LLOYD GEORGE PROMISES THAT EX-KAISER WILL BE PROSECUTED CANADA REGISTRATION ACT IS SUSPENDED

ALLIED FORCES WILL TEMPORARILY OCCUPY THE GERMAN CAPITAL

Police Supervision Will Be Exercised by Entente Soldiers in Berlin To Prevent a Recurrence of Recent Regrettable Incidents.

Copenhagen, Dec. 5.—Allied and American forces will temporarily occupy Berlin, as exercising police supervision, according to the Deutsche Allgemeine Zeitung of Berlin, which says that an American wireless dispatch to this effect has been intercepted by the Germans. The newspaper says that Mannheim will be similarly occupied. The reason for this action on the part of the Allies is said to be a "regrettable incident during which a supervisor of a prisoners' camp shot three Frenchmen."

EARTHQUAKE OF SUCH VIOLENCE IS RECORDED ON SEISMOGRAPH THAT NEEDLES ARE DISLODGED

Shock Beginning at 3:48 o'Clock This Morning Continues For One Hour—Disturbance Believed To Have Been in South America.

Washington D. C., Dec. 6.—An earthquake of great intensity, approximately 2,800 miles south of Washington, was recorded early today on the seismograph at the Georgetown University observatory. The shocks, beginning at 3:48

SHOCK IS RECORDED AT THE DOMINION OBSERVATORY

Ottawa, Dec. 6.—A severe earthquake was recorded at the Dominion observatory here this morning. The first preliminary tremors arrived at 3 hours, 47 minutes, 31 seconds. The main shock, and the disturbance lasted for about an hour and a half. The distance to the epicentre is 3,600 kilometres, or 2,250 miles.

The shock was preceded by one of considerable less intensity and from a more distant source at a little before 3 o'clock, and was followed by another at about 7:15 o'clock. The latter was possibly from the same source as the large one. Ernest Hodgson, seismologist at the Dominion observatory, stated that the direction of this severe earthquake was great enough for the amplitude of the swing to be one and a half inches. Officials at the Dominion observatory, commenting on the report of an earthquake recorded at Washington say the direction from which it came was probably inaccurately derived, and that in-

ALLIED COMMANDERS HAD INFORMATION ON ALL SUB MOVEMENTS

System of Intercepting German Code Located U-Boats.

London, Nov. 23.—Correspondence of the Associated Press.—Allied methods of gaining information about the movements of submarines during the war never will be divulged fully, but the accuracy of the daily reports has proved one of the surprising features of the war here. Very few submarines left their bases unknown to the allied fleet commanders. In addition, the numbers of the vessels, the duration of their cruises and the locality in which they were ordered to operate were known in nearly every case. Such information usually was known within a day of the time the submarine left. It was transmitted to allied wireless stations, which had means for checking it up to a certain extent. Wireless operators at sea and ashore heard the submarine reporting in code to Germany every night, and their positions were learned by means of deciphering the wave length. This was done accurately, the submarine could be definitely located as close as a mile, which is very close in the almost limitless expanse of the sea.

This assisted the allied anti-submarine patrols. They could keep the Germans on the move and, by remaining in the waters they knew the submarines were ordered to operate in, and did not waste time hunting where it was unlikely they were lurking.

NEW TRIAL DEMANDED FOR THOMAS MOONEY New York, Dec. 6.—A new trial for Thomas J. Mooney, convicted of murder in connection with the preparation day parade bomb plot in San Francisco, was demanded in a resolution adopted last night at a meeting held under the auspices of the Central Federated Union to raise funds in his behalf.

LIBERAL UNIONISTS EXPECTED TO BREAK WITH GOVERNMENT

War-Time Elections Act Will Be an Issue. MINISTRY IS TOTTERING

Liberals Who Went In For War May Come Back to Fold.

[Special to The Advertiser.] Ottawa, Dec. 6.—The Government is going ahead with the preparation of estimates for the coming session, but to the session itself it is looking forward with a marked degree of apprehension. One thing is certain—the date will be deferred just as long as possible for the industry is frankly afraid to see Parliament in the absence of Sir Robert Borden and with Sir Thomas White, acting prime minister, and four or five other ministers waiting to act. At the present time Sir Robert's return is a question of uncertainty. There is no certainty in the first place, that he will secure a position at the peace table, and a desperate attempt is being made by the Government press to work up a clamor throughout the Dominion for the desired position.

DISORDERS IN BERLIN CAUSED BY BOLSHIEVIKI

Considerable Firing in Streets of the German Capital.

London, Dec. 6.—Serious disorders have arisen in Berlin and considerable firing has occurred in the principal streets, according to reports reaching the Dutch-German frontier, says an Exchange Telegraph dispatch from Amsterdam. The trouble is said to have been caused by the German Bolsheviki.

ONE-ELEVENTH OF CANADA'S EXPORTS WENT TO FRANCE

Great Britain and U. S. Are Only Better Customers of Dominion.

Montreal, Dec. 6.—Approximately one-eleventh of Canada's exports in the twelve months ended October 31 went to France, according to a summary of trade returns issued today.

Next to Great Britain and the United States, France stands at the present time as the best customer of Canadian goods. The possibility of holding this trade will depend for the time being on Canada's willingness to establish credits for France here, until financial and commercial affairs are fully back on a peace basis. Normally, France is a producer of many commodities, for which there is a good market in Canada. But France's ability to supply these commodities in the war period has been dwindled, and relatively speaking, her power to prosecute the war, as a result, Canadian imports from France have become of huge proportions.

Lloyd George, in Re-statement of His Policy, Promises That Entire Influence of British Government Will Be Used To Bring To Justice Those Who Were Responsible For Causing War—Enemy Aliens To Be Expelled.

London, Dec. 5.—In the detailed re-statement of his policy issued by Premier Lloyd George today calling for the trial and punishment of the men responsible for the war, however high their places, he pledged the entire influence of the British Government at the peace conference to see that justice was done. In declaring for the exclusion of all enemy aliens from British soil, the premier pointed out that a considerable proportion of the residents in the United Kingdom during the war had abused British hospitality, and thus had forfeited their right to remain. In his statement the premier, after paying a warm tribute to the soldiers and sailors of the empire, said: "The Kaiser must be punished. The war was a crime. Who doubts that? It was a frightful, terrible crime. It was a crime in the way in which it was planned, and in the deliberate wantonness with which it was perpetrated. It was also a crime in the invasion of a helpless little state, and in the wicked and most brutal treatment of the helpless people of that state. Remember the treaty of neutrality, the scrap of paper! "Surely, the war was a crime. The fact that all these iniquitous things were done in the name of war and that the name of war was used, does not change their nature. The war was a hideous, abominable crime, a crime which has cost millions of the best young men of Europe to death and mutilation, and has plunged myriads of homes into desolation. "Is not a responsible? Is not to be called to account? Is there to be no punishment? Surely, that is neither God's justice nor man's. The men responsible for this outrage on the human race must not be left to cause their heads were crowned when they perpetrated the crime. "The British Government referred the question of the criminal culpability of the Kaiser and his accomplices to their law officers and his accomplices. They invited a body of jurists in England to investigate the matter, and they have unanimously reached the conclusion that the Kaiser and his accomplices are guilty of this war. The British Government will use its whole influence at the peace conference to see that justice is executed. "After four or five years it is impossible to entertain in our midst a population

CONFIDENCE NEEDED TO INSURE SUCCESS, SAYS LLOYD GEORGE.

London, Dec. 6.—(Canadian Press via Reuters) In a re-statement of his coalition government's program for increasing the industrial output, Lloyd George says, "There is one condition for the success of all efforts to increase the output of our country, namely, confidence. Bolshevism is the poison of confidence. Russia proves that. Russia will not begin the building up of a productive system until Bolshevism has worked itself out."

RUSSIAN RED GUARDS CONTINUE TO SLAUGHTER POPULATION OF PETROGRAD; THOUSANDS STARVE

Fugitives From Stricken City State That Conditions There Are Beyond Imagination—Only 500,000 Left Out of Normal Population of 2,000,000.

Stockholm, Thursday, Dec. 5.—(By the Associated Press).—Fugitives from Russia who have reached here say that life in Petrograd is terrible. The houses there, they say, defy the imagination. Flour is selling for 50 rubles and butter and sugar for 150 rubles per kilogram (2.2 pounds). Herring is the only food obtainable and sell for 5 rubles each. All middle-class elements are excluded from public eating houses and are dying of starvation by thousands. Hundreds are buried each day between 5 and 9 o'clock in the morning, no funerals being permitted later during the day.

KEEP CLOSE WATCH FOR RECURRENCE OF INFLUENZA EPIDEMIC

Board of Health Decides This Is Advisable.

"Flu," certified milk and co-ordination of the various nurses of the city were among the subjects discussed at a special meeting of the board of health last night. Several citizens were present and took part in the discussions. Dr. W. S. Downham stated that some doctors have reported an increase in influenza recently. Victoria Hospital is not yet taxed to its capacity. Mrs. J. B. McKillop thought it would be nearly impossible for London to escape a recurrence of the epidemic. The question was asked if there was any way to have the doctors report the number of cases. Dr. Downham replied that the provincial authorities could order this done, but had not. Mayor C. R. Somerville thought that if the epidemic had not kept the doctors so busy they would have been obliged to report. Dr. Downham deplored the fact that "everything is so indefinite—there is nothing to work on." "If the disease spreads too much we can place the ban on public gatherings again, I am not sure how much good this will do," he said. Mrs. McKillop suggested that the street cars are becoming too crowded again. Dr. Downham thought the city was making every effort to ventilate the cars. Mayor Somerville jokingly intimated that his self-respecting germ would travel in these cars. H. M. Douglas made a motion, which was adopted, that Dr. Downham, M. O. H. warn the citizens through the newspapers to take every precaution. Dr. W. J. Lindsay suggested the closing of the dance halls. E. H. Russell thought this would look too much like discrimination. He did not think there was anything to worry about. Dr. Downham reported that all the available nurses are engaged, but not many calls are coming in. Mayor Somerville suggested warning the citizens and maintaining a careful tab on developments. Chairman Russell agreed, adding that meetings could be held daily if the situation becomes serious. Dr. W. J. Lindsay suggested the situation was too serious for the board to sit down without doing all in its power. Dr. Partridge also intimated that something should be done in the matter requested from the school principals. This the board agreed to secure. The question of co-ordination of all nurses of the city under the board of health was discussed. It was suggested

that a central office in the city hall should be opened. Miss J. Fuller presented a plan for the co-ordination of the various bodies. Dr. Downham thought that a larger staff would be necessary. Miss B. Friend, public health nurse, thought the city could be divided into four districts with one nurse for each district. On motion of E. H. Johnson, Mayor C. R. Somerville and Chairman E. H. Russell will interview the board of education, London Health Association and Child Welfare Association and Child Welfare Association, with a view to having their nurses co-operate with Miss Friend under the board of health. Separate School Nurse.

Mr. Johnson also suggested that the separate school board be communicated with to see if it will provide a nurse. If the co-ordination can be arranged, an office for Miss Friend will be found in the city hall. Dr. C. S. Tamin submitted a report of inspection of herbs and dairies. Out of 75 samples of milk, only one tested better than the required percentage of 3.25. He thought that where milk was dirty it was due partly to lack of help and partly to carelessness. Dairymen are born, not made," he intimated. Dr. Tamin thought bottles should not be used at all, except where milk was available. He should have certified milk in London, said the mayor. Mayor Somerville thought it would be too expensive. Dr. Downham thought that there was not enough demand for it when it was available in London. Dr. Tamin was sure the citizens would purchase it if it could be secured. He intimated that he had a man in view who would undertake to furnish the milk. No definite action was taken.

DEATHS AND FUNERALS

DEATH OF BOY.

"Y" CAMPAIGN TOTALS \$20,576 FOR 3 DAYS; EXPECT MORE TODAY

Women's Work Has Been Feature of Canvass.

Last night's report at the Y.M.C.A. showed that the teams of that institution plus the women's teams from the three-day's campaign for funds. It had been hoped that the objective of \$30,000 would be reached, and the teams will continue the campaign today for funds. W. E. Fendall, president of the "Y," stated that the outstanding feature of the campaign had been the wonderful work of the women. Mrs. Frank White spoke on behalf of the Y.M.C.A. She thanked the men for the courtesy shown to the women. Major C. M. R. Graham, who has recently returned from overseas, addressed the gathering of teams, speaking on the war. He stated that in all the pushes and had done much to be the force, morale of the men. The Y.M.C.A. had done invaluable work which could only be appreciated in full by the men who had been in the thick of the fray. Major Graham quoted several instances in which the "Y" had been of direct benefit to the troops under his command. Subscriptions over \$100 follow: Large Supermarket, C. S. Hyman, M. Reid, \$400; E. EXCELLENT MUSICAL PROGRAM GIVEN AT EMPRESS AV. CHURCH

Organ Recital Under Direction of Conservatory.

A goodly number were present at the Empress Avenue Methodist Church last evening to enjoy the excellent musical program put on under the auspices of the church choir, under the direction of Florence Dewey, the young organist of the church, a pupil of F. L. Willgoose, the organist. She was assisted by Mrs. Cutchson, soprano, and Frank McGoose, Arthur Rossiter, baritone, of Toronto, and the choir of the church. The Empress Avenue Church is in a more or less outlying district of the city, and it was good to see so many young and old congregating upon your 300 and congratulating you upon just evening. Ruskin says that art will flourish after periods of war, and it is just such opportunities of hearing good music that will go a long way toward

the discovery of musicians in the community. Beautiful Tones. Mrs. Westland was heard in two numbers, "The Lord Is My Light" (Allison), and "Father, Thy Rest Is Sweet." Her voice is very sweet, with almost bell-like tones, and flows freely at the will of the singer. The last number is a composition of F. L. Willgoose. Arthur Rossiter was in good voice, and gave the most pleasing rendition of Carey's "Nearer, My God, to Thee." "Open the Gates of the Temple" (Knapp) was the first number on the program sung by Frank McCutcheon, who showed up in good form, his enunciation being especially good. F. L. Willgoose acted as accompanist.

Miss Dewey opened her part of the program with a Bach prelude and fugue in D minor, at once declaring her mastery of the organ. The dainty "Evening Song," by Bainton, followed. Her closing number was Stainer's "Jubilate," played with skill and feeling. Miss Dewey has the true musician's sense, and has great possibilities as a choir leader. The two choir numbers, "O Canada" and "Where the Flag of Britain Flies," both patriotic in character, were placed at the beginning and end of the program.

BURIED AT FOREST.
 FOREST, Dec. 5.—The funeral of the late James Huron Brand, Lake road, took place yesterday afternoon from his late residence to Beechwood Cemetery. Mr. Brand died early on Monday morning from pneumonia following influenza. He had been ill only ten days. He was born 31 years ago on the farm where he died, and had always resided there. He was married in July, 1915, to Miss Julia Watson of Forest, who survives him with three little children, the youngest not three months old. His mother, Mrs. John Brand, and two brothers and one sister also survive—Capt. Wm. Brand of Woolwich, England, Frank of Swift Current, Sask., and Mrs. Arthur Catt of Warwick. The funeral service was conducted by Rev. S. W. Muxworthy, the bearers being Thomas Brand, George Buchanan, R. Skinner, John Vivian, V. Wellington, Gordon Vance.

REV. T. W. NEAL'S OFFICE.
 TORONTO, Dec. 5.—Rev. T. W. Neal, pastor of Broadway Methodist Tabernacle, was released from the Toronto at a special meeting of the quarterly board tonight, to take effect July 1 next, to become secretary of the Methodist Union of Toronto, in succession to Rev. Wesley Dean, who becomes head of the finance department of the Methodist General Conference.

INGERSOLL LANDS TWO NEW PLANTS IN BIG ONE-DAY DRIVE
 Everybody Out Hustling and Pleased With Results.
 INGERSOLL, Dec. 5.—Sitting action to the thought that more smokestacks and a greater population are desired here, this has been a day of exceptional activity, and it is generally admitted, big results, for the army of workers who have rallied under the industry expansion banner. Citizens as a whole are gleeful, as they believe they are practically certain of obtaining two important industries, while it is mentioned that a third is no remote possibility. The facts disclosed have centered interest on a file works, known at present as the Fort Hope File Company, but which, it is expected, will soon be known as the Ingersoll File Works.

Made Great Strides.
 Working on the details formulated at the big public meeting last night, great strides were made today. The representatives of the file company, who have been here, were highly encouraged with the town's enthusiasm. Many canvassers were at work today and pledged support of practically a sufficient number of ratifiers to guarantee the passage of the by-law. The church services next Sunday, and the opinion is divided among the local clergy of various denominations as to whether the ban on church services should be continued.

R. C. CHURCHES ARE WARNED BY M.O.H. OF HAMILTON CITY
 Will Invoke Law if Services Are Held on Sunday.
 HAMILTON, Dec. 5.—It has been intimated that some of the Roman Catholic clergymen who conducted services last Sunday in defiance of the ban imposed by Dr. Roberts, the medical officer of health, intend to conduct church services next Sunday, and the M. O. H. says he will attempt to do so. He will invoke the law to prevent the clergy of various denominations as to whether the ban on church services should be continued.

CANADIAN GOVERNMENT TO OPERATE FLEET OF AT LEAST FIVE STEAMSHIPS
 HALIFAX, Dec. 5.—D. B. Hanna and the directors of the Canadian Northern Railway left for John at 11 o'clock tonight after spending the day in looking over the terminals and after meeting the board of trade.
 The Government's steamship program, Mr. Hanna said, was eventually the operating of at least five ships, which will be put on as fast as they are completed.

CUT THIS OUT
 OLD ENGLISH RECIPE FOR CATARRH, CATARRHAL DEAFNESS AND HEAD NOISES.
 If you know of someone who is troubled with Catarrhal Deafness, head noises or ordinary catarrh, cut out this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. In England scientists for a long time past have recognized that catarrh is a constitutional disease and necessarily requires constitutional treatment.

Sprays, inhalers and nose douches are liable to irritate the delicate air passages and force the disease into the middle ear which frequently means total deafness, or else the disease may be driven down the air passages towards the lungs which is equally as dangerous. The following formula which is used extensively in the damp English climate is a constitutional treatment and should prove especially efficacious to sufferers here who live under more favorable climate conditions.
 Secure from your druggist 1 ounce of Parmitin (Double strength). Take this home and add to it 1/2 pint of hot water and a little granulated sugar, stir until dissolved. Take one tablespoonful four times a day. This will often bring quick relief from distressing head noises. Closed nostrils should open, breathing becomes free and hearing improves as the inflammation in the eustachian tubes is reduced. Parmitin used in this way acts directly upon the blood and mucous surfaces of the system and has a tonic action that helps to obtain the desired results. The preparation is easy to make, costs little and is pleasant to take. Every person who has catarrh or head noises or is hard of hearing should give this treatment a trial.—Adv.

AutoStop SAFETY RAZOR

Solving the Nation's Shoe Problem
 A LARGE section of the Canadian public depends upon this company for shoes. Our financial resources and buying power are greater by far than those of any other Canadian manufacturer of shoes; our volume of output is more than twice that of any other. Our sales organization covers the nation from coast to coast, not merely a small section at a time.
 Our six branches maintain adequate stocks within the reach of every dealer in Canada, and are now serving more than 5,000 dealers, enabling them to fill orders quickly and to cut down the amount of idle stock on their shelves.
 We are making every effort to use this power to help solve the big problem of providing enough good quality shoes to go around. In the face of an actual scarcity of leather, it is difficult; but it can be done if you will co-operate with us. Buy wisely, for service rather than merely for style, and see that the shoes you buy are stamped with the manufacturer's trade-mark.

Split Allies at Peace Table
Germany's Last Hope
 Germany's well-known cleverness has worked out a grand plan that causes her to look forward to the future with confidence. She hopes to achieve at the peace conference what four years of the sword have not been able to get for her. Secrecy being essential, the whole scheme with typical Teuton fineness is loudly trumpeted through the German press and proclaimed from the rostrum, so that if we are not warned at least it is not their fault. It seems as usual that Germany is staking her all on one throw of the dice, and this time the little game is to cause dissension among the Allies at the peace table, and particularly between America and Britain.
 In THE LITERARY DIGEST this week—December 7—there is a very striking article consisting of translations from the German press, showing how Germany hopes to gain big advantages when America and the Entente "start to squabble among themselves."
 Among other articles of timely interest in this number of The Digest are:

 Your Best Way to Follow the Work of the Peace Conference
 The eyes and hopes of the entire world are today centered upon Paris, whither the delegates of the various nations are journeying to the peace conference which is to remold Europe and decide, perhaps for centuries to come, the destinies of our planet. The news that comes forth to the waiting millions from the historic halls of Versailles will be in many ways the most important ever published in its far-reaching effect upon humanity at large. This news will be reported fully and impartially from week to week by THE LITERARY DIGEST, with the views of noted authorities of all shades of opinion, so that the readers of the world's greatest news-weekly may have the best possible opportunity of forming accurate judgments as to the decisions handed down. If you wish to keep in intimate touch with these great events read The Digest.

Simple and Effective Ways to Relieve an Earache

By DR. LEONARD KEENE HIRSHBERG, A. B., M. A., M. D. (Johns Hopkins University.)

DR. HIRSHBERG

Children often suffer from earache because of obstruction in that part of the ear called the eustachian tube. Though if the attack is ordinarily not of long duration, it is nevertheless painful. A bit of moist heat applied to the throat and the ear should usually give relief. Steam the throat and sip or gargle with hot water. Also drop hot water into the external auditory canal. The action of the hot water will relieve this disturbance so frequent during teething, and when adenoid growths are present.

The careless use of a nasal spray or douche are apt, easily to be responsible. If the child suffers with a very severe earache, it may be an early and very important symptom in connection with the ear. Fever may also be present in addition to the pain, though this need not necessarily be so. There may be in addition to the pain, a feeling of fullness in the ear, with deafness. The drumhead may be dulled, reddened or bulging. If in a sharp earache, the symptoms are not unduly severe the child may receive ordinary treatment for a few hours. Hot applications to the ear and throat will probably prove sufficient. The application of leeches will frequently relieve acute pain. If, however, the condition does not yield readily to such simple methods, a doctor should be consulted, for the drum membrane will most likely have to be cut.

Irrigating the Ear.
If earache or irritation is due to the presence of foreign bodies in the external auditory canal, it is usually removed by a syringe.

When the syringe is used on the ear it must not be employed with undue force. A syringe should be used which has a blunt, slender, conical nozzle so that when it is introduced it does not plug up the orifice of the canal and impede the free return flow of the solution. The irrigating apparatus should

always be sterilized before being used. The solutions are generally the ordinary saline, a saturated solution of boric acid, which should be injected at a temperature of 100 degrees Fahrenheit.

Answers to Health Questions

MRS. R. D. E.: Q.—Please tell me what will make the eyelashes grow. A.—Massage a little white vaseline into the eyelashes each night.

V. W.: Q.—Please give me something for corns. A.—After the feet have been soaked well in soap and hot water each night put on a few drops of the following: Sodium bicarbonate . . . 15 grains Salicylic acid . . . 1 dram Extract cannabis indica . . . 5 grains Colloidal 1 ounce

A READER: Q.—Please advise what to do for a catarrh. A.—Often examination of the nose throat by a nose and throat surgeon will reveal deflected bones, tumorous

growths, adenoids, infected tonsils and other things which a slight operation will correct.

MRS. E. E. C.: A.—If you will send a stamped, self-addressed envelope with your query repeated, we will be glad to answer your questions.

A. J. R.: Q.—Please advise me what to do for a cough. A.—Punishment, medicines or operations do no good. Patience, persistence, close attention to the child twice during the night and education of will power will help. Reward the child for control, and praise the little one when successful. This will effect a cure in a short time.

SUBSCRIBER: Q.—Please give me something for dry eczema. A.—Apply a little of the following to the affected parts: Salicylic acid 15 grains Balsam peru 1 dram Phenol 15 drops Sulphur 1 dram Petroleum 1 ounce Wool fat 1-3 ounce

MY SOLDIER HUSBAND

ADELE GARRISON'S CONTINUATION OF REVELATIONS OF A WIFE

How Madge Told Dicky the Truth She Had Withheld About Grace Draper and Harry Underwood.

Dicky did not refer to the question of Harry Underwood, so inopportunely brought up by Dr. Pettit, until hours after his homecoming. I was glad of the respite, for it wasn't a story which could be told fairly without some thought given to its preparation. We had finished dinner and had escorted my father back to the house he was soon to exchange for Dicky's room, and Dicky had given his mother the little visit which was always her prerogative before he and I settled down for a talk before the open fire in my room, with "Richard Second," slumbering peacefully in the alcove adjoining. Dicky opened the subject characteristically: "By the way, Madge, what was His Fussiness trying to get off this morning when you side-tracked him so neatly? You said you'd tell me about it, remember?" I gave his description of Dr. Pettit the tribute of an involuntary grin before I answered. "Of course, I'll tell you," I said, "but it goes back a long way, involves a good many things. Are you sure it won't bore you?" "Oh, of course, the more to death!" he responded smilingly. "But I'll try to bear up. So go ahead."

He didn't smile again, however. Indeed, his face grew exceedingly grave as I related the story of Grace Draper's villainy. Harry Underwood's connection with her plot, and the means taken by Lillian to thwart her, in which Katherine Sonnot and I had helped. "So you were in the service, and old LI one of the queen pins of the game!" he commented once. "What was the reason I was kept in ignorance—afraid I'd snitch?" "What Dicky said. I had to think quickly, for it would never do to let my husband suspect that it was indeed a fear of his garrulousness, especially with Grace Draper hovering like a stormy petrel in the vicinity, which had made Lillian forbid my telling him at that time. Indeed, it had been only since Dicky's accident that she had given me permission to tell him as much as I chose if he should ever ask anything about that experience of mine. "What nonsense, Dicky! I said vehemently, then added slyly: "You were so wonderfully communicative concerning your own affairs at that time, you remember?" His face cleared, and he laughed aloud, while I breathed more freely. My reference to his secrecy about his sojourn in the aviation training camps had been a lucky one. He evidently accepted my secrecy as a matter to his own, and dismissed that phase of my story. He was genuinely shocked, too, to hear of the manner of William Trumbull's death. We had only told him that the old fellow was gone, without entering into details. "Poor old Bill!" he said with emotion, and then with a sudden thought. "But that heliot of an Alie didn't get near you, did she?" I prevaricated again. "No, thanks to William, she didn't. And she swallowed poison as soon as she saw the game was up."

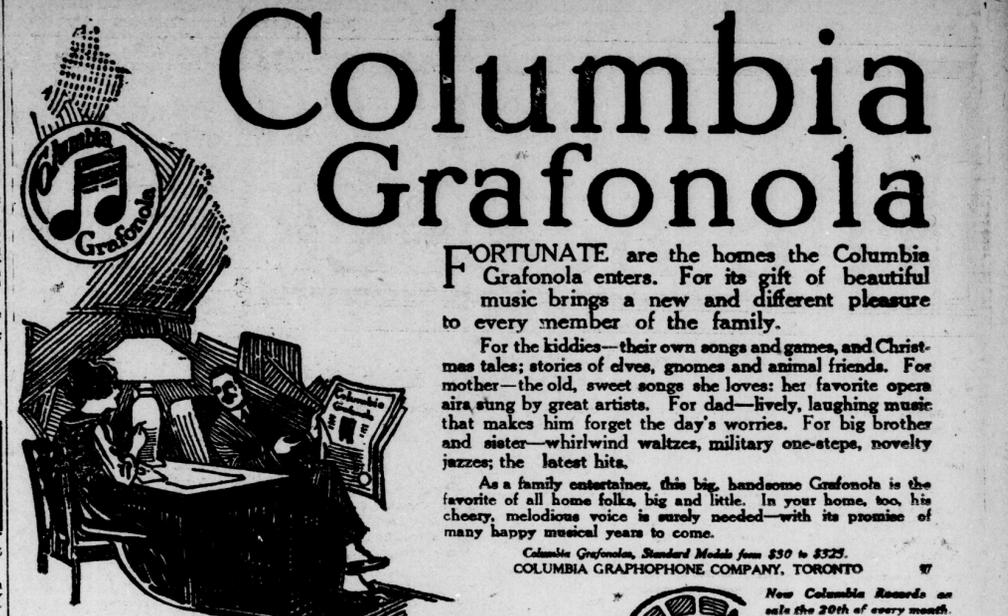

"Best thing she ever did in her life," commented Dicky grimly. "I shall feel a lot easier about you to know that she's gone, instead of being in a sanatorium, as I thought. And it's a good thing Grace Draper is where she can't do any more harm. Has she gone to prison yet?" "Dicky's Surmise. "I don't think so. I think they've been waiting her trial to see if she couldn't be induced to give up some of the people associated with her." "They'd better send her up," Dicky said, "for she'll never spit on her pals. She's a devil, but there's a streak of yellow in her." I flared at the note of admiration which I imagined foolishly enough was in his voice. "If nothing to cut your airplane and send you to the States, I'd like to know I don't know what was!" I said hotly. "Did they have proof of that?" he answered quietly, ignoring my protest altogether. "For if they did, it won't be a question of prison for little Grace, but a stone wall."

SHE SUFFERED FIVE YEARS

Finally Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Key West, Fla.—"For five years I suffered from irregularities, with terrible pains and an awful weakness in my back. The doctor gave me different medicines but they did me no good. A friend asked me to try Lydia E. Pinkham's Vegetable Compound, and I found it to be the best medicine I ever tried because it made me well, and I can now do my household work. I am telling my friends about it."—Mrs. J. M. CAMUS, 728 Caroline St., Key West, Florida.

Many women at some period in their life are afflicted with ailments of this sex and which in most cases may be readily relieved by this famous root and herb medicine, Lydia E. Pinkham's Vegetable Compound, just as Mrs. Camus found it helped her after suffering for years and trying everything else in vain. If you have any annoying symptoms you fail to understand, write Lydia E. Pinkham Medicine Co., Lynn, Mass. The results of their 40 years experience in advising women on this subject is at your service.

Modern Efficiency Says: Wear Rubbers and Keep Fit

Get them NOW—so you'll be ready for bad weather.

A sick man, or a sick woman, slows up the whole machinery of business. If a man, his work is neglected. If a woman, her household is disarranged and the bread-winner of the family made less efficient by worry. If a child, the progress in school is retarded—sometimes the whole school year lost—because of some serious illness which might have been prevented had Rubbers been worn.

Let's all stay well this winter, by wearing rubbers. Let's avoid the epidemics of colds, sore throats, grippe, pneumonia that upset business and homes in previous years.

The cost of rubbers is so reasonable compared with other needs, that you can well afford to buy more than one pair.

"THE BETTER 'OLE," FEATURING OLD BILL, BERT AND ALF, AT THE MAJESTIC ALL NEXT WEEK

Capt. Bairnsfather's Wonderful Story of a Soldier's Life Depicted in Realistic Style in the Most Popular Photoplay of the Age—Continuous Performances, 2:30 to 5, 5 to 7, 7 to 9, 9 to 11 o'clock.

The screen picture, "The Better 'Ole," is a succession of stinging emotions, which exhibitors call "punch," with alternative flashes of humor and humanity connected by the wittiest sub-titles ever seen on the screen. One or another is constantly before the eyes. A tear can hardly start to trickle down the cheek before it is checked by laughter which dries it up. The prologue, which outlines in a succession of striking scenes what we were fighting for, will do more to bring it home to all than thousands of speeches. There are times when the acting is so expressive that the motionless attitude of the players brings tears to the eyes; there are scenes so tremendously powerful that one forgets that one is looking at a picture. It is the first effort of Welsh Pearson & Co. It is not the first picture

wholly characteristic rough paths. The acting is good, and the film has been planned with uncommon intelligence. It is a production that one would like to have presented to the average German soldier. He would probably consider Bairnsfather's presentation of a fighting man rank blasphemy. For a more humble idea of the warrior was never put forward than Bairnsfather's. Here is no Slegfried, forging heroically the chains of national destiny; "Old Bill" does not strike an attitude of self-glorification and flash his bayonet in proclamation of the high god of battles. On the contrary, he calls the war a "blinking" he practically adjusts the counter-foe sent to him by some kind lady from some, and (crowning his speech) uses his bayonet as a toasting fork. Yet this is the war we have chosen to have our national heroes revivified, as a simple toothache. It all goes to make conception of British "militarism" worth handing down to the posterity that will settle the question as to which was the people that first rattled the sword for the fun of the thing. It is good to be able to place a Bairnsfather against, for instance, Lisauer and his "Hymn of Hate."

**SMALL NATIONS STUDY
THE REORGANIZATION
OF CENTRAL EUROPE**
Peace Can Be Maintained Only by a Mutual Understanding.

Parla, Dec. 5.—Representatives of the Polish, Jugo-Slavia, Rumanian and Cascho-Slovak national councils are in session here to study the reorganization of Central Europe. Statements issued declare that only through a permanent understanding between these four nations can future peace be maintained.

Scene from "The Better 'Ole," the most popular photoplay of the day, based upon Captain Bruce Bairnsfather's story of a soldier's life. The three main characters are Old Bill, Bert and Alf. This play will be shown at the Majestic Theatre all next week. Continuous performances as follows: 2:30 to 5:00 o'clock; 5:00 to 7:00 o'clock; 7:00 to 9:00 o'clock; 9:00 to 11:00 o'clock.
"The Better 'Ole" is a different story of the great war—there are no thrilling battle scenes, no hand-to-hand fighting, no artillery firing—you see the daily routine life of the lads who fought so gallantly for victory.
The secret of the story's wonderful fascination is its close and true analysis of the spirit which animates the men in the trenches. That spirit of fun which keeps them cheerful under conditions almost indescribable.
NOON-DAY MEETING.—At an industrial meeting held in the uptown factory of the McClary Manufacturing Company, Rev. Professor T. G. A. Wright delivered a strong gospel message. There were also two solos, one by Miss Myrtle Robinson and the other by Miss Woolley. Sergt. Gordon Scott was the pianist. These noon-day meetings are held weekly at four different shops in the

city, and are conducted by the Y. M. C. A. Although the meeting in McClary's was conducted by the "Y," it was under the auspices of the McClary Welfare Association.

SET CANADA'S WHEAT PRICE AT VERSAILLES

Ottawa Hesitates To Follow Latest U. S. Move.

"LET GEORGE DO IT"

Talks of Seeing Wheat Drop to \$1.50 and Fears Big Losses.

REGINA, Sask., Dec. 5.—(Canadian Press Dispatch.)—Hon. George Langley stated today he was strongly of the opinion that the price of wheat for the Canadian crop of 1919 should be fixed at the American level of \$2.20 to avoid the discontent that would follow in Canada if this action was not taken.

OTTAWA'S EXCUSE. Ottawa, Dec. 5.—An official statement issued tonight denies that the Government has been negligent in not fixing the price of wheat for 1919; explains that the question has been under consideration, but that it has been surrounded by difficulties which have been complicated by fixing of the price in the United States, and points out that should the Canadian Government do likewise and the price of wheat in the open market fall to \$1.50 a bushel, the Government would lose perhaps \$200,000,000.

More Junket Trips. Prices under regulation for war purposes, it is emphasized, and prices in competition in time of peace present entirely different considerations. In the circumstances the Government came to the conclusion that the regulations for the flow and price of wheat for immediate purposes of Europe, if attempted at all, should be undertaken by the Allies at the peace conference. In order that the interests of the middle west, being the more particularly affected, should not be overlooked, two representatives named by the farmers and grain dealers themselves, are to be appointed to proceed overseas with a view to taking the matter up with the prime minister and the British authorities and Allies.

ALBERT SPALDING America's greatest violinist, proving by direct comparison that there is no difference between his playing and the New Edison's "Re-creation" of it.

It is almost unbelievable—the marvel of the New Edison

I was upstairs reading when the beautiful tones of a violin drifted up to me. Tone!—tone!—this indeed was masterful tone. Full! warm! vibrant! rich with color and life! It was not the stifled, tinny tone, commonly associated with phonograph music. It was tone to which one's whole being could pleasurably respond.

I came down expecting to meet a talented musician. Instead I found the New Edison phonograph the young people had just purchased.

There came back to me all I had read of this invention of Edison's: about the Edison Tone Test, where the living artist sings or plays in direct comparison with his or her performance on the New Edison; of the confessions of several hundred musical critics who had heard these tests; of the fact that none of these nor the two million others who also had heard these tests could distinguish the slightest shade of difference between the living artist's voice and the New Edison's "Re-Creation" of it.

I knew now that all was entirely the truth. Face to face with the wonder of this great invention I had the feeling of having missed a great deal by not believing and not hearing long before. As we listened it was impossible not to feel the living artist was actually present in our home. This, indeed, is Music! Nothing less could permanently satisfy.

Let yourself listen to the wonder of the New Edison—the favorite invention of the world's greatest inventor. It is the only instrument that "Re-Creates" Music. With it there are no needles to change. Can play all makes of records. Easy terms arranged if you wish.

**SAYS GERMANS

Chairman of British Sailors' Union Speaks.

TORONTO, Dec. 5.—Peter Wright, chairman of the Sailors' and Firemen's Union of Great Britain, delivered a stirring address before the Empire Club here today, and he was repeatedly cheered by a large gathering of citizens.

"I have dined with the Kaiser," he said, "and I tell you I never came in contact with a peasant that had such a dirty, deceitful face. He had minutely written all over his dirty face. I have seen the text-book of the German schools, and every little child has been brought up with the idea to conquer Great Britain and to beat her to dust."

"I have been reading the words of an eminent statesman. I refer to Sir Wilfrid Laurier. He stated that the German people were all right; it was only the military classes which were responsible for this war. I relate that statement. I am ready to prove to you that any man who utters that sentiment either utters a deliberate falsehood or is in ignorance."

Wright, told of going to Berlin to wrestle for the international championship of the world, and out of the 20,000 persons there, there were only two persons who were a Britisher. After wrestling for this prize he met the German favorite, and the Hun had tried to win by a foul. He was, however, paid in his own coin.

They Know Only Force.

"The only logic which appeals to their psychology is force and nothing but force," said the speaker. "We are not going to rest until we have got this dirty Kaiser Bill and until the whole dirty kin appear before the bar of an international tribunal and be tried for the guilty murders they have committed."

Mr. Wright told of going to France at the request of Lloyd George to personally investigate the atrocities there. He had gone to Rheims with General Haig and later had visited a village immediately after the Germans had been driven out.

Women Disemboweled.

"I saw native French women lying in the trenches, disemboweled after they had been raped by the Huns," he declared. "I saw them lying there with their right wrists amputated. This was not done by brutal soldiers, but was the work of skilled physicians."

Since the war he had met one of the German labor leaders at Stockholm. It was Herr Schumann. He had said: "Look here, Peter, I want you to understand the whole German nation is in support of the German army until a German peace is dictated."

Wright told of deliberately making the acquaintance of a German spy while in Stockholm, and sleeping in the next room to him. In the morning coffee had been brought in and he had shared his with the German while the latter was asleep. An hour later the German was a corpse.

**ALL DEPARTMENTS
OF WINTER FAIR ARE
CROWDED FOR SPACE**

GUELPH, Dec. 5.—Hens, roosters, sheep, swine, horses and cattle are making themselves heard around the Winter Fair buildings today, and these noises will continue for a whole week or more, or until the big show is closed Thursday night of next week.

The buildings present a busy scene, as the stock is coming in very fast, and is being placed as rapidly as possible. The feature of the day was the arrival of the poultry, and every one of some 7,000 had to be in its coop before midnight. Available space in the poultry department will be occupied this year, and this morning a number of new coops had to be erected to accom-

**TAKE SALTS TO
FLUSH KIDNEYS**

**Eat Less Meat If You Feel
Backache or Have Bladder
Trouble.**

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, also you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive, harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus averting serious kidney and bladder diseases.

THE FIRST ROUND**

Comforting relief from pain
makes Sloan's the
World's Liniment

This famous reliever of rheumatic aches, soreness, stiffness, painful sprains, neuralgic pains, and most other external twinges that humanity suffers from, enjoys its great sales because it practically never fails to bring speedy, comforting relief.

Always ready for use, it takes little time to procure without waiting and produces results. Clean, refreshing, and in Canada. At all drug stores. A large bottle means economy.

moderate the show. It is without doubt the largest poultry show ever seen in Guelph.

Judges Start Work.

The judges are expected to start on their work the first thing tomorrow morning, and to finish up some time on Saturday. Secretary R. W. Wade is in the city from Chicago this morning, where he attended the big international live stock exhibition, and year's show were, simply said: "We are crammed full. There are more entries in every department of the show than

Oak Hall Clothes

**\$18.00 - \$22.00 - \$25.00
\$30.00 - \$35.00**

OAK HALL CLOTHES stand alone, not only for the extreme dresser, but for the man of conservative tastes. The professional man, the workingman and the businessman will appreciate our garments.

The ordinary retail clothier cannot buy at wholesale today for the price we sell you at retail. You don't have to be a mathematician to figure this out. First, we are wholesale manufacturers, style originators, with an outlet of nine successful stores and sixteen commercial representatives, selling thousands of merchants from coast to coast, giving us a buying power of wools so gigantic as to enable us to defy price and value competition.

WONDERFUL OVERCOATS AND SUITS

We could fill pages in describing the variety of garments, the dependable quality of materials, the precision of fit and honest tailoring. Suits and Overcoats, \$18.00, \$22.00, \$25.00, \$30.00, and \$35.00.

Which Cuff Looks The Neater?

YOU can't tell—neither can anyone else, because either side of the new W. G. & R. Double Wear Cuff is the right side.

Our picture shows one cuff turned in—the other turned out.

The old style cuff can be turned, of course, but—"you can tell they are turned"—that's the difference.

The Double Wear Cuff turns easily and quickly and lies smooth and flat whichever side is up.

As the cuff of the shirt always gets soiled first, the new Double Wear Cuff enables you to wear the shirt longer and save laundry bills.

RUPPRECHT ANOTHER WHO WANTED PEACE LONG BEFORE END

Claims He Saw Germany's Finish After "Second Somme."

PARIS, Dec. 5. — Reports received here from Zurich assert that after the second battle of the Somme in 1916, Crown Prince Rupprecht of Bavaria declared himself openly in favor of an immediate peace. The reports say he addressed a memorandum to this effect both to the imperial chancellor and the then Emperor, William.

The Zurich reports say that it is further asserted that Rupprecht manifested violent opposition to Gen. Ludendorff, first quartermaster-general, whom Rupprecht considered to be without any strategic genius whatever. The reports add that Rupprecht and Ludendorff had no relations since the beginning of last summer.

W. O. W. ELECTS OFFICERS.
KNOXDA, Dec. 5. — Cedar Springs Camp, No. 270, Woodmen of the World, elected the following officers for the coming year at their last regular meeting: Consul commander, Frederick Payne, adviser, Roy Sutherland,

banker, C. C. Malers; clerk, E. J. Ford; escort, Robert Ross; watchman, Robt. Malers; sentry, J. H. Smith; managers, Fred Graves, A. C. Smith and Harvey Graves; delegate, Wm. Barber. The installation of officers will take place at the next regular meeting.

ASQUITH'S FEMINE OPPONENT WILL NOT STAND FOR ELECTION

Her Papers Are "Informal" —T. P. O'Connor Is Elected.

LONDON, Dec. 5.—Canadian Press, via Reuters.—Ex-Premier Asquith's feminine opponent, Mrs. Hope, was not placed in nomination yesterday. Mrs. Hope's papers were informal and were rejected.

Horatio Bottomley, editor of John Bull, who yesterday secured his discharge from bankruptcy, was nominated.

Among those elected by acclamation are: T. P. O'Connor, Spencer Leigh Hughes and Kennedy Jones.

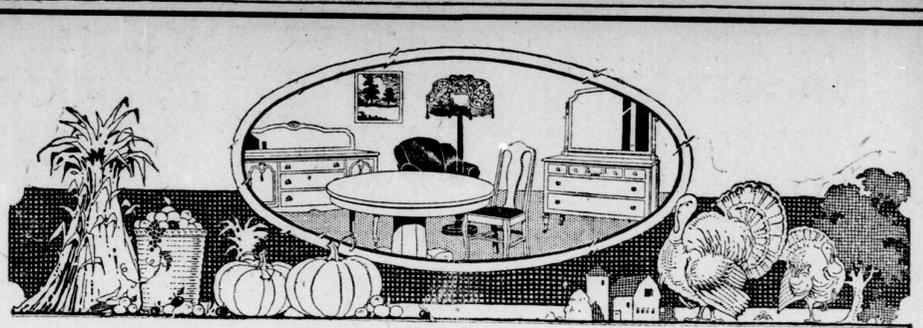

SAT UP IN BED TO GET HER BREATH

Palpitation of the heart, shortness of breath, inability to lie on the left side, feelings as if smothering, oppressed feeling in the chest, dizzy and faint spells, tired, weak, wornout feeling, involuntary twitching of the muscles, sleeplessness, restlessness, etc., all point to the fact that either the heart or nerves, or both, are not what they should be. Any of these conditions should be remedied immediately so as to avoid a complete breakdown of the whole system.

Milburn's Heart and Nerve Pills will bring energy to the weakened constitution, strengthen and regulate the heart, and tone up the tired, overstrained nerves.

Mrs. William Steeves, Chemical Road, N. E., writes: "I have been a great sufferer from nerve troubles and palpitation of the heart, which was so bad I had to sit straight up in bed to get my breath. I could not lie on my left side at all. I tried doctor after doctor, also several different remedies, but got no help from them. My mother insisted on me trying Milburn's Heart and Nerve Pills. By the time I had used one box, I was feeling very much better. I took in all three boxes, and now I am in perfect health and can enjoy a good sound sleep, and can lie on my left side without any trouble."

Milburn's Heart and Nerve Pills are 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Company, Limited, Toronto, Ont.

Gifts of Furniture Bring Joy To Every Member of the Family

THERE is no gift more acceptable, more lasting and more appropriate than furniture, especially this year when all gifts except those for children should be of a practical and useful nature. As families more than ever wish this year to preserve the spirit of love and friendly greetings during this Christmas season, let furniture have a large share in the gifts you select. A wonderful display of choice articles is ready for your inspection and you may choose quality gifts now at a very material saving.

EVERYTHING is in readiness—Christmas merchandise is all here and we can truthfully say that never before have we been able to offer such a wide range of useful as well as inexpensive gifts as this season. There are comfortable chairs or useful smoking stands for the man of the house, toys for the children and an abundance of sewing cabinets, tea wagons, tables, etc., for the mother or sister. Many dainty novelties shown here for the first time make the selection of gifts a pleasant task.

To Make This Christmas A Merrier One---

The Aeolian-Vocalion

THE WONDERFUL NEW MUSICAL INSTRUMENT---THE GREATER PHONOGRAPH

THE Aeolian-Vocalion is the first great musical instrument constructed upon the phonograph principle. It is different—finer and more wonderful than any other instrument of its kind you have ever heard.

If you love vocal music, the astonishingly perfect reproduction by the Vocalion will thrill you like the original voices of the great singers who have given their art to the record-makers. If it is the appealing mellowness of the violin that wins your preference, or the tremendous chorus of a great orchestra, the Vocalion tone, true to the most delicate inflections and qualities of every voice and instrument, will satisfy as no phonograph music heretofore could have.

When you hear the Vocalion you will hear the supreme achievement in tone reproduction; you will appreciate the highly-developed art that the world's greatest music house has been able to employ in mak-

ing a greater phonograph. The artistic richness of this beautiful phonograph will impress upon you that the making of a fine musical instrument is a task for artistic skill and never possible of accomplishment by the mechanic or scientist alone.

And when you have tried the Graduola—when you have played your favorite records, modulating each tone, varying each measure as you choose, with this remarkable expression device—you will realize that this feature alone grants the Vocalion a distinction and a capacity for musical pleasure-giving unequalled by any other instrument of the phonograph type.

Dominating in quality though it is, the Vocalion is not costly, and is purchasable upon the most liberal terms.

Vocalion prices are from \$69 to \$525 (\$150 and up with the Graduola).

AT THE MAJESTIC

ALL NEXT WEEK

Make the Acquaintance of

OLD BILL

And His Old Pals

BERT and ALF

THE THREE FAMOUS MUSKETEERS OF THE GREAT WAR IN

THE

BETTER

'OLE

A screen adaptation of New York's current stage success. By Captain Bruce Bairnsfather.

THE BETTER 'OLE is packing the Allen Theatre, Toronto, in its third week there.

"THE BETTER 'OLE" will do more than raise a laugh, and dim the eyes with tears, at the pathos so piquantly drawn. It will make the people at home understand as never before why the great

war was fought to a bitter finish, and how much is due to the "Berts" and "Alfs" and "Old Bills," who stood as a living wall of protection for the people at home.

If you have a son, sweetheart or husband at the front or returned you must enjoy their life in the trenches with them through this picture.

SCHOOL CHILDREN—Be sure and see this picture. It is running all the time. Come after school. OLD FOLKS—This picture is like the story your returned son would tell of his fun and work in the trenches.

Belgium's King and Queen Entertained by French President—Paris, Dec. 5.—King Albert, Queen Elizabeth and Prince Leopold of Belgium were guests of honor at a banquet given by President Poincare at the Elysée Palace tonight. There were 200 guests present, including members of the French cabinet, allied diplomats and prominent officials. During the dinner the Republican Guards Band serenaded the guests of the occasion. Toasts of the utmost cordiality were exchanged by President Poincare and King Albert, the bonds of friendship forged during the four years of warfare by the two nations being referred to in most eloquent terms by each of the speakers.

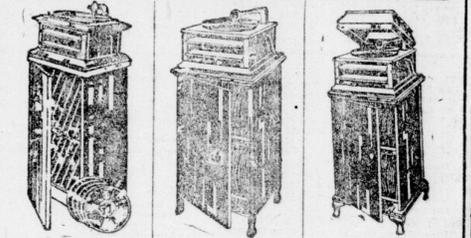

Dorothy Glah, the "Little Disturber," in that greatest of all photoplay productions, "Hearts of the World," showing at the Majesty Theatre again tonight and Saturday.

LEMINGTON DEPUTATION AWAITS ON GOVERNMENT TORONTO, Dec. 5.—A deputation from Lemington in regard to the Montreal-to-Windsor road, appeared at the Parliament Buildings today, and said they would like the road to run from St. Thomas to Blenheim, and then to follow the Middle instead of the Talbot road. Consideration was promised.

AUTO HITS TRAIN AND TWO ARE BADLY HURT BRANTFORD, Dec. 5.—Jessie Wilmot, a young girl, was badly injured and W. H. Godden's delivery motor smashed when it ran into a G. T. R. train at the Market street south crossing. The driver turned to avoid running into a man who had been thrown off his bicycle owing to the slippery condition of the road, and not noticing a passing train, ran directly into it. He escaped with a bruising, but the girl was badly cut.

BRICK & DUNDAS LIMITED 188 DUNDAS STREET.

A Handkerchief Collection. Dear Miss Grey,—I have never written to your circle before, but I enjoy what others have written very much. Your column has one serious fault—that it is not long enough. How many readers agree with me in this? I see so many people asking for things, so may I ask a favor too? I am making a collection of lace-edged, fancy-cornered and silk-trimmed handkerchiefs. May I ask the readers to make it larger for my birthday, December 23? I will write and tell you all how many I have received before February 1, 1919. I have fifteen now. I hope in my next letter I can say more than that. I just love getting a lot of letters on mail days. Every one counts. In return, with every one counts. I'll send a good gingerbread recipe: Half cup butter, one cup granulated sugar, one tablespoon ginger, two eggs well beaten, one cup soda, one cup cold water, three cups flour. Mix in order. What is the meaning of Ethel, also Rogers. I think I'm a Kidd a fine looking young lady. Hoping my collection is enlarged greatly by Christmas. May I call again? Best wishes to all.

BLUB-EYED BETHIE. Ans.—It is not customary in our Mail-Box to ask for things of such value as silk handkerchiefs. However, your letter is printed, and anyone who pleases is free to mail you one. Ethel means "a princess," or nobly born.

Another Card for "Loop." Dear Miss Grey,—Just happened to find it for "Loop." It is not very pleasant looking, is it? However, it may answer the purpose. BLACKIE.

Page of Interest to Women BIG CONVENTION OF U. F. W. IN TORONTO DECEMBER 18-19

Margery Mills Urges Farm Women of Western Ontario To Attend.

And now for our convention—the first one for the U. F. W. O. We are hoping to learn a great deal about aims and means when we meet in Toronto December 18 and 19. By the way, though, we are still nominally but honorary members of the Farmers' Association. The U. F. W. O. executive, however, has given us official recognition inasmuch as we are to have an hour of Wednesday evening's session during which time the president and secretary and one of the members of the standing committee will address the joint meeting.

Plan to come to this meeting if possible. Every card may send a delegate for every 20 paid-up members. The fee for Toronto will be paid. The fee for delegates is still \$1 per year, 50 cents of which must be sent the secretary-treasurer, Miss Emma Griesbach, of Collingwood, Come and bring your cards with you, and do not fail to express them.

I often get completely out of patience with many bright women of my acquaintance, when I sit down and talk with them. They are brimful of fine, helpful suggestions, but get them into meeting and the proverbial oyster does not exceed them in dumberness. They are afraid to speak up, distrust their really good ability, and leave the work to be done, very often, by other women who really are less clever, but who believe in themselves.

"Our doubts are traitors And make us lose the good we oft might win By fearing to attempt."

You will find at the convention a group of farm women, like yourselves, anxious to get a grasp of the situation which intelligently face it and do their best. Tell me what I can say to the average farm woman, great and small, that she is so capable in what she has hitherto regarded as her sphere, she will be a sphere which is hers for the entering in the big world of which her home is a part.

Must Have Wider Vision. So here we are repeating again, that we need, we must have, wider vision of our own abilities, of the relationship which we bear to the world, of the nation as a whole, and of the response of our own to the opportunities which invite and challenge us to embrace them.

A great eye specialist prescribes the "far-away look" to rest the tired eyes. Those of us who have tried the prescription know its value. And to our tired lives this outlook into the greater world beyond is such a rest.

Too Many Marthas. There are a few Marthas and too many Marthas among us. Now, Marthas are not to be despised, but they are often occupied with trivial "duties," which they do not really care to do. Mary grasped what opportunity which doubt that Mary shouldered her full share of responsibility at the proper time.

We have acted as if we are of no account plenty long enough. We do not form a peasant class. But if we have not been so short-sighted or blind as to act as though we considered ourselves such, the danger of our being forced into real peasantry would not exist as it certainly does now.

Arousing National Attention. We are organized and organizing in sufficient numbers, and wisely enough, to arouse national attention to our movement. That is one of our aims.

We women must organize also and throw the whole weight of our influence into this magnificent struggle toward national recognition of our great class, free and untrammeled franchise, free speech, abolition of graft, and through these real leading progress for our beloved country.

Loyal and true, we have been and should be, to the great principles which our flag stands for, and to those enemies who have dared to seek to undermine our liberties while they have been shouting loyalty the loudest.

MARGERY MILLS. Fine Hill Farm.

Daily Bible Question Club

UNIFORM LESSON FOR SUNDAY, DEC. 8. ONE GOLDEN TEXT SUGGESTION. By Rev. T. S. Linscott, D. D., Joseph M. Fuller of Egypt.—Gen. 41: 33-44.

QUESTIONS FOR TODAY. 12. Verse 40.—Would you buy, or not, from this occurrence that, in any nation governed by righteous laws, that God always provides the right man, at the right time, to meet any great national emergency? Give your reasons.

14. To what extent may any man at the head of a nation entrusted with power for direction in grave emergencies, as well as at other times? 15. Verse 41.—Joseph suggested that there should be "a man discreet and wise" placed over the land, (verse 23) if seemed good in the eyes of Pharaoh's servants, but when Pharaoh appoints Joseph, why do you suppose there is no recorded information on the part of Pharaoh's servants? Golden Text.—That is faithful in a very little is faithful also in much. Luke 16: 10.

MUCH TO BE FAITHFUL OVER. When children are taught and compelled to be cleanly, to observe the rules of health, to eat properly, to play fairly, to obey their parents, to attend school regularly, to study faithfully, and to teach their responsibility to God, they are being trained to be faithful over a little to be faithful over a much. If we take care of ourselves; if we care for the pennies the dollars follow as a result. The affairs of this world gravitate to the care of those who are faithful.

MR. BEAR ARRIVES. Beaver was wide awake. Those two put the stones on the top of the Beaver house. Tim and Fred Beaver swam down to the bottom of the lake. The Beaver house (you know, it was wet, for the honey they had brought tied up in a big plastic bag so that it would not get wet.

This honey they had tied with a stout grapevine to the ventilator in the roof of the Beaver's house. Now all was ready for the grand visit of Mr. Bear, and it was daytime—the very time when Beaver and his children were wandering home from a hunting trip, when he smelt that heavenly smell of honey and honey—honey—honey. He liked so well to eat.

All the old Beavers had just settled for a good sleep, but Tom and Jerry were crying and fussing and shouting at the ventilator and he couldn't budge from it.

All this noise soon woke up all of the Beavers, the very smallest of the Beavers were crying, and were all of them too excited to say a word, for they knew that Tom Beaver's plan was working, and while they trembled, they enjoyed every minute of it all.

Every blessed Beaver in that house was awake, and every one in the whole of Beavertown, too. Father Beaver was excited, and he became worried, and every one in the house and all the little children were crying and fussing and shouting at death and that was almost too much for Father Beaver.

"What makes old Mr. Bear come back? I thought when he fell off the roof the last time, it would be enough for him!" said Father Beaver. "I can't think what's the matter! Mother Beaver, for mercy's sake keep those children quiet; he can't get in. Now I'll go up in the attic and see what he's doing!"

Tomorrow—Mr. Bear is Driven Away. (Copyright by George Matthew Adams.)

WATFORD KNITTING CONTEST. Four hundred and twenty socks were the result of the knitting contest held by Teumessah Chapter, I. O. O. E., the last six weeks. The ladies held their regular meeting at the home of Mrs. G. Hicks, the side of which Mrs. Hamilton was captain won by 91 pairs. They had a total of 256 pairs, while Miss Arden had secured the greatest number, 83 pairs and Mrs. W. J. Thompson the second, 52. Mrs. Howden also won the first prize for having knitted the greatest number of socks herself, in the contest. The chapter decided to make a number of property bags for the soldiers in the Great Central Hospital, where Nursing Sister Reed is stationed. The chapter is planning to give a tea, and the knitters, who, although not belonging to the society, so kindly helped out in the contest.

WHALEN RED CROSS. Being a border society, this Red Cross branch receives township council grants from both Biddulph and Blainville. In addition to this the collection amounted to \$110, two meetings being held during the month.

The articles sent to Hyman Hall were: 16 days shirts, 2 suits pyjamas, 15 sheets, 2 pillowcases. On October 23 a donation of 51 pounds of chicken was sent to the Red Cross. The money was sent to the Red Cross by the Red Cross society which were sent overseas to the soldiers who have gone from this community. Each box contained a pair of socks and a Christmas treat. The money used for this purpose was the proceeds of a lawn social held in July.

She's All Wrong. Dear Cynthia.—You really are so interesting a person that one wonders what sort of sensations would be caused by the printing of your photo in the Mail-Box column! I am sure that "Tina Kidd" will share your views on the subject. By the way, don't you think that "Tina" continues writing poetry she will make Ella Winters' name? I am including fan patterns for "Sweet Patsy." Trust that it will meet her requirements.

I've taken up too much space for a "new" unit.

THE ORIGINAL QUINDON. Ans.—You're all wrong, my dear. I'm not really a bit interesting (if ought to know, for I'm better acquainted with you than anybody else is), and I'm neither handsome nor ugly, so do you wonder that I prefer to remain unphotographed?

"Sweet Patsy" ought to be pleased to receive your pattern. I've mailed it to you. You're so beautifully talented.

For Limberlost and M. M. C. L. Hello Everybody,—Here I am again. I saw where Mary Elizabeth wanted the song "The Baggage Coach Ahead." So am sending it in for her. Also if you can send me a package of Omo, put in a gallon of soft water and boil her dress in it. It will be a treat and white and not hurt the goods a bit. And if M.M.C.L. will take canpor and rub it on the bary stains and let stand a little while, then wash and boil, and they will be gone. Hoping I have not ruined your evening reading my awful writing. I will close wishing you the best of everything. JEFF'S WIFE.

Ans.—My heart is so warm at the thought of all the help in your letter, that the writing looked just like "I'm in a point," which means very clear print. I hope Limberlost and M. M. C. L. will send you their kind advice by return.

HUNTERS TAKE GAME FROM THE TRAPPERS IN HARRIER LEAGUE

Anglers Win Fast Contest From Scouts by Score of 18 to 14.

THE STANDING.
Hunters Won. Lost. Pct.
Anglers 4 1 .800
Trappers 2 3 .400
Scouts 1 4 .200

The Anglers defeated the Scouts by the score of 18 to 14 in the Harrier Basketball League at the Y. M. C. A. Thursday evening. The game was fast and both teams played first-class basketball. Stephens of the Scouts was the high scorer, rolling up a total of 12 points. Cline and Roberts were the stars for the winners.

The Hunters won the second game of the evening by the score of 23 to 15. At one time it looked as if a few minutes overtime would be needed to decide the contest, but the Hunters got a winning streak and walked away with the game.

Arscott showed up well for the winning team, scoring 13 points. Gordon Henderson played a good game. Markle and Ginsberg were fast.

The teams lined up as follows:

FIRST GAME.
Scouts: Stephens—12, L.F.—1, Camp—0, Weir—0, George—0, Hughes—3. Referee—Ginsberg.
Anglers: Cline—4, Roberts—4, Scott—2, Hughes—3.

SECOND GAME.
Hunters: Arscott—13, Henderson—5, Ferguson—2, Leigh—0. Referee—Ferguson.
Trappers: Roberts—2, Markle—5, Ginsberg—7, Clinger—0.

INTERMEDIATE AND JUNIOR TEAMS FOR SARNIA THIS YEAR

Tunnel City To Have Two O. H. A. Teams—City League Formed.

SARNIA, Dec. 5.—The hockey fans of the city held one of the largest meetings ever held in this city Wednesday night in the police court room. Since last winter when Sarnia defaulted in the O. H. A. series, hockey was thought to be a dead issue, but the large numbers that crowded the court room to capacity Wednesday night show that hockey is far from being dead as yet.

Election of officers was held. William Saurwein, son, being elected president; Thomas Whitley, treasurer, and Bert Crouchan, secretary; Hector Cowan, Lyle LeScur and Gordon Storey, all overseas, were elected honorary presidents. It was decided to enter a junior and intermediate team in the O. H. A., the nominations which close Friday at midnight. The material for these two teams is not as yet available, but it is hoped that some of the hockey boys will be returning from overseas in time to play for Sarnia. A city league was formed, containing seven teams, namely, North Ward, Point Edward, Bercares, Perfection, Stove, Collegiate, Imperial Oil, Muelers. An executive committee was appointed containing the following members: W. J. Constable, Harry Turnbull, Joseph Morrison and J. Enrie, whose duties it will be to secure rink accommodations and attend to advertising, tickets and other matters.

CELLAR TEAM TRIMS MASCARA'S LEADERS BY SCORE OF 40-29

C. A. C. Basketball Five Will Play St. Thomas "Y" Tuesday.

THE STANDING.
Leafs Won. Lost. Pct.
Leafs 3 3 .500
Browns 3 3 .500
Maroons 2 3 .400
Braves 2 3 .400

The Leafs dropped a game to the Braves by the score of 40 to 29 in the Catholic Athletic Club Basketball League Thursday evening. This is only the second time Mascara's Leafs have been defeated this season.

Bill Mohan was the star, playing a first-class game. He also had the honor of being the high scorer, having fourteen points to his credit when the contest came to a close.

The C.A.C. basketball five will journey to St. Thomas next Tuesday evening, where they will meet the Railway City Y.M.C.A. team in an exhibition game. A game will also be played at Chatham next Friday evening.

The C.A.C. lads expect several other engagements shortly, and it looks as if the newly-organized basketball league will be kept busy during the winter months.

The teams lined up as follows:

Leafs: Cook, Jr., 4; Mascara, Jr., 13; L. Callaghan, Jr., 6; Conkey, Jr., 6; Callaghan, C., 10; Sanson, C., 10; Mohan, Jr., 14; H. Coughlin, Jr., 0; O'Hara, Jr., 6; N. Coughlin, Jr., 8.

BIG RACING SEASON AT KENTUCKY TRACK COMES TO A CLOSE

In Spite of Handicaps, Kentucky Meets Were Greatest in History.

CINCINNATI, Dec. 5.—In spite of extraordinary handicaps, the Kentucky racing season of 1918, which ended on Thursday, will go down in history as one of the most remarkable in the annals of the Kentucky turf. With the war at an end, it is the general opinion that racing is due for a great boom next season, and the outlook is particularly bright in this section.

Harmony prevailed in every quarter, from the newly-appointed state racing commission, with which horsemen are well satisfied, right down the line. There is a belief, based on a knowledge of the views of the individual members of the commission, that a governing body which will still further strengthen the position of the turf is assured.

Intersectional rivalry ran high at various times and public interest was aroused in several of the outstanding fixtures of the last season. The indications are that not only will all the important fixtures which have brought the Kentucky turf into such prominence be renewed for next season, but that in several instances their attractiveness will be enhanced by an increase in value.

A notable instance will be the Latonia Derby, the value of the added money of which will be doubled and which, it is reckoned, will have a gross value of something like \$30,000. With a fixture like this as the headliner for its spring meeting, and the \$50,000 Latonia Championship Stakes, the richest race in all the world, scheduled for decision in the fall, to say nothing of numerous other events that will in themselves be well worth while, the patronage of turfmen from distant points is assured.

It can readily be appreciated what a prospect is assured for the future, and what is true of Latonia will apply with equal force to the other tracks of the state.

The Louisville tracks will of course offer their usual valuable events, including the Kentucky Derby and the Kentucky handicap, both of which fixtures have been well patronized in recent years by horsemen from one end of the land to the other. In a natural result many more eastern entries are looked for when the Kentucky stakes are opened next spring than in any previous season.

One of the most notable features of the season just ended was the raising of \$300,000 by the racing and breeding interests of the State of Kentucky for Red Cross purposes. This huge fund was completed on the closing day of the season so far as the state of the race tracks was concerned, and it is understood that the breeders have practically completed the raising of the \$10,000 which was allotted as their part of the ambitious undertaking. Of the remainder, the race tracks at Lexington, Louisville and Latonia contributed \$10,000 through an assessment on the pari-mutuel sales. The owners of horses that raced in Kentucky during the season contributed 10 per cent of their stake and purse winnings, which yielded \$75,000, came from an assessment of 10 per cent of the salaries and pay of officials.

ANNUAL O. A. B. A. MEETING AT BRANTFORD SATURDAY

The annual meeting of the Ontario Amateur Basketball Association will be held in the Y. M. C. A. at Brantford Saturday afternoon at 2 o'clock.

INTER-CITY LEAGUE WILL OPEN EARLY IN JANUARY

The Inter-City Bowling League will not open until Friday, January 3. This was decided yesterday by both the

London and the St. Thomas bowlers. London will have two fast teams this season and expect to give the Railway City bowlers a hot time in their old town as well as at the National alleys. The two-man team bowling games will begin next Thursday. Twelve teams will be lined up, and bowlers are looking forward to the open night.

NEW YORK BICYCLE GRIND REDUCED TO ONE DOZEN TEAMS

McNamara and Magin Score Greatest Number of Points.

MADISON SQUARE GARDEN, New York, Dec. 6.—The enforced retirement of Henri Gervie and Wito Kellier because of the former's illness, reduced the field of riders in the six-day bicycle race to an even dozen teams. At midnight eight of the teams were tied with a mark of 1,626 miles and six laps each. Two other teams were one lap behind the leaders. The record for this hour is 1,394 miles and nine laps, made here four years ago by Cameron and Kaiser.

Marcel Dupuy, the French rider, who lost his partner, the veteran Kramer, yesterday, and teamed up with Bello, was responsible for a lot of the lively sprinting which furnished the excitement tonight. McNamara and Magin were the men who scored the greatest number of points, however, according to the French method of scoring, having a tally of 238, while Madden and Corey were in second place with 240, and Grand and Hill were next with 184.

As the point scoring is confined to the eight leading teams, Dupuy and his partner Bello, who are two laps behind, did not benefit by their hard work, and were not even able to gain a lap after making several earnest attempts to do so.

MADDEN AND COREY SECOND.
Madison Square Garden, New York, Dec. 6.—With all the teams pedaling more than 250 miles behind the record, interest in the annual six-day bicycle race here centred today on the figures being made under the French point scoring system. McNamara and Magin led at 11 a.m. with 238 points. The race will end at midnight Saturday, and the prize-winners will be determined under this system of awarding points for places won in the sprints, fifteen of which are run off every 24 hours.

Madden and Corey were second at 8 a.m. the 10th hour, with 240 points. Grand and Hill were third with 184; Lawrence and Hanley fourth with 137, and Chapman and Halstead fifth with 133 points. Other scores included Weber and Eaton, 85; Coburn and Kopsky, 52, and Grimm and Thomas, 19 points.

The eight leading teams had covered 1,795 miles a lap at the end of the 194th hour; three others were one lap behind, and the twelfth team was 3 laps behind. The record for this hour is 2,651 miles 5 laps, made by Fogler and Hill, in 1914.

Great Victory Clothing Value Demonstration

Super-Value Overcoat Event
\$26.75

Men, here's the best overcoat proposition that will come your way for many a season. Greys, browns, greens, heathers, plain navys and fancy weaves, all round belters, town ulsters, ulsterettes, form-fitters, dressy slippers, standard chesterfields, patch, plain or vertical pockets, best wool serge linings. A few coats in double texture; plaid, back cloth are quarter lined.

A merchandising event without parallel in quality presentation, extent of variety and economy opportunities. Never before has the value-giving supremacy of Dowler Stores been so firmly established as in this remarkable demonstration. Scarcely a garment involved could be purchased today at wholesale at the prices offered in this sale. We saved fully 25 per cent on the cost of the fabrics through our immense purchases of cloth, much of it over a year ago. Overcoats of the same fabric quality, the same standards of tailoring excellence and style attainments are not shown anywhere in Western Ontario today within 20 to 30 per cent of these special prices.

WONDERFUL OVERCOAT VALUES

HOUSEKEEPING IS A BUSINESS. ECONOMICAL COOKING IS A SCIENCE.

Our Consumers' League

BY ISABEL C. ARMSTRONG.

"WHY BE CONTENT WITH MAKING A LIVING, WHEN YOU COULD BE MAKING A LIFE INSTEAD?"

It was a speaker at a meeting in the city the other day who raised this question about a man. Today, when the falling gently, steadily, if not to earth is just the kind of a time to make one forget that the "world do move," and move terribly quick in this day and age, the kind of a day to recall Christmas cards, pictures, of old times, leisurely winter days when people were strolling to the jingling of bells, and who really had time to know and to see one another in a comfortable, sociable way.

Granted that these are strenuous days (can anybody doubt it?), with a tremendous lot of important things to be done right away quick, does there seem much sense in the way the majority of people are dashing about everywhere, attending to half a dozen or so things at once, and never getting time for one real, deep breath of pure, fresh air to ventilate the lungs, and chase away the stale vapors from the brain?

Driving in a high-powered automobile may get one through the country in a hurry, but one loses a great deal of the scenery en route. Does the driver remember the story about Mr. B., who the driver painting his chicken coop at a furious rate?

"What's all the hurry about, Uncle Sambo?" asked Mr. B.

"Oh, do Lawd's sakes, don't talk," replied Sambo. "I got to finish painting the coop before the chickens get out."

One is inclined to wonder if there ever was a time in the world's history when so many Uncle Sambos and Aunt Chloes, not to mention the young Mr. Sambos and the young Miss Chloes, were trying to beat Father Time at his own game.

It is very well to "live more in one hour than in years do some, whose fat blood sleeps as it slips along their veins." But there is such a thing as missing a great deal of the rare scenery along the road of life, the fragrant flowers that grow by the wayside. One must not let them slip, because the road of life doesn't turn back, but insists upon running on.

CONSERVING LIFE.

Just now we are considering the subject of conservation. Doesn't it seem a shiftless, thriftless thing to dash past and thus completely lose the soul-renewing vistas and the pleasant resting places set along the pathway of life? Doesn't it seem wasteful to ignore the things intended for the sweetening, enrichment and adornment of life, simply because one is so occupied rushing for a goal, or scurrying after tasks in the Micawber-like hope that something will turn up some day that will all of a sudden do the trick?

What are you doing, anyway, "intelligent reader," just making a living chasing madly past your milestones, or making a life, rich and well rounded?

THE MISSING PLANK.

There is one important plank missing in that imposing and altruistic program of work planned for the new London Chamber of Commerce as published in the press a few days ago. Perhaps it is included in "education and social welfare."

Anyway, in view of the events of the past few years, the wastage of life, and permanent injuries resulting from the war, not to mention the appalling toll of the grim reaper in the recent influenza epidemic, it is a missing plank, and a missing plank of the most important kind in that platform all its own. Mr. George M. Reid, president of the reorganized board of trade, otherwise the London Chamber of Commerce, in an interview given to The Advertiser a few days ago, emphasized the importance of health in making prosperity possible for a community.

Why shouldn't London be a healthy place? Why should any slum conditions exist in a country which has all the territory going to waste that Canada has? It isn't the fault of the climate if people in this section of the country aren't vigorous.

Considering conditions which actually exist in the city as discovered by investigation, "Public Health Propaganda" is important enough to be given a conspicuous place all its own in the program of the London Chamber of Commerce.

The latest figures obtainable for London in infant mortality, crippled and maimed children, and the death rate for babies as eighteen per cent of the birth rate. In other words, according to these authentic statistics, eighteen out of every hundred babies born in this city previous to that time, in other words, in the year 1915 for example, died in their first year.

As soon as possible statistics to date will be obtained for publication in this paper.

A GENUINE SCANDAL.

In any case, is it anything short of a scandal that numbers of little future citizens are to be lost to the world from preventable causes every year in a city, claiming to be as intelligent, humane and civilized as London undoubtedly thinks itself to be.

In four years and three months of war, about fifty thousand Canadian soldiers of the 46th and 48th Divisions have died, and many more have been maimed and crippled for life. During the war, less than twelve per cent of the men who saw active service in a period of almost four years lost their lives.

In one year of that time in London SEVENTEEN per cent of the babies born died in their first year. Now, so abundant and kept this congregation religious, from causes that might have been prevented.

A soldier at the front stood a much better chance of coming out alive at the end of the year than a baby born in London. And yet they talk of the wastage of war?

Someone says, "But consider the men who have been maimed, the men whose health has been permanently undermined by the war."

Consider the parallel case of the child. Experts who have made a thorough study of the subject state that for every one child that dies in such a way, another child might have been prevented or overcome in the first few years.

Even that distinguished town-planning expert, Thomas Adams, who addressed the Western Ontario United Board of Trade in this city last week, declared that which they lived more important than the kind of buildings which they called their homes. If this be the case, then isn't public health sufficiently important to be one of the planks in the platform of London's Chamber of Commerce, the plank which he called "Public Health Propaganda"?

NOT CRITICISM BUT SUPPORT.

The foregoing has not been written with any idea of criticizing the London Board of Health, any of the officials thereof, or any of a number of agencies working for public health. The wonder is that with the amount of funds at their disposal, lack of backing by the citizens as a whole, and lack of co-ordination, that they have done as much as they have.

This isn't a suggestion that the Chamber of Commerce should step in and usurp the functions of the board of health. The idea is that the most powerful and representative body in the city, organized for the avowed aim of promoting the welfare of the city and district, industrially, commercially, socially, etc., in the ideal organization to get behind a movement to assure for London the most up-to-date and efficient public health service obtainable. Efficiency in this respect demands enlargement of the department, and centralization and co-ordination of the various activities working to promote public health. Such efficiency will demand adequate endorsement. It will demand not only adequate financial support, but support for educational work, support in the way of helping the department to interest the citizens in making London one of the healthiest cities on the continent.

It isn't fair to appoint a medical officer of health, and one, two or three nurses from home, why not put up a few more?

"What's the trouble," said a man the other day, to whom the writer complained about the missing plank in the platform of the London Chamber of Commerce, "is it the idea that the Chamber of Commerce should make up the amount necessary to adequately endorse the public health department as you call it?"

"Not at all," was the answer. "It's the city's business to provide for that. Saving life is much more important than a good many things for which the city's good money has been spent in the past."

The Chamber of Commerce can do a great deal in the way of molding public opinion. The Chamber of Commerce is made up mainly of people who pay good, big taxes. If they say that the health of the citizenship should be properly insured, and little ones saved from preventable death, even if it costs money, then it is probable the Chamber of Commerce can carry a good deal of weight.

The Chamber of Commerce is made up of keen businessmen, intelligent professional people, superintendents of departments in factories, etc., who know the value of efficient organization and the ruthless waste of any other kind. A plan for co-ordinating the public health activities into one strong department, prepared by Miss Jennie Eddar, vital statistician of the Institute of Public Health, and submitted recently to the board of health, should appear reasonable and workable, to put it mildly. At the present time the Institute of Public Health is the headquarters of laboratories and the department of vital statistics.

At the present time the Institute of Public Health and city board of health are loosely connected by the file of reports from physicians and citizens on communicable diseases and records of V. A. D. nurses sent out.

The board of health engages one public health nurse, one tuberculosis nurse and the sanitary inspectors. The London Health Association engages another tuberculosis nurse. Three school nurses are under the jurisdiction—not of the public health department—but of the board of education. The London Child Welfare nurse is rendering efficient service for children of pre-school age, engaged for such a purpose by the London Child Welfare Association.

There is no central bureau for these public health nurses or activities. Co-operation is voluntary, and overlapping not infrequent. Four nurses under the present system may all be visiting one home, the public health nurse to follow up contagious diseases; the tuberculosis nurse for a tubercular patient; the school nurse on behalf of school work; the Child Welfare nurse to show the mother how to prepare food for, or otherwise care for a tot under five that has been brought to a Child Welfare clinic. This all spells overlapping, waste of the valuable time and services of nurses.

Does that look like good business? Does it look like conditions for genuinely efficient public health service?

Next week, the plan of co-ordination of forces, to which the board of health has already given some thought, will be explained in this department as clearly as possible.

THE KHAKI UNIVERSITY AIMS AT BRINGING MEN HOME BETTER CITIZENS

Sir Robert Falconer Speaks Before Women's Alumnae at Western University.

Oliver of Saskatchewan University, as assistant director of France. Other appointments are now being made, but the main body of the teaching staff is recruited from the army itself, where there was found abundant material.

Khaki University a Mianmer. "Khaki university" in somewhat of a misnomer for this institution as that name is usually applied more to the higher grades of learning. The work of the khaki university, or educational service as it is more fittingly called, ranges from the lowest grades up to the first two years in arts, for it was found that those interested in this work were by no means exhausted by the university students. What about agriculture, commercial work, and what would those who have not even been to the faculty of reading and writing? You would be surprised how many of the latter are to be found among our troops.

Only Few Undecided Now. "The department appearing in the new curriculum for the khaki university are agriculture, commercial subjects, elementary physics, sciences, which there is an excellent equipment, language, preparation for entrance to the Canadian universities, and courses equivalent to the first and second years of the Canadian universities. It is remarkable the number who are taking agriculture, and intend to come back and take up agriculture in Canada as a life profession. The number who are coming back to positions reserved for them here is also great, leaving a very small proportion of men who are looking forward to no definite work. The life insurance companies are the latest to appreciate the value of the khaki university, and intend to send a man over to give instructions in the writing of life insurance. In fact, this kind of instruction is just what is needed for the soldiers to better themselves before resuming their life in Canada again.

Courses of Lectures. "Another side of the work of this institution is afforded by courses in lectures, aiming to make the men better citizens for Canada. These lectures will be given on such subjects as the natural resources of Canada, and on the political and social life of the country. Peace came upon us so quickly that demobilization was upon us almost before we realized it. At the present time the soldiers in France are having a holiday as they walk towards the Rhine, but the time will come when the country will be necessary, and something will have to be done to occupy the time of the men who remain. The Khaki University will be helpful then."

Years to Take Up Torch. Addressing the students of the university, Sir Robert Falconer declared, "It will rest upon you to take up the torch, to lose no time. You have tasks to do, which your predecessors didn't do. There is a four years' gap between you and them. In their time things were run by routine, but now the world is facing new difficulties, and we can do anything to help bring back the men better, than when they went away we should do it."

President Bradshaw introduced the speaker to those present on the request of Miss Hazel Tanner, president of the Alumnae. Miss Irene Brown favored these assembled with a piano solo.

To Avoid and Relieve Influenza

BY DR. FRANKLIN DUANE.

Many people have been frightened by what they have read or heard of influenza. The more you fear the disease the surer you are to get it. Go right about your business and forget it. As influenza is spread principally by contact through sneezing, coughing or spitting, many health authorities have advised the patient to wear a gauze, which is daily washed and saturated with a one to five hundred solution of zinc sulphate in water, and then dried before wearing over the nose and mouth. You should avoid crowds, common drinking cups and public towels. Keep your strength up by taking lots of exercise in the open air and plenty of nourishing food.

If you have any of such symptoms as chilliness, nasal obstructions, flushed face, headache, feverishness, restlessness, weakness, or irritating cough, give up work at once and go to bed. This will save your strength to help overcome the disease. Put your feet in hot water for fifteen minutes. Thoroughly loosen the bowels with some such mild and non-irritating physic as Dr. Pierce's Pleasant Pellets. Drink plenty of water, which is daily washed and saturated with a one to five hundred solution of zinc sulphate in water, and then dried before wearing over the nose and mouth. You should avoid crowds, common drinking cups and public towels. Keep your strength up by taking lots of exercise in the open air and plenty of nourishing food.

To relieve nasal obstructions and excessive discharge from the nose, pour successive drops of a solution of Dr. Sage's Catarrh Remedy. It will give great relief. Employed as a gargle, in same strength as made up for use in the nose, and as hot as can be borne, it quickly arrests soreness and dryness in the throat.

Influenza weakens the patient's resistance to disease, so that there is danger of bronchitis and pneumonia developing. To combat this tendency and fortify the patient's strength insist that he keep his bed at least two days. Probably nothing will at this stage hasten the recovery more than the patient more than an iron-ionic tablet called "Ironic," or that well-known herbal tonic, Dr. Fiebig's Golden Mistletoe. This has been used by thousands in the past two generations—Advt.

- Here Are Three Ways To Make Mince-meat For Pies.
- If a mince pie—mind you, a home-made mince pie—is among the list of things you want to prepare as a holiday remembrance to some dear relative away from home, why not put up a few jars of the mince-meat now? It will keep at home for a considerable time before use. Indeed, some kinds of mince-meat have to stand for a while to develop their full flavor. You can have your choice of mince-meat, or, if the pie is for one of the "boys," you may justifiably include meat in the ingredients. A delicious mince-meat is made without the use of meat, but with tongue instead.
