Proposes St. John in "Pro" Skating Circuit

LLOYD GEORGE TO ACT BY MARCH 8
Resign Then Unless Given Loyal Support.

That is Parliamentary Report Today — "Diehards" Firm in Opposition at Meeting Yesterday — Press Comment.

(Canadian Press Cable) London, March 3.—Wednesday, Lloyd George for fulfillment of his ultimatum to Austen Chamberlain, according to a report in parliamentary circles, is that day he has not received satisfactory assurances of the loyal support of the coalition Conservatives, it is said, he will present to the king his formal resignation as premier, which he is now figuratively carrying in his pocket.

Numerous private meetings of politicians yesterday led to no official announcement of developments tending toward a solution of the crisis. One of them, indeed, resulted in heightening the opposition of the die-hard Conservatives to Lloyd George's leadership.

This meeting was held in a committee room of the House of Commons, where more than eighty Conservative members of the Commons and the House of Lords adopted a resolution affirming that "in order to restore confidence throughout the country, and with a view to the approaching general election, there is urgent need for re-assertion of the Conservative and Unionist principles."

The meeting also decided to have further decided that the utmost should be done to hasten the formation of a Conservative-Unionist government.

The determination of Mr. Chamberlain, Lord Chancellor Birkenhead and other Conservative leaders to stand by Lloyd George is unshaken, and the steps they will take in an endeavor to bring their followers into line are awaited with much interest. This curiosity may be satisfied when Mr. Chamberlain delivers a speech at Oxford tonight, and he is generally expected to make an important announcement bearing on the political situation.

The cabinet met last night, but as far as can be ascertained, did not deal with the crisis, transacting only state business.

All the morning newspapers print lengthy accounts of the situation, together with editorial taking sides in the issue. The anti-coalition newspapers say the storm raised by the premier's letter to Mr. Chamberlain became worse yesterday, while the pro-coalition newspapers declare matters are somewhat improved. All agree, however, that nothing approaching a settlement has been reached and that the difficulties remain acute.

The Westminster Gazette charges that the whole situation is a manoeuvre by Lloyd George to procure for him the leadership of the Conservative party, and contends that, if this were not the object of his letter to Chamberlain, it would be gratuitous folly on his part.

The political parties antagonistic to the coalition and to the premier are playing up the crisis liberally through their various organs, while all the afternoon newspapers are featuring the crisis under such captions as:—"Premier's Resignation in the Balance—Developments Imminent";—"Will Coalition Survive?";—"Can Unionist Leader Fulfill Premier's Demand?"

LADY SCOTT WEDS
Widow of Antarctic Explorer is Bride of Lieut. Commander Hilton Young.

London, March 3.—Lady Scott, widow of Captain Robert F. Scott, who in 1910, was married today to Lieutenant-Commander Hilton Young, financial secretary of the treasury. The ceremony was performed in the crypt of the chapel of St. Albans. Austen Chamberlain, government leader in the Commons, was the bridegroom.

The ceremony was a simple one, and there was no reception.

IVING PLACES "HUMAN STABLES"
Windsor, Ont., March 3.—Search for coinshie whiskey operators along the border yesterday revealed insanitary living conditions among residents of the foreign districts, according to the inland revenue officers. In one home a man was found asleep and snoring, with a rooster sitting on his perch on a bed-post, and four pairs of decayed garbage within two feet of the bed.

Overcrowding was also uncovered. In sacks, known here as "human stables," many as twelve men and women were crded together.

PHILADELPHIA BROKERS IN FINANCIAL TROUBLE
Philadelphia, Pa., March 3.—An involuntary petition in bankruptcy was filed against L. A. Gerson and Company.

No statement of liabilities was filed. The amount for creditors said they had amounted to \$125,000 and assets to about \$50,000.

Taking Matter Up at Lake Placid and Saranac.

Planning Organization to Control Professional Ice Skating—Dalhousie vs. Mt. Allison at Hockey—Late News in World of Sport.

Lake Placid, N. Y., March 3.—Steps preliminary to the organization of a governing board similar to, if not affiliated with, the International Skating Union of America, which shall, in another season, take entire charge of professional ice skating in this country, are being taken and definite action is expected soon.

Officers of the Adirondack Skating Association believe that the final touches to the proposed professional organization will be given at a convention at the next annual meeting of the union.

Julian T. Fitzgerald of Chicago, president of the International Skating Union, may be asked to rule whether that body, which heretofore has exercised jurisdiction over amateur events only, may provide the required authority over professional skating or whether a separate professional racing organization must be effected.

Manager Judson of the Saranac Lake Chamber of Commerce, one of the advocates for control of professional skating, has proposed the creation of a professional circuit to include Saranac Lake, Lake Placid, Plattsburgh and Johnson City in New York State, and Winnipeg and St. John, N. B., Canada.

At present there is no governing body with authority over professional skating. The proposed organization would be vested with authority to sanction professional meets and promulgate the rules governing them, define the eligibility of skaters, formulate a standard and official set of records at each distance and would have complete authority over skaters including the right to adjust grievances and punish offenders.

SPORTSMEN'S DINNER TONIGHT AT HOTEL ASTOR
New York, March 3.—Chefs at the Hotel Astor busied themselves today with such unaccustomed tasks as John of Canadian buffaloes and Hudson Bay ice fish and the "makings" of Labrador flapjacks in preparation for the annual dinner of the Canadian Camp tonight.

Newly 600 sportsmen and sportswomen on whom the lure of the north has fallen, will be present, many of them journeying hundreds of miles to sink teeth in huntman's fare and revive memories of their days with gun and rod.

The Canadian enthusiasts will get a look-in by the movie room on Moroccan and Algerian sport.

Speakers include Rev. Allen MacCrossie, who will serve as toastmaster; Lieutenant General Nelson A. Miles, Henry C. Walsh of the Explorers Club and Melville E. Stone.

The Canadian Camp has a membership of more than 4,000 persons in the United States and Canada, according to Dr. G. L. Curtis, its president.

PAY OF MINERS IN N. B. AND N. S.
Congratulations Premature; Must First be Vote in the Two Provinces.

Truro, N. S., March 3.—Congratulations on the outcome of the recent negotiations in Montreal between the coal miners and operators of the British Empire Steel Corporation are premature, according to members of the miner delegation who passed through here en route to Cape Breton. They said that the proposition received from the company must be decided on by a referendum vote of the entire Nova Scotia and New Brunswick districts.

The delegates said the new offer was better than anything the company had yet offered. Minimum rates for data men were raised from \$2.50 to \$3 a day, as compared with the \$3.80 rate which prevailed in 1921. Other workers' pay would be graded from the corporation also agreed to recognize machine shop workers, etc., as members of the miners' unions and therefore coming under agreements with the union.

The miners' representatives declared on going to Montreal that they considered a minimum of \$3.50 a day a basis for their demands. It is thought, however, that other concessions by the operators may have made them more willing to concede this point.

Sidney, N. S., Mar. 3.—A minimum daily wage of \$3 a day with promised adjustment for higher classifications among data workers.

2.—Inclusion of machine shop employees and shot fitters in future contracts between miners and operators.

3.—Contracts rates to remain unchanged.

4.—Tentative agreement recommended by the executive of United Mine Workers in District 26 to rank and file for referendum vote on March 14.

5.—New rates for data men to be retroactive to January first and contract to conclude on November 30, 1922.

Officials of the United Mine Workers in District 26 returned to Cape Breton today, and through President Robert Baxter, made the first delivery of cement of the recent conference with the British Empire Steel Corporation at Montreal. This table sets forth the principal advance to 59 1-4.

Paris is Granted A New Trial

(Canadian Press.)

Fredericton, N. B., March 3.—John Paris, of Truro, N. S., convicted of the murder of Sadie McAuley in St. John last August and condemned to be hanged on March 30th, was granted a new trial by a decision of the Court of Appeals of New Brunswick at noon today on two points on which a reserved case had been allowed and which were argued this morning.

G. H. Vernon, K.C., of Truro, supported the appeal and the attorney-general, Hon. J. P. Byrne, opposed it. The decision was given by Sir J. D. Hazen, chief justice, a short time after hearing the argument.

The new trial will be begun in St. John on March 28, before Judge Barry.

(Continued on page 9, fifth column.)

RECIPROcity
If it Comes, Must be After New Negotiations, Says Fordney.

Toronto, Ont., March 3.—A Globe despatch from Washington quotes Chairman Fordney, of the House Ways and Means committee, as saying that he saw Hon. W. S. Fielding, Canadian minister of finance on Tuesday respecting the Canadian reciprocity agreement of 1911.

"He wanted to know from me," said Mr. Fordney, "if it would be possible to revive that agreement. I said I did not think so. In my judgment it would be a mistake to revive that old agreement. I am very much opposed to the consideration of reciprocal conditions under the old agreement. If there is to be reciprocity with Canada, I think it should be as a result of new negotiations under the Fordney Act which would permit the president to undertake such negotiations, subject to approval by Congress and by the Senate."

Washington, March 3.—(Canadian Press)—Chairman Fordney said he had been informed by President Harding that as soon as the tariff bill became a law, negotiations would be opened with the Canadian government.

"We are exceedingly friendly with Canada," said Mr. Fordney, "and she is one of our very best customers. However, she has some discriminating rates against the United States, which we do not impose against her products and it is our hope to have these removed."

IN MANITOBA
Whitney, Man., March 3.—George Palmer, labor M. P. of Dauphin, has given notice in the legislature of a resolution urging the dominion government to bring about an immediate and substantial reduction in the customs tariff to reduce by half the general tariff on goods imported from Great Britain, and to make good reductions on the remainder of the tariff that will ensure complete free trade between Great Britain and Canada to enter into negotiations with the United States with a view to establishing reciprocity on lines similar to those of 1911.

HERALD OF NEW YORK PRAISES BRITISH COURSE
New York, March 3.—(Canadian Press)—"England's free but remains within the sphere of the British Empire. No friend of the Egyptians could wish it otherwise." The Herald of New York heralds the result of the ending of the British protectorate.

"The paper declares that 'England is progressing with her dream of empire, and pays a tribute to the wisdom which has been displayed by British statesmen in dealing with the empire's various units.'"

"South Africa," the newspaper says, "was astonished when Campbell Bannerman extended his hand to the late forerunner. The Irish Free State has taken England's hand at last in friendship and association, and unless a future betrays the past it will not regret now and India next."

SNOWFALL HEAVY
More Than Two Feet Greater Here This Winter Than Last.

To date this winter eighty and one-half inches of snow fell in this city—twenty inches in November, nineteen in December, twenty-one in January, eighteen in February and two and a half so far this month. Last year fifty-three inches had fallen in the corresponding period. In November ten inches fell, in December twelve inches, in January fifteen inches and in February six inches. These figures were recorded by the United States Weather Bureau Observatory in Douglas avenue.

MONTREAL STOCK EXCHANGE
Montreal, March 3.—(110.90) The local market was only moderately active during the first half hour this morning, but trading was interesting. Brazilian rallied to 36 from 35 1-4, on a fair volume of business. Canada Steamship lost a half to 111-2. Consolidated Smelting was active and registered a quarter point gain to 201-2. Dominion bridge was also stronger and sold up to 68, after closing at 67 last night. National Breweries registered a quarter point advance to 59 1-4.

ONE PIECE SUITS BARRED FOR ALL

Atlantic City Beach Censor Lays Down Law—Stockings Requisite Part of the Costume.

Atlantic City, March 3.—Public morality on Atlantic City's famous beach will be reinforced again this summer. Dr. Charles Bassett, beach censor, has issued an edict banning one-piece bathing suits for both men and women.

Not can the censored mermaids console themselves with rolled or half-hose, but must worry along with what the doctor terms "stockings."

"No woman with a one piece suit can come on the beach," proclaimed Dr. Bassett. "If she tries to go into the water she will be arrested as a disorderly person. All women must wear stockings, too. If they don't they will be arrested also."

"Women's contentions that they can swim better in one-piece suits makes no difference," continued the censor. "They can wear no one-piece bathing suits in Atlantic City."

Now have the men been neglected? No skin-tight suits for men," ruled Dr. Bassett.

MORE FIRMS HAVE GONE TO THE WALL
New York, March 3.—The whirlpool of liquidation continued to drag down brokerage houses today. The failure of George W. Kendrick, Third and Company, of Philadelphia was announced from the Mostrum of the New York Stock Exchange, and the Consolidated Stock Exchange announced the suspension of Charles A. Bertrand, of C. A. Bertrand & Company, of this city.

An involuntary bankruptcy petition against C. A. Bertrand and Company was filed in federal court. No estimate was made of liabilities and assets.

MANY CANADIANS IN NEW YORK STATE
Washington, March 3.—(Canadian Press)—Statistics on the population of the State of New York, issued by the census bureau today, show that there are 90,792 natives of Canada in the State. Nearly sixty per cent, or 59,650 of these native Canadians have been naturalized. The total population of New York is 18,858,719. There are 2,786,112 foreign born persons.

WEATHER REPORT
Issued by authority of the Department of Marine and Fisheries, R. F. Steuart, director of meteorology.

Synopsis—Pressure is lower over the western provinces and Newfoundland and relatively high over the greater part of the United States. Weather is fair and mild in the west and fair with moderate temperature in eastern Canada.

Mostly Fair. Moderate to fresh northwest winds, fine today, a little colder tonight. Saturday, a few snow flurries in southern Nova Scotia, but mostly fair, not much change in temperature.

Gulf and North Shore—Fair today. Saturday, fair, not much change in temperature.

New England—Fair tonight and Saturday; little change in temperature; moderate to fresh northwest winds in the State.

Toronto, March 3.—Temperatures: Lowest 34, Highest 48.

JOHN PARIS.

WILL CARRY HIM IN CHAIR TO GALLOW

Hunger Striker to Die Today for Murder of Two Automobile Salesmen.

Chicago, Ill., Mar. 3.—Harvey Church, twenty-one, convicted slayer of two automobile salesmen, lost hope for life last night when Governor Small refused a plea for clemency.

Too weak to walk and his mind a blank, the result of a forty-day hunger strike, he will be carried to the gallows strapped in a chair at four o'clock this afternoon.

More than 400 persons have applied for permission to see the trap sprung, including several women. Hangings in Chicago have usually been held in the morning and the present plan has met with some opposition.

Church, who last summer killed two automobile men that he might obtain for nothing a \$2,000 car, lay on a cot in the death cell last night, apparently unconscious of all that went on about him.

His mental state has been described by attending physicians as mental suicide. Today he was fed again through a rubber tube.

GANDHI MAY BE ARRESTED
Prince Abandons Amritsar Visit—Situation in India is Causing More Anxiety.

London, March 3.—Scattering reports to the newspapers indicate that the situation in India is causing increasing anxiety to the authorities, particularly in the Punjab and the united provinces of Bengal.

There is said to be danger in Bengal that the members of the all-India political movement out of the hands of the nationalist congress party owing to the anger of the extremists in the post-ponement of civil disobedience.

The Daily Telegraph prints details showing that agitation is growing in all the districts named, where the situation is getting more and more out of the control of the authorities. The report of the impending arrest of Mohandas Gandhi, non-co-operationist leader, is reiterated.

The Daily Mail says that the Prince of Wales has abandoned his intention to visit Amritsar, where, it is recalled, troops fired on agitators in April, 1919, killing 380 persons. The reason for the alteration in the prince's plans are not stated.

HAIG SPEAKS FOR EX-SERVICE MEN
Comments on Effect of Economy Recommendations of Geddes Committee.

London, March 3.—(Canadian Press.)—Earl Haig, speaking at Welwyn yesterday, said that if all the recommendations of the Geddes economy committee were put into effect, ex-servicemen would be put into industry.

Earl Haig said he trusted the government would give effect to their promise to look after the ex-servicemen.

INVENTOR OF TELEPHONE 75 YEARS OLD TODAY
Washington, March 3.—Alexander Graham Bell, inventor of the telephone, today celebrated his 75th birthday.

The aged inventor still works in his laboratory, often until three or four o'clock in the morning. More than eight thousand patents relating to the telephone have been taken out since he obtained the original patents in 1876.

May Prove to Be Tragedy of the Sea

Relief Ship Reaches Position Given by Sinking Gronoft Yesterday, But There is No Sign of Ship or Crew.

(Canadian Press.)
Halifax, N. S., March 3.—A wireless message from Cape Race wireless station, Newfoundland, to the naval staff station here reads: "Estonia reports arrived at given position of Gronoft, and there are no sign of ship or crew."

The Norwegian steamship Gronoft, according to a message received here yesterday, was sinking in latitude 47.48 north longitude 41.24 west, about 500 miles southeast of Cape Race. Her life boats had been smashed by boarding seas.

At 11.30 yesterday morning the steamer Estonia was forty-two miles distant and proceeding towards the Gronoft at eight knots an hour at that time. Those on the Gronoft number thirty.

As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Hornbeam, "I have been supposing myself to have an income of twenty thousand dollars a year from funds safely invested."

"If wishes was horses," said Hiram, "beggars might ride." "But it is nice to think about it," said the reporter. "No worry—no need to work. Every reasonable want satisfied. I could go where I chose. I could see the world. I could get up or have breakfast in bed, just as I chose. I could have a place in town and one in the country—a limousine and the open road to the world's end. Other people's worries would never come near me. I would be a bird of passage, always seeking the joy of new sensations and new pleasures."

"And when it was all over," said Hiram, "and you was hauled out to the cemetery, the preacher wouldn't be lynin' a bit if he said: 'Here goes nothin.'"

"Why do you say that?" asked the reporter.

"If a man had twenty thousand dollars a year," said Hiram, "an' spent it all on himself, havin' a good time—an' never got down to think of the folks that was goin' hungry an' cold—the Lord would be thinkin' of him as He would of a turtle. Now if you'll set down an' think about how much good you could do with twenty thousand a year you'll be surprised what a chance you'd hev—yes, sir."

PLANNING WORLD'S LARGEST HOTEL
The Stevens, in Chicago, to Have 3,000 Rooms for Patrons and to Cost More than \$12,000,000.

Chicago, Ill., March 3.—Plans for the world's largest hotel, to contain 3,000 rooms for patrons and to be built in Michigan Boulevard at a cost of more than \$12,000,000, were announced here yesterday. It will be twenty-five stories high.

The announcement followed the sale of a block of land for \$2,600,000, on which the new hotel, to be known as the Stevens, will be built. Construction, it was said, will start soon after May 1. The announcement was made by James W. Stevens, president of the LaSalle Hotel Company.

According to Mr. Stevens the hotel will contain a convention hall with a seating capacity of 4,000, an exposition floor with 35,000 square feet, a banquet hall seating 1,045, and a dining room seating 1,000.

One of the most notable innovations will be an airplane landing more than a block long, on the roof. The hotel is to be located just south of the Blackstone.

WE ARE TRADING MORE WITH CHINA
The Canadian Commissioner There Advises Active Selling and Advertising Campaign.

Ottawa, March 3.—(Canadian Press)—Trade between Canada and China is constantly expanding, and the general trade outlook in China is much improved over that obtaining one year ago, according to Canadian Trade Commissioner J. W. Ross of Shanghai. The decision of the Washington conference regarding China and the settlement of a "number of vexed questions, including that of Shantung and its port, Taingato, and railway will go far to encourage and stabilize business," says the commissioner.

He writes that Canadian timber is constantly being placed on the markets of China, while Canadian flour, salted herrings, butter, fresh apples and jams are in good demand, as are an extensive list of manufactured articles. Mr. Ross advises an active selling and advertising campaign if trade is to be developed in China.

TWO DEAD IN HOME TRAGEDY
Enraged Husband Kills Wife and Self.

Newton, Mass., March 3.—Enraged because his wife stayed out late at a motion picture show, William T. Garvey shot and instantly killed her, wounded Mrs. Doris G. Atwood, a young woman boarder and then took his own life last night.

A seventeen year old son, Raymond, and two other children witnesses of the shooting tried unsuccessfully to stop their father, one of the girls jumping at him.

The Garveys and Mrs. Atwood formerly lived in Alberta, Canada. Physicists said Mrs. Atwood would recover.

Garvey, 46 years of age, was a building contractor. Mrs. Garvey, who was forty years old, Mrs. Atwood, 25 and Mrs. Garvey's oldest son, left the house early in the evening for a nearby picture show. Upon their return Garvey started an argument, worked himself into a frenzy and when Mrs. Garvey turned toward her bedroom he drew his pistol and opened fire. A bullet pierced her arm. The second killed Mrs. Garvey. Then Garvey began shooting at Mrs. Atwood, who had attempted to prevent him from firing. A bullet pierced her arm. Mrs. Atwood ran screaming from the house and fell in a faint in the snow. The three children, who had tried to wrest their father from his rifle, were thrown off and Garvey fired a shot through his heart.

HUDDLED TOGETHER AWAITING DEATH
Sir Philip Gibbs, Urging Aid for Jewish Fund, Tells of What He Saw in Famine District.

New York, March 3.—(Canadian Press)—Sir Philip Gibbs, in an address last night at the Manhattan Opera House in aid of a \$5,000,000 relief campaign for Jewish war sufferers, complimented Jews of the U. S. for their effective work in behalf of the famine-stricken of Eastern Europe.

He related personal experiences in the famine district, declaring that entire communities there were being exterminated by hunger and disease. In some of the villages he visited, Sir Philip said, thousands were just huddled together waiting for death. Mothers "showed me bowls filled with a dark green powder; it was made from the leaves of trees ground up. They had mixed this with other rubbish and made it into some sort of bread. Others were eating blue clay mixed with water. This kills children in a very short time, and causes stomach trouble among older folks of so serious a nature that they do not long survive."

BIG CUT IN PAY OF WESTERN MINERS
Some 9,000 May Strike Because of 30 to 50 per cent. Reduction.

Calgary, Alta., March 3.—Members of the scale committee of District No. 18, United Mine Workers of America, are this morning considering drastic cuts proposed by the operators at a conference here yesterday, which in most cases show a return to the 1915 wage scale.

The miners will give the operators a reply this morning, and indications are that a strike, affecting about 9,000 men in Southern Alberta and Eastern British Columbia, will result unless the operators modify their proposals of from thirty to forty per cent. reduction in wages.

GOOD THINGS COMING TO THE THEATRES OF ST. JOHN

STILL GOOD SEATS FOR MONDAY SHOW

Soldier Boys in "Mademoiselle From Armentieres" Will Get Good Reception.

The soldier show "Mademoiselle From Armentieres," which has been traveling across Canada right from the coast, will be the attraction at the Imperial on Monday and Tuesday with a Tuesday matinee. The advertisement in this issue carries the scale of prices, which are graded according to the times. The show is a mixture of fun and excitement at the front (the Lens sector) and the cast of eighteen players put on a wonderful performance. The ticket sale is progressing briskly at the box office, which is open from 10 a. m. to 9 p. m.

LARRY SEMON MARY MILES MINTER AND SERIAL AT IMPERIAL

A great big package of pretty story, uproarious burlesque comedy and wholesome excitement awaits Friday-Saturday patrons at the Imperial. Mary Miles Minter, possibly the screen's sweetest ingenue, will appear in a charming five reel photoplay entitled "Don't Call Me Little Girl." Then comes that prince of comedians, Larry Semon, in his very funniest and latest scream "The Show." Needless to say Larry is the stage jangler and his adventures with a big vaudeville outfit will keep you convulsed with laughter. The Indian-pioneer serial story "Winners of the West," will conclude this thumping big nine reel bill. It is really a double show.

CREARY'S

Is a Specialty Shop for Men, and Women Who Shop for Men.

After a week's bustling activity in installing new fixtures, unpacking innumerable cases, pricing and arranging suits, overcoats, hats, shirts, ties, socks and the multitude of articles wherewith "moo man" garbs himself, George T. Creary, on Saturday morning, opens his new men's store at 27 Charlotte street. The new shop, which will be known as "Creary's," and which will be so identified in the firm's advertising, is a distinct addition to the number of high class merchandising establishments which are so creditable to the city. In its appearance and character, the new store is the kind that adds to the reputation and prestige of a city in commercial circles. The store has been refitted throughout, and while not pretentious, the new fittings are attractive and pleasing, and denote good taste rather than a disposition to impress with a display of extravagance.

The character of the store, however, is of paramount importance to the community and to the store's prospective customers. In this respect, Mr. Creary makes a clean-cut declaration of policy, which carries with it the assurance that men and women who buy at Creary's will be well satisfied with the transactions in which they take part.

"The keynote of my policy," stated Mr. Creary today, "will be to give value, and render service to my customers. I do not intend to carry any cheap or shoddy goods of any description, but in going in for medium and high class merchandise, it is not my purpose to load on to my prices 'all the traffic will bear.' Reliable merchandise and fair prices will be my motto. Everything within reason that a man can require for wearing apparel will always be procurable here, but whether a man, or some of his women folk, or even a child, comes and makes a purchase, it is my pur-

pose to make the quality and price of the article such that the man will know that at the price he paid he has received the best value obtainable anywhere." "The ladies, especially," added Mr. Creary, "will be heartily welcomed at the new store when they come in to shop for husband, father, brother, son, or some other 'him,' and every courtesy and consideration will be shown them. It is my intention to make 'Creary's' a real 'Specialty Shop for men, and for women who shop for men.'"

TAYLOR TRAGEDY STILL A MYSTERY

(Canadian Press Despatch.)
Los Angeles, Cal., March 2.—The six men arrested Tuesday on information furnished by Mrs. John Rupp, their housekeeper, have no connection with the murder of William Desmond Taylor, motion picture director here February 1, it was announced today by detective sergeant Herman Cline, in charge of the investigation.

He said examination of Mrs. Rupp and investigation convinced detectives that there was no foundation to her statements that they had threatened the life of Taylor.

"My 'His Master's Voice' Victor Records shall be my biography"

That was Caruso's characteristic remark when he was once approached regarding his biography.

The one hundred and seventy-eight "His Master's Voice" Victor Records by Caruso, and many records yet to be issued, truly constitute the best autobiography of the world's greatest singer; an autobiography which is itself alive and which will continue to delight all the succeeding generations.

WELL-MANAGED TOWN.

The municipal business of the town of Summerside is, apparently, well and carefully managed, says the Charlottetown Examiner. According to the financial statement submitted, the ordinary expenditures of the past year amounted to \$37,297.77; and there was an expenditure upon the capital account of \$6,533.75—or a total expenditure of \$43,831.52. So that the surplus revenue was \$886.11.

Summerside possesses its own electric light plant, respecting which the mayor and councillors report that "notwithstanding the excessive price of coal, we are now able to announce a reduction in cost of light to our citizens of ten per cent, and a very much improved system of street lighting, thus proving that the purchase of this plant was well advised."

The mayor and councillors also report that a new centrifugal pump operated from the current at the power house for pumping the town's supply of water as a having of cost is exceeding their "most sanguine expectations."

Evidently, adds the Examiner, the mayor and councillors of Summerside, the clerk and the other town officials have attended to their duty in the past year.

Creary's Exclusive Men's Wear Store

OPENS SATURDAY MORNING

- An Entirely New Store
- Brand New Merchandise
- Newest, Latest Styles
- New Low Prices on Everything

Months of thought and effort have gone into the planning of this new store to serve the men of St. John and of New Brunswick. We believe we have succeeded in providing something distinctive in its appeal to men and young men who demand quality and value in their clothing and furnishings.

We have combed the markets of Canada and Europe for merchandise of merit, and in this new store the discriminating buyer will find a new standard of quality and price. While our first aim has been to procure reliable goods, every article has had to pass a rigid test of real value, with the result that we have been able to establish a scale of prices which will come as a welcome surprise to purchasers. New low prices prevail throughout our very complete stock of men's suits, overcoats and furnishings.

WOMEN FOLK MAY SHOP WITH PLEASURE HERE.

Creary's will be, in fact, a specialty shop for men and women who shop for men. Women who have occasion to buy anything in the line of furnishings, or clothing, for men will find this a very agreeable place to make their purchases—a place where they will receive every consideration, where they will be the recipients of the most courteous attention, and where every effort will be made to please them.

TWO SPECIALS FOR OPENING DAY
FRENCH FEDORAS—An exceptionally fine line of soft hats, in every pleasing color, direct from the factory of the celebrated Tirard Freres, Paris, France. We have the exclusive agency for these hats in St. John—**\$7.50**
PURE SILK KNITTED TIES—Best English make, imported direct—in black and a variety of beautiful colorings; nothing else like them in the city, nothing approaching them in price has been seen for years—**\$3.00**

CUSTOM TAILORING DEPARTMENT

In addition to our splendid range of ready-to-wear suits at from \$18 to \$45, we have in stock the finest of English and Scotch Pure Wool Fabrics—all absolutely new—from which we shall be glad to supply the highest class made-to-measure clothing, at moderate prices. Material, workmanship and style of such garments guaranteed in every instance.

"The Specialty Shop for Men, and Women Who Shop for Men."

Pantry sale, Court's Block, tomorrow, beginning at 11 o'clock, by Ladies' Aid, Portland Methodist church.

MORNING NEWS OVER THE WIRES

Dr. Walter Franklin Pierce, director of the American Institute for Scientific Research, left New York yesterday for Halifax, en route to Antigonish where he will attempt to solve the mystery of the house of Alexander MacDonald, alleged to be haunted.

A warrant was issued yesterday by Magistrate Kelly, of Woodstock, acting on instructions from the attorney-general, for the arrest of Councilor W. D. Keith, of Hartland, who is charged by Leah Farnham with a serious offence. It is said that the girl's confession implicates a doctor in Houlton, Me., and it is expected that the Maine authorities will be asked to act in the matter. The girl is aged fifteen years and has been living at Keith's house for some time while his wife was away.

Albert Bullacawter, former United States marshal, was arrested yesterday on a charge alleging that he offered a bribe to the customs officials in an attempt to have the cargo of 300 cases of whiskey landed from the steamer Harbinger. The liquor was billed from St. John to Nassau, Bahamas. He pleaded not guilty and was released on bail of \$5,000.

VISITING PUBLISHING MAN.
V. M. Schenck, representing the Congressional denomination in its publishing branch, takes passage for England from this port by steamer Minnedosa. He is vice-president and for years a director of The Bookellers' Association of America and one of the best known and authoritative publishing men in the United States. This is Mr. Schenck's first trans-Atlantic trip and he anticipates a very pleasant business sojourn with English firms with whom he has had association for many years. The visiting publisher bore notes of introduction from his next-door neighbor Brockton (Mass.), Douglas McRobbie, formerly of this city who is now a transcontinental representative of the Walkover Shoe Co., and whom Mr. Schenck reports is a successful shoe man.

SISTERS TO GO TO CHINA.
Sherbrooke, Que., March 2—A number of Ursuline Sisters of Stanstead have volunteered for service among the Chinese in the Szechwan district.

Sydney Street and Main Street

COMING OUT OF THE KITCHEN.

(New York Evening Post)
Out of every nineteen physicians and every forty-four lawyers in this city one is a woman, while there is a compact group of women clerks. These items in the 1920 occupational census will be regarded with pride by those who remember how recently Elizabeth Blackwell and Lucy Stone broke ground in such fields. But it is more important to observe how rapidly certain skilled and semi-skilled groups in the 700,000 women gainfully employed are increasing at the expense in part of menial groups—the servants. It became clear during the war that women bookkeepers, more than three times as many clerks (except in stores), and nearly three times as many telephone operators. But the number of servants and waitresses dropped from 122,807 to 94,658.

The loss of the housewives is the gain of business; but it is a superficial view that there is a loss even to housewives. It became clear during the war that women were being compelled to give a more educated attention to household questions. When a perfect jewel was waiting in every "information office" it was unnecessary for Mrs. Dash to know that necessary workers. With all allowance for high war-time factory wages, the revolt of one-fifth the city's servants shows that in 1910 reform was needed.

A point of adjustment may in time be reached. Society should learn to minimize household labor and make its conditions attractive enough to hold the necessary workers. With all allowance for high war-time factory wages, the revolt of one-fifth the city's servants shows that in 1910 reform was needed.

The Evening Times and Star

ST. JOHN, N. B., MARCH 3, 1922.

The St. John Evening Times is printed at 27 and 29 Canterbury Street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

THEN AND NOW.

The Globe last evening published a list of names of St. John manufacturers who issued an appeal in support of confederation. The reader of the arguments in support of confederation sees at once what the people were promised. There was to be a great expansion of industry, for a large market was to be made available. We know now how false an assumption that was, and there is today the further handicap of prohibitive freight rates.

ONE ILLUSTRATION.

The following extract from the little monthly publication of the provincial department of health calls for no comment. It drives home very forcibly an important truth— "In a little shoe shine shop, in a town of New Brunswick, I found a boy, a few days ago, shining shoes. He claimed his fourteen years but looked ten or eleven. Looking into his case a bit, I found he had left school because he had a cold in his head all the time and was too stupid to learn. That boy needs a two minute operation for adenoids, after which he would be learning with the best of them. He is the product of the neglect of his community and if allowed to continue as he is will almost certainly be a taxable liability to that community, within a very short period of time. A public health nurse in that town and that boy would have had his square deal—his chance to grow up a healthy citizen and an asset to his community."

THE GARY PLAN.

At various times attention has been directed by a member of the St. John school board to the Gary system of conducting public schools, which mingles work, study and play in a most interesting manner for all the pupils. In the New York Evening Post a report of a meeting in Chicago says:—"The work-study-play plan of school organization has come to stay," said Superintendent William M. Davidson of Pittsburg, describing progress in the adoption of the so-called Gary, or platoon, plan before a conference of superintendents' meeting here under the auspices of the United States Bureau of Education. "We would not go back to the old plan in our city if we could," asserted Mr. Davidson, "Thanks be to William Wirt of Gary, who brought over the educational horizon the biggest and finest advance in a century in elementary education."

BRITISH POLITICS.

Will Mr. Lloyd George or the diehards of the Conservative party prevail? If the latter, then the prime minister will resign. The militant section of the Conservative party seeks a Conservative-Unionist coalition government. Mr. Lloyd George has been made the target of their criticism. He is defended by Mr. Chamberlain, Lord Chancellor Birkhead and other moderate Conservatives who stand for the existing administration. The situation is further affected by the defeat of government candidates in several by-elections. The prime minister is not one to let matters drift. He has made it clear that he will not give his genuine support and his resignation is ready. If he should resign and a Conservative government be formed it would probably be short-lived. The coalition government is attacked from more than one quarter. But successor would have to meet similar conditions. The solution will be an early appeal to the people, and in the present ferment of public opinion the outcome is by no means clear. Mr. Lloyd George has held office for a long time, and under conditions the most difficult that have confronted any British premier in modern times. It would be unfortunate if he were not left free to continue as leader of the Conservatives in relation to European reconstruction. No other man has so clear a grasp of the difficulties to be met and surmounted, and none is better qualified to combine tact with decision when the situation calls for the exercise of these qualities.

SCHOOLS AND ATHLETICS.

The Commercial Club Athletic Association has done much to promote clean amateur sport during the last two years. This year it will make a new departure more important in results than any yet attempted. Its present aim is to organize the schools for baseball and field athletics. This is made possible by the increase in the number of neighborhood playgrounds in the Rockwood area. The east, west and south ends have good grounds. The north end has an area set apart which may eventually be the best neighborhood playground in the city, and which the people of that section of the city should put in condition this year for at least the school activities, which may also be carried on to some extent in Victoria Square and elsewhere. The plan of the Commercial Club is to enlist the sympathy of the superintendent, principals and teachers of all schools, to the end that each may have one or more baseball teams and a track team. Each school would have its own training and practice; there would also be inter-school competitions; and at the end of the school term a grand championship series of events could be carried out, the Commercial Club looking after the prizes. By this means all the school boys would have an opportunity for training that would be most beneficial and those showing special qualities encouraged to go in for championship track. There is in the schools a most promising field for good work, and the Commercial Club Athletic Association could engage in no more useful service.

Harding in the Brooklyn Eagle

REAL AND UNREAL.

(After Swinburne.) All that we see and hear is a dream of the glory behind; That which we touch and feel is not the thing that it seems: Matter is only the husk, the kernel is Infinite Mind. The unseen world is the true, this world is but shadow and dream; Ocean and land and sky, the mountains and plains and dales; All things composing the form and frame of this wonderful globe; Stars in the azure profound—are all but the garment that veils a seamless and beautiful robe. Keep the bud back from the flower, nor let the closed petals unfold; Bid the sun stand in his place, the foot-steps of summer retard; Sever the eye from its vision, but think still to the present to bind the hopes of the sage and the hard! These are the things we might see, but filling our eyes with the dust, Make us too blind to behold the glory that shines overhead.

LIGHTER VEIN.

Earning His Pay. The story is told that a despairing copy writer working on an Ivory soap campaign produced a copy of the alkaline element and vegetable fats in this product are blended in such a way as to secure the highest quality of saponification along with a specific gray tint that keeps it on top of the water, relieving the bother of the trouble and annoyance of fishing around for it in the bottom during its ablutions. When this piece of copy reached the advertising manager, he substituted for it these two words: "It floats."

Treat 'Em Gentle.

(American Legion Weekly) An old sergeant was noted for his ability as a driver, and was in demand in new recruits. There came to the company a captain with advanced ideas, who quietly noted that the sergeant was a proficient in profanity as he was in the I.D.R. He took him to task. "Sergeant," he said, "I had no complaint to make of your ability, but I want you to realize that you are not to swear. And I want you to call these men how to drill and not to call them names. It is necessary for you calling them down for inferior work. Now I expect to see some improvement in your methods."

The Remains.

A professor was showing one of his friends round his chemistry laboratory. "What has become of Jim Filibottle?" the friend asked. "Wasn't he studying with the class last year?" "Ah, yes," replied the professor. "Filibottle's poor fellow; a fine student, but absent-minded in the use of chemicals. Do you notice that slight discoloration on the wall?" "Well, that's Filibottle." "Yes."

TROUBLES OF NEWSPAPERS.

(Victoria Colonist.) Newspapers have a difficult path along which to steer in these times, when ideas are so unsettled and nerves are unstrung. There are more critics abroad than ever before, and there is a greater variety of seekers after the hundred and one news which they believe the press should supply. Newspapers have never been so generous in allotting space to the views of their correspondents, but there is not a newspaper which is not accused, from time to time, of not being generous enough. Religious, social, political and economic, all are being attacked and the papers exist as a medium for propaganda for the hundred and one news which they have in view, and they believe that when a score or more people get together and promulgate a policy, or platform, such news necessarily constitutes news. That is one of the difficulties which the newspapers have to contend with.

GRANT ALLEN

(By George Hes.) Grant Allen was born in Kingston, Ont., on February 24, 1848. His father, the Rev. J. Antihell Allen, was a clergyman of the Church of England. In 1861 he removed, with his family, to New Haven, Conn., where his son became the pupil of a tutor from Yale College, near New Haven, where the lad was sent to school at College Imperiale in Dieppe, France. He proceeded to King Edward's School, Birmingham. In 1867, at nineteen, he entered Merton College, Oxford, winning a scholarship of eighty pounds a year for five years. In 1871 he received his degree as Bachelor of Arts. Two years later he became professor of a mental and moral philosophy at the newly-founded Government College, Spanish Town, Jamaica. Here he remained for three years, until the college was abolished as a failure. On his return to England, Grant Allen wrote many articles on science-made-easy. These found little or no favor at first, and he underwent serious hardship. Little by little his popularity grew, until his income stood at about a thousand pounds a year. This happy change in Grant Allen's career was the result of a fact, romances to exhibitions in botany and psychology. He began with "Our Scientific Observations on a mental and moral philosophy" (London, 1874), and "The Mummies," both published in "Belgravia." These were included by Chatto & Windus in his "Strange Stories." Grant Allen's first book, "The Mummies," "Phylis," bearing the pseudonym "Cecil Power." Then followed "In All Shades," "For Malmie's Sake" and other works, of which the best was "Hill Wake," issued in 1900 by Grant Allen.

But the field which Grant Allen was given him, was not fiction but science. As a boy he had gathered and studied flowers on Wolfe Island, near Kingston, where he lived. Year by year botany became his pursuit and his passion. Dr. Sydney H. Vines, Sherardian professor of botany at Oxford, when Grant Allen came to his botanical works—of which the most important are "The Colors of Flowers" and "Flowers and Their Pedigrees," Grant Allen was always in possession in a high degree of the qualities which go to make the true naturalist. Every page gives evidence of his exceptional power of accurate observation, which made him the first-rate field botanist that he undoubtedly was. He was much more than this. His observations in the field were not the work of a single collector, but the work of a trained intelligence proceeded to work. Each fact at once raised the question of how and why, so that no phantom, but fact realities, understood the solutions with no small degree of success.

Grant Allen was a convinced evolutionist, holding that the master-key of Nature is the law of descent with modification. Of that law he gave in a mass of chapters many clear and striking illustrations. In 1874 Allen formed the acquaintance of his master in philosophy, Herbert Spencer; and never had a master a more faithful disciple. When Allen wrote his Life of Charles Darwin he pointed out that the philosophy of evolution, in its universal sweep, is due to the work of Herbert Spencer. To Darwin is accorded the great discovery of the law of natural selection, which, for all its importance, is subordinate to the supreme generalization of Spencer. Allen thus condensed the Gospel according to Herbert Spencer: "Know yourself and your own place in the universe about you. Fear no phantoms, but face realities. Understand your own body, and the light cast upon it by the history and evolution of other minds. Understand the phenomena, organic and inorganic, physical or psychical, by which you are surrounded, and the laws to which they severally conform. Understand the society of which you are a member, and learn from like analogies the origin and functions of its various parts. So, in your capacity as an individual, you govern your own path in the world; and so, in your capacity as a parent, will you produce and bring up better units for the composition of the society in future; so, in your capacity as a citizen, will you help to mould the state, of which you are a part, to ultimate conformity with truth and justice."

Grant Allen wrote a remarkable series of historical guides, supplementing in a most informing fashion, the manuals of Baedeker or Murray. These were Paris, Florence, cities of Belgium, Venice, closing with "The European Tour," a handbook worth its weight in gold to tourists old or young. Grant Allen was not only a naturalist and a novelist, he was also a poet. In 1894 appeared a collection of his verse, "The Lower Slopes," published in London by Matthews and Lane; in Chicago

Thermos Lunch Kits

The workman used to carry his sandwiches, pie and coffee in a two-story tin pail. By lunch time the sandwiches were dry as chips, the pie was mashed flat, and the cold coffee was unfit for human consumption. THE THERMOS LUNCH KIT affords a new measure of convenience in packing and carrying food—the most sanitary way to keep it fresh and wholesome. For those who take their lunch to the shop, office or school, the Thermos Kit is the ideal food carrier, protector and preserver.

D. MAGEE'S SONS, LIMITED ST. JOHN, N. B. SINCE 1859

ed by Stone and Kimball. Three pieces in this little volume stood highest in his regard, "In the Night Watches," "Passiflora Sanguinea," and "Mytila." To his mother he sent this poem:

Dear Mother, take this English posy, called In allen fields beyond the evening sea; Take it in memory of the boy you lulled One child Canadian winter on your knee. Its flowers are but chance friends of after years, Whose very names my childhood hardly knew, And even today far sweeter in my ears Ring older names unheard long seasons through.

I loved them all, the bloodroot waxen white, Canopied Mayflower, trilliums red and blue, Flaunting lobelias, lilies richly dight, And pipe-pipant from the wood behind the swale.

I knew each dell where yellow violets blow, Each bud or leaf that changing seasons bring; I marked each spot where the young of the melting snow Peeped forth the first hepatica of spring.

I watched the fireflies on the shingly ridge, Besides the swamp that bounds the Baron's hill; Or tempted sunfish by the ebbing bridge, Or hooked a bass by Shirley Gonsal's mill.

These were my budding fancy's mother tongue, But daisies, cowslips, dorrer, primrose—hips, All beasts or birds my little book has sung, Sit like a borrowed speech on stammering lips.

And still I build fond dreams of happier days, If hard-earned pence may bridge the ocean's sea, That yet our boy may see my mother's face, And gather shells beside Ontario's shore.

May yet behold Canadian woodlands dim, And flowers and birds his father loved to see; While you and I sit by and smile on him, As down grey years you sat and smiled on me.

RED PEPPER HEAT STOPS BACKACHE

The heat of red peppers takes the "ouch" from a sore, lame back. It can not hurt you, and it certainly ends the torture at once. When you are suffering so you can hardly get around, just try Red Pepper Rub, and you will have the quickest relief known. Nothing has such concentrated, penetrating heat as red peppers. Just as soon as you apply Red Pepper Rub you will feel the tingling heat. In three minutes it warms the sore spot through and through. Pain and soreness are gone. Ask any druggist for a Jar of Rowles Red Pepper Rub. Be sure to get the genuine, with the name Rowles on each package.

ABOUT BEANS

For good rich baked beans use plenty of clear fat pork and always bake in the OLD FASHIONED BEAN POT made by The FOLEY POTTERY, LTD., St. John, N. B. When a Bean Pot is cold it should not be placed immediately on the hot part of the stove. It is safer to put it at first on the shelf at the back and to move it forward a little at a time as it heats. Baking the beans in the oven gives the pot a better chance, as in that case the sides are heated as well as the bottom.

**MANUAL TRAINING
BIG SAVING TO CITY**

Director of Bangor Schools
Says it Saves Money as
Well as Trains Pupils.

(Bangor Commercial)

Work on a commercial basis in the Mechanical Arts department of the Bangor public schools was the means of saving about \$600 for the city last year in the manufacture of articles used in the schools and this year the amount will be nearer \$1,000, is the statement in an article written by A. B. Hayes, director of the department, and published in the current issue of the Industrial Arts magazine. The commercial system has also resulted in providing the kind of work that the students enjoy the most and at the same time giving a necessary and invaluable experience in the manufacture of articles which have an intrinsic and educational value, is Mr. Hayes' contention in his article, which is as follows:

Is production on a commercial basis in our high school shops possible and successful? This question has been most strikingly answered by many high school shops during the last five years. It is not only possible to do work of a commercial type in secondary schools but there is no better way to offer wood-working courses.

I realize that I have put the statement in a strong way and that the defenders of the project plan will take issue with me. I have no statements on my experience as director over a shop where both systems have been tried out.

Under the project plan the student made a certain number of prescribed articles. These had little or no intrinsic value and too often had no educational value. Certainly 75 per cent of them failed to interest the boy and his shop courses were looked forward to with dread. Boys, being the greatest imitators in the world, wanted to be doing man-sized jobs. It was taken as a joke if not an insult, to ask a boy to make some project simply to take home. It hurt his vanity and once you kill a boy's pride you have ruined his respect for his abilities.

The Mechanical Arts department of the Bangor schools has been reaching out for the past two years to get a system which would be justifiable from the standpoint of the school board and city government and interesting enough to hold the student. We believe that we have found it and the system is a very simple one.

The first step was to branch out slowly to light repair work for the school. We took only the easiest kinds of jobs at first and gradually from them up to the harder ones. As we worked a long step by step, we found that the interest exhibited by the pupils was increasing. This was particularly true of the boy who shows a disposition to leave school and go to work. He had suddenly discovered that he was doing a man-sized job and he attacks it with a manly spirit.

After a little while, we began to take in new work. We began making furniture and supplies for the various schools and so rapidly did the good news spread among the principals and teachers that we were literally loaded with orders. Every teacher had something which she wanted but dared not ask for because it cost too much. Now she sends her order down to the Mechanical Arts Department through the regular channels, and in due time the article is delivered to her.

It must not be understood that these articles are all small. Take for instance the case of one of the outlying schools in the City of Bangor. During the severe weather especially in winter, it was impossible for a large number of children to go to their homes for dinner. The principal asked that a china closet and dining table be furnished so that she could give the children something hot and could also permit them to eat from dishes instead of out of a lunch box. The china closet and the dining table were furnished by our High School shop.

Among other things which have been made are pencil sharpening boxes, a letter box, a book case, sand tables, a target for the R. D. T. C., runways for the athletic bleachers, a ticket office and various other articles, besides which the boys have put in a large amount of labor where supplies were needed.

So popular has become our work that on September 8, four days before the opening of the fall term, we had 28 jobs lined up ahead of us. These range from making blocks for the kindergarten to cedar chests for families. These will go through our shops in order exactly the same as in a factory and the material and labor accurately figured and a value set on the job. In this way we are running as closely as possible to actual conditions.

Last year we saved the city about \$600 on things which we made for the schools. This year we will be nearer \$1,000. We are giving the city products at the cost of the material used; and are giving the boys the valuable and necessary experience and the satisfaction of doing something worth while.

This year our registration in the shop work is the largest in the history of the school. That alone proves that the students want exactly this kind of work. Another thing that has given us great satisfaction in our work is the increase in the moral in our classes. There is team work and with team work comes class spirit—that spirit of rivalry which admits no defeat and no superior.

And Along Comes Spring

And now comes Spring with airy frocks and smart wraps. The very spirit of spring embodied in these exquisite frocks and chic suits and wraps. There are several new fabrics shown at Dykeman's, and the shades, too, promise to become most popular, and the general styling is most distinctive and new. There is a welcome variety of fashions at the Dykeman store, as well as richness and beauty that is absolutely irresistible.

**ALBERTA AND B. C.
MINERS TO STRIKE?**

(Canadian Press Despatch.)
Calgary, Alta., March 2—The Western Canada Coal Operators' Association this afternoon refused to consider the demands placed before them by the miners of District 18, United Mine Workers of America, which included wage increases, the five-day week and six-hour day. The operators announced that they were posting a new agreement, effective April 1, which would provide for a wage cut of approximately thirty-five per cent.

The miners' officials said they would never consent to a cut, and a serious strike seems inevitable.

**Rheumatism Grows
Worse if Neglected**

It is a Uric Acid Trouble.
It makes its presence known by local aches and pains, inflamed joints and stiff muscles, but cannot be permanently relieved by local applications. Its cause is constitutional and it must have constitutional treatment.

Take Hood's Sarsaparilla, which corrects the acid condition of the blood on which the disease depends and makes you feel young again.

Three doctors said I could not be cured of rheumatism but at 64 I am still alive, well and strong, thanks to the yearly use of Hood's Sarsaparilla. I am convinced there is nothing better for rheumatism." C. E. Goodrich, Bolivar, Mo.

**SOCIALISTS LOSE
LONDON ELECTIONS**

(Canadian Press Despatch.)
London, March 2—Laborite and Socialist candidates were badly worsted in the London municipal elections today. The results, as far as have been announced late tonight, give the Municipal Reformers 6 seats, the Progressives 17 and the Laborites 10. In three constituencies Laborites met defeat by narrow margins but elsewhere they were swamped by majorities varying from 1,000 to 8,000.

The composition of the last county council was: Reformers, 68; Progressives, 88; Laborites, 17, and Independents, one.

CONCERT IN INSTITUTE.

A concert by the members of the Tunisian party was listened to by a large and appreciative audience last night in the Seaman's Institute. In the absence of the Mianodga party, the gaps in the programme were filled up by members of the institute staff, and of the Manchester Brigade. Mrs. Baird and Mr. Watt were the accompanists.

NEW RULE IN EGYPT

Cairo, Egypt, March 3—Abdel khalak Sarwat Pasha, the new premier, in presenting his cabinet list to the Sultan, explained that the British government's declaration respecting the withdrawal of the British protectorate over Egypt had brought a profound change in the situation. This permitted the constitution of a military, which would have been impossible under the previous British attitude.

The ministry will proceed immediately to the task of preparing a constitution and the election of a legislative assembly to assume full political authority. The government, it is declared, will do everything possible for the establishment of conditions which will permit the abolition of martial law.

**AGED MONTREAL WOMAN

The Royal Bride and Groom

(Montreal Gazette)

VISCOUNT LASCELLES. Viscount Lascelles, who today becomes the husband of Princess Mary, is the heir of the fifth Earl of Harewood, a great landowner and a descendant of one of the oldest and proudest English families. He was born on September 9th, 1882, and followed the traditions of his house in adopting a military career and passing from Eton and Sandhurst to the Grenadier Guards, his father's old regiment. From that he joined the diplomatic service as honor ary attaché and served at the English embassy at Rome from 1905 to 1907. In the three following years he was the A. D. C. to the late Earl Grey, then governor-general of Canada. He served in the trenches throughout the war, was in command of his battalion at Maubeuge when that place was captured two days before the armistice, and afterwards marched it to Cologne. He also led the 3rd Grenadier on their triumphal march through London in March, 1919, on their return from France. He was wounded three times, gassed once, won the D. S. O. (1918) and bar (1919) and the French Croix de Guerre. He has been called the richest soldier in the world. He is not only the heir to the Harewood estates, which comprise nearly 30,000 acres, but in 1916 he inherited about twelve and a half million dollars, mostly in cash, under the will of his great uncle, the eccentric Lord Clanricarde, the rather notorious Irish landlord who was chiefly famous in Ireland for his absenteeism. One of his first actions on returning to social life from the war was to purchase Chesterfield House, the famous Mayfair mansion fronted with tall columns, and where the Crown Prince of Japan stayed during his visit to London. The house was built by Isaac Ware, the famous 18th century architect, and the "cannonical pillars" came from Canons, the dismantled seat of the Duke of Chandos. The house is said to be worth more than the sum between two and a half and three million dollars. Viscount Lascelles was really one of the most eligible bachelors, therefore, in English society. He was long regarded as a confirmed bachelor, owing to the fact that many match makers had set their caps for him unsuccessfully. His engagement and marriage, therefore, to the only daughter of the King and Queen of England record the outstanding event in social circles since the war. He is a great sport and owns a famous racing stable; he also possesses an expert knowledge in art and is a keen rider to hounds, having established a pack of his own. He is a splendid host, is a humorist, and extraordinarily good bridge player. His intuition indeed at "anction" is regarded by some of his opponents as uncanny, a view which his partners are said to chucklely accept. He was an excellent officer. His cheerful spirit and pluck were maintained in face of all sorts of difficulties with instant and beneficial effect. It is recorded, to all those around him. He was eager to take more than his share of the rough work and frequently displayed an adventuresomeness which it was difficult to deduce from the expression of his long thin face with its somewhat dreamy eyes. He is outspoken and has the courage to push his convictions to a final test. As a soldier he always earned the respect of his men quite apart from his bravery, for the fact that he always preferred a fighting job to one which was safer and perhaps more spectacular. He is looked upon as a man—a friend worth having. His lordship, apart from his other interests, has identified himself with the industry of Barbadoes sugar plantations. The family has been connected with the industry from the beginning of the 18th century, and a number of estates in Barbadoes are still in their possession. Harewood House is one of the stately of the stately homes of England, a guest house of kings and queens since it was built more than a century and a half ago. Among its curiosities, connoisseurs of the family association with the West Indies, are its massive mahogany double doors, seventy-six in number, all made on the Harewood estate at Barbadoes. The mansion was built in 1760 for Henry Lascelles. It was furnished in 1765 and 1771, both Robert Adam and Chippendale being employed on it. One of its chief glories is its wonderful collection of china, valued at over \$1,000,000, and surpassed only by the collection at Windsor Castle. Among the best pieces are three vases, for which the father of the present Earl returned \$60,000 from an American. The proposal of the viscount to Princess Mary occurred at the country house of a peer which has romantic and political associations. Many of the ceilings at Harewood are painted by Rubens, Rose and Zucchi, and the galleries of the castle contain many good pictures by Reynolds, Hapner and Lawrence. There are 2,000 acres of an estate, of which one of the sights is the famous "Tokay" vine, seventy feet long, which was planted in 1785. The present king and queen stayed at Harewood in July, 1908, when they visited Leeds. Queen Victoria also stayed with her mother, the Duchess of Kent, before her accession, at Harewood House. The Czar of Russia was a guest in the year after Waterloo, and King Edward and Queen Alexandra have also been amongst the royal visitors. The marriage of Viscount Lascelles to Mary,

PRINCESS MARY. When the news of the engagement of Princess Mary to Viscount Lascelles first became known it was hailed with general satisfaction. The Princess has been a popular figure ever since her girlhood days, and British people are rejoicing that she has chosen a consort who is not of foreign birth. History affords ample precedent for such marriages in the Royal family, Queen Victoria's daughter, Princess Louise, becoming the wife of the Marquess of Lorne, afterwards Duke of Argyll. At a later date the eldest daughter of the Prince of Wales (afterwards King Edward VII) married Earl Fife, a Scottish noble who was elevated to a dukedom at the wedding breakfast. Since the war Princess Patricia, beloved in Canada, daughter of the Duke of Connaught, wedded Commander the Hon. Alexander Ramsay, D. S. O., R. N., who is, by the way, a distant kinsman of Lord Lascelles. Victoria Alexandra Alice Mary, third child and only daughter of the King and Queen, was born at Sandringham on April 25, 1897. She was carefully educated at home and possesses many accomplishments. During the war she organized a voluntary aid detachment of some thirty members, and the meetings were held at Buckingham Palace. Later Princess Mary took up regular duties as a V. A. D. nurse and worked with equal devotion and skill. She visited France immediately after the armistice, taking particular interest in the V. A. D. work at the base. Princess Mary was active in many other ways during and after the war, distributing bonuses to women land workers, visiting girls' hostels, opening women's clubs, thus displaying a keen interest in the welfare of her own sex and little children. On one occasion she danced merrily at an East End men's club during a tour of the institutions known as "Highway Clubs," her partner being an ex-machine gunner. Princess Mary became colonel-in-chief of the Royal Scots (Lothian Regiment) and takes the keenest interest in its doings. She made a point of meeting returned soldiers to England, and made charming little speeches on these occasions. Goldborough Hall may become the Yorkshire home of Viscountess Lascelles in the first years of her married life, and is the second of the two north country seats of the Earl of Harewood, her father-in-law. Goldborough Hall is a fine Elizabethan mansion, whose parlors and halls are very picturesque. There is an early English church adjoining the hall, which is notable for its number of thirteenth century cross-legged effigies. Ireland is full of expectation at the reported visit of Princess Mary to her husband's estate at Portunna. The Viscount is popular with his Irish tenants, and that being so, the Irish people are keenly anxious to welcome the only daughter of George V at the earliest opportunity. Fifteen picked Irishmen were selected to make the lingerie for Princess Mary's trousseau. It was of the finest Irish linen, and all the garments were threaded with pale blue ribbon, her favorite color. Princess Mary also gave the nuns at Carrickmacross a huge order for that well-known lace, and it is also officially notified that her traveling party should be of Irish tweeds, together with a number of white knitted frocks made by the peasant girls of Donegal. Her wedding ring is a Welsh gold, specially mined and should be remarked in passing. Brought up as a girl among boys she enjoyed from the first the advantages of co-education. Her ambition as a child was to do all her brothers did, and she vied with them in learning to ride and drive and "play cricket." Since girlhood she has spoken French and German fluently, is fond of sketching and photography, and is a very excellent musician. She became, under her mother's practical eye, an industrious needlewoman, and once when a visitor at the exhibition of the Needlework Guild was admiring a piece of the Princess's handwork, the Queen, who was standing by, said, laughingly: "I am afraid it cost some tears." Her devotion to her brothers is well known. Those who saw the departure of the Prince for India tell of how she followed him about the platform at Victoria as if jealous of anyone else getting a word with him, and how openly she showed her emotion when the carriage well was taken, through the carriage window. She is a prominent member of the League of Mercy. She is a distinguished officer of the Girl Guides' Association, and has appeared in uniform at inspections and parades. Her first speech in London was in November, 1919, when she attended a demobilization and tea party of the "Land Girls." The marriage, therefore, of this exceedingly human daughter of King George and Queen Mary is not an ordinary event but rather an extraordinary happening, and in her choice she is to be complimented. All the Marys of the Empire have striven to do her honor, and ever since the engagement was announced presents of various kinds have been arriving for the popular bride with unflinching regularity. She is youthful as yet, only being 24 years old, so that it is devoutly hoped she will have many happy and successful married years before her, and that her cup will be full of joy to the brim. The womenfolk all admire Mary's decision, in that she has proved she has a mind of her own and has selected a Briton of less than Royal rank and not a Prince of potentate of foreign birth. By her action she has confirmed the oft expressed opinion that since the war cut off the supply of petty German royalties for marrying into the British house, matches for the sons and daughters of Kings and Queens would be found at home. And just in proportion as Royal sympathies with the humblerst of its subjects, to do the peoples of the great British Empire, on which the sun never sets, rise up with one accord and with all their hearts pray God to bless this marriage made under the fairest auspices and grant Mary and her husband the fullest measure of happiness. God bless the Viscountess Lascelles!

LARKIN NOW HAS TITLE OF HONORABLE

Ottawa, Ont., March 3.—(Canadian Press.)—P. C. Larkin, recently appointed Canadian high commissioner in London, will soon be sworn in as a member of the privy council of Canada. His appointment to the privy council dates from March 1.

DISMISSAL PENDING NEW WAGES AGREEMENT AT CROW'S NEST PASS MINES

The executive of the Women's Hospital Aid met yesterday afternoon and formulated plans for the year's work. Mrs. E. A. Smith gave some information regarding social service work in other cities. A committee was appointed to confer with the hospital commissioners and tender the services of Miss Bell.

VALUE OF THORNE WHARF PROPERTY The expropriation proceeding between the city and the Thorne Warehouse Company were continued yesterday afternoon before Mr. Justice Crockett.

William O'Hara pleaded guilty yesterday afternoon in the police court to having liquor in his beer shop in Main street and he was fined \$200. Charles Wolfe was found guilty by the magistrate of lying and lurking in a yard off Westworth street and he was fined \$100 or three months in jail.

HAD PLANNED CAMPAIGN IN PHILADELPHIA New York Assistant District Attorney Tells More of the Lindsay Swindle Game.

New York, March 3.—Alfred E. Lindsay, creator of the "Domino Club" under indictment for swindling wealthy women in fictitious stock transactions was about to launch a Philadelphia campaign of glittering finance on the eve of his arrest. This was disclosed last night by Richard C. Murphy, assistant district attorney who said his informant was Maurice Wood, proprietor of the Green Hill Farm Hotel, at Overbrook, Pa., who told him Lindsay had engaged the hotel's most luxurious suite, apparently to be in touch with persons of means and social standing who made a rendezvous of the place.

LOCAL NEWS The choir of the Main street Baptist church were entertained last evening by Mrs. F. E. Flewelling, Douglas avenue. After the practice a social hour was spent and dainty refreshments were served by the hostess.

The Home for incurables board of directors held its regular meeting yesterday afternoon with Dr. Thomas Walker, the president, in the chair. All reports were satisfactory. During the month a much appreciated gift was received from L. R. Ross who sent a supply of fresh eggs for the inmates of the Home.

A successful tea and sale was held last night by the ladies of the "Work-a-lot" circle of the Main street Baptist church. Mrs. H. Cowan, Mrs. H. Polya and Mrs. B. McDonald were the general conveners; Mrs. D. Hutchinson and Mrs. F. E. Flewelling poured and a committee of twelve ladies served.

At the afternoon session of the contested will case of Charles Nevins, Miss Agnes Foley testified that Miss Smith had told her she was a married woman. Miss Agnes Stevenson gave evidence that Miss Smith had been a domestic servant for four years at 200 Princess street.

The members of the staff of the King street and Union street branches of the Bank of Montreal spent last night very pleasantly. The party, numbering about thirty, went for a sleigh drive to Torryburn and returned to the King street building where a supper of steaming beans was served and done full justice. Dancing was enjoyed afterwards and it was not until the early hours of the morning that the programme was brought to a close. Everybody thoroughly enjoyed the entertainment.

The executive of the Women's Hospital Aid met yesterday afternoon and formulated plans for the year's work. Mrs. E. A. Smith gave some information regarding social service work in other cities. A committee was appointed to confer with the hospital commissioners and tender the services of Miss Bell.

William O'Hara pleaded guilty yesterday afternoon in the police court to having liquor in his beer shop in Main street and he was fined \$200. Charles Wolfe was found guilty by the magistrate of lying and lurking in a yard off Westworth street and he was fined \$100 or three months in jail. Before passing sentence on him the magistrate said that if the boys and young men were driven from the streets at an early hour there would not be so much crime in the city.

LOCAL NEWS

MATCH POSTPONED.
 The Thistles-Cedars curling match arranged for tonight has been postponed until the first of next week.

FIVE AFTER ALL.
 A correspondent submits "all the letters of the alphabet in four words." Background Jewish advertisements, exquisitely. But exquisitely is not a word. It is two words.

ENGAGEMENT.
 Mr. and Mrs. W. A. Shaw announce the engagement of their daughter, Mabel West, to Robert S. McConnell of this city, the wedding to take place the latter part of April.

DEATH OF CHILD.
 Friends of Mr. and Mrs. Frederick LeBlanc, of Pleasant Point, will sympathize with them in the death of their infant son, John, which occurred this morning.

YACHTSMEN TO CHURCH.
 At a special service in the West End Presbyterian church on next Sunday every member of the Royal Kennebec Yacht Club will attend. Rev. Dr. J. A. Morrison, club chaplain, will be the preacher.

TO SAIL ON TUNISIAN.
 Sir Thomas Fisher, European general manager for the Canadian Pacific Steamships, Limited, is expected to arrive in the city tomorrow to take passage on the Tunisian, which is scheduled to sail for Glasgow.

TO ATTEND FUNERAL.
 Miss Ella G. Good left this morning for Fredericton to attend the funeral of her grandmother, Mrs. Nancy Good, which took place there on the arrival of the noon train. The late Mrs. Good formerly lived in Fredericton, but had been living for some time in Milltown, Maine.

AT THE HOSPITAL.
 It was reported today at the General Public Hospital that the condition of little Dorothy Lyons, aged twelve, who was badly burned on Wednesday through the explosion of some stove polish in her home on St. Patrick street, was only fairly good.

LAUNDRY CASE.
 Albert Stinead pleaded guilty to a charge of operating a boiler in a laundry in Charlotte street without a certificate of competence. H. McLean, J. J. McLean and Mr. Tennant. He understood that Mr. Tennant had discharged the defendant in the first case as soon as he found that he did not have the necessary certificate. The matter was postponed until this afternoon at 2.30 o'clock.

SAMUEL MILLER.
 A wide circle of friends will hear with regret of the death of Samuel Miller of Bayswater, Kings county, which occurred early this morning. Mr. Miller, who was seventy-two years of age, had been a life-long resident of that community and was well respected by all who knew him. He is survived by two sons, Charles and Edgar of Bayswater; one daughter, Mrs. Herbert Hughes of Summersville; one son, James, and one sister, Sarah, both of Bayswater. The funeral will be held on Sunday afternoon at two o'clock from his late residence.

GOING TO OLD COUNTRY.
 The Canadian Pacific Steamships Ltd. liner Mianessa will sail on the afternoon tide for Liverpool with approximately 180 cabin and over 200 third class. Among the cabin passengers are: Mr. and Mrs. George McAvity, Mr. and Mrs. L. P. D. Tilly, and Mrs. J. Ritchie of this city; Colonel and Mrs. B. A. Weston, D. A. and Mrs. Thompson, Capt. W. C. Stewart and W. R. Walsley of Halifax, N. S.; Captain W. J. B. Bassett of Toronto; Dr. L. S. and Mrs. McCann of Ottawa; C. W. Bowring and party from New York; R. Robertson of Moncton, N. B.; and Thomas Voight of North Sydney, N. S.

CITY HALL ELEVATOR.
 Arrangements have been made by the city engineer to effect changes in the construction of the pent-house on the roof of city hall to accommodate the machinery for the new elevator, in accordance with the ruling of the fire marshall and the building inspector. The new structure will be of steel supported on two steel I-beams between the walls of the building. Although this will increase the cost of the erection, it is expected that the whole job will be done at less than the estimated cost, which was as follows: Elevator, \$6,789; enclosure, \$2,988; steel, \$2,215; removing old stairs and repairs to walls, etc., \$3,000. Total \$14,992.

FUNERALS.
 The funeral of James Humphreys of French Village, was held yesterday afternoon from his late residence. Service was conducted by Rev. Mr. Waddington and Rev. A. W. Daniel. Interment was at Hammond River. The funeral was attended by many and a large number of floral offerings were received.

The funeral of Miss Elizabeth McKinley took place this morning from her late residence, 96 Queen street, in St. John the Baptist church for high mass of requiem by Rev. R. McDonald. Relatives were pallbearers. Interment was in the new Catholic cemetery.

The funeral of John Duffy took place this morning from the residence of her sister, 20 Pond street, to the depot. The body was sent to Norton, where requiem high mass was celebrated in the Sacred Heart church by Rev. M. O'Brien. Interment was at Norton.

WILLS PROBATED.
 In the probate court the last will of Abbie Carron was proved appointing E. F. Raymond executor and bequeathing her estate to relatives largely in the United States, with the exception of \$200 to the pastor of St. John the Baptist church. The estate was valued at \$4,050. J. H. A. L. Fairweather was proctor.

His widow, Charlotte D., was sworn as executrix of the last will of Wm. I. McDiarmid, realty \$800 and personalty \$2,800. Dr. J. B. M. Baxter, K. C., was proctor.

In the matter of the estate of Johanna M. Horgan, H. O. McInerney was sworn as executor. Bequests included \$360 to the Society for the Propagation of the Faith, New York; \$100 to the Roman Catholic Bishop for Golden Grove church; \$500 to the Mater Misericordiae Home, and after certain family bequests, the residue to the Roman Catholic bishop. L. M. Richie was judge pro vice, and Mr. McInerney proctor. The probate value was \$2,600.

The last will of Lyde McL. Flood was proved appointing S. A. McLeod of Sussex and Mrs. Mary Corbett, executors, realty \$8,000 and personalty \$2,700. C. H. Ferguson was proctor.

BROOKVILLE SCHOOL HOUSE AFIRE

A fire of somewhat mysterious origin broke out about seven o'clock this morning in the Brookville school building. Nearby residents were surprised to see smoke pouring out of the windows. Other residents were alarmed and a large crowd gathered and a bucket brigade was formed. The fire had gained such headway before they were first seen that it looked like an impossible task to save the building, but the men worked hard, aided by men from the quarry of the Brookville Manufacturing Company and after three hours of hard fighting the blaze was subdued. The damage was confined to the western portion of the building. Residents are at a loss to account for the fire, as it originated under some steps in a shed at the rear and away from the stove and chimney. About \$1,500 of insurance was carried on the building, which, it is thought, will cover the damage.

It will be impossible to have school sessions in the building for some time, but it was said this afternoon that some arrangements would be made for carrying on the work in another building while repairs and alterations are carried out.

STILL SEIZED IN THE NORTH END

Liquor inspectors Crawford, Journey and Killen, accompanied by Excise officer John Murphy paid a flying visit to Harrison street about 5 o'clock last night and seized a still which had evidently been in operation. The affair was a crude one consisting of a large milk can to which was soldered about nine feet of copper tubing. The machine was empty when found. The whole apparatus was removed to the central police station and information was laid this morning against the owner of the house who is now in jail, having been arrested one night this week on a charge of drunkenness. The case will be prosecuted by the excise department.

MRS. M. L. WATTERS

Death of Resident of North End for More Than Half Century.

An estimable resident of North End for more than a half century passed away early this morning at her home, 45 lower Metcalf street, in the person of Mrs. Mary L. Watters, wife of M. Jarvis Watters and mother of Everett H. Watters, cashier in the C. . . . freight sheds, Pond street. Besides her husband and the railway official mentioned, Mrs. Watters leaves three daughters, Mrs. Theodore Vallis, wife of the Milford steam ferry manager; Mrs. William J. Devenne, North End, and Mrs. D. H. Stewart of Pontiac, Mich. There are eight grandchildren. Charles Harper, North End, and George Giggey, Mattapan, Mass., are brothers, and Mrs. George A. Whelpley, 36 Sydney street, is a sister.

Mrs. Watters was of Loyalist descent. She was a daughter of the late Henry Watters and the late Mrs. Jane Giggey, and would have celebrated her half century of married life in June next had she been spared to her aged partner and family. She was a member of the Victoria street Baptist church, and throughout her long and useful life exercised a kind and benign influence towards all. The sorrowing husband, one of North End's veteran river and harbor workers, has been retired from active business for several years.

POLICE COURT

In the preliminary hearing of the second charge against John Perry and Matthew Friars, that of breaking and entering the warehouse of W. George and taking from there a quantity of liquor, Policeman Dykeman gave evidence today and the case was postponed until Tuesday morning at eleven o'clock for further evidence. E. J. Henneberry appeared for Friars. It is understood that Friars says he was at home when this break occurred.

A man was before the magistrate on a charge of assault on his son-in-law. The complainant said that they had been going over a matter, and the defendant had lost his temper and hit him behind the ear. He was willing to let the matter drop, he said, if the other would agree to keep the peace. The magistrate warned the defendant that he was liable to two years in Dorchester, but let him go with a fine of \$20, allowed to stand on condition that he took the pledge.

A case against Walter Bell, charged with obstructing liquor inspectors in the performance of their duties and with keeping liquor on his premises for the purpose of sale, was postponed until Monday afternoon. W. M. Ryan appeared for the prosecution, and E. S. Ritchie for the defence.

STIRLING WINS MONCTON PRAISE

Ernest Stirling, physical director of the Y. M. C. I., is in receipt of a letter from A. E. McNutt, who looked after the arrangements for the New Brunswick skating championships in Moncton. Mr. McNutt thanked Mr. Stirling for rendering such valuable assistance and said he was deserving of the title of "the best clerk of a course in the maritime provinces." He also forwarded to Mr. Stirling 100 souvenir programmes, which he asked him to give to the skaters who participated in the championships.

IN HONOR OF HIS SON.

Pilot Thomas J. Stone has received from His Majesty the King a memorial in memory of his son Thomas J. Stone, who gave his life in the war. It is inscribed: "He died for freedom and home." The many friends of Pilot Stone in shipping circles here and in Halifax will be sorry to learn that his condition does not improve very much. He has been in ill health for some time.

FOR THE ORPHANS.

A collection in aid of the Protestant Orphanage, taken up at the anniversary service of the Knights of Pythias, held in Trinity church on Sunday, February 19, amounted to \$735.50. It has been handed over to the treasurer of the orphanage.

LUMBERMEN MEET THE GOVERNMENT

Requests Presented in Fredericton This Morning.

Premier Not Adverse to Trying Quebec Stumpage System - Changes in House Committees - Guests at State Dinner.

(Special to Times.) House of Assembly, Fredericton, N. B., March 3.—A delegation representing the New Brunswick Lumbermen's Association waited on the government this morning and asked that changes be made respecting the fire protection service.

They asked that the administration of the fire protection act and protection of the crown lands be passed over to the licensees, also that the Quebec system of scaling be adopted. The government also was requested to fix the stumpage rate now instead of waiting until August, so that preparations for next year's cut might be made while the snow was on the ground. The argument was advanced that the changes would place the lumbermen in a better position to compete with Quebec.

Mr. Foster replied that he could not agree with the statement that the fire protection service was not efficient. The present service was a good one. He was in favor of any plan that would bring about a reduction in the cost. He also said that the present system of collecting stumpage was a great improvement over what was in effect previous to the present government coming into power in 1917. The premier said the government did not object to trying out the Quebec system of stumpage for a few years, particularly as the cut would be smaller.

Matters pertaining to the Workmen's Compensation Act also were discussed. The committee on appointment of standing committees met this morning and the following changes from last year's committees were made: Standing rules, John M. Flewelling in place of C. D. Richards. On contingencies, D. A. Stewart added.

On libraries, Mr. Richards in place of Mr. Baxter. Privileges, Mr. Young in place of Mr. Baxter.

Public accounts, Mr. Peck in place of Mr. Jones.

Municipalities, Hon. Mr. Michael in place of Mr. Duggan and Hon. Dr. Roberts, Hon. Mr. Messerieu, Mr. Dlott and Mr. Burlock added.

Corporations, Mr. Flewelling in place of Mr. Jones and Mr. Stewart in place of Mr. Baxter.

Agriculture, Mr. King in place of Mr. Duggan, Mr. Dlott in place of Mr. Fawcett.

Law practice and procedure, Mr. Fawcett in place of Mr. Baxter.

The debate in reply to the speech from the throne will be resumed this afternoon. The first speaker will be O. D. Richards, who will make his bow as the leader of the opposition.

State Dinner. Following are the guests at the state dinner to be given this evening at government house by His Honor Lieutenant Governor Pugsley: Hon. W. E. Foster, Sir J. D. LOCAL NEWS

IN ORDER TO VOTE. A notice has been posted in the chamberlain's office at city hall notifying the public that all tax arrears must be paid on or before March 15 to allow rate-payers to vote in the coming civic elections.

SOCIAL CLUB MEETING. On Wednesday evening the "Social Club" of St. Columba church, Fairville, met at the home of Mrs. Miriam Alaby and spent a pleasant social evening. Miss Sadie Cougle presided, and plans were discussed for future work. A social time was enjoyed and refreshments served.

HERE FOR MISSIONS. Rev. Father Bede, C. P., one of the Passionist Fathers, who will officiate at a mission in the Cathedral of the Immaculate Conception, starting on next Sunday, arrived in the city this morning from Baltimore. Two other members of the congregation, Rev. Father Mark, C. P., and Rev. Father Joachim, C. P., will arrive in the city tomorrow, the former from Boston and the latter from West Hoboken, N. J. It was announced today that the mission would be officially opened on Sunday at the 11:30 o'clock mass, but the mission fathers will also preach at the masses earlier in the day.

A HAPPY EVENING. Thorne Lodge hall was filled last evening when the Marsh Bridge Mission held a midwinter social. Some 200 were present. The hall was artistically decorated with bunting by John Fitzgibbon. The programme opened with a hymn by the school, followed by prayer by Wm. Baxter, superintendent, who also made an address. Piano solos were played by Miss Jean McLaughlin and Vicars McLaughlin, a duet was given by Mrs. Benjamin Watson and Miss Jennie Spivey, after which games were indulged in and prizes given to the winners. A very pleasant evening was spent, closing with the national anthem.

The Ladies' Aid had charge of the arrangements for the evening. Mrs. R. Hayes was convener, assisted by Mrs. Blinckhorn. The games committee was composed of Miss Amy Hayes, Miss Belle Charlton, Mrs. J. D. McKenag, Mrs. H. W. Stewart, Mrs. J. D. McKenag, Stevenson. The young ladies serving refreshments were Misses Olive Nixon, Edna Crozier, Ella Kingston and Agnes Robertson. Mrs. Snider and Mrs. MacTavish looked after the junior classes.

The following real estate transfers: S. H. Ewing and others to G. H. Burnett, property in Simonds. F. P. Elkin and others to A. Crawford, property in Peters street. A. J. Grubert to Pacific Dairies, Ltd., property in Lancaster. J. W. Simard to J. J. Cook, property in Douglas avenue. C. F. Phinney to Gladys Maloney, property in Lancaster. L. W. Farmer to M. L. Huggard, property in Union street. Kings County. A. G. Day to J. A. McCourt, property in Rothsay. G. M. Fairweather to Wm. Fairweather, property in Sussex. T. W. Farmer to M. L. Huggard, property in Springfield. C. N. Fowler to W. W. Waite, property in Bathurst. J. A. Turner to Ethel M. Messerieu, property in Westfield. T. N. Vincent to A. G. Day, property in Bathurst. A. W. Walters to Albert Pollock, property in Norton. Trustee of W. W. Waite to T. C. Ryan, property in Hampton.

PERSONALS. Hence J. Logan, M. P. for Cumberland, N. S., and Mrs. Logan reached Ottawa last night and are at the Chateau Laurier. Friends of Mrs. John White, City Road, who is ill, will be sorry to learn that she is not progressing so well as was hoped for. P. J. Slinney left last evening for his home in Oakville, Manitoba, after spending three months in this city visiting his mother, Mrs. John Slinney, Waterloo street. Rev. George Daly, C. S. S. R., returned today from Toronto. He is just recuperating after a serious illness and is not expected to be able to engage in mission work for some little time. A gripper will never pursue a diver or who was hurt recently by a fall which broke both hip bones, was reported today as not being very good. Mrs. John Smith of Oromocto, daughter-in-law of R. B. Smith, M. P. P., is seriously ill with blood poisoning and her recovery is not expected. Mrs. George C. Amherst, 107 Mecklenburg street, left on the noon train for St. Martin's, where she will be the guest of Mrs. Thomas Anderson. Miss Lillian Sweeney is away on a visit to Montreal and New York. Friends of Miss Geraldine Morris, of the General Public Hospital staff, who underwent a serious operation Tuesday, will be pleased to hear that her condition is improving and hopes are entertained for her recovery.

DEATHS. WATERS.—At her late home, 45 Metcalf street, North End, after a lingering illness, Mary Lois, wife of M. Jarvis Waters and daughter of the late Henry Harper, in the seventy-third year of her age, leaving, besides her husband, a son, three daughters, sister, two brothers and eight grandchildren. Funeral on Sunday afternoon at 2:30 o'clock from 45 Metcalf street. Friends and acquaintances respectfully invited to attend.

CORNER.—In this city, on March 2, 1922, Katherine C., wife of Joshua Corkey, in the 89th year of her age, leaving two sons and three daughters and two sisters to mourn. Funeral on Saturday morning at 9:30 from her late residence, 98 Elm street, to St. Peter's church for requiem high mass.

MCMAHON.—In this city, on March 2, 1922, after a short illness, Patrick McMahon, leaving his wife, one brother and one sister to mourn. Funeral on Saturday afternoon at 2:30 o'clock from his late residence, 78 Moore street. Friends invited.

MAGUIRE.—At her residence, 408 Main street, on March 1, 1922, James Maguire, leaving two sons to mourn. (Boston papers please copy.) Funeral will take place on Saturday morning at 8:30 from her late residence, St. Peter's church for requiem high mass. Friends invited.

REICKER.—At the residence of his uncle, Lewis P. Logan, 55 Kennedy Place on March 1, 1922, L. Archibald Reicker, aged 26 years, leaving his uncle and three aunts to mourn. Funeral on Saturday from St. John Baptist (Mission Church), Paradise row. Requiem celebration of the Holy Eucharist 9:30 a. m. Funeral service 2:30 p. m.

IN MEMORIAM. TRACEY.—In loving memory of Gwendolyn E. Tracey, aged three years and eight months, died March 3, 1921. And Jesus called unto Him a little child. FATHER AND MOTHER.

VANWART.—In loving memory of Oswald S. VanWart, who departed this life March 3, 1910. Gone, but not forgotten. FAMILY.

BARTH.—In loving memory of Mrs. Barth of Grey's Mills, Kings county, N. B., who departed this life March 3rd, 1921. Gone, but not forgotten. DAUGHTER ESTELLA.

EARLE.—In loving memory of my dear sister, Mrs. Mary Earle, who died March 3rd, 1921. She has gone away and left us. All her suffering now is o'er. But we hope to meet her yonder. On that bright and happy shore. SISTER, MRS. C. W. MORRELL.

CARD OF THANKS. Mrs. H. G. Pitt and family desire to thank Mrs. G. Pitt and family for the many friends who were so kind in their recent bereavement.

Mr. Mulcahy (in civilian clothes) minister of defence in the Southern Irish government, accompanied by the chief of staff, inspecting Republican troops outside Dublin barracks.

DAYLIGHT SAVING. (Toronto Globe)

The time approaches when municipalities throughout the country determine whether they shall adopt daylight-saving hours during the summer and what change of time, if determined upon, shall take place. In several European countries these decisions are arrived at by the national government, and all clocks are put back and forward simultaneously. In Canada the go-as-you-please method prevails, and there has been much confusion. The Railway Association, representing the executive heads of the chief transportation services in the Dominion, has decided to try and secure some measure of uniformity. The railways chiefs express no opinion on the merits or demerits of daylight saving, but they point out: Where one city advances its time on one date, the second on another date, and still a third retains its time, confusion and inconvenience are caused to travelers, business men and railway employees. For many years past the railways have made it a rule to change their winter train schedules to summer train schedules on the first hour of the Sunday nearest to the 1st of May, and vice versa on the first hour of the Sunday nearest to the 1st of October. These dates have been generally satisfactory as the dividing points between summer and winter, and we feel that they might safely be adopted by the municipalities. Daylight saving, if adopted, should begin and end in the way all important changes in time of October. These dates have been generally satisfactory as the dividing points between summer and winter, and we feel that they might safely be adopted by the municipalities. Daylight saving, if adopted, should begin and end in the way all important changes in time of October. These dates have been generally satisfactory as the dividing points between summer and winter, and we feel that they might safely be adopted by the municipalities. PRESIDENT OF AUSTRIA IS A PROHIBITIONIST

Active Work Begun to Organize the Country for the Ousting of Liquor.

(By Virgil G. Hinshaw, Chairman of the National Committee of the Prohibition Party, in Christian Herald.)

I was sitting only a stone's-throw from the Capitol steps in Washington, D. C., in the office of Dr. Clarence True Wilson, General Secretary of the Board of Temperance, Prohibition and Public Morals, of the Methodist Episcopal Church.

Large of frame, tall, dignified, yet pleasant in manner, the president possesses that politeness so characteristic of the Austrian, and immediately puts one at ease. He is quick to understand, decided in opinion, and ready in report.

"77" FOR COLDS

Grip, Influenza, Sore Throat

Dr. Williams' Pink Pills for Pale People

Headache

Recurring headaches usually come from an exhaustion of the nervous system, and they do not disappear until the vigor of the nerve cells is restored by such up-building treatment as Dr. Chase's Nerve Food.

Temporary relief by use of powders is often obtained at an enormous expense to the nervous system and the general health.

Get the nerves right and the headaches will not return.

Mrs. W. J. Pearce, Nunn St., Cobourg, Ont., writes:

"My system became run-down and I suffered greatly with pain in my head. This was so severe that I would have to bind a cloth tightly about my head so that I could get any work done. A friend advised the use of Dr. Chase's Nerve Food, and after taking the first box I found quite an improvement in my condition. I continued using them until I had taken about seven boxes, and they strengthened and built up my system splendidly, completely relieving the pain in my head."

Dr. Chase's Nerve Food, 50c a box, all dealers, or Edmondson, Bates & Co., Limited, Toronto.

from, we will be a hundred per cent. better able to meet the world's demands and to put Austria on her feet."

The president is not content with precept alone. He is ever emphasizing noble example. It appears that a party of Americans, some fifteen in number, including the mayor of a great city, some men of finance, others of the American Legation, recently invited him out to dinner. Liquors were served in quantities, and all imbibed freely except Dr. Hainisch. When the dinner was over all agreed that the President of Austria had proven himself the best American citizen of any present.

Again the president continued: "America can help us very much in the dissemination of facts about alcohol. Just a little American money will go very far in Austria. Make no mistake while you are here. Get representatives of all classes into the prohibition organization: get the Jews, the Catholics, the Protestants, the Socialists, the Laborers, the Employers, the Farmers, and the Men of Business! It will require the united efforts of all to make the movement a success!"

These words were typical of President Hainisch, he is true to principle and broad in his sympathies.

Not only is the president of the Republic a prohibitionist, but the leading political party, the Socialist Party, in total abstinence, and named prohibition

I Get Up Feeling Like a Boy Every Morning, Thanks to TANLAC

which has completely freed me of acid stomach and dyspepsia, says Walter Brodeur, 1472 City Hall Ave., Montreal. Acid Stomach, a choking sensation,

gastritis, nervousness, headaches and other distressing symptoms of dyspepsia are soon ended by Tanlac. Get it today at any good drug store.

as the ultimate and inevitable solution of the liquor problem.

When I arose to leave after two hours of conversation, the Chancellor of the President's Cabinet, Mr. Lowenthal, said to me: "What table is there in earnest discussion when they delivered the ultimatum to Serbia which started the

KEEP FIT Never let your system get run down -- keep fit all the time

As long as you keep yourself strong and healthy, it is almost impossible to contract colds and other contagious diseases.

Don't wait until your system becomes weakened, but immediately you notice you are not feeling up to the mark, start fortifying your system against disease by taking Carnol.

These remarks apply especially to children, who do not realize the importance of taking proper care of themselves.

The peculiar feature about Carnol is that, while it is a preparation containing cod liver oil, it has a delicious taste.

Carnol is the ideal preparation for run-down conditions. It is an excellent remedy for anemia, wasting nature, due to impaired nutrition, poor and insufficient blood supply. Carnol provides food for the nerves and builds up the body.

Carnol is of special value in the treatment of all nervous conditions marked by depression of the vital forces and usually caused by prolonged mental strain, overwork, nervous prostration.

Carnol has proven an excellent remedy in Rickets, that common disease of ill-nourished children and in other ailments.

Carnol is composed of that wonderful nerve tonic, glycophosphoric salts. This is commonly known the world over as "The Blood Salts." It is the best blood builder and nerve invigorator yet discovered.

Carnol also contains the soluble nutritive properties of fresh beef which stimulates and nourishes the system.

In addition, there is cod liver's extract with all the naseousing, bad-tasting elements removed.

Carnol is sold by your druggist, and if you can conscientiously say after you have used it, "I feel good, return the empty bottle to him and he will refund your money." 5-122

OF INTEREST TO WOMEN

Nurse Recommended Use of Lydia E. Pinkham's Vegetable Compound

Bothwell, Ontario.—"I was weak and run down, had no appetite and was nervous. A nurse who took care of me told me to try Lydia E. Pinkham's Vegetable Compound, and now I am getting strong. I feel like a new woman. I give my medicine to my friends, and you may use it, too. Write to Mrs. D. Maxwell, R. R. No. 2, Bothwell, Ontario."

well, Ontario. The reason why Lydia E. Pinkham's Vegetable Compound is so successful in overcoming woman's ills is because it contains the tonic, strengthening properties of good old-fashioned roots and herbs, which act on the female organism.

From all parts of the country are continually testifying to its strengthening, beneficial influence, and as it contains no narcotics nor harmful drugs it is a safe medicine for women.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Mass.

great world war. The seat at the head of the table is where sat the prime minister who controlled the proceedings."

I asked him if I might not sit in that seat for a moment, and the president said, "Yes, but please understand you must sit there in meditation of thoughts of peace and not of thoughts of war."

I promised him, and then occupied the chair for a minute. With President Hainisch acting as chairman, we formed a committee representative of the different groups; among them were Anton Holz, prominent leader of the Socialist forces in parliament; Dr. Joseph Longo, President of the Agricultural School, also in charge of the education of the Hainisch family, and of Elizabeth, daughter of Crown Prince Rudolph, son of Joseph; four hospital physicians, including the treasurer of the Austrian Medical Association; the leader of the Blue Cross; the head of the Catholic Abstinence Association; and the Superintendent of the Methodist Church in Austria.

The committee asked of the American branch of the World Prohibition Federation a million kronen. Two of the constituent bodies of the Federation—the Methodist Board of Temperance, Prohibition and Public Morals, and the Prohibition Foundation—were gotten in touch with and the money quickly provided. Now comes the surprising part of the transaction.

Six million kronen before the war represented one million two hundred thousand dollars, whereas now it equals only two thousand dollars.

While only a trifle to the American, two thousand dollars is a vast sum to the Austrian. Let us cite a few examples in order to show the power of the American dollar in Europe at this time.

After going to fourteen hotels, I finally located a room in the Hotel de France upon the Ring, a reputable place. My room for two weeks was fourteen cents a night in American money. I sat one morning at breakfast in the dormitory of the Agricultural College when a student entered, who had just lost his parents. He was unable to continue his education, and he had to leave the school for a year and was informed that twenty-seven thousand kronen, if paid for a period of ten months with board, room, books, and incidentals. I looked up the exchange rate and discovered that this could be purchased for nine dollars of American money. Needless to say I purchased it and gave it to the young man who would provide for his education for one hour each day for total abstinence and prohibition.

With these rates of exchange in mind, it is not surprising that he desired to know how the six million kronen appropriated for temperance work will be spent. Nine dollars will pay the salary and traveling expenses of Prof. Longo, for two-thirds time, plus the salary of one full time stenographer, plus the cost of stamps and envelopes, and certain literature. Nine hundred thousand kronen, or three hundred dollars, will pay the expenses of printing six hundred thousand copies of Dr. Abstinence, and the publication. The same would cost in the

United States three thousand dollars. Six hundred thousand kronen, or two hundred dollars, will pay the salary and expenses for a year of a man to organize the universities and colleges of Austria. One million, five hundred thousand kronen, or five hundred dollars, will be used for the purchasing and running expenses of an auto truck to be used for the transportation of wax demonstrations of the bodily organs, showing the effects of alcohol.

We still have two million, one hundred thousand kronen to be spent as the wisdom of experience may suggest.

When the president invited us down to his palace in order to have a photograph taken of the committee. We sat around the famous table, ten in number, where sat the Austrian Cabinet after the murder of the heir to the Austrian throne, when they delivered the ultimatum to Serbia. Many thoughts passed through our minds as we sat there. This same table was used only seven years before for a conference by a reactionary cabinet of one of the oldest of the world's monarchies to plunge the world into the worst war of all the ages. Since that time eighteen million graves had been dug and had been topped and cradled. Kingdoms had fallen.

What had become of the famous history-makers who sat around the table upon the occasion of such moment? Count Sturgh, the prime minister who governed the proceedings that were to spread such a canopy of horror over the earth's domain, was later shot in a Vienna hotel by a man who now holds a conspicuous place of leadership in the Austrian parliament. Count Berchtold, minister of foreign affairs, died in exile in Switzerland; Count Tisa, Prime Minister of Hungary, was killed in Budapest; Minister Bolinske for Bosnia, is in exile in Poland.

Certainly these are endings worthy of the picture of world catastrophe and ruin of devastation and death. Judas sold his Lord for thirty pieces of silver and then went out and hanged himself. These men had been great and noble, tenth of the mature male population of the globe, and the despoilers of one-sixth of the world's wealth. Where were they now? In ignominious graves; in exile.

Truly a new day had dawned. This same table was now being used by the head of the Austrian first Inter-Society organization of the first Inter-Society Total Abstinence and Prohibition Committee, of which the president is executive head.

When the picture had been taken, I turned to the president and asked, "Will you not please give us a message for the American people?" He readily assented and dictated the following expression to which he added his signature: "Message to America through the World Prohibition Federation:

"My message to America is this: Stand by prohibition, enforce the law, because in proportion as you enforce it, there will be a decrease in criminality, pauperism, insanity, and the other things that make for the hell of our society."

"I regard the Eighteenth Amendment to the Federal Constitution of the United States of America as one of the greatest

JO-BEL The Wonder Salve

We invite all afflicted with piles, eczema, salt-rheum, itching, chafing, pimples, sores, boils, cuts, bleeding at the nose, cold in the head, to profit by the experience of those who were similarly afflicted and give JO-BEL SALVE a trial.

All our testimonials have been from well known people who, out of gratitude for what JO-BEL has done for them, and in the interests of suffering humanity, have kindly permitted their names to be used.

Send for testimonial sheet. Sold by all leading wholesale and retail drug stores. Price 80c and \$1.00 per box.

For PERFECT HEALING—It's ZAM-BUK EVERY TIME

ULCERS & OLD WOUNDS. "Ulcers broke out on my right ankle, and the whole leg was full of inflammation and pain," says Mr. Edward Bingham, of 118, Brant Avenue, Brantford. "I could neither wear boot nor shoe, nor could I move about at all."

"Lotions, salves and ordinary ointments seemed unable to touch the ulcers, but the very first application of Zam-Buk was soothing and cooling. As I kept on with Zam-Buk, the swelling, inflammation and discharge was thoroughly subdued, and the sores were gradually and permanently healed with firm new tissue."

EGZEMA, RINGWORM, ETC. "A nasty patch of eruption," writes Mrs. W. Adams, of 489, La Salle Road, Montreal, "started on my little son's neck and spread rapidly until his body was entirely covered. The boy was treated at three different hospitals and at last the doctor pronounced the disease incurable. Five years elapsed from the sores first appearing a marvellous improvement. My boy got better and better until after four months Zam-Buk treatment his skin was absolutely cleared of every sore and eruption. There has never been the slightest sign of disease since."

EVERYDAY INJURIES. "I gashed my fingers very badly with a piece of tin," says Mrs. S. Chiff, of Melville, S.D. "The wound somehow became infected, and blood-poisoning set in. I received doctor's treatment but the throbbing and swelling spread right up into my shoulder. So long as I applied Zam-Buk, the swelling was reduced rapidly and before long Zam-Buk had drawn every bit of inflammation and poisonous matter out of the wound and effected perfect healing."

THERE'S NOTHING TO TAKE THE PLACE OF Zam-Buk

THERE'S NOTHING ELSE soothes and heals so speedily as Zam-Buk when cuts are cut, burnt, scalded, chapped or bruised. Zam-Buk is also a most invaluable remedy for weeping or dry eczema, ringworm, shrapnel sores, head legs, boils, pimples, poisoned wounds and ulcers. In 50c. boxes, 5 for \$1.25, all dealers, or for TRIAL SAMPLE send 1c. stamp to Zam-Buk Co., Toronto.

Nature's means of stopping coughs comes to you direct from her vast Spruce Forests. Over 60 years in household use.

YOU can't do your best when you get your back and every muscle aches with fatigue. Apply Sloan's Liniment freely, without rubbing, and enjoy a penetrative glow of warmth and comfort.

Apply Sloan's Liniment freely, without rubbing, and enjoy a penetrative glow of warmth and comfort. Good for rheumatism, neuralgia, sprains and strains, aches and pains, sciatica, sore muscles, stiff joints and the after effects of weather exposure.

For forty years pain's enemy. Ask your neighbor. Keep Sloan's handy. At all druggists—35c, 70c, \$1.40. Made in Canada.

Sloan's Liniment Pain's enemy

POPULATION SHIFTS WEST

Eastern Provinces Will Lose Three Members and West Gain Twelve.

Statistics of Growth—In 1871 Canadians Numbered 3,689,257, of Whom Only 109,475 Lived in Northwest.

Ottawa.—Publication of the results of the census of 1921 turns attention to the gradual shifting westward of what may be called the centre of gravity in respect of population and parliamentary representation in Canada. Ontario, with a population of 2,929,084 in 1921, is the home of almost exactly one-third of the people of the Dominion. In 1911, Ontario, with 2,523,274 people, boasted 85 per cent. of the inhabitants of Canada. Quebec—whose population determines the unit of representation in the House of Commons for the other provinces—with 2,009,232 people in 1921, represented almost 28 per cent. of the population of Canada. In 1921, with 2,249,987 people, Quebec's population is somewhat under 27 per cent. of the population of the Dominion. All the provinces except one 1871 there were only 109,475 inhabitants in that western and out of a total population of 3,689,257 in the Dominion. In 1881 there were 168,165 out of a total

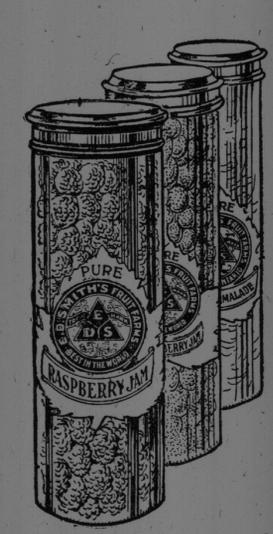

THOROBREAD FLOUR Becomes a Habit

Milled by Hunt Bros Limited London, Canada. "The housewife of the Hour knows its great Bread-making power."

Prince Edward Island, from which there has been a pretty constant stream of emigration to western Canada for years. Prince Edward Island had 94,921 people in 1871, according to the census returns. Its population increased until in 1891 it had 109,078 dwellers within its area of 2,184 square miles. Since then its population has declined until today its people number 88,616, or five thousand less than in 1871. Ontario's population has grown from 1,620,851 in 1871 to 1,826,922 in 1881, to 2,114,321 in 1891, to 2,182,947 in 1901, to 2,523,274 in 1911, and reached 2,929,084 in 1921. Shifted Westward. With the opening up for settlement and the development of the great territory west of the Great Lakes, the weight of population has shifted westward. Ontario's population has grown from 1,620,851 in 1871 to 1,826,922 in 1881, to 2,114,321 in 1891, to 2,182,947 in 1901, to 2,523,274 in 1911, and reached 2,929,084 in 1921. Increase in the Dominion's population and the spread of settlement into new provinces has been reflected by increases in membership of the House of Commons and changes in the representation of the provinces. Under the next Representation of the People Act, the House of Commons will likely consist of 244 members, distributed as follows: Ontario, eighty-one; Quebec, sixty-five; Nova Scotia, fourteen; New Brunswick,

eleven; Prince Edward Island, four; Manitoba, seventeen; Saskatchewan, twenty-one; Alberta, sixteen; British Columbia, fourteen; Yukon, one. In the House of Commons which assembled immediately after Confederation there were 181 members, of whom eighty-two came from Ontario; sixty-five from Quebec, nineteen from Nova Scotia, fifteen from New Brunswick. Manitoba entered the Confederation in 1871 and was accorded four members. British Columbia joined and was given six members. The membership of the House was thus 191 at the close of the first Parliament of Canada. The Representation Act based on the first decennial census, that of 1871, enlarged the House of Commons to 200 members, of whom eighty-eight were from Ontario, sixty-five from Quebec, twenty-one from Nova Scotia, sixteen from New Brunswick, four from Manitoba, and six from British Columbia. Prince Edward Island's entry into Confederation added another six members. The Representation Act of 1887 increased the House to 211 members by raising Ontario's representation to ninety-two and Manitoba's to five. In the same parliament the Northwest Territories were given four members and the Commons' membership rose to 215. A readjustment in 1892 reduced the house to 218. Nova Scotia's quota of representatives fell to twenty, New Brunswick's to fourteen, and Prince Edward Island's to five. Manitoba, however, was given seven seats, a gain of two. By the legislation of 1902 the house was fixed at 214 members. Ontario's representation dropped to eighty-six, Nova Scotia's to eighteen, New Brunswick's to thirteen, Prince Edward Island, four; Manitoba, ten; Saskatchewan, ten; Alberta, seven; British Columbia, seven; Yukon, one. The redistribution of 1914 brought another reduction in the representation of the eastern provinces and increases in the west. Ontario was given eighty-two seats; Quebec, sixty-five; Nova Scotia, sixteen; New Brunswick, eleven; Manitoba, fifteen; Saskatchewan, sixteen; Alberta, twelve; British Columbia, thirteen; Yukon, one. Prince Edward Island would have had only three members, but legislation was passed providing that the representation of a province in the commons should not fall below its representation in the senate. Prince Edward Island thus retained four members in the commons and the membership of the house stood in the last parliament at 235. Another redistribution must now be made. By it the representation of the eastern provinces in the House of Commons will likely be reduced by three members, while that of the four western provinces will be increased by a dozen.

E. D. SMITH'S JAMS

IT'S their rich fresh taste that puts E. D. Smith's Pure Jams in a class by themselves. Located in the heart of the Niagara fruit belt the Smith preserving kitchens are actually in the fruit orchards. Fruits are picked and preserved the same day, nothing being added but granulated sugar. This is the secret of their natural flavor.

Ask your grocer for a 1 lb. jar or a 4 lb. tin of the fruit you prefer.

Advertisement for Ganong's Chocolates. Includes an illustration of a chocolate bar and text: 'Why don't all chocolates have the same exquisite aroma? The flavour of the chocolate coating depends on a careful selection of the cacao beans... Ganong's select, blend and roast their own cacao beans. The aroma of the chocolate depends on a proper roasting of the carefully selected beans, just as aroma is developed in roasting coffee. In the famous candy kitchens at St. Stephen, this roasting is most carefully done. No highly flavoured centres can disguise the lack of attention paid to the chocolate itself by makers who depend upon outside sources to supply the coating they use. On over 130 varieties of chocolate confections, the palate of the true connoisseur recognizes the exquisite mellowness of the "G.B." coating. GANONG BROS., LIMITED, ST. STEPHEN, N.B. Ganong's Chocolates The Gift of Gladness'

Change in Representation. The Representation Act of 1906 increased the House to 221 members and took cognizance of the organization of the new provinces of Saskatchewan and Alberta. The House of Commons was constituted as follows: Ontario, eighty-six; Quebec, sixty-five; Nova Scotia, eighteen; New Brunswick, thirteen; Prince Edward Island, four; Manitoba, ten; Saskatchewan, ten; Alberta, seven; British Columbia, seven; Yukon, one. The redistribution of 1914 brought another reduction in the representation of the eastern provinces and increases in the west. Ontario was given eighty-two seats; Quebec, sixty-five; Nova Scotia, sixteen; New Brunswick, eleven; Manitoba, fifteen; Saskatchewan, sixteen; Alberta, twelve; British Columbia, thirteen; Yukon, one. Prince Edward Island would have had only three members, but legislation was passed providing that the representation of a province in the commons should not fall below its representation in the senate. Prince Edward Island thus retained four members in the commons and the membership of the house stood in the last parliament at 235. Another redistribution must now be made. By it the representation of the eastern provinces in the House of Commons will likely be reduced by three members, while that of the four western provinces will be increased by a dozen.

C. N. R. MAN GETS MEDAL. Moncton, March 2—John Nelson Merrill, of this city, was this afternoon presented with an Imperial medal in honor of fifty-one years of faithful service in the Canadian government railways. Merrill entered the service in May 1869 as a brakeman and served later as a conductor, and finally as a constable.

THE DELORME CASE. Montreal, March 2—J. C. Walsh, K. C. crown prosecutor, this morning announced that the preliminary hearing in the case of Father Delorme will be held next Tuesday before Judge Cusson. The audit of the accused priest's books has not yet been completed.

Lists various records including 'NATURE'S melody, gushing ecstatically from the little throats of feathered troubadours...', 'DANCE RECORDS', 'INSTRUMENTAL', 'VOCAL RECORDS', and 'BAND RECORDS'. Starr Co. of Canada Limited LONDON, CANADA.

Advertisement for Eddy's matches. Includes large text: 'The World's finest Match Made in Canada - by Eddy! - since 1851'. 'With his own hands, 71 years ago, Ezra Butler Eddy in a little house at Hull began making the World's Finest Matches—just a few boxes a day. When the first sulphur match was made in Canada, Eddy made it. When the first safety match was made in Canada, Eddy made it. When the first wax match was made in Canada, Eddy made it. When the first non-poisonous match was made in Canada, even before the Government made its use compulsory, Eddy made it. Every new process of match-making and match-packing was first introduced into Canada by the Eddy Company. From the Canadian forest to the familiar package, every detail of match-making is carried out in the enormous Eddy plant covering 75 acres—on the site of the little house where Ezra Butler Eddy made his first match—in 1851! By special appointment to 9,000,000 Canadian housewives and smokers, by right of faithful service purveyors of fire for light and comfort, Eddy's have made the carrying of fire safer, more efficient, economical. When other sources of supply failed, Eddy's matches went Overseas, bringing to our boys the solace and comfort of tobacco. Fired by such a spirit, with unlimited resources at its command, can you doubt that Eddy's will continue to be the World's Finest Match? The Eddy ideal still prevails!

Used Rolling Store for Test—Now Can't Drop It.
Wishing to try out the possibilities of Ford and Riverside, two growing suburbs adjoining Windsor, Ont., before opening up a store, Weir Eckenswiler five months ago fitted out an automobile which he had purchased very attractively.

Stage Sales for Store Employees.
Special sales for employees only and special "tips" to employes on value in which they should be interested form an important feature of the means whereby the McCrery store helps its personnel to help themselves. The plan is very simple. It always works, usually with complete thoroughness.

Trains Clerks With Customers' Letters.
When Miss Mary Hopkins, educational director of the Jordan's Company's department store, in Boston, tackles the big problem of how to educate the employees up to the establishment's service standards, she finds that her talks along these lines can be made much more effective by quoting letters received from customers on the subject.

This Letter Made Rent Pay Up.
Collections were slow and hard to make. The firm needed cash to meet maturing bills and save discounts, to which much importance attaches these days. This danger is made considerably less, being in a rural community.

Consolidated, our favorite gold stock rose 65 cents in one day, while McIntyre gained 12 points. These spectacular advances have again brought the general public back into the market, while it was noted that much buying was done here on New York account.

Veteran Lamy Breaks Two World Records

Skater Who Was Here Last Week Sets New Mark for Three-Quarter Mile and Five Miles at Saranac.

Saranac Lake, N. Y., March 3.—(Canadian Press)—Edmund Lamy, of Saranac Lake, beat two world skating records here yesterday afternoon at a testimonial meeting arranged to celebrate his sensational skating this winter. He was paced by Bobby MacLean, of Chicago, Everett McGowan of St. Paul and Donald Baker, of Brooklyn.

He completed the three-quarter mile in 1.55 and the five mile speed trial in 15 mins. 15 secs. This latter was 33 seconds less than the time of Norval Baptie of Minneapolis, some twenty years ago.

Officials of the Lake Placid, the Adirondack and the Saranac Lake Skating Associations were in charge of the meet.

WILLS KNOCKS OUT NORFOLK

New York, March 2.—Harry Wills, heavy-weight fighter of New Orleans, tonight knocked out "Kid" Norfolk of Baltimore in the second round of their scheduled 15-round bout in Madison Square Garden. When they came out of their corners in the second, Norfolk went into a clinch, and a moment later fell backwards to the floor, taking the full count.

Billy Miske, St. Paul heavy-weight, knocked out Al Roberts, of New York, in the second round of their scheduled eight-round bout.

NIGHT COUGHS

Terribly wearing on the system is the cough that comes at night and prevents sleep. The constant coughing keeps the lungs and bronchial tubes in such an irritated and inflamed condition that they get no chance to heal.

You will find in DR. WOODS' NORWAY PINE SYRUP a remedy without an equal for soothing the lungs, loosening the phlegm, strengthening the breathing organs and fortifying them against serious pulmonary disease.

Mrs. John McKerney, Lower Montserrat, P. E. I., writes: "About three years ago I caught a very bad cold accompanied with a sore throat and hoarseness and was so hoarse you could hardly hear me speak. I could get no rest at night with the terrible annoying, hacking cough. I tried several remedies, but they did me no good. Finally I saw Dr. Woods' Norway Pine Syrup advertised; got a bottle, and at once it gave me relief, and after using four my cough had all gone. Now I always keep 'Dr. Woods' in the house, and shall recommend your wonderful remedy to others." Price 35c. and 60c. a bottle at all dealers. Put up by The T. Milburn Co., Limited, Toronto, Ont.

GORMAN GUEST AT K. OF P. SMOKER

Skater is Presented Handsomely Framed Picture of Himself—J. S. Lord of St. Stephen a Speaker.

The Knights of Pythias held their annual smoker and entertainment last evening in the Pythian Castle. The affair was one of the most successful of its kind ever held by the order in this city and was attended by nearly 500 men. The guest of honor of the evening was Charlie Gorman, to whom was presented a large, handsomely framed picture of himself, ready for action. The programme was excellent and a special address by J. S. Lord of St. Stephen, grand chancellor of the K. P. order for New Brunswick, was also enjoyed, especially by all members of the order who were present.

The large auditorium in the Pythian Castle was filled almost to capacity when the chairman, J. F. Kelly, opened the evening's proceedings. A musical programme was first carried out as follows: Solo, F. Irvine; step dances, Mr. McFadden's solo, Ernest Hill; solo, Kenneth Colwell; comic songs and dances, Jack Rossley. Interspersed between these numbers were several selections by a special orchestra.

Mr. Lord then outlined the aims and ambitions of the K. P. order and said that it helped to develop men who were better able to place Canada in the forefront where she belonged. He said that the knights always welcomed strangers and the aims of the order were to succour the weak, relieve the sick and look after the last rites of their brother knights. He said that the three principles of the order were: Friendship, charity and benevolence. He also outlined the reasons for the adoption by the order of the title of Knights of Pythias.

Following this address Charlie Gorman was called to the platform and Chancellor Commander Dick presented the token of appreciation to his brother knights to the guest of honor. He congratulated Charlie on his grand showing so far in the skating game and proposed that he was the coming "Ace of America." Gorman expressed his sincere thanks, for the honor bestowed upon him, in a few well chosen sentences.

The picture, itself, was similar to those which have been exhibited recently of Charlie Gorman. It was greatly enlarged and enclosed in a neat, broad frame. A plate on the base of the frame bore the following inscription: To Charlie Gorman, Canada's chief contender for World's amateur skating honors, from his Pythian comrades, 1922. At the conclusion of the presentation a minstrel troupe appeared and kept the audience in roars of laughter by comic songs and witty speeches. One of the troupe sang a special ballad on Charlie Gorman and his wonderful skating record. The audience was then divided into two sections and each one took a turn at "journing" to the parlor on the ground floor where refreshments were served by members of the order.

The section upstairs was entertained during the interval with moving pictures.

The success of the affair was largely due to the strenuous efforts of the committee, consisting of J. F. Kelly, chairman, and James Stephenson, W. A. Simonds, Gordon Henderson, A. M. Nixon, L. Yeomans, G. C. Thomas, K. Munroe and L. S. Wetmore.

For Colds, Grip or Influenza and as a Preventive, take Laxative BROMO QUININE TABLETS. The genuine bears the signature of E. W. Grove. (Be sure you get BROMO.) 30c. Made in Canada.

AUTOS KILLED MANY MORE THAN DIED IN WAR

Highway Fatalities in U. S. in 18 Months 91,000, Including 25,000 Children.

New York, March 3.—(Canadian Press). During the eighteen months in which the U. S. troops were engaged in the war overseas, 48,000 soldiers lost their lives on the battlefield. In the same period, according to the New York Herald, 91,000 persons, of whom 25,000 were children, were killed by automobiles on United States highways.

TORONTO GIRL IS KILLED BY CAR; MOTHER HURT

Toronto, Ont., May 3.—Nine-year-old Dorothy Knauff was fatally injured, and her mother, Mrs. Grace Knauff, aged twenty-nine, sustained head injuries when they were run down by a motor car driven by Charles W. Syrett, last night.

Goodyear Cord Tires are lower in price and higher in quality than ever before. GOOD YEAR MADE IN CANADA

NEW HOCKEY RINK FOR NEXT WINTER

A brand new hockey rink for the fans of St. John seems to be assured for next winter in view of the recent efforts of two enterprising business men of the city. The promoters of the undertaking are Joseph Morgan and Frederick G.

Finley, and they have decided to erect an up to date structure on a site which they have secured near the Dufferin school building in the North End. The proposed rink will have an ice area of 85 by 100 feet and seating accommodation will be provided for about three thousand people. The rink will be built by the two men without any public subscriptions. The scheme has been brought to the attention of the business men who contemplated such a building as a community enterprise last fall and they have agreed to relinquish their efforts in the matter. The work will be done this summer, so that with the coming of frost next winter everything will

EIGHT LEADERS FOR GIRL GUIDES

With full ceremonial, eight Girl Guide leaders were enrolled into the sisterhood of guides by Miss G. O. Lodder, national training officer, in the Y. W. C. A. recreational centre last night. The eight had passed successfully the various tests necessary for enrollment, having been

in training, with Miss Lodder as instructor, for the last few days. Two more leaders will be enrolled today. Those enrolled last night were: Mrs. N. R. DesBrisay, local commissioner; Mrs. R. D. Dole, Miss I. McArthur, Miss I. Barber, Miss Allan, Miss M. Terry and Miss Scott, of St. John, and Miss Caswell, of Milltown. Miss Lawson, of St. Stephen, who also is attending the course of instruction, already has been enrolled as a second-class guide. Mrs. G. L. Short and Miss Thomson will be enrolled as guides today.

"Just as charming as they look" You can buy any of these Exquisite Spring Blouses To-morrow for \$2.50 Sizes 34 to 42

Could you find anything more up to the moment than the styles sketched? Such clever adaptations of the round, flat collar that will be so popular this Spring—chic little Peter Pans—the Jabot effect on the extreme left is so smart with a sweater. Such stylish blouses for right now.

And is it possible for \$2.50 to buy more downright value? The blouses are exactly as pictured—made from a fine imported Voile—dainty, good-looking laces—clever touches of embroidery—artistic pearl buttons that you generally see only on much more expensive blouses. Be sure and get one at least of these wonderful bargains.
