It is understood that the assessment actual value of the property. This will, alout \$5,000,000 this year.

This will increase the total from \$28,000,000, as it is approximately at the present time, to \$33,000,000. A large number of assessment sheets been distributed already, and the growth of the figure, has given rise to much complaining.

The result will be, it is anticipated, that a score or more of smaller manufacturers will ask for a fixed assessment in January next. Incidentally, the court of revision will have the busiest sessions in recent years.

The usual growth is about \$1,000,-000 a year of late. Last year it was increased more than that amount, but this was considered abnormal. It is understood that the additions to the \$1,000, that ends it. If the manufacessessment form part of a scheme to turer or the businessman has his asbring it into a figure approximating the

## GENERAL OTTER VISITS THE CAMP

Medical Corps On Carling's Heights Were Thoroughly Inspected Today.

A ROUTE MARCH HELD

Manoeuvres Were Conducted in the Neighborhood of Fanshawe-The Day's Doings. -

General Otter visited the training camp of the Army Medical Corps on Carling Heights this morning and conducted a tour of inspection. Owing to the rain of last evening the activities planned for this morning were ancelled, and they will be held this afternoon. The men were given a ecture on first aid to the injured for about half an hour and then bayonet drill was held. Following this the different units returned to their quarters and until noon spent the time in games and other sports

Apparently Pleased. General Otter was apparently pleased with the appearance and general order of the camp. He traversed field and inspected the quarters of the different units in company with Col. Jones and the rest of the staff. He also inspected the cooking tents and the camp equipment including the food and supplies. He inquired of each officer and commander of the different corps as to the strength of their respective units appeared well satisfied with everything. The horses also came in for inspection, together with the stab-

ling conveniences.

An Orderly Camp. The camp is one of the most orderly that has ever been held on Carling's Heights, and the men seem to be enjoying the outing to the full. Each unit seems to vie with the other in keeping their quarters as neat and celan as possible, and the tents present a gne appearance both inside and out.

Many have delayed the preparation for summer comfort, but our stocks and our facilities for quick service will right all such oversights in a hurry. This is the first week of June, and high time to begin if you are not equipped for the summer seige. Cool clothing for warm weather, hats and underwear; cool floor coverings and draperies for the summer home, porch furniture, etc., to make life more enjoyable through the long summer days; requisites for travelling, outing and vacation equipment.

BERKEY & GAY FURNITURE CO.

We have formed an important selling alliance with this firm, which is the oldest, largest and best-known firm in Grand Rapids, the centre of cabinet-making in America. We have become the exclusive distributors in London of Birkey & Gay furniture. Gay furniture, and we believe the displays of these noted makers' lines will be of special interest to those who are looking for the best class of furniture. Carpets, Furniture and Paper, Third Floor.

#### PERIOD FURNITURE

There is a satisfaction not measured by dollars and cents in the possession of beautiful furniture. And that satisfaction is not a matter of how many dollars you spend, but how you spend it, and the truth of those statements, we don't think, can be realized until you have seen our display of period furniture, in which the only difference from the original pieces is that they are a great deal more adaptable to twentieth century requirements. See display of Berkey & Gay period furniture—Third Floor.

# 75 Gage Sailors On Sale This Week The Popular Outing Hat for Women

LONDON, TUESDAY, JUNE 4. CANADA AT WESTMINSTER.

We are now told in many quarters that Mr. Borden intends to make any Canadian naval expenditure conditional upon Canada's having a voice Borden hinted at this course in some of his speeches before the election,

The proposition is not so simple as It sounds. It was mooted at the last declined to regard it as within the sponsibility for shaping the foreign policy of the United Kingdom.

How is the theory to be reduced to tives in the defence councils at Westminster will not solve the problem. Suppose the Canadian representatives tion involving peace or war - would they be bound by any decision opposed to their judgment? And would the Canadian Parliament be bound by the judgment of the Canadian representatives at Westminster? It is plain that the United Kingdom must have her own way, so long as she bears most of the burden of the military and naval defence of the Empire. This being so, colonial representation at Westminster would be merely a phantom, a constitutional figtion. In no way would Canada's position be improved. In respect to imperial defence it would not be so self-respecting as it would be under the Laurier naval law. The Laurier policy left the mother country free to handle the del-Icate problems of Empire and decide for peace or war, reserving to the Canadian Parliament the right to say whether in time of war the Canadian naval forces should remain in Canadian waters for local defence, or be placed under the direction of the adprinciple of Canadian autonomy, and conformed to the spirit of voluntary co-operation with the mother country which was so successfully realized in

the South African war. Imperial federation, of course, is broader question, and involves more far-reaching considerations. The advocates of the project have not framed a scheme upon which they have agreed. Imperial federationists who say the time is ripe for such an organic union should produce at least a paper constitution.

#### A TWO-FACED CAMPAIGN.

The campaign waged by the opponents of the Scott Government in Saskatchewan, where a general election is impending, abounds in cries such as federal politicians in the same camp would not dare to breathe in the east. As public spokesman of those who instil these false notions in tetea-tete interviews on home-stead or high-road, the Regina Province says:

"In eighteen years of power the Conservatives (at Ottawa) reduced the duty on agricultural implements from 35 to 20 per cent.; in 15 years under Sir Wilfrid Laurier the duty was reduced from 20 per cent. to 171/2 per cent. But while Sir Wilfrid made a slight reduction in the duty, he raised the valuation to overcome this reduction. In addition to doing this, the duty was lowered on certain raw materials used by the manufacturers of agricultural implements, which was a further bonus. The reciprocity pact afforded no further relief as there valuation, and the old game of 1897 would have been worked. Sir Wilfrid, in addition, made the statement that no further reduction in duties on manufactures was intended. He authorized this statement, which for North Oxford. He also wired T. C. Robinette, Liberal candidate for gerie. North York, that he would not injure the manufacturers. Such is the history of the duties on agricultural implements, and the Liberal party's record is not such as to guarantee

Here is a distinct appeal to the agricultural class as against the manufacturer. It is made a matter of complaint against the Laurier Government that it helped the manufacturer of agricultural implements by a drawback on the raw material duties. though that could not hurt the farmer! Laurier is assailed on the ground that he said 'he would not injure the manufacturers."

Would a Conservative paper in Ontarlo dare to approve such argument? Ask our local implement manufacturers who took so active a part in the last election what they think of It? The article is part of a studious attempt being made to foster the impression in the west that the Borden

> The soul of the aged cries out for est, but Mr. Harrison is unable to find it in England. To him the watchword of the twentieth century s unrest. He hears everywhere the sharp yell, "All change here!" People today are in love with change for the sake of change. They thirst to get out of their old life, habits, thoughts and pleasures, to get into new lives new selves. This unrest, this stir-

— for the last thing out!' 'Omnes eodem cogimur.'

Now, there is really no harm in this passion for change, for the history of the race has proved that where there has been a divine discontent there has been progress. "Better fifty years of Europe than a cycle of Cathay.' sang Tennyson in the days of good Queen Victoria. Today we might go further and say, "Better one year of America than a cycle of Cathay." But even sleepy Cathay is becoming wide awake since the establishment of Dr. Sun's republican form of governmen. But Mr. Harrison has another ground for complaint. He continues:

"The new era under which we are an umpire is not human. now suffering is the Cult of the Foul, or, to put it in Greek, it may be dubbed Aischrolatreia - worship or admiration of the ugly, the nasty, the brutal. Poetry, romance, drama, painting, sculpture, music, manners, even dress, are now recast to suit popular taste by adopting forms which hitherto have been regarded as unpleasing, gross, or actually

"To be refined is to be 'goody goody'; gutter slang is so 'actual' if a ruffian tramp knifes his pal, it is 'so strong'; and, if on the stage his ragged paramour bites off rival's ear, the halfpenny press screams with delight. Painters are warned against anything 'pretty,' they dab on light tints to look like a linoleum pattern, or they go for subjects to a thieves' kitchen. one aim in life as in art, is to shock ene's grandmother. And when the society woman dances in bare legs, the up-to-date girl can dress herself like a stable-lad."

Mr. Harrison finds a cause for this ondition of affairs in the reaction of such writers as Ibsen, Tolstoi, Zola, Wagner and d'Annunzia against Vicorian conventions. -These writers were searching for reality, but they have been succeeded by a race of sensual imitators who have rejoiced in the foul for its own sake and have delighted to describe the cruel, the morbid and the loathsome. While I admit that Mr. Harrison does well to lash these panderers to the demoralizing in art and literature, I am not TOOK HIGH STAND willing to believe that the majority of either the writers or painters of today are less inspired by high ideals [Washington Herald.]

They took a cover off a sofa and had piled all the silver on this ready for flight, when they were apparently frighten ed, and fled without their booty. They secured, however, a gentleman's

#### LADY SYKES DEAD

Nursed Soldiers in South Africa and Edited a Newspaper.

London, June 4. - Lady Sykes, the wife of Sir Tatton Sykes, is dead. She was at one time described as the most prominent woman in England and won a reputation as the greatest plunger of her time. She had written a book, nursed soldiers in South Africa, and edited a newspaper. Her extravagances and success as a gambler provided the gossips with endless talk.

It may be remembered that there was much litigation between Lady Sykes and her husband which commenced with an advertisement by Sir Tatton that he would not be responstble for his wife's debts.
Of late Lady Sykes had devoted herself to religious and charitable

## Cooking is a pleasure when you have a "McClary" Gas Range in your kitchen

) case o extens o extens o animás o extens o extens o extens o extens o extens

You wouldn't think of lighting the furnace during the intense heat of summer. Why persist in cooking on a coal range during the hot weather? GAS is a much cheaper fuel than coal-far more convenient and easier on the cook in the summer time. Any McClary gas range pays for itself very quickly in the actual money it saves.

The Model shown in the cut is "McClary's" latest production and therefore the greatest range value there is. The first glance con-

vinces you that your comfort and convenience have been studied by the designers and builders of this range. It is quite apparent that you can cook a big dinner on this range without being crowded. The big roomy Oven is placed high. The Broiler is also elevated. There is no "steeping or bending" over this range.

Like other "McClary" ranges, this model has the white enamelled broiler and drip pans. Also Anti-Rust linings which add to the life of the range. The body is finished in bright, black enamel, and is easy to clean.

Just see the many styles of "McClary" gas ranges at your dealer's. All "McClary" gas ranges can be changed from artificial to natural gas in a few moments if necessary—see them and pick out the gas range that suits you best.

POISON SQUAD MEMBER COLLAPSES UNDER TEST

Philadelphia Student in Serious Condition for a Time, But Has Recovered.

COMPANIONS ARE SICK

Every Member of Band Suffers With Nausea as Result of Caffeine Experiments.

Philadelphia, May 11.—Serious results have followed the feeding of caffeine, a drug lurking in chocolate as well as coffee, to the eight student members of the "poison squad" of the Hahnemann Medical College here. All have been subject to severe headaches and serious attacks of nausea, while one member of the squad was in such a serious condition after taking the caffeine-laden water for the first twenty days that he had to be placed in a special ward in the hospital. He received constant attention, has recovered and at the college is said to

have rejoined the squad. The "poison squad" at the Hahnemann College was formed very quietly. It came into existence on March 1 and is under the direct supervision of Dr. Edmund T. Nesbit, director of the Hering laboratory of the college Dr. Nesbit called for volunteers from among the students. He said he wanted men who were willing to do something for the benefit of humanity at large, even though it might be to their own discomfiture. ty-five students volunteered. Of these fourteen of the most perfect physically were chosen, eleven as regular members of the squad and three as

alternates. For thirty days the members of the squad were given doses of caffeine while Dr. Nesbit and his assistants made personal observations, taking the pulses and temperature of the members of the squad and making notes on their general physical condition. It was not until within the last few days that one member of the squad weakened under the experiment to such an extent that it was necessary to send him to the hospital. Dr. Nesbit refuses to reveal the name of the student who collapsed, but declares that through treatment im-

mediately he soon recovered. The caffeine was administered in a solution and was mixed with the water the squad drank. The students did not know when they were getting the caffeine. There were no stated times for giving it in order to keep the mind of the student free from worry in order that the physical condition might not be changed material-

ly through the action of the brain. Before joining the "poison" squad each student had to sign a release against any action for damages against the college.

The laboratory was organized about fifteen months ago with Dr. Nesbit as director, and almost immediately an exhaustive study was started to ascertain the destructive qualities of caffeine as used in food stuffs.

The students continued to live at the dormitories or at boarding houses, but they were required to take their meals at the training table located in the hospital near the diet kitchen. Before each meal the temperature was recorded, the pulse and respiration were taken and the blood pressure was tested. During the period drug was administered only Dr. Nesbit knew the amount apportioned to each man and when and in what quantity it was administered. -New York Sun, May 12, 1912.

SUBMIT ULTIMATUM British Government to Confer With Employers in Effort

to Bring Peace.

[Canadian Press.] London, June 4.—The strike leaders onferred today with members of the cabinet at the home office and delivered what Ben Tillett, their leader, subsequently describes as "our ultimatum," which the employers up to this afternoon

had shown no disposition to accept. Addressing a meeting of the men after the conference. Tillett announced: "The Government has taken our ultinatum and that is this: We call for the creation of a joint board representing all the interests of the employers and we insist upon the employers as a body being responsible to us while we are prepared as a body to be responsible to the employers. We say that the Transport Workers' Federation shall be the authority to represent the interests of the men and no work shall be resumed unless all the men are reinstated.' ownership question which impresses itself upon a visitor to the west, and which might be an influence in London, should the city seriously consider the purchase of the street railway,' said Mr. J. Q. Spence, of the Western Canada Realty Company, in an interview today, "and that is, the possibilities of assisting in the development of a town instead of merely fol-

owing that development.' Mr. Spence was accompanied on his recent trip by Mr. Frank Bernhart, of the same company, and in pursuit of realty propositions for themselves and customers they visited a great many towns and cities, securing properties and options at leading points like Regina, Swift Current, Moose Jaw, Prince Albert, Saskatoon and Weyburn, Some of these they are now putting on the market, as readers of

The Advertiser know. "The growth of these population centres," said Mr. Spence, "is not only wonderfully rapid, but substantial. A mere boom in land values would not account for the development. The development is based on the filling up of the farms, and the mammoth out put of grain. The land values are the effect, not the cause, of this develop-ment. The west is 'sore' because of the rejection of reciprocity, and will continue to think of the tens of mil-lions of dollars extra they might have nad each year. However, the spirit of optimism is strong and they are not going to quit a good thing simply because of thinking it might have been

As to the question of public ownership, Mr. Spence pointed out that where the cities owned their own street railway, they made extensions in advance of the city's growth. "For instance," he said, "if this were a western city under municipal ownership, they would not wait until Adelaide street were built up to Victoria before extending, but would run the line along vacant property and buildng operations would proceed at double the rate. In every town in the west there is absolute proof that selfof the most substantial character.

#### BRANDT BACK IN JAHL

New York, June 4.-Folke E. Brandt was taken back to Dannemora prison today. For several weeks the former valet of the banker, Mortimer L. Schiff, has been in the city on a writ of habeas corpus, which was obtained on the ground that he was illegally sentence after he had served five years of a thirty year term given him after pleading guilty to burgalry committed in Mr. Schiff's house. Brandt's final appeal on the writ of habeas corpus is expected to come before the court of appeals tomorrow. Brandt was taken from the Tombs to the Grand Central station in a taxicab, in charge of a confidential agent of SuperIntendent of the Prison Scott. Brandt will reach Dannemora at 7 o'clock tonlight.

night.

In case Brandt's appeal goes against him, it will still be possible to obtain another writ of habeas corpus on the ground that he is illegally confined, because in open court a few weeks ago Judge Rosalsky revoked his thirty year sentence and recommended a new trial.
