

# Thoughts of Miss Kelo

(Sir Oliver Lodge, famous English savant, has just read the whole world by declaring that not only do we keep on living after death, but that it is entirely within the cold province of science completely to prove this! In America a master brain is also at work in attempting to solve the strange import of "things not of this earth." He is Hamlin Garland, famous writer, author of "The Shadow World," and leader in a great national society for psychical research. Garland, in his years of investigations of the occult, has met with many astounding and apparently inexplicable experiences—things involving deeply mysterious phenomena. And now he himself has selected and written the greatest of these for the readers of this paper.

In this article today he tells a real "ghost story."

## BY HAMLIN GARLAND

(Famous American Author of "The Shadow World," "The Tyranny of the Dark," etc.)

In January, 1888, I was lecturing in Los Angeles for the benefit of the public library. One night, after my address, and as I was standing with Miss Kelo, the librarian, greeting some friends, I observed Mrs. S., a young psychic with whom I had had one or two sittings and a head and directly sincere and naturally refined little woman, I introduced her to Miss Kelo, saying: "Here is a medium who has offered her services to the American Psychical Society, on the impulse of the moment."

Miss Kelo said, "Let us go to my apartment and have a sitting."

In less than half an hour we were seated about a table in her study, which contained an upright piano.

Without going into the particulars of the first sitting I pass to the chief incident in the third sitting—this also took place in the same room, but under more rigid conditions.

The psychic's wrists were bound to her chair arms by silk tape. A tape encircled her ankles and the two ends were drawn back of her chair and nailed to the floor!

I sat at her left and a thoroughly trustworthy woman at her right; under these conditions and with the room dark we sat conversing until a soft drumming was heard upon the top of the piano which stood a little higher than the medium's head and directly behind her.

I was seated a little back of the medium and within reach of the piano and when the "spirit hand" dropped to the strings I leaned back and laid my hand

In the circle Hamlin Garland and (below) a picture of the scene in which the piano "played itself."

The sounds were loud or soft at my will. With my hand accented, for with the piano under control this twanging of the strings of the closed piano was to me inexplicable then—and remains a mystery to this day.

"Tomorrow Hamlin Garland will relate a second in his series of his own experiences 'not of this earth.'"

## "SLOWLY AND CAUTIOUSLY" NOW

(Halifax Recorder)

When the famous naval resolution of 1909 was introduced, Mr. Borden emphasized the need of haste in the matter, and at his suggestion the word "speedily" was placed in the context. From that time onward he was never tired of reiterating the need of haste in preparation for naval defence. After a time, in his desire for "speed" he gave up the Canadian navy and adopted the policy of contributions to the admiralty.

When he brought in his bill last year, accompanied by the famous "canned" oration, he raged the changes on the "canned" oration, and "effective" all, despite the fact that he had been in office for a whole year before making his first step. Then the premier himself, his followers, and the Tory press generally denounced the opposition in all the newspapers and because of their alleged delaying of the naval issue when the empire was in danger of being up some fine morning and finding itself non-existent.

Like Hetspur of old, he was "bloody with spurring, fiery hot with speed" in his affected anxiety to rescue the motherland from imminent dissolution. "Emergency" and "Armageddon" were forever on his tongue, and he babbled much of "dark clouds" and "lightnings below the horizon," and the ominous rumble of distant thunder, and other sombre and dreadful things calculated to "make yer flesh creep," as the fat boy in Dickens used to say.

But all these things seem past and gone. Neither "speed" nor "emergency" now dominate the situation. When in Halifax a week ago, the premier addressed the faithful in a carefully prepared speech, wherein the word "emergency" never once occurred. On the other hand, he announced in his most pontifical manner, that "the genius of our race is to proceed in such matters slowly and continuously and to depend rather upon experiments and experience than upon logic."

Hon. Sydney Fisher was chosen yesterday as the Liberal candidate in the Chateaugay by-election in Quebec.

## NEWBRO'S HERPICIDE SAVES WORRY, SAVES MONEY, SAVES THE HAIR

If you want to free your head of dandruff and stop falling hair, you must sooner or later resort to Newbro's Herpicide. It would be just as effective if used first.

By using Herpicide first you save yourself worry, which is considerable, and you save your hair, which is the most important of all.

Why not profit by the experience of Mrs. S. A. Lee, of 110 South Fourth St., Richmond, Va., who writes:

"Four years' residence in India ruined my hair until it was but two inches long and very thin. I tried everything in Europe and America without benefit until I was induced to use Herpicide. My hair is now long, soft and silky and natural color, while before it was quite gray. My friends never tire of admiring my hair."

## 10 CENT "CASCARETS" STRAIGHTEN YOU UP

When Headachy, Bilious, Constipated, Stomach Sour, Breath Bad

Turn a 10-cent box now.

Get the rancid oil of the headache, biliousness, indigestion, the sick, sour stomach and foul gases—turn them out tonight and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels or an upset stomach. Don't put in another day of distress. Let Cascarets cleanse your stomach; remove the sour, fermenting food; take the excess bile from your liver and carry out all the constipated waste matter and poison in the bowels. Then you will feel great.

A Cascaret tonight straightens you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head, sweet stomach and clean, healthy liver and bowel action for months. Children love Cascarets because they never gripe or sicken.

## MORE IMPERIALISM

(Montreal Telegraph)

Henry Page Croft, M. P., in the imperial parliament, chairman of the so-called "The Path of Empire," is seriously annoyed. He has written to the London "Morning Post" in defence of a scheme he has put forward some time ago to impose on immigrants a tax of 25 per cent on an export license of 25. He says: "This means that the emigrant who forsakes the British flag should refund to the state the cost of the license. It is a disgraceful interference with the liberty of the British race. It is a tax that is nothing of the kind, because, firstly, these people as they board their emigrant ship cease to be British, and, secondly, so small a toll on the emigrant would not be an infringement on any one's liberty; it would be merely asking for a very small rebate of British money which the emigrant proposes to abandon."

To abscond with Emigrants classed with criminals! What a choice example this latest expression of Imperialism is! The next move would possibly be to inflict a fine on tourists daring to travel outside the Empire.

## NEWBRO'S HERPICIDE SAVES WORRY, SAVES MONEY, SAVES THE HAIR

Mrs. Lee's story is a typical history of hair troubles. After everything else fails Newbro's Herpicide brings relief. It would be just as effective if used first.

Newbro's Herpicide makes the accumulation of dandruff impossible and prevents falling hair. It stops itching of the scalp almost instantly. No matter what the claims of others, Herpicide is the only genuine original dandruff germ destroyer.

Newbro's Herpicide is 50c. and \$1.00 sizes is sold by all dealers who guarantee it to do all that is claimed. If you are not satisfied your money will be refunded.

Applications at good barber shops. Send 10c for sample bottle to The Herpicide Co., Dept. R., Detroit, Mich. E. Clinton Brown, special agent.

Had to Wear Rubber Gloves Until "Fruit-a-tives" Cured Her

Grande Ligne, Que., Jan. 2nd, 1910.

I persuaded her, as a last resort, to try "Fruit-a-tives." The effect was marvelous. Her hands are now cured. We both attribute our present good health to "Fruit-a-tives."

## A WONDERFUL DISCOVERY

An eminent scientist, the other day, gave his opinion that the most wonderful discovery of recent years was the discovery of Zam-Buk. Just think! As soon as a single thin layer of Zam-Buk is applied to a wound or a sore, such injury is insured against blood poisoning! Not one species of microbe has been found that Zam-Buk does not kill!

Then again, as soon as Zam-Buk is applied to a sore, or a cut, or a skin disease, it stops the smarting. That is why children are such friends of Zam-Buk. They care nothing of the smarting of the thing. All they know is that Zam-Buk stops their pain. Mothers should never forget this.

Again, as soon as Zam-Buk is applied to a wound or to a diseased part of the body, the skin's surface is so stimulated that a new healthy tissue is quickly formed. This forming of fresh healthy tissue from below is Zam-Buk's secret of healing. The tissue thus formed is worked up to the surface and literally casts off the diseased tissue above it. This is why Zam-Buk cures are permanent.

Only the other day Mr. Marsh, of 101 Diderotier, Ave., Montreal, called upon the Zam-Buk Co. and told them that for over twenty-five years he had been a martyr to eczema. His hands were at one time so covered with sores that he had to sleep in gloves. Four years ago he had tried every medicine known to him, and in a few months it cured him. Today—over three years after his cure of a disease he had for twenty-five years—he is still cured, and has had no trace of any return of the eczema!

## Daily Hints For the Cook

Parker House Rolls

One quart boiled milk, butter size of an egg, 1-2 cup of sugar, 1 cupful of yeast, a little salt. Mix thoroughly into two quarts of flour, let stand in warm place until morning, then add 1-2 teaspoon of soda, dissolved in a little water and rise again. Knead again about 4 o'clock, have warm for supper. Cut into biscuit and rise again, then bake 30 minutes in a moderate oven.

## Apple Butter

Pare and core apples and cook until soft. Rub through a sieve. Measure, and for every cup of pulp add cup of sugar. Boil steady until it jellies. Stir often, as it catches very easily. You will have to use your own judgment about the water, as some apples are much more juicy than others. Of course, the more water there is in it the longer it will have to boil before it is done.

### HON. SYDNEY FISHER

Hon. Sydney Fisher has been selected by the Liberals in Chateaugay as their candidate in the by-election which will take place October 14th. The St. John Standard alludes to Mr. Fisher as "the rejected of Rome." If it were worth while the attention of the Standard might be called to the fact that Mr. R. L. Borden was once the rejected of Halifax, and in order to keep him in parliament it was necessary to find him a constituency in the province of Ontario.

The fact that Mr. Fisher met defeat at Rome in the general elections does not make him one whit less the able parliamentarian that he was during the long period in which he was a member of the house. Mr. Fisher made a splendid record as a member of the Laurier government, and his return to parliament would be a distinct gain for the country and a matter for sincere congratulation.

Although three other men were nominated on the first ballot at Chateaugay yesterday, Hon. Mr. Fisher had so great a lead that on the second ballot his nomination was made unanimous. The campaign will be short and sharp. Mr. Fisher is himself an able campaigner, and he will have the assistance of Sir Wilfrid Laurier and other leaders of the Liberal party. Against them will be arrayed all the forces of the government, and especially the resources of the public works department, which Hon. Robert Rogers knows so well how to use in an election campaign.

Some Montreal members of the Independent Order of Foresters talk of raising a fund to fight against the increase in rates for members who joined the order prior to 1908, and to carry the matter to the Privy Council. The recording secretary of one of the courts, in an interview published in the Montreal Daily Telegraph, said that the French brethren are with the English members, and they will make a vigorous fight. At a meeting of his court, it is decided to send all remittances to the supreme secretary hereafter under official notarial protest.

There seems no chance at all of a successful protest in this matter. The members of the order are bound by the action of its supreme court, and the supreme court by a very large majority decided to increase the rates heavily on all members who joined the order prior to the year 1908. The spirit of fraternity has quite gone out of institutions of this sort. The Independent Order of Foresters is not the only one that has come down upon old members at a time when they could not get other insurance, and when, if ever, the alleged spirit of fraternity should be exercised by the order to which they belong. In every part of this dominion today there are men who regret very much that they were prevailed upon to take insurance in so-called fraternal orders, instead of going to straight life insurance companies, which made no pretense of doing business on other than a cold business basis. Every time the rates are jumped in any order, the number of such discontented men is increased. There can be no doubt at all that there are still orders doing business in this country which must sooner or later increase their rates or go out of business. The government of the country would not only be justified, but should as a matter of duty insist upon a most rigid examination of the claims of every organization which undertakes to do a life insurance business. The great mass of men, especially workmen, have no special knowledge of the principles of life insurance. They desire to protect their families, and therefore proceed to take out insurance of some kind. Far too many of them have been deceived, and there should be an end to that sort of thing. A St. John man said to the Times last week that he and his wife had looked forward with keen anticipation to the time when he would be able to draw from what was practically an endowment policy in a fraternal order the sum of \$1,000. They had pinched many times to pay the monthly assessment, and it was a bitter disappointment to them now to discover that they would never get all of the \$1,000, and might not get as much out of the order as he had paid into it. The Dominion of Canada during the last thirty or forty years has been a great exploiting ground for fraternal insurance orders. The history of them should be written in brief but comprehensive form, as a warning to the insuring public for all time to come.

To protest against a West India service which does an injustice to the port of St. John, merely invites a sneer from the St. John Standard. Of course that journal must defend Mr. Hazen for his failure to assert the rightful claims of this port.

Why not measure Mr. Borden's loyalty to the Empire by his attitude with regard to the naval emergency? Mr. Borden declared there was an emergency calling for immediate action by Canada. He declared that if parliament failed to take action, he would at once appeal to the country. If there is an emergency,

Relief Comes After Taking a Few Doses of Croxone

It is needless to suffer with rheumatism, and be all crippled up, and bent out of shape with its heart-wrenching pains, when you can avoid it. Rheumatism comes from weak, inactive kidneys, that fail to filter from the blood the poisonous waste matter and uric acid, and the only way to overcome it is to remove the cause.

Croxone does this because it neutralizes and dissolves the poisonous substances and uric acid that lodge in the joints and muscles, to scratch and irritate and cause rheumatism, and cleans out and strengthens the stopped up, inactive kidneys, so they can filter the poison from the blood, and drive it out and out of the system.

Croxone is a truly remarkable medicine for rheumatism, kidney troubles and bladder discharges. You will find it differs from other remedies. There is nothing else just like it. It matters not how old you are, or how long you have suffered, it is practically impossible to take it without results. Relief follows the first doses, and you will be surprised how quickly all misery and suffering will end.

An original package of Croxone costs but a trifle and all druggists are authorized to sell it on a positive money-back guarantee. Three doses a day for a few days is often all that is ever needed to overcome the worst backache or urinary disorder.

TRAVIS ON TRIAL.

The trial of John Travis, charged with breaking and entering the store of Estey & Company, in Dock street on September 8, and stealing fifty cents, was begun yesterday afternoon in the circuit court before Judge White. The attorney-general represented the crown and D. Mullin, K. C., was counsel for the prisoner. Seven witnesses were called and the prosecution, after which Mr. Mullin, for the prisoner, declared that there was not sufficient evidence to warrant the case going to the jury. A discussion ensued on this point, and at length the judge decided to let the case go to the jury. One witness was called

by the defence and court adjourned about 6 o'clock until this morning at 10. The witnesses called by the crown were Deputy Chief Jenkins, Policemen Frank O'Leary, George Henderson, police clerk, James A. Estey, Lloyd B. Estey, Alfred W. Estey and John F. Gilbrath. Mrs. Edith Green testified on behalf of the prisoner.

Health and Beauty Hints

BY MRS. MAE MARTYN

Laura: You say you are under 45 and have wrinkles in spite of all your care. There is something wrong with the face cream you use. I have found that to remove wrinkles and restore firm outlines and softness there is nothing better than this greasiest cream which you can easily make yourself and which shows results right away. It does not induce hair growth. Stir 2 teaspoonfuls of glycerine and one ounce of mosoin in 1/2 pint cold water. Use it as you would any cold cream. This feeds and tones the skin—fills out wrinkles and hollows and reducing the pores.

Mrs. G. T.: Mix some water with powdered delatone and apply this paste to the objectionable hairs. After two or three minutes remove, wash the skin and the hairs are gone. This is entirely harmless and rarely requires a second application of delatone, excepting perhaps where the growth is quite stubborn.

MRS. A. B.: Rub a little pyroxin on eyebrows and they will come in thick and have a beautiful gloss. Your short eyelashes will grow long and delightfully curly merely by applying pyroxin at lash-roots with thumb and forefinger. Be very careful not to get pyroxin where no hair is wanted.

Betty: That dry, unhealthy state of your hair is probably due to improper washing. Maybe you use soap? Avoid it and try only this simple, safe shampoo. Get some canthrox from your druggist and stir one teaspoonful in hot water. This is plenty for one washing. It leaves the hair as soft as silk and extremely fluffy. It dries quickly and removes not only dirt, but greasiness. Perhaps you need a little tonic to brace the whole system. For this see answer to Theo.

Theo: Indeed, you must not neglect that tired, depressed feeling, which is accompanied by a pimply condition of the face. They are caused by sluggish blood which is not properly eliminating the poisons from the system. Try this blood purifier and tonic. Into 1/2 pint alcohol (which must not be used), pour 1 ounce karsden, then add 1/2 cupful sugar and hot water to make a full quart. Take 1 tablespoonful of this old-fashioned blood cleanser and tonic before each meal. This is splendid for that weak, worn feeling and restores the kidneys to normal action and the blood to a healthy condition. Its timely use will save much serious sickness.

Cornelia: You are having your troubles, certainly, if you are "very feebly" and yet want to wear the latest styles. Have you ever heard of this sure and simple means of reduction? Dissolve 4 ounces of parrotin in 1 1/2 pints warm water and take a tablespoonful a few minutes before meals. It is harmless and yet very effective and does the work so naturally as to leave no sagging or wrinkled tissues. It has the added advantage of requiring no strictness in diet or exercise.

Lulu: You can easily stop that dandruff and your hair from falling out if you will use a good tonic twice a week. Here is a splendid old remedy which costs little and which you can prepare at home. Mix together one ounce quinsin, 1/2 pint alcohol and 1/2 pint water. Rub it well into the scalp two or three times a week. It is invigorating to the hair roots, encourages a luxuriant, soft growth and affords immediate relief from the itching scalp. Be sure to rub it into the roots.

Lucy: Instead of clogging up the pores of my skin with face powder, I use this recipe in which I find a very dependable lotion, protecting, softening and beautifying the skin. Get 4 ounces sprumax from the druggist and dissolve in 1/2 pint hot water. Add 2 teaspoonfuls glycerine. Apply freely to your face, neck and arms. It will not rub off, and gives an attractive, velvety fairness without that "made-up" look. This is inexpensive, too.

Gertrude: You will find it a simple matter to clear the eyes of redness and restore the youthful sparkle and color if you will use this eye-tonic which can be easily prepared at home. Just get an ounce of crystals at any drug store and dissolve it in a pint of water. Put 2 drops in each eye daily. It acts like magic to give back the beauty and it feels mighty good, too. If this does not answer to Theo.

### WEDDING TRIP TO BRITAIN AND EUROPE

Miss Lillian M. Dobbin Bride of G. H. Grantham of Winnipeg

A wedding of much popular interest was solemnized this afternoon at three o'clock in St. Paul's church, Rothesay, by the rector, Rev. A. W. Daniel, when a popular young lady of that place, Miss Lillian Maud Dobbin, daughter of Mr. and Mrs. Isaac Dobbin, became the bride of George Herbert Grantham of Winnipeg. The church, which was prettily decorated, was well filled with friends gathered to witness the wedding.

The bride, who was given in marriage by her father, made a charming appearance in white duchesse satin with crystal trimmings and orange blossoms, and wearing a veil of white tulle with Juliet cap. She carried a bouquet of bridal lilies and roses. She was unattended. The bride's mother wore black satin with jette trimmings, and a velvet hat. Her sister, Miss Beatrice Dobbin, was given in pink silk with black picture hat.

The bride's present from the groom was a beautiful gold wrist watch and a handsome gold pin set with pearls.

During the ceremony the choir sang "The Voice that Breathed O'er Eden," "O, Perfect Love," and other marriage hymns, while the wedding march from Mendelssohn was played by the church organist, Miss Alice Davidson.

Following the wedding, Mr. and Mrs. Grantham will leave this evening for Quebec, whence they will sail on the steamer Empress of Britain on a three months' wedding trip to Great Britain and Europe. The bride's traveling costume is of King's blue with hat to correspond. On their return from abroad they will reside in Winnipeg, where the groom is a prominent young real estate broker.

## SIX FROM ST. JOHN AT DISCIPLES OF CHRIST TORONTO MEETINGS

This Year's Gathering Marked By Important Departure in Nature of Gathering

Mr. and Mrs. J. S. Flagler, Misses Ada and Laura Emery, Miss Ethel Barnes and Mrs. L. B. Morton, of this city, are in Toronto as representatives of the local Christian churches at the fifty-eighth annual international convention of the Disciples of Christ. The sessions commenced today and will continue until Sunday and the delegates will return next week. In addition to those from Saint John there are about fifteen delegates from various parts of the maritime provinces. It is expected that the number of delegates at the conference would total 4,000.

This year's gathering will be marked by a new and important departure in the nature of the meetings. The fifty-eight conventions of the Disciples of Christ have theoretically simply been concurrent meetings of various co-ordinated bodies, but this year the delegates sit in an actual general convention at some of their sessions. The whole principle of the Disciples, it is explained, involves a protest against ecclesiasticism in any form, and hitherto it has not been thought well to have any synodical or parliamentary body in their church. The general convention now permitted will largely, with matters pertaining to their relation to the other churches.

There are three great missionary bodies which will hold their meetings during the convention. One of these deals with home mission affairs, a second with the foreign field, and the third is a woman's society. Returned foreign missionaries to the number of twenty-one will be present. Some of these are men of international prominence.

## THE FACTS ABOUT THE MARSH ROAD STREET RAILWAY LINE WORK

Plan is to Give Proper Grade Satisfactory For All Time To Come

The Times was asked to give some further particulars concerning the laying of the street railway track along the Marsh road to the One Mile House. The plan adopted is to give the road a proper grade, which is to be satisfactory for all time to come, and to lay the street railway track in the middle of the road, where it will be entirely clear of the water mains, which are laid on each side of the road.

There was a proposition to lay the track on the east side of the road. In order to do this it would be necessary to go from the center to the side of the road at this end, and to cross the road twice at the other end in order to make a safe curve into the old road leading across to Kaur's corner.

It would also have been necessary, in order to get outside of the water mains, to push the tracks up close against the property where the big plant of T. McAvity & Sons is to be constructed, and if buildings were erected out to the edge of that property they would be hard up against the tracks. Moreover provision would have to be made for roads in and out of this property crossing the tracks. It would also have been necessary to fill in that whole side of the road, at a cost to the city of probably \$5,000, or more than twice as much as it is likely to cost to make the necessary changes to get the grade required under the plan which has been adopted.

A good deal of complaint has been made because one piece of the road for about 300 feet must be lowered. The most of the road must be raised a little higher than it is now, and the new grade is such that all the hollows and pockets which hold water and injure the road will be taken out, and the road will be graded from both ends to a point near the middle, where a drain from the Gilbert property passes through to the Marsh creek. At the present time the road is not well drained.

The grade which has been adopted is entirely satisfactory to the engineer of the street railway company, and preferable to the old one. The expense will not be great as if the track had been laid at one side of the road, and when completed the thoroughfare will be in a better condition than ever before.

A study of the plans at the engineer's office at city hall will convince any citizen that the expenditure made under the plan which has been adopted is wise and will be of advantage to the city.
