APPOINTMENTS, The following are the local appointments made by Sir John A. Macdonald's Government between Jan. 1st, 1873, and the 7th day of Nov., 1873.

THE late proprietor of the Georgetown Herald announces in his last week's issue, that he has sold out the Herald to Mr. Starret.

The Model Farm.

(From the Markham Economist.)

The Ontario School of Agriculture and Model Farm, located at Guelph, has proved a veritable *bet noir* to a few journals of the character-casting stripe in this Province.

Province, and we trust that ere long it will be fully appreciated and pointed out with pride by our honest yeomanry as their own particular institution, where their sons can receive an education in the profession of farming equal to that of any other acquired at any of the universities.

Wellington, Grey and Bruce Railway, The following is that part of the report in reference to the W. G. and B. R., prepared by the late Directors of the G. W. R., in answer to the report of the Committee of investigation into the affairs of the Company.

That while considering their duty to condense the manner and terms under which the arrangements between the Great Western and this Company (referring to the Wellington, Grey and Bruce Company) have been conducted, regard the line itself as likely to prove of increasing value as a feeder to our system.

San Francisco, Sept. 4.—The steamship Great Republic arrived to-day, bringing Yokohama dates to August 14.

Madrid, Sept. 4.—Two thousand men will be sent to Cuba, in a few days, to reinforce the Spanish troops on the island.

In Liquor.

A mouse, one day, on frolic bent, About a brewery roving.

And called, with sighs and groanings, Unto a cat which passed that way.

Though to his gift most grateful, Sweet words of comfort I pray, And I'll prove ever grateful.

"How wouldst thou help me in the least?" Replied the feline, grinning.

When I do other animals do least— And where would be the sinning?"

"And better so than here to rove, Then, please, do not help me rove."

"And I'll do you my life pay down, And will not call you greedy."

"I thank you, but you will be all too late! I perish—I am freezing!"

"Push helped him out, but—luckless fate! The beer fauces set herneering."

The mouse he dropped, which sped away In haste, for he was melting!

"Push, disappointed of herneering, With craft and anger wrestled."

"Come forth that hole," she cried, and roared With me in regions warm."

"Excuse me, puss, I'll keep at home So else where seek your supper."

"You cheating rascal! think, oh, think! You promised to befriend me!"

"If I would help you, now you shrink— Come out! let me entreat you."

"I know I promised, I must say; 'Tis wonder not no blacker!"

For when this promise it was made, You know I was "in liquor!"

Temperance Social in Aberfoyle.

A very successful entertainment, given under the auspices of the Aberfoyle Division of the Sons of Temperance, was held in the Town Hall in that village on Friday night.

About fifty brethren of the Order from Guelph, accompanied by their choir, drove down in the evening and received a cordial welcome from those they went to visit.

The Hall was filled to its utmost capacity by an orderly and highly respectable audience. A lengthy and excellent programme had been prepared, the greater part of which was furnished by the friends from Guelph.

The choir from Guelph added much to the success of the entertainment. They sang several anthems during the course of the evening in first-class style.

Mr. Wm. Wilkie, D.G.W.P., of the Guelph Division presided. After the usual preliminary exercises, and an anthem by the choir, the chairman in a few appropriate remarks introduced the Rev. David Wilson, of Guelph, who gave a very interesting and eloquent address, exhorting them to be steadfast and zealous in furthering the good cause of Temperance under which banner they were enlisted.

He congratulated the Division of the Sons in Aberfoyle, upon the success which had attended their Lodge, during the six months it had been in existence.

Rev. Mr. Howie was also introduced and gave a very interesting address, delighting the audience by his humorous remarks. Mr. James Glennie also made a few appropriate remarks.

The balance of the programme consisted of two recitations by Mr. Beirns, which were well executed; a song by Miss Fish of Aberfoyle; a rous and recitation by Mr. Allechin.

At the close of the entertainment the visitors and others adjourned to the ante-room where refreshments in abundance were in waiting for them to which full justice was done. We congratulate the Temperance men of Aberfoyle upon the success of this, their first public entertainment, and trust that they may have many more such happy reunions as that of Friday night.

The Governor-General's Movements.

THE MODEL FARM.

We copy to-day from the Markham Economist an article on the Model Farm, with a description of it, the particulars of which were obtained by the writer while recently on a visit to it. It is satisfactory to have the opinion of an unprejudiced witness regarding this Institution, especially when we take into account the fact that at one time the Economist was in favour of the Farm being located at Mimico. The writer hits the nail on the head when he refers to the animus of the Herald and other Tory sheets in their attempts to cry down the character and efficiency of the Institution for no other purpose than to damage the Government. The commendations bestowed on the Farm and on the management are valuable, inasmuch as they are the opinions of an outsider who has no reason for favouring Guelph, and who simply says what he believes, and states what he knows to be true. They are valuable too, as placed against the falsehoods, misrepresentations, and unfounded reports which the Guelph Herald, Toronto Sun, London Free Press and other Tory papers have been indulging in for some time past with respect to the Farm. We say it advisedly—and we are sure that any unprejudiced visitor will sustain us—when we state that the management in every department at the Farm is now as good as in any public institution in the country.

THE NATIONAL LIBEL SUIT.—In the Court of Common Pleas, on Thursday, the Judges granted the Hon. Geo. Brown leave to file a criminal information against the proprietors of the National for libel.

In the English Postmaster General's report it is stated that about 18,700 letters were posted last year without any address whatever, and that nearly 500 of the letters contained cash, cheques or bills of exchange, to the value of more than £13,000.

Mr. Henry J. Morgan has been confirmed by the present Government in the position of keeper of public records, in connection with the Department of Secretary of State. The appointment gives general satisfaction.

La Minerve alludes in a brief editorial note to Riel's election, and says it is an energetic protest against the unworthy conduct of Grits and Rouges. La Presse Public and the Nationale publish the despatch without comment.

It was affirmed yesterday, in well informed circles, that Hon. Mr. Robertson would not resign, but that the Cabinet would be reconstructed, with the addition of Lynch, of Brome, and Gendron of Bagot, and that the Government would continue in office until the general election next summer, with the understanding that Oumet and Archambault should then retire, the former to become Superintendent of Public Instruction.

The London Empire has the following interesting paragraph on the Agricultural Laborer's strike in England, and its effect upon the tide of emigration: "The defeat of the Unionists is a fact now beyond dispute. The struggle is likely to benefit our colonies very considerably. Machines have turned out men, and the ousted laborers may profitably employ their energies on the virgin soil of our empire beyond the sea. Canada is specially exerting herself to secure them. Canadians are among the men, describing the beauties of the happy Arcadia across the Atlantic. Necessity if not inclination is likely to drive the laborers over. The vacation promises to be a busy one with Mr. E. Jenkins."

The New York Tribune of the 22nd says: "It appears from the letter of our London correspondent that Sir Edward Thornton will continue to represent the British Government at Washington. Since he was accredited in 1868 he has been charged with various difficult negotiations, and has managed them with great tact, ability and courtesy." And yet Sir Edward Thornton was one of the plenipotentiaries appointed by Her Majesty's Imperial Government to negotiate the Reciprocity Treaty, and the London Standard and the Tory journals of Canada attack that negotiation as one calculated to bring about results which would render the negotiator a very undesirable man to occupy his present position.

Steps are being taken to get up a demonstration in honor of the E.G. & J. B. at Harrison, on the completion of the ballasting. The road is being pushed west so fast that arrangements will be made for running a train to Tecumseh, Wroxeter, Gorrie and Fordwich to bring the people to Harrison to participate in the celebration.

Prof. Tyndall's Address. The N. Y. Sun, in our opinion, in the following extract, gives very fairly the scope and influence of the opinions emanated by Prof. Tyndall in his introductory address at Belfast:—

The address recently delivered by Prof. Tyndall at Belfast before the British Association for the Advancement of Science, will doubtless excite to renewed energy the contest between Science and Religion, which has been raging during the past few years. Apparently goaded into it by the criticisms of the religious press upon his proposition for a scientific test of the efficacy of prayer, the Professor has seized the occasion of his elevation to the Presidency of the Association to make the distinct avowal that he sees in matter "the promise and potency of every form and quality of life." In other words, he declares that matter contains in itself all the elements necessary to account for the phenomena of creation without assuming the existence of a personal, intelligent Creator.

Taken alone, this avowal would authorize us to rank Prof. Tyndall among materialists. Such a conclusion, however, he most earnestly deprecates, even to the extent of saying:—

"In fact, the whole process of evolution is the manifestation of a power absolutely inscrutable to the intellect of man. As little in our days as in the days of Job, can man by searching find

the mystery that life is evolved, species differentiated, and mind unfolded from their prepotent elements in the immeasurable past. There is, you will observe, no very rank materialism here."

And a little further on he again says: "We have the conception that all we see around us and all we feel within us—the phenomena of physical nature, as well as those of the human mind—have their unsearchable roots in a cosmical life, if I dare apply the term, an infinitesimal span, of which only is offered to the investigation of man."

Aside from the contradiction between the idea of matter as self-sufficient to evolve every form and quality of life, and that of an unknown power which evolves from that matter all perceptible phenomena, it is worthy of remark how confidently Prof. Tyndall pronounces this latter power "inscrutable," "insoluble," and "unsearchable." There is in these epithets a revelation of great significance. It is a confession of the impotency of Prof. Tyndall and his school to fairly grapple with the subject they profess to discuss, and of their unwillingness to concede that any one else can do what they fail to do. They know all about it that can be known, and therefore those who pretend to know more are impostors. It is this secret arrogance more than their attacks upon accredited opinions that renders modern scientists so hateful to the public at large. Men will listen to argument when it is candidly and fairly submitted to their judgments, but they will not hear dogmatism which, in advance, brands dissent as folly. All this, however, does not detract from the force of such arguments as Prof. Tyndall and his friends really have to present. They have already done much to dissipate false ideas of the relations between God and the universe, and trust they may be enabled to do more yet. In the struggle between them and their opponents the truth will sooner or later come to light, and when it does come to light no one will object to the means by which that result has been achieved.

Crazy Acting Rampant! FIJIAN JIMMY BABID. From the Elora Express.

Of course, the Guelph Herald lies about the Magistrates' Court held here on Monday last, and which we fully and impartially report in this issue. That sort of thing is so natural to the Herald reporter of the trial and the Herald editor who professes to criticise it, that we should have been surprised as disappointed had the truth been told by either of them. The one couldn't tell a straight story if he tried, and the other wouldn't if he could. The imbecile who reports is scarcely responsible for what he does, and the sly mercenary who scrawls has sunk so low in literary filth that his aspersions of anybody is proof of the decency of the amusing as it is impotent. Like Barman's Fijians, they are paid to howl and look savage, and we don't venture to find fault with them when doing the best they can to earn their bread and butter. But they shouldn't overact their part. People began to suspect the Cannibals, when a "hurroo" was mixed with the growls, and even blood and thunder may be overdrawn. If allowed to make a suggestion to the immaculates, we should say too many whoppers are crowded into one column. People who have an inkling of the truth will not swallow the dose, and even Conservative stomachs will reject it. We must admit, however, that an effort is made to balance things by the admission that the court was, or rather was attempted to be "packed." Nobody knows that better than the Herald reporter, who, if rumors are correct, was instrumental in bringing one strong Conservative from his harvest field to a wooden chair in the Town Hall, and only failed in his good intentions to secure more in Salem and Fergus and even further away, because the importuned had had enough of him already, and wouldn't degrade themselves by serving him further. We are not inclined, however, to admit anything unfair in the proceedings. A quiet and full hearing was given to every body, and we believe that a conscientious decision was reached by the whole of the gentlemen present. They didn't all see through the same spectacles, didn't all believe the lobe of the prosecuting attorney, and some of them didn't place any more reliance in the expressed opinions of the reporter than they entertain fear of the small beer thunder of his editorial coadjutor now.

Mr. Henry J. Morgan has been confirmed by the present Government in the position of keeper of public records, in connection with the Department of Secretary of State. The appointment gives general satisfaction.

La Minerve alludes in a brief editorial note to Riel's election, and says it is an energetic protest against the unworthy conduct of Grits and Rouges. La Presse Public and the Nationale publish the despatch without comment.

It was affirmed yesterday, in well informed circles, that Hon. Mr. Robertson would not resign, but that the Cabinet would be reconstructed, with the addition of Lynch, of Brome, and Gendron of Bagot, and that the Government would continue in office until the general election next summer, with the understanding that Oumet and Archambault should then retire, the former to become Superintendent of Public Instruction.

The London Empire has the following interesting paragraph on the Agricultural Laborer's strike in England, and its effect upon the tide of emigration: "The defeat of the Unionists is a fact now beyond dispute. The struggle is likely to benefit our colonies very considerably. Machines have turned out men, and the ousted laborers may profitably employ their energies on the virgin soil of our empire beyond the sea. Canada is specially exerting herself to secure them. Canadians are among the men, describing the beauties of the happy Arcadia across the Atlantic. Necessity if not inclination is likely to drive the laborers over. The vacation promises to be a busy one with Mr. E. Jenkins."

The New York Tribune of the 22nd says: "It appears from the letter of our London correspondent that Sir Edward Thornton will continue to represent the British Government at Washington. Since he was accredited in 1868 he has been charged with various difficult negotiations, and has managed them with great tact, ability and courtesy." And yet Sir Edward Thornton was one of the plenipotentiaries appointed by Her Majesty's Imperial Government to negotiate the Reciprocity Treaty, and the London Standard and the Tory journals of Canada attack that negotiation as one calculated to bring about results which would render the negotiator a very undesirable man to occupy his present position.

Steps are being taken to get up a demonstration in honor of the E.G. & J. B. at Harrison, on the completion of the ballasting. The road is being pushed west so fast that arrangements will be made for running a train to Tecumseh, Wroxeter, Gorrie and Fordwich to bring the people to Harrison to participate in the celebration.

Prof. Tyndall's Address. The N. Y. Sun, in our opinion, in the following extract, gives very fairly the scope and influence of the opinions emanated by Prof. Tyndall in his introductory address at Belfast:—

The address recently delivered by Prof. Tyndall at Belfast before the British Association for the Advancement of Science, will doubtless excite to renewed energy the contest between Science and Religion, which has been raging during the past few years. Apparently goaded into it by the criticisms of the religious press upon his proposition for a scientific test of the efficacy of prayer, the Professor has seized the occasion of his elevation to the Presidency of the Association to make the distinct avowal that he sees in matter "the promise and potency of every form and quality of life." In other words, he declares that matter contains in itself all the elements necessary to account for the phenomena of creation without assuming the existence of a personal, intelligent Creator.

Taken alone, this avowal would authorize us to rank Prof. Tyndall among materialists. Such a conclusion, however, he most earnestly deprecates, even to the extent of saying:—

"In fact, the whole process of evolution is the manifestation of a power absolutely inscrutable to the intellect of man. As little in our days as in the days of Job, can man by searching find

the mystery that life is evolved, species differentiated, and mind unfolded from their prepotent elements in the immeasurable past. There is, you will observe, no very rank materialism here."

And a little further on he again says: "We have the conception that all we see around us and all we feel within us—the phenomena of physical nature, as well as those of the human mind—have their unsearchable roots in a cosmical life, if I dare apply the term, an infinitesimal span, of which only is offered to the investigation of man."

Golden Lion, Wyndham Street, Guelph.

J. D. WILLIAMSON.

GUELPH, Aug. 20th, 1874.

To the Inhabitants of Guelph and County of Wellington, and others.

I take this method of letting you know that on Monday, 14th September, prox., I will open my New Store, Upper Wyndham St., Guelph, when I will submit for the inspection of the general public the contents of over 1,500 cases and bales of Fancy and Staple Dry Goods, bought by myself personally in the best producing markets of Great Britain and United States. The variety of styles and fabrics in each department that will be open for inspection at my New Store on and after 14th September, will be such as cannot fail to meet with the good taste and full approbation of an appreciating public. From my long experience in the mercantile business (over thirty-seven years), twenty years of which have been spent in the town of Guelph. I feel satisfied you have fresh in your memories the war that I commenced in this town against high prices, and fought for your interests daily, with a vigour that crowned my efforts with success. I am persuaded that again my presence is required by the great mass of the people of the County of Wellington in order to regulate the trade of the Town of Guelph, in Fancy and Staple Dry Goods, and it is with pleasure that I now announce to my old friends and patrons, that it will afford me unbounded pleasure to renew with them the happy moments that we have had together for the mutual benefit of each other; and I can pledge my faith that I will devote my best energies and abilities to guard the rights and interests of all those that may favour me with their patronage. At all times the public may depend upon having the best of attention in my New Store, that nothing but sound, good and honest goods will be kept for sale by me; that in opening out a business for the public, that all and every article will be entirely new; that in every instance goods will be offered at such reduced prices as will at once satisfy every one; that my new establishment is going to be conducted on the same principles as that of my old, viz., the best goods at the lowest possible prices, quick sales, small profits, and ready pay. A special discount will be offered to Ministers of the Gospel.

I enumerate some of the departments that I will stake my whole reputation on, and I do most confidently ask intending purchasers to call and examine my stock, when I am sure the highest satisfaction must be expressed. Black and coloured dress silks at fully 20 per cent. under ordinary prices. Do not fail to call and examine the quality and prices.

FANCY DRESS GOODS.

This department is full to overflowing, and in it will be seen the newest novelties, designs and fabrics produced. The prices will surprise the purchasers, as cheap prices, rich styles, and good goods are combined in this department. Every lady who wants to appear in the fashion of the day will be fully suited.

MANTLES, JACKETS, AND POLONNAISES.

Special attention of the ladies is requested to this department. Everything that the ingenuity and skill of mankind could bring to bear, with good taste is here represented. The novelties on exhibition in this branch of my business will surely be appreciated. An early call, specially in this line, will abundantly repay any intending purchaser.

SHAWLS.

This department will present an inviting appearance, and well worthy of a visit from ladies who favour the comfort that is imparted by a good shawl to its wearer. Cloths are almost entirely worn for this season, and occupy the first rank in the wardrobe of Her Royal Highness the Princess of Wales, and our noble and most Gracious Queen affectionately admires not only the brilliancy, richness and designs of this elegant part of a lady's costume, but loves the country and the people who produce them.

French Merinos, Thibet Cloths, Paramatta Cloths, Serges, Black Lustres, Tweed Dress Material for Costumes, and the various makes of Fall and Winter Plain Dress Goods

Are in large abundance, and present to the purchaser so fresh and new an appearance, and at the same time so reasonable in price that confidence will at once be placed in the goods, with the highest satisfaction to the purchaser. All new and fresh goods.

FAMILY MOURNING GOODS.

I have specially attended to the selection of the various kinds of goods required in this department, and I can confidently say to those requiring to purchase mournings, that at my New Store everything in that line will be found, and at a great reduction from the ordinary prices charged. I have the best Black Crapes to be found in the Dominion.

HOUSE FURNISHINGS.

I have a most complete stock of everything that can reasonably be asked for in order to make a home comfortable, and I will guarantee that parties desirous of furnishing a home will find that I will offer an inducement of fully 15 per cent. to them, and in addition they will get nothing but new, fresh, good and desirable goods. "No time for the moths to get about them." A CALL IS REQUESTED TO THIS DEPARTMENT.

STAPLE DEPARTMENT.

Here will be presented to the view of the visitor to my store the largest stock of heavy Staple Dry Goods to be found in Ontario. During the panic in the United States I bought, direct from the producers, immense quantities of 36 in. Grey Cottons (the best goods to be found in Canada), Bed Tickings, various qualities, Blue and Brown Denims, Cotton Grain Bags, Cotton Batting and Waddings, Quaker Flannels, &c., and at panic prices. Indeed the Farmer, Mechanic, the Lawyer, Doctor, Labourer, or any other individual can at my New Store procure anything in Staple or Fancy Dry Goods that is made, and all new, fresh, seasonable and good. "No old shop-keepers' to palm off!" Quite a saving can be effected by buying at my New Store. Quick sales and small profits is the motto of John Hogg.

CLOTHS AND TWEEDS.

This is a most notable department in my store. I have bought the finest lot of Canadian Tweeds, and from the best producer in the Dominion. I bought at the bottom prices, and I will give my patrons the benefit. Call and see. I will satisfy you that you are saving money through me.

READY-MADE CLOTHING.

In this department I deem it but fair to the community to say that it is high time that a check be put upon the ridiculous high prices that they have lately been paying for ready made Clothing, and poor suits at that. I have had made specially for my own trade and to my own order, the most attractive and stylish lot of Men's and Boys' Overcoats, Men's and Boys' Pea Jackets, Men's and Boys' Suits of all the various classes of desirable and durable goods made for the Fall and Winter Trade. I will give an excellent suit of Coat, Vest and Pants, equal in cut and make to any that can be cut and made by the best cutter in Guelph for \$12 and up. Call and see, 25 per cent. saved to the purchaser by calling at my new store. All new goods and fresh goods. No old stuff.

Carpets, Blankets, Sheetings, Quilts, Counterpanes, Towels, Damasks, Repps.

This Department requires more real knowledge and taste to be bestowed upon it probably than any other Department in the Drapery business. I can confidently solicit from the public a call in order merely to be enabled to endorse my statements regarding the excellency of the goods here to be seen. My Carpets are unquestionably the finest selection in Ontario. The patterns, colours, and designs, are exquisite. Indeed, my Kidderminster Carpets are equally as rich in design and colour as the Brussels or Tapestry to be found, and in order to be fully able to have my taste suited, I spent considerable time in going from one manufacturer to another, but I persevered and accomplished my object in securing the finest selection of Carpets to be desired. My prices will be extremely cheap. The goods all new, fresh and good, and such as any housekeeper would be proud to have. The other goods—Blankets, Sheetings, Quilts, Counterpanes, Towels, Damasks, Repps, Lace Curtains, Blinds, Window Hollands, &c., &c., are the best that the Home Markets offer, and as you know are all new, fresh, and the latest productions. Quite a saving will be effected by buying at my New Store. To enumerate anything like my Whole Stock would occupy too much space, also too much of your valuable time. Suffice it to say that in every denomination of Fancy and Staple Dry Goods my New Store will be supplied to the fullest extent. No pains or trouble will be spared to meet the wishes of my patrons, and the visitor to my Establishment will be well repaid in the advantages that will be placed within their reach by not only having an opportunity of procuring the newest goods, the latest styles; but the best goods offered in Ontario, and at the lowest possible profit. An Early Call is solicited.

Yours truly,

JOHN HOGG.

Negro Plot in Louisiana.

MORNING DESPATCHES. Sheveport, La., Sept. 4.—A statement of a merchant, of Conshatta, named Abney, to the effect that the citizens had discovered a plot on the part of negroes and murdered whites, to murder whole-sale a gathering of young people on the night the disturbance began, and that these facts were brought out by an examination conducted by a Committee of citizens since the occurrence was reported. Since Abney's statement was received reports reach this city, that the two negroes charged with shooting Dickson have been murdered by a mob at Conshatta.

BREAKFAST.—Epps's Cocoa.—GRATEFUL AND COMFORTING.—"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a palatable and nourishing beverage which may save us many heavy doctors' bills."—Civil Service Gazette. Made simply with boiling water or milk. Each packet is labelled—"James Epps & Co., Homoeopathic Chemists, London."

The Dunville Gazette says: The memory of that famous individual, the oldest inhabitant, would be greatly taxed to remember a season during which the water in the Grand river was lower than it now is.

The President of the Western Fair Association acknowledges the receipt of beautiful bronze statuette representing Alderney cow and calf, to be offered as a prize at the discretion of the Directors at the coming Western Fair.

Hamilton Markets

Table with 2 columns: Commodity and Price. Includes items like White wheat, Treadwell, Peas, Barley, etc.

Toronto Markets.

Table with 2 columns: Commodity and Price. Includes items like Fall Wheat, Spring Wheat, Oats, Peas, etc.

Special Notices.

THE RECENT CASE OF DEATH BY strychnine poisoning from taking STRYCHNINE HYPOPHOSPHITES, noticed in the Montreal Daily Witness of August 1st, reads a great caution necessary not to confound Dr. Wheeler's Compound of PHOSPHATES and Calcarea with COMPOUND STRYCHNINE HYPOPHOSPHITES. Observe well the difference in orthography and bear in mind that medicinally there is no similarity in action or effect.

ARE ABSOLUTELY NECESSARY to sustain the beginning element of every solid and dig of the body, and they are incapable of injurious results at any period from infancy to old age, and under any possible condition of the system, and no more harm results from taking more than the prescribed dose than from eating to hearty a dinner. Guelph, August 29th, 1874. W.S.W.

PAIN-KILLER

THE GREAT Internal and External Remedy

TAKEN INTERNALLY it relieves instantly the most acute pain. USED EXTERNALLY it is the best Liniment in the world. Its effect is almost instantaneous, affording relief from the most intense pain. It soothes the irritated or inflamed part, and gives rest and quiet to the sufferer. It is eminently the people's friend, and every one should have it with them, or where they can put their hands on it in the dark if need be.

PRICE, 25 CENTS PER BOTTLE. PERRY DAVIS & SON, SOLE PROPRIETORS.

THE GREAT ENGLISH REMEDY.

Before Taking. After Taking. Specific Medicine

Cures all Nervous Diseases, such as Tremors, Debility, Prostration, etc., which, in many cases, are produced by over indulgence in the use of tobacco and alcoholic spirits; but the Specific Medicine is more especially recommended as an unfailing cure for Seminal Weakness, Spermatorrhoea, Impotency, and all diseases that follow as a consequence of Self Abuse, as Loss of Memory, Dimness of Vision, Premature Old Age, and many other Diseases that lead to insanity or consumption, and a Premature Grave, all of which, as a rule, are first caused by deviating from the path of nature and over indulgence.

The Specific Medicine is the result of a life study and many years of experience in treating these special diseases. Full particulars in our pamphlet, which we desire to send free by mail to every one. The Specific Medicine is sold by all Druggists at \$1 per package, or six packages for \$5, or will be sent by mail on receipt of the money, by addressing WILLIAM GRAY & CO., Windsor, Ont. Sold in Guelph by E. Harvey, and by all Druggists, North York & Lyman, Toronto, J. Winer & Co., Hamilton, wholesale Agents.

IMPORTATIONS. JAS. CORMACK

PROVINCIAL EXHIBITION.—The 29th Annual Exhibition will be held in Toronto on Monday, Tuesday, Wednesday, Thursday and Friday, September 21st, 22nd, 23rd, 24th and 25th.

The programme for exhibition is as follows: Monday, September 21st, will be devoted to the final receiving of articles for exhibition. On Tuesday the Main Exhibition building will be closed all day, to allow the Judges an opportunity to discharge their duties properly. Wednesday, all buildings and grounds will be open to visitors. Thursday, at 2 p. m. the prize animals will be exhibited in the ring, after which the President will deliver his address to the annual meeting. Friday the Exhibition will be closed officially. Saturday, the Treasurer will commence paying premiums at 9 a. m. Exhibitors will remove all property from the grounds.

OLIVER CROWWELL.—The 3rd of September had become a very memorable day to Oliver Crowwell. In his expectation to reduce the Scotch Presbyterians, who had taken up the son of their late King as their Sovereign, he gained his first great success in the battle of Danbar, fought on the 3rd of September, 1650. The affair was closed triumphantly for him at Worcester on the 3rd of September, 1651. In an age when individuals were believed to have days specially connected with their destiny, the 3rd of September might well appear auspicious to the Protector. A strange turn, however, was given to these superstitious ideas in his case, when on the 3rd of September, 1658, the Protector died. It is usually stated that his disease took place amidst a storm of singular violence, which was tearing and flooding the whole country, and which fittingly marked the occasion; but the storm, in reality, happened on Monday the 30th August, and must have been pretty well spent before the Friday afternoon, when Oliver breathed his last.

THE CROPS IN IRELAND.—Wheat everywhere will be a good crop, and early-sown barley will also be abundant, but late-sown barley is light. Oats are reported to be an average crop in some districts, although short in the straw, but in other parts this description of cereal will scarcely come up to the usual average. The lightest crops will be found where the seed is sown late, and where the land is either naturally poor or in bad heart. Reports from County Down state the flax crop has improved beyond expectation, but in some parts of the North it is a short crop. The hay crop, in general, has been light; but it has been observed that where suitable top-dressings were applied at the proper season, the yield is, on the whole, satisfactory. Owing to the fine weather during the hay harvest, the quality is good. Potatoes are reported to be promising in all parts of the country, and the quality of the early kinds are first-rate.—Farmers' Gazette.

MYSTERY OF THE CANADIAN LAKES.—Lake Erie is only 60 to 70 feet deep, but Lake Ontario, which is 592 feet deep, is 230 feet below the tide level with the ocean, or as low as most parts of the Gulf of St. Lawrence and the bottoms of Lake Huron, Michigan and Superior, although the surface is so much higher, are all, from their vast depths, on a level with the bottom of Ontario. Now, as the discharge through the River Detroit, after allowing for the probable portion carried off by evaporation, does not appear by any means equal to the quantity of water which the three upper lakes receive, it has been conjectured that a subterranean river may run from Lake Superior, by the Huron to Lake Ontario. This conjecture is by no means improbable, and accounts for the singular fact that salmon and herring are caught in all the lakes communicating with the St. Lawrence, but in no others. As the Falls of Niagara must always have existed, it would puzzle the naturalist to say how these fish got into the upper lakes without some such subterranean river; moreover, any periodical obstruction of the river would furnish a not improbable solution of the mysterious flux and reflux of the lakes.

NORTH-WEST EXPEDITION.—A telegram was received on Wednesday from the North-west expeditionary force, dated Old Wives Creek, Aug. 12th, reporting that the force was then encamped there, about 480 miles from Dufferin. The horses were in very poor condition from insufficient pasture, bad water, and hard work, but the health of the men was very good. There had been a fight between some Blackfoot Indians and the buffalo hunters. The Indians had been instigated, so the hunters reported, to make the attack by the American outlaws. The hunters state that the Indians number 500, and that they had been strengthening their fort at Bow River all the spring.

The Inverhuron people have subscribed \$350, and are going to sink the shaft formerly sunk still deeper with the hope of getting salt. It was reported on good authority that copper ore has been found on a lot in Goderham, near the Monk Road, and samples have been sent to Toronto for analysis.
