CHEAPER CABLES IMPERIAL NEED

Freer Communication Between
Mother Land and Colonies an
Urgent Reform, Says
Earl Crewe.

(Canadian Associated Press Cable.)
LONDON, June 7.—At the Imperial
Press Conference meeting to-day at
the foreign office, Earl Crewe took the
chair. In his opinion the empire would
not be completely united until the time
comes when the western provinces of
Canada, say, are in a position to learn
and understand what are the problems
facing the India Government. The
original in Australia was in the po-
sition. If he could, to learn all about
the development of our great protec-
torate states.

It was extremely difficult now for
every speech to be reported all over
the empire. Only last week his office
suffered from a difficulty of this kind.
Col. Seely made a statement in the
house. There was nothing in the
speech to cause uneasiness, but the
form in which the speech was cabled
to South Africa caused very real un-
easiness.

Towards the question of cable de-
velopment the attitude of the govern-
ment is of a thoroughly sympathetic char-
acter, and we shall look forward to
your business discussions in the hope
to find a solution of the question," said
Earl Crewe. The great development
of wireless telegraphy they must also
bear in mind.

What the empire needed above all
other things was easy communication
between the mother country and the
dominions over the seas. Intercom-
munication between the dominions was
every bit as important.

Necessity of Accuracy.

Referring to the accuracy in cabling
reports of speeches, Lord Crewe said it
was very important when reporting
speeches of ministers, which almost
entirely consisted of qualification; it
took almost immense genius not to
avoid being misleading in sending re-
ports of this kind by cable, and when
there was added to this the other fact
that the man at the end of the wire
might represent someone with purposes
on one side or other, which may be
used to garble the message, it stood to
reason that anything like perfect ac-
curacy was exceedingly hard to obtain.

They were constantly receiving sug-
gestions in regard to wireless develop-
ment, the latest being from the
Telegraph to Western Pacific, Sir Sandford
Pleming of Ottawa, and Henniker
Heaton. Lord Crewe referred to as the
two evangelists of intercommunication.

Stanley Reed of India moved the
following resolution: "That this confer-
ence regards it as
of paramount importance that tele-
graphic facilities with the various
parts of the empire be improved, so as
to ensure fuller inter-
communication than exists at present,
and appoints a committee to report to
the conference at its recess on June 25,
as to the best means to attain
this object, the committee to con-
sist of Messrs. Thomas Ward, Tem-
perley, Fenwick, Coker, Brierley, Row-
land, Phillips, Stowings, and
Crosbie-Roberts."

Small Resolutions of Code.

consider the whole question from the
point of view of business. They would

SOURCE OF HOSTILE CRITICISM

Hon. Dr. Pyne Places It With "Certain
Electric Corporations."

MAKEDALE, June 7.—(Special.)—
Hon. I. B. Luce was tendered a com-
plimentary banquet here to-night in
recognition of his recent election to the
provincial cabinet. Hon. R. A.
Pyne, minister of education, came from
Toronto to represent the government.
Referring to some published criticism
against the contract for school books,
he said:

"There are people who say that the
contract tender should not be al-
lowed to put his business imprint on
the books. Now, it is not only the
right of the successful tenderer to do
this but it is his duty to do so."

"Where does this criticism origi-
nate? Certain electric corporations
have a crow to pick with the Ontario
government, and they are endeavoring
to stir up the retailers of the pro-
vince by means of circulars containing
very ridiculous and untrue state-
ments. The men who are at the back of this
have no financial interest in it, and
are endeavoring to stir the retailers
of the province by means of their
circulars out of the fire."

EXPLOSION INJURES 500

Lightning Hits Magazine and Crowd
at Depot Is Mowed Down.

LONDON, June 7.—A despatch re-
ceived here from Cracow in Austrian
Poland, says that 500 persons were
wounded by the explosion of an army
magazine there Saturday night.
Three soldiers were killed, houses
were wrecked and hundreds of other
houses damaged, and many of the
wounded are seriously hurt.

The magazine, which was situated
near the railroad station, was struck
by lightning and exploded.
A thousand pounds of powder
went off and 1500 projectiles were heaved
among a big crowd of people
who had assembled at the station
awaiting a train.

DROOKES FARM UP YONGE ST. IS SOLD

Barrister W. M. Boulton Gets
150 Acres for \$300,000—
Rosedale Golf Club Ac-
quires 160 Acres
in Don Valley.

The Drookes farm, six miles up
Yonge-street, lot 9, in concession 1,
east of Yonge, and the one immedi-
ately south of York Mills hotel, has
been sold by the estate to W. M.
Boulton, barrister, for about \$300,000
for 150 acres. The rear 50 acres are
still held by the family, who have owned
this 200 acres for many years.

A mile of the Don valley runs thru
the property and has been the haunt
of landscape artists for many a day.
The sale of John Muirhead's 42 acres
in the second concession, east of Yonge,
and further down the valley, to Jos.
Kilgour was completed yesterday.

The Rosedale Golf Club has acquired
about 160 acres in the same valley for
its new link lying between the
Brookes and Muirhead farms. The
properties thus taken over are part of
the Firstbrook, Robin & McKee lots.
The club will erect a fine club house on
Yonge-street.

The North Toronto Golf Club has
rented land from Mr. John Anderson
and adjacent properties for links on
the west side of Yonge-street and in
rear of the Ansley residence. Men are
at work laying out the grounds and
holes and tennis courts.

Property Going Fast.
"I have had property in North Tor-
onto for sale for a great many years,
but I sold more of it during the last
twenty-five days than during all the
previous twenty-five years."

Thus spoke Nicholas Garland, of the
New York Tailoring establishment yester-
day, when discussing with The
World the recent sale of a large tract of
property in the northern suburb which
claiming from investors at the present
time.

"Things must be stirring up there,
I have received four calls offers this
morning by telephone for a piece of
property. Quite a few, I think, which I
sold recently have been turned over by
purchasers at good profits. One young
lady who purchased a hundred feet
from Glen Grove last fall at \$12
per foot, was offered \$20 a foot on Sat-
urday, but she refused the offer. Sales
are being put thru every day now at
that price."

Concerning the agitation for a single
fare into the city, Mr. Garland said one
fare would certainly stimulate the
growth of several prominent real estate
firms are shortly to place new sub-
divisions on the market. The Bull es-
tate, of the Dominion, which was
sold a few days ago to a syndicate
by Golding & Hamilton agents for \$104,
000, will be divided into 50-foot lots
and the corporation has been building
restrictions. The place consists of 52
acres, lying north of Davenport-road
and south of Blandford-avenue. The city
council have agreed to purchase the
properties for park purposes, but the syndicate bid higher.
It is expected that section in which the
properties lie will be annexed by the
city within the next few months. The
proposal to annex has already passed
the council and has only to secure the
approval of the Ontario Municipal
Board.

Union Trust Sales.
The Union Trust Co. has been dis-
posing of considerable property in North
Toronto, some of its recent sales being
the following: 200 feet near the North
Toronto Golf Club grounds to Herbert H.
Leake, who will erect a handsome resi-
dence at once; 200 feet to Thomas J.
Greene of the education department for
a residential site; a lot to R. K. Burgess

HAMILTON IS TRUE TO "HYDRO" REJECTS CATARACT CONTRACT

GET BUSY ON THE HYDRO
POWER SCHEME

Let there be no holding back or delay in pushing on the hydro-
electric power scheme.

It is the greatest undertaking that this great province of Ontario
ever had in hand. It is being attacked in London, in Ontario, in To-
ronto, by the electric ring, by financial institutions, and by the most
dishonorable newspaper outfit in this province that ever undertook to be-
tray the people who support them. In London, in Brantford, in Hamil-
ton, in Toronto, these papers have done their best to discredit the scheme.
And yet the people have refused to listen to their arguments and their
misrepresentations.

An attempt is under way to try and discredit the municipal flota-
tions that are about to be put out to construct the local distribution
plants. Toronto's flotation for this purpose has been slated in London.
But it will not succeed. Sir James Whitney has had a rude awakening
as to the friendship of certain long-proffered friends of his, and it is up
to the government to put these men and their organs and agents out of
business once and for all.

Rush on the work to completion.

PACKERS PLAN BIG CAMPAIGN

"Meat Trust" Seeking Options
On All the Existing
Plants in North
America.

NEW YORK, June 7.—(Special.)—A
recent announcement from Boston, im-
plying that the bond issue of \$30,000,000,
floated by Armour & Co. of Chicago,
might be for the purpose of extending
their packing interests in South Amer-
ica, is confirmed by cables from Buenos
Ayres.

These cables report that American
packers, headed by the Chicago beef
trust, have invaded the field in the
Argentine republic by the purchase of
both the Ensenada and Blanca packing
establishments, and are after three
months of operation, have secured the
most advantageous locations in this
country for handling chilled beef.

Besides Swift & Co., Morris & Co.
and Swazehild & Sulzberger are seek-
ing to have gained a foothold in the new
South American territory.

So far the English market has been
the only one in which the Argentine
meat products have been offered, but
with the rising price of meat here and
the tendency of the supply of domestic
beef to diminish rather than increase
proportionately to the demand, it is
looked upon as a logical development
that Argentina should eventually sup-
ply this market.

It is said that the combination now
forming is being directed and financed
from Chicago. Once organized, this
trust would enable the Chicago packers
to control the cattle and beef trade in
Argentina, Great Britain and the United
States, and also meat freights.

The combination is now seeking to
obtain options on all existing plants in
the United States and Canada, thus
shutting out the possibility of competi-
tion for some years. They have agents
thrust the country negotiating for op-
tions on all North American plants.

PLEASES THE PREMIER.
When The World informed Sir James
Whitney last night of the result of the
election, he expressed himself as en-
tirely satisfied.

"The result is pleasing to me, both
as a private citizen and from a party
standpoint," said the premier.

BULLETS WHIZZ
ROUND RACING
BALLOON

INDIANAPOLIS, IND.,
June 7.—Some of the balloon-
ists who set out on Saturday's
endurance contest report exciting
experiences.

The balloon New York was
passing over Alabama on Satur-
day, when a man with a rifle cried,
"Come down here, you, or I'll
bring you down," and fired three
times, one bullet piercing the basket.

The Indianapolis was forced
to fly more than two miles high
over most of Kentucky, as many
people, not knowing what the
balloon was, repeatedly shot at
it, and bullets whizzed around
the ears of the aeronauts.

Te-Have Board of Control.
The board of control of the hydro-
electric project, which Hamilton first
entered in the municipal voting of January,
1908. The real worth of the govern-
ment project, as contrasted with the
tricky, uncertain and, so far as the
general consumer was concerned, the
unprofitable contract offered by the
Cataract Co., was impressed upon the
voters by Hon. J. S. Hendrie, ex-
Mayor Stewart, M.P., Allan Studholme,
M.L.A., and others. A series of public
meetings during the past fortnight,
while The Sunday World's bold out-
line of the situation undoubtedly car-
ried great weight.

Straight Tip This Time.
This is the third time that the people
of Hamilton have declared by large
majority that they are in favor of
entering the government's power
scheme, and also two alleged hydro-
councils have succumbed to the potent
influence of the Sunday World. A coun-
cil is not thought that the council will
have the temerity to balk the will of
the people longer.

The victory to-day was the more
notable because the company had a
complete organization, and all kinds of
tricks and automobils were used to
some of the wards, too, the organiza-
tions of both political parties were
used to help the company out.

The Cataract contract, which the peo-
ple voted upon to-day was much beat
than the one railroaded thru the
council last July, and which was set
aside by the people.

The new contract offered to give
Hamilton power for civic purposes at
a rate of 10 per cent. less than the
present rate, and a large share of the credit
to supply power and light to citizens
at ten per cent. less than charged by
the hydro-electric company, and offered
that the people refused to accept the
contract.

What They Voted On.
Only five hundred and twenty with
long leases were allowed to vote.
Two bylaws were submitted on the
question, one asking the ratepayers if
they approved of a contract with the
Cataract Power Company, and the
other submitted in the form of a pleb-
iscite, the question being asked if
they were in favor of entering into
contract with the hydro-electric com-
pany.

Col. Hendrie told the people of Hamil-
ton that he was making enemies by
taking a stand for the government's
project, but he considered it to be his
duty, and a large share of the credit
for to-day's victory belongs to him.
Of the council only two aldermen,
Wright and Mills, took a prominent
part in the fight to break up the
Cataract's monopoly, and when they
read the returns this evening they felt
amply repaid for their trouble.

The council, although only a plebiscite
was submitted on the question of
hydro-electric power, can enter into a
contract with the commission at once,
and the ratepayers are provided for by the
ratepayers twice before.

How Ward 6 Voted.
The Cataract bylaw had a majority
of 272 votes, but was steps
voted down in the other wards, the
figures being:

	For	Against
Ward 1	267	298
Ward 2	261	182
Ward 3	350	360
Ward 4	244	277
Ward 5	176	218
Ward 6	222	396
Ward 7	243	547
Totals	1903	2073

Majority against Cataract contract
170.

The vote on the hydro-electric plebiscite was:

	For	Against
Ward 1	264	189
Ward 2	185	252
Ward 3	325	229
Ward 4	239	154
Ward 5	252	192
Ward 6	302	204
Totals	2208	1655

Majority for hydro-electric 618. The
bylaw had large majorities in every
ward but two and three.

Te-Have Board of Control.
The bylaw providing for a board of
four members was passed by a majority
of 1569, the figures being 272 against
1243. A bylaw to raise \$30,000 for a
new hospital site was voted down by a
majority of 249, the figures being 100
1742, against 2013.

Some of the county councillors to-
day wanted to know if anything could
be done to prevent the hydro-electric
commission from installing its towers
on the roads of the county. The mat-
ter was referred to the county solicitor.

WINS AN INDIAN PRINCESS FOR
HIS BRIDE.

They sat together in front of the
tepee long after sunset. As the
great orb sank behind the tree-clad
landscape, the shadows gathered until
the moon took form high in the heav-
ens, at first pale and phosphorescent,
then distinctive and bold, bathing the
north with its soft illumination. The
river wound its way to the eastward,
like a great serpent of silver, which
glinted with the trend of each curva-
ture as it progressed thru the forest.
The lakes like mirrors in the dark
green foliage, and looking down into
their depths one could see other moons
and other forests with innumerable
trees standing at strange and uncer-
tain angles.

The tepee was near the shore, and
in front two lovers sat, holding each
other's hands and whispering to each
other. The young man was Thomas
Saville, the white guide of Tenagami,
and the other Lisa Navegami, an In-
dian princess and daughter of Chief
Wapash of Mattagami.

The chief's home was at Napow
Kewag, 20 miles from Port Mat-
tagami. Tommy had come there to
see the father some time before, and
there he was dazzled by the beauty
of this seventeen-year-old maiden.
They came to know each other bet-
ter, and now they sat together as the
great moon smiled down on the north-
ern wilderness.

"Ni wi ni po win!" he asked fer-
vently, which means in English "Will
you be my wife?"

"Sen wi puch. Pa ni ma ni ping,"
she replied. "It is too soon. Not till
summer. And so she passed her
eighteenth birthday and the summer
came."

Three passengers who stepped from
the Cobalt special yesterday attracted
considerable attention. One was Mr.
Saville, one of his fiancée wearing pret-
ty beaded moccasins and the garb of her
tribe, and the other Daniel Brown, a
great Offway boy runner, who may be
faster some day than Longboat.

The bride-to-be looked in wonder-
ment at the great crowd of people, clam-
oring street cars and hurrying traffic
of all descriptions, the marvelously
gowned women and fashionably dress-
ed men, the throngs of people and the
clung closer to her Tommy. Later in the
day the party took a ride around the
city in a taxicab, this Indian girl
from far up the Montreal River, who
had never seen a steam locomotive or
a city, marveled, but sat in silence.

To-day is the day of the wedding.
It will be as private as possible.
Tommy has lived for years among the
Indians; he speaks the language and
lives life in the open places. He has
mating interests that should make him
wealthy, but he and his princess will
find their greatest happiness in the
north, somewhere near the new mines
at Shilling Tree.

MISERER WILL PROTESTED

Cavist Filed by Brother Alleging Undue Influence.

HAMILTON, June 6.—(Special).—A cavist has been filed against the will of Jeremiah Miserer, Jerseyville, who left an estate valued at \$15,000, to Mrs. Beazley. A brother of the deceased has filed a caveat on the grounds of undue influence of the beneficiary. Miserer died last Christmas, and an inquest was held, because it was claimed he had not been properly cared for.

Many of the dogs round up by the dog catchers, have been stolen out of the pound. Jerry Shea, one of the catchers, has been summoned on the charge of ill-treating one of the dogs.

FALLS DEAD ON ROADSIDE

Dunwich Resident's Sudden Call—Relative Also Killed.

ST. THOMAS, June 7.—(Special).—Matthew Wiley, an old resident of Dunwich, was found dead by the roadside a mile south of Dutton, last evening. He had started to walk to a friend's.

Word was received to-day also that Dr. Neil Gunn, brother of the late Dr. Gunn, M.P., who left Dutton a couple of years ago for California, met his death yesterday in his drug store at Pacific Grove. Mrs. Gunn, a sister of Dr. Gunn, who lives at Dutton, was a niece of Mr. Wiley.

Exertion Was Fatal.
KINGSTON, June 7.—(Special).—David Ross of Pittsburgh Township suffered from peritonitis and a doctor told him not to ride his bicycle. Friday he went nine miles on the wheel to have the doctor examine him, and was found on the roadway, and died in Hotel Duce. He was 26 years old and came from Scotland only two months ago.

The 2-year-old son of Philip Kennedy, Baker's Point, was probably fatally scalded by pulling a kettle of boiling water off the stove.

The assembly will meet in Fifth-avenue Presbyterian Church. It will commence on June 15 and close on June 25.

SIX HUNDRED PER CENT.

Splendid Increases in Subscriptions to Laymen's Mission Plan.

Rev. W. T. Stackhouse, Baptist Laymen's Missionary Society secretary, was in the city yesterday. He had just returned from a five weeks' tour of the Maritime Provinces. Speaking to The World of his tour he said: "It demonstrated the deep and increasing interest of the church members in all the evangelical denominations, and the practicality of the new plan. Wherever the local committees had been active the local contributions showing an increase of from fifty to six hundred per cent."

NORTHWEST CROP REPORT

Statements Are Favorable Except as to Fall Wheat.

"With the exception of the fall wheat in Alberta, which was winter-killed, the reports we have received of the Northwest crops have been very good," said D. R. Wilkie, general manager of the Imperial Bank, yesterday.

"We have reports in every day or so, and while we do not look for anything out of the way, you may say the indications are for a very fair crop."

Asked about the prospects along the line of the G. T. P., he replied that he could not say definitely, but judging from the reports received from either side the line it ought to be fairly good.

Diver's Perilous Plight

The diver employed in making pipe connections under water at the new western gap for the Consumers' Gas Company, had a narrow escape from death yesterday when the crew of Waddell Brothers' tug caught the life preserver when he was beneath the surface. Communication between the diver and the men above was cut off for some time, but he was located and pulled to the surface.

do what they could to assist the committee by providing them with information.

Sir Hugh Graham, Montreal, believed in the agitation for state-owned cables, and proposed the organization of a permanent commission to enquire into the subject.

Postmaster-General Buxton assured the delegates of the sympathy of the government, which, he said, would try to co-operate. He thought the cable companies would reduce their rates if assured of a larger volume of business.

By the aid of coding the cost of cablegrams had often been reduced to not merely a penny per word, but to a farthing. That system, however, was not possible with regard to the press and therefore it seemed expedient and right that special rates should be granted to newspapers in order to place them on an equality with the business man.

(Applause.) Some companies had indeed recognized this by granting a specially reduced rate for the press messages.

Canada and the All-Red.

P. D. Ross (Ottawa) moved an amendment advocating an all-red cable across Canada. Canada was almost unanimous in favor of bringing in the state to improve the cable service with Britain. He believed the Canadian Government had information to the effect that with a state cable the cost of commercial messages could be reduced without loss to the service.

Asst. Chalmers said the problem they had to consider that day was one of the greatest possible importance to the development of the empire. It needed co-operation of the nations' governments and cable companies. (Applause.)

Crosbie-Roles of India, Tempierley Penwick and Ross spoke in favor of cheaper rates.

If they could get cheaper rates of communication, the all-red cable companies, good and well, but if they did not they must pay their own cables, and money would be forthcoming for that purpose.

Sir Hugh Graham said the only basis for an improved service was cheaper rates. If they could get cheaper rates of communication, the all-red cable companies, good and well, but if they did not they must pay their own cables, and money would be forthcoming for that purpose.

Mr. Reed's motion was then carried unanimously. It was the duty of the committee of Sir H. Graham, Hon. W. L. Lawson, Messrs. Fairfax, Brierley, Bell, Phillips, A. Lawson, F. Parks, Banerjee and Blake. Mr. Ross's motion was then allowed to stand over.

The conference adjourned to luncheon at the commons. After luncheon the delegates attended a garden party at Marlborough house, as guests of the prince and princess.

RE-ELECTED.

ORANGEVILLE, June 7.—(Special).—The re-election to-day resulted in the re-election of Reeve Riddell by 84, his nearest opponent being Hewson, on whose proceedings, resulting from a confusion in the handling of ballots in January, Riddell was unseated and a new election ordered.

Chauffeur Remanded.

George Seager, formerly a chauffeur for D. Mann, charged with jailing Fanny White thru furious driving in his employer's car, appeared in police court yesterday morning. Seager pleaded not guilty of the charge and was remanded until June 11.

Public Amusements

At the Grand.

A Man of Honor.

"A Man of Honor," the new play which Mr. Shea and his company presented for the first time at the Grand yesterday, is an especially well-written drama, and is one that is bound to meet with the approval of all intelligent theatregoers. The two large audiences present demonstrated the approval by liberal applause, necessitating the removal of the popular actor before the curtain at the end of the second act to acknowledge his thanks for the kindly manner in which the play had been received.

The three acts of the drama are laid in the house of Judge Kingsley, and the setting provided was a magnificent one. The property details were accurate and the furniture equipment was keeping with the general surroundings.

Mr. Shea as Judge Amos Kingsley gave a strikingly effective characterization of the role and in the second act, when his son confessed, demonstrated his wonderful ability as an artist, the closing scene being naturally powerful.

The usual Wednesday and Saturday matinees will be given.

Alice Lloyd.

This week's attraction at Shea's Theatre is one of the best that have ever been offered to the patrons of the house. The headline, Miss Alice Lloyd, is an attractive English comedian. She keeps the audience in constant laughter and wins rounds of applause by her many excellent songs and good dances. Miss Lloyd has won an international reputation as a singer and dancer. Raymond and Company in "Knights of Old" also produce an act of considerable merit. They all are the possessors of excellent voices and their selection from grand opera, have seldom been equalled on the vaudeville stage. A troupe of Japanese magicians keep the audience in a state of wonderment during their occupancy of the stage, while the Hess Sisters are dancers and singers of extraordinary ability. Eldora and Company received a great deal of applause for their juggling, while Harry Atkinson gave some splendid imitation of many musical instruments. The McNaughton and his company, who are giving a new picture on the kinetograph.

Fight Pictures at Star.

A large audience viewed the Burns-Johnson fight pictures at the Star yesterday. It was the opinion of the police who had not been invited to the fight, that the fight was quite strong and looked as if he might come back and win. The picture will be shown four times daily for the remainder of the week.

At Scarborough Beach.

The coolness up town did not affect the patrons of Scarborough Beach last night. The hippodrome was sufficient to keep the mingles of the pleasure-seekers off the weather. The new acts were received with every evidence of appreciation. The Dammann Troupe proved to be a remarkably clever group of acrobats, and they were as good as their promise in their new act of acrobatic tumbling. The woman in the troupe is especially clever. Another act which found favor was the wire-walking of Miss Onda. A graceful young woman, whose performance on the silver wire was nothing short of marvelous. The Six Comedy Circus was also well received, and the audience and proved especially acceptable to the children. The show will be given every afternoon and evening.

Outside of the hippodrome there is a room for any amount of entertainment at the beach, the old features being supplemented by a number of new attractions.

Banquet to the Employees of Canada's Leading Seed House.

The traveling office staff and heads of departments of the Wm. Rennie Company, Limited, of this city were entertained on Friday afternoon by the members of the company to a very pleasant automobile trip around the city and to the trial grounds and green houses at Swanton, and were received by the veteran seedman of Canada, Mr. Wm. Rennie, senior, and on returning to the city were banqueted at the commons. After luncheon the delegates attended a garden party at Marlborough house, as guests of the prince and princess.

INSURANCE FIELD

Says an American expert.

Dr. Maxwell H. appointed European to the Equitable Life, has just arrived in the average than in Europe, but even accept the same class as we would take in America we accept them but not here. They bring power, on the more than mere life for \$50 or \$100. A greater percentage of normal rate upon a hundred. In Russia it would be 130. Anything about Russia here is scarcely any assets and noblemen are too poor to worry about live too fast. Several big American ever, and Russia a field, but our system that risks must be selected. Next to Russia in a of mortality, and then France, Germany and order named.

FEATURE FOR BOBBIE KEAN

Steeplechase Easy for Economy—

Good Racing at Montreal.

MONTREAL, June 7.—(Special).—With ideal weather, the card of six races run off on the second day of the spring meeting of the Montreal Club was productive of first-class racing. The opening event brought out the best field of sprinters at the track, and the six furlongs was run in fast time.

The feature event of the afternoon was the race for hunters with gentlemen riders up. In this, Bobbie Kean went to the post the first choice on his last race at Toronto, while there was a heavy play on the locally-owned horse, Stalker. The attendance was larger than on the opening day, due to the finer weather, and then, the card was much more attractive, as there are today, as there were many more newcomers at the course. William Hendrie of Hamilton and Francis Nelson of Toronto, who are to act as stewards at this meeting, were in the stand for the first time, they arriving from Toronto in the morning. The card, since it did not see big fields go to the post, was one of the best that have ever been run off over Blue Bonnets course. The layers of odds got an awful drubbing, starting at the first race and going down the card. The summary follows:

FIRST RACE—Three-year-olds, 4-mile: 1. Tasley, 102 (Goldstein), 4-1, 1-3, out.

2. Chilla, 102 (J. Howard), 2-1, 4-5, out.

ROW AT JEWISH PLAY
Pass Holders Who Came Late Had Substantial Grievance.

The attraction playing at the Gayety theatre was nearly the cause of a small riot outside of the theatre. The show is staged under the title of "The Jewish Heart" and is presented in Yiddish by Max R. Wilner. Of course it appealed to the Hebrew population and they gathered together their wives, sweethearts and friends and hid themselves to the playhouse. That was all right, but they came in bunches and consequently the street was blocked, and it was necessary to send down nearly a dozen of the boys in blue to clear the thoroughfare. In fact, more than 200 were turned away.

Then, there was trouble with the passes. These were good for a quarter of the seats, but when some arrived with them they found that all the 50-cent seats were sold, and that they must take 15-cent ones. There was a blue in the street. The tickets raised a holler that could be heard a block, and the box office man said things back. A couple of aggrieved citizens called on Crown Attorney Corley and down came Acting Inspector Allison. The Hebrews said they bought the tickets. The manager said no, it was the Hebrews who sold their passes to others, and they had to scrounge for seats. The Hebrews said they were the full house in every way. It is one of the little Hebrew plays that have ever been seen in this city.

BROOKES FARM UP YONGE ST. IS SOLD

Continued From Page 1.

On Victoria-avenue, near Yonge, Jas. McCague of Elgin Mills has purchased the residence of Mrs. Hall on Yonge-street at Davisville, with the lot adjoining on north side and a corner lot at Edlington and Yonge was sold to a downtown business man, who will shortly erect a store on the premises.

The business man is now negotiating for a large lot of vacant property at prices considerably in advance of those which prevailed last year.

On Saturday, Neil W. Kenwick of the Dominion Fire Assurance Co. purchased from Mrs. George E. Dunbar her new house, which is situated on a lot 100 x 150 feet on Glenora-avenue, for \$5000.

WHY DR. CHOWN DIDN'T MAKE APPEAL TO KING

Learned That Archbishop of Canterbury Had Not Succeeded in Putting Ban on Racing

PEMBROKE, Ont., June 7.—(Special.)—In an address before the Montreal Methodist Conference this afternoon, the governor-general was criticized for patronizing the Woodbine races, and betting generally came in for condemnation from Rev. Dr. Chown, secretary of the department of temperance and moral reform.

No effort, he said, had been made this year to get a law passed prohibiting betting, because it was realized that it would not have passed, but next session, if the government did not introduce the measure, a private member would.

"It is strange," said Dr. Chown, "that an institution which attracts five years of the week of the United States to Canada, should be countenanced by the governor-general of Canada." He had been inclined to make an appeal to King, but had learned that the Archbishop of Canterbury had failed in an effort to have his majesty withdraw the King's plate in the British races.

Regret was expressed that the Dominion cabinet could not be aroused to the point of moral enthusiasm to prohibit flagrant adultery and that the punishment for the white slave traffic was not more severe. Instead of getting a maximum sentence of five years for the offence, Dr. Chown thought a man should be hanged, as it was the worst crime on the calendar.

Abolition of the Carleton.
Dr. Chown was very optimistic in referring to the growth of the temperance sentiment in Canada, and to the prohibition of liquor from military camps. The militia council had been camped. The militia council had been camped. The militia council had been camped.

It was the people who licensed the liquor traffic and the people should therefore provide for the care of imbeciles. He hoped soon to see institutions where the imbeciles would be taken and the liquor traffic literally carried out of him in a bottle bath of 180 degrees, as had been worked successfully with a morphine wreck in London.

Needs an Assistant.
The need of an assistant secretary in the department and the conditions in the slums of Toronto were among the other matters dealt with.

Rev. W. S. Lennon asked what had been done regarding the ministers in the Province in his pockets, held the floor till his leader arrived. Mr. Rolston was insulted by Dr. Patrick's estimate of the sagacity of the union committee. He was now in the united church?

Dr. MacKay demanded whether his quotations were disputed, and the reply was that the whole book had to be taken and not a sentence here and there.

"The truth is we don't need quotations," said Dr. Forrest, who also ridiculed the idea that union in Scotland was a failure. He said sixty or seventy churches had taken place last year.

In the evening the atmosphere grew gradually warmer. Dr. MacKay was gradually arriving, and Rev. J. O. Ralston, Perdomis, Man, an opinionated youth with a bold voice, late in the evening, he held the floor till his leader arrived. Mr. Rolston was insulted by Dr. Patrick's estimate of the sagacity of the union committee. He was now in the united church?

HEATED DEBATE ON UNION

Continued From Page 1.

to be found in the three churches at the present time.

The Westminster Confession.
Much in The Westminster Confession was antiquated, and things were erroneous. There was more religion and less philosophy in the new articles. They were scriptural, and stated facts. They were scriptural, and stated facts. They were scriptural, and stated facts.

The general council in Korea for union had a committee for the harmonizing of the doctrine which declared their work had been done for them by the Canadian churches. The statements he had made he regarded as in some respects the most important since the reformation. "Conscience and duty were the only standard, and where conscience compelled them to remain apart they were bound to do so. Where they were bound to unite they united."

Principal Patrick pointed out the advantage of a united church in dealing with the questions of morals. "I am not ashamed," he said, "to say here in regard to the Roman Catholic Church that we ought to meet the union. It is a great church with a vigilance and energy as unrelenting."

He made a strong point of the fact that Canada alone among nations was in a position to take the step towards union.

Quotations Not Respected.
Rev. Dr. Doyal seconded the motion. He was confident that the spirit of John Calvin would support union. The selfishness of the Roman Catholic Church was contrasted with the sixes and sevens, which Protestants were at.

Principal MacKay's speech was subsequently questioned by Principal Patrick, who said that the greatest piece of special pleading he ever heard in the assembly, setting up mere men of letters to tell that down and putting of words in men's mouths.

Dr. MacKay declared that there was nothing in the Westminster Confession was warranted. He quoted Lindsay and Denney and others, and Principal Forrest picked his argument by asking why, if these men were against union, they were now in the united church?

Dr. MacKay demanded whether his quotations were disputed, and the reply was that the whole book had to be taken and not a sentence here and there.

"The truth is we don't need quotations," said Dr. Forrest, who also ridiculed the idea that union in Scotland was a failure. He said sixty or seventy churches had taken place last year.

FOREST FIRES IN N. B.
Hundreds of Thousands of Dollars' Damage Done Already.

ST. JOHN, N.B., June 7.—(Special.)—All the central portion of New Brunswick is ablaze with forest fires. Damage has already been done to the extent of hundreds of thousands of dollars. Unless rain comes within comparatively few hours, but as yet there are no indications of rain.

From almost every section of surrounding country forest fires are reported, and to-day this city was enveloped in heavy clouds of smoke. The report reached here to-night that the large mills of Dr. Fraser & Sons have been burned at St. Francis, near the Quebec border. Many houses have been destroyed in interior of the province.

TREED BY A BULL.
PETERBORO, June 7.—(Special.)—Four Peterboro boys were kept up in the night for three hours by an infuriated bull on the banks of the Otonabee River Saturday evening. They were preparing to go to bathing.

CHICAGO CAPITALISTS WILL SEE SILVER MINES

One Goes North For First Time
While the Other is on His
Third Visit

Two interesting gentlemen representing financial interests in Chicago, Messrs. C. J. Magee and T. H. Rea, were in the city yesterday and leave to-night for Elk City and Gowganda. "I have been learning a great deal about the wonderful possibilities of your north country," said Mr. Magee, "and believe that Elk City has a great future if all that has been represented to me is true. It seems to be a natural distributing centre for a vast area of mining and timbering country, and has a tremendous asset in the Montreal River, which, I understand, is a great navigable highway. Mr. Rea is more interested in mining and is making his third trip north. "The experience of most people who once looked things over up there," said Mr. Rea, "is that they return. So I am back again. This time I am going to Gowganda and hope while there to visit the Barlett Mines and several of the other notable properties. The expansion up there is remarkable. I saw Elk City last fall, and when I returned there in March last, I hardly knew the place, the changes were so numerous. I believe that a great deal of United States capital will be available for the development of the silver fields of Ontario."

TO LOOK AFTER FOREIGNERS

Methodists to Extend Work Now Done in Brantford.

BRANTFORD, June 7.—(Special).—The report of the moral reform and temperance committee submitted at the Hamilton Methodist Conference to-day asked for the abolition of the three-fifths clause and extension of local option voting privileges. The government was praised for license law enforcement in Owen Sound and New Ontario. It was recommended that adultery be made a crime. Dr. Crothers of St. Catharines registered the emphatic opinion that driving away the honor of a woman should be made a capital offence and that hanging be the penalty meted out to such. Marathon racing was characterized as inhuman. "Dr. Griffin, treasurer of the superannuation fund, reported \$338,000 of invested funds. The laymen will raise for missions this year \$260,000, as compared with \$70,000 last year. E. Sweet, Brantford, gave an outline of work among foreigners in this city. The conference decided to have the same work carried on in other centres."

DOCTOR FATALLY BURNED

Neil Gunn, Formerly of McGill, Perishes in California.

MONTREAL, June 7.—(Special).—A telegraphic message from Pacific Grove, California, announces the tragic death of Dr. Neil Gunn, who was fatally burned in a fire in his laboratory. Dr. Gunn graduated from McGill in 1888 with high-class honors. He went west about four years ago for his health. He was 48 years of age and came from St. Thomas, Ont. Immediately after graduation he went to St. Mary's, Ont., where he practised till 1891. In 1891 he married Miss Hardy of this city. He leaves no children.

O. C. P. COUNCIL

Special Committee to Confer With O.M.A. on Proprietary Medicines.

The council of the Ontario College of Pharmacy is meeting at the college this week. At the first session, yesterday afternoon, the president, George E. Gibbard, spoke of the satisfactory state of the trade. A special committee was appointed to consider the communication of the Ontario Medical Association for a joint committee to regulate the sale of proprietary medicines. Attention was called to the discussion in the university senate regarding the matriculation examination, and the secretary pointed out the advisability of waiting on the minister of education as soon as possible to arrange for next year's matriculation.

PATTERNMAKERS MEET

Twelfth Convention Opens at Arlington Hotel.

The 12th convention of the Pattern Makers' League of North America opened yesterday at the Arlington Hotel. The convention will last all week. The delegates represent an all-continental membership of nearly 7000. The Toronto representatives are H. J. Maugham and James Graham. The delegates were welcomed by Aldermen Keeler and J. J. McLean, and President Wm. McLean of the local union. President James Wilson submitted his report at the morning meeting, in which he dealt especially with the necessity of good organization.

A Canada Life Presentation.

A. G. Portch, A.I.A., F.A.S., chief clerk of the actuary's department of the Canada Life Assurance Company, has been appointed chief actuary of the Franklin Life, a progressive life office of Springfield, Ill. His associates in the Canada Life actuary's department, and the officers of the company, joined in presenting him yesterday with a set of Robert L. Stevenson, bound in leather, and a complete set of Parkman's works. Mr. F. Sanderson, joint general manager and actuary, occupied the chair, and the presentation was made by Mr. W. A. P. Wood, assistant actuary. Mr. Portch, who is the sixth from the Canada Life actuary's staff who in recent years have been chosen for important actuarial positions, is admirably equipped for the important office he now goes to fill, and has received yesterday the warmest assurances from his old associates that his career will be watched with interest by them.

Some Remarkable Furniture Reductions

THE men have been making a change in the electric lighting system to bring it into correspondence with the up-to-date style of wiring used in the new store. A great deal of plaster and dust has been occasioned. We are not going to ask more than half price for some of the furniture on which the dust and dry mortar fell. We know that furniture never looks quite new after treatment like this, no matter how carefully you dust it—the polish is never the same. Of course, as far as use goes, the damage is really unimportant. But in selling goods like furniture in the regular way, every piece has to be just so, perfect and immaculate.

Choose to-morrow at prices cut to about half.

- 12 Sideboards, quartered oak, golden finish, hand carved and polished, beautiful design; top has large mirror, one long and two small display shelves, base with three cutlery drawers (one velvet lined), long linen drawers and double cupboard, solid brass trimmings.
