Ever thought of endowing your home?

It's very easy to do it.

Suppose-having purchased a house and effected a mortgage on it-you should die suddenly!

Wouldn't your wife and family have a hard time meeting the interest on the mortgage and discharging the principal sum when due? Not so, however, if you were insured under an Imperial Endowment policy for the amount of the mortgage. A small amount invested each year in such a policy will enable your heirs to pay the mortgage immediately after your death, even if it should occur next week. On the other hand, if you should live until the policy matures you can pay off the indebtedness yourself out of the amount of the Endowment.

Have you a mortgage on your home? Then let us show you how you can make sure of its repayment whether you live or die.

Write today-tomorrow you may be uninsurable.

If there is no heart disease

Dr. Cassell's Tablets will cure you.

Palpitation may be due either to weak disturbed nerves, and a debilitated system resulting from vital exhaustion, or to flatulence arising from dyspepsia. In either case the only rational treatment is to nourish your nerves and to strengthen your

digestive organs. That you can always do by taking Dr Cassell's Tablets. The proper course is to take Dr Cassell's Tablets twice daily, and Dr. Cassell's Instant Relief at night. The first brings new strength and vitality, the second restores digestion and clears away the harmful matter from which flatulent gases arise. Follow this course and palpitation will soon cease to trouble you. We make only one reservation. If you have actual heart disease (which is rare), you should see a specialist, all other forms of palpitation these Tablets

will certainly cure. Here is an extract from a letter written some time ago by the late Major-General Sir John W. Campbell, Bart., C.B .: I have pleasure in stating that I have derived great benefit from Dr. Cassell's Tablets, and have found them remarkably effective in restoring nerve energy and physical vigour. SENDING BREAD TO 9 Cents Today

President States That All the Dairymen Will Charge the Same.

President P. A. Campbell, of the London Retail Milk Dealers' Asosciation, stated to The Advertiser last night that commencing today milk will be 9 cents a quart. The wholesalers, he stated, have raised their price to retailers to 5 cents a quart. There are over 70 dairymen in the association, and Mr. Campbell says all will charge the same price. Milk, he says, is selling in Toronto, Hamil-ton and Windsor for 12 cents a quart.

"Scarcity of feed and labor are the main causes for the increase." he said. "We have difficulty in getting milk, as many people who formerly kept cows are letting them go rather than buy feed. There is little ensilage this year. The prices of the glass bottles ecently jumped 20 per cent, and, tak- the British minister to Switzerland, ing everything into consideration.
dairymen cannot continue to sell milk at the old prices and live." Mr. Campbell said he hoped that by spring conditions will be such as to warrant a reduction.
