

# The Conception-Bay Mail.

"TRUTH—Ever lovely since the world began, The foe of Tyrants and the friend of Man."

VOL 2

HARBOR GRACE, NEWFOUNDLAND, WEDNESDAY, OCTOBER 6 1853.

NO. 49

## Post Office notice—Registration of Letters.

On and after the 1st April next, Letters may be registered in Newfoundland by the payment of a fee of 6d. currency on Local Letters, and 6d. sterling on Letters for the United Kingdom and for British Colonies, not passing through the United Kingdom, a further fee will be charged on letters forwarded through the United Kingdom.

The safe delivery of those Letters, will not be guaranteed by the Post Office; yet their inland transmission will be comparatively secure, from the means that will be adopted to trace them to their destination.

The postage on Registered letters must be paid in advance.

Full information respecting the Registration of Letters may be obtained on application at the General Post Office, or Post Offices in the Western district.

W. L. SOLOMON, P. M. G.

Post Office Department, 1st March, 1853.

## Office of the Board of Works,

April 8th, 1853.

The following resolutions were adopted by the Board on the 4th inst:

**Resolved.**—That the Board of Works will not be accountable for any expenditure on Roads or public Buildings, or any institution over which it has control, except such expenditure shall be ordered by the Board,—such order to be verified by the written order of the Chairman and Secretary for such expenditure.

**Resolved.**—That no surveyor or Inspector of Roads, or servant of the Board, shall give or have authority to give any order for supplies, or work of any description, without first obtaining the written order of the Chairman and Secretary.

## NOTICE TO MARINERS.

THE BOARD OF WORKS hereby give notice that the temporary Light exhibited on Green Island, at the entrance of Catalina Harbor, Trinity Bay, since the 1st March last, was on the 13th instant, removed, and replaced by one of a more brilliant character and extensive range. This is a **FIXED WHITE LIGHT** burns at an elevation of 92 feet above high water, exhibited every night from sunset to sunrise, and in favourable weather will be seen from E. N. E. seaward, to W. 12 miles. Vessels bound Northward by keeping this Light open with the North-head of Catalina until Bonavista Light opens with Cape Le Jean, will give the Flowers Rocks an ample berth—or when coming from the Northward and bound for Catalina, by giving the N. heads a moderate berth, you will clear the B. andies Rocks by steering for Green Island Light. Green Island is situated in lat. 48. 30 N. long. 53. 03 east. JOHN STUART

Acting Secretary Board of Works

## LET US REASON TOGETHER.

### HOLLOWAY'S PILLS.

#### WHY ARE WE SICK?

It has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAY'S PILLS are specially adapted to the relief of the Weak, the Nervous, the Delicate, and the Infirm, of all climes, ages, sexes, and constitutions. Professor Holloway personally superintends the manufacture of his medicines and offers them to free and enlightened people, as the best remedy the world ever saw for the removal of disease.

#### THESE PILLS PURIFY THE BLOOD.

These famous Pills are expressly combined to operate on the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

#### DYSPEPSIA AND LIVER COMPLAINTS.

Nearly half the human race have taken these Pills. It has been proved in all parts of the world, that nothing has been found equal to them in cases of disorder of the liver, dyspepsia, and stomach complaints generally. These soon give a healthy tone to these organs, however deranged, and when all other means have failed.

#### GENERAL DEBILITY—ILL HEALTH

Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills that they may become the medicine of the masses. Learned Colleges admit that this medicine is the best remedy ever known for persons of delicate health, or where the system has been impaired, as its invigorating properties never fail to afford relief.

#### FEMALE COMPLAINTS.

No female, young or old, should be without this celebrated medicine. It corrects and regulates the monthly courses at all periods, acting in many cases like a charm. It is also the best and safest medicine that can be given to children of all ages, and for any complaint; consequently no family should be without them.

HOLLOWAY'S PILLS are the best remedy known in the world for the following Diseases:—

Ague, Asthma, Bilious Complaints, Blisters on the Skin, Bowel Complaints, Colic, Constipation of the Bowels, Consumption, Debility, Dropsy, Dysentery, Erysipelas, Female Irregularities, Fevers of all kinds, Fits, Gout, Headache, Indigestion, Inflammation, Jaundice, King's Evil, Liver Complaints, Lumbago, Rheumatism, Retention of Urine, Scrofula, Sore-throats, Stone and Gravel, Secondary symptoms, Tic-douloureux, Tumours Ulcers, Venereal Affections, Worms of all kinds, Weakness from whatever cause, &c. &c.

Sold at the Establishment of Professor HOLLOWAY, 244 Strand, (near Temple Bar,) London, and 80, Maiden Lane, New York; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—1s. 3d.—3s. 3d.—and 5s. each Box.

There is a considerable saving by taking the larger sizes.

N.B.—Directions for the guidance of patients in every disorder are affixed to each Box.

Wholesale and retail by  
T. McCONNAN.

St. John's N. F.

BIBLES and other BOOK  
Sold at the Societies Prices, Tracts Gratis

A MARVELOUS REMEDY FOR MARVELOUS AGE.

#### HOLLOWAY'S OINTMENT.

The Grand External Remedy.

By the aid of a microscope, we see millions of little openings on the surface of our bodies. Through these this Ointment, when rubbed on the skin, is carried to any organ or inward part.—Disease of the Kidneys, disorders of the Liver, affections of the Heart, Inflammation of the Lungs, Asthma, Coughs and Colds, are by its means effectually cured. Every housewife knows that salt passes freely through bone or meat of any thickness. This healing Ointment far more readily penetrates through any bone or fleshy part of the living body, curing the most dangerous inward complaints, that cannot be reached by other means.

Erysipelas and Rheumatism, Scorbutic Humours.

No remedy has ever done so much for the cure of disease of the Skin, whatever form they may assume, as this Ointment. Scurvey, Sore Heads, Scrofula, Erysipelas, cannot long withstand its influence. The inventor has travelled over many parts of the globe, visiting the principal hospitals, dispensing this Ointment, giving advice as to its application, and has thus been the means of restoring countless numbers to health. Sore Legs, Sore Breasts, Wounds and Ulcers.

Some of the most scientific surgeons now rely solely on the use of this wonderful Ointment, when having to cope with the worst cases of sores, wounds, ulcers, glandular swelling, stiffness or contraction of the joints, even of 20 years standing.

#### Piles and Fistulas.

These and other similar distressing complaints can be effectually cured if the Ointment be well rubbed in over the parts affected, and by otherwise following the printed directions around each pot.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs, Bad Breasts, Burns, Bunions, Bite of Moschetoes and Sand Flies, Cecobay, Cheigo-foot, Chilblains, Chapped hands, Corns, (soft) Cancers, Contrasted and Stiff Joints, Elephantiasis, Fistulas, Gout, Glandular Swellings, Lumbago, Piles, Rheumatism, Scalds, Sore Nipples, Sore Throat, Skin-diseases, Scurvey, Sore-heads, Tumours Ulcers, Wounds, Yaw.

Sold at the Establishment of Professor HOLLOWAY, 244 Strand, (near Temple Bar) London, and 80, Maiden Lane, New York; also, by all respectable Druggists and Dealers in Medicines throughout the Civilized World at the following prices:—1s. 3d., 3s. 3d., and 5s. sterling, each Pot

Sub-Agents,—John McCarthy, Carbon near N. & J. Jillard, Harbour Grace; John Stentford Brigus.

Wholesale and Retail by  
T. McCONNAN, Agent

N. B.—Directions or guidance of patients in every disorder are affixed to each Pot.

## PHENIX FIRE ASSURANCE COMPANY.

Lombard Street, and Charing Cross, London.

[ESTABLISHED IN 1782.]

Insurances against Fire are effected by the PHENIX COMPANY upon all descriptions of Property in Newfoundland, on the most favourable terms; and the experience of nearly three quarters of a century has manifested to the public the promptitude and liberality with which all losses have been adjusted by them.

Persons Insured by this Company do not depend upon restricted funds for the payment of their claims; the Security offered by the PHENIX OFFICE being unlimited, comprising in addition to the large invested Capital of the Company the whole fortunes of a numerous Proprietary, composed of some of the most opulent gentlemen and merchants in the United Kingdom.

Rates of Premiums, and all particulars of Insurance, will be made known on application to the undersigned, by whom Policies are issued free of charge.

W. & G. RENDELL,

Agents for Newfoundland

## COMMERCIAL BANK OF NEWFOUNDLAND.

(By order of the Board)

R. BROWN,

Manager

## UNION BANK OF NEWFOUNDLAND.

THE RATE OF INTEREST on Deposits receipts of this Bank will be reduced to Three per cent per annum, from and after the 1st day of July next.

(By order of the Board)

JOHN SMITH,

Manager

**THE CONCEPTION-BAY MAN.**

*From Willmer & Smith's European Times*

**SUPPOSED LOSS OF THE AUSTRALIAN PASSENGER SHIP ULTONIA WITH 183 SOULS.**—For several weeks the most painful anxiety has prevailed respecting the fate of the Australian passenger ship Ultonia. Captain William L. Baker, of 1341 tons register, belonging to Messrs. Moore and Co., of this town. In September last she was chartered to Messrs. Fry and Davison for a voyage to Melbourne, loaded in the East India Docks, and on the 3rd of November she was cleared by the London emigration officers, having on board 123 steerage passengers, families, and six cabin passengers; her crew including master and officers, numbering 54. She passed through the Downs on the 6th November and proceeded on her voyage, although somewhat tardily, and on the 15th of March she was spoken with in lat. 15 S., lon. 52 W., a considerable distance to the southward of the Cape. Since then not the least tidings have been heard of the ship or of any of her numerous passengers.

**PERILOUS POSITION.**—A young man from Brentwood named Tyler a sergeant in the 23rd Fusiliers, in India, has written his father:—“I had a narrow escape a few nights since. I was in the jungle on an out-picket at night, with instructions on no account to fire my musket, unless under the most urgent necessity, for fear of alarming the enemy, who were in the immediate neighbourhood. A very large tiger came suddenly after me. I had but just time to receive him on my bayonet, and I gave him a severe wound. He reared up, and was prepared to make a spring at me, when I fired my rifle and shot him through the heart. In a few minutes a picket was down, and I was taken a prisoner for disobeying orders, and next morning brought before my officers. I related my tale, and a party was sent out in search, and, a short distance from where I was placed, the tiger (a very large one) was found in the jungle dead. Some of our men had been lost from the same spot when out on night pickets.”—*Essex Standard.*

The *Times* city article of Wednesday, the 18th inst., says—“Nothing fresh has transpired with regard to the Atlantic telegraph. There is still communication through the whole length of the cable, but only of the faintest and most uncertain kind. A prevalent opinion seems to be that the defect is not in the instruments, but that the line has received some injury from abrasion on the coast, which will admit of speedy repair. The nominal quotation of the shares on Tuesday was £450 to £550.

The *Times* of Thursday, the 9th inst., says—“The condition of the Atlantic Telegraph is unaltered. Signals continue to be received, but they are too uncertain and faint to be intelligible. Occasionally an entire word is given, but never anything approaching a sentence. The experiments made still lead to the belief that the injury is near the coast—probably within two or three miles. The strong portion of cable manufactured expressly for the shore has now been shipped from Plymouth for Valencia, and will be substituted immediately on its arrival in place of the ordinary wire, which, however well adapted for undisturbed depths, totally inadequate to resist the liability to accident on a rocky coast. Transactions in the shares have taken place to-day at £485 and £500, the latter being the closing quotation.

**THE CONCEPTION-BAY MAN**

WEDNESDAY, 6th OCTOBER, 1858.

A Subscriber has favoured us with a copy of Mr. Hayward's address to his constituency, we could have wished that the Hon. Gentleman had so far honoured the *Conception-Bay Man*, as to have published his Manifesto therein, not that we had any right to expect such favour at his hands, holding as we do his Party and Principles in thorough aversion, but we think common respect for our Subscribers, who if not numerous, are certainly of the most respectable class, might have been a sufficient inducement to publish in the one Local Paper, all other considerations for the nonce set aside. But the same arrogant place dependant, and party bolstered scorn of public opinion, which made it a question whether it was worth his trouble to address Electors at all, no doubt still further influenced him to avoid the *Conception-Bay Man*, and slight its Subscribers; indeed it was an act of great condescension to prepare any Address, seeing that his Election was secure whenever the Fiat should should go forth.—Let Hayward be returned!

*(To Editor of the Conception-Bay Man.)*

SIR,—Mr. Hayward supports the Political Party which passed the Representation Bill—giving two Members to Holyrood and Harbour Main, places having fewer than 6000 inhabitants, and no more than two to the Electoral District of Harbor Grace, which has a population of more than 10000. Was this just? He upholds the Party, whose Executive appropriated the funds of the Colony without the sanction of the Peoples House—as for Example

£1000 for the Encouragement of Immigration. Was not that unconstitutional?

He votes always with the party, whose Executive has granted permission to a Foreign owned Steamer to trade coastwise. Is that not illegal?—If the Executive is permitted to be above the law in two things, what hinders its overstepping the law in many things? And who is safe, and what is secure when it pleases the Executive to put forth its power contrary to law?

He is the paid Servant of the party, which, while it acknowledges the propriety of a measure to purge the House of Assembly of salaried Members, has more than once opposed such a Measure and defeated it. With this Party Mr. Hayward acts. Is that how a Responsible Government would and should act? I trow not.

On the ultimate effects of the erratic tendencies of the Party now in power every Elector should ponder well before he gives his vote; and more especially should every influential Elector pause and think before he places himself and those who look up to him for advice in a false position by supporting a Candidate, who supports such a system.

I entreat the Electors to assemble in force at the hustings on 1st Nov. next to hear from Mr. Hayward and his friends an explanation and defence of his political career hitherto, and a distinct and unequivocal declaration of his future intentions.

Electors! the ballot box is your surest protection at elections. Ask Mr. Hayward to get it for you. Your children will yet thank you for the gift.

Yours &c.  
AN ELECTOR.

4th Oct., 1858.

*(To the Editor of the Conception-Bay Man.)*

SIR,—This is the age of new inventions, and some of your readers at least, will be glad to hear that a new kind of Cards have been patented by our Government, which are calculated to save much trouble, afford much amusement, and yield much profit, at least to the winners; several packs of these Cards have been lately manufactured in an official printing office, and a goodly sample has been forwarded to an agent in this place, to be distributed for public inspection. According to *Hoyle, H.*—I should say, Taxers are Trumps, and Servility a Court Card, a Placeman is Jack or the Knave, and Yankeeism the Ace of Hearts, the Tri-colour will always take a lift when fishery rights are at stake, and the Five Fingers represents Speculation, the highest in black takes the lead, and the least red the most valuable. The Ace is of little value without the Knave in hand, when the Deuce may be played with great advantage, and the stakes swept by a Card called Contingencies the game has been in vogue in the capital for the past four years,—it is high time Outport Electors should be made acquainted with its mysteries.

YOUR DEAL.

Harbour Grace,  
4th Oct., 1858.

N. B.—All true patriots receive the Cards gratis, the ministry having secured a sum of money for the outlay.

RE-PUBLISHED BY REQUEST.

*To the Independent Electors of Placentia and St. Mary's.*

GENTLEMEN,—

Under the present constitution of the country a representative of the people who accepts an office of emolument from the government, is compelled to go to his constituency for re-election in order to give them an opportunity of saying by their votes, whether as a holder of office he retains that confidence which they bestowed upon him when UNTRAMMELED AND FREE.

We copy the above sentence from Mr. Kelly's address to his constituency, and feel grateful to that Gentleman for the candour wherewith he has supported our views with regard to the species of thralldom imposed upon the peoples representatives by their appointment to lucrative Government Offices, it is true such persons have to make a second appeal to their constituents, but this is merely nominal, for, as we have frequently observed, the influence corruptly gained by their position during previous years, the lavish expenditure of public money upon influential individuals, the winking at illegal practices, and many other circumstances tend to stultify the efforts of those who would gain correct sense of public duty, so that the acknowledgements of venality are received with perfect indifference, and the customary appeals treated rather as complimentary than insulting, 'tho to a free and intelligent people, insulting they would most unquestionably be held to be.

*(To the Editor of the Conception-Bay Man.)*

MR. EDITOR,—On the evening of the 15th ult. the position of that brilliant but unknown visitor was as near as could be ascertained by the means at my command—Dec. 35 degrees N.—R. A. 11h 20m.—Its length of tail was about 4 degs.

On last evening its position was Dec. 22 degs. N.—R. A. 14h.—Its tail now extends to about 24 degs. Its nucleus is less than 4 degs from the bright star Arcturus. In twenty days it has passed over an arc of the heavens of about 37 degs., and is approaching the Equator at an angle of 33 degs.. Its tail points now as when first seen, to the polestar, and is slightly curved, the concave side being towards the sun from which luminary the nucleus of the comet is at the angular distance of about 34 degs. It set last evening N W by W.

Yours &c.  
POLARIS.

Harbour Grace,  
5th Oct., 1858.

TO THE EDITOR OF THE CONCEPTION-BAY MAN

SIR.—I would beg to call the attention of the Public to the inadequate supply of Water in this town, we have recently been great sufferers, and only a few days ago a large fire occurred in St. John's. Now I would suggest that we hold a public meeting and petition the Legislature for a Grant of money to bring in a sufficient supply to extinguish fires that may happen, to which we are now as liable as we were in April last.

I may say Mr. Editor it is a serious matter, and a subject that the people of this town do not seem to take that interest in which they should,—we pay in a large sum every year to the revenue and I think if it were properly represented we would get a grant to enable us to have a sufficient supply in case of fire, and for culinary purposes:—Why all this summer people have not been able to get sufficient for that.

CAUTION.

We are again properly reminded by our Correspondent, of the great want of Water in this town. A large sum of money is voted annually to the Water company in St. John's, and the amount paid for Pumps and Tanks there is extraordinary, and in addition to all this it is expected that some fifteen thousand pounds more will be appropriated by the government towards getting a further supply for the western district, now whilst we acknowledge the great necessity for such outlay we must say that it is hard upon the Outport districts to be taxed for this purpose and the sooner such things are provided for by assessment upon the parties benefited in the Capital the better: However as a large amount is due this district according to population, a portion of it would ensure a good supply of Water to this Town.

THE CONCEPTION-BAY MAN.

SELECT POETRY.

MY DOVES.

BY MISS BARRETT.

My little doves have left a nest  
Upon an Indian tree,  
Whose leaves fantastic take their rest  
Or motion from the sea;  
Forever there the sea winds go,  
With sunlit faces, to and fro.

The tropic flowers looked up to it,  
The tropic stars looked down;  
And there my little doves did sit,  
With feathers softly brown;  
And glittering eyes, that showed their right  
To general nature's deep delight.

And God them taught, at every close  
Of water far, and wind,  
And litted leaf, to interpose  
Their chanting voices kind;  
Interpreting that love must be  
The meaning of the earth and sea.

Fit ministers! of living loves  
Theirs both the calmest sound,—  
Their living voice the likeliest moves  
To lifeless noises round,—  
In such sweet monotone as clings  
To music of insensate things!

My little doves were taken away  
From that glad nest of theirs;  
Across an ocean foaming aye,  
And tempest-clouded airs,  
My little doves! who lately knew  
The sky and wave by warmth and blue!

And now, within the city prison  
In mist and chillness pent,  
With sudden upward look they listen  
For sounds of past content,—  
Nor lapse of water, swell of breeze,  
Or nut-fruit falling from the trees!

The stir without, the glow of passion,—  
The triumph of the mart,—  
The gold and silver's dreary clashing  
With mans metallic heart,—  
The wheeled pomp, the pauper tread,—  
These only sounds are heard instead.

Yet still, as on my human hand  
Their fearless heads they lean,  
And almost seem to understand  
What human musings mean,—  
With such a plaintive gaze their eyes  
Are fastened upwardly to mine!

Their chant is soft as on the nest  
Beneath the sunny sky;  
For love, that stirred it in their breast,  
Remains undyingly,  
And, 'neath the city's shade, can keep  
The well of music clear and deep.

And love, that keeps the music, fills  
With pastoral memories!  
All echoes from out the hills,  
All droppings from the skies,  
All flowings from the wave and wind,  
Remembered in their chant I find.

So teach ye me the wisest part,  
My little doves! to move  
Along the city ways, with heart  
Assured by holy love,  
And vocal with such songs as own  
A fountain to the world unknown.

To me fair memories belong  
Of scenes that erst did bless;  
For no regret,—but present song,  
And lasting thankfulness,—  
And very soon to break away,  
Like types, in purer things than they.

I will have hopes that cannot fade,  
For flowers the valley yields,—  
I will have humble thoughts, instead  
Of silent, dewy fields!  
My spirit and my God shall be  
My seaward hill, my boundless sea.

(From Willmer & Smith's European Times,  
September 4th.)

BANQUET IN DUBLIN TO MR. C. T. BRIGHT.

The Banquet given on Wednesday, the 1st,  
by the Lord Mayor of Dublin, to Mr. C. T.

Bright, engineer-in-chief to the Atlantic Telegraph Company, was a great success. The assemblage embraced the highest names in the metropolis—civil, military, and official. Cardinal Wiseman was present in full cardinalite costume. The usual loyal toasts were given and received with all honours.

The Lord Mayor, in proposing the toast of the evening, "the health of Mr. Bright," dwelt with much eloquence on the achievements of science, and paid a marked and merited compliment to the genius and perseverance which, in the face of discouragement from the scientific world, had succeeded in bringing about the accomplishment of the great undertaking of the laying of the Atlantic telegraph. His Lordship's speech was most eloquent, and highly complimentary to the distinguished guest, Mr. C. T. Bright.

Mr. Bright rose amidst loud cheers to respond. He thanked the assemblage for their hearty welcome, and said he was deeply sensible of the honour of having his name associated with the great world of the Atlantic Telegraph. The first message sent by the wire from America to England showed strongly the importance of the work. It was that conveying the information respecting the collision between the Europa and Arabia, and setting at rest all anxiety as to the subject. Had that information not been conveyed, upwards of £50,000 would have been paid for insurance on the Europa owing to delay in her arrival at her destination. He next commented upon the value of this means of communication for the prevention of misunderstanding between the Governments of the Great Powers, and then referred to the services of the gentlemen who had been associated with him in laying the cable, with whom he shared the honours done him that night.—(Mr. Bright was warmly cheered throughout his eloquent speech.)

Mr. Bright then proposed the health of Mr. Cyrus Field acknowledging in warmest terms the services of this gentleman in the project.

His Eminence the Cardinal descended in glowing terms on the new achievement of science brought to a successful issue under the able superintendance of Mr. Bright. He warmly eulogised that gentleman's modest appreciation of his services to the world of commerce and to international communications in general, and after paying a compliment to the Lord Mayor for his good taste in thus inaugurating in the British dominions the first appreciations of the great work just accomplished, he proposed the health of his lordship.

The Lord Mayor returned thanks. The health of Cardinal Wiseman was next proposed and his Eminence was again most happy in his reply.

In the subsequent toasts, the railway interests of Ireland in connection with the Atlantic telegraph, were eloquently responded to by Sir Edward M'Donnell, and Mr. Ennis, M. P.

The subject of the steam packet communication between the west of Ireland and America was practically spoken of by Mr. J. Lever. "The Press" and several other toasts having been responded to, the assembly separated.

The demonstration, on the whole, was highly successful, worthy of the characteristic hospitality of the Irish Mayoralty, and of the great event upon which that hospitality was now exercised.

THE VICTORIA CROSS.

The Queen has been graciously pleased to signify her intention to confer the decoration of the Victoria Cross on the undermentioned officer and soldier, who have been recommended to her Majesty for the decoration, on account of acts of bravery performed by them in India, as recorded against their respective names viz:—

Lieutenant (now Captain) Frederick Robertson Aikman, 4th Bengal Native Infantry. Date of act of bravery, 1st of March, 1858.—This officer, commanding the 3rd Sikh Cavalry on the advanced picket with 100 of his men, having obtained information, just as the force marched on the morning of the 1st of March last, of the proximity, three miles of the high road a body of 500 rebel infantry, 200 horse, and two guns, under Maosahib Ali Chukhdar, attacked and utterly routed them, cutting up more than 100 men, capturing two guns, and driving the survivors into and over the Goomtee. This feat was performed under every disadvantage of broken ground, partially under the flanking fire of an adjoining fort. Lieutenant Aikman received a severe sabre cut in the face in a personal encounter with several of the enemy.

Gunner William Connolly, Bengal Horse Artillery. Date of act of bravery July 7, 1857.—This soldier is recommended for the Victoria Cross for his gallantry in action with the enemy at Jhelum, on the 7th of July, 1857. Lieutenant Cocks, Bengal Horse Artillery, reports, that "About daybreak on that day I advanced my half troop at a gallop, and engaged the enemy within easy musket range. The sponge-man of one of my guns having been shot during the advance, Gunner Connolly assumed the duties of 2nd sponge-man, and he had barely assisted in two discharges of his gun, when a musket ball, through the left thigh, felled him to the ground. Nothing daunted by

pain and loss of blood, he was endeavouring to resume his post, when I ordered a movement in retirement, and though severely wounded, he mounted his horse in the gun-team, and rode to the next position, which the guns took up and manfully declined going to the rear when the necessity of his so doing was represented to him. About 11 o'clock a.m., when the guns were still in action, the same gunner, while sponging, was again knocked down by a musket ball striking him on the hip, thereby causing great faintness and partial unconsciousness, for the pain appeared excessive, and the blood flowed fast. On seeing this I gave direct for his removal out of action; but this brave man, hearing me, staggered to his feet, and said, 'No, Sir, I'll not go there while I can work here,' and shortly afterwards he again resumed his post as sponge-man. Late in the afternoon of the same day my three guns were engaged at 100 yards from the walls of a village with the defenders—viz, the 14th Native Infantry—mutineers, amid a storm of bullets, which did great execution, Gunner Connolly, though suffering severely from his two previous wounds, was wielding his sponge with an energy and courage which attracted the admiration of his comrades, and while cheerfully encouraging a wounded man to hasten in bringing up the ammunition, a musket ball tore through the muscles of his right leg; but with the most undaunted bravery he struggled on; and not till he had loaded six times did this man give way, when through loss of blood, he fell in my arms, and I placed him on a waggon, which shortly afterwards bore him in a state of unconsciousness from the fight."

The sub-Perfect of St. Quentin has authorised the police to keep a crinometer at the door of the public ballrooms. Every lady who from her appearance strikes the eye of the officer on duty as likely to occupy more than a reasonable portion of room is compelled to submit to measurement, and to pay according to a graduated scale for every inch in excess of the regulation standard.

MYSTERIES OF THE RUSSIAN COURT.—An extraordinary statement is made in the St. Petersburg journals;—In demolishing a wall in the apartments of the Hereditary Grand Duke, in what is called the "Great Palace," in that city the skeleton of a woman was found still covered with fragments of clothing, which fell to dust on being exposed to the air. There is not the slightest tradition, they add, to show who the woman was, or why she was closed up in the wall.

To the Independent Electors of the District of Harbor Grace.

GENTLEMEN,—

Called upon by an influential portion of the community whose good opinion I gratefully appreciate, and to whose judgement I feel bound to defer; I cannot hesitate to offer myself as a Candidate for your suffrages, to represent this important District, in place of the Gentleman who has lately accepted the office of Her Majesty's Solicitor General of Newfoundland.

The first principle of Responsible Government, I apprehend to be—Government by the People—when their representatives become placemen it is evident they must waver between their duty to their constituents, and their own personal interests, which may be more readily advanced by a blind subserviency to party or sycophancy to the ruling power, than by a faithful maintenance of the rights and privileges of those whose confidence they forfeit, thus bringing the Liberal or responsible principle, which they pretend to advocate, into general disrepute.

It shall be my earnest endeavour, if returned as your Representative, to oppose and discountenance by all means, such a foul perversion of the spirit of the Constitution, and to this end I promise not to accept of office myself and to discourage to best of my ability, the continuance of a practice which has brought so much odium upon the liberal cause.

A Native of the Country, it is scarcely needful for me to express my ardent desire to participate in the Legislation, which, morally, socially, and politically, should elevate my Countrymen, and contribute generally to the comfort, happiness, and prosperity of the people; and as a Sealer and a Mariner, I cannot act otherwise than sustain the particular interests of those with whom I have long been associated, the Sealers and Fisherman of my native land.

Agriculture and its great auxiliary, Good Roads, should certainly engage the earnest attention of the Legislature, and I shall neither be dilatory nor parsimonious in supporting the necessary appropriations for those most essential objects.

No Country can rise in the scale of civilisation or even long remain free, unless a comprehensive and liberal system of Education be generally adopted. Education therefore, shall be deemed one of the primary objects of my earnest attention.

The erection of Light Houses along our northern line of coast is a subject of vital importance to my fellow Mariners, and one in which the Inhabitants of this Bay are deeply interested. My best exertions shall be made to induce the Government to contribute liberally for this laudable, humane, and life preserving object.

Outport interests generally shall be faithfully advanced by me, but the requirements of the district I aspire to represent shall, if successful, be the particular objects of my strenuous and uncompromising advocacy.

Reduction of taxation can only take place after the reduction of extravagant public expenditure. It shall be my constant endeavour to return, to prevail upon the Government so to effect the latter that the former may be reasonably expected.

I shall avail myself of an early opportunity to express my sentiments freely upon French claims and Labrador taxation.

I have the honour to remain,  
Gentlemen,  
Your most obedient faithful servant,  
WILLIAM HAYES,  
Harbor Grace 28th July, 1858.

General Post Office  
2 May, 1858.

HOLLOWAY'S OINTMENT AND PILLS. Incurable affections of the flesh, bruises and fractures, occasion comparative little pain or inconvenience when regularly lubricated with or dressed with Holloway's Ointment. In the nursery it is invaluable as a cooling application for the rashes, excoriations and scabious sores, to which children are liable, and mothers will find it the best preparation for alleviating the torture of a "broken breast." As a remedy for cutaneous diseases generally, as well as for ulcers, sores, boils, tumours and a serofulous eruptions, it is incomparably superior to every other external remedy. The Pills, all through Toronto, Quebec, Montreal, and our chief towns, have a reputation for cure of the dyspepsia, liver complaints, and disorders of the bowels; it is in truth, coextensive with the range of civilization.
