MOB HANGS 3 NEGROES JUST SUSPECTED OF CRIMES TO STATUE OF LIBERTY

Springfield, Mo., April 14.—A mob of 2000 men last night took Horace Duncan and Jim Copeland, negroes, from the county jail, hanged them to the goddess of liberty on the court house and built a fire under them and roasted them to death. The men were charged with assaulting Mabel Edwards, but it is said they were probably innocent.

Friday night, while Miss Edwards and a young man named Cooper were out riding in a buggy, they were stopped by two negroes, who beat Cooper into unconsciousness and dragged Miss Edwards into the woods by the roadside and assaulted her. Duncan and Copeland were arrested on suspicion, but there was no evidence against them.

One thousand men gathered around the jail last night, and on leaving that the negroes were not there hastened to the county jail, where the prisoners were confined.

Instead of attacking the jail first, the mob stormed the residence of the county sheriff, breaking down doors, smashing windows, destroying furniture in the lower part of the house and rendering the sheriff's wife unconscious from fright and violence. Overcoming resistance of the sheriff and a posse of deputies, the mob secured the key to the jail and gained entrance thereto. The mob had no difficulty in finding the cells of Duncan and Copeland. When the committee who entered the jail came out with the two negroes, the mob began to clamor for summary execution, shouting "Hang them," "Burn them." The negroes were taken to the public square and hanged to a statue of the goddess of liberty and fire kindled under them, in which they were roasted, 3000 persons watching their agony.

A Third One.—Inflamed by the success of their fiendish endeavors, the mob recalled the presence in jail of Will Allen, a negro, who was charged with the murder of a white man, but who had always protested his innocence. The jail was stormed again and Allen led out to the public square and hanged from the tower, which he jumped from the tower, which he had been compelled to ascend. The mob about his neck, and as he fell, the mob containing the charred bodies of his former companions in prison, Duncan and Copeland, were taken up and hanged to a statue of the goddess of liberty and fire kindled under them, in which they were roasted, 3000 persons watching their agony.

As soon as Allen was dead several men rushed back to the jail for Earl Cane, a negro accused also of the murder of a white man, but who had escaped from the prison, which had been wrecked earlier in the night. The mob, finding it dark, went home as day began to dawn.

Jail a Wreck.—The jail is a wreck, the mob, after they had secured the three negroes, continuing their work of destruction until nearly all the prison bars were down. About \$3000 damage was done to the prison alone, while to the sheriff's residence, which was attacked first, the damage is fully as much.

Mrs. Horner, the sheriff's wife, who faints on every sort of alarm, was in a critical condition. State militia, reinforced by 200 deputy sheriffs, guard the streets of Springfield to-night, against possible renewed action by the mob.

There are hundreds of strangers in Springfield, and the anti-negro feeling still runs high. The mob, during the day, many threats were heard, and Sheriff Horner, fearing a fresh outbreak, with darkness should fall, telegraphed Governor Folk early for aid. The governor responded promptly and within a few hours six companies of militia were on the way from various parts of the state.

In addition to sending soldiers to guard against further violation of the law, Governor Folk took quick action to prosecute the leaders of last night's mob, and authorized a reward of \$300 each for the arrest and conviction of members of the mob. This is the limit allowed by law. In addition all instructed Rural Lake assistant attorneys-general, to go to Springfield at once to aid in the ferreting out and prosecution of the leaders in last night's work.

Of the fourteen prisoners, white and negroes, who escaped from the prison last night during the mob excitement, four were captured during the day. A Bitter Feeling.—Many from the farming regions in town to-day caught the mob spirit readily, and shared the sentiment that the negroes should be driven from Springfield while the feeling against the Negro race was strong.

Negroes who dared to appear on the streets were greeted with hoots and jeers, and on several occasions men and boys collected to attack them. Both negroes and whites are armed. There was a steady demand to-day for firearms, and at many hardware stores it was reported that the entire stock of weapons of every sort had been sold.

When Duncan and Copeland were dragged from their cells in the jail they could say nothing but "Oh! Oh! Oh!" and it is thought that long before they were dragged into the square they were completely unconscious from fright. When they were strung up to the statue of justice their bodies were

Russian Novelist Declares Actress His Wife According to Custom But Two Hotels Ask Him to Leave.

New York, April 15.—When Maxim Gorky arrived in this country last Tuesday, he stated to the immigration officials that he was accompanied by Mme. Gorky, Saturday morning the statement was published that his companion was not his legal wife, who, with his children, remains in Russia. As a result of this publication Gorky issued a statement which, translated, reads as follows:

"I think this disagreeable act against me could not have come from the American people. My respect for them does not allow me to suspect that they lack so much courtesy in their treatment of women. I think that this dirt is conspired by the friends of the Russian government. My wife is my wife—the wife of Maxim Gorky; she and I, we both consider it the lowest to go into any explanation about this. Every one may say about us what he pleases. For us it remains to overlook the gossip of others. The best people of all lands will be with us."
("Slightly Gorky.")

The published story went on to say that the Madame Gorky who is now with the author is Andreieva, a Russian actress, with whom he had since his separation from his wife about three weeks ago. The explanation was made that being unable to secure a divorce in Russia because of the strong official feeling against him, Gorky secured a divorce in Finland and was married to Andreieva before a notary. When approached on this subject today Gorky said:

"The publication of such a libel is a dishonor to the American press, and I am surprised that in a country famed for its love of fair play and its reverence for women, such a libel should be published. I am sure that this should have gained credence."
"She is my wife. No law that was ever devised or made by man can make her more so than she is now. The intimation that the relations existing between us are illicit is a base calumny. Never was union between man and woman more holy and more true than that of ours. Madame Gorky tried to appease her husband at this point, but he struck the copy of the paper in which the defamatory article appeared and cried:

"A lie travels fast and I must overtake this one before it has gone too far. I will prepare a signed statement for the press and see if right and justice prevail in America."
Madame Gorky sought to have the reporter retract the article, but she was unable to do so. She then tore the paper from his hands, saying: "I forbid you to read this horror."
Later a note from the office was sent to the effect that the signed statement quoted above.

CONTROLLER FUSE BURNS OUT THREE PERSONS ARE INJURED

A. D. Sleeth and Mrs. Napoleone, Passengers on Belt Line Car, Painfully Hurt.

The blowing out of the controller on a Belt Line car about 8 o'clock last night and the subsequent blaze in the vestibule created so much commotion that three people jumped out of the car while in motion and were injured, one woman seriously.

As No. 10 on the Sherbourne route was passing up Sherbourne-street immediately above Queen-street, the controller started to burn owing to a short circuit. Motorman No. 776, who was in charge of the car, jumped to the pavement, falling heavily. He had his hands slightly burnt and his knee was hurt.

Mrs. Napoleone, 192 Berkeley-street, was sitting in the car near the rear door and she jumped for the pavement, also the blaze was confined to the opposite end.

A. D. Sleeth, grocer, 177 West King-street, also jumped off, sustaining a severe injury to his leg. The car stopped when the pole was pulled off the wire.

When P. C. Return arrived on the spot a moment later he found the woman lying on the road, unable to move. Dr. Russell attended her and ordered her removal home. She was unable to walk and was carried in a hack.

Only slight damage was done to the car. The interior of the vestibule was severely scorched.

FIVE BOYS IN WINNIPEG RAID A LAWYER'S OFFICE

Get Away With Cash Box With \$1100 in Cash and Cheques—Other Daring Theft.

Winnipeg, April 15.—(Special.)—Three daring robberies, supposed to be the work of crooks known to the Dominion police, have been committed in Winnipeg during the past week.

The first robbery was when Ernest Anselmy was relieved of \$500 which he had drawn from the Bank of Hamilton. The other two robberies took place in the Imperial Bank, one of the victims being Aid. Sandison, who was touched for \$50, and a lady who lost \$24.

All three robberies were of the most daring character. Aid Sandison had his money taken out of his bank book which he had taken for a second.

Five boys, aged from 14 to 17, skipped last week with the cash box of the law firm of Howell, Hudson & Marillat, containing \$1100 in cheques and cash. The deed was done at noon hour, the law firm being in league with the office boy. One of the boys was captured to-day and the police found about \$250 hidden in a back yard.

Other boys went to Minneapolis, and the police there are after them.

MURDER AND THEN MURDER ON PORTUGUESE BATTLESHIP

Lieutenant Killed by Crew for Slaying Sailor Who Was Attempting to Fire Cannon.

Madrid, April 15.—The Portuguese newspapers to-day print a story to the effect that while the Portuguese battleship Vasco La Gama was opposite Lisbon on the evening of April 13 there were unusual movements, cries, detonations and signals for help on board.

The tug Aresan approached the vessel, but was fired upon and retired. They say that a lieutenant was killed by the crew of the vessel in revenge for the death of a sailor who was killed by the lieutenant as he was trying to fire a cannon.

The papers also say that the examination of the 483 mutineers of the cruiser Don Carlos, who mutinied April 12, are being held, and that seven of them have already been sentenced to close confinement.

NATIONAL TAX ON FORTUNES TO LIMIT BIG BEQUESTS TO INDIVIDUALS

President Roosevelt's Suggestion to Cope With Ill-Gotten Gains—Also Criticism for "Muck Rakers."

TAX ON FORTUNES.
I feel that we shall ultimately have to consider the adoption of some such scheme as that of a progressive tax on all fortunes beyond a certain limit, whether given in life or devised or bequeathed upon death to any individual—tax so framed as to pay only one individual; the tax, of course, to be imposed by the national and not the state government. Such taxation, of course, is aimed merely at the inheritance or transmission in their entirety of those fortunes which exceed all healthy limits.—President Roosevelt.

Washington, D.C., April 14.—President Roosevelt made the laying of the cornerstone of the new office building of the house of representatives this afternoon the occasion for the delivery of a remarkable address on public questions, in which he condemned the unbridled criticism of public men and institutions and advanced the remarkable idea of taxing out of existence great fortunes above a certain amount.

This is the first time Mr. Roosevelt has delivered a public speech since his tour of the south last autumn, and is also the first time he has had an opportunity of addressing the senate of the United States since his inauguration, more than a year ago. He seemed to address the senate almost exclusively. The members of that important body, which in its composition will in so many particulars, sat almost immediately in front of him on a staging erected above the foundations of the new palace which is the work of reconstruction for the uses of the members of the other house of congress. He talked to the senators about the men who had been accusing them of being traitors to the state and he scored writers who could only see the evil side. In doing this he rather defended the men with whom he is in conflict, and he received from them much applause and a sympathetic hearing.

It is important to this people to grapple with the problem connected with the amassing of enormous fortunes and the use of those fortunes.

It is important to this people to grapple with the problem connected with the amassing of enormous fortunes and the use of those fortunes.

The material problems that face us to-day are not such as they were in Washington's time, but the underlying facts of human nature are the same.

There are, in the body politic, economic and social, many and grave evils, and there is urgent necessity for the sternest war upon them.

One of the chief causes against those who make indiscriminate assault upon men in business or men in public life is that they invite a reaction which is sure to be powerfully in favor of the unscrupulous scoundrel.

Gross and reckless assaults on character, whether on the stump or in newspaper, magazine or book, create a "morale" and vicious public sentiment.

At the risk of repetition, let me say again that my plea for immunity to-day, but for the most unparading exposure of the politician who betrays his trust.

To assail the great and admitted evils of our political and industrial life with such crude and sweeping generalizations as to include decent men in the general condemnation means the scoring of the public conscience.

There is any amount of good in the world, and there never was a time when lofter and more disinterested work for the betterment of mankind was being done than now.

It is a foolish and timid no less than a wicked thing to blink the fact that the forces of evil are strong, but it is even worse to fail to take into account the strength of the forces that tell for good.

In his "Ecclesiastical Polity" that fine old Elizabethan divine, Richard Hooker, wrote:

"He that goeth about to persuade a multitude that they are not so well governed as they ought to be shall never want attentive and favorable hearers, because they know the manifold defects

RAILROADS HAMPER TORONTO. The World two or three days ago dealt with the lack of train accommodation on the Canadian Pacific all over Ontario.

Another subject requires ventilation as regards both the Grand Trunk and Canadian Pacific. These roads have made no material improvement in twenty years in the despatch of morning trains from Toronto over all their railroads.

When is the Grand Trunk to build its short line from Kingston to Ottawa and give this city a six hours' service from capital to capital in connection with its several main line express trains?

The way Toronto railway service problems appear to be handled by the two companies is to summon the local chiefs to Montreal twice a year for a talk on the needs of the road, and after a palaver, after the manner of a Hudson Bay factor with minor traders, to send them home with the promise of an early visit from the Montreal magnate.

PICAYUNE AFTER REGINA. A city publicity movement is going ahead in Regina, the population of which is only a little over 5000.

The Regina board of trade has decided to employ a publicity commissioner, to raise \$5000 from the citizens for the current year's expenditure, and to ask the city council, which is understood to be quite willing, to raise another \$5000.

It is better to have voted \$5000 than not to have voted anything at all, but the sum is too small for an effective campaign.

Toronto's advantage. The board of trade may only be waiting for a suitable moment to utilize that promise as the basis of gathering a large fund which, if the conditions are right, business men might place at the disposal of the city's commissioner and advisory committee.

In short, the commissioner of industries must be a first-class business man. He will not be obtained for a small salary. The chances are ten thousand to one against his being found among the general run of applicants for minor city offices.

BRITAIN FOSTERS HOME INDUSTRIES. Canada by establishing a protective tariff has not only promoted the establishment and development of her industries, but has compelled United States manufacturers to erect local branches from which their Canadian customers can be supplied.

Every pound of our material, the seemingly identical with American goods, is manufactured in this country.

This is an important and highly significant declaration, especially in view of Mr. Dunlop's further statement that "the goods could be purchased sufficiently cheap in the United States to sell them at a profit here, the English buyers will no longer stand for it."

There is a tendency in this country," he said, "just now to municipalize everything. Of course our firm is principally interested in tramways, but there are other movements on foot. Well, you see, the electric bodies—city councils and the like—have to purchase street car lines and equipment they naturally do not favor bids from outsiders, even tho they may be their cousins—the Americans.

ering trade union regulations for wages and other requirements. Naturally, if outside firms wish to get orders, they have to prove that they are really home industrial plants built out of British money and run by British workmen.

There is no reason to doubt that Mr. Dunlop's summing up of the economic situation in Britain is substantially accurate. It simply confirms what other observers have remarked, that the mother country is not now so closely wedded to the axioms of the Manchester school that the citizens will always buy in the cheapest market irrespective of other considerations.

THE BIG FOUR.

There are four big reasons why the people of Ontario should control the water powers of their province.

1. Cheap power for all industrial and agricultural purposes is thereby secured. 2. Cheap energy for lighting streets and highways, houses and factories and all other buildings, farm ones included, is thereby secured.

4. The electrification of the big railways appears to be at hand. Once the state has the say as to the electrical energy that is to run them, it is master of all the highways of the country, railways included.

5. If ever a generation was charged with great responsibility toward posterity, it is this generation of voters now living in Ontario.

"SORDID AND SELFISH." There are Americans who seem to think no good thing can come out of Canada. They confuse the movement for municipalized electricity with an intention to drain Niagara dry for the sake of dollars.

The New York Commercial has a solemn editorial upon the preservation of Niagara Falls. It mourns over the decadence of Ontario, and sheds one extra bitter tear because the great deputization which went to Premier Whitney to call for cheap power, selected for which the self-sacrificing Representative Burton of Ohio introduced to the house of representatives his bill for preserving the scenic beauties of the falls.

The two peoples and the two governments appear to view this subject from exactly opposite points. The United States would forbid, and it will be talked forever up to the highest point that the people will stand. Worst of all it will be used to entrench existing monopolies.

of Niagara. It is merely a device for securing for industrious, beauty-loving communities the electrical energy (which everyone admits may be developed without the slightest injury to the falls) at prices which will be very different from the monopolistic prices charged the consumer by vendors other than the government or the consumers' municipal body.

The wonderful flexibility and power of the six-cylinder Napier is well illustrated by the above and it is such performances that induced Prince Arthur (now in Canada), Sir Montagu Allan, Mr. Geo. Hooper of Montreal, and other discriminating buyers to purchase Napiers.

ALL NAPIERS ARE STANDARD GAUGE (56 1/2 INCHES) AND HIGH CLEARANCE, being thereby especially adapted to Canadian roads. American manufacturers long ago appreciated the need of standard wagon gauge construction and adopted it; but in Europe, where roads are level and free from sand and ruts, this has not been necessary, with the result that few European manufacturers are building high clearance, standard gauge cars, suitable for Canadian roads. All our lines, as enumerated below, are both standard gauge and high clearance.

PUBLIC AMUSEMENTS.

Robert Mantell, who begins a week's engagement to-night in the Princess Theatre in a revival of "King Lear," acted last week in Providence, R.I., in circumstances of unusual interest. Holy week in that city, from the view-point of the theatrical business, is one of proverbial dullness, but Mr. Mantell's mount of Shakespeare at appeared to theatre-goers there that his receipts for eight performances were not only in excess of all previous records for the final week of Lent, but were within a few dollars of the highest receipts for an equal number of performances at the prevailing scale of prices—\$1.50 to 50 cents—ever taken in that theatre. On the night of Good Friday—an occasion observed as a holiday in only one of the United States, Connecticut—when he appeared as the Duke of Gloucester, the theatre was crowded, and after the performance he and Marie Booth Russell, his leading actress, were given a reception by the Shakespeare Club. Both the club, which has about 200 members, and the Shakespeare Society, with nearly 1000 members, attended all the night performances in a body. Mr. Mantell is soon to begin a long tour of Australia, with probably South Africa to follow.

"Mlle. F. F." and "The Rounders" two cleverly-written burlettas, which abound in wholesome comedy, bright dialogue, all the latest comedy song hits, combined with a good company, are prime factors in the success of the May Howard musical extravaganza, at the Star this week. In addition Miss Howard presents a series of art pictures, posed by living models.

All students are talking a great deal of interest in Madame Charlotte Maconda's recital on Thursday evening. She is looked upon as such a consummate mistress of the vocal art that a recital by her is worth to the vocal student a great many lessons. She will give a charming program, including several songs heard here for the first time. The sale of seats begins this (Monday) morning.

Ben Greet's company will produce a number of Shakespeare's plays during the days of the university convocation exercises in June.

JOHNSTONE BENNETT DEAD.

Ashe of Well Known Actress to Be Scattered, as She Desired.

Bloomfield, N.J., April 14.—Miss Johnstone Bennett, the actress, who had made Bloomfield her home for the last six years, died this morning from tuberculosis, after an illness of about two years. Her disease was the result of a severe cold contracted while playing in Denver, Col.

A short time ago she was advised to adopt the "ozone" treatment; that is, to eat two raw Bermuda onions every day. She did this for about a week, and it seemed to benefit her, but later it did no good, so she abandoned the treatment last Monday.

The body was taken to Middle Village, Long Island, late this afternoon, where it was cremated. Her ashes will be scattered, according to her dying wish. Miss Bennett also asked that there be no coaches or flowers at her funeral, and her request was granted.

Miss Johnstone Bennett was 36 years old. She was born of French and Spanish parentage, at sea. She was the daughter of William H. Cronise, and was left motherless in this country, and was adopted by Mrs. Mary Bennett, and at her death by Sybil Johnstone, the actress. She began her stage career while still a young girl, and in her first hold upon public favor in the support of Richard Mansfield. Later she joined Charles Frohman's staff of players, and originated the title part in "Jane." Then she was starred in "The Amazons," and finally in "The Female Drummer." Of late years, up to the time of the first attack of the disease which caused her death, she appeared in vaudeville, in sketches she wrote largely herself, and in which she assumed male attire. Such parts she was able to carry off with an easy assurance and comic masculinity that made her very popular. She appeared several times in Toronto.

MATTEUCI STUCK TO POST THE REAL INFERNO RAGED

Noted Scientific Observer Relates Story of Eruption as Seen From Top of Vesuvius.

Naples, April 14.—After a hard ride on horse back up the side of the mountain, the Associated Press representative to-day succeeded in reaching the highest habitable point on Vesuvius, where Prof. Matteucci, director of the royal observatory, courageously has held post through the eruption. The noted scientist was found to be comparatively calm and undisturbed by his recent fearful experiences. For three days Prof. Matteucci and his little band were cut off from the outside world. Their provisions ran low and their rations consisted of cheese, bread and dried onions until Prof. Matteucci's urgent telegraph appeals led a venture party to push thru on Friday with a stock of supplies for their relief. Meantime the professor had kept at his instruments taking observations and making accurate day and night, while a perfect inferno raged around him.

As he came forward to greet the correspondent his blackened face and dust-covered clothes told of the ordeal thru which he had passed. He is of middle height, of stocky build, with ruddy face and silver grey hair and moustache. His appearance combines the intellectuality of the savant and hardihood of the soldier. The post he seemed to belie his profession, for he looked like a western cowboy after a hard ride in a dust storm. He wore a rough, heavy, dark, buttoned-up shirt, which was held together at the throat by a rough cord. A cloth cap, leggings, trousers and heavy boots completed his costume. The post he stood he stood was kneedeep in ashes which had been swept aside to make a small footway. From the observatory (a tower to which narrow paths had been cut thru the ashes, the correspondent looked out over an ocean of ashes and twisted rivers of lava while Vesuvius rose grimly in a mantle of ash and shrouded with dark vapors rising like a gigantic fan. Prof. Matteucci was asked to tell in his own way the story of the eruption. He consented to do, and speaking in good French, gave a detailed narrative.

Matteucci's Narrative. "I first observed Mount Vesuvius giving unusual signs about a month ago when the lava began to overflow, taking a south west direction. The lava usually increased as several small lava streams formed into one great current. "The real danger began the middle of last week. Then an enormous stream of lava coming from the summit meeting the other streams which burst from the lower strata. It was a mass that overwhelmed Scotecese. Thruout the lava discharge the volcano was comparatively quiet and without electrical phenomena. The only ominous sign was the advancing wave of lava and the cinders forming an enormous cloud in the shape of a pine tree over the crater.

Great Rent in Cone. "Our really terrible period came at 3 o'clock Sunday morning and lasted until about 5 o'clock. The mountain, which hitherto had been silent, suddenly gave out a deafening roar and a great rent was made in its cone. Huge solid rocks were hurled and a shower of them fell near the observatory, threatening to crush in the roof, but most of them fell far outside the observatory zone. The rent was in this first discharge, but solid, bullet-like stones, which cut the roof and damaged the windows.

Prof. Matteucci employed his hands as well as his voice in order to depict the continuous mass of stones rising like bombs and Roman candles. At midnight of Saturday the professor, "I ordered the women and children of the household removed. This was before the rain of huge stones began and I was left with Prof. Perret of New York, my American assistant, and two domestics. There was scarcely any eating and the domestic order was abandoned. We snatched a few bites now and then; most of the time I ate right here," and the observer added, "The remains of a recent meal on the desk of his study.

Veritable Hell. "Thruout Sunday enormous solid blocks of stone rose to a height of 200 feet from the crater, while ashes and sand were thrown much higher, and towards Monday the terrible shocks of earthquake gradually diminished. One of the worst features of the eruption was the unusual extent of electrical phenomena, the darkness being probed by vivid flashes of lightning, giving the sky blood-red color, and short heavy peals of thunder interspersed. These moments were terrible and terrible. Yes it was a veritable hell."

Asked if his scientific observations had yielded valuable results, Prof. Matteucci replied: "I have studied volcanic disturbances and met Prof. Matteucci. We became mutually interested and he honored me by inviting me to share his observations as an honorary assistant."

Scene of Desolation. "The mountain climb gave the correspondent an opportunity to see the desolation in the stricken districts. The route was thru Portici and Resina, passing over Herculaneum, to Pompeii. Here ashes had fallen to the depth of three feet, and hundreds of military wagons and a squad of soldiers were piling them in four parallel drifts 10 feet high, thru which filed a motley crowd of fugitives and lines of military wagons. The fugitives wore a miserable lot, covered with rags. Many of them were young children who carried babies in their arms, some of the latter having bright new toys, the result of the misapplied charity from the fashionable villas.

Portici was a sorry sight. The houses were streaked with mud and ashes up to the window-sills. Five hundred refugees were gathered before the city hall demanding help. Pompeii and Herculaneum were closed up, huge ash piles damming the entrances. The lower slopes of the mountain are domed with beautiful villas and parks, in which the orange, apricot, almond and olive trees were all blasted under the sea of ashes. The donkey, on which the correspondent rode, labored thru ashes two feet deep. A wide silence enveloped the scene. Even the birds had disappeared. Nearing the summit, the walls disappeared under the high level of ashes. The route lay across the lava beds ejected in the eruption of 1872. These lay in distorted masses like an ice-land. Naples was faintly visible below thru a curtain of smoke. As the correspondent journeyed upward a new crater suddenly burst from the summit of the volcano, enormous masses of sand and ash shot skyward. The monster trembled, seeming about to renew its convulsions, and the native guides hesitated, declaring that a warning had already been given of another outbreak to-day. Fortunately it was a passing manifestation.

Summer Cottagers, Attention!

What One of Toronto's Leading Musicians Says on an Important Subject.

The following letter should be carefully read by everyone owning or in any way interested in summer resorts or cottages:—

A. T. CRINGAN, Mus. Bac., Toronto, Teacher of Singing.

STUDIO: Toronto Conservatory of Music. 633 Church Street, Toronto, April 7th, 1906.

Sicbe Gas Co., Ltd., 81 York Street, Toronto. Dear Sirs,—It affords me much pleasure to inform you of the satisfaction derived from the Sicbe Gas machine installed by you at my cottage in Windermere, three years ago. The most satisfactory feature connected with its use is the extreme simplicity of operation and the very meagre amount of attention which it requires. The simple instructions received from you at the installation of the machine have enabled me to operate it without the slightest mishap during the past three summers. We clean it of sludge every Saturday, and re-charge it every alternate Saturday, spending twenty minutes per fortnight on the whole in caring for and operating during the season. This, you do not require to be told, is much less than the time occupied daily in cleaning and re-filling lamps before the Sicbe plant was put in. Regarding the expense of lighting by Sicbe Gas I must say that the cost has been much less than you estimated in your original specifications. We have all the light we require, and more, for the cottage (ten rooms), verandah on three sides, and boathouse and wharf every summer season of ten weeks, at the cost of the price of a single can of carbide. The Sicbe Gas stove is a feature which the members of our household would not care to be without. It is very handy for cooking purposes when meals are wanted quickly, and for ironing on hot days it is indispensable. The value of Sicbe Gas is appreciated when we spend the last evening of the season by lamplight in order that the machine may be cleaned for the winter. The contrast in quality and volume of light is then most vividly impressed.

Sincerely yours, (Signed), A. T. Cringan.

APPEAL IS ALLOWED.

In Case of Metallic Roofing Co. Against City of Toronto.

Ottawa, April 14.—Judgments were delivered by the supreme court to-day as follows: Ontario appeals—Connell v. Connell, Appeal dismissed with costs, Idington, J., dissenting. City of Toronto v. Metallic Roofing Co., appeal allowed in part without costs. Canadian Pacific Railway Co. v. Foraythe, appeal dismissed with costs. In Gilmore v. Simon an appeal from the court of King's Bench for Manitoba, the appeal was dismissed with costs. It was announced that in the May term appeals from the Province of Quebec would be heard after the Ontario list had been disposed of. The court then adjourned sine die.

HE'S 19; SHE'S NEARLY TO MARRIAGE A LOVE AFFAIR.

Meriden, Conn., April 14.—Mrs. Alice Wilbur, a widow of nearly 50, was led to the altar in East Meriden yesterday by Benjamin Hitchcock, who has just celebrated his nineteenth birthday. He says this is his first affair. He always bore the reputation of being a most bashful lad.

A RIGHT WAY and A WRONG WAY

Many people have many ways to bring about the same result. Most of them at mistaken ways, but this is not known until the test of time points plainly to the error. Practically there are but two ways to accomplish anything: a right way and a wrong way. Take, for instance, a man with a bad back, there are lots of them, and of various kinds, some with stitches and twinges, others with cricks and twinges; then there's the dull, heavy continuous kind that lasts all day and doesn't sleep at night. They're all bad enough, they're all hard enough to get rid of. Some people rub the back with liniment, others cover it with plaster, either of both means often bring relief, but the pain comes back—it's the wrong way to cure the trouble.

DOAN'S KIDNEY PILLS

Doan's Kidney Pills cure every form of kidney ills and that's why they bring such quick relief from backache. Mr. Fred Gray, Good Corner, N.B., writes: "I was greatly troubled with pain across my back. I procured a box of Doan's Kidney Pills, and received so much benefit from them that I consider them the best remedy for kidney trouble there is. I would not be without them in my house." Price 50 cents per box or three boxes for \$1.25, all dealers or The Doan Kidney Pill Co., Toronto, Ont.

FALLS ROBBED OF GLORIES TOURISTS WILL STAY AWAY

Talk and Cartooning of "Vandalism of Commerce" Leads to Some Gloomy Forebodings.

Niagara Falls, N.Y., April 14.—Fears are entertained for the tourist traffic into Niagara Falls this year owing to the hostile attitude of some of the railroads, and the policy of retrenchment and pass curtailment adopted by many of the leading lines early this year. The decision of the Central Passenger Association to raise rates from the west to this city has started local hotelmen, and indications are anything but bright that the town will be enjoying its wonted activity this summer. Some have been optimistic enough to hold out hopes of getting the crowds here on account of the great publicity given to Niagara Falls in connection with the alleged commercial vandalism of power companies. True, the fame of the city has been greatly spread owing to this, but it is not the kind of advertising that pays. The falls have been depicted by cartoonists in certain sections of the country as barren rocks with thin hills of water trickling over them, and as a result the thousands who come to gaze upon the grand canyon no longer nourish anticipations of a happy sort. Hotelmen state that the season bids fair to be a dull one. The railroads are held accountable for the outlook to a great extent, and unless the passenger officials can be induced to look with favor upon this city it is not likely that there will be any change of late, and indications for the rousing summers of the last few years are dark. In fact, there are not many conventions of note booked for the summer of 1906. The first meeting of the year was held during the past week, and by some it was heralded as the "First Big Convention" of the season, whereas it only brought together twenty-three delegates, who spent most of their time in Buffalo when they were not in session here.

STRENGTH FREE TO MEN

How to Regain it Without Cost Until Cured

Strength of body—strength of mind? Who would not possess it if they could? It is nature's greatest gift—our most valuable possession. Without this strength life is a failure, with it everything is possible. Almost every man who is not strong, but few have been taught how to preserve this strength. Many, through ignorance, have wasted it recklessly or used it up excessively, leaving the body exhausted, the nerves shaky, the eyes dull and the mind slow to act. There are thousands of these weak, puny, broken-down men dragging on from day to day who might be as strong and vigorous as ever if they would only turn to the right source. Electricity cures these weaknesses. It gives you back the very element you have lost. It puts new life into the veins and renews the vigor of youth. For 40 years I have been curing men, and so certain am I now of what my method will do that I will give to any man who will try it, a full refund of \$5.00. If you are not cured or satisfied, return the money. As I am the originator of this method, a great success, there are many imitations of my Belt; but my great knowledge, based on 40 years' experience, is mine alone. My advice is given free with the Belt.

This offer is made especially to men who lack strength and vitality, who have drains, losses, impotency, varicocele, etc., but I also give my Belt on the same terms to sufferers from Rheumatism, Lame Back, Sciatica, Kidney, Liver and Stomach Troubles. Call or write for a Belt to-day; or, if you want to, look into the matter further. I have two of the best books ever written on Electricity and its medical uses, which I send free, sealed, by mail.

NOT AFTER THE "GAY CATS" BARROOMS CLOSED TO THEM

Inspector Davis Issues Instructions to Hotelmen That Known Bad Characters Must Be Kept Out.

Inspector Davis has notified a number of hotelkeepers in No. 1 division that hereafter they must not permit the "Gay Cats," or men known to be thieves, to frequent their barrooms. It is not that the bars cannot have any beer in the bar, but if they see a man flash a roll of bills they follow him until a convenient place is reached. Then they put him down and out, and his wad is gone.

A number of the worst of this gang have just been liberated from Central Prison, and are loose in the city. Inspector Davis is determined that wherever else these "thugs" may go they will not be tolerated in the "big" division.

Plainclothesmen Murray and Young observed Easter Sunday by visiting the barber-shop of John Thompson, 148 York-street, at high noon. They found six dozen empties, two dozen of ale and two bottles of whiskey. In the place were a gang of the "Gay Cats," and convicted on a charge of burglary. Thompson is a brother of the late "Six-eye" Thompson, who, in days gone by, caused the police much trouble.

STEEL TRUST NEXT.

Ohio Attorney Says President Corey May Find Himself Indicted.

Cleveland, Ohio, April 14.—Attorney Hal Deran, of Fremont, intimated to-night that indictments may be returned against the officers of the Steel Trust, including William E. Corey, the president. Deran is associated with the former Attorney-General Monnett in his fight against the alleged bridge trust in Ohio, stating that Corey, who was brought some time ago by Attorney-General Ellis, Mr. Deran claims that at least one company in the alleged trust is owned by Corey, and that the American Bridge Company, but in reality is the property of the Steel Trust. Indictments would be obtained under the Valentine anti-trust law.

TWO SUDDEN DEATHS.

Kingston Merchant Killed—Overdose of Liquor Kills Man.

Kingston, April 15.—Robert Waddell, a retired drygoods merchant, died suddenly at his home on West Kingston this morning. He was born in Scotland and was aged about 80 years. James O'Connor, Brockville, a waiter, was found near the G.T.R. junction in a dying state at 4 o'clock this morning. He died half an hour after being carried into the station. The remains were taken to Corbett's undertaking, where the cause of his death is supposed to have been an overdose of liquor.

LIGHT PLANTS PAY.

Guelph Dept. Meets All Charges for Gas and Electric Lights.

Guelph, April 14.—(Special.)—Ald. D. E. MacDonell, in a speech at the city and power department to-day handed over to City Treasurer Scroggie a cheque for \$915.69 to meet the annual payment of interest on the bonds of the purchase of the electric light and gas plants. In addition to this the department has been able to meet the charges on the money borrowed for the extension of the works. The work on the extension is progressing satisfactorily. When completed, Ald. MacDonell says the capacity will be 100 per cent. in advance of present requirements.

THE LILLY AN EMBLEM.

Beautifully Embodied in Easter Jewelry at Diamond Hall.

Among the emblems that the lily seems the most beautiful and appropriate. The egg, the "chick" and the hare are survivals of old pagan ideas but the lily has been adopted as the ally related to the Easter festival. A lily brooch that is shown at the Ryrie store this year is certain to be favored for gift making and personal wearing. It is set profusely with pearls and has daintily enameled leaves incorporated in the design. At \$16.50 this brooch is exceptional value.

Work on Ferry Sheds.

The framework of the new Toronto Ferry Company's waiting-room, west of the Wilson street wharf, is now being erected. The foundation has all been laid and the lumber for the building has also been cut. The contract for the structure is in the hands of Arthur Bryce, and the building of it under the inspection of Chas. Fair. It will be completed in a month, at least it has to be ready by May 24. One of the principal attractions about the waiting-room will be a roof garden. At present there are thirty men employed on the job.

KEARSARGE TURRET FIRED SIX U.S. SAILORS KILLED

Fatal Disaster on Battleship Occurs on a Friday, the 13th of Month.

Washington, April 14.—Two years to a day later than the fatal Missouri disaster, and on a Friday and the 13th of the month, six men were killed in the forward turret of the battleship Kearsarge by one of those accidents which acquire additional terror for sailors because of the obscure origin and almost impossibility of prevention. The Atlantic fleet, the strongest fighting fleet America has ever owned, had been for weeks engaged in the most severe drills in the waters of the Caribbean Sea, culminating in the quarterly target practice. This practice was just about concluding with most satisfactory results up to yesterday, and it confidently was expected at the department, upon the basis of preliminary reports received, that all records would be broken in the matter of rapidity of fire and efficiency of the gunners. But to-day, just at the close of the week's work at the department, came a telegram from Rear-Admiral Evans, the commanding chief of the Atlantic fleet, telling of a dreadful accident on one of his best ships, the Kearsarge. The news came from the mouth of Guantanamo Bay, indicating that the Kearsarge itself had arrived at that place.

Cable From Bob Evans.
Calmanera, April 14, 1906.
Secretary navy, Washington.

On April 13, about 3.15 p.m., shortly after completion of the target practice of Kearsarge forward turret, while the powder was going below, three sections of a 13-inch charge powder were ignited. Charge of powder in other life just below and one section inside 13-inch remained intact. Cause not yet determined, nor accountability. Matter is being investigated.

Lieut. Joseph W. Graeme, gunnery officer, has been sent to the Maryland naval academy for a year. The following have since died: Lieut. Huggins, turret officer; Peter Norberg, gunner's mate; Theodore Neagely, seaman; Arthur Thompson, ordinary seaman; Julius A. Koester, turret captain, first class; Ellis N. Athey, seaman. The following were dangerously injured by accident: recovery doubtful: W. King, ordinary seaman. "Will bury dead at Guantanamo. Vessel undamaged."

The Kearsarge's forward turret, where it occurred, is of the superposed type, in other words, an eight-inch gun turret set upon the top of the 13-inch gun turret, where the accident occurred. In the lower turret were 24 men and in the upper turret 16. An ammunition hoist connected the two, and the gun turret, where the accident occurred, probably every man in the two turrets would have been killed. The full charge of powder for a 13-inch gun, too large to be handled by any one man, so it is divided into sections in canvas bags, and it was three of these, probably just enough to fill one section, which ignited.

Probable Cause.

As the cablegram states, the cause of the ignition was not known, but the first investigation of the department is that in cleaning up the turret and throwing open the breeches of the big guns after the last round had been fired, the navy department is of the opinion that the cause of igniting the surplus powder was being returned to the magazines below. Had the remainder of this powder exploded the vessel might have been sunk. The Missouri disaster, when 26 men were killed in the turret and in the magazines below.

The Kearsarge regarded as one of the best battleships in the American fleet, is of 11,520 tons displacement and 375 feet in length. She was launched in 1898 and commissioned in 1900.

"IT'S ONLY A COLD, A TRIFLING COUGH"

Thousands have said this when they caught cold. Thousands have neglected to cure the cold. Thousands have filled a Consumptive grave through neglect. Never neglect a cold or cough. It can have but one result. It leaves the throat or lungs, or both, affected.

Dr. Wood's Norway Pine Syrup

is the medicine you need. It strikes at the very foundation of all throat or lung complaints, relieving or curing Croup, Colds, Bronchitis, Asthma, Croup, Sore Throat, and preventing Pneumonia and Consumption.

It has stood the test for many years, and is now more generally used than ever. It contains all the lung healing virtues of the pine tree combined with Wild Cherry Bark and other potent remedies. It stimulates the weakened bronchial organs, allays irritation and subsides inflammation, soothes and heals the irritated parts, loosens the phlegm and mucous, and aids nature to easily dislodge the morbid accumulations. Don't be hampered in accepting an imitation of Dr. Wood's Norway Pine Syrup. It is put up in a yellow wrapper, three pine trees the trade mark, and price 35 cents.

Mr. J. J. LeBlanc, Belle Isle, N.S., writes: "I was troubled with a cold and severe cough, which assumed such an attitude as to keep me confined to my house. I tried several remedies advertised but they were of no avail. At last I resorted to Dr. Wood's Norway Pine Syrup and on one bottle cured me completely."

AEROPLANE INVENTOR MAY DIE

Machine Falls 150 Feet, Breaking Israel Ludlow's Back.

Atlantic Beach, Fla., April 14.—Israel Ludlow of New York, inventor of the aeroplane, was so badly injured by a fall here to-day that he will probably die. Mr. Ludlow has been making ascensions in his aeroplane here, which is one of the features of the automobile races. To-day in tow of two automobiles he ascended to a height of 150 or 200 feet, when his aeroplane encountered a strong south wind, which was blowing with such force that it broke the bamboo supports and the wings of the aeroplane shut in, pinning him to his seat. With its occupant pinned in the aeroplane fell to the beach. Two of Mr. Ludlow's aerobrades were knocked out of line, paralyzing his lower limbs. He was taken to New York to-night to secure the attention of a specialist.

POLICE GUARD PORTRAIT.

Portrait of Kaiser in Paris Salon May Sit French Blood.

Paris, April 14.—This was "vandalism day" of the 36th annual exposition of the National Society of Fine Arts, and it attracted a brilliant gathering at the Grand Palace. In spite of the presence of a number of good works, the season this year makes a lower artistic level than that of last year. No picture stands out prominently, nor are there any absolutely bad. Impressionism seems to be on the wane and the extravagancies often shown and sometimes admired are now rare.

Bochard displays a large portrait of the German emperor which attracts crowds of people. It is especially guarded by police to prevent possible mischief on the part of French patriots.

BAD DAGO ON ICE FIELD.

After Making Murderous Attack, Devine Eludes Police.

Port Arthur, April 14.—(Special.)—Last night an Italian named Devine made a murderous assault on a fellow countryman named Carillo, shooting him in the stomach. The man escaped. It is believed that a man could be seen running around on an ice field, which was rapidly being blown out into the lake, and it is believed that Devine, to elude the police, had gone out on the ice and has been blown into the lake.

BLOCKED BY ICE FIELD.

Port Arthur, April 14.—(Special.)—The steamer Hoover from Duluth halted sight this morning from Duluth, but owing to a shifting of ice field out in the lake she was unable to get into port. The whole ice field is now being carried out into the lake by a heavy wind, and the Hoover, which has its own for several hours, was compelled to sail out into the lake. The Whalien went out this evening to assist her.

SEVENTY YEARS A CHURCH.

Norfolk Street Methodists Celebrate Two Notable Events.

Guelph, April 15.—(Special.)—Norfolk-street Methodist Church celebrated to-day the golden jubilee of the dedication of the present church building, and the seventieth anniversary of the organization of the congregation. On Monday evening a congregational gathering is to be held. The congregation was organized in 1836, following the influx of English immigrants, and the first preacher was Samuel Fear, a weaver of Nottingham, Eng. A little red chapel was then used for worship. In December, 1837, the Canada Company granted the church a site and a frame chapel was erected. In 1856 the present church was built. One of the conventional features of Methodism in the first half of the century, which gave the church such a hold on Ontario, was the system of local preachers, the Guelph workers covering ground as far away as Goderich, Stratford and Kincardine.

Doric Quartet Concert.

A magnificent setting of a church choir scene with full electrical and scenic effects, including church chimes, will be a feature at the Doric Male Quartet concert at Association Hall, Wednesday evening, April 18. The interior of the church, with its large pipe organ, chancel rail, altar lights, etc., will be beautifully reproduced while the singers will be seen in their choir robes. This is under the special direction of Mr. Auguste Schneider and Mr. Robert C. Newman of Shea's Theatre. The rest of the program is contributed to by first-class artists.

LORD'S DAY ACT WILL PASS

SPEAKER SUTHERLAND OPINES

Windsor, April 15.—Hon. R. F. Sutherland, speaker of the house of commons, is spending the Easter vacation with his family in Windsor. "I cannot give even a guess as to when the session will end," said Mr. Sutherland. "Some members figure on June, while others say it will be July before the business is completed. Even with routine business, there is plenty of work for the commons to do." "The Lord's Day Act is now before a committee, and I believe it will pass parliament without much opposition."

THE SMALL ONES LOSE.

So Says Equitable's President, Talking of Lapsed Policies.

New York, April 15.—A statement given out to-night by the Equitable Life Assurance Society says: "Investigation shows that the fear engendered by the developments of the year resulted in the lapsing of 27,385 policies for \$1000 or under, while only one policy for \$250,000 was allowed to lapse."

"Of the entire volume of lapsed policies in the Equitable, 84 per cent. were for \$200 or less."

"In commenting on the results of his efforts to restore the waning or lapsed policyholders, President Morton said to-day: "My belief that the small policyholder was the chief sufferer from the agitation and excitement regarding life insurance is now confirmed. The holders of policies of \$5000 and upwards are generally men of business experience. They fear, based on misapprehensions of the real facts, and often on misrepresentation, thousands of small policyholders allow their policies to lapse."

The U. C. Millstone Tract and Book Society's annual meeting will be held in College-street Baptist Church on Thursday evening.

A CORNER IN INFLATION
WANTED AT NEW YORK

Wall St. Trying to Make Money
Subservient to Quotations—
Toronto Market Numb.

World Office.
Saturday Evening, April 14.

The extent to which the market manipulators have to resort to bring about the wonderful variations in the call money rate. Twenty-five and two per cent rates in the one day is almost too good to place before the most credulous as the result of a banking system, even of the United States. Frequent objections are taken to the inelasticity of the American banking methods, but surely in matters of this kind there is contraction and expansion of a high order. That congress has not long ago given effect to a law permitting currency expansion beyond the present powers is due to a knowledge that if further latitude were given the remedy would be more than the supposed disease would prevent. It is not a matter of the last few days, but rather a matter of the last few years, that has brought about the admission of a larger loan and a consequent greater contraction.

The market promoters are evidently hard put to accomplish their ends. Millions of dollars have been expended in manipulative advertising, the most of which has gone into the hands of the quick traders. The plans which have previously worked out to perfection have failed thus far, but the flotation will not be relinquished until results are achieved. By this time the movements will have to be undertaken under conditions during the campaign will be subservient to the fluctuating. With European affairs quiescent, domestic prospects buoyant and a market fairly clear of outside long accounts, the groundwork for a start of this kind looks well prepared.

The threatened coal strike has passed the critical stage. By the time the miners are drawn into a conference, in which (temporarily) the groundwork will be ultimately won by which the union will gain little, if anything, more than they previously held. Adjustments are being made in the coal market, and the affairs of the coal industry are being handled in a more businesslike manner. Not so the men, who become restive under debt and in employment and consequently weak in their original demands. The situation is not now a danger spot in the market, and should become less so as the final settlement is reached. Wall-street interests are closely allied with a settlement of labor disputes, and the next few months and a great deal will be done to avoid clashes now, whereas they would be welcome at other times.

So much has been predicted of the winter up that the Washington bulletin on Tuesday was quite a relief. The prediction was that it was 2 1/2 per cent. lower this year than last, and should be a crop of 10,000,000 bushels lower. The stock market was not prepared for the statement as it appeared, having been engaged wrestling with the money question. Chicago and other grain markets took it at its word and rather sharp all-around declines were made in cereal futures. The monthly report was insufficiently bullish to attract more than a passing notice in the stock market, and any sentimental influence it had been dispensed by a rally acceptable to the first banks will immediately advance gold to any bank up to the sum of \$5,000,000 for each bank to be immediately available in the form of gold. The amount to be returned at once upon the \$12,000,000 gold has already been distributed by the sub-treasury among gold importing city financial institutions.

Joseph says: The public will shortly come into the market and with comparative ease. It is a condition that is likely to be seen, more activity and higher prices than have been recorded in the past 30 days. The market is being worked by much higher prices. Keep in close touch with Pacific Coast; it is being well bought. Steel shares will make new ground. It is preferred is truly a cinch. Specialties: Back to Back Island common for big money this year.

The output for the colleries of the Crow's Nest Pass Coal Co. for the week ending April 13, was 17,840 tons, or a daily average of 2973 tons.

On Wall Street.
Marshall, Spader & Co. wired J. G. Beatty, King Edward Hotel, at the close of the market: The market was again strong to-day, but with trading confined almost entirely to a few specialties. The Pennsylvania group was rather conspicuous in showing support and Union Pacific continued its upward trend, while the colliers, the least active, received enough support to hold them well in line with the high level.

The main feature of the session was the copper shares in showing an increase in the public support of a speculative character, and also evidence that larger interests believe in a possible increase in the dividend on Thursday.

Common report places 7 per cent. as having been agreed upon by directors. The increase in surplus reserves leaves that item at \$4,772,500 in excess of local requirements, which is enough if it does not include recent gold receipts and engagements in full, a development made possible by the reported action of the treasury department to-day.

The market looks strong and in certain respects reminiscent with the promise of less restrictive trading next week.

Ennis & Stoppani wired to J. L. Mitchell, McKinnon Building.

The market during the past week has recorded substantial net gains in an important number of leading representative issues, recovering from extensive declines due to stringency in money, which we can state positively was due fully as much to attempts of banking interests to secure returns as to any real scarcity of funds. The B. G. O. stock issue and uncertainty regarding the Con. Gas dividend situation, exceptional declines in these issues, and the important money market movement to-day is now entirely favorable for advancing prices. Next week the steel situation, the ore land deal, the Amalgamated dividend meeting, progress in legis-

lation regarding free commercial alcohol and other matters will occupy attention. Our leading railroad and industrial corporations have been pouring money into the respective properties for many years, at the same time building up great surpluses. Amalgamated Copper is conducting a mining business yielding 100 per cent profit. Other companies are proportionately prosperous and outlook was never brighter for continuance of increase in earnings. We anticipate greater activity and improvement during the coming week.

Oil Markets.
Pittsburg, April 14.—All grades of crude petroleum, except Raglan, were advanced to-day by the Standard Oil Company. The quotations follow: Pennsylvania 101, Tionna 171, Second Sand 161, Corning 115, Newcastle 138, Cobell 121, North Lima 98.

The market looks strong and in certain respects reminiscent with the promise of less restrictive trading next week.

Ennis & Stoppani wired to J. L. Mitchell, McKinnon Building.

The market during the past week has recorded substantial net gains in an important number of leading representative issues, recovering from extensive declines due to stringency in money, which we can state positively was due fully as much to attempts of banking interests to secure returns as to any real scarcity of funds. The B. G. O. stock issue and uncertainty regarding the Con. Gas dividend situation, exceptional declines in these issues, and the important money market movement to-day is now entirely favorable for advancing prices. Next week the steel situation, the ore land deal, the Amalgamated dividend meeting, progress in legis-

tion regarding free commercial alcohol and other matters will occupy attention. Our leading railroad and industrial corporations have been pouring money into the respective properties for many years, at the same time building up great surpluses. Amalgamated Copper is conducting a mining business yielding 100 per cent profit. Other companies are proportionately prosperous and outlook was never brighter for continuance of increase in earnings. We anticipate greater activity and improvement during the coming week.

Sao Paulo Company.
Editor world: The shareholders of the Sao Paulo Railway Light and Power Company, Limited, are this morning receipt of a letter from the secretary of the company, requesting them to consider the sanctioning of a bylaw passed by the directors on the 14th inst., authorizing the directors to use the funds of the company in the purchase of stock in any other corporation.

This is a new feature in modern Canadian finance, and a step which requires the most careful consideration by the shareholders before authorizing the directors to give the nature of whose operations the company without any limitation or specification as to what investments should be made. On reflection it would appear to be a step entirely undesirable, and the directors should not be asked for by the shareholders to consider the sanctioning of a bylaw passed by the directors on the 14th inst., authorizing the directors to use the funds of the company in the purchase of stock in any other corporation.

The case of Jabez Balfour caused a good deal of interest. He is a man of good education and pleasant manners and succeeded in swindling thousands of people, especially persons belonging to the poor middle class of England. It is estimated that these lost about \$300,000.

CONDENSED PROSPECTUS OF THE Cobalt Silver Queen LIMITED

INCORPORATED UNDER THE ONTARIO MINING COMPANIES ACT.

AUTHORIZED CAPITAL \$1,500,000

Divided Into 1,500,000 Shares of the Par Value of \$1.00 Each.

This Company owns and is operating THE STORMONT MINE (formerly owned by the Temiscaming and Hudson Bay Mining Company), one of the most valuable properties in the COBALT MINING DISTRICT.

DIRECTORS:

HON. FRANK R. LATCHFORD, K.C., President. C. B. TAYLOR, Banker, Treas.
R. W. GORDON, Vice-President. FRANK L. CULVER, Managing Director
A. N. MORGAN, Esq.

LOCATION

The property of the Company is part of the Southeast Quarter of the north half of lot No. 7 in the fifth concession of the Township of Coleman, in the District of Nipissing, lying west of the right of way of the Temiscaming and North Ontario Railway, containing 13 3/4 acres, more or less, upon which is situated the "STORMONT MINE," and is also the owner of the southwest quarter of the north half of said lot seven, containing 40 acres. These properties lie right in adjoining the Town of Cobalt, to the southwest, and on account of its being right adjoining the right of way its shipping facilities are unsurpassed.

DEVELOPMENT

There are two shafts in the mine, one 65 feet deep (perpendicular), and the other 90 feet deep, on the angle of the vein, with a drift cut along the vein for a distance of 100 feet, showing an immense ore body. A large sleeping house, blacksmith shop, ore house and shaft house are on the property, and it is a shipping mine.

A shipment was made during September, 1905, by the former owners of the Cobalt Silver Queen mining property to the Balback Smelting & Refining Co. of Newark, N.J., in which practically 23 tons of ore netted, above all cost of freight, cost of treatment, etc., \$27,667.31.

A condensation of the original statement of said shipment is as follows: Balback Smelting & Refining Co., Newark, N.J. Statement No. 7820. Silver Ore shipped from Stormont Mine (now owned by Cobalt Silver Queen, Limited).

38 bbls., weight 46,388
Deduction for moisture 445
Net after deduction for moisture 45,943
Gross amount of silver, per ton 2,000.52
Net amount of silver, per ton, 95 per cent. 1,908.09
Total amount of silver extracted 43,831.6 ounces,
@ 5-8c per oz. \$27,849.40
Less freight and cartage 282.19
Total net receipts for which remittance is made. \$27,567.21

The above from the remittance sheets of the Balback Smelting and Refining Co. shows that practically 23 tons of ore shipped re-

turned, above freight charges to Newark, N.J., cartage, cost of treatment, etc. the sum of \$27,567.21, or over \$1000 net per ton of the silver values alone, for which check was remitted to the owners of the property by the Balback Smelting and Refining Company.

On 6th day of November, 1905, with no machinery in use and under the crudest possible mining facilities, the old management of this property (The Temiscaming and Hudson Bay Company) paid to its stockholders a dividend of 200 per cent. It is the purpose of the new management (THE COBALT SILVER QUEEN, LIMITED), with the installation of the latest improved mining machinery which has been ordered, to increase, if possible, the dividends to the shareholders.

This property is not a prospect, but a shipping mine.

This is the mine which has made Cobalt famous.

This is the mine formally owned by the Temiscaming and Hudson Bay Mining Co., Limited.

This is the mine which has already paid the shareholders of the Temiscaming and Hudson Bay Mining Co., Limited, 200 per cent, on the par value of the shares.

Shipments from the district range from \$30,000 to \$50,000 net per carload of ore shipped to smelters in the United States.

It is the purpose of the management to develop the property actively and intelligently, combining the development of the property with the extraction and shipping of ore. In order to purchase machinery and provide additional working capital, the directors of the COBALT SILVER QUEEN COMPANY, LIMITED, offer through their financial agents, COBALT CONSOLIDATED MINES, LIMITED, 75,000 shares of capital stock at par (\$1.00 per share), reserving the right to withdraw said offer or advance the price of said shares at any time.

The undersigned, COBALT CONSOLIDATED MINES, LIMITED, financial agents, through their own experts, have fully investigated the holdings of the COBALT SILVER QUEEN CO., LIMITED, and consider the properties owned and operated by it as one of the best properties within the most proven section of the Cobalt mining district, and that the "STORMONT MINE," which is well known to every operator, can be classed among the most valuable in the district, and with the additional equipment and machinery it should produce unusually large profits for every investor in its stock.

Subscribers for stock offered by the COBALT SILVER QUEEN CO., LIMITED, will be allowed a prior right to any additional issues offered.

In fairness to all "First come, first served" will strictly be our policy. If you wish to secure a portion of this stock send in your application as soon as possible.

ACTRESS WITH GORKY

Continued From Page 1.

cal and social conditions are more or less interwoven, but here in this domestic relations are held in an altogether different one.

"I do not intend, anyhow, to take an active part in the work of the committee, but I believe in sticking to the flag until everybody else deserts. I will hear from the other 12 members before deciding whether I mean to get out of the committee."

Too delicate.

Mr. Howells said: "This is too delicate a matter for me to be quoted on. It would never do for me to discuss or criticize this thing one way or another in the public prints. I cannot answer any questions at present. Yes, I will resign from it. Really I cannot answer any questions."

The Gorky party left the Hotel Belle

Steuenberg, and received the following reply: "Brother: The class struggle, which is world wide, the same in America as in Russia, makes us brothers indeed. Convey our best wishes to fellow workers in your native land. We are with you in spirit. Accept fraternal greetings. (Signed) William D. Haywood, Charles H. Moyer, Ada County Jail."

Another indiscretion. Yesterday, at Wilshire's instance, Gorky sent a telegram of sympathy to the two men imprisoned in Idaho on a charge of murdering ex-Governor

Wood's Phosphodine, The Great English Remedy. Tones and invigorates the whole nervous system, makes new blood in old veins. Cures Nervous Debility, Mental and Brain Worries, Dependence, Sexual Weakness, Exhaustion, Spasmodic, and Effects of Abuse or Excesses. Price \$1 per box, six for \$5. One will please, six will cure. Sold by all druggists or mailed in plain package on receipt of price. New pamphlet mailed free. The Wood Medicine Co. (Formerly Windsor) Toronto, Ont.

St. Petersburg, April 14.—Madame Andreeva, who is said to have accompanied Maxim Gorky to the United States, is one of the best known actresses in Russia. Up to a few months ago no divorce from his wife had been granted Gorky, but it is alleged his relations with her have been severed, he is still supporting her and their two children here. It is also said that Mme. Gorky fully understood the relations existing between M. Gorky and Mme. Andreeva, but

nevertheless she was extremely devoted to Gorky. After the tragedy of "Red Sunday" Gorky is alleged to have been with Mme. Andreeva when he was taken into custody and brought to the fortress of St. Peter and St. Paul. Mme. Gorky bent her very energy to secure his release. She journeyed from official to official supplicating on behalf of her husband, and the release of the novelist whose life she insisted would be jeopardized if he remained in the damp dungeons of the fortress. The night he was released Mme. Gorky saw him only for a few moments, and it is said he then returned to Riga, where he met Mme. Andreeva. In justice to Mme. Gorky, however, it should be stated that the police insisted that he should leave St. Petersburg immediately.

Gorky, it is said, spent last summer in Finland with Mme. Andreeva.

NO BOATS IN WAITING FOR CANAL TO OPEN

Port Dalhousie, April 15.—The Welland Canal will be opened to-morrow for traffic. Generally there are fifteen to twenty boats here waiting for the opening, but this season not one boat has arrived westbound unless there are arrivals thru the night.

The opening will be on the quiet side on account of the ice conditions on the upper lakes.

The opening will be on the quiet side on account of the ice conditions on the upper lakes.

AS TO THE MADAME

St. Petersburg, April 14.—Madame Andreeva, who is said to have accompanied Maxim Gorky to the United States, is one of the best known actresses in Russia. Up to a few months ago no divorce from his wife had been granted Gorky, but it is alleged his relations with her have been severed, he is still supporting her and their two children here. It is also said that Mme. Gorky fully understood the relations existing between M. Gorky and Mme. Andreeva, but

MOVED FURNITURE ON SUNDAY But It Was a Work of Necessity Due to Bad Roads. "Miles" is the word which is being most frequently used to describe the state of the country roads leading into the city just now, and some of the city thoroughfares are in just as disorderly a state.

As a result of the muddy condition of the Lake Shore-road, residents in the west end of the city, about church time yesterday, were given the unusual sight of five large vans loaded with furniture, in active service. They were bringing in from Mimico the goods and chattels of a Mimico man. The moving operations began at 8 o'clock on Saturday, but the two vans, originally employed, got stuck on the way into the city. Three extra teams were sent for, and at 3 o'clock Sunday morning a readjustment of the loads was begun. To overcome the objections of the police, a special permit was obtained from City Council, allowing the vans to proceed to the storage sheds of the cartage company.

Bernard Shaw Sees. New York, April 15.—George Bernard Shaw has brought an action in the supreme court against Herbert S. Stone of Chicago, and Melville E. Stone of this city, composing the firm of Herbert S. Stone & Co., publishers, to recover \$25,000 damages for the wrongful detention of copyrights of books published by them of plays of which he is the author, and also for an account of royalties and profits, to which the author maintains he is entitled.

Drunk or Crazy. Galt, April 14.—(Special.)—When Chief Gorman this morning opened the door of the cell in the lockup in which he had an intoxicated stranger, he found the inmate with his clothes torn to ribbons. He acted like a maniac. The unfortunate gives his name as John Wilson and says his home is in Toronto. The opinion is that he has delirium tremens.

Chicago Gossip. Ennis & Stoppard wired to J. L. Mitchell, McKinnon Building, Chicago, that initial transactions in wheat were at higher prices, and the market appeared strong for a time, being influenced chiefly by the continued strength in coarse grains and higher outside markets. Later it developed that considerable long wheat was coming out, with bears joined in the selling, thus accelerating a downward movement, until a full cover had been taken off the price. We still advise sales on all hard spots.

Corn and oats were strong early on continued delay in seeding operations, consequent upon wet weather. Free selling developed, however, of a protracted nature, resulting in a decline of nearly one cent. Provisions ruled steady, but dull.

HOLLAND IS NOW IN JAIL. WIFE CLAIMS UNFAIR GAME

Says That in Making Over Property, She Was Promised That There'd Be No Prosecution.

After being away four days over two months, Detective Mackie returned yesterday morning with his prisoner, Christopher Holland, who was arrested in Bristol, England, on the charge of stealing \$13,800 from the Ideal Bedding Company, of 10 Jefferson-avenue.

These thefts, the firm claim, extended over a period of two years, and were committed by means of signing blank cheques and falsifying the time sheets.

Holland left Toronto on January 12. He claims that Mr. Levesconte and the firm knew he was going and that he went with their full consent for the purpose of raising the money to make good the shortage. Before leaving and while ill he claims he gave a bill of sale to the firm and also assigned to them his life insurance policies amounting to \$3000.

Holland was arrested on February 2, and ten days later Mackie left for him. After Holland arrived in England his father died leaving him \$2500, his received £500. The remaining £2000 is held in trust for him. A portion of the \$500 was gobbled up by the lawyers who fought extradition for him in the Bow-street police station.

The trip across was uneventful, with the exception of Wednesday last, when the Victorian ran into a severe gale. The captain said it was one of the worst he hasn't found the open yet.

The appreciation of those who have visited our show-rooms and viewed our millinery display, is a flattering proof to us that our styles are exclusive, tasteful and moderately priced.

This Easter season we have made a special effort to import the most recent metropolitan styles. The opinion of our patrons is that we have succeeded.

MOB HANGS THREE NEGROES

Continued From Page 1.

limp, as tho they were dead. Over 5000 people watched the bodies burn.

Prosecuting Attorney Patterson and Sheriff Horner are said to have secured the names of more than 100 men who took an active part in the lynching. The leaders of the mob were not disguised, but worked in the full glare of the electric lights on the square.

Prosecuting Attorney Patterson made the statement to-night that he will tomorrow appeal to Judge Lincoln of the criminal court to summon a special grand jury at once and make a most thorough investigation into the lynching with the purpose of prosecuting every man concerned who can be apprehended. This appeal, it is declared, will be augmented by a petition signed by hundreds of the best citizens of this community.

A crowd of negroes assembled on the public square early to-night and refused to disperse, but when the first company of militia arrived they sullenly scattered.

Negroes Have Dynamite. Whites and blacks are reported as having armed themselves heavily, and the negroes of the city are said to have seized 300 sticks of dynamite from a stone quarry for defensive purposes if further attempts at lynching are made.

Miss Edwards said to-night that she was positive that Copeland and Duncan, two of the negroes hanged, were not her assailants, and that she could identify her assailants if they were brought to her. It is also doubtful if Allen was guilty of the murder of O. M. Rouark, the well-killed soldier, for which crime the mob killed him.

ROUNDING UP THE GANG OF SUSPECTED THIEVES. Men Supposed to Have Looted Monypenny Bros. and Lugsdin's in Custody.

Detective Sackett last night returned from Buffalo, N.Y., with John Warren as a prisoner. Warren was arrested in Buffalo Saturday on the charge of theft and shopbreaking.

Warren was employed as an engineer in the building occupied by Monypenny Bros. and Debenham, Caldwell & Co. He is supposed to be the leader of the gang who committed the extensive robberies from these stores last December. The loot of the store of J. R. Lugsdin and the thefts from W. R. Brock & Co. are also charged up against this crowd.

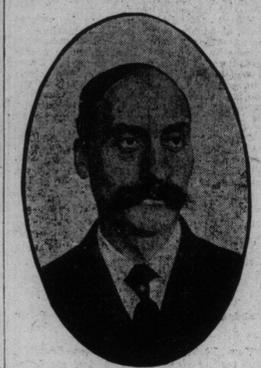

Early Sunday morning Detective Newton visited 4 Leonard-ave. and arrested John Milligan. He is supposed to be another of the same crowd. He claims to be a carpenter, but seldom works at it.

It is for receiving the stolen goods that Charles Goodman is now doing two years in the Central. Milligan and Warren "skipped" when Goodman was arrested. Milligan returned a week ago, but the police did not wish to place him under arrest until Warren was captured. Warren when he left town went to Pittsburgh and then back to Buffalo. He has been convicted before.

The only evidence against the men is the confession of Charles Goodman, who claims he bought the goods from his brother Louis and the two men un-der arrest. Louis got out of town the night Charles was arrested and has so far evaded the police.

THANKSGIVING IN NAPLES FOLLOWS A FALSE ALARM

Pictureque Scenes in Streets—Work of Salvage Reveals Strange Things.

Naples, April 15.—The somewhat threatening conditions of Mount Vesuvius Saturday night having subsided with the eruption of enormous clouds of sand and ashes, these elements have begun to settle slowly, again enveloping the mountain in a thick haze and cutting off a view of it from Naples, only the outline of the base being visible.

Prof. Matteucci, director of the royal observatory on the mountain, to-night issued the following bulletin: "The eruption of sand continues in less abundant quantities and I wait serenely for a satisfactory termination of the eruption."

The sudden renewal of alarm Saturday night was due to the fact that the eruption of Easter with unusual fervor. The festival is always pictureque in Naples, but to-day it is doubly so.

Cardinal Prisco, Archbishop of Naples, celebrated an elaborate thanksgiving mass in the cathedral, while along the streets crowds protruded themselves before sacred images.

Found Alive. The gravest situation has now shifted to Otrajano and San Giuseppe, where the recovery of the dead from the debris goes on amid the misery of thousands of homeless refugees. A sensational development occurred during the work of salvage at Otrajano to-day when the searchers unearthed two aged women, still alive, but speechless, after their six days' confinement. They were among the hundreds who were crushed beneath the falling wreckage during the rain of stones and ashes last Sunday and Monday. The women were protected by the rafters of the house at which they were and managed to exist on a few morsels of food which they had in their pockets.

Sought to Save Jewels. The work of salvage at San Giuseppe has brought to light a remarkable condition. Bodies have been found of women in whose hands were coins and jewels, indicating the instinct to preserve earthly belongings in the moment of feeling from death. The excavations of Herculeum, over which the town of Bosmina stands, have recorded similar instances of death overtaking its victims carrying their jewels while fleeing from the invading lava.

SEASON HAS BEGUN. Steamers Arrive at and Leave From Fort William Harbor.

Port Arthur, April 15.—(Special.)—Navigation opened at the Canadian head of the lakes this morning with the arrival of the Hoover at Fort William from Duluth. The steamer arrived at the entrance of the bay yesterday, but as the ice was being blown out into the lake, could not get in. The Hoover went out last night and cut a channel thru the ice pack and this morning the Hoover got in. The ice is now all out of the bay.

The steamer Madagascar and Newmount, which wintered at Fort William, cleared for the east with cargoes of grain.

The Italian who was shot here Friday night died to-day. The murderer is still at large.

ON THE WAY TO WORK. Smoke a "Murad" and Be Free From Cough.

"Murad" (plain type) Turkish Cigarettes are the latest and best achievement of Allan Ramsay, for 18 years government expert of Turkey. During this period Mr. Ramsay's cigarettes have become the accepted brands of the dignitaries of the Turkish court. 15 cents per box.

WORK COUNCIL AND SUBURBS

Toronto Junction, April 15.—The Royal Society Chapter was opened Saturday night by Wm. Comp. W. J. Irvin and adjourned to meet on Friday, the 20th.

The executive committee of the town council will meet at 8 o'clock Monday evening. The Grand Trunk Railway laid about 2400 feet of track on St. Clair-avenue Saturday, and attempted to remove one of the electric light poles, but were prevented by Chairman Bull and Chief of Police Ruyter. At 4 p.m. the scene of the track laying was visited by Mayor Smith and Councillors Bull, Ford and Haines, who gave those in charge notice to stop work, as they had exceeded their permit by 350 feet. It is expected there will be a lively time Monday morning.

Judge Morgan will hold a court of revision Monday at 10 a.m. in the town hall. The Salvation Army held a big demonstration here this afternoon. The open air march started under the control of Staff Captain Goodwin. There were about 75 members of the band, and a number of men in khaki uniforms, where Commissioner Coombes delivered a lecture on "The Yesterdays, Today and Tomorrow of the Salvation Army." Hon. J. W. St. John acted as chairman. Mayor Smith and Councillor Armstrong addressed the meeting. The evening service was conducted by commissi-oner Coombes, Brigadier Taylor and 60 chorists of the Salvation Army. The service was held at the hall and the hall was packed to the doors.

Rev. Beverley Smith was called away to Fergus yesterday afternoon on account of the death of his mother. Rev. Mr. Millman of St. Anne's officiated at the morning service and Rev. Mr. Lenecke of St. Olave's the Swanssea, at the evening.

Holland Landed. Joshua Goodwin of the firm of Goodwin & Son, engraving manufacturer in this place, was suddenly taken with a paralytic stroke Saturday afternoon and died in a few hours. Deceased was in his 72nd year and assisted in loading a car of sea grass in the morning. He leaves a widow, two sons and two daughters, all of whom are grown up. The funeral will take place on Tuesday afternoon to Christ Church Cemetery.

East Toronto. East Toronto, April 15.—In all the churches in town to-day large congregations were present. In Hope Methodist Church Rev. Mr. Ferguson spoke in the morning from Matt. vi., 28. The altar and railing were covered with flowers. Miss Liszio sang a solo.

In Emmanuel Presbyterian Church Rev. Mr. Rogers conducted the services, that in the evening being wholly of a musical nature.

In St. Saviour's, Rev. Dr. Osborne officiated. In the morning the choir sang and the music by the choir went in keeping with the day.

The meeting of the Balm Beach Park Commissioners, held last night, was fruitless of definite results, with respect to the question of the proposed rental of the property may be leased by the town. The question of fees and dues occupied much of the time, but that a rental of \$10,000 to be in abeyance. A very strong feeling of antagonism to the proposed payment of \$100 or two hundred dollars to be paid by the town exists in Wards 2 and 3, and which may later develop into a strong protest.

Nowaday. The services of the choir in St. John's Church were in all respects the most successful in its history. In the morning the choir sang and the music by the choir went in keeping with the day.

North Toronto. R. Pugsley and family, the 2nd concession of West York, are moving to Rossmore-avenue, Agincourt, next week.
