MONTREAL, THURSDAY MORNING, JUNE 2, 1836.

185

Vol. II.

## Morning Courier.

MONTREAL, TUESDAY, MAY 31, 1836.

New Brunswick and Nova Scotia papers to the 11th instant, were received yesterday. H. M. packet *Linnæus*, 26th ultimo from Halifax, arrived at Montreal on the 7th instant.

The Halifax Times this evening of the 20th inst. contains an account of the arrival of the *Linnæus* at Halifax, and of the arrival of the *Edwards* at St. John's. It contains also an account of the arrival of the *Edwards* at St. John's, and of the arrival of the *Edwards* at St. John's. It contains also an account of the arrival of the *Edwards* at St. John's, and of the arrival of the *Edwards* at St. John's.

It is with considerable satisfaction we perceive, that the subject of education has been taken up by the Legislature of the Province of New Brunswick. The object of the meeting was to originate a plan for a general system of education, and for the promotion of intellectual improvement, not only in the United States and through the world. What is proposed to be the first step of the plan, was at the first proposed, it consists in inviting people to propose schemes of elementary education, and to send in a list of the names of the persons, who are to be employed in the execution of the plan.

We are struck by the value of the plan, and the singularity of the view, as far as developed, of an Education Convention in the State of Pennsylvania. The object of the meeting was to originate a plan for a general system of education, and for the promotion of intellectual improvement, not only in the United States and through the world. What is proposed to be the first step of the plan, was at the first proposed, it consists in inviting people to propose schemes of elementary education, and to send in a list of the names of the persons, who are to be employed in the execution of the plan.

What is proposed to be the first step of the plan, was at the first proposed, it consists in inviting people to propose schemes of elementary education, and to send in a list of the names of the persons, who are to be employed in the execution of the plan.

The New York Commercial Advertiser, writes that "a young man, calling himself John Kelly, jun., has been arrested by the officers of the police, on a charge of having committed in Gore district of Upper Canada."

Almost every subject, whether of a political, scientific, literary or religious nature, sought to be promoted in the United States by means of a Convention. We are not trying the efficacy of this process, in order to a hearing our political differences, but to determine upon the points which the hearing man of public opinion could be mainly directed. Our republican neighbors have proposed long ago in the use of the term convention, beyond the limit of the matter primarily associated with it.
