's Lament"—
Thelma Olskamp.
Song—"Boys be Prepared"—School.
Drama—"Photograph Gallery"—
Coming to
Tea—"James Olskamp.

Labor Convention—Seven Girls.
Recitation—"Envy"—Two Boys.
Recitation—"The Flag"—Maude
Warman.

Flag Drill—Sixteen Girls.
Class Song—School.
God Save the King.

On Friday afternoon the annual
closing of the school took place, and
a large number of parents and friends
were present. The sum of \$6.00 was
donated for prizes by Mr. John Hill
and Mr. Fred Wetmore. The follow-
ing are the names of pupils receiving
prizes.

Grade VIII.—Class prize, Isabel
Hill.
Grade VII.—1st prize, Arthur
Christensen and Thelma Olskamp.
2nd prize, Maude Warman.
Grade VI.—Class prize—Carmel
Jolicoeur.

Thelma Olskamp, Maude Warman,
Clementine Klippert, Reginald Ayotte,
Ethel Douglas, Jennie Miller.
Grade VI.—Carmel Jolicoeur, Ger-
trude Henson.

Grade V.—Mildred Brooks, Ver-
nie Cooling, Lillian Christensen, Wil-
lie Keeley, Rachael Porter, May Comeau.
Grade IV.—James Olskamp, Ethel
Gagne, Colleen Allard, Lillian Christie,
Viola Bouchie, Marie Godin, Marion
Richardson, Aureole Godin, Earl Wil-
kins, Fred Thompson, Joe Clark, Clara
Gallant.

Grade III.—James Wetmore, Ar-
geline Blaquiere, Ronald Keeley, Eve-
line Boushie, Tommy McLean, Bertha
Muller.

After the singing of the class song
the pupils presented their teacher
Miss Murphy with a signet ring and
the following address was read:—
Dear Miss Murphy:

As you are about to leave us, we the
pupils of the Athol school, feel we
cannot let this occasion pass without
some token of our appreciation of your
interest in us. During the time you
have been with us, you have borne
with us, and given us your best, but
in looking back over four years
you have been with us, we have many
pleasant memories of good times to-
gether. As teacher and pupil there
has existed a bond of friendship and
good will.

We now ask you to accept this ring.
It is a small token of our apprecia-
tion and esteem.

Wishing you a pleasant and well
earned vacation, and success in what-
ever you may undertake.

We remain,
The Pupils of Athol School.

Miss Murphy replied in a few words
thanking her pupils for their kind
remembrance and wishing them a very
pleasant vacation.

NEW MILLS SCHOOL REPORT.

Report of Our Ladies' Visitation
School. June Testimonials, Concert,
Exams, Prizes, and Pic. Social.

Honor Medal.—Sylvia Gallen.
Test. of Excellence.—Sylvia Gal-
len, Denis LeJeune, Bert McCarron,
Hect Arseneau, Clementine Gagne.

Test. of Satisfaction.—Pina Le-
Blanc, Nora Walsh, Eliza LeJeune,
Lorette Arseneau, Frank McCarron,
Florence LeJeune, Stella Murchie,
Wilfrid Mercier, Stella Gallen, P.
Arseneau.

Special Prizes:
Attendance, \$2.50 in gold, Sylvia
Gallen.

Progress in F. Sylvia Gallen.
English Catechism, Meda, Mathilda
Marche.

French Catechism:—Hect. Arse-
neau.
1st Primer, English Reading:—
Greta Mealy.

2nd Primer, English, Spelling:—
D. LeJeune.
2nd Primer, English, Arithmetic:—
Stel. Gallen.

2nd Primer, English, Writing:—
Mary Chandler.
2nd Reader, English, Writing:—
Hect. Arseneau.

2nd Reader, English, Geography:—
Nora Walsh.
2nd Reader, English, Spelling:—
Clem. Gagne.

2nd Reader, English, Grammar:—
F. McCarron.
2nd Reader, English, History:—
Pina LeBlanc.

2nd Reader, English, Catechism:—
Mathilda Murchie.
Syllabaire:—1st D. Reading and Spell-
ing:—Nora Walsh.

Syllabaire, 2nd D. Reading and
Spelling:—Sylvia Gallen.
Syllabaire, 3rd D. Reading and
Spelling:—M. L. Arseneau.
Syllabaire 3rd D. Reading and Spell-
ing:—Lor. Arseneau.

Premier Livre, 1st D. Reading:—
Pina LeBlanc.
Premier Livre, 1st D. Spelling:—
H. Arseneau.

Deuxieme Livre, 1st D. Reading
and Spelling L. Arseneau.
Deuxieme Livre, 2nd D. Reading
and Spelling:—Lena LeBlanc.

Troisieme Livre, Reading and Spell-
ing:—F. Arseneau.
Quatrieme Livre, Grammar and Lec-
ture, and Ep.:—Ev. Arseneau.

1. Overture—Organ.

22. Organ.
23. Recitation—"Words of Welcome."
24. Organ.
25. Decl.—"Do Your Best."
26. Organ.
27. Decl. R. LeBlanc.
28. List of Prizes.
God Save the King.

SCHOOL REPORT OF OAK POINT SCHOOL.

The closing exercises of Oak Point
School took place, Friday, June 28th.
An appropriate programme was ren-
dered by the pupils as follows:—
Chorus—The Maple Leaf Forever

Recitation—Welcome—By Opal Flow-
ers.
Recitation—Best of All—By Sterling
McKinnon.
Flag Exercise—By Anderson McKin-
non and Grace Tennler.

Recitation—Can It Be Done?—By
Margaret Young.
Recitation—Vacation Will Come—By
Anderson McKinnon.

Dialogue—Punctuality—By Hazel
Hunter and Lottie Mann.
Recitation—Our Flag—By Helen
Keays.

Recitation—The Little Mother—By
Mary Young.
Exercise—The Days of the Week—By
Seven Girls.

Recitation—The Union Jack—By
Devereaux Baker.

Then followed very interesting ad-
dresses by Adjutant Samuel J. Young
of Poughkeepsie N. Y., and T. R.
Busted, Chairman of the School
Board.

Prizes were then distributed as fol-
lows for general proficiency:—
GRADE VII.
Devereaux Baker, 1st prize,
Hazel Hunter, 2nd prize.

GRADE V.
Anderson McKinnon, 1st prize,
Lottie Mann, 2nd prize.

GRADE IV.
Margaret Young, 1st prize,
Margaret Hunter, 2nd prize.

GRADE III.
Helen Keays, 1st prize,
Mary Young, 2nd prize.

GRADE I.
Sterling McKinnon, 1st prize,
Opal Flowers, 2nd prize.

Prize for Good Conduct was award-
ed to Margaret McKinnon and prize
for Good Attendance to Bernard Mann.

Closing by singing God Save the King.
Then everyone repaired to Oak
Point, where a lunch was served on
the beach, and an enjoyable time was
spent by all.

BLACK CAPE.

Miss Winifred Campbell, daughter
of Mayor and Mrs. Angus Campbell
who has been a trained nurse for a
number of years in Hartford, Conn.,
has recently enlisted as a Red Cross
nurse. Word has been received of
her safe arrival overseas. She has
the best wishes of her friends on her
worthy mission.

Mrs. J. H. West and children Mary
and Edward have returned home from
Toronto, Ont., where they spent the
winter.

Miss Maida Campbell, Matron of
the Union Hospital, Elton, Md., is
visiting her home here.

Miss Elsie Thorburn has returned
home from Gascons where she has
been teaching school during the past
term.

Miss Clara Campbell, nurse of Har-
ford Conn., is spending a short vaca-
tion at her home here.

The friends of Mrs. Robert Fair
are sorry to learn that she is not en-
joying good health, but is neverthe-
less able to be about her post office
duties. All wish her a speedy recovery.

Mr. Wilbur Bateman of Montreal is
spending a short vacation in Black
Cape with relatives and friends.

Miss Janie Powell who has been
teaching school in Restigouche return-
ed home on Monday.

The many friends of Mr. Robert
Steele will hear with regret that he
has sustained a painful accident last
week by running a rusty nail into his
foot, which has confined him to the
house, but hope to see him around
soon again.

The Dr. Wardrop and McCurdy
Mission Bands of Black Cape, P. Q.,
held their annual Salmon Supper at
the home of Mr. and Mrs. Robert Mc-
Nair on Friday evening, June 21st,
which was very largely attended. The
proceeds of the Supper amounted to
\$39. Also the following Wednesday
evening the Band held an Ice Cream
Social at the home of Mrs. J. C.
Fair President of the Band at which
the goodly sum of \$26 was taken in.
This is for Missionary work.

NEW RICHMOND.

Rev. E. J. Rattee attended the meet-
ing of the Presbytery which was held
in Bathurst on the 25th. He also made

a trip to New Carlisle at the week
end.

The many friends of Pte. Earl Ro-
bertson will be interested to hear that
he has fully recovered, and is again
on active service, after being wounded
some time ago.

Mr. J. H. Rattee who has been with
the Bank of Nova Scotia staff at
Campbellton is spending his vacation
with his parents Rev. E. J. and Mrs.
Rattee before being transferred to
Western Canada.

Mr. H. J. C. McIntyre who has been
manager of the Bank of Nova Scotia
here for some time has been trans-
ferred to Riverview, his place has been
filled by Mr. Wilson.

Mr. Bertram Robertson who has been
in the employ of T. Eaton Company
Ltd., Toronto is visiting his parents,
Mr. and Mrs. James Robertson.

Miss Bella McKenzie who has been
employed with the Bell Telephone Co.
is spending her vacation with her par-
ents Mr. and Mrs. W. L. McKenzie.

We are pleased to notice that Miss-
es Alta and Doris Campbell and Rita
and Mona Henderson are spending the
summer at their respective homes here.

Rev. George A. McEllan is expect-
ed here the latter part of July in the
interests of the Quebec Bible Society.

We notice that Mr. Alfred Gilker
has purchased a Chevrolet car.

The tug Betty D. arrived in our
harbour on Monday evening, the 1st,
from Bathurst, and returned with a
large tow of logs for the Bathurst
Lumber Company.

NEW CARLISLE.

Rev. Jobb of New Carlisle conducted
service in Zion Presbyterian Church
on Sunday evening.

Miss Bella Jacobson who has been
teaching school for the past six months
in L'Anse aux Boeufs has returned
home for the holidays.

Percy Hoquard of Campbellton
spent Sunday here.

Misses Eva and Blanche Caldwell
who have been teaching school in New
Richmond and Broadlands respectively,
have returned home.

Mr. Nelson Beck of Cape Despair,
paid a flying visit here last week.

Miss Dixon of Broadlands is visit-
ing friends here. The weather for
the past week has been very dis-
agreeable. We hope for a change
soon.

REPORT OF NEW CARLISLE BRANCH OF RED CROSS SOCIETY.

Sheep On Every Hill Side In New Brunswick

The New Brunswick Government through the Department of Agriculture has arranged with the Chartered Banks to help the Farmers—where assistance is needed—to buy Sheep.

The Department will not only arrange to buy Sheep FOR the Farmers, but will also buy good breeders FROM the Farmers—in other words, this branch of the Agricultural Department WILL SUPERVISE ALL PURCHASES AND SALES OF SHEEP.

IF A FARMER NEEDS CREDIT TO BUY SHEEP he should consult his local banker who has the necessary forms.

If you cannot buy sheep in your locality, inform the nearest banker who will notify the Agricultural Department, or, better still, notify the Department yourself and say how many Sheep you want.

KEEP YOUR EWE LAMBS

Every Ewe Lamb, weighing 80 pounds and over and of reasonable quality, should be retained by farmers for breeding purposes. Sell the males and the inferior females for butcher purposes. If you have more ewe lambs than required, induce your neighbor to purchase.

THE VALUE OF WOOL

Unwashed Wool of the best quality brought 80 cents a pound this spring, or about \$5.00 a fleece.

SIXTY MILLION SHEEP

Have been lost in Europe since the war started. Wool in enormous quantities is now required to clothe the soldiers, it will take an immense quantity to reclothe the returned men in civilian dress. Prices will likely be high for ten years.

New Brunswick has the pasture, hay, root and a climate suited to sheep. Every farmer should consider investing in a small flock as a foundation. The first year will give approximately \$4.00 worth of wool per sheep, the sheep will cost about \$15.00. Is it not a good business proposition?

If you cannot purchase locally, place your order with your banker. Orders will be filled, if possible, in the order filed at this office through the banks.

J. F. TWEEDDALE,
Minister of Agriculture.

Moving Up British Tommies

On the British Western Front in France.—French troops on the roadside moving up with British Tommies near the line.

Some small cases on the roadside in the front area, the contents of which have been despatched over into the German lines.

MILL WOOD FOR SALE
APPLY TO
R. K. SHIVES
UNION STREET

"Will-Be-Sure"
Will travel the Bay Chaleur, this week as far as New Richmond. Next week Campbellton to Bathurst.
FEES:—Five, Ten and Fifteen Dollars.
HENRY GOOD,
Owner,
June 27th, Dalhousie, N. B.

RECRUITS WANTED FOR HOME SERVICE

Canadian Garrison Artillery Needs Men for Service at Partridge Island.

Partridge Island, St. John, N. B. July 5th, 1918.

The Graphic, Campbellton, N. B.

Gentlemen:—This Regiment, the 3rd (N. B.) Regiment, Canadian Garrison Artillery, has been on active service since the beginning of the war, doing garrison duty at Partridge Island, St. John, N. B.

At the present time we need about 20 more gunners, and feel that, if you will kindly give the requirement publicity in your columns, it will result in securing the recruits.

You might point out that the duties embrace Home Service only and therefore we cannot sign on any men who come under the classes called for overseas units, that is we cannot take unmarried men, 20, 21, 22, 23, and 24 years of age, but married men of those ages and all others may enlist.

The pay and allowances are the same as drawn by men of the Overseas Forces.

The man who enlists with us does not commit himself to go overseas, but will sign on for Home Service, and do duty at Partridge Island. Each man who does this may relieve another who is fit for France, and who cannot presently be spared from duty here.

All that is necessary for the recruit to do is to be examined by a doctor, and forward me the certificate that he is fit for home service. Free transportation will be sent at once.

The S. S. "Sisiboo" leaves from the foot of Acadia Street, St. John City, at 1.10 a.m. 1 p.m. and 3.30 p.m. Daily.

Yours very truly,
J. R. THOMSON, Capt.
3rd (N. B.) Regiment, C. G. A.

NEW BRUNSWICK SHOULD HAVE A MILLION SHEEP UPON HER HILL-SIDES.

There are only one hundred thousand now.

Sixty million sheep have been lost in Europe since the war started.

Wool and Mutton have risen to unheard of prices. Upon the enterprising farmer the world will depend to clothe the soldiers, and feed the hungry. Patriotism and Profit both point the path of duty in this particular.

New Brunswick's opportunity is at hand. The Government leads the way and lends its assistance.

With the idea of increasing the flocks of the province, the Department of Agriculture has arranged, in co-operation with the chartered banks, a system whereby large numbers of sheep can be placed in every part of the province. Every farmer who can buy good lambs locally should do so, but it is not anticipated that the local supply will meet the demand; consequently importations will be made.

The manager of every bank has information regarding the purchase of same. A line of credit under conditions has been established for those requiring it. This Province now has approximately 100,000 sheep, there should be at least 500,000. There should be many more pure bred flocks within the province to supply the yearly demand for pure bred rams; too much money is sent to other parts annually in payment for rams.

The Department of Agriculture was aware that the sheep industry in Europe had been greatly depleted, and considering the high price paid for wool with good prospects for at least ten years decided to stimulate the industry. The Minister of Agriculture asked for and was given authority at the last session of the Legislature to enter into an arrangement with the chartered banks to buy and sell sheep and finance the transactions.

This province can become famous as a producer of high-class wool and mutton, but every man must be a partner to the movement and activity will be rewarded by ample returns. The slogan must be "Fifty Hundred Thousand Sheep for New Brunswick."

With an abundance of food and the opportunity there is no legitimate reason why every farmer should not make the raising of sheep an important factor upon the farm. The investment is small, the returns are quick and the interest obtainable upon the capital involved, if proper care be given, is very large. Wool is worth about 75c, to 80c. per pound and last fall good lambs brought from 12c. to 14c. per pound. At the present time wet ewes or shearings that are serviceable cannot be purchased, because of their value to their owners, but every year sees large numbers of ewe lambs slaughtered, while under present conditions might well be retained for breeding purposes.

The successful farmer today is one who understands nature; he not only

understands but he is very careful not to oppose natural law and to co-operate at every vantage point to the fullest extent; he has learned that nature cannot be coerced except in definite and direct lines which do not tend to defeat the object which nature laws are forever constantly endeavoring to attain. What is true of the individual is true of the larger community, whether it be parish, county or country.

Canada has areas eminently adapted for general agriculture, for fruit and vegetable production, for apple growing, for wheat raising and again there are others where the raising of livestock must be the foundation of successful agriculture. New Brunswick undoubtedly comes in the latter class; while this is true, it does not necessarily mean that the province should not put forth a great effort to maintain her proud reputation as a producer of high class potatoes, but for the farmers throughout the safer policy is to consider livestock production and the agriculture incident to such as the major operation and the one most likely to lead to the establishment of a satisfied, comfortable and moderately wealthy people.

Previous to the outbreak of hostilities, the livestock population of the world, and particularly of North America was becoming inadequate to meet the demands made upon it. United States had almost ceased to be an exporter in many livestock products and had actually commenced importing.

Canada was fast following in a similar direction. This condition was very apparent in the movement of mutton carcasses from New Zealand and Australia to the western coast of North America and some came to Halifax.

The sheep population of the two countries had dwindled for various reasons, such as the breaking up of the large western ranches, the dog on in defense of their country overruns, and to a general lethargy on the part of the people in regard to the value of sheep upon the average farm.

Very often diseases which are not difficult to treat were allowed to ravage flocks because of the lack of knowledge of proper precaution, ticks took their toll through failure to dip. The low price of wool and lamb was a feature also. Flocks became smaller and gradually they were done away with and too often their places were not taken with other stock.

Conditions have changed and were on the upward grade before the war. Wool grading and co-operative selling were direct causes of stronger prices; the insistent demand from the cities for juicy lamb enhanced values; the depletion of the flocks caused shortage at the large markets; the rapid urban increase and the rural decrease in population upset the balance between the consumer and the producer and rather suddenly many discovered that the sheep industry was worthy of more careful attention. Lambs of standard quality began to soar in price and too often they were not to be had at all and mutton was scarce instead. But even this substitute did not meet the requirements.

The great depletion in the European flocks since 1914 has for many years to come unbalanced the supply and demand, not for food purposes only, but for breeding also; the farmer with good stock will find a ready market at remunerative prices. America has been wont to go to Europe for her breeding stock, but every indication is that the reverse will be true in the early years of peace or at least the exportation from the old lands will cease. New Brunswick today has an opportunity to fill the gap which has been caused by social and economic reasons and by the years of war. Her situation offers excellent marketing facilities, her very rolling lands give pasture suitable for sheep, her climate is not too severe, and the valleys will supply all the hay, roots and the small amount of concentrates to carry large flocks through the winter season. The farmers of the province have a knowledge of sheep raising sufficient to warrant them in the extension of the industry. The co-operative system of selling the wool guarantees the best price the American or Canadian markets can offer; the grading system brings the producer and the consumer much nearer together. Under the Canadian Co-operative Wool Growers Company, the sheep raisers of Canada have an organization all their own which is already strong enough to protect their interests in every detail.

MORE YOUNG MEN MAY BE CALLED

Military Authorities Hope to Get Those Lower Than Class A.

The drag net for eligible young men under the Military Service Act is being drawn tighter, and it is announced by the military authorities that an official is to be appointed in each military district to go over the papers of men placed in the categories below category A.

The military authorities, it is said, do not feel certain that all the men placed in categories lower than A should have been so placed. Cases have been discovered in which, men who were placed by the tribunals in categories lower than A, concurred in compassionate grounds with men who were placed in the first category for active service in the actual theatre of war.

A medical officer will be appointed for this military district whose duty will be to examine carefully all the official documents in connection with the early boards held throughout the district. Any documents that bear evidence of being weak and insufficient for the findings made by the tribunals will be sent to the individuals being recalled for re-examination.

The military authorities are of the opinion that a large number of young men at present enjoying "safety" in category lower than A will have their cases tried again and will in all probability find themselves considered sufficient competent on physical, and reasons, such as the breaking up of the large western ranches, the dog on in defense of their country overruns, and to a general lethargy on the part of the people in regard to the value of sheep upon the average farm.

Very often diseases which are not difficult to treat were allowed to ravage flocks because of the lack of knowledge of proper precaution, ticks took their toll through failure to dip. The low price of wool and lamb was a feature also. Flocks became smaller and gradually they were done away with and too often their places were not taken with other stock.

Conditions have changed and were on the upward grade before the war. Wool grading and co-operative selling were direct causes of stronger prices; the insistent demand from the cities for juicy lamb enhanced values; the depletion of the flocks caused shortage at the large markets; the rapid urban increase and the rural decrease in population upset the balance between the consumer and the producer and rather suddenly many discovered that the sheep industry was worthy of more careful attention. Lambs of standard quality began to soar in price and too often they were not to be had at all and mutton was scarce instead. But even this substitute did not meet the requirements.

The great depletion in the European flocks since 1914 has for many years to come unbalanced the supply and demand, not for food purposes only, but for breeding also; the farmer with good stock will find a ready market at remunerative prices. America has been wont to go to Europe for her breeding stock, but every indication is that the reverse will be true in the early years of peace or at least the exportation from the old lands will cease. New Brunswick today has an opportunity to fill the gap which has been caused by social and economic reasons and by the years of war. Her situation offers excellent marketing facilities, her very rolling lands give pasture suitable for sheep, her climate is not too severe, and the valleys will supply all the hay, roots and the small amount of concentrates to carry large flocks through the winter season. The farmers of the province have a knowledge of sheep raising sufficient to warrant them in the extension of the industry. The co-operative system of selling the wool guarantees the best price the American or Canadian markets can offer; the grading system brings the producer and the consumer much nearer together. Under the Canadian Co-operative Wool Growers Company, the sheep raisers of Canada have an organization all their own which is already strong enough to protect their interests in every detail.

The Canadian Magazine for July contains a good assortment of articles and summer fiction, including "The Strange Adventures of Fleury Mesplat" by Lyman B. Jackson; "An Eskimo Patriot" by Lacey Amy; "The Ordeal of State Despotism" by Charles M. Jones; "The Great Trout of Timagami" by M. Parkinson; and "Cock-a-luk, Everybody's Cousin," by Hamilton M. Loring. Sir John Williston's Reminiscences and "Dahabab Days" by Helen M. Edgar, are continued.

FOOD REGULATIONS IMPERATIVE.—If present restrictions should be in the slightest degree relaxed it would result in serious want for the people in Europe before the wheat crop could reach the markets," Robert Hoover, United States Food Administrator.

MEN NEEDED FOR HARVEST.

According to the latest estimates of the authorities in charge of the production campaign in the various provinces in Canada, able-bodied men will be needed for the harvest as follows:

British Columbia, from 2,000 to 3,000.	
Alberta, from 6,000 to 7,000.	
Saskatchewan, 20,000.	
Manitoba, 10,000.	
Ontario, 12,000.	
Quebec, 10,000.	
New Brunswick, 2,000.	
Nova Scotia, No outsider needed.	
Prince Edward Island, no outsiders needed.	

These men will have to come from towns and cities of their respective provinces in most cases. Now is the time to plan, prepare and organize.

KILLING DOGS IN BRITAIN.

It is estimated that there are between four and five million dogs in the United Kingdom and a committee has been considering the question of rationing dogs and of killing off a certain percentage. Many dogs have already been destroyed in order to save food.

A Bishop's Worries.—Speaking to a patriotic crowd from the top of a battle-scarred tank, which was doing a roaring trade in war bonds, the Rt. Rev. Dr. Ince, Bishop of London, announced that he had only £100 and that he had just received that sum for a new book he had written. As soon as he had finished his speech he said he intended to invest it in war bonds at the bank to encourage others to do likewise. Furthermore, he announced, his episcopal residence, Fulham Palace, was soon to be turned into a Red Cross Hospital, and he was giving up half of his other establishment, London House, in St. James' Square.

The bishop is used to being out of funds. According to his own statement, he has been in a chronic state of impecuniosity ever since 1901, when, from a suffragan he was promoted to a full-fledged bishop. He once published a statement of his accounts to show how difficult it was for him to make both ends meet on his salary of £10,000 a year.

Although a bachelor and a man of simple tastes, he was compelled to live at Fulham Palace, with its 44 bedrooms, maintain it in good condition, and not neglect the Scriptural injunction to be "given to hospitality." He hinted that he would much prefer living in a small flat at a much reduced salary, but he was not allowed to rid himself of his episcopal white elephant. Now that the Red Cross is to take it of his hands he may be able to save something out of his income.

One by Haig.—It is, of course, well known that Sir Douglas Haig is a soldier first, last and all the time. Regarding all other professions as of quite negligible importance, a trait in his character which points to this anecdote.

He was, it appears, inspecting a cavalry troop, and was particularly struck with the neat way in which repairs had been made in some of the saddles.

"Very good work," he remarked to the troop sergeant-major. "Who did that?"

"Two of my troopers, sir," was the reply.

"You're fortunate to have two such expert saddlers in your troop," said Sir Haig.

"As a matter of fact, sir," was the reply, "they're not saddlers, in civil life being lawyers."

Well, regulated Sir Douglas, how men who can do work like that could have wasted their lives over law I can't imagine!

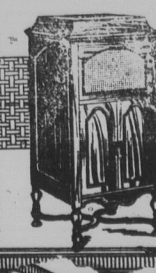

Pathe Orchestral Records

PATHE excels all others in the recording and reproducing of orchestral selections.

Pathe orchestral records are not made with the usual unsatisfactory thin orchestra of ten or twelve performers, but with a full complement of forty or fifty artists. The result is a rich, mellow, natural and satisfactory rendition of your favorite airs.

Listen to the thousand and one little artistic embellishments running through a Pathe orchestral number—the beautiful euphonium obbligato, the delicate introduction of the plaintive oboe, the sweet blending of the reeds, the artistic billowing of the strings, the masterful building up of climaxes, and the magnificent of the tutti ensemble. The living orchestra is before you.

While to obtain the best results they should be played on the Pathephone with the Pathe Saphire Ball, all other make instruments can be easily adapted to play Pathe Records.

The Pathephone

READ DIRECTIONS CAREFULLY AND FOLLOW THEM EXACTLY
For more effective than Sticky Fly Catchers. Clean to handle. Sold by Druggists and Grocers everywhere.

Social and Personal

Mrs. Alex. McLennan visited relatives in Chatham this week.

Mrs. W. I. Cates of Montreal is the guest of Mrs. D. C. Gallon.

Miss Jean McLennan is the guest of Miss Rena R. Caldwell, at New Carleton.

Miss Haines has returned to her home in Moncton after visiting friends in town.

Mr. H. Harris and Mr. Earl Lutes left on Tuesday on a business trip to Montreal.

Miss LeGallais of Pasphebec spent the week-end in town with Mr. and Mrs. E. A. LeGallais.

Mrs. J. D. Nichol of Campbellton is the guest of her sister Mrs. J. W. McClintock, Moncton.—Transcript.

Many friends of James Moores will be pleased to learn that he has received his commission and that he is now Lieut. James Moores.

Mr. and Mrs. Edward E. Travers and children have returned to their home in Hopetown, Que., after spending the past month visiting friends.

The Misses Hitchon accompanied by Mr. Wm. Hitchon's two little sons, have returned to their home in Belleville, Ontario after spending a week with Mrs. D. C. Gallon.

Miss Young of New York and Miss Kathron McAliese of Niagara Falls, Ontario, are guests of Dr. and Mrs. McAliese at their home in South End.

Mrs. Roland McFat and little son of Oshawa and Mrs. Thos. McInch spent a few days in town this week enroute to Bathurst where they will visit relatives.

Mrs. Jos. Devereaux of Jacquet River was in town recently, accompanying her little niece, Miss Bertha Frenette to the Hotel Dieu Hospital where she underwent an operation for tonsillitis.

J. E. McLellan trainmaster at Fitchburg, Mass., formerly of Campbellton and who is on a visit to his parents Mr. and Mrs. Angus McLellan, Moncton, spent a few days here this week renewing old acquaintances.

VANCOUVER, WOMEN PLEDGED.

At a mass meeting of nearly two thousand women in Vancouver the pledge was made to conform exactly to the requirements of the Canada Food Board and to apply the restaurant regulations in their own homes. Furthermore it was especially resolved to discontinue any social functions which promote the consumption of wheat products, pork, sugar and fats.

ALLIES LACK MEAT.

The Allies' livestock has been decreased to such an extent as to mean 27.7% of home resources in meat. The percentages for the different countries are as follows:

England	12.5
Belgium	8.0
France	21.4
Italy	17.8
Germany	36.3
European Neutral Countries	0.9
