between MONTREAL TORONTO DETROIT and CHICAGO

Unexcelled Dining-car Service. Sleeping Cars on night trains and Parlor Cars on principal day trains. Full information from any Grand Trunk Ticket Agent or C. E. Horning, District Passenger Agent, Toronto.  
C. O. Smith, Station Agent, Glencoe; telephone No. 2. F. E. Lumley, Town Agent, Glencoe.

**J. A. RAEBURN**  
Contractor for  
**OIL, WATER AND GAS DRILLING**

All kinds of Pumps and Pipe Supplies. Up-to-date Drilling Rig at your service.  
GORE CONCESSION, EKFRID.

**THE "WORTH" CONCRETE GRAVE VAULT**  
Pat'd 1915. Guaranteed Waterproof. Metal reinforced. Manufactured and for sale by  
**V. & R. WATTERWORTH**

**ADMINISTRATRIX SALE OF FARM STOCK AND IMPLEMENTS**  
The administratrix of the estate of Donald McGregor, late of the township of Ekfrid, deceased, will offer for sale by public auction on the north half of lot 24, concession 5, Ekfrid, on Friday, April 13, 1923, at 1 o'clock p.m. the following personal property:—  
2 work horses, driving horse, yearling colt, farrow cow, 3 cows in calf, 2 two-year-old heifers in calf, two-year-old steer, two-year-old heifer, 2 yearling cattle, brood sow, 100 chickens and 4 turkeys, Ford touring car, Deering binder, mower, hay loader, lumber wagon, set harrows, plow, beet lifter, beet cultivator, corn cultivator, set team harness, set single harness, a quantity of household goods and other articles.  
MRS. ANNIE MCGREGOR, Glencoe, Ont., Administratrix; M. A. McALPINE, Auctioneer.

**FOR SALE**  
A quantity of fodder corn; also some Banner seed oats.—Wm. Reycraft, Mosa.

**ALFALFA**  
For sale—genuine Ontario Variegated alfalfa seed. Price reasonable.—Lewis Waterworth, Wardsville.

**HAY**  
A quantity of good hay for sale.—Mrs. Joseph Siddall.

**FOR SALE**  
Five bus. nice, mostly bright, small white beans; good for seed or feed; 75c per peck or \$3 per bus. Also 5 bus. timothy seed at \$5 a bus., and about 2 bus. alsike clover seed at \$8 a bus.—Geo. P. Anderson, Shields Siding; mail address—Route 1, Newbury.

**FOR SALE**  
Fifty acres pasture land, west half of south half lot 3, concession 5, Mosa; good barn and windmill on property. Apply to Andrew Douglas, R. R. No. 2, Glencoe.

**FOR SALE**  
Fifteen colonies of bees, 10 fr. Langstroth hives. Apply Perce Nethercott, Wardsville.

**SEED OATS**  
Banner oats, grown from registered seed; government tested; germination 99 per cent.; have cleaned carefully twice. 65c per bushel.—W. P. Cornell, Appin.

**EGGS FOR HATCHING**  
White Wyandotte eggs for hatching, bred to lay; \$1 a setting.—A. S. Whitehall, Glencoe.

**HAY WANTED**  
Two tons or more of alfalfa or good mixed hay.—W. R. Sutherland, Glencoe; phone 81.

**CLOVER SEED**  
For sale—good, clean, red clover seed.—D. S. McEachran, 20 Sideroad, Ekfrid.

**FOR SALE**  
In Appin, new eight-roomed cottage, lot 75 by 175 feet. Apply to W. R. Stephenson.

**FOR RENT**  
A part of a double house.—Mrs. McLeellan.

**FARM FOR SALE OR RENT**  
50 acres for sale or rent, in township of Mosa, 5th concession. Possession at once. Apply J. A. McBrayne, R. R. No. 1, Mill.

**FOR SALE**  
Residence on Main street. Apply to Mrs. Mary McAlpine, Glencoe.

**SEED BARLEY**  
For sale—O.A.C. 21 seed barley.—J. H. Trestant, near Straburn.

**SEED OATS**  
For sale—seed oats, O. A. C. 72, awarded first prize in crop competition.—Robert N. Campbell, Route 6, Alvinston.

**FOR SALE OR TO RENT**  
Fifty acres of pasture land, being composed of the east half of the south half of lot number ten in the second concession of Mosa. Apply to Elliott & Moss, Solicitors, Glencoe, or John A. Campbell, 3261 Fifth St., Detroit.

**HORSES WANTED**  
Heavy draught and general purpose, also aged blocks, in good condition. Apply to J. D. Allan; phone 37w.

**FOR SALE**  
Three acres of land on Simpson street, containing good lots for building. Apply to A. B. McDoanld.

**Cream & Eggs WANTED**  
Our wagon will be on the road all season. We pay cash for cream and eggs.  
**G. W. SUTTON**  
Agent for Ontario Creamery, Limited.

CLEANERS AND DYERS  
Glencoe Agency Roy Siddall

**New Superior Chevrolet**  
THE QUALITY CAR YOU CAN AFFORD TO OWN

You should have a Chevrolet because time is your greatest asset—and in a motorized world any man suffers a serious handicap who does not possess this great multiplier of the value of time—the automobile. And the Chevrolet is the most economical of all automobiles.

You can afford a Chevrolet because of its amazingly low purchase price. This price includes complete modern equipment. Not an extra remains for you to buy.

You can afford to own a Chevrolet because it costs less to operate than any other quality automobile. It takes less gasoline and oil. The tire expense is correspondingly small.

See 1923 Chevrolet cars. They are marvels of value.

We have engaged Mr. Tommy Bissett to take charge of our Mechanical Department, with Mr. Chas. Willis as Assistant.

**G. W. SNELGROVE**  
CHEVROLET AGENCY

Prohibition has taken some people's breath away. Holloway's Corn Remover, which is entirely safe to use and certain and Hard and soft corns both yield to satisfactory in its action.

**DISTRICT AND GENERAL**  
Duncan McLean, of Lobo, died on Sunday, in his 90th year.  
Toronto has 108,215 telephones, or one to every five of the population.  
There will be daylight saving time in Toronto again this year, commencing May 13th.

The Lower House of Michigan Legislature passed a bill to tax gasoline two cents a gallon.

New York City, with its area of 300 square miles, includes 800 farms comprising 29,900 acres.

J. J. Stender was fined \$250 at Huntington, W. Va., for showing moving pictures of a prize fight.

Owen Sound city council passed a law to prevent youths and young men from standing about doors of billiard rooms.

A pin swallowed last October by a seven-year-old Port Burwell child was found in the appendix after a recent operation.

Five Leamington business places were broken into one night recently. Small sums of cash and at one store a quantity of tobacco were taken.

It takes some handling to make a gallon of maple syrup. The sugar content of sap varies with the seasons but it usually takes thirty-two gallons of sap to make one of syrup.

The postal authorities have just issued notices to the public requesting that the name and address of the sender of a letter or parcel appear on the outside of the envelope or wrapper.

Recently issued legal directories show that there are at present 597 law firms in Toronto as compared with 515 last year. At Osgoode Hall 121 lawyers were called to the bar last year.

H. J. Weiss got mixed up in the revolving doors of a Chicago bank. The two men who caused the trouble apologized and passed on. Afterwards Mr. Weiss found his pocket had been picked of \$500.

A hog weighing 250 pounds, believed to have been accidentally buried under a straw stack on an Ohio farm last October, was found last week, still alive but scarcely able to stand, and weighing but 100 pounds.

Nelson Cady, an old and respected resident, passed away on Monday morning at his home near Dutton, aged 78 years. Mr. Cady formerly resided at Middlemiss, where he acted for several years as a county constable.

The salary of Chief of Police John Boam of Bothwell has been increased \$35 a year owing to increased duties in ringing the curfew bell and attending public watermain breaks. The curfew by-law is said to be proving a great success.

A fire started in a bedroom over Parnell's store at Wardsville from an overheated pipe. When discovered it had gained considerable headway and had not a chemical extinguisher been on hand it might have spread over the entire building.

Druggists have received a circular from the Ontario License Board containing a list of about two hundred patent medicines of the tonic variety that are medicinal in name but without the proprietary or patent medicine act, and consequently their sale is prohibited except upon a doctor's prescription.

Prof. A. Laidie, a massage artist at London, poured carbolic acid on the back of Stirling S. Tobias, of Petrolia, on May 8 last when Tobias was taking treatment at his office, and the mistake cost Laidie \$1,200 and costs according to the verdict of the Supreme Court jury which discussed damages for one hour before bringing in a verdict. Tobias asked for \$3,000 damages.

**SCHOOL REPORTS**  
S. S. No. 16, Caradoc  
Following is the school report for March. Pupils whose names are marked with an asterisk were absent for part of the examination owing to illness. Names are in order of merit.  
Sr. IV.—Marjorie Acton, Fay Hansford and Donald Fletcher (tie), Eleanor McGugan.

Jr. IV.—Dorothy Hiscox, Blanche Hardy, Clara Near, William Goulet, Marguerite Hansford, Clarence Beattie.

Sr. III.—Laura Collier, Marion Campbell.  
Jr. III.—Margaret Dewar, Eleanor Meek, \*Phyllis Bees, Pearl Near, Etouille Williamson, Lena May Hansford, \*Muriel Meek.

H. Melvin Gough, Roy Hardy, Leonard Long, Jack Hansford, Gordon Huston, \*Jack Kaine.  
I.—Wilbert Huston, Frieda Hiscox, \*Florence Bees, \*Stanley Goulet, Primer.—Dorothy Brown, Harold Carruthers.

Agnes McNabb, Teacher.  
S. S. No. 17, Mosa  
IV.—Mary Laura McKellar and Albert Moore (even), Zella Munroe, Mary Ann McLachlan, Lloyd Little, III.—Kenneth McKellar, Viola Munroe, Hugh Leitch.  
II.—Prudence Moore, Duncan Leitch, Harley Lease (absent).  
Primer.—Innes Graham, Archie McKellar.  
K. Chambers, Teacher.

Worms sap the strength and undermine the vitality of children. Strengthen them by using Mother Graves' Worm Exterminator to drive out the parasites.  
Remember, the only newspaper subscriptions at The Transcript office.

**BOARD OF TRADE**  
The annual meeting of the Glencoe Board of Trade will be held in the town hall on Friday evening, April 6th, at 8 o'clock. All citizens are urged to be present, as matters of particular interest, looking to the welfare of Glencoe are to be brought before the meeting.

**A WORTH WHILE CONCERT**  
The musical entertainment given in the Methodist church on Friday evening by Howard Gordon and pupils will take rank as one of the best high-class entertainments ever presented to a Glencoe audience.

Mr. Gordon is taking particular pains to create a taste for the better class of music among the young people of the community, and his efforts are worthy of hearty support.

The evening opened with community singing in which several of the old familiar hymns were sung with orchestral accompaniment. Choruses were rendered by a choir of young ladies from the high school, and another fine selection was a chorus by nine of Mr. Gordon's pupils from the public school.

Violin solos were given by Ella Maryna, of Alvinston; Virgie Clarke, Eleanor Sutherland and Wm. Coad; cello solo by Mary Bindner, of Alvinston, and a cello duet by Hazel McAlpine and Mary Bindner. The audience showed their hearty appreciation of each of these numbers. Pleasing vocal solos were given by Olive Black of Appin; Ethel George of Glencoe; Jim Barnum, of Aylmer, and Jack Warner, of Alvinston. A reading by Ella McLean, of Frome, completed the program.

The pastor of the church, Rev. A. Whitehall, spoke in high commendative terms of Mr. Gordon's splendid work in the community in giving of his time and talents to foster a musical education of the better class among the young people, and on his suggestion a hearty expression of this sentiment was given by the audience in a round of vigorous applause.

Several of those who took part in the program have been entered by Mr. Gordon as competitors at the big Ontario musical festival to be held in Toronto commencing with the week of April 30.

The attendance on Friday evening while not as large as should have been was nevertheless encouraging in view of the fact that the evening was quite a stormy one, and considering also that there has been a surfeit of entertainment during the season in Glencoe.

Mr. Gordon purposes putting on a similar entertainment in the course of a few weeks, and we would advise all who possibly can to make it a point to be present and not allow the opportunity of hearing so worth while a musical attraction escape them.

**JAMES BATTIN DEAD**  
The death occurred in the hospital at Sarnia of James Battin, a former well-known resident of Dunwich, following an operation. The deceased was 62 years of age and was a native of Yarmouth, coming to Dunwich when a boy where he lived for years, afterwards making his home at Middlemiss and latterly at Sarnia. His wife died ten years ago. He is survived by two brothers and two sisters: Alex. Battin, of Middlemiss; John Battin and Mrs. Peter Salmon, of Dutton, and Mrs. D. McPhail, of Dunwich, and also by a half-brother, Lachlan McTavish, of Lucan. The remains were brought to Middlemiss, where the funeral was held.

**FAREWELL GATHERING**  
A very pleasant afternoon was spent in Pratt's Siding school on Thursday, March 29, when the children and many of the parents gathered to bid farewell to Jean Bath, a pupil of the school, who is about to leave the section. There was a program of drills, recitations, dialogues and singing, after which Jean was presented with a fountain pen by Jack Reycraft and an address, read by Katharine Gillies, expressing the regret of the pupils and teacher that she was leaving them, and assuring her that they would miss her in her class and in their sports and entertainments where she was always so ready and willing a helper; there would always be with her the sincere good wishes and prayers of her schoolmates and teacher. A farewell song was sung and lunch served.

When the smooth-tongued gentlemen who peddled gold bricks to our grandfathers passed away, the art of unboicing the public did not die with them. Nowadays the grandsons of these impostors do not handle fakes so crude and obvious as the gold brick. Equally glib, they are many times more up-to-date in their methods of fibbing the savings of more honest but less quick-witted people.

If a man tried to sell a farmer a brick that had been gilded to look like gold he would have to run faster than the farmer's dog to get away whole. But if he tried to talk him into investing in some scheme that, upon sane reflection, lacked even the possibilities of a brick for holding the door open, he might be asked to stay for supper, and leave with a wad of hard-earned cash that would never find its way home to that farm again.—Farmer's Sun.

The person who contributes something "just to help fill the paper" should call around and take a look at the waste paper basket.

**CHANGE IN REGULATIONS RE LOWER SCHOOL EXAMINATIONS**  
The necessity for all pupils' writing departmental examinations in lower school subjects has been removed, according to a recent circular published by the Department of Education. Pupils to be granted credit in any subject shall have completed the prescribed course of study in that subject and shall have passed comprehensive tests conducted by the teacher of the subject with a standing of at least fifty per cent. of the marks assigned to that subject in all the tests of the school year.

The regular departmental examinations will be held as usual and any pupil who fails to pass the teacher's test shall have the opportunity of trying again.

This regulation applies to the following subjects: Art, grammar, Latin, zoology, botany, Canadian history, arithmetic, geography and physiology.

**CARADOC CENETERIAN DIES**  
Strathroy, March 29.—The death occurred Wednesday of Archibald McLeod, one of the oldest residents of this district, in his 105th year.

Mr. McLeod was born in Scotland and came to this country with his parents at the age of 15, settling in West Williams near the village of Bornish. He was married to Margaret Stewart, who predeceased him seven years, in her 90th year. After the death of his wife, Mr. McLeod made his home with his daughter, Mrs. George Bennett, Caradoc township, where he was in possession of all his faculties up to the time of his death, being able to read the newspapers without the aid of spectacles.

**MARRIED IN PETROLIA**  
On Saturday, March 24, the home of Mrs. C. Nisbet, Albany street, was the scene of a quiet wedding when Duffy Windover, of 10th line, Moore, was united in marriage to Iona Myrtle Watson, of Glencoe. Mr. Richardson performed the ceremony. After congratulations they left amid showers of rice for a short honeymoon to the home of the groom's father, after which they will reside in Sarnia.—Petrolia Topic.

**DROP IN COST OF LABOR**  
What is probably an indication of falling labor costs in rural districts, and what is probably the main reason for the cityward migration of young men on farms, is pointed out by County Engineer Chas. Talbot. This is that teams may be hired in the country now for \$4.50 and \$5 the day, where a few years ago an offer of \$8 a day was refused and the general charge was \$11 and \$12 a day.

"The present fee," he points out, "is hardly enough to pay a man for his labor without considering his team. There can be no reason for wonder that young men and women on farms are flocking cityward, where trades may be learned within a short while and high wages guaranteed."

**EASTER PAGEANT AT APPIN**  
Appin, April 4, 1923.  
The service in the Methodist church on Sunday night was of a very unique character, being in the form of an Easter pageant, presented by twelve girls representing different nations along with the spirit of Easter and her attendants—Life, Light, Love, Peace, Hope and Joy. The whole pageant was presented in a pleasing manner by the girls, who took the parts assigned to them in an able way. The crude, bare old cross, as seen by the congregation on their first entering the church, was at the close of the pageant decorated beautifully with white lilies and white roses in crowns. Those present were agreed that never before had the Easter message been presented to them in such an acceptable form. Many a city or town child would covet such ability on the part of the nineteen girls who could devote themselves sympathetically and earnestly to such an undertaking. Much credit is due Rev. and Mrs. Parr, who introduced the pageant and who so well trained the girls for it. In the absence of Miss Helen Macfie, through illness, Miss Margaret Macfie presided at the organ in an acceptable manner. The young people are requested to put it on again in the near future, which goes to show how much it was appreciated.

**CAUSE FOR DOUBT**  
There was an all-round good-for-nothing man who died, and at his funeral the minister delivered a most beautiful address, eulogizing the departed in the most glowing manner, praising his splendid qualities as a fine type of man, a good husband and kind parent.

About this time the widow, who was seated well up in front, spoke to her little daughter by her side, and said: "My dear, go look in the coffin and see if it is your father."

**MOBA**  
The regular monthly meeting of the No. 9 W. I. was held at the home of Mrs. Wm. Reycraft on Thursday, March 29. There were 15 members and 2 visitors present. Collection, \$2.30. A consignment of 18 loaves from the Blind Institute, Toronto, was readily disposed of. A dainty lunch was served by the hostess.

# Soils and Crops

Address communications to Agronomist, 73 Adelaide St. West, Toronto

**Question—What breeds of pigeons are best adapted for the raising of squabs for the market?**

**Answer—**Bulletin No. 15 of the Department of Agriculture at Ottawa, dealing with the subject of pigeons, names three breeds suitable for squab production, the Homer, the Carneau and the Mondaine. The Homer is generally acknowledged to be one of the most profitable breeds for this purpose. It is a hardy breed, very active, prolific, and produces a good average weight squabs. The Carneau, originated in Flanders, has been bred for food for many generations. This breed has the habit of nesting close to the home quarters when given its freedom. It is prolific and robust and the squabs develop rapidly. The Mondaine, bred originally in Switzerland, is a utility pigeon, and is stated in the bulletin to be rapidly gaining popularity on this continent. It is a very prolific breed, and the squabs are broad breasted and well fleshed.

**Question—Are there any advantages gained from warming the drinking water of hogs during the cold weather?**

**Answer—**An experiment carried on at the Central Experimental Farm indicated two things: First, that hogs make better gains when they have be-

fore them a constant supply of water for drinking purposes, and second, that in winter the gains are more pronounced when the water is given slightly warmed.

**Stock Raiser, Durham Co.—**The farmers in this district grow large quantities of peas many years ago, but the coming of the pea weevil led many of us to discontinue. We desire to sow a field this year and the seed we have has an occasional infested seed. (Please advise me how to treat the seed to destroy these insects.)

**Answer—**Coal oil has been found useful in destroying the pea "bug" in the seed. About a half gallon of coal oil is sufficient to treat about five bushels of peas. The idea is to thoroughly moisten every seed so that the oil will penetrate and kill the insects. For this purpose the seed may be placed on a floor, the oil sprinkled on, and the peas shovelled over thoroughly. The shovelling should be repeated every day for at least four days, the first shovelling to be done about two weeks before sowing. It would be well, if possible, to induce every farmer in your neighborhood to treat his seed peas this spring. If this is done thoroughly there should be no "bugs" in the crop in that neighborhood for several years.

Serves Public Health.

Western University, London, is accomplishing good things through its faculty of Public Health, conducted under Professor H. W. Hill. Dr. Hill has been in charge of the Institute of Public Health since 1912, except for three years when he was in charge of the faculty of the University of Minnesota.

Two pounds of stable manure per square yard is equivalent to nearly five tons per acre. If the manure has been well preserved and is from well fed stock, the average farm yard manure will contain 10 pounds of nitrogen, 5 pounds of phosphorus and 10 pounds of potash in one ton. The five tons will contain 50 pounds of nitrogen, 25 pounds of phosphorus and 50 pounds of potash, and if applied annually per acre, would furnish the orchard with its requirement of plant food. It is not easy to apply five tons per acre evenly, particularly in the orchard. In most cases commercial fertilizers are depended upon, with cover crops, to supply the humus which is so necessary to produce a good mechanical condition in the soil. Stable manure if used should be applied early and in annual quantities, rather than in a heavy dressing one year with none again for several years.

**A Lantern That Will Not Tip Over.**  
A cement base cast on the bottom of a lantern will make it hard to knock over. Such a lantern will be very useful around the barn or shop. A form is made by bending a piece of sheet iron, the diameter being about three inches larger than the base of the lantern. It is also about one inch higher. In casting the form is set on a smooth flat board, about one inch of cement is placed in the bottom, then the lantern is set in the centre on top of the cement and the space around it is filled in. A cement mixture of about three parts screed sand to one of cement is about right.

**Have You a Typewriter?**  
Too little importance is attached to the value of the typewriter on the farm. As one farmer put it when the subject was broached to him: "Never write a letter but once or twice a year, and then I guess I can use the elephant tracks I learned to make at school." Too many men are of the same mind. Sometimes it is this small matter of writing a few neatly-typed letters which takes away the farmer's 10 per cent, and part of his good living. It is excusable when a rebuilt typewriter may be bought for a small sum? Every man with a well regulated business owns and uses a typewriter. How about it? Is your business well regulated or simply haphazard?

Probably no other single factor pays so excellent returns on the farm as does investment in quality seed.

**The Scale Situation**  
BY R. H. PETTIT, ENTOMOLOGIST.  
The fact that lime-sulphur, which served in the past to control scale, seems inadequate to the task at present, has led some of our growers to believe that a resistant race of scale has been developed—a race capable of enduring the lime-sulphur wash without being killed. The situation seems to the writer to be due to an entirely different reason.

First—Lime-sulphur kills by depriving the insect under the scale of its oxygen and it is hard to conceive of any insect acquiring the ability to get along without oxygen, any more than one could conclude that a rabbit could become immune to a charge of shot.

Furthermore, we know through rearing experiments conducted by the department of entomology at the college that a number of native parasites have started to work on the scale. Now, the battle waged between any insect and its parasites is apt to go first one way and then the other.

Once more, if we look back a few years we will remember that owing to the reduction in the activity of the scale, and to the increased cost of spraying due to cost of materials and of labor, the winter spray of lime-sulphur was put on more dilute than formerly. Everything worked satisfactorily until the parasites "knocked off" for some reason or other, and the scale commenced to multiply—then it became apparent that dilute spray-

## Markets and Requirements for Export Cattle.

Feeders of beef cattle may look with considerable assurance for a strong market for properly selected and finished export beef on the hoof during the latter part of April and the first weeks of May. No very great movement can take place before that time, for the terms of the cattle embargo removal, which became effective April 1st, stipulate that all cattle must be shipped from a Canadian port, Montreal is the logical economical port for these shipments but it will not be open until about the end of April. A few shipments may go by way of Halifax or St. John in the meantime, but, on account of the high cost of rail transportation, the bulk will be held for the opening of the port of Montreal. Present indications point to a heavy demand from the British market as soon as it can be supplied.

The statement "properly selected and finished" above used advisedly. The British consumer is a connoisseur of beef, and his palate is not likely to be satisfied with any second rate meat, consequently if we do not wish to land this prospective beef trade into the secondary position in which we now find our bacon trade, let us start right by sending over a well graded product. Grading should be done on the basis of breeding, size, finish and suitability for shipment. In the first place, an export steer should show sufficient goor beef breeding that he will fill the eye of the prospective buyer on that score alone. First impressions are most lasting. Size is both for and against. Shipment being on the basis of so much per head, the heavier the animal the lower the cost of transportation. The demand, however, is for a medium sized animal. Selection should therefore be on the basis of weight for size and size, i.e., heavy little animals. The finish must be up to a fairly high standard, recently and uniformly put on. Here to a greater extent than in the case on our home market is where feeding to a high finish will be justifiable. Suitability for export shipment includes such factors as freedom from disease or recently received diseases; a degree of docile temperament; and last, but not least, an absence of horns, for dehorning is practically imperative for export shipping. If these few factors are kept in mind at the start and nothing but Canada's best shipped over, a steady rather than a glutted market may be looked for.—Geo. Muir, Animal Husbandman.

**Simple Battery Check-Up.**  
Some garage mechanics are careless and some are just plain ignorant, so after one has removed and replaced the storage battery on your car or truck, check him up to see whether he has put the battery in right. If he has done it wrong, an injured or ruined battery may result. As soon as the battery is connected up, and before the engine is started, simply turn on the lights. If the ammeter indicates "charge" instead of "discharge," as it would normally, the battery is on wrong. Have it reversed at once.

**My Remedy for Horse Colic.**  
Here is a remedy I keep in a bottle for a horse that may take the colic. I have used this remedy for years and have never known it to fail. The bottle contains one pint of raw linseed oil, one-half ounce of hudsonian, one-half ounce of nitre. As soon as the horse shows signs of colic, he should be taken into a good stall, his head held high and the mixture poured down his throat. A long-necked bottle is essential for this purpose. If the animal does not get relief in an hour, repeat the dose. I have had a horse to be relieved inside of thirty minutes.—W. O. N.

Maples or oaks generally indicate well-drained land. When you cut ham or bacon, to run hard over the exposed surface will guard it from mold.

### The Tobacco of Quality

### Why I Use a Drill for Small Grain.

A field is more easily and more quickly sown with the grain-drill than by hand or wagon-box seeder, since there is no stepping-off and gauging to be done—nothing to do but hitch up and drive. With hand-sowing one must step off the desired width of a round and set flags to sow by, walk and carry the seed while he sows.

The wind is bothersome when sowing grain by any of the methods except that of drilling, and a poor or streaked stand almost invariably is the result if there is a wind at sowing time. With the grain-drill, this trouble is avoided, and as even a stand is secured when the wind is blowing when there is not the slightest breeze.

Grain put in the ground by a drill is all placed at exactly the same depth, and this is not true of another system of seeding. Where seeds are sown at uneven depths, germination is sure to be slower with some than with others. Those nearest the surface of the ground, if the weather turns dry, will not sprout at all, but shrivel up and are lost entirely.

When all is said and done it is a matter of yields and profits. Seed planted with a grain drill yields more per acre than seed sown broadcast. That is reason enough for me to use a grain drill.—M. Coverdell.

### Hot Boxes on Tractor.

Last winter I had trouble with hot boxes on my tractor. I found that they were caused by the oil getting so cold and stiff it didn't get to the bearings, and the bearings ran dry and got hot. I make a practice of getting my tractor thoroughly warmed up before starting.

### For all the Family

Strains, sprains and pains, overworked muscles, aches and twinges of rheumatism, all of them answer to Kendall's Spavin Treatment. Kendall's Spavin Treatment, known for more than 40 years as Kendall's Spavin Cure, is economical and clean—no medicines, no continued rubbing, no bandaging.

Ask your druggist for a bottle to-day.

**KENDALL'S SPAVIN TREATMENT**

Start Chicks Right—Health—growth—even life itself—depends upon proper feeding. **Pratt's Buttermilk Baby Chick Food** has no equal. Contains all that's needed to build bone, muscle and feathers. Digests easily; prevents disease; saves time, trouble and loss.

Your Money Back If YOU Are Not Satisfied. **PRATT FOOD CO. OF CANADA, Limited** 321W - Carleton Avenue, Toronto.

**PRATT'S 51st YEAR OF SERVICE**

### Why is Early Ripening so Profitable?

In Corn—Because it increases the protein of ensilage from 50 to 150%, and consequently you do not have to buy so much feed.

In Oats—Because early maturing oats escape considerable rust injury; and fill before they are killed with heat.

In Potatoes—Because early potatoes bring Biggest Prices. **SHUR-GAIN Fertilizers hasten ripening of all crops.**

Order SHUR-GAIN Fertilizers now for spring use.

Consult our Agent or write us. Agents wanted in territories where we are not represented.

**Guano Limited** 204 St. Clair Street TORONTO

## PAPER AND INK

Paper is made of wood, rags, straw, etc., dissolved with sulphuric acid and made into a soup, then rolled into sheets. Ink is made of certain salts of iron, or even soot and boiled oil. In themselves they are always paper and ink, beautiful products sometimes at that. When we put ink on paper with brush or pen it means nothing unless we put thought into their use. Then they become things which make us laugh or cry, wise or foolish. Paper, ink and thought has preserved for us the records of the human race and the wisdom of the world, and has brought to us one of the greatest and worthiest enjoyments of life. Paper and ink alone have done nothing for us.

And so with farming. We have the soil, the tools and the seed. We can put the seed in the soil and use the tools to scratch around with, and we sometimes call it farming. But it is not farming until we mix with these essentials our thoughts and ideals. When we do that, farming becomes to us a profitable and enjoyable thing.

Perhaps the reason so many are failures in farming is because too many use these tools without thought, without anticipation, without ideals—because they are just paper and ink farmers.

To get any enjoyment out of paper and ink, thoughts and human impulses must be injected into their use. To get any enjoyment out of life and farming, thoughts, hopes, appreciations and ideals must be injected into them.

We live life here but once. Let's get the most out of it by being something else than paper-and-ink farmers of life and farmers of farming.

### The Incubator Thermometer.

"It is my idea that nothing contributes more largely to incubator failures than the failure of the operator to place the thermometer in its correct relationship to the eggs," writes a man who has had many years of experience with incubators. "The great majority of incubator users do not understand that unless the incubator thermometer is kept in a certain position with relation to the eggs, the thermometer will not register the proper temperature."

I have always held that during the period of incubation the bulb of the incubator thermometer should rest on a fertile egg, in order that the correct hatching temperature might be maintained. An infertile egg, or an egg in which the germ has died, will not be quite so warm as a fertile one, and when the bulb of the thermometer rests on an egg in which there is no life, the thermometer will register a lower temperature than when the bulb is in contact with an egg containing life.

There are different opinions regarding this, however, the same as there are about other things in connection with the operation of incubators. The careful user of incubators will, after a hatch or two, know how best to place the thermometer in the egg-chamber to get the best results. And the incubator user will learn, not only how to handle the thermometer, but everything else necessary to be known about the operation of the particular machine in use by carefully observing and following the instructions given by the manufacturer of that incubator.

Each incubator manufacturer is sincere in his desire for each one of his customers to be successful. Each manufacturer knows how his incubator should be operated to get the best results. If the instructions accompanying the incubator you are using say to place the thermometer on the eggs put it there, because that particular incubator is made for the thermometer to be placed in the position mentioned. If you have an incubator equipped with a thermometer hanger, and the instructions say to put the thermometer on this hanger, then follow these instructions, because this particular machine is so made that the correct hatching temperature can be maintained only by placing the thermometer in the incubator according to the instructions.

If all incubator users will bear in mind that the instructions accompanying each incubator should be carefully followed, and will then follow them, it is not likely that there will be any serious difficulty in maintaining the correct hatching temperature. In short, follow instructions and you will not have thermometer troubles.—R.

### Another Sideline for Farmers.

Our Japanese friends are seeking out every little scheme for making their small territory contribute its maximum to the support of a dense population. Now we get this authentic news: A shipment of bullfrogs have been made from America for the purpose of providing the Japanese farmers with another sideline and at the same time provide for the destruction of many of the insects troubling in the paddy fields and truck gardens. There could be no good reason advanced why this line of production should not be encouraged in many localities right here in Ontario. Any person who has spent a single spring near some of our swamps will swear that conditions here are favorable.

Drilled oats outyielded oats broadcast. **Sam Sam!** When the boys begin to ask can they have the buggy to-night, that's another sign of spring.

## Proper Time to Hatch Chicks

It is a confirmed fact that pullets must be thoroughly matured before egg production can be expected, therefore, they must be hatched early enough to have time to mature well before the time that egg production is desired. Under ordinary circumstances, any of the general purpose breeds, such as Plymouth Rocks, Wyandottes, Rhode Island Reds, etc., require on an average five and a half to six months to mature, thus, pullets intended to commence laying the latter part of October, would have to be hatched in the month of April, while the Mediterranean Breeds, such as Leghorns, Anconas, etc., being smaller birds, can be matured in slightly less time, and could be hatched a week or two later, and still be matured ready to commence producing in the latter part of October. The care which the young growing stock receive during the summer months has much to do with having them properly matured in time for winter eggs. One breeder may hatch his birds early in April, and yet by neglecting to feed them as well as exercise, may not have them as well matured in October as another breeder who hatched his birds in May, but who gave them proper care while they were growing on the range.

Again, chicks hatched too early, besides being harder to take care of early in the year, are more liable to become severe, and are forced to maturity and egg production about August and September, and will exhaust a certain amount of their strength by the time that cold weather comes, with the result that they very often go into a moult, stop laying, and owing to short days of feeding, cannot regain their strength sufficiently to produce until

after the most urgent demand for winter eggs is over.

A number of experiments conducted at the Lennoxville Experimental Station during the past two or three years, to ascertain the proper time to hatch stock required for profitable winter egg production, have given some interesting figures. For instance, from November 1, 1920, to March 1, 1921, 25 pullets, hatched between April 5 and April 12, gave an average profit of \$3.73 per bird over the cost of their feed; while 25 pullets, hatched between May 1 and May 10, gave an average profit of \$1.75 per bird over the cost of their feed. Experiments conducted during the following winter gave results that helped to strengthen the data already secured, viz.: From November 1, 1921, to March 1, 1922, 25 pullets hatched between April 7 and April 15, gave an average profit of \$2.83 per bird over the cost of their feed; while 25 pullets, hatched between May 1 and May 10, gave an average profit of only \$1.71 per bird over the cost of their feed.

It was thought possible by some, that the later hatched lots would produce sufficiently more eggs in January and February to balance the profits of the earlier birds in November and December, but such has not been the case in any of the experiments to date.

Given proper care and feeding during the summer months on a good range for exercise, the past results would justify the recommending of hatching chickens of the general purpose type, not later than the end of April, the first three weeks of April preferred, and of the Mediterranean classes, not later than the 24th of May, for the most profitable production of winter eggs in western Quebec.

## Fertilizing the Orchard

Calculated from analysis an orchard producing 100 barrels of apples per acre would take from the soil 45 pounds of nitrogen, 12.1 pounds of phosphoric acid and 43.2 pounds of potash. It is found in actual practice that more phosphoric acid is required than is revealed by an analysis of the crop. Experimental results would indicate that a fertilizer carrying 30 pounds of nitrogen, 50 pounds of phosphoric acid and 50 pounds of potash, should be furnished annually to the average orchard in bearing; one producing about 100 barrels per acre. To supply these requirements 200 pounds of nitrate of soda, or sulphate of ammonia, 300 pounds of acid phosphate, or slag, and 100 pounds of muriate of potash per acre—giving 30 pounds of nitrogen, 48 pounds of phosphorus and 50 pounds of potash, or approximately a 5-8-8 fertilizer (one containing 5 per cent of nitrogen, 8 per cent of phosphorus, and 8 per cent of potash) applied at the rate of 600 pounds per acre is advised.

Of the above elements nitrogen is the most expensive, costing 22 cents per pound, valuing nitrate of soda (15 per cent nitrogen) at \$66 per ton. Phosphorus, either in acid phosphate or baste slag, costs 7 1/2 cents per pound, valuing acid phosphate or slag (16 per cent phosphorus) at \$24 per ton. Potash in muriate of potash (50 per cent potash), valuing it at \$20 per ton, costs 5 cents per pound. On this basis the fertilizer advised above per acre would cost for nitrogen \$6.60; phosphorus, \$3.60; and potash \$2.50, a total of \$12.70 per acre.

Nitrate of soda seems to be the most valuable nitrogenous fertilizer, due to the fact that it is quickly available and gives the fruit tree the needed nitrate early in the spring when growth should be most active and when available soil nitrates are less than at any other time. Experimental evidence supports the practice

of applying nitrate of soda early in May, and not later than the 15th, thus giving a vigorous start to the early spring growth. There is some evidence to show that 200 pounds per acre in the early spring may not be too large an application. It is possible, however, that this amount applied late may produce too active vegetative growth if used on soils in a good state of fertility, thus tending to carry too great a growth into the summer. This possibility of course would be largely overcome by a cover crop to take up the excess of plant food and bring about an earlier and better maturity of fruit and tree.

When applying nitrate of soda to a mature orchard of 40 trees per acre, five pounds per tree is considered ample. If trees are variable in size and vigor judgment should be exercised, as, in order to bring about average vigor, some trees should be fed less and others more than that generally advised. It may be stated that an application of one ounce to a square yard is equal to 300 pounds per acre; and that if a pound of nitrate of soda is applied to a tree with a spread of 13 feet in diameter, the tree is getting this material at the rate of approximately 300 pounds per acre.

It is difficult to measure the influence of phosphatic and potassic fertilizers, their effect being less marked than that of nitrate of soda. However, it is well known from experiments with other plants that a properly balanced fertilizer ultimately gives the best product. There is no doubt that nitrogen is the most important factor in relation to fruitfulness, yet there is a possibility that nitrogen used to excess, with a shortage of potash and phosphorus, may result in a fruit product less resistant to the effect of handling and transportation. Nitrate of soda or sulphate of ammonia, acid phosphate

and muriate of potash may be mixed together and all applied at the one time.

Two pounds of stable manure per square yard is equivalent to nearly five tons per acre. If the manure has been well preserved and is from well fed stock, the average farm yard manure will contain 10 pounds of nitrogen, 5 pounds of phosphorus and 10 pounds of potash in one ton. The five tons will contain 50 pounds of nitrogen, 25 pounds of phosphorus and 50 pounds of potash, and if applied annually per acre, would furnish the orchard with its requirement of plant food. It is not easy to apply five tons per acre evenly, particularly in the orchard. In most cases commercial fertilizers are depended upon, with cover crops, to supply the humus which is so necessary to produce a good mechanical condition in the soil. Stable manure if used should be applied early and in annual quantities, rather than in a heavy dressing one year with none again for several years.

## BUILDING OF SILOS IN WESTERN CANADA

### MIXED FARMING IS ON THE INCREASE.

### Marks a New Era in the Agricultural Life of Our Vast Western Plains.

Possibly the most striking feature of the harvest landscape to American farmers who have visited the Canadian West during recent years is the general prevalence of excellent stands of corn, and the rich and sturdy crop seen on every hand. Having, as they believe, left the corn belt well behind, they are astounded at the abilities in this direction of the Canadian West. A still more novel feature brought to their attention is the substantial acreage devoted to sunflowers, a fodder crop in which the Western provinces of the Dominion have done the pioneer work in proving the value as well as in utilization and which is vying with corn as a silage crop for the Western Canadian farmer.

The increasing use of silage every year is responsible for this. In the Western Canadian provinces, in 1922, there were 87,561 acres devoted to production of fodder corn and many unrecorded areas in sunflowers. A total of 327,100 bushels of corn worth \$279,600 were raised in the four provinces, the greater volume being attributable to Manitoba and Saskatchewan and lesser quantities to Alberta and British Columbia. The increasing acreage devoted to these crops each year is the best testimony to the greater utilization of silage in feeding in the Western provinces, and this signifies a new trend in Western agricultural methods.

### Canada's Largest Corn Field.

Such has been the popularity of these crops and, from their proven benefits, the anxiety of the provincial governments to extend their use, that during the past summer the Government of Alberta distributed corn and sunflower seed free to farmers, each being able to receive fifty pounds upon application. In the adjoining province of Saskatchewan it was considered that one J. H. Smith, farming near Maple Creek, possessed the largest field of corn in the Dominion, consisting of 125 acres in a solid block and estimated to contain 1,000 tons of green corn. To such an extent has the movement of growing corn for silage grown in Southern Alberta that a corn growers' association was recently formed at Calgary which at its initial meeting enrolled one hundred and fifty corn-growing farmers.

The increasing utilization of silage in the Western Canadian farmer's feed programme is perhaps most pitifully demonstrated in the increasing erection of silos each year. From information gathered from silo manufacturers and distributors, approximately three hundred silos were sold in Western Canada in 1922. These figures only refer to ready-made silos, and in addition it may be assumed that an equal number of home-made silos of the above-ground type were erected, and probably as many, if not more, trench silos were constructed, bringing the total number of new silos to between nine hundred and a thousand.

### Two Thousand Silos to be Built.

In the year 1921 approximately 200 ready-made silos were sold, probably 100 home-made above-ground, and an equal number of trench silos constructed. The outlook for the present season is that double that number of silos will be erected, and the total number built or dug in 1923 should be between 1,600 and 2,000. This is the new movement in Western Canadian agricultural methods gathering impetus with the years.

The increasing number of silos, signifying a greater utilization of silage fodder, better feeding and better stock, marks out the new era of the West more distinctly and decidedly than any other feature of the life. Farming methods in the West are changing rapidly. Men who put all their eggs into the one basket and stake their all on the exclusive growing of grain are becoming fewer and the followers of livestock raising and dairying multiplying every day. The West is passing out of its days of grain gambling and has entered the period of home-makers with steady and assured farming methods.

### English Swallows Fly to South Africa.

An English swallow with a ring on one leg placed there in Garmarthen-stre, Wales, last August, was found dead in a field thirty miles from Johannesburg, South Africa, January 14. This, said H. P. Witherby, a close student of bird migration, is the seventh swallow known to have flown from England to South Africa. In January of last year, he said, one had been found at Jansenville, Cape Province, which was ringed as a nestling of Windsor.

It is not known how long the birds take to make the trip, but it is supposed that they travel leisurely. Owing to occasional storms and bad weather encountered along the way it is believed that the swallows fly between 8,000 and 10,000 miles on each trip.

A process by which wool, unsuitable for spinning, can be made into a fur-like material is said to have been found by an Australian inventor.

## Surnames and Their Origin

### HAWLEY.

Variations—Hawes, Haw.  
Racial Origin—English.  
Source—A locality.

Here is another of those English family names of the kind which sprang up in a great many sections of that country through the entire period of family name formation. These names were based upon local place names, mostly of the descriptive kind, in many instances known only to those who lived in the communities in which the names sprang up, names like Hill, Dale, Ford, Woods, Cliff, Grove and the like.

Literally the name Hawley would mean a hedged piece of meadowland, for it is a compound of the ancient Anglo-Saxon words "haeg" and "ley," the former being the word from which has come our modern word "hedge" as well as such names as Haig, Hedges, Hay and the like.

The forms Haw and Hawes, of course, are either shortened forms of

Hawley or else names derived simply from the old word "haeg."

### GROSSBECK.

Variation—Broosbeck.  
Racial Origin—Dutch.  
Source—A locality.

Grossbeck is really the more correct spelling of this name, if it can be said that there is any better standard of spelling family names than the habit of the bearer himself.

Grossbeck is the Dutch way of spelling it. The other form, Grossbeek, is a changed spelling which has come about through the influence of the English language in instances where the name has been used for long periods either in America or England.

If you were to translate this name literally into English it would be simply "Bigstream." The word "gros" is nothing but the Dutch equivalent for the English word "gross" (or "great"), which is also to be found in both French and German, and "beck" meaning stream.

### The Gardener.

So lovingly he holds within His hand the tiny seeds and sees A vision of bright fairy things, That soon will flutter in the sun, Like butterflies on flaming wings.

So lovingly he lays them down In beds made soft and warm to sleep, And carefully about their heads, For fear of bitter wind and storm, A magic coverlet he spreads.

So lovingly he waits until Awakened by a thousand sounds, With tender outstretched arms they rise, And struggle to their feet, to find An eager welcome in his eyes.

So lovingly he watches when With quick response they do his will, And in his garden, kneeling there, With busy hands, care slips away, And peace comes like an answered prayer.

—Lillian Howard Cort.

### League of Nations to Urge Protection for Scientists.

The right of scientists to share in the benefits derived from the application of their discoveries has received official attention from the League of Nations Intellectual Co-operation Commission. A sub-committee assigned to go into the question has just concluded its studies, and a plan is now being drafted for the legal protection of scientific work. After approval by the commission, and then by the council of the league, the plan would serve as a basis for legislation in the parliaments of the different countries throughout the world.

## BABY'S HEALTH IN THE SPRING

The Spring is a time of anxiety to mothers who have little ones in the home. Conditions make it necessary to keep the baby indoors. He is often confined to overheated, badly ventilated rooms and catches colds which rack his whole system. To guard against this a box of Baby's Own Tablets should be kept in the house and an occasional dose given the baby to keep his stomach and bowels working regularly. This will prevent colds, constipation or colic and keep baby well. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Farthest-North Radio Weather Station.

Jan Mayen Land, a tiny volcanic island north of Iceland, is in the track of arctic storms sweeping toward the coast of Norway, 600 miles distant. In order to obtain timely warning of the storms which, peril its interests, the Norwegian government less than two years ago established on the island a radio station, the farthest-north station in the world. It is in charge of Akhard Ekerold, an American citizen. The operator and his assistants are the first permanent inhabitants of the island.

### Minard's Liniment used by Physicians.

By means of airships, Bombay, India, could be brought within three and a half days' journey of London.

## See How Easy It Is To Learn Music This New Way

YOU know how easy it is to put letters together and form words, once you have learned the alphabet. Playing a musical instrument is not very much different. Once you learn the notes, playing melodies on the mandolin, piano or violin is simply a matter of putting the notes together correctly.

The first note shown above is G. Whether you are singing from notes, playing the piano or banjo or any other musical instrument, that note in the first space is always G. The four notes indicated are F, A, C, E, easy to remember, because they spell the word "face." Certain strings on the mandolin, certain keys on the piano represent these same notes—and once you learn them, playing melodies on the instrument is largely a matter of following the notes.

Anyone can now learn to play a musical instrument at home without a teacher. A new, simplified method of learning music reduces all music to its simplest, most possible form. You can now master singing, piano playing or any musical instrument you wish right at home, quickly, easily, without endless study and practice.

You don't have to know anything whatever about music to learn. You don't have to pin yourself down to regular hours, to regular classes. You practice whenever you can, learn as quickly as you please. All the intricate "mysteries" of music have been reduced to a step is made as clear as ABC. Thousands have already learned to play their favorite musical instruments this splendid new way.

## SPRING IMPURITIES DUE TO POOR BLOOD

### A Tonic Medicine a Necessity at This Season.

Dr. Williams' Pink Pills are an all-year-round tonic for the blood and nerves. But they are especially valuable in the spring when the system is loaded with impurities as a result of the indoor life of the winter months. There is no other season when the blood is so much in need of purifying and enriching, and every dose of these pills helps to enrich the blood. In the spring one feels weak and tired—Dr. Williams' Pink Pills give strength. In the spring the appetite is often poor—Dr. Williams' Pink Pills develop the appetite, tone the stomach and aid digestion. It is in the spring that poisons in the blood find an outlet in disfiguring pimples, eruptions and boils—Dr. Williams' Pink Pills clear the skin because they go to the root of the trouble in the blood. In the spring anasarca, rheumatism, indigestion, neuralgia and many other troubles are most persistent because of poor, weak blood, and it is at this time when all nature takes on new life that the blood most seriously needs attention. Some people dose themselves with every kind of medicine, but these only further weaken themselves. A purgative merely gallops through the system, emptying the bowels, but does not help the blood. On the other hand, Dr. Williams' Pink Pills enrich the blood which reaches every nerve and every organ in the body, bring new strength and vigor to weak, easily tired men, women and children. Try Dr. Williams' Pink Pills this spring—they will not disappoint you.

Sold by all medicine dealers or sent by mail at 50 cents a box by The Dr. Williams' Medicine Co., Brockville, Ont.

### No Place Like Home.

When a native of Prince Edward Island had sailed forth to see the world, he engaged a room at a modest hotel in Boston, intending to remain there while he hunted for work.

"Will you register?" asked the clerk handing him a pen.

"Register?" said the traveler. "What is that?"

"Write your name."

"What for?"

"We are required to keep a record of all our guests."

The man wrote his name and was about to lay down the pen when the clerk added:

"Now the place, if you please."

"What place?"

"The place you came from. Where do you live?"

"I live on the island."

"Well, but what island?"

The other looked at him in amazement. Then he said, with an emphasis that left no doubt of his feelings, "Prince Edward Island, man. What other island is there?"

### Who Wrote the Words?

At a recent concert in Winnipeg, a gentleman said to his guest from the East, "I just notice that on this programme the names of the composers of the songs are not mentioned. I wonder who is responsible for such an oversight?" It may be said at once that such omissions are not confined by any means to Winnipeg. Everywhere you go you will find programmes giving the names of the composers of the songs, but the persons responsible for the texts are nameless. Sometimes the programme even gives in full the two or three stanzas of each of the texts without mentioning the writers' names.

Is it to save a few cents in competition with the printer? Is it just thoughtlessness? Or is it because the one responsible for the programme considered the words of no importance? One of the foremost vocalists on this continent said the other day, "before I study a new song to add to my repertoire, I read over the words carefully and if they are not worth while, I wouldn't put any time on the song no matter how exceptionally fine the music was." Another singer, a famous tenor, said recently: "When I get a new song, I first familiarize myself with the music, but if the words prove silly or sentimental, I throw the song aside. For no matter how good the music, a song is not worth singing unless the words are worth hearing. Words and music should constitute a harmonious union. For that matter I believe that the accomplishment of a song is just as much a part of the work as the portion written for the voice."

The most successful composers lay great stress on the lyrics. There is absolutely no excuse for using the words of a song on the programme without giving proper credit to the author. If the words are good, they will be good taste when listing songs to say words by so-and-so, and music by so-and-so. No music publisher would issue a song without the title page covering the name of the lyric writer in prominent type along with that of the composer of the music.

## CORNS

### Lift Off with Fingers

Doesn't hurt a bit. Drop a little "Freezone" on an itching corn, instantly the corn stops hurting, then shortly you lift it right off with fingers. Truly! Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

## "Twentieth Floor, Please"

New York is a city of skyscrapers. Most of all these enormous buildings is the well-known Woolworth Building, headquarters of the world-famous stores, one of the founders of which has just died in London.

It is known as the "Cathedral of Commerce" because of its sham Gothic architecture. It is more than 800 ft. in height.

Next comes the "Equitable," in which 15,000 clerks are employed. It has a dining-room which seats many hundreds, and a roof-garden for the workers.

Then comes the Metropolitan Building, the home of the Metropolitan Insurance Company, with its five or six thousand employees.

These great buildings are fitted with most wonderful lift systems, including several that stop at every twentieth floor or so.

One would have thought that the existing buildings are quite numerous to the sky as it is, but it is announced that one with 150 stories is contemplated.

### Orient's Largest Building Nearing Completion.

The Marunouchi Building, now nearing completion in Tokyo, Japan, is said to be the largest office building in Asia. It is an eight-story structure built on a ground area 350 by 300 feet and is 110 feet tall. The weight of 87,000 tons is supported on piling that extends nearly 100 feet below the ground line. It contains approximately 800,000 square feet of floor space that will be devoted almost entirely to office purposes, and is of fireproof construction throughout. Modern equipment, such as air and ventilating systems, bathrooms, and other conveniences for the tenants, has been included, and the building houses its own power plant.

It would take a good counter, counting 24 hours a day, more than 9,512 years to count a billion.

## TOOTHACHE

Place a piece of cotton wool saturated with Minard's in the cavity. Acts as a counter-irritant and gives quick relief.

### MINARD'S LINIMENT

"KING OF PAIN"

Among the Eskimos, "conjurers," who have had a special training and who be of either sex, wield a great influence.

They were having a botany lesson, and the children were asked by their teacher if they knew what made the leaves turn red in the autumn.

Up popped one hand—and only one. "Well, Johnny?" asked the teacher.

"Please, miss," replied Johnny, "they blush to think how green they have been all the summer."

## FACE A SIGHT WITH PIMPLES

### Large and Red, Itched and Burned, Cuticura Heals.

"My face was itchy and broke out with large, red pimples. They were scattered all over my face and itched and burned so that I scratched which caused them to grow larger. I could hardly sleep at night. They were a real torture and my face was a sight. The trouble lasted about three months. I began using Cuticura Soap and Ointment and the first treatment stopped the itching and after using two cakes of Cuticura Soap and one box of Cuticura Ointment I was healed." (Signed) Miss Ora Goulette, R. F. D. 4, Box 86, Barre, Vt., March 24, 1922.

Use Cuticura Soap, Ointment and Talcum exclusively for every-day toilet purposes.

Sample Each Free by Mail. Address: "Cuticura Liniment," 144 St. Paul St., Boston, Mass. "Cuticura Soap," Ointment and Talcum 25¢.

"Cuticura Soap" boxes without msg.

## WILLIAMS TELLS OF WASTED CASH

### Spent Lots of Money, But Wife Got No Better Until Tanlac Ended Stomach Trouble.

"I never saw such a change as Tanlac has made in my wife and she says she is feeling like a girl of sixteen now," declared Harold Williams, a well-known shoemaker, of 28 Cornwall St., Toronto, Ont., recently.

"For years, she was so weak and run-down I often thought she would fall in her tracks. Nearly everything she ate disagreed with her and at times she was simply in agony. Her nerves were so unstrung the least little thing would worry and upset her for hours and she could scarcely get any sleep.

"Well, after spending hundreds of dollars on different medicines, I didn't help her, but it's a fact, when she finished the treatment, every ailment was gone. That was several months ago and since then her health has been splendid. Hereafter we will always pin our faith to Tanlac."

Tanlac is for sale by all good druggists. Over 35 million bottles sold.

## PUTS HEALTH AND VIM INTO WOMEN

### So Says Mrs. MacPherson of Lydia E. Pinkham's Vegetable Compound

Brantford, Ontario.—"I was always tired and the least exertion would put me out for a day or two. I had a pressing pain on the top of my head, pain in the nape of my neck, and when I stooped over I could not get up without help, because of pain in my back. I did not sleep well and was nervous at the least noise. I kept house, but I was such a wreck that I could not sweep the floor nor wash the dishes without lying down afterwards. A friend living near me told me what Lydia E. Pinkham's Vegetable Compound had done for her so I began to take it. With the first bottle I felt brighter and got so I could wash dishes and sweep without having to lie down. Later I became regular again in my monthly terms. I have taken ten bottles all told and am now all better. I can truly say that your wonderful medicine cannot be beaten for putting health and vim into a woman."—Mrs. JAMES H. MACPHERSON, 303 Greenview St., Brantford, Ont.

If you are suffering from a displacement, irregularities, backache, or any other form of female weakness write to the Lydia E. Pinkham Medicine Co., Lowell, Ontario, for every-day Lydia E. Pinkham's Private Text-Book upon "All-mysterious Peculiarities to Women." 6

# Spring's High-class Clothing

At a Low Rate on the Dollar for Cash

The W. E. Sanford Mfg. Co. of Hamilton, one of the oldest, largest and most reliable Clothing Manufacturers of Canada were forced to close on account of business depression, and stock sold by creditors to realize spot cash.

Ever on the alert for such opportunities, we were fortunate in securing several consignments at Very Special Cash Prices. Some of the suits had "Oak Hall" and other labels on, as they supplied the clothing for "Oak Hall" stores, as well as others. This makes no difference to our customers so long as they get

**A Real Good Suit at a Saving of Dollars.**

There's going to be a lot of lucky buyers around Glencoe, and there's going to be just as many unlucky ones because they will put off until the snags are picked up. Be among the wise and move quickly. If your boy wants a suit anytime within a year it will pay well to buy from this Sanford stock. Two pair pants with suit at much less than one pair with suit elsewhere.

**Snappy Young Men's Suits**

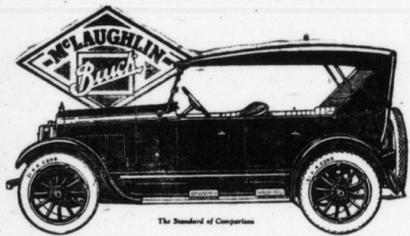

English materials, styled to meet the demand. Conservative Styles for Middle-aged Men, with quality and workmanship desired. Prices will be so pleasing, to see them means to buy them.

## After House-cleaning Supplies

New shipments this week. Linoleums in the New Spring Patterns. Linoleum Squares. Gold Seal Congoleum Squares—all sizes. Window Drapery and Curtains. Brass Rods. Shades.

**Our Spring Stock is Pleasing in Every Department**

**J. N. CURRIE & CO.**

## Built for Hard Work As Well as for Comfort

The "Master Four" Touring, 23-35 Special

**T**HE McLaughlin-Buick "Master Four" Touring is the ideal car for everyday use. It is strongly constructed to "stand up" under the most strenuous service, over all kinds of roads, in any kind of weather. It is ready with abundant power for any emergency. It is low in cost of operation and upkeep, and it is backed by such widespread and efficient service that it need never be "laid up" when wanted.

Yet it is a handsome car—one you will be proud to own. It is big enough to accommodate the family on its pleasure trips and on visits to friends and relations. It is a comfortable car—smooth riding, a real means of relaxation after a hard day's work. As to price, a close inspection will convince you of its outstanding value.

### CANADIAN GOVERNMENT ANNUITIES

A Canadian government annuity is a fixed yearly income payable by the Government of Canada for life in quarterly instalment, unless otherwise provided. It is a safe and lucrative form of investment for persons of all ages and circumstances, whether for immediate income purposes or as provision for old age.

The annuity at Glencoe can be obtained from the purchase of a Government Annuity Act—

That it is the safest investment that can be made, as it has behind it the security of the whole of the Dominion of Canada.

That it is free from taxation for Dominion purposes.

That it is payable for life.

That it is not transferable.

That it cannot be alienated.

That it cannot be forfeited.

That it cannot be stolen.

That it cannot be seized or levied upon by or under the process of any law or court.

That it is not affected by the fluctuation of business, or trade depression.

That the purchaser does not have to die to win, but enjoys a personal participation in the fruits of his labor.

That the annuitant receives the full benefit of all that his money earns, as the expenses of management are borne by the Government.

The postmaster at Glencoe will be pleased to give any information relating to Dominion Government Annuities.

When sending parcels through the mails to any post office in Canada or the United States, ask to have them insured against loss or damage. It costs only a few cents. The limit of weight for a parcel is 11 pounds.

Now, I would like to hear the opinion of a few other farmers, and thanking you for the space in your valuable paper, I will sign my name,

A FARMER.

It will prevent ulcerated throat. At the first symptoms of sore throat, which presages ulceration and inflammation, take a spoonful of Dr. Thomas' Electric Oil. Add a little sugar to it to make it palatable. It will allay the irritation and prevent the ulceration and swelling that are so painful. Those who were periodically subject to quinsy have thus made themselves immune to attack.

## SPRING OPENING at New Ladies' Wear and Millinery Store

### MORTGAGE SALE OF VALUABLE FARM PROPERTY IN THE TOWNSHIP OF EKFRID

Under and by virtue of the powers contained in a certain Mortgage, which will be produced at the time of sale, there will be offered for sale by Public Auction at the McKellar House in the Village of Glencoe, on Saturday, the 7th day of April, 1923, at 3 o'clock p. m., the following Real Estate, namely:

All and singular that certain parcel or tract of land and premises situate, lying and being in the Township of Ekfrid, in the County of Middlesex and Province of Ontario, and being composed of the south half of the south half of lot number twenty in the third range south of the Longwoods Road in the Township of Ekfrid aforesaid, containing fifty acres more or less.

This farm has on it a comfortable brick dwelling house, a good frame barn with basement and other improvements. The soil is of good quality and the farm is conveniently situated as to school and church.

Terms of sale:—One-tenth of the purchase price to be paid down at the time of sale and the balance within one month thereafter. The property will be offered subject to a reserve bid and to conditions which will be made known at the time of sale.

For further particulars apply to ELLIOTT & MOSS, Glencoe, Ont., Vendor's Solicitors. L. L. McTaggart, Auctioneer.

### NOTICE TO CREDITORS

In the Estate of Wilfred Walker, Late of the Township of Metcalfe, in the County of Middlesex, Farmer, Deceased.

Notice is hereby given, pursuant to "The Revised Statutes of Ontario, 1914," chapter 121, section 55, that all creditors and others having claims against the estate of the said Wilfred Walker, who died on or about the twenty-fourth day of January, A. D. 1922, are required to send by post prepaid or to deliver to the undersigned, solicitors for John N. McPhail, administrator of the estate of the said Wilfred Walker, deceased, their names and addresses and full particulars in writing of their claims and statements of their accounts and the nature of the securities if any, held by them.

And take notice that after the 26th day of April, A. D. 1923, the said John N. McPhail will proceed to distribute the assets of the said deceased among the persons entitled thereto, having regard only to the claims of which he shall then have had notice, and that the said John N. McPhail will not be liable for the said assets or any part thereof to any person of whose claim he shall not then have received notice.

ELLIOTT & MOSS, Glencoe, Ont. Solicitors for the said Administrator. Dated at Glencoe, Ont., this 26th day of March, A. D. 1923.

**Cause of Asthma.** No one can say with certainty exactly what causes the stabilizing of asthmatic conditions. Dust from the street, from flowers, from grain and various other irritants may set up a trouble impossible to eradicate except through a sure preparation such as Dr. J. D. Kellogg's Asthma Remedy. Uncertainty may exist as to cause, but there can be no uncertainty regarding a remedy which has freed a generation of asthmatic victims from this scourge of the bronchial tubes. It is sold everywhere.

### WIDENING THE HIGHWAY

To the Editor of The Transcript: Dear Sir,—I noticed an article in your last issue praising up the widening of the Longwoods Road or Provincial Highway and also condemning the narrow streets of Glencoe. He said Glencoe was handicapped with the narrow streets. If he would remember thirty or forty years ago there was no business at all done as there is at the present time and still there was enough room for as much more. I'll admit Glencoe is handicapped and all the towns in the province but not with the narrow streets but with Eaton and Simpson catalogues which are responsible for it.

Now about the provincial highway or the Roosevelt road which they are calling it. For instance, they claim that they are going to have a 36-ft. road and a 30-ft. roadbed, and that would leave 28 feet on each side to plant the trees. At present time the road is 68 feet wide and with a 30-ft. roadbed. This would leave 18 feet on each side for the row of trees, which I claim is plenty of room. From what I see in the paper there are 2,200 miles of provincial highway in Ontario and that amounts to 5,500 acres of land which they propose to give \$100 an acre for. That would cost \$550,000. Now, they would have to fill in all the ditches and build new ones and that would cost over \$100 an acre. Between the buying of the land and the filling in of ditches and digging new ones you will find that it will cost over \$1,600,000. This would be an expense for all time to come, and what about the debt of Canada now. I don't see as we are keeping up the interest on it. They claim that the car licenses will pay the biggest share of this road. You will find in five years' time that there will only be one car where there are ten now, but the owners will be so poor from the taxes being put on them they won't be able to buy the gasoline.

They spoke about the good roads over in the States, but go over and ask the farmers what they think of it. You will find that many farmers will let you have the use of their farms for mowing the grass. In California it is the same way. Did you ever figure up how much land would go to waste when the road is twenty feet wider? You will find that it is 5,500 acres. Now, if we would just allow the 500 acres to go as lawns in the villages and put 5,000 in for crops it would be better.

**NORTH NEWBURY**  
Mrs. Grindell, of Jackson, Mich., was a visitor at A. McMaster's last week.  
Andy Armstrong and Alex. Clements are loading wood for the Wallaceburg Co-operative Co.  
Miss Violet Plaine arrived from London Monday evening.  
Mrs. John Almas and brothers, John and Will Turner, spent the Easter holidays in London.  
Eugene Crotte, of the Bank of Montreal staff, Guelph, was home for Easter Sunday.  
John Fletcher, of Lobo, is working on the section here now with his uncle, Mr. McMaster.  
John Buel and wife are spending a few days in Chatham.  
Steve Huis, of Thamesville, paid the little bug a visit on Tuesday.  
Tommy Foley and Earl McMaster have taken positions on the section here.  
Tommy Joyce is busy these days cutting wood with his fine new Guelph engine, the Gilson.  
We hope the April showers of Tuesday will clear the weather and give us a little spring.

**MODEL CENTRE**  
Mrs. Alex. Crawford has returned home after spending a few days with friends in London.  
Milton Holman, of Ayr, visited friends here this week.  
Will Carruthers is confined to his bed with an attack of pneumonia.  
Archie McCallum and Mrs. O. McKibben have returned after spending a few days with friends in Detroit and their sister at Blytheswood.  
Miss Jessie McAlpine attended the unveiling of the memorial tablet at London Normal School on Friday, March 23rd.  
Mrs. D. F. Eddie and Miss Lillian Eddie were in London last week.

### BIBLE THOUGHT FOR TODAY

**CURSING OR BLESSING?**—Cursed be the man that trusteth in man, and maketh flesh his arm, and whose heart departeth from the Lord. Blessed is the man that trusteth in the Lord and whose hope the Lord is. —Jeremiah 17: 5, 7.

**Born**  
FISHER.—On Wednesday, March 21, 1923, to Mr. and Mrs. C. A. Fisher, Ekfrid, a son.  
MOORE.—On Saturday, March 31, 1923, to Mr. and Mrs. Richard Moore, Ekfrid, a son.  
SNEELGROVE.—On March 31, 1923, to Mr. and Mrs. Joseph Sneelgrove, Glencoe, a son.

### TOWN AND VICINITY

Schools reopen on Monday, after the Easter holidays.  
Mrs. Symes, Concession street, is seriously ill with pneumonia.  
Tommy Hissett is now in charge of the mechanical department of G. W. Sasigrove's garage.  
Special Easter services in the local churches were of an exceptionally bright and inspiring nature.  
An important meeting of the literary society in S. S. No. 5, Ekfrid, will be held on Friday evening at 8 o'clock.  
The death occurred at her home in Thamesville on Monday of Mrs. Wall, daughter of Mr. and Mrs. Fred Dobson, of Glencoe.  
The Progressives of West Middlesex is reported will bring out Miss Margaret Washburn, of Strathburn, for the Legislature.  
Glencoe council met on Monday evening, received the auditors' report and passed a number of accounts for payment.  
Cancellation of the receipt tax and some changes in other taxes payable by stamp are likely to be announced in the Dominion Budget.  
W. G. Christner underwent an operation for appendicitis in St. Joseph's Hospital, London, on Sunday and is reported to be making good recovery.  
James Sneelgrove, son of Geo. W. Sneelgrove, of Glencoe, underwent an operation for appendicitis in a Port Huron hospital on Saturday, and is making good recovery.  
Mrs. J. L. Luckham and Mrs. John Strachan have been appointed by the Glencoe Women's Missionary Society to attend the convention to be held in Windsor April 24-26.  
E. A. Mayhew & Co. have bought a portion of the clothing stock of the W. E. Sanford Mfg. Co., Hamilton, who failed a couple of weeks ago, at a low rate on the dollar.  
All records for the last half of March were smashed when the degree dropped to within three degrees of zero. It is claimed that only 12 March days in 89 years have been as cold.  
Rev. A. S. Whitehall gave an inspiring address at the Guild meeting on Monday evening. His subject was "The Literature of the Bible," featuring poetry. Miss Jean Reith sang a delightful solo.  
Two Alberta Government officials interested in promoting the sale of Alberta coal in Ontario are coming to London with a trial shipment of a car of semi-anthracite from the coal strip fields near Edmonton.  
June 4th will be observed this year in Canada as the birthday of His Majesty King George V. June 3rd this year falls on a Sunday and a proclamation will provide for the following day being observed as a national holiday.  
Joseph Martin, of Chatham, announces the engagement of his youngest daughter, Gertrude, to Andrew Frederick Johnston, son of Mr. and Mrs. David Johnston, of Newwood. The marriage will take place the second week in April.  
One of the most extraordinary instances of organic malformation was revealed at St. Joseph's Hospital, London, Saturday, when during an operation for appendicitis, a Melbourne man was found to have his appendix on the left side instead of the right side.  
We are pleased to note the change in our high school examinations. We have long felt that examinations did not provide sufficient reward for the faithful pupil who knew his work and yet must undergo the same ordeal as the more careless ones. May the time soon come when for our younger boys and girls final examinations with all their terrors will be relegated to the past.  
Battle Hill Farmers' Club are taking the initiative in protesting to the Ontario Minister of Public Works against the proposed widening of that section of the provincial highway running from London to Windsor. They believe that such widening would be an unnecessary expenditure of money when present conditions demand that every possible economy be practiced. A strong protest is also expected to be made by other farmers' clubs and farmers' organizations.  
Dr. McLachlan narrowly escaped serious injury a day or two ago when his horse took fright on the road and turned directly in front of a motor truck. G. W. Sutton, agent for the Ontario Creamery, was the driver of the truck, and although he promptly applied the brakes and did his best to avoid a collision the truck struck the doctor's vehicle fair in the side, fortunately with no worse results than to damage both buggy and truck considerably. Both men had no easy time subduing the horse and prevent its getting away during the mixup.  
Atvinton high school students did themselves credit in their presentation of "Macbeth" at the opera house here on Thursday evening. Impersonation of the various characters

was with few exceptions first-class. Music by the Atvinton H. S. orchestra was exceptionally good and added greatly to the enjoyable nature of the evening. The attendance was not large, and the Trail Rangers, under whose auspices the play was given here, realized but a small sum from the proceeds.  
The ladies of St. John's church are holding an APRON SALE and TALENT TEA in the school room next Saturday, April 7, from 3 to 5 o'clock. Homemade cooking for sale. Refreshments, 15 cents.

Wm. Allaster died at his home in Glencoe on Sunday, April 1st, aged 88 years. The funeral service was held at Chas. Dean's undertaking rooms on Tuesday afternoon, and interment was made at Wardsville cemetery. Mr. Allaster was engaged in business here as a cooper for several years, coming from Newbury. He leaves one son, William, of Montreal; two brothers, Joseph, of London, and Alex., of Windsor, and two sisters, Miss Mary Allaster and Mrs. Murray, of London.

### PERSONAL AND SOCIAL

Wm. McMillan was home from Detroit for Easter.  
Miss McMahon is visiting relatives at Port Colborne.  
Miss Florence Hurley was home from London over Easter.  
Miss Cleo Sutton is home from Windsor for the holidays.  
Miss Margaret Brown is spending the holidays in Detroit.  
Miss Fern Graham, of Clinton, is holidaying at her home here.  
Miss Annie George was home from London over the week-end.  
Miss Eugene Harrington spent Sunday at her home in Bothwell.  
Miss Margaret Eddie is home from Woodstock for the holidays.  
Mrs. (Dr.) Mumford and children are spending this week at Fergus.  
Miss Anna Reyecraft was home from Chatham over the week-end.  
Miss Ruby Gilbert was home from London over Easter week-end.  
Miss Vida Reyecraft, of London, spent Good Friday at her home here.  
Miss Rose Davenport spent Easter with her brother Harry in Detroit.  
Miss Margaret Morrison is visiting friends in Ridgetown and Windsor.  
Murray Standing spent a few days this week at his home in Aylmer.  
Miss Ruby Suttler, of Toronto, is spending the holidays at her home here.  
Miss Ada Reyecraft, of Chatham, is spending the holidays at her home here.  
Mr. and Mrs. C. E. Davidson and two boys spent Easter with relatives in Chatham.  
Mr. and Mrs. Harry Hicks, of Detroit, were Easter visitors here over the week-end.  
Master Malcolm McIntyre, of Strathroy, is visiting his aunt, Mrs. D. D. Graham.  
Miss Maud Weidon spent Easter week-end with Rev. and Mrs. R. F. Irwin, Lucknow.  
Miss Marie Hansen and Miss Lillian King, of Detroit, spent Easter at W. C. King's.  
Morley and Lloyd Farrell have returned to Detroit after spending Easter at home.  
Mr. and Mrs. Russell Stevenson, of Detroit, spent the week-end with his parents here.  
Mrs. Edgar Munson and daughter Ruby are visiting relatives in London this week.  
Mrs. G. H. Singleton and daughter Helen, of Ailsa Craig, are visiting at J. A. McLachlan's.  
Miss Hazel Hastings, of St. Thomas, was a guest of Mr. and Mrs. Peter Moore at Easter.  
Miss K. Steele and Miss M. Gillies are spending the holidays at their homes in Stratford.  
Mrs. Rose Stuart is in Stratroy attending the funeral of her uncle, the late James Ferguson.  
Miss Nellie Farrell left yesterday to attend the funeral of Mrs. Joseph Walton, of Windsor.  
Craig Hyttenrauch, of Windsor, is spending this week with his grandmother, Mrs. W. G. Craig.  
Miss Margaret Scott, of Stratford, is visiting Mr. and Mrs. Alfred Squire, Main street, south.  
Mr. and Mrs. Thos. Hawke, of Brantford, were guests of Mr. and Mrs. W. J. Ford, Easter.  
Miss Evelyn Haylock, of London, spent the week-end at the home of Mr. and Mrs. Joseph Grant.  
Miss Nellie Cumming and Miss Halls, of Elora, visited Mr. and Mrs. Wm. Cumming over the week-end.  
Mr. and Mrs. Dan Trestrain spent a few days in Toronto last week visiting Mr. and Mrs. J. G. Lethbridge.  
Misses Catharine Stuart and Elizabeth McArthur are home from Macdonald Hall, Guelph, for the holidays.  
Miss Jessie McMurphy is home from Detroit to wait on her mother, who took a relapse in her illness on Tuesday.  
Miss Margaret Kerr and Mr. and Mrs. R. McDonald, of Windsor, spent the week-end with their parents, Mr. and Mrs. Wm. Kerr.  
Misses Helen and Christenautherland and Miss Winifred Dundock, of Toronto, spent the week-end at the former's home here.  
Mr. and Mrs. Robert Greenwood and daughter Frances left last week for their home in Dilke, Sask., after visiting Mr. and Mrs. C. O. Smith.  
Glencoe students of London Normal School home for the Easter holidays are Jesse Currie, Catharine Eddie, Elsie Leitch, Jean McEachren, Helen McCutcheon and Francesutherland.  
Mr. and Mrs. Godfrey McMurphy, Archie McCallum, Mrs. O. McKibben, John C. Graham and Dan A. McCallum attended the funeral of their aunt, the late Mrs. Nancy Black, which was held from her late residence, Yale, Mich., on Friday last.

### SPECIAL NOTICES

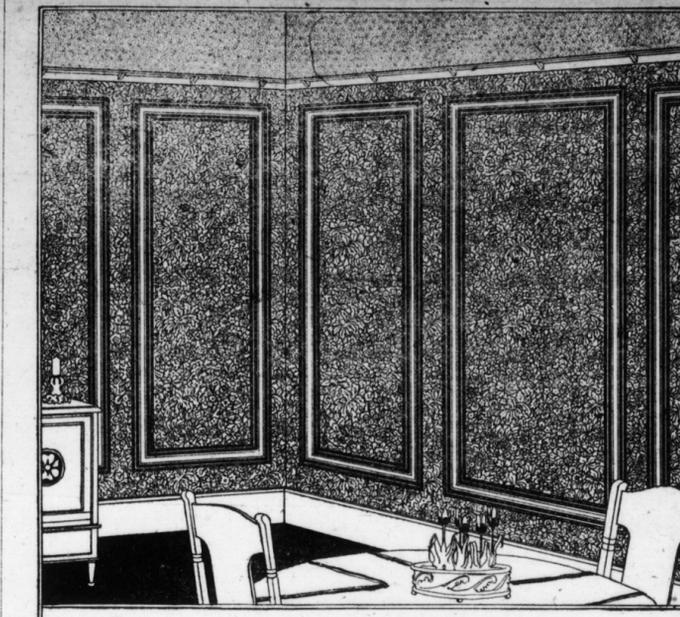

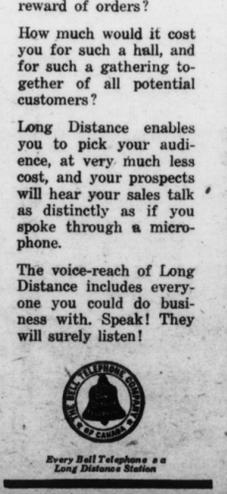

Parasols for sale. Apply at David Squire's; phone 14 r 11.  
Frost Tight-lock farm fences. Get yours at Wright's Hardware.  
Clearing out entire stock of groceries in 30 days.—W. A. Currie.  
Ten good pigs for sale. Apply to David Dobie, Spruce Lodge, Ekfrid.  
Quantity of seed peas for sale.—James McEae, Route 3, Glencoe.  
Parties having ordered feed corn from Bryden Glasgow kindly call at once.  
Wm. Allaster died at his home in Glencoe on Sunday, April 1st, aged 88 years. The funeral service was held at Chas. Dean's undertaking rooms on Tuesday afternoon, and interment was made at Wardsville cemetery. Mr. Allaster was engaged in business here as a cooper for several years, coming from Newbury. He leaves one son, William, of Montreal; two brothers, Joseph, of London, and Alex., of Windsor, and two sisters, Miss Mary Allaster and Mrs. Murray, of London.  
Good butter and eggs taken at market price on sale groceries.—W. A. Currie.  
Frost fence has stood the test. We have all styles in stock.—Wright's Hardware.  
It will pay you to wait for the big Sanford assignment clothing sale at Mayhew's.  
Bargain Rock baby chicks for sale, ready April 11th.—W. J. Carruthers, Route 4, Glencoe.  
Call at Scott's shoe store and get quality shoes and rubbers at a moderate price for cash.  
Going out of the grocery business. Clearing out stock at sale price commences today.—W. A. Currie.  
Frost "Plymouth Rock" brand poultry fence. See this fence at Wright's Hardware.  
Watch for Mayhew's announcement next week of the big Sanford clothing sale, bought at low rate on the \$1. One cultivator, 1 drill, 1 hand packer, 1 rake, 1 mower, binders, etc., for sale. Terms to suit.—D. M. McKellar.  
Upholstering, fine cabinet work, carpenter work, furniture finishing.—J. D. Brown, first door north of Transcript office; phone 63.  
The concert advertised last week to be given in No. 1, Mosa, Tuesday, April 3rd, has been postponed until Tuesday, April 10th. An organ will be auctioned off that night.  
The play by the Springfield young people, "The Corner Store," will be put on under the auspices of the Apple Tuxis Boys at Apple town hall, Wednesday, April 18. Admission, 25 cents.  
The last meeting of the literary society of No. 5, Ekfrid, will be held on Friday evening. A short program is being prepared, after which election of officers for the sports club will take place.  
Worthy of public attention to clothing buyers is J. N. Searrie & Co.'s ad explaining purchase of a big lot of the W. E. Sanford stock at a low rate on dollar; also new floor coverings and drapes.  
Mesa Farm Loan Association will hold a business meeting on Friday, April 6, at 10 a. m., at the McKellar House. Any person requiring loans will please make application to the secretary or at the meeting.—D. N. Munroe, president; Charles Webster, secretary.

### AUCTION SALES

Auction sale of farm stock and implements on south half lot 21, first range of Longwoods Road, Ekfrid, Thursday, April 5th, at 1 o'clock. McDonnell Bros., proprietors; L. L. McTaggart, auctioneer.  
Housewives of the country should declare "sugarless days" until the price of sugar is forced down. Senator Arthur Capper, of Kansas, leader of the Farm Big declares. In the meantime, the Federal Government should vigorously prosecute those responsible for market manipulations, which boosted the price and put an extra expense on the public of \$15,000,000 a month, he said.  
A western girl developed a rich soprano voice by calling cows. On the other hand many of the western girls' fathers has ruined his voice trying to wake up the hired man in the morning.

### Select Your Own Audience

If you could gather into one hall the people you would like to do business with, and could tell them your story through a microphone so they could hear every word distinctly, is there any doubt in your mind that you would reap a rich reward of orders?  
How much would it cost you for such a hall, and for such a gathering together of all potential customers?  
Long Distance enables you to pick your audience, at very much less cost, and your prospects will hear your sales talk as distinctly as if you spoke through a microphone.  
The voice-reach of Long Distance includes everyone you could do business with. Speak! They will surely listen!

**WALL PAPER**  
Solves every decorating problem  
THE patterns we are showing this Spring reveal a wealth of new ideas in Wall Decoration. Particularly is this true of the famous BOXER Papers, of which we have a fine assortment—all 2½ inches wider than the old type of Wall Paper. This means easier hanging; but, more important still, it means that you have a more beautiful room, owing to the fewer seams and the more attractive designs made possible by the increased width.  
Our collection never before reflected so much of taste and richness.  
For your Spring decorating take advantage of the splendid assortment we are showing.

## THE MAGIC BILLIARD BALL

BY EDMUND SMITH MIDDLETON.

In the lull of an August afternoon Shaman Tuloc was within the shaded doorway of his little shop contentedly smoking. From time to time a thin brown hand slowly stroked his long gray beard, while his dark, melancholy eyes looked far away into the distance.

Presently a shadow darkened the doorway, as a well-dressed stranger halted uncertainly and gazed curiously within. The old merchant rose courteously and with a wave of his hand extended a silent invitation to enter. Seeing that the stranger still hesitated, Shaman said in a tone devoid of eagerness, "Would the gentleman care to step in? It is not necessary to buy."

An air of distinction in the old man's bearing, scarcely expected in such surroundings, excited the stranger's interest, and with an appreciative "Thank you, if you don't mind," he entered.

The merchant noted the young man's eyes as they swept over his wares with half-observant gaze, and saw that his face wore the unassuming expression of one who seeks something greatly desired.

"It is not merchandise the gentleman seeks to-day," said Shaman with kindly interest, continuing to search the other's face with his far-seeing orbs.

"Are you a fortune-teller?" asked the stranger eagerly.

"Not in the ordinary sense, my son," answered the aged merchant solemnly, "but much of the wisdom of the East is mine, and I have known the hearts of many men."

"If you help me," burst impulsively from the other's lips, "you may name your own price."

"I am listening, my son," responded Shaman with dignity, apparently unmoved by these glittering promises.

"My name is Philip Arden," began the young man in quick, excited tones, "and I am what people call rich. If my lot had been different, with my own way to make, I should doubtless have become a gambler, as the gam-

ing instinct is strong within me. At times I am consumed with a perfect fever to excel at games involving chance and skill."

"Why do you tell this to me?" demanded the old man.

"You shall see," answered Arden, meeting his glance fairly. "Being wealthy, the gambler's love of gain does not appear to me. Instead, I have devoted myself to games of skill, playing as an amateur with men of my own class. After making a fad of one game after another, I have settled upon billiards, to which I have devoted myself, heart and soul, for two years."

Just then a soft rustle of silk in the back of the shop, a sudden trembling of awning curtains, and a quickly caught breath bespoke a listener in those regions. Shaman Tuloc never turned his head, although he heard Arden was too absorbed in his story to notice. One look at those curtains would have disclosed a pair of peering eyes that shone like midnight.

"Go on," said the merchant, calmly stroking his beard. "There is yet something to tell."

No lover could have been more devoted to his mistress than I to my favorite game. I wooed her early and late, playing my way up through the ranks at the club, until last spring I defeated the strongest men and was hailed club champion. But alas! my joy was short-lived.

"Your hand lost its cunning?" suggested Shaman Tuloc.

"No, not so. A more subtle hand than mine entered the lists," explained Arden with a touch of bitterness in his tone. "While my laurels were yet fresh, a stranger joined the club, a tall, slender man, with sallow skin and coal-black hair, which parted over his narrow, contracted forehead. His black, beady eyes were set close together over a long hooked nose, and his thin lips were shaded by scanty black mustache. They said that those ratty, weasel-like eyes could look into the shining depths of any jewel and rightly prize its worth. Enough for me that he could play billiards like a fiend. His long slender hands controlled the balls like a magician. He defeated me once, twice, thrice—each time worse than before—in a word ignominiously. Let me vanquish him! Help me to defeat him!" cried Arden, moved to the depth of his being, "and I will give you what you like."

Shaman Tuloc smoked a while in silence, then rose from his seat and drew a small casket from a secret recess in the rear of the shop. The box was of fragrant sandalwood, wrapped with cords and sealed in many places. Carefully removing these, he disclosed a small bundle of numerous layers of fine silk, concealing some object within. Very reverently the old man unwrapped the silken folds until there lay uncovered in his palm a small cylinder of ivory of wondrous quality, and without spot or blemish.

"My son, you behold a portion of the tusk of the Sacred Elephant of Siam, the most sacred of the holy herd. He went into the silence at the age of two hundred years and this relic possesses a mighty power. Listen to the words on the scroll. I will interpret." As Shaman Tuloc spoke he lifted from the casket an oriental scroll and reverently held it toward the light.

"To the pure and single of heart," he read in a low voice, "I will grant his wish."

"I will give any price, fulfill any conditions," exclaimed Arden in a choking voice, his whole form trembling.

"Look! What do you see?" the old man suddenly demanded, holding the ivory above his head.

"Only the ivory, nothing more," the young man answered.

"Look again!" cried Shaman Tuloc eagerly. "Look at the centre! What do you see now?"

"I see a delicate pink light shining through the ivory," answered Arden excitedly. "It seems to move and tremble like a rose swaying in the breeze."

"It is the soul of the sacred tusks!" cried Tuloc triumphantly, "the spirit, the life. Therein lies the power."

"What am I to do? Tell me!" demanded the young man.

"Bring from your club the finest hall you have. My hands shall fashion its mate in size and appearance from the sacred tusk. I will intrust the task to no other. In a week's time you shall have a ball endowed with the living spirit of victory."

That same evening Arden brought from the club the desired model and the next day Shaman Tuloc began his self-imposed task. As he wrought his labor of love, patiently, silently, with reverential skill, the slender, graceful form of his only daughter glided often through the parted curtains and hung over her father's shoulder with moist eyes and heaving bosom. More than once a rosy blush suffused her modest cheek as she recalled the young stranger's face and trembling voice. Then she murmured a silent prayer for her father's task and for the young man's victory.

On the eighth day the ball was finished, and to the instructed eye seemed to throb visibly with sentient life, as it lay, white and glistening, in the sandal casket.

"Take it, my son," said Shaman Tuloc, committing the box to him. "Let no other hand than thine use this sacred ball. Let no other interest divide your heart. Then victory will attend."

The report that Arden was to play his conqueror again filled the club house. An indefinable feeling was in the air that this game would possess unusual features—that it was a strife for mastery to an unusual degree.

The two men presented a remarkable contrast as they stood in evening dress at the end of the table ready to

## NURSES

The Toronto Hospital for Incurables, in affiliation with Bellevue and Allied Hospitals, City, offers a three years' course of training to women, having the required education, and desirous of becoming nurses. This Hospital has adopted the eight-hour system. The pupils receive uniforms of the hospital, and are provided with travelling expenses to and from New York. For further information apply to the Superintendent.

begin. One was the picture of cold, nervy cunning and calculation; the other, the best type of a gentleman player, brave, generous, skilled, eager for the fray. It was like night match against the day—the powers of darkness arrayed against the powers of light.

To the surprise of his ferret-eyed opponent, Arden, playing with the sacred ball, won the bank. The balls were sped and the game began. The style of play was fourteen-inch balk line, one shot in. Without effort, by graceful, easy play, Arden rolled off run after run. His ball was absolutely under control and the audience was with him to a man, following his play with frequent applause. But, do what he would, Arden could not shake off his opponent. He answered run with run and invariably finished a point or two in the lead.

Arden, however, lost confidence a moment in his ball or the outcome of the game. As the players approached the goal, the 300 mark, almost abreast, he saw Arden's ball in the lead, the excitement grew intense. With only eight to go, the latter ran six and missed on his 29th shot. A hateful scowl showed on his face, but changed instantly to a triumphant smile, as he saw that Arden, who stood at 295, was left an impossible shot.

Arden's ball lay tight against the cushions in one corner, the red ball in the same position in the far corner on the same side, and his opponent's ball against the cushion along the rail half way between the other two balls.

It, indeed, looks to be an impossible shot, but Arden, with untruffed confidence played a masse whose like has never been seen on that or any other table. His ball, with a beautiful curve, spun to the ball half way down the rail, continued its journey in the lead, and with accurate fashion to the red ball, and counted, of course.

The house fairly thundered its applause. The result of the shot was that the three balls lined up along the centre of the table. A second brilliant masse counted 297, and the remaining three shots were clicked off in rapid succession.

As Arden made the last shot, which meant victory for him, he felt his eyes drawn irresistibly across the table to the tier of seats above. His gaze rested on a pair of eyes shining with a radiance he had never seen before. As he felt himself yielding to their power and started toward them, a strange thing happened. With a sudden

DIAMONDS AND ROSES. Diamonds and houses do not reach the acme of perfection until in the proper setting. We cannot all have diamonds, but there are very few of us but can have the proper setting for our homes. In fact, a house is not a home complete until it has the proper setting. Be it perennial or annual flower gardens, shrubbery or roses, or a combination of all these, it matters not, if only there be the setting.

If it were generally known the ease with which roses could be produced, we would become a nation of rose growers. There are types of hardy roses adaptable to the most rigorous climate, that will give a wealth of beautiful bloom throughout the warm months.

Many are deterred from growing this wonderful flower because of the supposed exacting conditions required. True, roses reach perfection in clay soil, require a sunny spot protected from strong winds, and there are numerous bugs that like them so well they cannot resist eating them. But on the other hand, by using care in the selection of varieties adapted to needs of your particular locality, creating soil conditions and furnishing wind breaks, anyone can grow roses.

Here we grow the hybrid ever-blooming teas and hybrid perpetuals, grown on their own roots, not budded, and are very seldom troubled with disease. Our soil is a light clay loam, just ordinary good garden soil, and we have a succession of bloom from June until killing frosts. Our circular beds of teas are on the north side of the house, far enough away from the buildings to get the morning sun, but shaded from the heat of mid-day.

We built a lattice work fence to the north and west of these beds in the form of the letter L, planting alternately white Spirea and Crimson Rambler climbing roses. The wall of vines and the thick growth of the spirea have been sufficient protection, in spite of the fact that the position is a very exposed one away from the protection of adjoining buildings.

The hybrid perpetuals or bush roses are to the south of the house, in rows without any protection excepting that of the house, yet they thrive, grow and bloom every season. Unfortunately, our front yard is too shady to permit of growing any flowers.

Now to get back to soil conditions. If your soil be heavy clay or light sand, it will produce an abundance of roses if properly handled. If you have heavy clay that hardens and packs during the drier months, in the early spring spade in well rotted manure, the deeper the better, and mix thoroughly. If fine sand devoid of humus, use the same method, with the addition of plenty of fresh cow dung.

When the work is done, cover bed an inch thick with hydrated lime, raking it well into the soil. If soil is in the least dry at planting time, puddle the young plants, that is, add water and soil alternately until the consistency of thick mud, finishing the operation by hilling the young plant with dry dirt. Later, if any of your roses have a tendency to stand still or some are inclined to make poor growth, a tablespoon of bone meal worked in around the plant will give them a new lease of life and promote growth. Repeat this about once a month.

For all chewing and sucking insects, we spray with a solution composed of a heaping tablespoon of arsenate of lead and one-third of a teaspoon of black leaf No. 40, to a quart of water. If mildew appears we sprinkle dry sulphur on the bushes while the dew is in the early morning. If black spot bothers we spray with potassium sulphide, one ounce to three gallons of water. We use an ordinary quart sprayer, the first spray being applied

## New Serial Next Week.

A young Canadian author, whose remarkable facility with the pen promises her a brilliant future in the realm of fiction, is Miss Pearl Foley of Toronto, whose story, "The Gift of the Gods," will begin in our next issue. This tale of exciting adventure and romance opens in China and is told in a delicate and masterly fashion. Watch for the opening chapter next week.

den click the wonderful ball, with which he had played and won, snapped asunder and parted into two pieces. As it fell apart, Arden saw an appearance like a delicate pink flame leave the ball, pass through the air toward the wonderful eyes, then over the head of Shaman Tuloc's beautiful daughter and away.

A minute later Arden was holding her by the hands and gazing at close range into those wondrous orbs. Tuloc hastened to the table and clasped the precious fragments of ivory to his breast.

Later that night, as he stood beside the beautiful Esther in her father's shop, Arden asked, "Why did the ivory ball snap and the pink soul flee away?"

"Because, my son, another love had come into your heart"—and then, as Shaman Tuloc looked on the young people, he raised his hands and said, solemnly, "The God of heaven bless you, my children!"

(The End.)

## Bovril Limited Reports Good Business in 1922

The report submitted at the 26th Annual General Meeting of the Shareholders of Bovril Limited, in London, England, last month, was most satisfactory.

A net profit was shown of £305,709—out of which after payment of regular dividends on preferred stocks a dividend of 9% on the Deferred Shares—free of Income Tax—was voted.

Sir George Lawson, Johnston is Chairman, The Earl of Erroll, Vice-Chairman, and Mr. Douglas Walker, Managing Director. Sir Courtswalthe Rason, a former premier of Western Australia, has recently accepted the position of Secretary.

Bovril exports in 1922 exceeded those of 1921 by 22%, and 1923 shows every indication of still further growth.

The increasing amount devoted to various forms of advertising was one of the noteworthy features of the statement—and one to which perhaps much of the increased success of operations was due.

as soon as the leaves are out in full repeating as soon as the rain or dew has washed off the lead and nicotine. With the varieties we have named, you will have little trouble with mildew or black spot.

ESCALOPED MEAT.  
Three-fourths cup rice, one and half cup tomato juice, 1 cup bread crumbs, 3 tablespoons fat, 3 tablespoons flour, 1½ cup meat chopped or ground, salt and pepper. Cook rice until tender in plenty of boiling salted water. Prepare tomato sauce of the tomato juice, flour, fat, salt and pepper in the same manner as white sauce. (The stock could be used in place of the tomato.) Fill a baking dish with alternate layers of rice (or macaroni) and chopped or ground meat. Four tomato sauce (or gravy) over each layer. Cover with buttered crumbs and bake until crumbs are brown.

## GROWING CORN IN WESTERN CANADA

IMPORTANT PLACE IN OUR AGRICULTURE.

Essex County Corn Show Biggest Event of Its Kind on American Continent.

Not such a very long time has elapsed since it was generally pronounced that Canada would never become a successful wheat producer, and the Dominion responded by growing a variety which every year outdistanced any other produced elsewhere and, on account of its peculiar desirability, came into universal demand for milling purposes. She has grown this in ever-increasing volume until in 1922 a tenth was reached, with a production of 398,000,000 bushels. The same was said, and generally accepted, in respect to corn, and the corn belt was generally conceded to terminate long before the international boundary was reached. Yet corn is grown in Canada every year now in great quantities, 13,798,000 bushels for husking being produced in 1922, 14,904,000 bushels in 1921, the average for the past five years being 13,629,440 bushels per annum.

Whitist corn has been raised in the Eastern Canadian provinces for years it is only recently that this has come to be an important crop to the Western farmer, and each year the corn acreage of the Prairie Provinces shows a substantial increase. The high quality of the product of the Western provinces was attested when a grower from Kelwood, Manitoba, exhibited at the Texas State Fair and carried off the championship honors, winning out against the premier exhibits of the first corn-growing states of the Union.

The Corn Belt Moving North.

The important place corn has come to occupy in Canadian agriculture was evidenced at the beginning of the present year when a corn show held in Essex County, Ontario, turned out to be what is believed to be the biggest event of its kind on the American continent in point of attendance and exhibits. The attendance for the four days the exhibition was open was twelve thousand and there were more than three hundred exhibitors and more than fifteen hundred exhibits. There were more than six hundred prizes, amounting to nearly \$2,000 in cash. The quality of the corn exhibited was excellent and the more than one thousand bushels displayed exceeded in quantity the International Show at Chicago.

The honor of staging the continent's biggest corn show is a novel distinction for Canada and a noteworthy achievement which a few years ago would hardly have been conceived possible. American visitors were particularly impressed to discover that the limits of the corn belt had been extended so far north. The event marks a new step in Canadian agricultural history and indicates still another possibility of Canadian agriculture.

A Western Show.

Recently, at Prince Albert, in Saskatchewan, was held the first corn show in the history of the province, which again disproved the old-time idea that the northern limits of the corn belt ceased at the international boundary. The Judge, Professor Champion, of Saskatchewan Agricultural College, who comes from the heart of the corn belt in the United States and has done much to popularize corn-growing among the farmers of Western Canada, said, "I once thought that North Dakota was the northern limit of the corn belt. This show has proved that excellent corn can be grown several hundred miles further north than was believed possible twenty years ago. The Yellow Dent that captured the sweepstakes is the equal of any corn of its kind I have seen."

"The Good Ship John."

Which name figures most often in the shipping lists? The name John wins hands down, there being no fewer than 115 ships afloat either called John or the names of which begin with John.

But you will have to search a long, long while before you come across a Johnny. In fact, there is only one.

Shipping companies frequently favor a particular style of name, or else a particular ending. The White Star, for instance, always chose names ending with "ic"—the Celtic, the Majestic, etc. The Cunard Company is equally faithful to the termination "ia," and give us the Mauretania, the Lusitania, Carmania, and so on.

Among the quaintest names to be found are the following: "Try Again, Jolly Dog, Happy-go-Lucky, and—oddest of all—the Go and Ask Her."

"Why Not, is another. Why? Well, why not?"

Not Well Learned.

Willie Macgregor returned home after his first day at school.

His father asked the young scholar what he had learned.

"I learned to say 'Yes, ma'am' and 'No, sir' to me mother and father," replied the boy.

"Did you, indeed?" said his father.

"Aye!" responded Willie.

The best of all companions is a good conscience.

**SMART'S LAWN MOWERS**  
CANADA'S BEST!

It isn't possible to build a better lawn mower than SMART'S. Smart's Mowers have proved their superiority wherever grass is grown.

Easy running, heavy cutting and durable guaranteed. See your nearest dealer. JAMES SMART PLANT BRIDGEVILLE ONT.

Now to get back to soil conditions. If your soil be heavy clay or light sand, it will produce an abundance of roses if properly handled. If you have heavy clay that hardens and packs during the drier months, in the early spring spade in well rotted manure, the deeper the better, and mix thoroughly. If fine sand devoid of humus, use the same method, with the addition of plenty of fresh cow dung.

"A Financial Courtship"

A LITTLE booklet which tells in an interesting way, so simple in its language that a schoolgirl could understand it, all about investments of all kinds, bonds, mortgages and stocks.

Even to experienced investors this little story, woven into a charming romance, contains many valuable pointers on investments.

The booklet will be mailed free to any one on request.

Before you invest, consult us.

## BRITISH EXCHEQUER SHOWS SURPLUS OF HUNDRED THOUSAND POUNDS

Reduction of Expenditures Under Heads of Civil Services and Defence, Together with Big Revenues from Income Tax, Excess Profits Duty and War Stores Sales Result in Balance on Right Side of Ledger.

London, April 1.—The extreme difficulty experienced by Chancellors of the Exchequer, after the war, in estimating correctly the nation's accounts for the financial year ended March 31. Instead of a surplus between six and seven million pounds sterling, as estimated by the former Chancellor, Sir Robert S. Horne, the surplus actually exceeds £101,000,000.

This big surplus is mainly due to unexpectedly large reductions in expenditures, the chief saving being under the head of civil service, which cost approximately £287,000,000, as compared with estimates of £450,000,000, and defence services of £111,000,000, as compared with an estimated £190,000,000.

On the revenue side, although the income tax was reduced, it produced £50,000,000 more than was estimated,

while the excess profits duty and sale of war stores together produced £64,000,000 less than estimated.

The question uppermost in the nation's mind at the present moment is whether the budget statement Chancellor Baldwin will submit a week hence will afford any further relief from taxation. The Chancellor is being bombarded with demands for such reductions, and there is general expectation of a reduction of sixpence or a shilling on the income tax, with relief in the beer and sugar duties.

The present year has not been remarkable for expansion of trade, but the fact that the reduced income tax has yielded so much beyond expectations will be seized upon by those who argue that the only thing required to stimulate trade and industry is relief from heavy taxation.

## BIG ADVANCE IN CUSTOMS REVENUE

Excise Taxes Also Show Marked Increase During Fiscal Year Just Ended.

Ottawa, April 1.—Revenue received from customs and excise during the fiscal year 1922-23, which ended on Saturday, amounted to \$274,655,739, an increase of \$44,855,465 over the previous fiscal year, for which the total revenue was \$229,800,274. Excise tax collections showed there was also a marked increase in the revenue derived from customs import duties. The total amount received in customs import duties during 1922-23 was \$181,828,042, as compared with \$119,553,435, or an increase for the twelve months of \$12,274,606. Excise taxes yielded \$105,649,889 in the year just ended, or \$33,020,547 more than in the previous year, when the amount received was \$72,629,342.

The amount collected in excise duties during the fiscal year just closed was \$36,023,439. Sundry collections yielded \$1,155,367 in 1922-23, or an increase of \$118,323 over 1921-22, when the total revenue from this source was \$1,037,043.

The month of March, the last of the fiscal year, showed increases in import duties, excise taxes and sundry collections. Customs import duties collected during the month totalled \$12,524,852, as compared with \$11,856,616 in March, 1922. The amount realized from excise taxes last month was \$9,093,657, as against \$5,217,780 in the same month a year ago. Excise duties yielded \$2,333,216, a decrease from March, 1922, when revenue from this source was \$2,908,440. Sundry collections amounted to \$91,374 last month, as compared with \$88,920 in March, 1922.

"Worry," says a recent book on nerves, "is a complete circle of inefficient thought whirling round a pivot of fear."

Lord Robert Cecil. He is soon to pay a visit to Canada and the United States. During his visit to Toronto he is to receive a degree at a special convocation of the University of Toronto, when other distinguished men will also be honored, among them, Sir Henry Newbolt and Sir Robert Baden-Powell. Lord Robert is British representative in the League of Nations.

## NEWFOUNDLAND IN GRIP OF BLIZZARD

Toll of Death in Thursday's Storm Now Six—Schooner Sinks.

St. John's, Nfld., April 1.—The schooner Gordon Hollett sank off Cape Race within an hour after the crew had been removed to the steamer Sable, the latter vessel reported on her arrival here to-day with mail from Louisbourg, C. B. The Gordon Hollett was 65 days out of Cadiz for St. John's, salt-laden, when she foundered.

The schooner was damaged by ice while trying to work her way through the floes to this port, and on sighting the Sable, hoisted distress signals. Captain Thrown, of the Gordon Hollett, reported his schooner's condition to the Sable and the crew was transferred without suffering discomfort. No other steamer was expected in that vicinity for many days.

Reports from outlying districts of Newfoundland brought the total deaths from Thursday's blizzard to six. In addition to three men previously reported frozen to death at Three Harbors, the loss of three became known to-day.

John Tobin of Trepassay walked into a hole in the ice on Trepassay Harbo, near Cape Race and was drowned. Jacob Stoodley and Thomas Green, of Fortune Bay, disappeared while on their way to English Cove.

Service on the Newfoundland railway suspended owing to the blizzard, has not been resumed as yet. Off the coast the storm is still raging. Many vessels remain frozen in the ice-fields and the sealing fleet reported by radio yesterday that it was unable to move owing to the ice pack.

Nero spent an equivalent of about \$200,000 for roses for one festival.

THE PRINCE IN ACTION

Prince Edward of Wales, recently dubbed "The White Prince" by the United States Ambassador to England, photographed just as he made a jump in a recent race in which he finished third. The Prince is devoted to riding and hunting and is never happier than when on a horse.

## COAST GUARD BOAT EFFECTS THRILLING RESCUE ON STORMY LAKE ERIE

A despatch from Cleveland, O., says:—Successfully battling the waves of Lake Erie, United States coastguards early on Wednesday night brought to shore Harry Holworth, who, for 24 hours, lay a victim of pneumonia on the waterwork crib, of which he was the keeper, five miles out. It was one of the most thrilling rescues recorded in the annals of the Great Lakes history.

The coastguard power boat, with a crew of eight men and a captain, set out for the crib late on Wednesday in the teeth of a high wind, after several previous attempts had failed. An hour later, the boat itself became the object of a rescue.

As the power boat reached the crib, John Hugo and Thomas B. Keller, Holworth's assistants, tied a rope around the sick man. Then as the boat manoeuvred in close, Holworth was lowered 20 feet to the ice-coated cabin roof as the vessel passed.

He was grabbed by two of the crew, who several times almost slipped into the water. Holworth was finally placed inside the cabin, where Dr. Harry L. Baird worked over him as the boat buffeted the waves on her landward trip.

Half way back to the coastguard station, the power boat's engine went dead. The crew of the Frank W., which had been held in readiness by the Great Lakes Towing Company, steamed out into the lake and towed the boat to shore.

An ambulance, held in readiness, rushed Holworth to a hospital. His condition is extremely serious, Dr. Baird declared.

First word that Holworth was ill was picked up by an amateur radio operator early on Wednesday. He in turn notified the coastguard, but because of the heavy seas and high wind, the life-saving crew was unable to approach the crib during the day.

## Victoria Cross Winner is Heir to \$75,000

Prince Albert, April 1.—After a year's search by private detectives, Dr. R. C. Gilmour, V.C., has been located on a farm at Canwood, between Prince Albert and Big River.

The object of the officers' search was to acquire him with the fact that he had been left a fortune of \$75,000 by his grandmother, Lady Jean Gilmour of Newton Mearns, Glasgow, Scotland.

Dr. Gilmour was attached to the Gordon Highlanders during the war, and received his V.C. for carrying his wounded Colonel off the field in face of heavy fire during the retreat from Mons on October 21, 1914.

## Plan to Receive Canadian Cattle Officially

Glasgow, April 1.—Glasgow corporation is extending to the first shipment of Canadian store cattle received since the lifting of the embargo an official reception. Invitations to attend the landing have been sent broadcast by the markets committee.

The committee is hoping that the shipment which is now nearing Glasgow will be the first to arrive in Great Britain.

## Thirty Prisoners Escape from Limerick Jail

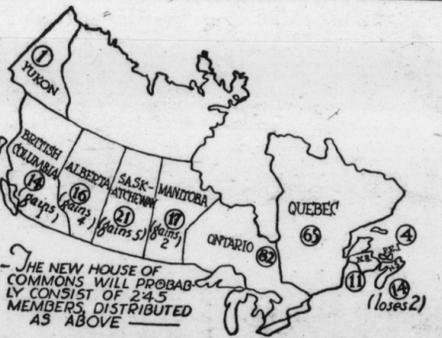

Dublin, April 1.—Thirty prisoners escaped from Limerick Jail Saturday by means of a tunnel. Two of them were recaptured.

Miss Mary MacSwiney was arrested again on Thursday, but was released yesterday.

## Queenston Dockyard Handed Over to Free State

Queenstown, Ireland, April 1.—The well-known Saul Bowline dockyard here was handed over to the Free State authorities Saturday. As the Irish tri-color was hoisted to the signal tower, national troops present arms. Two hundred troops will be quartered at the dockyard.

Canada exported meats and allied products to the value of \$30,752,000 last year, and imported to the value of \$10,265,000, leaving a favorable balance of \$20,487,000, according to a statement issued by the Dominion Bureau of Statistics. It is expected that shipments to the United Kingdom in 1923 will show a substantial increase over those of 1922, in view of the lifting of the embargo on Canadian cattle by the British Government.

## SEVEN KILLED, 15 INJURED IN WRECK

Big Four Pullman Struck Automobile at Columbus Grade Crossing.

A despatch from Columbus says:—Seven persons are known to have been killed, and fifteen injured, some seriously, when a fast Big Four pullman train, enroute from Boston to Cincinnati, struck an automobile at a grade crossing at the North city limits Friday morning.

The engine left the tracks and turned over in the ditch, four pullman sleepers piling on top of it. All of the cars in the train, with the exception of a dining car left the track.

The train, due in Columbus, at 7.50 o'clock, was more than an hour late and was running at an estimated speed of 65 or 70 miles an hour.

The known dead are two firemen and the occupants of the demolished automobile, Mrs. Frank F. Hemminger of Columbus, and her two children.

## Kingston Lad Killed in Grist Mill Machinery

Kingston, Ont., March 30.—Frank Babcock, aged nineteen, employed in the grist mill of Robert Kickey, Millhaven, shortly after eleven o'clock yesterday morning was caught in the shafting and terribly injured. He died at three o'clock this afternoon.

## Murderer to Hang on June 23 at Fort Saskatchewan

Stettler, Alta., March 30.—Fred Kolin was found guilty by a jury last night of the murder of John Kaslanko and was sentenced by Mr. Justice Simmons to hang at Fort Saskatchewan on June 23 next. The deliberations of the jury lasted for five hours. The accused took the sentence stoically and showed no emotion.

Senator Dunouan

One of the speakers in the debate in the Senate upon the important subject of the Hoppe claims in the far west. They are supposed to contain anthracite and other varieties of coal in unlimited quantities. They were discovered and owned before the war by a German who claimed to be an American citizen. The Government cancelled his claims and there has been much litigation and legislation concerning the lands since.

## Turkey Preparing to Ratify Peace Treaty

London, April 1.—A despatch to The Times from Constantinople says the National Assembly at Angora today unexpectedly, on a proposal made in behalf of 200 Kemalist deputies, voted by a large majority in favor of immediate elections so that the new assembly would be ready to ratify a peace treaty in one session. The despatch adds that Ismet Pasha expressed his approval of the plan.

France lost 10 per cent. of its population in the war.

## Weekly Market Report

TORONTO.

Manitoba wheat—No. 1 Northern, \$1.24 1/2.

Manitoba oats—Nominal.

Manitoba barley—Nominal.

All the above track, Bay ports.

Am. corn—No. 3 yellow, 91 1/2c; No. 2, 89 1/2c.

Barley—Malting, 69 to 61c, according to freights outside.

Buckwheat—No. 2, 75 to 77c.

Rye—No. 2, 77 to 79c.

Peas—No. 2, \$1.45 to \$1.50.

Milfeed—Del., Montreal freights, bags included: Bran, per ton, \$25; shorts, per ton, \$28; middlings, \$28.50; good feed flour, \$2.

Ontario wheat—No. 2 white, \$1.14 to \$1.16, according to freights outside.

Ontario No. 2 white oats—49 to 51c.

Ontario corn—Nominal.

Ontario flour—Ninety per cent. pat., in jute bags, Montreal, prompt shipment, \$5.10 to \$5.20; Toronto basis, \$5.15 to \$5.16; sealboard, \$4.95 to \$5.

Manitoba flour—1st pat., in cotton sacks, \$7.10 per bbl.; 2nd pat., \$6.60.

Hay—Extra No. 2, per ton, track, Toronto, \$14; No. 1, \$15; clover, \$8.

Straw—Car lots, per ton, track, Toronto, \$9.

Cheese—New large, 29c; twins, 29 1/2c; triplets, 31c; Stiltons, 32c. Old, large, \$1 to 32c; twins, 33 to 34c; Stiltons, 35c.

Butter—Finest creamery prints, 53 to 55c; ordinary creamery prints, 50 to 52c; dairy, 37 to 37c; cooking, 24c.

Eggs—New laid, loose, 32 to 33c; new laid, in cartons, 36 to 37c.

Live Poultry—Chickens, milk-fed, over 5 lbs., 25c; do, 4 to 5 lbs., 25c; do, over 5 lbs., 24c; do, 4 to 5 lbs., 21 to 24c; do, 2 to 4 lbs., 18 to 21c; hens, over 5 lbs., 31c; do, 4 to 5 lbs., 29c; do, 2 to 4 lbs., 26c; roosters, 23c; ducklings, over 5 lbs., 33c; do, 4 to 5 lbs., 28c; turkeys, young, 10 lbs. and up, 31c; geese, 18c.

Dressed poultry—Chickens, milk-fed, over 5 lbs., 35c; do, 4 to 5 lbs., 33c; do, over 5 lbs., 25c; do, 4 to 5 lbs., 25c; do, 2 to 4 lbs., 25c; hens, over 5 lbs., 30c; do, 4 to 5 lbs., 30c; do, 3 to 4 lbs., 25c; roosters, 25c; ducklings, over 5 lbs., 35c; do, 4 to 5 lbs., 33c; turkeys, young, 10 lbs. and up, 43c; geese, 25c.

Oleomargarine, lb., 21 to 27c.

Beans—Can., hand-picked, lb., 7c; primes, 6 1/2c.

Maple products—Syrup, per imp. gal., \$2.50; per 5-gal. tin, \$2.40 per gal. Maple sugar, lb., 28 to 26c.

Honey—60-lb. tins, 11 1/4 to 12c per lb.; 5-lb. and 2 1/2-lb. tins, 12 1/4 to 13 1/4c per lb.; Ontario comb honey, per doz., \$3.75 to \$4.50.

Potatoes, Ontarios—No. 1, 85c to \$1; No. 2, 75 to 85c.

Smoked meats—Hams, med., 26 to 29c; cooked hams, 36 to 42c; smoked

rolls, 26 to 28c; cottage rolls, 32 to 35c; breakfast bacon, 30 to 33c; special brand breakfast bacon, 35 to 38c; backs, boneless, 34 to 40c.

Cured meats—Long clear bacon, 50 to 70 lbs., \$18.50; 7 to 90 lbs., \$18; 90 lbs. and up, \$17; lightweight rolls, in barrels, \$38; heavyweight rolls, \$35.

Lard—Pure tines, 16 to 16 1/2c; tubs, 16 1/2 to 17c; prints, 17 to 17 1/2c.

Shortening, tines, 14 1/2 to 15 1/2c; tubs, 15 1/2 to 15 3/4c; prints, 15 1/2 to 16 1/2c; prints, 17 1/2 to 18 1/2c.

Heavy steers, choice, \$7.50 to \$8; butcher steers, choice, \$7 to \$7.50; do, good, \$6.25 to \$6.75; do, med., \$5.25 to \$6; butcher heifers, choice, \$6.75 to \$7.25; do, med., \$6 to \$6.50; do, com., \$4.50 to \$5; butcher cows, choice, \$4 to \$5; do, med., \$3 to \$4; canners and cutters, \$1.50 to \$2; butcher bulls, good, \$4 to \$5; do, com., \$3 to \$4; feeding steers, good, \$5.75 to \$6.25; do, fair, \$5.50 to \$6; stockers, good, \$5 to \$5.50; do, fair, \$4 to \$5; calves, choice, \$10 to \$12.50; do, med., \$8 to \$10; do, com., \$4 to \$5; milch cows, choice, \$70 to \$90; springers, choice, \$80 to \$100; lambs, choice, \$14 to \$15.50; do, spring, each, \$8.50 to \$12.50; sheep, choice, \$9 to \$9.50; do, culls, \$4 to \$8; hogs, fed and watered, \$10.75; do, f.o.b., \$10; do, country points, \$9.75.

## Faces.

"There's no art to find the mind's construction in the face," says Shakespeare, through the mind and tongue of King Duncan in "Macbeth." The King was disillusioned and saddened because he had repudiated a trust and his confidence was betrayed. But the sweeping generalization, like other affirmations of the sort, is often found to be untrue. If a man is habitually decent, compassionate, honorable, truthful and faithful, the thoughts that live in his mind and vent themselves in the acts of his hand come to read. If he consent to evil, if he to read. If he consent to evil, if the trend of his mind is away from light to darkness, if things that are mean and base and gross are the things that especially please him, the tell-tale evidence sooner or later must legibly appear in his countenance.

One sees in a photographer's show-window the pictures of human beings who have called on every artifice of dress to make them beautiful, and have called in vain. Whistler painted a "portrait of a woman" and painted nothing but the dress. When she asked indignantly why he omitted the face, he answered calmly that he saw nothing but the dress. Thus it is with certain of these photographs. There are the bridal bouquet, the veil, the train, the superb adornments and all the accessories of art—but where is the personality? The face is the stereotyped commonplace.

Faithfully faultless, icily regular, splendidly null.

Where is the character? Where is the individual submerged in the trappings? What has the consummate "pink of perfection" been doing with herself these years on earth except to deck herself for the marriage mart? What does she know? What can she do? Who is she?

Those who have nothing behind the ornamental facade make that front as imposing and as decorative as possible. They display a specious exterior because it is all they have to place on view.

The crowd passes, and if an observer is sentient to the faces, there is an outline of social history in a walk one block long. Some of the faces are so inane, so vacuous, they come very close to expressing nothing at all. How fearfully dull it must be to dwell with those who wear them! Yet those who are their consorts presumably are no better than they. It is a wise provision of Nature. Walter Bagehot reminds us that "the ordinary woman is ordinarily satisfied with the ordinary man." But all the faces are non void of the nobler emotions, and unillumined and depressing. Here is an old woman who carries in her aspect, though she knows it not, a shining lamp of piety and charity and boundless goodness. Irreverent youth may not know the meaning of her life, as her eyes and smile are telling it. But it is not lost on the Power she serves and rears. Here is a man, old and plain, tired and poor, wearing no sign whatever of any personal distinction. Yet he, too, has counted in his place of service, has finished the work he was given to do, has been faithful in a few things. Poor or rich, old or young, it is not a few bright exceptions, here or there, that are living up to their consciences and their ideals. Most of them are doing the best they can with what they have and—if read aright—their faces tell of it.

## Heligoland Island Now Devoted to Child Welfare

A despatch from Hamburg says:—Heligoland has become a children's health resort. The historically famous little island, key to the German Empire's coastal defence system, henceforward will be devoted to the recuperative need of Germany's ailing little ones. Where once mighty fortifications frowned upon the British fleet across the North Sea, playgrounds are being laid out; and the buildings in which were quartered the crews of great guns are being converted into nurseries. Medical authorities describe Heligoland as ideally adapted to the treatment of children, owing to the warm sunshine and sheltered open spaces to be found there.

## Prince's Love for Steeple-chasing Causes Anxiety

A despatch from London says:—The Prince of Wales' love for steeple-chasing is beginning to cause public anxiety, owing to the frequency with which he meets mishap. The Prince himself, however, makes light of his risks.

The Hair Apparent had another mishap on Wednesday, when, participating with Prince George in the Melton steeplechases and riding in the Ladies' Plate, his mount, "Little Christy," was brought down by the backing of another horse at the seventh fence. After making six unsuccessful attempts to get his mount over the Prince gave up.

The Prince also, for the first time, competed against professional jockeys in an open race and came in fourth, after a narrow escape from being unseated.

Both Saskatchewan and Manitoba have now endorsed the system of cream grading as followed in Alberta through their dairymen's conventions and it is likely that legislation will be introduced in the two provinces to enforce the system. Cream buying stations were abolished in both provinces two years ago.

Would Curb Handbook Traffic. Sir Lomer Gouin, who has introduced a bill into the Dominion House to prevent the publishing or display of racing information.

MAYHEW'S SPECIAL EASTER NEWS OFFERS MANY BIG BARGAINS

WOMEN'S NEW EASTER SUITS Now is the time to choose your Spring Suit, and on Saturday we are making a special offering of these smart All-wool Tropicine Suits in the season's latest styles, at \$25.00. Other specials at \$29.50 and \$32.00.

POLO AND VELOUR SPRING COATS Be here and get one of these smart Coats, with belted or loose backs, novelty stitching and buttons, in shades of reindeer, sand, taupe and heather mixtures—\$11.95, \$13.75, \$15.00 and \$17.75.

GLOVES TO WEAR WITH YOUR SPRING SUIT Perrin's Gauntlet Suede Gloves, with embroidery cuffs, in all the new shades, price per pair \$1.75 and \$2.50.

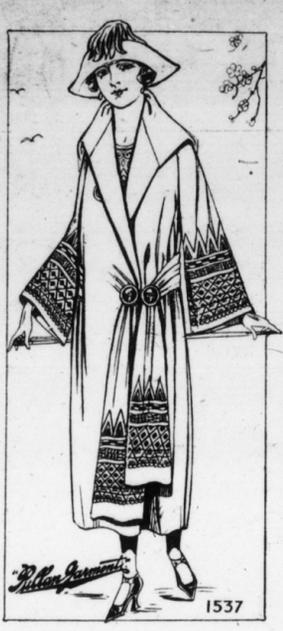

A BIG SPECIAL PURCHASE OF WOMEN'S NEW STYLE SHOES FOR EASTER AND SPRING WEAR—\$2.95 Most remarkable are the values offered in this special purchase. Patent One- and Two-strap Slippers, Brown Slippers and Oxfords, Colonial Pumps, etc. Every pair worth a lot more money.

ME! The selection of your HAT or CAP for spring is a matter that should receive your early attention. If you are buying or just looking, we will be glad to have you inspect our new spring WALL PAPERS, CONGOLEUM RUGS, LINOLEUMS, CURTAINS and DRAPERIES, etc.

E. A. MAYHEW & CO.

day evening. Deceased was well known and liked for his kindly, genial manner and during his residence here always had a smile and happy word for young and old.

WALKERS We are glad to know that Clayton and Lorne Osier are recovering from a severe illness.

At a week ago some party or parties unknown broke into the warehouse and damaged goods to the value of \$150 consigned to Kiern Bros. Detective Henry Catlow, of the M.C.R., is investigating and despite the recent dip in the weather it looks as if the guilty party is in for a fairly hot time if found out.

Misses Gwen Goff and Mary Quick, of Glencoe, were week-end guests of Miss Verna McCallum.

Miss Flo McCallum, of Petrolia, spent Easter at her home here.

At Young People's service on Sunday evening Miss Foster, of Kerwood, and Miss Jean Munro, of Walkers, favored the audience with solos which were much enjoyed.

At the sale of the late Wilfrid Walker's effects last Wednesday fair prices were realized. Horses sold from \$110 to \$150 and cattle from \$30 to \$70.

The play and box social held on Monday evening was largely attended, boxes selling from \$1 to \$2. Total proceeds, \$40.

Spring is here and so is agony to some of the husbands when they have to go with their wives on a hat-hunting expedition into the depths of the millinery parlors.

Miss Leah Armstrong, of Windsor, is visiting her aunt, Mrs. Dan McNaughton, of Glencoe.

Leonard Hillman, of Detroit, is spending the Easter holidays at his home here.

Wm. McLean, of Inwood, visited his mother last week, she having been sick for some time.

Miss Annie McIntyre is spending the Easter vacation with her parents, Mr. and Mrs. Jim McIntyre.

Death has once more visited our neighborhood and claimed Thomas H. Durley, who had been ill for several weeks from a stroke.

The scholars of No. 10 school presented Grace Nicholls with a gold signet ring last Thursday afternoon. She is leaving here to reside in Windsor.

Woodgreen dramatic club brought their play to No. 10 school house on Thursday evening of last week.

We are pleased to hear that Mrs. Wm. Down is much better.

Ross Pettit's hand is slowly improving.

Friends and neighbors of Mr. and Mrs. Will Nicholls met at their home Friday evening and presented Wm. Nicholls, sr., with a club bag and Mr. and Mrs. Will Nicholls with a china tea set as a token of esteem.

Arthur Hardy, of Windsor, spent Easter with his mother, Mrs. S. Hardy.

Russell Clamahan is home for the Easter holidays.

Mrs. T. Simpson and daughter Florence are spending the Easter holidays at Windsor.

Miss Connie Pearson, of Glencoe, spent the week-end with Miss Alice Harvey.

George and Frederick Ostrik, of Flat Rock, Mich., spent the holidays with their grandparents, Mr. and Mrs. Chas. Grover.

Miss Alice Harvey has returned home after spending a week in London.

Mrs. A. Daum is visiting at her home in Sebringville.

Miss Edith Harvey is spending a few days in St. Thomas.

Mr. and Mrs. Lawrence Harvey and family, of St. Thomas, spent Sunday with Mr. and Mrs. Harry Harvey.

Holiday visitors here were: Will Moore, of Windsor, at Mrs. Joseph Moore's; Margaret Little, of Toronto, at John Little's; Elizabeth McAlpine, of Bothwell, J. D. McAlpine, of London, and Robert McAlpine, of Detroit, at D. R. McAlpine's; Malcolm Munroe, of Ford City, at A. L. Munroe's; Elsie Leitch, of London, at Alex. M. Leitch's.

An enjoyable time was spent on Thursday evening of last week, when the Kilmartin dramatic club entertained the young people of the section in the school house.

Marshmallows were roasted over a bonfire in the yard, and then all went into the school house where the evening was spent in music and games.

At the close lunch was served.

Miss Susie Gardner, of Pratt's Sliding, spent the week-end with Miss Sarah McLachlan.

The literary society of Burns church, which was to have met on Tuesday evening, owing to bad weather was postponed until Friday, April 6th.

STRATHBURN

Frank Treastin, son of James H. Treastin, who arrived home last Saturday, left for Detroit this week.

L. D. Siddall left for Detroit this week to work at Ford's.

We are sorry to hear that George Smith is ill.

Duncan K. McRae had the misfortune to lose one of his fancy drivers, the horse getting its leg broken.

John Cyster, mail carrier, is able to be around again, after a serious operation.

Miss Minnie Willey was taken to the hospital for a surgical operation and is getting along as well as can be expected.

APPIN

A. B. McDonald, of Glencoe, gave a very interesting and instructive talk on the subject "Christian Influence" at the Young People's meeting in the Presbyterian church here last Sunday evening.

Misses Allan and McGill sang a pleasing duet and Rev. Mr. Stevenson gave his experience along the lines of the topic. These meetings have been very much enjoyed by all who attended.

The next regular meeting is Sunday, April 8th, at 8 p. m. All welcome.

We are pleased to learn that Earl Edwards is improving after his recent operation.

Rev. Mr. Stevenson was in Melbourne last Sunday, preaching the Presbyterian pulpit there vacant.

Rev. Mr. Ayo, of London, occupied the pulpit here and at North Ekfrid.

Mr. and Mrs. Charles Tilden, of Lambeth, spent a few days of their honeymoon in Appin and vicinity on their way home from Windsor and Detroit.

Miss Margaret Macfie, teacher, of Alma College, St. Thomas, is spending the holidays at her home here.

MELBOURNE

Melbourne, April 2.—Mrs. (Dr.) Woods has returned to her home in Chelsea, Mich., accompanied by her cousin, Miss Mary Galbraith, of Appin, after spending a few weeks with her sister, Mrs. Arch. Stevenson.

Ernest Stevenson and Harold Parr, of Victoria College, and Frank Brown, of McMaster University, Toronto, are here for their vacation.

Miss Mildred Richards, of London Normal, and Miss Muriel Richards, of Oil City, are home for the Easter vacation.

Miss Dorothy Campbell, who has been in a Chicago hospital since October, is now in London, the guest of Mrs. C. Norsworthy. It is expected that she will have fully recovered in one year's time.

A. P. McDougall is able to be out again after a two weeks' illness. Mr. and Mrs. Sandy McDougall are still confined to the house with an attack of grippe.

Mrs. J. D. Campbell is slowly improving after a serious illness.

Mrs. M. R. Brown and son Harry have returned from a visit with Tillsonburg friends.

NORTH EKFRID

The scholars of No. 10 school presented Grace Nicholls with a gold signet ring last Thursday afternoon. She is leaving here to reside in Windsor.

Woodgreen dramatic club brought their play to No. 10 school house on Thursday evening of last week.

We are pleased to hear that Mrs. Wm. Down is much better.

Ross Pettit's hand is slowly improving.

Friends and neighbors of Mr. and Mrs. Will Nicholls met at their home Friday evening and presented Wm. Nicholls, sr., with a club bag and Mr. and Mrs. Will Nicholls with a china tea set as a token of esteem.

Arthur Hardy, of Windsor, spent Easter with his mother, Mrs. S. Hardy.

WOODGREEN

Russell Clamahan is home for the Easter holidays.

Mrs. T. Simpson and daughter Florence are spending the Easter holidays at Windsor.

Miss Connie Pearson, of Glencoe, spent the week-end with Miss Alice Harvey.

George and Frederick Ostrik, of Flat Rock, Mich., spent the holidays with their grandparents, Mr. and Mrs. Chas. Grover.

Miss Alice Harvey has returned home after spending a week in London.

Mrs. A. Daum is visiting at her home in Sebringville.

Miss Edith Harvey is spending a few days in St. Thomas.

Mr. and Mrs. Lawrence Harvey and family, of St. Thomas, spent Sunday with Mr. and Mrs. Harry Harvey.

QUESTIONS and Bible Answers. 71 Parents will encourage children to look up and understand the Bible answers, it will give precious heritage to them in after years.

What reason did Jesus give why we should forgive our enemies?—Mark 11: 25.

NEWBURY

A meeting of the community club will be held in the town hall on Friday evening, April 6, at 7.30, to make arrangements for a celebration on May 24.

The Knox Church Ladies' Aid held a special meeting at the home of Mrs. W. Bayne to discuss the matter of re-carpeting the church, also some redecorating at the manse. It being election of officers, Mrs. Moore presided.

Officers are as follows:—President, Mrs. R. H. Moore; 1st vice-president, Mrs. Don Fletcher; 2nd vice-president, Mrs. Leatherby; treasurer, Mrs. A. Fennell; secretary, Mrs. C. Roycraft.

Daily refreshments were served by the hostesses, and silver collection taken. Larry Hurdie returned from Toronto last week.

Owing to illness of Rev. R. J. Murphy there was no service in Christ church on Easter day. However, the Easter music and service will be used next Sunday, April 8th.

Rev. Mr. Paton, of Glencoe, took Rev. C. D. Farquharson's duty in Knox church Easter Sunday owing to the illness of Mr. Farquharson.

Miss Vida Wallace, of Alvinston, visited at Peter Hillman's last week.

Mrs. C. W. Wainman is spending Easter week with Hamilton friends.

Albert Grant and wife, of Detroit, and Ed. J. Grant and son, of Belmont, were week-end visitors at J. Grant's.

Easter visitors at J. G. Bayne's were Miss Stewart and Allan Bayne, of Toronto; Dr. H. C. Bayne, of Sarina, and W. Smith, of Hagerstown.

Elmer Connelly's—Misses Anna E. Connelly and Beatrice Kake, of Detroit, and Fred Connelly, of Toronto; at Mrs. Jane Connelly's—Hubert Connelly, wife and children, of London, and Mrs. Fred Sullivan, of Bothwell; at Wm. Bayne's—Margaret and Adair Bayne, of Toronto; at A. Fennell's—Miss Mamie Fennell, of Toronto.

Yet again it becomes our painful duty to chronicle the death of an old and respected citizen in the person of Mrs. Mary Powell Robinson, who passed away early Thursday morning in her 80th year.

Deceased, although suffering from some time from weakness, the result of arteriosclerosis, was only ill for ten days, and her condition only became alarming a few hours previous to her passing away. The late Mrs. Robinson was born in Ephraim a few miles west of the home on the Fansher road where she came as a bride and continued to reside until eighteen years ago when she moved to the village. She came of the pioneer people who in the earlier days were the bone and sinew of this country.

Her husband passed away when her children were young but with courage and perseverance she made a good home and raised a family to be proud of and it will be their comfort now that they were always attentive to the good mother. Deceased was the oldest member of the Church of England here. For nearly sixty years she was a regular attendant at its services. The funeral services (owing to Rev. R. J. Murphy's illness) were conducted by Rev. Mr. Bridgette, of Wardsville, on Saturday afternoon at the home. Interment in the family plot at Wardsville. The bereaved family left are one daughter, Margaret (Mrs. Parish), of Ottawa, and two sons, John Henry and William Frank. In here, all of whom were at the bedside of their mother during her illness. To them and the grandchildren much sympathy is extended. Many relatives and friends from Wardsville, Sutherland, Antrim, and Bothwell attended the funeral.

Word came to the village early on Sunday of the death of David Gage, who passed away at the home of his daughter, Mrs. Payne, near Merlin. The remains were brought to Cairo, the home of his son Osborne, on Sun-

church on Easter day. However, the Easter music and service will be used next Sunday, April 8th.

Rev. Mr. Paton, of Glencoe, took Rev. C. D. Farquharson's duty in Knox church Easter Sunday owing to the illness of Mr. Farquharson.
