Examine our Instructor Shoe carefully.

See how well it is put together. Nothing is skimmed. No other shoe is made like this.

The sole is of oak-tanned leather cut from the centre of the hide where the leather is tough and even grained.

The uppers are cut from Dongola kid that won't scuff off or peel.

The soles are sewn by our patent process of lock stitches sunk in a channel so the sole may be worn three-quarters away before the threads will cut.

Best of all for those little growing feet, the Instructor Shoe is modelled on anatomical lines. It lets the foot lie flat and grow as nature intended it should.

If you have suffered from corns and bunions you know what life-long foot-joy the Instructor Shoe means to your children's feet—you'll see that their feet are never cramped and distorted in the ordinary children's shoe.

If your shoe man can't supply you, write us, we'll tell you where you can get Instructor Shoes—the only kind made in Canada that allow the feet to grow naturally.

You'll know them by the name stamped on the sole—we put it there because we're proud of the shoes.

NOTED TRIP OF ARMY AERONAUTS

German Officers Sweep Over the North Sea to the Middle of England.

London, April 29.—Two German aeronauts have accomplished the feat of travelling from Leipzig, in Germany, to Leicester, in England, a distance of 550 miles.

They alighted at Enderby, near Leicester, at a quarter past 3 on Thursday afternoon, and came to London yesterday to narrate their experiences. Dr. Kurt Wegener, who was in charge of the balloon, is an experienced aeronaut, and is the holder of the record for the longest balloon voyage, namely, 53 hours. His companion was Adolph Koch.

"We went up," Mr. Koch said, "at a place named Bitterfeld, near Leipzig. We wanted to go up as high as possible, but if circumstances were favourable, a very great altitude being attained, we were ready to travel as far as we could across the surface of the earth. Our balloon, a large one, was inflated with hydrogen gas, which has four times the lifting power of ordinary lighting gas. We had ample supplies of ballast in the car, as well as provisions for two days, including tea, red wine, eggs, sandwiches and meat."

"The evening was dark when we went up, and there was a fresh wind blowing. We found it would be impossible for us to go very high, so we set off with the wind across Germany. Beneath us as we travelled we could see the lights of the towns and villages, the atmosphere being slightly illuminated by the reflection of the lights from the mist above us. It was about 10 o'clock when we saw the Hart Mountains looming in the distance, and as we did not wish to crash into them we threw out several bags of ballast and shot up into the air. We crossed range after range, descending slightly into the valleys as we went."

Lost Bearings.
"Our journey across the mountains occupied nearly an hour and a half. We had got well past them, when we found we had lost our bearings, and were travelling rapidly through the dark night, with no idea of where we were. True, the wind was more or less easterly, and we knew we must be travelling toward the coast, but that was all. When day broke we could see beneath us the canals and villages of Holland, and we knew we were well on the way to the North Sea."

"It was about midday that we heard the sound of the water beating on the Norfolk coast. We did not exactly know where we were, because the mist hid the land from us, but subsequently we proved to be near Cromer. We got our first glimpse of England almost as soon as we were over the land, the mist breaking away and giving us a splendid panorama."

"Neither Dr. Wegener nor myself had visited England before, and we were delighted at its beauty. The verdure and the cultivated fields, the villages and the meadows pleased us greatly; and so we went on until, having reached the middle of England, we decided to come down."

Almost Hit Engine.
"It was near Leicester, while we were descending, that we narrowly escaped disaster. Along a country road a traction engine was dragging several vehicles behind it. Sweeping along

Violent Earthquake Severely Shakes Canada

ONE OF AN UNUSUAL TYPE, BUT EVEN MORE SERIOUS THAN ORDINARY.

We hear and read of violent earthquakes in the West Indies, San Francisco and Mexico, with great destruction of property and human life. A most violent earthquake shook Canada the other day, and while the seismograph did not register the undulations the vital statistics of Canada made a record that the vibrations are still very marked in the hearts and consciences of thoughtful people. When it was officially announced that the earth had opened its hungry mouth and received 10,000 victims of tuberculosis, or consumption, and 17,000 other victims of pneumonia, la grippe and other pulmonary diseases, Canada received an earthquake shock tenfold more serious than any of those mentioned, but by many regarded as the visitations of an "Inscrutable Providence." If even a small proportion of these people who have gone down to untimely graves had been aware, or had any true friend, be he physician or relative, to have advised them that by the use of Psychine their chances for life would have been as 90 to 100, how many badges of mourning would have been unworn, and how many thousands of valuable lives would not have gone out in darkness as monuments of almost criminal neglect or ignorance, rather than "visitations of Providence." Thousands of happy restored consumptives and victims of pneumonia, la grippe and many other fatal diseases, who have been snatched from the verge of the grave and brought back to health and friends and home, join in mighty chorus: "Psychine saved me."

"I think there is nothing to equal Psychine for its wonderful health-giving qualities. I took cold on my lungs I was very bad. Psychine cured me, once. My nephew, too, had a dreadful cough about a year or two ago. Doctors said his lungs were badly affected, but thanks to Psychine he is now a big, strong young man. I will always recommend Psychine. It saved two of us."

over the surface of the ground we just missed it. A few seconds later our car was bumping on the meadow. We raised ourselves by the ropes above the car, meaning to jump, and then we were suddenly flung headlong over the side in the bounding progress of the balloon. The car alighted on top of us, and we were a little knocked about and our clothes torn. A minute or two later we had the willing help of some workmen, and a Mr. Johnson, who owns a country house near there, was kind enough to invite us to his place."

This is the first time that a voyage has been made by a German balloon to England. Both the aeronauts are officers in the reserve of the German army.

JOTTINGS FROM NEARBY PLACES

HARRIETSVILLE.

Harrietsville, April 30.—Mr. and Mrs. Thomas Rodway, who lived on the fourth concession for a number of years, have moved to London, where they intend to reside.

Wilson Bros., Woodstock, have a force of men employed here getting out square timber for export.

Mr. and Mrs. D. F. Kunz, of White Oak, spent Sunday with relatives here. Mrs. E. Locke, of Belmont, is the guest of her parents, Mr. and Mrs. W. H. Jelly.

Miss Morton, of Toronto, is visiting Mrs. H. W. Yorke.

Mrs. Finlay, of Blenheim, was a recent guest at the home of her father, James Eaton.

Mr. and Mrs. Mitchell, Salford, visited relatives here. Mr. Adams is having a new building constructed, to be occupied by the Sovereign Bank, who intend to give a daily service here, instead of two days a week, as at present. The bank's interests are being well looked after by the manager, Mr. Watts, who is making every effort to meet the needs of the many patrons of the institution.

A busload of Springfield members of the Masonic Order paid a fraternal visit to Moffatt Lodge, of this place, on Wednesday night, to witness the conferring of degrees on some new candidates for the local lodge.

The death of Mrs. Hamilton (widow of the late Daniel Hamilton) occurred on Wednesday at her late residence in the seventh concession of South Dorchester, aged 83 years. By her death the township loses one of its best citizens, who, in the active part of her life, was a most welcome guest in the many homes at which she visited during hours of affliction and sorrow. The deceased was a Miss Wright previous to her marriage to the late Mr. Hamilton. The funeral took place on Saturday to Dorchester Cemetery. One son and four daughters survive: Stephen and Mary, at home, the married daughters being Eliza, Ellen and Martha.

POPULAR HILL.

Popular Hill, April 30.—Mr. and Mrs. Ira Owen were visitors here on Sunday.

Mr. Duncan McIntyre has decided to go west for the summer.

Spring seeding is about finished in this neighborhood.

Messrs. M. J. Glass and Charles Johnston were among the speakers at the convention held last week in Strathroy.

Now that the weather is looking more like spring, the local boys need to hurry up matters if tennis is to boom again this summer. A meeting for the election of officers and other business for the coming year is slated for next week.

Miss Minnie Zavitz, of London, is spending a short vacation at her home here.

Mr. and Mrs. A. E. Ladell, of London, spent a few days in the village, visiting relatives last week.

Messrs. Lorne and Manford Barclay visited St. Thomas friends on Sunday.

Mrs. Sarah Webster is slowly recovering from the effects of a paralytic stroke.

Mrs. Catharine Zavitz, of Wallaceburg, is visiting her daughter, Mrs. D. R. Owen, of this place.

Mr. N. J. Zavitz is quite ill.

MIDDLEMISS.

Middlemiss, May 1.—Mr. Dan Deow paid Dutton a flying visit on Friday.

James Battin shipped a carload of horses to Toronto on Saturday.

Mr. and Mrs. George Davis visited Glenora last week.

Mrs. John Annett leaves this week for Regina, Sask., where she joins her husband, who went some time ago. Mrs. Annett will be greatly missed among her many friends, both old and young, who all wish her happiness and good fortune in her new home.

KOMOKA.

Komoka, May 1.—A most enjoyable time was spent at the social evening given by the Y. P. S. of the Presbyterian Church at the home of Mr. James one evening last week.

Mr. Alfred Abrey paid a flying visit to Mount Brydges last week on important business.

Miss Florence Jones has been spending a few days at her home here.

Miss Robina and Master Oliver Mowat, of London, spent Sunday at Sprucehurst Villa.

An organization of the M. Y. O. B. Club would be most advisable in this village. Messrs. Frank Beattie and Mark Mullen, former operators at the G. T. R. depot here last week, are renewing acquaintanceships here last week.

Miss Jean Morgan and Miss Nellie Clench attended the Teachers' Association meeting at Strathroy last week, and report a most interesting and instructive meeting.

Mr. and Mrs. Thomas Fawkes, of London, spent a short time here this week.

The Sacrament of the Lord's Supper will be held in the Presbyterian Church on Sunday next. Preparatory service will be held on Friday evening.

Mr. Peter Morrison spent Sunday at his home here.

Mr. Alex. Doan paid a short visit to his friends in Mount Brydges last week.

Two mail order houses, installment, have opened for business in Chicago, and the results are awaited with interest by tradespeople.

THE WATER SUPPLY.

Colonel Little explains that his esti-
mate of the cost of a separate high-
pressure system, submitted in his ad-
dress on the water supply question at
a meeting of the board of trade, pro-
vided for a sedimentation reservoir,
and the necessary pumping plant for
lifting the water. The capital cost of
the Maury scheme of river filtration is
estimated at \$429,000. Deducting the
cost of collecting the water of the
White and Cronyn springs along the
north branch, the sand filter, covered
storage reservoir, and the second main
from Springbank to the city, all of
which are unnecessary under a separate
system, the cost of the latter, accord-
ing to Engineer Maury's figures, would
be \$223,000. This sum includes \$118,000
for over twelve miles of new mains.It would be safer, however, not to rely
upon one man's figures, but to have a
report from another source.
The sedimentation of river water
would, we believe, render it entirely
suitable for street watering, factories,
and fire protection. Financially the
dual system has a great advantage
over the Komoka or the river filtration
schemes. It will cost less money to
install, but will effect a greater re-
duction of insurance rates. For the
purposes of fire protection the dual
system is the only one which entirely
conforms with the requirements of the
fire underwriters. It would also post-
pone for an indefinite period the use
of river water for drinking purposes.**SCORE ONE FOR CONCILIATION.**
Most gratifying to all Canadians will
be the news contained in the message
from the Deputy Minister of Labor,
who is on the scene, that there is
every prospect of a settlement of the
British Columbia miners' trouble. A
basis of agreement satisfactory to the
operators and the executive of the Mine
Workers' Association has been reached,
and there is every reason to believe
that in the referendum vote tomorrow
it will be endorsed by the men at the
mines. Should such be the final result
it will vindicate the Minister of Labor
in framing and securing the passage of
the trades disputes act.As yet it has been impossible to get
an intelligent idea of the cause of the
trouble at Fernie, in view of the fact
that the statements issued by the op-
erators and the miners treat of entirely
different matters, but there seems no
doubt that there was a violation of the
law when the workers went out on
strike before a board of conciliation
had held an investigation into the
points at issue. Results, however, have
clearly shown that the Dominion labor
department made no mistake in re-
fraining from drastically enforcing the
trades disputes act on the first occur-
rence of its violation. Besides, it is
quite evident that the men, in taking
that step, felt there was no other
course open to them, in view of the fact
that their former demands were met by
the operators posting notices of wage
reductions. This latter, as the deputy
minister explained in an address to the
men a week ago, was a formal
infringement in accordance with the
law, which permits each side to
make public proclamation of its
position. Had the operators actually
put into operation the reductions with-
out waiting until a conciliation board
had investigated and reported they
would also have violated the law. Not
until after the board has reported and
if efforts at conciliation have failed to
bring the workers and operators to an
agreement are the men at liberty to
go on strike. The law can only pro-
vide means of arbitration and concilia-
tion before differences are carried to
the length of a strike or lock-out. If
no agreement can be reached, the find-
ing of the arbitrator is published, but
no act does not compel any man to
work against his will, or force any em-
ployer to continue to carry on his busi-
ness if he chooses not to. In securing
fair settlement of such differences,
public opinion counts for much.It is significant that, so impressed are
the labor leaders with the wise pro-
visions of the trades disputes act, the
re-president of the United Mine
workers of America, who is at Fernie
unseeling the men, comes out vigor-
ously in favor of observance of the
law, regarding it as one that makes for
peace. The success of the first test
of the working of the act will mark anew end in the settlement of disputes
between capital and labor in America,
and will doubtless make easier the
averting of strife when next the act is
put into operation.

MUNICIPAL REFORM.

A few months ago the subject of re-
form of municipal government engaged
not a little attention in this city. It
formed matter of debate by the Cana-
dian Club, and while there was a
marked diversity of view as to the best
method of civic management, all
seemed agreed that there was vast
room for improvement. In the current
number of the Outlook is an interest-
ing article on this subject, being a de-
scription of what is known as the
"Texas Idea," which had its birth in
Galveston immediately after the dis-
astrous tidal wave that overwhelmed
and destroyed a large part of that
city. Galveston had been given over
to the control of a horde of grafters
and corruptionists of the worst char-
acter, and in such a crisis the most
drastic action was found imperative.
The result was that authority was con-
ferred on a few men to do their best
for the city, and they took hold of
civic affairs as business men would
deal with a great business project.
Houston, a city of the same state, was
attracted by the magnificent results
achieved in Galveston. It began by
securing a new charter, and com-
pressed its ponderous political organi-
zation into a compact working ma-
chine. As at present constituted Hous-
ton's municipal government consists of
a mayor and four aldermen, who look
after the large interests of the city,
and, of course, being paid liberal sal-
aries. The result has been to show that
centralized authority makes for effi-
ciency. In the event of anything go-
ing wrong it is impossible to shift
responsibility, for everyone knows upon
whom to place the blame. The plan is
also found to make for economy and
honesty as well, the officials having
no friends to reward or foes to punish,
and they realize that upon their record
depends their tenure of office. For the
mayor and his colleagues to traffic in
franchises, as some predicted would be
the case, is next to impossible, as the
charter provides that franchise ordi-
nances must be published at the expense
of the applicant, and after they are ac-
cepted by the aldermen and before the
mayor has approved, the referendum
can be demanded by 500 voters. That
there are defects in the system is not
denied, but on the whole it is found to
work admirably. Proof of its success
is found in the fact that the people are
satisfied with it. If they have com-
plaints of inefficiency in any of the
departments they know to whom to
make them, and are sure of a respect-
ful hearing. A natural result of the
saving accomplished by having affairs
ably managed is a substantial reduc-
tion in taxation, while at the same
time economy has not meant neglect
of necessary public works and improve-
ments. Taken all in all, the "Texas
Idea" seems to be a decided improve-
ment on the cumbersome method of
civic government with which we are so
familiar, though it must be said that
municipal government in this country
is, on the whole, free from graft and
corruption. The defect is that Cana-
dian cities are being managed with
village organizations.The Queen of the May is wearing
her furs this year.
Yes, the people of London will drink
river water—when they have to.Sir Charles Tupper is becoming wiser
with age. He expresses approval of
Laurier's course at the imperial con-
ference.The Premier of Australia has pre-
sented a formal demand for preferen-
tial tariff treatment by the mother
country. Canadians may be thankful
that they are represented by a premier
who, while a guest of Great Britain, is
not so cheeky as to tell the British
people how to manage their own af-
fairs.**A SUCCESS.**
[Exchange.]Old Blunt—Ah! Miss Nightingale, that
"Winter Song" was charming. It carried
me back to the days of my childhood.
The Singer—I'm so glad you liked it.
Old Blunt—Why, I could actually hear
the cattle bellowing, the old windmill
creaking and the discordant winds howling
about the doors.**QUIET NEIGHBORHOOD.**
[Le Rite.]
Caller—Those children out in the street
make a frightful noise.
Mrs. Newlywed—I know; but you would
never notice it if this were not such a
quiet street.**CUTTING HIS SERMON.**
[Philadelphia Inquirer.]
A suburban minister, during his discourse
on Sabbath morning, said: "In each blade
of grass there is a sermon."
The following day one of his flock dis-
covered the good man pushing a lawn mower
about his garden, and paused to say:
"Well, parson, I'm glad to see you engaged
in cutting your sermons short."**A LESSON FOR LONDON.**
[Utica Observer.]
It has come to be recognized as a fact
that public parks are among the wisest
investments a city can make. A city grows
not of itself, but chiefly from the popu-
lation it attracts by its advantages. Its
business aspects and opportunities, these
count; heads of families are attracted bythe schools, perhaps; and parks and green-
ments and street lighting all help. Parks
make a strong appeal when a change of
residence is contemplated. They promote
health and comfort, besides having the
entertainment that the senses value. They in-
crease the value of property in a city. And
you have never heard of a city that was
willing to lose its parks once they had
been secured. Have you?

AGAINST OVERWORK.

[Toronto Globe.]
No railway employee on whom respon-
sibility for moving trains depends should
be allowed to work so exclusively as to be
rendered unfit to understand, observe and
obey signals, not to speak of written or-
ders. If the law does not recognize this
kind of liability as resting on railway com-
panies it should be amended as soon as
possible.

MOTHERLY ADVICE.

[Chicago Record-Herald.]
"I have just received a letter from Tom,"
said Mrs. Newlywed, "and he sends me nine
thousand kisses."
"Save them, dear," replied her mother;
"they will serve to keep you from the aver-
age when he writes to you ten years from
now."

MOVING IN.

[Detroit Free Press.]
Across the street they're moving in.
The first van load is there;
And on the sidewalk there is heaped
Much costly furniture.
And through a window not far off
A neighbor looks the while,
To estimate from what she sees
The stranger's wealth and style."A baby grand piano! My!
They must have lots of dough;
I wonder who on earth they are?"
She mutters, soft and low.
"Just see the lovely chairs they have,
I'd like to own them all;
I wonder what her husband does?
I'll be the first to call!"The second van arrives, and still
The neighbor watches there;
Her eyes are glued upon each rug.
And fastened on each chair.
Of every article she makes
A rapid mental list;
Then mutters as the doors are closed,
"I hope they play bridge whist."

THE MAIN THING.

[Somerville Journal.]
The average woman doesn't care how
gray her hair may be getting as long as
she feels confident it is becoming.

MUSIC'S POWER.

[Illustrated Bits.]
The Bore—Do you know, Schubert's music
always carries me away?
The Belle—Really? I wish they'd play
some of it now!

HER REASON.

[New York Times.]
"And does your mother kiss you every
day when you come home from school?"
"Yes, sir."
"She must be fond of you?"
"No; she wants to see if I've been smok-
ing cigarettes."

NOT ENOUGH.

[Exchange.]
Her Father (sternly)—Young man, can
you support a family?
The Young Man (startled)—Why—er—I only
wanted your daughter.

THE PRICE OF IDEALS.

[Washington Star.]
"He is a man of lofty ideals."
"Perhaps," answered Senator Sorghum,
"although a man sometimes gets credit for
lofty ideals when he is merely holding out
for a high price."

THE LITTLE THINGS OF LIFE.

[Cleveland Plaindealer.]
"He seems to enjoy the little things of
life."
"Yes; he has seven small children and a
runabout."

BOTH SATISFIED.

[Philadelphia Inquirer.]
"I'm satisfied," said the angry tailor,
"that you intend to cheat me out of this
coat."
"All right," chuckled the happy doctor.
"If you're satisfied, I am."

SYMPATHETIC JUROR.

[Washington Star.]
"What made you so sympathetic toward
the prisoner?"
"Well," answered the juror, "after being
locked up away from home and friends
ourselves, we realized what it is to be in
the clutches of the law, and felt sorry for
him."

OPEN TO CONVICTION.

[Sketch.]
The Magistrate—Are you guilty or not?
The Prisoner—Well, your honor, I think
I am, but I'd like to be tried to make
sure.NEW WORK FOR TELEPHONE
GIRL.[Sedan Lane.]
A story illustrating the many impossi-
ble requests made of telephone girls, is one
told of a Sedan woman who was going out
shopping for a few hours, and her baby
in the telephone receiver, placed it beside
the sleeping child.
Then she notified central of the arrange-
ment, and asked her to sing to the baby if
it woke up and cried.

WHAT SHE MISSED.

[Chicago Tribune.]
"Yes," sighed Mrs. Gollifer, "I suppose
Gerald and I missed a great deal of ro-
mance. We were married without ever
having been engaged."
"Bill," positively answered Miss Wollon,
"it seems to me it would be more unrom-
antic to be engaged a long time without
ever being married."

BY TECHNICALITYNo Stamps on Seals of Warrants
in Buckingham Riot
Arrests.Ottawa, April 30.—By taking advan-
tage of a technicality in the criminal
code, Mr. H. A. Goyette, counsel for
the Buckingham strikers, on trial for
manslaughter before Judge Talbot,
Hull, obtained the release of the pris-
oners this morning.At yesterday's session of the court
Mr. Goyette sprung a surprise on both
judges and crown by filing an objection
to the proceeding of the case. This was
taken on the ground that the necessary
stamps on the seals had been over-
looked in the issuing of the warrants
for the arrest of the strikers.Judge Talbot after considering the
objection, this morning declared in
favor of Mr. Goyette's argument. The
strikers were at once freed. His honor
ruled that the provincial law provided
that all criminal proceedings could be
taxed and a stamp affixed. The federal
law is different, but the former is
backed up by the privy council.Mr. Brock, crown's prosecutor, will
appeal, on the ground that the objec-
tion against the seals should have been
filed at the preliminary hearing.

Aeronaut J. C. McCoy, of New York,
accompanied by Captain Charles D. F.
Chandler, United States signal corps,
ascended in the balloon America on
their long distance flight to Washing-
ton. The balloon arose without mis-
hap and started south, veering slightly
to the west.

In the Wars

When "in the wars," when you slice
your finger, chop your hand; when the
children come in with cut or bruise;
when the housewife burns her hand on
the stove door or with the smoothing
iron; when unsightly pimples break
out and when scratched become ugly
and painful; when you get a cut or

Zam-Buk proves its merit.It takes the soreness out of injuries, stops
bleeding, prevents blood poison, soothes
and heals. Made from purely herbal
essences.Mr. Alf Henry Orth, of Shipley, Ont.,
says:—"Zam-Buk is without doubt the
best healing balm in Canada. I had a
rusty wire nail run under my thumb-nail, which
caused a very bad wound indeed. The pain was
very acute, and the nail being rusty I feared serious
consequences. I knew how good Zam-Buk is, and
so melted a little and let it run into the wound
under the thumb-nail. In quick time it gave me
relief, and after that I went on with my work just
as usual. In a short time the injury was quite
cured, and the soreness went away almost
immediately. Zam-Buk was applied."Zam-Buk is obtainable from all druggists at 50c per box.
For cuts, burns, bruises, and all skin injuries and diseases,
freckles, pimples, eczema, itch, rashes, blood poison, poison

"I have failed," was all the explanation
she ventured to Mrs. Ord; but the hurt
color had risen to her face, and she
looked so troubled that Mary, with great
delicacy, forbore to question her.
Just about this time Rotha received
another invitation to Mrs. Stephen
Knowles', to one of her far-famed din-
ners a la Russe; and Mrs. Stephen
Knowles, whose soul delighted to honor
the young heiress, intended to gather
an assembly of the choicest spirits that
Blackscar and its neighborhood could
afford and it was to be a very grand
affair indeed.Rotha, who was much oppressed by
the magnitude of the proceedings, be-
ing, in spite of her little pomposities,
the humblest creature possible, was in
great trepidation, and said a great
many naughty things to Mrs. Ord
about Kirkby, and Blackscar, and Mrs.
Stephen Knowles, whose soul delighted to
honor the young heiress, intended to gather
an assembly of the choicest spirits that
Blackscar and its neighborhood could
afford and it was to be a very grand
affair indeed.On this occasion a pink dress was
the result of Mary's eloquence—actually
a pink dress. But even then Rothahad refused to deck her pretty white
neck and arms with the Ord jewels. "I
shall wear flowers," was her sole an-
swer to her friend's rebuke. "I feel
already something like the ugly duck-
ling transformed into the swan in this
gaudy dress; I don't believe I am Rotha
Maturin at all. I am almost glad,
after all, that you and the vicar will
not be there to see me." But Rotha,
as she uttered this little bit of girlish
silliness, was glad that she looked so
young and fair in the pink dress, and
Mary had admired her to their heart's
content; and it was certain that no
one at Mrs. Stephen Knowles' missed
the lack of jewels.Most of the guests were strangers to
Rotha. The only name she recognized,
with the exception of one or two of
her Blackscar neighbors, was Mr.
Ramsay of Stretton. The wealthy ironmaster
was a man of great repute in the
neighborhood; but it was not the
thought of his vast capital that filled
her with such interest. She knew it
was Emma Ramsay who had been
Belle's unsuccessful rival, and how
Robert Ord had refused to barter his
love for any fabulous number of thou-
sands. "Noble fellow!" thought Rotha,
with a sudden warm impulse; but she
ethers, she felt a little superior when
she saw Emma. There was no account-
ing for tastes, certainly, and perhaps
at that time Belle Clinton had been
very beautiful, and not at all faded;
but she thought Emma the brightest-
looking girl she had ever seen.Yes, Emma Ramsay was a woman of
Tregarten she was now; for the iron-
master, disappointed in his first choice
of a son-in-law, had married his sole
remaining child to a young Welsh
baronet, Sir Edgar Tregarten, a young
man, very sturdy as to pedigree and
very small of person, but a well-mean-
ing young fellow in the main.Rotha fraternized with Lady Tre-
garten after dinner. Emma was a
very pretty little matron now, thor-
oughly content with herself, and dis-
posed to think her Edgar the very
perfection of all that man ought
to be. She took a great deal of
pleasure in talking to Rotha, and
made her promise to come over to
Stretton, where she was now staying
with her father, and Mr. Ramsay after-
ward indorsed his daughter's invita-
tion. Rotha liked them both very
much indeed; but she liked the father
best. She admired the ironmaster's
strong hand-featured face; his man-
ners were a little uncultivated, per-
haps, but there was a downright ster-
ling honesty about the man that cap-
tivated Rotha. He had sat beside her
at dinner, and then, afterward, he
had been much obliged to her, and the
Ord; he seemed specially interest-
ed in what she told him about Robert
Ord."He is a good fellow—I believe a
thoroughly good fellow," he said, re-
turning to the subject, when he had
brought his cup of tea to the table.
Where Lady Tregarten and she sat
chatting; "but he is a man who will
stand in his own light all his life, fool-
ish fellow! He might have been
driving in his own carriage by this
time if he had consented to listen to
anyone's advice, but no! Lady Tre-
garten, who had been talking
volubly up to this moment, looked up
at her father a little reproachfully as
he said this, and, whether intention-
ally or not, rose to join her husband,
who was at that minute talking to his
hostess; but Mr. Ramsay did not seem
to notice his daughter's slight hauteur.
He only slipped into the vacant seat be-
side Rotha and went on with the same
subject."He was handsome enough then to
have married any one," he continued,
as though pursuing a train of thought
—"a fine manly fellow, every inch of
him; half the girls were in love with
him, I believe. And then he had such
brains; they would have been a cap-
ital to any other man. He was just
fit to be the head of a large concern,
as he would have been if he and Emma
— By the by, Miss Maturin, did you
tell me he was managing clerk to
Broughton & Clayton?""Yes, Broughton & Clayton, Thorn-
borough," replied Rotha, "a mis-
erable prospect for him and Miss Clin-
ton; for I believe he only has a sal-
ary of a little over two hundred a year,
and they have been engaged for nearly
five years already." And Rotha sighed
as she thought of Robert Ord's hag-
gard looks and Belle's faded beauty.Mr. Ramsay gave a grunt of dis-
pleasure."Serve him right. What business had
he to be so headstrong, and turn his
aunt against him, as he did? She was
a tumbler, I grant you, but she was
her mother. Good heavens, Robert Ord
a managing clerk at Broughton &
Clayton's—a trumpeter's concern like
that! And Broughton has two sons
coming into the business, I hear. That
was another of his obstinate tricks,
taking a situation in that way instead
of waiting for his friends to help him.""It is not easy to help Mr. Ord," be-
gan Rotha sorrowfully; "but at the
moment Mrs. Stephen Knowles had
come up and scolded Mr. Ramsay for
his monopoly of Miss Maturin. And
after that there was no opportunity
of renewing the conversation; but at
parting Mr. Ramsay shook hands with
her very cordially, and begged her to
come and see his daughter at Stretton.""It is only a drive of six or seven
miles if you take the Leatham road;
and you are obliged to air your horses,
you know. By the by, is poor old
Sphinx alive still—the bay mare, I mean?""Yes, Ord's carriage and horses were
disposed of after her death. If I come
to Stretton it will be by train, Mr.
Ramsay," returned Rotha quietly."Well, come any way, so that you
come," was the good-natured rejoinder,
but Rotha saw that he was a little
surprised never to have seen her. She
sat alone, as she sat alone over her
fire reviewing the events of the evening,
she thought much of her conver-
sation with Mr. Ramsay, and of the
strange interest he had evinced in
Robert Ord."He has a powerful influence, if he
could only be induced to exert it in
his favor," she said to herself; and
there and then she determined to go
over to Stretton and plead Robert
Ord's cause with the man whose
daughter he had refused to marry.
"Sir Edgar Tregarten is a much
better match than Robert Ord," thought
Rotha, who scarcely knew how the
ironmaster had coveted Robert Ord's
bride. "I daresay he was a little sore
about it at first; but by this time he
must have forgiven him. He looks so
good-natured, and she thought for a
moment that she would make Lady Tre-
garten her confidante.Rotha slept upon her resolve, and a
few days afterward she went over to
Stretton.Mr. Ramsay and his daughter re-
ceived her warmly; and she had a very
pleasant visit. "I have listened to all you have told
me," Mr. Ramsay said to her at part-
ing, "and I promise you that I will
think over it. It is easy to see you
are on his side—all women are—but I
tell you this, that if it had not been
for his contumacious obstinacy he might
have been my son-in-law. He looks so
good-natured, and she thought for a
moment that she would make Lady Tre-
garten her confidante."And you will think over it," re-
peated Rotha timidly.
"Yes, I will," he returned decidedly.
"I promise you as much as that. But I
am not the man to do things in a
hurry, any more than I do them by
naivety; it is against my principles. I
must turn the thing well over in my
mind first."He considered a moment, and then
went on:
"This sort of berth do you think will
suit Robert Ord—another place as man-
ager in a larger concern, say at five
hundred a year? Carter's not dead yet,
but he might be superannuated; or
the same post, with a still larger salary
in the house of a connection of ours—
Fullagave & Barton's, who have a
large branch house in America. Fulla-
grave writes us that they are in great
want of a man who is honest and long-
headed as well; his Yankee manager
has turned out a failure.""I think he would rather stay in
England, for Miss Clinton's sake," re-
turned Rotha, thoughtfully.
"Humph! that comes of being tied
to a sickly girl. In that case we can-
not do so much for him; Carter may
object to being superannuated. Well,
though you are a woman, you can keep
a quiet tongue in your head, eh?" turn-
ing on her with good-humored
boyness. Rotha laughingly as-
sured him that she could."Well, well, you look dependable;
and he is not to know who has done
him this good turn—very right, very
proper, I understand. Now, good-bye,
you must go. I'll undertake that
Emma shall not forget you," and the
worthy ironmaster shook hands with
her till her wrist was nearly dislocated.
She was too happy to heed the pain,
however; all the way home she assured
herself that her mission was success-
ful, and that, after all, Belle would
get better, and would be married per-
haps in the early spring.Rotha was thinking about her visit
to Stretton and about all manner of
pleasant things one day when she was
in an odd mood for dreaming.Rotha was sitting on the roof of a
tree in one of the glens of Burnely-up-
on-Sea, the wild glen, as it was called;
she and Garton and Reuben were
doing an afternoon's kysing on their
own account, very much to the aston-
ishment and scandal of Blackscar and
Kirkby, if they had known it, and
somewhat to Mrs. Carruthers' surprise.Rotha was very simple for her age
in some things, in spite of her wise old-
fashioned ways, and Garton was just
as ridiculously inexperienced. Meg
often called them a couple of children;
and, as far as freshness and originality
of idea and a certain chivalry of thought
were concerned, they were undoubtedly
an excellent match.For they were both fond of ridiculing
the world's fashions, and they both re-
tained an implicit belief in the good-
ness of human nature, which was al-
most pathetic to older and wiser people.
Garton's creed was, that man was

WHAT DOES IT MEAN?

DR. HAMILTON GIVES A FULL AND
SATISFACTORY EXPLANATION.Look at your tongue!
Sometimes it's heavily coated; some-
times it's clear and red.
Study this out and you'll find some
interference with the functional activ-
ity of the body.This means the bowels are not regu-
lar, the liver is sluggish and the
blood is contaminated.Strong cathartic pills act so destruc-
tively on the intestines as to provoke
deadly sickness; this often frightens
people from taking medicine when they
badly need it.To the multitude of dangerous pur-
gatives now on the market, Dr. Ham-
ilton's Pills are a notable exception,
they neither gripe, cause sickly feeling
or headache, yet they cleanse and pur-
ify the entire system in one night. No
other laxative acts with such mildness
and certainty. Giving proper stimulus
to the liver and kidneys, strengthening
the stomach and lending valuable aid
to digestion, its small wonder that such
marvelous results accompany Dr. Ham-
ilton's Pills.Mr. Geo. H. Hogarty, of Amherst, N.
S., writes: "Last winter I worked in a
timber camp and neglected my health.
I was dreadfully constipated and had a
headache that fairly made me reel at
times. I was sick and miserable, and
hadn't the slightest ambition to work
or stir around. I felt heavy and dull,
and had a bad taste in my mouth. I
went into the city for Dr. Hamilton's
Pills, which I knew were good for my
condition. They fixed me up very
quickly and have kept me in good
condition ever since. There are other
men in the camp who give some idea of
the value of the pills without the pills for ten times
their price."Every dealer in the land sells Dr.

Rupture

THE MOST RELIABLE and Successful Authority—Greatest success in the treatment of Hernia
(Rupture) Varicocele (False Rupture) of all known agencies in modern times. He who makes a
specialty of one department must certainly be more experienced and capable than those having
"many lines in the fire." Don't put off your case, believing it to be simple—Remember perfect
often proves fatal. Have your case attended to now, and thus avoid danger. Stop wasting time
and money elsewhere but come to one whose life-long study has taught him what to do. Do not
despond or be deterred from seeking further advice, or because of repeated failures consider your
case incurable. Because others failed in your case you have become discouraged. This is the very
time you should consult me as my reputation has been made in curing hopeless (so-called) cases.
LADIES suffering from Navel or any form of Rupture should not hesitate in having their
cases attended to at once. Everything strictly private and professional.
NOTHING—Look to your children—Now is the time to have them cured, while young.
Don't allow them to grow up handicapped in the race of life, with rupture.
MY CHARGES are within reach of all the poor man as well as the rich. Terms can be
satisfactorily arranged, no reason why you should not consult me at once, during this visit.VARICOCELE, FALSE
RUPTUREThe universal tendency of these conditions is to grow worse and more complicated—leading to im-
potency, nervous debility, wasting, atrophy, lunacy, sexual exhaustion, etc. Do you intend to
allow this insidious affliction to sap away your vitality? It is doing so now and if not checked will
result in the above conditions. No matter how serious your case may be, time affords, or the fail-
ure of the Soto system will cure you; the wormy webs return to their normal condition and hence the
sexual organs receive proper nourishment, the parts become vitalized and manly powers return.
No temporary benefit, but a PERMANENT one. NO OPERATION necessary. No detention from
business. If you have had the usual experience you have no doubt spent large sums of money and
still larger quantities of time searching for the remedy that I offer here.

In all German papers of August, 1858, appeared an ordinance signed by
the King of Bavaria, forbidding civil-
ians, on any pretext whatever, to wear
mustaches, and commanding the police
authorities to arrest the offenders and
shave them by force. Apparently this
was not necessary, for, according to a
French account of the time, "mus-
taches disappeared immediately, like
leaves from the trees in autumn every-
body made haste to obey the royal or-
der and not one person was arrested."

THE PRESBYTERY CHOOSES LONDON

Hamilton and London Synod to
Gather at St. Andrew's
Next March.

Chatham, April 30.—The Hamilton and London Synod of the Presbyterian Church today decided upon London as the next meeting-place. After a prolonged debate it was decided that in future the last Monday in March would be the date for the annual gathering. St. Andrew's Church will be the meeting place.

In the afternoon Prof. Kilpatrick, of Knox College, Toronto, spoke on "The Christian Salvation." He treated his subject historically, showing that the salvation of the Old Testament in a sense refers chiefly to the nation, and in the course of time came to apply more particularly to the individual. He traced the connection between the work of Christ and the moral welfare of man, pointing out the necessity of the atonement in order that salvation might begin at all. He also gave a masterful statement of the death of Christ. He spoke of the great and dangerous unrest which prevails in the minds of laymen and young preachers caused by books of criticism and higher thoughts. He thought it the duty of the minister to read all such books and advance arguments to meet this criticism wherever it is found.

Rev. Mr. Ross, of Guelph, a member of the assembly's committee on augmentation, addressed the synod and asked them to put forth a stronger effort in raising money for this purpose. The amount raised last year was \$3,842. This year \$11,273 will have to be raised.

Rev. Mr. Horne, of Watford, reported on the Sunday school work. He asked for a grant of \$500 from the General Assembly for the establishment of summer schools and extending teachers' institutes.

Mr. Horne regretted the indifference in Sunday school work exhibited by boys and young men.

Rev. J. McDuncan, of Toronto, addressed the synod on the work being done by the Sunday schools by the General Assembly committee.

Rev. J. A. MacDonald, of Toronto, concluded the session with an address upon the present movement among the laymen of the churches.

G. T. P. IN THE EAST

Work to Start at Edmunston at Once
Heading Towards Quebec.

St. John, N. B., April 30.—Within a very few days the work of active construction of the eastern division of the Grand Trunk Pacific, extending diagonally through New Brunswick, from the Quebec boundary to Moncton, will be commenced.

Two principal contracts have been awarded. One of these, from the Quebec boundary to Grand Falls, a distance of 61 miles, will be in charge of J. J. Lyons, C. E. The other, from Chipman to Moncton, 50 miles in length, was first awarded to the Grand Trunk Pacific Construction Company, but has since been sublet to the Westinghouse Construction Company, and Mr. J. J. Lyons will represent the contractors in New Brunswick.

It is understood that there will be no question about securing supplies, but some difficulty may arise in engaging a sufficient number of men to work on these two important jobs; it is anticipated that the greater number of men required for the railroad construction will have to be brought in from outside points. Some three thousand in all will be needed, fifteen hundred to each contract. The whole engineering staff on this contract will be in charge of Mr. M. M. Balcom. On the Quebec-Grand Falls section Mr. Harris Longley will assume control, having under him six surveying parties.

At the present time four land commissioners are gathering the proposed lines and purchasing lands for right-of-way. On the Grand Falls-Quebec section work will be commenced at Edmunston, probably before the end of the present month, and the lines will be built, for the present, only in a westerly direction. The most important part of the eastern division is yet to be contracted for.

THE STRONG CASE SETTLED

\$70,000 Estate Signed Over to Wife
Frees Man From Asylum.

Hamilton, April 30.—The famous action of Strong vs. Strong was settled this morning. William Strong, a wealthy real estate man, sued his wife to recover possession of his property. A couple of years ago Strong became a spiritualist, and his actions became so strange that his wife had him confined in an asylum. He even went to the length of taking a medium to his house and placing her in charge, telling his wife that she would have to get out or be the medium's slave. He also traveled about the country with the medium, whose name was Mrs. Harris, and spent money lavishly on her. It was not until he signed over his property to his wife that he was released from the asylum. The terms of the settlement were not made public. In giving his evidence at the trial yesterday, Mr. Strong accused the attendants at the asylum of brutally treating patients, but his statements were denied by the superintendent and doctors. The estate over which the trouble arose is valued at \$70,000.

We always have on hand a large assortment of used Square and Upright Pianos at \$20 to \$150, payable 50 cents per week. Holman & Co., 217 Dundas, corner Clarence.

A COUGH is often the forerunner of serious pulmonary afflictions, yet there is a simple cure within the reach of all in Bickel's Anti-Consumptive Syrup, an old-time and widely recognized remedy, which, if resorted to at the inception of a cold, will invariably give relief, and by overcoming the trouble guard the system from any serious consequences. Price, 25 cents, at all dealers.

DISASTROUS FIRE IN DON BREWERY

Part Used as Storage Warehouse
Gutted—Firemen Could
Not Save.

Toronto, April 30.—Fire broke out in one of the Davies Brewery Company's buildings, which is used as a storage warehouse by the Ontario Storage Company, near the corner of Queen and River streets, at 12:30 this morning. The building is a large one, filled with flour, sugar, wool and all sorts of merchandise, and the fire reached such proportions that a big conflagration was feared. All of the eastern and downtown sections of the brigade were called out, and two engines were put to work at once.

The building, which 125 feet by 150 feet, and three stories in height, is almost surrounded by adjoining buildings, and the firemen found great difficulty in getting at it. The inflammable nature of the contents made it impossible to go inside it, and as the water could only reach the fire through the roof, the fire burned itself out. The merchandise is owned by a number of firms, and the loss on it will be at least \$25,000.

At a later hour, the collapse of the east wall placed several adjoining factory and warehouse buildings in danger. Among those which will be slightly damaged is the Distillers' Method Company, Limited, the Smart Bag Company, the Crown Bottling Works, and the Don Brewing Company. At 2:30 the fire was under control.

CHOSE A CANADIAN

Nova Scotian to Head Arts and Sciences
at Cornwall University.

Ithaca, April 30.—The executive committee of the Cornell board of trustees ratified the election of Albert Ross Hill as dean of the college of arts and sciences, to take the place of Walter F. Wilcox, whose resignation takes effect in June. Professor Hill is the new professor of the philosophy of education, elected last Saturday. Dean Wilcox's resignation was due to pressure of his work as a federal statistician, and he will retain his professorship. Dean Hill was born in Nova Scotia in 1869, and received his A. B. degree from Dalhousie in 1892, and his Ph. D. from Cornell in 1898. After studying at Berlin and Heidelberg, he taught in the state normal school at Oshkosh, Wis., the University of Nebraska, and the University of Missouri, at which latter place he was dean of the teachers' college.

MAKES NEW BLOOD

That Is How Dr. Williams' Pink Pills
Cure the Common Ailments of Life.

Making new blood. That is just what Dr. Williams' Pink Pills are always doing—actually making new blood. This new blood strengthens every organ in the body, and strikes straight at the root of anemia, and the common ailments of life which have their origin in poor, weak, watery blood. Mrs. A. H. Seeley, of Stirling, Ont., tells what Dr. Williams' Pink Pills did for her fourteen-year-old sister, Miss Annie Sager, after other treatment had failed. She says: "For some years Annie had not been well. She would take spells of dizziness and headaches that would last for several days, and her whole body would be burning up with fever. Her lips would swell until near the bursting points, and then when the fever would leave her the outer skin of the lips would peel off. She doctored with two different doctors, but they did not succeed in curing her, and the trouble seemed gradually to be growing worse. Then we began giving her Dr. Williams' Pink Pills, and under this treatment she has recovered her health. The headaches and dizziness have gone; her color is improved, her appetite better, and she has had no further attacks of the fever which baffled the doctors. We are greatly pleased with what Dr. Williams' Pink Pills have done for her, and recommend them to other sufferers."

It was the rich red blood Dr. Williams' Pink Pills actually made which cured Miss Sager. That is why these pills cure all common ailments like anemia and debility, headaches and backaches, indigestion, rheumatism, neuritis, St. Vitus dance and the special ailments that prey on the health and happiness of girls and women of all ages. Get the genuine Dr. Williams' Pink Pills for Pale People, with the full name on the wrapper around each box. Sold by all medicine dealers for by mail at 50 cents a box, or six boxes for \$2.50, from the Dr. Williams' Medicine Company, Brockville, Ont.

LARDER LAKE

THE GOLDEN NORTH

AND THE

GOLDEN OPPORTUNITY.

The cry is now, "On to Larder Lake!"
A great stampede has set in!
Thousands are on the way! They are now beating the northern trails!

What will undoubtedly prove to be the greatest stampede that has ever been known into a new gold country is now on!

The Larder Lake district is believed to be the richest gold country ever known, and it is just now being opened up. Soon will commence the most tremendous outpouring of gold known to civilization since the days that King Solomon's mines paved the floors and walled his temple with that precious metal!

People of Toronto, People of Ontario, People of Canada—do you realize the great mineral wealth and riches that are now being opened up in Northern Ontario right before our very eyes? Do you understand that you have the richest and most wonderful gold and silver camps, rapidly developing, and that the values are increasing tremendously from day to day?

Do you realize that investments of a hundred or a thousand will grow rapidly into hundreds and thousands and millions of dollars? The over-optimistic and skeptical will smile—they will laugh at these predictions, some will even consider this a joke—but remember COBALT, if you please, two or three years ago! Then it was a "vision," it was a "dream," "a flash of the pan," a "bubble," somebody was "crazy," but now it is different. These crazy men are now classed among the smartest and keenest business men of the day. The actual value of a few mines are worth at the present date more than one hundred millions of dollars. These are facts.

Larder Lake is the opportunity of a lifetime!

Are you going to let this golden opportunity pass?

Are you going to get in now, in time, at Larder Lake? You can now get in at ground-floor prices on inside properties, make big profits and lots of money. Or will you wait three or four months or a year, and then fall all over yourself in an irresistible desire to get in anywhere or at any price?

Don't wait! Be wise! Act NOW! NOW IS THE TIME! Here is an opportunity that exceeds that which you had two or three years ago at Cobalt. Perhaps you will say, as you did then: "How do we know they have got any silver up there?" Perhaps you say now: "How do you know there is any gold at Larder Lake?"

We say to you: Do not be so skeptical that you lose faith and confidence in all mankind.

Do you imagine for a moment that men will endure the blast, the snows and frosts of the Northern winters for fun or pleasure?

Do you think there is any fun in living, cooking and sleeping day after day, night after night, weeks and months, upon the ice and snows of the frozen North?

Do you think there is any great pleasure in a man trudging along unbroken trails with a pack of 30 to 50 pounds on his back when the air is clear, full of frost, and so cold and still that the creaking of every step upon the snow can be heard for a mile away?

All the last winter men at Larder Lake have had to go to the railway station, some 12 to 15 miles away, to obtain the necessities of life. They would shoulder a pack weighing from 30 to 50 pounds and carry it back to their tent on their snow-covered gold claims.

We ask again, Can there be any pleasure in this? Is there pleasure or fun in frozen faces, frozen hands or frozen feet? If you think there is, you are certainly entitled to another thing.

No, no! The thousands of strong men who braved the north winds last winter around Larder Lake, who lived in their little tents upon the claims they staked, and watched and guarded as they would their lives, knew full well the treasures they were guarding! This endurance was not for pleasure, but for gold, GOLD, GOLD!

Many a tired sleeper in those cold tent houses had bright and happy dreams of the future—days of happiness and plenty that were sure to come to their wives and children, sweethearts, fathers and mothers, sisters and brothers—all from the gold he had found! The gold he was guarding. Gold—pure, virgin gold! Gold that had never been bartered or used as exchange—gold that had never bought man's honor or woman's virtue. UNTAINTED GOLD.

The hardships that have been endured by the prospectors of the Larder Lake district should impress the most skeptical that there must be something there worth while.

We were loath to believe at first. But we have gone further. We have had our own mining engineer making examinations. We have made personal observations and can say without fear of contradiction that the gold discoveries around Larder Lake in Northern Ontario are indeed the most wonderful imaginable. The profits from investments in that district will amount to hundreds of millions.

NOW is the accepted time to place money there. Values are already increasing at a remarkable rate. In our estimates of Larder Lake gold district we have not taken the items from the newspaper or hearsay reports as our basis; we have sent our own engineers and have gone there ourselves and made personal investigations. We are satisfied beyond question, from our engineer's reports and our own personal observation, that the reports from that country are not exaggerated. The discoveries and conditions are as reported. Millions upon millions of gold will be produced from that district, and the outpour of the precious metal will astound the world! All business and trades of Canada, especially Ontario, will be benefited therefrom and thereby. Toronto will be benefited, even more so than were St. Paul, Minneapolis, Winnipeg, Seattle, and Vancouver benefited by the opening up of the great gold fields of the Klondike and Alaska. It remains to be seen, however, whether the investing public and people of Ontario and Canada grasp the situation and take advantage of this exceptional opportunity—truly a golden opportunity—to reap the millions upon millions of honest, legitimate profits that only await the employment of their capital.

The wise, alert investor will reap the quickest and greatest returns.

Northern Ontario is immensely rich in gold and silver—probably the richest in the world. It is just now being opened up. It is now in its infancy. You can now, as the saying goes, invest your money and get in on the ground floor. We hereby extend to investors an invitation to join us and participate in the profits and benefits that are sure to come to all who be-

come interested in the Blue Bell Gold Mines, Limited. This Company owns, free of indebtedness, and with no incumbrance of any kind, 27 well-selected gold claims of this wonderful district. These claims were staked by miners—men who know a gold claim when they see it. Being identified with the Cobalt district, they were in the neighborhood of Cobalt and New Liskeard when the first strike was made. They had the pick of the district. They took their time and prospecting, and selected with care the best there was in the field. Every claim has brought a fine showing of values. Assays showing values running as high as \$15,000 to the ton have been taken right from the surface, or you might say the very grass roots. The titles are perfect, the samples and specimens taken from the various claims show not only high values in gold, but also high values in silver and copper.

The men identified with the Blue Bell Gold Mines, Limited, have been identified with the rise and success of Cobalt. They would not be identified with any proposition that was not legitimate, straightforward, honest and upright in every particular.

Proposition Plainly Stated.
The Underwriters' Syndicate will consist of and include all investors who join with Law and Company in subscribing for the 2,500,000 shares at Ten Cents per share.

No application to the Underwriters' Syndicate will be accepted for less than one membership (1,000 shares), which will cost \$100.

As soon as the Underwriters' Syndicate is closed, which will be on or before May 15th, 1907, The Blue Bell Gold Mines, Limited, will at once place upon the market, through Law and Company, the first allotment of the Treasury shares of the Company at 50 cents per share.

Law & Company will advertise the Blue Bell shares throughout the Provinces of Canada and the United States in their customary vigorous manner by display advertising, they having already closed contracts with their advertising agents for large display advertising for this special flotation. This includes all the principal daily newspapers of Canada—72 in number—and 221 in the United States.

Shares will be issued proportionately share for share from the Underwriters' and Treasury shares at the price of Fifty Cents per share until all members of the syndicate have received the return of their investment therein.

Law & Company will receive the usual brokerage flotation commission of 25 per cent. for all shares sold by them, whether it be Underwriters' syndicate shares or Treasury shares.

All moneys due the Underwriters' Syndicate from shares sold out of syndicate shares will be deposited with The Trusts and Guarantee Company, 14 King St. W., Toronto, Ont., and will be distributed proportionately and in accordance with each respective interest therein.

Each member of the Underwriters' Syndicate will be upon identical the same basis.

There will be no favors shown one over another. The large investor will have no advantage over the small. The only difference will be that the larger investor will make the larger amount of profit according to the amount invested.

The Underwriters' Syndicate will be conducted upon a sound, straightforward, business principle, and every representation made herein will be fully carried out.

Those who join us will be interested with the Organizers and Promoters in a ground-floor proposition, and will actually be the original first sellers of shares to the stock-buying public, realizing therefrom big profits.

The Blue Bell Company will install twelve stamp mills and all additional machinery without delay. The Company expects to be sending out gold and paying dividends within three or four months.

Our Engineers advise us that they believe the Company will be able to ship out gold in quantities to pay dividends sufficient to make the shares of the Company go to Ten Dollars per share.

It should be borne in mind that the Blue Bell occupies the same relative position at Larder Lake that Nipissing does at Cobalt. Its properties are in the very heart of the district, are of large acreage, and very rich in Gold and Silver.

Blue Bell will undoubtedly be the greatest shipper this summer from Larder Lake.

In conclusion, we desire to say to our friends and clients: "Join us in this ground-floor proposition; it is a good one, and we believe it will make you lots of money." Our advice is—TAKE AS MANY MEMBERSHIPS AS YOU POSSIBLY CAN.

EXAMPLE.
Showing Cost of and Estimated Results From One Membership
Cost of One Membership consisting of 1,000 shares \$100
All memberships will be pooled for six months, and will be held by the Trusts and Guarantee Company, Limited, who will act as Trustees for the Underwriters' Syndicate during which period 267 shares out of which will amount to \$26,700
Law & Company's commission of 25 per cent. amounting to \$26,700
for selling the 267 shares at 50 cents per share, deducted from \$26,700, \$13,350 leaves to the owners of the membership the full amount of his investment or cost of his membership \$13,350
In addition to the return of \$100 he will have 733 fully-paid and forever non-assessable shares of the Company, there having been sold 267 shares from his 1,000-share membership.
The 733 shares will be the result of each membership, will be worth at the advertised market price \$266.50. We believe

SAFE PLAYGROUNDS FOR THE CHILDREN

An Association to Secure Them Organized by Public-Signed by Citizens.

A meeting of delegates from the different organizations of the city was held in the committee room of the city hall last evening to consider the subject of public playgrounds for the children of London. The meeting was well attended by enthusiastic interested people, and though some of the organizations have not yet elected their delegates to the committee, it is hoped they will have done so by the next meeting to be held in two weeks' time. The necessity of the playgrounds becomes very apparent to even the most casual observer as the warm spring days come. To those who drive of those who walk, children playing in the roads and hanging about the corners for lack of some place of their own where they have a right to play are becoming a public nuisance. In New York City, even among the most lawless, the playgrounds have been proven to be all the promoters promised. The children have been kept off the streets and being held responsible for the good name of their special plot, have become a law unto themselves and thus they are being educated for good citizenship.

It was resolved to form an organization to be known as the Public Play Grounds Association of the city of London. Sheriff Cameron was appointed president and Miss N. Colquhoun secretary. The city was divided into sections and the following committees were appointed to get all the information in regard to any lands that might be available for the purpose.

For the north—The President and Mr. E. J. Walker.
For the south—Messrs. Balkwill and Fraser.
For the east—Messrs. Hayman and Sanders.
For the west—Mr. W. E. Saunders.
And Mr. Pearce as member of them all.

Some of the properties suggested by Mr. J. S. Pearce, whose untiring efforts for the present organization over the last year, were the Parkes estate, the Harvey property, Queen's Park, a piece near the military school.

Other suggestions were: The Cove flats, end of Wellington street cut off by C. E. R. railway, Broughdale, the island south of hospital, the island, the mill race, the sand pit, Mr. Anthistle; some vacant lots more central for smaller children.

It was thought wise to get permission from the owners of the vacant lots for the children the use of these for the coming season, where sand piles and other facilities at small cost might be installed at once.

The committee solicits the hearty support of every citizen to further their work and hope to receive numerous helpful suggestions in their efforts for the welfare of the children and the fair city of London at large.

ROUGH ON THE RED MAN

Summers "Slated" on Two Charges—Fines and Costs Total Over \$30.

John Summers, the Indian who was arrested by Constable A. C. Powless at Muncy Station a day or so ago on a charge of being drunk and disorderly, appeared before Squire Chittick today and was fined \$2 and costs or 15 days in jail.

This afternoon W. J. Lang, a merchant at Muncy Station, laid an information against the Indian, charging assault, and was fined in all \$14 and costs, the latter amounting to over \$27, with the option of serving 25 days in jail at hard labor. Summers asked for time to pay his fine, as he said he had wealthy relatives living in St. Thomas.

The back of Summers' neck is literally covered with scars from knife wounds, and he bears the reputation of being a bad Indian. About four or five months ago he was fined by Indian Agent Sutherland for fighting, and it is said that he has been arrested on numerous previous occasions.

RELUCE DEBT ONE-HALF

Congregation of Dundas Street Methodist Church Will Make Attempt.

The congregation of the Dundas Street Methodist Church will endeavor during the next two years to make a reduction of 50 per cent in the debt on the church property.

The debt at present amounts to \$20,000. The question of making a reduction in the amount was brought up at a meeting of the trustees board some time ago, when the pastor, Rev. E. B. Laneley, agreed to undertake the canvass of the congregation if it appeared at all possible to secure the amount desired. A number of the members were approached in the matter, and the response was so encouraging that it was felt that the \$10,000 could be obtained.

The anniversary of the church will be celebrated on May 19, when payment of the first installment will be asked. There is little doubt that the \$5,000 will be placed on the plates, as the congregation is exceedingly loyal. The payment of the second installment will be made at the anniversary in 1908.

LEOPOLD FAILS.

DRY SPELL SETS IN IN ONTARIO

Eighty-Three Barrooms Closed Their Doors Today as Local Option Result.

As the result of local option votes taken in January last, 83 barrooms in Ontario closed their doors today.

The Pioneer, the organ of temperance, states that this is only a small matter compared to what other May Days have brought about, because there are in all 238 municipalities in Ontario where liquor is not sold.

The following are the municipalities in which the barrooms went out of business today, May 1:

*Alisa, Craig, Arvan, Asphodel, Bruce, Chinguacousy, Cramahe, North Dumfries, Dymond, Fullarton, South Gosfield, Goulbourn, West Gwillimbury, Harley, Hensall, Huron, Innisfil, Jocelyn, Manvers, Marlboro, March, Mersea, Midland, Mono, Nepean, West Nisour, North Norwich, Onondaga, *Orillia, *Port Carling, Port, Portland, Richmond, Saugeen, South Sherbrooke, St. Joseph, Stanley, Tecumseh, *Teeswater, *Tosborne, North Walsingham, *Waterford, *Weston, *Winchester.

CONCERT AT ST. GEORGE'S

Successful Entertainment Last Evening in West London Sunday School.

One of the best and most successful entertainments ever given in connection with St. George's Church, West London, was held last night under the auspices of the Sunday school. The hall was filled, standing room being scarcely available, and many were turned away. Rev. G. B. Sage occupied the chair.

An excellent and varied programme was rendered, evidencing much time and preparation on the part of the managers. Mr. Charles Milligan, Misses Gahan and Saunders, The Askin Street Male Chorus gave several numbers, and Misses Carmichael, Finnegan and little Miss Tait recited in their usual pleasing style. Solos, quartets and duets were rendered by others—all being received with vigorous encores.

The special features of the evening were: A dialogue, entitled "A Business Meeting," given by eight young ladies, and a play, "The Business of the Day," by a group of ladies and gentlemen, demonstrating the timely help of the "lady from Philadelphia," when the cook took ill, leaving an uncooked dinner awaiting the invited guests.

The last, and perhaps the best, feature of the evening was the flower drill, given by sixteen young ladies in white, with girdles and wreaths of flowers. The graceful movements, the most careful training on the part of the leader, Miss M. Wallace. The latter and Mrs. Milligan, sen., who acted as pianist for the drill, were both presented with a beautiful bouquet of roses by little Miss Tait, as an act of appreciation on the part of the young ladies for the trouble and time spent in rehearsing.

The programme closed with "God Save the King," and all left feeling they had spent a very enjoyable evening.

PURLOINING OF A HORSE

Mitigating Circumstances Alleged to Exist in Evans' Case.

Richard Evans, the London Townsman who was recently arrested on a charge of stealing a horse, the property of Thomas Stoddart, of West Nisour, appeared before Judge Elliott this morning, pleaded guilty to the charge, and was remanded one week for sentence.

E. Meredith K. C., appeared for the prisoner, and said that while he acknowledged that the man was lawfully guilty, there were certain mitigating circumstances in connection with the theft that he desired to bring out. He also stated that a petition in the prisoner's behalf showing his previous good character would be presented.

It was explained that Evans' sister died recently and that she was to be buried tomorrow. The circumstances under which the alleged theft took place are said to be very peculiar, but all the facts have not as yet been given out. However, it is known that the stolen horse was pastured in a field on the complainant's property when taken. Mr. Stoddart, the owner, when he missed the animal offered a reward of \$100—\$50 for the return of the horse, which is said to be valued at \$200. When Evans was arrested he confessed to his guilt and at once offered to return the animal to its owner.

THE I. O. O. F. ANNIVERSARY

Committee Complete Arrangements for Tomorrow Night's Event.

The anniversary committee of the Independent Order of Oddfellows met last night and completed arrangements for the gathering to be held in the hall corner of Dundas and Clarence streets tomorrow evening. The anniversary is the 1st, and the four local lodges, together with the two lodges of Daughters of Rebekah, are joining to make it the best in the history of London. The first part of the programme will include the conferring of degrees by both branches of the order, after which a gathering will be held in the main hall. Addresses are to be given by Past Grand Master Hoyle, of Canby; Past Grand Master R. K. Cowan, of this city, and Past Grand Master Dr. C. L. Campbell. The proceedings will close with a banquet.

CONDENSED LOCAL NEWS

No. 3 committee of the city council meets tonight. It is probable that the question of providing a fund for disabled firemen will be taken up.

The many friends of Mr. Wesley Harrison, of Dundas street east, will be pleased to know that he is able to be around again after a long illness.

No. 2 committee of the board of education met yesterday afternoon, and after going over the minutes, instructed that tenders for the addition to St. George's school be called at once.

—Toronto Globe: Hon. Geo. W. Ross announces the engagement of his daughter Ellen, to Mr. Austin Hutchinson. The marriage will take place on Tuesday, May 7.

—Messrs. George C. Phelps, Eldon Westman and Wm. Skinner, of this city, were in Hamilton last evening assisting in an oratorical given in the Centenary Methodist Church under the direction of Mr. W. H. Hewlett, formerly of this city.

—Mr. Adam Brydon, who has charge of the Scotch farm in Nissour Township, wishes it stated that the horse recently stolen, it is alleged, by Richard Evans, was not taken from the Scotch farm premises, but from another farm, owned by Mr. Stoddard, of Buffalo.

A Chinaman who was biking on the sidewalk on Stanley street this morning collided with a little girl, knocking her down and injuring her. The child lives at No. 6 The Ridgeway, South London, and the parents are intending to prosecute the Chin if they can ascertain the name of the man who witnessed the accident.

The members of the Bible class of New St. James' Presbyterian Church last night presented Mr. and Mrs. J. T. Parkinson with a handsome stand and palm, at their residence on Ridout street south. Mr. Parkinson has until recently been their leader, and the class took this opportunity of showing their regard for him.

—Mr. Arthur Stringer, of New York, the talented author and story-writer, and one of London's most distinguished Old Boys, was in the city today for a few hours en route to his summer home in Cedar Springs, Kent County. He was accompanied by Mrs. Stringer, well known in the theatrical world as Miss Jobyna Howlands.

The men in connection with Dundas Center Church are to give an entertainment in the lecture hall on the evening of May 7. A model session of the House of Commons is being arranged for, and some important measures will be introduced and discussed. A male chorus, quartet and orchestra will add variety to the programme.

ARTS EXAMS COMMENCE. The arts examinations at the Western University commenced this morning and will continue until the 14th. About 70 students are writing.

DOESN'T LOOK LIKE GUSHER. The well which the water commissioners have been boring near Carling's brewery, is now down 99 feet, but it manifests no symptoms of turning into a gusher. At 65 feet water was struck, but the flow is small.

A DAY'S BUILDING PERMITS. The following building permits were issued today: H. Watson, for a 1½-story brick veneer residence at the corner of Smith and Trafalgar streets; W. J. Kilpatrick, for the erection of a brick cottage on Lorne avenue.

WON PROMOTION. Mr. Fred Delaney, who has had charge of the Calgary branch of the McCall Manufacturing Company, has been promoted to the position of superintendent of the shipping and storehouse department in this city.

SETTLED THE CASE. Several hours were spent this morning at the police court hearing a juvenile case, in which one small boy was charged with having struck another boy over the head with a baseball bat, but after the court had copied down several sheets of evidence, the parties concerned decided to settle the matter among themselves.

"THE MIKADO." The production of "The Mikado" by local talent on May 17 and 18 promises to be one of the best amateur shows yet seen in the city. The chorus of 60 vocalists is training hard, and there is every indication that as a whole the performance will excel many of the musical comedies now on the road. The costumes, being brought from New York. One of the most beautiful effects will be the silver show at the close of the second act. The production will be put on at Bennett's Vaudeville, instead of the Grand.

GOING TO NEW BRUNSWICK.

Mr. L. E. Davis, B.A., son of Dean Davis, of the St. James' Anglican Church, who has recently returned from Toronto, leaves today for New Brunswick, where he will spend the summer. Mr. Davis last week completed a course at the Toronto University, where he won honors in every subject that he took up, and first-class honors in his last semester. He is a very capable and successful student of the London Collegiate.

WORK ON SEWERS BEGUN

Contractor C. W. Dill, of Toronto, today commenced work on the Ottawa avenue main sewer extension.

So far the work has been easy, but it is expected that quicksand will be encountered in a couple of days. Mr. Dill is going at the work very carefully, and until he gets past the water and quicksand he has determined to employ only a small number of men. The depth of the sewer is about fifteen feet at the place of beginning.

Engineer Graydon today instructed Assistant Engineer Mitchell to commence the work of surveying for the north end sewer. This sewer goes through the Becher estate, along Grosvenor to St. George, along St. George to Victoria, and east on Victoria to Adelaide street.

The sewer is the longest being put down this year, and will traverse about a mile.

The Bell Telephone Company is removing its poles from the path of the Dundas street sewer. The job is no easy one, from the fact that the big poles are in the ground about seven feet.

SECTION GANG RUN DOWN BY TRAIN

Three Killed, One Fatally Injured and Two More Badly Mangled.

Rochester, N. Y., April 30.—An east-bound accommodation train of the New York Central, ran into a gang of section hands two miles east of Batavia today, killing three of them outright, fatally injuring a fourth and seriously injuring the assistant foreman, Daniel O'Leary, whose leg was later amputated at a hospital in Batavia.

The names of the victims could not be learned. The accident took place near Godfrey's pond. The men stepped out of the way of a westbound freight and directly in front of the passenger.

LABOR BUREAU OPENED

Branch of Ontario Department Now Doing Business in London.

The London branch of the Ontario Government's labor bureau was opened this morning in charge of Mr. Andrew Ellis. The establishment of the London branch marks a lot of change now in the Province, the others being in Hamilton and Ottawa.

The head of the department, Mr. Armstrong, of Toronto, was in the city on Saturday instructing Mr. Ellis in his duties. The object of the bureau is simply to furnish information regarding vacant situations, both to unskilled and skilled workmen. Domestic cases can also receive information free of charge.

In order to make the bureau as useful as possible, registration is requested of all vacant positions.

GIFT FOR MR. TYTLER

British Bowlers Show Appreciation of His Efforts.

Mr. James Tytler, secretary of the Western Ontario Bowling Association, this morning received a very handsome emblem from the British bowlers as a mark of their appreciation for Mr. Tytler's efforts put forth in their behalf upon the occasion of their visit to London last year. The design is a St. Andrew's Cross, with crown at top, and a shield in the center, containing a maple leaf in the center, with the inscription surrounding it: "Presented by the British Bowling team, 1906." The present comes direct from Mr. J. T. Taylor, president of the British bowlers team of 1906, and the secretary, Mr. A. H. Hamilton, of Edinburgh.

Similar emblems have been received by the following gentlemen in Ontario: Mr. J. Bennett, of London; Mr. Hargrave, C. R. W. Postlethwaite, C. Swabey, Geo. Anderson, Toronto; James Russell, Hamilton; H. Musson, W. Brown, Montreal; H. C. Schofield, Geo. Creelman, Guelph; A. Fall, C. E. Nasmith, Stratford; W. Robins, Walkerville; E. Weid, London; T. S. Ford, Mitchell. The medals were designed and manufactured by Robert Scott, of Glasgow, one of the British team.

EARTHQUAKE AND FAMINE

Deplorable Distress in Billis District of Turkish Armenia.

Constantinople, May 1.—Earthquakes and famine are causing deplorable distress in the Billis district of Turkish Armenia. A dispatch received from there April 29 said that earthquakes were still being felt there, accompanied by terrific thunder storms and lightning, which had wrought much havoc. The food supplies, it was added, were inadequate. The authorities are furnishing little relief except in rebuilding fallen structures.

LARDER LAKE ASSAY

Prospector Reports \$7,000 to the Ton Gold Assay.

Windsor, Ont., May 1.—Former City Engineer Newton has returned here from the Larder Lake district, where he has been engaged in making plans of the district, to be used in registering claims. One Government assay which he saw, he says, gave \$1,782 to the ton, while he was told of other assays which had been made by private individuals running to the possible exaggerated figure of \$7,000 to the ton. In spite of the fact that actual mining operations have as yet hardly begun, except for the sinking of some shafts, people have crowded to the gold fields in large numbers, and every bit of land is said to be staked off for a distance of fifteen miles west of the lake, and the same distance north.

LIFE BEGINS FOR EDDY

Eldest Son of Wales Joins the Royal Naval College.

London, May 1.—Prince Edward of Wales, eldest son of the Prince of Wales, today joined the Royal Naval College at Osborne, Isle of Wight, as a cadet. He will be treated exactly the same as the 400 other cadets, will occupy a bunk in the college dormitory, and will be restricted to the 25 cents weekly pocket money allowed by the regulations. Prince Edward was born June 23, 1894.

FEAR TO OFFEND JAPAN

Production of the Opera "Mikado" Barred in England.

London, April 29.—A rumor has been rife lately as to the reason that induced Mrs. D'Oyly Carte not to produce "The Mikado" at the Savoy Theatre after having announced it. The mystery was solved in the House of Commons, when Under Secretary Runciman, in reply to a question, said that no complaint had been received from Japan, but that the lord chamberlain had withdrawn the license for its production, the prohibition affecting the provinces as well as London.

No other reason than the Anglo-Japanese entente can be given. It seems that the Government is afraid that the performance of this, one of the most popular of the Gilbert-Sullivan operas, would offend the susceptibilities of the Japanese, as it must be remembered that to the Japanese the Mikado is a deity.

It is stated that the suppression of "The Mikado" was due to a suggestion from the King. Some of the papers are howling as if they intended to promote agitation against the decision. It was Prince Arthur who took the Order of the Garter to the Mikado, and it was while the King's nephew was in Japan that it was whispered discreetly to him the number of Japanese who had seen the opera in England had been deeply offended and had reported their impressions to the Japanese court.

New York, May 1.—Noon.—The market during the morning fluctuated within comparatively narrow limits a firm undertone and some little increase in interest in Industrials. Steel statement and fact that the dividend was not increased should add to confidence in the management. The surplus for the quarter equaled 4.27 per cent for common stock and total surplus is over \$100,000,000 for first time in the history of the company. Earn-

GILLEN HEAD OF DIVISION

Continued from Page One.

In 1877, since which he was consecutively to 1879 operator on the Ohio and Mississippi Railway; 1879 to 1881, operator and train dispatcher on the Union Pacific Railway; 1881 to 1884, train dispatcher and trainmaster on the Denver and Rio Grande Railroad; 1884 to 1887, train dispatcher on the Union Pacific Railway at Laramie, Wyo.; 1887 to 1889, train dispatcher on the Missouri Pacific Railway at Sedalia, Mo.; 1889 to 1892, chief dispatcher of the same road at St. Louis, Mo.; 1892 to February, 1900, division superintendent of the eastern division of the G. T. R., at Belleville, Ont.; June, 1901, to March, 1902, superintendent of the eastern division of the G. T. R., at Montreal, March, 1902, same road, at Montreal, March, 1902, to December 31, 1904, superintendent of the western division of the G. T. R., at Detroit, Mich. From 1904 until the present he held the position of superintendent of the middle division, with headquarters at Toronto.

New Superintendent at London.

For the first time in many years, a Canadian is filling the position of assistant superintendent of the local division. Mr. Nixon was born in Montreal, but left some years ago for the western states, where he had much experience on the big trunk lines. He returned to Canada five years ago, he was temporarily employed in the London offices, going from here to Montreal, where he shortly afterwards became chief dispatcher. From Montreal he was transferred to Stratford, where he was a couple of years he filled the position of trainmaster. Now he returns to London as assistant superintendent, and those who know him best say that he will make good.

Mr. Gillen came to the Grand Trunk some years ago for a time was stationed at Belleville. Two years ago he assumed the position of assistant superintendent when Mr. Higgins left London. His work on the local division attracted the attention of the men at the head of affairs at Montreal, and his promotion may be regarded as the result of marked ability and strict attention to the management of his division.

Mr. Bowker was until four years ago employed as a dispatcher in the local offices. Then he was removed to Durand, Mich., and later to Stratford, where he became chief dispatcher. His promotion to the position of trainmaster at Stratford is well deserved.

Mr. Wilson has many friends in London who will be sorry to lose his society, but they will be glad to hear of his promotion to the post of chief dispatcher at Stratford. No member of the local dispatchers' staff is better qualified for the position than Mr. Wilson.

FOR INTERFERING.

Hamilton, April 30.—At the police court this morning sentence was passed on Wm. Crisp, charged with vagrancy, and Lorne Crisp, charged with interfering with Detectives Bleke and Miller when they went to arrest his brother. The sentence in each case was six months imprisonment.

BEAR IN MIND

That if you had invested \$500.00 in Temiskaming and Hudson Bay shares at forty cents per share you would be worth about a quarter of a million dollars today.

London Silver-Cobalt Shares

May not do as well as this—in fact we don't expect them to, but \$500.00 invested in any one of a dozen properties in the Cobalt camp at the time that T. and H. Hay was selling for forty cents a share, would now be worth anywhere from 300 to 700 per cent.

ON THE OTHER HAND

Do you know of anyone who has lost money up there yet? They may not have actually got dividends yet, but is their money lost? The camp is too young to say whether they have lost or not, and week by week new producers come into being and the "poor" stock of last year is the "good" stock of today.

London Silver-Cobalt Shares

Are 25 cents today, and may be worth dollars next year. Better drop us a line and investigate.

DOWN IN ICY WATERS.

New York, April 30.—While coming up the Hudson River during a dense fog today the steamer C. W. Morse, of the People's Line, crashed into and sank the New York Central freight boat, propeller No. 4. The No. 4's crew was thrown into the icy water, but with the exception of Engineer Keyes, all were rescued. The engineer has not been seen since the collision and it is believed that he went down to his death with his boat.

LOCAL MARKET.

London, Wednesday, May 1.

Hay was in large supply today, there were 50 loads offered; sales were fair, at \$10 to \$12 50 for common, and \$13 50 to \$14 50 for choice.

For choice, raw sold at \$6 50 per ton. Hay was firm, at \$12 to \$13 50 per cwt. Sales were firm.

WEEKLY REVIEW.

Business was brisk at the markets held the past week. The supply of farm produce was smaller than in the previous week. The farmers were busy seeding last week, which was no doubt the cause of the light supply in the various lines.

Prices were firm to higher.

Grain—Oats are in good demand; the supply is barely sufficient for all requirements; sales are made at \$1 32 to \$1 34 per bushel, or 45 to 46¢ per bu; the price of wheat is firm, as the market is hard.

Hay and Straw—Hay is selling well at present; prices are made at \$13 to \$14 per ton for choice and \$12 to \$13 50 for second quality. Straw is firmer, at \$6 50 per ton.

Butter and Eggs—Butter is firm, at \$20 to \$21 for crocks and rolls. Eggs, at \$16 in good demand and prices are higher, at \$16 per dozen wholesale; the country storekeepers are paying 16¢ to 15¢ per dozen in trade, which helps to keep the prices up on this market.

Apples—The supply is small and prices are higher, at \$2 to \$2 25 per bag and \$2 to \$3 per barrel.

Potatoes—There is a scarcity at present and prices are higher, at \$5 to \$6 per bag, the latter price for single bags.

Poultry—Spring chickens have appeared on the market; sales are fairly brisk, at \$1 to \$1 25 per pair dressed, and 14¢ to 15¢ per lb. in dress; high priced, at \$1 to \$1 50 per pair dressed, and 50¢ to \$1 10 per lb. in dress.

Dressed Hogs—Prices are firm, and the demand is good, at \$9 to \$10 per cwt for light hogs.

Live Hogs—The price for Monday's shipment will be \$8 25 per cwt for select.

Butchers' Meat—Veal is the principal offering in this line; sales are slow at \$5 to \$7 per cwt; mutton, \$8 to \$10 per cwt; beef, \$7 to \$8 50 for choice, and \$6 for common; lamb, sold at \$5 each.

Cheese—Steady, 14¢ to 15¢.

NEW YORK.

New York, April 30.—Butter—Weak; receipts, 10,000 packages; prices, creamery, creamery, 22¢; official prices, creamery, common to extra, 21¢ to 27¢; held, common to extra, 20¢ to 25¢; dairy butter, common to fancy, 20¢ to 25¢.

Cheese—Firm and unchanged; receipts, 5,715 boxes.

LIVERPOOL DAIRY REPORT. WEEK ENDING APRIL 19.

(Hodgson Bros. Report.)

Cheese has met but moderate demand, and has been priced for sale at a further reduction in value of one per cent on the week. The large arrivals of New Zealand, chiefly to London, have influenced the position adversely, and the closing of the old season is disappointing to importers of Canadian. We quote today: Finest Canadian, tall makes, white and colored, 65¢ to 68¢ per cwt; finest States, 65¢ to 68¢; secondary qualities, States, 58¢ to 62¢; secondary, full cream, 57¢ to 59¢.

Butter is also easier, the arrivals of Finnish and Danish being large and buyers are discriminating. New Zealand are also present for sale at declining values, while Argentinean are neglected. Australian is plentiful, and only the choicest grades are offered, and only the choicest grades are offered, and only the choicest grades are offered.

Irish creamery which has come to the market is disappointing in quality, and a slow sale. The Copenhagen quotation for next week is called a kroner lower. We report today's values as follows: Choicest Canadian creamery, in 5-lb boxes, nominal; choicest continental butter, Danish and Finnish, in 10-lb casks, 95¢ to 105¢ per cwt; choicest Russian and Siberian, new season's goods, 88¢ to 92¢; secondary grades, do, stored goods, 74¢ to 88¢; choicest Australian and New Zealand, as to quality, 88¢ to 100¢; choicest Argentine, 95¢ to 98¢; choicest Irish creamery, 95¢ to 98¢; choicest States creamery, nominal; states process creamery according to quality, 78¢ to 80¢; States ladies, imitation creameries and Canadian dairies, from 72¢ to 80¢.

—A very pleasing entertainment was given at the Gore Methodist Church last night, and the attendance was very large. Miss Winifred Short, a gifted elocutionist, entertained splendidly as did the Hamill on Road Church choir, which rendered several musical selections in excellent voice.

WHIST MATCHES TONIGHT.
Progressive and compass whist matches will be played at the Liberal Club tonight, beginning sharp at 8 o'clock. A full attendance is looked for.

SENT FOR TRIAL.
Harvey Logan, the 15-year-old Thorndale schoolboy, charged with seduction, preferred on behalf of Hazel Thompson, a 14-year-old girl, was committed for trial yesterday by Judge Chittick. The offense is alleged to have taken place at the residence of the girl's aunt in September last.

COMBINED EVENING RECITAL.
Mr. Jordan has arranged another interesting recital, which will be given next Saturday evening at 8 o'clock in the First Methodist Church. Mr. George Fox, the eminent violinist, who has just returned from a very successful tour of the Southern States, and Miss Grace Baldwin, a promising young soprano, of Detroit, will assist. The organ numbers will include some novelties, as well as the better known compositions. Silver collection at the door.

CONCERT FOR MISSION FUND.
A concert for the benefit of the mission fund was given last night in the First Methodist Church by the church choir, under the direction of Mr. A. D. Jordan. There was a good attendance and an excellent programme was rendered. The programme was as follows: Chorus; solo, Miss Kidder; male quartet; cornet solo, Mr. V. C. George; solo, Miss Deacon; ladies' chorus, "Last Night"; solo, Mr. Harding; chorus; solo, Miss Mallory; cornet solo, Mr. St. George; solo, Mr. Harding, male chorus; solo, Miss Eilar; chorus, "God Save the King."

CANADA AND HER FUTURE.
At Knox Church last night, the third of an interesting series of lectures was given, under the auspices of the Knox Church Men's Association by Rev. D. S. Hague, who spoke chiefly on Canada and her future from a patriotic standpoint. The most material sources of Canada stored up in her vast forests, her extensive mineral lands, and the great fertile plains of the far west, Mr. Hague went on to point out the duty of every Canadian, to do his and her share to keep up the

Wheat Food Is Most Nourishing
Has Been Recognized As Man's Natural Food Since Prehistoric Times.

The failure of people to properly chew their food is recognized by doctors as one of the most prolific causes of ill-health. Food not properly masticated (chewed and mixed with saliva in the mouth), not only fails to sufficiently nourish the body, but ferments in the stomach, causes indigestion and fills the system with poison. Stomach juices cannot convert starch into maltose as saliva does. Hence, to develop from ordinary food the rich, nourishing maltose (malt sugar) so absolutely essential to the good health of everyone, the food should be (but generally is not) thoroughly chewed.

The ideal food which gives greatest strength to body and nerves is Malt-Vita, in which the starch of the wheat is changed to maltose when the food is made. Malt-Vita is ready for assimilation by the blood as soon as eaten. Malt-Vita is all of the wheat. Not a single nourishing part is wasted, destroyed or thrown away. Every element required for perfect nutrition is therefore represented in each grain of this delicious, invigorating food, which perfectly supports all the energies of brain and body. Malt-Vita is the weakest stomach in the slightest, whether it is chewed while being eaten or not, because the Malt-Vita is masticated. Nothing builds up a weak system quicker or sustains a healthy one better. It pleases the tastes of all and completely satisfies the needs of old or young. Grocers sell it in large, sealed, air-tight packages at 10 cents. Ready to eat when you open the box.

Canadian ideals, which he said were the highest of any nation in the world. A luncheon was served, before the commencement of the lecture, by the ladies of the church. There was a large attendance.

McCONNELL-HEATHELLY.
At the King Street Presbyterian Church, parsonage yesterday Miss Mabel J. Heathcote and Mr. A. J. McConnell were united in marriage by Rev. James Rollins. The ceremony was of a quiet nature. The bride's dress was of white crepe de chine, while she carried white carnations. Miss Florencie McConnell, sister of the groom, who was the bridesmaid, wore cream silk, and carried a bouquet of pink carnations. Mr. Jack McConnell, brother of the groom, was groomsmen. Many hands were bestowed upon the happy couple, among them being a suitcase and carving set from the staff of Hound & Co., by whom Mr. McConnell was employed until recently. Mr. and Mrs. McConnell have gone to Toronto, where Mr. McConnell has accepted a position.

LIQUIDATION OF THE YORK LOAN

Winding Up Operations Greatly Aided by the New Dominion Act.

Toronto, May 1.—With the passing by the Dominion Parliament of the amendments to the Insolvency act, the York Loan Liquidation will likely come before the courts in a few days, when the liquidator will ask for the necessary instructions. Fully 114,000 claims were filed, and these may be roughly divided into about 30 classes. These classes arise because of changes in the certificates and other causes. Then there are certain of the claimants who have classed themselves as preference shareholders, and a decision has to be given on their claims. The winding-up act as it was before the amendment was passed did not provide machinery for such cases as the York Loan, although ample for all ordinary cases. Under the old act, creditors had to be served personally in most cases where the claim was to be disputed, and each shareholder also had the right to have his or her own solicitor appear, who might also require notice, so that with the very best intentions by all concerned the delay under the old act would have been almost interminable, and the expense very heavy. Now, however, the courts, after careful consideration, will arrange for the legal representation of each class, and, of course, may decide that two or more classes may be united in the legal representation.

It is likely that the liquidator will go before Referee McLean on an early date and ask that the necessary appointment of counsel for the class of claims to be taken up first shall be made, and all the necessary notices given. By the new arrangements the creditors will gain considerably, and as far as it is possible to expedite such a complicated winding-up as the York Loan it will be expedited. There cannot, however, be very great speed until the rights of every shareholder has been fully inquired into and placed beyond all doubt.

The passing of the new act was greatly facilitated by the assistance given by the Hon. A. B. Aylesworth, minister of justice, and Mr. Claude Macdonnell, M.P. for South Toronto, both of whom gave all the time and attention such an important measure necessarily entailed. No such complicated winding-up has ever before been undertaken in Canada, so there were no precedents to guide the liquidator, and no decision of the courts to guide the legal advisers as to the course of procedure. The courts are now instructed how to proceed and there does not appear to be any probability that a legal battle will arise on any of the many complicated points still to be dealt with before all is clear sailing for the final settlement of the York Loan.

A legal gentleman who has been frequently engaged in winding up business says the shareholders will save from \$150,000 to \$200,000 in legal and other expenses under the new act as compared with the cost under the old system.

McCLARY CLUB'S SMOKER
A Big Crowd and a Good Time at the City Hall.

"A royal good time" was the opinion expressed by all who attended the McClary Baseball Club smoker and card tournament at the city hall last night.

Over 120 players sat down to tables provided for duplicate and progressive whist and euchre contests, and wit, good humor and good fellowship were conspicuous throughout the evening.

The winners had options of good cigars or a new pipe. They were: Duplicate Whist—Perguson and Doggerel, plus 2.

North and South—Senders and Magee, plus 6; Rider and Hodgins, plus 4.

East and West—Doyle and Shea, plus 7 1/2; Carter and McLeod, plus 4 1/2; Boyce and Gray, plus 3 1/2; Benson and McMurphy, plus 1 1/2; Goodwin and Smith, plus 1 1/2.

Euchre—Thomas Rowan and J. Williams won 5 and lost 1.

FORMER LONDONER KILLED
Engineer William Fixter Meets Death in a C. P. R. Wreck.

In a wreck which occurred on the C. P. R. on Monday night, at a point 75 miles east of Fort William, Ont., William Fixter, the engineer, and a former Londoner, was killed, together with Fireman E. G. Veaudry and Brakesman Vallancourt.

The train was the second section of No. 129, regular freight, and left Fort William eastbound at 6:20 Monday night. The accident happened at Fire Hill, a small station east of Nipigon.

A bridge over a small creek being washed out, the engine plunged into the opening, going at regulation speed.

The body of the engineer has been found, but those of the fireman and the brakesman have not been seen, and are

probably buried under the engine. Fire added to the horrors of the wreck.

The late Engineer Fixter was a nephew of Mrs. Fixter, who is in charge of the C. P. R. depot at the asylum here. The deceased's parents died some years ago. He was a middle-aged man and resided at Schreiber, Ont. Besides his wife, Mr. Fixter is survived by three brothers and two sisters, as follows: John Fixter, of St. Anne de Beaufort, Quebec; James, employed on the C. T. R. at Wingham, Ont.; George, at Ottawa; Mrs. Cummings, of Boston; Mrs. Stevenson, of Ottawa.

A characteristic illustration of the habit of the Japanese of following the professions of their fathers was recently afforded by an advertisement in a Japanese newspaper. A famous dancing master announced a religious celebration of the 1,000th anniversary of the death of his ancestor, who had been the first in his family to teach.
