ENGLAND AND FRANCE

The only complete History of England from 1800 to 1854.

HISTORY of ENGLAND,

By HARRIET MARTINEAU.

Complete in Four Volumes, with Full Index. Price $10.00.

This History has been welcomed by the American Press, representing all parties in politics, and various creeds in religion. All regard it—quoting from an elaborate review in the "New Englander," October, 1866—"as entitled to high praise as a compact, vivid, graphic panorama of a most eventful half-century in English History."

MARTIN'S HISTORY of FRANCE,

Complete from 1661 to 1789.

Four Volumes Octavo. Each Volume contains a Portrait on Steel or a Map.

This work received the GOBERT PRIZE of 10,000 francs, in 1844, from the Academy of Inscriptions and Belles-Lettres, as the most *learned*, and in 1856 and 1859, from the French Academy, as the most *eloquent*, work on the History of France. "This was the just reward," says the *North-American Review*, "of a work of uncommon merit, which certainly stands foremost among the compositions of the kind in French or any other language. As a work of thrilling interest, it has rarely been equalled."

GARDNER CHILSON'S
PATENT CONE FURNACES.

Patented in the United States, England, and France.

This Celebrated and Unrivalled FURNACE, now in so general use, for WARMING DWELLINGS, PUBLIC BUILDINGS, etc., stands pre-eminently ahead of all other known plans for thoroughly warming, with fresh, healthful heat, and at much LESS EXPENSE FOR FUEL, than can be secured by any other means of warming.

There is a large variety of sizes, for setting in Brick Work, as well as those for setting in Double Sheet Iron Casings, as *Portables*.

PATENT DOUBLE OVEN COOKING RANGE.

The great improvements secured by five claims, patented in this superior Range, over any other Range known, makes it the most perfect Kitchen Range in the world. Its extensive use proves it to be the universal favorite of the kitchen. Housekeepers will appreciate it on examination.

Sizes in variety, with or without Water Backs, Hot Closets, and Hot Air Fixtures.

Several sizes of **CHILSON'S NEW COOKING STOVES** (for COAL or WOOD,) are now completed, to which I invite the special attention of all who wish to see the greatest improvement yet made in Cooking Stoves.

Special attention given to putting up these Furnaces, Ranges, and Stoves, in any part of the country.

Dr. Spear's Indian Liverwort Pills.

A trial of one single box of these pills will, in every instance, satisfy the patient that they are the best purgative known. As a purifier of the blood, they have a remarkable and singular effect in cleansing the bowels and stomach; they also act like a charm in removing the various affections of the liver, costiveness, headache, giddiness of the head, pain in the side and back. They are also an infallible remedy in all diseases of the head, such as a slight degree or appearance of mental derangement, confusion of the mind, dimness of the sight; and as a common family pill, their wonderful effects cannot be described. They are a perfect preventive against disease.

☞Try one box for your own satisfaction, and you must acknowledge their superiority over every other pill.

☞BEWARE LEST YOU BE DECEIVED. Be sure to call for DR. SPEAR'S Indian Liverwort Pills.

DR. E. D. SPEAR, Boston, Mass., may be consulted upon all diseases, by letter with a stamp included, or at his Office, free of charge. Dr. Spear's pamphlet, fine type 72 pages, containing Symptoms of diseases, manner of treatment, and more than one hundred certificates of remarkable cure, sent free.

Price 35 cts. per box, $3 per dozen. A liberal discount by the gross to the trade in the Provinces.

The "Halifax Reporter,"

REPORTER BUILDING:

28 BEDFORD ROW,

IS PUBLISHED ON THE

Evenings of Tuesday, Thursday, and Saturday,

THROUGHOUT THE YEAR.

This popular Tri-Weekly is devoted to news, Domestic and Foreign, Commercial Intelligence, Science, Arts, and Literature. Its great aim is to keep its readers well acquainted with the general topics of the day, whether within the Dominion, or beyond its boundaries, so that all movements, whether political or social, taking place among the nations of the earth, shall be as soon as possible set before its readers.

The Terms of the Reporter are $3.00 per annum, in advance,

THE SUBSCRIBERS IN ALL CASES PAYING THE POSTAGE THEMSELVES.

THE "REPORTER" always devotes a large amount of space to Local News, and this gives it a widely extended circulation, which renders it second to no other paper published in the Maritime Provinces, as an advertising medium.

(IMPROVED),

MANUFACTURED AT HARTFORD, CT., U. S.

Out of Eighty-two Competitors, was awarded the

FIRST PRIZE AT THE PARIS EXPOSITION.

This is a Shuttle Machine, using the straight needle bar; makes the tight lock or shuttle stitch, leaving the stitch alike on both sides.

Boot and Shoe Manufacturers will find this machine the most profitable for them to purchase. All its parts are made of steel, and will wear ten years with constant use.

Tailors and Dress Makers will find they can do their work with more ease and convenience on the "WEED," owing to its speed and the large range of work which they can command on it.

Families will find it to their advantage to purchase the "WEED," for it is the most simple Shuttle Machine ever brought before the public. A child ten years old can be taught in twenty minutes to operate on it.

This Machine will sew, hem, braid, bind, fell, tuck and gather with the utmost ease and comfort. No machines genuine except bearing the trade mark.

Everybody invited to call at 78 GRANVILLE STREET, HALIFAX, N.S., and examine for themselves.

All Machines warranted, and on equivalent guaranteed for the money. It is an advantage to the public to call and see the improvements recently made on Sewing Machines.

PREFACE.

In submitting the third edition of the Nova Scotia Directory, the Publisher wishes to call attention to a few particulars in which he hopes that it will be found more deserving of general patronage than either of its predecessors. Instead of an arrangement alphabetically by Counties, which for obvious reasons, must be found at times practically inconvenient; the cities, towns and villages of Nova Scotia (except Halifax city, are in this classified alphabetically, which arrangement is further carried out by an indication to be found on the top of each succeeding page of the places mentioned underneath.

In addition to the usual amount of matter contained in a Directory of Nova Scotia proper, there is comprehended in the present edition a Business Directory of the chief cities in the present Dominion of Canada, which will be found full and satisfactory.

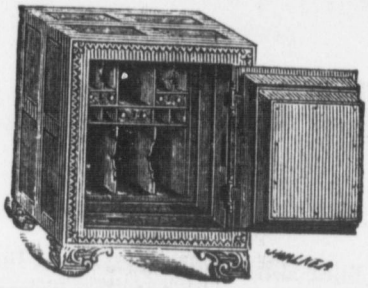

In the Appendix matter will be found every kind of information appropriate to the pages of a general Directory, carefully corrected to the date of publication, (including postal regulations and tariff duties) as the altered political condition of the various Provinces required. On the whole, the Publisher confidently expects that the work will be found of so useful and comprehensive a character as to ensure the patronage and support of business men throughout the entire Dominion.

GROSS' PATENT, JAN. 1868. GROSS' PATENT, JAN. 1868.

36 VICTORIA SQUARE,

MONTREAL.

ARTIFICIAL LEGS,

Distinguished in their superiority for combining in the highest degree

SCIENTIFIC AND ANATOMICAL PRINCIPLES

with the articulation of the natural limb, and possessing

GREAT STRENGTH WITH LIGHTNESS AND DURABILITY.

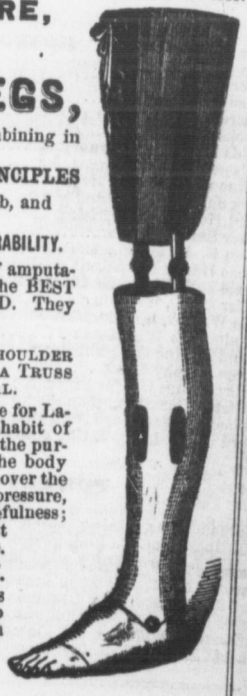

They are perfectly adapted to all forms of amputation. Every Limb is made first class, of the BEST MATERIAL AND FULLY WARRANTED. They are recommended by the leading Surgeons.

F. GROSS' CHEST EXPANDING STEEL SHOULDER BRACES, MANUFACTURED AT THE CANADA TRUSS FACTORY, 36 VICTORIA SQUARE, MONTREAL.

This is an entirely new and superior article for Ladies and Gentlemen who have acquired a habit of stooping. This Brace is certain to answer the purpose of keeping the Chest expanded and the body upright; the two Steels on the back running over the shoulder blades, giving a gentle and even pressure, they will prove conducive to health and gracefulness; and being strong and well made will last a long time and always feel comfortable.

Universally Approved & Recommended.

Catalogues containing full descriptions sent Post free.—All necessary repairs to any of the above articles done with neatness and at moderate charges.

HALIFAX.

THE city of Halifax, the capital of the province of Nova Scotia, was founded in the year 1749, by the Lords of Trade, and was named, in compliment to George Montague, Earl of Halifax, then at the head of the Board. The scheme for the establishment of the town is said to have originated with the people of Massachusetts, who, in calling the attention of government to the claims and encroachments of the French on the territory of Acadia, suggested the necessity, as well as the great commercial advantage to be derived from such an undertaking. A plan was accordingly submitted to government, in the autumn of 1748, and being warmly supported by Lord Halifax, advertisements soon appeared under the sanction of His Majesty's authority, holding out excellent inducements for immigration. The prospects appeared so inviting that in a short time 1176 settlers, with their families, were found to volunteer, and the sum of £40,000 being appropriated by parliament for the purpose, the expedition was placed under the command of colonel the honorable Edward Cornwallis, M.P., as captain general and governor of Nova Scotia, and set sail for Chebucto Bay, early in May, 1749.

The fleet consisted of thirteen transports, carrying 2376 passengers, men, women, and children, and a sloop of war, the "Sphinx," with the governor and his suite on board. The total number of males was 1545—of which above 500 were man-of-war sailors.

On or about the 21st June, the "Sphinx" arrived in the harbor of Chebucto, and the Governor and suite soon after landed on George's Island.

On the 14th July, the civil government was organised on board the Beauport transport, and the following gentlemen sworn in councillors, viz:—Colonel Paul Mascarine, captain Edward Howe, captain John Gorham, Benjamin Greene, John Salisbury and Hugh Davidson. The formation of the council was announced by a general salute by the ships in the harbor, and the day was devoted to amusement and festivity.

In the month of July, Mr. Bruce, a civil engineer, and Mr. Morris, a surveyor, were ordered to lay out the town, which was surveyed and the plan completed by the 14th September. The town was laid out in squares or blocks, of 320 by 120 feet—the streets being from 55 to 60 feet wide. The width of Granville street is but 55 feet. Each block contained sixteen town lots, 40 feet front and 60 feet deep. The whole was

divided into five divisions or wards. Buckingham street was at first fixed as the north and Salter street as the south limit, but the north limit was subsequently extended to Jacob street. The settlers drew for the lots, and the names and number were entered on a register kept for that purpose, still in existence, and known as the allotment books. The north and south suburbs were surveyed about the same time, and the German lots in the north laid off in the following year.

On clearing the ground for settlement, a number of dead bodies were discovered among the trees, partly concealed beneath the underwood, which were supposed to have been the remains of soldiers of the Duke D'Anvilles' expedition, which wintered in Chebucto in 1746.

On the 17th July, the French deputies waited upon the governor on board the Beauport transport. They were again received by the governor and council on the 29th July, when they rendered their allegiance to the new government, which was accepted. The Indians also had an audience on the 14th August, and treaties of peace between them and the colonists were drawn up and signed on the following day. These treaties do not appear to have been much respected, however, as the Indians continued to give the settlers considerable trouble; and several new companies of volunteers were raised in the following October to prevent their incursions. About this time nearly one thousand persons are said to have fallen victims to a fearful epidemic which swept over the country. Laws, similar to those in force in the colony of Virginia, being found the most applicable to the circumstances of the new town, were constructed.

The town of Dartmouth was commenced in August, 1750, by 350 settlers, who arrived in the ship "Albany." In the December following the first ferry was established, and John Connor appointed ferryman by order in Council.

Dartmouth and the vicinity of Halifax suffered considerably at this time from the depredations of the French and Indians, stimulated by French emissaries; and to prevent their incursions a militia force was formed, consisting of all the male inhabitants between the ages of sixteen and sixty.

Between the years 1751 and 1752, 1958 German settlers arrived in the colony. In June, 1763, 1500 of them embarked for Malagash harbour in Mahone Bay; where they afterwards built the town of Lunenburg. The remainder continued in Halifax and were located in the north suburbs, called Dutchtown, Brunswick and Lockman streets, now known as the north end, and were the first settlers of that part of the peninsula.

Notwithstanding the advantages held out by the government, and the fact that up to the year 1757 the enormous sum of £560,000 sterling had been expended on the settlement, the people at that date were rapidly removing to the old colonies; the fisheries, one of the main inducements for immigration, being almost entirely neglected, and the population reduced to much less than half its original numbers, subsisted chiefly on the money expended by the army and navy, and were dependent on Boston for their provisions, and all other necessary supplies. Halifax was of incalculable importance, however, to Great Britain in a military point of view; and to its position as a military and naval station may be ascribed, in a great measure, the downfall of the French power in America.

The fleets and troops under Lords Howe and Loudon, sent out for an attack on Louisburg, in 1757, made Halifax their rendezvous. After the siege, which lasted two months, the fleet and army returned to Halifax, and remained some time to refit. The country was sacked for provisions, and many of the sailors, being enriched by the campaign in Louisburg, procured their discharge and became settlers; and all the ammunition and stores, with a quantity of private property being removed to Halifax, the town once more began to assume a prosperous appearance.

Halifax was again the resort of the army and navy, under Wolfe, during the following year, 1759; and in 1763 the town was enlivened by the presence of a large army and navy, and many gentlemen of standing made the place their home.

In December, 1760, King George III. was proclaimed at Halifax with great ceremony.

Representative government was established in Nova Scotia in 1758.

A great gale of wind, in 1769, caused much destruction of property and loss of life. The winter was remarkably severe, the harbour being choked with ice for several days in the month of February, and the snow on the ground, in March following, was in many places five feet deep.

From 1770 to 1776 was a period of great public excitement; emissaries from the revolted Colonies were numerous, and all public meetings of a political nature were forbidden.

The Parliament, elected in 1770, sat for fourteen years without being dissolved.

After the close of the French war the town declined in prosperity for a few years; but eventually it again became the depot of the troops and shipping, and a more prosperous era began to dawn. After the evacuation of Boston, ten thousand soldiers, sailors and loyalists who arrived with the fleet, were quartered in the town. Many of the transports, being in a leaky condition, landed their people. Every house was crowded to excess. From the commencement of hostilities to the termination of the war the town was thronged with troops and refugees from the revolted Provinces, and the scarcity of provisions increased to an alarming extent. Beef was two-and-six-pence per pound, and butter five shillings.

The loyalists soon distributed themselves throughout the Province, and the population again rapidly decreased. In 1783, however, great numbers of loyalists came from New York, and the population thus augmented, was suddenly increased to double its former numbers; yet it is very remarkable that in September, 1791, within eight years after, the population had again so fallen off as scarcely to exceed five thousand.

In the year 1787, Nova Scotia was erected into a Bishop's See, and Halifax made the residence of the Bishop.

On December 27, 1798, a tremendous hurricane visited the town, and swept away all the wharves, and damaged most of the shipping in the harbor. The loss of property was estimated at £100,000.

From the year 1749, the defences of the town consisted of pallisades or pickets placed upright with block-houses, built of logs, at convenient distances. This fence extended from where St. Mary's Cathedral now stands to the Beach, south of Fairbanks' wharf, and on the north along the line of Jacob street to the harbor.

There were also block-houses at Point Pleasant, Fort Massey, and various other points near the town.

The lumber yard, ordnance yard, and King's wharf, were all commenced about the year 1784 or 1785; but the buildings now existing at these localities were not put up till a much later date.

Citadel Hill was cut down, and ramparts of earth constructed on the site by Prince Edward, when commander in chief of the garrison, a number of wooden fortifications by which the Hill had been occupied, having been removed for the purpose.

The towers on George's Island, Point Pleasant, Eastern Battery, Meagher's Beach, and York Redoubt, were built about this time. He also established telegraph stations between Halifax and Annapolis—the first post being on the hill behind his own residence, on Bedford Basin. The Parade Ground was levelled and the wall built by him. Until the year 1780, the streets of the town were in a very rough condition, and from stumps of trees and rocks, impassable for carriages.

The first Government House was erected soon after the laying of the town. The frame and the material were brought from Boston. The building was completed early in October. It was a small low building of one story, and stood in the centre of the square, now occupied by the Province Building. It was surrounded by hogsheads of gravel and sand on which small pieces of ordnance were mounted for its defence. This building was removed, and a more spacious and convenient residence put up about 1757 or '58, which in turn was pulled down shortly after the year 1798.

Saint Paul's Church, now probably the oldest building in the city, was built in 1750, at the expense of Government. The old German Church, in Brunswick street, bears the date of 1761. It was erected by private subscription, as a Lutheran Church, and is now one of the few relics of the old German settlement.

A printing office seems to have been established as early as March, 1756, by Isaac Curry. The first newspaper in Halifax appeared in January, 1769. It was published by Anthony Henry, edited by captain Buckley, and called the *Nova Scotia Chronicle*, or *Weekly Gazette*. There was another printing office in 1776, in Grafton street, with a steeple and a hand holding a pen for a vane.

The first Court House stood where Northup's Country Market now stands, at the corner of Buckingham and Argyle streets. The building recently occupied by the Halifax Grammar School is also a very old one. The Legislature held its sessions there about 1765. It has also been used as a Court House and as a Guard House.

There were numerous and well kept houses of public entertainment at a very early period. A large three story building, called the Great Pontiack, was erected previous to 1757, at the corner of Duke and Water streets. It has been since known as Michael Bennett's Corner. There was also the Crown Coffee House, kept by William Fury, in 1769, on the beach near the Dockyard, and the Jerusalem Coffee House destroyed by fire in 1837. The latter building stood on the site now occupied by the warehouse of that name.

Between 1753 and 1780, public gardens and promenades were much in vogue, of which Adlam's Garden, south of the citadel, near the present Artillery Park, was the principal. The Artillery Park was then kept on the grand Parade. The Parade was not levelled at that time, and the descent at the North East corner was very abrupt. The Artillery Barracks stood in a line with the present Engine House. Spring Gardens was another place of resort. The old Governor's Gardens were south of Government House, now the residence of the Rev. George W. Grant. About the year 1768, there were lamp posts at all the principal corners, the town being then lit with oil, at the public expense.

The first jail was situated in Hollis street, at the foot of Salter street.

The Queen's Dockyard was first established in 1758. It was extended and improved in 1769. The present wall was built in 1770; this date is inscribed on the gate, and is situated in the north end of the city. It now contains workshops, warehouses, and stores of various descriptions, besides commodious residences for the officers and workmen. It contains several war trophies, and it was at this place His Royal Highness the Prince of Wales first landed in Nova Scotia in the year 1860.

After the return of His Royal Highness the Duke of Kent, and between that period and 1840, the town of Halifax did not make such rapid progress as many other towns on this continent. During the American war of 1812, several valuable prizes were taken into port, which caused a considerable sum of money to circulate, but comparatively few buildings of any note were erected. The foundation stone of Mason Hall was laid by the Duke of Kent about 1800. The Provincial Building was erected between 1812 and 1820, and Dalhousie College about 1820. Saint Paul's Church was enlarged about 1812. A crusty old Admiral removed about this time, the principal Dockyard to Bermuda. The emancipation of the slaves in the West India Colonies, in 1834, caused a serious interruption to the important trade carried on between Halifax and those islands. This was followed by Asiatic Cholera, in 1835: this again by commercial regulations respecting the admission of Baltic timber into the British markets about 1837; and that was followed by the withdrawing of the troops during the trouble in Canada—all combined to cause a stagnation in trade, and to give a desolate appearance to the city. But within the last quarter of a century Halifax has made rapid progress both in population and material wealth. A class of, what was then considered, commodious steamers was placed upon the ferry between Halifax and Dartmouth. About the year 1839 or 1840 the Cunard line of steamers was established, the Liverpool and Boston boats calling at Halifax, on the way to and from Boston. A West India line, plying between Halifax and the West India islands, was also started in connection with it but did not succeed.

About the year 1840, an act of incorporation was obtained from the Legislature, since which time great improvements have been made in the general appearance and public institutions of the city. Under the act of incorporation the city is divided into six wards, each being represented in the city council by three Aldermen—who, with the Mayor and the Recorder, transact all the financial and civil business, and dispose, also

to some extent, criminal justice in the city. The Gas Company was incorporated about the same time.

The Water Company was subsequently organized, who introduced a supply of excellent water from the lakes, in the rear of the city; but these works have since been purchased by the corporation, and placed under the control of commissioners, appointed by the city government.

Halifax has suffered severely from fire on several occasions; at one time nearly three blocks were consumed, extending from Hollis to Barrington street, and covering, what was then and is now, the finest part of the city. The greater part of the space thus laid bare has since been covered with handsome freestone, granite, and brick structures, which are not surpassed by any on this continent. One of those fires consumed a large wooden erection near the Province Building, which originally was the Provincial Parliament Building; and besides gave accommodation to the Supreme Court, the Secretary and Treasurer's Office, with a commodious hotel. Latterly it was known as Hare's building, and was occupied as shops and offices by persons engaged in various lines of business. After the fire the Government purchased the site, and erected a handsome edifice upon it, which has cost from twenty to thirty thousand pounds, and is expected to contain the Custom House and Post Office, together with accommodations for various other public offices.

Of the other public buildings now standing, the old Provincial Building is the chief. It is built of gray freestone, is one hundred and forty feet in length, seventy in width and forty-two in height. On the ground flat are the offices of the Attorney-General, Provincial-Secretary, Commissioners of Mines, and Commissioners of Crown Lands. On the second flat are the halls and Committee Rooms of the two houses of the Provincial Parliament, and the Legislative Library. It is a building of fine architectural proportions, but by being placed in an unfavorable locality, is less imposing in appearance than, under other circumstances, it would be.

Besides the Province Building there are the Government House, the Admiralty House, Dalhousie College, the Asylum for the Insane in Dartmouth (which has been greatly enlarged,) the Wellington Barracks, the Court House, the Hospital, the Penitentiary, the City Prison, and the City Market, may be classed as public buildings, and some of them are very attractive and imposing in appearance.

The Halifax Club Building, the Temperance Hall, and the offices of several Banking and Insurance Companies are owned by the respective corporations bearing their names, and represent a very large accumulation of surplus capital. The Bank of Nova Scotia, in Hollis street, was built in 1856–57, of freestone, and cost upwards of six thousand pounds. The Banking House belonging to the Union Bank, was built in 1863, at a cost of about ten thousand pounds. The Public School in Barrington street, built in 1864 by the Roman Catholics, and taught by the Christian Brothers, is a substantial brick and granite structure. Some of the private business establishments and warehouses also are such as will do credit to any city. Among these there may be named the wholesale warehouses of the Messrs. Kenny, Doull & Miller, Duffus & Co., Power & Co., Burns & Murray, S. Howard & Son, and many others in

Hollis and Granville streets, and the still more durable and commodious wharf warehouses of Cunard & Co., Collins' (now Seaton's) and many others, with which the wharves are studded, from Pryor's wharf to the Dockyard, and which are annually filled with merchandise of various sorts, in which an extensive and lucrative trade is carried on with Great Britain, the United States, British and Foreign West Indies, and the neighboring provinces.

Manufactures of almost every kind are yet comparatively in their infancy in Halifax. There are in the city and Dartmouth five or six iron foundries and machine shops, in some of which steam engines and other heavy machines are neatly constructed. The machine shops of the Provincial Railway, at Richmond, comprise a number of commodious structures, and give employment to from one hundred to one hundred and fifty men. Besides these there are two or three extensive tobacco factories, two pianoforte factories, several furniture factories, a powder mill, one or two nail factories, sawing and planing mills, sash factories, &c., all of which are doing an extensive business, and yielding a handsome return for capital invested. A large sugar refinery is in course of erection. A large flour mill has been completed, in connection with a bakery, occupying from Grafton to Argyle streets. This bakery establishment is capable of working off one hundred barrels of flour per day.

There are several colleges and academies, and a great number of private academies, schools, &c., in the city. The free school system has lately been inaugurated in the Province, and free schools are now in operation in Halifax.

In the year 1828 there were six newspapers published in Halifax, there are now eighteen—one daily, six tri-weekly, and four political journals; three are devoted to the interests of religious denominations, and one to temperance: besides these, a journal of Agriculture, and a journal of Education, both monthly, are published under the management of the Provincial Boards appointed to these two departments, and one on Mines and Minerals.

There are now twenty-three places of worship in the city, including three in the course of erection. Six of these belong to the Presbyterians, five to the Episcopalians, three to the Roman Catholics, three to the Wesleyans, three to the Baptists, one to the Congregationalists, two to the colored population, principally Baptists and Methodists, and they are all generally well filled on each returning sabbath.

The Halifax Banking Company was organised in 1825, and is consequently the oldest Banking Company in the city. It was followed by the Bank of Nova Scotia and the Bank of British North America. There are now in all seven Commercial Banks, and two or three Saving Banks in the city. There are also Building Societies, four Public Libraries, three Reading Rooms, and several Benevolent Societies of various descriptions and nationalities (of which the North British Society was the first established.)

Since the opening up of railway communication with the interior of the Province, the city has increased rapidly in wealth. Since 1858, railways have been in operation from Halifax to Windsor, on the Bay of

Fundy, and from Halifax to Truro, at the head of Cobequid Bay. The latter line is now continued to Pictou Harbor, in the straits of Northumberland, where it will probably attract a large trade from the Gulf of St. Lawrence, besides bringing the coal mines of Pictou County within easy reach of the city. The discovery of gold in the Province, and the extensive investment of capital and employment of labor in the gold mines, has also, to some extent, aided the commerce of the city, by providing a new and valuable export with which to pay for goods purchased in Great Britain. For the last few years the population of the city has been rapidly increasing; and when the projected lines of communication, by rail and steamships with the neighboring Provinces and the United States are completed, Halifax must come to be one of the foremost cities in population and wealth, as she is already one of the most important in geographical position on the continent of America.

A REPERTORY OF

UNIVERSAL MINING INTELLIGENCE,

PUBLISHED MONTHLY,

Subscription, $2.50 per annum, in advance.

OFFICE:

SUMMERSET HOUSE, PRINCE STREET,

MAIL ADDRESS, BOX 266, P. O. **HALIFAX, N. S.**

A Register kept of every description of Mineral Lands and Mining Shares for sale.

Properties viewed and reported on—and their purchase or sale, when required, negotiated for a moderate commission.

The services of Explorers, Overseers, &c., engaged for Mine Owners.

Maps, Diagrams, Statistics, and useful information regarding each District supplied.

Returns made for absent Proprietors.

MR. HEATHERINGTON'S Statistical Review or Chart of the Gold Yield of Nova Scotia has been approved of and largely circulated by the Mines Department and the Paris Exhibition Committee, besides being favorably mentioned by the *London Mining Journal*. His returns and tables of comparison, therefore, may always be relied upon as accurate and substantially agreeing with the official records.

A GUIDE TO THE GOLD FIELDS, published by Mr. H., and procurable at most Booksellers, will be found extremely useful to Tourists, Miners, and Investors.

Daily News,

$6.00 PER ANNUM, IN ADVANCE.

Weekly Transcript,

$2.00 PER ANNUM, IN ADVANCE.

Since the first named journal fell into the hands of its present proprietor, its circulation has gone on steadily increasing, and he has now great satisfaction in announcing his confident belief that the DAILY NEWS has the largest subscription list of any Montreal Morning Journal. It has been his object to supply the public with a first class daily commercial and family Newspaper. The measure of his success is attested by the unqualified favor accorded him, and the very general expression of public approval. The principles which have hitherto guided the management, and so materially conduced to that success, will be steadily kept in view in the future, and the proprietor hopes to establish fresh claims on the public confidence, in the ratio in which he receives support.

The proprietor is gratified to announce a sensible increase in the Advertising patronage extended to him. It must be obvious to all, that a solid subscription list forms a sure index to the value of a newspaper as an advertising medium. The NEWS finds its way to the Banks, Mercantile Counting Houses, Military Messes, Retail Stores, and to nearly every Private Family in the City. In these directions it is to the advantage of Advertisers to have their announcements made known, and the knowledge that this fact is recognized, is proved by the large accessions to the advertising columns of the NEWS.

The DAILY NEWS is published every morning and mailed in time for the early trains.

MEDICAL ADVISER.—DR. DANIEL M'NEIL PARKER.

AGENT.—MATTHEW H. RICHEY.

Agents in the principal Towns in Nova Scotia.

This Company was established in 1825, and is one of the largest and most successful of the Life Assurance Institutions of Great Britain.

Its Income exceeds - - - - - - - $3,469,000 per annum.
And its Accumulated Fund amounts to nearly - - - $20,000,000.
The Subsisting Assurances exceed - - - - - - $80,000,000.

The STANDARD has acquired a marked character for liberal management, being the First Institution which relieved policies of Assurance from restrictive and unnecessary conditions, and gave such contracts increased value and stability in other ways.

Prospectuses and every information supplied at the Branch Office at Halifax, and the Agencies throughout the province.

Having purchased the above premises, we are manufacturing many new and improved patterns of

COOKING, SHIP, HALL, SHOP, AND PARLOR

STOVES,

All of which are HEAVIER and STRONGER than any imported, samples of which may be seen at our WAREROOMS. We also continue to import all the new Designs and Patterns from the United States, as well as

COOKING RANGES, FURNACES,

PENRHYN MARBLE MANTLES,

Frame Grates, &c. &c.

We are also putting up in Public and Private Buildings

STEAM HEATING APPARATUS,

On the most approved plans, many of which are in successful operation in this city.

AND

Blank Book Manufacturer,

ST. NICHOLAS STREET,

MONTREAL.

THE undersigned has greatly enlarged and otherwise improved his premises, which he has adapted, in every respect, for carrying on an extensive Book and Job Printing and Blank Book Manufacturing Business. The Compositors' Rooms are well stocked with a large variety of Plain and Fancy Types, embracing the newest designs. The Establishment is furnished with twelve Steam Printing Presses, nine Steam Smashing, Sawing, Cutting, Stamping and Hoisting Machines, six Hydraulic and Hand Presses, together with Ruling, Backing and Paging Machines, all in thorough working order, which enables him to turn out large quantities of work at very short notice. Over 150 persons are employed in this Establishment.

A very large assortment of WOOD TYPE enables the undersigned to print the very largest discription of

POSTING BILLS,

In various colors, at short notice, and at moderate charges.

Country Orders for PRINTING and BLANK BOOKS carefully attended to, and work dispatched by the safest and cheapest modes of conveyance.

Morgan's Patent Plumbago Crucibles.

The capabilities which have for more than twelve years distinguished these Crucibles, are: Their quality is uniform, they withstand the greatest heat, without danger. There average durability for Gold, Silver, Copper, any other ordinary metals, is forty to fifty pourings, in some cases reaching one hundred. They never crack, and heat more rapidly than any other kind. One annealing only is required. Change of temperature has no effect.

THE INTERNATIONAL

PHOTOGRAPH ESTABLISHMENT

BY

BRENNAN & CO.

124 HOLLIS STREET,

HALIFAX, N.S.

Still maintains its pre-eminence, and in all its arrangements, as well as its works, stands first in the Province.

No expense has been spared to render every department complete in itself, and for the better accommodation of its customers, at great cost, the lower floor of the building has been fitted as a reception room, thus enabling all arrangements for Pictures, as well as the delivery of them, to be effected without the ascent of any stairs.

Every style of Picture can be obtained here, from the tiny portrait for the locket or pin, to the enlarged life size Crayon or Oil Painting.

In another very important particular it has an advantage over all other establishments, in the possession of the only direct Solar Camera, by which the smallest likeness of any kind may be enlarged to any size.

And having the best German Artist in the Province always in the establishment to finish them in Ink, Water Color, Pastile, or Oil.

And at much less prices than any other establishment.

This is the only establishment that has saved all negatives, they are numbered and registered in such a way as to be always accessible. Duplicates can be obtained at any time, free of Postage, by sending full name and address. Postage Stamps or orders taken in payment.

AMHERST.—Shire Town.

105 miles to Truro. Population about 1000. Cumberland County.

AMHERST is situated on low ground, but slightly elevated above the level of the dyke lands, and is a very pretty and thriving town. It furnishes a market to the farmers of the county, for the disposal of their produce. It is situated on the line of the projected Intercolonial Railway, and will therefore probably become a place of considerable importance. The Mount Allison Academy is located within twelve miles of Amherst. Cumberland is an excellent farming and lumbering county.

ANNAPOLIS ROYAL.—Shire Town.

Population about 1000. Annapolis County.

This Town was originally settled by the French, at a very early period in the history of America, and afterwards by loyalists from the New England States. There are many excellent orchards in its vicinity, abounding in the choicest fruit, and its apples are of world-wide celebrity. The Town has a good harbor, and the County is rich in resources—mineral, fishing, and farming.

ANTIGONISH, SHIRE TOWN.

38 miles to New Glasgow. Population, about 1000. Antigonish County.

This town is principally settled by immigrants from the Highlands of Scotland. The chief occupation of the inhabitants is mercantile pursuits, shipbuilding, etc. A large trade is carried on in cattle and butter, considerable quantities of which are exported to Newfoundland. The college of St. Francois-Xavier, one of the finest educational institutions in the Province, is situated in Antigonish, where also is the residence of the Roman Catholic Bishop for the diocese of Arichat. Antigonish has one newspaper. There are quite a number of fine buildings, churches, etc., in the town. Antigonish County is one of the principal farming localities in Nova Scotia.

ARICHAT.—Shire town.

56 miles to Antigonish. Population about 1600. Richmond County.

ARICHAT, situated on the west side of Isle Madame, is extensively engaged in fishing and trading, the leading houses, however, being branches of Jersey establishments. Its inhabitants have invested largely in shipping, of which several thousand tons have long been lucratively employed in the coal trade. Its capacious harbor, with two fine entrances, and furnishing ample accommodation for vessels of the largest class, leaves no room to doubt of its ultimate importance as a seaport. It has telegraph cable communication, and a well conducted ferry with the mainland. A packet, drawing Government subsidy, plys regularly to Guysborough.

The inhabitants of the County generally are of French descent, and fishing is the leading pursuit. Valuable Coal mines exist at River Inhabitants and Carrilon Cove. This county has several fine harbors, and the beautiful passage of Lennox as well as the sheets of water in the vicinity, known as Big and Little Basins, with their surrounding scenery, furnish a rich treat for the lover of nature.

BADDECK.—Shire town.

53 miles to Port Hood. Population about 500. Victoria County.

BADDECK lies in a valley, on the west side of Big Bras d'Or Lake—the land in the vicinity rising to considerable height. It furnishes the leading market for the produce of the county, and makes quite a number of shipments of cattle and butter yearly to Newfoundland. It has steam communication with Sydney. The inhabitants of Victoria County are mostly of Scotch descent, and are engaged principally in farming, though fishing is prosecuted to some extent. Beds of coal have been discovered in different places, as also plaster quarries; some indications of the existence of gold has been found. With the exception of a French settlement at St. Anns, in the seventeenth century, its occupation is comparatively of recent date, and its development as yet in its infancy.

DIGBY.—Shire Town.

20 miles to Annapolis. Population about 1000. County of Digby.

The people of Digby are chiefly engaged in Fishing, Lumbering and Mercantile pursuits. The waters in the vicinity abound in the choicest fish. The celebrated fish, well known as Digby Herring, is exported in large quantities. The Southern portion of the County of Digby, known as the District of Clare, is settled almost exclusively by the descendents of the old French colonists, and is the largest settlement of people of that origin now in Nova Scotia. Agriculture is the principal occupation of the inhabitants. Shipbuilding is also carried on to some extent.

GUYSBOROUGH.—Shire Town.

38 miles to Antigonish. Population 1100.
County of Guysborough.

GUYSBOROUGH, which takes its name from Sir Guy Carleton, and was first settled by disbanded soldiers, in 1790, is beautifully situated on the west side of Milford Haven. A fine bluff head commands the entrance to the commodious harbor, on which the remains of the old fort still exist. It has a large Academy in a very flourishing condition.—Shipbuilding and mercantile pursuits chiefly occupy its inhabitants.

The people of the country are principally engaged in fishing, farming and gold mining—the latter in consequence of the rich leads found at Wine Harbor, and other places, fast becoming prominent, and placing this county in natural resources second to none in the Province. The Strait of Canso which separates this county from Richmond and Inverness counties, is a magnificent sheet of water, giving yearly passage to thousands of tons of shipping bound to all parts, and said by shipmasters to pass more keels than any other Strait in the world, excepting Gibraltar, and furnishing Port Mulgrave, the principal seaport in this county, with a large foreign trade.

PICTOU,—Shire Town.

7 miles to New Glasgow. Population about 3000. Pictou County.

PICTOU town situated on the north side of Pictou Harbor, on ground rising for the most part rapidly from the water, is a smart, thriving town, owning considerable shipping and possessing many men of wealth among its inhabitants. The harbor is both safe and commodious, and is yearly visited by a large number of shipping, and different lines of steamers ply regularly during the summer season from it to Prince Edward Island and Quebec. A very good educational institution exists here; and now that the railway is open to public traffic from Halifax to Fisher's Grant, just opposite the town, and connected with it by steam ferry, together with the continual development of coal mines in the vicinity, Pictou bids fair rapidly to advance. Next to Halifax, the County of Pictou is the most populous in the Province. Its resources are varied and valuable; its soil of good quality, and watered by numerous streams. It contains valuable quarries of free stone and large deposits of iron exist. Its chief source of wealth is its extensive coal beds—the working of which gives employment to thousands. Its inhabitants are chiefly of Scotch descent.

PORT HOOD.—Shire Town.

28 miles to Plaister Cove. Population about 500. County of Inverness.

PORT HOOD, situated on the East side of the harbor of same name, on undulating ground, carries on considerable business with the fishermen and farmers in the vicinity. The harbor is a great resort for the north bay mackerel fleet in bad weather: 300 sail, chiefly American, sometimes gathering there at once, and the beauty and excitement of their simultaneous departure on the return of fine weather, with their clouds of canvas and clicking patents, beggars description.

The recent opening of a coal mine there, and the building of a Government wharf, from which a steamer now plies to Pictou Railway Depot, places the inhabitants in easy communication with the capital, and has given life and impetus to its trade. Farming is the principal occupation of the people of the county, who are chiefly of Scotch descent, though fishing is carried on to some extent. The discovery of coal deposits in several places, gives hopes of its future rapid advancement.

SHELBURNE.—Shire Town.

19 miles to Barrington. Population about 1000. Shelburne County.

SHELBURNE was settled by loyalists, who arrived from New York, in 1783. It was originally laid off for a large city, but the scheme was not carried out. Where 10,000 people were gathered in 1784 only 300 were to be found in 1823. It has of late years been rapidly advancing, however, in wealth and material prosperity. Shipbuilding is vigorously carried on in the Town and County of Shelburne; and the inhabitants are also extensively engaged in fishing, trading and mechanical pursuits.

SYDNEY.—Shiretown.

65 miles from St. Peters. Population about 2(0). Cape Breton County.

SYDNEY was formerly the seat of government when Cape Breton Island was a separate colony; but it is being outstripped by North Sydney or North Bay, where vessels are loaded with coal from Sydney mines, and where the Newfoundland mail boats call on their way to and from Halifax. A weekly newspaper is published in the town of Sydney. It contains several churches and a very fine school house. There has lately been built an elegant hall for the Temperance Societies and Masonic body, as well as for other purposes. The town is situated on the south east side of the river, and from the old fort, on Barrack point, there is a splendid view of North Bar and Sydney mines. It is also the principal resort of the French fleet, and in the summer months they make the locality quite gay. The principal trade of Sydney is with the Coal mines; and the farmers export a large quantity of butter to Newfoundland and Halifax.

WINDSOR.—Shire Town.

42 miles to Halifax. Population 3000.
County of Hants.

THIS Town is extensively engaged in shipbuilding, &c. It is connected with Halifax by railway: and during the summer a steamer plies between Windsor and St John, N.B. The people throughout the county of Hants are chiefly engaged in shipbuilding, mercantile and agricultural pursuits. Windsor is the site of a flourishing college, possessing some highly qualified professors, and annually giving instruction to young men from various parts of the Province. There are also some good buildings, and in the immediate vicinity there are extensive gypsum quarries. The county contains also rich and productive glod mines. A railroad is now under construction, which will connect Windsor with Annapolis.

Daily News,

$6.00 PER ANNUM, IN ADVANCE.

Weekly Transcript,

$2.00 PER ANNUM, IN ADVANCE.

Since the first named journal fell into the hands of its present proprietor, its circulation has gone on steadily increasing, and he has now great satisfaction in announcing his confident belief that the DAILY NEWS has the largest subscription list of any Montreal Morning Journal. It has been his object to supply the public with a first class daily commercial and family Newspaper. The measure of his success is attested by the unqualified favor accorded him, and the very general expression of public approval. The principles which have hitherto guided the management, and so materially conduced to that success, will be steadily kept in view in the future, and the proprietor hopes to establish fresh claims on the public confidence, in the ratio in which he receives support.

The proprietor is gratified to announce a sensible increase in the Advertising patronage extended to him. It must be obvious to all, that a solid subscription list forms a sure index to the value of a newspaper as an advertising medium. The NEWS finds its way to the Banks, Mercantile Counting Houses, Military Messes, Retail Stores, and to nearly every Private Family in the City. In these directions it is to the advantage of Advertisers to have their announcements made known, and the knowledge that this fact is recognized, is proved by the large accessions to the advertising columns of the NEWS.

The DAILY NEWS is published every morning and mailed in time for the early trains.

YARMOUTH.—Shire Town.

44 miles to Barrington. Population about 3000. County of Yarmouth.

YARMOUTH is the second Town in importance in the Province. Fishing, Ship building and commerce are the chief occupations of the people. There are also extensive foundries, factories, &c., in the town. Yarmouth supports two weekly papers and a commercial reading room, and contains many fine public buildings, as Churches, Educational Institutions, Banks, Hotels, &c. The Yarmouth Seminary lately erected is one of the largest and handsomest wooden buildings in the province. Yarmouth does a greater business in ship building, and owns more shipping then any other port of its size in the world. There is daily communication by stage with Halifax, and weekly communication with Boston, and St. John, New Brunswick.

The first permanent settlement of the County of Yarmouth was made by the returned Acadians in 1763, and afterwards by loyalists from Shelburne.

AN ACT TO AMEND THE ACT OF THE PRESENT SESSION, INTITULED: AN ACT IMPOSING DUTIES OF CUSTOMS, WITH THE TARIFF OF DUTIES PAYABLE UNDER IT.

Her Majesty, by and with the advice and consent of the Senate and House of Commons of Canada, enacts as follows:

1. The first, second, third, fourth, seventh, ninth, twelfth and fifteenth sections of the Act passed in the present session, Chapter seven, and intituled: *An Act imposing duties of Customs, with the Tariff of Duties payable under it*, and the Schedules A, B, C, D and E, annexed to the said Act, are hereby repealed.

2. In lieu and instead of the duties of Customs imposed by the Act hereinbefore cited, there shall be raised, levied, collected and paid, upon the goods enumerated in Schedules A and B to this Act, imported into Canada or taken out of Warehouse for consumption therein, the several duties of Customs respectively set forth and described in the said Schedules A and B, the duty of fifteen per centum *ad valorem* being payable upon all goods not charged with any other duty, and not declared free of duty.

3. The goods enumerated in the Schedules C and D to this Act, may, subject to the provisions and conditions therein mentioned, be imported into Canada or taken out of Warehouse for consumption therein, without payment of any duty of Customs thereon.

4. The value for duty on which the *ad valorem* duties hereby imposed on sugar, molasses, melado, syrup of sugar or sugar cane, syrup of molasses or of sorghum, concentrated melado or concentrated molasses, and sugar candy, shall be calculated and taken, shall include the value of the packages containing the same, and the shipping and other charges on such articles, and the value for duty shall be the value of the goods "free on board," at the place or port whence last exported direct to Canada;—and the Governor in Council shall have power to declare what charges shall be included in such value so defined; and the Governor in Council shall have power to interpret, limit or extend the meaning of the conditions upon which it is provided in Schedule C, that any article may be imported free of duty for special purposes or for particular objects or interests; and to make regulations either for declaring or defining what cases shall come within the conditions of the said Schedule, and to what objects or interests of an analogous nature the same shall apply and extend, and to direct the payment or non-payment of duty in any such case or the remission thereof by way of drawback if such duty has been paid.

GEORGE W. HALLS, Ship Broker, 64 Bedford Row, Halifax.

R. N. BECKWITH & CO. lay out especially for a Country Trade, 89 Granville St.

5. Any other articles than those mentioned in Schedule D, being of the growt and produce of any of the British North American Provinces, may be speciall exempted from Customs duty by order of the Governor in Council.

6. Any or all of the articles mentioned in Schedule D, when the growth and produce of the United States of America, may be imported into Canada from the said United States free of duty, or at a less rate of duty than is provided in the said Schedule, upon proclamation of the Governor in Council, whenever the United States shall provide for the importation of similar articles from Canada into that country free of duty, or at a less rate of duty than is now imposed on the importation from Canada of such articles into the United States.

7. The goods enumerated in Schedule E, shall not be imported into Canada, under the penalty therein mentioned, and if imported shall be forfeited and forthwith destroyed.

8. Packages of every description in which goods are usually imported, and cases covering casks of wine or brandy, in wood, and cases containing bottled wine or bottled spirits or other liquors, shall be free,—except only bottles, jars, demi-johns, brandy-casks, barrels, or other packages in which spirituous liquors, wines and malt liquors are contained; and carboys containing sulphuric acid.

9. The foregoing sections of this Act shall be held to have come into force and the duties mentioned therein and in the Schedules to this Act, shall be held to have been imposed and to have been substituted for those imposed by the Act hereby amended, on the twenty-ninth day of April, in the present year of our Lord one thousand eight hundred and sixty-eight, and to have been and to be payable on all goods imported or taken out of Warehouse for consumption upon or after the said day.

10. The Governor in Council may, under regulations to be made for that purpose, allow, on the exportation of goods which have been imported into Canada, and on which a duty of customs has been paid, a drawback equal to the duty so paid;—and in cases to be mentioned in such regulations and subject to such provisions as may be therein made, such drawback may be allowed on duty paid goods, manufactured or wrought in Canada, into goods exported therefrom as aforesaid; and the period within which such drawback may be allowed after the time when the duty was paid shall be limited in such regulations.

11. Upon, from and after the first day of October in the present year of our Lord one thousand eight hundred and sixty-eight, there shall be raised, levied, collected and paid, upon the goods enumerated in Schedule F to this Act, the export duties mentioned in the said Schedule, and such duty shall be paid to the proper Officer of Customs, at the intended port of exportation; the export of such goods without payment of the said duty shall be unlawful, and the Collector or any Officer of Customs shall prevent the exportation of such goods until such duties thereon are paid; and if any attempt be made to export such goods contrary to the provisions of this Act, they shall be liable to seizure and be forfeited, and shall be dealt with as other goods forfeited for breach of the customs law.

12. So much of section nine, of the Act of the Legislature of the late Province of Canada, passed in the session held in the twenty-ninth and thirtieth years of Her Majesty's reign, and intituled: *An Act to amend the Acts respecting duties of Customs, and the Tariff of duties payable under them*, as requires the payment of any duty of Customs on the importation of goods from any of the Free Ports abolished under the said section, into any other part of Canada, or imposes any restrictions upon such importation, is hereby repealed.

13. The one hundred and thirty-third section of the Act of the present session, intituled: *An Act respecting the Customs* is hereby repealed, and the following section substituted for it:

"133. All bonds, documents and papers necessary for the transaction of any business at the respective Custom Houses or places or ports of entry in Canada shall be in such form as the Minister of Customs shall from time to time direct."

14. This Act shall be construed as one Act with the said Act of the present session, intituled: *An Act respecting the Customs*, and with the Act hereinbefore cited and amended, the fifth section whereof shall be construed as referring to Schedule C annexed to this Act; and all words and expressions used in this Act shall have the meaning assigned to them in the said Acts, and all provisions of the said Acts and of the regulations made or to be made under them or either of them, or continued in force by them or either of them, shall apply to the duties imposed by this Act, except in so far as this may be inconsistent with it.

Registration is applicable to all descriptions of letters and parcels, whether they contain articles of value or not. Registration is not an absolute guarantee against the miscarriage or loss of a letter; but a registered letter can be traced when one unregistered cannot; and the posting and delivery or non-delivery can be proven. A registered letter is thus secured against many of the casualties which, from incorrect address, forgetfulness of the receiver, or other error, may affect an unregistered letter. "Moreover the safety of an unregistered letter is dependent on the integrity of a post office clerk during the whole time it remains in his custody, frequently for hours, and even days, whilst a registered letter will almost invariably have to be acknowledged at the moment of its passing into an officer's hands, and cannot therefore be suppressed without leaving him individually accountable for its disposal." "If the consequences were limited to the mere risk of the loss of the money so sent, the senders of money in unregistered letters might reasonably urge, that if they choose to encounter the risk, they should be free to do so; but higher considerations are involved in the question, and the chance of loss to the careless remitter is really but the smallest part of the evil associated with the practice." The attentive perusal of the above remarks by those who are in the habit of sending money by mail in unregistered letters is strongly recommended, and it is further suggested that letters containing money should invariably be secured with *wax*, and not by the usual method, by mucilage, or self sealing envelope.

Letters *prepaid* by stamp dropped into the box during the night and up to 4. 30 a.m., will be forwarded by the mails despatched the same morning.

Semi-daily Mail to and from Dartmouth, postage 3 cents. If unpaid 5 cents.

All letters are charged by weight, irrespective of distance, and a uniform rate of postage of 3 cents per ½ oz., has been established throughout the Dominion of Canada. The rates of postage mentioned all refer to a *single letter*. If it exceeds the ½ oz. it is charged double, and so on, according to weight. Ship letters 5 cents. *Letters for Consignees free.*

Newspaper Rates.

Newspapers printed and published in Canada may be sent by Post from the office of publication to any place in Canada at the following rates, if paid quarterly in advance, either by the Publisher, at the Post Office where the papers are posted, or by the Subscriber, at the Post Office where the papers are delivered :—

For a Paper published	once a week.....	5	cents	per quarter	of a year.
Do.	twice " 10	"	"	"	
Do.	three times 15	"	"	"	
Do.	six times.....30	"	"	"	

If the above rates are prepaid by the publisher, the Postmaster receiving payment must be careful to have the papers so prepaid separately put up, and marked, distinctly, as prepaid.

When the above rates are not paid in advance, by either the Publisher at the Office of posting or by the Subscriber at the Office of delivery, the papers are to be charged one cent each on delivery.

Canadian Newspapers, addressed from the office of publication to Subscribers in the United Kingdom, the United States, Prince Edward Island, Bermuda or Newfoundland, may be forwarded, on prepayment at the office in Canada where posted, at the above commuted rates, applicable to such papers within the Dominion.

Exchange Papers passing between publishers in Canada, and between publishers in Canada and publishers in the United States, Prince Edward Island, Bermuda and Newfoundland, are to pass free—one copy of each paper to each Publisher.

Transient Newspapers include all Newspapers posted in Canada, *other than Canada Newspapers sent from the office of publication*, and when addressed to any place within the Dominion, to the United Kingdom, to the United States, Prince Edward Island, Bermuda or Newfoundland, must be prepaid *two cents* each by Postage Stamp.

Newspapers coming into Canada will be subject to the following charges on delivery.

If from the United Kingdom, by Mail Packet to Quebec, Halifax or Portland..... Free on delivery.
By Mails *via* the United States (New York)..... Two cents each.

If from the United States, and posted by a publisher, 1 cent each—Transient papers two cents each, to be rated at the Canada Frontier or Exchange Office receiving Mails from the United States.

If from Prince Edward Island, Bermuda or Newfoundland, when received by regular Subscribers in Canada from the office of publication, the ordinary commuted rates applicable to Canada Newspapers.

Transient Papers—two cents each.

The Canada postage rates on Newspapers coming from or going to the United Kingdom and United States, will thus be the same as those charged in the United Kingdom and the United States on Newspapers there received from or sent to Canada.

Canada News Agents may post to regular subscribers in Canada, British Newspapers *free*, and the United States newspapers *unpaid ;* such papers in the latter case, must be duly rated two cents each for collection on delivery.

Printed Papers, Circulars, Prices Current, Hand Bills, Books, Pamphlets.

The rate on Printed Matter of this description posted in Canada, and addressed to any place in Canada, Prince Edward Island, Bermuda, Newfoundland or United States, will be one cent per ounce, to be prepaid by Postage Stamp; and a like rate will be payable on delivery, when received from the United States, Prince Edward Island, Bermuda or Newfoundland.

Periodical Publications.

When posted in Canada for any place in Canada, Prince Edward Island, Bermuda, Newfoundland or United States, the rate will be one cent per four ounces, to be prepaid by stamp.

A like rate will be payable on delivery in Canada, when received from the United States, Prince Edward Island, Bermuda or Newfoundland.

Periodicals weighing less than one ounce per number, when posted in Canada for any place within the Dominion, Prince Edward Island, Bermuda, Newfoundland or the United States, may, when put up singly, pass for one-half cent per number, to be prepaid by postage stamp.

As the Postage rates on Periodicals, other than Newspapers, will be payable in advance, and as certain classes of such Periodicals, printed and published in Canada, and sent from the office of publication to regular subscribers, have for some time past been exempted from postage, when exclusively devoted to the education of youth, to temperance, agriculture and science, or for other reasons;—it is ordered, that with respect to Periodicals which do now enjoy this privilege of exemption, the exemption shall continue until the expiration of the current year (that is, until the 31st December, 1868), and that from the 1st January, 1869, all such special exemptions and privileges shall cease.

Parcel Post.

The Rate on Parcels, by Parcel Post, will be twelve and a half cents per 8 oz., that is to say:—

On a Parcel not exceeding 8 oz	12½ cents.
Over 8 oz., and not exceeding 1 lb	25 "
Over 1 lb., and not exceeding 24 oz	37½ "

And so on, to the limit of three pounds.

Book and Newspaper Manuscript, and other Miscellaneous Matter.

On Book and Newspaper Manuscript (meaning written articles intended for insertion in a Newspaper or Periodical, and addressed to the Editor or Publisher thereof, for insertion,) Printer's Proof-sheets, whether corrected or not, Maps, Prints, Drawings, Engravings, Music, whether printed or written, packages of Seeds, Cuttings, Roots, Scions or Grafts, and Botanical Specimens, the rate will be one cent per ounce, when posted for any place in Canada or the United States, and prepaid by Postage stamp.

Mails for all places named in the foregoing table are made up at 8 p.m., except the second semi-daily mails for Windsor and Truro, which are made up at 2 p.m. Mails from all those places are due at Halifax by the eastern and western morning and evening trains from Truro and Windsor. The shore mails from Lunenburg, Liverpool, &c., are due at 7 p.m.

No printed paper, whether newspaper, book, pamphlet, or other paper, shall be transmitted either free or at a reduced rate of postage, unless it is sent, 1, without a cover or in a cover open at the ends. 2. There shall be no words or communication printed on the paper after its publication, or upon the cover, nor any writing or marks upon it, or upon the cover, except the name and address of the sender and of the person to whom sent. 3. There shall be no paper or thing enclosed with it. Where these conditions are not fulfilled the whole will be charged letter postage.

☞The word "Newspaper" means any publication issued not less frequently than once a week, and containing notices of passing events—and the word "Periodical" means any publication issued at regular intervals, but less frequently than once a week.

Masters of vessels are entitled to receive for each letter they may deliver when inward bound, 2 cents.

PATTERN POST.—Patterns of merchandize can be sent by post between Nova Scotia and Great Britain at the following rates:—for a packet not exceeding 4 oz. 7 cents; under ½ lb., 12½ cents; not exceeding 1 lb., 25 cents; above 1 and not 1½ lbs., 37½ cents; above 1½ and not 2 lbs., 50 cents; every additional ½ lb. 12½ cents; no parcel to exceed 2 feet in length, breadth or depth. *Must be prepaid.*

HORACE DODD,

Advertising Agent,

23 CONGRESS STREET,

BOSTON.

Persons wishing to advertise in any NEWSPAPER in the United States or British Provinces, can send their orders to me, as I am authorized to contract at Publishers' prices for any and every publication issued.

We call the attention of parties desiring to advertise thoroughly in different sections of the Country to our Special Lists of

100 Papers in New England,
100 Papers in New York and New Jersey,
100 Papers in Ohio, Indiana and Illinois,
100 Papers in Pennsylvania, Delaware and Maryland,
100 Papers in Michigan, Wisconsin, Iowa, Minnesota, Missouri, Kansas and Nebraska.

ALSO,

Our List of 50 Religious, Agricultural and Literary Papers, having a circulation of

800,000.

These Lists offer superior inducements, as by making special contracts, prices can be given so low as to place them beyond all competition.

SEND FOR LIST AND PRICE CARD.

☞ Any inquiries as to the best mediums for advertising in various sections of the country, prices charged, &c., &c., will be cheerfully answered, and all orders entrusted to me will receive prompt and careful attention.

In writing for prices, care should be taken to send a copy of advertisements: state the space you wish it to occupy, (this should be given in lines, as the size of the square differs in almost every paper); and the length of time you want the same inserted. By observing this a satisfactory answer can always be given.

S. H. & J. MOSS,

WHOLESALE CLOTHIERS,

AND IMPORTERS OF

Cloths, Cassimeres, and Doeskins,

Nos. 5 & 7 RECOLLET STREET,

AND

ORIENTAL BLOCK, 422 NOTRE DAME STREET,

MONTREAL.

We would beg to inform our numerous customers, that we have now added to our Stores, the extensive block in Notre Dame Street, where we are now manufacturing, under the supervision of both English and American Foremen; and we are therefore prepared to guarantee all work coming from our establishment.—*Vide opinion of Toronto Press.**

All our Stock is selected by, and passes under the notice of one of our Firm; and we can confidently recommend it to your notice, as being the CHEAPEST, BEST MADE, and ASSORTED STOCK OF CLOTHING in the City.

We would be pleased to receive your orders, which shall have our careful selection and attention, and a call when you visit the City.

Cloths, Cassimeres, Tweeds, and Vestings, constantly kept.

* WHOLESALE CLOTHING ESTABLISHMENT.—We beg to call the attention of our patrons to the card of Messrs. S. H. & J. Moss, Wholesale Clothiers, Montreal, successors to one of the oldest firms in the Province. Large and extensive alterations and improvements have been made in their premises, to meet the increasing trade. This manufactory employs over 400 hands, and 250 machines. Any orders entrusted to this firm, will, no doubt, meet with a satisfactory fulfillment.—*Toronto Press.*

JOHN BULL BITTERS

PRIZE MEDAL

AWARDED

PARIS EXHIBITION 1867.

The Proprietors of these justly celebrated Bitters beg respectfully to inform the public that among hundreds of the most flattering testimonials received from all parts of the Dominion of Canada, the United-States, South America, Europe, &c., &c., they were awarded a **PRIZE MEDAL** at the **PARIS UNIVERSAL EXHIBITION** of 1867.

These Bitters are universally admitted to be unequalled, not only as a Tonic, but also as a most palatable beverage: in all cases of Dyspepsia, Indigestion, Languor, and Loss of Appetite they will be found invaluable.

When taken as directed the Stomach will be stimulated into that healthy action which restores the Appetite and invigorates the whole system.

J. D. LAWLOR,

SEWING MACHINE MANUFACTURER,

Principal Office, 365 Notre Dame St.; Factory, 48 Nazareth St., Montreal.

FAMILY SEWING MACHINES

Would most respectfully invite the public to examine his great variety of First-Class Sewing Machines, before purchasing elsewhere, among which are:

A New Eliptic Family Machine, with Stand, Price $23.00.
A New Lock Stitch Family Machine, Price $30.00.
Singer's Family, various Styles.
Singer's No. 2, for Tailoring and Shoe Work.
The Florence Reversible Feed Family Machine:
Howe's, for Family and Manufacturing purposes.
The Ætna Noiseless Machine, for Tailors and Family use.
A Button Hole and Lock Stitch Machine, Combined.
Wax Thread Machines, which possesses many advantages over all others.

I warrant all Machines made by me superior in every respect to those of any other Manufacturer in Canada. I have Testimonials from all the principal Manufacturing Establishments, and many of the best Families in Montreal, Quebec, and St. John, N.B., testifying to their superiority. My long experience in the business, and superior facilities for manufacturing, enables me to sell First-Class Sewing Machines from 20 to 30 per cent. less than inferior Machines of the same pattern can be purchased *elsewhere*. I therefore offer better Machines and *better Terms* to Agents.

Local and Travelling Agents will do well to give *this matter* their attention.

A Special Discount made to the Clergy and Religious Institutions.

PARTICULAR NOTICE,

The undersigned is desirous of securing the services of active persons in all parts of the Dominion, to act as local or travelling Agents for the sale of his celebrated Sewing Machines. A very liberal salary, and expenses will be paid, or commission allowed. Country Merchants, Postmasters, Clergymen, Farmers, and the business public generally, are particularly invited to give this matter their attention, as I can offer unparalleled inducements, and at the same time the cheapest as well as the best Sewing-Machines now before the public.

All kinds of Sewing Machines Repaired and Improved at the Factory 48 Nazareth Street, and at the Adjusting Rooms, over the Office, 365 Notre Dame Street, Montreal, and 22 St. John Street, Quebec; 76 King Street, St. John, N.B. Every description of Sewing Machine Trimmings, Wholesale and Retail.

Pegging Machines Repaired at the Factory, 48 Nazareth Street, Montreal.

Send for Price Lists and Photographs of Machines. Address in all cases, **J. D. LAWLOR.**

ELIXIR OF SPA.

Digestive Liqueur at Vegetal basis of the Flor of Spa.

Digestive Liqueur at Vegetal basis of the Flor of Spa.

MEDAL AT THE PARIS EXHIBITION OF 1867.

HONORABLE MENTION at Metz's Universal Exhibition of 1861.—MEDAL at the London Universal Exhibition of 1862.—MEDAL at the Cologne Agricultural Exhibition of 1865.—MEDAL at the Dublin Exhibition of 1865.—MEDAL at the Porto Exhibition of 1865,—And a MEDAL at the Paris International exhibition of 1867.

This Liqueur which ranks among the first class table liqueurs is of an agreeable taste and recommends itself to *gourmets* by its delicate perfume and exquisite flavor.

It agrees specially, by its tonic and slightly exciting properties to persons whose digestion is difficult and laborious. The plants which form its basis, give it, besides that, their beneficial action upon the brain.

It is recommended in cases of fainting fits, swoons, and in general in all cases where a sudden reaction is required to recall the strength of life.

Taken pure, or extent with its volume of water, one half hour before the meals, it is cordial and stomachic, revives appeite, makes digestion easy, dissipate heart diseases, nauseusness, weakness and mitigates stomach pains and colics.

In warm countries, or during hot weather, this liqueur is precious in preventing diarrhes, which occurs from the abuse of fruits and icy beverages.

During epidemics, especially cholera it renders eminent service by its exciting and antispasmodic properties in stimulating the digestive organs, and giving to the whole system all the energy necessary to life.

In short, taken without excess, it is the hygienic liqueur by excellence.

St. Lawrence Hall,

SITUATED ON GREAT ST. JAMES STREET,

MONTREAL.

H. HOGAN, - - - - - - - - Proprietor.

This First-Class Hotel (the largest in Montreal) is situated on Great St. James Street, in the immediate vicinity of the French Cathedral or Church Ville Marie, Notre Dame Street, adjacent to the Post Office, Place d'Armes and Banks; is only one minute's walk from the Grey or Black Nunneries, New Court House, Reading Rooms, Champ de Mars, (where the troops are reviewed) Mechanics' Institute, Bonsecours Market and Fashionable stores. The Theatre Royal is directly in the rear of the House, and several of the best boxes are regularly kept for the guests staying at the ST. LAWRENCE HALL. The St. Lawrence Hall has long been regarded as the most popular and fashionable Hotel in Montreal. It has been under the charge of its present proprietor for over fourteen years. The Bedrooms are all lighted with gas.—A large part of the Hall was engaged by Government for the Suite of His Royal Highness the Prince of Wales, during his visit to the City.—There are Telegraph Branches in the house. The proprietor begs to inform his numerous friends and the Travelling Public that he has lately built an addition to this now well Established House, and will, he hopes, in future, be able to accommodate all who may favour him with their patronage. He would add that Quarters have been taken by the Canadian Government for His Excellency the Governor General and Suite, also that rooms have been frequently engaged for the meeting of the Executive Council.

48 *Great St. James Street, Montreal.*

With Branch Offices in Washington, London, Paris, Brussels, Vienna, and St. Petersburg.

CHARLES LEGGE & CO. have much pleasure in drawing the attention of Inventors to the unrivalled facilities they possess for obtaining Letters Patent in the Dominion of Canada and in other countries, as well as to the opportunity thus offered of Inventions being secured in the most perfect manner and on the most favorable terms.

Inventors visiting Montreal should not fail to call at this Office, where they will be cordially received, and furnished with all the information they may require; or, if not convenient to visit Montreal, their business can be transacted equally well by correspondence. *All communications, either verbal or by letter, are, in the strictest sense of the word, confidential.* A large proportion of the Patents granted in the Dominion of Canada are obtained through this Office, and nearly all the Foreign ones.

Designs and Trade Marks enregistered. All letters to be post-paid.

THE GAZETTE,

JOURNAL OF THE DOMINION OF CANADA. PUBLISHED IN MONTREAL.

THE GAZETTE is now issued in an improved style, printed with new type, and greatly enlarged in quantity and variety of information.

It furnishes political news of all parties, with the utmost impartiality; and religious news of all denominations of Christians.

The aim is to make it a journal of the whole Dominion; and it is believed that readers of its columns will have presented to them, at the earliest possible moment, every fact of public importance that transpires in any part of the world.

The editorial writing, contributed by a numerous staff, will be always liberal-Conservative in tone, and have for object the purpose of promoting the best interests of the country.

The Commercial Department of *The Gazette* is accurate and complete. It is under the editorial charge of a gentleman of large experience in commercial matters, and who is in a position to obtain the earliest and most definite information of commercial transactions in Montreal.

This department also includes direct and authentic information from the Maritime Provinces, and other commercial points in the Dominion; also from Chicago, New York, and other American cities.

MANUFACTURERS AND IMPORTERS OF

SURGICAL AND DENTAL INSTRUMENTS,

Besides a complete assortment of articles intended for the exclusive use of the Medical and Dental Professions, have always in store, at the lowest prices, a great variety of the following articles, suited to the wants of the general public:—

TRUSSES.

A large assortment of best patterns from which to select to meet the requirements of each case. If possible persons requiring Trusses should call at our Establishment, where they can have a suitable Truss carefully fitted by a competent and experienced person familiar with the anatomy of hernea. When a call in person is impracticable, a careful description should be sent, stating whether the rupture is on the right or left side; also the measure around the person two inches below the top of the hip bone. If the rupture is at the navel, the measure should be around the body at the navel.

ELASTIC HOSE.

For Varicose, Veins, Swollen Limbs, and Weak Joints.

Of these Goods we have several classes of Silk and Cotton, possessing different degrees of elasticity; the "Stout Silk" being usually the most satisfactory. The sizes are full length of leg, three quarters, half, or knee hose, knee-caps and anklets.

Also, Elastic and Spring abdominal Supporters, Shoulder Braces, Suspensory Bandages, Apparatus for weak Ankles, Bow Legs, Club Feet, &c.

Also, Crutches, of various and most improved kinds, Syringes, Rubber Urinals to wear on the person day or night, for males and females, Galvanic Batteries, Hearing Trumpets, Auricles and Conversation Tubes for the Deaf, Respirators to prevent coughing or entering cold or warm air, together with many other articles, for the use of the sick and invalids.
