

SUMMARY OF NEWS.

The Great Fire at Montreal.—The Montreal papers contain particulars of the destructive conflagration which occurred in that city on the 24th inst.

The fire commenced in a livery stable in Craig street, and spread with great rapidity, destroying a block of stone houses from which the inmates barely escaped with their lives, leaving a great amount of furniture and other property to be destroyed. The fire extended up Main street, to Villerie street, destroying the whole property, of stone and brick buildings, nearly one hundred in number. The Montreal Herald says:

"Men, women and children, who had hardly escaped with their lives, and with no coverings beyond their night-dresses, were distractedly running about in search of shelter. Some succeeded in placing their furniture and goods in safety on the Champ de Mars, and, we regret to say, that the great majority of the sufferers lost their all—not only what they had been forced to abandon in their houses, but what they had in the first instance removed to the houses of their neighbours, in the hope that the conflagration would not reach them."

Many houses not consumed were partially injured and rendered temporarily uninhabitable, so that hundreds of people were rendered homeless. There seems to have been a deficiency in the supply of water, and also in the fire apparatus, and in the strength of the fire department. The Herald attributes the extension of the fire to the general use of shingles in roofing houses—although the houses and stores for the most part are stone.

Property to the amount of \$100,000 was insured; but the loss is estimated to exceed \$250,000. The Hartford, Etna, and Protection companies had risks to the amount of \$20,000.

The Arbitrator.—Mr. Webster is said to have selected Louis Napoleon as arbitrator in the case of the claims of the United States upon the Portuguese Government. The New York Evening Post considers the nomination a most injudicious one, and thinks that the Grand Turk would have been an infinitely better choice.

It is said that Professor Webster made another confession last week, in which he acknowledged that the murder of Parkman was a pious lie. The document is said to be in the hands of the authorities, but was not to be made public until after his death.

The Railroad contemplated from Niagara Falls via Hamilton, to Sandwich opposite Detroit, is put under contract and will be commenced forthwith. From the suspension bridge at the Falls, to Sandwich, is 240 miles—and with the exception of getting up and down a mountain at Hamilton, the grade of the road is almost a dead level. It is an extraordinary fact, that between Hamilton and Sandwich there is one portion of the road running fifty miles in a straight line. It is expected to make the run from the Niagara Falls to Detroit in six hours.

Prince Edward Island.—We learn by the papers from this island, that all the inland mails have been stopped and the Post offices closed, in consequence of the Legislature making no provision for their transportation. The revenue of the office is insufficient to meet the expense incurred in forwarding the mails, and as the Legislature of Prince Edward Island refused to adopt the course pursued by the Legislatures of the other Colonies, in reference to the Imperial bill conferring on them the control of the Post Office Establishment, and also neglected to grant the usual supplies, the Home Government has given orders for the discontinuance of all the inland mails. Meanwhile, the Governor and Council have resolved to continue the postal communication between Charlottetown and Pictou until further orders from the Post Master General. [New-Brunswick.]

THE POLICE AND THE MILITARY—TO BLAME ALL ROUND.

A policeman arrests a Major Welford for a breach of the law against driving. The case is heard and dismissed by the police magistrate, (Col. Peters) who declares that he had hitherto acted upon an erroneous construction of the law. The Major is not satisfied; insists upon the dismissal of the policeman; and will not be appeased until his demand is complied with; takes an opportunity, shortly afterwards, to retaliate, by sending a file of soldiers with fixed bayonets, to arrest four policemen who were on duty in the barrack enclosure, where they had a right to go, and who were accordingly taken into custody. The men are released by order of the Major, after receiving a reprimand. The policeman, on second thought, is discharged. The policeman was to blame in the mode of arresting the Major—taking his horse by the bridle, and leading him to the police office, unless he had reason to apprehend an escape, but for nothing more. Whether the Magistrate was correct in deciding as he did, may be a question, but he was bound to protect his officer, and he was to blame in dismissing him from his service, for performing his duty, as he understood it, and as it was enjoined upon him by his superior. The Major was to blame for his vindictiveness towards the policeman, and his conduct in arresting the party at the barrack is reprehensible in the extreme, and calculated to make bad blood between the soldiers and the citizens. Common justice requires the restoration of the dismissed policeman, and the outrage committed by the military on the civil authority should be made the subject of public investigation. [Tem. Telegraph.]

FOURTH PRESBYTERIAN CHURCH.—The beautiful Church, recently erected in Sidney Street for the congregation under the pastoral

charge of the Rev. Mr. Thomson, who came from the Free Church of Scotland, was opened on Sunday last, on which occasion there were three services. The able pastor of the congregation was assisted by the Rev. Mr. Forrester, of Halifax, who preached in the morning and evening—Mr. Thomson preaching in the afternoon. The building is a very handsome edifice, surmounted by an elegant and chaste spire, which, we think, would bear a comparison with any we have in the Province as yet, and the workmanship is very creditable to Mr. Thomson the builder. The inside is very plain, but neat, and is seated for a large number of persons. We understand that about £70 was collected on Sunday.

A number of pews were leased on the following day, when they brought good prices. As the gentleman who officiated in the church is a most powerful preacher, we have no doubt that he will draw a large body of hearers before long. [Courier.]

Arrival of the Steamship

America.

The steamship America arrived at Halifax at 7 o'clock on Tuesday 27th ult., bringing Liverpool dates to the 17th inst.

The Asia arrived at Liverpool at 7 1/2 o'clock on Saturday morning, the 17th, in a little over 9 days from Boston, which is the quickest trip ever made across the Atlantic.

The American steamer Atlantic was to sail on the 21st ult. for New York, full of passengers, among whom is Jenny Lind.

The commercial news is satisfactory. Trade in the Manufacturing districts continues brisk.

Breadstuffs were declining in consequence of the favourable reports of the harvest.

Parliament has been prorogued by the Queen in person, which is the principal topic of interest during the week. The following are extracts from the Speech:

"It has afforded me great satisfaction to give my attention to the Act which you have passed for the improvement of Merchants' Naval service of this country. It is, I trust, calculated to promote the welfare of every class connected with this essential branch of national interests. The Act for the gradual discontinuance of internments within the limits of the Metropolis is in conformity with those enlightened views which have for their object the improvement of the public health."

"I look for the most beneficial consequences from the measure which has been framed with a view to give my people in Ireland a fair participation in the benefits of our representative system. The improvement of the Revenue and the large reductions which have been made in the various branches of expenditure have tended to add to our financial condition, stability and security. I am encouraged in hope that the Treaty between Germany and Denmark which has been concluded at Berlin under my mediation may lead to no distant period to the restoration of peace in the North of France. I continue to maintain the most friendly relations with all foreign powers."

Some of the leading papers, in reviewing the session of Parliament just closed, characterize the Ministerial management as not very sagacious, systematic or business-like. Among the more important Government measures which have fallen through, are—the Jews Emancipation Bill, the Savings Banks Bill, the Lord Lieutenantcy (Ireland) Bill, and the Marriage Bill. They say the Whigs are Ministers not selected by the House of Commons, but forced into office by circumstances—not a desire, but a disaster gave them place.

The Caors.—The potato disease is spreading in numerous districts both in England and Ireland, and it is generally admitted that a considerable percentage of the crop will be taken off by it. All other crops promise well. Cutting is now general, and the weather is most favourable for harvest operations.

The overland Mail from India was announced by telegraph at London on Saturday, just before the America sailed, but no particulars given.

At a concert given in Liverpool on Friday by Jenny Lind, the house was crowded to suffocation, and the tickets sold at a large premium. She is said to be more beautiful and accomplished than ever.

The Harvest.—Accounts of the potato crop received to day are decidedly more favorable. And it would appear from various communications before us that the progress of the blight has been stayed during the present week. Regarding oats as well as green crops, we have the most encouraging accounts. The harvest is now in progress pretty generally with as favourable weather as could be desired. [Dublin Evening Post.]

English Tourists in Ireland. The number of English tourists now in Ireland is far greater than in any previous season. In consequence of the numbers waiting a passage across the channel at Holyhead, owing to the arrival of a crowded excursion train, an extra steamer, the Tuesday, was dispatched from Kingstown on Tuesday morning, to afford the requisite accommodation to the influx of English tourists.

O'Connell Estates in the County of Kerry.—These estates spread over 14,000 acres, and were put up for sale in twenty-four lots on Thursday week in Dublin. The bidding was at first slack, and many of the earlier lots were withdrawn and later in the day, when they were again put up with better

success. In the whole, eighteen lots were sold, in sums varying from £350 to £8,000; the whole producing £38,930. The incombrances on this fine property is said to be £60,000. There are however, six valuable lots still left for sale.

The Tenant Right Conference.—The conference concluded its labours on Thursday week, and having proclaimed its charter, resolved itself into a league. A public meeting was held on Saturday evening at the Music Hall, at which nearly all the delegates attended. The room was crammed, and the proceedings passed off with great enthusiasm. The chair was taken by Dr. Mc Knight. The Speakers were the Rev. John Rodgers, a Presbyterian clergyman; the Rev. Dr. Kearney, Catholic; Rev. Dr. Bell, Presbyterian; (and pronounced the best order of the evening); Mr. Godkin of the Londonderry Standard; the Rev. Mr. McGover, Catholic; Mr. Ternan, tenant farmer; the Rev. Mr. Rentoul, Presbyterian; the Rev. Mr. Doherty, Presbyterian; Mr. Maguire, of the Cork Examiner; Dr. Gray, of the Freeman's Journal; and others. The last resolution is the key to all the others:—"That as adequate funds, ascertained by some fixed standard, and certain in amount, will be indispensable for carrying out the objects of the league, we recommend for the adoption of the country, a general and voluntary assessment on the poor law valuation, of such an amount, and under such regulations as the council of the league may hereafter recommend, taking into consideration the circumstances of each locality, and the raising thereby, at as early a period as may be considered practicable and convenient a sum of £19,000 in the first instance."

The Gurkha Controversy Again.—The Bishop of Exeter, it is said, is taking steps to bring Mr. Gorham before the Archdeacon Court, for heresy, as held and taught by his book. With reference to this case in particular, as well as the integrity of the church's doctrine generally, the committee of church unions appointed immediately after the recent great church meeting, is understood to be preparing some most important propositions to be submitted to another great meeting.—Oxford University Herald. (Mr. Gorham was duly installed in his charge of Hampton Spoken on Sunday last, when he delivered an excellent sermon.)

It is rumoured that Lord John Russell will shortly retire from the Ministry, both on account of ill health, and his gradual loss of the confidence of his party. It appears to be even doubtful whether he would again stand for London, in the event of a new election, but would likely fall back on Tavistock, under the interest of his brother, the Duke of Bedford.

The will of Sir Robert Peel was produced on Saturday, and probate passed for assets under £500,000.

Railway from Quebec to Halifax.—In the House of Commons, on Wednesday, in reply to a question relative to the proposed Railway from Halifax to Quebec, Mr. Huxley said it was not the intention of Government to bring forward any measure on this subject. The proposition made to Government was, that they should give a guarantee, and that they refused. The undertaking was one of the highest importance, but whether any scheme would be undertaken by Government he was not prepared to say, though he believed there were parties who were turning their attention to the subject.

For Port Adelaide.—The barque Candace, belonging to Liverpool, Charles Ashby, master, 402 tons, cleared out at the Custom house on Saturday last, for Port Adelaide, Australia with a cargo consisting of 225,112 feet Boards, Plank and Scantling; Pickets, Laths, Window Sashes, Whiting Casks and Whaling gear, Grindstones, Corn Brooms, Buckets, Tubs, Boxes: Wine and Rum—valued in all at £774 sterling. The cargo was shipped by Messrs Allison & Spurr of the City, to whose warehouse process in the undertaking. We believe this is the first cargo shipped from this Port for that place. [St. John Courier.]

Improvement in lowering Ships' boats.—A model, showing a simple but efficient improvement in the mode of lowering ships' boats into the water, in a great hurry in case of accident, has been publicly exhibited in Liverpool. It is the invention of Mr. Grayson, a ship-builder of that town. The improvement consists in having "both ends of the falls, or ropes, brought through the rail to a central winch-barrel, by which one man only, instead of two, is required to lower the boat which necessarily descends fairly into the water, thus avoiding the loss of life which so frequently takes place by the swamping of boats alongside the vessel, owing to the impossibility which exists, amidst the uproar and confusion inseparable from an accident at sea, of getting any two qualified persons to act in unison, which, in the ordinary method of lowering ships' boats, is indispensable."

The plan is commended to the serious consideration of the owners of emigrant ships, steamers, &c., as a valuable improvement on the present system—the imperfect working of which has lately caused some fatal disasters on the English coast.

FRANCE.

The Assembly was prorogued on the 10th instant, and most of the Members have left Paris. The city, although more peaceful, is less gay than it was some months ago. The Mountain party had presented the public with their promised report on the Parliamentary proceedings. The document is remarkably free from illusion and violence, temperate in its language, and is signed by 68 members.

The President is now on his tour through the provinces; he has in some places been well received, but in others not so. At Lyons, it is said, the people were worse than apathetic; no address was presented, and no public rejoicing.

The weather throughout France has been exceedingly wet and unfavorable for harvesting; in consequence, there had been an advance of 2s 6d per sack on flour. The manufacturing interests of Paris are progressing favourably, there being large orders for goods and operators fully employed.

DENMARK AND THE DUCHES.

A slight engagement had taken place on the 8th, between the outposts of the contending armies. An explosion of General Willisen's Laboratory of Artillery took place on the morning of that day, which caused a great loss of life and property. Already ninety-one persons, killed by the explosion, had been buried (among whom were twenty-two cadets of the Artillery school) 35 wounded, severely, and 11 were still missing. The effect of this catastrophe on the public mind has been very depressing, and scarcely a house in town had entirely escaped from the concussion. About noon on the same day, the Danish army, taking advantage of the confusion thus produced, pushed forward to attack the Schleswig Holsteiners. A struggle ensued, which lasted for an hour; the Danes were driven back at the point of the bayonet, although far outnumbering the Holsteiners, and fled in such haste that they left behind all their killed and wounded.

The last intelligence from the seat of war, says, that a cessation of hostilities had taken place pending the result of negotiation now going on at Schleswig between the English, French and Russian envoys, in order to put an end to the effusion of blood. Advice from Copenhagen states that the King of Denmark, amidst all this evil and trouble, has been pursuing his usual amours and dissipation, and the deaconess has been his clandestine marriage with a lively and fascinating young dressmaker of that city!

AUSTRIA.

No news of much interest from Austria. The Government appears to be striving hard to gain a preponderance in German affairs, but with little success so far. The butcher Haynau has returned from the Austrian dominions to join the traitor Georgey in his exile.

SPAIN.

The Cortes has been dissolved and new Elections ordered. The Queen of Spain has completely recovered.

THE ROMAN STATES.

It is stated that the Great powers have addressed a note to the Pope, recommending him to grant a constitution to the States of the Church, on the model of that which Austria has given to the Lombard Venetian Kingdom.

RUSSIA.

The inhabitants of St. Petersburg and Cronow are busy in repairing the damage done to those cities by the late conflagration which is stated to be much greater than was at first reported. There is nothing new from Portugal, or the other parts of the continent.

THE STANDARD.

ST. ANDREWS, WEDNESDAY, SEP. 3, 1850

CHARLOTTE COUNTY BANK.

Hon. HARRIS HATCH, President.

Discount Day—SATURDAY.

Hours of business, from 10 to 1.

Bills and Notes for Discount must be lodged with the Cashier, on or before Friday, otherwise they must remain in his hands until the following discount day.

GOLD MINES.

The Canadian Provincial Geologist, Mr. Logan, in his Report for the present year, alludes to the occurrence of gold in the gravel of the Valley of the Touffes des Pins, a tributary of the Chaudiere. He says, "from the inspection which he was able to make he found the auriferous gravel extended over an area of 60 to 80 square miles; and gold was found in five out of seven places tried, not in great quantities; but still sufficient to justify the belief that the precious metal is obtainable." It is often the case, however, that a soil abounding with the precious metal is not valuable, as the expense of obtaining it may exceed the value of the metal. The Chaudiere gold region, however, is daily increasing in value; the net profits to the Company now engaged in extracting the gold are stated to be £5 per day.

Occasionally, pieces of pure gold have been found, some of which have weighed over a quarter of a pound. We would much sooner hear of Coal and Iron having been discovered in this locality than a gold mine, from the simple fact, that while Coal and Iron are easily obtained in large quantities, are in great demand, and are gold to the owners, gold and silver mines have often proved

ruinous to the possessors. We understand, that there is an extensive bed of Coal, of an excellent quality, in the vicinity of the Magdavic River, in this County, which will, no doubt, be worked, so soon as our Railway is in operation to the head waters of the Dig-de-quash; and it has long been an established fact, that silver exists in the same locality,—in fact, the Province abounds in great natural resources, and all that is required to develop them is, some capital, and more energy on the part of the people. Open up these fertile regions by means of Railways, and there is no calculating the immense trade which would follow. The country would be thickly populated—land would increase in value—a ready and cheap mode of transit would be established—and a market created for the surplus produce of the farmer. The Province, it is true, has suffered severely, and the people generally have little money to invest in Railways; but that much may be done, with very small means, where there is a will, is sufficiently indicated by the progress which has been made by the people of Canada and the United States.

We observe that the Act for taking the Census, or, more correctly speaking, for ascertaining the population of the Province, and for other purposes therein mentioned, does not come into operation until the 1st January, 1851; and the persons appointed under the Act to take the account of the population, &c., are to make returns in duplicate to the Clerks of the Peace for the several Counties, on or before the 1st of November following, from whom they will receive forms for the purpose.

EMIGRATION.—We notice by the U States' papers that a gross deception has been practised by some of the Steam Packet offices on persons emigrating to California. They sell what are called, through tickets to San Francisco for \$150. Some persons who went out in the Steamer Georgia purchased these tickets, and, upon their arrival at Panama, found they were deceived and robbed, as there was no provision made for their passage up the Pacific; and they had no means either to go to San Francisco, or return to New York. This may serve as a caution to intending emigrants to that land of Ophir.

We learn from Boston papers that Professor Webster was executed in the Jail Yard on Wednesday morning last. His family viewed him, for the last time, on Tuesday afternoon. He was perfectly calm until the last moment.

We are happy to learn that there are no serious indications of blight to alarm us for the safety of the potato crop. In some districts the leaves have withered and died, but the potatoes are sound and of good quality, though the yield is not so abundant in proportion to the quantity planted, as that of last season. As yet we have not heard of the weevil having attacked the grain crops. Turnips look well and promise an abundant crop.

CHURCH MATTERS.—On Wednesday last, the Quarterly Meeting of the Clergy of the Diocese of St. Andrews was held at St. Stephen's; after the usual business of the Diocese was concluded, the Clergy proceeded to Church, as usual, for Divine Service; the Sermon was preached by the Rev. J. McGivern, Rector of St. George's.

On Thursday morning, the Rev. J. S. Thomson was duly inducted into the Rectory of St. David, in this County, by the Rev. Dr. Alley, Rector of this Parish, under a mandate from the Lord Bishop of Fredericton. After the induction, Divine Service was celebrated, and the Sermon preached by Dr. Alley.—Com.

Prince Albert and the Freemasons.—We understand that the Grand Lodge of Freemasons of Scotland has come to the resolution that the different lodges cannot walk in procession, at the laying of the foundation stone on the Mound, at the 30th instant, Prince Albert not being one of the craft, and having scruples about being initiated. Thus one of the greatest features of the Queen's visit of 1850 will be done away with. The brethren, however, are to dine at their respective rendezvous on the evening in question.

Fire at Gravesend.—A fire broke out at Gravesend on Saturday morning last, which resulted in the destruction of twenty-four houses and other property to the value of £50,000. The buildings were almost all shanty, and well stacked, and in fact were the principal houses of business in the town.

A Bad Leg cured by Holloway's Ointment and Pills.—Extract of a letter from Mr. Andrew Brack, halesmith, Eyemouth, dated August 10, 1848—"To Professor Holloway: Sir, I have the pleasure to inform you that I have obtained a most extraordinary cure by the use of your celebrated Ointment and Pills. For upwards of twenty years I suffered with a disabled bad leg, and during that time I consulted several eminent Surgeons, but their efforts failed to do any good. I then had recourse to your Ointment and Pills,

which, with the blessing of Providence, healed my leg, and made me free.

(Signed) ANDREW BRACK.

SHERIFFS SALES.

To be Sold by Public Auction the 15th day of MARCH, at 12 o'clock, at HOUSE in St. Andrew's. ALL the right, title, interest, and demand whatsoever, MELONEY, of in and to Property, viz:—

All that certain lot, piece of land situate lying and being (so called) in the Parish of St. Andrew's, in the County of Charlotte, and adjoining the road leading from the main road to the Point to the head of the tide said Parish, of St. Stephen, taken from the upper side of M. land, and adjoining the McMas lot, (so called) the North side last mentioned road ten Easternly at right angles to the towed road four rods, thence right angles to the last line or road, thence Westerly four rods, beginning containing forty or one fourth of an acre; be conveyed to said Michael Meloney, together with house and other buildings the same having been seized to satisfy executions issued in the County of St. Andrew's to levy besides Sheriff's fees, &c.

THOS. Sheriff of

Sheriff's Office, St. Andrews, August 30, 1850.

Meeting of Co.

The Courts of General Sessions for the County of St. Andrew, for the County of St. Andrew, at the Court House in St. Andrew, on the 1st September, instant, at 12 o'clock, A.M. will place all the cases and Controversies of said County required to be at these Courts duly notified to give their attendance. By Order of Her Majesty's Bench.

St. Andrews, September 2, 1850.

STREET COLONIAL AND EXPRESS.

SHERIFFS SALE.

To be Sold by Public Auction on Saturday
the 15th day of MARCH 1851, at the
hour of 12 o'clock, at the COURT
HOUSE in St. Andrews

ALL the right, title, interest, claim and
demand whatsoever of MICHAEL
MELONEY, of in and to the following
Property, viz:—

All that certain lot, piece or parcel of
land situate lying and being at the Ledge,
(so called) in the Parish of St. Stephens
in the County of Charlotte, and described as
follows: commencing at the intersection of
the road from Hill's Wharf, running up
stream with the road leading at right angles
or nearly so, to the main road from Oak
Point to the head of the tide waters in the
said Parish of St. Stephens, which road is
taken from the upper side of Michael Youngs
land, and adjoining the McMaster or Cargill
lot, (so called) thence Northerly along the
said last mentioned road ten rods, thence
Easterly at right angles to the said last men-
tioned road four rods, thence Southerly at
right angles to the last line or boundary ten
rods, thence Westerly four rods to the place
of beginning, containing forty square rods,
or one fourth of an acre; being the same
conveyed to said Michael Meloney by Mi-
chael Young, together with the Dwelling
house and other buildings thereon.

The same having been seized and taken
to satisfy executions issued out of the Su-
preme Court, indorsed to levy 293 15s 0d
besides Sheriff's fees, &c.

THOS. JONES,
Sheriff of Charlotte.
St. Andrews, August 30, 1850.

Meeting of Courts.

The Courts of General Sessions of the Peace and
Common Pleas, for the County of Charlotte will sit
at the Court House in St. Andrews on Tuesday the
17th September, instant, at 12 o'clock.

At which time and place all Magistrates, Cor-
oners, and Constables of said County and all per-
sons required to be at these Courts are hereby Pub-
licly Nodded to give their attendance.

By Order of Her Majesty's Justices,

I. J. F. ROGERS, FASHIONABLE TAILOR, LATELY FROM NEW YORK.

HAS the honor to announce to the
Inhabitants of St. George, and its
vicinity, that he has commenced business
in the house formerly occupied by Mr. Wm.
Armstrong, fronting the Public Landing,
where he is prepared to execute all orders
in his line, in the most fashionable style,
with neatness and promptitude. Having
just arrived from the United States, where
he has been employed in some of the most
celebrated Establishments in Philadelphia,
New York and Boston, trusts that his long
experience, knowledge, and sup. work-
manship, with a desire to please, will entitle
him to public patronage. Garments war-
ranted to fit, before leaving his shop.

NOTICE To Contractors. HEMLOCK LOGS.

THE Undersigned will require a large
quantity of Hemlock Logs for the line
of Railway now under construction, and
will contract for the required quantities, de-
liverable on the line between Leonard Bar-
lett's, at Waver, and the N. W. Branch of
the Digdeguash, between this present month
and 1st March 1851. none of said logs are
to be under 14 inches diameter at the top
end, and as long as can be obtained, sound
and free of bark. It will be advisable for
persons in the County to improve the time of
peeling the bark.

Information will be received from

CALAIS HOUSE, CALAIS, STATE OF MAINE.

THE subscriber, in tendering thanks to
his former patrons and friends, the
inhabitants of New Brunswick, and especially
of St. Andrews, for the patronage they
have heretofore afforded him, respectfully
advises them and the Public generally, that
his Establishment, the CALAIS HOUSE, is
again open for the reception of company,
renewed and fitted up, he believes, to suit
the taste of the most fastidious, where it
will give him pleasure to serve his former
customers, and the travelling public gen-
erally, and promises to use his best exertions
for their comfort.

GREAT AGRICULTURAL WORK!

THE FARMER'S GUIDE TO
Scientific and Practical Agriculture.
By HENRY STEPHENS, F.R.S.E.,
Author of the "Book of the Farm," Editor
of the "Quarterly Journal of Agriculture,"
&c., &c.

Assisted by
JOHN P. NORTON, A. M.,
Professor of Scientific Agriculture in Yale
College, New Haven, Author of Agricultural
Prize Essays, &c., &c.

This highly valuable work will comprise two
large royal octavo volumes, containing over
1400 pages, 18 or 20 splendid steel en-
gravings, and more than 600 etgravings on
wood, in the highest style of the art, illustrat-
ing almost every implement of husbandry
now in use by the best farmers, the best ma-
thods of ploughing, planting, haying, harvest-
ing, &c., &c., the various domestic animals
in their highest perfection; in short, the pic-
torial feature of the book is unique, and will
render it of incalculable value to the student
of agriculture.

This great work is the joint production of
two of the most talented agricultural scholars
of the day: the one eminent as an author and
editor in Great Britain, and the other as a
Professor in Yale College. Both are emi-
nently practical as well as scientific men, and
all they say may be relied on as the result of
profound research, tested and sustained by
practical experience. The contributions of
Professor Norton are chiefly designed to adapt
the British portion of the book to this country,
and thus to make it an Anglo American work,
giving to its readers all the really useful agri-
cultural knowledge at present available in
either country.

The work is divided into four departments,
distinguished by the four seasons of the year,
commencing with Winter, and Prof. Norton's
notes will be published as an appendix
to each part. The first chapter treats of the
following subjects, under the head of
INITIATION

On the best of the existing Methods for ac-
quiring a thorough knowledge of Practical
Husbandry

On the Difficulties to be encountered in
learning Practical Husbandry, and on the
Means of overcoming them.

On the Different kinds of Farming.

On the Persons required to Conduct and
Execute the Labor of the Farm.

On the Branches of Science most applica-
ble to Agriculture.

On the Institutions of Education best
suited to Agricultural Science.

On the evils attending the neglect of
Landowners and others to learn practical
Agriculture.

On observing the details and recording the
facts of Farming by the Agricultural Student.

Terms of the Work.—The American edi-
tion, the first number of which is already is-
sued, will be published in semi-monthlies of
64 pages with an English steel engraving in
each number, of which there will be about
22 in all. PRICE, 25 CENTS PER NUMBER.

CLUBBING.
Three Copies will be sent to one address
for \$15: 5 copies for 18. Cash in all cases
to be remitted direct to the Publishers, and
not through Agents.

The work will be sent in numbers at peri-
odical rates of postage, and mail remittances
may be made at the risk of the Publishers.

All orders and communications should be
addressed, post-paid, to
LEONARD SCOTT & CO., Publishers,
79 Fulton Street, Entrance 54 Gold Street,
New York.

Assessor's Notice.

NOTICE is hereby given, that the Undersigned
Assessors will receive at the office of Ed-
ward Wilson, until the tenth day of June next,
statements from all who are liable to be assessed,
for the current year, in the Parish of St. Andrews,
of the real and personal properties and incomes
they possess, in order that correct information may
be received, and complaints prevented after the as-
sessment is completed. These statements must be
sworn to before a Justice of the Peace, as the Law
requires.
