BURCHILL ASCRIBES VICTORY TO HAZEN'S PARTIZAN COURSE

Interference in Federal Contest Fatal, He Says in Interview

Morrissy, Here to See Hazen, Talks of His Future—Not Going to Leave Cabinet, He Says—He Believes He Can Speak for Burchill, But Burchill Has Spoken for Himself.

BURCHILL DECLARES HIS ELECTION WAS DUE TO HAZEN'S PARTIZANSHIP

Toronto, Dec. 3.—(Special)—John P. Burchill, the newly elected M. P. for Northumberland in the New Brunswick provincial legislature, called on City Treasurer Coady this morning.

Hon. John Morrissy, chief commissioner of public works, was in the city for a couple of hours yesterday afternoon and was in conference with Premier Hazen in the latter's office.

Mr. Morrissy read over the published interview. Taking up the paragraph, "You ask why I supported Mr. Burchill. It was not because of the fact that he is an opponent of the provincial government, but rather because I could not bring myself to the position of supporting Mr. Swin, who was an out and out choice of the Conservative party."

Mr. Morrissy said: "I did not say anything of the kind. It is entirely untrue. Burchill is going to give the government independent support."

As to his reasons for supporting Burchill rather than Swin Mr. Morrissy said yesterday: "Simply as a member of the government I had to take part in the election of a supporter of that government."

Was Misrepresented. Taking up part of the published interview which made him ascribe other reasons for the course he pursued, Mr. Morrissy said he did not say at all what was published. "I did say," he added, "when asked if I would retire, that I did not intend to do so, that it would not be fair to the people whom I am supposed to represent."

This, Mr. Morrissy said, he told his interviewer, and when asked yesterday what he meant by the people whom he was supposed to represent, he said the Irish Catholics of New Brunswick.

In closing his talk with a Telegraph reporter yesterday, Mr. Morrissy said: "My position is just the same as ever; there is no change that I know of; my colleagues will support me in Northumberland. So far as I know I am still in sympathy with Burchill and MacLachlan has not changed his attitude toward Mr. Hazen or myself."

Mr. Morrissy, when asked about his conference with Mr. Hazen, said there was nothing to be said.

Back to Work. Fredericton, N. B., Dec. 3.—Hon. John Morrissy, chief commissioner of public works, arrived here this evening on departmental business. He is naturally pleased over the result of the bye election in Northumberland and is being heartily congratulated.

Hon. J. P. Burchill, member elect for Northumberland, is at present in New York state and is expected home early next week. He was notified by wire of the result of the election and sent a telegram in reply thanking his supporters.

C. P. R. CAN CARRY CATTLE FROM WEST TO ST. JOHN

Ottawa Authorities Decide That Direct Carriage Through State of Maine is Legal So Long as Shipments Are Made Through a Canadian Port.

(Special to The Telegraph.) Ottawa, Dec. 3.—In view of certain doubts raised as to the interpretation of recent orders regarding the importation and shipment of cattle, the following question was submitted to the customs department today:

"Will the Canadian Pacific Railway Company be allowed to bring Canadian cattle from the west over their line which runs through the State of Maine to St. John for export?"

After consultation the answer was given officially that Canadian cattle can be shipped through the State of Maine to St. John, so far as any orders given out by

GLENER SENDS MORRISSY NOW

Declares His Usefulness in Hazen Government is Gone

DEMANDS HIS HEAD

Says His Action in Endorsing Burchill in Northumberland Was Unjustifiable and Stupid, and That He is Ruined Politically.

(Special to The Telegraph.) Fredericton, Dec. 3.—The Gleaner this evening follows the example of the Chatam World by saying that Morrissy must go. The Chief Commissioner arrived in the city this evening soon after the Gleaner's proclamation was on the street.

The Gleaner in this matter is supposed to speak for Solicitor-General McLeod, Hon. Mr. Maxwell, Hon. Mr. Fleming, and Hon. Mr. Gessner, who treated Mr. Hazen into sending Mr. Morrissy a telegram the day before election asking him to drop Burchill and support Swin. Morrissy would not, and now the Gleaner demands his head. Premier Hazen faces a row no matter which way it goes. The Gleaner says in the course of an editorial:

"He (Morrissy) does not believe in mixing federal and provincial issues, which is what the term 'coalitionism' in local politics implies, yet he opposes an avowed supporter of the Hazen government, a supporter who publicly endorses the policy of the government, who applauds the administration of affairs, who has been nominated by a convention of the friends and supporters of the government, and gives his personal support and the support of his department to one whom he admits has not even promised to give the government an independent support. And all this solely because Mr. Burchill is a Liberal in federal politics. In taking this position, Mr. Morrissy at once strips himself of the right to be treated as a coalitionist. If there was any such arrangement as he speaks of, that the government was to be a coalition, he has seen the first to violate that arrangement to force the federal issue. In provincial politics he is a Liberal, not a coalitionist. He is clearly not in harmony with what the government is doing. He has taken it upon himself to lock horns with a leader, apparently without notice of intention to break the compact, if compact was made; and also without consultation with his colleagues in the county, both of whom, as supporters of the government, were opposed to his nominee, and one of whom, Mr. MacLachlan, has himself been a lifelong Liberal. Clearly, Mr. Morrissy's interview is not intended as an explanation, but as a defiance."

"There can, in fact, be no reasonable explanation for Mr. Morrissy's attitude as a member of the government after nomination day. We believe he was promised at the outset that Mr. Burchill would give the government an independent support; and it was further promised that a telegram from Mr. Burchill, then in New York, and so stating, would be read at the hustings, together with the further announcement that the card to the electors already given out through the Liberal press was not that of Mr. Burchill, but the signature was not his, and that he did not give his assent to it. Although such an announcement to the public by Mr. Burchill's authority would not have fully justified the position taken by Mr. Morrissy, it would to some extent have eased a very awkward situation into which Mr. Morrissy had evidently been tricked by opponents of the government. But on nomination day Mr. Burchill's friends refused to make good. The alleged telegram by which his position was to be defined, was not read. His representatives would not make the announcement which they promised to make. They declined to take the people into their confidence, and whatever they may have said to Mr. Morrissy, they took good care not to place him in a position in reply thanking his supporters."

(Continued on page 4, seventh column.)

HAYTI REBEL LEADER INVITED TO TAKE DEPOSED PRESIDENT'S MANTLE

WHEAT SHIPMENTS WILL BE HEAVY FROM ST. JOHN

More Than Half the Crop in Western Elevators Yet and Must Come All-Rail.

(Special to The Telegraph.) Montreal, Dec. 3.—There is every indication that a large portion of the 1908 wheat crop in the west will have to find its way to the sea by the all-rail route to St. John. This will undoubtedly mean that the Canadian Pacific and other rail ways will be kept more than usually busy during the present winter transporting wheat.

While it is hard to get exact figures, it is by no means difficult to see that probably more than half the crop will be in the west when the last lake boat from Fort William unloads its grain cargo, which will be within a very few days.

Up to Dec. 1 only 41,500,000 bushels of wheat had been marketed, according to the reports received by the Canadian Pacific, and of this only 22,975 cars had been loaded representing approximately 32,925,000 bushels. Of this it is not likely that more than 20,000,000 have been loaded on to ships at Fort William and Port Arthur, or 25,000,000 at the outside, the rest being scattered over the country in elevators and cars.

It is estimated by C. P. R. calculators that there will not be far from a total of 100,000,000 bushels to ship out of the country. If this is correct there will still be somewhere around 80,000,000 bushels of wheat west of the Great Lakes when their navigation ceases for the winter.

There will be very little desire on the part of the western farmers and wheat dealers to hang onto this wheat until the lakes open up to traffic again, especially with the present high price of wheat and general need for cash in the west.

The result will certainly be that a large proportion of this wheat will find its way to shipboard by the all-rail route. What this means to the C. P. R. can roughly be estimated by the fact that 1,000 bushels is reckoned as a carload, so that it would require 80,000 cars to carry the wheat awaiting transhipment for the haul to St. John.

While all these figures are approximate, since no one can guess how much of the wheat will be hustled out of the country before spring, there is enough behind them to show very plainly that the C. P. R. will have lots of work for its freight cars during the present winter.

CHILDREN BADLY INJURED PLAYING WITH DYNAMITE

(Special to The Telegraph.) Quebec, Dec. 3.—Not knowing what they were playing with, two seven-year-old sons of Rodolphe and Napoleon Couture, Ste. Claire, Dorchester county, tossed a stick of dynamite back and forth through a snow ball battle. When it exploded the children were thrown many feet away and were all covered with blood when rescued by their mothers.

One of the boys had received only minor wounds, while the other had lost three fingers and was severely burned about one leg.

It is supposed the dynamite came from the G. T. P. construction work at St. Malche, a few miles from Ste. Claire.

C. P. R. HALIFAX EXPRESS WRECKED IN ISLAND YARD HERE

Engine and Cars Overturned, Track Ploughed Up; No One Badly Hurt

Private Boats Used Dockyard

Repairs, Also, Made on Them by Halifax Marine Employes

THREATENED COURT

Inmate Contractor Demands Return of His Checks Used in Court, and Declared He Would Sue Judge Instanter—Long Search Revealed Them in Owner's Custody After All.

(Special to The Telegraph.) Halifax, N. S., Dec. 3.—Judge Cassels' court was engaged today largely in trying to find out what prices have been charged against the department on electric light work, boiler work, and for grocery and meat supply. Some prices were found moderate and others pretty high, for instance, \$1.50 peaches at \$2.00.

An effort was made also to throw light on repairs made to a boat in the dockyard owned by Charles Henry, manager for William Roche, which it was alleged was painted and repaired by dockyard employes. There also appeared to be a boat owned by a son of Agent Parsons.

It seemed that the dockyard officials knew very little about either. Lawyer Watson said they appeared to keep their "cars shut and their eyes closed." This proposition was tacitly agreed to.

An amusing incident occurred this afternoon, W. S. Davidson, of G. S. Campbell & Co., whose books had been ordered into court in connection with the payment of \$400 to Capt. Peter Johnson by the Halifax Salvage Association got them back today, but Davidson failed to find a set of checks which had come with them. He went to Lawyer Watson and asked for their return, but he was put off with a promise that they would be looked for.

Then he rose in open court and publicly asked for them. Judge Cassels in some what similar language said they would be searched for and returned.

Later Judge Cassels was given a letter, threatening a suit if they were not returned tomorrow. The judge, speaking of this letter, said such a letter surprised and pained him. He had never had anything of the kind before. It could not happen, he said, in Ontario. It set the officers of the court searching for the missing checks in dead earnest. They spent the whole afternoon at it. As last as the court was adjourned they looked in Davidson's own books which were still in the sheriff's office and the checks were found there safe and sound.

Davidson had had them all the time. The laugh is not on the court now.

The witnesses to be examined tomorrow morning will be the official staff of the marine department. They are all notified to be present the first thing in the morning.

FOUR MEN SHOT, ONE FATALLY, IN DRUNKEN BOUT

(Special to The Telegraph.) Kenora, Dec. 3.—Four men were wounded last night in a shooting affray which took place at Dryden (Ont.). A party of men were drinking in a house on the outskirts of the town, when Joseph Milroy suddenly jumped up and fired five shots from an automatic revolver.

The wounded are: Richard Denna, of London, England, shot in the abdomen; Daniel Foy, shot in neck and right side; A. Stanton, shot in knee, and William Sharpe, wounded in thigh.

Milroy was arrested and brought to Kenora. He will be tried Saturday.

WHITE CANDY COMPANY SEEKS MONCTON BONUS

Would Remove St. John Plant There if They Got Free Water and Light and Civic Guarantee of \$40,000 Six Per Cent. Bonds—Reason Given is That They Can't Get Enough Help Here.

(Special to The Telegraph.) Moncton, N. B., Dec. 3.—Dr. Hayes, and W. Tabor, representing the White Candy Co., St. John, appeared before the city council tonight with a proposition to remove their industry to Moncton, the company asking the city for free light and water for ten years, and guarantee of six per cent bonds for \$40,000 redeemable in equal parts in five, ten, fifteen and twenty years.

As security the company offers the city a lien on their St. John building, value \$10,000; plant and machinery, \$20,000; stock, \$20,000; and book debts, averaging \$15,000, and a guarantee to carry \$25,000 fire insurance.

Dr. Hayes and Mr. Tabor addressed the council stating in effect that the White Candy Company intended removing from St. John, because they could not get the help they required to operate their factory at full capacity. There was no question of competition between St. John and Moncton, as manufacturing centres, it was

purely a question of securing lands. The company wished to expand its business and they could not do so in present conditions. The hands now employed were working double shift, but the orders could not be filled. Running full capacity, they would employ about 100 hands and pay out about \$20,000 in wages yearly.

The council took no action, but decided to take the matter into consideration.

TUPPER, BOUND TO ENGLAND, SATISFIED WITH BORDEN AS LEADER

(Special to The Telegraph.) Montreal, Dec. 3.—Sir Charles Hibbert, Lady Tupper and two daughters, left here this evening for St. John where they will take the Victoria for England. Before leaving Sir Hibbert gave an unqualified adhesion to R. L. Borden's continued leadership of the Conservative party.

WOULD HAVE A FEW CANADIAN MEMBERS IN HOUSE OF LORDS

Select Committee Would Reform Upper House by Electing 200 of Their Number by Themselves, and 130, That Have Held Important Posts, Should Sit by Right—Ten Bishops and Five Judges Also.

(Special to The Telegraph.) London, Dec. 3.—The report of the select committee of the House of Lords appointed to suggest a plan for the reform of the upper house, was issued today. The committee finds it undesirable that the possession of a peerage should entitle a man to sit and vote as the "Lords of Parliament," not for life, but for a single parliament; that the spiritual lords of parliament be reduced to ten, to be elected by the bishops; two archbishops during the tenure of their sees and the other eight for the duration of each parliament; that Canada, Australia, New Zealand and South Africa have official representatives in the house of lords; that

a number of hereditary peers, estimated at 130, possessing certain qualifications, should sit without the necessity of election; these to include members of the peerage, the post of cabinet ministers, viceroys, governors-general of Canada and governor of the larger colonies, and naval and military officers of high rank and that twenty years service in the house of commons shall entitle one to a seat among the peers.

This plan will give the reformed house of lords and 350 members, namely three peers of the blood royal; 200 peers to be elected; about 130 qualified hereditary peers; 10 spiritual lords and five judges.

The report adds that the committee feels that the party's power in the house of commons should be able to count on a substantial following in the house of lords, but as opinions as to the best means of arranging this object are so diverse it is unable to make any recommendations.

HALIFAX CHARGES WERE EXCESSIVE Fancy Prices for Furnishings for Government Steamer

C. T. Schmidt, Boiler Inspector, on Stand Admits Getting Tips from Engineering Firms—His Letter to St. John Man Brings Severe Rebuke from Judge Cassels.

Halifax, N. S., Dec. 1.—Judge Cassels' commission brought out a few new facts today. In the morning the evidence was gone over again of the giving of sums of money to Captain Peter Johnson, then master of the steamer Lady Laurier, for services in connection with the steamer Mount Temple and the steamer David, who was testifying, contended that the payments were legitimate but that no one ever thought of paying the government for use of the steamer. That was always to be free.

In the afternoon, Wm. Westin, who some time ago was employed in the dockyard, but lost his position there, came into court with a list of ten employees of the dockyard who, he said, had been regularly stealing from the government stores.

George A. Wooten, one of the leading Liberals of the city, was questioned for an hour. He told of efforts to obtain orders from the marine department. It developed that he had a contract for repairs on the Lady Laurier for \$70 which he was paid. The government declined to pay the bill Wooten rendered in connection with this job of \$200 additional. This was for supervision of the marine department a day for fifteen days. He had a dozen other jobs running at the same time.

Asked what was done with the extra profits on contracts with the department, he could not say. As for himself, when he was sent to the country to take charge of a district he paid his expenses out of his own pocket.

The lawyers did not finish with Wooten and he was requested to come back tomorrow with his books which were not on hand today.

An interesting episode in the afternoon was the appearance of Joseph Ferguson, chief engineer of the steamer Minto, at Charlottetown. He came into court in obedience to a telegram from the deputy minister of marine, Mr. J. H. Macdonald, who had paid gratuities ranging from \$50 to \$200 by a number of engineering firms who had worked on the Minto. Among those were Droll, of Quebec; Bruce Stewart, of Charlottetown, and the Pictou Foundry Company, of Pictou. This is the first time Charlottetown and Pictou concerns have been mentioned in this connection. Ferguson said his certificates for work were not affected by these gratuities, and that they were a regular custom of the trade in Scotland, where he came from.

Judge Cassels complimented Ferguson on his frank and straightforward testimony. The court adjourned till 10 o'clock tomorrow morning.

Morning Session. The marine and fisheries investigation on Judge Cassels was resumed this morning. C. H. Longard of Longard Bros. was called. His brother said that he had received a telegram stating that his brother was too unwell to attend. Mr. Longard was told to take a cab and bring his brother to the court room. The judge said that he had a regular custom of being able to do so. Mr. Longard left the court room to carry out these instructions of the court.

After consulting with Judge Cassels and his colleague, J. L. Perron, Mr. Watson called for the Halifax Salvage Company and W. S. Davidson responded. Mr. Davidson said he was known to Captain Johnson for a long while. He was secretary of the Halifax Salvage Company. He had had no dealings with Captain Johnson, captain of the Lady Laurier, only in respect to the Mount Temple. Captain Johnson was paid \$400 by the company. (The cheque was produced, made payable to Beazley Bros. or order.) This cheque was for Captain Johnson, for Beazley Bros. to do as they pleased with," asked Mr. Watson.

HAZEN MEN BEATEN SOUNDLY IN CARLETON AND NORTHUMBERLAND

Terrific Blow Dealt Shaken Administration by Election of Upham and Burchill

Carleton Liberals Give Upham 137 Majority, and Burchill Has Good Margin, and Would Have Had Many More Had His Friends Thought He Needed Them--A Pair of Very Black Eyes for Premier Hazen and His Government.

Woodstock, N. B., Dec. 1.—George W. Upham was elected today by a majority of 137, the total vote being somewhat smaller than in the recent federal election, but practically up to the usual number in a local contest.

Mr. Upham's victory was confidently looked for by his friends. The government party made frantic efforts to hold the seat but all to no avail. Compared with last March the result is indeed significant. It represents a change from a minority of more than 500 to a comfortable majority.

The local Conservatives are utterly crestfallen. Although the contest was apparently the cleanest in the history of the county and the only cases of bribery so far reported, being committed by Conservatives they are childishly talking of protesting Upham's return.

Upham's majority of seven-one is the largest a Liberal ever received in Woodstock. Upham carried seven of the eleven parishes.

Table showing election results for Woodstock, N.B., Dec. 1, 1908. Columns include Constituency, Liberal, Conservative, and Total.

The majority of Mr. Upham Tuesday shows a gain of nearly 600 as compared with the March general election. In those elections the highest man on the Hazen ticket, Hon. Mr. Fleming, was nearly 600 votes ahead of the highest man on the then government ticket, Hon. Mr. Jones. The Carleton county returns in the March elections were:

Both sides took place in the Opera House. The license party claim there will be a big change in Moncton, where the act had been in force for some time.

Temperance People Are Holding Public Meeting, But Antis Are on Still Hunt. Moncton, N. B., Dec. 2.—The temperance people held a mass meeting in the First Baptist church tonight and addresses in favor of the retention of the Scott act were made by Rev. H. G. Dockrell, Rev. E. B. McLaughlin and J. V. Jackson.

Advertisement for Black Watch chewing tobacco, featuring the brand name and a small illustration.

BOLD CRACKSMEN MAKE GREAT HAUL

Blow Open Safe of Pepperell, Mass., Bank and Secure \$14,000

Robbers Fastened Doors of Buildings Near By and Then Began Operations—Men, Unable to Reach Street, Opened Fire from Upper Window, But It Didn't Scare Burglars—Finally Escaped With Loot in Automobile.

Pepperell, Mass., Dec. 2.—Although the police of every city and town within a radius of fifty miles were keeping a sharp look out today for traces of the five burglars who early today blew open the safe of the First National Bank of this town and escaped with \$14,000 in cash, absolutely no clue to the identity of the safe blowers had been discovered up to tonight.

Under the circumstances the news of Mr. Burchill's victory will, no doubt, be very gratifying to him when he learns tonight at Buffalo (N. Y.), where he is expected to be en route to his home in Northumberland, whose people for the fifth or sixth time have honored him when absent from home with the highest gift in their power to bestow—the representation of the county.

The following are the returns: New Castle, 172; Burchill, 85; Douglastown, 56; Oak Point, 19; Tabouatane, 30; Derby, 77; Whiteville (North Esk), 28; Matchetts (North Esk), 35; Blackville, 109; Blisfield, 24; Boiestown (Ludlow), 41; Morris, 116; Fletts (Nelson), 116; Hardwick (Lucanania), 35; Bay du Vin, 34; Scotts (South Esk), 158; Red Bank (South Esk), 39; Loggieville, 58; Rogeeville, 68; Murray, 109; Chatham, 338; Protectionville, 11; New Jersey, 91; Lower Newcastle, 21.

One place to hear from. Burchill's majority, 105. To appreciate the full significance of Mr. Burchill's majority it is necessary to compare the returns of the general provincial elections of March last. There Hon. Mr. Morris, who led the Hazen ticket, was more than 1,300 votes ahead of Murray, the highest man on the then government ticket. Tuesday's March returns were: Morris, 2,803; Murray, 2,783; Allan, 2,747; MacLachlan, 2,693; Murray, 1,489; Miller, 1,468; Winslow, 1,465; Anderson, 1,400.

English Accountant Commits Suicide. Charles Queree Found Dead With Bullet Wound in Head. Was in Employ of Sayabec, P. Q., Concerned, and of Good Habits—Left Letters for Mother and Sister.

Campbellton, N. B., Dec. 1.—Word has been received here today that Charles Queree, chief accountant for the firm of John Fenderson & Co., of Sayabec (P. Q.), was found dead in his room yesterday morning from the effects of a bullet wound and a revolver lying beside him.

Interest Unabated in Maritime Winter Fair. Building Crowded With Spectators—Judging Competitions Begun. Amherst, Dec. 2.—Excellent weather conditions prevailed today, which was the third of the Maritime Winter Fair.

Number of Coal Oil Explosions Out West Alarms Authorities. Government Issues Strict Orders to Collectors Not to Permit Any Entries That Will Not Stand Test. Ottawa, Dec. 2.—The department of customs has issued a circular to collectors at Winnipeg, Brandon, Emerson and other points in the west calling attention to the number of fatal accidents recently from explosion of coal oil, and enjoining them to exercise the utmost vigilance to see that no imported oil is permitted to enter Canada unless it absolutely complies with the terms of the petroleum inspection act.

Jubilant Over Upham's Victory. Torchlight Procession and Speeches After the Polling. Woodstock, N. B., Dec. 2.—(Special)—There is great jubilation among the Liberals today on the magnificent victory scored yesterday when George W. Upham defeated W. J. Owens, the Conservative candidate.

Another Disastrous Defeat for the British Liberals. Chelmsford, Eng., Dec. 2.—The Liberals suffered another disastrous defeat in the by-election for a member of the house of commons held here today. Captain Prettymann, Conservative, running in one of the Essex divisions, was victorious over A. H. Dence, the Liberal candidate.

MACDONALD COLLEGE MOVEMENT
MASTERY FOR SERVICE

MACDONALD COLLEGE IS SITUATED AT STE ANNE DE BELLEVEU, QUE. 20 MILES WEST OF MONTREAL ON THE MAIN LINE OF THE G.T.R. AND C.P.R.

An important feature of this series of articles will be answers to questions put by readers of this paper. The answers will be written by the college professors and will be published in these columns. The questions should be of general interest and should be written upon one side of the paper only, and should be addressed and mailed to:

The Editor,
Publication Department,
Macdonald College, P. O. Que.

The supervision of the preparation of the articles in all the departments will be under the direction of an editorial committee acting with Dr. James H. Robertson, C. M. G., principal of Macdonald College, whose name is a household word throughout Canada. The articles will appear under nine departments under the direction of professors who have charge of corresponding departments in the college. These departments are as follows:

1. General—Besides having general supervision of the whole work, Dr. Robertson will provide original and specially selected articles for this department.
2. Pure and Applied Science—This department will treat of subjects connected with the sciences of bacteriology, biology, physics and chemistry as they affect the general life of the people. Those in charge are: Professor F. C. Harrison (bacteriology), William Lochhead (biology), Carlton J. Lynde (physics), J. F. Snell (chemistry).
3. School for Teachers—Teaching matters connected with the teaching profession. This department will be under the supervision of Professor George H. Locke, dean of the school for teachers.
4. Cereal Husbandry—Teaching of matters connected with grain crops. Professor Leonard S. Klinek.
5. Animal Husbandry—Teaching of matters connected with farm animals. Professor H. S. Adell.
6. Horticulture—Teaching of matters connected with garden plants and crops. Professor W. Sully Blair.
7. Poultry Keeping—Teaching of all matters connected with poultry. Mr. F. C. Elford.
8. Nature Study—Prof. John Brittain.
9. Household Science—Teaching of all matters connected with the household. In this department the contributors will be Miss Marie E. Jumper, dean of the school of household science, and her assistants.

Keeping Onions Through the Winter.

Onions that have not been properly matured and dried cannot be stored satisfactorily over winter, under the best conditions. If onions have thick necks get rid of them at once. If they are not well dried, put them where they will become perfectly dry. Onions which have been left late in the ground and have started a second growth of roots will only be a failure so far as winter storage concerned.

The requirements for winter storage are a dry and cool place. A too damp, cool atmosphere is not satisfactory, and a too warm, dry atmosphere will not give results.

In drying onions in the field, I follow the practice of leaving them thin and not piling several rows together. This, I find, is better, as it gives the bulbs a free circulation of air, and consequently a better chance of drying. It requires about two weeks in the field, in average weather, for them to dry properly.

Some prefer to take the onions in with the tops on. I fancy topping in the field, and then storing over the winter inside, removing those not likely to store well.

They can be stored most conveniently in slatted crates, holding about a bushel piled one upon the other, leaving space of an inch or two for ventilation between them. Slatted boxes are preferable to tight ones, or they can be piled in bulk on slatted shelves, three or four feet wide and not more than two feet deep. They require plenty of air around and through them to keep well, and that is the advantage of slatted crates or benches.

Our onion storehouse is a basement room about nine feet wide, having a two-foot walk in the center and three tiers of slatted shelves forty inches wide at each side. The slats are inch lumber about three inches wide, with one-half to three-quarters of an inch space between them. Keep the temperature as even and low as possible without freezing, and if the bulbs have been properly matured and the air is kept dry, no difficulty in keeping the onions will be experienced.

W. S. BLAIR.

Practical Physics—A Note on Two-Horse Eveners.

There are three types of two-horse squallers or eveners in use on the farm. (1) Those where the holes for the whiffle-trees are in line with the hole for the draft pin; (2) those in which the holes for the whiffle-trees are in front of that for the draft pin; (3) those in which these holes are behind that for the draft pin.

Number (1) divides the work equally in all cases because the lever arms are equal whether the horses are pulling evenly or one horse is ahead of the other.

When the curtains to the roosts were used, the range was allowed almost continually, no trap nets were used, the hens were kept as near as possible like farm conditions.

F. C. ELFORD.

The Laboratory of the Housekeeper.

The following is quoted from Dadd's "Chemistry of the Household": "one of the volumes of the Library of Home Economics, published by the American School of Home Economics, Chicago."

"All modern science is based upon experiment. Chemistry was hardly a science

CLOSE HALF CENTURY OF MARRIED LIFE

Golden Wedding of Mr. and Mrs. Robert Barbour Celebrated

PRESENTATIONS
A Number of Gifts Made at Gathering Last Evening—Couple Active and Fully Enjoy Family Re-union—Recalls Interesting Building Work Here.

Surrounded by their children and grandchildren, Mr. and Mrs. Robert Barbour of 156 Sydney street, Tuesday evening celebrated the fiftieth anniversary of their wedding. Despite the passing of time, both are active and they took a keen interest in the celebration of the event. Mr. Barbour with his son, Charles, conducted a painting and decorating business and in one of the best known men in that line of work in St. John. Many of the best houses in the city have been decorated by him, both in interior and exterior work, and he is still active in his trade.

SOFTENING HARD WATER.

Some hard waters, known as "temporarily hard," can be softened by merely boiling. Others require treatment with alkalis. The following quantities are recommended in Dadd's "Household Chemistry," for moderately hard waters. The quantities can be increased or diminished to suit the particular case. A gallon of water should give a good result with soap:

- 1 level tablespoonful salt soda to 1 gallon of water; or 1 1/2 level tablespoonfuls powdered lime to 1 gallon water; or 1 level tablespoonful borax to 1 gallon water.

DISTRIBUTION OF GRAIN AND POTATOES FROM EXPERIMENTAL FARMS

By instruction of the honorable minister of agriculture a distribution is being made of grain and potatoes to Canadian farmers for the improvement of seed. The grain for distribution has been secured mainly from the experimental farms at Indian Head (Sask.) and Brandon (Man.). The samples consist of oats, spring wheat, barley, peas, Indian corn (for ensilage only) and potatoes. The quantity of oats sent is four pounds, and of wheat or barley five pounds, sufficient in each case to sow one-twentieth of an acre. The samples of grain and potatoes are as follows:

- Oats—Banner, Danish Island, Wake, White Giant, Thousand Dollar, Improved Ligowo, all white varieties.
- Wheat—Red varieties, Red Eye (Beardless), Chelsea, Marquis, Stanley and Percy (early beardless), Preston, Huron and Angel of Midland, Compton's Early and Longellow; later varieties, Selected Learning, Early Mastodon and White Cap Yellow Dent.
- Potatoes—Early varieties, Rochester Rose, and Irish Cobble. Medium to late varieties, Carman No. 1, Money Maker, and the variety they prefer, with a few other varieties as a rule more productive than the earlier kinds.

YARMOUTH PASTOR CALLED TO BRANTFORD CHURCH

Toronto, Dec. 2.—The Park Baptist Church, Brantford, Ont., has elected Rev. W. Rose, of Yarmouth (N. S.), to become its pastor.

KENTUCKY HORSES LIKELY HELD UP

Little Chance of Clinch's Purchase Getting Here for Months

AFRAID OF DISEASE
Local Government Has Asked Federal Authority to Admit Them, But Premier Hazen Thinks They Will Have to Winter in the South.

Mr. Hazen said Wednesday that the provincial government is communicating with the Dominion government with a view of securing permission to bring in the horses bought in Kentucky by Peter Clinch for the New Brunswick government. Mr. Hazen said that the animals, however, might have to be kept in Kentucky for some months as he feared the Canadian government would be chary of risk which might lead to the English authorities prohibiting Canadian cattle from entering the old country. If the horses had to be kept in Kentucky for a time, Mr. Hazen said, the expenses would not be great.

EMBARGO WIDE IN ITS SCOPE
Not Even American Poultry Will Be Shipped from Here—Canadian Cattle Likely to Come via I. C. R.

The present outlook is that, not only will there be no American cattle shipped from St. John this year, but that no live stock of any kind—horses, sheep, hogs or even poultry from any part of the United States will be allowed shipment from this port.

This is a broader interpretation than has yet been published of the regulations established by the Dominion government since the outbreak of the foot and mouth disease across the border. It was at first thought that only cattle would be barred and the Keator house at Nauvigaauk.

REBELS SWEEPING ALL BEFORE THEM IN HAYTI
Thousands Flocking to Their Standard—Many Desertions from Government Troops—Port-au-Prince Likely to Fall Without a Blow—Foreign Warships Ready to Protect Their Citizens.

Port au Prince, Dec. 1.—The expected battle between the revolutionists and the troops of the government, which are entrenched a few miles outside of the city, is likely to be deferred for several days. General Antoine Simon, the commander-in-chief of the revolutionary forces, has decided to attack Jacmel, which lies 30 miles to the southwest of Port au Prince and which is the only town that has remained loyal in the department of the south, before resuming his march on Port au Prince.

ANOTHER EFFORT TO GET THAW OUT OF NEW YORK STATE
Pennsylvania Court Hears Appeal from Order Denying Motion to Bring Lunatic to Pankrupcy Court.

Philadelphia, Pa., Dec. 1.—"Is it the purpose of these bankruptcy proceedings to raise the question of Thaw's insanity in the United States?" asked Judge Bullington, who, with Judges Dallas and Buffington, is hearing arguments in the matter of the appeal to bring Harry K. Thaw from Matkewan Asylum to Pittsburgh to testify in bankruptcy proceedings. Former governor Stone, representing Thaw, replied that he was in court in the interest of a writ of habeas corpus to bring Thaw to Pittsburgh where his assistance is needed to properly marshal his estate, and that he did not know what Thaw's creditors might do.

SERGENT HIPWELL GETS FREE YEAR ON FULL PAY

Safety Board Votes In View of His Long and Honorable Record

ON THE FORCE 57 YEARS

Chief Clark Speaks for Him and Brings Up Matter of Police Superannuation Fund - Some Stirring Incidents in Sergeant Hipwell's Career.

In consideration of his faithful service for fifty-seven years on the police force the safety board this week recommended that Sergeant John Hipwell be granted one year's leave of absence with full pay. In a letter, the sergeant, after referring to his long period of service, expressed the opinion that he had earned a rest and asked to be retired from active duty.

Sergeant John Hipwell.

Chief Clark said Sergeant Hipwell had been a good officer and was still, despite his 57 years, the possessor of a fine memory. He had always found him ready and willing. The sergeant had entered the service of the city July 13, 1851, and he regarded him as a wonderful man. No one on any police force on the continent of America had a record for such long service. The police department had no fund under which the sergeant could receive a retiring allowance. He was in favor of the city taking over the sick benefit fund at some time and making provision for such cases. Every member of the force, he explained, would be willing to pay a percentage of his salary.

FIVE LIQUOR CASES TO BE TRIED AT CHIPMAN

Hon. L. P. Farris, chief commissioner of the G. T. P. police, at the Royal, held Tuesday that he was to try five liquor cases in Chipman this week. Two will come up on Friday afternoon against a woman named Mrs. Faskel. On Saturday afternoon a man named Waters will be asked to plead to two offences against the liquor law, and an Italian to one case.

"ROYAL GUARDIANS"

Public notice is hereby given that at the next session of the Parliament of Canada the "Royal Guardians" of the province of Quebec will be organized. The object of the association is to protect the interests of the province of Quebec and to see that the laws of the province are properly administered.

ed his hand towards the pistol. Before he could grasp them Hipwell had him pinned down by the throat and the handcuffs were soon snapped on and Reynolds was a prisoner.

MANUAL TRAINING DEPARTMENT AND "GYM" ARE ADDED

Rothley Collegiate School is now receiving in three new acquisitions to its equipment, viz., a gymnasium, a manual training department and last but not least, a manual training room. The gymnasium, though not yet fully equipped, has been opened for basket ball and similar games and is supplying a long felt need for the early winter months when the usual outdoor sports cannot be enjoyed.

WEDDINGS

STICK TO THE FARM, SAYS GOVERNOR FRASER

Appeals to Young Men of Maritime Provinces—Notable Speakers a Winter Fair. Amherst, N. S., Dec. 1.—The Maritime Winter Fair continues with unabated interest and today even larger numbers were present than yesterday. All part of the maritime provinces are represented.

OBITUARY

Miss Jennie Squires. Miss Jennie Squires, of Upper Kent, Carleton Co., died at home on Monday last of consumption. She was well known as a popular school teacher, and was absent from her home for some time on a visit to her mother and one brother.

LOCAL NEWS

Rev. Thomas Cummings, of Truro, will be the temporary pastor of the church. It is expected that the Moffat perjury trial at Sydney will be continued for some time yet.

FRUIT JUICES CLEAR THE SKIN

The skin mirrors faithfully the state of the blood, and the blood shows how well or how badly—the liver, bowels, kidneys and the millions of tiny glands in the skin are doing their work. If these organs are not properly clearing out the waste matter, the blood will be "muddy" and the skin sallow, "muddy" and sprinkled with pimples.

THE SHAWMUT TOTAL WRECK; CREW ARE SAFE

Barquentine Goes on Libbey Island, Me., in Storm on Voyage from St. John. Capt. Reicker Sends Word He Was Trying to Make Machias to Shelter from Storm—Only Mizzenn Standing at 9 O'Clock Tuesday Morning, Six Hours After She Struck.
