City is Headquarters Of New Society For Psychical Research

Provincial Charter is Secured and
Dr. John S. King is Elected
President—Will Delve Into
the Supernatural.

BEST MINDS IN THE LAND
INVITED TO PARTICIPATE

A charter has been issued by the
provincial government for the incor-
poration of The Canadian Society for
Psychical Research. The legal head-
quarters of the society will be situated
in the City of Toronto.

The following gentlemen have been
elected by ballot to the positions in-
dicated on the first board of directors:
President, Dr. John S. King; vice-
president, Truman F. Corey; secre-
tary, Herbert G. Paul; treasurer, James
Henry Trotter; directors, Col. Robert
Eldwin Hamilton, Dr. William Edward
Hamil, James Alexander Knox, Prof.
James Frederick McCurdy, Ph.D.,
M.L.D.; Dr. James Simpson Bach.

Dr. King, who has been elected pre-
sident, has been well known in Toronto
for twenty years past as a student of
hypnotic phenomena. The other gen-
tlemen on the directors' list, by their
business standing or scholarship lend
weight to the new organization.

Objects of the Society.
A fundamental object of the society,
as may be readily comprehended, is
the association of those interested in
the most careful and exacting investi-
gation along scientific lines, with a
view to the extension of our knowledge
of the various mental and psychical
phenomena.

It is the purpose of the society that
all investigations should be system-
atically and skillfully conducted, and
results faithfully recorded; and such re-
ports, whether the work of individual
members, branch societies, or commit-
tees of the parent body, or of the
branches, shall be placed with the
secretary of the society.

The general objects of the Canadian
Society for Psychical Research are
summarized from the declared objects
as set forth in the circulars of the Lon-
don, Eng., and American societies, as
follows:

The investigation by competent per-
sons of the nature and extent of any
alleged influence of one mind upon an-
other, either through direct or indirect
mediums, and ordinarily
designated as thought transference, or
telepathy.

The investigation of reports regarding
apparitions, whether of the living, or
of the dying, or of the spirits, and
with some exceptional event, or con-
veying information not previously
known to the percipient, or represent-
ing the experience of two or more per-
sons independently of each other.

The investigation of visions and ap-
paritions experienced by living persons,
whether coincident with external events
or not.

The investigation of alleged pheno-
mena of clairvoyance, including
dowsing or the finding of water, or of
minerals by supernatural means; and
the acquisition of any physical knowl-
edge by supernatural methods not re-
ferable to telepathy, or thought trans-
ference.

The investigation of the alleged pheno-
mena of premonition, or the fore-
casting of future events in some way
not explicable by chance or normal
process of inference.

Investigation of Dreams.
The investigation of coincidental
dreams, whether of the living, or of
the deceased, and of the phenomena of
chance, or information of a
supernatural character.

The investigation of mediumistic phe-
nomena, purporting to represent com-
munications with disincarnate spirits or
other knowledge supernaturally acquir-
ed.

The investigation of the alleged phys-
ical phenomena commonly referred to
as the agency of disincarnate spirits, and
not superficially explicable by the
known operation of natural agencies.

The investigation of all sub-conscious
mental phenomena, in which the calcu-
lated to throw light upon what is al-
leged to be supernatural.

The investigation of all residual men-
tal phenomena of any kind, including
visions, hallucinations, coincidences,
visions, etc., that may help in the ex-
planation of the supernatural.

The collection of material bearing on
the history of these foregoing subjects.
The encouragement of the formation
of local or branch societies, composed
of the members of the Canadian Soci-
ety for Psychical Research, such
branch societies to elect their own off-
icers and committees under the objects
and purposes as hereinbefore set forth,
and be governed by the prescribed by-
laws of the society.

Conclusions and Publications.
It is the policy of the society that it
be expected that individual members will
report phenomena deserving record or
investigation to the society for sci-
entific consideration.
The acceptance by the society of a
report of investigation of any or certain
phenomena, or of any conclusions based
on the report, unless specially so set-
tled.
Membership of or in the society does
not imply the acceptance of any par-
ticular explanation of the alleged facts
collected by, or even of the facts
themselves.
Membership stands only for the need
of investigation of the phenomena al-
leged.
The society may publish annually a
volume of proceedings, consisting of de-

28TH YEAR

U.S. IRISH OBJECT TO BRITISH TREATY

Petitions Being Sent to
Washington—Sir Wil-
frid Laurier Quot-
ed to Show
Danger.

WASHINGTON, March 8.—Irish op-
position, which it is asserted, defeated
the arbitration treaty negotiated by
United States Secretary of State Olney
and Lord Pauncefote twelve years
ago, now menaces the new arbitra-
tion treaty which has been evolved by
Secretary Root and British Ambassa-
dor Bryce.

Already the United States state de-
partment has been deluged with re-
monstrances and protests from Irish
patriot organization, all directed
against the new convention.

Moreover, this opposition has devel-
oped before anything specific as to the
nature and scope of the new treaty
has been made known officially.

There has been nothing more than
a reference to the subject in the Brit-
ish Parliament and some statements
in explanation based upon that de-
claration in American newspapers.

The protestants in the singular po-
sition of directing their fire without
knowledge that there is any enemy, for
it may be that the new convention
draws lines that free it from the ob-
jection made to the Olney-Pauncefote
convention. In that case, it was al-
leged that America stood in danger
of losing territory as the result of an
adverse arbitration.

Fear Gap Treaty.
In the present instance, while the
rule of the state department prevents
the publication of any details, it is the
understanding of the officials of the
state department that the same objec-
tion would not lie, for the limitations
are so narrow that there is no danger
that questions involving the integrity
of territory can ever be drawn into
arbitration against the will of the Brit-
ish government.

The protests so far received at the
state department also show a lack of
understanding of the nature of the
treaty which binds Great Britain and
Japan. In the protests, fear is expressed
that America might some day be
fronted by a combined British and Ja-
panese fleet in the event of any ser-
ious issue between the United States
and Japan. Indeed, during the discus-
sion of the treaty, Sir Wilfrid Laurier,
the Canadian premier, on Jan. 25, last,
made a prophecy that such a com-
bined fleet might some day be ex-
pected to drop anchor in Vancouver
Harbor.

May Kill the Treaty.
But as the British-Japanese compact
is understood at the American state de-
partment, there is no obligation what-
ever upon Great Britain to support her
ally with arms except in the event of
an emergency that a third nation should
undertake to possess itself of Japanese
territory.

Therefore the officials are quite con-
vinced that the opposition to renewing
the treaty is based upon a wrong
conception of conditions.

Therefore the officials are quite apprehen-
sive that thru ignorance the ratifica-
tion of the treaty may be jeopardized.

MAY RECONCILE FACTIONS.
Premier Murray of Nova Scotia and
Hon. Mr. Fielding Have a Mission.

MONTREAL, March 8.—(Special.)—
It looks as if there might be another
effort on the tapis to bring about a
settlement of the Dominion Coal and
Steel difficulties.

To-day the Hon. W. S. Fielding, who
has been for weeks past trying to
get the warring factions together,
came down from Ottawa with the
Hon. George Murray, premier of Nova
Scotia, who, it is said, contemplates
some kind of a legislative move as
outlined, or rather hinted at, by the
Halifax Chronicle, the organ of the
local government.

It is said in fact that the Nova
Scotia premier's mission to the fed-
eral capital was for the purpose of
consulting the finance minister as to
the scope the coming legislation might
take.

Hon. Mr. Murray left for home to-
day, and Mr. Fielding remained over
in the city. Jas. Ross is now in At-
lantic City.

IN AN UNKNOWN'S GRAVE.
Man Who Died in Kansas Hospital an
Irish Aristocrat.

KANSAS CITY, March 8.—A man
who died at the Kansas City Hospi-
tal on Feb. 19, and was buried uniden-
tified, is believed to have been Hon.
Francis Patrick Clements, 22 years of
age, brother and heir of Charles Cle-
ments, Earl of Leitrim, Donegal, Ire-
land. The body was exhumed this
afternoon.

The Earl of Leitrim, who sits in the
house of lords as Baron Clements, is
the fifth earl. The assassination of
the third earl in 1878 will be remem-
bered. Hon. Francis Patrick, born in
1885, is brother of the present earl,
who is 6 years his senior, and falling
issue of Lord Leitrim's marriage, would
be heir to the succession. He has been
in the royal navy.

ants within the legislative building.

MURDERED BY MEXICANS AND BODIES THROWN TO THE SHARKS

Fate Which New York Friends Be-
lieve Has Overlaken Famous
Magician and Daughter.

NEW YORK, March 8.—Believing
that Prof. B. Wood and his beautiful
daughter, Bertha Mercedes Wood,
were abandoned to the sharks of the
Gulf of Mexico, friends in this city
and relatives in Pennsylvania yester-
day appealed to the department of
state to investigate their death.

The Woods were well-known New
York magicians. It is supposed that
they were robbed of many thousands
of dollars by the crew of a Mexican
tugboat.

The first report from Mexico was that
Wood had been drowned on February
20, by the foundering of the aged sug-
ar boat, Canote Baines, of Laguna, while
en route from Frontera to Progreso.
The report also said that three of the
crew had also perished, and that none
of the bodies was recovered.

Hastings Clawson of No. 317 West
Forty-sixth-street, who was Wood's
manager in his South American tour,
and who has just returned from Mex-
ico, tells of conflicting Mexican stories
which arouse grave doubts that the
Woods met an accidental death.

Before leaving Mexico Clawson heard
that none of the crew had been drown-
ed, and that the only victims were the
Woods. After his steamer had put out
from Progreso, he was handed a de-
patch which said that the schooner
Nicholas, which the tug had in tow,
had turned up safely. He believes that
\$20,000 worth of baggage belonging to
Wood had been recovered.

Wood had just completed a most pro-
fitable tour of Venezuela, Bolivia, the
West Indies and the Guianas. It was
known to many in Frontera that he
distrusted the banks and carried more
than \$14,000 in English bank notes in
his pockets. He also had \$5000 worth
of diamonds. Miss Wood also carried
valuable jewelry, including a rich
chain of pearls, presented to her a few
months ago by President Castro of Ve-
nezuela, at whose palace the Woods
gave a private performance.

The tragedy is not without romance.
Miss Wood was engaged to marry Con-
rad Graeber, a millionaire banker of
Shamokin. Young Graeber was in the
West Indies, and expected to bring
Miss Wood back to Pennsylvania a
bride. He returned home yesterday
heartbroken, and is ready to go to
Mexico to bring the girl's murderers to
justice if the foul play theories are
supported.

Judge Mulvena committed him for
trial, saying:
"Had you shot this man when he
was threatening you, would you have
been in a different position, but you
were over 100 yards away, and he was
fleeing and was shot in the back. The
law gives you power to stop a man
committing a felony by any reason-
able and less violent means if it is
not liable to cause death or grievous
harm. Under the circumstances, al-
though the intentions show you were not
trying to kill, it may be a culpable of-
fense. I can not do otherwise than
hold you responsible. A sympathetic
jury may acquit you."
He was allowed bail.

COMMITTED BY JUDGE
THO JURY MAY ACQUIT

But Fact Remains That Burglar
Was Shot in the Back by
Pursuer.

GRANBY, Que., March 8.—Thomas
Robinson, accused of firing the fatal
shot that killed the unknown man
on Feb. 26, at Granby, came before
Judge Mulvena of Sherbrooke Satur-
day morning. Robinson said he had
no intention to kill or injure, but was
running with the rifle to make the
man surrender.

HAS A FRACTURED SKULL.
Annie Thompson, living at 65 1-2
Jarvis-street, was taken to St.
Michael's Hospital at 1 o'clock, in a
semi-conscious condition from a skull
fracture.
She told the authorities that And-
rew Thompson, with whom she lives,
Thomas Curtis and herself were drink-
ing, and that there was a scrap, and
Thompson had shoved her against a
stove.
The police believe she fell down-
stairs.

The Railway Chair- manship.

It was reported in Ottawa on
Saturday that the cabinet had
decided to appoint Justice Ma-
bee as chairman of the "Domi-
nion Railway Commission, and
that Hon. Frank Latchford was
to take his place on the bench.

No confirmation could be
had, however, tho it is now
thought there that Justice Mabee
will be offered the position.

Justice Mabee, when spoken
to in connection with the rumo-
red appointment, said:
"I should not care to accept
the appointment, even tho it were
offered me," adding that he had
been hoping that the emolument
would be increased to such an
extent that C. F. Shepley, K.C.,
would think acceptance worth
while.

The responsibilities of the po-
sition were so heavy that they
could only be assumed by a
chairman at the risk of being
broken down in health. He be-
lieved that it was overwork in
connection with his duties which
had indirectly caused the death
of Judge Killam, and that his
predecessor, Hon. A. C. Blair,
had been compelled to resign be-
cause of the onerous nature of
the work.

PUGSLEY MAY BE RETIRED
TO GO ON RAILWAY
COMMISSION

Minister of Public Works Said to
Have Made Stay in Cabinet
Untenable.

OTTAWA, March 8.—(Special.)—A
despatch from Halifax forecasts the
early retirement from politics of Hon.
Wm. Pugsley to take a place on the
new railway board.

This suggestion may not be wide
of the mark in view of the minister's
failure since he came down from pro-
vincial politics. Two things have
contributed to his discomfort. In
the first place he signalled his ac-
ceptance of a federal portfolio by mak-
ing charges concerning the Conserva-
tive campaign fund in 1896, of which
he declared Mr. Borden had knowl-
edge.

Since the opening of the house he
has been asked to make good the
statements in the house that he
made on the stump. But he has been
silent, and if he knows anything that
will damage the Conservative leader
he has kept it to himself.

The other circumstance that has
weakened his influence in parliament
has been the catastrophe in New
Brunswick last Tuesday, when under
his leadership, the Liberal party suf-
fered a crushing defeat.

It is argued that these two "breaks"
rendered his hold untenable.
But what to do with him may worry
Sir Wilfrid Laurier not a little.
The railway board offers an avenue of es-
cape. Two chief commissioners are to
be appointed, one of whom will prob-
ably be an eastern man. That Mr.
Pugsley would make a capable com-
missioner all agree, but there is the
difficulty that the government will not
be anxious to reopen St. John.

If Mr. Pugsley stays in the house
and "lives down" the past it is said
he might be given the post of min-
ister of justice when Mr. Aylesworth
retires in the near future. This is
being urged upon Sir Wilfrid.

STUDENT CUTS THROAT.
Had Been Suspended After a Hazing
Episode.

WINNIPEG, March 8.—(Special.)—
The body of young J. S. McIntosh, an
agricultural college student, who mys-
teriously disappeared on Wednesday,
was found yesterday in an unoccupied
room on the top floor of the college
by two brother students, who were in
the room by accident.
The corpse was lying partially in an
old clothes closet and death had appar-
ently resulted many hours previous,
by the cutting of his throat with a
razor.
The tragedy is a sad sequel to a
boyish college prank, in which some
mild hazing was indulged in. For his
share McIntosh was suspended, tho
he did not appear to take the affair
very seriously.
He was clever, industrious and with
no bad habits, and in fairly good finan-
cial condition, with tuition for gen-
eral course and boarding-fee paid up to
the end of March.
He came from Derbyshire, England,
in 1906.
May Spend \$50,000.
QUEBEC, March 8.—Ald. Picard
proposes that Quebec spend \$50,000 in
connection with the tercentenary cele-
bration.

CREATING PAPER FAMINE.

Serious Allegations Preferred Against
the "Trust."

NEW YORK, March 8.—Herman Rid-
der, president of the American News-
paper Publishers' Association, has sent
a letter to Attorney-General Bonaparte,
in which he summarizes the publishers'
statement of the alleged efforts of the
American Paper Trust to create a
stiff competition and to increase prices.
The effect, Mr. Ridder declared, has
been to put an additional \$100,000,000
per annum upon the printing and
publishing interest of the country
without any other justification than
the mere power of combination.

The letter tells of meetings held in
New York City in February, May and
August of last year, at which the pro-
duction was advanced an aggregate of
\$10 per ton, and of a meeting in Novem-
ber, when a shut-down of one week
was ordered to restrict production.
"Various mills have been shut down
for various periods upon various pre-
texts," says the letter, "with the ex-
pect to be able to prove that some of
these mills were shut down to starve
the paper market, and to create a paper
famine."

ARREST TOWN TREASURER.
\$270 of Emerson Funds Said to Have
Been Taken.

WINNIPEG, March 8.—W. W. Uns-
worth, secretary-treasurer of the Town
of Emerson, has been arrested at the
instance of Mayor Wright, on the
charge of appropriating \$270.90 of the
town's funds.

The money was paid back at the
eleventh hour, when an audit of the
books was made.

GIRL MISSING.
Flossie Foxhall Hasn't Been Seen
Since Thursday Night.

Flossie Foxhall, a domestic, aged 29,
heavy build, rather short, fair living

8 o'clock Thursday night and has not
been heard of since. She left her
trunk at the above address, and there
was no reason for her disappearance.

WARD 4 CONSERVATIVES HEARD GREAT SPEECHES

Annual Banquet Addressed by Members of Federal and Local Houses.

It was 11.45 on Saturday night at the Fourth Ward Conservative banquet in Victoria Hall when the last toast was given and the last bunch of speakers was called upon.

It did not leave much time for oratory without violating the Lord's Day Act, but some of the speakers had already gone home and Dr. Nesbitt got the first chance, and his 3-minute speech was one of the briskest oratorical efforts that have been listened to lately.

That day's Globe editorial, "Do It Now" was in line with other attacks recently made upon Premier Whitney. It came immediately after Mr. Whitney's speech, when he had just finished a contract had been made with William Mackenzie or was contemplated.

He wanted to say a word in praise of Hon. Adam Beck. (Applause.) He stated that when the power question was settled Mr. Whitney would give people their own power.

He was not looking for office, but was out to see the people every day of his life. He would recommend the Conservative electors to read the Globe every day, and everything that he said there not to do it. George Foster was the man above all others the government dreaded.

Mr. W. Burns was in the chair, and among others at the guest table were Hon. George Foster, Hon. J. P. Coyne, Hon. Dr. Pyne, Edmund Bristol, M.P.; Claude Macdonell, M.P.; W. K. McNaught, M.L.A.; A. E. Donovan, M.L.A., and New Brunswick.

If We Could Look at the Heart of a Pale-Faced Person!

Few people ever stop to consider what lies at the heart of a pale-faced person. In the first place it indicates an absence from the blood of the rich, red, life-giving elements so requisite to health; and in the second place it indicates a weakened heart action.

Let them take Milburn's Heart and Nerve Pills; there is no remedy to equal them for making pale faces rosy, weak hearts and aching nerves strong, flabby muscles firm, and infusing new hope and ambition into life.

Mr. W. J. Churchill, Lombardy, Ont., writes: "I was troubled for three years with a weak heart and nervousness. I could not sleep and even so little food would distress me. I also had faint and dizzy spells, and doctored with three doctors but was getting worse. After taking three boxes of Milburn's Heart and Nerve Pills I feel as well as ever I did. They are the best pills on earth."

HOW AID. HALE'S DEFENDS ACTION OF THE COUNCIL

Says That Indirect Ways Are Sometimes the Surest of Result.

Ald. James Hales, the author of the license reduction by-law, was the hero at the temperance meeting in Massey Hall yesterday. He took advantage of the occasion to make a defence of his action in the council and was enthusiastically applauded by the large audience...

"I have enough Scotch blood in me to enjoy hearing the highlanders' Band any time," said Mr. Robertson. "We have not the highlanders here this afternoon, but we have what we stand for. We are not afraid to put in the lease of the hall what we want for it. We stand to fight the liquor traffic."

Defends the Secrecy.

The magnificent audience before him, said Ald. Hales, was as good-looking, as intelligent and as capable as the audience that had gathered there Friday night. "I am glad to see that the meeting had been 'Shall the people rule?' but the people behind the meeting did not come out to the hall what was wanted for. And they were charging him with doing things in an indirect way."

Opponents "Out of Date."

In very kindly terms Ald. Hales referred to Prof. H. C. H. and Mr. Richardson. The former he called a dear old gentleman and the latter a noble man. But, said he, their opponents were out of date. Any practice that caused such great loss as the liquor traffic had to be checked. Each of the speakers wanted his wine and if there were an excuse for any one it was for such old men as these, who had had such a long time to get used to it. He wanted to change their practice now. Father Minehan wanted to cut off the license, but do it in his own way. Prof. H. C. H. had quoted the noble verse of Scripture, "Do justly, love mercy and walk humbly with God." He would ask Prof. Clark whether he would assist a man to do justice, to love mercy, or to walk humbly with God.

Getting It in the Neck.

"The truth is," he declared, "the temperance people always get it in the neck, and this time the other people's necks are sore because they got a few drops of our experience." "If a property owner dug a well on his own property and that well threw up a quantity of mud, but they had not been doing it for some time, the authorities would make him fill it up or fill it up at his expense."

AT THE THEATRES

The unqualified success of the Charity Concert, being given in Massey Hall last Saturday night, was practically due to the energy and enthusiasm of one man—Mr. J. H. Black, business manager of St. Anne's Church. It was he who thought of the idea, and formed the committee, consisting of Ben Harvey, Frank Bennett, C. Ross (Queen's Own), Keith C. Balfour, with J. H. Mackie, secretary of the Canadian Club, as chairman. The committee secured the free services of the vocalists and instrumentalists; the directors of Massey Hall gladly let the use of the auditorium without charge, while the printing and bill posting were donated by W. S. Johnston & Co., Mr. J. H. Mackie, secretary of the Canadian Club, and the Toronto Bill Posting Company (Comor-Ruddy).

A good audience practically filled the hall and the audience were seen Mayor Oliver and guests, Mrs. Mackie and party of twenty ladies from the Nursing Association, the secretary of the Canadian Club, and chairman of the committee, acted as master of ceremonies, and in a neat and dignified manner presided over the evening. He promised excellent entertainment for those present were not disappointed.

The not the first on the program, one of the proceeds of the concert, was a cello solo by Miss Enid Toronto, but a really beautiful performance, and the charity movement, generously offered her services. Her cello solo, Poppo's "Bartolomeo," in a style better suited to the voice of a cello, was heard by the audience. She responded with an encore in a style better suited to the voice of a cello, was heard by the audience. DOCTORS HAVE RAISED FEES

"Yes, sir," remarked a prominent physician, "they have, and I don't think it's right in these hard times. The cost of living is so high that I have to raise my fees. I give my usual prescription (which has cured hundreds) to all sufferers from colds, grippe, coughs, bronchitis, croup, throat and lung diseases, free of charge. My special prescription is: Fluid Extract Licorice, one-half ounce. Glycerine, one ounce. Tarol, one ounce. To this add three ounces of hot water, and take a teaspoonful every 2 or 3 hours. This formula can be filled at any reliable drug store."

NINE BOSTON CHINAMEN FOUND GUILTY OF MURDER

One of the Wealthiest Celestials in America Among the Number.

BOSTON, March 8.—Warry Charles, one of the wealthiest and most influential Chinamen of Boston, and eight of his countrymen, claimed to be notorious "hatchet men," were found guilty by a jury in the superior criminal court late Saturday, of murder in the first degree, on four counts alleging the killing of four Chinamen in Boston August 2 of last year. A tenth defendant, Yee Watt, who had also been on trial on the same charge, died suddenly in the cell in which he was confined. The cases had been on trial for 33 days.

In each case Warry Charles was accused of being an accessory before the fact. In that he "counselled, hired and commanded others to commit crimes." The cases had been on trial for 33 days.

The murders for which the nine Chinamen were found guilty grew out of a long-standing feud between the Hip Sing Tong and the On Leong Tong, rival Chinese societies.

Early in the evening of Aug. 2, 1907, a number of strange Chinamen, who had been invited to a dinner at the home of a Chinese merchant in the heart of the Chinese quarter of Boston, and at a given signal, which was a clear one of the strange Chinamen was smoking, they immediately began firing from revolvers upon scores of Chinese merchants and laundrymen who were in the rear of their places of business lazily looting about after a hard day's work. Over 40 shots were fired and when the police appeared they found four Chinamen dead in the alley and a dozen others seriously wounded, one of whom died.

Shoy Tong, one of the principal witnesses for the state, testified that Warry Charles, a rich and influential Americanized Chinaman of this city, and president of the Hip Sing Tong, had instigated the killing. In his testimony Tong said:

"Charles said that we would have to do some killing and make the Chinese business men so afraid that all of them would join our society."

Charles is also alleged to have said: "We were getting to be dead ones and must kill someone."

Tong testified further that Charles proposed sending to the city a number of his men, who were unknown, to do the killing, as they would be better able to escape.

COUPLE FOUND DEAD

Man Shot Wife and Self—She Had Once Killed a Man.

DENVER, Col., March 8.—Harry Adair, clothing salesman, 40 years of age, shot and killed his divorced wife, Miss Grace Nottingham, 27 years of age, in a room in the Waldorf Hotel last Saturday night. The bodies were found Saturday. The pair were married in Los Angeles on Jan. 12, 1906, and the woman obtained a divorce in Denver a year ago.

Before her marriage Miss Nottingham shot and killed Edward Murphy, a friend of her father's, at Avon, Colo., where she lived with her parents. She pleaded self-defence, but a jury found her guilty of involuntary manslaughter and she served one day in jail.

"BLACK HAND" RAID BANK.

Results in Revolver Duel in Which One May Die.

NEW YORK, March 8.—Repulsing a daylight attempt of the Blackhand to rob his bank Saturday at the point of a gun, Pasquale Patti, who conducts a large banking and exchange business in the Italian quarter on Elizabeth-street, in a pistol duel, which his son-in-law, Louis Carter, joined, shot and killed Patti, while on the other side of the front of his bank was blown out by a bomb and \$40,000 scattered in the street, which was saved by prompt work on the part of the banker.

The closing hour of the bank was near at hand and the streets in the neighborhood were teaming with people returning from a half-holiday's toil, when Peltro entered Patti's bank. Patti was talking with his family, when Peltro, drawing his revolver, declared his intention of killing the banker. Quickly seizing a revolver on the shelf, Patti opened fire on Peltro, while on the other side of the bank, Louis Carter, who conducted the branch postoffice station in the institution, drew his revolver and also began firing. Peltro fell to the ground with five bullet wounds in his body, while Peltro was caught running from the bank.

Peltro told the coroner that he went to kill Patti, but fired no shots. The police have been unable to find Peltro's revolver.

Patti is held by the police pending further investigation of the affair.

I. P. B. S. Annual Dinner.

The Irish Protestant Benevolent Society has issued tickets for its twenty-fourth annual dinner for March 17, a hotel on the evening of March 17. Among the speakers announced are: St. Williams, Mayor of New York; H. Wood and Rev. Byron Stauffer. The speeches will be interspersed with Irish songs by H. Ruthven, McDonald, E. B. Pigot and Wm. McKendry.

Auto's Long Run.

LEAVENWORTH, Kas., March 8.—The army automobile carrying a message to Gen. Grant in New York City to Col. R. H. Lousborough, commandant at Fort Leavenworth, arrived here at 11:30 a.m. Saturday. The car, which was driven by Gen. Grant, was a 1915 model, and was driven for 18 days, 2 hours and 32 minutes.

BOAT OVER DAM

Three Lives Lost in Accident at Port Perry Pa.

PITTSBURGH

March 8.—Three lives were lost last night when the tow boat Stella Moren, with two flats of Monongahela River at Port Perry, Pa., and sank in 30 feet of water.

Four Die in Tunnel.

BALTIMORE, March 8.—Four men are dead and ten others were taken to a hospital suffering from the effects of gas which overcame them while at work in the Pennsylvania railroad tunnel. A number of others were affected, but managed to reach fresh air before being overcome.

The accumulation of gas is said to have been due to the fact that the exhaust fan depended upon to carry down the gas and smoke from trains using the tunnel was out of order and had not been working for several days.

A Most Important Sale of Linoleums English, Scotch, German and Canadian—A Week of Selling and a World of Saving.

We start our Annual Spring Sale of Linoleum to-day. All, or at least the great bulk of the clearing lots picked up by our representative on his last tour of the European linoleum centres, are now gathered into one big Spring Sale, and this Sale opened to-day.

To-morrow we'll continue the selling of Scotch Linoleum. These goods comprise some of the best printed Linoleum in the world. Moreover this particular quantity has had the unusual advantage of nearly a year's seasoning. It is hard as wood almost, and will just about wear like a parquet floor. The goods for each day during this Sale will be different. If you see the Linoleum advertised that you want don't delay your coming. Each day will have a programme of its own. Here you have the offerings for Tuesday:

- 3600 yards of Printed Scotch Linoleum, 2 yards wide, in block, floral and tile patterns. Regular 40c and 45c. Tuesday. 28
- 5600 yards of Scotch Printed Linoleum, 2 and 4 yards wide, block, floral and tile patterns. Regular 50c to 60c. Tuesday, square yard. 38
- 6900 yards of Best Quality Scotch Printed Linoleum, block, floral, tile and scroll designs. Regular 60c to 75c. Tuesday, square yard. 48
