W. T. WHITE, General Manager.

WOMAN'S WORLD.

The Joys of Cuddletime.
As the evening shadows gather,
When my baby, dressed for Dream-
land,
Comes to-ramp to me so;
Comes and begs of me to hold him
On my knees and "rock-a-bye."
As the purpling sun sinks lower
In the gleaming western sky,
And he cuddles to me nearer,
As the freight softly flows
And across the dusky portals
Ghastly, flickering shadows throng;
Ah, the dimpled arms about me,
Are clasped tighter for a kiss—
Ah, was ever richer necklace
Placed about one's neck than this?

Soon the drooping, drooping lashes
Cover up two eyes of brown,
And the tousled head so golden
On my breast sinks lower down.
Ah, the sweetness of the pleasure,
Making life one golden rhyme,
With a dimpled babe to fondle
When it comes to cuddletime!

Seventy Years a Servant.
New York, Nov. 8.—Mary Jane Williams, a negro servant, who changed jobs only once during her 70 years of domestic service, was buried beside her mistress, the late Gertrude Lafre-
verie Vanderbilt, the authoress, in the
Vanderbilt plot in Greenwood cemetery,
Monday. When Mrs. Vanderbilt
died four years ago she asked that the
old negro be interred beside her,
and Mrs. Vanderbilt's family saw that
the request was carried out.

No. 1035—LADIES' SURPLICE WAIST.
with permanent or removable shield,
a stylish design to meet this season's de-
mand for waists is the surplice style,
which is still popular and very becom-
ing to most women. The front is plain
broadly and the fulness at the shoulders
and the back and front gives the
required fulness, the trimming being
used to outline the neck, which opens
over a removable shield; or the latter
may be attached permanently as one
desires. The sleeves are in elbow
length and are shirred near the hand,
in the seam to give required fulness,
and the band has a pointed tab tacked
to position on the sleeve, which holds
the fulness in shape and makes a
dainty effect. This would develop nice-
ly, and is well adapted to the soft and
sheer fabrics of this season's showings.
China silk, taffeta, chiffon, Lansdowne
and many other fine materials make
this an attractive design. Cluny or
Irish lace for shield and cuffs, with
gold dots in the Great key pattern, are
used for band trimmings at neck and sleeves
on white chiffon-tafteta, make a most
charming combination.
The design can be made plain if one
does not care to make such an ex-
pensive waist; wash material made
with lace or embroidery would make a
fine waist. The pattern is in five
sizes—32, 34, 36, 38 and 40 inches bust
measure. For 38 bust it requires 15-8
yards of material 44 inches wide, with
1-8 yards of all-over 26 or 28 inch wide
and 2-3 yards of insertion, with 2-3
yards of edging.

World's Pattern Department.
Please send the above-named pat-
tern, as per directions given below, to:
Name.....
No..... Street.....
Town..... Province.....
Measurement—Waist..... Bust.....
Age (if child's or miss' pattern).....
CAUTION.—Be careful to enclose above illustration and send this de-
plicate in making enquiries about pat-
terns that are not received promptly.
Address **The World Pattern Depart-
ment, 83 York St., Toronto.**

Personal Mention.
On Tuesday evening the members of
East Queen-street Methodist Church
choir gathered at the home of W. J.
Leadbetter, 140 Queen-street, to say
farewell to their choirmaster, Arthur
Anderson, who is leaving for a visit
to England. Mr. Anderson was pre-
sented with a handsome traveling
case.
Mrs. William Hamar Greenwood
will receive for the first time in her
new home, 16 Barton-avenue, on
Thursday, Nov. 15, afternoon and
evening.
Mrs. W. A. Clarke and the Misses
Clarke, Avenue-road, will not receive
again until the first Friday in Janu-
ary, after that, the first and
third Fridays in every month.
Mrs. Charles M. Home will receive
at her new home, 151 Spadina-road,
this afternoon.
Whitby Society.
The "Travellers" held their
first meeting of the season, Sat-
urday, in the chair. At their next meet-
ing a paper will be read on "A Trip
to London." The meeting was well
attended.
Miss Maud Annis is visiting in Port
Perry.
Obituary.
The death of Miss Amy Douglas,
daughter of W. J. Douglas, general
manager of The Mail and Empire, has
been announced.

Hair Falls
Losing it, day after day? And doing
nothing to save it? As though you can
lose your hair and keep it, too! Then
stop this falling. Stop it at once! You
can certainly do it with Ayer's Hair Vigor.
It feeds the hair, gives it strength,
keeps it in place. And it makes the scalp
healthy, cures all dandruff, and
keeps the hair soft and glossy. Try it
and be happy!
S. J. Ayer & Co., Lowell, Mass.

SIR CURZON TO BECOME AMBASSADOR TO U.S.?

Sir Mortimer Durand's Retirement
From Washington is Announced
and Rumor Gets Busy.
London, Nov. 8.—The retirement of
Sir Mortimer Durand, the British am-
bassador to the United States, will take
place at the end of this year.
He has been permitted to resign at
his own urgent request, and had been
anxious for some time past to give up
diplomatic work. He intends to leave
the diplomatic circles here on a permanent
and to retire to private life.
The foreign office has not yet con-
sidered the question of his successor,
and it is expected that there will be an
interim during which a new councillor
of the embassy, whose name will be
announced shortly, will probably be
appointed acting ambassador.
Sir Mortimer entered the British dip-
lomatic service in 1873, when he was
sent to Persia. During the entire
period between his appointment as am-
bassador here in 1891 and his resignation
for his government, with the exception
of about one year.

CURZON TO SUCCEED.
Washington, Nov. 8.—Lord Curzon,
former viceroy of India, is mentioned
as the likely successor to Sir Mortimer
Durand as ambassador to the United
States. The fact that Lord Curzon
is now in the United States, in con-
nection with his visit to the country
lends color to the rumor of his
appointment to the Washington post.
In official circles here it is regarded
as likely that Lord Curzon will be
given the post because of his wide ac-
quaintance in the United States and
his extensive experience in the British
foreign service.

DENIED.
London, Nov. 8.—The foreign office
says there is absolutely no truth in the
rumors that Lord Curzon, the ex-vice-
roy of India, is to succeed Sir Mortimer
Durand as ambassador of Great
Britain at Washington.

PUBLIC AMUSEMENTS.

**The announcement that the Star
Show Girls will appear at the Star
next week is a source of joy to
each and every person that was for-
tunate enough to witness the show put
up by this company last season,
which, by the way, was the first ap-
pearance before the public of this popu-
lar troupe.**
Toronto theatre-goers will welcome
the announcement made by the man-
agement of the Princess Theatre, that
next week at that popular playhouse
will be devoted to a return engage-
ment by the well-known comic opera
company, Frank Daniels, who will ap-
pear under the management of Charles
Dillingham in the amusing Anglo-Can-
adian farce, "Sergeant Brue," which
was given at this theatre last winter
and received with marked approval.
"Sergeant Brue" is a model of farce-
comedy construction; has a consistent
and interesting story, and its score is
melodious and tuneful. The title role
is especially well adapted to the ac-
complishments of Mr. Daniels.

The attraction at the Grand next
week is an elaborate revival of "Char-
ley's Aunt." Brandon Thomas' great
farce comedy, and will be presented
with Edienne Gilbert, who, in the
person of Lord Fancourt Babberly
is pronounced by leading critics as being
the most artistic piece of work of its
kind ever given on the stage. He will
again portray this laughter-provoking
role of the bogus aunt. This will be
the last visit to Toronto this season
of Mr. Gilbert and his comedienne
party of players. The usual matinees
will be given on Wednesday and
Saturday.

EXTRADITION TREATIES.
Russia Opens Negotiations to Ac-
cept Anarchists.
St. Petersburg, Nov. 8.—The Russian
Government, thru the foreign office,
has opened negotiations with the other
governments, with the view of con-
cluding supplementary extradition
treaties covering fugitives accused of
the preparation or appropriation of
explosives for use in the manufacture
of bombs, several governments having
refused to extradite such offenders on
the ground that their offences were po-
litical.

DOVERCOURT MISSION OPENING.
The opening service in the Church
of England temporary mission hall,
corner of Dovercourt and Davenport-
roads, will be held this evening at 8
o'clock. Rev. Canon Welch, D.C.L., rector
of St. James' Cathedral, and
rural dean of Toronto, will be the
preacher.
Services on Sunday next will be:
Sunday school, 9 a. m.; morning pray-
er at 11, sermon by Rev. Eustace A.
Vesey, curate of the parish; even-
ing service at 7 o'clock, Clarence A.
Bell, lay-reader.
Yankee Consul at Mukden.
—Mukden, Manchuria, Nov. 8.—The
American consulate-general has been
opened here.
The consul-general at Mukden is
Willard D. Straight of New York.

Stowaway Goes Back.
—New York, Nov. 8.—A stowaway's
plucky attempt to escape by swimming
ashore at quarantine station from the
steamer Petersburg was blocked by
a rowboat crew from quarantine to-
day. The stowaway was returned to
the steamer, and he will probably be
carried back to Rotterdam.
Steamer's Cargo Afire.
New York, Nov. 8.—The steamer
Tourence, which sailed from this port
yesterday for Manchester, put back to-
day with fire in her cargo.
The fire was extinguished.

RAILWAY VENTILATOR TORONTO MAN'S INVENTION

May Do Away With the Top Win-
dows and Awkward Draught—
Transportation Topics.
George Henry Layng, employed in
the C.P.R. freight sheds at the Union
Station, has invented a new system for
ventilating passenger cars. Mr. Layng
claims that his invention will dispense
with the top windows in cars, thereby
doing away with the down draught on
the heads of passengers. It will also
prevent the necessity of having to open
the side windows. The invention con-
sists, essentially, in providing cars
with a false ceiling, thus making a
space for the whole length of the car,
in this space, a system of pipes are
laid, the car well supplied with fresh air,
and without danger of any draught be-
ing felt.
Freight Car Shortage.
The shortage of freight cars on both
the Grand Trunk and Canadian Pacific
railways still continues to arouse the
ire of Toronto shippers of the city.
One large manufacturer complained
yesterday that he has been waiting
for over two weeks for cars to ship
his goods.
It is nothing these days for shippers
to wait at least a week for even one
car.

Railroad officials say that a good
many of the shippers all over Ontario
are making the shortage even greater
by taking too long to release cars. In
Toronto a manufacturer is allowed 48
hours to release a box car after he
has been notified of its arrival. In
cases of rough freight, 72 hours are
allowed to unload a car. The large
increase in the freight traffic this
year is mainly responsible for the scar-
city. One official claims that there is
50 per cent. more business in Toronto
this year than last. When asked how
many extra cars were wanted, the official
replied that there was plenty of work
for 6000 more freight cars with-
in a radius of 50 miles of the city.
The Canadian Pacific Railway are
hastening the construction of box cars
at the Angus shops, their output just
now numbering about 25 a day.
The shortage will last until the end
of next April, according to one C. P.
R. man.
C.T.R. Double Tracking.
The Grand Trunk are doubling their
line between Lynden and
Stratford, a distance of 8 1/2 miles.
When completed, the company will
have 100 miles of double track, from
Hamilton to London. The work is
being rushed forward. Most of the steel
is already on the ground. All the ties
will be shipped next week. The grade
work is also being considerably
reduced. The work on this line will
continue right up to Christmas.
The Grand Trunk is also being con-
siderably reduced. The work is being
done at Palmerston-Warnton section of
the line.

Plenty of Potatoes.
"Most of the potatoes being eaten
in Toronto just now," said a rail-
road man last night, "are coming from
New Brunswick and Maine. Over five
million arrive every day."
A new siding will be put into the
Ontario Sewer Pipe Company's fac-
tory at Mimico by the Grand Trunk
Railway. To reach the present siding,
which is in bad shape, would cost
about \$2500, while the new one is es-
timated to cost about \$9000.
According to The Montreal Herald,
the American-Hawaiian Steamship Co.
will in January next commence the
operation of a steamship service be-
tween New York, New Jersey, and
Honolulu. Weekly sailings will be
maintained.

MEN WIN LONG FIGHT.
Scranton, Pa., Nov. 8.—The strike at
Scranton Nur. & Bolt Works, which
began last June, was ended today, the
company granting the demands of a 12-1/2
per cent. increase in wages.

ACCEPT 3-CENT INCREASE.
Chicago, Ill., Nov. 8.—The switch-
men of the Northern P. & W. have
accepted the offer of the offer of the
managers of the western roads for an
increase of 3 cent. an hour in wages.
A further increase of 3 cents an hour
will be determined by arbitration.

CITY'S WATERFRONT.
To Be Subject of Discussion by
C. M. A. Branch.
"What is to be the future of the
waterfront?" will be the subject of
discussion at a meeting of the Toronto
members of the Canadian Manufactur-
ers' Association, to be held on Nov. 21.
Arrangements for this meeting were
made yesterday afternoon by the exec-
utive committee. The principal scheme
to be submitted to the members will be
one of elevating the railroad tracks
along the Esplanade.

MAY TAKE HAND IN STRIKE.
H. M. Klitsen, one of the members
of the Ontario Railway Board, has been
in Hamilton constantly in connection
with the strike, and in telephone com-
munication with the board in Toronto.
He interviewed Mayor Biggar and rep-
resentatives of the strikers, but so far
without result.
The board will confer to-day on this
subject.
Wanted in Calgary.
Chicago, Nov. 8.—Percy C. Roberts,
said to be wanted by the authorities of
Calgary, Canada, in connection with
an illegal banking transaction, was
arrested here to-day when he alighted
from a train.

**Take WINDSOR TABLE
SALT.** Does not "bite" — is not
bitter. It is pure salt and all
salt will not take.
CASTORIA.
The Kind You Have Always Bought
Bears the
Signature
of
J. C. Ayer & Co.

ETHEREAL LEATHER.

ST. CRISPIN is said to have got
his leather from the Angels.
It surely was more merciful to
the feet than the air tight mineral
tannages of today.
"Normal Castskin" is made
in Germany—a long distance from
Heaven—but its mission to sweat-
ing, stifling feet, is merciful enough
to be almost angelic.
Pores left open so that foot
moisture can evaporate through them.
Cool, clean, light, sanitary, and brilliant
when shined, as patent leather.
To be had only in that Goodyear-Walton, fixed-
priced, foot-wear.

"The Slater Shoe"

4 SLATER SHOE STORES IN TORONTO
117 Queen St. East, 810 Queen St. East,
528 Yonge St. West, 27 Dundas Street,
Toronto Junction.

ROBBED BY BANKER. WOLVES IN ALGONQUIN PARK. REGULARS TO FIRE SALUTE.

**Italian Stabbed Twelve Times and
His Money Taken.**
New York, Nov. 8.—With scores of
people standing nearby an Italian was
stabbed twelve times in the back and
his watch and \$150 in bills taken from
his pocket in the Bronx to-day. He
is not expected to live.
The wounded man said he came here
last night from Westfield, Conn., and
went to an Italian bank downtown.
The banker, whose name he said he did
not know, he had met in Westfield. He
wanted \$150 in American money ex-
changed for Italian money, in order
that he might send home to Italy.
The banker told him to come back
later, when he said, the banker intro-
duced him to another man, whose name
he did not remember.
He claims that he was robbed, the
banker taking his \$150 and the other
man his gold watch. The two, he
claims, then drew stilettoes, and stabbed
him in the back.

**Packs Numerous and Ferocious—
Freed One Man.**
Wolves tread a man within a mile of
the railway station at Brule, in the Al-
gonquin Park game preserve.
C. E. Hubbs, bookkeeper for Barrett
& Co., has written the department of
lands, forests and mines, asking per-
mission to lay poison for the brutes and
to carry firearms for his personal pro-
tection in this locality.
J. W. Bartlett, superintendent of the
reserve, states that wolves are very
numerous, it is possible to have pre-
servation of the game and the conse-
quent abundance of food for the wolves
has increased the packs this season.

**"B" Battery to Perform Duty To-
day in Honor of the King.**
For the first time in this city the
salute in honor of the King's birthday
will be fired by regular artillery men.
Hitherto the duty has fallen upon
the 9th Field Battery, but at noon to-
day B Battery, Royal Canadian Horse
Artillery, now stationed at Stanley
Barracks, will give the royal salute.
Twenty-one guns in Queen's Park
will fire. The battery is also taking a
march once a week, and its appearance
down town on Monday was the cause
for a good deal of admiration of the
smart appearance it presented.

PLUCKY MRS. PEARY.
Hopes Husband Will Not Abandon
Quest for Pole.
New York, Nov. 8.—Mrs. Robert E.
Peary, wife of the Arctic explorer, is
sure that her husband will make an-
other try to find the pole, according to
a Portland, Maine, dispatch.
"I hope, and sincerely believe, that
my husband has not given up his fight
to reach the North Pole. If he can
get within 200 miles of the goal, I am
sure that he is not going to give up,
and I know that he will be able to
win out if he tries again."

**SAYS PRINCE RUPERT
IS SPLENDID HARBOR.**
Inspector of Agencies Bredt Re-
turns From Northern Trip.
Victoria Colonist: P. M. Bredt of
Regina, Dominion government in-
spector of agencies and foreign colonies,
accompanied by Mrs. Bredt, arrived in
Victoria yesterday after attending the
New Westminster fair.
In the fall of last year Mr. Bredt
visited the coast for the benefit of his
health, impaired by too close applica-
tion to the arduous duties of his office,
and made first headquarters in Victoria.
The healthy climate of this island had its
customary effect and in a few weeks
Mr. Bredt was sufficiently recovered to
make many excursions about the island,
taking notes of its conditions and ad-
vantages; and among other functions,
he attended the Cowichan Agricultural
Exhibition at Duncan, where he acted
as one of the judges, afterwards taking
a sea trip up the west coast as far as
Port Simpson.

500 HOUSES BURNED.
Million Dollar Fire in City of Can-
ton, China.

ELECTED.
Chisholm and Colles to Represent
Inspectors in Advisory Council.
William Isaac Chisholm, Kincairdine,
and Rev. W. C. Colles, Chatham, have
been elected representatives of the
school inspectors of the province to the
advisory educational council.
Counting of ballots in other sections
is still proceeding.

**WANT PRACTICAL ENGINEERS
FOR EXAMINING BOARD.**
Another deputation of stationary en-
gineers waited upon Hon. Nelson Mon-
teith yesterday, and were introduced
by E. B. Ryckman. He urged the ap-
pointment of practical engineers only
upon the new board of examiners soon
to be constituted. Hitherto "holier in-
spector" have had the preference in
such matters, he said.
The minister of agriculture promised
consideration.

Stabs Wife With Shoemaker's Awl.
Philadelphia, Nov. 8.—Walter Terkes,
a prominent resident of Palmer, Pa.,
near here, to-day stabbed and probably
fatally wounded his wife, and then
committed suicide by shooting.
Mrs. Terkes was stabbed nine times
with a shoemaker's awl.
It is believed Terkes suddenly be-
came mentally deranged thru illness.

Ottawa's Day of Fate.
Nov. 20 is the date appointed by the
municipal and railway board for hear-
ing the City of Ottawa's application
for approval of the \$50,000 by-law
for the extension of the city electric light
plant.
The Ottawa Electric Light Company
opposes the application on the ground
of competition.

**A BAD COLD
SETTLED
ON THE LUNGS**
All the most serious affections of the
throat, the lungs, and the bronchial tubes,
are, in the beginning, but coughs and colds,
and failure to take hold at once and get rid
of them will cause many years of suffering.

**Dr. Wood's Norway
Pine Syrup**
contains all the lung healing virtues of the
pine tree and will certainly cure all coughs
and lung troubles.
Mrs. Jas. McDowell, Langton, Ont.,
writes: "In November, 1905, I caught a
bad cold that settled on my lungs, so I got
two bottles of Dr. Wood's Norway Pine
Syrup, and used one and a half of them and
by that time I was cured. I laid the bal-
ance of the bottle away for future use. A
few days after our eight months' old baby
took the whooping cough."
He was so bad he had to call the family
physician, but he said he could do but little.
I commenced using the Dr. Wood's Nor-
way Pine Syrup and to my great satisfaction
the baby was cured. I only used four 25
cent bottles; a small doctor bill.
I believe there is no other remedy for
coughs, colds, etc.
Price 25 cents a bottle at all dealers.

By the Seaside Route.
Frequent trains, fast time and fine
equipment are features of the C.P.R.
service to Hamilton, Welland, Niagara
Falls and Buffalo. Daily connection
for famous Empire State Express for
New York. Chair car for smokers, ele-
gantly furnished day coaches, cafe cars
and dining cars, everything that is
modern in train equipment will be
found on this run. Remember to book
via C.P.R. and the scenic route.

Mineral Springs Resorts.
Caledonia Springs, Preston and Chat-
ham are all well-known health resorts,
easily reached by the fast trains of the
Canadian Pacific Railway. A quiet
week-end of waters and baths at one
of these places proves a delightfully
effective cure for many worries and
cares that beset the business man these
strenuous times. Tickets, train times
and full information may be obtained
at all C.P.R. ticket offices.

**There is plenty of activity in evi-
dence at Prince Rupert; houses for the
engineers are being rapidly constructed
and gangs of men are busy clearing
land for the township. Already there is
a very serviceable wharf which they
intend to extend immediately, and
everything seems to point to quick de-
velopment.**

(Official Statement.)

SUN LIFE ASSURANCE CO. OF CANADA

RESULTS OF THE INVESTIGATION.

The Severe Probing But Revealed Greater Strength—\$3,000,000 Better Off Than It Claimed to Be—Investments Absolutely Secure and Highly Profitable—Mr. Kent's Remarks.

Now that the shaft of tidings details has blown away, the management of the Sun Life Assurance Company of Canada desire to draw attention to the really important facts which the investigation by the royal commission has brought out.

Large Profits on Investments.
The most striking feature of the evidence was unquestionably the immensely profitable character of the investments. During the past few years the company has realized a net profit after deducting all losses not only of principal but of interest, and after liberally writing down its securities at all doubtful, of over \$1,000,000 in hard cash. In addition, the present market value of the securities still owned is about \$1,050,000 in excess of their ledger value. Still further, the company has a contingent fund, consisting chiefly of stocks obtained in years gone by as bonuses in connection with bond purchases, which, though held in the company's books at a nominal value of \$1 for each block, have an approximate value of \$3,050,000, and that value is increasing steadily. The company's policy is to hold these securities as a contingent fund, and to only include them in the published list as each block becomes interest bearing, or is sold. In the meantime policyholders have the advantage of the immense additional security thus provided, and may also reasonably expect to have their profits much increased from this source in years to come.

Safety the First Consideration.
Although the company has thus made enormous profits these profits have not been made from speculative securities. The company carefully avoids such. The profits are the result of a policy of not waiting for investments to come to the company, but of deliberately looking around and selecting those that are safest and best, and the making use of the company's ability to purchase large blocks (its assets are now \$24,000,000) to obtain inside terms, thus cutting out the middle men. Absolute safety is always the first consideration, and profit is essentially secondary. Actual illustrations are, however, more convincing than general statements, and as great attention was given to our investments in the Illinois Traction Company, these may be taken as examples.

Illinois Traction Company.
The first investment of the company in Illinois Traction securities was the purchase of two-thirds of the bonds of the Danville, Urbana & Champaign Railway. These were secured by first mortgage on a new interurban line connecting Danville with the twin cities of Urbana and Champaign, and by a further lien on the public utilities of the three cities, comprising the street railways, electric light and gas plants of each. These bonds are absolutely safe. The audited net earnings for the previous year were \$138,700. The new interest on the bonds was two and one-half times the interest charge upon the new bonds. This was without any addition from natural increase, or from the new line. The replacement value of the property was moreover estimated at \$1,500,000 in excess of all bonded liabilities. There is no risk in making such a purchase? Although no increase in earnings was needed to make the bonds abundantly safe, the new interest rate line has in reality proved highly profitable, and the earnings of the city properties have also shown a marked increase. The bonds were sold at a price of about 110 percent of face value, and the entire interest charge on them was sold at an advance in price, without any stock bonus, to an American banking firm, who in turn resold them at a still higher price to the public, among the purchasers being two of the largest and best American insurance companies, which each took a block of \$100,000. The security for these bonds is absolute. Better cannot be obtained. Did the fact that the Sun Life Company was a bargain by which it obtained some bonus stock, which would ordinarily have gone to other parties, in any way lessen that security?

Decatur Railway & Light Co.
The second purchase of Illinois Traction securities consisted of the bonds of the Decatur Railway and Light Company, which carried a mortgage upon the street railway, electric light and gas properties of the Illinois Decatur. The audited available net earnings of these properties, without any addition for normal increase or earnings on new property, which would cover a normal interest charge of \$20,000 on the new bonds, or more than \$2 for each \$1 required. In addition, there was the guarantee of the Illinois Traction Co., whose surplus earnings from other properties already amounted to \$120,000, or a further guarantee equal to the entire interest charge, making, with the Decatur earnings, six times the entire interest charge on the new bonds. Where can safer or better bonds be obtained? Was there anything speculative about them? These, too, have since all been sold at an advance in price, and the Sun Life Company retaining the stock bonus.

Illinois Central Traction Company.
This was the third purchase. These bonds were secured by first mortgage upon a new interurban line between Decatur and Springfield, the capital of the state. Connecting two such cities, the success of the line was assured from the start. The bonds were, however, also guaranteed by the Illinois Traction Co., which then had a surplus of \$180,000 available from its other properties for the payment of the interest. As the entire interest charge upon the new road when finished would be only \$60,000, the interest was already assured for a half its cost. Over, even if the new line earned nothing, it did, however, earn its own entire interest charges in the first eight months of its first year of complete operation, so that instead of having to call upon the guarantee of the parent company, it earned a surplus of fifty per cent. These bonds, too, were all purchased shortly afterwards by a firm of bankers at an advance in price, without any stock bonus.

Further illustrations could be given,

but these cases, which were specially investigated, are enough to show the very high quality of the bonds in which the Sun Life has invested.

The value of the guarantee of the Illinois Traction Co. to any bond may be judged from the fact that its annual gross revenue now exceeds \$3,000,000, and that it has a surplus of \$700,000 above the interest charges upon all its bonds of the system. After paying 6 per cent. dividends upon its preferred stock, it is carrying about 9 per cent. upon its common stock, that 9 per cent., however, not being paid in cash, but being used for extensions and other capital expenditure, which increases the value of the property. There are over seven hundred shareholders, and the market value of the preferred and common stocks is about \$700,000.

While the firm issue of this preferred stock had some water in it, large amounts have since been issued at 97-1/2 and 98 for cash, so that about \$1,000,000 of actual hard cash has been paid in upon the preferred stock, and about \$1,200,000 more of value has been put into it in the form of surplus earnings used for extensions. The total value of the property, therefore, has a very solid cash basis. The franchisees are long and favorable, and are perpetual for more than two-thirds of the mileage.

The question was asked how long it would take to dispose of the Illinois Traction securities. The company's entire holding could easily be disposed of at a handsome profit within two days. Any person, however, who observes the phenomenal growth of the earnings must realize that the common stock, at least, will not attain its full value for years, and to sell now would merely be to divert into the pockets of brokers immense amounts which would otherwise go to the policyholders.

Benefit to Policy Holders.
The large profits have enabled the company to forestall the requirements of the law and at once place the reserves upon all its policies upon a 2-1/2 per cent. basis, a step calling for about \$1,200,000. Even by this severe standard it had at 31st December last a surplus over all liabilities and capital stock of \$1,255,938. This sum has since been largely increased. This surplus does not include the contingent fund of over \$3,000,000. The company has also been enabled to increase the rate of profit paid to policyholders year after year, and it expects to still further increase it.

Writing Down Securities.
The company has been criticized for writing down its securities before losses actually happened, simply because it feared that loss might perhaps arise. The management claim, however, that this is the only proper course, and that any other would be highly objectionable. If the manager of a bank or a company were to refrain from writing down securities merely because losses had not yet actually materialized, he would be guilty of issuing misleading statements. The management consider that they deserve credit instead of censure for the course they took. As regards the so-called writing up, the facts are merely that when large blocks of Illinois Traction preferred and other securities were sufficiently ripe to be transferred from the contingent account to the active list, the management had to face the question whether the entire value of these stocks should be added to the surplus, or whether they should be used in part to write down other securities not quite so good. It was decided to substitute the new securities in part for some of the others that, while not bad, were not entirely satisfactory. Had this not been done, the nominal surplus of the company would have been increased by about \$200,000. In the opinion of the management this course was conservative and proper.

Directors Have Not Profited.
No director has ever obtained any financial profits or advantage of any kind out of the company, by means of sales or loans or any such arrangement of any kind whatever, directly or indirectly. The charter prohibits directors and officers from borrowing money from the company, and this has been literally lived up to. Directors have been permitted to purchase securities for themselves on precisely the same terms as they were purchasing them for the company, and it is entirely desirable that directors should show their faith in the investments into which they put the company's money by taking some of the same for themselves. When this has been done, however, they have paid for such investments absolutely with their own money and the company has not assisted them in financing in any way.

Estimates and Results.
Over 700 deferred profit policies have matured, and in thirty-four per cent. of the cases the amount originally estimated as likely to be received at the end of the term has been realized or exceeded. On all the cases combined the average amount paid has been about ninety-seven per cent. of the estimate. The management may be pardoned for being proud of this record. The estimates now in use are lower than the former ones, and premiums should certainly be present estimates were filed showing that \$108 is on hand for every \$100 required to pay the amounts called for by the present estimates for every deferred profit policy on the books.

The directors have reduced the proportion of profit accruing to shareholders, from 20 per cent. which was the original ratio, and is still usual with British companies, to only 5 per cent. When the capital was increased in 1887, the new stock was issued at 300 per cent. of the paid-up value, and the dividends of 15 per cent. which had been paid, therefore yield the stockholders only 5 per cent. upon the amount paid into the company. As the money earned more than 5 per cent., this new capital has cost the policyholders nothing.

The management gratefully acknowledge Mr. Kent's appreciative remarks at the closing session, in which he stated in connection with his suggestion that voting power might be given to policyholders that "it seems to me that in the future there is nothing to be desired as far as the present generation is concerned. If you were immortal, I would not say anything further about it, but by sound judgment, hard work and just discrimination you have put the Sun Life on the pinnacle of a successful company, another management with other attributes might just as easily squander it. . . . The directors have done their duty nobly; there is no complaint to be made against them, or any one of them. Who can say whether the future management will continue the present high standard of your company?"

While the directors and management deeply regret that they do not see the question of voting by policyholders in the same light as Mr. Kent, nevertheless less earnestly coming from one of the commissioners, are intensely appreciated.

Frank Johnson High Man.
In the City Tennis League last night the Albions and Dominions were the winning teams. The scores were close. Frank Johnson won high with 500.

PETITION TO PUBLISHERS.

Continued From Page 1.
through, thoroughfare, thorough, throughout, programme, though, and substituting these shorter ones: Catalogue, package, demagogue, prog, decade, altho, thro, thoro, thors, thors, thro, thro, program, tho. It is now in the seventh year's practice of the latter forms. Among much else it said (in the issue of Feb. 1, 1901), that it "had lost neither influence nor prestige among ultra-conservatives," but had established the fact that "the editor of a paper can take a hand in the work of spelling reform without sacrificing circulation or influence. No newspaper need shrink from the world's example for fear of losing caste or suffering pecuniary damage." We ask you to extend the rules of your office, so far as your judgment allows, in the direction of simplification of spelling. We think the time has come when public opinion will support a steady, gradual, and conservative British standard.

We are startled to notice that British trade supremacy seems threatened in many quarters. This is largely due to being handicapped by old-fashioned ways of reckoning money, weights and measures, combined with many other things of which the last but not the least is the gigantic evil, our complaint of. Its disappearance will assist in preventing this calamity.

Besides adopting the better and simpler way yourself, we ask you to extend your influence in its favor in press and elsewhere so as to lead to uniformity in this advance movement.

We conceived the "Semi-ready" tailoring idea in 1896—and it was ready for perfect presentation to the public in 1898.

We knew that gentlemen would appreciate buying good clothes at the finished-to-order stage.

With the seams left with outlets and sufficient selvage for altering each physique type to fit any variation of figure, we accomplished the finished-to-order garment which was promptly christened "Semi-ready."

We presented to a gentleman a suit of good clothes which he could try on and forejudge style, color, effect and suitability—and we could guarantee the fit and finish the suit in two hours after it had been tried on.

Years of experience have perfected our original ideas. To-day the Semi-ready Wardrobe in each city stands as the centre of correct fashion and good form in men's dress.

We recognized the prejudice which we would have to overcome—for we were custom tailors ourselves—and we knew the conservative leanings of manhood in matters of dress.

But we tailor suits better than a custom tailor can, and we use the finest fabrics from the best worsted and tweed mills. Merit will win.

In 1898 we had two selling agencies in Canada. To-day we have seventy.

And competition is keen to-day. There is hardly a ready-made clothing maker who does not sew white basting stitches all over his suits and make a pretense of imitating the initiative.

The goodness of "Semi-ready" is known by the pretenders who seek a place beside its throne.

Even the Custom Tailor of to-day emphasizes "Semi-ready" when he argues that he can make suits "just as good" for the same money. But he can't.

OVERCOATS—The "French Chesterfield," the "Marlborough" and the "Imperial" are a few of the Semi-ready styles which are distinctive and exclusive, worth \$35 and \$25. Some at \$15.

FREIBURG MUNICIPAL ESTER-PRIZE

As an ounce of fact is worth many pounds of paper theories, it is worth while to note the business sheet of the City of Freiburg in Baden, Germany, recently published in The Public of Chicago. Freiburg has about 70,000 inhabitants and requires for its administration the services of 192 officials at a cost of \$75,417.

This latter form of control appears highly necessary, since, as Mr. Ridgely points out, government supervision of banks, through its examiners, can only detect a wrong act after it is done.

U. S. BANK INSPECTION

In the course of a recent interview, William Barrett Ridgely, controller of currency in the treasury department of the United States Government, discussed the causes of the failure of banks, and the methods of preventing it.

Explaining the conditions imposed on the national banks of the United States in the conduct of their business, the controller pointed out that their circulation must be covered by the deposit in the federal treasury of government bonds to its amount.

Such a plan exists in the Danforth-avenue district, and all that is required is its bringing into closer touch with the main lines of transportation.

the position of the Chemical Bank, in New York, whose capital stock is \$200,000, and whose surplus, nearly \$5,000,000, makes its \$100 shares worth \$41.00 apiece in the market, but which can only lend \$50,000 to any single borrower.

Coming to the system of examination, the controller stated that he had on his staff 82 examiners, on duty in all parts of the country, who are appointed on his recommendation by the secretary of the treasury.

The examiners are empowered to count the cash, look at every book, scrutinize all the commercial paper and see the collateral which has been left with the banks as security for loans.

Mr. Ridgely, however, thinks that the security of the national banks would be increased by increasing the number of examiners, and by paying them a fixed salary, directly from the treasury, and he commends the action of the clearing-house of Chicago.

amount of land damage must arise and would add to the cost of construction. This is all very well, but what about the great increase of land values which would accompany the creation of a new thoroughfare?

The city should be empowered to take all the land immediately contiguous to the new thoroughfare. This would be largely, possibly wholly, met, by the increment that the city had itself earned.

Elsewhere in The World will be found a statement of the management of the Sun Life Assurance Company of Canada, dealing with the recent investigation by the royal commission on insurance.

Mr. Cox of Toronto was called in the afternoon, the aim being to establish the average amount of commission received by the average agent.

Mr. Tilley, How much of this commission does the ordinary agent have to give away in rebates?

London, Nov. 8.—All the morning newspapers publish long editorial articles on the result of the election in New York State.

The Daily Telegraph thinks the moral is that the Americans, while "not quite ready to accept" Hearstism "in full," are ready for him, as he is, on his own terms.

Paris, Nov. 8.—The papers this morning comment at length on the result of the election in New York.

Brantford, Nov. 8.—(Special.)—The official announcement was made today by the chairman of the Bell Memorial Fund, that Andrew Carnegie has consented to contribute \$1000 to the fund which is now being raised to perpetuate the name of Dr. Alexander Graham Bell, the inventor of the telephone, in this city.

REBATING GIVEN IN TORONTO BY INSURANCE ENQUIRY

Underwriters' Association Asks Royal Commission to Recommend Laws to Cure the Evil.

Ottawa, Nov. 8.—(Special.)—Recommendations looking to the cure of the insurance ills that afflict Canada were submitted to the royal commission on insurance by the Life Insurance Underwriters' Association today.

Drastic measures to suppress rebating. That insurance agents be certificated. That legislation be passed to restrict the volume of business.

Rebates. Mr. Tilley: How much of this commission does the ordinary agent have to give away in rebates?

TEXT BOOKS CRITICIZED BY NEW YORK EXPERT

Says Contract Given by Government at \$18,000 Would Be Profitable at \$10,000.

With the receiving of suggestions from W. F. Brainerd of New York City, an expert on the manufacturing of school books, the text book commission adjourned yesterday afternoon for a couple of weeks.

Mr. Staunton produced an estimate which had been figured and sworn to by H. N. Grantham of Morang & Co., book publisher and critic, which Brainerd opined as being pretty close to the mark in places.

Some Criticisms. Baker's Geometry, by W. J. Gage & Co., was a fairly modern type of book. The Public School Geography of the Ontario Education Department was also about the same.

Against Wire Sewing. As a general principle, any heavy book, that is used in public and high schools, should be strung on heavy tape," he said. He didn't approve at all of wire sewing.

When Mr. Brainerd examined Buckley & Robertson's Public School History of England and Canada, printed by the Copp, Clark Company, he exclaimed warmly that it was ridiculous.

The worst specimen of "get up" he said he had ever seen was the High School Reader published by the Hunter, Rose Company, which looked as if it were printed on a newspaper.

Daniel A. Rose of the Canadian Book Company evidently agrees with W. J. Gage in one thing at least. Before

SPECIAL FARM ADVERTISING.

If a farmer wishes to sell any of his stock or implements, if he has purchased animal to part with, if he wants a hired man, in fact, any wants the farmer may have, when made known in print, are soon satisfied.

THE FRUIT GROWERS PASS RESOLUTIONS.

The committee on resolutions of the Fruit Growers Association brought in the following resolutions yesterday, which were passed unanimously:

1. That we desire to place on record an expression of our warm approval of the Dominion government, in having, in response to the request of this and other organizations, procured the passing of legislation, placing the control of express rates in the hands of the railway commission.

2. That the action of parliament in giving a legal definition to the word "fruit," and in giving effect to giving to the produce of Canadian orchards a still better standing in the markets of the world.

3. That we desire to express our thanks to the Hon. Sydney Fisher, in calling a Dominion conference of fruit growers last March, a conference which resulted in harmonizing many little antagonisms between the provinces, in bringing fruit growers from all parts of the Dominion together for united action.

4. We believe that the thanks of every commercial fruit grower in Ontario are due to Alexander McNeill, chief of the Ottawa Fruit Division, for the remarkably full and correct reports issued by him during the present growing season, in regard to fruit conditions and prospects—reports which place growers in a measure on a footing of equality with buyers in regard to factors governing market conditions.

5. We would, however, strongly recommend that fuller information than we have now been given in regard to crop conditions and market prospects in other countries, and that to this end the department of agriculture at Ottawa be asked to secure the cooperation of the department of trade and commerce, in securing the reports from Canadian commercial agents in Great Britain, Australia and South Africa, in regard to probable produce, before crop maturity, also that the cooperation of the horticultural association in the Dominion States be secured, and a change of timely information with these be arranged for.

6. We would strongly urge that the department of agriculture for Ontario, in addition to what is now being done, be asked to have its representatives in the Dominion States be secured, and a change of timely information with these be arranged for.

7. We strongly approve of the main point in the Robertson resolution, namely, that legislation be asked which will provide that nurserymen shall guarantee their stock as true to name, and that the penalty, if not fulfilled, a reasonable and just penalty be imposed.

THE ONTARIO APPLE STATION.

An Admirable Address From Chief McNeill to the Fruit-Growers—English and Western Markets Growing—Topographical Conditions Should Be Known to Planters.

The subject assigned to me, "The Future of the Apple in Ontario," if it had been selected by myself, would indicate that I had some pretensions to the prophetic vision.

The future of the apple trade in Ontario rests upon several natural conditions, soil climate, markets, transportation, and the character of the men who are growing the fruit and the character of the men who are acting as buyers.

Of the various elements that enter into this problem I propose to select a few, and to indicate how they have been overlooked or which are not likely to be handled by others. Some of the most important I will pass over with just a simple reference.

It might be noted just here that in the apple industry it is always likely that the cheap price will be those that must be consumed during the months of October, November and December.

I would first draw your attention to the determination of climate. It is not a matter of degree, but of the results of height above the level are just as definite and just as effective as in mountainous districts.

We are, therefore, obliged to put these countries in the same category as the district of the province, which is the northern portion of the province, which is designated as district No. 4, and which includes the Valley of the Ottawa and the Valley of the St. Lawrence.

We are now to the counties bordering on the north shore of Lake Ontario, together with a small portion of the County of Grey.

Now we come to the counties bordering on the north shore of Lake Ontario, together with a small portion of the County of Grey.

Now we come to the counties bordering on the north shore of Lake Ontario, together with a small portion of the County of Grey.

FARMSTEAD SKITS.

November is making up for the bad days of October.

If the farmers would all unite what about the rest of the people?

It was the farmers of New York who elected Hughes.

Parliament meets soon at Ottawa. The farmers are going to be heard.

Che Chas. Mackay's ad for sheep to sell in this issue.

King Edward's birthday is to-day. A King who farms also!

The Spencer seedless apple looks like a success, as the fruit is of good quality.

Of course, you have read the report of the horticultural fruit growers and vegetable men!

Andrew Forsyth of Pickering, who has a sale on the 20th, tells The World that he has the newest and best preserved lot of farm implements on any farm of its size in the township, and he is talking to the point also.

Wm. Armstrong of Locust Hill says that his Holsteins are doing well and have come thru the season in fine shape.

PRINCE EDWARD COUNTY HARVESTS A GOOD CROP.

The Dairy Business and the Fruit Canning Industry Make Wealth for Farmers.

The importance of the canning industry in Canada is well represented by the output from one small county alone.

John W. Hyatt & Sons of "The Maples" of West Lake, in writing to The World, say that they have had a good year in the dairy business, as well, and cattle have done fairly well at the fall, they doing the rest.

Regarding fruit crops they say that apples were not a full crop, and in some sections not a good sample.

"We have every reason to be thankful," writes George E. Hyatt, as he is familiarly called, "for the harvest of seed time and harvest of 1906 down here in Prince Edward County, as we see the year unfolding its garments around it preparing to silently glide away."

GOOD PLOWING. A Good Team, a True Plow and a Steady Man Necessary.

Plowing is an art which practice often falls to make perfect.

When a plow team with a large margin of surplus power has been secured, the plow team should be put to work.

When a plow team with a large margin of surplus power has been secured, the plow team should be put to work.

When a plow team with a large margin of surplus power has been secured, the plow team should be put to work.

THE SPENCER SEEDLESS APPLE ON EXHIBITION

In a cosy corner of the Massey Hall exhibit, the Spencer Seedless Apple people are exhibiting the product of the Colorado orchards...

A reporter of The World visited the exhibit, and had the pleasure of examining a number of the specimens. Its taste is not at all coarse, but somewhat of a rich tartness...

It would seem that the Spencer Seedless Apple has, in my judgment, all the qualities necessary to make it a success as a commercial apple...

Every apple of this variety, like every seedless orange, is not entirely without a seed. I was given a full liberty to pick and cut as many apples as I desired...

Notwithstanding the adverse report of the Fruit-Growers' Association, the Spencer seedling apple people say they are "there with their feet on the ground..."

In the apple as yet there is a core, but as the Scientific American points out, the function of a core is to protect the seeds...

It looks as if the apple may be a good thing to introduce into Canada as well as here, even if successful, be asked the rival of our good Canadian apple...

It will rank on its own merits and when time has had its course it will stand the test here, and prove to be a paying tree.

It is meeting with considerable opposition here from the old fruit men, but it is a question of whether the apple is worth its claim as a commercial variety...

FRUIT GROWERS DISCUSS SOME INTERESTING TOPICS

The fruit men resumed their sessions in the city hall yesterday. In the morning a long discussion took place over the constitution...

A PROVEN MINE FOR THE PRICE OF A PROSPECT!

On the South, adjoins the new famous **GOLD BAR PROPERTY** whose shares were first issued at 17c and have since sold at \$2.05 (now \$1.27).
On the East, adjoins the **GOLD KING GROUP**, whose shares were first issued at 15c, since sold at 40c; now 34c.
On the North, adjoins the **CARNATION GROUP**, whose shares were first issued at 25c; now 75c.
On the West, adjoins the **GOLD BAR ANNEX GROUP**, whose shares were first issued at 12c; now 32c.
Within 600 feet west of the **HOMESTAKE** (has the same vein), whose shares were first issued at 75c; now \$1.27.
Within 1500 feet of the **DAISY** (has the same vein), whose shares were first issued at 15c; now 45c.

The Surest Thing in Mining:

That the Original Gold Bar Will Greatly Advance Over the Present Issue Price

Eight distinct veins have been discovered so far on this property, four running to the North and South and an equal number to the East and West.

The entire Gold Bar Mountain is heavily mineralized, and further development will undoubtedly prove the existence of veins other than those already mentioned. As these veins, without exception, extend into the adjoining properties, where they have been opened to a considerable depth, and there show big values, it is practically certain that the same values will be found on this ground as depth is gained, and the delay in opening this property has been due solely to the fact that the development of the adjoining properties would determine the value of this ground, as the veins are identically the same.

The veins extending in the Gold King Group on the East at a depth of 160 feet, show shipping values of \$200 per ton; while on the Homestake Group, 600 feet to the east, at the 300 foot level, the vein is 160 feet wide and will **ALL** average better than \$30 per ton.

Three of the veins running North and South enter into the **GOLD BAR PROPERTY**. The main **GOLD BAR** vein is the largest in the District, being 178 feet wide, with an average value of \$12 per ton for the whole vein, while small parts show shipping values of \$1,600 to the ton.

In our opinion a purchase of the **ORIGINAL GOLD BAR** stock at the issue price of 20c per share, is equivalent to **BUYING A DOLLAR FOR FIFTY CENTS**; and we believe the stock will show a premium over the issue price of a **HUNDRED PER CENT. WITHIN SIXTY DAYS!**

The value of the veins having been proven by the developments in the adjoining properties, which completely surround this group, takes this property out of the prospect class and at once makes it a **MINE**.

As such we commend it as the most desirable among the many good Bullfrog properties on the market to-day. **Reservations should be made by telegraph, to insure consideration, and remittance in full, by bank draft or certified check, must be forwarded immediately after allotment is made.**

By telegraph since the above advertisement was written a sensational new strike has been made on the **GOLD BAR** in north shaft, ore running \$3,178 to the ton, the richest ever found in the Bullfrog District. This strike is only two hundred feet from the **ORIGINAL GOLD BAR PROPERTY**, which has the same vein.

WIDOW BRUTALLY ASSAULTED

Two Unknown Men Get Into House by Subterfuge.

Woodstock, Nov. 8.—(Special.)—Mrs. J. D. Casler, a widow, was the victim of a brutal assault at her home Wednesday night. The perpetrators of the outrage, of whom there were two, were apparently familiar with the locality. Their motives must have been twofold, for they robbed the unfortunate woman of money and other articles.

Two well known characters are suspected. Mrs. J. D. Casler has lived alone in her house since the death of her husband last February. The maid succeeded in getting Mrs. Casler out of bed by telling her that one of the neighbors' children was ill, and her services were requested. When she got down stairs they burst the door in, knocking the lamp out of her hand. One of them knocked her down and held her while the other ransacked the house securing some money. They afterwards committed an assault on her.

NEW PHASE OF DISPUTE.

Yankee Fishermen Will Board N.S. Schooners for Crews.

Halifax, N.S., Nov. 8.—A new phase of the fisheries dispute between the American fishermen and the Newfoundland colonial government developed to-day.

Three masters of Gloucester fishing schooners arrived here and said that they had come to board schooners hailing from Lunenburg, N.S., to secure crews made up of Nova Scotia sailors and to proceed to the Newfoundland fishing grounds for herring. It is thought that if this plan proves successful other Gloucester captains may adopt it.

CASTORIA. The Kind You Have Always Bought Bears the Signature of CHAS. H. PETERSON

CASTELLANE NEEDS MONEY WON'T GIVE UP COUNTESS

If Divorce is Granted, It Will Be Impossible for Him to Meet Obligations.

Paris, Nov. 8.—When the hearing of the Castellane divorce suit was resumed to-day, Maitre Bonnet, of counsel for the Count Boni De Castellane, consumed less than an hour in concluding his argument.

He continued his criticisms of Edmund Kelly, the American lawyer of the countess, and persisted in his demand for an examination of the witnesses, in order, he said, to prevent the case being probed to the bottom. He added that in the event of a divorce being granted the count would ask for permission to see his children two days each week, and a month in summer, and that the countess be enjoined from taking the children to America without his consent.

He Needs the Money. So far as money was concerned nothing would be much altered by a divorce. It would only mean final financial ruin for the count. It is impossible for him to meet his outstanding obligations, amounting to \$24,000 a year. The remainder of his ancestral inheritance would have to be sold. If his wife desired to present him in such a light before the world he had nothing more to say. Nevertheless it seemed only just that he should be reimbursed the \$240,000, which he obtained by the sale of his share of the ancestral forest at Bienny, and which was contributed to the household expenses.

Counsel concluded with asserting that he was convinced that the countess if free to obey the dictates of her conscience, would yet consent to a reconciliation and solemnly assured the court of the count's respect, esteem and undying affection for his wife.

Maitre Cruppi, for the countess, in reply charged the count's lawyer with seeking to divert attention from the issue at the bar by making an unprecedented and baseless attack on Mr. Kelly, who, counsel declared, enjoyed a standing in the United States and France which made his defence superfluous, he being a member of the New York bar, and counsel for the United States legation in Paris for the past twenty years.

Forgotten. Maitre Cruppi then produced what he declared to be forged documents by which, counsel charged, the count in July last attempted to convince his wife that Mr. Kelly was concerned in a plot to accomplish his political ruin.

Maitre Bonnet asked the court to postpone the case for a fortnight, in the hope of a final reconciliation, but the judge refused to do so and adjourned the hearing for a week. The court, after hearing the conclusion of the public prosecutor next week, will announce its decision, either for a divorce or for an examination of the witnesses. The creditors' case, in which Count Boni, the Countess De Castellane and George J. Gould, as trustees, are made joint defendants, was called after recess to-day. This suit, which is brought by six creditors, involves \$540,000.

YORK COUNTY AND SUBURBS

TORONTO JUNCTION.

Toronto Junction, Nov. 8.—About 300 feet west of Willoughby-avenue, on the south side of Annette-street, there is a pile of bricks and other building material, extending out into the roadway, that is dangerous on a dark night.

The school children are playing a series of games of football. Carlin defeated St. Clair by 1-0, and this evening Annette-street and Western-avenue played a tie, and will have to play again on Friday afternoon.

The board of health to-night granted permits to the Gunn & Martin and Le-vack Brothers. The M. H. O. reported only three cases of typhoid. The board were invited to visit the Chicago packing houses, leaving here Dec. 4. R. G. Agnew warned that 25 residents would issue a writ if the fire in the refuse dump was not extinguished.

EMPIRE HOTEL.

North Toronto.

Last June James Childs purchased nine and a half acres of land just below Eglinton-avenue for \$6000, and yesterday sold it to the Suburban Home, Limited, for \$9000.

Quarterly meetings will be held in the Davisville Methodist Church next Sunday, with the following services: At 10 a.m. fellowship meeting, at 11 a.m. sermon with the celebration of the Lord's supper, at 3 p.m. Sunday school, and at 7 p.m. sermon.

The opening lecture of a series under the auspices of the ladies' aid of Davisville Methodist Church was a decided success. The singing by Miss Cayway was much appreciated.

Adam Peterman of Forest Hill purchased a fast driver yesterday.

Richmond Hill.

A full choral service will be given in the Methodist Church on Sunday evening. Rev. A. P. Brace will preach. Some of the ratepayers do not like the size of their tax bill, but if they compare them with last year's they will see they are a little lower this year.

The public meeting in reference to the horse investigation was well attended. Mr. Mosson was present in behalf of the government, and several prominent horsemen gave their views, including J. Palmer, J. Teeson and H. Graham. A resolution was carried, favoring a stallion inspection act.

A new lawyer will open out an office in the Palmer Block on Thursday, J. M. Laine of 36 Toronto-street will visit here officially every Thursday afternoon.

A number of citizens attended the King and Vaughan plowing match on the farm of A. McNeil, concession 6, Vaughan, yesterday.

E. Tynett is in Toronto acting on the petit jury.

Doncaster. Steps are being taken by the friends of the two men who were recently convicted of disorderly conduct two weeks ago to investigate the bill of costs in each man's case. The cases

YOU PAY GOOD MONEY FOR YOUR CLOTHES

and you ought to get good clothes for your money. But you won't if you're not careful where you go for them. Some cheap clothing looks good; some of it has style, too, but it does not give wear. It may look like a \$20 or \$25 suit when you buy it, but it doesn't look worth \$5 after you have worn it a month. You know what you are getting when you buy of us. There's no fooling with quality here, and every suit you buy from us is backed by our guarantee of satisfaction.

32 SUITS

We will offer for sale Friday and Saturday thirty-two suits, single and double-breasted; all wool, imported tweeds. A few youths' sizes in the lot—going to be cleared out at the low price of

\$10.50

57 SUITS

Clearing fifty-seven single and double-breasted, in dark, fancy worsteds and tweeds, all latest cut and styles, regular prices \$20, \$22, \$25—with a few blacks and blues in serge; sizes 35 to 44. Selling Friday and Saturday for

\$14.50

Fairweather's MEN'S CLOTHIERS AND FURRIERS, 84-86 YONGE STREET

GATTS FOURTEEN YEARS.

Winnipeg, Nov. 8.—(Special.)—Chief Justice Howell handed out the heaviest penalty of the present session of the assizes to-day, when he sentenced Fred Gatt to 14 years' imprisonment in Manitoba penitentiary, for having shot and wounded Josephine Jackson, a negro woman.

B.C. AMALGAMATED COAL CO.

As a proof of the reputable management behind the British Columbia Amalgamated Coal Company, which was the subject of a circular issued by the British Columbia government, Mr. Yearsley, the local representative, has received a letter from J. B. Lober, secretary of the Portland, Oregon, Board of Trade, stating that "I have personal knowledge of all the officers excepting

Undergrads' at Home.

The annual at home of the Undergraduates' Union, held in the west hall of the university last night, was attended by over 300 undergraduates and friends. An excellent dance program was provided. Many representatives were present from sister universities, and also McGill and Queen's. Prof. and Mrs. Hutton and Prof. and Mrs. Galbraith represented the faculty.

The controllers yesterday ordered that the Wallace-avenue foot bridge should be built at once.

Robert H. H. FUDGER, PRESIDENT; J. WOOD, MANAGER. FRIDAY, NOV. 9

Saturday in the Men's Store

The chief suggestion of this store to-morrow (Saturday), men's day, is OVERCOATS. It is a suggestion right in line with the season and with the weather.

Other suggestions of a kindred sort are offered men in this little list for to-morrow. The season simply demands that you make provision of suitable clothing. Our part to-day is to convince you of the sound sense in shopping in the men's store to-morrow. These are our strong points:

- 1st—A large, well lighted, modern department for men exclusively, occupying the entire floor of the Richmond Street wing.
2nd—A very superior stock of men's clothing ready-to-wear, picked as our choice of the best clothing values in America.
3rd—A quick intelligent staff of men who know what men like and wear.
4th—The easiest prices that quality associates with in Canada to-day. Come and see our winter stock.
