Nova Scotia Central Railway.....	4,500 00
Central Railway of New Brunswick.....	66,761 00
Crow's Nest Pass Railway.....	2,322,500 00

Ottawa, Arnprior and Parry Sound Railway...	22,080 00

	-----\$3,201,220 05

The amount at the credit of the depositors in the Government and Post Office Savings Banks on the 30th June, 1899 was \$50,241,715.45, an increase of \$130,596.47. The interest added to the accounts chargeable to the year amounted to \$1,451,066.34, but the cash withdrawals exceeded the deposits by \$1,320,469.87.

Dominion notes to the amount of \$24,236,466.52 were outstanding on the 30th June, 1899, or \$2,058,272.76 in excess of the issue on the same date the previous year.

It is worthy of notice that the increased demand for notes of the denomination of one and two dollars, to which reference has been made in previous reports, has continued in the autumn months of the present year. At the close of September the circulation of one and two dollar notes exceeded the nine million mark. The following table gives the circulation for September and October for a number of years past:—

—	1893.	1894.	1895.	1896.	1897.	1898.	1899.
	\$	\$	\$	\$	\$	\$	\$
September.....	7,190,426	6,915,116	7,078,529	7,343,959	7,720,914	8,368,238	9,269,531
October.....	7,266,937	7,048,953	7,312,917	7,601,234	7,958,026	8,612,602	9,421,885

In connection with this subject, and as further indicating the increased demands for circulating medium consequent upon the expansion of business generally, I may be permitted to allude to the note issues of the chartered Banks of the Dominion. The greatest amount of notes of the chartered Banks in circulation during the month of October reached the sum of \$50,454,221, going over the fifty million mark for the first time. The actual amount of notes outstanding on the 31st October was \$49,588,236. At the end of the same month in the year 1895 the chartered Banks had notes outstanding to the amount of \$34,671,028. It will therefore be seen that in this class of circulation there has been an increase of over 43 per cent in four years, and this notwithstanding the increase in the number of branches established by the banks, and the consequent greater use of cheques in the settlement of business transactions.

SESSIONAL PAPER No. 2

Investments on account of the Sinking Funds of the various Loans were made during the year to the amount of \$2,482,484.65, making the total amount held on this account on 30th June, \$43,358,642.53.

The net debt of the Dominion at the close of the fiscal year was \$266,273,446.60 or an increase of \$2,317,047.69 over the previous year, the details of which are as follows:—

Capital expenditure on Railways and Canals, including the Canadian Pacific Railway.....	\$5,397,320	10
Capital expenditure on Dominion Lands	151,212	68
“ “ Militia.....	387,810	16

Expenses of Loan of 1897.....	3,786	87
Allowance to province of Manitoba.....	267,026	43
Consolidated Fund Transfers.....	230,758	46
	<u>\$9,639,134</u>	<u>75</u>
Less—Surplus	\$4,837,749	00
Sinking Funds.....	2,482,484	65
Refund on account of North-west Territories rebellion	1,853	41
	<u>7,322,087</u>	<u>06</u>
	<u>\$2,317,047</u>	<u>69</u>

The average rate of interest paid on the gross debt was \$3.14 as compared with \$3.10 for the year previous, and the net rate of interest paid rose from \$2.66 in 1897–8 to \$2.68 in 1898–9.

Since my report of last year progress has been made with the arbitration of the outstanding accounts between the Dominion and the Provinces of Ontario and Quebec. The claims arising out of the Robinson Treaties have been settled. The account of the Province of Canada has been closed almost to a point, so that the balance to be apportioned between the two Provinces can very soon be arrived at. The accounts of the separate Provinces are in a similar position. The only items that remain for settlement are the apportionment between Ontario and Quebec of the Common School Fund, now being dealt with by the Provinces, and the claims arising out of Treaty number Three. Every effort should be made to dispose of these as soon as possible so that the accounts as a whole may be finally prepared.

On page xvii it will be found that the table of aggregate receipts and expenditures under all heads since confederation has been continued up to June 30 last. At that date the excess of expenditure over receipts for the 32 years was \$190,544,805.23.

I deem it advisable to again draw attention to the large liabilities of the Dominion that mature in London between the years 1903 and 1910. At this early date no definite plan of course can be made, or even suggested, as to how best this indebtedness should be met. The matter is one, however, that should be kept clearly in mind, so that when the various loans mature, the arrangements that may be made to meet them may be such as a high credit and a strong financial position can command.

In my report of last year I called attention to the manner in which the conditions of the money market in Great Britain was affecting British and Colonial government securities, and the stocks of the larger municipal corporations. During the greater part of the present year the stock exchange quotations for securities generally were on somewhat of a higher level than at the end of 1898, but owing to the advance in the value of money, and the more profitable employment of it in business enterprises, there has been a gradual falling away in the prices of securities of the gilt edged class as compared with the prices ruling at the end of 1898. On the 30th November last the Bank of England official rate of discount was advanced to 6 per cent and in consequence the quotations of high grade securities have fallen away still further. Consols quoted at over 113 in 1898 and $110\frac{5}{8}$ in December of that year were recently quoted at 102.

In British corporation stocks the tendency has been downward during the year. The various Canadian securities have, comparatively speaking, held their own satisfactorily. The two and a half per cent issue maintained its quotation distinctly well. The three per cents ran from one to three points above par until October last when they dropped to $99\frac{1}{2}$. This quotation speedily recovered to 101, but recently the price has weakened somewhat. The two and a half per cents remained steadily at from $90\frac{1}{2}$ to $92\frac{1}{2}$ until October when they dropped to $88\frac{1}{2}$. From this, however, they quickly rose and are now quoted at 90-92.

The addition of Canada inscribed stock to the list of funds in which trustee investments may be made has not been lost sight of, but is still the subject of correspondence.

Appended will be found a continuation of the table showing the amount of salaries, and a number of officers in the public service subject to the Superannuation Act. The information has been brought down to 30th June, 1898. In 1892 the number under the old Act was 4,236; in 1897 it was 3,417; and in 1898 the number decreased to 3,150. The contingent liability on the Treasury, it will be observed, is therefore steadily decreasing.

During the year no entry has been made for interest due from the following sources:—

Albert Railway Co.
 Three Rivers Harbour Commission.
 Quebec Harbour Commission.
 Fredericton and St. Mary's Bridge Co.

As I have so often done before, I have again to make public acknowledgment of the value of the assistance rendered me by my staff in carrying on the business of the Department.

I have the honour to be, sir,

Your obedient servant,

J. M. COURTNEY,

Deputy Minister of Finance.
