regard to the medical value of the Plantagenet Spring Water.

It is now about twelve months since I became familiar with its employment in practice, and my observation of its effects fully confirms the occuracy of the opinion which I capressed to you in April, 1868, and which I based at the time upon its whemcal composition, as revealed by the analysis of Mr. Hant.

I have used the water rather freely, and have never been disappointed in iny expected result. It has gently operated on the bowels, freely relieving them, and this more or less actively, in steoredance with the quantity used. It is emphatically an autacid lazative of value, and will be found serviceable in all cases, especially requiring that indication to be fulfilled.

My experience of it in cutaneous affections is more limited; too limited indeed to permit me to offer any positive opinion of curative efficacy. I do not doubt, from the presence of lodine and Bromine in the water, associated with Maguesia, that it will prove serviceable in these cases also. It would require a more extended observation than that of a few months to confirm this opinion. As an ordinary laxative in pregnancy, I know of none safer, more pulstable, or more generally acceptable to patients.

Some of the Upper Canada papers assert that Mr. Merritt, President of the Council, intends bringing forward a scheme of Retrenchmen diminishing the expenditure £80,000 per annum. We may thank the Counties of Sherbrooke and Halton for this indication on the part of the Cabipenetrated the recease of the Cabinet. Mr.
Merritt, and his colleagues, very much mistake the feeling of the Colony, if they fancy that the dismissal of subordinates will be acceptable or satisfactory. Str. -- In your Report of the proceedings Str.,—In your Report of the proceedings of the meeting called with reference to the Industrial Exhibition in London, yot have attributed remarks to me which should have been placed to the credit of Mr. John Young.

Mr. Young seconded the 4th Resolution, and, in doing

so, took occasion to say, that the remarks of a gentleman who preseded him, (Mr. Gould,) so far as they related to protection, were "menstrous and absurd." In this conthe necessity of a protecting duty." but that his only doubt, with reference to this movement, hinged upon the question, whether or not Canada would be permitted to case a protective tariff, should he needs ture to do so.

Of the wastom or courieoussess of Mr. Young's procedure, under the circumstances, I leave others to indge. I have only to add, that, in other respects, your Report is

Mr. Allen, at East Boston, to know whether he would supply our pulpit on the next Sabbath.

NEW YORK, March 29-64, P. M. WASHINGTON, March 29. - House. - Mr. Hilliard moved that, when the House adjourned, it be until Monday, which was carried. Mr. Mc-Lean moved that the House now adjourn, on The siedge contained the mail, and provisions for the dogs and two men, permiscan, &c.; there being no dwellings to stop at for many hundred miles. One of the men, hall-breeds, travelled ahaed of the dogs, and the other, with a stick to drive them, and a rope to hold back the sledge down hill, came behind.

The winter has been rather severe, but provisions abundant. Fish have been caught in inspection of the figure Philadelphia. The winter has been caught in inspection of the captors of the frigate Philadelphia. The Committee appointed to investigate Mr. King's charges against the Speaker, made a report exculpating the Speaker from all blame; the House accepted the report. The House resolved itself into a Committee of the whole, and after-wards adjourned until Monday. The winter has been rather severe, but provisions abundant. Fish have been caught in immense quantities. The buffalo hunt was not very productive. Provisions plenty and cheap at the Selkirk Settlement. The only trouble is to get wheat ground, as all the mills are turned by wind, which has been unusually low, but was rising. It has been a winter of much gaiety and frolic in the settlement, balls, slewh-rides, &c. They are wards adjourned untri Monday.

Extract of a Letter from Mr. Benjamin Mackie, a
respectable Quaker, dated Creenagh, near
Loughall Ireland, dated September 11th, 1848. Loughall Ireland, dated September 11th, 1848.

To Protessor Holloway:
RESPECTED FRIED.—Thy excellent Pills have effectually cured me of an Asthma, which afficted me for three years to such an extent, that I was obliged to wolk my room at night for air, afraid of being suffocated if I went to bed by cough and phlegm. Pesides taking the Pills, trubbed plenty of the Omtment into my cheat night and morning.

CURE OF TYPHUS FEVER, WHEN SUPPOS-ED TO BE AT THE POINT OF DEATH. ED TO BE AT THE POINT OF DEATH.

A respectable female, in the neighborhood of Loughail, was attacked with T) phus Fever, and lay ter five days without having tasted any description of food. She was given over by the Surgeon, and preparations were made for her demise. Mr. Benjumin Mackie, the Qualer, whose case is referred to above, heard of the erroumstance, and knowing the immense benefit that the himself had derived from Holloway's Pulls, recommended an immediate trial, and eight benefit that he himself had derived from Holloway's Pills, recommended an immediate trial, and right were given to her, and the same number was continued night and morning for three days, and in a very short time she was completely cured.

N. B.—From advice just received, it appears that Colonel Dear, who is with he Regiment in India, the 21st Fasileers, cured himself of a very bad attack of Fever by these celebrated Pills. There is no doubt that any Fever, however mali, nant, may be cured by taking, night and morning, copious doses of this fine medicine. The patient should be induced to drink plentifully of warm linseed tea or burley water.

Mr. Mate, a Storekeeper, of Gundegai, New South
Wales, had been for some time in a most delicate
state of health, his constitution was so debilitated
that his death was shortly looked upon by himself
and friends as certain; but as a forforn hope, he was
induced to try Holloway's Fills, which had an immediate and surprising effect upon his system, and the
result was to restore him in a few weeks to perfect
health and strength, to the surprise of all who knew
him. He considered his case as extraordinary that
he, in grantude, sent it for publication, to the "Sydney

Manager for Conada. February 6, 1850. [Comparative Statements of the Rates of Pro-

[Comparative Statements of the Rates of Fremium adopted by the various Lite Assurance Companies transacting business in Canada have, from time to time, appeared in the public prints, placing the Colonial Company, in some instances, at an apparent disadvantage with other Companies. Lowness of Premium of itself is but a poor criterion of the stability or standing of a Life Assurance institution, or of the advantages to be designed. surance institution, or of the advantages to be derived by Assuring with it. The Statements, moreover, though attractive at first sight, ought not to go for much. The example selected for comparison is invariably taken at the Age and from the particular class of Rates most favorable to the Company advertising. Were an average of the Rates selected, the comparison would often show a very different result. Without meaning to attach much weight to the fact, nevertheless it may be remarked, in proof of the lailacy of these Comparative Statements, that the average Rate of Prebe remarked, in proof of the Iallacy of these Comparative Statements, that the average Rate of Previoum on the Participation System, on which nearly four-fifths of the transactions of the Colonial Company are based, is lower than the average under a similar class of Rates of the great majority of Companies transacting business in this Country. The Rates of the Colonal Company have been most carefully framed from the best statistics that could be procured—(statistics which, it is believed, are far more perfect than are in the possession of any other office.) They are as reasonable as present information justifies; and until some good ground is afforded for making a change, either from fuller statistical information than is at present in existence, or from an experience much more extended than that which has already been obtained, the Directors will rigidly adhere to them, being resolved not to enter into a dangerous competition for business by lowering their Rates, in order to outbid others, but to do either a safe business, or none at all.]

CONNECTICUT MUTUAL LIFE INSURANCE COMPANY. HARTFORD.

incorporated by the Legislature of Connecticut Guaranty Fund and Accumulated Premiums or to the Longueuil Terminus of the St. Lawrence

THE CONNECTICUT MUTUAL LIFE INSURANCE COMPANY is established upon the purely mutual system, with a Tariff of Premiums as low as is justifiable with the permanence and security of an Institution of this parties and a policy is Premiums as low as is justifiable with the permanence and security of an Institution of this character. Every person taking out a Policy is a member, and entitled to vote at the Annual Meetings The Dividends are declared annually on the 31st January. All persons insuring previous to that day, participate in the profits of that year, which are passed to his credit upon the books of the Company; to be paid during the life of the insured, in the order of rotation, from the excess of a capital of profits of \$300,000. The stipplated capital of profits having been obtained, the Directors will be authorized to pay the first year's Dividends at the closs of the present fiscal year, afterwards, each year's Dividends, in regular order, will be redeemed, as the funds of the Institution exceed the above two hundred thousand dollars. It is supposed that each person will be required to pay three annual Premiums before his Dividends will be refleemed. This feature in the conditions of this Company, over those who do not redeem or pay the Dividends until the death of the insured, is peculiarly favorable to the member, as the redemption of Dividends will easist in the payment of the Annual Premiums, after a few of the first years have clapsed, or take up notes given for Premiums.

The assured, on surrender of his Policy, at any notes given for Premiums.

The assured, on surrender of his Policy, at any

The assured, on surrender of his Policy, at any time after three years, will receive its equitable value. All Premiums amounting to Afty dollars, or more, on Policies running five years or longer, may be paid one half by Note; to remain a debt on the Policy, until cancelled by Dividends; or the Policy becomes a claim.

This Company was organized in December, 1846, and its prosperity has hitherto been unparalised. It is now in the third facal year of its existerice; and numbers (October, 1849) nearly a ven thousand members; with a constantly increasing accession. Its losses have been small, output according to the Tables of Mornistry upon which Life Instrumes is predicated. By unparalleled success in business, and a strict economy in the administration of its affairs, larger Dividends have been made to Policy halters thus by any other Company in the United States; averaging more than 60 per cent, annually.
