Mrs. John Carroll had a stroke of paralysis on Wednesday afternoon. She had been alone after two o'clock and when Mr. Carroll went home after four o'clock he found her near the kitchen door unconscious. Medical help was immediately summoned but her condition has improved but very little. Yesterday afternoon she was conscious but unable to speak. It is hoped that a marked improvement may be noticed soon.

## Farm Boots for Summer Wear

Here at last is the perfect combination of the moccasin, and of Cromme-tanned and Oil-tanned leathers.

The general shape is that of a moccasin. The boot is built on a last, with a long, solid counter to hold the heel. It has all the easy, foot-fitting comfort of a moccasin, and at the same time it will stand up and keep its shape with any boot. They outwear any other boots of their kind on the market, and give solid comfort and satisfaction every day.

**Suitable for farmers, dairymen, mechanics and carpenters, in fact for anyone requiring foot comfort**

Mr. Neil Spinney of Kentville was at Greenwood-lately visiting his grandparents, Mr. and Mrs. E. B. Spinney.

Miss Kathleen Mosher left town last week to attend the Academy at Truro where she entered the "A" class on Monday last, and we feel sure she will make as creditable a pupil there as she has in Kentville.

Miss Louise Hiltz left last week-end to take up the school at South Alton. We wish her success in her chosen profession.

Kentville and vicinity was well represented at the New Ross celebration this week. Most of the autos in town carried loads of people there.

2 little daughters left on Monday. There will be a public missionary meeting held in the Baptist Church, Port Williams, on Sunday evening, Sept. 2nd at 7.30 o'clock, subject: "The Conquering Cross," Mrs. Dr. J. Purvis Smith of Wolfville returned missionary from China will give an address on this subject. She is acknowledged to be one of the best lady speakers on Missions in Canada. All who are interested in this work should not fail to hear her. Special music. Everybody welcome. Silver offering for missions.

Mrs. D. Wylie Lawrence, and daughter, Jean Marguerite, spent the week end at her old home at Maitland. A brother, Dr. R. Morton Smith of Providence, R. I., has also been enjoying a vacation there accompanied by his wife, and daughter. The doctor has been "doing his bit" by examining drafted men three days of each week, free of charges.

Rev F H Steadman, and wife who were spending the summer months at Kentville and Halls Harbor left on Friday last for Boston. They stopped off at Lowell over Sunday and then go to Stony Brook, Mass., their recent home. After ten days they take their four children to resume their school work at Ohio and Mr. and Mrs. Steadman proceed to Japan to enter upon their missionary work again in that country.

### LAKEVILLE

Mr. Oliver Lennian spent the week end at Annapolis. Mrs. A. Palmer, accompanied by her granddaughter Abbie, left last week on a visit to her son at Windsor. Miss Mildred Wood one of Lakeville's popular young ladies, left for Halifax where she intends taking a business course. We wish her every success in her new studies. Miss Annie Bligh who has for the past two years been teaching in the West has returned home.

ALL-... DOM.

Mr. ... C., speaking ... in connection ... jubilee of ... Harrington, ... that Canada ... full share in ... that had the ... one as well in pre ... her sister ... 200,000 ... to-day than the ... present.

The magn ... of the Canadians ... line, said Mr. ... had placed Canada among the leaders of the nations of the earth, but people should not feel because of this she has done her share. Figures corrected up to February 1 showed that Canada had sent overseas 288,400 men, with a population of eight millions. Australia had sent 300,000 men overseas with a population of 5,000,000. New Zealand had sent 65,000 men to the front, with a population of 1,100,000. South Africa had contributed 60,000 to the war, with a European population of 1,275,000 and Newfoundland had sent 31,000 men out of a total of 250,000. Canada, the largest and most thickly populated, has sent only a little more than three and a half per cent of her population, while Australia had sent six per cent, New Zealand six per cent, South Africa five per cent and Newfoundland twelve per cent. Great Britain, continued Mr. Rowell, has given more than three men to every one of Canada and France more than four men.

A TRUE INDICTMENT

Hall Caine describes the desolation of war in graphic and moving terms. He shows how laboriously the best minds erected the fairest expressions of benign civilization in Europe and how in a moment of time, through hellish passions, this has all been destroyed, so that the Europe known to this generation can never return. The famous novelist points out, about all, the incalculable moral loss involved in the war—the lowering of worthy ideals, the bringing in of brute force, the reerection of naked savagery. It has been the habit of the military classes to insist upon the "glory" of war; upon exalting effect.

In truth, nothing but moral loss has attended every war in history. It ruins and blights; it falls upon humanity like a curse; it deluges the world in blood and tears. It is the "sum of all the villainies."

This is the amazing thing—that a war of this magnitude could occur in an age so refined and scientific, when the greatest triumph were useful discoveries to prolong life, to bring happiness to the greatest number. And the loss to faith, as Hall Caine points out. Has Christian teaching been a mockery? Chiefly—this war has shown that the civilization we boasted of is only a veneer; that primordial passions are let loose; and that man is essentially a savage.

One of the ablest and most influential labor leaders in the United States is Mr. Samuel Gompers, who from the entry of the United States into the war has given notable proof of his patriotism. Shortly after his country entered the war, he in a public address, urged employers and employees alike to take no advantage of the country's necessity by changing existing standard of labor conditions.

A concern, running slot machines in Montreal, has brought an action for \$10,000 damages against the police in that city for seizing their machines without warrant.

HEN AND ONE DOZEN EGGS SOLD FOR \$2,002.91

Mrs. Mary Satko, of Middletown, Ohio, steps to the front as breeder and owner of the most valuable hen yet produced in this country, says the Rural New Yorker. This hen and one dozen of her eggs sold for \$2,002.91. No, you do not want any eggs of this wonderful new breed. The hen is a common bird, and would no doubt be classed as a "scrub" by most fanciers. It seems that Middletown started in to raise a great sum of money for the Red Cross, and everyone helped. Mrs. Satko, a poor Hungarian woman, wanted to help, but had nothing but her hen to offer. So she brought the hen and the eggs to the meeting. Happily there were men and women in charge of that fund who had the imagination to see at once that here was the incident of the widow's mite brought into the Red Cross work. This poor woman gave all she had.

"Of a truth I say unto you that this poor widow hath cast in more than they all."

The hen and her eggs might possibly have sold for \$1.50 on the basis of their food value, but Middletown saw faith value of such an offering. So they put the hen up at auction and she brought \$266. A wealthy man paid \$100.00 for the eggs. Then he gave them back and they were put up at auction one at a time. The first egg brought \$400 and the entire 12 brought \$1,734.91, all of which, of course went to the Red Cross. Thus this common citizen in feathers becomes the highest priced hen in the country. We would not back her in an egg-laying contest but as an advance agent for a worthy enterprise she goes to the top roost. And Mrs. Mary Satko, through her humble gift has become, in proportion to her means, the largest subscriber to the Red Cross. And why should not Middletown change its nameto Toptown?

THE ENEMY SURPRISE ATTACKS REPELLED

Fighting in the East

PARIS, Aug. 28—The war office communication issued last night says:—

"The artillery fighting has been rather violent on the left bank of the Meuse, especially in the region to the north of Hill 344. The enemy made no attempt against our new position during the day.

"In Lorraine, in the direction of Zelcheprey, and in Alsace, at Hartmans Weilerkopf, we have repulsed ten surprise attacks and have made a number of prisoners.

"Belgian communication:—During the days of Aug. 26 and 27, German artillery prevailed along the Belgian front. Avecapelle and Adinkirke were bombarded by long range guns.

"Army of the East:—Canonading and patrol encounters have taken place to the north of Monastir. The artillery activity was moderate on the rest of the front. Our aviators have bombarded Lesnica between Lakes Malik and Orchrida."

Canadians Driving Back Vast Hords of Germans at Lens

The last week has seen very severe fighting around Lens where the Canadians are heroically fighting for every foot of ground.

Through the cities of St. Laurent, St. Theodore and St. Emille to the north and west of Lens they have fought past high slag and pit heads, along railway embankments and down sunken roads, until they have broken a way through these rightful defences to the western streets of the inner city. Every day, and sometimes many times a day, they have been counter attacked by swarms of Germans coming up out of their tunnels, and between these attacks they have been under a terrific gunfire from a wide semicircle of heavy batteries. Six German divisions have attacked them in turn and been shattered against them. These divisions are the Seventh and an Eighth, the Fourth Division of the Eleventh Reserve, the 220th and the First Reserve Division. In addition to these six divisions, some portions at any rate of the 185th Division and of the 36th Reserve Division, have been engaged.

The total German strength used at Lens will exceed fifty battalions, and the German losses may perhaps be estimated at between 12,000 and 15,000. The Canadians themselves have been hard pressed at times, but have endured the exhaustion of the great struggle with amazing strength of spirit, grimly and fiercely resolved to hold their gains unless overwhelmed by numbers of their advanced positions, as it has sometimes happened to them.

THE BLESSING OF A HEALTHY BODY

Has Not Had An Hour's Sickness Since Taking "FRUIT-A-TIVES".

MR. MARRIOTT 78 Lees Ave., Ottawa, Ont., August 9th, 1915.

"I think it my duty to tell you what 'Fruit-a-tives' has done for me. Three years ago, I began to feel run-down and tired, and suffered very much from Liver and Kidney Trouble. Having read of 'Fruit-a-tives', I thought I would try them. The result was surprising. During the 3 1/2 years past, I have taken them regularly and would not change for anything. I have not had an hour's sickness since I commenced using 'Fruit-a-tives', and I know now what I haven't known for a good many years—that is, the blessing of a healthy body and clear thinking brain."

GIRL COULD  
NOT WORK

How She Was Relieved from  
Pain by Lydia E. Pinkham's  
Vegetable Compound.

Taunton, Mass.—"I had pains in both  
sides and when my periods came I had  
to stay at home from work and suffer  
for a long time. One day a woman  
came to our house and asked my  
mother why I was suffering. Mother  
told her that I suffered every month  
and she said, 'Why don't you buy a  
bottle of Lydia E. Pinkham's  
Vegetable Compound?' My  
mother bought it and the next month I  
was so well that I worked all the month  
without staying at home a day. I am  
in good health now and have told lots of  
girls about it."—Miss CLARICE MORIN,  
22 Russell Street, Taunton, Mass.

Thousands of girls suffer in silence  
every month rather than consult a phy-  
sician. If girls who are troubled with  
painful or irregular periods, backache,  
headache, dragging-down sensations,  
fainting spells or indigestion would take  
Lydia E. Pinkham's Vegetable Com-  
pound, a safe and pure remedy made  
from roots and herbs, much suffering  
might be avoided.

Germany May Have Another  
Chancellor

Copenhagen, Aug. 28—The  
possibility of another change in  
Imperial Chancellors in Ger-  
many is discussed by George  
Bernhard in the Vossische Zeit-  
ung.

Lachute, Que., Sept. 25th, 1908,  
Minard's Liniment Co., Limited.

Gentlemen,—Ever since coming  
home from the Boer war I have  
been bothered with running fever  
sores on my legs. I tried many  
salves and liniments; also doctored  
continuously for the blood, but got  
no permanent relief, till last winter  
when my mother got me to try  
MINARD'S LINIMENT. The ef-  
fect of which was almost magical.  
Two bottles completely cured me  
and I have worked every working  
day since.

Yours gratefully  
JOHN WALSH.

Gifford Pinchot, one of the  
foremost conservationists of  
the United States, says of that  
country: "The clear duty of the  
nation is to guarantee the farm-  
ers a fair price for their crops  
when grown, and a reasonable  
supply of labour at harvest. The  
clear duty of the farmer is to  
raise food enough to win this  
war for democracy against  
Kaiserism." This applies with  
equal force in Canada.

"I once wrote on a black-  
board," says a Philadelphia  
teacher, these words: "The  
toast was drank in silence," and  
then asked my class. Can any  
one tell me what the mistake in  
this sentence is?"

The pupils pondered. Then  
a little girl held up  
her hand, and at a nod  
from me went to the  
board and wrote the following  
correction:  
"The toast was ate in sil-  
ence."

Jerusalem Impregnable!

New York, Aug. 26—The  
ancient city of Jerusalem, one of  
the British campaign in Pales-  
tine, is now a strongly fortified  
city, protected by modern arma-  
ment, and its Turkish defenders,  
officered by Germans of high  
command, have prepared a de-  
fensive which, to be overcome  
will require an effort on a parity  
with the trench campaign in  
Flanders, according to members  
of a party of missionaries who  
arrived here this week from  
Turkey and surrounding mis-  
sion fields.

A spokesman for the party as-  
serted that in his opinion Jeru-  
salem could never be taken by a  
frontal attack and could be con-  
quered only by extensive flank-  
ing operations. This defense of  
the Turks, he said, had been  
prepared with every ingenuity  
of the German military mind,  
and it has been under way since  
January. In December, or even  
January, he declared, the city  
could have been taken with ease  
by a single army corps. The  
Turks, however, as well as their  
German allies to the north of  
the city, are being continually  
subjected to air raids from the  
British camp.

Premier Announces Increase  
in Pensions.

Ottawa, Aug. 27—Pending  
final action in regard to pen-  
sions to soldiers and soldiers'  
dependents, there is to be a flat  
increase in the rate of pensions  
to meet the increased cost of liv-  
ing. The announcement was  
made in the House today by Sir  
Robert Borden in explaining the  
Government's decision to post-  
pone legislative action upon the  
proposed new scale of pensions.  
The whole question, stated the  
Prime Minister, was one that  
should be dealt with by the new  
Parliament that would shortly  
be summoned. It was a fact,  
however, that the cost of living  
had materially increased in  
Canada and the Government  
deemed it advisable, pending  
final consideration of the ques-  
tion, that there should be  
a further allowance  
to those drawing pensions. The  
proposed increase would date  
from the beginning of the pre-  
sent fiscal year—April 1st.

To Hon. Charles Murphy, the  
Prime Minister stated that the  
Government had not decided  
upon the rate of increase.

DEATH AT MIDDLETON

The Rev. Joseph Gaetz, of  
Middletown, N. S., died suddenly  
on Tuesday night of this week.  
He was one of the best known  
Methodist ministers of the Nova  
Scotia Conference. He has been  
a supernumerary for several  
years past. Two brothers were  
ministers of the Methodist  
Church: Thomas, who died in  
Newfoundland some years ago,  
and Leonard, formerly pastor  
of St. James Church, Montreal,  
who died at Red Deer, Alta.,  
only a few years ago. One son,  
Major H. Gaetz, was killed in  
action in France.

DOINGS AT OTTAWA

Ottawa, Aug. 27—The  
Government of Sir Wilfrid Laurier  
has received a letter to the Hamil-  
ton Win-the-War-League which  
shows conclusively that patriot-  
ic Canadians need expect nothing  
from him but oratorical vapour.

The Morning Chronicle has  
been asserting that Laurier  
would support compulsory ser-  
vice if volunteering failed. The  
Hamilton Association asked  
him the question. His answer  
is that compulsory service is  
"repugnant" to the people. He  
therefore makes plain what peo-  
ple who understand him know—  
that he is chained to the anti-  
war Liberals of Quebec and  
must do their bidding.

In the meantime the machine  
made Winnipeg Convention  
has caused a rebellion in the  
Liberal ranks in the West. Wit-  
ness the gathering of Liberals  
at Winnipeg on Monday 20th in-  
stant, attended by thousands at  
which Premier Norris and At-  
torney-General Hudson—two  
leading Liberals who attended  
the machine convention—re-  
pudiated Laurier as leader; and  
witness the unanimous resolu-  
tion by that monster meeting  
affirming the resolution, and  
calling for a Win-the-war union  
government.

This party revolution in the  
West results from deceit prac-  
tised by Laurier and his satal-  
lites at Ottawa, Laurier thought  
he could hoodwink the Western  
Liberals, and hitch them up  
with his Quebec anti-war crowd.  
That dishonesty will act work  
in the great issue before Can-  
ada. A man must be a man. A  
leader must be a leader. Laurier  
cannot lead a Quebec wing that  
is against the war and wants to  
dominate Canada, and at the  
same time loyal Liberals of the  
West who insist on Canada do-  
ing her full duty in the war.

A great fear has fallen on the  
Laurier crowd in Parliament.  
They are dismayed by the West-  
ern situation. The much vaunt-  
ed Winnipeg Convention has  
cracked; and a yawning abyss  
opening between Laurier and  
the West.

Their dismay is intensified by  
the Government's determina-  
tion to give every soldier and  
every nurse enlisted on overseas  
duty the right of voting; and  
to arrange in every possible way  
by fair means, that every soldier  
and every nurse shall be given  
opportunity to vote. That is  
the sum and substance of the  
Military Voters' Bill now before  
the House. The Laurier crowd  
are kicking, buting and other-  
wise obstructing it.

Only a few weeks ago Pugsley  
and McDonald wanted Canada  
to stop sending men overseas,  
and leave it to the United States  
to supply the reinforcements  
needed. Pugsley said we should  
go slowly. McDonald reiterated  
his sentiment. Both thought  
it was up to the Americans to  
take on the load, and let Can-  
ada enjoy a rest.

Now what do you think is  
their argument? Pugsley says  
that British subjects who were  
residing in the United States  
and who have enlisted in the  
Canadian forces are "foreign-  
ers"; and McDonald backs him  
up on that; and those two, and  
others of the crowd,—McKenzie,  
Sinclair & Co.—say that these  
"foreigners" who are fighting  
for us should not have a vote  
in the coming elections.

This Laurier bunch are quite  
satisfied that all the able bod-  
ied young chaps who are "pro-  
fiteering" at home, and who re-  
fuse to enlist, should vote; but  
they insist that the red-blooded  
Britishers who happened to live  
across the border, and who have  
come over to help us, and are  
now fighting for us in Flanders,  
shall be treated as "foreigners"  
and "aliens" and be shut out  
from voting.

Nova Scotians who remember  
the miserable spirit that actuated  
the Murray government in  
1916 will not be surprised at the

Government of Laurier at the front  
note. He trusts our overseas fighting men were  
than the Micmac Indian. And he  
had to be kicked into giving the  
soldiers who were in Nova Scotia  
a chance to vote. And he would  
not have done that much if the  
Dominion government had not  
intervened at the request of the  
Conservative members of the  
legislature.

The "blockers" are at work  
from day to day trying to ob-  
struct this Bill. They exclaim  
that they want "the boys" to  
have a vote. But their hypocrisy  
cannot be concealed. They do  
not want either "the boys" or  
"the girls" to have a vote. And  
they are wilfully wasting days,  
and heaping up thousands of  
dollars of expense on the coun-  
try, trying to kill the Bill.

Davidson of Annapolis cut  
into the fallacies of Pugsley  
and McDonald with a rapier  
thrust when he pointed out that  
the men in the trenches are the  
flower of the country physically  
and intellectually, and are the  
men best able to judge by  
knowledge and experience  
whether the Laurier assertions  
about the Government's mili-  
tary administrations are true  
or false. Yet Pugsley, McDonald  
& Co. are afraid to trust the sol-  
diers with the right to judge.

It is plain now that the Laur-  
ier crowd, like Murray's bunch,  
would willingly disfranchise the  
soldiers. They are afraid of the  
win-the-war campaign that is  
coming. They want the Quebec  
anti-war men, the Germans,  
Austrians and Doukobors of the  
West, and all the stay at home  
young gentlemen to vote, in the  
hope that Laurier may win, and  
Canada may be taken "out of  
the war," except in so far as  
there may be opportunity to  
make money by supplying pro-  
duce and munitions. That is  
the Quebec idea. An Quebec  
wants munitions. That is the  
Quebec idea. And Quebec wants  
to rule; and Quebec will rule if  
Laurier should win.

Laurier will not win. His  
hopes are fading every day. That  
is no explanation of the miser-  
able spirit by his followers in  
regard to the soldiers votes.  
Laurier cannot win. Laurier  
cannot win. Laurier must not  
win. He has settled that by his  
letter to the Hamilton League  
in which he declines to pledge  
himself to supply the men so  
urgently needed at the front. All  
that Laurier wants is political  
power. His hope was to get that  
power by means of a solid anti-  
war Quebec. But the British  
people of Canada are being  
aroused; and there will be  
smashing defeat of Laurier's  
hope.

Coal to Drop in New York

New York, Aug. 24—The cost  
of anthracite coal to the dealers  
in New York city after Septem-  
ber 1 may be in the neigh-  
hood of \$6.20 a ton, based on  
the Administration schedule of  
\$4 a ton at the mines, it was es-  
timated last night by John D.  
Willenbrock, of the coal firm  
of Hencken & Willenbrock.

The \$6.20 rate includes trans-  
portation, barges charges, tow-  
age costs and the margin of 20  
cents a ton allowed to jobbers.  
If the \$4 mine schedule is prop-  
erly enforced, according to Mr.  
Willenbrock, the consumer can  
buy at prices ranging from \$7-  
40 to \$7.75 a ton, depending up-  
on the profit necessary to the  
dealer and his overhead costs.  
Included in the following  
table are the estimated coal  
costs to the dealer under the  
new regulation of \$4 a ton:  
Cost at mine . . . . . \$4.00  
Jobbers' profit . . . . . .20  
Freight transportation . . . 1.55  
Barge transportation . . . . 35

**THE CORRECT WAY  
TO TREAT A COLD**  
A cough is not a distinct disease, it is the result of  
inflammation caused by a cold. Therefore, the only  
way to cure a cough is to allay the inflammation  
which invades the delicate bronchial tubes. All of the  
narcotics in the world will not correct the conditions  
which cause a cough—they simply deaden the senses

**Reply**  
To the Church Wardens, Vestry, and other parishioners of St. James' Church, Kentville:

Dear Brethren: The Address which you have been pleased to present to me and so generally signed by church wardens, vestry and 122 other parishioners is received and accepted with profound appreciation of the kind words you have expressed concerning the spiritual and temporal work I have, under God, been enabled to do in the Parish of St. James' during the five and a half years I have been with you as your Rector.

On behalf of Mrs. Mellor I wish to thank you for your loving words to her and to all of us in the trying hours of sorrow and bereavement through which we have lately passed.

Such thoughtful attention increases the bonds of friendship which have been formed while we have labored together as pastor and people.

I pray God may abundantly bless and guide you in the important work which lies before you, and that He may shower upon you all, as a Church and people, the riches of His Grace.

Yours very faithfully,  
**T. C. MELLOR,**

**Hammered Three Fronts**

London, Aug 27—Three great Allied drives assailed Teutonic lines, on three fronts today. British and French troops resumed the offensive which they started last Monday.

Italy continued her fierce drive uninterrupted. In a week the Italians have taken approximately ninety square miles of Austrian territory, close to 25,000 prisoners, a vast store of guns, munitions and supplies, and inflicted stupendous casualties on the enemy, estimated in semi official Rome advices at 75,000. The fighting today was on the comparatively open Bainsizza Plateau. The rugged points of the mountains having been successfully passed Rome looked for more rapid progress, as the troops pressed on to Laibach.

Suddenly changing his point of attack from the left bank to the right of the Mfuse, Gen. Petain was striking another blow at the German defenses out of Verdun. The initial shock carried the French fighters nearly a mile forward on a two mile front.

On the British front, Field Marshal Haig also mixed his blows. He drove successfully against German positions north of St. Quentin, in a sector where there has been little fighting in two months. Powerfully fortified German posts of the "Hindenburg Line" were stormed and taken and the British front advanced half a mile over a mile front.

There never was seen so many guns on one battlefield as those on the wide stretch of country beyond Ypres. One walks for miles through concentric lines of batteries. First one finds monstrous 12 inchers and naval fellows with long snouts, which fired at far targets and shook the earth around. After walking over a mile or more of shell one comes to the 9.2's huddled

together like hippo, and these howitzers were all belching out flames of death. Eight inchers, six inchers and then 4.2's greeted one with blasts of fire. Further towards the lines and then far forward in the ground where men walked cannily, keeping a quick eye for any kind of cover, avoiding certain clumps of branchless trees, going on a winding track toward some rubbish heap where German shells come rummaging in search of men, the field guns beat out their sharp tattoo

Flights of shells passed overhead, never ceasing for hours, though there was no battle being fought, but only the ordinary day's strafe by the artillery. No wonder the enemy has thought out a new method of defence for saving man-power in his front line positions, building concrete blockhouses which hold a score or so men in advanced posts, and keeping his men forces as far back as possible for counter attacks, but even that cannot save him from great casualties, for our guns are far forward and keep his support lines under an annihilating fire. The metal which I saw going over yesterday was not more than went the day before, and what will, I suppose, go tomorrow. It is stupendous in its quantity and our gunners shoot straight.

Another Bombing Expedition.

London, August 27.—Another bombing expedition, was made over Belgium on Saturday night by British aviators.

"The bombing raid was carried out at midnight Saturday by the Naval Air Service at the St. Denis Western Airbase," the official report says.

"A large number of bombs were dropped. One of our machines is missing.

Today's French War Office Report.

Paris, Aug. 27.—Strong German attacks were made last night on the Aisne and Verdun fronts. The War Office announces that the assaults were broken up by the French fire and that all French positions were maintained. More than 1,100 prisoners were taken yesterday.

Boys From Canada in Military Hospitals.

Ottawa, August 27.—Of the boys whom Canada has sent to the front, 8,840 are now enrolled in the Canadian military hospitals for treatment and re-education, according to the latest report of the Military Hospitals Commission, dated August 15th. Of these 7,046 are in convalescent homes and 1,115 are tuberculosis cases in sanatoria provided by the military hospitals commission for their treatment. The remaining 679 are chiefly in general hospitals. The increase in the total population of the various hospitals over last week is only 29.

The latest returns from the Director of Medical Services in London, indicates that on August 10th the Canadian soldiers being cared for in the hospitals and sanatoria in the United Kingdom were 17,813.

**Amrican Reply To The Pope's Peace Proposals**

Washington, August 27th.—Signs were in evidence today of the dispatch of President Wilson's reply to the peace proposals of Pope Benedict at an early date. Officials freely conceded the probability of the early completion of the communication indicating that the President and Secretary of State Lansing at least have agreed upon the basic features of the reply, so that what remains to be done is to put these ideas into diplomatic language. It is understood that rough drafts of some of the important points already have been prepared. So far no authorized statement has been forthcoming as to the nature of the reply.

Conservation of Ewe Lambs.

How to increase the numbers of sheep in Nova Scotia is a matter always of great interest, but of almost paramount interest now. It can only be done by conserving the ewe lambs for breeding instead of allowing them to go to the butchers hands. This has been done to a larger extent during the past two years than formerly, but needs to be extended if the province is to reap the full benefit from the present high prices for sheep and lamb products. It is with a view to bringing about this condition that the Department of Agriculture has arranged with its County Representa-

tive, Dr. Hugh McPherson of Antigonish, to take measures to secure select ewe lambs which would otherwise go to the butcher and have them shipped to parties who will send in their orders, either directly to him or to the Secretary for Agriculture, M. Cuming, at Truro.

Provided orders are received Dr. McPherson plans to purchase select ewe lambs direct from the farmers. He expects that he will have to pay for them about 1 cent per pound more than for commercial lambs, equal to about \$1.00 per head. Those interested in securing breeding ewe lambs in this way should send in their orders

during September and October. Just what the cost cannot be estimated at the present time, but it is not likely to be much less than per head delivered. There seem a large price in comparison with half that figure which lambs could be bought before the war, but it must be remembered that butchers' lambs have nearly doubled and wool has troubled in value.

It is to be hoped that many interested in sheep breeding will take advantage of this opportunity to get ewe lambs, which should be conserved in the interest of increased wool and mutton production in the years to come.

HALIFAX CALLS YOU

Retaining all its great natural beauties of parks, waterways, gardens and drives that make it a vacationist, and along with its picturesqueness as a mighty Empire storehouse of naval and military supplies, also had a wonderful change in its business methods and commercial outlook during the past few years. There is not a more wide awake city in the entire Dominion to-day nor one with a more progressive spirit than Halifax. There is a first step to progress, there is more optimism, there is more confidence among the business men in the future of the city. Halifax is today a live-wire business city, with modern shops, latest goods in all lines, and keen for business.

First among the great landmarks of progress that stand out for all to see, is the new Halifax Ocean Terminals, now being completed, costing millions of dollars, and placing Halifax in the very front of the ocean ports of the world. Contractors over 1/2 mile long have been constructed beside which the largest ocean giant liners will look like pigmies; a great stretch of ground has been levelled as a shunting yard and a location for the handsome Union Station; a tunnel in many places scores of feet deep has been dug for miles through the solid rock as a roadbed to connect up the terminals by rail with the main lines at Rockingham; and more rail-road yards have been built at Rockingham for the accommodation of thousands of cars. All of these are preparations for the immense trade that will be handled at this Empire port.

Next, the Imperial Oil Company is building a plant on Halifax Harbor that will cost nearly \$3,000,000. Similar plants are being built at Montreal, Winnipeg, and Vancouver, each at what this giant company thinks is the strategic point of the Maritime Provinces, of Upper Canada, of the Middle West, and of the Pacific coast; respectively. The choosing of Halifax as the location for this huge industry is very, very significant.

**FRANK EATON**  
Mr. Frank Eaton, who died last week was buried under the auspices of the Truro Fellows on Wednesday afternoon Rev. Dr. Bruce officiating. His death was caused by paralysis from which he had suffered the past four years. He leaves a widow, two sons, and a daughter, Mr. H. F. Eaton being the only one residing here. One son Roy was killed by accident in the Yukon a year ago. One daughter Mrs. Gates died in Truro about three years ago.

**WILLIAM CRAZE**  
News has been received by cable that Mr. William Craze passed away on Monday, Aug 27. He died at his home in Huyton near Liverpool, England, at the age of 65 years. He was taken ill in April and had an operation performed later which seemed to be successful. But he never regained his full strength and gradually wasted away. Mr. Craze was born at St. Ives in Cornwall and started on his own account at the age of 19 in the fruit business in Birmingham. Later he moved to Liverpool and has been identified with the fruit trade there ever since. When the Federated Fruit Merchants Association of Great Britain was formed he was elected their first president and served in that capacity two years. At the time of his death he was associated with the firm of Charles White & Hall, Ltd., of Liverpool, and was well known in the apple circles of Nova Scotia. He first came out in 1911 and, until last winter, was a familiar figure around Kentville every apple season. He visited the Valley a year ago for four or five weeks and when he left it was little expected by his relations and friends here that he was bidding them goodbye for the last time.

He was a life long teetotaler and non-smoker and a prominent worker in the Wesleyan Methodist Church. He was a local preacher in that body and preached most acceptably in many pulpits in Kentville and Kings County and a great Sunday School worker. In politics he was a Conservative, an admirer of the late Joseph Chamberlain and his policies. He was a fluent public speaker and was in great demand at election times. His wife died in 1902 and he leaves four daughters and three sons to mourn his loss.

The children are Marie, wife of Capt. J. P. Thomas at present serving in India; Bessie, wife of Mr. S. B. Jackson, in charge of munition works in Liverpool; Mabel, wife of Mr. Michael Brown in the insurance business Liverpool, Miss Nellie teaching near Liverpool, William Craze, Jr., Lieutenant in England; Ernest of Port Williams in this County, and Stanley residing at Kentville.

Of his daughters Mrs. Brown was in Kentville in the summers of 1912 and 1913 and Miss Mabel resided with him here each year he kept house. He will not only be much missed in fruit growers circles but with many others with whom he became most intimately associated.

Mr. S. C. Parker, former Secretary of the N.S.F.G.A. was in town yesterday and in conversation stated that in his opinion there was little above half million barrel mark for apples in the Province this year. His fruit was clean and good but the prospects were now only about half they were some months ago. He ordered 3000 barrels for his crop at first and had reduced the order to 1500 barrels and felt sure that would be sufficient.
