FALL ELECTIONS — FARCE

FORESTERS' CHOICE

Patricia McKenzie, charming 17 year-old, first year Science student from Fredericton, melted Bushmen's hearts as she was elected queen of the faculty Friday, a day after Miss Worsley rose to the Bus Ad title. Dancing is her specialty and she has now presided at two balls, having won the Frosh Queen title earlier.

RESIDENT ARTIST

GOODRIDGE ROBERTS

As one of few universities to reach such a goal, UNB can be proud to have Mr. Roberts as resident artist. Here for one year through a Canada Council-University grant, he and Mrs. Roberts have settled on Hawthorne Terrace. A relaxed and interesting speaker, his "Experiences In Painting" address Thursday is the first of three talks.

CAMPUS CALENDAR

Today

Choral Society, Art Centre, 7 pm

Wednesday

SRC, Oak Room, Student Centre, 7.30 pm

Art Class, Art Centre, 7 pm; Open to all students

Thursday

Curling Club, Student Centre, 7 pm

Inter-Varsity Christian Fellowship, All-Purpose Room, Student Centre, 7 pm

Goodridge Roberts, Memorial Hall, 8.15 pm, "Experiences in Painting", first in a series of three lectures.

LET'S TOP THIS

Take a look at these figures.

Of Mount Allison University's 1,000 eligible blood donors, 761 registered at the clinic held in Sackville last week. This large turnout of 76.1% puts Mount Allison in a favorable position in the national intercollegiate competition for the Corpuscle Cup.

Two men's residences, West Truman House and Bigelow each scored 100% in their inter-residential competition. Center Truman House and Hunton trailed with 99%. The leading Women's residence was Hart House with 93%.

RECORD ENROLLMENT

The largest enrollment recorded in UNB history now stands at 1,602 students. The previous record of 1,558 was established last year.

The major increase occurred in the Arts Faculty with 508 registered over last year's 430 students. Total Science enlistment dropped to 179 from 193. A marked decrease is noted in Engineering with 618 as compared with last year's 668. Forestry

BUS. ADMIN. QUEEN

Heather Worsley, as pleasing an eye-fall as ever came to UNB from her hometown of Halifax, has been elected Miss Business Administration. Just past her 18th birthday, Heather's a Phys-Ed freshie-soph and will keep the pool galleries filled with her synchronized swimming routines.

retains the same enrollment of 165.

Nursing and Education boast 14 scholars apiece and the Law School has 27. There are about 70 Post-Grads on campus plus 7 Special students.

A Year Abroad "Beaver Club" Closes Dec. 31

Applications for Lord Beaverbrook Overseas Scholarships will close on December 31, and completed forms must be in the hands of the Secretary on or before that date.

The five Scholarships, tenable for one year at any United Kingdom University, are available to students domiciled in New Brunswick who are graduates of recognized New Brunswick Universities. Recipients who receive a certificate of proficiency based upon academic achievements in the first year are eligible for a further scholarship extension.

The Scholarships provide for travelling expenses to Great Britain and return, with allowances for vacation travel. The annual value of the awards will be fixed from time to time by the trustees in England.

Application forms and information may be obtained from the Secretary, R. A. Tweedie, Box 36, Fredericton.

CAMPUS PRODUCTIONS UNDERWAY AS PREMIERE DATES APPROACH

Agatha Christie's record-smashing play "The Mousetrap", will be presented on Saturday, Monday and Tuesday, the 5th, 7th and 8th of December in Memorial Hall Theatre, the UNB Drama Society's first '59-'60 production. Negotiations for local presentation have been made with Samuel French, Inc., of New York.

Although Agatha Christie is the author of many other hit plays, including the famous "Witness for the Prosecution", "The Mousetrap" stands as her most successful to date. Having already broken all-time long run record for the English stage, "The Mousetrap" is now gunning for the American record. Miss Christie's mystery chiller opened in London in November, 1952, and is still running there, apparently set, like the babbling brook, to go on forever.

Rehearsals for the play have been underway for nearly a month, and director Mike Gordon says: "We have a young and enthusiastic cast, one which will be able to produce a fast-moving show. I think it will be up to the calibre of our Drama Festival entries."

BIG, BUSTLING REVUE

The Red 'n' Black Revue promises comedy and music to entertain all who attend the 1959 production.

This year's two-and-a-half hour Revue will be held at T.C. Auditorium on Nov. 26, 27, 28th. The UNB Band, directed by A. Trythall will again entertain during the show's intermission. There'll be entertainment for every taste, says head man Paul Rennie, including Beatniks and Western fans.

In a *Brunswickan* interview, Director-Producer Rennie stated that holdovers from last year will be performing with some very talented newcomers. He also felt that enthusiasm and interest among the participants is high.

An MC will be featured this year, adding continuity and comedy to the show.

For those interested in the finer arts, there will be a chorus line featuring the most beautiful girls east of Fredericton Junction.

Technical and backstage crews will be chiefly last year's workers. Ralph Campbell is again organizing snappy show tunes and catchy piano interlude music, while Mrs. Sheila Roberts is mapping out the choreography and chorus line routines.

There will be a rehearsal tomorrow (Wednesday) night, and students are encouraged to come out and see what goes into making the Revue a success.

Bunyan's Body Lies ...?

IT SEZ HERE, that contrary to reports in another Fredericton paper, Paul Bunyan, '59 model, has not been torn to shreds. As usual, *Brunswickan* staffers were on the spot to record the truth. However, no report has yet filtered through the grapevine as to Mr. Bunyan's present resting place. Commenting in a threatening tone, Forestry Association president Pete Jackson adds "President Mackay assured us that Paul's statue would be safe;" harking back to rugged inter-faculty rivalry of seasons past.

THE BLOODY BRUNSWICKAN

CANADA'S REDDEST OFFICIAL STUDENT PUBLICATION

VOL. 92 NO. 10

FREDERICTON, N.B., TUESDAY, OCTOBER 27, 1959

Price: 1 Pint per copy

Bleeding Starts Today . . .

PROVE YOURSELF UNB

The annual fall blood donor clinic will be held on the campus in the Lady Beaverbrook Gymnasium today and tomorrow, organized by the Pre-Medical Club. Operated by the Canadian Red Cross, the blood collected will be sent to hospitals throughout the province and administered free of charge to any patient in need. The hours of the clinic are: Tuesday—1:30-3:30, 4:30-6:00, and 7:30-9:00; Wednesday—9:30-11:30, 1:30-3:30 and 4:30-6:30.

The entire student body of UNB is urged to turn out and give to this worthy cause of saving lives. The life of the person you save could well be your own. Giving blood is renowned the world over as a very humanitarian act. Every donor today will truthfully say tomorrow that he feels much better for having done a good deed.

It is now nine and a half years since the Red Cross started supplying blood in New Brunswick hospitals free of charge. Since then all patients have received blood transfusions absolutely free. However, in some localities in Canada the cost of a bottle of blood may vary from \$10 to \$100. An interesting example is about a New Brunswick man who received 42 transfusions in Montreal and later, a bill for \$2,180. After informing the New Brunswick Red Cross of this, the 42 bottles of blood were replaced by the Red Cross, and the man was refunded his money. A happy ending to an otherwise unhappy story.

Everybody between the ages of 18 and 65, who is declared in sound health by the Red Cross, is capable of donating a pint of blood. So come, won't you do your part for society and help prove that UNB is a great working team. Remember no one is accident proof and that some day you may need a transfusion.

FOUR-WAY RACE

The Gaiety Men's Shop Trophy was donated last year to stimulate interest among residence members in the Blood Donor Clinic.

Last fall the trophy was awarded on the percentage results from the fall clinic only. However it was decided at the time that, in future, the award would be made on the cumulative results of the spring and fall clinics. Last fall LBR ran away with the competition with a whopping 86%.

At the present time, Aitken House hold a 15% lead over LBR (41%) by getting 56% of the Men of Aitken out to bleed last spring. Jones house and the Maggie Jean Chestnut Residence have 31% and 22% respectively.

So, let's see all you keen residence types out to bleed for your house today and tomorrow for a fine trophy and a fine cause!

President Mackay Urges Support

To the Students of The University of New Brunswick

I am very pleased to endorse the good work of the Pre-Medical Club in its organization of the Mobile Blood Donor Clinic of the Red Cross to be held on October 27 and 28. I would hope that many of our students would support this project.

In recent years only one-third of the student body has donated blood. If UNB is to be in the running for the Corpuscle Cup, then your committee will need the support of many more students this year.

Blood donations are urgently needed for the work of the Canadian Red Cross Society and I am confident that the students of UNB will see that these are met.

Yours sincerely,
Colin B. Mackay

★ ★ ★
Dear Fellow-Bleeders,

Another fall—another Blood Donor Clinic! Our Committee has put every effort into making this Clinic UNB's most successful one. It is now up to you, the students of this university to show the Red Cross what we can really do.

Let me remind all students that we have yet to beat Mount Allison, our traditional rivals, in the giving of blood. If you and a friend get together, and gather the rest of your friends and give blood for the worthy cause—WE WILL BEAT THEM THIS YEAR.

THE HOTBLOOD

Ouch! Oh Dear! The pain is excruciating! The blinding, searing pain of a needle pricking the skin. It's terrible.

And the students of UNB are so terrified that only 364 of them could brave the frightening ordeal of giving blood to the Red Cross last spring. This is disgusting.

Seriously, no one in his right mind could actually be afraid to give blood. There is no pain, there is no discomfort, there is no nausea. It could not be because they are afraid of the after-effects because the little bit of blood that each person gives is replaced in 7 hours. It could not be that they haven't got the time because it takes only six minutes to give blood.

Maybe it is just the same old story—UNB students are thoughtless, lazy people. And ungrateful people. Ungrateful, because no one at UNB has to buy blood if he should need it. It is given free to them as a service of the Red Cross in N.B. In other provinces it would cost up to \$100 a pint. And the students here will not even try to replenish the stores of the Red Cross. A slight amount of co-operation would be appreciated.

Our professors, of course, set a magnificent example. Four out of a possible 114 eligible donors gave a pint of blood last spring, while the other 110 undoubtedly had something to do that was much more important. And these 110 little dynamos of energy are the ones who are supposed to be setting an example of leadership for the students. Well, the students should ignore this disgusting example. They should start to set an example for the pros and possibly some time in the future the professors will put down their cups of coffee in the observatory and take the long walk down to the gym.

And then of course there are the girls from the Maggie Jean. All 22% of them felt that it would be more worthwhile to give a little blood than to loiter around the student centre and try to look pretty. 22%—isn't that a staggering figure? At least this year the Red Cross has the backing of the Dean of the Women's Residence. In an exclusive release to *The Hotbed* Mrs. Millar announced that if 65% of the Maggie Jean girls give blood everyone will have another late leave this weekend. More of this tangible and whole-hearted backing from staff and faculty is needed. It is now up to the girls at the residence to justify Mrs. Millar's support. Don't let her down when she is convinced that you will help out.

But forget about the facts and figures and statistics for a minute. Think of someone, somewhere, lying in a hospital bed fighting for his life. The pint of blood you gave may save his life. If you think of this, you will give your blood.

Please support the Red Cross. They are trying to help you.

The Deans Pronounce

Science:

During the second world war this University received, tested and processed blood for Canada's armed forces from dozens of donor centers in New Brunswick and Prince Edward Island. Well over 75,000 pints of blood were passed through our laboratories and, in the form of plasma, eventually found their way to all theatres of war where Canadians were serving.

From this wartime effort the present collection of blood for peace-time uses has been a natural outgrowth. It enables our hospitals to maintain adequate supplies of whole blood and plasma against the many needs of modern surgery and medical treatment and, importantly, at no direct cost to the patient.

It is natural and proper that students of the University of New Brunswick should support the donor clinics which from time to time are held on our campus, by freely offering their blood.

C. W. Argue,
Dean of Science

☆ ☆ ☆

Arts:

The time has again come around for the visit of the Red Cross Blood Donor Clinic to the University of New Brunswick.

As we all know this is a most worthy undertaking since human lives may depend upon a good response on the part of all concerned. It is hoped that the stu-

dents will co-operate fully with the Red Cross, and that the University will make the best response this year it has ever made.

A. G. Bailey
Dean of Arts

☆ ☆ ☆

Law:

The Blood Donor Clinic is to receive donations of blood at the Lady Beaverbrook Gymnasium next Tuesday and Wednesday. I urge students of the Law Faculty to co-operate with the Red Cross in this vital undertaking.

William F. Ryan
Dean

☆ ☆ ☆

Engineering:

Through its Blood Donor Service, the Canadian Red Cross Society provides each of us with a unique opportunity to render invaluable and literally life-saving assistance to other persons. Great quantities of fresh human blood are required by modern techniques in the treatment of both accident and routine cases. This blood is a commodity which cannot be bought, because it can be manufactured only by the human body; therefore, it must be offered and given by those in good health if medical practice is to have its maximum effect in saving lives.

The gift of a small quantity of blood has no effect whatever on an average healthy person, and it represents the most personalized assistance that anyone can

RED BLEEDERS GO FOR TITLE

The Corpuscle Cup, prize of the Canadian Intercollegiate Blood Donor Champions, is awarded annually to the university with the best percentage during their fall clinic.

After winning the trophy in 1953 and 1954, Mount A again won it last year. This year an effort is being launched to bring the National Championship to our University. UNB is organizing a team.

The Red Devils, Red Bombers, Red Raiders and our other "Red" teams have all won great glory for our school. This year the "RED BLEEDERS" are expected to be the largest team. In order for this squad to win the National Championship they need more people to turn out.

You too can play for the "Bleeders". Tryouts will be held in the gym today and tomorrow. In 1952 UNB came second in Canada. With you playing on the team, we should come first this year.

B. L. JEWETT, M.D.
FREDERICTON, N.B.

"The donation of blood by a healthy individual is in no way deleterious, and has no ill effect on the health. This priceless life-giving gift is yours to give."

offer to another person.

I am glad to wholeheartedly endorse the Red Cross appeal for donors and trust that students in the Faculty of Engineering will demonstrate their appreciation of the value of this truly humanitarian service by turning out in very large numbers at the forthcoming Blood Donor Clinic.

J. O. Dineen,
Dean of Engineering

☆ ☆ ☆

Forestry:

During the blood donor campaign being conducted this week by the student committee under the Pre-Medical Group at the University, I would like to urge that all Foresters who can, contribute. The blood bank that results from this campaign is extremely useful in not only surgical cases but all cases caused by accident. As foresters, all of you realize the danger of accidents in woods operations and the value of the blood donor service to help those unfortunate enough to meet with one.

It is hoped that the foresters will continue the good work that they have done in the past in contributing to this worthwhile service.

J. Miles Gibson,
Dean of Forestry

Remember . . . It Won't Hurt . . .

If you have not given blood before because you are not sure just what will happen, we assure you IT WON'T HURT.

This is what happens when you go to give blood. At the Lady Beaverbrook Gym:

1. You receive a FREE coke while you are waiting to register.
2. You register and get your blood type classification.
3. You are taken to a bed by a Red Cross nurse. Minutes later, after donating your pint of blood you are taken to a rest bed, where you remain for ten minutes.

Afterwards, you may go to the Gym kitchen and be served free coffee and cookies by the university co-eds.

The Rules . . .

You are eligible to give blood if you are over 18 years of age and your general health is good. If for any good reason you are unable to donate your blood PLEASE go down to the gym and register. Your name will be counted in as a donor and hence you can aid in increasing the percentage of donors giving.

Sigma Lambda Beta Rho

By the "Jones Boys"

CANADA'S ODDEST STUDENT PUBLICATION

Oh! The Jones Boys
Blood, glorious blood
They fell with a thud
They had no spoon for the gore on the door
And they had no glass for the blood on the floor.
Why do this to me God?

The Jones Boys have given blood. Why don't you? Just this once, as the Japanese suicide pilots used to say.

Actually we gave blood in the days when vampires did the draining. It was quite a day. Socrates Jones didn't have any blood in his alcohol stream, the vampires got drunk and flaked out. When it was Aristotle's turn, the vampires tried to get revenge by operating on his stone. Being evil, they hadn't read the Bible. They didn't know they couldn't get blood out of a stone. Thadeus Q., being an aristocratic, they refused his blue blood. But they got Methusaleh. Methusaleh was the fourth Jones Boy. He was only pint-sized anyway and when they took a pint of his blood there was nothing the other Boys could do . . . other than carve R.I.P. on his gravestone.

Most of us survived so don't be cowards, students. The murderous grin on the face of the woman with the long knife is only a happy smile. Be bold and resolute. Soon you'll be bloody as well.

Seriously, remember. The applejack jar full of YOUR blood can mean LIFE for hundreds of thirsty Asian vampires.

P.S.—And please note the third point above this column. YOU are taken to bed by a Red Cross nurse.

UNB BLANKS ROYALS 69-0

OLIVER DIRECTS ONSLAUGHT

by JOHN REYNOLDS

The Red Bombers had little trouble keeping their undefeated streak intact over the weekend as they humiliated the Moncton Royals 69-0 in the Saturday afternoon encounter. Big Red clobbered the opposition in every department throughout the lopsided exhibition of what might loosely be called a football game.

Every member of the Bomber squad saw action in the game with most of the tilt being played by 'the second string'. 'Second string' is really not the proper terminology since any of these boys could fit into the starting lineup without much difficulty.

This was emphatically proven when Toronto-bred Jackie Oliver took the quarterback reins and led the Red and Black for the majority of their 701 yard attack. Any coach in these parts would no doubt be tickled pink to have the opportunity of deciding whether 'Pistol' Pete Rylander or Jackie Oliver should be in the starting lineup as field general.

It was great to see big Doug Cottrell back in top form after being plagued by a bad ankle for the past few weeks. He picked up a remarkable 144 yards rushing and scored three touchdowns for his contribution to the afternoon encounter.

Other UNB touchdowns were

JACKIE OLIVER

scored by Jim Ross and Ed McLellan with two each, and singletons by Norm Bolitho, Jackie Oliver and Bill Boyd. Again McLellan kicked for the extra point, picking up the five converts of the game. The remaining four points were accounted for by two safety touches, one each by John McLennahan and Stirl Gorham.

Next Saturday the Bombers will play the much publicised game at Mount A which should prove to be the most exciting of the year.

Attention Grapplers

Last Thursday night the first Wrestling Club meeting of the year was held in the Trophy Room. Plans for the year were briefed and an executive was elected as follows:

President — John Robbins
Vice-Pres.—Rob MacAndrew
Treasurer — Daryl Prince

Mr. Harry Clarke has consented to coach the team and has already struck a spark of ambition towards the Pan American Games and such in the future.

The plans tentatively include meets with the Saint John CYO, Moncton and return meets with Dalhousie and St. Mary's.

Practices are scheduled for Monday nights from 7-9 pm in the Conditioning Room of the Gymnasium commencing Nov. 2.

Persons interested in the club are urged to attend or may call Rob MacAndrew at 5-6379 for further information.

Redshirts Ousted From Sumner

The UNB Redshirts are out of the Sumner Cup, emblematic of NB-PEI senior soccer supremacy, but their chances in the Central New Brunswick league look good at present.

On Thursday the Redshirts beat RCE Gagetown 6-2 in a league fixture. For the first ten minutes the Redshirts overwhelmed their opponents with a constant inter-passing attack. Schatz quickly gave UNB a 2-0 lead before he was injured and had to leave the field. From a back-heel pass by Mackay, Drew tapped the third goal home and that was all the scoring before half-time. After the restart the Engineers made it 3-1 and UNB hit the bar three times before McHugh finally found the net. Foerstal made it 5-1 and an RCE defender put through his own goal for UNB's sixth. Before the close RCE reduced the lead with another tally. The Redshirts looked like an improved team but the defence showed it needs to be tightened up more.

On Saturday Moncton eliminated UNB from the Sumner Cup by 3-0. It was a closer contested game than the score would suggest and for UNB it was a defeat without disgrace. Moncton had a

strong, hardkicking side and UNB did well to hold a territorial advantage. However, missing sharpshooter Schatz, the home forward line learned that it is goals that count as Moncton made the most of their opportunities. UNB attacked at the first whistle but failed to break through. Szammer schemed constructively at inside left and Porter made a notable save from a penalty kick.

UNB arrived at Gagetown Sunday to find that the game against the Black Watch had been postponed due to some administrative error.

Fixtures at 7.30 on College Field tonight and Thursday against Minto and the Black Watch, should see the Redshirts in shape for the big game here Saturday against Mount A.

Curling Anyone?

An organizational meeting of the UNB Curling Club will be held in the Students Centre on Thursday, October 29 at seven o'clock. All students who are interested in curling whether on an intramural or varsity level are requested to be present at this meeting.

HARRIERS DROP BATES WARM-UP

The UNB Harriers were defeated 20-35 by Bates College last Saturday over a four mile cross country course in Lewiston, Maine. The Bates team placed runners in the first four positions with Don Hodgson of UNB following in the number five spot.

This weekend the Harriers travel to Saint John where they will compete against teams from Minto, Mount A. and Saint John for the Royal Hotel Trophy of which they are present defending champions.

The Maritime Intercollegiate Cross Country Championship is scheduled to be run at Mount A. November 7.

Dinner guest: Will you pass the nuts, Professor?

Professor (absent minded): Yes, I suppose so, but really I should flunk them.
