JAMES COLEMAN,

EXPERIENCE.

supetite was poor, and my system a good deal run down. Knowing the value of ATER'S SARSAFARILLA, by observation of any other cases, and from personal use in former years, I began taking it for the above-named disorders. My appetite improved almost from the first dose. After a short time the fever and itehing-fever alleyed, and all signs of irritation of the shin disappeared. By catarrh and cough any general health for insported, until it is now excellent. If followed, until it is now excellent. If followed, the is to the use of the SARSAFARILLA, which I recommend with all confidence as the best blood medicine over devised. I took it in small doses three times a day, and used, in all, less than two bottles. I place these facts at your service, hoping their publication may do good.

AVER'S CATHARTIC PILLS act directly upon these organs, and are especially designed to cure the diseases caused by their derangement, including Constipation. Indigention, Dyspiepsia. Headache. Dyseutery, and a host of other alments, for all of which they are a safe, sure, prompt, and pleasant remedy. The extensive use of these PILLs by eminent physicians in regular practice, shows unmistakably the estimation in which they are held by the nuclical profes-

calomel or any other injurious ingredient.

A Sufferer from Hendache writes:

"Avez"s Pills are invaluable to me, and
are my constant companion. I have been
a severe sufferer from Hendache, and your
Pills are the only thing I could look to
for relief. One done will quickly move my
bowels and free my head from pain. They
are the most effective and the castest playsic
I have ever found. It is a pleasure to me to
speak in their praise, and I always do so
when occasion offers.

We reproduce a letter recently written by the eminent statesman and orator, John Bright, upon the House of Lords. It appears very evident that, even if the Hereditary Chamber does not go, radical changes in its constitution are not far distant.

Nothing is more tender, nothing more violent than love.

The science of love is the philosophy of the heart. Love cannot be bought or sold, its only price is love. Solid love, whose root is virtue, can no more die than virtue itself. All truest love is consecrated by the Divine Love.

Political Meetings have been held daily and nightly during the week since our last issue. The best of feeling prevails between the candidates, and Dr. Jenkins has every reason to be satisfied with his prospects. Hon. Dr. Ross, the Promier of Quebec, addressed a very large assemblage at Rustice on Saturday evening last, speaking to the numerous Acadians present in their mother tongue. However, and a progression.

Ox last Sunlay the Redomptorist Fathers McGivernan and Beil closed a very successful mission at George town. Great numbers attended all the services and approached Holy Communion. Father McGivernan delivered an able and eloquent sermon at the close, and imparted to all who made the mission his own priestly blessing and the Papal Benediction. COMPARATIVE WORTH OF BAKING POWDERS.

REPORTS OF GOVERNMENT CHEMISTS

As to Purity and Wholesomeness of the Royal Baking Powder. "I have tested a package of Royal Baking Powder, which I purchased in the open market, and find it composed of pure and wholesome ingredients. It is a cream of tartar powder of a high degree of merit, and does not contain either ainm or phosphates, or other injurious substances.

E. G. Lova, Ph.D." "It is a scientific fact that the Royal Baiging Powder is absolutely pure.
"If. A. Morr, Ph.D."

"I have examined a package of Royai Baking Powder, purchased by myself the market. I find it entirely free from alum, terra alba, or any other injurious stance. If supervised the property of "I have analyzed a package of Royal Baking Powder. The materials of which seemposed are pure and wholesome. S. Dana Haves, State Assayer, Mass."

The Royal Baking Powder received the highest award over all competitors at the Vienna World's Exposition, 1873; at the Centennial, Philadelphia, 1870; at the American Institute, New York, and at State Fair throughout the country.

No other article of human food has ever received such high, emphatic, and universal endorsement from enlinent chambers, physicians, scientists, and Boards of Health all over the world. Note—The above Diagram illustrates the comparative worth of various Baking Powders, as shown by Chemical Analysis and expriments made by Prof. Schedler. A pound can of each powder was taken, the total leavening power or volume in each can calculated, the result being as indicated. This practical test for worth by Prof. Schedler only proves what every observant consuper of the Royal Baking Powder knows by practical experience, that, while it cosff a few cents per pound more than ordinary kinds, it is far more economical, and, besides, affords the advantage of better work. A single trial of the Royal Baking Powder wil convince any fair minded person of these facts.

While the diagram shows some of the alum powders to be of a higher degree of strength than other powders ranked below them, it is not to be taken as indicat-ing that they have any value. All alum powders, no matter how high their strength, are to be avoided as dangerous.
