ANNUAL MEET CHILDREN'S AID

Appreciation Expressed for Work Done by Mr. Prosser.—Election of Officers and Executives.

The annual meeting of the Children's Aid Society of Annapolis County opened in the Board of Trade Rooms, Bridgetown, November 4th, at 10 a.m. The officers for the following year are: President, Rev. Canon Underwood; First Vice-Pres., Mr. Karl Freeman; Second Vice-Pres., Captain Gesner. The Agent for the Society, Rev. A. J. Prosser read his annual report which was discussed. The following resolution was unanimously adopted: "We have listened with considerable interest to the report of the Agent, and desire to place on record our appreciation of the energetic, efficient, and thorough way in which the work has been carried out by our Agent, Rev. A. J. Prosser. We especially commend him for his wise handling of the work as it has affected the financial end of it, the results of which have been minimum outlays for our Society, the Town, County and Provincial Treasuries."

The following were elected the Executive for the ensuing year: The resident Pastors of Bridgetown, the Officers of the Society, Messames Warren, Masee, and Miss Elizabeth Ruggles, Messrs C. L. Pigott, E. A. Hicks, Andrew Clark, Karl Freeman, Capt. Gesner, A. P. Hiltz. The meeting adjourned until Thursday evening Nov. 20th to re-assemble in the Board of Trade Room at 7.30.

The public is cordially invited to the adjourned meeting.

G. R. SNOW'S BARN DESTROYED AT UPPER HAMPTON. Mr. G. R. Snow of Hampton, met with a heavy loss on Thursday evening last when his barn was burned to the ground. He lost one horse, twelve tons or more of hay besides number of miscellaneous articles. His cows were saved. The fire was first noticed about half past five o'clock and apparently started on the roof from sparks which burned through before their course could be checked. Mr. Snow places his loss at at least a thousand dollars. The amount of insurance carried was small.

INSTITUTE ORGANIZED. Middleton.—A meeting was held at the home of Mrs. Frank East, Nictaux Falls, Friday afternoon for the purpose of organizing a branch of the Women's Institute. Miss Miller, assistant Supt., was present and spoke on the work.

Paradise.—Mr. Donald Jodrie of Paradise came within an ace of losing both barn and house by fire one evening recently and probably would have but for the arrival of Robert Longley, who returning home, noticed what appeared to be a light in the barn. Mr. and Mrs. Jodrie had both retired and were asleep. The incipient blaze was put out but in a few more moments would undoubtedly have spread and destroyed house as well as barn for both we understand are connected.

B. Y. P. U. ORGANIZED.

Lawrencetown.—A Young People's Baptist Union was organized at the Baptist Church, Lawrencetown, on Wednesday evening, by the pastor, Rev. A. H. Whitman and Rev. W. C. Machum, Baptist Young People's Secretary, for the Maritime Provinces. Mr. Machum gave a clear and forceful address on the need and nature of such organization. The following officers were elected:

President, Lawrence Morse; Vice Pres., Miss Mary Vamer; Secretary, Clyde Brown; Treas., Miss Hilda Bishop.

Guests at the home of Mr. and Mrs. A. C. Chute, Clarence, last week were Mrs. H. Nichols, Bridgetown, Mr. and Mrs. James Cameron, Halifax, Mr. and Mrs. George Whitman, Berwick and Mr. and Mrs. E. S. Congdon, Elois, Florida.

Mrs. J. G. Cameron, Halifax, is spending two weeks with her sister, Mrs. A. LeRoy Gilliat, Granville Ferry. Mrs. Wm. Spurr returned on Saturday from a visit to Halifax and Middleton.

Mr. and Mrs. Everett Sproul and son Aubrey, and Miss Beals of Clarence, spent the week-end in Hampton, the guests of Mr. and Mrs. George O'Neal.

Bessie, the little daughter of Mr. and Mrs. Clifton Collins, Hampton, was successfully operated on for appendicitis at the Memorial Hospital, Middleton. Mr. Hugh Allan of Hampton, was also successfully operated upon at Memorial Hospital for appendicitis.

Mrs. T. B. Chipman has returned from a pleasant visit of two weeks with friends in Lunenburg and Bridge water. While absent she was one of the guests at the marriage of Mr. Arthur Appleby to Miss R. Burke. Mr. A. B. Graves of Kingston spent the week-end here the guest of the Editor.

OLDER BOYS CONFERENCE

Most Successful Gathering Here of Representatives of Annapolis and Digby Counties.—Banquet Saturday Evening.—Closing Exercises Sunday Night.

The Sixth Annual Older Boys' Conference to be held in the Counties of Digby and Annapolis closed Sunday evening last in the Bridgetown Baptist Church. From beginning to end it was a very successful conference. The total enrollment was forty-six, made up as follows: thirty-five boys and eleven leaders. Fifteen of the thirty-five boys registered from Bridgetown. The Conference convened in the Baptist Church, the Conference Church, Friday evening, Oct. 31st, at 8 p.m. and was duly organized with the following as officers: Charles LeBrun of the 'Upstreamers' Square, Bridgetown, Grand Preter; Clayton Harris of Bear River, Deputy Grand Preter; and Ralph Henson of the 'Upstreamers' Square, Grand Scripser. The opening address at this first session of the Conference was delivered by Rev. Waldo C. Machum, Boys Work Secretary, for the Maritime Provinces and served to bring the Conference up to a high tone. The address dealt with the Four-fold Programme of the Tuxis Movement closing with that always interesting explanation of the made-in-Canada word Tuxis. Rev. H. S. B. Strohford who was to have delivered this address was not able to be present owing to the serious illness of his wife. Following the address the boys were organized into three Tuxis Squares: 'The Progressives' with Rev. F. E. Barrett, President of the Methodist Conference of Nova Scotia as the Mentor, (this square won the Top-Notch badge given at the end of the Conference by Mayor Hicks); 'Knights of Honor', Mentor, Rev. P. B. Hayden; 'Servants' Rev. Mr. Wilson of Middleton as Mentor, part of the time and Principal Archibald the rest of the time. Throughout the Conference these Squares retained their identity doing special works separately on occasion.

The Saturday morning session commenced at 9.30 with a service of worship conducted by Rev. F. E. Barrett, and embraced a discussion of the C. S. E. T. programme by the Rev. W. C. Machum, a hymn, physical drill, Square sessions, and a splendid address on Temperance by the Rev. Mr. Wilson of Middleton, closing at 12 noon.

The Saturday afternoon session opened with a Service of Worship at 2.15 led by Rev. Canon Underwood of St. James' Parish, followed by an address on "The Boy and the Missionary Enterprise" by the Rev. J. H. Freestone of the United Church, Bridgetown. Next came an item which mark an epoch in Tuxis work in the Maritime Provinces, and reveals the extent of its permanence as a force in the development of our national life, viz: "Election of Representatives to Tuxis Boys' Parliament." Two members have been allotted to the district comprising the two counties of Annapolis and Digby. The Parliament will be held at Sackville during the Christmas holidays. Similar Parliaments have been held in other parts of Canada in recent years and have proved themselves to be serious efforts on the part of the Older Boys thus represented to express their voice in the affairs of our great country. A great honor, and one laden with much responsibility, has been given to Charles LeBrun who was unanimously elected by the Conference one of its representatives. The other member, similarly honored, appointed later was Douglas McIntosh of Annapolis Royal. The Conference then broke up into its Squares to finish certain business. From 4.30 to 6.00 on the Tennis Courts of the United Church the boys and leaders played Volley Ball.

The Saturday evening session was sumptuously enjoyed under the Banquet tables which had been set up in the tastefully decorated Vestry of the Baptist Church. When all had enjoyed to the full the bounteous dainties provided the following Toast list was observed:

The King—Proposed by Rev. W. C. Machum and responded to by National Anthem. Canada—Proposed by Charles LeBrun and responded to by Rev. W. H. Rackham of Lawrencetown, after the singing of "O Canada." The Home—Proposed by Ralph Henson and responded to by Mayor Anderson and responded to by Miss Helen Millar, of Truro, Assistant Superintendent of Women's Institutes for Nova Scotia, who spoke on the work of Institutes in a general way, sketching their rise and progress. The first Institute was organized twenty-seven years ago in Ontario but today there were ninety-two Institutes in Nova Scotia alone and numbers had been organized in England. A women's representative from Australia had come to Canada to study the matter, get data, etc., with a view of having Institutes organized in Australia. Miss Millar's remarks were followed with much interest by the ladies present.

Hitherto the Annual Convention of the Women's Institutes of this Province has been held in Truro but it has been decided to have them at different centres each year. It is quite possible that the next annual meeting will be held in Bridgetown. An extensive study is being made by the Institutes of the Province of the "Mother's Allowance Act" of Ontario and of Common School Law of Nova Scotia. At the close of Friday's meeting tea was served.

NEXT ANNUAL MEETING OF PROVINCIAL INSTITUTES MAY BE HELD IN BRIDGETOWN.

A well attended special meeting of the Women's Institute was held on Friday afternoon in the Board of Trade Rooms and the members were most interestingly addressed by Miss Helen Millar, of Truro, Assistant Superintendent of Women's Institutes for Nova Scotia, who spoke on the work of Institutes in a general way, sketching their rise and progress. The first Institute was organized twenty-seven years ago in Ontario but today there were ninety-two Institutes in Nova Scotia alone and numbers had been organized in England. A women's representative from Australia had come to Canada to study the matter, get data, etc., with a view of having Institutes organized in Australia. An extensive study is being made by the Institutes of the Province of the "Mother's Allowance Act" of Ontario and of Common School Law of Nova Scotia. At the close of Friday's meeting tea was served.

H. B. Hicks, after the singing of "Home Sweet Home." The Church and Sunday School—Proposed by Douglas Tupper and responded to by Mr. Andrew Clark, after the singing of "The Church's One Foundation." The School—Proposed by Phil White and responded to by Principal J. T. Archibald, after the singing of "School Days."

The Ladies—Proposed by Charles Anderson and responded to by Miss Mary Anthony for the C. G. T. girls and Mrs. Ralph Berry for the ladies, after the singing of "For They are Jolly Good Fellows." During the course of the evening a number of songs were vigorously and enjoyably sung by all present and the delightful evening was fittingly and most effectively brought to a close by a good night address by the Rev. F. E. Barrett who spoke on "The Boy with the Five Loaves and Two Fishes."

On Sunday in the morning the visitors attended church with their hosts and in the afternoon what was, perhaps, the best session of the whole Conference was held, led by Rev. F. E. Barrett. The Rev. W. C. Machum delivered the address bringing those present face to face with the great ventures of life. He led them into the realm of life's highest Ideals and showed them how it was possible to reach out and up after them through the help of our Elder Brother and Saviour the Lord Jesus. A deep impression was made and many were the new vows undertaken. We feel Mr. Machum is the right man in the right place.

At the close of the evening services in the town a large congregation assembled in the Baptist Church with the Older Boys' Conference in the centre. The service was in the hands of the Conference officers, the Grand Preter presiding. This Fellowship Service will be long remembered by all present.

At the close of the Conference, Rev. Mr. Machum met the Boys' Work Board and as a result a canvass of the town was made on Monday morning resulting in the neat little sum of one hundred and thirty dollars. One hundred dollars was given to Mr. Machum for the funds of the Maritime Religious Education Council, under whose direction this and similar conferences are put on; and thirty dollars was turned into the Treasury. At the Annual Meeting held Monday evening last the Board decided that the expenses of Charles LeBrun, of the "Upstreamers" Tuxis Square, the elected representative to the Boy's Parliament should be paid out of the money collected. The following are the officers elected for the coming year: President, Rev. P. R. Hayden; Secretary-Treasurer, Mayor H. B. Hicks. Other business was disposed of among which, was the arranging for the University Extension Course of Lectures for next year.

NOTES AND NEWS OF ANNAPOLIS

Annapolis Defeats Digby in First Bowling Match of Season.—Mrs. W. P. Bishop Sustains Painful Injuries.—Social Aid Personal Items.

Annapolis Royal.—Mr. Moore McCormick received the sad news on Wednesday that his sister-in-law Mrs. Carl McCormick had died very suddenly on Monday, at her home in Roxbury, Mass. The deceased lady, who was about fifty years of age, was formerly Miss Marshall, a native of Massachusetts and is survived by her husband and five children. Mr. McCormick was a former resident of Granville Centre, who moved to his present home, when a young man.

Mrs. W. P. Bishop, formerly of Bathurst, N. B., who is the guest of her daughter, Mrs. L. R. Hanington, had a bad fall on Friday morning, which caused a dislocation of the hip. In crossing the room she caught her foot in part of the furniture, and fell heavily to the floor. Dr. Byers was summoned, and assisted by Dr. Robinson gave her the proper attention, and she is now resting as comfortably as can be expected.

Messrs Horace Munroe, Ernest Atkinson and Max Rippey returned on Friday from a successful moose-hunting trip, having captured an unusually fine specimen.

Mr. and Mrs. Frederic Southall, of Halifax, were guests in town on Tuesday, having stopped on their way home from a vacation trip to Boston.

Mr. L. M. Fortier, Honorary Superintendent of Fort Anne Park is spending a month's vacation in Ottawa, Montreal and Halifax.

Mrs. D. W. Byers left on Tuesday for a trip to the Canadian West. Miss Marjorie Runciman was hostess at a large bridge party on Thursday evening, when the prizes were won by Miss Hilda Lombard, Mrs. T. R. Hanington and Miss Agnes McMillan.

A GREAT OPPORTUNITY.

The Telegraph Journal says editorially:—The estimate of the Tourist Association is that 70,000 tourists came to New Brunswick during the summer. Of course this must be based upon some returns from the border and elsewhere. It is difficult to say just what is the average expenditure of tourists, but few could get along without leaving at least twenty-five dollars behind and most of them would spend more than a hundred dollars each. If we figure the average expenditure of forty dollars, and this would be very small, if we considered gasoline costs and repair charges, this number of tourists would leave nearly three million dollars in New Brunswick. This sum is nearly equal to the total provincial revenue. The results of the tourist business financially and otherwise cannot well be overestimated. New Brunswick would only be coming into its own if its wonderful natural scenery attracted hundreds of thousands of visitors every summer, and not only during the summer but in the spring and fall when we have trout and game in abundance. At this season of the year the woods of New Brunswick are thronged with not only its own residents, but with people who come from all parts of the United States and from overseas to shoot our big game.

What we need is publicity, and to obtain this there must be generous appropriations of money. With a well organized publicity department supported by the province, the Tourist Associations and the cities and towns of New Brunswick, and a generous supply of money, the reputation of New Brunswick as a summer resort and a game country could be spread to every corner of the world where there are people looking for places to visit from spring until fall. This matter is worthy of prompt and serious consideration. The Government should not hesitate and the Tourist Associations should be so organized as to have no difficulty in obtaining assistance from every city, every town and municipality in the province.

THE PULP WOOD QUESTION.

The announcement made recently by Frank J. D. Barnjum to the effect that becoming disgusted with the indifference displayed, particularly in government circles over the question of forest conservation, he had made up his mind to sell all his Canadian forest holdings and remove to another country, has met with the reception to be expected. A section of the press proclaims Mr. Barnjum's removal as a National Calamity of the worst sort. Another section treats this announcement in a more or less humorous or critical way. A third section again pays no attention at all.

Whatever opinions may exist as regards some of Mr. Barnjum's statements in the great flood of publicity which he has poured all over the country through the medium of letters to the press, no one can dispute the fact that he has called attention to a matter of the most vital national importance.

A commission some time ago went through the country taking evidence and it was open to anyone to give such who felt inclined or was in a position to offer information of value. Evidence adduced in this Province appeared to a great extent against

an embargo and it was a distinct disappointment that Mr. Barnjum did not appear before the commission with arguments, facts and figures on the situation. To say that he had no faith in the commission was something beside the mark, though for many years public opinion has been growing that the appointment of commission merely gives the appointees fat jobs well paid by the people. Findings given out are often what nearly everyone knew before hand and the net results are delays temporizings and often nothing of any real value. But the people pay.

Many, however, will consider that Mr. Barnjum should have added the weight of his knowledge to the scale when the commission went through this country. He would have lost nothing but have rather been the gainer in public estimation. Criticism of commissions in general and in particular do not furnish a ground for failing to testify in the public interest.

In many parts of Nova Scotia the view is held that no paper mills of any account will be established in this Province, so the pulpwood better go to the United States anyway. The view is also held that were an embargo put on exports the Canadian paper mills would buy up pulpwood at a much lower price than it can be purchased for today.

Regarding the question from a national point of view it certainly appears futile that a country with the forest resources of Canada should export in a raw state what should be turned out as a finished product almost wholly in this country and give employment to our own citizens. As to forest conservation itself, common observation everywhere points to its needs and speaks loudly against the wasteful destruction for many years back of one of the country's greatest assets, its forests.

Waste carelessness and wanton destruction have been all too evident. Conservation of these resources is one of the great needs and it does appear that our pulpwood should be manufactured into paper in Canada rather than sent in such tremendous quantities to a foreign country.

SUDANESE SECURITY.

London Daily News: The Egyptians have held the Sudan in the past and misgoverned it abominably. On the other hand, we have brought peace and prosperity to the Sudan; and, while admittedly we have established large British interests there, it is quite unthinkable that we should now hand the country over to the tender mercies of the Egyptian Government. The people of the Sudan certainly would not thank us at all if we entertained the notion of committing a blunder so stupid and cruel.

CHINA AND THE LEAGUE.

Hong Kong Press: China is dissatisfied with her standing in the League of Nations. China's withdrawal from the League would obviously be deplorable, but while China remains in the state of political chaos that makes her name a by-word among the nations of the world, it must seem somewhat ludicrous to the impartial spectator that such a country can have any place of honor in an assembly whose aim is to establish peace and well-ordered government throughout the world. If, however, in awarding of such honors the principle of geographical representation is

to be observed, then China obviously has a better claim than her political merits would give her.

WORLD PEACE.

Boston Transcript: The only means of contributing to world peace which are likely to prove effective are those of arbitration, sincerely engaged in, with a corresponding attention on the part of the nations to the maintenance of their own defence. Abandonment of all armament would never be anything but a pretense, with constant scheming on the part of nations in whom the instinct of aggression is highly developed to catch the rival nation in the worst possible condition of resistance.

FOOLING THE PEOPLE.

National Review: It would take a peculiarly bold and reckless politician to maintain that the policy of penalizing the British taxpayer by making him pay the entire cost of a war that was forced upon him by the Germans originated with the Democracy. On the contrary, the British people believed, as they were told by politicians then needing their votes, that the loser should, could, and must pay. There was no question then of "sparing" Germany at the expense of England, nor any doubts raised as to Germany's capacity to pay. She was a criminal nation, whose pockets were to be "searched," and on the faith of this understanding a record Parliamentary majority was returned, and forthwith it was British and not German, pockets that were searched and drained.

THE LION EATS MICE.

Sydney (N. S. W.) Bulletin: The only contribution of the British Labor Government to the solution of the unemployment question is a subsidy to six beet-sugar factories, permitting the employment of 3,000 men. The employment of 3,000 people when 1,500,000 are on the pauper list is no great thing; yet, according to the cabled summary, this was the only proposition on the list which wasn't a relief work and of an obviously temporary kind. At latest devices France had 90 permanent and self-supporting beet-sugar factories, employing over 20,000 people, and the industry was then only getting on its feet after the war. This makes the Snowden scheme reminiscent of the lion which ate mice in its old age, with a preference for old and slow mice.

BOTANY BAY TO BORSTAL.

Manchester Guardian: All decent humane people in France must have been opposed to the Guiana settlements. But opinion was not vigilant enough and not adequately mobilized, and so the scandals have dragged on. No such spectacular scandal, we know still exists here. But the voyage from Botany Bay to Borstal has been very slow and very stony, and we still cannot by any means flatter ourselves that we have landed our convicts at Port Ideal. The greatest support given to the various pioneers of reform who are at work, often with the help of officialdom, which can no longer be accused of being indifferent. For every humane advance pays society as well as benefits the criminal, and it is economical as well as glorious to supercede, wherever possible, the broad arrow by less antiquated artillery against crime.

AUSTRALIA AND DEFENCE.

Perth (Australia) Western Mail: The Commonwealth Government's defence policy errs not on the side of excess. The development programme outlined in the House of Representatives by the Minister of Defence is modest, so modest that it would be tragic without Great Britain's naval help. Yet there are some little Australians, looking no further than their noses, who decry even so small a measure of self-defence. They have made up their minds to talk perillities; and nothing will change them save war. The policy (adopted) recognizes that Australia's first line of defence is the sea. Though the equipment would be inadequate unaided in time of war, it will form a useful nucleus. At the end of five years the world may have changed, and in that sphere of international politics of special interest to Australia, it may not have altered for the better. Preparedness is commonsense.

A MENACE TO BRITISH TRADE.

London Times: Under the Treaty of Versailles, after January 10th next, Germany will be free to make what arrangements she chooses in regard to imports from other countries. There will be nothing, for instance, to prevent a treaty between Germany and France under which free admission might be granted to the products of Alsace-Lorraine, nor, after that date will this country's interests be safeguarded by a most-favored-nation clause. Consequently, unless the United Kingdom is also able to make commercial treaty with Germany, there is a possibility that France will obtain considerable advantages and that this country will be faced with a Franco-German economic alliance, the effects of which it is difficult to estimate. The iron trade in this country is passing through a period of grave depression, and iron masters

FRUIT TREATMENT HEALS KIDNEYS

Concentrated Fruit Juices Give Astonishing Results

Anyone who has suffered with Weak or Irritated Kidneys—with the accompanying miseries of pain in the back, splitting headaches, swollen hands and feet, rheumatism and constipation—ought to try the Fruit Treatment for their trouble. To those who use intensified fruit juices—"Fruit-a-lives"—for the first time, it seems almost impossible that the juices of apples, oranges, figs and prunes combined with tonics, could relieve Kidney Trouble. But a short treatment of "Fruit-a-lives" gives quick relief and the regular use of these intensified fruit juices or "Fruit Liver Tablets" prove their marvellous virtues. Get "Fruit-a-lives" today and begin the Fruit Treatment. At all dealers; 25c. and 50c. a box; or sent postpaid by Fruit-a-lives Limited, Ottawa, Ont.

view with anxiety the possibility of an arrangement between France and Germany, under which French ironmasters might have a controlling interest in the Ruhr mines and coke-ries.

TO SCHOOL TEACHERS.

Pictou, Oct. 23rd, 1924.
Mr. Jas. A. Fraser,
Editor, Eastern Chronicle,
New Glasgow, N. S.

Dear Sir:—
Two agents have been travelling the County canvassing the teachers to purchase a set of books. These agents have entered the schools during school hours which the law forbids.

Furthermore, in one of the schools at least, the impression was given by one of these men that he had authority to visit the school. He claimed to be endeavouring to ascertain the good teachers and the poor ones and reporting to Halifax. The poor teachers were not to be allowed to teach and the good ones were to get better schools with an increase of salary of from \$2,000 to \$3,000, etc.

Needless to say, Mr. Editor, these agents have no authority, whatever, to classify schools and the teachers must not listen to them during school hours.

Would you kindly give a word of warning to the teachers?
Yours very truly,
J. Cregar McDonald.

P.S.—The price of this set of books (\$57.50) makes a heavy load upon the salary of the Rural Teacher, and it is a gross piece of imposition that this sale should be forced upon her. (Teachers should note this warning from the School Inspector.)—Eastern Chronicle.

Teachers in this county will be forewarned should these agents make their appearance here.—(Ed. Monitor)

COST OF PUBLISHING.

Too many people have the idea that a weekly newspaper should publish every item of news handed in, because it is local news notwithstanding that the "news" referred to is in its way an advertisement announcing a meeting of some organization or society. "Here's something to fill up" is often what accompanies the handing in of such an item. Perhaps newspaper publishers are themselves much to blame for this impression, for they too often accept such items and publish them while mentally protesting. The sources of income to a weekly newspaper in a small town are very limited and the cost of production is just as great as in a larger town. The newspaper publisher is no more a public convenience than any other business man, and you might just as well ask the railway company to carry you free to the next town because the train is going there anyway and there are a number of empty seats, as to ask the publisher to publish your little advertisements as news because the paper is to be printed anyway, and it has so much space to fill up.

The unusual spectacle of husband and wife being admitted to the practice of law at the same time was presented at the District of Columbia, when John Paul Earnest, chairman of the examining committee, moved the admission of Alfred Klein and his wife, Pearl B. Klein.

COMPASS DOES NOT POINT NORTH

The magnetic compass has been used for more than 600 years and today is more widely employed than ever before; by miners underground, by explorers, travellers, hunters, trappers, prospectors, pioneers, timber cruisers and others overland; by navigators on the seas; and by airmen high above the earth. With this small, delicate restless instrument they are enabled to tell direction. Yet contrary to popular belief the magnetic compass does not point due north, but more or less eastward or westward of it at different places. At Halifax it points twenty two degrees west of north, at Vancouver twenty five degrees east of north, while at Fort MacPherson on the Mackenzie river within the Arctic Circle it points forty four degrees east of north. Scientists state that this is because the magnetic poles of the earth are not situated at the geographical poles as shown on our maps of the world.

Changes From Year to Year
The problem of the compass is still further complicated by the fact that it changes its direction from year to year; it marches to the westward for many years, then turns backwards and marches to the eastward, then reverses again and marches to the westward, etc. Moreover, its very confusing behaviour is quite different in different places. Whether this is caused by a shifting of the magnetic poles, by changes within the earth itself, or by some influence of the sun or planets, scientists have not yet been able to determine.

Surveys Necessary
In order that the compass may be used with reliance, therefore, the different countries of the world carry out magnetic surveys to measure its exact direction, and supply the information to the public in the form of magnetic maps. Owing to the continual shifting or "march" of the compass, as it is called, the work accomplished by a magnetic survey would soon become obsolete unless proper corrections are applied; so this march, is measured at certain points and the work corrected accordingly from time to time.

Canadian Survey One of Largest
This information is particularly valuable in such a large new country as Canada, and it is, therefore, interesting to note that one of the largest magnetic surveys in the world is being made in this country by the Typographical Survey of Canada, whose field parties cover such wide areas on their land surveys. The cost is very slight because these measurements take but a minute or two and are made during spare moments in the land surveys.

The magnitude of the work accomplished since it commenced in 1880 is shown by the fact that nearly 20,000 of these measurements have been made already and maps published, showing the results, for compass users.

Problems in Eastern Canada
The march of the compass assumes particular importance in Eastern Canada because of the old land surveys made in Ontario, Quebec, New Brunswick, Nova Scotia, and Prince Edward Island were made by means of the compass, and now-a-days when it is required to re-establish or retrace one of the old land boundary lines, it is necessary to know beforehand the change which the compass has undergone since the time when the old survey was made. This change may be quite large, four degrees at Charlottetown, Halifax and St John, since 1894, for instance, five degrees at Quebec, seven at Montreal, and six at Toronto.

Measurements of the march of the compass are therefore of a great practical importance, and much information is being acquired for many places in the country.

Associated Questions
There are many allied questions such as the connections between sun spots, magnetic storms, aurora, atmospheric electricity, ionization of the air, static, electromagnetic disturbances on telegraph and telephone lines, etc., which can be solved probably only after a complete knowledge is obtained of the magnetized state of the earth, and the reason why the needle marches so erratically from year to year.

The large amount of such work being done in Canada at practically no expense indicates that this country ranks well to the front among the nations of the world in scientific efficiency and achievement along these lines.

OBITUARY.

Dr. Ralph Woodbury.
Middleton.—The body of the late Dr. Ralph Woodbury was laid to rest at noon Wednesday in the Pine Grove Cemetery. Middle-ton. The service was conducted by Rev. H. B. STATE HEALTH INSURANCE.
Health insurance now figuring prominently in the calculations of the medical world, should be brought into existence as soon as possible because it presupposes the application of the principle of prevention rather than the principle of cure to the diseases of humanity.

Some system of health insurance would render necessary physical examinations for everybody at fixed intervals.

The healing professions would find it more profitable to keep people well than to cure them after they became sick.

If the principle of prevention rather than cure were firmly established in medical practice it would be the means of pulling the medical profession out of the slough of archaic and stagnant "ethics" and giving it the opportunity to progress and advance as other businesses have progressed and advanced.

If doctors were ever cut loose from the nonsensical theory that prohibits them from telling the public that they know all about the body and can keep the body in good health, the death rate would be cut in half in a very few years.—(Vancouver Sun.)

SUGGESTS BATHS AS BEST REMEDY FOR TIREDNESS

Kansas City, Mo.—The "tired business man" isn't tired; he doesn't know how to take a bath.

So said Albert Edwards Wiggam, author of "The New Decisions of Science," when he passed through here on his way to Hot Springs, Kans., where he will speak to the Kansas State Teachers' Association.

"If the tired man would learn how to take a bath he would make a new man out of himself. Hot baths are debilitating and cold ones are only stimulating. The proper temperature is the body temperature," Wiggam said.

"Baths of from 20 minutes to 5 hours duration are not too long. They should be taken as often as possible."

THE COST OF LIVING.

The cost of living is only about 62 per cent higher than it was before the war, according to economists. In other words, you can buy as much for \$1.62 as you could for \$1. in 1914. This claim must get the average man's "goat" once in a while, as he checks up and discovers that he is spending a lot more than in the good old days when he could buy a meal for a quarter. The joker is that the economists fail to make allowances for the advanced standard of living.

It may be true that your bills for basic foods, rent, clothing, necessities, etc., are only 62 per cent higher than before the war. And that by spending \$1.62 you can buy as much as you formerly could for \$1. But, since 1914, an advancing standard of living has added items to the list of "necessities" that were without question in the luxury class back yonder. The "cost of living" is more than the matter of enough to clothe the body warmly, supply it adequately with food and shelter. The "cost of living" also includes non-essentials which the average person imagines he must have in order to maintain his social standing. A lot of foolishness is included, such as the waning of the respectability of patched trousers and mended furniture.

It isn't so much the increased price of what we used to buy, as it is a matter of the price of things we formerly never dreamed of buying. And that is chiefly why the average man finds he has less cash on hand after paying his bills, not to mention that the average income may not have increased as much as the so-called advancing standard of living.

It is possible to live almost as cheaply now as 60 or 110 years ago—provided one would be satisfied with the old-time standard of living which supplied only the simplest and most urgent wants. And, as a matter of fact, none of us would have to work more than a few hours a day if we returned to the old-time standard of living. We have to work long hours because we demand more commodities and services in daily life than was the custom long ago. The increased cost of living is to a considerable extent the price of the increased standard of living.

POPPY DAY.

In Flanders fields the poppies blow Between the crosses, row on row.

The distribution of Veteran Poppies as the "Flower of Remembrance" this year on Armistice Day will amount to a million poppies were won by Canadians last Armistice Day. It is year it is estimated that the total distribution will exceed a million and three-quarters.

Veteran poppies are the emblems by which thousands of Canadians will pay homage to the memory of our Living Dead on Armistice Day, Nov. 11th.

Made by your disabled comrades in Veteran and Red Cross workshops in the principal cities across Canada, Veteran Poppies enable them to overcome vocational handicaps, and assist them in earning an independent livelihood.

The distribution of Veteran Poppies provides a fitting means of creating funds to assist the need, and the dependent Commercial competition may offer poppy replicas at lower prices than the disabled veterans can make them for, but the commercially-made poppy is only a tag, while the Veteran Poppy is a living emblem of those sacred sentiments associated with the commemoration of Armistice Day.

MOURN CHESTER C. BULLEN.

Services for Former Deputy Governor of Federal Reserve Bank of Boston Are Held in Worcester and Cambridge.

More than 200 friends and business associates of Chester C. Bullen, president of the Merchants' National Bank of Worcester, and a former deputy governor of the Federal Reserve Bank of Boston, attended Mr. Bullen's funeral Tuesday afternoon in St. James' Episcopal Church, Cambridge.

The chancel of the church was filled with more than fifty wreaths and floral pieces, and baskets and clusters of gladioli, roses, cypripediums, asters, carnations and pansies. Among them were floral tributes from Amicable Masonic Lodge, Cambridge, the Royal Arcanum, the officers of the Federal Reserve Bank and from the Federal Reserve Society. The casket was covered with roses and palms.

Rev. E. M. Paddock, rector of St. James' Church, read the Episcopal service for the burial of the dead. R. J. Brown, the organist, played the "Priest's" or "Harp"; MacDowell's "To a Wild Rose," "Lead, Kindly Light," and Chopin's "Marche Funebre."

Among those present were representatives of the fraternal societies in Cambridge with which Mr. Bullen was affiliated. There were no ushers or honorary pallbearers. Interment was in Cambridge Cemetery.

A prayer service was held for Mr. Bullen at his home, 20 Institute road, Worcester, Tuesday morning. Rev. Shepherd Knapp, pastor of the Central Congregational Church, Worcester, officiated. The casket was covered with a blanket of red roses, during the service, the gift of the officers and directors of the Merchants' National Bank, of Worcester.

SKIRTS GROWING SHORTER; PLAIDS MORE PRONOUNCED.

Fashion Experts Wonder if These Features Are Forerunners of The Kill.

Plaids everywhere and shorter—oh! very much shorter—skirts. Some of them come just below the knee, and with its fiery brilliance has had, or a response in a replica of colors so interesting in design and combination as to appeal to every sort of fashion complex, and has met it. Sombre has been the dress for a time, but now, ere the frost is on the pumpkin, keen delight in color has found individual expression in the use of plaids.

These near knee length skirts might be called kitties, so like Scottish regulations are they. So fetching in costume. And kiltie skirts call for kiltie footwear; slippers neatly fashioned, snug fitting and early decorated with plaid cordades to harmonize with the ensemble.

Shops in New York, London and Paris are now showing colors, plaids and harmonious accessories arranged in Scottish fashion, with kiltie slippers in the lead. These slippers are made with round toes, medium heels and lacy perforations. Clever cordades appear at the sides to disguise elastic inserts.

With skirts going up there is every excuse to wear the attractive woolen hose which has been clocked to match the cordades. Dark plaid hose with novel clocks of green and orange; grey plaids with clocks of red and blue and brown plaids with tan, jade and henna.

There seems to be no reason to doubt that the kiltie-ensemble will be the ruination of many a purse-string. The Prince has been Pied Piper for the male following, but the Plaidie has no will less popularity among the lady voters.

SMUGGLING AS A NATIONAL MENACE.

Owing to the fact that during the past 12 months goods to the value of approximately \$50,000,000 were smuggled into Canada with an estimated loss of \$15,000,000 to the Federal treasury, a scheme of co-operation to defeat the smugglers is in preparation between the Customs Department and the different business interests affected.

Smuggling has reached such high proportions it is stated in official circles as to constitute a real national problem. It is being carried on with rum running, the goods being smuggled in constituting the return cargoes to this country. The smuggled goods are chiefly textiles, silk, ready-made clothing, boots and shoes and cigarettes. In addition it is claimed that there is a heavy smuggling of automobiles in spite of the licensing regulations which exist in Canada. It is recognized by the business affected that the Customs Department is not now equipped to cope with such wholesale operations as are now being carried on and which are considered to be a corollary of prohibition in the United States.

AMERICAN JUDGE GIVES ADVICE.

Judge Graham of San Francisco divorce judge for twenty years advises men and women about to marry. Here is his list of matrimonial don'ts for women:

Never marry a man who does not read the sport section of the newspapers. Young fellows who profess no interest in manly, outdoor athletic sports are not apt to be interested in anything or anybody but themselves. They make poor husbands.

Never marry a man who plays cards for money. Love for games of chance is almost certain to supplant all other loves, greater than love for home, wife and children.

Never marry a man who says he has no bad habits. He is pretty sure to have a vice much worse than smoking or even drinking. If he's of the "holier than thou" variety he soon will become a pest. Never marry a man your parents object to, unless your parents are most unreasonable. It is court history that 65 percent of all divorcements end in the divorce courts.

Never marry a man who says he does not care for children. He's an unnatural selfish man and not to be trusted.

Never marry a man because he is a good dancer. Perhaps that is the only thing he can do well. Men who have intelligent feet seldom have anything in their heads.

Never marry a man who detests dogs. If you do, you'll find he is incapable of loving anything, even himself. Something is wrong with that sort of man.

Never marry a man who drinks on the sly. If he isn't fair and square in that subject, he'll deceive you and cause you many a heart break on other accounts. The "silent drinker" never makes a good husband. He can't.

Never marry a man who speaks slightly of your parents or of old people. He's not the man for any woman. He'll neglect you when you begin to get wrinkled and gray.

Never marry until you are old enough to know what you are doing. Sixteen year old brides too often are 17 year old grass widows.

Perils of the Male.
Never marry a girl who has lily white hands when her mother's are calloused and roughened by hard work. That girl won't be a good help-

mate.
Never marry a girl who wants you to take her to a show every night and is never content to let you "sit up" with her in her own home. She's not the type that will make a home for you.

Never marry a girl who keeps her room or the parlor littered with signed photographs of former or present beaux. She's a collector of heart throbs and she, more than likely, won't stop flirting after she marries you.

Never marry a girl who is ashamed of her parents and does not want you to meet them. She's the wrong sort of girl for any man. She'll keep you broke.

Never marry a girl whose only thought is clothes. If that is the calibre of her brain she'll never be a real wife or mother. Always she will be a clothes hanger and she'll keep you broke.

Never marry a girl who insists that you take her to places of amusement that are beyond your means. If she is that thoughtless before marriage, she will not bother about your financial affairs after your marriage.

Never marry a girl who is impatient in her dress. No man wants to blush because of his wife's appearance. And never marry a girl who is slovenly and untidy. That, in a short time, will kill even the most ardent love.

Never marry the promiscuous kisser. She'll cause you lots of grief and heart pangs later on.

Never marry a girl several years older than yourself or many years younger. The difference in ages will cause many a "spat" later on and "spats" are the harbinger of alimony.

And never marry a girl who is not fond of children. That sort of girl is not natural. Childless homes, except in unusual cases, are not enduring.

MACKEREL CONTINUE POURING INTO TRAPS.

Liverpool.—Mackerel continue to pour into the traps at Western Head and Wednesday morning another 100,000 lbs. were landed here from the following traps: Hemeon's, 35,000 lbs.; Coolin's, 20,000 lbs.; Croft's, 30,000 lbs.; Cook's, 20,000 lbs.

These are all being purchased by Nicholson Bros., with the exception of those of Cook's.

Prince of Wales' "Little Grey Home in the West"

After having enjoyed about as much privacy as the proverbial goldfish during the international polo games near New York, the Prince of Wales retired to the quiet and seclusion of his Canadian "Little Grey Home in the West," 25 miles from High River, Alberta, a station on the Canadian Pacific, to rest for a few days, recreate and work far from curious crowds, reporters, still photographers and "movie" men. It is very pleasant, no doubt, to be the most popular young man in the world, but about once a year the rolling hills and rich prairie land of his "E. P. Ranch" call the Prince of Wales, Baron Renfrew of "Davy Windsor," as they refer to H.R.H. in Alberta, back to the land.

The prince is a real farmer and rancher, and is honestly endeavoring to improve the breed of horses, sheep and cattle in Western Canada. His pure-bred, imported animals and their offspring have won many prizes in competition at live stock shows in Western Canada, not because they were from the royal ranch, but because they were the very best exhibited. Since he bought his 4,100 acre ranch in Alberta in 1919, the prince has been sending to it the best stock he could secure in Great Britain, and every year he sells at auction the surplus animals for the benefit of live stock breeders in the western provinces. The Earl of Minto, who has a big ranch near-by, does the same thing. Also, King George loans the prince some of his best animals for the stud.

"He's a neighborly kid," said one of the members of the Alberta Shorthorn Breeders' Association. "When he comes out here we don't chase him as they do in other places. We just let him ride, and next thing you know he has all of us neighbors in as his guests, and meets us just as a neighbor. He wants to meet all the ranchers who are his neighbors, and there isn't a thing about ranching he doesn't want to know. His ranch is no fad. He is running it for the benefit of Canada first, and second for the purpose of making the 'E. P. Ranch' a business venture, just as any level-headed man would do. When he is on the ranch he wears a 'ten gallon hat,' the same as all of the cowboys, and he does his work daily like any other ranch hand. 'Regular feller,' that's what we call him. 'regular feller.'"

A Bargain In Newspapers!

A GRATEFUL LETTER

From a Lady Made Well by Dr. Williams' Pink Pills.

"I wish from my heart I could persuade every person who is run down in health to give Dr. Williams' Pink Pills a trial." Thus writes Mrs. Louie Mitchell, Oak Point, Man., who further says:—"About a year ago I was a weak woman, suffering from a run down system and impoverished blood. Any little exertion would cause my legs to tremble and my heart to throb violently. I could not sweep a room or walk fifty feet without being exhausted. Then I began taking Dr. Williams' Pink Pills and after taking only six boxes I am as well and strong as ever. I can walk and run without stopping every few seconds gasping for breath as previously. Dr. Williams' Pink Pills will be my stand-by in the future if ever my blood needs building up again, and I shall always find pleasure in recommending them to anyone needing a tonic.

There are many troubles due to weak, watery blood which can easily be overcome by a fair use of Dr. Williams' Pink Pills. The sole mission of this medicine is to enrich and purify the blood and when that is done all the varied symptoms of anaemia disappear, and good health returns. You can get these pills through any dealer in medicine or by mail at 50 cents a box by writing The Dr. Williams' Medicine Co., Brockville, Ont.

TO CALIFORNIA OR PACIFIC COAST

Rail services of the Canadian National provide the highest standard of travel comfort for those whose desire it is to spend the winter in Sunny California, or in British Columbia.

From the Atlantic to the Pacific the Canadian National Railways operate trains of the finest equipment—all steel trains with library cars, observation-compartment cars, standard sleepers, modern diners, tourist sleepers and spacious coaches. The services of the Canadian National are not excelled anywhere.

The superior trains run from Halifax to Montreal—the "Ocean Limited" and the "Maritime Express."

From Montreal the famous "Continental Limited" leaves Bonaventure Station at 10.15 p.m. for Ottawa, North Bay, Winnipeg, Edmonton, Saskatoon and Vancouver.

From Montreal the famed "International Limited" runs daily to Toronto, Detroit and Chicago, leaving Bonaventure Station at 10.00 a.m. At Toronto connection is made with "The National" leaving Toronto daily for the Coast. There are optional routings to California points via Chicago.

To escape the rigours of winter, such a trip is desirable, and by the C. N. R. Lines it can be made a tour of delight, so excellent is the service given and the personal attention shown every patron.

Ticket Agents of the Canadian National Railways will give intending travellers every information, and arrange reservations, or one may write to the General Passenger Department at Montreal for descriptive literature and full details of such a trip.

CHEAPER TURKEYS PREDICTED.

(Moncton Times.)

Dr. E. A. Smith, of Shediac, thinks that turkeys are going to be cheap in New Brunswick at Christmas, because of the great success which attended the efforts of the turkey raisers this year. He reports that not for a great many years have the farmers had such success with their turkeys. One farmer told him that they had set 24 eggs and that 24 birds had been hatched. He knew many similar cases.

THANKFUL MOTHERS

Once a mother has used Baby's Own Tablets for her little one she would use nothing else. The Tablets give such results that the mother has nothing but words of praise and thankfulness for them. Among the thousands of mothers throughout Canada who praise the Tablets is Mrs. David A. Anderson, New Glasgow, N. S., who writes:—"I have used Baby's Own Tablets for my children and from my experience I would not be without them. I would urge every other mother to keep a box of the Tablets in the house." The Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach; drive out constipation and indigestion; break up colds and simple fevers and make teething easy. They are sold by medicine dealers, or by mail at 25c. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

PARTRIDGE PEST KILLS YOUNG BIRDS.

Reasons For Their Scarcity Told—A Rare Hunting Trip in N. B.

The Apohaqui correspondent of The St. John Telegraph-Journal, asked concerning the scarcity of partridge writes:

Concerning the partridge situation, I have interviewed local hunters and several within a radius of 10 or 15 miles and have received practically the same information from them all, viz, that the partridge are unusually scarce, which has been a great surprise to the sportsmen, considering the large numbers which were seen during the summer, whole broods having been often raised near wooded roads by the noise of the passing motor cars.

As a rule the birds which have been shot have not been young ones, as the pest which has attacked the birds has been more fatal to the young flocks. A sportsman of this village who knows the game well and spends much time in the woods has not met with his usual success this year and on investigation of a bird he shot found among the feathers a blue insect which had bored deeply into the head of the partridge.

It is very evident that the birds are dying from the pest, as numbers have been found dead on the ground. While on a hunting trip with a party of others we motored 80 miles in Albert County through a thickly wooded section which was all hardwood and a most likely place for partridges, yet even though traversing the many log roads which branch off, the hunters did not see or hear a partridge, but we did see two lying dead by the roadside, which had apparently died from some disease.

MANY ACCIDENTS IN MILLS.

Amherst News: Phillip Ring, Factory Inspector for the province, who was here last week in connection with the case before the Supreme Court, stated to the News that there had been seven fatal accidents in saw mills in the province up to Sept. 30th, and that there were four other accidents during the same period. He stated that it was his intention as in the past to report these accidents fully to the Attorney General's Department and it would rest upon the department to decide what action should be taken. The result of the present case would make no difference in his action in this respect.

COMPARISONS

Diamonds and charcoal are essentially carbon yet their values and usefulness are as far apart as the poles. So it is with

Scott's Emulsion

Many imagine that all oils are similar, but when the usefulness of cod-liver oil is compared with all other fats, the difference in value is as far apart as common charcoal and diamonds.

Scott's Emulsion is cod-liver oil made pleasantly available to build up those who are run down or weak.

DOLLARS, WHAT THEY CANNOT BUY.

One day a group of successful men were discussing at the luncheon table the purchasing power of money.

"There is nothing that money will not buy!" declared one of the men. The others pondered this statement in silence, but one voiced an exception. "Money will not buy health," he asserted.

"You are wrong," replied the champion of wealth. "There are many invalids who could regain their health if they had the means of employing specialists, or taking treatments at expensive sanitariums, or living in expensive surroundings. In many instances money will buy health."

"But money will not buy happiness," contended the dissenter. "You're wrong again. Ask the average person what he needs to make him happy. He will tell you that all he wants is to be wealthy enough to work or rest when he pleases, to enjoy all the amusements that give him pleasure, and perhaps to travel or study. Money will buy happiness for millions of men and women."

So elated was this man at the ease with which he had disposed of his opponent's exceptions that he leaned across the table and said triumphantly: "I'll tell you what I'll do. I'll take down four things really worth having that money cannot buy, and for each one I'll give you my cheque for \$1,000!"

The next day the same group met again at the luncheon table. The man who had been challenged handed the challenger a slip of paper. He read it in silence. Then he read it again, slowly and thoughtfully, the rest of the party looking on with keen, but mute interest. When he finally laid it down, he took out his cheque book, wrote out a cheque for \$4,000 and passed it across the table. This is what was written:

A BABY'S SMILE: You cannot purchase a baby's smile with coin or currency, stocks or bonds. To the soul that has so recently come from paradise, the most coveted things in this world have no appeal. A mother's kiss, a father's caress, a flower, a pretty trinket may win a baby's smile but you cannot bargain for it with gold.

YOUTH WHEN IT IS GONE.—The mill will never grind again with water that has passed. All the wealth in the world cannot buy back the zest and joyousness of youth or the care-free happiness of maidenhood when maturity has blotted them out.

THE LOVE OF A GOOD WOMAN.—Her love, like a baby's smile, cannot be bought with gold. Men may barter silver and gold and precious stones for a base counterfeit, but true love that lasts eternally is the most precious gift a woman can bestow. No man is rich enough to buy it; no man is too poor to possess it.

ENTRANCE INTO HEAVEN.—Money will buy every material thing there is to be found in this world, but not a penny of it can be taken into the next and used to gain admission into a state of immortal bliss. The keeper of the heavenly gate is not susceptible to bribes. There, at least, money has no value.

"MADE IN CANADA"

But Shipped From Foreign Ports to Foreign Ports, is Report.

Ottawa.—T. O'Hara, Deputy Minister of Trade and Commerce, gives in his annual report some pointed illustrations of how trade is lost to Canada. He cites a recent case where a ship was required to carry coal from Sydney to Montreal, two Canadian ports. The ship happened to be of Canadian registry, but the charter was made and the commission paid to a foreign broker resident not 400 miles from Montreal.

Again, an officer of the Department of Trade and Commerce saw lying at a pier in New York a number of large packing cases stamped "Made in Canada." They were awaiting consignment to South America, just eight days prior to the advertised sailing of a direct ship from Montreal, which ship sailed with half a cargo.

Mr. O'Hara comments: "The services and facilities of a foreign country are frequently sought perhaps because it is the line of least resistance, because of inertia or a dulled sense of what is due to Canada." He urges that all possible supplies should be bought in Canada and, if not obtainable in Canada, with the Empire.

SHOE OUTPUT OF CANADA INCREASES.

Montreal.—The number of pairs of boots, shoes and slippers made in Canada in 1923 amounted to 18,067,300, an increase of 873,094 pairs over the production of the previous year, according to a preliminary report on the leather boot and shoe industry issued by the Dominion Bureau of Statistics. The total value of production in 1923 was \$45,690,697, an increase of \$186,889 over the value of the previous year's production.

The number of establishments engaged in the industry in 1923 totalled 189 as compared with 181 in the previous year. Quebec had the largest individual number of factories, the total being steady at last year's figure of one hundred. Ontario ranked second with an increase of six new factories, the total for the year under review being seventy-three, as against sixty-seven for the previous year. British Columbia had seven factories, an increase of two. Nova Scotia was unchanged with four establishments as was New Brunswick with five.

The output by Quebec was by far the most valuable, \$27,370,767 of the total value of the output being produced in that province as compared with \$27,922,299 for the previous year. Ontario ranked second with \$15,598,351, as against \$14,756,909 for the previous year.

King Cole Tea. Full of Quality. You'll like the flavor. WINTER FLOWERING BULBS. (Experimental Farms Note) Hyacinths, tulips and narcissi can be grown successfully for winter bloom with very little care, if planted now.

WINTER FLOWERING BULBS.

Hyacinths, tulips and narcissi can be grown successfully for winter bloom with very little care, if planted now. A good friable garden soil, with a little sand added for thorough drainage, is satisfactory.

The desired number of pots should be obtained in the following sizes: four and one-half inch for hyacinths, one bulb to a pot; five-inch for tulips, five bulbs to a pot; and six-inch for narcissi, three or four bulbs to a pot. Other containers can be used satisfactorily provided there is a hole in the bottom for drainage.

After potting, a thorough watering should be given, filling the pots to the brim to ensure saturation of the soil. The pots should then be buried about six inches deep in sand out of doors, or placed in a cool, dark part of the cellar to make root growth. If the pots are placed in a cellar, occasional watering may be necessary to keep the soil in the pot always moist.

A good root growth is absolutely essential before attempting to force the bulbs into bloom. It is impossible to get good bloom from a bulb with scanty root growth. From six to eight weeks is required for root formation. About the first of December those bulbs buried outdoors should be brought into the cellar, or otherwise they may become frozen. If cut flowers are wanted the bulbs may be planted in boxes and treated as described for pot culture.

YARMOUTH CO. BUYS ONTARIO MILL

Cosmos Cotton Company is Expected to Benefit by the Merger. Yarmouth.—A merger of much interest to Yarmouth has recently been consummated whereby the Cosmos Cotton Company of Yarmouth, acquires the large cotton mill at Hamilton, Ontario, recently owned by S. Burrill, of Hamilton, and Messrs Peacock and Abbs, of the brokerage firm of Ames and Co., Toronto, visited Yarmouth and completed the deal.

To acquire the Hamilton mill, mortgage bonds will be issued at 90 with 6 1/2 per cent interest, to mature in 20 years. The closer association under one ownership of the two mills will, it is believed, result in material advantages to the Yarmouth plant, as it is anticipated that larger orders will be directed here.

The local plant has recently commenced working five days a week instead of four and it is expected that it will be soon running full time again.

TO ADVERTISERS.

Change of advertising copy must be in this office by nine o'clock Saturday morning, Monday being a public holiday the office in common with other business establishments will be closed. We thank you.

Clarence FitzRandolph and John Piggott were each successful last week in securing a black bear. Both bears were shot about three miles or more back from Carleton Corner and the hunters were near enough to hear each others shot on the day so fatal to the bruits.

The popular young ladies of Bridgetown will sell Poppies on Armistice Day. 21-21

The deer hunting season closed on Friday last but from reports at present to hand it would not appear that many were shot in this vicinity. Mr. Gordon Hirtle secured a very handsome one last week at Saunders' meadows along the Paradise River. Rabbits are reported very scarce and a number of local hunters assign this cause to an epidemic which appears to prevail among the bunnies about every seven years or so.

EDITORS WANTED MOOSE MEAT.

The Bulletin man hasn't smelled a piece of moose meat this season.—(Bridgewater Bulletin.)
 The editor of this journal has recorded the capture of a large number of moose by various hunters this season but as yet editor and staff have not been able to taste a morsel of the moose captured. We wish it understood that all engaged in the printing business are most cheerful meat eaters.—(Kentville Advertiser.)
 Our brothers of the fourth estate are evidently unfortunately placed on the moose meat proposition. The editor of this journal of the home and fireside together with his wife and family revelled in moose meat for a whole week this season, and enjoyed Sunday steaks at other times. This is the county to live in.—(Ed Montfort.)

The teacher at the Lower Mount Thom schoolhouse saw a moose from the schoolroom window the other day.—(Picton Advocate.)

Mr. and Mrs. T. S. Sanford, of the Royal Hotel, accompanied by Mr. A. C. Cox, left yesterday morning for Miami, Florida, where they expect to spend the coming winter. They went by car and plan to motor the entire distance and the trip down will occupy about two weeks. The Acadian will be joined by a host of the residents of Wolfville and vicinity in wishing for our popular townspeople a safe and pleasant journey and an enjoyable winter in that sunny land where winter is unknown. During the absence of Mr. and Mrs. Sanford the Royal Hotel will be in charge of Mr. Douglas Neilson, of Montreal, who with Mrs. Neilson, a sister of Mrs. Sanford, has taken up his residence here.—(Acadian.)

Next Monday (Thanksgiving Day) will be generally observed as a public holiday.

Mr. W. A. Swift this week brought to the Monitor office several clusters of strawberries (Senator Dunlap variety) the fruit on which was in all stages of size and development, from the very small green berry to ripe well developed specimens. The exhibit is a remarkable tribute to the splendid weather which has prevailed through the present Autumn.

Small quantities. On the mountain, however, considerable came down, partly four inches or more, so that parties hauling out wood were able to use their bob sleds.

Hallowe'en passed off very quietly. The small children enjoyed the occasion with masks fanciful costumes and fire-crackers and there were a number of parties for the little ones. No deprecations of any kind have been reported.

PRESENTATION TO DR. AND MRS. F. S. ANDERSON ON OCCASION OF THEIR TWENTY-FIFTH WEDDING ANNIVERSARY.

Dr. and Mrs. F. S. Anderson were treated to a genuine surprise on Friday evening by a large number of their friends, the occasion of the visit being the twenty-fifth anniversary of their wedding.

At the time the visitors arrived the Dr. was at his office and Mrs. Anderson was calling on a friend. However they gained admission and phone calls were sent forth calling both home on ingenious reasons. To say that the Doctor and Mrs. Anderson were surprised is putting it mildly. The evening was very pleasantly spent in a social way and Mr. F. R. Fay on behalf of the guests presented the Dr. and Mrs. Anderson with a handsome silver vase filled with carnations. In the presentation speech Stipendiary Fay made many humorous remarks and expressed the pleasure felt by their guests in being present on such an auspicious occasion. Dr. Anderson replied appropriately in a neat speech and a very pleasant evening followed.
