Cholera in Berlin.

BERLIN, Aug. 15.—Three Polish laborers died of cholera in the eastern quarter of the city to-day.

Victims of Yellow Fever.

HAVANA, Aug. 15.—The vital statistics of Havana for July show 126 deaths from yellow fever.

The Queen's Health.

COWES, Aug. 15.—The Queen is enjoying the best of health. She took a short cruise on the royal yacht to-day.

New Governor for Buenos Ayres.

LONDON, Aug. 15.—A dispatch received here says Gen. Olivera has been appointed Governor of the Province of Buenos Ayres in place of Gen. Costa, who was recently deposed by the radical insurgents.

A Gladstonian Loss.

LONDON, Aug. 15.—An election was held in the Herefore parliamentary district to-day made vacant by the retirement of W. H. Grenfell (Gladstonian). The seat was won by Radcliffe (Conservative).

Disastrous Storm in the Baltic.

ST. PETERSBURG, Aug. 15.—A fishing fleet was overwhelmed by a storm to-day in the Baltic of Hapsal, a sea port about sixty miles southwest of Revel. Many boats foundered. Seventeen are known to have been drowned and many others missing.

Canadian Cattle in England.

LONDON, Aug. 15.—The cattle markets are dull, owing to the heat. Ninety-five stone Canadians at Smithfield fetch 4s to 4s 2d, while 90 stone fat cows fetch 4s at Deptford to-day. Trade was slow. The primest beasts fetched 4s 2d per 8 pounds.

Serious Accident at a Review.

BERLIN, Aug. 15.—A review of the troops in the Moabit barracks was held yesterday by Emperor William. During the review a wall of a building collapsed. Many people were standing close to this wall when it fell and a number were seriously injured.

Great Losses of Goods.

BUDA-PESTH, Aug. 15.—The damage caused by the floods in Galicia and northern Hungary amounts to many millions of florins. At Vorasco a workshop was swept away and fourteen employes were drowned. Sixty persons are said to have been drowned at Rymanow, Galicia.

The Bombay Rioters.

BOMBAY, Aug. 15.—During the recent religious riots in this city, 1,500 Mohammedans and Hindoos were arrested. The number of persons who were killed is not known, but it is certain that the deaths are in excess of the number first reported. Many of the injured in the hospital will die.

"A Crazy Scheme of Crazy Men."

BERLIN, Aug. 15.—The confession of Herr Remler, formerly an assistant secretary in the Austrian foreign office, showing that he was working in conjunction with M. Pichon, a member of the French Chamber of Deputies, involves the leaders of the Hungarian independents in a scheme for bringing about an alliance of Russia, France and Hungary.

According to Remler's story he went to St. Petersburg and offered the Russian Government the aid of the Hungarian Radicals in a proposed attempt to force Austria to evacuate Bosnia. In exchange for this Russia was to assist Hungary to obtain independence.

The plan was disclosed to Kossuth, the Hungarian patriot now living in Italy, who pronounced it a crazy scheme of crazy men.

The Russian Government declined to enter into negotiations with Remler on the ground that the Hungarian Radicals would not be able to fulfill their promises.

Explosion of an Infernal Machine.

BERLIN, Aug. 15.—A square, heavy package addressed to Dr. Schwark, was received on Saturday evening at the Spandau postoffice. A clerk noticed something resembling gunpowder oozing from a hole in the wrapper. When he threw the stuff on a hot plate there was a slight explosion. He at once dropped the package in a bucket of water and carried the bucket to police headquarters. There, after the package had soaked for an hour it was taken out and untied. As the wrapper was unfolded a sharp metallic sound was heard, and the package exploded. Six police officials were stretched on the floor by the shock, and all the windows of the room were shattered. Nobody was severely injured, although three of the men were bruised and scratched. A workingman named Picokski, who recently was discharged from Dr. Schwark's service, was arrested last evening and confessed that he sent the infernal machine.

WIPED OUT BY FIRE.

A Disastrous Conflagration in Wisconsin.

WEST SUPERIOR, Wis., Aug. 15.—All day yesterday the atmosphere of this city was charged with smoke blown in from forest fires east of the city along the Duluth, South Shore and Atlantic Railway. The wires of the company are down, and it is impossible to get reliable information as to damage done. Bruce Crossing, a small town, 150 miles from here, was totally burned out Sunday night. A lot of rolling stock was burned, and it is reported the wife and child of a lumberman are missing and are supposed to be burned to death.

Matchwood, a town of 800 population, 150 miles from Superior, has been destroyed by fire and the woods are ablaze for miles this side of the town. Hundreds of persons are homeless.

BUFFALO, N. Y., Aug. 15.—The Coatsworth elevator was destroyed by fire early this morning. It had a storage capacity of 1,200,000 bushels, but it contained only 8,000 bushels of grain. Loss, $700,000.

LEXINGTON, Ky., Aug. 15.—The trotting stable of the well-known horseman, John D. Creighton, was burned at Doneral yesterday. Two well-bred fillies perished in the flames, and a third was badly injured.

INGERSOLL, Ont., Aug. 15.—To-night fire broke out in the residence of Mrs. Smith, Wanham street, directly south of the reservoir. The house was totally destroyed but the furniture was saved. It is thought to be the work of an incendiary. Loss partially covered by insurance.

THE COAL DEALERS SMILE.

A Severe Winter Predicted by Men of Science.

WASHINGTON, Aug. 5.—The celebrated German geographers at the Gotha Institution have sent the Naval Hydrographic Office some interesting forcasts deducted from the information supplied by the American establishment.

Only 13 icebergs found their way last month to the Gulf Stream from the Arctic Seas, against 75 last year. There have been reported that far south this year 68 icebergs to the 179 reported last year. The Germans believe that this lack of ice has a decided effect upon the temperature or the waters of the gulf stream, and that there have been in consequence few areas of low pressure or cyclonic condition between America and Europe.

The Gotha geographers believe that the temperature of the Gulf Stream affects the temperature of Europe, and upon this they base their forecasts, which predict a summer and autumn this year similar to that of last year. There will be, they say, an insufficient rainfall in the autumn and a severely cold winter.

FOUND BY A FIRE.

As the Husband Had Another Wife, No. 1 Merely Got Her Dower Rights.

NEW YORK, Aug. 15.—Mrs. Mary Bligh, of this city, read on Jan. 26 the story of a fire in Matthew Bligh's house, 505 Grove street, Jersey City. Bligh's little daughter Marcella was fatally burned, and Bligh himself narrowly escaped the same fate. He was so badly injured that he remained in the hospital several weeks. It was the first time that Mary had heard of Matthew in seventeen years. She went to the child's funeral and surprised the other Mrs. Bligh and all the assembled neighbors and friends with the announcement that she was Bligh's legitimate wife. She proved her assertion by producing a marriage certificate, showing that Matthew Bligh was married to Mary Reynolds on March 24, 1864. Bligh at first denied that the woman was his wife, but afterwards admitted it.

He and his wife separated seventeen years ago, and he married again and took up his residence in Jersey City. A brother who died in California left him some money, which he invested in real estate. At the time of the fire his property was valued at $12,000.

Mrs. Bligh No. 1 instituted proceedings for divorce, and Chancellor McGill granted her a decree a few years ago. The decree provided that Mrs. Bligh was entitled to dower rights in her husband's property. Bligh paid her $4,000 in cash, and was relieved from all further responsibility.

Bligh is a member of the fire department. Even his most intimate friends did not know the secret of his life until it was disclosed in consequence of the fire.

Bering Sea Arbitrators Give Their Decision.

The Seals Must Be Protected,

But No One Nation Can Control the High Seas.

PARIS, Aug. 15.—The decision of the Bering Sea Tribunal of Arbitration was handed down at 11:07 this morning.

The five points of article 6 are decided against the United States.

A close season is established, to begin May 1 and to continue until July 31. This close season will be observed both in the North Pacific Ocean and in the Bering Sea.

A protected zone is established, extending for 60 miles, around the islands.

Pelagic sealing is allowed outside the zone in Bering sea from Aug. 1.

The use of firearms in sealing is prohibited.

The American arbitrators have expressed their satisfaction with the text of the decision.

These are the points that were contested before the Bering Sea arbitration:

UNITED STATES' CLAIMS.

1. Dominion and right to legislate against foreigners in two-thirds of the Bering Sea.

2. A right of property in wild animals which resort for a certain season of the year only to United States territory, derive sustenance therefrom, and during the greater part of the year live many hundreds of miles away from that territory in the ocean.

3. The right to protect the alleged right of property by search, seizure and condemnation of the ships of other nations.

4. Failing the establishment of the right of property, the United States claims a right to protect the seals in the ocean, and to apply, in assertion of that right, the like sanctions of search, seizure and condemnation.

5. Failing these assertions of right, the United States claims that rules shall be framed in the interest of the United States alone which shall exclude other nations from the pursuit of fur seals.

BRITISH CLAIMS.

1. Freedom of the seas for the benefit of all the world.

2. That rights of property and rights in relation to property be confined within the limits consecrated by practice and founded on general expediency in the interest of mankind, the three mile limit.

3. That apart from agreement no nation has the right to seize the vessels of another on the high seas in times of peace for offenses against property, excepting piracy.

4. and 5. That any regulations to be established should have just and equitable regard to all the interests concerned.

Baron De Courcel, after the decision, thanked the arbitrators for the close and intelligent action they had brought to bear upon the case. Lord Hannen and Senator Morgan, in replying to the president of the tribunal, acknowledged his courtesy and hospitality.

The American arbitrators believe that the regulations decided upon by the tribunal mean practically the end of pelagic sealing, and that they are better terms than were heretofore offered to the United States by Great Britain as a settlement of the questions involved.

The treaty under which the Tribunal of Arbitration was appointed recites that the Governments of the United States and Great Britain being desirous to provide for an amicable settlement of the questions which had arisen between them concerning the jurisdictional rights of the United States in the Bering Sea, and concerning also the preservation of the fur seals in or habitually resorting to the said sea, and the rights of citizens and subjects of either country as regarded the taking of fur seals, agree to submit the questions to a tribunal of arbitration, to be composed of seven arbitrators, two named by Great Britain, two by the United States, one by France, one by Italy, and one by Sweden and Norway.

The arbitrators selected were: By the United States, Justice John M. Harlan and Senator John T. Morgan; by Great Britain, Lord Hannen and Sir John S. D. Thompson; by France, Baron de Courcel, who was subsequently chosen president of the tribunal; by Italy, Marques Emilio Visconti Venosta; by Sweden and Norway, Judge Gram.

THE COUNSEL.

PARIS, Aug. 15.—Aside from the arbitrators the personnel of the tribunal was as follows: Hon. John W. Foster (formerly American Secretary of State), American agent, and Hon. C. H. Tupper (Canadian Minister of Marine), British agent; E. J. Philps, James C. Carter, Henry W. Blodgett, F. R. Coudert and Robert Lansing, counsel for the United States, and Sir Charles Russell, Sir Henry Webster, Hon. W. H. Cross and C. Robinson, counsel for Great Britain; Major Elijah W. Halford, William Williams and Hubbard T. Smith, American attaches, and Arthur Cunningham, Ashley Froude, John C. Pope and R. P. Maxwell, British attaches.

Articles 2, 3, 4 and 5 of the treaty provided for the meeting place of arbitrators and for other matters in regard to procedure, etc.

FIVE POINTS TO BE SETTLED.

Article 6 was worded as follows: In deciding the matters submitted to the arbitrators, it is agreed that the following five points shall be submitted to them in order that their award shall embrace a distinct decision upon each of the said five points, to wit:

1. What exclusive jurisdiction in the sea known now as the Bering Sea and what exclusive rights in the seal fishery therein did Russia assert and exercise prior and up to the time of cession of Alaska to the United States.

2. How far were the claims of jurisdiction to the seal fisheries, recognized and conceded by Great Britain?

3. Was the body of water now known as the Bering Sea included in the phrase "Pacific Ocean" as used in the treaty of 1825 between Great Britain and Russia, and what rights it any in the Bering Sea were held and exclusively exercised by Russia after said treaty?

4. Did not all the rights of Russia as to jurisdiction and as to seal fisheries in Bering Sea, east of the water boundary, in the treaty between Russia and the United States of March 30, 1867, pass unimpaired to the United States under that treaty?

5. Has the United States any right, and if so what right of protection or property in the fur seals frequenting the islands of the United States in the Bering Sea which seals are found outside the ordinary three-mile limit.

Article 8 referred to the liability of each Government for the injuries alleged to have been sustained by the other on its citizens in connection with the claims presented and urged by it.

Article 9 provides for the appointment of commissioners to examine into the report on the question of damages.

Articles 10, 11, 12 and 13 relate to the payment of the expenses of the tribunal and to the time in which the decision shall be rendered.

Article 14 reads as follows: "The high contracting parties engage to consider the result of the proceedings of the tribunal of arbitration as a full, perfect and final settlement of the questions referred to the arbitrators."

Article 15 relates to ratification of the treaty.

AUGURY OF A BETTER ERA.

PARIS, Aug. 15.—Baron de Courcel in his address said they recognized the great value of arbitration as a cause of peace between nations. He expressed the opinion that every international arbitration renders war less probable, and said he looked forward to the time in the near future when it would be the rule and not the exception to settle international differences in this way. Senator John T. Morgan, one of the American arbitrators and Lord Hannen, one of the arbitrators appointed by Great Britain responded to Baron de Courcel, declaring that they reciprocated the sentiments expressed by him, and recognized the hospitality extended by France to the arbitrators. The session terminated amid mutual congratulations and expressions of good feeling.

STOPS PELAGIC SEALING.

The American arbitrators believe that the regulations decided upon by the tribunal mean practically the end of pelagic sealing, and that they are better terms than were heretofore offered to the United States by Great Britain as a settlement of the questions involved.

The seals begin to leave the Pribyloff Islands about Aug. 1, but as soon after that they begin to shed their fur, the time during which pelagic sealing can be made profitable will naturally, under the new arrangement, be brief. The killing season on the islands commences in the early summer or spring and continues until Aug. 1.

SOME OF THE U. S. SENATORS SATISFIED.

WASHINGTON, D. C., Aug. 15.—The decision of the Court of Arbitration in the Bering Sea matter appears to give general satisfaction to the members of the Senate committee on foreign relations, which committee had all those questions in charge when the treaty was before the Senate. Senator Butler stated that if he understood the brief dispatch that came early in the day aright the award gave even more than he expected. "I never believed," said the senator, "that the contention of the United States that the Bering Sea was a closed sea, could be maintained. The sea was too large a body of water for such a claim to be exercised over, and necessarily the court having decided against us on that point, the others incorporated under the first four sections of article 6 of the treaty, fall with it."

THE NEWS IN OTTAWA.

OTTAWA, Aug. 15.—Hon. Mr. Bowell, acting Premier, received the following cable from Sir John Thompson at noon to-day:

"PARIS, Aug. 15. — Hon. Mackenzie Bowell, Ottawa: Arbitration concluded and award delivered at noon. All questions of right decided in favor of Britain. Future sealing prohibited in May, June and July and firearms forbidden in Bering Sea. Indians on the coast are exempted. Tupper and I sail on Parisian on Thursday. THOMPSON."

MINISTERS ARE MUM.

Mr. Bowell had no comment to make on the advice as the fuller text of the award is necessary to a fair judgment on it. None of the other ministers cared to say anything on the matter.

There seems to be considerable doubt in the Government departments whether the decision in Britain's favor is really a very satisfactory one, but if, as the press dispatches intimate, it is decided that there shall be a "protected zone" of 60 miles around the Pribyloff Islands, there appears a possibility the

AMERICANS HAVE REALLY GAINED THE MAIN POINT,

so far as Canadian's sealers are concerned. Practically all the best sealing in Bering Sea is done on the Pribyloff Islands, where the seals are driven into inclosures and the finest killed with clubs or by shooting them in the immediate waters around the islands, where the seals seek their fish food. The Pribyloff Islands belong to the United States, and are therefore unattainable to Canadian or other foreign sealers. If, in addition, sealing is prohibited in the sea for 60 miles around the islands, it would appear to give the Americans almost a monopoly of the seals. This will be particularly the case when it is forbidden to hunt the seals with firearms anywhere in Bering Sea, as it is much more difficult to harpoon them than to shoot them.

A COMPROMISE.

MONTREAL, Aug. 15.—The Witness to-night says of the Bering Sea discussion: The decision of the Bering Sea arbitrators is not a complete victory for either Canada or the United States. It amounts to an utter condemnation of the United States for taking the law into its own hands, and seizing foreign vessels for taking seals either in Bering Sea or the Pacific Ocean, and the United States will be compelled as a result of the decision to apologize for its lawless course and grant compensation to the Canadian sealing vessels' owners and crews whom it outraged and damaged by seizures.

ON THE OTHER HAND

the decision will establish a 60-mile limit around the breeding islands instead of the ordinary three-mile limit and establishes a closed season against pelagic hunting, extending from April to July, inclusive, in the Pacific Ocean as well as in Bering Sea, and it will prevent the use of firearms, which, of course, will greatly hinder the success of the Canadians who kill seals on the high seas.

THE AWARD.

The text of the award runs as follows: We decide and determine as to the five points mentioned in article 6:

1. That by the ukase of 1821 Russia claimed jurisdiction in the sea, now known as Bering Sea, to the extent of 100 Italian miles from the coasts and islands belonging to her, but in the course of the negotiations, which led to the conclusion of the treaty of 1824 with the United States and the treaty of 1825 with Great Britain, Russia admitted that her jurisdiction in said seas should be restricted so as to reach a cannon shot from shore. It appears that from that time up to the time of the cession of Alaska to the United States Russia never asserted in fact or exercised any exclusive jurisdiction in Bering Sea, or any exclusive rights to the seal fisheries therein, beyond the ordinary limit of territorial waters.

2. That Great Britain did not recognize or concede any claim upon the part of Russia to exclusive jurisdiction as to the seal fisheries in Bering Sea outside the ordinary territorial waters.

3. That the body of water now known as the Bering Sea was included in the phrase "Pacific Ocean" as used in the treaty of 1825 between Great Britain and Russia.

4. That all the rights of Russia to jurisdiction and to the seal fisheries passed to the United States limited by the cession.

5. That the United States have no right to protection of, or property in, the seals frequenting the islands of the United States in Bering Sea, when the same are found outside the three mile limit. And whereas the aforesaid determination of the foregoing question, as to the exclusive jurisdiction of the United States, leaves the subject in such a position that the concurrence of Great Britain is necessary to the establishment of regulations for the proper protection and preservation of fur seals habitually resorting to Bering Sea, we assent to the whole of the nine articles of the following regulations as necessary outside of the jurisdictional limits of the respective Governments and that they should extend over the waters hereinafter mentioned.

PROVISIONS FOR PRESERVING THE SEALS.

Article 1. The United States and Great Britain shall forbid their citizens and subjects respectively to kill, capture or pursue at any time or in any manner whatever the animals commonly called fur seals within a zone of 60 miles around the Pribyloff Islands, inclusive of the territorial waters, the miles being geographical miles, 60 to a degree of latitude.

Article 2. The two Governments shall forbid their subjects to kill, capture or pursue in any manner whatever during a season in each year from May 1 to July 31 inclusive, fur seals on the high sea in that part of the Pacific Ocean inclusive of Bering Sea, situated north of 35th degree of north latitude or eastward of the 180th degree of longitude from Greenwich until it strikes the water boundary described in article 1 of the treaty of 1867, between the United States and Russia, following that line up to the Bering Straits.

Article 3. During the period of time in the waters in which fur sealing is allowed, only sailing vessels shall be permitted to carry on or take part in fur sealing operations. They will, however, be at liberty to avail themselves of the use of such canoes or undecked boats, propelled by paddles, oars or sails, as are in common use as fishing boats.

Article 4. Each sailing vessel authorized to carry on fur sealing must be provided with a special license issued for the purpose by its Government. Each vessel so employed shall be required to carry a distinguishing flag prescribed by its Government.

Article 5. The masters of vessels engaged in fur sealing shall enter accurately in an official log book the date and place of each operation, the number and the sex of the seals captured daily. The entries shall be communicated by each of the two Governments to each other at the end of the season.

Article 6. The use of nets, firearms or explosives is forbidden in fur sealing. This restriction shall not apply to shotguns, when such are used in fishing outside of Bering Sea during the season when such may lawfully be carried on.

Article 7. The two Governments shall take measures to control the fitness of the men authorized to engage in sealing. These men shall have been proved fit to handle with sufficient skill the weapons by means of which seal fishing is carried on.

Article 8. The preceding regulations shall not apply to Indians dwelling on the coast of the territories of the United States or Great Britain carrying on fur sealing in canoes or undecked boats not transported by or used in connection with other vessels and propelled wholly by paddles, oars or sails and manned by not more than five persons in the way hitherto practiced by Indians, provided that such Indians are not employed by other persons, and provided that when so hunting the Indians shall not hunt fur seals outside the territorial waters under contract to deliver skins to anybody. This exemption is not to be construed to affect the municipal law of either country nor shall it extend to the waters of Bering Sea, or the waters around the Aleutian Islands. Nothing herein contained is intended to interfere with employment of Indians as hunters or otherwise in connection with sealing vessels as heretofore.

Article 9. The concurrent regulations hereby determined with a view to the protection and preservation of the fur seals shall remain in force until they have been wholly or in part abolished or modified by a common agreement between the United States and Great Britain. Said concurrent regulations shall be submitted every five years to a new examination in order to enable both Governments to consider whether in the light of past experience there is occasion to make any modification thereof.

The arbitrators made a special finding on the facts agreed upon by the agents of both Governments with reference to the seizure of British vessels in Bering Sea in 1887 and 1889.

In addition the arbitrators made certain suggestions to the Governments, the most important being that they should come to an understanding to prohibit the killing of seals on land or sea for a period of from one to three years, and should enact regulations to carry out the findings of the arbitrators.

CANADA AND GREAT BRITAIN OUGHT TO BE SATISFIED.

LONDON, Aug. 15.—The opinion generally expressed here is that Great Britain and Canada have every reason to feel pleased at the result of the arbitration and the award. Sir John Thompson, Hon. C. H. Tupper, and Sir Charles Tupper are returning to Canada this week. They sail on the Allan line steamship Parisian on Thursday. Six of the British tenant farmers, delegates invited by the Canadian Government to investigate farming conditions in Canada, also sail by the Parisian. Eight other tenant farmers will follow shortly.

AN AMERICAN VIEW.

PARIS, Aug. 15.—In an interview given this evening Justice Harlan expressed the opinion, in agreement with John W. Foster, that the regulations specified by the tribunal would check pelagic sealing and thus go far towards accomplishing one of the chief aims of the United States. The general result of the arbitration, he thought, was far in advance of anything that the United States had demanded. The members of the tribunal reserved the right to prepare and file individual opinions in the case at any time before next Jan. 1. Justice Harlan will proceed at once to Switzerland to prepare there his opinion.

Sir Charles Russell, British counsel, and Sir Charles H. Tupper, British agent, have left for London. All the Englishmen connected with the tribunal are exceedingly reticent with their opinions of the decision and apparently are disappointed because it was not more unfavorable to the United States.

THE MATTER OF DAMAGES.

LONDON, Aug. 15.—Concerning the matter of damages the Paris representative of the Central News telegraphs: "The question of the amount of damages for seizures of British vessels in Bering Sea was not submitted to the arbitrators, but by mutual consent was reserved by treaty for future negotiations."

ENGLAND HAS CAUSE FOR CONGRATULATION.

Sir Charles Dilke said this evening that England had every reason to congratulate herself in view of the Bering Sea decision.

BRITISH PRESS COMMENT.

The Daily News says: "The decision is substantially in favor of the case advanced by England. Sir Charles Russell's powerful arguments convinced the arbitrators that we were legally in the right and the Americans were in the wrong. The American arbitrators and Sir John Thompson refuse to assent to the regulations. We have not the slightest doubt, however, that these regulations are wise and just. Even were they not it would be our duty to obey them, and we trust that no difficulty will be raised by the Canadian Government."

The Daily Telegraph says: "England may rejoice with Canada at the decision which is an equitable triumph of the new and peaceful international principle—reason in the place of force. Even had the arbitration resulted in favor of America we should have submitted with the best grace to the decision which removes a fertile source of bickering between the two countries."

The Times says: "On the broad question of international law the decision is wholly in our favor. In framing the regulations we have been somewhat less successful. The rules are conceived in a spirit according closely enough with that embodied in the British proposals, but it is probable that some of them will cause dissatisfaction in Canada. The Americans can hardly be expected to receive the decision with equal contentment, but we know our kinsmen too well to doubt for a moment that they will honestly and loyally accept the judgment of the tribunal to which they have voluntarily agreed to submit their claims."

The Standard says: "We are sure America will accept the award in cheerful good humor and apply it in perfect good faith. Nothing was left untried by either side to win the verdict, and in pronouncing the decision the tribunal has only affirmed and applied one of the best known and hitherto most unchallenged principles of international law."

A FIENDISH ACT

Which Resulted in the Death of Three Boys.

BEAVER FALLS, Pa., Aug. 15.—A fiendish act was perpetrated yesterday afternoon near Homewood, which resulted in the death of three boys to-day. Frank Graham, of Homewood, 17 years old, knew that three boys were hunting ground-hogs about a mile below the village. He got a can of blasting powder, attached a fuse, placed it in a little pile of rocks and waited until the young hunters neared the spot. Then he lit the fuse and crept off to a safe distance.

Burgess Reed, 16 years old, and James Reed, aged 14, with James Carney, aged 17, approached the spot entirely unconscious of danger. The can exploded, and all were maimed and burned terribly. They all died this morning. Graham made his escape and is still at large.

Live Stock Export Trade Demoralized

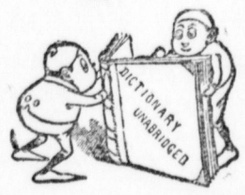

MONTREAL, Aug. 15.—The live stock export trade has gone all to pieces this year; so far only 45,012 head of cattle and 534 sheep have been exported, against 62,998 cattle and 14,278 sheep for the same period last year. Bad markets in England are responsible for this great falling off. Exporters have, as a usual thing, lost heavily on their shipments. Prices in Liverpool have declined 1½d per pound in the past three weeks.

THE GROOM FLED TO THE WOODS.

He Had Promised to Marry a Woman He Had Never Seen.

TOPEKA, Kan., Aug. 15.—Two months since Lillian Sheldon, of Little Rock, Ark., advertised in a matrimonial sheet for a gentleman correspondent. In due course of time J. B. Taylor, of Manhattan, Kan., answered. After a few letters had passed between them and without even the exchange of photographs Taylor proposed marriage, which was accepted.

Arrangements were made to meet at the Union depot, Kansas City, last Thursday. Taylor wrote Miss Sheldon to wear a pink ribbon on her shoulder so that he might recognize her. A few days previous, however, he had written a city officer of Little Rock for a description of his future wife. He received a reply last Wednesday saying she was fair and 40, and weighed about 170 pounds.

This settled the matter, and he did not go to Kansas City. His intended bride did so, however, and, failing to find her lover, poured her tale of woe into the ear of a depot matron, who urged her to proceed to Manhattan and make Taylor fulfill his contract. She followed this advice, and soon after she reached Manhattan.

Taylor learned of her arrival and went to the woods to hide. Miss Sheldon was not to be outdone. She went to his boarding house and waited for his return that night. He returned just after dusk and she demanded of him to do the right thing. After looking her over he compromised by buying her a return ticket to Little Rock and contributing enough money to pay her expenses in coming. She immediately returned, denouncing men as unworthy of confidence.

DISASTERS IN SOUTH AMERICA.

Fatal Epidemic of Yellow Fever — Alarming Times in the Argentine Republic.

BUENOS AYRES, Aug. 15.—The Cabinet crisis has caused general uneasiness. The repeated changes of Ministry have upset public confidence, and the political situation in this city is especially alarming. Menacing crowds gathered yesterday in the public squares and at several points in the suburbs. Troops were brought to the city in anticipation of popular disturbances.

PANAMA, Aug. 15.—A frightful yellow fever epidemic prevails in Amapala, Honduras.

COAL IN COLOMBIA!

An Important Discovery Officially Announced—Ten Thousand Square Miles of Coal Beds.

WASHINGTON, D. C., Aug. 15.—An important discovery of coal is authentically announced from the United States of Colombia. It is announced the coal deposits near the Gulf of Uraba, in the departments of Cancer and Bolivar, cover 8,000 square miles, and the coal beds of the Department de Magdalena 2,000 square miles. The coal is anthracite, bituminous and cannel, and the veins are from three to twenty feet thick. It is the property of the Colombian Government.

The Russian Government has decreed a severe code of punishment against duelling, which, it is thought, has become too common in the Czar's domains.

LATE RAILWAY NEWS.

NEW YORK, Aug. 15.—A special to the World from Utica says: John King and John McCullough, of New York, were appointed receivers for the Union Steamboat Company and the New York, Lake Erie and Western Railway for the northern director of New York by Judge Coxe yesterday.

An Old General's Many Sins.

TARRYTOWN, N. J., Aug. 15.—The elders of the Reformed Church of this village have excommunicated General Alexander Hamilton, whose second wife claims he is insane. The charges of family desertion and non-support, the excessive use of liquor and habitual use of profanity were sustained, and he was adjudged suspended from all the privileges of the church until he shall be able to establish his innocence, or until he shall express repentance to this consistory.

Among the pains and aches cured with marvelous rapidity with Dr. Thomas' Electric Oil is earache. The young are especially subject to it, and the desirability of this Oil as a family remedy is enhanced by the fact that it is admirably adapted not only to the above ailment, but also to the hurts, disorders of the bowels, and affections of the throat, to which the young are specially subject.

A Man Made Happy.—GENTLEMEN,—For five years I have been a great sufferer with Dyspepsia; the pain in the pit of my stomach was almost unbearable and life only seemed a drag to me. When I would go to sleep I would have horrible dreams, and my life became very miserable, as there was no rest either day or night. But with the use of only two bottles of Northrop & Lyman's VEGETABLE DISCOVERY this unhappy state has all been changed and I am a well man. I can assure you, my case was a bad one, and I send you this that it may be the means of convincing others of the wonderful curative qualities possessed by this medicine, that are specially adapted for the cure of Dyspepsia. A lady customer of mine had the Dyspepsia very bad, she could scarcely eat anything, and was troubled with pains similar to those I suffered with; and she cured herself with two bottles of Northrop & Lyman's VEGETABLE DISCOVERY. I wish you success with your medicine, as I am fully convinced that it will do all you claim for it.

WENTWORTH.

A report comes from Waterdown of a singular mistake that has been made by some of the farmers of the neighborhood. Mr. W. H. Crooker, of Waterdown, it is said, procured some seed from a Hamilton firm which he took to be turnip seed. He disposed of a quantity of it to several local farmers, who sowed their fields with it. It turns out, however, that the seed is rape seed, the product of which is perfectly useless except as a fertilizer. Thomas Bisley, it is said, sowed five acres with it, and Mr. Robert Speck did the same. Farmers James Blanchard, Archibald Robson and Charles Rolph have also been the victims of the mistake. It is said a law suit will result in consequence of the error, the local farmers intending to sue Mr. Croker for damages.

We have no hesitation in saying that Dr. J. D. Kellegg's Dysentery Cordial is without doubt the best medicine ever introduced for dysentery, diarrhœa, cholera and all summer complaints, sea sickness, etc. It promptly gives relief and never fails to effect a positive cure. DON'T WANT POLYGAMY.

Joseph Smith Talks About the Latter Day Saints.

Plurality of Wives Prohibited by the Book of Mormon and Distasteful to the Younger People of the Church.

NORTH ATTLEBORO, Mass., Aug. 15.—Joseph Smith, president of the reorganized Church of Jesus Christ of the Latter Day Saints, is at Plainville attending the annual camp meeting of the Massachusetts district of the church.

He is the eldest son of Joseph Smith, who claimed to have found revelations of God engraved on buried silver tablets, on the strength of which he compiled the Book of Mormon and founded the Mormon Church.

The present head of the Saints, as seen in his tent to-day, had a pleasing personality and the frankness characteristic of a Westerner. He is 60 years of age, of medium height, and a strong face, showing marked individuality.

"The practice of polygamy is now abandoned among us," said the Latter Day leader. "The young people in America do not want it, and only the past generation keeps it up, though we have advices that those in the country stick to the custom. It was for this reason that we split with Brigham Young in 1852, and he went to Utah with his followers. We now number 30,000, and have 400 churches, most of them in the United States. People labor under the idea that we are part and parcel of the Mormons, but that is a sad mistake.

"We have renounced polygamy in all its forms, and the younger portion of the community, who are gradually getting the reins of power, will allow nothing of the kind. Why, the book of Mormonism, which we believe, but placed second to the Bible, on which our religion is founded, prohibits polygamy, though this news may sound strange to the ears of outsiders.

"On this account Young could not maintain belief in both the book and his creed of multiple marriage, and that is why he started in on his own account. The Book of Mormon is simply a record of the doings of the people whom we believed first inhabited this continent, the forefathers of the American Indians and the mound builders."

"It contains God's revelation to them when he appeared to the people around Jerusalem. No direct mention is made in the Bible of this continent or its people, but there are references which show that God had knowledge of other people and another land. The Book of Mormon tells of these other people."

"We are used to being called cranks," said Elder Sheehy to-day, "and don't mind it a bit. If people don't believe as we do, we will not fight them. At all events, we are making convicts all the time, and that satisfies us."

SWALLOWED CARBOLIC ACID.

She Wakened Her Husband with a Kiss and Then Died.

GRAND RAPIDS, Aug. 15.—Mrs. Horace Rogers, wife of a street car conductor, committed suicide yesterday by taking one ounce of carbolic acid. She had been in poor health for some time, and the recent death of an only daughter upset her mind. Her husband was asleep at noon, when she awakened him with a kiss and fell to the floor, expiring in a short time. She left an incoherent letter, ascribing her action to poor health.

Ground Up in a Threshing Machine.

BAY CITY, Mich., Aug. 15.—Lester, the 15-year-old son of Webb Page, met with a horrible accident yesterday afternoon at 3 o'clock half a mile north of Kawkawlin village. The boy was working on a thresher, when he slipped and caught his left foot in the cylinder. In an instant the leg was drawn in by the rapidly revolving teeth and torn from the body, so that his intestines protruded. He died later in terrible agony.

Peace to His Ashes!

James B. Drake is no more. He was born near St. Thomas, Ont., about 40 years ago, and as soon as he was big enough commenced the manufacture of the seductive cocktail. The only thing he knew how to do besides tend bar will appear further on. He was recently sent to the Ontonagon County Poor House from McMillan township, suffering from a sore leg and a lame back. Last Saturday he went to the barn, fastened the door on the inside, fired 50 tons of hay and climbed upon the burning pile. Drake and a Jersey bull were cremated and their ashes mingle in a box that was interred near the site of the barn.—[Detroit Free Press.

Willing to Wait.

"Augustus," said Angelina to her lover, "you know that father has recently invested in an American silver mine, and is going there at once, and I cannot leave mother alone. So I ask you, dear Augustus, how long would you wait for me?"

"Wait for you, my darling?" exclaimed Augustus, "I will wait for you until we learn how the silver mine turns out."

Not Necessary.

"Do I make myself plain?" asked the angular lecturer on woman's rights, stopping in the middle of her discourse.

"You don't have to, mum," replied a voice from the rear. "The Lord done it for you long ago."

—[BROWNING.

London, Wednesday, Aug. 16.

THE city of Lansing, Mich., has increased its population 121 per cent., in the last thirteen years.

MATCHWOOD, the Wisconsin town wiped out by forest fires yesterday, seems to have been well named.

THE Chicago hotel, recently burned down with loss of life, was denounced by the firemen as a fire trap. Why are such taverns given licenses?

HUNDREDS of working men are out of a job in Toronto, and are appealing to the corporation for help. Suppose the Empire brags a little about this state of affairs.

CANADIAN mine owners say the United States silver difficulty cannot be too soon settled for their comfort. The silver mines in Sudbury district are shutting down owing to the unsettled state of the market.

SWEETS to the sweet! Intelligence from Chicago is to the effect that the maple sugar jury has finished its work and declared the Canadian exhibit the best in the fair, having the true flavor of the maple sap. According to the statement of Mr. Toucher, the superintendent of the agricultural department, it will gain the maximum of points and 50 per cent. added.

THE Toronto Telegram says that "With all its achievements the republic has not abolished poverty. It has not rooted up selfishness or planned an equal distribution of wealth." Will our contemporary tell us in what country poverty has been abolished, and in what favored land has selfishness been rooted out? We do not despair of the future, however. The world, despite adverse influences, is growing better.

STROMBOLI, the volcano which has been exhibiting renewed activity, while neighboring towns have been shaken by earthquake, is the northeasternmost of the Lipari Islands, in the Mediterranean, off the north coast of Sicily. It is nearly round, with a circuit of about twelve miles, and is wholly of volcanic formation, consisting of a conical bifurcated rock, rising to a height of 2,500 feet above the sea. At its western extremity is a volcano in almost constant eruption, the crater being on the northwest side of the mountain, about one-third of the way to the summit and 170 yards across.

SOUND the bugle! Blow the horn! Let pæans of praise be sung to the great N. P.! An Oxford county man has built a barn, and high tax editors throw up their hats all along the line with delight. Before "protective" taxes were collected from the farms, farmers had no barns. They lived in a state of primitive barnlessness. When they harvested their wheat, their barley and their oats they buried the crops in caves and in holes in the ground. And as for their cattle and horses, why these built nests in trees, and boosted one another into them each recurring night. What a revolution the N. P. has wrought! Three cheers for high taxation and the Oxford barn!

A TRIUMPH FOR PEACE.

Since the settlement of the Alabama claims by arbitration no more momentous question has occupied the attention of England and America than the preservation of the Bering Sea seals.

The Alabama claims were disposed of by peaceful means, and the irritating question of the protection of the seals in Bering Sea and the North Pacific has just been settled by equally pacific methods.

To-day we publish a cabled summary of the decision of the Tribunal of Arbitration which has been sitting at Paris. It is a compromise. Some of the contentions of the United States have not been maintained, but other vital points raised by counsel for the republic have been sustained, and it is reassuring to find that the United States arbitrators have expressed satisfaction with the text of the decision.

There is a great object lesson in this most important international arbitration. It was no mere question of the right of Canadians to fish in the Bering Sea that was at stake. The questions at issue were world-wide in their application. Primarily it was a question of freedom of the high seas, and that question alone is always of pressing moment to a great maritime trading nation like Great Britain. But Canadian taxpayers pay one-half of the arbitration costs because they are interested in the important business of seal catching, which, under the haphazard methods pursued by the sealers of both this country and the United States in recent years, bade fair soon to become a profitless occupation. The arbitrators have established regulations that will have the effect of restraining the rapacity of unscrupulous sealers belonging to both countries, and these precautions will undoubtedly save this valuable creature from total extinction.

Beyond and above all these results, however, is the triumph for peace and for unity of action in regard to all Anglo-American questions that this arbitration re-asserts. Time was when a bloody war would have been necessary to settle this or any other international question on both sides of which strong views were entertained. Now the world is called to witness representatives of both branches of the Anglo-Saxon family sitting side by side, calmly presenting the questions at issue to the judgment of jurists of tried ability, and loyally accepting their decision as binding.

This is a signal triumph for peace, and it betokens the coming of that day when there will be a moral, if not organic, union of the English-speaking race in Europe and America, one object of which will be to convince the other nations of the world how much better and more profitable it is, from every point of view, for brethren to dwell together in unity than to maintain immense and unprofitable armaments with which, at the smallest provocation, to murder neighbors.

ENGLISH AS TAUGHT IN A FRENCH-SPEAKING DISTRICT OF ONTARIO.

Another report on the schools of the French-speaking population of the counties of Prescott and Russell has been submitted to the Minister of Education. It shows gratifying progress, though a good deal of work yet remains to be done. As was the case in Essex when Dr. Ryerson was superintendent of education, it is always difficult to teach English in a French-speaking community, but since nine years ago, when Hon. Mr. Ross insisted that the teaching of English must be undertaken in every school, there has been steady advancement. In 1887 there were ten schools in which no English was taught; in 1888 there were six of these schools, and by 1889 the inspectors reported that English was taught in every school in Prescott and Russell. In May, 1889, Inspector Tilley, Rev. A. H. Reynar, M.A., professor of modern languages in Victoria University, and Rev. D. D. McLeod, Barrie, were appointed a commission to inquire into the whole subject of school education in the district. As instructed, the commissioners made various recommendations with the object of securing a more efficient English education in the French-speaking districts. These recommendations were adopted by the Government, and in May last, in order to discover what progress had been made in consequence, Hon. Mr. Ross re-appointed the commission. Its findings are now before us. In 1889 seventeen schools were classified very satisfactory, 21 as schools in which fair progress was being made, and in 18 the pupils knew very little English. In 1893 30 are classified as very satisfactory, 15 as schools in which fair progress is being made, and 11 are classified as inferior in knowledge of English. In a number of these schools, the proficiency of the senior pupils in English was highly creditable, and where the teachers exercised due tact even the younger children were being brought forward with marked success.

In the report for 1889 it was stated that of 69 teachers employed in the schools visited, only three had attended a high school, and only two had received any training in either model or normal schools in Ontario. In 1893, 47 had attended the model school at Plantagenet, one had attended the county model school, four had received normal school training, one had passed through the School of Pedagogy, and only three were teaching on permits. In 1889 the classification of the teachers taking proficiency in the English language as the basis of classification was: 26 good, 20 fair, and 19 not competent to teach English with any degree of efficiency. In 1893, on the same basis of classification, 51 are classified a good (of these 19 are excellent), 11 as fair, 9 as inferior and 1 as incompetent to teach English. The number of classes in English text-books other than readers has increased from 25 to 110. Twelve schools whose classes are included in these numbers are supplied with full sets of English text-books. The time given daily to teaching in the English language has increased by 50 per cent., or from 2 1-30 to 3 1-26 hours. Of the 3,640 French-speaking children on the roll, 3,581 are learning English, while of the 3,210 French children on the roll of 1889, only 2,484 were learning English.

In fourteen of the 30 public schools visited no religious instruction was given during school hours. In twelve of the remaining sixteen religious instruction was given after the regular work of the school, but the time for this had not been arranged by the trustees, as provided for by the regulations. In none of the public schools were there any emblems or pictures of a denominational character.

While no effort is made by the commission to show that the condition of the schools is as satisfactory as could be desired, it is made evident that marked progress has been made, with good hope for the future. We can now see how much can be accomplished by persevering, sympathetic endeavor. It is so much easier to coax than to drive.

French-speaking parents generally are anxious that their children should learn English, and they would be foolish if they put any obstacles in the way of the authorities. English is the language of the continent; it is the language of trade; it is the language required by any Canadian, be he of French or any other origin, to get along in the world, and without a knowledge of it he is at a disadvantage. If for no other reason every citizen of Canada should be able to speak and write English. If he has the additional accomplishment of knowing the French or German languages, or both, then he is so much better equipped to fight the battle of life. But he can more easily dispense with these than with English. Hence it is reassuring to learn that even in the district of the Province where the teaching of English was the least satisfactory, steady progress is now being made that bids fair to leave nothing undesired before long.

I Had Goitre

O'swellings in the neck since I was 10 years old; am now 52. I used Hood's Sarsaparilla recently and the swelling has entirely disappeared It has been very troublesome. When I began I was feeling so discouraged with the goitre and rheumatism I felt that I would as soon be dead as alive. Whenever I caught cold I could not walk two blocks without fainting. Now I am free from it all and I can truly recommend Hood's Sarsaparilla. I received a letter from Mrs. Jennie Bigelow, now of Fremont, Mich., asking if my testimonial in behalf of Hood's Sarsaparilla was true; I replied it was, and sent particulars. I have another letter from her thanking me very much for recommending

Hood's Sarsaparilla

and stating that she also has been cured." MRS. ANNA SUTHERLAND, Kalamazoo, Mich.

A BIG PULL.

The Zorra Team's Tussle at Chicago.

Wilfred Carsey Makes a Marvelous Home Run—Baseball Scores and Other Sporting News.

ATHLETICS.

THE BIG PULL.

Editor Stewart, of the Embro Courier, who accompanied the Zorra tug-of-war team to Chicago, gives the following account of the "pull."

It did not take many minutes to decide the first pull, for, inch by inch, the big Americans were pulled over the line, and then the cheering for the Zorras was simply deafening. Two thousand Canadian-Americans wanted to congratulate and shake hands with them. The second pull was won by the Americans. The third contest was a terrible trial of strength and endurance. The Americans were bound to win, but it was no use. They might as well try to pull Canada over to Chicago as get an inch of rope from our boys. When the Zorras pulled them over the mark there was big excitement, and no Canadian-American present could wish for greater honor than to shake hands with the champions. The Woods Bros., of the stock yards, Mr. David Sutherland, the Bayne boys, the Jeffrey Bros., the Griffith Bros., A. G. Murray, the Matheson boys, sons of Mr. Geo. Matheson, of Ingersoll, Fred Ward, Wm. Clubb, the Stewart boys, Geo. Sutherland, and John Jamieson, of the Western British American, Hugh Ferguson, the Murray boys, and many other old Zorra and Embro boys were present and joined in congratulating the victors.

It was announced that the cup would be presented on Thursday afternoon at the Festive Hall, on the World's Fair grounds, which was done by Mr. A. G. Murray, in the presence of thousands. When our team and Col. Munro and others from Embro were called to the platform, the immense building was rent with cheers, speeches were given by some noted Canadians, Hon. Mr. Awrey and others. After the presentation was made Mr. E. L. Sutherland replied on behalf of his team most eloquently, and seemed to be as unconcerned before the thousands of Chicago as he would be before a Zorra hundred.

BASEBALL.

MADE A HOME RUN.

A silent man accompanied by a young woman approached the turnstile at the grand-stand entrance to the Polo grounds on Saturday and attempted to force his way in without a ticket. Upon being confronted by one of the ground officials he pulled a summons out for one Wilfred Carsey, pitcher of the Philadelphia club, ordering him to appear in court in answer to a suit for breach of promise brought by the woman.

Now, Carsey was playing great ball upon the gate of the Eighth avenue end of the ground. He was handling tickets like a circus door-tender, and had both eyes on the turnstile. But when one of the New York players ran up to him and breathlessly told him that he was wanted, Wilfred decided that it was time to flee. So he dropped the tickets like hot potatoes, jumped over the turnstile and made tracks for the L station so fast that checkers could easily have been played upon his coat tails.

Meanwhile the silent man with the summons and the young woman walked into the upper tier of the grand stand and waited. They tarried there for just seven innings, and then, there being no Carsey in sight, they wended their way slowly southward. Carsey had about two hours' start and probably broke all existing records between this city and Philadelphia.—[New York Sun.

CHANGES PRODUCED BY CYCLING.

The bicycle has produced some queer changes. It is restoring the wayside inn, among other things. Along certain country roads not far from Boston, which are much frequented by wheelmen, and especially along those in the direction of the beaches, there are little summer restaurants or cafes which derive the largest part of their income from passing riders of bicycles. Ice cream, chowder, coffee, cakes and that sort of thing find a ready sale to parties of heated wheelmen, who sit upon open platforms and gossip with the waiter girls, who are generally of a nice sort of country persons, and presently they fare along the road again, quite like cavaliers of old.

THE BICYCLE FOR THE ARMY.

The War Office has taken the bicycle into its decided favor, owing to observations made as to its utility during recent manuevers; a large number are to be attached to each battalion. The volunteer corps of London have long since incorporated the bicyclist, and when they turn out and ride by the side of the corps they look well. As the colonel, usually the only mounted man, cannot very well be dispatched with a message from a corporal, a bicyclist volunteer comes in very handy. The regulars, when on foreign active service, would find a body of bicyclists amazingly useful, and good scouting would be done by them.—[From the London Court Journal.

AQUATIC

STANBURY WINS TWO EVENTS.

WARSAW, Ind., Aug. 15.—James Stanbury, of Australia, champion oarsmen of the world, won the mile race, with three turns. Time, 5:54.

He also won the quarter-mile dash in 1:02, defeating Charles Stevenson and Alex. McLean.

Cholera Patients Convalescent.

QUARANTINE, Aug. 15—9 p.m.—Health Officer Jenkins says: "There are no new developments at quarantine. All of the patients are convalescent. We are waiting for the period of detention to expire and there is every hope that no new case will develop."

A bottle of Angostura Bitters to flavor your lemonade or any other cold drink will keep you free from Dyspepsia, Colic Diarrhea and all diseases originating from the digestive organs. Be sure to get the genuine Angostura, manufactured by Dr. J. G. B. Siegert & Sons.

A Jersey cow owned by Joseph C. Sibley and Charles Millar, of Franklin, Pa., and valued at $10,000, has just died. During one year the animal gave over 16,000 pounds of milk.

No one need fear cholera or any summer complaint if they have a bottle of Dr. J. D. Kellegg's Dysentery Cordial ready for use. It corrects all looseness of the bowels promptly and causes a healthy and natural action. This is a medicine adapted for the young and old, rich and poor, and is rapidly becoming the most popular medicine for cholera, dysentery, etc., in the market.

IN LABOR'S FIELD.

The Manitoba Northwestern Railway employes have decided not to strike until the decision of the court is rendered on the case now pending.

The strikers at the Union iron mills of Carnegie's, Pittsburg, Pa., who quit work a year ago last July, to aid the Homesteaders, have declared the strike off. The mills have been in operation ever since and not more than 50 men attended the meeting, the others having left the city or accepted non-union places.

The Detroit News says: There is some prospect of trouble between the Typothetæ and the Typographical Union. The members of the latter organization take exception to Frank A. Reed, a stockholder of the Wilton-Smith Company, whom they charge with being a "rat," although employed in a union office. It is asserted that Reed was suspended from the Typographical Union about four years ago for non-payment of dues, which deprived him of his right to a card.

Live Stock Markets.

EAST BUFFALO, N. Y.

EAST BUFFALO, N. Y., Aug. 15.—Cattle—Thirty cars on sale; market active and a shade higher; choice 1,400 to 1,600 lb export cattle brought $4 90 to $5; good heavy weights, $4 60 to $4 90; fair 1,358 lb steers sold at $4 35, and down to $3 80 for light butchers'; about all sold.

Sheep and Lambs—Fifteen cars on sale; market very slow; the bulk of the offerings were common to fair, with few good sheep or lambs; sales of good to choice lambs at $5 to $5 25, and it took fairly good stock to bring $4 50 to $4 75. No good sheep were on offer, and choice would not bring over $4 to $4 25, but some extra export stock would probably sell higher.

Hogs—Receipts were about 7 cars. The market ruled strong and higher for light grades by 30c to 50c, and steady to easy for mediums and heavy grades; good light Yorkers and pigs brought $6 25 to $6 30, and heavy-weight Yorkers, $6 35 to $6 40; mediums and heavy were dull; choice heavy—too heavy for trade—sold at $5 60 to $5 65.

MONTREAL.

MONTREAL, Q., Aug. 15.—Trade exceedingly dull, and prices very low, there being no improvement on Thursday's low figures. A few of the best butcher's cattle sold at 4½c per pound, with pretty good stock at from 3½c to 4c; 39 young cattle at from 2½c to 3½c, and lean old cows at about 2½c per pound; a carload of township steers weighing about 1,100 pounds each were sold at 3½c per pound, and fifteen thrifty steers from Ottawa that averaged 876 pounds were sold at 3c per pound. Calves brought rather better prices than on Thursday, at from $2 50 to $8 each. Mutton critters are very low-priced excepting prime lambs; sheep sell at from $2 50 to $4 75 each, and lambs at from $2 to $3 75 each. Fat hogs were sold at from $5 90 to $6 50 per 100 pounds.

British Grain Trade.

LONDON, Aug. 14.—The Mark Lane Express, in its weekly review of the British grain trade, says: New English wheat is offered in provincial markets at 23s per quarter. Besides the serious deficit in the general yield of home-grown wheat, the yield of grain of milling quality is almost everywhere declared to be disappointing. Foreign wheat has declined 6d. At the close of the market in London to-day all breadstuffs were firmer. New English red wheat sold at from 26s to 30s and white at from 27s to 34s. American wheats were held for 6d advance. Oats were firm. Corn was steady. Fine flour was held for an advance. The price of rye, linseed and rapeseed favored buyers. The Agricultural Gazette published collated reports from 500 districts of the United Kingdom, showing that the cereal harvest this year is the worst since 1879. The hay crop is the worst ever recorded. Potatoes alone are above the average.

The Dairy Markets.

UTICA.

UTICA, N. Y., Aug. 14.—Cheese—Sales, 580 boxes at 8⅝c, 553 boxes at 8⅝c, 1,240 boxes at 8¾c, 2,046 boxes at 8⅞c, 1,090 boxes at 9c, 60 boxes at 9⅛c, 60 boxes at 9¼c, 823 boxes on commission; market steady.

A Narrow Escape.

While driving up Richmond street yesterday afternoon, Lieut. Carpenter, R. C. R. I., was thrown from his cart, the result of a collision with a telephone pole. The horse shied at a steam threshing engine. The harness was badly broken and the cart was slightly injured. Lieut. Carpenter escaped with a bad shaking up.

The Water is Rising.

At present the water in the reservoir at Springbank is ten feet deep. The public may expect notice through the press that lawn sprinklers may again be used, but when such notice is given it is requested that no water be wasted. Until the water commissioners grant permission no change must be made from the present state of affairs.

A Visitor from Germany.

There was an exhibition run of the fire brigade yesterday afternoon at 3:40. The alarm was sent in from box 51, at the corner of Queen's avenue and Waterloo street, and a stream of water was thrown within two and a half minutes afterwards. No. 2 and 3 brigades made splendid time considering the distances. The run was for the edification of Prof. Hubert Engles, of Dresden, Germany, his brother Hermann Engles, a merchant of New York city, and Mayor Flemming, of Windsor. Herr Engles is a professor of civil engineering in the employment of the German Government and has just returned from the World's Fair, where he has been representing his country. Both gentlemen are cousins of Mr. C. R. Howell, V. S., city.

Ticket Scalping.

Recently a case of an ex-ticket agent of the Canadian Pacific Railway—and therefore without a license—selling a return portion of a special ticket was tried in the Toronto courts. The ex-agent was heavily fined by the presiding magistrate. Attention is drawn to this particular case, as many people may not know the gravity of the situation if caught in the act of either selling, buying or using a ticket for railway travel other than that through an authorized agent. Should a portion of a ticket be unused, there are more ways and means of obtaining recompense for the same than that of procuring the assistance of a scalper, and a local representative of the railway issuing the ticket should be consulted.

London Township Affairs.

The meeting for the nomination of a fit person to fill the office of third deputy reeve of the township of London, made vacant by the death of Mr. Wm. Walker, was held in the town hall, St. Johns, at noon on Monday last. The following gentlemen were nominated: John R. Hodgins, Robert Little, John Noble and John W. Rosser. All resigned excepting John R. Hodgins, who was declared elected. A meeting of the council was then called by the reeve. After Mr. Hodgins had taken the declaration of office and qualification, R. Dreaney was paid $16 for four sheep killed by dogs and J. H. Hodgins was paid $23 25 for time lost and expenses incurred by him in reference to the Jackson trial. One hundred dollars was added to the road and bridge appropriation of each ward, and then the council adjourned till the first Monday in September.

Lanterns on Wheels.

Londoners are exceeding themselves just now in the matter of getting up display parades and processions the like of which are seldom seen in cities of much larger population. The bicycle parade last night was one of these, and more "ohs" and "ahs" went up from the assembled thousands on the streets as the pageant swept by than would go up from a Western Fair grand stand during a fire works display on countryman's day. There were probably 80 wheels in and out of line, but everything went. Carman and Robinson, the Toronto racers, headed the procession on high wheels, inside the spokes of which were advertisements of to-day's meet. The veteran wheelman, Wm. Payne, turned out with his tandem. Mr. Fred Lawrason appeared on a tandem ornamented with merry sleigh bells. Although not officially decided, the prize for the most artistic and unique display will probably be awarded to Mr. Wm. Abbott, who appeared with his wheel disguised as a three-masted vessel and received cheers all along the line. Many other decorations were worthy of more than passing mention. Among them were those of David Mills, Capt. Fred Scandrett, Bert Glover, President James McCormick, Geo. T. Mann, Dr. Belton, James Belton, Wm. Fitzgerald, and many others. Queen's avenue, Dundas street, King street and Victoria Park were all visited in the course of the parade. "H. M.S Clarke" drum corps, headed by Drum-Major Charlie Stevens, made capital music for the bicyclers. The boys looked well in their gay uniforms.

IN CONGRESS.

The Senate Waiting for the House to Act on the Sherman Bill.

WASHINGTON, D. C., Aug. 15.—It is now positively stated that until the House has finally acted upon the proposition to repeal the purchasing clause of the Sherman Act the Senate will do nothing in that direction.

THE GREAT SHOW.

Attendance Increasing—Great Masonic Congress.

CHICAGO, Aug. 15.—The paid admissions at the World's Fair yesterday were 106,537.

CHICAGO, Aug. 14. — Representative members of the Masonic order throughout the United States and the Canadas began a Masonic congress to-day in the twenty story temple here. About 250 members of all degrees were present to-day. Many more are expected. It is stated that the congress is in the nature of a reunion, but that an organization will probably be perfected. Entertainments and informal meetings have been arranged to occupy six days. The congress is said to be one of the most important non-legislative sessions of Masons ever held in this country.

CHICAGO, Aug. 15.—Ireland and South Australia were not represented yesterday at the great Masonic Congress which convened in the oriental consistory preceptory, but Masons from all parts of the United States and Canada were on hand as delegates from their respective grand lodges. It was a secret session, which will continue during the remainder of the week.

CHICAGO, Aug. 15.—Four hundred college boys who are known as chairpushers at the fair are on strike. Supt. Adams had posted a notice that on and after to-day there would be a reduction of 25 per cent. in the wages of the chairpushers. They have been paid $1 per day for 12 to 15 hours' work, with 10 per cent. of their receipts. Out of this they have been compelled to pay for their board and $20 for a uniform. The only reason assigned for the reduction is the bad condition of their business, but there does not seem to be any justification for the reduction on that score, judging by the increased attendance now.

An international ball and banquet has been arranged for to-morrow night on a big scale. It is to be given in the Natatorium and Model Vienna cafe on the Plaisance. The participants will include every nationality and tribe within the gates of the white city. It promises to be like a grand masquerade ball without the masks, and will certainly be the first event of such a character ever held. Over 700 foreigners of both sexes and all colors in their native dress will be on the ball room floor, and the dancing promises to be as unique as the kaleidoscopic appearance of the throng. The director-general has been invited to lead the grand march with an American woman, but he has the matter under advisement. The women from the beauty show and American Indians will be in the front of the motley marching column.

—The California banks refuse to advance money on the fruit and wheat crops. As a result many grain fields are going to waste. Thousands of orchards are also standing heavy with ripe fruit, because the owners cannot secure advances of money.

—The Minnesota constitution about five years ago was amended so as to declare certain forms of business monopoly a criminal conspiracy. Statutes enforcing this provision were enacted and a lumber combination in the State duly prosecuted. But the Minnesota Supreme Court has decided the anti-combine law unconstitutional. The judge who delivered the decision was elected by a combination of Republicans and Democrats. Minnesota's experience with trusts will strengthen the demand for the public ownership of the mines and virgin forests. The judges, like the coal mines, seem to be private property.

IS ECONOMY WEALTH?

"I tell you, young man, economy is the thing. Can't get rich without yer practice economy. Learn ter hang on ter yer money."

The speaker was a man who rents desk-room in a down-town office, where he transacts a little pension and other business. He addressed his remarks to the office boy, whom he had seen with a whole package of cigarettes.

"If ye'll jest hang ter what ye git you'll be rich some day. Now, I raised a garden this summer from which we got over $3 worth of stuff," he continued.

"Yes, and you've lost business by not being here when you was at home working in that garden," said the boy.

"Business isn't nothing! A bird in the hand is worth two in the bush. The garden was a sure thing. Folks as wants to see me'll find me. Jest yesterday my wife had a chromo which she got with a paper for which she raised a club last winter and she wanted it framed. It would have cost a dollar anyway to git it framed at a store. Well, I went over to the lumber yard, about eight blocks away and got a strip of pine for 30 cents and before noon I had dressed out as nice a frame, as ye'd care to see. I've got a set of carpenter's tools that cost about a hundred dollars. Now, when my wife gits some burnt umber and stains that frame it will be all right and at a cash outlay of only about 40 cents. Cut my thumb doing the work, but I don't mind that."

"Oh, that's where you were yesterda when a man called three times to see you. What shall I say if he calls again to-day?"

"Tell him if he wants to see me to come down to the house. I'm going to stay home to-day and whittle out some clothes pins for my wife. Last ones I made are all split but I ain't agoing to pay monopoly prices for machine-made clothes-pins when I can jest as well make them myself and save that much. Yes, young man, economy's the thing." And the speaker started home to take one more step toward riches.—[Waverly Magazine.

Wanted to Walk.

"I took a long walk yesterday," said Boreman, as he took a seat by Busyman's desk.

"Take another, old man," suggested Busyman; "it'll do us both good."

COAL DOESN'T HURT BY KEEPING.

Many other things are perishable, but no sort of weather affects coal stored away.

THAT'S ONE POINT.

Another is that coal is always cheaper in the summer than in the winter—it is easier to get—easier to transport.

THAT'S ANOTHER POINT.

Well, don't you think, or rather don't you KNOW, that you can save considerable on your coal by ordering now?

THAT'S THE BEST POINT.

DYSPEPSIA.

DR. RADWAY'S PILLS are a cure for this complaint. They restore strength to the stomach and enable it to perform its functions. The symptoms of Dyspepsia disappear, and with them the liability of the system to contract diseases. Take the medicine according to directions and observe what we say in "False and True" respecting diet. A few extracts from the many letters we are constantly receiving:

Dr. A. C. Middlebrook, Doraville, Ga.: "I use them in my practice and family in preference to all other pills."

T. A. Peters, Lancaster, Pa.: "I would not be without them. They are something every family should have."

Mrs. Caroline Monteith, Deer Creek, Ind.: "I believe my life has been saved by your medicine. Have long been suffering with Dyspepsia and Liver Complaint."

H. A. Carr, P.M., Escambia, Fla.: "Best Pills he has ever used."

Alice E. Ohaver, Mount Storm, W. Va.: "I positively say that Radway's are the best Pills I ever had for Dyspepsia."

Louis Costa, Camden, N. J.: "I always prevent Sick Headache by taking two at the first symptoms."

Dr. D. Hughes, Nicholsville, Ky.: Uses them in his practice and pronounces them without doubt the best in use.

Dr. Thomas J. Jones, Montague, Texas: Has used them for over twenty years and never failed with them in Malaria.

Mrs. George Lohmiller, Santa Fe, Kan., says: "They never fail to give satisfaction" and calls them a "family necessity."

We have received thousands of similar testimonials, and others are pouring into our office daily.

HIS REPENTANCE.

CHAPTER XLV.

HARD USAGE FOR DICK.

Do you remember the severe weather of the Christmas of 1860? How for once we had an old-fashioned Christmas day, when the icicles hung bright and frozen from the trees, and the ponds were alive with skaters, after the manner of the Christmasses we read of, of the days gone by. It was indeed a bitter winter, that at the close of 1860, and an unusual number of the poor and friendless, the sick and ailing, passed from its biting sharpness to a better world.

In the mind of one it almost seemed as though he had held some mysterious prevision of it; and that was Oswald Cray. When deliberating the previous autumn, whether he should go to Spain himself, times and again had the thought recurred to him—what if we have a sharp winter?—how will Allister weather it? And now that the sharp winter, more terribly sharp than ever Oswald dramt of, had indeed come, he was thankful to have sacrificed his own self-interest. In that more southern climate, Allister would not feel the cold of this; and it almost seemed as if the thought alone brought to Oswald his reward.

"Isn't it stunning, Aunt Bett?"

You will probably recognize the words as likely to emanate from nobody's lips but Dick Davenal's. Mr. Dick had arrived for the holidays; rather against the inclination as well as the judgment of Miss Bettina, but she did not see her way in courtesy to exclude him. Leopold had been in town with her since October, she and Sara nursing him; so it would have been unkind to keep Dick at school alone for the holidays. Miss Bettina said London was a bad place for Dick; he would be getting out, and doing all sorts of mischief; perhaps get run over, perhaps get lost; it was uncertain what; but Sara, in her love for the boy, promised to keep him in order and out of harm. A rash undertaking.

What of the Great Wheal Bang? The Great Wheal Bang was gone forever! It had passed away ignobly, never probably to be heard of as a mine again, except in name at certain law courts, to which some of its angry shareholders persisted in bringing it. Mr. Barker was abroad, and did not come home to face the storm; it appeared there was no law to force him home, the matters of the Wheal Bang escaped that; and he carried on a free-and-easy correspondence with some of the exasperated shareholders, who told him in their answers that he decidedly deserved hanging.

And Mark Cray? Mark Cray was nowhere. The defunct company did their best to find him, but, try as they would, they could not discover his hiding-place. They assumed he was out of the country, most probably with Barker, and perhaps their home search was, through that very assumption, less minute than it might have been. A run from danger is always more formidable than a faced one; and if Mark Cray had only faced those shareholders he would no doubt have found their bite less hurtful than their bark. That they were loud, and threatening, and angry, was true; but Mark would have done well to meet the worst and get it over. The luxurious house in Grosvenor Place had been long ago abandoned by Mark and his wife; and so temporarily had it been lived in, so fleeting had been the enjoyment of the carriages, the servants, the society, and all the rest of the accessories, that altogether that time seemed like a dream.

"Isn't it stunning, Aunt Bett?"

Dick was standing at the dining-room window, his sparkling eyes devouring the ice in the streets and the tempting slides in the gutters. A young gentleman who was coming to the house with a small tray of meat upon his back had just gone down one beautifully, and Dick longed to follow him. Leo stepped to the window to look, and thought he should like it too; but Leo was not in strong health, as Dick was.

"Isn't it what?" asked Aunt Bett, looking up quickly. "Raining?"

"Stunning," roared Dick.

"I wish you would learn to speak like a gentleman, Richard, and not use those expressions. If they do for school, they don't do for home."

"I have been oiling my skates this morning," continued Dick. "They are rather short, but they'll do."

"Oiling what?"

"My skates."

"What cakes?"

"Ska—a—tes, Aunt Bett. Everything will bear to-day."

"Nothing bears in London," said Miss Bettina. "You must not try it Richard A great many boys are drowned every winter in the Serpentine."

"What muffs they must be!" returned Dick; Aunt Bett, the ponds would bear you, if you'd put on a pair of skates and try. They'd bear me a hundred times over."

"Would they?" said Miss Bettina. She turned to Sara, who was busy at the table, and pointed with her finger to indicate Dick.

"I will not have him go into this danger. Do you hear, Sara? You undertook to keep him out of harm if he came to us, so see to it. Perhaps the best plan will be to lock up his skates. I don't want to have him brought home drowned."

Dick was resentful. He might have broken into open rebellion but for fear of being sent back to enjoy his holidays at school. He sat in a sullen sort of mood, on the edge of a chair, his hands in his pockets, clicking their contents about, and his boots beating time restlessly on the carpet.

"How it's all altered! he exclaimed.

"How is what altered?" inquired Sara. They were alone then. Miss Bettina had gone from the room to give Leopold his eleven o'clock dose of strengthening medicine.

"Since Uncle Richard's time. Why? he bought me those very skates last winter, when that frost came in November. That is, he sent word to school that I might have them. And then we had no more ice at all! and Uncle Richard kept wishing through the holidays there might be some for us! He'd have let us skate."

Sara was silent. Things had indeed altered since then.

"It's an awful shame of Aunt Bett! The ice stunning thick, and a fellow can't enjoy it? Drowned! She might get drowned herself, perhaps. But I shouldn't. Uncle Richard would have let us skate at Hallingham!" added Dick, excessively resentful. "He wanted us to skate."

"But I think it was a little different, Richard, dear. Those ponds at Hallingham were not deep; and people do get drowned in the Serpentine. And there's nobody to go with you."

Dick tossed his head. "Perhaps you think I want somebody! You had better send a nursemaid. Fine holidays, these are!"

A few more minutes of sitting still, and Dick could stand it no longer. He darted into the passage and snatched his cap. Sara, quick as he, caught him at the street-door.

"Dick, it must not be. You know I must answer for you to Aunt Bettina."

"All right, Sara. I'm not going near the Serpentine, or any other deep water."

"You promise?"

"Yes: on my honor, There! Why, I have not got my skates. I'm going up and down the street-slides; that's all. You can't expect me to sit twirling my thumbs all day in Aunt Bett's parlor, as Leo does."

She had no fear then. If Dick once gave his honor, or if put upon his honor, he could but be a loyal knight. Left to himself, no promise exacted from him, he would have decamped right off to the Serpentine, or to anything else mischievous or dangerous; but not now.

But Dick "took it out"—the words were his own—in street slides. All the most attractive ruisseaux within a few miles of home, Mr. Dick exercised his legs upon. It required a terrible amount of resolution to keep his promise, not to "go near" the forbidden water; and how long Dick stood in envy, his nose frozen to the park railings as he watched the streams pouring to the ice, he never knew. He was not in a good humor; the slides were very ignoble pastime indeed, only fit for street-boys; and he thought if there was one gentleman more ill-used than another that day in all Her Majesty's dominions, that one was himself.

Mr. Dick stopped out his own time. He knew that he would be expected home about one o'clock to have something to eat; but as nothing had been expressly said to him, he took rather a savage pleasure in delaying his return, punishing his hunger. He saw a man selling hot potatoes, and he bought three and ate them, skins and all. Dick was not in the least troubled with proud notions. Leo would have looked askance at the tempting edible, and passed on the other side; Dick danced around the man's machine while he feasted, in the face and eyes of the passers-by. If Miss Davenal had but seen him!

Altogether, what was the slides, the hot potatoes and the temper, Mr. Richard Davenal remained out long after dark. When he began to think it might be as well to return home, and to feel as if fifteen wolves were inside him fighting for their dinner, he was in some obscure and remote region of Chelsea, where the population was more crowded than aristocratic, and the ice abundant. Happening to cast his eyes to a clock in a baker's shop, he saw that it wanted but 25 minutes to 6.

(To Be Continued.)

A Sure Remedy for Neuralgia.

Neuralgia is one of the most common and distressing complaints incidental to this climate. It is not confined to any particular season, for whilst most general in the winter seasons, yet many suffer its excruciating agony in the heat of summer. In late years this form of disease has become better known, and consequently the means of relief have become greatly increased in numbers, as well as in efficacy. Among the most powerful and penetrating combinations, placed within the reach of the public for the relief of neuralgia, we can mention no remedy equal to or more certain than Polson's Nerviline. Its power over pain is something wonderful, and we advise a trial for neuralgia, or any other painful complaints.

The world's agriculture occupies the attention of 280,000,000 of men, represents a capital of $224,000,000,000, and has an annual product of over $20,000,000,000.

A Cure for Dyspepsia.

Dyspepsia is a prolific cause of such diseases as bad blood, constipation, headache and liver complaint. Burdock Blood Bitters is guaranteed to cure or relieve dyspepsia if used according to directions. Thousands have tested it with best results.

In the fifteenth century the bishops and monasteries of France, England and Germany did an extensive business in coining money under royal sanction.

A wonderful new combination is R. Stark's Headache, Neuralgia and Liver Powders, nice to take; perfectly harmless. Mr. Wills, chief of police, Woodstock, says: "A sure cure every time." Ald. Farmer, barrister, Hamilton, says: "I experienced almost immediate relief from their use for sick headaches." Mr. Mercer, contractor, Hamilton, says: "I consider them a very valuable remedy, and far surpassing many others I have tried." Mrs. Gaston, Hamilton, says: "I have derived great benefit from them, having been a long time a sufferer from headache, biliousness and neuralgia." Mrs. Crist, Hamilton, says: "No medicine or doctors did my daughter any good until we used Stark's Headache, Neuralgia and Liver Powders; they have effected a complete cure." Mrs. Keats, Hamilton, says: "Your powders have been the greatest blessing to me." Price, 25 cents a box. Sold by all medicine dealers.

Rheumatism in the Knees.

Sirs—About two years ago I took rheumatism in the knees, which became so bad that I could hardly go up or down stairs without help. All medicine failed until I was induced to try B.B.B. By the time I had taken the second bottle I was greatly relieved, and the third bottle completely removed the pain and stiffness.

"Is that Lake Michigan?" inquired the tourist. "Well," returned the native, proudly, "that's a part of it; you can't see it all at once."

A mans' wife should always be the same especially to her husband; but if she is weak and nervous, and uses Carter's Iron Pills, she cannot be, for they will make her "feel like a different person." at least so they all say, and their husbands say so too.

For fifteen years we have used Dr. Fowler's Extract of Wild Strawberry as a family medicine for summer complaints and diarrhœa, and we never had anything to equal it. We highly recommend it.

FUNNY FOOTWEAR.

An Interesting Exhibit at the Big Show.

Shoes Natty, Outlandish, Handsome, Ugly and Unique.

CHICAGO, Aug. 15.—Big shoes, little shoes, old shoes, new shoes, shoes from the orient, the occident, the tropics and the Arctic regions are exhibited in the shoe and leather building at the fair.

Heads of great shoe firms seem to have their fads the same as autograph or stamp collectors, except that their fancy runs to footwear. The more outlandish in design and the more strikingly colored the material, the better is the shoe collector satisfied. On the main floor of the building there are handsome cases filled with footwear which cause those who admire natty pedal coverings to linger and admire the display. But a long glass case extending nearly around the building has the greatest attraction for curiosity-seekers. It is in this case that the manufacturers of modern shoes have placed their oddities until an international congress of footwear has been formed. Here is to be seen a pair of shoes which weighs but four ounces, and have a tinkling bell concealed in the high heels. Straw sandals no longer than a baby's slipper come from Kioto, Japan, where they make life miserable for the young ladies who wear them. Shoes like those worn by the donkey drivers in Midway Plaisance have found a place in the case and their plain red leather uppers with pointed toes form a strong contrast to the bespangled and elaborately embroidered sandals from Agra, India. Then there are flat cloth shoes with no soles and heels which protect the upper part of the foot of the water carriers of Alexandria, Egypt.

There are shoes for all kinds of weather, straw mats worn on the feet of the natives of Bhotean, India, where the sun heats the pavements to a blistering temperature and wooden clogs with stilts attached, worn by Japanese tea pickers in rainy weather. From Switzerland come shoes worn by glacier-climbers, made of heavy, solid leather, and with soles covered with spikes like those of a baseball player. Russian boots all wrinkled about the legs and with wooden soles. Canvas slippers with rope soles come from Uruguay. Spain exhibits some frivolous footwear worn by the be-wigged and be-powdered last century fops. France shows a pair of boots purchased in Paris by Prince Shouisski, of Russia, for 3,000 francs. As becomes the exclusive dignity of the gorgeous coverings of royal pedal extremities, they have a section of the case all to themselves. The foot is of white undressed kid, the boot legs of white velvet embroidered in gold with precious stones glittering in the open work of the design.

There are hundreds of queer and quaint designs in the case other than those mentioned, which have been collected from distant parts of the world, the whole forming an exhibit well worth seeing and which is a source of constant enjoyment to devotees of shoe-ology. On the north wall of the building is a collection of pictures. Each is the likeness of the footwear of the ancients. There are plain pieces of hide fastened to the foot with a thong of leather and boots and shoes thousands of years old which do not differ materially from those worn by the artisans of to-day.

Prepared hides and skins in hundreds of varieties are exhibited. There are some curiosities in the leather business in the building. The hide of the biggest horse in the world, tanned with the hair and heavy mane and tail, is exhibited. There is a tanned walrus hide an inch thick and large enough to make a good-sized tent. A tanned elephant hide over which it has been found necessary to station a special guard to prevent persons from cutting off pieces of the hide to carry away as souvenirs. An important place in the display is occupied by leather for decorative purposes. There are tanned snake skins, alligator hides and morocco leather in this department of the exhibit. There are specimens of leather tanned by all kinds of processes, and pieces of hides which have laid in the vat for years. A sample of all machinery used in the construction of shoes is shown in the gallery. In one exhibit young women in black dresses and broad white collars make shoes while you wait. One can watch the piece of leather from the time it is cut out of the hide until the last girl puts the bottom on it and hands out a complete shoe for inspection.

ROYAL ARCH MASONS.

The Grand Chapter of Michigan and Ontario Elects Its Officers.

GRAND RAPIDS, Aug. 15.—At the annual meeting of the Grand Capter, Colored Royal Arch Masons, of Michigan and Ontario, held here yesterday, Grand High Priest Prince reported seven chapters in good standing and three others on the way. Officers were elected as follows: Grand high priest, James F. Scott, Chatham, Ont.; deputy, William Carter, Detroit; grand king, George H. Hughes, Hamilton, Ont.; grand scribe, Stephen Robinson, Detroit; grand secretary, James A. Bell, Grand Rapids; grand treasurer, J. J. Adams, Grand Rapids; captain of the host, Elisha Hunter, Detroit; principal sojourner, J. C. Richards, Chatham; royal arch captain, S. Harris, Detroit; grand master third veil, O. Hall, Jackson; second, W. F. Brown, Windsor; first, T. J. Johnson, Hamilton; grand chaplain, J. C. Wilmore, Chatham; grand sentinel, C. J. Dean, Windsor. The Grand Commandery, Colored Knights Templar, will meet tomorrow.

IMPROVED PROSPECTS.

Fifteen Thousand Men Given Employment in Pittsburg.

PITTSBURG, Pa., Aug. 15.—The outlook in the iron and steel trade is brighter than at any time since the closing of the mills for annual repairs and the shortage of currency. At Jones & Laughlin's several departments have resumed operations, and 500 additional men were given work. Arrangements are in progress for resumption in the steel department in a few days. Both Carnegie's local mills and the Beaver Falls plant will be in operation this week, as will also probably be Zug & Co.'s works. The Braddock wire works at Rankin Station started up after two months' idleness, giving employment to 700 men. A number of departments of the National Tube Works has resumed work, and the National Rolling Mill will start on Wednesday. Next Monday the Black Diamond Steel Works will start up in all departments. The works were running about half time, but when the resumption takes place the full quota of 4,000 men will be employed. These mills will give employment to upwards of 15,000 men.

In an interview at Niagara Falls the other day Rev. Dr. Talmage expressed the opinion that the hard times would soon pass away. He thought it would be a good thing if the press and public speakers would endeavor to persuade the people that times were not so bad.

BABY'S POISONOUS BEDFELLOW.

Mrs. Williamson's Terrible Experience with a Rattlesnake.

LAKE CHARLES, La., Aug. 15.—The wife of a lumberman named Williamson a few days ago had a novel and terrifying experience with a rattlesnake. The Williamsons live near here in a small cabin on Lake Calcasieu. Mrs. Williamson had left her 6-months-old baby asleep in its cradle, near the open door, and was going about her household business, when she happened to approach the little bed to look at her child, and to her horror saw a line of mottled green and black nestled close to the form of the peacefully sleeping little one. The ugly head was raised and resting on the child's arm, with its eyes keeping drowsy watch over it.

The mother sank, nearly fainting, on the floor, but with a parent's bravery realized that the snake must be dislodged at any cost to herself, as at the first or slightest movement of the babe the cruel fangs might be buried in its flesh. It was necessary also to act with speed, so arming herself with a pistol belonging to her husband, she bent over the cradle, and with one rapid gesture laid hold of the snake by the end of its tail and as suddenly gave it a jerk which landed it on the floor. The creature made at her with uplifted head, sounding its dreadful rattle as it coiled to her feet. But, aiming steadily, she put a ball through its body, and although it again tried to attack her, she fired again and again, and succeeded in killing it. As it died it flung itself upon her foot and struck the shoe with its fangs, but it was only the death agony, and the blow served only to entangle it in the tie of the shoe, to which it was still clinging when her husband reached her, having heard the shots and run to her assistance.

Four Ladies Drowned.

CHATTANOOGA, Tenn., Aug. 15.—The steamer Gunter, having on board the Magnolia Club of this city on their annual outing, ran down the little naphtha launch Cigarette, having on board four gentlemen and four ladies. The little launch was caught under the end of a barge attached to the steamer, and was sunk. The four men were rescued, but the ladies were all drowned by being caught by the current under the barge. Their names are Mrs. Charles Reiff, Mrs. George Reiff, Miss Wagner and Miss Webber.

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhœa and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."
DR. G. C. OSGOOD, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."
DR. J. F. KINCHELOE, Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."
H. A. ARCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

1817—Henry Winter Davis, statesman, born in Baltimore; died 1865.
1832—Senator Ben H. Hill died at Atlanta, aged 59.
1892—Desperate fighting between miners and militia at Oliver Springs and Big Mountain, Tenn. Troops suppressed the rioters at Buffalo.

LONDON AND ENVIRONS.

—"What! Go to the ant?" said the sluggard; "What a waste of my strength it would be! To the picnic I'll hie, and I'll sit by the pie, And there let the ant come to me."

—Hay was $8 50 and $9 a ton on the market yesterday.

—Master Arthur Brock, of Horton street, is camping at Goderich.

—Mr. Henry E. Nelles and wife have left for a trip up the lakes.

—Mr. and Mrs. J. Bernstein, Maple street, city, have gone to Montreal.

—Miss Minnie Bradford and Miss Quirk, city, are visiting Mrs. Jury, Toronto.

—Weigh Scales Clerk Healy and wife have returned from the World's Fair.

—Mrs. G. Hilton, of Elmwood avenue, has returned from a visit at the seaside.

—Mr. Donald Spence, of the G. T. R., leaves on Thursday on a trip to Mackinac.

—A male patient who escaped from the asylum was caught near St. Johns yesterday.

—Miss Lucia Moore, of Belmont, is visiting with her sister, Mrs. Capt. Moore, Elmwood avenue.

—Miss Nellie Wilkins, of South London, is home after spending a month with friends in Sarnia.

—Mr. J. A. Murray and family have returned from a few weeks' vacation with friends in Seaforth.

—Mr. O'Hara, of Toronto, who recently purchased a large quantity of London debentures, is in the city.

—Rev. J. R. Gundy will dedicate the new Methodist Church, con. 7, London township, on the 27th inst.

—Rev. B. Clement, pastor of London West Methodist Church, has gone to Chicago to visit the World's Fair.

Several porches are being built to the entrances of the London West public school. Mr. Lozer has secured the contract.

—Miss Belle Saunders has been presiding at the Dundas Street Center Methodist Church organ during the absence of Prof. Birks.

—Prof. Saunders, of the Experimental Farm, Ottawa, was in the city Monday and left for British Columbia in the afternoon.

—Among those who assisted in the service of praise at Port Stanley Methodist Church, were Misses Rossiter and Friend, of this city.

—The bricklayers' and Masons' International Union at their meeting Monday night decided to do their part towards making Labor Day a success.

—James Gray, of Parkhill, has been arrested by Constable Manes, of that place, charged with the theft of some wheat. Squire Wells committed him.

—Mrs. W. Nichol, of Ilderton, and Mrs. A. Corp, of London Ont., sister and niece of Rev. T. A. Scott, are visitors at his residence.—[Port Huron Times.

—Hugh Galbraith, the talented young dancer, of this city, won the valuable gold medal for Highland dancing, at the C. O. F. demonstration in Woodstock, yesterday.

—Ann Small, of the Wharncliffe, London West, has been summoned by a neighbor, Maggie King, on a charge of abusive language. Squire Lacey will hear the case on the 16th.

—Superintendent Morford, of the M. C. R., has issued an order to conductors enjoining upon them not to accept passes upon the L. and P. S. R. unless signed by him or some other officer of the company.

—Capt. Gardiner and Traveling Passenger Agent E. J. Gunn, of the Grummond's steamers are in the city. The captain is preparing for two large crowds on Saturday night and Monday morning excursions to Cleveland via steamer Flora.

—The financial district meeting of the St. Thomas district will be held in the Methodist Church, Melbourne, on Sept. 19 at 9:30 a. m., followed by the district Sunday School Convention commencing at 2 p. m. Afternoon and evening session.

—A few days ago Mr. John Benedict, night dispatcher at the C. P. R. station here, attempted to get off a moving express at the Waterloo street crossing. Through some mischance he was thrown to the ground and as a result has been unable to work since.

—The steamer Flora brought 153 passengers from Cleveland to Port Stanley yesterday. The trips by this boat are becoming very popular. Capt. Gardiner is an efficient and obliging officer, and wins the confidence of all with whom he has any dealings.

—The first quarterly convention of Church Workers was held Monday at the Southern Congregational Church. The reports from the different secretaries were satisfactory. After partaking of the refreshments provided by the ladies the company broke up in good spirits.

—The drum corps of the Young Liberal Fleet accompanied the lantern parade of the London Bicycle Club last evening. Two new drill corps were formed at the rink Monday. They were composed of young men who came forward eager to join. Many more are following their example.

—Inspector Crawford received an anonymous letter complaining of the howling of a dog said to be confined in rear of a house on Wellington street, opposite the park. On investigation the inspector found that the dog was not ill treated in any way, consequently those who complained of the howling cannot invoke the aid of the Humane Society to stop it.

—Mr. Thos. Phelan, buyer for C. S. Hyman & Co., has just returned from the Chicago markets, having completed shipments of 10,000 steer hides purchased there. The following appears in "The Shoe and Leather Review," Aug. 12, under the heading, "Brighter Days." "When Canadian tanners come on the market with their sacks of gold, and cart off hides by the thousand at receiver's prices, it is a sign that the end is near."

—Some people act as if they think that it does not cost anything to put a line of type in a newspaper. It does, though, and if for the benefit of an individual, he should be willing to pay for it. If no one else pays for it, the owner of the newspaper does. Space in a newspaper is the owner's stock in trade. He can no more afford to give it away than a grocer his groceries, or a haberdasher his haberdashery, or a baker his bakeries, or an oysterman his oysters. He has it for rent, and he can no more afford to furnish it free than a landlord can furnish rent free.

—The steamer Flora arrived in Port Stanley yesterday with about 153 passengers and considerable freight. This short route from Cleveland is becoming very popular, and the experiment by the Grummond company of putting the elegant steamer Flora on the route has proved more successful than was anticipated. Capt. Gardiner, the genial, courteous commander, is ever on the alert in looking after the comfort and pleasure of his passengers. Preparations are being made for the expected large excursions next Saturday night and Monday morning. The trip to Cleveland is undoubtedly one of the best for pleasure that Londoners can participate in.

Resignation Not Accepted.

At a special meeting of the members of the First Congregational Church held Monday the resignation of Rev. R. Aylward as pastor of the church was rejected by a large majority.

Rebuilding the Breakwater.

That omnipresent breakwater question was given another swing Monday night at a special meeting of the London West Council. It was decided that David Petch's tender for the rebuilding of 350 feet at Collins' ice house—at $1 35 per foot—be accepted. Work will be commenced immediately.

Police Court Notes.

The case against Edward White and James Hobbins, charged with assaulting and wounding John Remagnano, an Italian, was partially aired in the Police Court yesterday. Owing to the absence of a material witness, the further hearing of the charge was postponed until Friday. Joseph Paladino acted as interpreter for the complainant. The charge of using abusive language preferred by Eugenia McMillan against Catharine Lynch was withdrawn. Thomas Powers, charged with carrying a pistol with intent to do injury, was fined $20. It appears that he pointed the weapon at John O'Hearn. Arthur Hewitt, who was scattering hand bills on the street promiscuously, was discharged on suspended sentence.

Sending Letters in Newspapers.

The Postoffice Department has issued a notice stating that the inclosing of a letter or any writing serving the purpose of a letter in a newspaper, or in any other article of mail matter passing at less than letter rate, is an offense at law punishable by a fine of not less than $10. Several convictions have lately been had under this section of the Postoffice Act, and postmasters are requested to exercise the utmost vigilance to prevent frauds of this character. A question having been raised several times lately as to the postage rate on cut flowers, postmasters have been informed that cut flowers are classed as fifth-class matter, rate 1 cent per ounce.

A Hebrew Wedding.

A unique event took place in the council chamber of the City Hall last evening. This was the marriage of Miss Rosa Bernstein to Mr. David Shipirn. A temporary canopy had been erected in the center of the compartment. Under this the groom took his position. He stood directly before the Rev. S. Rosner, chaplain of the Jewish Benevolent Society, who was to perform the ceremony. He was attended by Messrs. M. Copper, S. Goldstick and Abe Lehrfeld. Shortly afterwards the bride, accompanied by Miss Rosenthal, Miss Sarah Bernstein and Miss Goldberg, made her appearance. A brunette of pronounced type, she was attired in cream satin. After the nuptial knot had been indissolubly tied, Mayor Essery delivered an address. A wedding breakfast was then partaken of by the two hundred guests present. Dancing was indulged in until a late hour.

London Bicycle Club's Races.

A large number of racers, who are to compete in the London Bicycle Club's meet to-day, have arrived in the city. They were practicing on the course in Queen's Park in the afternoon, and assert that it is in condition for fast time. The first event will be called at 2 o'clock, and the public are asked to be in their seats by that hour. The Seventh Battalion Band will while the waiting minutes. The committee having under charge the arrangement of the contestants in the three-mile handicap race have placed the positions as follows: Dawson, Ware, Stanton, 600 yards; Beltz, Allsopp, 550 yards; Bennett, 525 yards; Hitchcock, Devine, 450 yards; Baldwin, C. H. White, 425 yards; McKillar, Symington, Livingstone, Walker, J. F. White, 400 yards; Manville, Deeks, Blayney, Young, Gordon, 375 yards; Lyons, Proctor, 350 yards; Miln, 300 yards; Dasey, E. J. P. Smith, 175 yards; Wm. Carman, W. Cleveland, 150 yards; Robertson, B. Cleveland, 100 yards; Hyslop, Blake, scratch. The list of entries has now been closed by the addition of these names: F. S. Gordon, Hamilton Bicycle Club, Hamilton; J. Miln and W. Hyslop, Toronto Bicycle Club, Toronto, and Thomas Proctor, Royal Canadian Bicycle Club, Toronto. Over 50 entries have been received in all. Hyslop, the Canadian champion at all distances, will compete in every open event.
