THOMAS STONE & SON, Importers

Out of Town Visitors to the Chatham Fair

When in the city are invited to make our store their headquarters. We'll take care of all your packages without charge—come and go as often as you like. Consult our time tables and ask us for all the information you need—we're posted. Make our store your store.

Fall Clothing

These nippy mornings and evenings are whistling the overture. The full Fall and Winter chorus will soon be heard.

DON'T YOU NEED AN OVERCOAT?

DON'T YOU NEED A FALL SUIT?

Then Remember

Our "Good Clothes"

In the first place, they are made of the choicest, newest cloths. Not a material is used at any price that is not pure wool. The styles are always the most advanced. The tailoring is better than that of most custom tailors, and thorough inside and out. Our clothing looks well and holds the shape always. Then, too, there's this satisfaction—every garment is guaranteed absolutely. Our clothes are made to suit, have suited and do suit Chatham's most particular men. There's one more point—

NO CLOTHING FITS LIKE OURS!

Men's Overcoats, \$5.50, \$7.50, \$10.00, \$12.50 and \$15.00.
Men's Suits, \$7.50, \$10, \$12.50 and \$15

RARE CANADIAN STAMPS.
London, Oct. 5.—(Telegram cable).—At a sale of rare postage stamps here a Canadian 12-penny, black, issued in 1851, sold for £21; a New Brunswick 15-cent, mauve, for £36; a Nova Scotia 15-cent, purple, for £36, and a Newfoundland two-penny, scarlet, for £49.

ANARCHISTS ARRESTED.
Rome, Oct. 7.—Glavinovich, an Anarchist, who recently arrived here from Dalmatia, has been arrested. He had been heard to threaten the lives of the Pope and of Cardinal Rampolla, pontifical secretary of state. Boschi, another Anarchist, has been arrested in Milan.

BIG DEFICIT

Revenue Returns for France Are Far from Satisfactory—There is No Excuse.

Paris, Oct. 7.—Official returns for September show that the decrease in the revenue is 22,096,700 francs, compared with 20,082,300 in the same month of 1900. Under the estimates the total deficit for the nine months of 1901 amounts to 137,000,000 francs, compared with 88,000,000 during the same period of 1900. Under the estimates sugar is responsible for a deficit of 40,000,000 francs.

The Temps to-day takes a gloomy view of the prospects. It says it is impossible to face such a situation without serious anxiety, with no particular circumstance of unusual expenditure to justify it. The Temps adds: "Therefore, there is no reason to expect its disappearance, and we are compelled to ask ourselves with anguish, if we are thus ruined in peace time what would happen if we had war! In such a case the people would find a simple explanation, in attributing the situation to the fault of the government. This explanation is open to discussion, but it will be prudent to take it to serious account in a country with universal suffrage, where current discontent might destroy the republic. We must remember that a deficit was the immediate cause of the overthrow of the monarchy of Louis XVI."

The Temps demands rigid economy in the budget of 1902, which will come before parliament immediately after it resumes, Oct. 22.

RELEASE THE INSPECTOR

City Board of Health Dispense with the Services of Mr. Gutridge.

There Were Many Applicants for the Position—Mr. Thompson's Appointment Recommended.

The services of the present sanitary inspector are to be dispensed with. This was the decision arrived at by the Board of Health at their regular monthly meeting yesterday afternoon.

There were present at the meeting Chairman, Dr. Thornton, and Messrs. O. B. Hulin, A. D. Westman, Dr. R. V. Bray, R. J. Dunlop, and W. S. Richardson.

The stated reason for the dismissal was the apparent inability of the present inspector to rightly perform his duties. He was requested at the last meeting of the Board of Health to hand in his resignation, but he failed to do so, and the position was taken from him. A short time ago it was discovered that there was an outbreak of scarlet fever in the Queen street School. It was learned afterwards that the inspector had not rightly reported the cases.

Applications from the following citizens were considered:—

Fred. Thompson, A. T. Mounter, F. A. McKindsey, Newton Eberts, Adam Bryden, W. G. Arnold, S. A. McCormack and others.

It was moved by Mr. Hulin, and seconded by Dr. Bray, that the position be given to Fred. Thompson.

Mr. Dunlop moved in amendment that the position be given to David Holmes. Mr. Holmes did not hand in a written application, but, however, was a candidate for the position. He failed to get a second.

Mr. Hulin's motion was carried unanimously with the exception of Mr. Dunlop's vote.

The following sanitary officer's reports were read:—

Sept. 2.
To the Chairman and Members of the Board of Health,
Gentlemen,—Since my last report there have been two cases of scarlet fever, one on Adelaide street, and one on Park avenue, which two have recovered.

There have been three cases of diphtheria reported, one on Adelaide street, one on Queen street, and one on King street. All have recovered with the exception of one who is now in the hospital.

Sewers Flushed.
Sewers on Wellington street, from the C. P. R. to Lacroix street; Raleigh street, Grey street, Lacroix street, Inches avenue, William street, Adelaide street, St. Clair street, Joseph street, Witherspoon street, Grant street, Head street, from Grant street to Victoria avenue, Murray street, Prince street from High School to the creek, Colborne street, King street, Victoria avenue, Barthe street, Kent street, West street, Prince street, Princess street, Duke street and Elizabeth street.

I have disinfected the following houses where there have been contagious diseases: House on Third street, which has been occupied by C. J. O'Neill; General Hospital contagious ward, one on Thames street. The child was brought in from the country suffering with diphtheria; was going to take child to the hospital, but died in the house on Thames street.

Two different complaints have been made of people keeping hogs inside the corporation on Park avenue, which grievance has been removed.

JOS. R. GUTTRIDGE,
S. Inspector.

To the Chairman and gentlemen of the Board of Health.

Since my last report there have been the following cases of contagious diseases:

Scarlet fever, F. Judson, Adelaide street.

Scarlet fever, Mrs. Hunter, Lorne avenue.

Scarlet fever, Mr. Dawson, Baxter street.

Scarlet fever, Mrs. Rouse, Baxter street.

Scarlet fever, Mr. Scott, Park avenue.

Scarlet fever, Mr. Thomson, Park avenue.

Scarlet fever, Mrs. Breen, Park street.

The case of scarlet fever at Frank Judson's has recovered and house disinfected; the house of Mrs. Thomson and child is still in the hospital also disinfected; the house of Mrs. Rouse and Mrs. Breen's. The children are still at the hospital. There is still six cases of scarlet fever at the hospital and three treated at home.

Two cases of diphtheria, one at Mr. Mounter's, Park avenue west, which has recovered, was treated at General Hospital; one case of diphtheria at Mr. Gregory's on Lorne avenue, which has recovered was treated at home; the houses disinfected.

I have disinfected five rooms at the Queen street school, also disinfected.

Continued on Eighth Page.

THE REWARD OF BRAVERY

Mayor Sulman Decorates Young Morrison with Medal for Saving Life.

Rescued a Comrade From the Waters of the Thames at the Risk of his Own Life.

The presentation of the bronze medal, donated by the Humane Society for the saving of a human life at the risk of the savor's own, was a pleasing feature of the Council meeting last night.

The Council had scarcely assembled in its accustomed place when Mayor Sulman arose and called John Clifford Morrison, the young son of John S. Morrison, to the dais that surrounds the seat of the chief executive officer of the city.

The lad—a manly little fellow scarcely yet entered his teens—came forward, neither bashfully nor boldly, but with perfect self-possession.

The Mayor in presenting the beautiful reward, bravely gained, said: "I may say that among the many duties that devolve on the occupants of the mayoralty chair, and these duties are diverse in kind and variety, some being pleasant and others the reverse, there is none more pleasant than the honor of pinning the badge of the Royal Humane Society on a little lad the size of Master Morrison. It is just as much honor, and perhaps more, than to receive the Victoria cross. To attain this coveted mark of bravery the soldiers on the battle field take great risks, but none greater than this little fellow took. He jumped into the river at the risk of his life and saved a companion. I take great pleasure in fastening this medal to the boy's coat and may he live long to wear it."

The Mayor suited his action to his words and the whole Council applauded the lad as he retired.

KING'S BIRTHDAY

Holiday will be Observed All Over the Dominion on Nov. 9.

Ottawa, Oct. 7.—Under a federal statute the birthday of the reigning sovereign is to be observed as a public holiday all over Canada. The law authorizes the Government to name by proclamation some other date for the celebration if they deem it advisable, but no such step has been taken. Consequently the day to be observed this year will be Nov. 9.

This will give Canadians two holidays next month—the King's birthday and Thanksgiving day, on the 28th.

RUSSIAN RUMPUS

Blood; Clash Between Orthodox and Sundry—Over Eighty Killed.

London, Oct. 8.—"In Pavlova, a town of 4,000 inhabitants, 120 miles from Kharkoff," says a despatch to the Standard, from Moscow, "a quarrel between students and orthodox church people led to a free fight. The Russian church was wrecked. Eighty people were killed. The police were powerless, and troops were sent from Kharkoff to restore order. The Russian priests escaped with the more valuable sacred images and altar vessels."

PASSED BILLS

Considerable Routine Business Was Transacted by the C. C. I. Board.

The trustees of the Collegiate Institute held their regular monthly meeting yesterday afternoon.

The fuel question was discussed and it was decided to test Smokeless's soft coal at \$1 per ton.

The only communications the secretary had were one from the militia department with a cheque for fifty dollars for the cadet corps and the other a statement of the Bank of Commerce account, which was \$1,195.95 to their credit.

The following accounts were ordered paid:

J. R. Reid, measuring cadets, \$2.00.

City waterworks, \$5.27.

J. L. Scott, coal, \$25.29.

S. Stephenson, \$3.35.

Underwood typewriter, \$90.00.

J. R. McGregor, photo, \$1.25.

R. Biddell, 50 cents.

Canadian Typewriter, \$5.10.

Westman Bros., work, \$3.40.

Mr. Plummeridge, \$17.03.

Total, \$164.19.

The account of J. C. Wanless for \$1.25 was referred to finance committee with power.

Those present were Chairman Scullard and Messrs. Battisley, White, Bell, McVean and Secretary T. R. Harris.

MAY RESIGN IN A BODY

Board of Health Much Incensed at City Council's Disregard of the Recommendation.

Are Holding a Special Session This Afternoon to Take Action—Declare it an Outrage.

There is war and rumors of war. The City Board of Health are in contention this afternoon and the special meeting is called for the express purpose of figuratively sitting upon the City Council.

The appointment of health inspector is the bone of contention and feeling is alleged to run high. The Board at their meeting yesterday afternoon united upon a nomination for the vacant position they had created and submitted it to the Council with recommendation for appointment.

But the Council saw through different glasses and ignored the Board's recommendation altogether, making a separate appointment of their own.

"It is the most gratuitous insult the Board has ever received," said one member to The Planet this morning, "and there is no disposition on our part to submit to it. A more deliberate slap in the face was never given and the protest will be emphatic."

"It is simply an outrage," declared another member emphatically.

It is generally understood that, unless some satisfactory settlement is arrived at the Board of Health will resign in a body.

"We were very much pleased with the design you sent. It was beautiful and appropriate." The Victoria Ave. Greenhouses receive such words of commendation every day. Telephone No. 181.

BLOODY BATTLE

Sunday Services were Interrupted by the Settlement of a Family Feud.

Knoxville, Tenn., Oct. 7.—In a bloody fight at the Union Baptist church at Big Springs, 10 miles from Tazewell, Tenn., yesterday, four men were killed, two mortally wounded and three wounded less seriously.

There was preaching at the church, and about 600 people gathered. Just before 11 o'clock service, Tip Chadwell went to the spring, 50 yards from the church. Rush Morgan was at the spring, and began firing at Chadwell. Both factions immediately gathered, and the fight lasted half an hour.

Sheriff James Brook attempted to arrest Asa Chadwell, who resisted. Both Brook and Asa Chadwell were wounded.

The feud between the Morgans and the Chadwells had existed a long time. They met at Walnut Hills, Va., last Christmas, when a pitched battle ensued, in which several were killed.

Eighteen months ago, they met near the Hancock line. Fighting followed and one was killed. Both the Chadwells and Morgans are prosperous and influential and have large families. All their members are fearless.

IN THE Centre of Africa the fame of Pain-Killer has spread. The natives use it to cure cuts, wounds and sprains, as well as bowel complaints. Avoid substitutes, there's only one Pain-Killer, Perry Davis'. 25c. and 50c.

Keep Minard's Liniment in your House.

TECUMSEH MONUMENT

Thos. Scullard is Very Heartily in Favor of the Project.

Counsels the Appointment of a Strong Committee to Take Charge of the Movement.

Thos. Scullard, chairman of the C. C. I. Board, is one of those who is anxious to see a monument to Tecumseh on the park. Speaking as a member of the Macaulay Club, he said:—

"Some years ago I suggested in the Club that a monument to Tecumseh was a part of the duty of every resident of Western Ontario. I have always felt that this district should have some remembrance and some permanent memorial to the great Indian leader, Tecumseh."

"This district, and especially that part of the County of Kent lying adjacent to the River Thames, should have some monument, because it was through this country that the retreat was made and it was the point at the confluence of the creek and river that Tecumseh with rare perception selected as the place to oppose the Americans. The British General unfortunately neither accepted his advice nor respected his counsel and retreated with disastrous results."

"Patriotism isn't taught in any formal way, but something that appeals to the feelings, incidentally, like a monument, is one of the most effective ways of arousing public sentiment. The monument would be an object of beauty, an ornament to the park and a continual stimulant to patriotism. I don't think we should make a world's effort and raise all the money at once, but should make a beginning. I would suggest that a committee be formed of the two members, the mayor of the city, the warden of the county, the president of the Macaulay Club and three or four other gentlemen whom they may appoint to assist them."

"They should take whatever means they thought best to accumulate a fund. Even if it took till 1912 to raise the money so much the better, because then the statue could be unveiled on the hundredth anniversary of Tecumseh's death, and the eleven years that must elapse would allow sufficient time to collect a sum that build a monument worthy of the city, the country and the hero."

THAT REVOLVER

Supt. Jones Still Has for Identification the Weapon Found in the Creek.

Supt. Jones has completed putting the waterworks pipe across the creek at Adelaide street. It is a first class job in every respect. The pipe has been put 8 feet under the water and the pipe has been laid on a flag bottom excavated by a dredge made especially for the work by Supt. Jones.

Many things were brought up from the bottom of the creek by the dredge, including several tin cans. The revolver, previously mentioned, as having been taken up by the workmen, is 32 calibre, nickel plated, and is loaded. The revolver had evidently been dropped in the creek by someone, most likely to destroy evidence of a crime. Perhaps a would-be suicide lost his nerve and dropped the weapon in the creek. Perhaps a man arrested, had quickly dropped the weapon into the creek as he was passing over the bridge in charge of an officer. Many conjectures have been raised, but none as yet have been successful in solving the mystery of the loaded revolver.

EXPORT EXODUS

To the United States Continue to Increase Each Year.

Windsor, Ont., Oct. 5.—That Canadian exports to the United States are increasing, and that the exodus is still continuing, are the two features of the quarterly report of United States Consul Morris, of Windsor, which he completed to-day. Business shows an increase of \$30,000 over the corresponding quarter of last year, and during the last three months, fully fifty families have entered the United States by way of Windsor. The declared exports of the quarter amount to \$203,315, of which the largest amount is made up of raw horses, viz., \$112,101. Whiskey was reported to the value of \$44,105. An interesting item is that of \$52,296 for steel rails, returned by the Michigan Central to the United States to have the ends sawed off and repaired. It seems strange that provision is not made for having the work done in Canada.

TELEGRAPH

Rumors of a Carlist rising in Spain are again in circulation.

George Nesbitt, of St. Catharines, dropped dead in the street.

Daniel McLennan, of Hamilton, was killed by a C. P. R. train.

W. L. Scott, of City View, fell over a cliff at the foot of Lyon street, Ottawa, and was killed.

Newton Small, of Opa, was nominated for the Legislative Assembly by the Liberals of West Victoria.

The sale of a number of the St. Lawrence Islands and the names of the purchasers were announced at Ottawa.

The construction of a tunnel beneath the Victoria at Rome was greatly delayed by the building and rendering it unsafe.

The Canadian Northern Railway announces that it will accept freight at Winnipeg for Rainy River points after October 10.

It is reported that negotiations are on foot for the formation of a custom union between Cape Colony, Natal and Lorenzo Marques.

South Ontario Conservatives offered the nomination for the Legislative Assembly to Charles Calder, of Brooklin, who will consider it.

Several residents in the vicinity of the saw works at Windsor were awarded damages against the company at the Assizes on account of the smoke nuisance.

Mrs. Geo. Symonds and her daughter, of Williamsburg, were struck and killed by the International Limited train while driving over a crossing at Lancaster.

Glavinovich, an Anarchist, who recently arrived at Rome from Dalmatia, has been arrested. He had been heard to threaten the lives of the Pope and of Cardinal Rampolla.

Allan Gibbons, son of George C. Gibbons, K. C., of London, who was attending the university in Toronto, accidentally shot himself at his lodgings and died within a few hours.

Four young men were arrested in Philadelphia on a charge of abducting a woman, robbing her of her jewelry and compelling her to sign checks for all the money she possessed in the bank.

RARE CANADIAN STAMPS.

London, Oct. 5.—(Telegram cable).—At a sale of rare postage stamps here a Canadian 12-penny black, issued in 1851, sold for £36; a Nova Scotia 1851, sold for £31; a New Brunswick 1851, sold for £26; a New Brunswick 1851, sold for £26; a Newfoundland two-penny, scarlet, for £40.

ANARCHISTS ARRESTED.

Rome, Oct. 7.—Glavinovich, an Anarchist, who recently arrived here from Dalmatia, has been arrested. He had been heard to threaten the lives of the Pope and of Cardinal Rampolla, pontifical secretary of state. Boscheri, another Anarchist, has been arrested in Milan.

A FURIOUS GALE.

London, Oct. 6.—A furious gale raged yesterday over Great Britain, the Channel, the North Sea and Belgium. Several fatalities on land are reported as the result of falling trees. Slight casualties are reported at sea also. There was a waterspout near Calais, Telegraphic and telephonic communication are generally interrupted.

THROUGH AN OPEN SWITCH.

Knoxville, Tenn., Oct. 5.—In a wreck on the Southern Railway to-night a passenger train, eastbound, ran through an open switch at White Pine, Tenn., and collided with a freight. Two men were instantly killed and one badly hurt. The dead are: A. R. Simpson, fireman, of Knoxville; A. W. Norton, of Newmarket, Tenn.; W. H. Kain, of Knoxville, the engineer, was badly hurt.

RAN INTO AN EMBANKMENT.

Reading, Pa., Oct. 5.—Four persons instantly killed in a freight wreck to-day on the Lebanon Valley division of the Reading Railway, near Hummelstown, Pa. The killed are, Thomas T. Dolan, engineer, Philadelphia; Wm. H. McCrosby, fireman, Philadelphia; Conductor Patrick Kane, Philadelphia; and brakeman Chas. E. Yays, Philadelphia. A switch was open, and the train went into an embankment, piling the locomotive and the cars.

"Go West,"

Ranch it and rough it and you'll soon get rid of that weak chest and that hacking cough. That is what the doctor said to a young married man with a wife and child to care for. He needed a salary to support them. He couldn't go West. Love and duty tied him to his desk in the city.

People don't have to travel to cure coughs or strengthen weak lungs. Dr. Pierce's Golden Medical Discovery cures obstinate, chronic coughs, bronchitis, bleeding of the lungs, weakness, emaciation and other forms of disease which if neglected or unskillfully treated terminate fatally in consumption.

"I will write you what Dr. Pierce's Golden Medical Discovery has done for me," says George H. Becker, Esq., of Boston, Pitts County, Ky. "Thirteen years ago I was wounded by a ball passing through my lung. I have had a bad cough almost ever since, with shortness of breath, and it was very easy to take cold; the slightest change of weather would cause the cough to be so bad I would have to sit up in bed all night. Could not eat or sleep at times; was all run down; could not work at all. A few months ago I began using Dr. Pierce's Golden Medical Discovery. Have not used more than two bottles, and now can eat, sleep and work, and feel like I never was sick. I can now do all the work I want to do, and I am able to sufficiently recommend Dr. Pierce's Golden Medical Discovery, or tell the good it has done me."

Dr. Pierce's Common Sense Medical Advice is a paper covers is sent free on receipt of 31 one-cent stamps to pay expense of customs and mailing only. The book has two purposes. Address Dr. R. V. Pierce, Buffalo, N. Y.

A STRIKE ORDERED.

Reading, Pa., Oct. 5.—The Amalgamated Association of Street Railway Employees to-night ordered a strike on the entire system of the United Traction Company, covering 60 miles of track. The company employs over 250 men, and the officials claim that a large majority will refuse to strike. On the other hand, the labor leaders declare that the entire system will be closed.

MR. DEPEW TO MARRY.

New York, Oct. 5.—Senator Chauncey M. Depew to-day confirmed the report of his engagement to Miss May Palmer, daughter of Henry Palmer. The young woman is 23 years of age, and the Senator is 67. Miss Palmer's grandfather, John Palmer, founded and was the first president of the Merchant's Bank of this city. He died about thirty years ago and left a large fortune. Senator Depew's first wife died in 1896. He has one son, Chauncey M. Depew, Jr., who is about 35 years old.

SINKING OF A STEAMER.

Detroit, Mich., Oct. 5.—A special to the Tribune from Alden, Mich., says that the steamer Hattie K., plying between Elk Rapids and Eastport, sank yesterday in Torch Lake. The crew, consisting of two men and Captain Fred Smith and his sixteen-year-old son, are missing. Two tons of flour were washed ashore on the beach near Alden. No trace of the boat or crew can be found. Torch Lake is an inland lake 16 miles long, and is being patrolled on both shores for wreckage.

FOUL PLAY OR SUICIDE.

Niagara Falls, Ont., Oct. 6.—This morning the body of Patrick Dower, an employee of the Merritt cotton mills, was discovered on the rocks near the base of the cantilever bridge. It is supposed to have lain there for 12 hours. A deep gash was found in the back of the head. Dower left Merritt Saturday morning to join friends at the Pan-Am Exposition, but on their return they said they had not seen him there. No tangible reason can be given for Dower's death. It is either a case of suicide or of foul play. The body fell some eighty feet clear. He leaves one little daughter at Merritt and his aged widowed mother, of whom he was the only support. He was about 36 years of age.

One hearty laugh together will bring enemies into closer communion of heart than hours spent on both sides in inward wrestling with the mental demon of uncharitable feeling.

"Mamma," queried little four-year-old Nellie at the dinner table the other evening, "What makes people eat soup first then fish? Is it so the fish can go swimming?"

RAISING RANSOM

A Fund of \$19,000 secured for the Release of Miss Stone.

Boston, Oct. 5.—At 7 o'clock to-night the trustees announced the total receipts at about \$19,000.

Washington, Oct. 5.—All the machinery of the department of state is now at work to save from death or prolonged captivity Miss Ellen Stone, the missionary who was kidnapped in Turkey. The President himself has become actively interested in the matter.

To-day Dr. Samuel H. Capen, president of the American board of missions, and Dr. Judson Smith, the foreign secretary of that board, arrived in Washington from Boston, and President Roosevelt gave close attention to their statement. Although the board or from private contributions, for the state department has no funds which may be used to pay the ransom.

It is gathered that whatever may be done in the future in a punitive way, Miss Stone must be ransomed to begin with. Probably the ransom must come from the mission board or from private contributions, for the state department has no funds which may be used to pay the ransom.

HOW TO SLEEP WELL

Attitude of the Body Has a Potent Influence on Heart, Lungs and Stomach.

The attitude of the body in sleeping has a direct influence upon the heart, lungs and digestive organs. The carriage of the body while awake is also largely affected by its position during the third or more of the day spent in sleep.

One should always sleep on the right side. The body should be extended to its full length and the head thrown well back. The left arm should be thrown as far back as possible, thus expanding the chest.

When one lies on the left side an unusual weight comes just over the heart, which should, of course, be kept as free as possible.

Never sleep with the arms extended above the head or the limbs drawn up, for this interferes with the circulation. It is also a mistake to lie on the stomach, for this tends to cramp the heart and digestive organs.

The lower the pillow the better. High bolsters hold the head at an unusual angle. Many people are made round-shouldered by using too high pillows. The habit of sleeping with the head at such an angle is soon acquired. To cure one's self it is well to reduce the height of the pillow gradually.

It is not enough to ventilate the sleeping-room at night and in the morning. Draughts of air should pass through it freely throughout the day and all night long. Draperies and hangings above the bed should be done away with, as being likely to collect germs, which it is difficult to remove. If one is afraid of draughts a high folding screen may be placed above the head of the bed.

The rule of simplicity should hold for all the furnishings of the room. The room should be comparatively cool for a person of normal health, but the bed should be provided with plenty of warm coverings.

Standing Treat.

One of the most absurd of all foolish customs is that of inviting a crowd of friends or strangers to walk up to the door and "take something at my expense."

Men do not buy other things, either useful or ornamental, in this way—why should they make an exception of this poison draught to which is the cause of most of the crimes which curse the land, and which fills the community with poverty, mourning and woe?

Some one has sensibly said: "Now, boys, if you want to be generous and treat each other, why not select some other place besides the liquor shop? Suppose as you go by the postoffice you remark, 'I say, my dear fellow, come in and take some stamps! These stamps will cost you no more than drinks all round. Or go to the hatter's and say, 'Boys, come in and take a box of collars.' Walk up to the grocer's, free and generous, and say, 'What kind of coffee will you have? Why not treat to groceries by the pound as well as liquors by the glass?'"

This would be thought a strange way of showing friendship, but would it not be better than to offer to friends a maddening, poisonous, deadly draught?

Suppose a man should keep a den of rattlesnakes, and allow men to come and be bitten at expense? "I'd want my money for a sensible thing for a man to invite all his friends to be bitten at his expense? Is it worth our while to turn our friends into brutes, maniacs, and murderers, and their homes into dens of thieves and distress, by giving them 'something to drink at my expense?'"

Pungent Odors for Insects.

Most insects have a strong dislike for pungent odors. Ants, for example, keep away from the pantry often by spreading mint leaves about, and it is rarely that they or any other insect will bother the spice boxes or cabinet. This knowledge of their weakness should be utilized in a number of ways in the household. It has been found that even moths dislike a pungent odor. It is the odor of the camphor balls that keeps them from the clothes packed away in a closet. The odor which is the odor of cedar wood that makes them avoid chests and trunks of this material. The ordinary odor of cinnamon, cloves, ginger and orris root mixes these ingredients and sprinkles them in with the clothes in summer little trouble will be experienced from moths. This mixture is superior to the camphor balls because of the less disagreeable odor which attaches to the clothes after being packed away for a time.

Temperance Note.

Many a man has lost his sight by sitting in a bar room looking for work.

Joy and temperance and repose—Slam the door on the doctor's nose.

It is said of a young man who attended a certain church and gave once cent when the collection plate came around, that he smoked three five-cent cigars the same day.

A correspondent from South Dakota writes: "We have had only one saloon in our town for a year past and that is now closed. The proprietor was converted last Sunday night in the Methodist Church here and has since poured all his beer and liquor in the street." We have known the same thing to be done in other places.

No Liquor Needed.

Alcohol is no longer held to be a specific in inflammation of the lungs and in typhoid fever. Work is now going on in Germany, and will shortly be published, demonstrating that alcohol helps the deadly diphtheria poison to do its work, and helps it to the most marked degree; and physiologists generally, whatever individuals may say, are gradually coming to the conclusion that the long-vaunted "action of alcohol on the heart" can be better brought about by the action of other drugs—Prot, Woodhead.

The Intoxication

Is what medical men call the injurious effects produced by drinking the adulterated tea of Japan.

"SALADA"

Ceylon GREEN Tea is Rich, delicious and absolutely "pure." It is as far ahead of Japan as "SALADA" black is ahead of all other black teas.

DISTRICT DOINGS

APPLEDORE.

Clover threshing is about over in this vicinity.

Miss Wilson, our school teacher, has started to prepare for a concert to be held in the near future.

Joe Bader loaded a car with corn at Eberts last Friday.

Miss Mary Higgs spent Sunday with her parents at home.

Don't forget the concert held by the Ladies Aid of Lindsay road Methodist church in the school house on Oct. 25th.

MITCHELL'S BAY.

Miss Grace McDowell spent the day in Chatham.

Some of our young people assisted the Baldern choir in their Harvest Home services.

Miss Jean MacIntyre attended the tea meeting in Oldfield last Monday night.

On Sept. 28th, to Mr. and Mrs. J. A. McKenzie, a son.

J. Wheeler, of Detroit, is the guest of H. Lopez.

Mrs. Pratt, of London, is the guest of Miss Pearl Huff.

Back shooting seems to be the order of the day.

CON. 8, RALEIGH.

Many of the farmers here are now busy putting in their fall wheat.

It is our painful duty to record the death of Mrs. George Towl, which took place on Sept. 30th. The deceased was in her 22nd year, and leaves a mother and brother to mourn her loss. The large number who attended the funeral on Oct. 3rd showed the respect in which she was held by all her acquaintances. The pall bearers were all members of the E. L. of C. E., to which deceased belonged.

Mrs. John Clarkson, of Woodstock, is visiting her many friends here.

The corner stones of the new Wesleyan church are to be laid Tuesday next. There will be several good speakers present and all will enjoy a good supper.

Thomas Soutar, a veteran of the rebellion of 1837, has through the agency of Chas. Williams, secured a grant of land in New Ontario, where we believe he intends to settle.

Mrs. Jas. H. Allen continues very low.

Mr. Cameron, of Palmyra, is visiting his brother here.

Harvest Home services will be held in the English church Sunday evening. Rev. Mr. McCosh, of Chatham, will officiate.

Miss Mary Corby, who has been visiting Miss Alice Ritchie, has returned to her home in Dover.

IN HYMEN'S BONDS.

Sydenham Valley was the scene of a very pretty and fashionable wedding on the evening of Sept. 30th, when Miss Margaret, second daughter of Mrs. Mary Higgs, was united in marriage to Rev. Arthur Barker, S. T. L. of London. The lovely home of the bride was beautifully decorated for the occasion, and a goodly number of relatives and friends were present to see the ceremony performed.

Promptly at half past eight, the bride, charmingly attired in white organdie with valencienne trimmings and carrying a beautiful bouquet of red carnations, entered the parlor leading on the arm of her brother James, to the strains of the wedding march as played by Mrs. (Dr.) Cooke, of Wallaceburg. The bridesmaids, Misses Alice and Lettie Howe, sisters of the bride, the former dressed in beautiful mousline de soie, trimmed with white ribbon, and the latter in India lawn, with valencienne trimmings and carrying pink carnations, were very attractive attendants of the bride. The groom was supported by his brother, Mr. Charles Barker, of London, while little Lorne Howe Atkins—a fitting representative of Cupid—performed the function of ring bearer, and carried the wedding ring on a silver server. The ceremony was performed by Rev. Chancellor Tetler, of Hartney, Man., assisted by Rev. Dr. Cooke, of Wallaceburg.

The ceremony over, the guests repaired to spacious dining room, which was tastefully decorated with wreaths and flowers, where a very excellent supper was served, to which ample justice was done by all. After supper a pleasant social evening was passed. The presents were numerous, costly and varied, including several presentations in jewelry and gold.

At midnight Mr. and Mrs. Barker left for Chatham to take the morning train for a wedding trip to London, Toronto and the Pan-American, after which they will take up their residence in the parsonage at Wilkesport. Miss Howe was a highly respected member of this vicinity, where she has always been a prominent worker in the Sunday school, and for the past three years a member of the executive committee of the District Epworth League. Mr. Barker is also well and favorably known, and their many friends unite in wishing the happy couple a long, prosperous and happy life.

THE DOLLAR CLASS DISTINCTION.

Charges for admission to the grand stand at the exhibition grounds were to be levied as a check on the crowds, not as a means of giving wealth privileges which others might not enjoy. Public opinion, which was ready to sanction a nominal charge in the interest of public safety, can extend no sympathy to a movement which, designedly or otherwise, can only result in giving a class aspect to the allotments of seats.

To clean Japanned goods, wash with a sponge and lukewarm—never hot—water, and a little white soap. Dry, sprinkle with some flour, and later rub with a soft cloth and polish with a silk handkerchief.

Preocious children delight parents even if they do annoy friends. Self-indulgence dwells mental expansion and drives away friends.

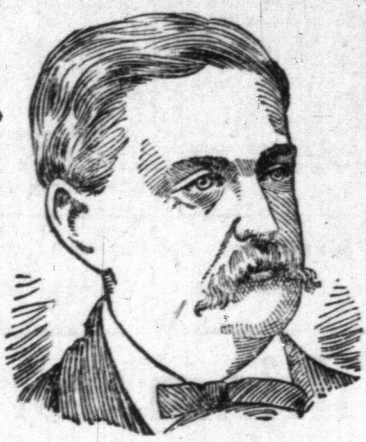

NO ARGUMENT NEEDED

Every Sufferer From Catarrh Knows That Salves, Lotions, Washes, Sprays and Douches Do Not Cure.

Powders, lotions, salves, sprays, inhalers, cannot really cure catarrh, because this disease is a blood disease, and local applications, if they accomplish anything at all, simply give transient relief.

The catarrhal poison is in the blood, and the mucous membrane of the nose, throat and trachea tries to relieve the system by secreting large quantities of mucus, the discharge sometimes closing up the nostrils, dropping into the throat, causing deafness by closing the Eustachian tubes, and after time causing catarrh or serious throat and lung troubles.

A remedy to really cure Catarrh must ban internal remedy which will cleanse the blood from catarrhal poison.

and remove the fever and congestion from the mucous membrane.

The best and most modern remedies for this purpose are antiseptics scientifically known as Eucalyptol, Guaiac, Sanzanaria and Hydrastin, and while each of these have been successfully used separately, yet it has been difficult to get them all combined in one palatable, convenient and efficient form.

The manufacturers of the new catarrh cure, Stuart's Catarrh Tablets, have succeeded admirably in accomplishing this result. They are large, pleasant tasting lozenges, to be dissolved in the mouth, thus reaching every part of the mucous membrane of the throat and finally the stomach.

Unlike many catarrh remedies, Stuart's Catarrh Tablets contain no cocaine, opiate or any injurious drug which are equally beneficial for little children and adults.

Mr. C. R. Rembrandt, of Rochester, N. Y., says: "I know of few people who have suffered as much as I from catarrh of the head, throat, and stomach. I used sprays, inhalers and powders for months at a time with only slight relief, and had no hope of cure. I had not the means to make a change of climate, which seemed my only cure. Last spring I read an account of some remarkable cures, made by Stuart's Catarrh Tablets and promptly bought a fifty cent box from my druggist and obtained such positive benefit from that one package that I now consider myself entirely free from the disgusting annoyance of catarrh; my head is clear, my digestion is good, and my hearing, which had begun to fail as a result of the bad germs, has greatly improved until I feel I can hear as well as ever. They are a household necessity in my family."

Stuart's Catarrh Tablets are sold by druggists at 50 cents for complete treatment and for convenience, safety and prompt results they are undoubtedly the long looked for catarrh cure.

Old Shoes.

Old shoes have a considerable value. They are put through a manipulation by which they are converted into a kind of artificial leather, which looks very fine and can be elegantly ornamented.

The Oyster.

The oyster is one of the strongest creatures on earth. The force required to open an oyster is more than 1,300 times its weight.

Boiling Water.

Always have your kettles filled with boiling water. A kettleful of boiling water has saved a life before now.

The Ostrich.

The ostrich is a descendant of a genus of bird which in prehistoric times attained an enormous size. The aluvial deposits of Madagascar evidence has recently been found to show that ostriches 14 and 15 feet in height once lived on the island.

Good Flour and Bad.

In selecting flour look to the color. If it is white, with a pale straw tint, buy it. If it is white, with a pale blue tint have nothing to do with it.

Borrowing is sorrowing, and so is lending half the time.

Eureka Harness Oil

not only makes the harness and the leather soft and pliable, but it is also a good preservative against rot and decay.

Give Your Horse a Chance!

THE NEWBORN BABY.

Wherein and Why It Is More Helpless Than a Young Beast.

The newborn child is even inferior to the lower animals of the same age in intelligence and helplessness. A young ape, or, for that matter, a young dog, is far better fitted for its immediate environment than a week old infant. But while the latter struggles onward and upward through a helpless infancy and a weak youth to the perfect man the former never progresses beyond the perfect brute. As Professor J. W. Powell says: "Every child is born destitute of things possessed in manhood which distinguish him from the lower animals. Of all industries he is artless. All institutions he is lawless, of all languages he is speechless, of all philosophies he is opinionless, of all reasonings he is thoughtless, but arts, institutions, languages, opinions and reasonings he acquires as the years go by from childhood to manhood."

"In all these respects the newborn babe is hardly better than the newborn brute, but as the years pass ever and over he exhibits his superiority in all of the great classes of activities until the distance by which he is separated from the brute is so great that his realm of existence is no longer that of a brute."

Science is one great, unending question. First, "Is this so?" then, "Why is it so?" are the words forever on the tongues of our votaries. And so we find Professor Alexander Chamberlain in his book, "The Child, a Study in the Evolution of Man," asking, "What is the meaning of the prolonged helplessness of human infancy?" He finds his answer in the following words of the late John Fiske, to whom he frankly gives full credit for the scientific interpretation of the prolongation of infancy:

"The prolonged helplessness of the offspring must keep the parents together for longer and longer periods in successive epochs, and when at last the association is so long kept up that the older children are growing mature while the younger ones still need protection the family relations begin to become permanent."

"The parents have lived so long in company that to seek new companionship involves some disturbance of ingrained habits, and meanwhile the older sons are more likely to continue their original association than to establish associations with strangers since they have common objects to achieve and common enemies to begeth and acquired with neighboring families."

"As the parent dies the headship of the family thus established devolves upon the oldest or bravest or most sagacious male remaining. Thus the little group gradually becomes a clan, the members of which are united by ties considerably stronger than those which ally them to members of adjacent clans, with whom they may indeed combine to resist the aggressions of yet further clans, or of formidable beasts, but toward whom their feelings are usually those of hostile rivalry."

An ancient ship says: "Noah's ark is generally supposed to be the earliest ship of which we have record; but, says Engineering, there exist paintings of Egyptian vessels immensely older than the ark, being, indeed, probably 70 and 80 centuries old."

"Moreover, there are now in existence in Egypt boats which were built about the period the ark was constructed. They are, however, small craft, about 35 feet long, 7 or 8 feet wide and 2½ to 3 feet deep. They were discovered years ago by the eminent French Egyptologist, M. J. de Morgan, in his excavations at Cairo, and were probably funeral boats. They are constructed of three inch acacia and sycamore planks, dovetailed together and fastened with trenails. They have floors, but no ribs, and, though nearly 5,000 years old, they held rigidly together after their supports had been removed."

As a Last Resort.

The new minister of a small town in Inverness-shire was walking home from morning service recently when he chanced to overtake one of his parishioners, an old shoemaker. "Good morning, Mr. Bain," said the minister. "How is your good wife not out today?" "She's not, but poorly," was the reply. "It's a rare wind of sleep she's had for the last three nights."

The minister was sorry to hear such a poor account of Mrs. Bain's health and expressed a wish for a speedy improvement.

"I'm thinking if she could get a good sleep," said the shoemaker, "she'd pass on to the end. Maybe if you're passing by the house tomorrow you'll not object to an' just give her a 'horn' for the last time?"

Startling Equine Sagacity.

A startling story of equine sagacity comes from the provinces. A horse was standing in the shafts of a carriage just outside the local theater. It had a weary look, as of one that desired repose. Suddenly it brightened up, and before could be stopped it made a dash for the box office. The reasons for this unexpected behavior gave rise to much discussion till at last one of the crowd, more observant than the others, pointed out that he had seen "To the Stalls" was written in large letters over the box office window.

The Wrong Horn.

Colonel Cortright—The blamed bellboy in this hotel is enough to give a man a spasm. Guess what he did when I told him to bring me a "horn" before I dressed.

Major Nash—What, sir?

Colonel Cortright—He brought me a shoe horn.

So Say We All.

McJigger—You don't mean to say you believe in divorce?

Things—Well, I do in the case of the man who is wedded to his horse.

Lots of men who preach charity wait for other men to practice it.

People as a rule hear better with their right ear than with their left ear.

SHOEMAKER'S BACKACHE.

Dr. Pitcher's Backache Kidney Tablets a Positive Cure for This Complaint.

The constant bending over that of necessity a shoemaker must do when at work, comes hard on his back and hard on his kidneys. Backache and lame back are the great bugbears of a shoemaker's existence. That Dr. Pitcher's Backache Kidney Tablets can ease the aching back and cure the kidney trouble is amply proven in the following case:

Mr. J. O'Shea, corner Main and Market streets, Lucan, Ont., the well-known shoemaker of that village, says:—"A shoemaker's work requires lots of sitting and leaning forward, and invariably, as in my case, in time brings on a pain in the small of the back and kidney trouble. I have been my complaint for two or three years, and I was about tired of it. Some one told me about Dr. Pitcher's Backache Kidney Tablets, and I got a bottle at John Farrell's, the village druggist. The taking of this one bottle was followed by complete relief. This is naturally a big lift to me in my work, and I am correspondingly grateful. I can recommend the Tablets conscientiously to others."

If you are anxiously desirous of being cured insist on having Dr. Pitcher's Backache Kidney Tablets. Price 50 cents a box, at all druggists. The Dr. Zina Pitcher Co., Toronto.

McMULLEN'S LONG "TERM"

Eight years in the toils when South American Kidney Cure gave him his liberty.

Michael McMullen read in the newspapers of South American Kidney Cure, and when doctors tried hard and failed to cure him, he, with the faith of a prophet commenced the use of this great Kidney Specific. In his own words: "Gravel and Kidney Disease had been the bane of my life for eight years. Thanks to South American Kidney Cure to-day I am a well man. I wish I could have every kidney sufferer within the sound of my voice for long enough to tell it."

Sold by J. W. McLaren, Chatham.

"There is a man out in the waiting room," said the great man's secretary. "I think he's a bum actor."

"Why do you think so?"

"He says he is anxious to get audience."

LOSS OF APPETITE.

Is commonly gradual one dish after another is set aside till few remain. These are not eaten with much relish, and are often so light as not to afford much nourishment.

Loss of appetite is one of the first indications that the system is running down, and there is nothing else so good for it as Hood's Sarsaparilla. Accept no substitute for Hood's.

First office boy—I've got sixteen aunts, two grandmothers and a great-grandmother.

Second office boy—Gee! What a lot of ball games you oughter see dis summer.

Why is golf so much more fashionable than croquet?

Why, in croquet you don't have to wear one of those outlandish-looking costumes.

Our \$50.00 DIAMOND RING.

This is the best value in a Lady's Diamond Ring ever offered for \$50.00.

The stones in these rings are personally selected by us from the cutters in Amsterdam, and are absolutely perfect.

You will find this and hundreds of other styles illustrated in our catalogue, a copy of which will be sent you free.

DIAMOND HALL, Established 1856.

Ryrie Bros., Yonge and Adelaide Sts., TORONTO.

RECOMMENDED BY PHYSICIANS.

Pond's Extract

Over fifty years a household remedy for Burns, Sprains, Wounds, Bruises, Coughs, Colds and all accidents liable to occur in every home.

CAUTION—There is only one Pond's Extract. Be sure you get the genuine, sold only in sealed bottles in buff wrappers.

A hen-pecked man being told that an old acquaintance was married exclaimed: "I am glad to hear it."

But, reflecting a moment, he added, in a tone of compassion and forgiveness: "And yet I don't know why I should be; he never did me any harm."

IN THE BLACK DIAMOND.

The Remarkable Properties of a Piece of Cannel Coal.

A pound of cannel coal is a lump about the size of a man's fist. Out of this dye can be distilled sufficient to color the following lengths of flannel: three-quarters of a yard wide; five feet of yellow, 3½ feet of scarlet, 2 feet of violet, 2 inches of orange, 4 inches of turkey red and 8 inches of magenta. By judicious blendings you can obtain 16 distinct yellow shades, 12 orange, 30 red, 15 blue, 7 green and 9 violet, in all 89 separate tints. These colors are made from the waste left over after the gas has been extracted.

Take a ton of good cannel coal and distill it in a gas retort. It will give 10,000 cubic feet of gas, 25 gallons of ammoniacal liquor, 30 pounds of ammonium sulphate, 13 hundredweight of coke and 12 gallons of coal tar. It is this liquid which 40 years ago was burned in the furnaces at \$1 a ton that now yields not only these lovely colors, but medicines and scent. Enough to stock a chemist and perfumer's shop.

Besides these coal tar gives us that greatest boon of the man whose doctor won't let him take sugar—namely, saccharin. Of this substance one pound is equal to two hundredweight of sugar, as far as sweetening power goes. It is quite a wholesome and is into the bargain, a capital disinfectant. Jam made with saccharin ought to keep forever.

Mother, M.D.

Without indulging on the vexed question of woman's superiority, it may be safely affirmed that the wisest woman is sometimes she who keeps to herself what she knows.

A doctor in an English town had a little patient, the cause of whose illness a story "Chambers" Journal sufficiently discloses. The little patient had a little mother, who believed herself a "born doctor." One day, when the "made" doctor was taking his leave, the other said: "Now, if there is any rise in temperature,"—"she was specially great on temperature, by the way,"—"I will send for you at once. As you know, I have a clinical thermometer, and can take the temperature myself, without troubling you to come round."

Just as the doctor was going to bed he was startled by a violent ring at the bell, and hastening to the door, saw a terrified domestic, who gasped:

"Oh sir, please sir, do come at once! Miss Marjorie is worse! Misses said I was to tell you that her temperature is one hundred and eight, and is rising fast."

Scarcely waiting to put on his hat, the doctor rushed round to the house of his little patient, and discovered the whole family assembled in the sick room, awaiting the end of little Marjorie, the mother ringing her hands and crying.

"What is the temperature now?" the doctor almost shouted.

"Oh," sobbed the mother, "I haven't dared look since 08°30° yesterday! It was one hundred and eight, and they say that one hundred and five is always fatal!" and she broke down completely.

Without wasting time, the doctor turned down the blanket, and found the thermometer had been thrust between the child's side and the arm, and the bulb was imbedded in a freshly applied hot poultice.

Poor Economy.

The Detroit News-Tribune prints the following story on the authority of a man connected with one of the great Western railways:

The track superintendent had recently adopted a new spike, which, comparatively speaking, was pretty expensive. He sent out word, therefore, that the spike must be carefully looked after.

One day the road boss was walking up the track to where a section gang was working with the new spikes. He found one lying between the rails and pocketed it.

"Did you get my instructions about those spikes, Mike?" he said to the section boss.

"I did that, yer honor, and it's mighty careful I've been."

"Lose any?"

"Nary a wan," replied Mike, but a trifle hesitatingly.

"How about this?" and the tell tale spike was shown him.

"Look at that, now," said Mike, in a delighted way. "Sure I've wan of the min on a hunt for that same spike the last two days. Faith, its glad I am your honor found it."

The spike was worth about four cents.

The Old Home Paper.

Noting the fact that many country-bred men in the large cities take the local paper of their old home, the Philadelphia Record says: "The head of large on Market Street wholesale business house, a man now advanced in years, has been a regular subscriber to one of the Burks county papers for fifty years."

"He wouldn't give it up for anything," said the man's son. "He gets more real enjoyment from it than from anything he reads. A daily edition has been started within the last ten years, but he doesn't want that. He only gets the weekly edition, which prints the gossip of a personal nature from the various towns throughout the county. He will pour over this by the hour, and his comments on the various items of news are often amusing. Scarcely is a name mentioned that he doesn't say, 'downy, I used to go to school with his father,' or 'I once liked his Uncle Jim for tying my clothes up when we used to go swimming in the Nashaminy.'"

Second Thought Is Best.

A hen-pecked man being told that an old acquaintance was married exclaimed: "I am glad to hear it."

But, reflecting a moment, he added, in a tone of compassion and forgiveness: "And yet I don't know why I should be; he never did me any harm."

What is

CASTORIA

Castoria is for Infants and Children. Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It contains neither Opium, Morphine nor other Narcotic substance. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays Feverishness. Castoria cures Diarrhoea and Wind Colic. Castoria relieves Teething Troubles, cures Constipation and Flatulency. Castoria assimilates the Food, regulates the Stomach and Bowels of Infants and Children, giving healthy and natural sleep. Castoria is the Children's Panacea—The Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

Castoria

"Castoria is so well adapted to children that I recommend it as superior to any preparation known to me."

THE FAC-SIMILE SIGNATURE OF

Life is Too Short!

An evening contemporary has been informing its readers that they can use the same calendar every twenty years—when the dates of the months fall on the same days of the week—thereby avoiding the expense of five almanacs for the present century. But here is something even better than that. Those persons who have the double advantage of ancient family and careful forefathers, by turning up the calendars—unfortunately, they are not printed every twenty years—by Solomon Jarchus, will find the days, and dates coincident with the present century. Such persons can save the expense of buying for one hundred years. Again, those with a frugal mind who have preserved the almanacs of the nineteenth century will avoid an outlay for calendars of the century commencing January 1, 2001, as the dates for the hundred years following will be coincident with those of the last century. But life, remarks the London "Chronicle," is scarcely long enough for such economies.

A Spider's Genius.

"I HAVE considerable respect for the female spider, notwithstanding the fact that she does not treat the male very considerately," says a correspondent. "I had an opportunity last summer to watch a large one that had a web in the top of a decaying peach tree with so few leaves that it was in plain view. I caught sight of her first when watching some bluebirds by its glaucous sheen. She seemed to be climbing from the top of the tree on nothing to a telephone wire some fifteen feet away and somewhat higher than her web. When she reached the wire she went around it and then back. In studying the situation, I found the web was so located that it required a cable to hold it up, and the spider had in some way got one over the wire so far away. This cable was, of course, a slender silken thread which evidently she had thrown out, and on account of its lightness it floated about the right place and became attached there by its glutinous properties. It seems remarkable that it should have adhered to the wire firmly enough to allow so large an insect to climb over it, which she did every day as long as I watched her, evidently to mend or strengthen it. The spider must have brains in which the ability to construct its web and adapt its conditions is highly developed.

In an article in "Chautauque" Journal," the following account of how the spider forms its silken threads is given:

"One of the most interesting features in the economy of spiders is their power of emitting slender threads of a silk-like substance called gossamer, with which most of them construct mesh-like nets, and a few long, dangling cables, by which they are buoyed through the air with nearly as much facility as though they had been furnished with wings. The apparatus provided by nature for elaborating and emitting this gossamer is a beautiful piece of mechanism. Within the animal there are several little bags or vesicles of a gummy matter; and these vesicles are connected with a circular orifice situated at the abdomen. Within this orifice are five little tests or spinnerets, through which the gossamer is drawn. It must not be concluded, however, that there is only one film of gossamer produced by each spinneret; the fact is, these tests are spun with thousands of minute tubes too small for the naked eye to perceive, and each of these emits a thread of gossamer. The finest of these threads are known as spinnerets, and the films which proceed from them, unlike like so many strands of a rope to form the thread of gossamer by which a spider suspends itself. The finest thread which human mechanism can produce is like a ship's cable compared with the delicate films which flow from the spinnerets of the largest spider. The films are all distinctly separate ones coming from the spinneret, but unite, not by any twisting process, but merely by their own glutinous or gummy nature. Thus the spinning apparatus of the spider, when viewed by the eye of science, becomes one of the most wonderful pieces of animated mechanism known to man. The animal has great command over this apparatus, and can apply it at will as long as the receptacles within are replenished with the gummy fluid, but as soon as this gum is exhausted all its efforts to spin are fruitless, and it must wait until nature, by her inscrutable chemistry, has secreted it from the food which is devoured."—Waverley Magazine.

Life is Too Short!

An evening contemporary has been informing its readers that they can use the same calendar every twenty years—when the dates of the months fall on the same days of the week—thereby avoiding the expense of five almanacs for the present century. But here is something even better than that. Those persons who have the double advantage of ancient family and careful forefathers, by turning up the calendars—unfortunately, they are not printed every twenty years—by Solomon Jarchus, will find the days, and dates coincident with the present century. Such persons can save the expense of buying for one hundred years. Again, those with a frugal mind who have preserved the almanacs of the nineteenth century will avoid an outlay for calendars of the century commencing January 1, 2001, as the dates for the hundred years following will be coincident with those of the last century. But life, remarks the London "Chronicle," is scarcely long enough for such economies.

Tommy's Poser.

A lady was recently reading to her young son the story of a little fellow whose father was taken ill and died, after which he set himself diligently to work to assist in supporting himself and his mother. When she had finished the story, she said:

"Now, Tommy, if pa were to die, wouldn't you work to keep mamma?"

"Why, no," said the little chap, not relishing the idea of work. "What for? Ain't we got a good house to live in?"

"Oh, yes, my dear," said the mother, "but we can't eat the house, you know."

"Well, ain't we got plenty of things in the pantry?" continued the young hopeful.

"Certainly, dear," replied the mother, "but they would not last long, and what then?"

"Well, ma," said the young incorrigible, after a long pause, "ain't there enough in that till you get another husband?"

"Ma gave it up."

Wealth's Millstones.

"Spring has come," mused Mr. Gottrich, as he stood before the window with his hands thrust deep into his pockets.

"Gurgled his diamond-bedecked daughter."

"Because," said the father, as he clicked the coins in his pocket, "because the snow has went."

"Stop that noise, Jimmie, or we will send you to bed."

"I was your real child at all; you got like I was 'jes' somebody else's or orphan."

A DANGEROUS ENEMY

The Fatal Results of Bad Digestion and Assimilation.

No matter how sick or tired or debilitated the stomach is, it puts forth an honest and determined effort to digest the food, no matter how indigestible that food may be.

This effort on the part of the stomach and digestive organs always results in an expenditure of vital force, which must be made good in some way, or the general health and vigor of the body will be seriously impaired.

The healthy stomach does its duty without any great or exhaustive effort. It is when it is unable to digest the food properly that the strain is felt on the general health.

We go on day after day unloading on our stomachs these indigestible meals without any regard to the ill effects on our digestive machinery and consequently on our general health.

The faithful stomach needs an opportunity to regain the vigor lost in years of honest effort to digest anything and everything offered.

There is a remedy which will right all these wrongs, and can say that all these mistakes, and this remedy is, DODD'S DYSPEPSIA TABLETS.

Mr. A. E. Beaulieu, of Rockland, Ont., suffered severely with dyspepsia, but found relief and a permanent cure in the use of this great medicine.

Here is what he says:—"I can gladly recommend Dodd's Dyspepsia Tablets to anyone suffering with dyspepsia and indigestion."

"I suffered with Dyspepsia for three years and was unable to eat any strong food especially at night."

"Last winter I was recommended to try Dodd's Dyspepsia Tablets. I used two boxes, and can say that I am completely cured. I can eat any kind of victuals and at any time."

"I would not be without Dodd's Dyspepsia Tablets for a good deal, as I believe them to be the greatest stomach remedy in the world."

Mr. Beaulieu's case is only one of thousands where Dodd's Dyspepsia Tablets have rescued men and women from disease and pain and restored them to health and happiness.

S. S. NO. 6, RALEIGH.

THE FOUNTAIN OF HEALTH FOR OLD PEOPLE IS

Paine's Celery Compound

It Gives New Vitality, Strengthens Brain Power and Maintains Perfect Digestion.

MR. G. CRAWFORD

AN OCTOGENARIAN SPEAKS OF THE WONDERFUL MEDICINE.

Paine's Celery Compound has added years of peace and joy to the infirmities of old age, to thousands of lives. It stimulates the vital powers; it keeps the body free from pain; it builds up nerve force; it builds strength and makes life happy and enjoyable. Multitudes of people reduced to weakness, nervous, and apparently near the end of life have joyfully testified to rapid gain in vigor with regular and refreshing sleep after a trial of Paine's Celery Compound.

Mr. G. Crawford, London, Ont., writes as follows:

"After using eight bottles of Paine's Celery Compound, I wish to let you know the results. I had a painful fullness and an unusual heat in the top of the head, and it felt as if something was rolling through it. I had dizziness, I slept little and irregularly, I was troubled with restlessness and uneasy dreams, and my appetite was bad. I am now as healthy as a young man, and I feel as if I have gained years of life."

"I feel my whole system better. I cannot expect at seventy-nine years of age to be as well as I was at thirty."

"Paine's Celery Compound has done wonders for me."

Luck is the pebble on which the traveler trips and slides into quicksands or sands of grief. Fate is the cliff against which he leans, or dashes himself to death. Yet the pebble was once part of the cliff.

Curious Bits of News.

It is said that there is now little hope of discovering an unknown First Folio Shakespeare, as all the libraries of England have been ransacked. Nevertheless whenever a First Folio comes to the surface and is sold at auction the search begins anew. No wonder! The copy sold in London the other day brought \$3,600.

A pensioner while it is to be enjoyed by J. A. Fillmore, who has resigned the position of manager of the Pacific system of the Southern Pacific Railway after almost a lifetime of meritorious service. He will be paid one thousand dollars a month till the end of the year and a pension of five hundred dollars a month thereafter as long as he lives.

Otani Kouzi, a young Buddhist priest who is kinsman to the Mikado, is about to leave England, where he has been for some time past, and will come to America to still further study Christianity and Christian institutions. His family tree has traceable roots as far back as two thousand six hundred and fifty years ago, he represents the richest and most advanced sect in Japan and he will one day rule over thousands of temples in that country.

"The captain of an ocean steamer is often warned of the proximity of icebergs by the men in the engine-room. When a ship enters water considerably below the surface, the propeller runs faster, and as such water surrounds the vicinity of icebergs for many miles the engineers know that when the propeller's action is greatly accelerated without any increase of the steam, some icebergs may be expected. Of course, the thermometer is the most useful indicator of icebergs."

A curious custom exists in the Prussian royal family of selecting every July a dozen deserving young couples too poor to marry, and to have them wedded in the garrison church at Potsdam on the anniversary of the death of Queen Louise of Prussia. The ceremony each bride receives a gift of a sum equivalent to about \$115 and a handsome family Bible. The function took place, as usual, a short time ago, in the presence of Princess Marguerite, the eldest unmarried daughter of the Prussian royal family.

Some time ago the old trysting oak in Harthill Walk, so frequently mentioned in "Ivanhoe," was felled to the ground in order to preserve the trunk of the tree as one of the oldest in England, and is described by Scott as being venerable when siege was laid to the castle of Torquilstone. The tree stood on the estate of the Duke of Leeds, whose agent, Mr. Mozzy, is devoted to Scott. By his instructions the tree was taken down, and the trunk will be preserved on the lawn in front of Mr. Mozzy's house. A young Lord Justice has planted the Duke of Leeds on the site of the trysting tree.

The meaning of the word "humph" was recently the subject of judicial decision in the Irish Court of Appeal. Mr. Justice Madden and Mr. Justice Boyd held that "humph" as used by Sir Walter Scott and Miss Austen in their novels, was an expression of dissent, while the Lord Chief Justice and Mr. Justice Byrne held that it was an expression of approval.

The Sultan's decree that Turkish children shall not be educated in the foreign way, and that the Turkish women shall not be allowed to have Christian companions has been received with different feelings. It is said. Several high officials are deeply distressed by the order, but one highly educated woman of rank, wife of a dignitary, is quoted as saying that her own experience had convinced her that it was much better to have no education than to learn what life means in a harem. She had refused, therefore, to allow her own daughters to be educated as she had been, and regards the Sultan's decree as a wise one.

A curious phenomenon was observed at the village of Le Ghazil, one day, towards evening, the inhabitants were disturbed by a loud rumbling noise, which was followed by a shower of increased intensity. Looking toward the scene of the disturbance, the villagers were further startled by seeing bright flashes of fire. At first the usual spectacle was attributed to volcanic agencies, and a party of civil engineers set out to examine the cause of the phenomenon. They discovered that the intense dry heat had caused the chalk rocks on the summit of the mountain to crack and to break away in all directions. These rocks had descended the mountain like an avalanche, and were striking the houses and the descending they had struck one another with terrific force, scattering brilliant showers of sparks in all directions, with such rapidity that they resembled one single sheet of flame.

Cheap Meals.

"About the cheapest restaurant I ever visited or read about," said a man lately returned from England, "was a dining saloon in the Whitechapel district of London, where a refreshing and hearty meal was served for a halfpenny, or one cent in our money. This cheap repast is not served up in the shape of a cut from a joint and two vegetables. It is a big brown pie, heils juicy and very hot. The absence of beefsteak is evident when you cut the pie, but you find inside a liberal sprinkling of sheep's liver, onions and turnips, and a plentiful supply of gravy. For a halfpenny extra two slices of bread and a cup of tea are supplied. Between the hours of twelve and two the poor and hungry from all parts of the East End of the town flock to the dining-room. Most of the patrons are shoeblacks, penny toy men, costermongers, and now and then young clerks whose salaries will not permit them to indulge in a more costly dinner."

It turns out that the late fire in the Sultan's palace was the work of a plot among the ladies of the harem. Too many wives can generally be depended on to make things warm for a man.—San Francisco "Bulletin."

NO FAILURES OR DISAPPOINTMENTS WHEN DIAMOND DYES ARE USED

A Word About Diamond Dye Mat and Rug Patterns.

Do you make up mats, rugs or carpets in your home? If so you will readily admit that your success is largely due to the lovely and brilliant colors given to your materials by the use of Diamond Dye.

Users of Diamond Dye know that they never suffer from failures or disappointments in their work; they quickly and easily get the exact colors they require, and never waste time or money. If you are interested in the popular work of rug making, and cannot procure the Diamond Dye Mat and Rug Patterns from your local dealer, send your address at once to The Wall & Richardson Co., Limited, Montreal, and you will receive free of cost sheets of designs to select from.

Girls whose hands are inclined to be red may derive comfort from the knowledge that during the growing period this is frequently the case, the hands become whiter as the teens are passed.

WORK CALLED FOR AND DELIVERED

ANSON MOUNTEER APPOINTED
AS CITY HEALTH INSPECTOR

Council, However, Seemed to be at a Loss to Account for Dismissal of Mr. Guttridge—Other Important Business Transacted.

The council appointed Anson Mounteer, health inspector, last evening, in face of the recommendation of Fred Thompson by the Board of Health.

A by-law was passed governing the cutting into and breaking up of the streets. This will prevent the water-works and gas company from cutting up the streets without permission of the council, is the claim of Ald. Marshall.

A number of local improvement by-laws were passed.

Robert Milner's assessment will not be increased if he builds an addition to his factory.

Mayor Sulman, Ald. Fleming, Edmundson, Marshall, Mounteer, McCoig, and Cowan were present at the council meeting last evening. Ald. Pritchard and Ald. Seane are both confined to the house through illness and Ald. Taylor is out of the city.

A petition for a plank walk on Poplar street was referred to the Board of works.

A number of requests to trim trees were referred to the Chief of Police.

The Mayor read a resolution from the Chatham Board of Health asking that Fred Thompson be appointed health inspector in place of Joseph Guttridge, resigned. He also read applications from S. A. McCormack, Solomon S. Blackburn, W. G. Arnold, Reginald S. Miller and Newton Liberts.

BOARD OF WORKS.
Chairman Marshall, of the Board of Works, reported as follows:

That the bill of W. N. Dwyer, \$52.30, from Nov. 23, 1900 to April 22, 1901, be paid. After examining the orders from the engineer, we believe the report to be correct.

That the bill of Backus & Dennis \$37.74, is correct, and we advise payment.

The report was adopted.

INDUSTRIAL COMMITTEE.

Ald. Cowan, for the Industrial committee reported the communication of Robert Milner, that his assessment be not increased if Mr. Milner improves his carriage plant. It is at present assessed for \$5,800.

Moved by Ald. Mounteer, seconded by Frank B. Northwood, that the plan prepared by Park lot six, lying upon the southerly side of the G. T. R. Co. approved by this council.—Carried.

HEALTH INSPECTOR.

Ald. Cowan asked if the Council were expected to appoint a Health Inspector at this meeting.

Ald. McCoig—Is it settled that the present inspector is to be dismissed? The Mayor—That is the idea. You would grasp from the request of the Board of Health.

Ald. McCoig—Well, the Board of Health should give grounds for this dismissal. The Council telling why that man should be dismissed.

Ald. Marshall—There are no direct complaints that the Council are aware of. There are, however, the usual mummings on the outside. I am not championing the cause of Mr. Guttridge, but if the Council listen to the complaints against civic officers, the city would have no officials at all. I would like, before the Council, to have more light on the matter. The Board of Health are appointees of the Council, so they are servants of the Council. There should be a communication from the Board of Health telling why that man should be dismissed.

Ald. Marshall moved that the Board of Health lay before the Council a full statement and also tell in what way the Inspector has failed to do his duty.

The Mayor—It is quite evident that the Board of Health is not satisfied with the Inspector or they would not have asked for his resignation.

Mr. Marshall's motion was carried. A number of local improvement by-laws were passed.

A by-law was also passed to prevent the indiscriminate cutting into or opening up streets in the city of Chatham. This by-law also controls the Gas Co. and the Water Commissioners.

THE APPOINTMENT.
Ald. Cowan moved to reconsider the appointment of a Health Inspector. All voted for the motion, except Ald. McCoig.

The names of the applicants were read as follows:—Solomon Blackburn,

W. G. Arnold, Reginald Miller, Sam. McCormack, Fred Thompson, David Holmes, J. R. Reid, Adam Bryden, Frank McKenzie and Anson Mounteer.

Ald. Cowan moved the first and second reading of the by-law.

The Mayor then invited Ald. McCoig to take the chair.

Ald. Cowan moved the name of Reginald Miller, Ald. Marshall the name of Fred Thompson and Ald. Mounteer moved his brother Anson.

Ald. Mounteer voted for Anson Mounteer, Ald. Marshall, the Mayor and Ald. Fleming voted for Fred Thompson and Ald. Cowan and Ald. Edmundson voted for Reginald Miller.

The nominations then took place again as follows:

The Mayor named J. R. Reid, Ald. Mounteer Anson Mounteer, Ald. Fleming Solomon Blackburn and Ald. Edmundson Reginald Miller.

Reginald Miller and Solomon Blackburn both lost.

Then the name of Anson Mounteer was voted on. Ald. Mounteer, Cowan and Edmundson and Chairman McCoig voting for the motion, carried it, and Mr. Mounteer will be the new Health Inspector.

The following accounts were passed: Peter McMillan, \$4.05.

National Carbon Co., \$130. Dominion Express Co., 55 cents.

C. C. T., \$12. Pay sheets, two weeks, \$390.29. Mr. Seymour, \$3.00.

Geo. Jamieson, \$2. John H. Oldershaw, \$17.30. Thos. Martin, \$8.75.

Hudley Co., \$18.51. T. Guttridge, \$1.75. National Carbon Co., \$130. United Electric Co., \$6.

Dominion Express Co., 35 cents. Canadian General Electric, 92 cts. J. G. MacKerrall, \$1.80.

Central Drug Store, 75 cents. Laundry, \$2.55. Waterworks department, \$117.05.

Fire department, hay, \$27.07. Park Bros., \$55.72. The acrobatic troupe, \$1.50.

Thos. Guttridge, \$1.50. D. R. McGarrin, \$135.49.

Theatrical

McCarthy's Mishaps, in three hilarious acts, introducing the great and original Ferguson and Mack, appear at the Grand Wednesday and Thursday, of this week. Incidental to the play, several high class specialties will occur. One of the latest novelty creations in McCarthy's Mishaps are the beautiful Dimple Sisters, Dollie and Dotie. The acrobatic ballet girls up to date in "Pretty as a Picture." The noted comedy sketch artist and sound illustrators, Edward H. and Kitty Deagon. During this specialty Mr. Deagon will sing "When the Birds go North Again," and Chas. K. Harris' baby song, "Hello Central, Give me Heaven." Every one speaks in the highest praise of Kittle and Dollie Deagon in their novelty act. "The Lady Shopper and the Dude," in which they introduce beautifully illustrated songs. Little Gracie, the child artist, joins her papa in that very effective song, "Hello Central," and a stray tear-drop is depicted on the faces of men and women alike throughout the audience.

The whole play throughout is very amusing and interesting. It is said that Barney Ferguson in McCarthy's Mishaps causes more side aches than any other comedian on earth.

Chatham, Oct. 7, 1901. F. Brisco, Esq., Manager Opera House.

Dear Sir—On behalf of the Kent Children's Aid Society I wish to thank you and Mr. J. F. Cairns for your kindness in so promptly sending me check for our share of the proceeds from the presentation of "The Brownies."

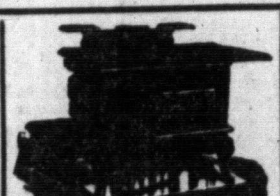

I desire also to congratulate the performers on the success attending their efforts, especially in view of the fact that only three weeks elapsed between the first practice and the presentation.

Wishing the management every success, believe me,

Yours, (Sgd.) R. V. BRAY, Executive Officer Kent Children's Aid Society.

ABOUT
New Fall Overcoats

The Overcoats for fall and winter have an unmistakable air of swiftdom. No past season has given us models more full of distinction than these long, boxy, comfortable and easy fitting Overcoats.

We are showing eighteen distinct styles of evercoats, all of them fresh from the factory. The shapes range from a semi-loose Chesterfield that conservative dressers will like, to the big long Raglan bodied garments, plain; that are the acme of the present mode for young men. Materials are thoroughly representative of the best imported fabrics.

For the season's opening we submit an outline price-list, just to help customers realize how many sorts of snug top garments are waiting here for their selection. All these coats are made in a large range of sizes, and most of the linings are made of black wool, Italian or heavy wool check with glassade sleeve linings.

Gray and Black Cheviots

Young men's fashionable fly front overcoat of cheviot. This style is cut very long and full with loose back. Silk velvet collar, raised seams, a swell coat in every detail. \$10.00

We have two shapes in one natty material—a very dark, smooth finished oxford. The first is a medium length coat with raised seams and double stitched edges, the second a much looser cut with silk velvet collar. Both extra well made and lined. \$10.00

Very fashionable coat of dark gray cheviot, cut long and full to cover the knee. This style has two button vent in sleeves, none in the back, fine checked wool lining with satin velt and satin bound facings. Sells at. \$13.00

The swiftest garment on our list. Heavy rough faced oxford cheviot cut in full raglan length and with vertical pockets. Sleeves plain at shoulders. Full cuffs, silk velvet collar, velvet pockets, finest trimmings all through. \$13.00

Another long coat with rather less fullness than the above is made from an extra grade dark gray cheviot, similar trimmings, silk facings and velvet collar of fine quality. \$15.00

Beaver Cloths

Fly front coat of smooth surfaced blue or black beaver cloth with single stitched edges, plain seams and plain pockets, vent in back, medium fullness and length. This coat comes in all sizes from 33 to 42 inches. A positive marvel at the price, which is. \$5.00

Single breasted coats in a fine grade of blue beaver excellently trimmed. Sizes in this line range from 33 to 44. \$8.00

A double breasted coat in one material. This is a thick, handsome dark blue beaver, cut fairly long and wide with plain sleeves, vent in back and silk velvet collar. A very close price. \$7.00

Extra fine blue beaver. A fly front coat of medium fullness and length. Made with 2-button vent in sleeve, back vent, raised seams and double stitched edges, regular pockets, silk velvet collar. \$10.00

In a similar shape we have a fine and silky black beaver, a cloth good enough for a much higher priced coat. \$10.00

Another medium shape. The finest black beaver with very high grade trimmings and collar of extra quality silk velvet. \$12.00

Curl Cloths

Fly front coat of rather shaggy black curl. This will be a popular winter coat, especially with men who have to be in the open. It is a medium cut—not too loose to be very warm—and is made with vent in the back, regular style pockets, plain sleeves, plain seams, single stitched edges, silk velvet collar and trimmings built for service. \$8.00

Short, close black curl in lambswool effect. Average length and fullness. Sleeve vents and silk velvet collar, seams stitched at each side, first-class trimmings. A single breasted fly front coat and an extra plump offering at. \$10.00

Coat of close, very dark gray curl, silk faced to the bottom and with silk velvet collar. Cut with but moderate fullness, has 2-button vent in sleeve and vent in back. Elegant trimmings all through. Single breasted. \$12.00

Fine Underwear

Here's about the nicest thing we have in a soft, springy all wool line of underwear.

Fine natural wool, with the always comfortable French neck, ribbed skirt and wrist, cashmere facings. The drawers are trouser finished with fine saten trimmings.

Sizes 36, 38 and 40 sell at \$1.00 per garment.

Sizes 42 and 44 at \$1.10 per garment.

THORNTON & DOUGLAS

RELEASE THE
INSPECTOR

Continued from First Page.

The contagious ward at the General Hospital.

Had the cesspool in the cellar under the building of Lamont's estate on King street, west of the coop of Mr. Cherry, King street, east, has been attended to, and has been removed.

I have notified John A. Morton to have a proper sewer in cellar of his store on King street.

The well known only two cases of scarlet fever reported on Barthe street instead of four as reported in the newspapers. There was a confusion of papers. There was a confusion of papers. There was a confusion of papers.

Diphtheria as follows—Lorne avenue 1, Baxter street 2, Park avenue 2, Park St. 1, total 7; 6x are still sick and one has recovered.

Three cases of scarlet fever are now in St. Joseph's Hospital contagious ward.

Frequent complaints are made about chickens and other fowls being a nuisance. There should be some by-law regulating the keeping of same at proper distance from dwelling houses it seems a difficult question without a by-law to guide the inspector to deal with.

All of which is respectfully submitted.

The Board then adjourned.

W. R. HALL, M. H. O.

Minard's Liniment—Lumberman's Friend.

DISTRICT DOINGS,
DRESDEN

Oct. 8.—E. E. Boulton leaves this evening for Toronto and the Pan-American.

Mr. Wallace and I. Jamieson are in Buffalo taking in the Pan-American.

Miss Daisy McDonald visited Miss May Miller on Sunday, returning to her home in Chatham on Monday.

Miss Mattie Willson, of Florence, is the guest of Mrs. W. H. Willson.

Mrs. Coburn spent yesterday in Chatham.

Alf. Paate, of Chatham, spent Sunday with Dresden friends.

WHISKEY MEDICINES.

The temperance press is emphasizing the danger to the home in the use of "medicines" which are loaded with whiskey or alcohol. In this respect, as well as in the remarkable character of their cures, Dr. Pierce's medicines differ from other preparations. Dr. Pierce's Golden Medical Discovery and "Favorite Prescription" contain no alcohol, whiskey or other intoxicant, and are equally free from opium, cocaine and other narcotics. Every family should have a copy of the People's Common Sense Medical Adviser, sent absolutely free, on receipt of stamps to pay expense of mailing and customs. Send 31 one-cent stamps for the book in paper covers, or 50 stamps for cloth binding. Address Dr. R. V. Pierce, Buffalo, N. Y.

TILBURY

Oct. 8.—Miss Sarah Reed, who has been visiting Mr. and Mrs. Wm. McGregor, Tilbury East, the past three years, leaves to-morrow for her home in Oregon.

Two rinks of Ridgetown bowlers were defeated here yesterday by a score of 36 to 31 points.

The bands of Jean Leaire and Miss Eagan were called for the first time in St. Francis church on Sunday last.

Miss McGregor returns to her home in Duluth to-morrow, after a visit with relatives here.

The Daily Planet is on sale at Johnston's Drug Store.
