IN UPPER QUEBEC BORDEN GETS GLAD HAND

Challenges Premier to Prove Single Act of Government Responsible for Era of Prosperity.

OTTAWA, Oct. 12.—(Special.)—Penetrating the Quebec constituencies of Pontiac and Wright, R. L. Borden addressed two meetings to-day at Shawville and Aymer.

Prosperity Like Charity.

Mr. Borden was acclaimed by a large portion of the audience rising and cheering.

Prosperity Like Charity.

Mr. Borden, "has been the cry of the Liberal press—the subsidized Liberal press, that has taken six million dollars of public money since 1896, without giving any fair return in the sense of rendering party service."

Describing conditions he had witnessed in parts of the United States...

Mr. Borden said he hoped to see such conditions prevail here, and would be pleased to see the Dominion treasury would have been sufficient to make a good beginning of a system of rural mail delivery.

They say.

"They say," observed Mr. Borden, "that we have not the capacity to govern. I say that any party which can lay down political reforms of that nature and have them carried out when in opposition is surely a party which can confidently be entrusted with the management of the affairs of the people of Canada."

Conservative Protection.

The Conservative leader touched on the transportation question. There was no more important article of the Conservative policy than this which laid down the pledge of developing the inland waterways of the country as rapidly as the resources of the country would permit.

TWO GIRLS' LIVES RUINED SMALL DAMAGE AWARDS

Sad Cases in Assizes — Council Give Bell Co. 5 Years Exclusive Franchise.

HAMILTON, Oct. 12.—(Special)—The city council had a short session this evening. The bylaw conferring a five-year exclusive franchise on the Bell Telephone Co. at the present rates was passed. It was arranged that a special session be held to give the permission to lay tracks on Wentworth-street and Sanford-avenue. Just as soon as the company and the board of works come to an agreement with reference to the kind of rails to be used for the new roadbed, the company will lay tracks on James and Herkimer-streets. The company claims to be anxious to start the work, and the aldermen also wish to facilitate matters.

Two sad cases were heard at the assizes this afternoon. May Smith, a 19-year-old girl, was awarded \$500 damages against Thomas McFarland, a young married Perth County farmer, for seduction. The defendant admitted that he was innocent and there was so much contradictory evidence that Justice Riddell referred to the case in addressing the grand jury and expressed the opinion that some one ought to be indicted for perjury. Richard May, Stony Creek, was awarded \$500 damages against Norman E. Cook, a carpenter, 30 years of age, who had been married 19 years, for the seduction of his 19-year-old daughter. The grand jury brought in a true bill in the case of each. In the case of Richard May, Justice Riddell said he favored the retention of the grand jury. Three of the grand jurors failed to appear in court, and the judge instructed the crown to enquire into the reasons and to indict the delinquents unless they have good reasons for non-attendance.

Samuel S. Landers, the labor candidate in East Hamilton, held a very successful open air meeting this evening at the corner of Barton and Emerald-streets. In his address he charged Samuel Barker, M.P., with opposing the bill that a Conservative member, E. A. Lancaster, M.P., Lincoln, introduced in the house of commons to provide better protection for crossings at King-street and Ferguson-avenue, where there is no watchman after 9 o'clock in the evening. He went after both his opponents, and charged with a full dinner-pail for the workingmen. "What do they take the workingmen for—horses?" he exclaimed. Allan Studholme, on the other hand, speaking to the courts regarding their assessment.

The board of health this evening authorized Dr. Robling, the medical health officer, to engage whatever legal assistance he might require in opposing the appeal of R. J. Haspberry in making the fine of \$100 payable on him for watering the milk he sold in the city. Misses Sweet, Bradford, was arrested to-night, charged with the theft of a raincoat and gold locket. A. T. Taylor, a graduate of the local Y. M. C. A., was appointed the special director of the Y. M. C. A., Loraine, Ohio.

Opening of New Building is Made a Red Letter Event.

WOODSTOCK, Oct. 12.—(Special)—The new Y.M.C.A. building, which was erected at the corner of Dundas and Wellington-streets, at a cost of \$25,000, was formally opened to-night with a big public gathering of contributors and others. A dedicatory address was given by Mayor Sawtell and addresses were also given by Justice G. H. Haspberry, M.L.A., M. A. Copeland, provincial M.C.A. secretary, and J. W. Hopkins. The new building was erected by the town and includes a gymnasium and swimming tank.

GRAFT ON WALL STREET.

People's Only Chance Between Parties, Says Debs.

PHILADELPHIA, Oct. 12.—Eugene V. Debs, Socialist candidate for president, addressed two meetings on Sunday. Thousands of workmen heard him. Mr. Debs denounced the present form of government, the social system and the Democratic and Republican parties. Among other things, he said: "We are on the verge of the greatest organic change in all history. First, we abolished kings and then slavery, we abolished the Republic and now we are to abolish the capitalist and save the workmen from the horrible system. Let us hope that the third step will come in peace—but come it will." Paying his respects to President Roosevelt, he said: "Roosevelt is the Don Quixote of American politics. He wears a rough rider hat and enjoys looking ferocious. If he ever did anything besides shoot a Spaniard in the back I have not heard of it. He has reduced the office of president of the United States to the level of the ward heeling politician."

Slow, But Sure Poison Goes All Through the System When Catarrh Sets In.

THE WORKING OF FENDERS POINT IN DAMAGE SUIT

Jury Visit Shops to See One—Evidence in the McKeown Fatality.

Chief Justice Falconbridge is hearing in the jury assesses an action for damages brought by Thomas McKeown for the death of his little four-year-old boy, killed by a motor car No. 1212, just above Bloor-street, on April 8.

There are two outstanding features. First, the age of the child is unusual. Then there is the important point as to the efficiency of fenders. The one that was on car 1212 was a "Jenkins" of the most approved type, which, however, did not work when the boy was struck, and yet officials of the company swore that the same fender had often picked up stray fox terriers and cats. In the afternoon the jury went down to the Frederick-street shops to inspect the fenders and then returned to hear evidence. The case goes on to-day.

When the case opened in the morning delay was caused because the boy's father could not be found. "These delays are all caused by the practice of excluding witnesses from court," commented the chief justice, "and there is not the slightest use for doing that."

Mrs. Blanche McDonagh of 324 Bathurst-street and Mrs. A. Murphy, a neighbor, both eyewitnesses, gave evidence. Mrs. McDonagh heard no guns and Mrs. Murphy said she saw a couple of men jumping on the fender in order to trip it.

B. B. Jenkins, the inventor, told of examining the fender on the same day as the accident, and finding that the contrivance was not in good running order, the bars not being arranged properly. He admitted that he was not on friendly terms with the Toronto Railway Co. but denied the assertion by D. P. McCarthy, the company's counsel, that the railway company had stopped installing its fenders for their cars.

James Bannan, chief engineer of the city hall, on the day of the accident was instructed by the assistant crown attorney to inspect the car. He found everything in good running order, and no evidence of fresh oil on the fender. In reply to his lordship he stated emphatically that it took very little to trip the fender as he saw it. Even the boy was not in good running order away from the car, if it struck him at all it should have tripped the fender.

Inspector of Fenders Ford said he had inspected car 1212 on the morning of the accident and that it was all right. He could not remember the car from any other. Divisional Superintendent Copping said the car had been marked O.K. before it went from the shops. It was equipped with all brakes stopped in good running order within 30 feet at ten miles an hour and within four or five feet at five miles an hour.

TRUE BILL FOR MURDER.

Three Men Indicted by Grand Jury at North Bay.

NORTH BAY, Oct. 12.—(Special)—The assizes opened here to-day before Justice Brian.

The grand jury found true bills against Thomas J. Wright, James Quinn and Michael Morris, charged with the murder of R. Frith Young by stabbing, at Ironquill Falls, May 30. Wright, Michael Morris and James Quinn and Morris, while G. L. T. Bull of North Bay defends Wright.

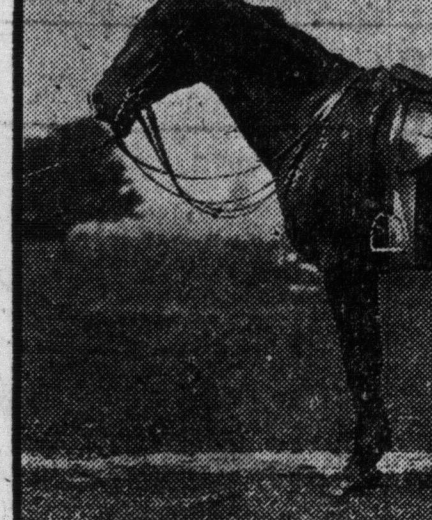

A true bill was also found against Alex. Henson, charged with the murder of an immigrant girl under fourteen years of age on a train.

ARE YOU WEAK AFTER SICKNESS?

Later on it will be harder to get Strong Than To-Day—What Are You Doing to Get Well?

A case in point is well exemplified in the following letter from Mrs. V. J. Wilder, wife of a well-known citizen of Pittsfield, who writes: "I had a nervous disorder that completely prostrated me. I couldn't sleep, and would lay and toss about all night, arising in the morning more tired than ever, head heavy, eyes dull and every bone and muscle aching. I tried to get along without calling a doctor, but was finally driven to it. He treated me for some time, but with no perceptible improvement in my health. Someone recommended Ferrerozine. I was given a trial of it, and it was noticeable almost instantly. I gradually took on flesh. The 'all-gone' feeling left me. In less than six weeks I was fully recovered from what looked to be like an everlasting sickness. I will always recommend Ferrerozine, feeling with sincerity that it is an honest, powerful, health-giving tonic."

FATE WAS DESERVED.

Such is Opinion of Those Who Remember Owen Sound Hanging.

OWEN SOUND, Oct. 12.—(Special)—The statement that the execution many years ago of Cook Teates, the only criminal who was ever hanged at Owen Sound, was a legal murder, is not borne out by the man's statement, the alleged confession of his mother-in-law to Meaford and had a policy for \$1500 with himself as the beneficiary placed on her life. They were married and afterward went to Michigan, and the man related how he had endeavored to poison his wife at Port Huron, but that an overdose resulted in the plot near Markdale he repeated the attempt and was successful.

This statement was reaffirmed in the speech which the criminal had prepared to recite on the scaffold, and undoubtedly would have been made had not a brother, who visited him the day prior to his execution, dissuaded him from so doing for his mother's sake, as the latter refused to believe him guilty until he publicly said so.

For the alleged confession, the mother of the murderer was afterward committed to jail, and when there made the positive statement that she had seen her son, Cook Teates, in a rooming house in Owen Sound, meaning that she was doing for his mother's sake, as the latter refused to believe him guilty until he publicly said so.

CHARTER DAY CELEBRATED.

Gold Medals and Prizes Presented at Victoria College.

The charter day celebration at Victoria College last night was largely attended. Chancellor Burwash presided. An interesting and appropriate address was given by Prof. R. R. Wright, vice-president of Toronto University.

The prizes won at the university examinations last spring were then presented. The presentations were made by the principal, Dr. R. R. Wright, and Rev. Chancellor Burwash.

The successful collegians included James Bannan, chief engineer of the city hall, on the day of the accident was instructed by the assistant crown attorney to inspect the car. He found everything in good running order, and no evidence of fresh oil on the fender. In reply to his lordship he stated emphatically that it took very little to trip the fender as he saw it.

RAISING PULLMAN RATES.

Big Increase is to Go in Force on Day Cars.

MONTREAL, Oct. 12.—Pullman car rates on the G.T.R. are being revised. The Toronto rate remains the same, but to intermediate points it is about 25 per cent. higher for day rates, sleepers remaining the same. State rooms will be higher to all points. East of Montreal day rates are lower.

An hour makes a difference in the making of the improvements at the old Wandless store at 168 Yonge-street, which will be opened up in a few days as Toronto's newest retail concern. Changes are shaping now so that a casual glance gives one some idea of just what a handsome store such as E. East & Co. will present on their opening day; and what you can guess now about the looks and appointments of such a shop will give you some hint of the style of business this enterprising firm will have going when they ask the ladies to take a first view of the elegant costumes, suits, coats, waists, millinery and other little odds and ends in ladies' wear that they will be stocked up with. Watch for the Rev's opening announcements.

OF INTEREST TO WOMEN

WITH A HANDFUL OF ROSES.

Everything my heart would say
Valiant roses shall declare,
Since my lips, less bold than they,
Dread her frown, and do not dare
They shall nestle on her breast,
They shall whisper, soft and low,
"He loves truly, he loves best,
Who's afraid to tell you so."

Actress-Lacemaker.

Mary Mooney, a statuesque Irish beauty, wears fifty-six yards of lace which she made herself, when appearing with Marie Cahill's famous "long-skirted" chorus, which will be seen in the musical play, "The Boys and Betty" at the Princess next week.

Miss Mooney is a typical Irish beauty and learned the art of lace making from the nuns at a convent near Killashandra, Ireland. She has saved all of the results of her handiwork, with the result that the lingerie and furnishings of her costume on the stage might be the envy of any of the brides of the aristocratic rich.

For Woman's Suffrage.

NEW YORK, Oct. 12.—A number of women met here to-day and started what they declare will be a national campaign in behalf of women's suffrage. The financial aid of Lady Frances Cook is said to be pledged in support of the movement. Within a few days, it was announced permanent headquarters would be established in this city. As a first step to obtaining official recognition of their so-called rights the leaders of the suffragettes will begin at once a suit for a writ of mandamus to be served upon officials of a registration booth where women were denied permission to register last week. The women will make no further attempt to get their names on the lists to-morrow, the last day of registration, but they plan to canvass many assembly districts at election time.

Perfumed Hats Now.

One of the tricks of the Parisian milliner is to perfume the chapeaux for her special customers. The odor from large hats laden with artificial flowers, ribbons, etc., is often noticeable, especially before the hat has been worn several days in the open air. To conceal this the clever Parisian milliner stiffens the ribbon bows with wire wound with scented wool, and sews tiny sachets no larger than buttons at the base of bows and flowers. Large flowers often may have the calyx removed and filled with a tiny bit of scented silk or satin that covers a tiny sachet.

"Dressing Up."

The bed that is not "dressed up" with a valance presents a most incomplete appearance when turned down for the night. The under sheet is tightly stretched over a neatly tucked under the mattress, but the box-spring is in evidence, and while it is not desirable, then again, this same box-spring is a costly article, and deserves to be protected from dust.

with a cover of plain, white cotton rep. It was a perfect fit piece of material, wide enough and long enough to cover the top of the spring and fall within an inch of the floor all around. All superfluous material was discarded by cutting a square out of each corner, which allowed the cover to fall each side of the bedpost without a wrinkle or pucker. Spread out, the cover presented the appearance of an elongated Maltese cross.

Toronto World's Beauty Patterns

A Smart Suit of Broadcloth. No. 8314 and No. 8235.

No. 8314. Ladies' Coat. Cut in sizes 32 to 42 inches bust measure. Size 36 will require 3 3/4 yards of 44-inch material. This coat, which is one of the most stylish and serviceable of the season's modes, is made of broadcloth trimmed with braid. The notched collar is of velvet. Cheviot, broadcloth and covert cloth would all make up stylishly.

No. 8235. Ladies' Eight-Cored Skirt, with habit back or inverted box-pleat. Cut in sizes 22 to 32 inches waist measure. Size 26 will require six yards of 44-inch material. This design shows the popular fancy for the front closing, but the pattern also provides for closing in the back. A circular flounce is a stylish addition, but may be omitted if desired. Suitable for development in voile, shadow-stripp mohair, panama and broadcloth.

This illustration calls for two separate patterns. A Coat No. 8314, and a Skirt No. 8235, which will be mailed to any address on receipt of ten cents in silver for each pattern.

Be sure and give the exact number and size of pattern required.

FINE NEW STEAMSHIP FOR INLAND WATERS

Important Addition to Canadian Marine by Western Steamship Company.

A notable addition was made yesterday to the Canadian inland marine by the arrival of the new steamship, J. A. McKee. This vessel was adjudged a marvel of utility and trimness by the local experts, who made admiring visits to the steamer at the wharf at the foot of Bay-street. The vessel was built at Newcastle-on-Tyne, at the famous Swan & Hunter Shipyards, where the Mauretania was built. The J. A. McKee was built after specifications by her commander, Capt. W. J. Bassett, formerly commodore of the Northern Navigation Company's fleet, who brought her over, loaded with coal for St. John, N.B. The new steamer came thru rough Atlantic weather in a manner which made her the delight of her captain and crew of twenty.

After unloading at St. John, a cargo of pig iron was taken on at Sydney for Fort William, so that, after arriving gaily with colors flying she was already making strict attention to business as the newest member of Canadian shipping.

The J. A. McKee has a capacity of 2500 tons, is 220 feet long over all. She has a beam of 45 feet.

The dining-rooms and kitchens, situated aft, would do credit to a first-class restaurant. The rooms are finished in mahogany and quartered oak. The owners' rooms are equal to those on the best passenger steamships. This is also true of the captain's cabin and office. The observatory-room is admirably arranged, while the pilot-house is claimed to be the finest on Canadian waters.

The J. A. McKee will be devoted to freight carrying, and is built with special view to transporting grain and other bulky cargoes. She will be able to clip off twelve miles an hour.

The new steamship does not replace any other vessel, but is a distinct addition to the Canadian marine to meet the growing requirements of the freighters of good capacity. She sails west this morning.

HID IN VAULT FOUR DAYS

Youth Waited Without Food or Water to Steal \$700.

CHICAGO, Oct. 12.—Edward Wieren, 19 years old, confessed Saturday to the theft of \$700 from the vault of the W. & D. Allen Manufacturing Co., where he had been employed.

The youth said that he had secreted himself in the vault four days before the robbery and had remained there without food or water until the day on which he knew the money would be deposited.

After emerging from his place of concealment Wieren pocketed the money, he said, and awaited the opening of the vault door, which had been locked when the money was placed in the receptacle. He then struck down Henry Gibbs, a superintendent, who opened the door, and escaped with the money.

WIEREN PLACED \$700 IN A CHICAGO BANK

Yesterday when he appeared at the bank to withdraw it he was arrested.

\$10,000 IN CHINESE COIN IN GALT AS OLD METAL

Brought All the Way From the Orient to Be Disposed of by Metal Merchants.

GALT, Oct. 12.—(Special.)—There arrived to-day in Galt, consigned to the Ontario Rag & Metal Co., Chinese currency to the value of \$10,000 in Canadian money.

Just what the sum would represent in Chinese currency is impossible to ascertain, but a conservative estimate places the amount at 500,000 taels; a tael is a silver piece worth 63 cents in Canadian currency. There are no taels in the coin in Galt, it being composed of copper and brass pieces graduated from half a tael to one-tenth of a tael.

The shipment of about 8000 pounds of Chinese coin was received direct from Szechuan. It arrived in a store of sacks fastened with strips of tough weed.

The coin has been discarded, by the Chinese Government, most of it being worn or defaced. It ranges in size from pieces as small as a Canadian nickel to those as large as a half-dollar, and each coin has a square hole in the middle.

The coin will be sold by the company, to be used in foundries, etc., where an exceptionally fine quality of brass or copper is needed.

HOW TO GET PURE POLITICS

Layman Addresses Congregation at Berkeley St. Methodist Church.

An address on governmental reform was given by Layman John Buchanan in Berkeley-street Methodist Church Sunday night.

The speaker said there was a class of citizens who considered they were too good to take interest and that their citizenship was in heaven. "If the Lord thought so he would immediately transplant them to a place where they could exercise their citizenship."

Another class followed party without thinking whether their actions corresponded with the gospel. Many so-called patriots talked and acted as if the government existed only to afford them spoil. The contest between the two great political parties seemed to be developing into a scramble for office. "Government was instituted by God, and was no mere social or parties' league with evil doers in order to share the spoils of government," said the speaker.

A government could not be made to serve the interest of corrupt parties without danger to the whole people. The remedy for ills of government was in an understanding of God's purpose by citizens, and in the electing of truly good, intelligent, moral men to power. It might be necessary to leave the old parties to do this, but it was necessary to vote for either Grits or Tories.

MORE ABOUT THE LIBRARY.

The defence of the Toronto Public Library Board it is submitted that its members are all representative citizens. This is most true. But they are in no sense responsible representatives of the taxpayers of the city, whose money they have been spending with a freedom equal to that of any of the elected educational bodies. The citizens are directly concerned with the library department and a nominated board should not have the responsibility resting upon it of spending the people's taxes.

The library has merely grown up just like Topsy. It has become a heterogeneous assortment of volumes assembled on no particular principle, and the board that is needed to bring them into proper arrangement and place them at the service of the people who have paid for them has its work laid out for it. The present board has not justified its existence and it has had ample opportunity to prove its fitness. With a bunch of lawyers in control, it has naturally mistaken itself for an annex to the police court, with as its chief function the collection of fines. If imprisonment were intra vires it would assuredly have run the colonial a close second.

The duty of an official as brought home to the frequenters of the reference reading room has been largely that of watching the glass door and pouncing upon any negligent and unsuspecting Socrates who happened to intrude without removing his hat in the vestibule or, in some other way, violated the numerous and minute rules of conduct it has pleased the board to perpetrate for the regulation of the public user.

Irresponsible boards invested with a little brief authority never seem to grasp the fact that in the case of a public institution like a library rules should be framed to assist, not hamper the people who resort to it. Rules of course there must be, but there are various restrictions imposed on students and workers in the Toronto Public Library, which disclose a lack of acquaintance with the true nature and purpose of a reference library and one not calculated to aid those who have occasion to use it for research or for proper library purposes.

Now that Dr. Goldthoun has rejected the mantle bequeathed to him the best thing the present board of managers can do with the unoccupied garment is to hang it up till a responsible board may find use for it. The library board has shown that there is no need for hurry about the vacant post, and for once it is right. The first thing to do is get rid of a nominated board.

TEMPERANCE STREET EXTENSION.

In the making of a city one of the essential things to be considered is its thoroughfare. The municipal architect should have in mind the accommodation of traffic—the all-important thing. He should also have in mind the get-at-ability of buildings in case of fire.

Every large city has its narrow and blind streets and lanes, that instead of facilitating the movements of the fire brigade, make it almost impossible for it to do itself justice. Many of these old world types of byways and alleys, are found in our business districts. They serve as fire traps. They are an

impediment to traffic, and do not augment the value of the properties near which they are located.

The layers out of new towns and cities should have these requirements before them. Older cities should remedy their deficiencies as best they can.

Temperance-street is a case in point as regards the section west of Bay-street, which is nothing more than a laneway, and even as a laneway is completely blocked by Bond's Brewery. Recently a deputation of business men with places of business in the neighborhood of Bay and Sheppard-streets waited on the civic works committee and asked that Temperance-street be extended from Bay-street west to Sheppard. The request was timely, and one that deserves the very best consideration the committee can give.

Bay-street is rapidly becoming one of the main thoroughfares of the city. It is relieving congested Yonge-street, Temperance and Sheppard-streets should be one of Bay-street's outlets, which at present they are not.

There is some vacant property on the north side of Adelaide-street that will be built upon shortly. In fact, the Bell Telephone Co. has already taken out a permit for the erection of a large office building on part of the property. Then again the old building on the south side of Richmond-street, between Bay and Sheppard, must eventually give way to buildings for commercial and industrial purposes. These new buildings must be protected in case of fire. They must be get-at-able from the rear by the fire department, and the only way that this can be made possible is by the extension of Temperance-street. True, some old buildings would have to be removed or partially destroyed, but the enhancement in value brought about by this extension would fully repay the present owners of the property.

BRITISH PARLIAMENT RESUMES.

Yesterday the British parliament resumed for an autumn session, which in all probability will have plenty of interest and some surprises. Its chief feature will be the much-discussed licensing bill, a measure which, judged from the Canadian point of view, is more than generous to the liquor trade. But other countries others matters and the premier will be none too sanguine about its passing in its original form. England has ever since Puritan times been averse to what is commonly called sumptuary legislation, and the government will show no small degree of moral and political courage if it stands by the bill in its present form.

Current rumor affirms that if the licensing bill passes the commons it will either be rejected or amended beyond recognition. One or other would be likely enough but for the alternative of the government possesses in the power of altering the incidence of taxation. With a large deficiency in revenue for the first six months of the fiscal year, and the certainty that the demands on the chancellor of the exchequer will next spring be higher than ever, the government might not regret over-much a decision on the part of the peers to kill proposals which have unquestionably influenced some at least of the by-elections. Ministerial spokesmen have affirmed that a refusal to pass the bill will be met in a way that debars opposition from the second chamber. This can only mean material increases in the excise and license imposts.

The forcing of the license issue will tend to improve the chances for an amicable settlement of the education controversy. Portents are all in favor of this, and the way will be smoothed by the inclination on the part of the lords to support licensing reform. On the other hand, fiscal reform will be presented apparently with all the strength derived from practical unan-

imity. Recent by-election victories won by candidates who made it a straight plank in their platforms have stiffened the attitude of the official opposition on this question, and made it certain that the proposal will become a definitive party issue. Mr. Chamberlain's policy undoubtedly holds the field, and with political and social conditions as they are the propaganda will be pushed harder than ever. It is no longer a case of talking a strongly-fortified position by assault. The fight is now in the open, and this fact alone makes it clear how far the situation is removed from that which ruled during the administration of Mr. A. J. Balfour. He has had to move with the times, and the movement within his party, has been too pronounced to be resisted. The new patent law has shown the public how great a lever retaliatory duties place in the hands of the government, and the lesson will not be lost.

IN THE LAW COURTS

Divisional Court.

Jaran v. Gionelli.
Falvey v. Falvey.
Boland v. Falvey and cross appeal.
Robinson v. Wilson.
Curry v. MacLaren.
Sloan v. Tremblay.
Pennock v. Mitchell.

The cases of J. W. Martin against seven Italians, have been consolidated and the injunction is to continue until the Perth assizes, Nov. 16, on hearing before Justice Tieszen. The defendants' names are John Romlesie, Aless. Romlesie, Kulas, Pick, Palubeski, Majka and Mintz. W. Laidlaw, K.C., is handling the case for plaintiff, and G. Delahaye, K.C., of Pembroke, for defendants. The point at issue is whether the minister of forests and mines had authority to issue licenses covering lands patented under the Free Grant Act, after the expiration of the license year in which they had been patented.

On the ground that cases must not be delayed by disputes between third parties in which plaintiff is not interested, Justice Anglin dismissed the action of the Bank of Commerce against the executors of William Hendrie, to recover the amount of a \$1500 note made by John L. Counsell, which he endorsed. Defendants had appealed from the master at Hamilton's refusal to have Counsell made a third party to the suit.

Divisional court has granted John Daboll a new trial against Thomas Brothers of St. Thomas, in whose employ he lost a hand while operating a lathe. At the trial the jury decided that the accident had been prevented had a proper guard been placed on the machine, but Justice Magee dismissed the action.

Justice Anglin dismissed the appeal of the executors of the William Hendrie estate from the decision of the local master at Hamilton, in favor of the Canadian Bank of Commerce.

Master in Chambers Cartwright dismissed a motion on behalf of R. J. Tretrewey to have his action against the Toronto Railway, which had been struck off the list, again set down on the list. The action is to recover damages received through being thrown from a car Aug. 26, 1906. He alleged the car started on its own and had not been present in court when the case was called and the judge had dismissed it.

Chief Justice Falconbridge dismissed the prohibition motion of Sarah Garreth of Fergus against a judgment for \$50, under an agreement obtained by Isaac Hamilton of Dunnville, in division court at Haldimand.

The James McCready Co., Limited, of Montreal, is suing L. D. Ferguson of Haldimand for \$866.30.

A writ has been issued by Ryrie Bros., Limited, against Mary Scott of Toronto, the plaintiff's claim, \$228 for goods sold and delivered. The items specified are: Pearl necklace, \$1500; perfume bottle, \$7.50, and a necktie \$8.50. Credit amounts total \$708.

Chief Justice Falconbridge has dismissed the verdict of a jury which granted R. S. Armour, farmer of Northumberland County, \$375 for the loss of two horses on the G. T. R. tracks. The chief justice says plaintiff was negligent and the case should never have gone to the jury.

Norman L. Martin, an assignee of Carscadden & Mullen of Lindsay, sued J. G. Corran, to recover \$344, the amount of Carscadden & Mullen's indebtedness to the defendant. This amount was repaid to him by J. W. Lamb, who took over the company's stock shortly before they assigned. The assignee declared that the transaction gave Corran an undue preference over other creditors. Justice Britton disagreed with the claim set up, and has dismissed the action, with costs.

S. Frank Wilson is plaintiff in an action against the National Life Assurance Co. of Canada, to recover a policy which the plaintiff had in the Mutual Reserve Life Insurance Co., and for the payment of \$270.65. He also asks for the delivery up to him of the assignment made by him of his interest in the assets of the Mutual Reserve Life Co., alleging that the assignment was made without consideration.

HUNDREDS CROWDED OUT.
Edwards-McGillivuddy Libel Case a Sensation in Calgary.

CALGARY, Alta., Oct. 12.—(Special.)—The hearing of the McGillivuddy criminal libel charge came up this morning, and was again adjourned until Friday. P. J. Nolan, for "Eye-Opener" Edwards, said he was ready to proceed, but counsel for the defendant asked for the adjournment, which Justices E. E. Taylor and Col. Walker granted.

Seven witnesses have been summoned, comprising the office staff of The News. The court-room was packed and hundreds were unable to get in.

GETTING WINTRY.
Half an inch of ice in water pails around Markham yesterday morning is reported. There were four degrees of frost in the city; at Parry Sound there were 12 degrees and at White River 18 degrees.

And yet strawberries were picked in a garden patch at Lorne Park on Saturday.

Featherweight Suit Case of strong Japanese matting . . . 2.45

There's so much health and comfort, and so many years of steady wear, in a fur-lined coat, that a man who has once worn one comes to look upon it as a winter protection he can't do without.

Another fact you'll find out is that there's wisdom in paying the price for a good one, because the quality difference will always make for greater satisfaction every way.

A coat that may be relied upon for the kind of "inside" quality that will wear a lifetime is our Russian muskrat-lined, at \$90. The rich "black" shade of this fur is less common, too, and strikingly handsome; the pelts are of even size and "color"—whole—full furred—well matched—and sewn together in a way that should make ripping of seams impossible. Outer covering (or shell) is of beaver cloth; light in weight, but thick close pile and very rich bright surface; cut full box style. Collar of choice dark otter; and, while in the favorite notch style, it is so fashioned as to give the graceful, stately shawl effect; it is very wide, too, coming well over onto the shoulders.

We invite a closer examination of this coat, where you'll find convincing argument in its all round make-up for profitable buying.

The Price is \$90

POLICE FIGHT WITH CRAZY MAN 500 FEET ABOVE EAST RIVER

NEW YORK, Oct. 12.—At the top of the great iron tower at the Brooklyn end of the Williamsburg bridge a most thrilling struggle took place while hundreds of persons looked on from below. An insane man who had eluded the tower watchman climbed an iron stairway to the top of the tower, 535 feet above the East River, and was preparing for a leap into the river when two policemen climbed up after him. The man turned upon the bluecoats with a razor and rushed to attack them, and on the narrow footing at the dizzy height a 10 minute battle took place.

\$5,000 COUNTING CONTEST

The above amount in prizes will be given away absolutely free to the successful contestants in this, our greatest advertising campaign

CAN YOU COUNT THE DOTS?

In submitting this, our third great contest to the people of Toronto and vicinity, we feel that from an advertising standpoint it will go down in history as the greatest trade event in piano circles, and the publicity and benefit derived will be by far the most effective and permanent of any in all our sixty years in the music business.

PRIZES WILL BE AWARDED AS FOLLOWS:

One New Scale Williams' Piano, valued at.....	\$500	Fifteen \$75 Credit Checks, good on any new piano in our store.....	\$1125

A WORD ABOUT THE GREAT "NEW SCALE WILLIAMS" PIANO

The scale is the outcome of years of study and experiment which overcomes the unevenness, over-tones, and the displeasing unbalance noticeable in every piano drawn on the same general scale lines as used by all makers previous to this marked advancement in the NEW SCALE WILLIAMS, and which all progressive art makers have been trying to overcome since pianos were first constructed.

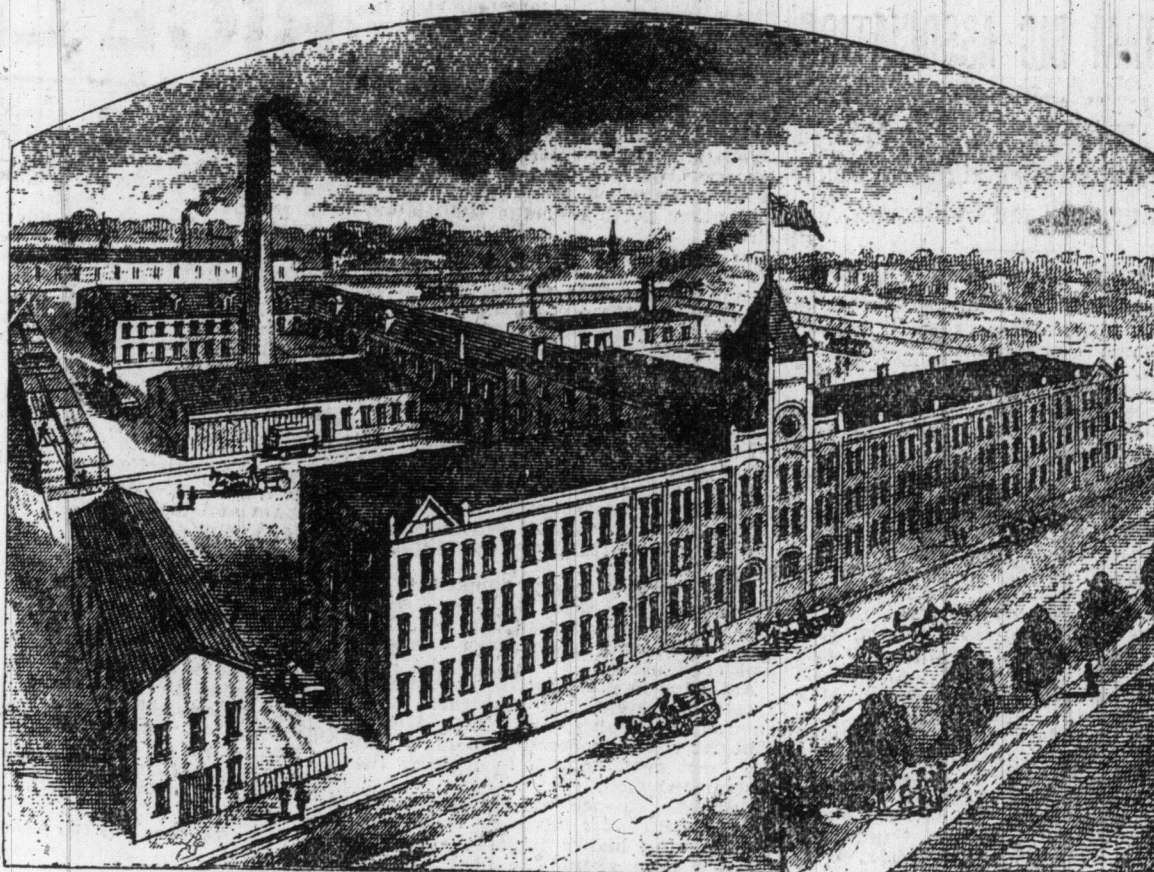

Our Harmonic Tone-Prolonging Bridge is another great improvement, doing away with the old style pressure bar, and isolating the tone from the plate. The Acoustic rim round back of the piano attached to sounding-board, increasing singing tone, and the hung Brass bridge with resounding chamber, giving soft and fuller tone to bass, are improvements that are found in this great instrument.

The material used is the finest money can buy, and all that is possible to go into a high grade instrument goes into the "New Scale Williams."

We do not hesitate to say it is the best that brains can produce, and to convince the public of our sincerity we will

GIVE \$1000 IN GOLD

to any charitable institution in the city if any Canadian piano manufacturer produces a better piano.

THE HOME OF THE NEW SCALE WILLIAMS
THE LARGEST AND BEST EQUIPPED PIANO FACTORY IN CANADA.

All answers will be numbered consecutively as they come in and the first correct answer will win the first prize. Answers may be sent by mail or brought to our store.

THIS CONTEST WILL CLOSE MONDAY, OCTOBER 19th, 1908

AND ALL ANSWERS MUST BE RECEIVED PRIOR TO 6 P. M. OF THAT DATE

Remember the great success of this house has been due entirely to its fair and honest dealings, and our best recommendations come from thousands of people in all parts of Canada who have purchased pianos from us. Since starting in the music business sixty years ago we have always handled none but thoroughly reliable goods, and our prices have always been as low as is consistent with good material and fine workmanship.

Our prices are well established and every Piano is marked in plain figures, and our stock consists of WEBER (New York), NEW SCALE WILLIAMS (Canada's Best), KOHLER & CAMPBELL, ENNIS & CO. and KRYDNER PIANOS and the NEW SCALE WILLIAMS, SIMPLEX and WEBSTER PLAYER PIANOS.

RULES GOVERNING THE CONTEST

What You Must Do

Count the dots which appear in the outlined girl and piano and write the number on the coupon which is printed below. Correctness of counting and neatness and legibility of answer will help decide. Be careful to observe the governing rules, as your success depends upon a strict observance of them.

It's Easy

It costs you nothing, except a little time and the use of your brains. No element of chance enters into this great opportunity. Merit and merit alone will tell. The number, variety and value of prizes make it worth your while to try.

The Judges

The awarding of prizes will be left to disinterested parties. The correct number of dots is only known to the manufacturers. They have forwarded this number in a sealed envelope to the judges of the contest. We do not know the number, and the judges will not know until after the contest closes. They will then open envelopes containing the correct number, in the presence of each other, inspect the answers, and we will announce their decision at the earliest possible date.

Read this Important Notice

Anyone within a radius of 200 miles of Toronto may send in ONE answer, but not more than one will be received from same party or family. Twelve curtain recalls at the close of the third act of Bernstein's "Samson" at the Princess last night, with William Gillette in the chief part, signified one of the most notable triumphs in stage craft seen here for years. The city will be running wild over the play before the end of the week. The first act elicited some applause and there were several recalls at the close of the second. But the strip of the wind and hold of everyone and swept the theatre like a whirlwind. There seemed to be no end to the calls and 12 times is nearly a record in Rochester on Friday night.

The first act introduces the characters and sets the story going. An impetuous French marquis and his wife married their beautiful daughter to a self-made millionaire, a man whom she does not love and has so informed. Max, her brother, supplies the smart comedy. Maurice Brachard, the self-made man, has years before befriended Elsie Vermette, a cousin of the marquis, who has been filled by Jerome Le Gouvin, a society favorite, a dangerous duellist, and a gambler. This villain of the play is pursuing Brachard's wife and tempts her to make an assignation with him during the absence of her husband, who is going to London ostensibly on business, but really to purchase a portrait by Reynolds which resembles his wife, who she loves distractedly. The act closes when Elsie advises him not to leave Paris.

The second act opens at Brachard's house at 230 in the Rue de la Paix. He has seen her mistress go off in a motor car with Jerome and sent a message to the marquis and marquis, who write on the subject of the assignation, a time in admirable comedy, summoning Max on the phone. Shortly after he arrives Brachard comes in, soon followed by Marie, who has just returned from the supper party to which Jerome had conveyed her. The scene following is one of the strongest pieces of realistic human nature seen on the stage lately and worth whole volumes of Ibsen and Sudermann. The act ends in Brachard's departure, challenging Jerome, while telling Marie that he is going to London and that he trusts her not to see Jerome. She declares she has resolved never to see him again and leaves the room in a dramatic moment of yielding, but disappointed hesitancy.

The third act is entirely given over to Brachard's new method of seeking revenge in a duel with his own weapons. The fascinating interest with which the story is elaborated is no longer in the drama, holding the stage in this generation, and the constantly increasing intensity of the situation, reaching a climax in the powerful indictment by Brachard of Jerome's "honor" and the self-revelation of that miserable potroon, brought down the house in an enthusiastic ovation.

In the fourth act very great dramatic art is shown in reaching a conclusion satisfactory to the audience without any outrage on the probability. The literary and dramatic art of the play through is on a high level, and this without any sacrifice of realism to appear in the classic, which for modern theatrical purposes are dead as Homer. The old fashioned emotions and the old fashioned sentiments are woven into a fabric which stirs every heart, and the delight in fight which every strong man rejoices in, and the repressed power which charms womankind are all in evidence. It is true that the dramatic instincts assert themselves in the hero quite as broadly as in the villain, but the audience love to know a hero who is one of themselves. When he threatens to break the villain's jaw at a critical moment and with a strong epithet, tho it sounds crude to read about, the situation demands the gesture, showing the native outcrop of an honest stratum of character.

The company is a very fine one, one of the finest at any theatre in Toronto. Gillette himself in Brachard is powerful in the almost immitable way that Sir Henry Irving was powerful in the "Tyrone Power" and similar melodramatic parts. The perfect reading of a character rough in origin and striving after the refinement imposed by a great love, that too honest to pretend, is a fine piece of work. Arthur Byron acted very carefully, and did not miss a point as the villain Gouvin. The Marquis was played by Marie Walwright after the best traditions of English stage aristocracy. Constance Collier has not a heavy part, except in the second act, but her work is so effective and natural. George Probert as Max is delightful.

The play is beautifully staged, and the ladies' dresses are worth the price of admission to see. The performance was over at 11.15.

At the Alexandra.

More than ordinary praise is greeting this week's production, "The Wizard of the Nile," at the Royal Alexandra. In this highly amusing comic opera of Victor Herbert, the Imperials are again displaying the wonders of their rich cast. The story of the piece deals with ludicrous situations in ancient Egypt, which lends an unusual detail and color to the opera. The music is exceptionally charming, giving splendid opportunities to Miss Agnes Cain Brown, the little prima donna, who has so repeatedly charmed the Royal Alexandra's audiences with her exceptional renditions and marvelous voice. Her interpretation of the role of Cleopatra fully justifies the great laudations which have gone forth in her favor from Toronto's music-lovers, as in every way it shows the finished artist and great singer. Miss Carrie Reynolds, who has won

such a following in this city, is most pleasing in the role of Ahydos. The cast of the Imperials merit great applause throughout. "The Wizard of the Nile" is clearly an exceptional opera, most cleverly produced, to which the Imperials have given many of their best efforts.

LIBERALS OPEN FIRE OUT IN CENTRE YORK

Aylesworth Predicts Liberal-Gain in Ontario—East Toronto Council Are Firm.

RICHMOND HILL, Oct. 12.—(Special.)—Centre York Liberals held the first public meeting of the present campaign in this fearfully and wonderfully made riding, by a big gathering in the Masonic Hall here to-night, at which the candidate, Dr. P. D. McLean and Hon. A. B. Aylesworth were the chief speakers.

The chair was occupied by T. H. Trench, and many ladies graced the gathering with their presence. There was a big sprinkling of Wallace sympathizers present, and the gathering, while not enthusiastic, was respectful.

Dr. McLean spoke briefly, and claimed among other things that the Laurier Government had revolutionized the export storage business, resulting in great gain to the farming community, and increasing the exports during the last twelve years \$60,000,000. The doctor was well received.

Hon. A. B. Aylesworth plunged into an exhaustive defence of the Trading Company, following which he declared that the Grand Trunk Pacific was a fitting climax to the life work of a Sir John Laurier, which must be allowed to complete. "On their record on the great transcontinental line," he said, "they have the confidence of the people of Ontario, and summing up the whole political situation declared that the government would make appreciable gains, and that in Ontario we will make big gains, restoring to a more equitable basis the standing between the two parties in the province," said he.

WEST TORONTO.

Big Budget of Live News From the

WEST TORONTO, Oct. 12.—Six months in the central prison was the sentence handed out this morning by Police Magistrate Ellis to Donald McEwen, the Lambton Golf Club bell boy, who was accused of stealing at the club house, and sentenced to six months in the central prison, and a fine of \$100, for the same offence.

A young man, 15 years old, from the city in a bad temper, caused by imbibing stimulants, too freely, Ed. Bares, 173 Maria-street, proceeded to kick up a dust at the house, and commenced by bounding his defenceless wife, who is just recovering from a critical illness. Not satisfied with what harm he had already done, Barnes set out to burn his house down, but the police were notified in time and the fire was taken to the look-up. Barnes was taken to Police Magistrate Ellis to-morrow morning.

Richard Nancarrow of Conduit-street, who was up on a charge of cutting sods from Humboldt-avenue, was allowed to go on suspended sentence.

The case against Raymond Baby, who is accused of assaulting Mrs. McTaggart, was adjourned till Tuesday, Oct. 20.

A Hopeful Sign.

A hopeful sign of the times in West Toronto is the great amount of building that is going on at present. The two largest structures now in process of construction are the Carnegie Library, corner Ann and Dundas, and the new public school on Elizabeth-street. The former structure will cost \$15,000, and the latter \$20,000. G. H. Webb, solid brick dwelling, 117 Humboldt-avenue, \$2,000; H. H. Webb, solid brick dwelling, 60 East Dundas-street, \$6,000; A. McGill, solid brick dwelling, 135 Eglinton-street, \$2,800; Harry Smith, solid brick dwelling, 452 Pacific-avenue, \$3,500; Bentley and Bentley, solid brick dwelling, 117 Louis-street, \$2,200.

WOODBRIDGE.

WOODBRIDGE, Oct. 12.—Each recurring season but adds to the interest and interest with which a number of Torontonians and people for miles around this village look forward to the Woodbridge Fair. Last year the fair was a wonderful success, but this year everything points to the fact that it will surpass even its best previous record.

C. L. Wallace, the vigorous young secretary, who succeeds his uncle, the late T. P. Wallace, is enthusiastic over the outlook, as also are the directors. Big entries make a successful show, and with fine weather on Wednesday and Thursday (particularly Thursday), the old town will be over-run with visitors.

The directors have been fortunate in making special train arrangements as follows: On Thursday, Oct. 15, a special will leave the Union Station on the noon train for Woodbridge, and returning will leave Woodbridge at 5.30, 7.30 and 10.30 p.m., with ample accommodation.

Zam-Buk Boxes Free!!

Every Home Needs This Great Discovery!

ANCIENT Greece will always be remembered for the fine types of manhood supplied by the heroes of her battlefields and the athletes of her arenas, but still more will these heroes and athletes themselves be remembered for the custom they bequeathed to later ages of healing sore and injured places on their bodies by the external application of some secret balm or salve. The Greek charioteers did not emerge from their mad races without some severe bruise or gaping wound; and to anoint each injury carefully with their favorite balm was an indispensable part of the day's program. Our own instinct tells us to rub a part that hurts, and in Zam-Buk the ideal substance to apply to an injured or diseased surface is found at last. It is a well-known fact that ordinary ointments, creams, salves, liniments, and embrocations have hitherto been imperfect in their action, and frequently contain quantities of rancid animal fat and harmful mineral products.

Zam-Buk is free from any of these serious objections. It is made exclusively from herbal extracts and essences. Just as nature prompts you to rub a place which hurts, so in Zam-Buk she provides you with a herbal balm with which to rub, or to apply to a cut, bruise, injury, or diseased surface. Zam-Buk is so refined, that, unlike other ointments, it can be absorbed by the skin. It is also highly antiseptic, kills disease germs and prevents blood-poisoning, suppuration, and festering. Apply Zam-Buk to a sore, a cut, a scratch, a poisoned wound, a patch of Eczema, and at once the healing process begins. It draws out the inflammation, ends pain and smarting, and heals. Zam-Buk is nothing less than "Applied Nature." The vegetable world was given as man's medicine chest. Zam-Buk (composed purely from valuable herbal essences) is Nature's cure for all skin diseases and injuries. The best test is a personal test. Send in for a free box and let Zam-Buk prove its own case.

Zam-Buk heals sores, eczema, skin eruptions, ulcers, ringworm, itch, barber's rash, blood poisoning, bad leg, salt rheum, abrasions, abscesses, cuts, burns, scalds, and all skin injuries and diseases. Of all stores and drug-gists, at 50 cents, or from Zam-Buk Co., Toronto, for price, 3 boxes for \$1.25.

"CITIZEN" KELLY IS DEAD OPERATED SUNDAY-BUSES

Police Stopped Him and Damage Suits Followed—Agitation Helped Cars to Come.

of the other members of the Kelly family were heard, but after Inspector Archibald addressed the jury 45 minutes, the jury gave him the verdict.

Mr. Kelly leaves seven children: Hugh, the eldest son; Mrs. Felix Moore, Buffalo; Daniel Kelly, Buffalo; William Kelly, Toronto; Joseph Kelly, St. Catharines; and Pauline and Margaret Kelly of Toronto.

Henry W. Smith, secretary-treasurer of the Freyling Cork Company, Limited, who was connected with the firm for fifteen years and highly esteemed in business circles, died on Sunday morning at 6.30 following an operation for appendicitis.

Mr. Smith was taken ill suddenly on Tuesday evening, and was operated upon on Friday morning. He had been a sufferer for some years.

The members of the family, who survive, are the widow, Harry L. Smith of Denbigh-street, Port Hope; Samuel Smith of Toronto; Mrs. Samuel Staughton of St. Walton-street; a sister, Miss Margaret Staughton, deceased; and an Anglican and staunch Conservative.

The funeral will take place this afternoon from the family residence, 135 Langley-avenue, Riverdale, to St. John's Cemetery, Norway at 2 p.m.

At London—John A. Baskerville, president of the local Horticultural Society.

HIGH-GRADE REFINED OILS

LUBRICATING OILS AND GREASES

Time works many changes and the sentiment as to whether or not street cars should run on Sunday isn't what it used to be.

But many Torontonians will recall with feelings of gratitude the part played by "Citizen" William Kelly in the exciting contest which was waged before Sunday cars were legalized, and of which old timers are reminded by the death yesterday of Mr. Kelly, the dealer yesterday morning.

From Friday until 7.40 yesterday morning he had been unconscious, after an illness of a year.

He was about 70 years of age, and was born in Belfast, Ireland. Married at 17, he came to Toronto at 20 and engaged in the cattle trade, and was one of the first to open a butcher stall on St. Lawrence Market. He is also years ago operated a limekiln at King and Parliament-streets, and in the seventies purchased the Mansion House on the site of the Palmer House, the opening of which was attended by

SILVER WIRE SAVES LEG.

NEW YORK, Oct. 12.—After three delicate surgical operations, the first two of which failed to give satisfactory results, physicians in Harlem Hospital, by fastening broken bones together with a silver wire. This is the third formed in the institution within the last few months.

Mrs. Ellen Carter, 80 years, a domestic in the home of Hon. Wallace Neale, 25 St. Vincent-street, was found in her room unconscious. The room was filled with coal gas thru the failure to work of a patient device.

The first case to come up under the new bill, which provides that the man who registers at a hotel and then slips away, owing to a party, is guilty of fraud, was heard in police court yesterday morning, when John Chambers, arrested in Hamilton, was convicted of this offence with regard to a bill \$33 at the Daily House. The bill had since been paid and Chambers was remanded for sentence.

MAIN GOOD ANIMALS AT MARKHAM FAIR

Markham Fair directors claim to have the best county fair in Canada. To a visitor last Friday these claims seemed amply justified.

The usual crowd of midway money extrators were tented around the ring, and succeeded in inducing many a fledgling to part with his coin.

Consequently the next year they made their first purchase in the pure bred stock line. It was a Hereford bull, which was soon followed by the purchase of a cow.

Our Interest and Yours

Whatever furs are most fashionable will be found here in ample variety and at prices that keep business brisk.

We mean to maintain a useful activity here at all times. We never were good at charging too much, and we distinctly avoid any and all furs we cannot thoroughly recommend.

Our interests and yours are completely mutual. We do the best we possibly can by each and every customer.

Sitka Fox, one of the furs for this season, is rarely good and stylish looking. It is from the furthest north of our own Canada. The skin is similar to black lynx, but has long pointed hairs scattered through it which give it a positive individuality.

ROBINETTE STRAIGHT IS THEIR BEST BET

Only Question of Majority, Say His Leading Men in Centre Toronto.

W. J. O'Reilly, secretary of the Toronto Reform Association, and T. N. Phalen of the Centre Toronto Liberal committee, compared notes yesterday afternoon in the progress of the Robinette-Bristol contest. The information they exchanged strengthened each other in the confidence that the contest in Centre Toronto has ceased to be in doubt, and that the proportions of the Robinette majority is the only question for Oct. 23 to reveal. These conclusions they based on their own observations in connection with the best information available from such reliable and well-informed residents of the division as Thomas Vance and the fruit market, J. Mogan, who reported on the Jarvis and Sherbourne-street district; Jacob Stein, the well-known Queen-street merchant, and others who are giving Mr. Robinette earnest support.

Said W. J. O'Reilly: "A good place to learn how the people feel at election times is to listen to the political talk in the barber shops. When I was in Tom Hambley's well-known shop having a shave Tom was laying down the facts to those present that he was for Robinette every day in the week, and that most of his customers were traveling in the same wagon. In making a round of the Centre Toronto committee-rooms, it is seen immediately that the men in charge for the Liberals are men well and favorably known and respected in their respective districts, and that they are working with the enthusiasm and a genuine zeal which might be expected in the case of a candidate such as the one they are fortunate enough to have for their standard-bearer in Centre Toronto.

Dropping in at the committee-room at 224 West Queen-street, R. J. Stevenson, ex-vice-president of Typographical Union, No. 91, was found in charge, with Ernest Webb, another member of the same trades union, running the information counter. To say that they spoke with confidence of the outcome of the contest would be to put the matter very mildly, for they asserted positively that the reports reaching them were conclusive of the labor men of the district being almost solid for Robinette.

W. W. Burton, at 167 Spadina-avenue, agent for the Bissen hand instruments, said: "I am more than ever a devotee of Robinette winning the seat."

M. H. Duppy, the well-known commercial traveler, seen at 359 Yonge-street, said: "Tom is a sure winner this time."

B. Killaly, a graduate of Toronto University, is looking after the Liberal organization at 223 East Queen-street. Mr. Killaly finds the progress of the campaign full of encouragement for the success of his party in the centre division.

Andrew Herson, so well known in athletic circles, states that he never knew of a candidate so personally popular as Mr. Robinette is proving to be. Yesterday Mr. Robinette addressed made a canvass of three factories and voters on East Queen-street, in addition to speaking at an enthusiastic rally at the People's Theatre at night.

VALUES IN FIFTH WARD SHOW STEADY ADVANCE

Total Assessment Increase is \$2,657,664—Population Also Gains.

The assessment of the Fifth Ward, as shown in a statement issued by Assessment Commissioner Forman, has increased by \$2,657,664. It is made up as follows:

Land	958,702
Buildings	1,467,382
Business assessment	161,440
Income	69,440
Total	\$2,657,664

The increase in land values has been general, College-street leading with \$250,000; Bloor-street next with \$90,000, and Beatrice-street following with \$70,000. Grace-street, Markham-street and Palmerston-avenue each has an increase of \$60,000.

Palmerston-avenue heads the list for building increases with \$110,000; Grace-street shows \$99,000; College-street \$96,000, and Shaw-street \$84,000.

There have been 579 houses completed in the ward since the assessment for 1908 was made.

The increase in business assessment is explained by the increase in land and buildings. Exemptions show an increase of \$288,854; the principal items being: St. Mary Magdalene Church, \$44,000; Dewson-street School, \$25,000; Palmerston-avenue School, \$10,000; Essex-street School, \$29,000. The balance of this increase is made up by the increased value of land.

Population shows an increase of 2974, a percentage increase of 5.9-10 per cent. Last year the percentage increase was 13.8-100 per cent.

Danger From City Wires. That Bell Telephone linemen are in danger from city fire alarm wires which may become crosses with electric light or power wires is stated in a letter to the city by J.K. Dunstan, manager of the company.

Mr. Dunstan says that while the company bear the cost of any injuries sustained by a lineman, A. E. David, it does not intend to do so in any future instances. He says that the secretary of the fire department has ignored a number of requests for removal of fire alarm wires attached to the company's poles.

Revenue From Railway. The street railway receipts for September were \$358,437.85, the city receiving \$28,515.03 as its share. In September, 1907, receipts were \$337,882, the city getting \$27,090.54.

Commissioner Thompson says that many foreigners are going home and that the city should not be up against the unemployed problem so hard this winter.

K. L. Aitken, the city's electrical engineer, says that the city will be ready to use electricity at the rate of 100,000 kilowatts as soon as the hydro-electric commission supplies the power.

The city solicitor's quarterly report shows that the city is now before the nine superior and county court cases during the past three months, winning them all.

The civic parks committee and the Exhibition Association will consider Commissioner Wilson's exhibition improvement scheme at a joint meeting next Thursday.

LOST MONEY IN BETS.

Defence of Walter Dixon, Who is on Trial for Theft.

Bert McInnis, once a laborer in Owen Sound, now a gentleman of leisure, has achieved greatness in that he did that thing which so many thousands have tried to do and failed—beat the races—and he only started in May last at the Woodbine.

Yesterday he was connected with the crown in the prosecution in the sessions of Walter Dixon for theft of \$675. Dixon was an agent for a bookmaker named Frank Cull. On July 14 last, McInnis went into Cull's place with the \$675, as he and Cull had been talking of buying a racehorse, and \$400 of this amount he went into a "pony," and other \$275 going in bets. Cull did not appear, so the money was left with Dixon, together with a slip containing a list of names of horses on which the \$275 was to be placed.

Shortly afterwards Cull met McInnis, but Dixon was not to be found. Dixon admitted the money, and presented in court a list of horses, with sums varying from \$50 to \$100 were all "dead" on the day, and these were the money went—according to Dixon, McInnis did not remember what he had told Dixon to place the money on.

The case goes on to-day. The case against Richard Ford fell flat in the sessions yesterday morning for lack of evidence, and W. B. Chester instructed the jury to bring in a verdict of not guilty. He had been charged with the theft of \$1000 in money orders from the Canadian Express Company, and spent a week in jail before he could secure bail. He had been a bookkeeper for White & Co., commission merchants, to which place a book of "orders" had been sent. Ford was accused of utilizing them, but the express people could not identify him.

The bills were brought in by the grand jury against Albert J. Love, on a charge of stealing letters; against Walter Parker, for beating W. B. Kaufman; and against Mary Sheafing, for stealing from the T. Eaton Company two vests and two pairs of gloves.

BALLOON ENDURANCE CONTEST. BERLIN, Oct. 12.—Forty balloons got away this afternoon without incident in an endurance contest. There was one British entrant, the remainder being German.

The balloons streamed in a long line northwards. The pilots have agreed to descend if the North Sea is sighted.

COUNCIL MEETING BROKE UP. LONDON, Oct. 12.—(C.A.P.)—The question of giving a three-penny rate for the Collingwood, Killyn, Belmullet Railway, in connection with the suggested Blackrod Bay scheme, and the Mayo Co. Council in great confusion.

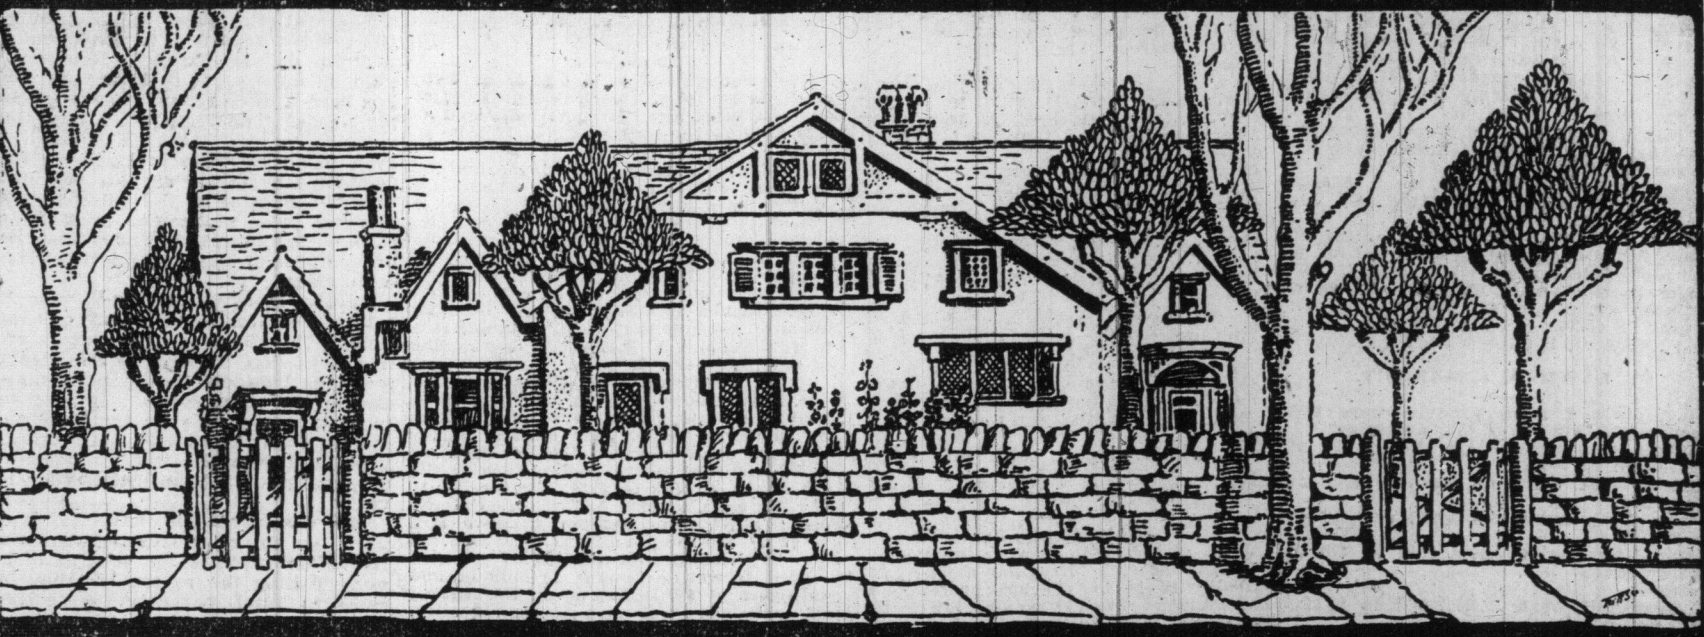

The Way of the Transgressor. For the first time since Michael O'Callaghan, Arthur Hobbs, 20 years, a clerk in a downtown shop, was arrested, arraigned in police court and sentenced to thirty days in jail all in the space of 30 minutes yesterday morning.

Unsurpassed Values in Home Furnishings

In addition to buying unusually heavy stocks in anticipation of the New Store, we are continually being offered special lots of goods at prices below the market for quick money. As a result we are in a position to do surprising things just now in Home Furnishings of every sort, and the store gives evidence of exceptionally heavy business upstairs and down. Many of the goods marked special are very suitable for Christmas gifts and can be bought to unusual advantage this month. Strange if with all the good makers back of us, and enormous stocks of new goods, we couldn't do wonderful things. This is the best time of the whole year to make the home comfortable and attractive, and these are the best values.

CURTAINS GO EAST. GO WEST—HOME'S BEST CARPETS

Buying Time For Wall Papers.

No scheme of attractive housefurnishing is properly complete without careful consideration of the wall coverings, and no room can be really inviting if the wall paper is faded, soiled or inharmonious. We give you a chance to get tasteful decorations this week at surprisingly little expense, based on careful preparation long in advance. These lots are all special and the styles all new:

Parlor and Dining-room Paper.
The latest designs and color effects, in blues, greys, greens, browns and reds, silk effects, two-tone blends and tapestries; imported lines. Regular—25c, 50c, 75c, \$1.00, \$1.50, \$2.50.

WEDNESDAY SPECIAL.
1,500 rolls Parlor and Dining-room Papers, in greens, reds, blues, fawns and other blendings; clean-up offer; imported lines. Regular to 50c. Wednesday—27c.

Furniture Prices That Mean Business!

This store has become the big factor in Canadian Furniture markets, and the vast regular trade that comes to us attracts also the greatest bargains. We've been fortunate in picking up a number of special lots for October selling—all of them up to the high standard of quality we demand and identical in finish and design to much more expensive goods. These lines make their direct appeal to everyone who appreciates well-built, tasteful Furniture, and anyone buying now for Christmas can figure on a saving of a third of their money:

- Sideboards, beautiful designs, in golden quartered oak. Regular \$34.00, for—\$25.00.
- Sideboards, golden quartered oak, massive designs. Regular \$43.00, for—\$32.00.

Vast Quantities of China At Special October Prices

Enough special goods to last through a whole month of special selling, and enough new things every day to maintain the bargain interest. By virtue of concessions granted by manufacturers we are giving surprising values. Every piece of china in this sale comes from reputable makers, and has been examined and selected with the same expert care as our regular stock. Every dollar you save is safely saved. Nothing has been made cheap for the sake of selling cheap, but care has been taken to provide such genuine bargains as will advertise the new Basement in thousands of homes. Fast as special lots are sold others take their places. These go on sale to-morrow:

CAN'T BUY NEW SITE TILL PRESENT IS SOLD

Legal Obstacle Now Placed in the Way of Technical School Proposal.

Chairman Dr. Ogden of the board of education came in for some criticism at the hands of Trustee C. A. B. Brown in the finance committee yesterday, for having called a select few of trustees into special conference with Solicitor Frank Hodgins, K.C., regarding the legality of proceeding at once with the purchase of the Borden-street site for technical school purposes.

Mr. Brown said he would have known that such a meeting had not been held if the newspapers had not made reference to a letter from Mr. Hodgins purporting to have been written as a result of this conference. He wanted to be assured that the chairman of the board would not authorize the payment of any funds towards the project without all the trustees being apprised, because he, for one, was going to oppose the purchase, which he believed to be illegal.

At the special meeting which he had referred to, neither the chairman of the finance committee nor the chairman of the property committee, as well as himself, who were all opposed to the Borden-street property, had been asked to attend. He understood, however, that the solicitor had advised that it would be illegal to purchase a second site before the first one (Bloor-street) had been sold, as the city cannot grant land for the purchase of one site and that purchase had already been made.

Secretary Wilkinson assured the committee that no money could be paid over for this purpose without the sanction of the finance committee. The committee endorsed the manager's recommendation that a medical health inspector be appointed for the schools, but sent the clause, stipulating a salary of \$500 a year, on to the board without recommendation.

Some reference was made to the letter in yesterday's World from Trustee Dr. John Hunter objecting to the creation of such an office. Mr. Brown said that Dr. Hunter had personally asked for his support as an appointee to the position, and Mr. Kawlinson remarked to the same effect, adding that Dr. Hunter had told him that he would work inside of school hours and out, giving a great deal of his time and systematic care to the school children's health, if appointed.

The committee agreed to the purchase of the old Yorkville waterworks site, and a plot adjoining for a new public school property in the north end.

NEW MEDICAL OFFICER. Lt.-Col. J. A. Grant Succeeds Late Col. Nattress.

"Strike" at the Jail. A large gang of prisoners at the jail struck work and the guards were compelled to march them immediately into the jail. The men were leveling ground on the east bank of the Don and, as the ground was soft, wheelbarrows were used to transport the earth. One rebelled, the uprising spread.
