

## WAR NEWS.

London, July 1.

The corps of Russians that crossed the Danube at Tumul Magurel joined the Grand Duke at Sistova, below which place a fierce battle is progressing.

The Turks on Friday assaulted and carried the Russian position at Batoum, achieving a great victory. The Russians retreated after a severe battle and great loss of men.

Telegrams from various points on the Danube give particulars of the frightful bombardments along the river. At Rutschuk the German consulate was destroyed by twenty-four shells. The French by three, and the Austrians were killed. The military hospital in the Jewish quarter received 72 shells. They fell every where, and no spot can be considered safe. Up to Wednesday the Turks had thrown 2000 or 2500 shells into Ghergo. However, though the streets here and there are ploughed up and houses bombed through, not more than one house in 20 to 30 is seriously injured at Rutschuk.

Troops from Rutschuk hastened to support the Turks who were re-entrenched at Sistova, and detachments from Shumla and Bagrad are making forced marches to the scene of conflict below Sistova, near the river Jantza. It is stated that the Turkish guides broke the Russian pontoon bridge during the crossing at Matchin, and for a time 8000 Russians who had crossed were isolated, and if the Turks had had a force sufficient they could have slaughtered them all.

Servia has ordered at Paris accretments for 50,000 men, to be delivered in three weeks. The Servian field artillery is undergoing rigid inspection preparatory to being moved to the front.

It is stated that the Khedive has agreed to erect forts at the mouth of the Suez Canal to protect any threatened cutting of its banks.

## IMPERIAL PARLIAMENT.

Doubtful if not highly dangerous doctrine in reference to the treatment which should be given to what are called political prisoners, found favor in some quarters during the discussion of the Prison Bill in the House of Commons on Thursday. The Irish members had fought clause after clause, and introduced one proposition after another, in order to make confinement in prison as little of an inconvenience as possible; and they and two or three of their allies, waded indignant, by and by, when Mr. Waddy and Mr. Goschen protested against what the latter called a "kid-glove treatment" of so-called political prisoners. The earnestness of the Irish members is intelligible; for some of them have suffered, for their share in treasonable doings in Ireland. They can hardly be expected to regard treason and sedition as serious offences; and it is just possible that some of them may have an eye to the future, not that they meditate treason, but that they think some of their countrymen may do so, in which case they would desire to have the punishment of failure as light and agreeable as possible. Thoughtful men who have to plot and have no intention of plotting will hardly take this view, however, and most certainly they will not endorse the doctrine of Mr. Wyndham, that to ask for the severe punishment of men convicted of treason is to "cut the root of constitutional government and of the existence of the House of Commons itself."

Between convicted treason and constitutional government there is only the connection that the necessity for punishment creates; and the House of Commons itself is the best reason for not treating political prisoners in this country leniently, because it is such a safeguard of public liberty as to make treason detestable.

**Reduction of Mess Expenses in the British Army.**

It is announced on tolerably good authority that a movement has been made among the officers at Aldershot for the reduction of mess expenses. That some reform should be attempted in this direction, not only at Aldershot but at every regimental headquarters in the kingdom, is a thing devoutly to be wished. More than once it has been reported that the commander-in-chief has expressed himself in strong terms upon the subject; but, so far as we are aware, none of these expressions have taken official form—no "General Order" bearing upon the evil has recently emanated from the Horse Guard, and assuming that the Duke of Cambridge is a supporter of the policy which detestates the abolition of purchase, it is only natural that he should desire to see some change in the customs which have gathered about the institution of regimental messes, because one great object of those who abolished purchase was to remove the barriers which practically excluded the army from the choice of careers open to young men of education and ability who did not also possess a long purse; and yet, while mess expenses remain what they are, it is able to pretend that those barriers have been removed. A day or two since, "The Father of a Cavalry Subaltern" stated in the Times that his son, who had lately joined one of our best regiments, asked him that the mess and wine bill could not be kept under £25 a month. This he observed, with the regiment at country quarters where the mess has not the officers of other regiments to entertain, as at Aldershot, and where they give no balls, but "champagne is drunk ad libitum every day." This expenditure of over £400 a year on mess cannot represent much more than half of the annual outlay necessary to a young officer who is

naturally anxious to live as his fellow-officers do. Sooner or later the question will have to be dealt with by the military authorities.

## UNITED STATES.

Another new phase has been developed in the Tweed confession case, and one which, if present appearances be sustained, does not reflect very creditably on some of the parties concerned. In a letter addressed to the Attorney-General by Mr. Townsend, the counsel for Tweed that important State functionary is boldly charged with sacrificing the interests of the city in refusing to avail himself of the evidence which Tweed is both able and willing to give. This evidence, it is still maintained, would prove of the highest consequence in leading to the conviction of civic robbers, and in recovering a large amount of stolen money. All the facts have been placed at the disposal of the Attorney-General, who gave the prisoner and his friends every reason to believe that he would act upon them. Instead of this, however, he has refused to dismiss the case after months of negotiation and suspense, and this, it is charged, is in the interest of culpable persons, and for the advancement of his own political ends. In whatever light it may be viewed this is a very grave charge, which should not be made without evidence to substantiate it, and which, when made, should not be allowed to remain unanswered. The letter of Mr. Townsend, it may be allowed, is intemperate and violent. A more dignified style of writing would have added to the force of his accusation. The fact remains, however, that Mr. Fairchild is publicly accused of a maladministration of his office in this important matter, and it is for him to offer an explanation, by which the public may be enabled to decide between him and his accuser. What may ultimately become of Tweed is of minor consideration. His own delinquency has merited the punishment he may be doomed to suffer. If his litigation be pronounced impracticable he will have no reason to complain. But it is another matter when the chosen administrator of the law is charged with perverting that law for corrupt or selfish ends, and the community will anxiously await the explanation which Mr. Fairchild has promised to lay before the Governor of the State.

A large number of suits against the Eastern Railroad Company have recently been entered in the supreme court in Massachusetts. The most important ones are a half dozen in number, and are suits in equity brought by holders of ten year notes of the Eastern Railroad Company as collateral, asking the supreme court to determine what the rights of such holders are under the new mortgage. There are also, under suits brought to ascertain whether the guarantee of the Eastern Railroad Company of the bonds of the Great Falls, Portsmouth and Conway railroad is secured by the same mortgages. Ten suits have also been entered against the road by various parties, either owners or mortgagees of land and buildings taken by the company in Charlestown for freight purposes.

Robert Dale Owen's death is announced. He was born at Glasgow, Scotland, November 7, 1801, and spent his early years at New Lanark under the care of a private teacher. He subsequently studied for three years at Hofwyl in Switzerland, and in 1823 came to this country with his father. He lived several years at New Harmony, Indiana, where his father was engaged in an effort to build up a community in accord with his peculiar social theories, but from 1828 to 1831 was in New York conducting a weekly paper called The Free Enquirer, in partnership with Miss Frances Wright. He returned to New Harmony in 1832 after his marriage with Mary Jane Robinson, daughter of Samuel Robinson, a prominent merchant of New York. Mr. Owen after settling at New Harmony had considerable experience in public life.

**USEFUL MILITARY EXERCISE.**—The German troops at Dresden have recently undergone in a department which although of the greatest necessity, has never been sufficiently attended to. Detachments of troops were sent out almost daily, deployed into attacking formation, and ordered to advance against an imaginary enemy. In rear of them followed parties of sick-leavers, for whom a special instruction the drill was carried on, while further to the rear again, a number of ambulance waggonettes, distinguished by the red cross, were drawn up, together with some country waggonettes, especially prepared for the transport of sick and wounded men. As the resulting lines moved forward certain men were ordered to fall down, from time to time as though wounded, and were directed to take up appropriate attitudes on the ground. After awhile the attack having been supposed to have been successfully executed, the field was searched by the sick-leavers, the wounded men were discovered, their injuries temporarily and hastily attended to, and they themselves transported to the conveyance in attendance.

What are popularly denominated "Grand Consulative rallies" appear to be in the ascendant in Canada just now. Several of these have been held within the last week at Kingston, London, Krampton and other places. The principal orators on these occasions have been Sir John A. Macdonald and Dr. Tupper; and it cannot be denied that they have spoken with a volubility and vigor which are amazing. They make a terrible indictment against the Government of the day; and they furnish a not very flattering picture of the condition of the country under a Reform Administration. The good taste, not less the accuracy of some of their statements, might well be called in question; and it is really worth while to consider whether the tendency of such meetings and such harangues is for the good of the country. That political discussion, even in a strict party sense, is necessary and useful may be admitted. But it is desirable at such times to indulge in such bitter personal recrimination, and to impugn so savagely each other's motives.

**DOMINION DAY.**—Owing to the 1st being Sunday, Dominion Day was publicly observed on Monday. Flags were flying from the public buildings and several stores. At noon, a Royal Salute was fired at the Fort, and at 4 o'clock, a regatta took place in the harbor; between Wm. Mitchell, of Calais, and Alex. McElwee of St. Andrews. The course was from the Stearns Wharf to a boat moored beyond the Western Block. The boats made a splendid go off, McElwee taking the lead and holding it until after rounding the stake boat, when Mitchell let out on the home stretch winning by about 4 feet. We do not profess a knowledge of boat racing, but it appeared to us and others, that McElwee had pulled over the same course more rapidly on a former occasion. His contestant is a heavier man, and pulls a good stroke for an amateur. The stakes were \$25 a side.

## The St. Andrews Standard.

Saint Andrews, July 4, 1877.

## COUNTY COUNCIL.

The Council met for business on Tuesday, 24 inst. in the Court House. The Warden, T. T. Odell, Esq. in the chair. The Secretary, G. S. Grimmer, Esq. read the minutes of the previous meeting, and stated that a Record Book had been purchased, price \$10.89. The order for the Seal had been forwarded, and it was nearly finished but was destroyed during the fire in St. John; but the design had since been forwarded, and the Seal would be sent without delay. The following Councillors were present, viz. R. Stevenson, McMonagle, Russell, Lindsay, J. W. Stevenson, Graham, Gutchell, Upton, Cotterell, Peaks, Douglas, Moore, Hill, Eacorm, Hannah, McLaughlin, Ridout, O'Brien, Lynott, Mealy, Spear, Shaw, Magee, Lord, Lydell.

Ordered.—That a Committee of five be appointed to take into consideration the best means of providing seats and accommodations for the members of the Council, providing proper accommodations for the reporters, and also for the convenience of the public. The following Councillors were appointed, viz. Russell, O'Brien, Cotterell, Magee, Lindsay.

Robert H. Graham being present offered a memorandum of his election as Councillor for Grand Manan, which was not according to law.

Ordered.—That in consequence of informality in omitting to subscribe the necessary orders, the election of R. H. Graham for parish of Grand Manan be declared null and void, as also that of Isaac Newton for same parish, for same reason; and that a writ for a new election be issued as the law directs.

The Report of Committee on Rules of Order was submitted, and was ordered to lie on the table.

Report on the Sheriff's Election account was submitted and tabled.

The Report of the Committee on Salaries recommended that the Secretary and Clerk of the Peace be united in one office, while Geo. S. Grimmer, Esq. is Secretary, and that his salary be fixed at \$400. The Treasurer's salary at \$300. The Auditor's salary at \$50. That the Jailor and Officer of all Courts salary be \$425. That the Sheriff's salary be \$300.

The Report of Committee on Rules of Order having been read section by section, was adopted.

The Report of Committee on Sheriff's account was submitted and passed, having been read item by item, and orders issued for payment of the respective amounts.

The following Councillors were appointed a Committee on County Property. The Warden and Councillors R. Stevenson, and Jas. Russell.

In our next we will give the remainder of the proceedings, which were conducted throughout in a business like and harmonious manner.

**THE BAZAAR** held in Gove's Hall, on Thursday last, by the young ladies in aid of beautifying the Cemetery, were as pleased to state was well patronized and a handsome sum realized. The promoters and workers are entitled to much praise for their laudable efforts to adorn the repository of the dead. The ladies return their thanks to C. M. Gove, Esq. for the use of his hall, and to Mr. Hannak for his services.

**GRAND INTERNATIONAL PIC-NIC.**—The United Border Temperance Societies of New Brunswick and Maine, purpose holding a Monster Pic Nic, on Pendleton's Island, Tuesday next, 10th inst. Lieut. Gov. Tilley is to deliver a Temperance Oration; and Gov. Connor of Maine, the Hon. Neil Dow and other distinguished persons will be present and address the assemblage. The Committee of Arrangements have spared no pains to make the occasion a pleasant one. Among other attractions are a Promenade Concert, in the evening when music will be furnished by several bands, and the grounds illuminated by a thousand torches. Excursions by steamer are to be run at various hours during the day and evening. We trust that the weather will be all that could be desired, and that those present will enjoy themselves. It is believed that upwards of three thousand will attend, and ample refreshment will be found on the grounds.

**DOMINION DAY.**—Owing to the 1st being Sunday, Dominion Day was publicly observed on Monday. Flags were flying from the public buildings and several stores. At noon, a Royal Salute was fired at the Fort, and at 4 o'clock, a regatta took place in the harbor; between Wm. Mitchell, of Calais, and Alex. McElwee of St. Andrews. The course was from the Stearns Wharf to a boat moored beyond the Western Block. The boats made a splendid go off, McElwee taking the lead and holding it until after rounding the stake boat, when Mitchell let out on the home stretch winning by about 4 feet. We do not profess a knowledge of boat racing, but it appeared to us and others, that McElwee had pulled over the same course more rapidly on a former occasion. His contestant is a heavier man, and pulls a good stroke for an amateur. The stakes were \$25 a side.

We add a few particulars, the distance round was two miles; Mitchell's age is 20, weight 191 lbs. McElwee's age is 18, weight 163 lbs. Mitchell's time was 13 minutes, and McElwee's 13½. There is no doubt that with more practice "Sandy" as he is familiarly called, will prove himself a first class oarsman.

A copious and refreshing rain commenced to fall on Sunday morning, and lasted throughout the day; it was much needed as the crops were suffering from the long drought. On Monday afternoon a heavy shower occurred; and the crops have been greatly benefited. We do not remember to have seen so large an area of land under cultivation as that of the present season, and all descriptions of roots and grains present a promising yield, should no unforeseen accident occur to prevent their coming to maturity.

**SUMMER HOLIDAYS.**—The Public Schools will be closed for the summer vacation on Friday next, when teachers and pupils will be relieved from hard work and close confinement for a few weeks.

**To Correspondents.**—The letter of G. F. H. with reference to the willing response of Saint Andrews to the Relief Fund, received too late for publication to-day.

The Presbyterian Anti-Unionists of Canada are taking suits against the Presbyterian Church of Canada for \$700,000. They want the Union Churches and their revenues, and to cut off the Unionists from their rights.

The Daily News, we are informed, will appear in a few days at its former size with an outfit of new type, and printed on new and fast presses. The News lost all in its office.

The "Relief Fund" of St. John, is being daily increased by generous gifts from the United States and the Dominion; large as the amounts are which have been received, the demand of the thousands of poor who are without shelter, and work, and clothing, will we fear, over balance the supply even with the strictest economy. The Insurance Companies are behaving nobly, paying the losses without delay.

This is the Fourth of July, and from the stillness over the border, appears to be more quietly observed than is usually the case. The Steamers make excursions this morning to Calais for those wishing to attend the London Circus which is to give Exhibitions there to-day.

It is pleasant to learn that the enterprising manufacturers and business men of St. John, are bravely at work, clearing away the ruins, preparatory to erecting, we hope, even better buildings than those destroyed. True—it will require time, patience, energy and money, to build up the city; but the men of St. John are made of sterner stuff than to succumb under their great misfortune, and their credit being good in that great money mart of the world—England—they will have no great difficulty in obtaining the requisite means, to erect stores and dwellings equal if not superior to those destroyed by the recent conflagration.

Now that the way is clear it would be well to straighten and widen the streets, as they have been doing in some of the United States cities, notably Boston. The city can do so now at trifling cost, in comparison to the expense of removing whole blocks of buildings. The Government will no doubt erect suitable public edifices such as formerly adorned the city.

## Correspondence.

## CAUTION.

[FOR THE STANDARD.]  
Mr. Editor:—From the dreadful calamity that has recently befallen our neighboring City of St. John, it is well to remind the inhabitants of our Town of St. Andrews, to be extra careful of all fire appliances, such as stoves, and stove-pipes, and look to old chimneys, roof leaders, &c.

Yours,  
NOT A FIREMAN.

**POLITICAL ADDRESS.**—We are informed that the Hon. Dr. Tupper has consented to address the people of Charlotte at St. Andrews, on his return from Nova Scotia. Many have expressed a desire to hear the Doctor, and they will have the opportunity of doing so. Notice of the day will be given.

Among a batch of Parliamentary papers received is the "Return to Address for Papers connected with the awarding of Section Fifteen of the Canada Pacific Railway." This we understand is the Georgian Bay branch which called forth considerable discussion during the late session of the Dominion Parliament, and will satisfy all dispassionate minds that the contract for construction is not an extravagant one.

**A VINDICATION OF JUSTICE.**—Eleven men recently suffered the death penalty in Pennsylvania, in expiation of murders committed by direction of a lawless gang which for several years has, in certain parts of the State, rendered life and property insecure. The conspiracy bore the outward semblance of a trade society among the miners, and their victims were those who in some manner had interfered with their attempts to override the rights of other people. Murders by order of similar leagues have not been unknown in England; but in this country the worst outrages committed by trade uprisings have rarely extended beyond ordinary results. The "Molly Maguires" have now, it is to be hoped, discovered that the law alone arrogates to itself the right to destroy human life.

The British Parliament has fully resumed business since the Whitsuntide holidays, and is now in the full swing of discussion and legislation. It is almost amusing to note the variety and multiplicity of topics which are introduced every day. Every member has his grievance to state, or his questions to put; and as the result there is much deplorable disorder in which the Speaker is obliged to interfere. In this respect the House of Commons is degrading somewhat from the dignified position it has been accustomed to maintain; and so far the promise of actual and beneficial legislation for the country is very small. Many questions, which are proposed relate directly or indirectly to the war in the East; and on most of these the Government evinces a remarkable reticence, if not an unapproachable vacillation. An important debate occurred the other evening on a motion for the abolition of clerical fellowships in the University of Cambridge and Oxford. Mr. Gladstone supported the proposition; and with a very full vote the Government carried their bill only by a majority of 9. The Government is proposing amendments to its Burials Bill, and the question of Colonial Marriages is again coming forward.

**INCENDIARIES.**—At eight o'clock this morning, the house of Mr. A. Myles, on Brunswick street, near Hanover, was discovered to be on fire. The engines were promptly at the scene; and after wearing the siding of the house, and pursuing the fire to its seat, succeeded in extinguishing the flames. It originated in a barn attached to the building, and was undoubtedly set on fire.—Globe.

There is a precious six-year-old boy in Auburn who is wonderful on spelling, and definition. The other day his teacher asked him to spell matrimony: "M-a-t-r-i-m-o-n-y," said the youngster promptly. "Now define it," said the teacher. "Well," replied the boy, "I don't exactly know what it means; but I know my mother's got enough of it!"

An Illinois man had carried in his valise for many years, when traveling, a rope ladder and a thick pair of gloves. At the burning of the Southern Hotel at St. Louis, where he was a guest, the ladder and the gloves saved his life.

### WELLAND CANAL ENLARGEMENT

Notice to Contractors.

THE letting of the works for the enlargement of the Welland Canal, advertised to take place on the FIFTH day of JULY next, is unavoidably postponed to the following dates:—  
Tenders will be received until FRIDAY, the THIRD day of AUGUST next.  
Plans, specifications, &c., will be ready for examination on and after FRIDAY, the TWENTY-THIRD day of JULY.

By order,  
F. BRAUN,

Department of Public Works,  
Ottawa, 14th June, 1877.

New Brunswick, ss.

To the Sheriff of the County of Charlotte, or any

Constable in the said County, Greeting:

WHEREAS Jane Frankland, Administratrix of the Estate and Effects of Simon J. Frankland, late of the Parish of Grand Manan, in the said County of Charlotte, deceased, hath by her petition bearing date the second day of June, instant, represented that the personal estate of the deceased which has come to her hands is insufficient for the payment of the debts due and owing by the said Estate, and hath prayed that Licence may be granted to her to sell a part of the Real Estate of the said deceased, sufficient for the payment of the debts due by the said Estate.

You are therefore requested to cite the heirs at law of the said Simon J. Frankland, and all others interested, to appear before me at a Court of Probates, to be held at my office in Saint Andrews, on SATURDAY the 30th day of JUNE instant, at eleven o'clock in the forenoon, for the consideration of the said petition, and the granting (if deemed necessary) of such Licence.

Given under my hand and the Seal of the said Probate Court, the 2nd day of June, A. D. 1877.  
GEO. D. STREET,  
Judge of Probates for Charlotte County.

S. H. WHITLOCK, Registrar of Probates for Charlotte County.

WHAT PAYS?

IT PAYS every Manufacturer, Merchant, Mechanic, Inventor, Farmer, or Professional man, to keep informed on all the improvements and discoveries of the age.

The Scientific American

which has been published weekly for the last thirty one years, does this to an extent beyond that of any other publication; in fact it is the only weekly paper published in the United States devoted to MANUFACTURES, MECHANICS, INVENTIONS, and NEW DISCOVERIES in the Arts and Sciences.

Every number is carefully illustrated and its contents embrace the latest and most interesting information pertaining to the Industrial, Mechanical, and Scientific Progress of the world. Descriptions, with beautiful engravings of New Inventions, New Processes, New Discoveries, and Improved Industries of all kinds. Useful Notes, Receipts, Suggestions and Advice. Practical Writers, Workmen and Employers, in all the various arts forming a complete repository of New Inventions and Discoveries; containing a weekly record, not only of the progress of the Industrial Arts in our own country, but also of all New Discoveries and Inventions every branch of Engineering, Mechanics, and Science abroad.

THE SCIENTIFIC AMERICAN has been the foremost of all industrial publications for the past thirty one years. It is the oldest, largest, cheapest and the best weekly illustrated paper devoted to Engineering, Mechanics, Chemistry, New Inventions, Science and Industrial Progress, published in the United States. The practical Receipts are well worth the subscription price, and for the shop and house will save many times the cost of subscription.

Patents. In connection with the Scientific American, Messrs. Munn & Co. are the largest and best established in the world. More than fifty thousand applications have been made for patents through their agency.

Patents are obtained on the best terms. Models of New Inventions and Sketches examined, and advice given. A special notice is made in the Scientific American of all Inventions Patented through this Agency, with the name and residence of the Patentee. Patents are often sold in part or whole, to persons attracted to the invention by such notice. A pamphlet containing full directions for obtaining Patents, sent free. The Scientific American Reference Book, a volume bound in cloth and gilt, containing the Patent Laws, Census of the U.S., and 142 Engravings of mechanical movements. Price 25 Cents.

Address for the Paper, or concerning Patents, MUNN & CO., 37 Park Row, New York. Branch Office, Cor. F and 7th Sts., Washington D.C.

St. Andrews, Aug. 20, 1876.

WANTED.

WE WANT reliable, energetic canvassing agents in every town in the Dominion of Canada. This work is truly magnificent, containing over 2,000 doctored engravings, page engravings. The work is published in Paris, on a plan which insures its welcome to every English reading family. To energetic young men or ladies, who are willing to work, we will guarantee a permanent position for two years, and compensation of \$20.00 per month. Don't fail to write for our private terms, sample pages, etc. This is a grand opportunity for school teachers to make more than double their salaries without interfering with their professional duties. The work is being manufactured at a cost of over \$200,000 for the literary, artistic and mechanical work of producing the plates, by the old well known, reliable Lovell Printing and Publishing Co. of Montreal. All letters from agents must be addressed to the Publishers general agents as follows:

VINEGAR BITTERS

Dr. J. Walker's California Vinegar Bitter. It is a purely vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California. Its medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of Vinegar Bitters?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect renovator and invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Coughs or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

If men will enjoy good health, let them use VINEGAR BITTERS as a medicine, and avoid the use of alcoholic stimulants in every form.

R. H. McDONALD & CO., Druggists and General Agents, San Francisco, California, and New York, Washington and Charleston Sts., New York. Sold by all Druggists and Dealers.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted. It is a great relief to the human system.

Greatful Thousands proclaim VINEGAR BITTERS the most wonderful purgative they ever sustained the sinking system.

Bilious, Remittent, and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Cough, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the off-ings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Eczema, etc., etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory, Chronic Rheumatism, Gout, Bilious, Remittent, and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Palaces and Minerals, such as Painters, Typographers, Gun-Boaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt Rheum, Itch, Scalds, Pimples, Pus-tules, Boils, Carbuncles, Ringworms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no cathartics, will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Jaundice.—In all cases of jaundice, rest assured that your liver is not doing its work. The only sensible treatment is to promote the secretion of the bile and favor its removal. For this purpose use VINEGAR BITTERS.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is four; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

R. H. McDONALD & CO., Druggists and General Agents, San Francisco, California, and New York, Washington and Charleston Sts., New York. Sold by all Druggists and Dealers.
