Cane Denies Swearing and His Statement is Corroborated by Bystander.

YOUNG CIVILIAN

W. E. Cane Brings Charge

Against Member of Irish-

Canadian Unit.

Charged with having slapped the face of William E. Cane, a young civilian, dur-ing a recruiting argument. Sergt. Ricn. and E. Eagan of the 208th Irish-Canadian Battalion, game up in the police court assaut was withdraw. Bagan claimed that his action followed cane's remark: "To hell with you and the king and country." Came denied the statement. In Baying the charge, Cane told of being stopped on Albert street by a young leutenant and sergt. Eagan, who asked him to enlist. "I told Eagan that I had volunteered for the first contingent in September, 1914, and showed him a re-jection paper. I also informed him that i had two brothers at the front, one'be-him that if he was so keen about it there were two years in which he might have got to the firing line." Turther conversation led to Sergt. Eagan grabbing Cane by the lapel of his reply to Lieut.-Col Lennox, as to whether he had used the expression spoken of by the sergeant, Cane said that there had been no strong language used during the whole argument. J. M. Vanater, who wore a rejection button, corroborated cane's statement.

BRIGADES ANNOUNCED FOR BIG MILITARY CAMP

Thirty-Three Battalions Will Make Up Strength at Camp Borden.

Special to The Toronto World. NIAGARA CAMP. June 28.-Follow

NIAGARA CAMP. June 23.—Follow-ing are the proposed infantry brigades for Camp Borden: First Brigade: Brigadier-Col. W. C. MacDonald, R.O., Brigade-Major Lt.-Col. H. R. Mason, R.O., Orderly Officer Lt. W. B. McPherson, C.O.T.C. The brigade will be composed of the fol-lowing battalions: 126th, Lt.-Col. F. J. Hamilton; 129th, Lt.-Col. W. E. S. Knowles; 170th, Lt.-Col. Legrand-Reed; 182nd, Lt.-Col. A. A. Cockburn; 204th, W. H. Price; 234th, Lt.-Col. W. Wallace. Wallace

The 182nd and 284th, being under strength, will not go to camp at pres-

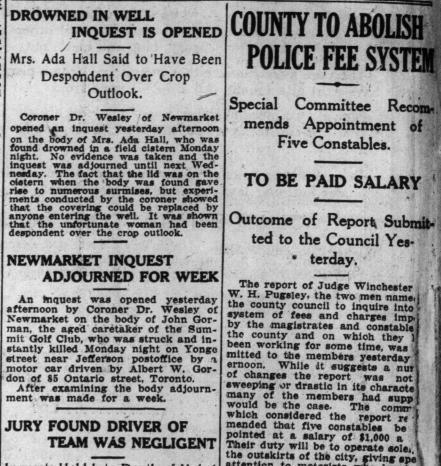

ent. Second Brigade: Brigadier, Col. J. A. Currie, 48th Regiment; brigade-major, Major A. T. Hunter, 12th Regi-ment; orderly officer, Lt. Russell Bell, 48th Regiment. The brigade will be composed of the following units: 122nd, Lt.-Col. D. M. Grant; 157th, L4.-Col. D. H. McLaren; 162nd, Lt.-Col. 162nd. L J. Arthur: 177th, Lt.-Col. J. B. Mc-Phèe: 213th, Lt.-Col. B. J. McCormick Third Brigade: Brigadier, Lt.-Col. E. S. Wigle, 21st Regiment; brigade-major, Major H. M. Mowat, R.L.; orwill compose the third brigade: 114th, Lt.-Col. A. T. Thompson; 125th, Lt.-Col. M. E. B. Cutcliffe; 138rd, Lt.-Col. death of Albert Atkinson, who was A. C. Pratt; 166th, Lt.-Col. Levesconte; 215th Lt.-Col. H. Conkebutt X. C. Fratt; 186th, Lt.-Col. Levesconte;
 215th, Lt.-Col. H. Cockshutt.
 Fourth Brigade: Brigadier, Lt.-Col.
 W. Hendrie, R.O.; brigade-major, A.
 C. Piggott, 18th Mounted Rifles; ordrug store at 106 Yonge street on the morning of June 23, was conducted by Coroner Russell. The staff of the store gave evidence as to the finding Battery, C.F.A., and composed of the following battalions: 147th, Lt.-Col. G. F. McFarland; 164th, Lt.-Col. H. Domville; 180th, Lt.-Col. R. H. Greer; 205th, Lt. R. R. Moodie. Fifth Brigade: Brigadies Lt.-Col. But an examination of the body, but an examination of the body. derly officer, Lt. St. C. THURSDAY MORNING, JUNE 29.

A Director of Recruiting

Mr. Arthur Hewitt seems to have hit the nail on the head when he suggested that in England they know what to do and have done it, and here we know what to do and have not done it. The recruiting conference at the city hall did not arrive at any conclusion because, perhaps, there was no means of taking such necessary executive steps as can alone be successful. Such forces as the country might rely upon do not rally to the support of any attempt to stimulate recruiting.

The Telegram, we are surprised to Batoche, and afterwards commanded see, throws cold water upon the argu- the regiment. On the day war was ment that United States citizens in times of national crisis show more enthusiasm than we do in Canada. There is no crisis in the United States at precent in any degree comparable to that government ought to appoint him direcwhich faces the British Empire, but tor of recruiting, as Lord Derby was Canadians for some strange reason are appointed in Great Britain. All other not moved as the people of the United States were moved over the Spanish successful one. War of 1898, or even as we ourselves

were moved over the Boer War. Good judges think that the censorship has much to do with the difference.

CHIEF COUNSEL of all enlistments, the French Canadian-born, 4 1-2 per cent., and the British-born, 61 per cent. The Britishborn are delighted that the country of their adoption should have all the glory Sergeant Sullivan, Sir Roger but surely the Canadian-born amongs us must feel that they are hardly do-

ing their share when they consider this 88 per cent, against the British-born 61 per cent? We have appealed to the young men

of the country who are staying behind, and there is little or no response. Magistrate Kingsford, in reviewing case in which enlistment was the prime

cause, stated that the government, he hoped, would be forced to do what they should have done long ago. "All eligible young men should be in the army."

Col. Armand Lavergne, speaking Quebec, is reported to have favored conscription, and to be willing to submit to the law. We wish that Canadians would remedy the situation in the more honorable fashion of volunsioned summing up.

Mr. Sullivan, who himself is an tary enlistment, and it is certain that they have not done all they might in Irishman, was painting a picture of. the wrongs which he declared were this way, nor equaled the old country record before conscription was adopted suffered by Ireland and maintaining there. There must be some reason for

He had no children and his needed they should be got in India. brother, Lord Edward Cavendish's The Evening Telegram finds it popular son, Victor, succeeded to the title and

to sneer at The World for publishing articles in support of recruiting. We have already referred to Brig .-

Gen. The Hon. James Mason's speeches in the senate on the question, and it may be well once more to recall the figures he quoted from advance returns of the census, now published and accessible. Gen. Mason is perhaps the best informed man on the subject in tics, but in later years he failed to Canada, and he takes the total male population of Canada, between the ages of 18 and 45, according to the last census, at 1,653,646. Of the Britishborn, numbering 285,858, there were enlisted 156,687, or 63 per cent.; of the foreign-born less than eight per cent. nd of the Canadian-born, out of 973,there were 73,935, or less than 30

cent. of the total enlistments. peaking again on May 4 Gen. Mason

mitted a table classifying the en- dencies and the discretion which high listments into Canadian-born, both rank usually develops, that he should French and English; United Kingdom or British-born, and foreign-born; the table being made up to March 31. Since then the difficulty in recruiting in Toronto and the tremendous expense of maintaining incomplete battalions has been widely commented upon. . Of 667,000 English Canadian-born, between 18 and 45, 85,000 enlisted, or about 13 per cent, of their total. Of French Canadian-born 12,000 enlisted, including French battalions and all French names in other battalions, or about three per cent. Of the 307,000 Britishborn 180,000 enlisted, or 60 per cent. of their total. The proportion of enlist-MICHIE & CO., LIMITED

Heron the close MONT of Nova feature of

hodies in the porphyrv on claim 13144. This was an adjustment as between Hollinger and Acme, and did not refer to the south boundary of the McIntyre. We have no law of the apex in On-iario, and therefore the dip of the porphyry south of the lake made it important for the McIntyre to rush de-velopment of the ore bodies occurring on the north side and lying well with-in their own boundary lines. Fortun-ately, they have here the continuation, in part at least, of the yein systems so in part at least, of the vein systems so strongly developed on the Hol-linger and Acme, and in this section results are very promis-ng. From the 400 to the 700-toot level in No. 5 shaft there has been foot level in No. 5 shaft there has been a constant increase in value with depth at 400 feet, \$9,20; at 600, \$12.62, and at 700, \$18.72. At this level there is also another ore body 62 feet wide, averaging \$14.30 per ton. Along the foot wall side there is 117 feet of drifting, and average values of \$16.20. Further north there is a parallel vein 4.1.2 feet wide assaying \$12. 1-2 feet wide assaying \$12.

On the McIntyre Extension a shaft On the McIntyre Extension a shaft has gone down to a depth of 1080 feet. In a crosscut south from the 1000-foot level to No. 5 shaft, on the Mc-Intyre there is an ore body 25 feet wide assaying \$15.30. This is apparent-ly a prolongation in depth of some of the ore shoots located in cross cut-ting on the upper levels. If. addition to this a report has come to hand that on the 900-foot level there is 22 feet of \$30 orc. These great ore bodies are exten-sions of those crossing the northern

sions of those crossing the northern claim of the Acme. They show in the deep railway cutting a short distance west of the McIntyre and continue southwest on Acme ground, where there is a remarkable outcrop over 40 feet wide. When developed, it will ikely make a sensation. Ore bodies from 20 to 60 feet wide are very un-usual. \$10 ore over a width of 101/2

feet represents the biggest strike in the Rand during the past five years. The Statist, London, in a recent is-sue, places the probable annual out-put of the Hollinger Consolidated at two million pounds sterling. But with deep mining all the mines are growing oigner and there are many surprises

et in store for us. The recent developments on the Mc-ntyre lead to the belief that it and Intyre the northern claim of the Acme have vein systems equal to anything yet n Porcupine.

At the recent annual meeting of the McIntyre the president, Col. A. M. McIntyre the president, Col. A. M. Hay stated that the market quo-tations of the stock of the Mo-intyre Extension and Jupiter show hat the shares for which the Icintyre paid \$200,000, are now worth \$1,500,000. It must be recognized that great success has attended all the operations of the McIntyre during the-must twelve months.

Last year we had to record exceptional progress and great increase in with depth at the "big Dome," value This year the McIntyre is adding to the importance of Porcupine as a great gold field. Its triumphs are largely due to deep mining. In this respect it and to deep maning. In this respect it may be described as the premier pro-perty of the camp. There is nothing to show that other properties will not do equally well in their lower levels. do equally well in their lower levels. But, for the present, the McIntyre has shown the way, and it is intended to continue down another 1000 feet.

The company has a considerable area as yet unexplored. The water lot contains 65 acres, and it is estimated that 35 acres of this are in the basaltic hist and likely to be highly produc-

Adanac continued to feature in the Cobalt section, holding its recent gain at 84 to 84 1-2. Beaver was dealt in at 85 to 89 1-2 and Chambers-Ferland of 20 Japaneter Section (1) and (at 32 to 39 1-2 and Chambers-Ferlard at 22. La Rose jumped from 62 to 66 snd McKinley-Darragh sold at 50 1-2 to 51, with 51 1-2 bid at the close, Pe-terson Lake sold from 24 1-2 to 24 3-4 bid in the aiternoon. Seneca was 38 bid and Timiskaming changed hands between 61 1-2 and 63, closing at 62. Wettlaufer opened steady at 15, sold off to 13 1-2 on profit-taking, but closed bettar at 14.

ore shoot at the 1000-foot level on the north side of Pearl Lake is on a bound-ary line, and there is 4000 feet of NEW INTEREST IN porphyry contact on the same side of the lake, and this cannot be made fully available apart from the Jupiter and McIntyre Extension, while on the south And a New Management in side the principal areas of basalti schist belong to the Hollinger Consoli-dated and the Schumacher. Charge of the Mine.

There is an unusual development of contact ore bodies on the McIntyre Consolidated. We do not find similar phenomena at any other property in Porcupine, and this appears to be due to several causes. The great cho-polith of norphyry has an arrow choice of the several causes are great cho-polith of norphyry has an arrow choice of the several causes. The great cho-polith of norphyry has an arrow choice of the several causes are great cho-polith of norphyry has an arrow choice of the several causes are great cho-polith of norphyry has an arrow choice of the several causes are great cho-polith of norphyry has an arrow choice of the several causes are great cho-polith of norphyry has an arrow choice of the several causes are great cho-There is an unusual development of phenomena at any other property in Porcupine, and this appears to be due to several causes. The great cho-nolith of porphyry has an area about equal to that of Pearl Lake. It does agara Falls; G. W. Arnold, Hamilton; I. S. Anderson, Toronto, and J. F. not extend quite to the east end of the MacGregor, Toronto. H. S. Anderso

lake, but on the other hand, it is of Toronto was appoin slightly wider, and extends westward director and treasurer. was appointed managing beyond its west end. Now the gold-bearing veins have not formed in this Lolders that the Beaver mine, immedimass. Even where they have encoun- alely adjoining the Shamrock to the tered minor intrusions of porphyry on south, is now drifting north on a vein the Hollinger and Acme, values have disappeared. As already stated, the McIntyre Consolidated is favored with the continuation of the great vein sys-tems on the Hollinger and Acme. on the Hollinger and Acme. On the latter they are not in contact with porphyry, and they strike north-show that the Beaver veins should be east, but when the southeasterly sys-tem reaches the great intrusion at the 400-foot level. While all the work west end of the lake it turns east, fol-lowing the lines of least resistance and kooning close to the method and the management is prepared keeping close to the porphyry. This seems to account for the unto sink their shaft another 1000 feet thru the diabase to cut the lower con-

usual location of the productive area on the McIntyre Consolidated. It is tact with the Keewatin, if the development on their neighbor, the Beaver, considerably reduced by the porphyry but in other respects this formation. justifies such a course. The physical condition of the prop-

is not a detriment now that its relation to the ore bodies has been determined erty is excellent; strong financial intorests have recently acquired large holdings in the property, and funds Owing to the acquisition of the Jupi ter and Extension there is nothing to now in the treasury are ample to carry on all future development work. be feared on the north, and if on the south of the lake the porphyry should Mr. Anderson, who is in charge of the mine, has had a long experience retreat to the north very large quanin other mining camps, having in the past been associated with W. B. tities of ore will continue to be mined from No. 4 shaft. The Acme has a remote chance of getting it all, but the probabilities rather point to a continu-ing division between the two compan-Thompson, and was for some time manager of the Shannon Copper Co., Atizona.

MANAGER STARTS WORK

A. G. Burrows, one of our provin-ies. A. G. Burrows, one of our provin-cial geologists, says that these con-tact veins do not form a separate type. At the McIntyre there are veins al-together in the schist and tho there is a considerable area of porphyry on the Acme, and some on the Hollinger, there are no distinctly contact de-posits. The large masses of porphyry south of Simpson Lake and in many other parts of Porcupine are not ac-companied by ore deposits of econom-ic importance. They are, as a rule, more massive, and the surrounding rocks are less altered than at Pearl Lake. Equipment Will Be Put in Order and Thirty Thousand Feet of The Newray Company has lost no

time in starting to reopen their prop-erty and resume development. The On the Hollinger. Acme, and Mc-

erty and resume development. The mine anager is now on the ground, having the machinery and equipment put into shape and calling for contracts for 30,000 feet of dia-mond drilling. It should not be many days before active work is com-menced and the company feels very confident that results of importance will be obtained at no distant data Intyre, there has been intense shearing, affecting even the porphyry, and it seems reasonable to conclude that that he mineralization was due to the shearing. When the veins were formtive. It is now plain that the McIntyre Consolidated will become one of the big mines of Porcupine. It is a fore-gone conclusion that the proposed amalgamation will be made. The physical features of the three proper-ties imperatively demand it. The great

Last year thousands of claims were staked in new gold camps. Several hundred men staked in Kowkash dis-trict alone. This year has been the greatest in the history of the north country for new discoveries. Prospec-tors cannot keep up with the finds and Extension Lake Mines Consolidated often before a rush is well under way into a new district another is started

big mines of Porcupine if they went right ahead and sunk their shaft to 500, 600 or 800 feet, and now that the company contemplates going ahead I hold to this belief more strongly than ever.

The old "Rea" mine has been reorganized and the name changed to the "Newray." A strong syndicate has purchased con-trol of the company and through its efforts more than \$30,000 has been secured for development and exploration work.

age in Cobalt was "Silver is where you This money will be spent in a systematic search for that lost vein that has already produced more than \$200,000, and when found find it," and now mining men are be-Newray will be one of the big producing mines of Porcupine." ginning to think that the saying could e aptly applied to gold in norther

The new management of the Newray recently offered 100,000 shares of its treasury stork to brokers in New York, Boston, Philadelphia and Toronto, stipulating that no bids would be received for ON CROWN RESERVE less than 30 cents per share, and that a certified cheque for 5 per cent. of total amount must be deposited with all bids.

These bids were forwarded to a trust company in Toronto and After drifting twenty-five feet on the big vein found on 700-foot-level, a when opened it was found that more than a dozen different brokers six-inch vein was encountered today, running across it. The character of the rock has changed, leading to the belief that conglomerate will be en- the amount offered. The two veins are rich mill ore, with

My firm placed a bid for a large block of the stock, but owing to the large oversubscription we are allotted only 17 per cent. of If the veins extend into conglomer-ate it is likely that they will be high-the amount bid for.

The new management of the Newray is already asking tenders from contractors to sink the shaft deeper and to diamond drill the property, and I firmly believe it is only a matter of time until we MAKES LARGE SHIPMENT receive news that the lost Number-One vein is found.

I urge every man who has red sporting blood in his system to buy Newray immediately—today—and to buy as much as he can TEMAGAMI, June 28.—The new equipment at the Dominion Rand copper mine is being installed at a rapid pace. The tonnage to be shipped comfortably afford.

Don't buy it with the idea it is a safe, conservative investment, out this week will be largely in excess of that hitherto sent cut and the com. for it is nothing of the kind. pany hopes to even surpass this record when full advantage can be had from

Newray is a high-class speculation, but it is the kind of a speculation that may never come again.

You can easily find a hundred stocks tomorrow that are highclass speculations, but not one of them, in my opinion, offers the IN ABRUPT MANNER same opportunity as Newray-because this company did have plenty of gold on the surface and 100 feet below the surface, and there is

NEW YORK, June 28 .- German no reason to believe that Mother Earth deposited all the gold so marks, which have been declining rather steadily of late, dropped abruptly near the surface without leaving the bulk of it down lower.

Every mine in the Porcupine district that has sunk its shaft 700, 800 or 1000 feet has struck gold, and not one of these had the wonduring the day as low as 721/2c for cheques, compared with a close on the previous day of 74¼c, and a recent high of 78c. This meant that a cheque on Berlin good for four marks cost less derful surface showings of the old "Rea." on Berlin good for four marks cost less than 73c, whereas in normal times it cost about 95c. At yesterday's low,

The Newray is capitalized at only \$1,000,000, divided into ,000,000 shares of one dollar each. This is the lowest capitalimarks were only a cent above the low record of the war period. Foreign exzation of any producing mine in the camp and if the lost vein is found expect to see Newray shares selling at several dollars per share, change men were at a loss to explain the sudden break in German exchange for any good producing mine in the Porcupine district with 320 acres altho they were inclined to associate of property would have an intrinsic value of several million dollars. Take my advice and buy yourself some Newray while the pr

is around 40 cents per share, then sit tight and watch the progre of the company for the next 60 to 90 days.

J. H. Caven, Clarkson; and choice large gooseberries and cauliflower from Titter-ington Bros., St. Catharines. H. Peters had the first car of Georgia cantaloupes per dozen, and cartons 31c to 32c per dozen, wholesale. Butter has remained nearly stationary during the past week. Spring chickens and ducklings are com-ing in slowly, and have remained about stationary in price. The demand for fowl is falling off, and it is slightly lower in price.

FAMOUSFORBEAUTY **OF HER HAIR**

Mrs. Esther Emery Has Hair Which Reaches to Her Knees. Was Once Threatened With Baldness. Tells How She Made New Hair Grow.

New Hair Grow. "People say I have the most beautiful hair in the world," says Mrs. Esther Immery. "I don't know about that, but certainly I am proud of my hair, for it has grown so in just. twelve short months till row it reaches my knees. Last year it was anything but beautiful. I thought I was growing baild. A year ago my hair was thin and scraggly and coming out at an alarming rate. Little baild spots appeared all over my scalp. which was covered with dandruff and liched like fury all the time. I cannot tell you how many hair tonics I tried to save my hair and make it grow again. Some of them helped by taking out the dandruff for a wille, but it came right back again and my hair grew thinner that ever. "My success is no secret and I think that any man, or woman can do the same

of the newspaper outer suspension for three months. This drastic action of the censorship authorities is due to the publication of an anti-recruiting article printed in The Express on the 23rd instant. which, according to the censor, contained statements calcu-lated to cause disaffection to His Ma-jesty, and to prevent, embarrass and hinder the successful prosecution of the war. C. N. Smith, the editor, was at one time a newspaper reporter in Toronto and about fifteen years ago started

TWO CASUALTIES FROM ZORRA.

WOODSTOCK. Ont., June 28 .- Word reached the Village of Harrington. West Zorra, today, that Sergt. William Morrison, son of John Morrison of that village, had been killed in action. He went to Valcartier over a year ago as

on the grounds and will have mutary drill, football and other sports in the afternoon and a band concert at night. Tea'served from 4 to 8. Pro-ceeds in aid of the battallon. Special to The Toronto World. GUELPF:, June 28...-Three more Suelph men have been killed in action in the recent heavy fighting in France. The toll of battle of Guelphites lately has been large. W. G. Portar, 176 Car-digan street, received a message from Ottawa last evening stating that Pte. Percy R. Porter, his son, had been officially reported killed in action on June 13. Philip Bennett 33 Alms street also

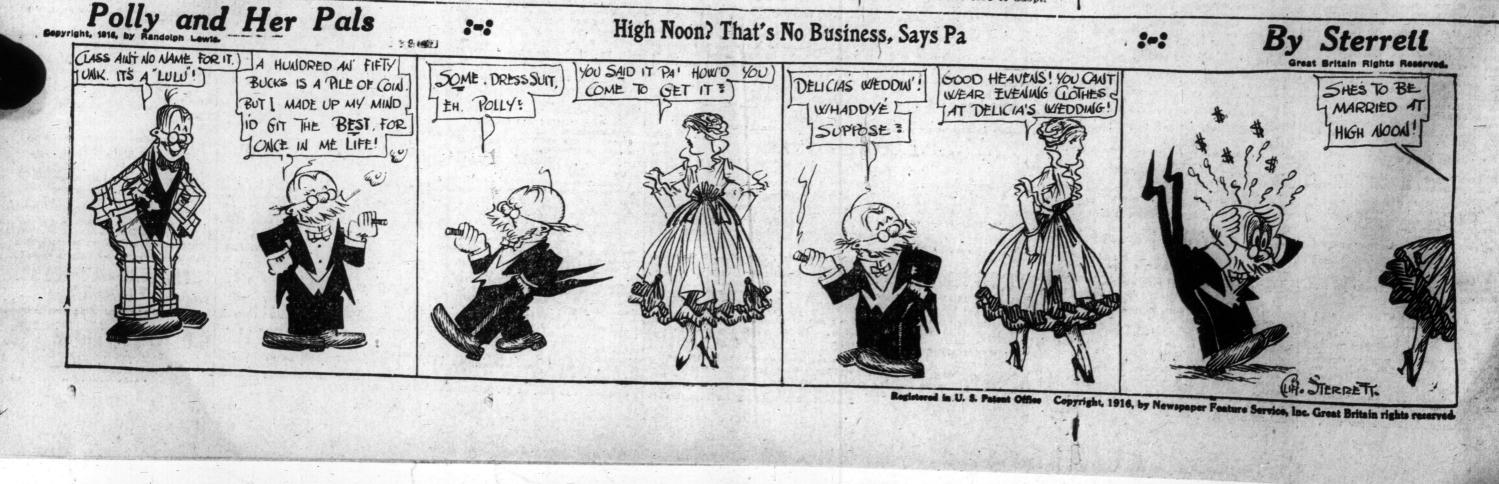

TO MODIFY REGULATIONS.

Declaration of London to Be Suspended for Time.

LONDON, June 28 .- Lord Robert June 13. Philip Bennett, 33 Alma street, also received a telegram last evening to the effect that Pte. Samuel Bennett had been killed in action on June 13. He enlisted with the 34th Battalion in Graphic but use transformed in Fine Cecil, minister of war trade, told the nouse of commons today that as the result of conferences in Paris, the French and British Governments had Guelph, but was transferred in Eng-land to a Highland battalion and has been at the front several months He decided to discontinue partial enforcement of the declaration of London. governing maritime trade, and that he hoped the other allied governments

been at the front several months He was 22 years of age. Alexander Smith, who resides on a farm on the 3rd concession of Fus-linch, received a message informing him that Ptc, Roy Smith had been killed on June 18. He was 26 years of age and was the oldest son. He has a brother at present with the 56th Pat would concur. An order-in-council ho said, would be issued withdrawing the successive orders made under the declaration of London, and a statement would be given out setting forth the reasons for this step. a brother at present with the 56th Bat.

Rids Poisons From the Blood tery at Petiwawa. Clears Up the Complexion a member of a corps of guides but was transferred to a machine gun section. Anothe: Zorra man reported in Pte. William Hill, who enlisted at Edmon-ton with the 49th Battalion. He is Sallow Skin, Pimples, Pains and Aches Are Soon Gone WOODSTOCK, Ont. Jime 28.-Mr. and Mrs. Gibson of Drumbo were no-tifled today that their son. Pte. Jamer Gibson, 87th Battalion, had beet killed in action. Only last week they received reported missing When Dr. Chase's Kidney-Liver Pills Are Used. The doctor feels your pulse and looks at your tongue, but at the same time he is reading your condition in your face. The sailow complexion tells him thet must have used Dr. Chase's Kidney-Liver Pills with splendid results. I was greatly troubled with constipation and in action. Only last week they received the sad intelligence that their other face. The sallow complexion tells him that your liver is not doing its work the pimples tell him that the kidneys are not properly purifying the blood, he realizes that the bowels are constipated and the system overloaded with poi-sons. You can apply this test in your own case and may be able to add other symptoms, such as headaches, pains and aches through back and limbs, spells of biliousness and indigestion. If you have not used Dr. Chaso's The Toronto Sunday World will appear as usual on son. Pte. George Gibson, of the same battalion had been killed. Saturday night, Dominion Day, July 1. Newsdealers A THRILLER FOR LILLIAN DREW. whose place of business will not be open, will please Tumbling over a dam and shooting notify The World office, Toronto and Hamilton, not a rapids gave Lillian Drew her most thrilling experience in pictures relater than Friday, June 30. Subscribers' copies will cently when she performed the stunt at Starved Rock, Ill. It worked out far more thrilling than the picture rebe mailed as usual. Provincial edition Friday mornand aches through back and limbs, spells of biliousness and indigestion. If you have not used Dr. Chaso's Kidney-Liver Fills you will be sur-prised to find how quickly they will rid your system of poisonous impuri-ties and thereby remove the cause of pains, aches and skin troubles. Mrs. F. N. Hall, 102 Queen street, St. ing and regular edition Saturday night. quired, which pleased everyone except Miss Drew. She admitted that she was a frightened young woman during the experience, and that swim ming between rocks and rapids is a sport she docs not care to adopt.
