ENTENTE TROOPS STILL PRESS FORWARD IN WEST; NEW ENEMIES ABOUT READY TO JOIN AGAINST HUNS

Pres. Wilson Planning That Posterity Shall Bear but Small Share of War Burden

CUBA NOW OFFICIALLY AT WAR WITH GERMANY; VOTES TO PLEDGE ALL

Will Give Men and Money for the U. S. and Entente Allies.

President Authorized to Employ all Necessary Force in Struggle.

Havana, Cuba, April 8.—Cuba, not yet out of her teens as a republic, is at war with Germany—the first of the Latin-American countries to range herself alongside the United States and the Entente Allies.

At 7:16 last night President Menocal affixed his signature to the joint resolution passed unanimously late Saturday afternoon by both the senate and the house without a dissenting voice being raised, thus putting into effect the declaration that a state of war exists between Cuba and the imperial German government.

The joint committees appointed Friday by the senate and house agreed early yesterday afternoon upon the phraseology of the resolution to be presented, and the stage was set for quick action before either branch of congress convened.

Following the reading of the joint resolution Representative Alfredo Benavente, speaking for the Conservatives, made an impassioned speech in favor of its adoption. He was frequently interrupted by tremendous applause, the entire house and galleries rising to their feet, cheering and clapping wildly.

Jose M. Cortina addressed the house for the Liberal side, in support of the resolution. Then, by a rising vote, the house unanimously adopted the resolution, which was as follows: "Article 1.—Resolved, that from today a state of war is formally declared between the republic of Cuba and the imperial government of Germany, and the president of the republic is authorized and directed by this resolution to employ all the forces of the nation and the resources of our government to make war against the imperial German government, with the object of maintaining our rights, guarding our territory and providing for our security, prevent any acts which may be attempted against us, and defend the navigation of the seas, the liberty of commerce and the rights of neutrals and international justice."

"Article 2.—The president of the republic is hereby authorized to use all the land and naval forces in the form he may deem necessary, using existing forces, re-organizing them, or creating new ones, and to dispose of the economic forces of the nation in any way he may deem necessary."

The Cuban authorities last evening seized the four German ships interned in Havana harbor.

Lima, Peru, April 8.—The Peruvian press is of the opinion that the entrance of the United States and Cuba into the war, together with the sinking of the Brazilian steamship Parana, make it imperative for the nations of South America to formulate a common policy. This programme, the newspapers say, must be directed against Germany.

Cuban President Signs Resolution.

Havana, April 7.—President Menocal, at 7:16 p. m. signed the joint resolution passed by the senate and house late today which declares a state of war exists between Cuba and Germany.

The Cuban authorities this evening seized the German ships interned in Havana harbor.

ANOTHER SAMPLE OF HUN OFFICIAL STATEMENTS

Amsterdam, April 7, via London, April 8.—An official statement received here from Berlin says: "During the night of April 4-5 a German hydro-aeroplane squadron lately bombed, with good success, vessels lying in the Downs and the searchlights of the fortifications northwest of Ramsgate."

An official statement issued in London Friday said that a German aeroplane had passed over certain coast towns in Kent Thursday night. Eight bombs, it was added, were dropped, most of which fell in the open. There were no casualties and no damage was done.

PAN-AMERICAN ALLIANCE MAY FORM AGAINST GERMANY; WASHINGTON TO PAY HALF FIRST YEAR'S WAR BY TAX

Brazil, Guatemala, Nicaragua, Salvador and Honduras Expected to Follow American Lead.

President Wilson's War Policy Plans to Leave Minimum of Debt to Posterity so Congress Will Impose Money Taxes.

Washington, April 8.—Early entrance of several of the South and Central American nations into the war against Germany is regarded here as practically certain. Brazil, aroused by the sinking of her steamship Parana, is expected to become a belligerent this week, and it is assumed that her lead will be followed promptly by other countries.

Active support of the United States by at least two of the five Central American republics and possibly by four would not be surprising. Official and unofficial reports that Estrada Cabrera, president of Guatemala, is contemplating seriously a break with Germany have been received. So long as Mexico's course is undefined unusual interest is attached to the position of the Central American governments, especially that of Guatemala, controlling the southern frontier of Mexico. In the event of the development of an unfriendly situation in Mexico it is realized that Guatemala's role would be far from unimportant. In Guatemala, Estrada Cabrera has built up what is regarded generally as the most efficient army in Central America, and will be in a position to lend valuable assistance to the United States. Antipathy between the Guatemalans and Mexicans has existed for years. It is known that earnest efforts have been made by counselors of Cabrera to induce him to enter promptly into the war, if he does place his country in the list it is expected that Nicaragua will quickly follow, and that the long standing difficulties between those two countries and Salvador and Honduras may be swept away in a desire to present a united Central America.

American officials continue to watch closely every move in Mexico, but little real anxiety remains. It is believed now that German machinations in that country have failed, and that the worst that may be expected from that quarter is a declaration of neutrality.

To Pay War Bills by Taxation.

Washington, April 8.—President Wilson's policy, outlined in his address to congress, of paying America's war bills, so far as possible, while the war is being waged, leaving a minimum debt to posterity, was reflected tonight in a virtual decision by leaders in the house and senate to raise fifty per cent of the first year's expenditure by taxation.

Under this programme congress will be called upon to raise war revenue to the extent of \$1,750,000,000 through new and increased measures of taxation during the fiscal year ending June 30, 1918. This is exclusive of the \$5,000,000,000 bond issue, authorization of which will be sought of congress this week.

A Huge Demand.

The total demand upon the financial resources of the country during the first year of war, under this programme, would be \$6,750,000,000. Of the \$5,000,000,000 to be raised by a bond issue \$2,000,000,000 it was definitely stated tonight, would be loaned to the Entente Allies. The entire house and senate leaders have agreed, will bear interest at the rate of 3 1/2 per cent. It is proposed to make the loan to the Allies at this interest rate, which is lower by far than the rate they have been compelled to pay on their previous issues.

After the Entente governments have been granted the loan, the plan is to hold the remaining \$3,000,000,000 of the \$5,000,000,000 to be applied as necessary on the cost of the military and naval establishment and other war expenses of the United States. Indications are that with the new war revenue measures in effect, the full amount \$2,000,000,000 would not be entirely exhausted at the end of the first year.

An Immense Bond Issue.

In requesting authorization for a \$5,000,000,000 bond issue, administration leaders have in mind the necessity of allowing for a slight margin of safety so that the work of the war and navy departments would not be handicapped by a lack of funds due to the possible failure of proposed tax measures to raise the entire sum of fifty per cent, desired.

Details of the proposed bond issue have not been fully disposed of at present. The terms of the bond issue are yet to be fixed, and there is a possibility that authorization for the full issue will be granted by two acts of congress, rather than one. The proposed tax measures authorized last night to raise the issue of \$2,000,000,000 in bonds to finance a loan to the Allies, and afterwards take up the request for \$2,000,000,000 for the army and navy is considered in some quarters.

In support of this proposal it is pointed out that the need of the Allies for funds is more immediately present

HUN AGENTS OPERATED WIRELESS PLANT FROM A FIFTH AVENUE ROOF

Sensational Discovery by United States Secret Service Agents.

Daughter of St. Louis Brewer Gave Spies Free Rein to Palatial Home.

New York, April 8.—United States secret service agents have discovered, it was said tonight, that until a few weeks ago a wireless receiving plant of the most expensive type was operated on the roof of the Fifth Avenue home of Mrs. Elsie Reisinger, daughter of the late Adolphus Busch, millionaire brewer of St. Louis.

While the secret service agents maintained strict silence, it was understood they had information that a German who had been employed as butler in the Reisinger home constructed and operated the wireless plant. He recently resigned his position, it was said, and disappeared. Mrs. Reisinger had often entertained at her home Count Von Bernstorff, Dr. Heinrich Albert, Germany's commercial attaché, and Captains Kai Bop-Ed and Egon von Papen, naval and military attachés, respectively.

FLAYS GARLAND FOR ACTS IN CONNECTION WITH WAR CONTRACTS

Flagrantly Violated Requirements of Duty, Conscience and Patriotism, Says Commissioner Davidson.

Special to The Standard.

Ottawa, April 8.—I regret to have to conclude that Mr. Garland fell gravely short and flagrantly violated the requirements of duty, conscience and patriotism.

"Garland sought by subterfuge to do what the law, as he well knew, forbade him doing at all. The independence of parliament act is expressive of the public interest and of the honor of the house to which he had been elected by the people of the country of Carleton. His provisions exact loss of seat and heavy penalties for a member to enrich himself at the expense of the state, or to personally profit from public contracts."

In this manner Sir Charles Davidson, war contracts commissioner, sums up the case of W. F. Garland, ex-M. P. for Carleton county, and his arrangement between Garland and a Toronto man named Shaver, Canadian representative of the Chicago firm, Powell, a medical supply firm, by which the latter was to supply the army with medical supplies during the war. Mr. Garland is a druggist in a district of Ottawa city, situated in the county constituency. He carries on business under the name of the "Carleton Drug Company." For a short time he was an alderman of the city but resigned when elected member of parliament by acclamation in succession to the late Edward Kidd, M. P., in 1915.

Facts in The Case.

The facts of the case are well known. Garland had a clerk in the store named Ernest Powell, who was appointed agent for Bauer & Black, of Chicago, a medical supply firm, by arrangement between Garland and a Toronto man named Shaver, Canadian representative of the Chicago firm. Powell was really acting for Garland and \$6,500 profits were netted on orders right after war was declared. The auditor general discovered that the per centage of profit was largely in excess of what it was stated in the company's accounts. The statement was: "Investigation disclosed that Garland was the man who was trafficking. The profits were returned to Garland at the request of the Prime Minister resigned his seat early in 1915."

Dismissed Calgary Case.

Mr. Charles Davidson in short order a small case from Calgary wherein it was alleged that 125 military horses had been unlawfully appropriated.

"It is thoroughly established," says the commissioner, "that the alleged appropriation and shortage did not exist."

BRITISH PROGRESS TOWARD CAMBRAI; FRENCH TROOPS ENTER GERMAN LINES; RUSSIANS REPULSE ATTACKS WITH GAS

Allies Carry Out Successful Raids at Many Points on Western Front Taking Prisoners and Guns.

Lively Fighting on Belgian End of Line While French are Successful—A Quiet Period on Somme—Chiefly Big Gun Work on Italian Front.

London, April 8.—The official report from British headquarters in France tonight reads: "In the neighborhood of the Bapaume-Cambrai road we made considerable progress during the night on a front of about 3,000 yards north of the village of Leuveluer."

"Our raiding parties entered the enemy lines last night at a number of points and secured several prisoners. In one raid southeast of Ypres we captured eighteen German prisoners. The enemy's trenches were found to be greatly damaged by our fire."

"Our airplanes carried out several bombing raids yesterday and the previous night. Large quantities of explosives were dropped on air-drome stations, transport and a battery in action. Good results were observed. In one German air-drome three hangars were destroyed, possibly a fourth, and a group of buildings in the neighborhood also were hit."

"Hostile trains also were attacked successfully by machine gunfire. A German kite balloon was successfully attacked and destroyed."

HUN LINES ENTERED AT TWO POINTS.

Paris, April 8.—German positions in the region of Lombardye, Belgium, were penetrated at two points last night, the war office announced. The statement follows: "In Belgium our troops penetrated, at two points, the positions of the enemy in the region of Lombardye. Numerous German dead were found in the trenches blown up by our fire. An attack by the enemy on one of our small positions south of the Paschendale Canal was repulsed with grenades."

"Between the Somme and the Aisne there were intermittent artillery engagements and patrol encounters at various points. In the Vosges surprise attack against one of our trenches in the region of Oulles was repulsed easily. An enemy attack on Largitzen, in Alsace, cost the assailants losses with no results. Elsewhere the night was calm."

GERMANS THROW SHELLS ON RHEIMS.

Paris, April 8.—The official communication issued by the war office tonight reads:

"There was no infantry action during the course of the day along the entire front. There was violent artillery fighting in several sectors between the Somme and the Aisne and in Champagne."

"On April 7 the Germans threw 1,200 shells on Rheims; one civilian was killed and three were wounded. Last night German airplanes dropped bombs on Belfort; there were neither casualty nor material damage."

THE TELEGRAPH'S CHARGES BOTH FALSE AND ABSURD, SAYS MR. THOMAS NAGLE

His Relations with Kennedy & McDonald of a Personal Business Character—Not One Cent of Monies Went Into Campaign Fund, Nor to Any Member of the Government or of the House—An Emphatic Answer to Carvell's Fiction.

The Telegraph on Saturday printed what purported to be a copy of the defense in the Supreme Court case of the Merchants' Bank against Kennedy & McDonald, in the matter of the St. John Valley Railway. The defense purports to make certain charges against Thomas Nagle of this city, the gravamen of which charges is that he was paid \$17,500 for "using his influence," and that the defendants refuse to pay \$2,500 now due on their promissory note containing that they were induced to make the note by the duress of Mr. Nagle, the payee.

Mr. Nagle, when interviewed on Saturday, gave a flat denial to the charges which emanate from no other source than the federal member for Carleton, F. B. Carvell, the counsel of Kennedy & McDonald, in the matter. Mr. Nagle in most emphatic terms characterizes the statements of Mr. Carvell as utterly false. He declares that the transaction was a purely business one between the contractors and himself, that not one cent of the monies went into a campaign fund, nor into the pockets of any member of the government or of the local house. His statement shows conclusively that the insinuations of the Telegraph are absolutely unfounded and that the Telegraph's charges fall absolutely to the ground.

"It is thoroughly established," says the commissioner, "that the alleged appropriation and shortage did not exist."

Mr. Nagle's statement is as follows: "The matter in suit arose out of personal business relations between Kennedy & McDonald and myself and had nothing whatever to do with any graft or hold-up. Not one cent of the money went into any campaign fund, nor to any member of the government, nor to any member of the legislature. "The Telegraph, as usual, has entered on one of its cheap political fishing expeditions. Editorially, that newspaper professes to abstain from prejudging the case, but the whole story is very evidently an attempt of Kennedy & McDonald's counsel to try the cause first in the newspaper in the hope of affecting the judgment of the jury. It is a fortunate circumstance that justice in New Brunswick is still administered by the courts and not by the Telegraph and Times. "I can say this much, however, that the contract referred to was with the Nova Scotia Construction Company and not with the New Brunswick government or the St. John and Quebec Railway Company. "We are bringing the suit referred to, and if there is anything discreditable to us connected with it, it is reasonable to believe we would want to air it in the courts. "The defense to the suit as outlined in the Telegraph and Times is a tissue of mis-statements from one end to the other, the absurdity of which will be made absolutely manifest when the case comes to trial."

WASHINGTON PLANNING HUGE LOANS TO CARRY ON ENTENTE CAMPAIGN

United States Government to Raise Five Billions by Popular War Loan.

Proceeds to be Divided Between Loan to Entente and U. S. Needs.

New York, April 8.—Tentative plans at Washington for the financing of both the United States and the Entente Allies in the prosecution of the war as indicated last night, include the following features:

1. A vast popular loan, possibly totalling \$5,000,000,000 to be raised by the United States government. Bonds to be issued in denominations as low as \$100, possibly \$25, so that all the people may contribute. Interest to be at "a reasonable rate."

2. A loan of possibly \$1,000,000,000 to the Allies out of the proceeds of the big bond issue. American money to be exchanged for bonds of foreign governments, which will be charged the same rate of interest as the United States pays.

3. Balance of the big loan, probably \$2,000,000,000 to be devoted to army and navy needs, for which \$3,500,000 has been asked.

4. Sum still needed for army and navy to be raised by taxation; possibly \$1,500,000,000.

Within thirty days, possibly before the end of the present month, a substantial portion of the great loan is expected to be available for the Entente governments. Legislation providing for the issue will be introduced in congress speedily, not later than the next week.

Washington, April 8.—How the British armed merchantman Queen Louise, from Philadelphia for Denmark, with railway supplies, was torpedoed without warning March 31, off the French coast, and managed to put into port at Havre without casualties, was described in a message received at the state department today from Consul Osborne at Havre. There were several Americans in the crew.

MONCTON HAS \$1000 FIRE.

EIGHT TONS OF BOMBS DROPPED BY OUR AIRMEN BEHIND GERMAN LINES

Airdromes, Ammunition Depots and Railways Vigorously Bombarded—British Report 28 Machines Missing—Much Valuable Information Secured As the Result of Seventeen Air Raids—German Lost 56 Air Machines of All Kinds.

London, April 7 (8.30 p. m.)—The official report from British headquarters in France tonight reads:

"In the neighborhood of St. Quentin our troops gained ground during the night at a number of points between the villages of Gelay and Jeancourt and reached the outskirts of Freney-Le-Petit.

"There was considerable artillery activity on both sides today in the neighborhood of Arras and in the Ypres sector.

"During the days and night of April 5 and 6 our airplanes have been active, continually harassing the enemy's communications a long way in the rear, and sinking out his fighting machines at a considerable distance behind his lines. Large tracts of the enemy's country for many miles in the rear have been photographed, over 1,700 photographs being taken behind the enemy's lines.

"Co-operation with the artillery continued during the day time unhindered, except by the weather, although repeated attempts were made by the enemy to prevent this important work.

"Seventeen successful bomb raids were carried out on enemy airdromes, ammunition depots and railways a long distance behind the lines, in addition to numerous small raids. A total of over eight tons of bombs were dropped.

"All the time intense fighting between large forces took place, our casualties are twenty-eight machines missing, a large number of which are known to have been shot down in combat over the enemy's country.

"It is known that the enemy suffered very heavy casualties. In one case an observer was seen to fall out of his machine, which went down, out of control in a spin. In another case the fighting was so close that an enemy pilot was seen to fall from his machine which was out of commission and diving by the nose. Fifteen hostile machines were driven down and actually seen to crash to the ground, while 31 others were driven down damaged, a large proportion of which must have been totally destroyed. In addition ten hostile balloons were brought down in flames."

VON BERNSTORFF QUITE PEEVED AT HIS TREATMENT AT HALIFAX

Germany's Former Ambassador to the United States Contented That He Did Not Receive Courteous Attention from Canadian Officials—A Formal Protest.

Amsterdam, via London, April 7.—A Berlin telegram quotes from the North German Gazette, the semi-official Berlin newspaper a long note handed to the Swiss legation in Berlin by the German government protesting strongly against the treatment of Count Von Bernstorff, former German ambassador to the United States, by the British authorities at Halifax, where the Von Bernstorff party was detained for some time on their ship for examination.

The protest maintains that the action of the British authorities in this connection conflicted with the terms of the safe conduct granted the returning ambassador. The Swiss legation is requested to transmit the complaint to Washington for the information of the United States government.

The Hague, April 7.—The version received here of the German note protesting against Count Von Bernstorff's treatment points out that the Von Bernstorff party, under the terms of their American passports and their Anglo-French conduct were to be permitted to take with them their personal effects, household goods and a reasonable amount of money, but were forbidden to carry confidential papers. The vessel was sunk off the coast of Jostedal, south of Stavanger, Norway, and nine survivors and the two dead have arrived at Skudresnes, Norway. The survivors were 120 hours in a boat before they were picked up by a steamer.

Suffered With Heart For Ten Years Would Nearly Smother

There is nothing that brings with it such fear of impending death as to wake up in the night with that awful sense of smothering. The uncertain and irregular heart action causes the greatest distress of both mind and body.

Milburn's Heart and Nerve Pills are the only remedy that can give prompt relief and effect a complete cure in cases of such severity. They strengthen and invigorate the heart, so that it beats strong and regular, and tone-up the nervous system so that the cause of so much anxiety becomes a thing of the past.

"I would advise anyone with heart trouble to use them." Mrs. M. O. McCready, Wapella, Sask., writes: "I am not much of a believer in medicines, but I feel that it is only right for me to let you know what your wonderful remedy has done for me, and in a very short time, too. I had suffered terribly with my heart for nearly ten years, could scarcely do any work and would nearly smother at times. I had many remedies, some only relieving me for a time. I got a box of Milburn's Heart and Nerve Pills and felt so much better that I kept on using them, and can truthfully say I feel like a new woman."

THE WEIRMEN'S ASSOCIATION HELD AN IMPORTANT MEETING IN ST. GEORGE ON SATURDAY

Strong Resolution Passed, Binding Members of Association to Take Measures of Penalizing Any or All Fishermen Guilty of Dishonest Practices or Mis-statements in Connection with Business—Officers Elected.

Special to The Standard.

St. George, N. B., April 7.—The Weirmen's Association met in the town hall, St. George, on Saturday afternoon. The officers of the association were re-elected and are as follows:

Additional members of the executive, A. B. O'Neill, H. S. McLean, Peter Devine.

Resolutions Passed.

The committee on resolutions reported as follows: "Whereas it has been reported from time to time, and made to appear to the Weirmen's Association, for the counties of St. John and Charlotte, that during the fishing season of 1916 certain boatmen engaged in carrying fish from weirs owned by members of this association, and certain weir fishermen engaged in weirs located within the jurisdiction of this association, at various times, for the purpose of gaining an advantage to themselves in the matter of a price to be paid for fish and in respect to the quality of fish caught and offered for sale, made false and misleading statements and representations which led to unsettled and disturbed conditions in the fishing business and were intended to lead to a violation of the actions and directions of this association, and whereas this association is desirous that all weir fishing business and operations, so far as the same can be controlled by the association, shall be carried on under principles and regulations strictly honorable and free from the taint of fraud or misrepresentation of any kind, therefore,

"Resolved, and it is hereby adopted as a by-law of this association, that any boatman engaged in carrying sardine herring within the jurisdiction of this association, any weir fishermen engaged by any member of this association, or any owner who is a member of this association who shall willfully and deliberately make any false statement, misrepresentation, or practice any other ill or deceit with a view to procuring fish at a price below the standard rate as adopted by this association, or calculated to interfere with the sale of fish by any member of this association from any

weir owned or controlled by a member of the association, or otherwise—utter or circulate these statements of any kind calculated to interfere with the business of the members of this association, or to create a disturbance in the fishing industry, shall, upon sufficient evidence to satisfy the executive of this association, if a boatman or weir fisherman, be barred from doing business of any kind with members of the association during such time as the said executive may fix and determine; and if a weirowner, shall be expelled from membership or suspended therefrom at the will and pleasure of, or during such period as may be fixed by the said executive; and be it further

"Resolved, that this association and every member thereof shall use every reasonable and fair endeavor to establish reciprocal relations between the packers, boatmen and members of this association in buying, selling, carrying and supplying sardine herring during the fishing seasons, both in New Brunswick and in the State of Maine. And that all matters where differences of opinion may arise or exist in connection with any branch of the fishing industry that the executive of this association will be authorized and empowered, and it shall be the duty of such executive to seek a satisfactory adjustment of all such differences by a conference with all the parties concerned in such difference or dispute, and further

"Resolved, that this association and the members thereof pledge themselves in dealing with boatmen and buyers, and in selling fish from weirs owned by members of this association, to give the preference and the first chance, all other things being equal, to boatmen who will undertake and agree to give preference in buying to weirs that are owned by members of this association; and that in any case where such arrangements for reciprocal preferential treatment exist or become established the member of this association will not sell fish to boatmen who do not agree to give to the weirowners preferential treatment so long as boatmen who have agreed to such preferential arrangement are willing to buy and take such fish.

"This last resolution or by-law shall only be binding to such extent as it may be found possible to obtain co-operation with boatmen and buyers." The meeting in adopting the resolutions ordered copies sent to every member of the association. It was a good meeting and largely attended.

Industry's Every Hose Requirement Met

Large Sums Spent to Make Better Industrial Hose For All Needs

Increasing efficiency in every line of industrial endeavor calls for better equipment. Equipment manufacturers are working with industry to eliminate waste and reduce overhead costs.

In the transmission of power and conservation of energy, the Goodyear organization serves many industrials. Mines, mills and factories know Goodyear quality and the worth of Goodyear service.

Extra Power Belting has won an enviable place because it transmits more power, is more economical.

Goodyear Industrial Hose is as good as Extra Power Belting. It should be. Every industrial

condition has been studied to find why hose fails. A great deal of time and money has been spent in Goodyear laboratories perfecting hose that would overcome these conditions.

Scientists busied themselves selecting materials to meet special conditions. Workmen of long experience were put to work at the most modern machines. A distinct, individual hose was developed for each need—strong, durable, flexible.

Below we describe the more important kinds. The service these lines of hose have rendered has won for them recognition throughout industrial Canada.

"Extra Service" Air Drill Hose
A good hose for hard service. Has thick, long-wearing cover of tough rubber; heavy fabric; extra sturdy inner rubber tube. High-grade rubber is forced thoroughly into the fabric. Specially built to meet the extreme conditions of use—dragging over rock and ore, through tunnels.

"Goodyear Quality" Steam Hose
The inner rubber tube is crack-proof and steam-proof. Cover stock made to adhere firmly and avoid blisters, cracking or separation from the fabric. Rubber between plies remains elastic and active, welding fabric together.

"Goodyear Quality" Water Hose
The strength of Goodyear Water Hose lies in the quality of the materials used. It wears long under severe conditions of pressure and kinking. The cover does not expose the fabric to attack by peeling. The inner lining protects the fabric on the inside.

You may have had hose trouble. We have solved many hose problems for others. If you will write our nearest branch stating just what your difficulty is, we can probably help you.

SENATOR LODGE, ASSAULTED BY PACIFIST, USES FISTS

Almost Knocks Down Leader of Peace Loving Delegation Who Calls Him Coward When He Refuses to Vote Against War Dec. aration.

Washington, D. C., April 2.—Attacked by a small group of pacifists from his own State, Senator Lodge today came out the victor in the first engagement of the "war session" of Congress at Capitol today. Blood was spilled, but it was the blood of a pacifist.

Senator Lodge belied his sixty-seven years by striking his chief assailant a stunning blow in the face before others intervened for his protection.

Alexander Bannwart, of Boston, national secretary of the Woodrow Wilson Independence League, of Massachusetts, struck the first blow at the Senator. The encounter occurred just outside Senator Lodge's office door. It terminated quickly when David B. Herman, a telegraph messenger, and Ward Davies, of Casagrande, Ariz., pounced upon Bannwart and beat him. Senator Lodge was none the worse for the encounter except for a slight bruise on his face. Bannwart was arrested immediately by Capitol police, who drove back the crowd. He was released later in police court on \$1,000 bail.

Senators Are Indignant

Deep indignation was stirred up among Senators by the attack on Senator Lodge. Later Senator Lodge gave out this version of the affair:—"I had nothing to say except this, was trying to get away from them; they were very violent. I said, 'Well, we must agree to differ.' Then this man, whom I afterward learned was Bannwart, said, 'You're a coward,' addressing me personally. I went forward closely up to him and said, 'You are a liar.' He struck me and I struck him. Then the whole party rushed at me and pushed me against the wall.

"A young man from Arizona who was in the corridor with a message, my secretary, and Senator Stone's messenger, intervened for my protection and drove them off."

The group of pacifists called at Senator Lodge's office at eleven o'clock this morning to plead with him to vote against war with Germany. Senator Lodge met them at the door. Bannwart did most of the talking. He was accompanied by the Rev. Paul Harris Drake, pastor of the Church, Dorchester, Mass., and Mrs. Anna May Peabody, of Cambridge.

During the brief interview Bannwart told the Senator that he greatly misjudged the people of Massachusetts if he thought the people of that State wanted war. Senator Lodge replied that if the President should ask for a declaration of war he would vote for it. The pacifist declared that war was cowardly.

"National degeneracy and cowardice are worse than war," Senator Lodge replied. "We must agree to disagree."

Senator Lodge thereupon determined to close the interview, but the pacifist group pressed upon him. There are several versions of what

followed immediately. Bannwart declared that Senator Lodge said to him:—"Any one who is a pacifist at a time like this is a coward." To this Bannwart said he replied:—"Any one that wants to go to war is a coward."

Senator Lodge denied this version and says that Bannwart called him a coward.

Senator Lodge's blood was up. Just then Bannwart struck him in the face. Senator Lodge countered with a smashing blow that caught the pacifist full in the face, knocking him nearly off his feet. The pacifist group then pushed the Senator against the wall.

Just at this time, Ward Davies, who was passing in the corridor, saw Bannwart strike Senator Lodge. He jumped into the fray, flooring Bannwart with a heavy blow. A general melee followed. David B. Herman, Senator Lodge's secretary, and others joined in the fray, and when Bannwart was pulled from under sprawling bodies by the police he was badly mauled.

The pacifist group was led away by policemen, who drove back a large crowd from in front of the Senator's office.

Senator's Face Bruised

Senator Lodge appeared in the Senate chamber at noon when that body convened. Beyond a slight bruise on the face he was none the worse for the encounter. He smiled broadly when his colleagues questioned him about the encounter.

That the incident may lead to some law, by which members of Congress may be protected against repetitions of the act, was seen in the attitude of Senator John W. Weeks of Massachusetts. Senator Weeks said:—"The unprovoked and disgraceful assault on Senator Lodge today has a far wider significance than simply an assault on an individual. There is no law, as far as I know, for providing punishment for an offense of this kind different than in the case of ordinary assault."

"When Representative Brooks assaulted Senator Sumner in the Senate chamber, a case not materially different from this in many respects, he was unseated by the House of Representatives. Of course, no such action can be taken in this case, and I am not convinced that a different law should apply to Senators and Representatives, even when Congress is in session and they are performing their official duties from that applying to any other individual, but it is well for the country to take notice that those who claim to be trying to keep the country out of war are among the most intemperate of our citizens and they do not hesitate to attack those who hold different opinions."

"In my judgment, such people should be watched and if they are American citizens should be compelled to take the oath. I doubt the good faith and loyalty of men and women who are so far lost to proprieties as were those who committed this offence,"—New York Herald.

Schooners Sold.

For a price said to be \$140,000 the five-masted schooner Henry O. Barrett, built at Bath 19 years ago and owned principally by Boston men, has just been sold. The Barrett will be formally transferred to new ownership on her arrival at Boston from Pascagoula, Miss. The purchase price paid for the schooner is one of the highest offered for a sailing craft in recent years.

The Digby fishing schooner Albert J. Lutz and Dorothy G. Snow have been sold to British Columbia parties for \$11,000 and \$12,000 respectively. The vessels will leave shortly for British Columbia waters and will be engaged in the Pacific halibut fisheries. The managing owner of the former was A. J. Lutz, of Moncton, and the latter vessel was owned by Joseph E. Snow of Digby.

SERBIA OUT OF THE SPOTLIGHT.

Just at the present time Serbia is not figuring very heavily in military

operations, so that there is a very pressing danger that the needs of the suffering Serbian people will be overlooked by the public.

There must be no reaction so far as the work of the Serbian committee is concerned. Money is not only needed and needed badly right now, but even when the great peace is declared the demand for funds will still for quite a time be insupportable.

When in the future the Serbs are exhausted by fighting and journeying are able to re-settle in their own land, they will find blackened ruins and devastated fields instead of comfortable homesteads and prosperous farms.

Houses, schools, hospitals, churches, farm buildings all will have to be rebuilt; the land must be reclaimed and cultivated, new seeds and fertilizer provided, farms re-stocked; roads and bridges must be repaired and order generally substituted for chaos.

Nor must this work be undertaken in such a way that it will tend to make paupers of the Serbians. Every measure of relief that is being offered must be on an economic basis that will recognize the new farmer's lack of present capital, but also his future ability to pay for what is being done for him. In the meantime funds are necessary to provide for the daily necessities of the thousands of women and children who have found shelter with our allies.

It is anticipated that Canada will continue to participate by generous contributions through the Canadian Serbian Relief Committee, Toronto.

BRITAIN RELEASES DUTCH GRAIN SHIPS AT HALIFAX.

London, April 7.—Although the Dutch government has reiterated its intention not to permit Allied merchantmen to enter Dutch ports, Great Britain has agreed to release the Dutch grain vessels held at Halifax and permit them to return home without calling at an English port, according to Reuters' correspondent at The Hague.

BRITISH CAVALRY COMES TO ITS OWN IN SOMME BATTLE

Canadians Now Face the Bavarians on Large Section of Western Battle Line.

Canadian headquarters in France, via London, April 7.—(By Stewart Lyon, special correspondent of the Canadian Press)—"To the great satisfaction of everyone here the remarkable April operations have been followed by frost and bright sunshine, which has permitted a resumption of operations, and raids have been carried out along the enemy positions. The hard fighting Bavarians still confront the Canadians on a large section of the line. Few of them have been taken in recent encounters. Our experience has been that they remain in their dugouts at the risk of death by bombing, rather than come up on the call to surrender.

"Our aerial position has been changed greatly for the better and the 'Red Devil,' the formidable enemy machine has been causing trouble, has now learned to respect the British machine.

"From the Somme area comes further information regarding the great value of cavalry. Some of the best bits of work done in the capture of villages was accomplished by horsemen, who took to the fields and carried light guns with them which proved useful in driving away the machine gun sections used freely by the enemy to cover his retirement.

Self Denial Day.

What have you done for yourself at this Easter tide? Only one day is left before the little messenger in your home will be called for and it is earnestly hoped that the offering will fitly show your appreciation of the efforts put forth by the returned wounded heroes, the men of the navy and the starving Belgians. This is the season of sacrifice and we should be willing to sacrifice something of our pleasures in such a worthy cause.

Nerves Weak Had Hysterics

Orilla, Ont. April 7.—There is an abundance of proof found right here in Orilla that Dr. Chase's Nerve Food is unrivaled as a means of forming new, rich blood and building up the exhausted nervous system. At this season almost everyone feels the need of restorative, tonic treatment to keep up vitality and ward off the tired, languid feelings. This letter will give you some idea of the splendid results to be obtained by using this great food cure:—

Mrs. Percy Moulding, 23 West street, Orilla, Ont., writes:—"Some years ago my nerves got the better of me. I became so bad that on one occasion, during a thunderstorm, I had a severe attack of hysterics. Then I became anxious about my condition. It was sleeplessness and nervous debility that were my trouble. Some nights it would be one o'clock before I could get to sleep. Knowing the good results obtained from the use of Dr. Chase's Nerve Food, I commenced a treatment. I took about seven boxes and gradually I could feel my nerves becoming steady and my appetite returning. I could sleep well, and stay alone without any difficulty. Some little time ago I commenced losing in weight, and I began using the Nerve Food again as a tonic. I used only two boxes and recovered the weight I had lost. I cannot speak too highly of Dr. Chase's Nerve Food, and when I see anyone looking ill or nervous I say, 'Get busy and use some Nerve Food.'"

Dr. Chase's Nerve Food, 50 cents a box, a full treatment of 6 boxes for \$2.50, at all dealers, or Edmanston, Bates & Co., Limited, Toronto. Do not be talked into accepting a substitute. Imitations only disappoint.

EASTER DAY IN CHURCHES OF THE CITY

Special Sermons and Music—Baptisms in Many of Methodist and Baptist Churches.

Yesterday the churches celebrated the anniversary of the happiest festival of the whole year, the Easter Day, which commemorates the resurrection of the Lord Jesus from the tomb. The pastors all preached special sermons and the choirs of the various churches provided music appropriate to the occasion. In several of the Baptist and Methodist churches the ordinance of baptism was administered and a number of churches took special Easter offerings to which the response was most gratifying.

In the Anglican churches the lessons for the day were read, special Easter sermons were preached and the music was appropriate to the occasion. Tonight the annual church meetings will be held when the officers for the year will be elected.

In a great many of the Baptist churches the ordinance of baptism was administered and all had special Easter music and sermons. In Main street ten were baptized at the morning service and four at the evening service. At Central, the Sabbath school attended the morning service in a body and seventeen were baptized. At the evening service a reception for new members was held and twenty were received. At Germain street the ordinance of baptism was administered to eight persons at the morning service. At Tabernacle three were baptized; at Charlotte street, West Side, three received the ordinance; at Victoria street at the evening service a reception for new members was held and twenty were given the right hand of fellowship.

At Centenary the services were of a special nature appropriate to the Easter season. At the morning service six were baptized and thirty-two were received into membership; at Queen Square the morning service was followed by baptism and the reception of members. At the evening service the choir wore the Easter gowns for the first time. At Exmouth street the ordinance of baptism was administered at the morning service, and the reception of new members took place after the evening service.

The new Knox church met for the first time yesterday. The preacher at the morning service was Rev. W. M. Fraser, moderator of St. John Presbyterian, and in the evening Rev. J. H. A. Anderson. In the afternoon the interim moderator, Rev. J. A. MacKellan, officiated at the organization of the Sunday school. The officers were elected as follows: Superintendent, Mr. Irvine; assistant superintendent, Mr. Stohart and W. J. Capon; secretary, Robert McAfee; assistant secretary, D. Armstrong; treasurer, Miss L. V. Kennedy; superintendent of cradle roll, Miss P. B. Cummins; superintendent of primary department, Mrs. H. Campbell; superintendents of home department, Mesdames Cameron and Campbell; librarians, Robert McQuarrie and Mr. Townsend; organists, Mrs. Scott and Miss Kennedy.

In Calvin church at the morning service the diplomas were given to the Sabbath school children who had passed in memorizing scriptures.

YOUR SICK CHILD IS CONSTIPATED! LOOK AT TONGUE

If cross, feverish or bilious give "California Syrup of Figs."

No matter what ails your child, a gentle, thorough laxative should always be the first treatment given. If your little one is out-of-order, half-sick, isn't resting, eating and acting naturally—look, Mother! see if tongue is coated. This is a sure sign that its little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath bad or has stomach-ache, diarrhoea, sore throat, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated poison, undigested food and sour bile gently moves out of its little bowels without gripping, and you have a well, playful child again.

Mother can rest easy after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweeten the stomach and they thereby love its pleasant taste. Full directions for babies, children of all ages and for grown-ups printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs;" then see that it is made by the "California Fig Syrup Company."

"What became of that theological student you teased about 'cham with.' " "Gone to the bad." "You don't tell me!" "Yes, he's doing mission work in a tough neighborhood in New York."—Boston Transcript.

ANOTHER FINE BATTALION IS HERE FOR TIME

The 177th of Simcoe, Ontario, Arrived Last Evening—Came From Halifax.

Two special trains from Halifax, the first arriving here at 5 p. m., and the second a few hours later brought to St. John about 185 of Canada's best citizens last night. This party of premier manhood is designated the 177th Battalion, and it hails from the loyal Province of Ontario. These men never expected that they would be quartered in St. John when they stopped aboard the train to proceed east but "in the future are concealed hidden things," and last night the officer commanding Lieut.-Col. J. B. McPhee, the officers and men of the 177th Battalion, arrived in St. John to remain for at least two weeks. The battalion was ordered back from Halifax on account of three cases of diphtheria.

In the ranks of the 177th Battalion are several European veterans, as well as men who saw service in Africa. Lieut.-Col. J. B. McPhee has already seen service at the front. He part over with the 20th Battalion and for five months was active on the soil of Belgium. St. John is not a strange city for the commanding officer as he returned by way of St. John to Ontario just thirteen months ago. While in the city, on that occasion he was married to Miss Marnia Harrison, a sister to Mrs. Allen McAvity of this city, at the St. John (Stone) church.

Recruiting for the 177th Battalion began on March 8th last year and as many as 500 men have been on the muster roll but owing to the stringent examination of the medical board and sickness the number has been decreased to 564. The battalion, for the most part, was recruited in Simcoe County, in which the headquarters were situated.

Not only is the 177th Battalion noted for its warriors, but relations of some of the most illustrious families in England and Scotland form a part of one of Ontario's best fighting units. Major H. M. Scott a grandson of Sir Walter Scott, who has already faced the foe in France, in the ranks of the 15th Battalion, returning to again put his hand to the plow. He was gassed in one of the heavy engagements on the western front and was compelled to return to Canada. He was very reticent concerning his relationship with the distinguished writer and when asked about it only smiled. From the commanding officer, however, the story is learned a portion of the young major's history.

Another notable in the battalion is Major Kortright, officer commanding "C" Company. He is a grandson of Lady Cornelius Kortright.

A Member of the Legislature. Capt. J. I. Hart, M. P. P., for East Simcoe, and deputy grand master L. O. A. for Western Ontario, is also a member of the 177th Battalion. Capt. Hart is the Conservative member for this constituency, and resigned his seat in order that he might proceed overseas in the ranks of the 177th.

Another notable in the ranks of the lumber operators in Ontario, in the Province of Ontario he is very popular. In his own constituency he won over the Liberal candidate in the 1914 elections by a majority of 899.

Band Consists of Thirty. The regimental band under the direction of Bandmaster Sergeant T. E. Andrews was heard for the first time last night in St. John. The occasion was the parade from the depot to the barracks. There are thirty pieces in the band, and many of the players are considered splendid musicians. It is likely that the citizens of St. John will have the pleasure of hearing this musical organization frequently while the battalion is in the city.

Better than any other band the 177th has a bugle band and a credit to any band.

Good Bayonet Team. The 177th Battalion bayonet fighting team won the championship in military district No. 2 in a recent contest. They were presented with a silver cup for this event.

Capt. Wallace of "B" Company is going overseas for the second time since the war began. He saw considerable service with the 4th Battalion in France.

Lieut. H. A. Callaghan, another veteran of the 177th Battalion, was one of the many Canadians who distinguished themselves in the South African war. He was quite disappointed when told that the battalion would not be able to proceed overseas but would return to St. John.

Capt. J. F. Polling, one of the first officers The Standard representative had the pleasure to meet, for it was a pleasure to meet such men as the noble sons of Ontario, although somewhat disappointed for having to return, appeared quite contented as he stroled up and down the depot awaiting the order to parade off.

Capt. J. F. Polling, the medical officer, said that the generosity and hospitality of the city was spoken of to him in Halifax. When seen by the reporter he was busy arranging for the care of the sick.

Other members of the battalion with whom the reporter had the privilege to converse were Lieuts. A. E. Bell of Barrie, Ont.; H. Robertson and P. B. Black of Orillia, St. W. Or of Barrie, and H. J. Graesset and A. B. Bell of New Lowell.

The battalion will occupy the quarters vacated by the 210th Battalion at the exhibition building.

Mr. Gerardo In a When

News of President Gerardo's address to Congress was carried by Herald bulletins, Evening Telegram, and stands was received with enthusiasm exceeding that of demonstration New York in years.

There have been many demonstrations in the Opera House, but none so patriotic as that of a crowd of two thousand when the National Anthem was first before the opera house. The cheering while those standing, the chieftains, parties in rows and all in the upper gallery joined in singing Spangola's Banner.

The first information the president had declared to Congress was that he had been elected to the office of President of the Republic of Chile. The news was received with enthusiasm exceeding that of demonstration New York in years.

TAKE SALTS IF YOUR BACK HURTS SAYS DRUGS EXCITE THE KIDNEYS

Salts harmless to flush kidneys and neutralize uric acid, thus ending bladder trouble.

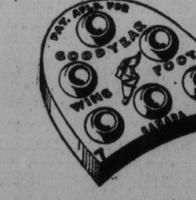

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 600 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in uric acid so no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

EASTER.

New Hats, in former years this was the way many regarded the two words, but for the last few years a decided change for the better has come over the feminine population of most cities and the great Spring Festival is given its proper place as a religious celebration, and not a day for the mere display of finery. Perhaps the finery was typical of the coming of Spring, certainly flower garlands used to appear as if by magic at the top of the women's heads and she walked up the aisle or to and from church vainly trying to look unconscious of the fact that she thought her special hat the very finest in the land. It will probably continue to be for years a joke in the comic papers, for that sort of joke dies hard, but the fact remains that for many days straw hats have been worn, and most women prefer to wear them several days before Easter Sunday or put them on later. Besides the war has brought us a true sense of values, and the money that formerly would have bought an expensive imported creation went this year for soldiers' comforts or Belgian Relief or something really worth while. Not that she women didn't buy hats, of course they did—they needed their heads covered and the "bonnets" might as well be pretty as not, in fact it doesn't cost any more and helps the general look of things, but nobody spent as much as usual or thought as much about them either. The dull day made an umbrella the most appropriate head-

covering anyway.

Easter Cards.

Another sign of this trend of thought was the cards for sale this year. The funny Easter card has almost disappeared and the card ornamented with spring flowers, especially those with lilies and others coming from a bulb, the sign of the Resurrection or life from the dead, were to be seen, and most of the cards had a religious message, speaking of hope.

INSTITUTIONS REMEMBERED AT EASTER.

Those who were well and happy in their own homes this Easter did not forget that there were others who were not so fortunate, and to nearly every hospital came gifts of flowers, fruit or delicacies to brighten the patients and let them know that they were remembered by friends.

For the last twenty years a committee of members of the Church of England Institute with Mrs. Thomas Walker at the head, have sent every Easter to the General Public Hospital home-made bread and oranges. This year the custom was followed and enough bread and oranges donated to last for a two days' treat.

The matron at the Pitt street Military Hospital was very much pleased to receive for her patients a gift of six dozen eggs, flowers and vases to put them in, cakes and other dainties for the soldiers there. With a gramophone which has been donated to them by the Y. W. P. A. there was music all day. Both the Loyalist

Chapter, I. O. D. E., and the Y. W. P. A. send delicacies regularly to this hospital, which are much appreciated.

Many of the soldiers at the Convalescent Home were invited out to dinner or tea, and the day was spent quietly by those unable to go out. The usual goodies in the way of puddings and jellies were sent to the Military Hospital and donations of fresh eggs, which are especially welcomed. Beyond, perhaps, an extra number of the patients' friends to visit them the day was not marked in any special way. Since the institution of the diet kitchen the sick men get the particular food which is best for them, and the volunteer cooks are quite a feature of the hospital and a much appreciated body of workers. Several societies and individuals sent flowers and let them know that they were remembered by friends.

A few of the convalescing patients were invited out for dinner.

DOING THEIR BIT.

A very successful sale of fancy work and home cooking was held Sunday afternoon at the residence of Mrs. Sutton Roxborough, 252 Duke street, West Side, by the members of the Sunday school class assisted by several other young ladies. The handsome sum of \$55 was realized, and this will be sent to Nursing Sister Margaret P. Dunham to buy special comforts for the sick and wounded soldiers under her care in hospital "Somewhere in France."

VALCARTIER CHAPTER, I. O. D. E., PANTRY SALE.

A pantry sale was held in the lobby of the Imperial Theatre (theatre so noted for its hospitality to patriotic societies) by the Valcartier Chapter, I. O. D. E., on Saturday morning. This is rather a small chapter of only thirty members who accomplish a great deal, and this effort was very successful. Miss Blanche Beatey was convener of the committee and the members assisted. All the goods were disposed of early in the day and a good sum added to the chapter's funds for patriotic purposes.

GIRLS' CLUB TEAS.

Sunday night teas given for girls at the Girls' Club have become quite an institution. The month of March the members of the W.C.T.U. provided the supper and for April the ladies of the Queen Square Methodist church are to be the hostesses. The girls pay a small fee which goes to the club funds. An invitation is extended to any girl boarding or rooming in the city and the idea is to give a little lift to the visitors attend church and many return to the club for the song service which takes place and at which familiar hymns are sung. Last evening there was a very good attendance at both tea time and at the song service which was led by Mrs. W. C. Good.

PORTLAND, MAINE, TO HAVE BIG RED CROSS CAMPAIGN.

A big Red Cross membership campaign is to be inaugurated in Portland, the dates having been set for the week of April 9 to 14, inclusive, says the Bangor Commercial.

The affair is to be made one of the biggest of its kind that has ever been held in Maine and it is proposed to add not less than 2,000 members to the present list in the Portland Red Cross Chapter. The City will be thoroughly canvassed, poster space has been donated on the city board and a great banner will be placed across Congress street and there will be a score of different features during the short period allotted for which the people of Portland will be informed that the campaign is on and that they are desired as members.

of American naval vessels. A number of producers have been asked by the navy department to eliminate any such pictures from their releases.

Featuring Pavlova, the most famous Russian dancer, this production is a really marvellous one, with its magnificent settings and huge crowded mob scenes. I had the pleasure of seeing it at a private showing yesterday. The picture is put out under the Universal banner and is directed by Lois Webber, whose attention to detail amounts to genius. The story is a tragedy. Madame Pavlova is a fine actress, as well as the incarnation of music when she dances. The introduction and the ending are particularly beautiful.

OPERA HOUSE.

The performance on Saturday evening at the Opera House was considerably enlivened by the presence of a large number of members of the new units in town who quite evidently enjoyed the excellent vaudeville provided for them. For Easter week there is a bright bill with many lively turns. To begin with there is Honey Johnson, who gives what is called a rapid fire of one joke after another, and is able to get the jokes home to the humorous sense of the audience. If they don't see it at once, he explains it in a funny way. He hardly gives one time to laugh at one story before another is told. Perhaps a few jokes about women might be omitted and some of the inconsistencies of the men held up for ridicule but that may be only my point of view.

"Strolling down a country lane" in the good old summer time came Moore and St. Clair who brought their own scenery of the country lane with them. They give some very lively talk, a song or two and the Country girls (or she poses as such) has a most amusing laugh which she uses skillfully. She also sings with an odd accompaniment quite an accomplishment I should judge.

Dolly, Bennett and Young sing and play brass instruments, the saxophone and French horn, etc. Their operatic selection was very well received and the audience was loath to let them go after this number.

Another trio, Wilcox, Good and Hale, do a moving piano act; one man does the moving and the other one is the joke. The lady member of this team (I wish sometimes that they were labelled) an attractive brunette, very pretty attired, sings very delightfully. They give trios and a pianologue. Their closing number, a pianologue, was excellent and well received.

We are learning now what can be done on a wire and how clever people can dance, skip, jump, kneel, balance on one hand, and in fact perform all sorts of tricks. All of this was done by La Belle Carmen Trio a very good act which ended the programme at the Opera House. This trio also throw Australian boomerangs which are something like curses in that they come home to roost. The throwing looks easy but I am sure it is one of those difficult feats that are so easy when you know how. Altogether the bill is a good one and very entertaining.

"The Crimson Stain Mystery" has a fine "hanger-on" for this week.

BROKEN DOWN IN HEALTH

Woman Tells How \$5 Worth of Finkham's Compound Made Her Well.

Lima, Ohio.—"I was all broken down in health from a displacement. One of my lady friends came to see me and she advised me to consult the doctor. I began taking Finkham's Vegetable Compound and to use Lydia E. Finkham's Sanative Wash. I began taking your remedies and took \$5.00 worth and in two months was a well woman after three doctors said I never would stand up straight again. I was a widow for seven years and I recommended the Vegetable Compound to every woman to take before birth and afterwards, and they all got along so nicely that it surely is a godsend to suffering women. If women wish to write to me I will be delighted to answer them."

—Mrs. JENNIE MOYER, 342 E. North St., Lima, Ohio.

Women who suffer from displacement, weakness, irregular menstruation, nervousness, backache, or bearing-down pains, need the tonic properties of the roots and herbs contained in Lydia E. Finkham's Vegetable Compound.

Around the City

Four the Total. The total number of drunks arrested on Saturday was four.

Primecrest Creditors. The meeting of the creditors of Primecrest Farms Ltd., called for April 6, has been postponed for a month.

Arrested for Stealing. Saturday afternoon Henry Smith was arrested by Detective Barrett, and is held on suspicion of having stolen thirteen dollars from his parents in Brussels street.

Three Baptismal Candidates. At the close of the morning service yesterday, at the Waterloo street Baptist church, three candidates were baptized into the church. One candidate was also baptized at the evening service.

The Police Court. In the police court Saturday Paul Basal was remanded on the charge of assaulting his wife, Edward Cronin, for being drunk and using bad language, was fined \$8. Joseph Gillespie, charged with non-support, was remanded. Eight drunks were dealt with in the usual manner.

Prisoner with Record. Charles Morrison, now in jail awaiting sentence for theft, has a police record. As the result of finger prints being sent away by Chief Simpson it has been learned that Morrison had been convicted of crimes on five occasions; twice under the name of Atkinson, twice as Ackles and once as Morrison.

Damages Demanded. A writ has been issued in the Supreme Court in the case of H. T. Ward, Summer street, a C. G. R. employe, against A. B. Kitchen, Fredericton, an action for damages concerning which there has been much street talk for some time, and which is expected to create a sensation should it come to trial.

Everything Satisfactory. An investigation recently held by the Dominion Department of Public Works into an alleged discrepancy in a matter connected with supply of material for No. 16 berth, was concluded and it is reported that everything was found to have been carried out satisfactorily. Engineer Hill of Ottawa headquarters and Engineer Bond of the local staff conducted the inquiry which was held in the old post office building.

A Midnight Fire. Shortly after Saturday midnight fire was discovered in the grocery store at 25 Brussels street conducted by Louis J. Corey. An alarm was sent in from box 18, and when the firemen arrived on the scene they found the store choked with smoke and quite a brisk fire burning toward the rear of the place. It only took a short time with a good stream of water to quench the flames, but considerable damage was done.

Damaged Lockup Badly. John Travis was arrested at 10:15 o'clock Saturday night by Detective Barrett and was placed in the lockup at the Union Depot. Travis had used his feet in advantage when left alone, for when the officer returned some little time later the prisoner had damaged the door badly, and nearly enough to allow him to escape. In addition to the charge of drunkenness and damaging property, Travis is held on suspicion of supplying liquor to soldiers in uniform.

Sold in New York. "We'll Never Let the Old Flag Fall" words by A. E. McNutt and music by the late M. F. Kelly, both of this city, is now being offered to the American people as a battle song. Slight alterations in the words have been made and the song is being advertised by a large New York music publishing house. Complaint has been recently made by American papers that there is no inspiring song for the American soldiers to sing. St. John brains have supplied the deficit and no doubt "We'll Never Let the Old Flag Fall" will be a source of inspiration to the Yankee soldiers.

A large congregation at the Cathedral yesterday morning heard an eloquent sermon delivered by the Rev. Dr. J. O'Reilly, during the course of which he made a strong appeal for men to join the colors, pointing out the duty young men owed to defend the cause of civilization. Yesterday, Easter Sunday, was an important day in Catholic ecclesiastical circles. At 11:15 o'clock a grand pontifical high mass was celebrated by His Lordship Bishop LeBlanc, who was assisted by the priests of the Cathedral. The choir under the direction of Organist Arthur J. Godson, rendered special music appropriate to the feast.

The best credential this battalion has regarding its efficiency is that the officer commanding the military district, in which we were quartered informed the overseas authorities that with two weeks' training in England we would be perfectly fitted to take our place with the seasoned veterans on the western front," said one of the officers of the 210th Battalion, which arrived in St. John on Saturday morning from Moose Jaw.
