and will not have failed to notice the special appliance given to the squadron of cavalry which marched past under the command of the Due de Chartres. At the gala performance at the Opera the Due de Nemours was in the royal box. At the Elysee, at the Ministry of Foreign Affairs, at the fetes, in short, one saw the familiar faces of the Orleans Princes.

Affairs, at the fetes, in short, one saw the familiar faces of the Orleans Princes. Some people say that they have thus put themselves forward in compliance with the advice of the Duc de Broglie, whose dynastic partialities are no secret, and who thinks that to show themselves frequently to the army and to the public may be advantageous to their interests. By whomsoever given, the advice seems judicious. It was not by keeping out of sight, by "effacing" themselves, as the French say, that they would improve their chances. In all scrambles the luck is for the forward; and there seems no reason why, in the competition for supreme power in France, the Orleans family should not have as good a chance as any other. Were a vote taken to-morrow in the Assembly for a definite form of government, it is probable the largest number of voices would be given for the Orleanists. There would be more Republicans, certainly, but these would divide their suffrages among two or three different kinds of republic.

Terrific Thunder Storms in England-Many Persons Killed by Lightning Intense Heat.

[From the London Ti nes. July 24 ] The thunder storm which visited Bath arly yesterday morning has not been exceeded in violence since the memorable night when George III. died. Just before 2 o'clock the rain came down in torrents, carrying soil, stones and sand from the neighboring hills into the city. The lightning was almost unintermittent, and illuminated the city and adjoining hills very vividly. The greatest alarm pre-vailed among the inhabitants, the majority of whom left their beds. In the city and vicinity trees have been split up, houses damaged and cattle destroyed. The storm lasted about an hour. In

It is well known that our Methodist brethren, at their late Conference in Fredericton, with a candor which does them honor, and with only one to dissent, passed a strong resolution committing themselves to the close communion which restricts the Lord's Supper to the baptized. Thus they have said that they will no longer join in the interested outcry which has been raised against our strict communion practice. In this manner they have openly taken their place, as a denomination in the close communion ranks.—Visitor. Hard-Shell Methodists.

It is found a great promoter of health, when taken in the spring, to expel the humors that rankle in the system at this season of the year. Many complaints have their origin in the spring, and in the causes above mentioned, for which no better remedy has ever been devised. By its use multitudes can spare themselves from the endurance of foul cruptions and ulcerous coresthrough which the system strives to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicins. Cleaned out the wilsted blood whenever you find its impurities bursting through the skin in pimplee, cruptions, or sores; cleanse it when you find its obstructed and sluggish in the veins; cleanes it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, tor cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Prepared by DR, J. C. AYEE, & CO.
