PATIENCE REWARDED

A Good Homestead is now Worth Considerable Inconvenience thinks W. R. Ranson

Does it pay to sit at the door of opportunity for about thirty-six hours in the sunshine and the breeze, through the wind and the rain, through the heat and the cold. Perhaps it may depend on what the end is likely to be. There is a nice quarter section which will fall to Wm. R. Ranson as the result of his sitting at the door of the Dominion Lands Office at Regina from very early on Sunday morning till the office opened for business on Monday morning. The land referred to is the south-east quarter section 22-10-16 west 2 M., which is near Yellow Grass. Ranson got his hand on the handle of the door on Sunday, and was there to make his application. There were others there, but Mr. Ranson never gave up his position and when the office opened on Monday he was the first to do business. He was well chilled through and could hardly write his name. However, he was the winner of the coveted quarter section, and he earned it by his patience and perseverance.

ROOSEVELT ANGRY

Rather Regrets His Statement that he Would not Again be a Candidate for Presidency

Washington, April 30.—"If I could have seen how things were going to frame up, I would never have made that election speech, and I never would have retreated in three months ago."

President Roosevelt fairly chopped his words as he made that announcement yesterday to a senator who stood by him in his fight for four battleships. There is no doubt but that the president is about as angry as he has ever been in the course of his administration. The attitude of congress towards the chief executive and his legislative program has made the president bitter indeed. There never was a president's message so disconcertingly received as was the one sent to congress yesterday.

In the frame it was ignored entirely. In the senate as soon as the message from the president was announced, the senators raved and moved that it be laid over for a day. This was done and the senate adjourned, without even the polite enquiry as to what the message was about.

Those who share the president's frame of mind, and those to whom his remark was repeated, have widely divergent opinions as to what the president will do.

Some are inclined to think that he will get so wrought up that he cannot bring himself to stand aside, and that he will take a hand in the game in Chicago to force his re-nomination. Others are equally sturdy in saying that he will not recede from the attitude he has assumed. His election night pledge was to the effect that he would not run for president again.

PREMIERS' CONFERENCE

Grain Growers had no Representative Present and Feeling of the Premiers on Subjects Discussed not Given out.

The conference of the prairie premiers to discuss matters suggested by the Grain Growers at the inter-provincial conference held in Saskatoon in the winter, was held in the city on Monday. Premier Roblin of Manitoba, Premier Rutherford of Alberta, and Premier Scott of Saskatchewan were all present. The premiers expected that there would be a delegation present to represent the Grain Growers but such was not the case, and the conference could do little more than talk over the propositions made to the individual governments of the provinces in the way of resolutions, the chief one of which had reference to government ownership of internal elevators. The premiers are negotiating out any information other than that they made some suggestions which Mr. Langley who was the only one of the Grain Growers' executive in the city, will be expected to bring before the joint executives from the three provinces. It is likely that the premiers will meet in conference again when a reply will be received from the Grain Growers or a deputation will be present to more definitely express their views.

LICENSES CUT OFF

Local Option in Ontario Cuts Out Over One Hundred Bars

Toronto, May 1.—Throughout the province of Ontario today the licenses of 120 hotels were cut off. Most of the hotel keepers affected are given from one to three months to sell their stock, but they are not allowed to purchase any more liquors for sale.

Ninety-four of these licenses are cut off as a result of local option campaigns. The remaining twenty-six have been dropped by reason of license reduction votes by the people or order of the license commissioners.

The local option bylaws are responsible for the cutting off of these licenses in thirty-one municipalities indicated: Antastor 4, Ashdod 1, Beverley 3, Brighton 2, Brunel 1, Calstar 1, Campbellford 6, Colborne 3, Creemore 3, Durham 3, Eldon 5, Erin 3, Hamilton 5, Howick 4, McKellar 1, Medonte 6, Millbrook 4, Mulmur 2, Murray 2, Norwood 2, Norwich 3, Omenee 3, Orilla 3, Pittsburg 5, Saltfleet 5, Schreiber 2, Seymour 1, Somerville 2, Stirling 3, Woodville 2.

Four of the licenses by commissioners are in Toronto.

HUDSON'S BAY ROAD

Dominion Government May Undertake the Construction of a Road to Fort Churchill

Ottawa, May 1.—The government, according to present intentions, will shortly submit to parliament a bill providing for another outlet for the rapidly increasing annual yield of western grain. Although details are not yet available, it is understood the measure will be along the lines already suggested by the Hon. Clifford Sifton in the Commons last March.

Proposal was to provide funds from the sale of three million acres of Dominion lands on even numbered sections in the west hitherto set apart as railway reservations for the C.P.R. and C.N.R. These even numbered lands aggregating some thirty million acres will shortly be released for homesteading.

It is estimated that the proceeds of three million acres reserved by the crown for sale would, in a few years realise \$30,000,000, sufficient to construct a road to Fort Churchill by the government, the building of elevators there, necessary improvements to the harbor, and for the buying and lighting of channel for steamers in the bay and straits.

The feasibility of the route for ocean steamers during three and a half months in the year has been thoroughly established by reliable investigators, and the need of a new outlet is becoming increasingly recognized from year to year. Moreover the new line will open up a hundred million acres to settlement.

Pollock-Moody

A quiet but pretty wedding took place this afternoon at three o'clock at the home of Mr. and Mrs. John Moody, Albert street, when their eldest daughter, Lena, was united in marriage to Mr. Alexander Pollock, of Winnipeg. The ceremony was performed by Rev. E. A. Henry. The bride who was given away by her father, was dressed in a beautiful white lace robe made over shifon and cream tulle. Miss Eva Moody acted as bridesmaid, while the groom was supported by Mr. R. McNeish, formerly of Ottawa, but now of Regina.

The bride, who is well known and very popular in Regina received many costly gifts from her many friends.

The groom was at one time a member of the dry goods staff of Mr. Geo. Mickleborough, but is now manager of the clothing department for the T. Eaton Co. in Winnipeg.

The happy couple left on the 5:20 train for Winnipeg, where they will take up their residence.

New Trust Company

E. A. McCallum, W. H. A. Hill, E. D. McCallum, Alex. Ross and C. G. Culbert have applied to the legislative assembly for a charter for a trust company to be known as the Saskatchewan Guarantee and Trust Company. The provisional directors are those above named. The capital is to be \$250,000, divided into 2,500 shares of \$100 each.

The company asks for the usual powers of a guarantee and trust company.

SYNOPSIS OF PRECEDING CHAPTERS

Massey St. Quintin, a wealthy young man... Madam looked seriously alarmed... "I can't insist, of course. But if you refuse, as I am asking what is only considered natural and usual in England, I must continue to get an interview with Miss Denesley without your permission, and even, if necessary, without your knowledge."

CHAPTER VIII—Continued

OR Miss Denesley, if I may venture to guess? It's all settled, and you are going to defy Fate, and put up with an uncle who may, in some respects, be described as slightly disagreeable... "Dubious! No, I never said that! I only engaged that is not regularly engaged."

"And who is the other man who is showing presents around here?" "Nobody is showing anything around here! It's only French custom, you know, to make a show of it."

CHAPTER IX

THE gathering was a delightful one... "I intend to go down with you," he said. "I mean to see those people the girl and her relations, about, not to see them, but to see the girl."

"Two days after, Ince got this note from his friend: "Dear Ince: Miss Denesley and her uncle and aunt will be delighted to see you, if you will go down with me on Monday. Yours, M. St. Q."

When Monday evening came the two men started together, going, not by train, but by a new motor car which St. Quintin had just bought... "Ince was wise enough to say nothing which could give his friend cause for offence."

or was as well attested as his face was frank and noble... "Marie, don't you want me to speak to you?"

few moments' conversation with your niece? "Madam looked seriously alarmed, and as she saw refusal on her face he was not surprised... "I can't insist, of course. But if you refuse, as I am asking what is only considered natural and usual in England, I must continue to get an interview with Miss Denesley without your permission, and even, if necessary, without your knowledge."

"I hope so, and that is why I have warned you of what I mean to do, instead of doing it without warning." "But it is not customary in France for a young girl to have a tete-a-tete interview with her fiancé?" "Yes, it is, but it is not customary in England, and Miss Denesley is an English girl, and is going to marry an English husband."

"I really don't exactly know what to say. We've managed, both of us, to offend the lady, and you are not stiff enough, nor reserved enough, for the motions of propriety. So that I feel rather awkward, and somewhat forlorn, and begin to wish—"

"Well, I'll put it in another way. Do you think it is not possible for you to offer your gift, not in the promise that you should marry her, but as a simple token that I myself would approve of the match? I have the same objection, I have not changed. But I repeat, and Marie knows the truth as well as I do, it is not possible for me to finally approve of Mr. St. Quintin's marriage, until the second guardian has been obtained."

"Marie burst into a merry laugh." "And don't you think Mr. St. Quintin can look after my money as well as if he were poor?" "I should be thinking that he could look after my money as well as if he were poor, and I should be thinking that he could look after my money as well as if he were poor."

"Well, then," said Ince, stopping to take a long breath, "these people you're with—will be little difficulty in getting you to marry. Are they straight?" "Oh, certainly, if it were a matter concerning only me, I should have no fear," she said, graciously.

FORGET NOT YOUR FATHERS

The Tercentenary of the Foundation of Canada by Champlain, A Memorable Occasion.

The following address on the tercentenary of the founding of Quebec was recently delivered by John W. Huggill before the Anglican Young people's Association at Calgary.

This year one momentous in the life of a young nation, will be celebrated the tercentenary of the foundation of Canada by Champlain, in the year 1608.

Great actions and striking occurrences, having excited a temporary admiration often passes away, and are forgotten, because they have no lasting results affecting the welfare of the community. Such is the fortune of the most brilliant military achievements. But there are military achievements that sometimes create the current of events that give a new turn to human affairs, transmitting their consequences through ages.

Among the battles which have throughout history fixed the fate of nations, will rank that of the Plains of Abraham. This historical event marks the birth of a new nation, a nation which we citizens of this Dominion are proud to belong, and call ourselves Canadians.

Another important event is the defeat of the American invaders under Montgomery and Arnold, by Carleton commanding the French and English forces in 1775. The inscription which Arnold was required to inscribe upon the old combatants in one unity of citizenship. As it fittingly inscribed on their memorial:

Here stood Her old and new defenders United, Guarding, Saving Canada.

Again in 1898, the first Canadian contingent for the South African war embarked at Quebec, and later, in 1905, His Excellency Lord Grey unveiled the statue to those Quebecers and they were many who died.

"For Empire, Canada, Quebec, Not by the power of commerce, art or pen Shall our great Empire stand, nor has it stood; But by the noble deeds of noble men, Heroic lives, and heroes' outpoured blood."

Can their deeds receive a more eloquent tribute?

This year then is one which points out, more than any that has passed, the growing national character of the people of the Dominion.

How is the spirit of a free people to be formed, animated and cheered, but out of the storiches of its historical recollections, and it is to nationalise these historical events that an association has been formed to endeavour to raise money estimated at \$2,000,000 for the purpose of buying the old Plains of Abraham, or as much of the land as can be purchased, and raising fitting memorials to the nation, marking places of historical interest to be handed down as a national heritage.

What emotions must agitate the breast of the citizen as he visits these scenes, reminiscent of the brilliant achievements of the great heroes Wolfe and Montcalm, and all that such names can associate with an honorable past.

His heart must go out in thanksgiving to the founders of our Dominion, to whom we owe not only this great inheritance, but the present security so necessary to its enjoyment.

The very blood of those high-souled, unaffected citizen heroes calls us from the barricade of Saul to a Mate lot, it beats in our veins; it cries with heart moving eloquence: "My sons, forget not your fathers."

So, as members of a national church, as citizens of this coming metropolis of the west, we have now a signal duty, one which requires no eloquence to animate, one which will find a ready response in the hearts of all lovers of this country, a duty to use our best endeavors as far as our means will permit, to contribute to the funds which are being subscribed to achieve the objects of the Quebec Battlefields' association.

This done, and though it has been so feelingly written, "the historic ground thus secured to the nation is more to the whole vast bulk of Canada, than the flag is to a man-of-war, yet, like the flag, it is the sign and symbol of a people's soul;" that beacon which is to be our guide, yet and our children's guide to a glorious future.

Piles are easily and quickly checked with Dr. Shoop's Magic Ointment. To prove it I will mail a small trial box as a convincing test. Simply address Dr. Shoop, Racine, Wis. A man's future is more clearly indicated by his past than by his palm.

THE WEST TO Jan. 1st, 1909 FOR 50 CENTS

The Gopher

As a pest almost nothing can equal the gopher if allowed to run riot. With judicious use of strychnine, however, the farmer need not dread him.

The best way to use the poison is as follows: To one-half ounce of the strychnine crystal add a couple of table-spoonfuls of vinegar. Allow to stand for a short time with frequent stirring. Then add from one to two quarts of water. Bring this to a boil, and keep there until the crystal is dissolved. Then add brown sugar to sweeten, and enough wheat, chop or oatmeal to soak up the liquid.

Place a small quantity of this mixture a short way down in the gopher holes. The best time to put out the poison is at night after the gophers have gone in, so that he comes to it first thing in the morning while he is hungry.

In case of accidental poisoning by strychnine the following course should be pursued. First, send for a doctor. Second, keep the patient quiet. Third, give a teaspoonful of mustard stirred up with water followed by large draughts of hot warm water. Give powdered charcoal if obtainable.

Fourth, to relieve spasms, give about one grain of opiate, or narcotic, and therefore cannot possibly do harm—but always do good. Mrs. Geo. M. Kempf, Carleton Place, Ont. says: "I have given Baby's Own Tablets to my baby since he was two weeks old. He was a very small thin baby, but thanks to the Tablets he is now a big, fat, healthy boy." Sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams Medicine Co., Brockville, Ont.

Archdeacon Matheson has been appointed Chancellor of the University of Manitoba.

The Dreamers who have been on trial at Medicine Hat have been acquitted of the charge of setting fire to houses.

The Conservatives of Halifax in the city elections elected a Conservative for mayor and their nominees for Aldermen in every ward.

Vancouver, B.C., May 4.—A Charles who arrived from the north to-night, brought news of a phenomenal sea strike on Ingenika river, where a gold find was reported last fall.

Ottawa, May 4.—R. L. Borden, leader of the opposition, presided at a meeting of the Anglican laymen here today. They tendered luncheon to Stas McEee editor of the Churchman, belonging to New York. He has been in England in connection with the Anglican laymen's missionary movement, which is now arousing so much attention throughout the United States and Canada, and after speaking twice, in Montreal came on here.

Montreal, May 4.—The cotton manufacturing business of Canada is at a standstill, the spinners of the Dominion Textile and Montreal Cotton companies' various mills going on strike against a reduction of ten per cent in the wage scale. The spinners at the Valley Fields mill of the Montreal company did not appear for work today, while the spinners in all the mills of the Dominion Textile Co. have also quit. Some little work is done in other departments, but as the spinners are the mainstay of the establishments, this can last but a short time. This means that in a week's time or less some seven thousand hands will be idle.

Melbourne, Australia, May 3.—Returning today to the visit of the American fleet to Australia ports, Sir Wm. J. Lun, minister of trade and customs, who is treasurer of the reception fund, said the bulk of the expenditure would be on the sailors. "We are determined," he said, "that they must leave with a good impression."

Lishon, Spain, May 1.—A sensation has been caused here by the arrest of Dr. Braganca, a grocer by the name of Mendis, president and treasurer, respectively of a political society, which organised the demonstrations at the graves of Buica and Decosta, on the charge of complicity in the murder of King Carlos and Crown Prince Luis. Their accused is a showmaker, who declares that Dr. Braganca bribed him to throw a bomb at the royal carriage. The informer was confronted by Braganca and Mendis and reiterated his accusation. Braganca angrily repudiated the charge, and became so excited that he fell into a fit and had to be removed to a hospital. Republicans

Count Tolstoi thus sums up his anticipation of death in reply to a friend who congratulated him upon his approaching eightieth birthday. "The earthly life," he said, "is a dream, and death is the true awakening. He awakes that awakening with happiness. Elaborating on this idea he says: "In our earthly life one dreams of another and more real life and in that other life, one dreams of another idea, and so of ad infinitum, even to the last life, 'the life of God.'"

Of death at different ages and under different circumstances, he says: "Death in youth is as when man is awakened before he has slept full measure. Death in old age is as when man awakens of his own accord after a good sleep. Suicide is as a nightmare which man banishes by remembering that he is asleep. He makes an effort and awakes."

Provincial News: Geo. Amos Johnson, a resident of Garden Valley, near Hanley, died recently.

Word was received in the city yesterday from a point sixty miles to the southwest that a homesteader while sinking a well, had come across a seam of what much resembled hard coal. The homesteader is a north of England miner, who, having worked long in coal mines, should know whereof he speaks. The point in question is sixty miles south east of the city, and about one hundred miles west of Weyburn. Naturally, the report has caused a good deal of talk in the settlement.—Moose Jaw News.

Large part of the North-West was visited by a raging snow storm on the 25th inst. Old timers say this is the worst snow storm they have ever seen in the month of April. It has done no damage, however, beyond delaying seeding operations for a few days, and luckily a good part of the wheat is already in.—Melfort Moon.

The home of Dr. and Mrs. W. Tanner at Girvin was the scene of a quiet wedding on Monday evening at eight o'clock when their daughter, Inez Olivine, was married to Stanley J. Stewart, also of Girvin. Both of the young people are very popular and their friends will wish them a long and happy voyage on the sea of matrimony.—Davidson Leader.

Since coming, Mr. Ellis has been largely instrumental in working up the large patronage "The Big Store" receives, proving himself a capable business man. His many friends in Wolsley will wish him a safe and pleasant trip, and success in whatever business he engages in.—News.

There was blood, thunder and direful calamity breathed into a letter from a love sick swain to his sweet Joey a day or two ago and this morning the writer was called before Magistrate Turner to tell why he penned such torid lines to the young lady. Alexander Aird is the defendant and the young lady is Joey McLeod, employed in one of the dining rooms of one of the city hotels. Alex professes a tender feeling for the young lady and he would indicate that he was encouraged, but another stepped in, a youth, Campbell, by name, to Joey saying that he would surely slay his rival, at which the young lady became very much afraid and held herself within doors, anxious lest a tragedy should be enacted in her name. Tired nerves, with "no ambition," feeling that is commonly felt in spring or early summer, can be easily and quickly altered by taking what is known to druggists everywhere as Dr. Shoop's Restorative. One will absolutely note a changed feeling within 48 hours after beginning to take the Restorative. The bowels get sluggish in the winter time, the circulation often slows up, the Kidneys are inactive, and even the Heart in many cases grows decidedly weaker. Dr. Shoop's Restorative is recognised everywhere as a genuine tonic to these vital organs. It builds up and strengthens the worn out weakened nerves; it sharpens the falling appetite, and universally aids digestion. It always quickly brings renewed strength, life, vigor, ambition. Try it and be convinced. Sold by Regina Pharmacy Stores.

Word was received in the city yesterday from a point sixty miles to the southwest that a homesteader while sinking a well, had come across a seam of what much resembled hard coal. The homesteader is a north of England miner, who, having worked long in coal mines, should know whereof he speaks. The point in question is sixty miles south east of the city, and about one hundred miles west of Weyburn. Naturally, the report has caused a good deal of talk in the settlement.—Moose Jaw News.

Asylum Inmates

The paying of a bonus on immigrants has not worked out to the best interests of the country for we have not had the better class in every case.

It is inadvisable for the people to trust the Laurier government for another term. Abuses no doubt crept in under the former administration, but they sink into insignificance when compared with the wholesale graft, corruption and maladministration of some of the departments under the present government.

The necessity of a change is so apparent from the exposures of the present session as to need no comment. There is no doubt either as to the honesty and integrity of Hon. R. L. Borden, nor is there any doubt as to the way his policy is being accepted in the country.

We trust that the conventions for constituencies in Saskatchewan which have not yet made their choice will not fail to select men who will not only do credit to Mr. Borden and his platform, but to themselves as well.

Editorial Notes

"Zeal for economy not visible," is putting the state of some of the departments at Ottawa very mildly.

The state of the provincial finances has failed to bring out the fulsome flattery and commendation of the Scott government from the Leader and that organ seems even ashamed to refer to the subject.

The Doukhobors.

The contention of the Ottawa government that this province should look after the wandering Doukhobors is one which any reasonable man could refute. These people were brought to Canada by the Dominion government, settled on Dominion land and are wards of the Dominion government until they have taken upon themselves the obligations of Canadian citizenship.

What benefit has this province ever received from that part of the Doukhobor class who go on their fanatical pilgrimages?

The Dominion government brought them here prior to the time of the establishment of this province, settled them on their own lands, and if they do not take out their patents the land reverts to the Dominion again, not to the province.

The provincial government should not accept any responsibility on behalf of these fanatic Doukhobors.

Time for a Change

The time has come when there should be a change at Ottawa. The administration of Sir Wilfrid Laurier has piled up a record of misdeeds which greatly outshines its redeeming features.

The exposures during the present session have been such that it would

A Chinaman has headed the list in the law examinations in McGill university. Such incidents as this demonstrate the latent capacity in the Chinese race which, if it develops with the same rapidity as has characterized the people of Japan, may cause some mighty changes in the history of the world within the next half century.

It is barely fifty years since a United States squadron invaded the seclusion of Japan and if anyone had predicted that the first years of the twentieth century would see the subjects of that small kingdom humiliate the arms of the great Russian empire both on land and sea the idea would have seemed preposterous. Should history repeat it-

self in the case of China with its 400,000,000 people it will be an ominous factor to be reckoned with by the western nations.

LANGLEY AND THE JUDGES. Member for Redberry indulges in Plain Talk in The Legislature on the Judiciary.

Mr. Langley seems to have it in for the judges from his remarks in the House on Friday. The occasion for his remarks was when the house was in committee discussing the punishment of corrupt practices at elections.

The attorney general, who is a dapper little gentleman, uses a toll when engaged in rhetorical combat. He jabs deftly and gets away quickly, worrying an opponent such as Mr. Langley, who prefers to stand up and have it out with bare knuckles.

The principal scene came a few minutes after when clause 8 was considered. It is provided that anyone found guilty of bribery or having used threats in an election should be fined \$100 and be disqualified from voting at municipal elections for two years.

AND WHEREAS the amount of the said debt, as assessed according to the last revision of the City of Regina (namely assessed for the year 1907) is Eleven hundred and forty-seven hundred and seventy-one (\$11,477.00).

AND WHEREAS the amount of the existing debt of the City of Regina is One million five hundred and sixty-one thousand eight hundred and seventy-seven (\$1,561,877.00) of part of which principal thereof is in arrears.

AND WHEREAS the sum required by law to make good the sinking fund for repayment of the sum of \$5,000.00 and Twenty thousand Dollars (\$20,000.00) part of the indebtedness of the City of Regina is One million five hundred and sixty-one thousand eight hundred and seventy-seven (\$1,561,877.00).

THEREFORE the Council of Regina in Council enacts as follows:

1. It shall be lawful for the City of Regina to borrow on behalf of the said City of Regina the sum of Five thousand Dollars (\$5,000.00) for the purpose of the cost of construction of the sidewalks aforesaid by the debentures of the said City of Regina in the sum of Five thousand Dollars (\$5,000.00) payable as hereinafter provided.

2. The said debentures shall be issued on the day of the date hereof and shall be made payable in the manner that the whole of the principal indebtedness thereby shall be paid at twenty years from the 1st day of July 1908.

3. The rate of interest on the said debentures shall be five per centum per annum from the first day of July of each year commencing on the 1st day of January and July of each year and coupons shall be payable on the 1st day of each of the said months and the respective payments shall be made on the 1st day of each of the said months.

AND WHEREAS it is expedient for the purpose of defraying the cost of the said works that debentures should be issued to the amount of Five Thousand Dollars (\$5,000.00) payable in twenty years from the first day of July 1908, bearing interest at the rate of five per centum per annum half yearly, which sum of Five Thousand Dollars (\$5,000.00) is the debt intended to be created by this By-law.

AND WHEREAS the amount of the rateable property in the said City according to the last revised assessment roll (namely assessment roll for the year 1907) is Eleven Million one hundred and forty-seven thousand five hundred and seventy-one Dollars (\$11,147,571.00.)

AND WHEREAS the total amount of the existing debenture debt of the said City is One million two hundred and sixty-one thousand eight hundred and seventy-seven Dollars and six Cents (\$1,261,877.06) of which no part either principal or interest thereof is in arrear.

AND WHEREAS the said City is required by law to make provision for the Sinking Fund to cover the repayment of the sum of Six hundred and Twenty thousand Dollars (\$620,000.00) part of the indebtedness of the said City.

AND WHEREAS the said Sinking Fund now amounts to Twenty-four thousand two hundred and sixty-one Dollars and fourteen Cents (\$24,261.14).

THEREFORE the Council of the City of Regina in Council assembled enacts as follows:

1. It shall be lawful for the Council of the City of Regina to borrow on behalf of the said City upon the credit of the Municipality at large the sum of Five thousand Dollars (\$5,000.00) for the purpose of defraying the cost of constructing sidewalks as aforesaid by the issue of debentures of the said City on the credit of the said Municipality at large for the said sum of Five thousand Dollars (\$5,000.00) to be payable as hereinafter provided.

2. The said debentures shall bear date on the day of the issue thereof and shall be made payable in such manner that the whole amount of the principal indebtedness incurred thereby shall be paid at the end of twenty years from the first day of July 1908.

3. The rate of interest shall be five per centum per annum computed from the first day of July 1908 payable semi-annually on the first days of January and July in each year and coupons shall be attached to each of the said debentures representing the respective payments of interest.

4. The said debentures shall be signed with the Corporate Seal and shall be signed by the Mayor and City Treasurer and the said coupons shall be deemed to be properly executed by each one having printed or lithographed thereon the name of the Mayor and by having placed thereon the written signature of the City Treasurer and the debentures and coupons shall be made payable at the Bank of Montreal in London (England), New York, Montreal, Toronto or Regina, and the debentures may be issued in sterling or currency or partly in the one and partly in the other.

5. In addition to all other amounts there shall be levied and collected in each year during the currency of the said debentures on all rateable property in the said City by special rate or rates sufficient therefor the sum of Two hundred and fifty Dollars (\$250.00) for the annual interest and

the sum of One hundred and sixty-seven Dollars and ninety Cents (\$167.90) by way of Sinking Fund to meet the principal at maturity, making in all the sum of Four hundred and seventeen Dollars and ninety Cents (\$417.90.)

6. This By-law shall take effect on the day of the final passing thereof.

THE TELEPHONE BILLS ARE BEING DISCUSSED

Vote of \$400,000 for the Public Service Passed The Doukhobor Question Brought up by Mr. Gillis—Cost of Rural Telephones—Government to Dictate the Book-keeping System to Municipalities.

WEDNESDAY, APRIL 29

Three petitions were presented today, one for an act to ratify certain by-laws of the town of Battleford, another for an act to incorporate the Canada Fire Insurance Co., and another to admit W. O. Tessier as a physician and surgeon of the province.

Mr. Bole's questions respecting the license commissioners was answered, 250 applications for licenses had been received and it was the intention to have the commissioners sit in the various parts of the province to hear and settle on the applications.

A bill respecting the institute of chartered accountants of Saskatchewan, and one to incorporate the Imperial Fire Insurance company, as well as one to ratify the issue of certain Moose Jaw debentures, and one to give the city of Moose Jaw power to expropriate certain lands, were read a first time.

The telephone bills were read a second time after a short explanation by Mr. Calder.

Provision is made for a railway and telephone department. The government is given power to construct telephone lines within the province, and to purchase existing lines as well as to manage and operate lines and have control over rates and tariffs charged.

The part relating to municipal systems provides that any municipality should operate its own system and the municipality is given power to raise money.

The part relating to the rural telephone system provides that a few persons living in the rural sections of the country may form a company, being assisted by the government in the way of organization, and construct and operate a telephone system for their own benefit.

Mr. Gillis, who was leading the opposition, did not think these telephone bills were what the people wanted. The country wanted a system of government ownership. However, he would wait for more detailed information before offering further criticism.

During the afternoon the House went into committee of supply and voted \$400,000 to provide for the public service. The vote was necessary as all the money voted last session had been used and money was required before the usual estimate would be brought down.

In committee on the seed grain bill Mr. Turgeon had a clause amended to provide that the seed supplied to any applicant was not to exceed \$250 and a sub-section was added providing for the publication of the list taken in the Saskatchewan Gazette. These alterations had been made as the result of representations made by loan companies.

Municipal Law Committee

After the regular session of the House, the committee on Municipal Law, consisting of the whole House held a sitting. Mr. Neely was appointed chairman and Mr. Page, secretary.

The bill respecting the department of municipal commissioner was taken up first. The government intended to have a systematic book keeping arrangement for all municipalities. Inspectors were to be appointed to see that the books were properly kept.

It was possible also that the government might arrange to have the actual books prepared and sold to the district. Mr. Elliott thought it was poor policy to say to the municipalities "thou shalt buy from us, and thou shalt pay," although he agreed that the government should regulate the system and appoint inspectors. He suggested that the government distribute such books free to the municipalities would be more well spent, and better spent than most of the money expended by the government.

Dr. Elliott and Dr. Ellis both object to the power given in clause 1 to the commissioner to dismiss a official in a municipality. They do not think it proper to give the commissioner such arbitrary power.

However, the clause was agreed to and the committee rose.

THURSDAY, APRIL 30.

The House sat for three hours today, most of the time being spent in committee.

A couple of minor government bills were read a first time.

In order to bring the Doukhobor question before the House, Mr. Gillis of Whitewood moved the adjournment. He referred to their pilgrimages and incarceration of some of them in jail in Fort William, the return of 71 of them to Yorkton. He understood that the department of the attorney general had taken some action with regard to these people. This might be necessary in the urgent circumstances, but he protested against the province being saddled with the responsibility of these people. This, he contended, rested on the Dominion government. The Doukhobors were not becoming citizens of the province and outside of perhaps

giving temporary relief this province should undertake no further obligations with regard to them.

Mr. Turgeon in reply stated that the government was at the present time considering their responsibility with regard to these people, however, they could not come to any ultimate decision until they had received more information which he was procuring as fast as possible.

The motion was then withdrawn.

In committee the telephone bills were discussed.

In the discussion it came out that the government had information from the Bell Telephone Co., and the Saskatchewan Telephone Co., to the effect that they were willing to sell out to the government.

The commissioner of telephones is given power to enquire into rates of private telephone companies, and gives the government power to alter the rates to a fair basis if they are found to be discriminatory. The government was assisting the private telephone companies. One clause in the bill authorizes the appointment of a commission to take over the management of telephone systems.

In the Municipal Telephone Bill, provision is made for municipalities to float debentures by referred by-law. The term of debentures in rural districts is not to exceed 15 years, while in towns and cities the term may be longer.

Some thought the life of debentures for rural districts was too short, but as it was pointed out that the poles would not last longer than 15 years, it would be inadvisable for the issue of debentures to run longer than the life of the plant and the clause carried.

FRIDAY, MAY 1.

Today in the House, the premier moved first readings of a bill to amend the Steam Boilers Act, and a bill to amend the Legislative Assembly Act.

Mr. Gillis moved for a return respecting seed grain, and it was ordered that Mr. Motherwell intimated that it would involve a good deal of time and labor and it was possible that some of the information asked for in the return might not be prepared.

The two bills affecting Moose Jaw were read a second time on motion of Mr. Wellington, and referred to a committee on private bills.

The bill to incorporate the Imperial Fire Insurance Co. was read a second time.

The House in committee again took up the rural telephone bill. There was considerable discussion on the clause which affected the maximum dividend a company should be authorized to declare. Some favored five per cent, while others wanted 8 per cent to encourage capital. It was finally placed at 8 per cent.

In reply to a question, Mr. Calder stated that poles 30 feet high would cost about 75 cents each and poles 15 feet high about \$1.50 delivered. 30 poles to a mile the cost per pole for poles would be from \$25 to \$5, while the total cost of rural telephones would be \$80 to \$100 per mile.

There was some discussion on the question of exempting companies from taxation.

The bill was left in committee for further consideration.

In the special committee to discuss the controverted municipal elections act which met, Mr. Langley made his attack on the judge subject comment on which appears elsewhere.

MONDAY, MAY 4.

A bill to amend the act respecting public printing and a bill to incorporate the Hudson Bay Insurance Co., were given first readings.

Mr. Elliott secured an order for a return showing correspondence regarding a road south of sec. 15-17-18 and Mr. Wylie one respecting boiler inspection.

A bill to incorporate the Weyburn and one respecting the town of Weyburn were read a second time.

A second reading was given a bill respecting the consolidation of the Saskatchewan Statutes.

The House in committee took up the Municipal Telephone System bill, the Bills of Sale bill, and the bill to amend the Assignments Act.

On the Municipal Telephone Bill it was decided to give municipalities power to borrow 2 per cent of their assessment on real property.

Mr. Calder said that he had gone into the matter and found that 2 per cent would be sufficient. The assessment of the city of Regina was in the neighborhood of \$11,000,000, and he had heard it stated that the value of the telephone plant was in the neighborhood of \$250,000, which was 2 per cent of the assessment.

Moose Jaw was about \$8,000,000, which would allow at 2 per cent \$160,000 for telephone development. The Regina plant would be capable of serving a population of 40,000 or 50,000, so far as the underground work was concerned. Then again the plant that was placed by the Bell Telephone company in Regina cost a

great deal more than that in the city of Saskatoon or Moose Jaw, where everything was above ground. If Wolseley or Indian Head, for example were to put in a plant it would be an overhead system. Therefore he thought 2 per cent would be sufficient.

There was another point as to the amount they should allow rural municipalities to borrow for the purpose of telephone development. It was fixed at 25 cents per acre of land. Under the rural municipal act they were allowing rural municipalities to borrow 13 cents per acre for other purposes. The sum of 25 cents might seem excessive, but as a matter of fact, if rural municipalities were to take advantage of the act it would require about that amount. He had gone into it carefully with Mr. Dagher, and it would require about \$40 for every quarter section. In reply to Dr. Ellis he said that it would not depend on any great extent on the size of the municipality. Where there was a larger system there was a greater expenditure in the central office, but it would not amount to a great deal.

Dr. Ellis remarked that it was just about twice the borrowing powers for all other purposes.

Mr. Calder thought it might be cut down to 20 or even 15 cents per acre. The maximum allowed would be 25 cents. Mr. Dagher had communicated with all the local improvement districts and had received replies from a large number of them showing the exact location of the houses, and had worked out a telephone system for each of these. On an average there would be 300 miles of lines in each of our present local improvement districts, and 500 miles of line at \$100 a mile would be \$200,000 for four townships, \$500,000 for a single township, or about 25 cents for each acre. That would be for a fully developed system, but it was not likely that the rural municipalities would install a system of that nature first. In reply to Mr. Bole he said that there was no doubt that giving the local authorities power to borrow additional amounts would to a certain extent affect their other securities.

Mr. Gillis thought 25 cents an acre a perfectly safe maximum.

It was agreed to fix the amount at 2 per cent, and 25 cents an acre.

Claude Dagher was made to read: "Every municipal telephone system constructed under the provisions of this act shall, during construction, be subject to the inspection of an engineer officer appointed by the commission."

The bill to amend the Sales Ordinance was considered in committee of the whole.

Mr. Turgeon proposed an amendment to section 33 providing that the lieutenant governor in council may change the scale of fees to be charged for the registration of chattel mortgages. This provision was made necessary in order that the change in the registration system might be made to conform with the present conditions.

The bill was reported to the House with amendments, and the amendments were read a first and second time.

The Assignments Act amendments were next taken up in committee, the bill was reported to the House.

The bill to amend the Surrogate Courts Act was also considered in committee. The bill was reported with amendment, and these were read a first and second time.

The Rural Telephone Bill was placed in committee on Municipal Law, and under section 8 it was provided that subscribers to the stock of the company must pay up \$20 per pole per mile to be constructed, before the company can commence construction. This amount must be paid in cash, and it will amount to about one-fifth of the total cost per mile of the telephone line.

The provision regarding the supplying of new services was amended and the law made that applications for new services must be granted, provided that the supplying of such services does not require from the company the expenditure of more than \$50.

The committee reported progress and asked leave to sit again.

The house adjourned at 4 o'clock.

Across the world the tides of old romance

Have borne again white cloud-fleets of the May;

All round their pole the guttleless children dance—

Close not the windows of your heart today!

Close not the chambers of remembrance of dreams;

See not the gardens where love bloomed of old,

But open up to crooning forest-streams

Where Spring has touched her wild-wood harp of gold.

CREELMAN

History of Thriving little Town As Given by The Local Paper.

The town of Creelman on the Arcola line has now a newspaper. The first issue, which appeared last Wednesday, has the following write-up of the town:

In presenting our first issue to the people of Creelman and surrounding districts we do so believing that the time has arrived when we should have a news medium; and in doing so naturally felt it our duty to write up our prosperous little town.

It was on the 28th day of May, 1903, that the first signs of a town appeared when Messrs W. C. and S. R. Cartwright pitched their first tent where Creelman now stands; and in a few weeks opened up a general store under the firm name of Cartwright Bros. This was some six months previous to the surveying of the townsite, although the contractors were grading both to the east and west of here.

When we look back and think of those pioneer days well do we recollect the then sparsely settled district with its old low sod buildings, which at a distance appeared only as huge block mounds. Here and there might be seen a lumber shack, but as it took from three days to a week according to roads, to haul a load from Wolsley, Arcola or Weyburn, as the case might be, a lumber building was a very expensive luxury. These were the homes of the early settlers: the Davises, Kennedys, Becksteads, Dunninges, Wilsons, Leinsters, McKees, Allens, Andrews, Testars, Hesters, Dickies, Monettes, Wildfields, Mustards, Hartis, Wileys, Henrys, Senkels, Stewarts, Bowdies, La Plasters, McLarsons, Dunhams, Galbraiths, Smyths, Scotts, McLean (Geo.), Luckys, Knights, Bakers, Patersons, Frenches and others.

To the settlers who had put in a few years waiting, the year 1908 was a welcome one. When the store was in course of construction, a mass meeting was called to consider the establishment of a post office. There were several names brought forth as suitable for our then town in embryo—Hazel, Leonard, Garret. It was decided to cre-

ulate a petition praying the Postmaster General to establish a post office here under the name of Arcola. However, when the C.P.R. surveyed out the town in October they honored one of their officials by naming it Creelman. After keeping up negotiations with the Post Office Department the following spring it bore fruit, when on March 30th, we received our mail by express from Arcola. The route extended as far west as Elkhorn and Mr. Spink, who made the first trip, at plunging through the snow drifts for five or six days, wired the Post Office Inspector that he would not make a second. In Arcola, however, the local Postmaster was empowered to hire someone to continue the service, and a true westerner—I think his name was Bob—took over the contract, not for fun, but because there was something in it. After the spring freshets were ended we got our weekly mail fairly regular and appreciated it greatly.

Not was life in those days void of sociability, for on July 1st a very successful picnic was held at Mr. Hart's of Gooseberry Lake. This was the first picnic held in the district and was largely attended.

As the summer advanced construction camps with their throngs of navies came nearer and added life to the community. The camp of Messrs Grant & Sheedy was pitched right in our midst, and when on November 18th work on the road ceased for the year, these gentlemen decided to winter their stock here and left two men in charge (Donald and Tom).

Many of us remember the severity of that winter. Strange to relate only one life was lost (Frank Finn), although several had very close calls. At length winter yielded up to spring, and spring soon wore into summer. Perhaps the occasion which caused the greatest rejoicing in town was when on July 18th the first train (passenger) pulled into Arcola. A regular train service was established that November and 50,000 bushels of wheat marketed.

In the fall of 1904, through the agitation and untiring efforts of L. H. Fisher, who was the manager for Messrs. Hamelin Bros. & Co.'s hardware, an Agricultural Society was established, and on Oct. 13 a very successful fair was held. Since that time the society has prospered under the guidance of a live Board of Directors, and a faithful painstaking secretary-treasurer. "Ever-Better" is the motto of the Society.

On January 1st, 1905 our school was opened with Miss F. A. Clarke as teacher, who taught successfully that year. Mr. B. D. Branscombe succeeded as teacher and has handled the school well.

In the spring of 1906 we were incorporated as a village, with M. G. Higgins as first officer, beside which were Ed. McLaughlin, Don Purvis and George Reed and Jim Gove. Messrs. in general taking up the year and acted as overseer for two years and filled the office well. Mr. J. Williams holds the reins for '08 and makes a good official.

Creelman has three elevators, two of which are owned and operated by two of the biggest Milling Companies in the British Empire. At their warehouses are stocked the famous "Purity" and "Five Roses" brands of flour, which are sold at a moderate price.

The spiritual needs of Creelman are looked after by two resident ministers: Rev. Miller, (Presby.) and Rev. M. M. Culp, (Meth.). Besides these Rev. Rural Dean, (Ang.) of Hayward preaches here every second Sunday, and a R. C. Priest visits here and holds service once a month.

Space will not permit us to even mention the different men doing business here—our advertising columns speak for them—but permit us to say that we believe we have as fine a lot of business men here as can be found in any town along the line. One thing we are particularly proud of along this line is the lack of jealousy so common in the small town. Our citizens work in harmony and now with a good live paper, in which to bring their views before the public, we believe that Creelman has bright prospects and will forge ahead.

Weak women should read my Book No. 4 For Women. It was written expressly for women who are not well. The Book No. 4 tells of Dr. Shoop's "Night Cure" and just how these soothing, healing, antiseptic suppositories can be successfully applied. DOUKHOBORS DISCUSSED IN DOMINION HOUSE

R. S. Lake Brings Matter Before the House but the Cabinet Ministers wish to Take No Responsibility for the Wandering Tribe.

Ottawa, May 1.—On the motion to go into supply Mr. R. S. Lake, O.P., brought up the matter of the arrival at Yorkton of the Doukhobors who have been giving trouble to the authorities at Fort William. Mr. Lake first reviewed the pilgrimage made by these people last summer which culminated in their arrival at Fort William in the late autumn and then touched lightly on the acts of indecency which they were guilty while in that city and which led to the arrest and imprisonment of nineteen members of the party, who, however, had been released by the department of justice after a lapse of ten days. Hon. A. B. Aylesworth had said in reply to a question put in the House that these Doukhobors came from Saskatchewan, but they had been sent to Yorkton. They said they had been allowed to sleep out of jail, defiance and triumphant, because they had successfully defied the law of the country. He stated that it was not the intention of the government that they should have been sent to Yorkton. This was a mere quibble as the government knew all about it.

criminal charge can and will probably be preferred against the guilty parties. The Dominion government, however, could not be called upon to exercise an authority it does not possess. It would not be sound public policy for the federal government to attempt to exercise its authority at the present juncture. The discussion was closed by Dr. Roche, who said a great change had taken place in the attitude of the minister of the Interior towards the Doukhobors. Mr. Oliver in the Edmonton Bulletin before he became a minister had severely criticized the government for bringing these people to Canada. Mr. Aylesworth might be legally right in what he had said but his statements would not satisfy people who look upon the matter from a fair standpoint. He thought that for a long time some Doukhobors were likely to be a source of troubles.

SCIENCE SECURES

Enough Viper's Venom to Supply Serum for Half a Century.

New York, April 29.—For the first time in eighty years, and the second time in the history of the science of medicine an operation for the extraction of venom from the deadly lance-head viper, said to be the most poisonous of all known reptiles, was performed at the Bronx Zoological Park today.

The operation, which was directed by E. W. Runyon, of this city, through whose efforts the snake was captured and brought to this city, was a complete success, and as a result science has once more a plentiful supply of the serum which has been found almost invaluable in the treatment of extreme case of insanity and also many of the malignant diseases. The extremely powerful nature of the lancehead's venom, can be no better described, probably than by the declaration of one scientist who witnessed the operation today. When the perilous task had been completed and the precious fluid obtained and found to be less than a third of an ordinary teaspoonful in quantity, he announced that the supply was sufficient to meet the demands of the world for at least half a century. He explained at the same time that this would provide for the most widespread use of the serum in all the malignant diseases, such as typhoid and scarlet fever and diphtheria.

"A Kingly Gift" EARL GREY'S APPEAL On behalf of Needy Consumptives Strong words of Canada's Governor-General

At the official opening of the King Edward Sanatorium for Consumptives, near Toronto, His Excellency delivered an address that must have an important bearing on the future of the sanatorium movement in Canada. We quote:—

"The proceedings this afternoon commenced with a beautiful and reverent prayer from your old friend, Dr. Fotts. He prayed that the light of the Lord might shine upon us. That prayer is abundantly answered. Well, whether that the White Plague might be removed, well, whether that prayer will be answered or not depends upon yourselves."

"Is it not a standing shame and reproach to the governments and individuals that there is not more care taken by the people of Canada to protect themselves against the curse of consumption?"

On his way out to the King Edward Sanatorium, so named by permission of His Majesty King Edward VII—the Governor-General's car was stopped in its progress outside the Canada Cycle & Motor Co. by a large crowd of its employees. A contribution of one hundred dollars was handed the Governor-General, a donation to the Toronto Free Hospital for Consumptives.

FREE HOSPITAL FOR CONSUMPTIVES NEAR CHATELAINVILLE, ONTARIO.

"Twas a kingly gift" said His Excellency in making acknowledgment. "I will tell the King." Addressing the large audience that attended these opening exercises, referring to this event, Earl Grey said: "Ladies and gentlemen, when the workmen of Canada are setting an example of this character, I hope you will not be slow to follow, and I trust that the example of the Canada Cycle & Motor Co. may be followed, as I am sure it will, in every factory and manufacturing industry throughout the land."

Muskoka Free Hospital for Consumptives

An institution that has never refused a single applicant admission, because of his or her inability to pay. Seventy-five patients can be cared for to-day. Accommodation could be provided for three hundred if the required money were forthcoming. To make this possible, our appeal is for \$50,000, to be used in extension of buildings and maintenance of patients.

Where will your money do more good? Every community and every individual is interested. His Excellency Earl Grey has shown his interest and sympathy in the work at Muskoka for needy consumptives, by accepting the position of Honorary President of the National Sanitarium Association. Contributions may be sent to Sir Wm. R. Meredith, Kt., Chief Justice, Osgoode Hall, Toronto; W. J. Gage, Esq., 24 Spadina Ave., or J. S.
