Rivers of Blood Inside the Forts at Taku.

Incredible Tales of the Murder of the Emperor and Suicide of the Dowager Empress-Less Sensational Reports Say the British Admiral Has Reached Pekin and That the Legations Are Safe-Rebellion Spreading

London, Thursday, June 21, 3:50 a.m. guarded by the troops of Gen. Nich. -The latest story sent out by the Shanghai gossips is that Prince Tuan, president of the Tsung Li Yamen, has burned the imperial palace at Pekin and murdered the emperor, and that the empress dowager has com-

The effect of the bombardment of the Taku forts, as described by the Shanghai correspondent, was gory in the extreme-nothing less than "rivers of blood" and "mutilated corpses" piled up inside the forts. The Russians guarding Tien Tsin, according to another report, fired artillery and rifles on June 15, at a range of 50 vards, into dense crowds of attacking

Boxers, and killed 300. THE LEGATIONS SAFE. The reports of Admiral Seymour's arrival at Pekin and of the safety of the foreign legations, originating from Chinese sources and cabled to this city from Shanghai, are still unverified. However, the Italian consul at Shanghai has wired to the Italian foreign minister, Marquis Visconti-Venosta, that the legations are safe. The rebellion is spreading far and wide. There is an impression in dipand on the tinent that the allies have not yet grappled with the situation effectively and that even 50,000 troops would be powerless to do much to control 4,000,-000 square miles.

Japan, according to a dispatch to the Daily Mail from Yokohama, intends to land an expedition to Foo Chow.

On five occasions the Chinese attacked the column in great force. There were many mounted men among the Chinese, but most of the natives were badly armed. At times they fought with admirable courage and bravery. The losses of the Chinese during the march are esti-

For Wheat This Year-Advance of 14 Cents in Two Weeks.

New York, June 21.-The bulls again obtained control of the wheat market yesterday morning and squeezed shorts to the extent practically of 2 cents a bushel, July selling up to 83%c before the regular opening, and from 83%c to 83%c after the official start. Bad crop news, together with unexpected strong English cables, were the principal arguments in favor of advancing prices. Operations during the forenoon reached a total of 5,000,000 bushels. Speculative excitement continued throughout the entire afternoon, with a strong advance, July selling up to 86c near the close, representing 4c advance for the day and 14c advance in the last two weeks. The December option was even stronger, showing 41/2c net advance. The market closed in a burst of evcitement at the top notch for the session and year. Transactions altogether amounted to about 7,000,000 bushels.

DOMINION **PARLIAMENT**

Mr. Clancy's Motion to Strike Off Five-Cent Duty on Tobacco Discussed in the House-The Emergency Ration Investiga-

Ottawa, June 20 .- After spending the greater part of the afternoon in discussing an amendment by Mr. Clancy advocating the abolition of the excise duty of 5 cents per pound on Canadian leaf tobacco, which was voted down by a majority of 30, the house went into committee of supply and

passed a large number of items. In reply to a complaint by Mr. Monk about the difficulty in obtaining news of Canadian soldiers at the front, the minister of militia explained that every item of information the war office had about the Canadian contingents was sent here promptly, and in addition the department had frequent reports from Lieut.-Col. Otter. The department had done everything in its power to obtain information about the wounded. He himself had not had word, direct or indirect, from his son since April 14, and a great many other parents were in the same posi-

tion. On motion to go into supply, Mr. Clancy moved an amendment favoring the removal of 5 cents a pound on Canadian leaf tobacco. He argued that the removal of this excise duty would give an additional encouragement to the native tobacco-growing industry and would reduce the taxation on the people without reducing the

duty on foreign tobacco.

Mr. Fielding said that if there had occasionally been a complaint regarding the tobacco duties he had never heard before a complaint in the terms of this resolution. It was proceeding on a line entirely at variance with every complaint, and the adoption of this resolution would not in the smallest degree lessen the objection to the duties on tobacco. At the time the new tariff was introduced there were many reductions in taxation, and owing to uncertainty as to the exact effect of this lowering of the rate of taxation it was necessary to make provision that there should be no falling off in the revenue, and it was felt that in order to make provision for this one of the best ways would be an increase in the duties on tobacco, and he was glad to see that the increased duties had acted well and that they had collected a very large amount of increased revenue as a result of the increased duties on tobacco, and there had also been a very large increase in the native tobacco industry under that policy. This resolu-tion proposed to go further and give cism today, it was that the discrimination between the foreign and native tobacco was so much, and to carry this resolution would simply reduce the excise duty on the native tobacco and would not change the duty at all on the foreign tobacco, which was used by a large number of our people. While it might become necessary to make general reductions all round, to single out tobacco at the present time and say that that was the particular article upon which there must be reduction was not advisable. In the main, the tariff change was necessary, about the last item would be that on which a reduction in excise duty was now suggested. To add to the encouragement of the tobacco industry by simply taking off the small excise duty of 5 cents on Cana-

dian leaf would be simply giving something more to the Canadian industry it did not require. Sir Wilfrid Laurier said Mr. Clancy's amendment was calculated to destroy the policy under which great progress had been made. It was only necessary

London, Thursday, June 21-4:30 a.m. -The British have penetrated Transvaal territory as far as Machadodorp. Passengers who arrived yesterday at Lorenzo Marquez from the Transvaal assert that heavy artillery was engaged, and that the Boers abandoned Machadodorp, retiring northward.

It is reported that a resident of Komatipoort has been arrested and enot by the Boers for complicity in the

breakdown of the Malana bridge. Boer bulletins regarding Gen. Dewet's operations along Lord Roberts' communications assert that two convoys were captured and 300 workmen, with 50 military, taken prisoners. A TRUCE.

The Daily Telegraph's correspondent at Pretoria, in a dispatch dated Sun-day, says: An informal truce, for five days, is in operation between Lord Roberts and Commandant-Gen. Botha. Advices from Pretoria, dated June 17, say that an official proclamation has been issued to the effect that any further wrecking of communications will be followed by the demolition of the farms for five miles on both sides. of New St. Paul's, Kirkton, was laid by the Bishop of Huron on the 7th inst. In the morning Holy Communion was administered, after which the semi-annual deanery meeting of the county of Perth was held in the old church. At the time appointed a procession of ten clergymen, headed by the bishop, pro-ceeded to the site of the new one, followed by the choir, who opened the service by singing "The Church's One Foundation." The rector then made a short introductory address, after which the bishop proceeded with the ceremony, during which he was presented with a handsome silver trowel, appropriately engraved. After the stone had been declared well and truly laid, the bishop made a short speech, expressing his pleasure and satisfaction in the oc-casion. Rev. Wm. Stout read an interesting account of the progress of the church in Kirkton since the year 1861. and read the names of the subscribers to the building fund, which amounts to over \$3,000. Rev. Messrs. E. N. English, London; Taylor, St. Marys; Kerrin, Mitchell; Ball. Methodist minister of Kirkton; and Messrs. N. Monteith and H. Eilber, M.P.P.s, also gave addresses. Mr. Blowes, Mitchell, sang "The Sol-diers of the Queen," by special request, and the speeches were interspersed with music by the chair. At 5 p.m. a supper was served by the Ladies' Aid Society, in the town hall, which was largely at-tended, over \$60 being realized. Divine service was held in the old church at 8 p.m., in which several of the visiting clergy took part, and the bishop delivan admirable discourse from the "The stone which the builders rejected has become the head stone of the corner." Altogether the day was a de-cided success, and one which will long be remembered by those present, promising much for the advancement of true religion and the prosperity of St. Paul's Church, Kirkton. The total proceeds of the occasion were over \$200.

THE ASSEMBLY

Dispose of the Indore Mission Difficulty.

Opposition to the Manual of Aids to Social Worship-Augmentation Fund Report.

Halifax, June 20.-The General Assembly yesterday disposed of several important questions. The Indore trouble was harmoniously settled. The manual of aids for social worship, regarded by many old Presbyterians as a dangerous innovation, was advanced a stage, and many non-contentious reports were rushed through.

Professor MacLaren intimated that the surplus of \$1,200 reported by the hymnal committee had been divided between the aged and infirm ministers' fund and the widows' and orphans' fund.

Dr. Caven presented the report on religious instruction in the schools, showing a growing desire for more Bible instruction in the public schools. The Anglican and Presbyterian Churches had had a conference in Toronto and agreed upon a common course to pursue.

Mr. J. M. Macdonald urged that the church should aim at introducing the Bible in all schools from the kindergarten to the university. He moved that the committee should be instructed to endeavor to obtain Biblical teaching in the high schools and universities, and the motion carried.

The report of the judicial committee in the Indore case was given in by Dr. A. B. McKay, of Montreal. He said that the committee had held six meetings, and had arrived at deliverance in which the parties in the case had acquiesced. Without debate the assembly adopted the deliverance. Mr. Wilkie returns to his field of labor as principal of Indore College, in which everyone admits he has done excellent

AIDS TO SOCIAL WORSHIP. Dr. Herridge presented the report of the committee on aids for social worand a manual was submitted

which had been prepared by the committee. Several things about it, such as responses, etc., savored to some of the members of Anglican gitualism, and the fire of debate was quickly fanned. Mr. John Grierson, Halifax, denounced the committee and booklet as an attempt to thrust a liturgy on the church. He held that prayers were unscriptural and un-Presbyterian, and stated that the laymen, of the Presbyterian Church would not submit to

the innovations. Dr. Robertson and Rev. John Pringle spoke of the need of such aids in lumber and mining camps, and Principal Grant defended the committee from the charge of desiring to introduce any-thing contrary to the spirit and letter of historical Presbyterianism. The question was refe red back to the

Presbyteries for furthe consideration AUGMENTATION FUND. For the augmentation fund (western section) Dr. Lyle said that there had

been a decrease in the givings, but, on the whole, there was cause for thankfulness for the condition of the

fund.

The committee on the augmentation fund reported that the fund began last year with a balance on hand of \$943 80. In plain English, the receipts were \$2,081 74 less than the expenditure. Had the church responded more libercommittee during the year 56 mission stations would have been advanced to augmented churches, but owing to lack of funds, only 21 of the 56 were taken on the list of congregations. In the western section-Of the 33 congregations on the list a year ago, 12, or onethird, became self-sustaining; 20 missions were organized as congregations and placed on the list, and 38 more were qualified according to the regula-tions of the committee, but to place them on the list would embarrass the fund. The removal of these congre-

The eastern section committee reported that grants were paid to 55 congregations, and by drawing upon the reserve fund they were enabled to meet their obligations, so that this year no reduction of the grants was made. The sum total paid out was \$9,051 64, leaving the working balance \$3,312 03. The applications for aid during the current year numbered 53, and grants had been promised aggregating \$9,370.

The French evangelization report was introduced by Principal MacVicar. In support of the report, Rev. A. J. Mowat, J. E. Duclos and Dr. C. A. Amaron, Montreal, made rousing speeches, describing the extent and work among the French Canadians. Mr. Mowat said Mariolatry was more prevalent in the Province of Quebec than people generally had any idea of, and Mr. Du-clos argued the necessity of giving the Bible and English language to the tion in other grants effected a saving | French-Canadian peasantry.

IN THE WORLD

THE TURF.

SECOND DAY OF THE RACES. The races at the park yesterday af-ternoon were attended by a crowd numbering nearly 3,000 people, in-cluding about 500 of the fair sex, and the events were all keenly contested. There was just enough uncertainty about the horses to make the heats decidedly interesting. It was nothing out of the way for a "pony" to take a first place, and then drop back to sixth or seventh in a following heat. Starter McElroy was in his place sharp at 2:30, and called on the first event without delay. Four races were on the programme for the day, but the 2:30 trot had to be called off, owing to the lateness of the hour. The drivers were warned by the starter that they must be ready when called, and he threatened to impose a fine of \$5 for any dellaying of the race. Many of the drivers have a habit of starting under the wire ahead of the pole horse, and this was responsible for the horses being several times scored. Mr. McElroy decided to stop this trick, and stated that a fine of \$25 would be imposed on future of-fenders. This had the desired effect. The track was in good condition, and the day was an ideal one for keen sport. was offered in plenty. Horsemen from all sections of the country were unanimous that this is the best race meet that was ever held in the Forest City. The appearance of four London horses added much interest to the day's sport. The fastest time of the day was made in the second trot and pace, by Forest and Acmon Jim, being 2:164. In the first race, the 2:21 pace and 2:17 trot, Spunk made fast time, and finshed in 2:19½. Laurentian was a strong favorite in the five-eighths run, but Mamie Calan, Frank Sage's bay mare, stepped away from the Toronto horse and won out quite handily.
Starter McElroy has officiated at

many big race meets in Canada and the United States, and stated that he had never attended a meeting where the racing was better than at the meet now

in progress here. THE 2:18 PACE AND 2:15 TROT. The above event required seven heats to decide it. First place was captured twice each by Acmon Jim and Richard A in five heats, and in the sixth Hal Forest took first for a second time, thus leaving the three horses to run for first place and money in the re-maining heat. The second heat was a surprise to nearly everybody. Hal For-

out, and passed under the wire, a full length ahead of Richard A, who was leading. The third heat also went to Hal Forest, Almedia, making a bad break on the start. The fourth heat of sports break on the start. The load if went to Acmon Jim, who just passed under the wire a neck ahead of Hal Forest. The fifth heat went to Richard A, who at the half mile was in fifth a who at the half mile was in fifth a went to Richard A, who at the half mile was in fifth a went to Richard A. place. Acmon Jim led the full halfmile, but fell back to fifth place. He was bleeding at the mouth freely when

taken to the stable. Two more heats were run by Hal Forest, Richard A, and Acmon Jim, to set-tle the question of first, second and third money. Acmon Jim was not driven hard, and just stayed in the event to secure third money, and Hal Forest took both heats easily from

PRETTY GAME AT SAGINAW. Saginaw, Mich., June 20.-The home team lost the game to London in the first inning today. Robb, in right field, dropped Jones' fly after two men were and the inning finished with London three runs to the good. Eddy's error in the fifth added two more runs. Outside of these bad points both teams played a remarkably fast game, of which the feature was Saginaw's batting rally in the ninth. Wayne had five strike-outs to his credit, made no gifts and only allowed five scattered hits, and Kostal kept Saginaw down to seven hits. Score: R. H. E. FAILED TO CONNECT. Grand Rapids, Mich., June 20 .- The Port Huron team failed to arrive for today's game, and the Maroons, a local team, went in for an exhibition. The league team won, 8 to 3. The game was umpired by Jeffries.

PITCHER BREEN INJURED. The Pastime ball team of this city went to Strathroy yesterday and defeated the nine of that town in a close and keenly contested game. Pitcher Thomas Breen, of the Pastimes, met with a bad accident during the game, which will in all probability put him permanently out of the game. He was sliding into the home plate, when he struck his knee-cap, breaking it, and jerking it from the knee. Mr. Breen is one of the best amateur pitchers in the city, and his many friends will hear with much regret of his unfortunate accident. The score was as follows:

Opening Session of the Annual Meeting.

A Year of Prosparity-Constitutional Changes Proposed and Discussed.

Hamilton, June 21.-The grand lodge of the Canadian Order of Oddfellows convened Tuesday afternoon in the county council chamber, with Grand Master Robert Clarke, of Troy, North Wentworth, in the chair, and Deputy Grand Master W. H. Shaw, of Toronto,

in the vice-chair. Bro. J. V. Teetzel, of Loyal Hamilton Lodge, the mayor of the city, in a brief speech, on behalf of the citizens, warmly welcomed the delegates to Hamilton, as did P. G. M. Alex. Thompson, on behalf of the Hamilton brethren. Grand Master Clarke made a fitting response. The grand master's address and the

presentation of the executive committee's report took place during the afternoon. The principal business to be brought before the grand lodge will be a proposal to increase the insurance pre-

miums, so that the funds may placed on a still more substantial basis; there is also a proposal to increase the funeral benefits.

The annual report of the executive grand officers says: "The organization work has been going steadily on, our organizer hav-ing been doing good work amongst the lodges already established. This will permit of the organizers being placed in new fields and allow them to add a number of new lodges to our list during the ensuing year. The matter of sick benefits being made optional is again being brought before you, and we would earnestly ask you to give it your best consideration. The funeral fund has prospered wonderfully during the fiscal year, owing to the low death rate. The number of mem-bers for whom benefits were paid was 13, and the number of wives 10. Total amount paid was \$720, leaving a balance to credit on Jan. 1 of this year of \$678 92. A reference to the supplementary balance sheet will show that there is a balance to credit at this date of \$616 60 after all known claims have been paid. We are pleased to report that the estimates of the financial committee of last year have not been

or slightly over 50 per cent. "The British Columbia grand lodge state their wishes to disband their grand lodge and come in again as they were before the provincial grand lodge

exceeded in the main, and that the

debit balance has been reduced from \$3,438 43 on June 15 last, to \$1,579 77,

was formed. "Now that the ground in Ontario has been covered in nearly every portion by our organizers, we deem it in the best interests of the order that organization work should be begun in the Northwest. We have completed the preliminary work by having the order incorporated in Manitoba.

"The returns respecting the order's assurance funds showed that for the year ending Dec. 31, 1899, there was a membership of 3,191, an increase of 27 over the previous year, after deducting all lapses, since which time there had been issued 290 policies to new members. best to devote their efforts to building up the old lodges. The Northwest work should now be pushed with vigor. The finances are in good condition, the insurance surplus having increased \$19,000 during the year. His references to the South African war in the fact that the grand lodge had kept the premiums good of its members serving their Queen and country, met with loud approval. The address closed with an eloquent outburst of loyalty to the empire and Queen.

deputy grand masters and by the grand organizers were considered satisfac-

The grand lodge took up the propos ed changes in the constitution, among which was one that there should be one delegate for each 100 members, and one delegate for every additional 50 members or fraction thereof to grand lodges. The date of meeting remains as heretofore, the third Tuesday of June. The executive committee is to consist of the grand master, immediate past grand master, deputy grand master and two members from the grand lodge at its annual session.

A Canadian Statesman's Contribution to the South African Question.

Many books and essays, not to speak of newspaper and magazine articles, have of late years, and especially during the last few months, been published on the subject of Britain in Africa. We are glad, however, to welcome one more from the hand of a Canadian statesman. Even if all the information can be found elsewhere, it is well to have the material handled from the point of view of one of our own people. We have pleasure, then, in referring to a volume just issued, entitled, "The English in Africa," by Hon. David Mills, Q.C., published by G. W. Morang & Co., Toronto. Without mentioning the immense amount of mental labor involved, a book of this kind, comparatively small and neat as it is, cannot be produced except with considerable outlay, so we hope the Canquality.

adians will encourage the home-grown article, especially as it is of very high Every book is to be judged by the purpose that the writer has set before himself. In this, Mr. Mills deals not only with the South African question, which has of late occupied so much attention, but with the whole question of the British in Africa; this, one would think, requires a series of volumes; that, of course, is correct, if anything like a very full detailed statement was attempted. the limitation: "In then this little volume I have not undertaken to deal exhaustively with the possessions of England on the continent of Africa, but only with these acquisitions which have led to controwersy with France, with Germany, with Portugal, and with the South iAfrican Republic." This is the point of view chosen by Mr. Mills, and we think that he has exercised a wise schoice. Our reason for forming this fudgment is twofold. First, Mr. Mills, as a lawyer, and professor of internakional and constitutional law, is peculiarly well fitted to give to the ordinary reader a clear, simple statement of controverted points; and second, it is important that Canadians, as citizens of the British Empire, should see that British policy has, on the whole, been one of substantial justice. The result of a careful reading of Mr. Mills' luminous review is to confirm the opinion that Britain, instead of being guilty of the land-grabbing with which she is perpetually charged, has, in many cases, taken less than she could have claimed. Her expansion has been natural and effective; that is, It has not been based, like that of other continental nations, upon mere theoretical claims, but upon real work done by her missionaries, explorers, merchants and soldiers. England has generally suffered from arbitration. and her concessions have often been taken as a sign of weakening rather than as showing a desire to deal fairly and make sacrifices for the sake of honorable peace. This makes the task of the Imperial statesman and diplomatist one of great difficulty; for as our author observes, is is "important that the English Government, without being timid, should be cautious, and should take care to maintain British

Interests in these countries which her

merchants and geographers have done

not a little to acquire, and over which

they have endeavored to exercise a

jurisdiction in fact, if not always in law." We cannot in a brief article

traverse the ground covered by Mr.

Mills on these particular points; and

that is not necessary, since this book

brings a careful statement of the

Bubject within easy reach; but

Mills confirms the judgment that

we had formed from an indepen-

dent examination of some of those

points; that is, that while particular

statesmen may have said indiscreet

things, and the press may have had

its fits of jingoism, as a rule, the Brit-

ish case has been conducted with

moderation. Of course, Mr. Mills does

not discuss these matters from the

standpoint of any party; but the calm

statements which he makes of the

facts of recent diplomatic history, show

that the concessions, withdrawals and

sacrifices have not all been made by

the Liberal party. The surrender of

may say again that Mr.

the control of Zanzibar to Germany was made by the Conservatives, not by the Liberals. The friends of Lord Rosebery and Lord Granville maintained that the Government of Lord Salisbury had gone too far in allowing Germany to come within a section of Africa in which English influence was, up to that time, exclusive, and was sufficiently established to uphold her rights without question, had she chosen to assert them. Lord Rosebery said of the treaty between Germany and England in 1890. "We gain information only by installments, and if we thought the information satisfactory as far as it went, our anxiety was rudely put an end to by the publication of this treaty." According to Lord Randolph Churchill, that was the heavy price that Britain had to pay for German support in Egypt. These and many other things may be learned from a careful reading of Mr. Mills'

Almost half the book is taken up with the South African question, and forms a clear brief view of the mutual dealings of English and Dutch in South Africa. In discussing the famous "Edgar murder," the writer shows clearly what the law is in such a case; while in discussing the right of intervention, Mr. Mills proves that in the circumstances of the case Britain had the right to intervene even if the South African Republic had been an independent nation, which it was not. On the whole, then, we regard this as a valuable contribution to the discussion of imperial questions, and if it is widely read it will not abate one jot of our enthusiasm for the empire, but will certainly make our devotion to its interests more intelligent.

The book can be ordered direct, as above, or through any book dealer.

A Noble Woman.

The death of Mrs. Gladstone removes one from the scene of action who was a noble specimen of womanhood, and who played a great part. It seems fitting that this venerable lady should pass away quietly to join one who was so long her life companion. In the pilgrimage and warfare of this life they were united, and now they are no longer divided.

Mrs. Gladstone's career was typical of a woman's life in this, that her great work was indirectly. It is not probable that her illustrious husband could have accomplished so much work without the loving care and unwearied devotion displayed by his wife. The ideal of some who belong to the class of "new women" is to have a separate career, to do what they do directly, to shine immediately in the presence of the public. Many women who are stirred by these small, fretful ambitions, though clever enough in their own way, seem small when compared hoped that the success of the day or of how long standing. The most powerful influence in the building up of a strong nation is the influence of a good home, and a good well. He had always been a Reformer home in any rank of life can only be and always would be unless that parinfluence of a good home, and a good produced by the co-operation of manly strength and womanly self-sacrifice. The most noble women whose lives are recorded in history are those whose influence has been brought to bear upon the world by the life of a faithful husband and devoted son. Mrs. Gladstone's name will go down to posterity among that number without ostentation or sensation. She served her generation and has been called to rest, leaving a gracious memory behind.

SALE OF SUNDAY NEWSPAPERS. Woodstock, June 21.-The police on Sunday, acting under instructions from the committee appointed by the local branch of the Lord's Day Alliance, visited the Grand Trunk station and warned the news agents on the trains to desist from selling papers on the station platform. A lot of papers were sold, but as soon as the agents were interviewed by a policeman they withdrew to the car platform, where they sold unhindered.

VICTORYOVERDYSPEPSIA

Is Easy and Quick With Dodd's Dyspepsia Tablets.

There's no need to tell those who suffer with Dyspepsia or Indigestion,

what is the matter with them. They know it only too well. The great object with them is how

to get cured. They can be cured, easily, simply, and surely. There's no earthly reason why any person should suffer with dyspepsia, indigestion, heartburn, sour stomach, or any similar disease of the digestive organs. It is rank foolishness

Why? Because Dodd's Dyspepsia Tablets cure these diseases quickly, positively and simply.

There's no secret about how they do this. You take one or two of Dodd's Dyspepsia Tablets after each meal, and the work is "done, while you wait." Dodd's Dyspepsia Tablets digesit the food. They do the work your tired-out stomach cannot do. At the same time they tone up and strengthen the stomach, fitting it to again do its own work

There can be no failure. If the stomach were paralyzed in every part, Dodd's Dyspepsia Tablets would digest the food taken into it. That's what Dodd's Dyspepsia Tablets are made for. And that's what Dodd's Dyspepsia Tablets will do.

There is but one temple in the universe and that is the body of man .-

THE FLAGGING ENERGIES RE-VIVED .- Constant application to business is a rare tax upon the energies, and if there be not relaxation. lassitude and depression are sure to intervent. These come from stomachie troubles The want of exercise brings on nervous irregularities, and the stomach ceases to assimilate food properly. In this condition Parmelee's Vegetable Pills will be found a recuperative of rare power, restoring the organs to healthful action, dispelling depression, and reviving the flagging energies.

How Conservatism in North Renfrew Collapsed.

Mr. Whitney's Pleadings Were of No Avail-Mr. Munro's Election By Acclamation in Spite of Strenuous Efforts on the Part of the Opposition -Euthusiastic Liberal Meeting.

Pembroke, June 20 .- Since Mr. Edward Dunlop definitely refused to accept the Conservative nomination for North Renfrew to contest the vacancy caused by the death of Mr. A. T. White, M.P.P., there has been much uncertainty whether there would be a contest or whether the seat would go by acclamation to Mr. John W. Munro, the Liberal candidate. Up till the last moment it was asserted in some Conservative circles that the constituency would not be allowed to revert to the Liberals by default, and the name of Mr. Peter White, jun., son of the late member, and nephew of the ex-speaker of the commons, was mentioned as Mr. Munro's probable opponent. But Mr. White evidently declined to be the victim of a second and late nomination. Of course, none but a member of one of the two or three ruling families would do for a Conservative candidate in North Renfrew in the eyes of the party managers, so they turned in another direction and a strenuous effort rection, but all turned a deaf ear to the proposal. Failing to get a man of their own, or to coax an independent into the field, the Conservative managers gave up the contest. So, despite the thunders and pleadings of Whitney two weeks ago, and the dissatisfaction of the country Conservatives who wanted to make a strug-

the nominations were made. Mr. Munro was nominated by Mr. Thomas Murray, ex-M.P., and mayor of Pembroke, and by Mr. Thomas Mackie, M.P. No other nomination was made, and Mr. Munro was declared elected, amidst cheers.

A public meeting had been announced for the town hall and there a large gathering assembled. Mr. Joseph Metcalfe, president of the North Renfrew Liberal Association, presided, and there were on the platform with him the newly-elected member, as well as Mayor Murray, Hon. F. R. Latchford and Messrs. Thos. Mackie, M.P., R. A. Campbell, ex-M.P.P., and Henry Barr, ex-M.P.P. The chairman said they had assembled to witness the very unusual spectacle of a Liberal candidate being elected in North Renfrew by acclamation. The enemy had stacked their arms and surrendered to Mr. Munro without firing a gun or government could congratulate themselves. The enemy had paid a strong tribute to Mr. Munro's personal strength and to his policy as a supprovince as a sacred trust.
Mr. J. W. Munro, M.P.P., was first

tion at being elected by acclamation, and would do his best when at Toronto to serve his riding and country ty went wrong.

Mayor Murray expressed his pleasure at Mr. Munro's election by acclamation, and paid a tribute to the late member and to Hon. Messrs. Hardy, Ross, Latchford and Stratton. The Ontario government, which had been in power for 25 years, and conducted the affairs of the province honestly and economically and had given many reforms, Mr. Murray spoke vigor and enthusiasm, and was heartily applauded.

Mr. Thos. Mackie, M.P., spoke briefly and was most heartly received. Hon. Mr. Latchford was also re-ceived with hearty applause. He said that Conservatism in North Renfrew had collapsed, notwithstanding that the leader of the opposition had been there but a short time before pro-claiming from the housetops the iniquities of the Ross government, and had called upon them to send an opponent of that government to Toronto. Mr. Munro was a man of integrity and progress, and because there had been a material change in public sentiment, because there was more confidence in what Mr. Munro represents. no Conservative of prominence could be found to face Mr. Munro, though there was a Conservative majority of 153 at the last election. The Liberal government of today was a government which would continue the best traditions of its predecessors. It insists that there shall be absolute honin the administration of public affairs. There had been heard from Mr. Whitney all the session nothing else than the denunciation of Liberal corruption, but the Liberals denounc-ed it wherever it existed in their own party, as in their opponents. Had they ever heard of a Conservative who denounced the gang who endeavored to corrupt the legislature? But no sooner had the new administration been formed than it instituted proceedings to prosecute every man known to have been concerned in corrupt acts, no matter to which side he belonged. Such was not the record of the Conservatives. The man convicted

at Winnipeg was released by Sir Charles Tupper. The new government had a great deal to live up to. There had never been a scandal or a corrupt act of a minister upon whom a finger could be placed. It had given educational and administration of justice systems that, while not perfect, were splendidly adapted to the needs of the country, and guaranteed to every man the enjoyment of his rights. The financial commission had proven that the statements of the Liberals as to the state and amount of the provincial surplus of assets were precisely cor-Touching on the recent development of the country, Mr. Latchford made the pleasing announcement that while the total revenue on May 31. 1899, had been \$1,375,560, this year to the same date there had been an increase to \$1,622,755. The cash in banks, May 31, 1899. was \$367,228: on May 31, 1900, \$1.010,600. The prudent care of the finances in Ontario under continuous Liberal rule was contrasted with that of provinces which had been under Conservative management, and then the minister proceeded to outline the progressive policy of the government in developing the province and in discovering the capabilities of New

own doors. The unanimous selection of Mr. Munro would be taken by the government as an indorsement of that policy. The meeting closed with cheers for the Queen, Mr. Munro, Hon. George W. Ross and the chairman.

THE METHODISTS

Toronto Conference Refuses to Indorse the Dominion Alliance Plan.

Toronto, June 21 .- The Toronto Methodist Conference, while voting approval of the principle of Dominion prohibition, or, falling that, of prohibition in those provinces and territories that have voted in its favor, refuse to indonse the plan of the Dominion Alliance to get the pledge of 100,000 voters at the next general election to vote for only such candidates as would agree to do all in their power to obtain pro-hibitory legislation to at least these provinces which had given majorities for it. The speech of Rev. Dr. Sutherland, which was loudly applauded seemed to show that there is general objection to the Alliance campaign.

Dr. Sutherland said that in their very great zeal for prohibition, pure and simple, they were letting the great simple, they were fetting the great principle of moral suasion slip away from them. If they got a prohibition measure tomorrow, it would be utterly useless without a mighty public sentiment behind it.

STARTLING STATISTICS.

Statistics reveal the startling fact, that nearly one quarter of the population of the civilized world die within one year of birth; more than one third before the age of five, and fully one half before they reach fifteen. Irritation is the exciting cause in nearly every instance, and the most critical period is unquestionably during the process of teething. Mothers, you can allay that irritation, give your babies quiet rest, without opiates, narcotics, or hurtful drugs, if you use Dr. Hammond-Hall's English Teething Syrup. THE MARKETS

London, Thursday, June 21. Except for strawberries, vegetables and flowers, the offerings this morning was very meager. There was not the abundance of berries that was expected, and there was a consequent slight reaction in price. The poorest went for 6c a box, and as high as 8c

was paid for the better class. The keen demand that has recently existed for dairy produce was again prevalent. The supply, however, was adequate, and prices remained firm at Saturday's quotations.

Other staples were offered in quantities too small to effect quotations.

Standard To Be Maintained-Bad Trusts To Be Restrained-Build and Control the Isthmus Canal-Cubs To Le Free-"Expansion" Justified.

Philadelphia, June 21 .- Following is a summary of the platform adopted by the Republican national conven-

We indorse the administration of William McKinley. We renew our allegiance to the principles of the gold standard.

We recognize the necessity and propriety of the honest co-operation of capital to meet new business conditions and especially to extend our rap-idly increasing foreign trade, but we condemn all conspiracies and combinations intended to restrict business, tion, or to control prices, and favor such legislation as will effectively re-strain and prevent all such abuses, try and commerce.

We renew our faith in the policy of protection to American labor. In that

policy our industries have been established, diversified and maintained. We favor the policy of reciprocity so directed as to open our markets on favorable terms for what we do not

ourselves produce, in return for free

foreign markets.

of this country. It is also a serious danger to our trade. The national de-fense and naval efficiency of this country supply a compelling reason for legislation which will enable us to recover our former place among the

trade carrying fleets of the world.

The nation owes a debt of profound gratitude to the soldiers and sailors who have fought its battles, and it is the government's duty to provide for the survivors and for the widows and orphans of those who have fallen in

the country's wars. We commend the policy of the Re-publican party in maintaining the efficiency of the civil service.

Public movements looking to a per-manent improvement of the roads and highways of the country meet with our cordial approval: also extension of free rural delivery, and the reclaiming of arid lands.
We favor home rule for and the early

admission to statehood of the territories of New Mexico, Arizona and Oklahoma. We favor a reduction of the war

taxes. We favor the construction, ownership, control and protection of an isthmian canal by the Government of the United States. We assert our steadfast adherence

to the policy announced in the Munroe doctrine. Every effort should be made to open ond obtain new markets, especially in the Orient.

The American Government must protect the person and property of every citizen wherever they are wrongfully violated or placed in peril. We approve the annexation of the Hawaiian Islands to the United States.

FOREIGN POLICY. In releasing us from the vexatious conditions of an European alliance for the Government of Samoa, President McKinley's course is especially to be

commended. We commend the part taken by our government in the peace conference at The Hague. The provisions of The Hague convention were wisely regarded when President McKinley tendered his friendly offices in the interest of peace between Great Britain and the South African Republic. While the So Be Prepared for Them With a Bottle of Dr. Fowler's Extract of Wild Strawberry.

South African Republic, while the American Government must continue the policy prescribed by Washington, affirmed by every succeeding president and imposed upon us by The Hague treaty, of non-intervention in European controversies, the American people earnestly hope that a way may seen be found, homorably alike to both con-tracting parties to terminate the strife between them.

In accepting by the treaty of Paris the just responsibility of our victories in the Spanish war, the president and the senate won the undoubted approval of the American people. No other course was possible than to destroy Spain's sovereignty throughout the Western Indian and Philippine Islands. That course created our responsibility before the world, and with the unorganized population whom our inter-vention had freed from Spain, to provide for the maintenance of law and order, and for the establishment of good government, and for the performance of international obligations, our authority could not be less than our responsibility, and wherever sovereign rights were extended it became the duty of the government to maintain its authority, to put down armed insurrection, and to confer the blessings of liberty and civilization upon the rescued peoples. The largest measure of self-government consistent with their welfare and our duties shall be secured to them by law. The Cuban independence and self-government were assured in the same voice by which war was declared and to the letter this pledge shall be performed.

Has Reached Sandspruit Station -Many Boers Give Up Arms and Horses.

Volksrust, June 21.-Gen. Buller has arrived at Sandspruit Station and camped two miles further on the western side of the railway.

Many Boers met Gen. Buller on the road and surrendered their arms and horses.

London, June 21-2:40 p.m.-It is hoped in London that Gen. Buller's advance westward will hasten the conclusion of hostilities by cutting off ail communications between President Steyn's and Gen. Dewet's forces in the Orange River Colony, and Gen. Botha's burghers in the Transvaal, and com-pleting the combined movement to suround Steyn and Dewet, to which Lord Roberts referred in a recent dispatch.

New Train To Be Put On, Known as the "International Limited"-The Advantage to London and Other Western Points.

Montreal, June 20 .- The No. 3 western express from Montreal, at 10:25 p.m. has for several years been famous as one of the finest and fastest long-distance trains on the American continent, and it is therefore not surprising that the present progressive management of the Grand Trunk Railway system have decide to extend to Chicago and quicken the fast morning express, No. 1, which now leaves Montreal at 9 a.m. daily, for Toronto. This important step has been decided upon, to create monopolies, to limit produc- and the change, with others, of interest to the traveling public generally, will become effective on June 24. The new train will be known as to the government of the gove

"International Limited," which is a singularly appropiate title, as the international traffic will be greatly promoted by it. It will have connections with Montreal from Boston, and, in fact, from all New England, and other eastern points, including Quebec. It will, in addition to the coaches, cafeparlor cars and other up-to-date equipments, carry a Pullman palace sleeping car from Portland, Maine, to Chicago, without change, and this su-perior service cannot fail to attract, through Canada, many wealthy tourists from the United States, who are in the habit of sojourning during the summer at the fashionable seaside re-

sorts along the Maine coast.

The Grand Trunk night express from Toronto at 9:30 p.m. for Montreal, is so popular that the traffic has outgrown the capacity of one fast train, and another will be added. The first train will leave Toronto at 9 p.m., and handle the mails, express and passengers for way stations between Toronto and Montreal. The second train will be a limited, and carry only firstclass passengers. It will leave Toron-to at 10:30 p.m. and reach Montreal at 7:30 a.m., daily. The tourists from Buffalo and Niagara Falls will be carried on this train to Gananoque, the gateway for the Thousand Islands, at point they well be transferred to the Richelieu and Ontario Naviga-

tion steamers for the trip via St. Law-rence River and Rapids, to Montreal. It was felt that this new train would not be complete without a connecting train from Detroit, and an additional fast train will be run from Detroit to Toronto, which will reduce the time from Detroit, Windsor, London and other Western Ontario points to Montreal by about two hours.

Toronto passengers from New York via Lehigh Valley, are to be saved one hour en route, the train now leaving at 6 p.m., being put back to 7 p.m., and will reach New York next morning at the same hour as at present.

in an increase of consumption to 1,-949,000 pounds, which was brought about simply by putting 5 cents excise duty per pound on the Canadian leaf, and at the same time charging 35 cents on foreign leaf, which was an en-couragement of 30 cents to the native tobacco. The following year the consumption of Canadian tobacco increased to 2,500,000 pounds, and the first six months of this year 1,900,000 pounds was consumed, and if the same increase continued, the consumption this year would be 3,800,000 pounds. Was it to be expected that Mr. Clancy's amendment would do better for the Province of Quebec, the county of Essex, and perhaps also the county of Bothwell? He did not think the electors of Bothwell would thank Mr. Clancy for killing the goose that laid the golden egg that way, and he thought they had better stick to a policy that had produced such good results. Instead of helping the farmers sults. Instead of helping the farmers, Mr. Clancy's proposal would have an effect the very reverse. If the desire was to have the duty on tobacco reduced, well and good, but Mr. Clancy had not gone the right way about it. If a reduction was wanted all along the line he was prepared to consider it, but if the duty on the native leaf was reduced it would be a ground for the demand for a reduction of the duty on the foreign leaf, because the difference between the two would be too great. Sir Wilfrid said, though not a smoker, himself, he believed the Canadian weed was not perfect, but he believed every man in Canada should do his best to encourage a native industry, and he looked forward to the day when it would reach perfection and be as good as any foreign article. Just the minister referred him to Dr. Neilson, the medical director, and it was upon the recommendation of the last named gentleman that the contract was awarded. The minister was careful to stipulate, however, that any supplies furnished must be equal in quality to the food which had given such excellent results in the Kingston test. Dr. Borden's statement gave much satisfaction, and established beyond cavil that, so far as he was concerned, every precaution which the public interest required had been

The M. P., B., P. and B. U. delegates, at their session this morning, thoroughly discussed the question of exchanging cards between their own body and the Iron Molders' International Union. STRUCK BY A SHUNTING EN-

GINE. Conductor Smuck, Sarnia, in charge freight train No. 80, from St. Clair tunnel, was seriously injured in the east end Grand Trunk Railway yards here last evening. He had been taking orders to his engine, and was coming from the cab of the engine, when he was struck by a shunting engine on the next track. The right leg was mangled at the knee. He was taken to the Victoria Hospital, where the limb was amputated. The crew of the yard engine are said to be in no way to blame for the accident. Mr. Smuck was reported to be doing splendidly, but it will be some time before he will

be able to be removed to his home. THE PROPOSED STOVE SYNDI-CATE. Rumors concerning the proposed

monster stove syndicate have again been started by the appearance in Hamilton, of Dr. McCauley, of Chicago, who represents the buyers. The negotiations, it was supposed, would culminate next month, but they now appear to be of such a hazy character that several of the manufacturers interested do not know exactly what is pending. Undoubtedly there is an attempt being made to effect a combination of all the big foundries of Ontario. That the result desired by the promoters of the scheme will be effected appears to be unlikely. A number of the large owners have been seeking to obtain information from others, as to their knowledge of what has been or is being done, but the lack of information appears to be general. Judging by the present outlook, it is improbable that the employes of the Mc-Clary Company will be forced to seek new employment

MORNING SESSION OF SYNOD. This morning's session of the Synod of the Diocese of Huron was opened with service in the cathedral at 9:30 o'clock. The regular work was resumed at 10:15 o'clock. After routine matters had been considered, the rules were suspended, while Rev. Canon Hincks moved a resolution conveying the congratulations of the synod to his lordship the bishop on the anniversary of his birth. The motion having been carried by a standing vote, the bishop replied briefly, thanking the members for their expression of good wishes. The committee that was appointed yesterday to prepare an address to the throne then presented a draft of it, which was read, while the synod stood, and at the conclusion they sang the doxology. In it the Queen was congratulated upon the celebration of the 62nd anniversary of her accession to the throne, her pre-servation up to this time, and the success of British arms in South Africa. Preparations were then made for the appointment of delegates to the general and provincial synods, and of members of the executive committee. To prepare a draft of the latter, the

following scrutineers were chosen. Rev. Messrs. Graham, Andrew, How-ard, H. Diehl and Messrs. Henderson, Bradley, Fawcett and Norris. The scrutineers for the appointment of delegates are: Rev. Messrs. Griffin, Craig. Newton, Kerrin, and Messrs. Hately, Armitage, McElheran and Davis. The names chosen by these gentlemen were submitted later in the day. The debate was resumed on the proposed canon on inadequate collec-tions. It was participated in by Rev. Messrs. Wright and Downie, who opposed it; and Rev. Mr. Ridley and Messrs. Bayly, Dymond, Luscombe and Wilson, who favored the passage of a canon embodying this idea, but Bayly, Dymond, Luscombe they objected to the language in which it was couched. The debate was in-terrupted by the mid-day adjournment. DUCKETT VS. PAYNE.

Sent to Kingston.

Swift justice overtook Charles Prosser and Charles H. Goodwin, alias Wm. Williams, at the police court, this morning. Both were sentenced to three years in Kingston penitentiary for stealing copper band wires from the rails of the Springbank electric line. Detective Egelton, while making his daily visit to the junk and second-hand shops yesterday learned that over 50 pounds of copper wire had been sold for \$2 85 Marcel Hoehn, Burwell street, by the two men convicted this morning. Later it was learned that the wire had been wrenched from the above-ground rails of the Springbank line. Detectives Nickle and Rider arrested the two young men in the evening. In court this morning Manager Carr testified to the company's losing \$400 or \$500 worth of this wire in the past few months. The value of the wire recovered yesterday was about \$22 new, or \$35 when placed on the rails, or at the "scrap" basis on which the company is assessed, about \$9.In passing sentence the police magistrate said he believed Prosser to be the dupe of Goodwin, had tried to fasten the guilt on Prosser alone. Prosser has a police court record extending over some years, while Goodwin came recently from New York.

The demonstration in honor of the president's nomination lasted five minutes, and then the chairman called for nominations for the vice-presidency. Col. The demonstration which followed Col. Young's nomination of Governor Roosevelt, was not second to that accorded the president's name. The vast assemblage sprang to its feet, and state emblems, pampas plumes, handkerchiefs and hats fairly filled the air. 24 CARS SMASHED

Sections of a b. ten Grand Trunk Train Collide-Nobody Hurt.

Toronto, June 21.-Two sections of an eastbound freight train on the Grand Trunk Railway collided with great force in the yard just east of the Strachan avenue bridge last evening, and 24 cars were seriously damaged. The train was a "double-header," consisting of 60 cars, and was loaded chiefly with coal and grain. It had been made up at the Sarnia tunnel, and was on its way to York in charge of Conductor Ironside. The rolling stock suffered heavily, but none of the train hands were hurt.

The Traders Bank.

Splendid results are shown by a comparison of the statement of the Trad-ers Bank, printed in this issue, with the statement of three years ago. Within that period the business of the bank has experienced a steady and substan-tial growth in all branches. In 1897 profits of the bank were \$41,799, while this year they are placed at \$123,-770. This is an increase of practically 300 per cent in the earnings of the bank. The deposits have increased from \$4,-235,330 in 1897 to \$6,528,074 in 1900, the increase for the three years being \$2,-292,744. The loans have also grown by half. In 1897 the loans reported amounted to \$4,545,608, while now they are \$7,421,673, or \$2,876,065 more than represented in loans in 1897. Further evidence of the extension of business is found in the fact that the Traders Bank has now 22 branches within the province. The stock has also been in-

LARGIE.

Largie, June 21.-A barn-raising took place in Dunwich Tuesday, on the pre-mises of Mr. Alexander Willey. The building was 40 feet wide, 56 feet in length, with 24 feet posts, lying on a cement wall 21/2 feet in height. Fifty stalwarts were marshaled by Dougall McPhedrain and a like number under Peter Bennett. Dougail McLaughlin, directed the work, and the plates and rafters were placed in position in the unprecedented time of 61/2 minutes by the contingent under Dougall Phedrain, and in seven minutes by the second contingent. Some 35 fair ladies afforded inspiration, and an excellent repart was prepared by the hostess. Subsequently a hop was inaugurated, when Piper Duncan McMillan, of Dutton, charmed the clans. Mary Willey, the young daughter of Alexander Willey, of Dunwich, danced the Highland fling and the Irish Washerwoman, followed by Wm. Eustice, of Dutton,

who gave a number of popular dances. An Advertiser representative interviewed the venerable Elder Donald McMillan, whose intellectual forces are unabated, and who discussed the privations and vicissitudes incident to pioneer life. Mr. McMillan was born in Kilean, Kintyre, Scotland, on May 27, 1811. An Electric Phonograph.

ing the popularity of the bride.

The action of the phonograph in the various forms at present in use is entirely mechanical, although the motions involved are extremely minute. Danish inventor, Valdemar Paulsen, has recently devised a very ingenious instrument, in which electro-magnetism is used to produce and preserve the record. His "telegraphone," as he calls it, may be described as a telephone in which the voice may be magnetically "bottled up" and kept as long as desired. It is thus described in the Electrical World and Engineer (April 21) by T. C. Steenberg. Says this writer:

"The new and importance feature embodied in this phonograph is that, instead of the Edison wax cylinder for receiving and reproducing speech, Mr. Paulsen substitutes a steel band or steel wire. Moreover, this type of phonograph is intended to be used only in connection with a telephone.
"The steel band referred to passes

between the poles of a small electromagnet, the coil of which is connected with a telephone. The pulsations of the current caused by speaking into the telephone varies the strength of the electro-magnet, which in turn affects the magnetism of the steel band. The band is thus variously magnetized at different portions of its length, corresponding to the variations of the speech current, and will keep in this state for a long period. When again passed between the poles of the same or similar electro-magnet, it reproduces the initial variations of current, and the speech is again heard through the telephone. In this way the steel band people who know you intimately.

a great number of times.
"When it is desired to use the telegraphone to receive a new message, all this is necessary is to pass the band between the poles of a strong electromagnet or to send an electric curren through it. Then all the magnetism of the steel band will disappear and it

will be again ready for use."
The practical use of the invention, we are informed, was at first hindered by the fact that to receive a speech of any length a very long steel band was required. This drawback was over-come by Mr. Paulsen's assistant enginer, Mr. Petersen, who invented a device for recording several messages on the same steel band without confusion in reproduction. The telegraphone reproduces speech and singing very distinctly, and without alteration of tone.

To quote further:
"It is proposed to use the instrument in connection with telephone central stations, and it is already thus used in several places in Denmark. As an example of this application, the case will be considered of a telephone subscriber, A, who leaves his office, after having adjusted his instrument to receive messages during his absence. and also answer any inquiries concerning the time he will be back. B, another subscriber, rings him up. The telegraphone is put into action by the ringing up, and tells that A is not in, but that it will be pleased to receive the message for him. When this is re-ceived, B rings off and the telegraphone goes out of action. This can be repeated a number of times, and the messages then read by A when he returns. Such an arrangement has been introduced at Copenhagen, and is said to

work satisfactorily.' THEIR SUFFICIENT REASON. Miss Maison-Excuse my ignorance. but ought I call you Mr. Bones or Dr.

And yet I have been happy in a cottage, with only a simple, muslin dress," Dawn said, haif to herself, thinking of the dear old days with Jo-

sepha in the gardener's cottage.

The blue eyes turned wistfully to the sky and sea, and Mrs. Douglas, as she looked at the lovely, spirited face, thought that she had never beheld one to beautiful, although she had seen the beauties of every clime. She said, almost desperately:
"Miss Douglas, you will promise what

"I beg your pardon, my dear lady, but only think how ridiculous it would make your daughter appear if I should cut Mr. Tempest's acquaintance to hu-mor a jealous caprice of his betrothed. Would not her lover himself be offended by such a silly proceeding? Is it not a sacrifice of her pride, her dig-

nity, to stoop to ask so unusual a Mrs. Douglas felt the truth of the clearly spoken words, and flushed with shame at the task to which jealous Lettle had driven her. She said, low

and sadly: "Then you refuse?"
Dawn answered gently but firmly:

Mrs. Douglas rose instantly, her small head crested in wounded pride. "Then I have to apologize for having suffered my mother-love to induce me

to sue you in vain."

She was turning coldly away, but Dawn sprung up excitedly and caught

most betrayed herself. Mrs. Douglas looked at her in surprise, mixed with indignation.
"Do I love my daughter? What a strange question, Miss Douglas!" she exclaimed, haughtily.
Impulsive Dawn lifted the hand she

had caught in both her own and pressed it warmly to her lips. "I beg your pardon; I hardly realized what I was saying. I—I—have never known a mother's love," she said, abruptly, then turned hurriedly away.

CHAPTER XXXI. Days passed and Dawn became, as Mrs. Elmore had predicted, the belle of the Hygeia, but the laurels were not won solely on account of beauty She was intelligent, and her mind was stored with information acquired by a careful course of study and reading, and by an attentive observation dur-ing her travels. She was quick at repartee, brilliant, vivacious, evidently at her best, and the best men at Old were speedily enrolled among her admirers. She was kind to all, but it soon became an accepted fact that e favored one was Tracy Tempest. His devotion was so patent to all that it was openly talked of, and his fiancee was pitied for being betrothed to a man who had no love for her and was

nly taking her for her money. For him, he was being hurried down a stream he could not stem-borne down a current that was strong and resistless, although its banks were fringed with flowers and sunshine glittered on its waves. His soul had gone out to beautiful Dawn in the first hour of their meet-

ing, and every hour strengthened the power with which his sweet passion of love controlled him.

If she had been cold and scornful as Mrs. Douglas wished, it would have been the same. He could not have torn

had visited, of books they had read, meeting him in the field of culture with intellect equal to his own.

He was dazzled, enchanted by her charms, and silently cursed the fate that made it impossible for him to break loose from the tie that bound him to one unloved when this fair creature—his soul's true mate, as he believed—was ready to be won. He had not chafed so much until now against saving his father by marry-ing Lettie. He had thought that love was lost to him forever since that night when he had seen little Vixen for the last time—when he had lost her, as he believed, forever out of is life— For love may come and love may go, And flit like a bird from tree to tree;

Till Ellen Adair comes back to me!" Suddenly and without warning there had arisen to haunt him a beautiful ghost of that lost love—a girl with Vixen's eyes, and lips, and hair, only twenty times more beautiful, and with all the added charm of culture and

But I will love no more, no more,

It was these two latter that blinded him, as it had done all the rest, to her real identity. He had soon understood the haunting likeness she had to some-one in the past and the thought of how little Vixen came to him often when in her presence. Sighing, he wondered what fate had betallen the little maiden that no tidings of her ever came back to the old home at Sunnyside, where old Larvie et il. Jarvis still dragged out a lonely exist-ence, never speaking of the two girls who had once been the pride of his life. Poor old Jarvis! His mind was weak at times, and he wandered in his speech and seemed to live in the old times when his first wife was living, and Josepha was a playful little child. No sepha was a playful little child. No one had ever told him that Lettle had She was turning coldly away, but Mrs. Douglas wished, it would have one had ever told him that Lettle had been the same. He could not have torn his heart away.

was not a line in the letter to hint that his own daughter had usurped the place of Josepha's blue-eyed pet. Naturally, he supposed that the girl

he had driven from home—poor little Vixen, the foundling child—had by some strange chance of fate wandered away, and found the parents who had deserted her. He dismissed her from his thoughts and concentrated all his faculties on Lettie, the ungrateful girl who had deserted him as he feared, and dreaded, for a shameful life in the great sinful city.

"And he means it, too, for he keeps his gun loaded in the corner, by day and by night, to be ready when she comes," she added, wagging her sandy head sagely.

CHAPTER XXXII. It was not to be expected that Tracy Tempest's relatives should look on un-

moved at his madness.

They did not do so. His paternal relative entreated and expostulated. His invalid mother raved and wept hyster-

THE IDEAL WAY TO COOK

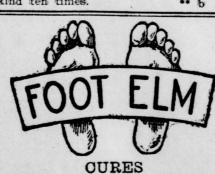

Is to Use a Cannom Summer Stove. Which Dispenses With All Heat, Dust and Discomfort-It Is Absolutely Safe.

Now the summer days are here, the weather, which daily is becoming hotter, causes the busy housewife to perspire over the old-time coal or wood fire, as she prepares the meals or does the family froning, and naturally she feels inclined to investigate any new methods invented to lighten her bur-

Scores of those seeking comfort in cooking have visited the new showrooms recently opened by the Cannom Stove Company, at 344 Richmond street, near the Grigg House, where courteous attendants are kept busy demonstrating the utility and absolute safety of various sizes of the Cannom Stove, for which a big demand has sprung up in an incredibly short time. It's a positive pleasure for women to work with them, for whether the work demanded is the cooking of a big dinner or the heating of an iron, the wonderful stove does its work equally

For the convenience of those unable to call during the day, the show rooms will be open every evening during the week, when attendants will be pleased to show the stove's many attractive points.

Practical demonstrations in cooking will be given on Friday afternoon, between 3 and 5, and in the evening, between 8 and 9 o'clock, when all who desire to be convinced of the stove's capabilities should make a point to call. The special discount prices which are being given this week, will be continued a few days more, so now is the time for people to do their buying. Ask to be shown the new enamel stovepipe, our own manufacture, and of handsome appearance, which is guaranteed to outwear the ordinary kind ten times.

THE SYNOD

Amendments to the Constitution -Annual Missionary Meeting.

The Synod of the Diocese of Huron resumed work at 2:30 o'clock yesterday

A message from the Synod of the Diocese of Niagara, conveying fraternal greetings, having been received, a reciprocal message was sent in re-

Rev. Dr. Cody, of Toronto, was admitted to a seat on the floor of the

Rev. W. J. Taylor then presented the report of the committee on temperance. It recommended: (1) That other temperance organizations, with a view to securing legislation in regara (a) to the total abolition of drinking saloons, (b) the amending of the license law so as to make the supplying of drink to a drunken man an indictable offense, (c) the making of habitual drunkenness an offense punishable by law; (2) that the habit of treating, which tends to foster drunkenness, should be discouraged both by precept and example by every mem-ber of the church; (3) that the regulations of the present license law should be sustained by a more efficient discharge of police duties, backed up by public opinion. The report stated that the committee had requested his lordship the bishop to send a message wishing Godspeed to the deliberations of the World's Tempercalled attention to the statement made by Field Marshal Lord Roberts specting our forces in South Africa viz .: "That it is the most temperate army that the nation ever sent forth to maintain her cause." was adopted.

Matters that had been referred to the executive committee were next considered. At the last synod the committee was instructed to consider and report upon the subjects of the special grants to the widows of the old commuted clergy that are made owing to the circumstances of the case. The recommendation that they continue was adopted.

Clause 2 recommended that clause 20 of the constitution be amended to read as follows: "In order to provide sufficient means to carry on the work of the diocese, each parish shall be required to contribute to the funds of the synod a sum amounting in the aggregate to not less than \$1 per annum from every family of the church in such parish (two or more persons of a common household, who depend upon the clergymen for spiritual ministrations, shall constitute a family), and the funds so raised, unless otherwise designated, shall be divided as follows: To the mission fund, four-eighths of the whole; to the general purpose fund, three-eighths of the whole; to the widows' and orphans' fund, one-eighth of the whole. Any unexpended balance of the general purpose fund shall be transfered to mission fund. In order to more fully promote the general work of the synod, annual subscriptions and donations shall be collected from each con gregation in such manner as shall be deemed most effective, and every endeavor made to augment the resources of the synod. An annual missionary meeting shall be held, or sermon preached in each church or other suitable place, and a collection made for the mission fund of the diocese. It shall be at the option of the clergymen to raise the contribution to diocese in the way best suited to the condition of his parish, or in the manner following, namely: That, in addition to the annual parochial collection for the general purposes of the synoi, six collections shall be made annually, the proceeds of two of which shall be devoted to the widows' and orphans' fund, and four to the mission fund."

clause was adopted after two following amendments had been lost: (1) by Judge Ermatinger, that church attendance be necessary to constitute a church family; and (2) by Rev. W. Craig, that the amount to be raised for the purposes of the synod be fixed by the executive committee on the basis of church population, amount of contributions by the parish, and the number of services enjoyed. The next clause recommended the adoption of the following canon on inadequate collections: "Any clergyman in charge of a parish where the collections ordered by the synod have not been made and forwarded to the secretary-treasurer of the syned, or where the collections shall appear to the bishop and executive committee to be inadequate, shall be summoned to appear before them, and give an explanation of such default. any clergyman so summoned refuse to appear and give an explanation, he shall be deemed guilty of contumacy, under canon xxii., 'on the discipline of the clergy' (clause 23, paragraph . 5). The executive committee shall report fully to the synod at its next meeting all cases of default and the explanations offered therefor."

The clause was under discussion when the synod adjourned.

service being conducted by the dean, Rev. Canons Richardson and Young. Rev. Professor Cody, M.A., of Toronto, preached the sermon, selecting for his text the words "Why could not we cast him out?" found in Matthew xvii., 9th verse. This question, the outcome of failure, was not meant on the present occasion to suggest that the Church of Christ had failed absolutely in its work. The results had been greater than had been deserved or expected. However, they had fallen short of all the Gospel had meant to effect. Hostile spectators often asked "Why can you not cast out evil spirits from society or from the Christian body itself?" Christ himself would have to answer the question. The fault did not lie with God or his gospel. The perpetual elements of an adequate and unchanging power that we have are: (1) a divine message, adapted to the deepest needs of human souls; (2) a power-giving spirit, who abides with us forever, a source which goes with the church throughout all ages; (3) a Lord who is the same yesterday, tothe synod invite the co-operation of day and forever, a living Christ. The other temperance organizations, with blame of our failure was attached to (1) our little faith, or our feeble realization of the gracious and almighty presence of Christ; (2) lack of prayer, which is the practice of the presence of God, at once the proof and nourisher of faith; (3) little self-discipline or abstinence from everything that impairs our fitness for service. Little prayer, little faith, little self-discipline spelled failure in the spiritual life, but these were not the reasons that are most frequently heard. Blame is cast upon methods of work, forms of presenting truth, ecclesiastical organiza-tion, lack of intellectual culture, too little or too much aesthetics, ignorance of sociology. There is doubtless room for improvement in all these fields, but the ultimate causes are deeper, and are indicated in our Lord's reply: Men are saved and demons exance Congress, assembled in London, pelled, not by the wealth, position or England; and finally the committee dignity of the church, but by the power of Christ working freely through the church, full of faith, fervent in prayer, and disciplined in

spirit. One of the last acts of the now defunct government of the Republic of Hawaii was to destroy 3,250 tins of confiscated opium, worth in the market about \$20,000, and captured from smugglers during the last several years.

WOMEN WILL TALK.

Can't Blame them for Telling each other about Milburn's Heart and Nerve

THE GREAT REMEDI FOR WEAK NERVOUS WOMEN.

It's only natural that when a woman finds a remedy which cures her of nervousness and weakness, relieves her pains and aches, puts color in her cheek and vitality in her whole system, she should be anxious to let her suffering sisters know of it.

Mrs. Hannah Holmes, St. James Street, St. John, N.B., relates her experience with this remedy as follows:—" For some years I have been troubled with fluttering of the heart and dizziness, accompanied by a smothering feeling which prevented me from resting. My appetite was poor and I was much run down and debilitated.

"Since I started using Milburn's Heart and Nerve Pills, the smothering feeling has gone, my heart beat is now regular, the fluttering has disappeared, and I have been wonderfully built up through the tonic effect of the pills. I now feel stronger and better than for many years, and cannot say too much in praise of the remedy which restored my long lost health."
